PUBLICITY ADVOCATES RECEIVE HARD SETBACK

Deputation Seeking to Promote Interests of Westminster Told That No Funds Are Available For Campaign Work—Mayor Trots Out Injunction Bugaboo.

The hopes of those citizens who have been looking forward to the inauguration of a progressive advertising campaign for the city received a blow last night, when, after hearing a deputation representing the board of trade and the citizens' advertising committee, the mayor informed them that owing to the heavy extraordinary expenditures for the year he did not see how it would be possible for the council to grant their request for $1000, one half the amount required to carry on the campaign. In reply the members of the deputation argued that the advertising of the city was most necessary if New Westminster was to compete for a fair share in the prosperity of the country. To do this at all it would be necessary to have at the very least six thousand dollars for the first year, and this appropriation should not take second place to any other consideration. They pointed out that, in any event, it was not just that the present generation of taxpayers should be called upon to stand the brunt of the taxation for the extraordinary expenditures; the amounts should be spread over a term of years thus relieving the burden.

The deputation, consisting of Messrs. W. T. Cooksley, W. J. Kerr, E. E. Martin and A. W. McLeod, appeared before the council in committee of the whole. Mr. Cooksley placed the intentions of the advertising committee before the aldermen briefly, stating that they were asking the council to grant a sum of at least $3000, on condition that the business men of the city subscribe dollar for dollar, making a total of $6000. Of this amount $1000 would be used for the purpose of obtaining 80,000 folders for distribution, the C. P. R. undertaking to do the distributing with practically no cost to the city. It was also proposed to engage a man at a salary of about $1200 to answer all enquiries regarding the city and district. He pointed out that it was desirable to obtain the money from the city revenue in order to reach the absentee property owners, who would otherwise pay nothing for the cost of publicity while receiving the greatest benefit.

The mayor replied that the council had to face extraordinary expenditures of nearly $100,000 and did not think that the council could accede to the request at that meeting. He then shifted the question on to Ald. Jardine, chairman of the finance committee, who promptly replied that the mayor knew as much about the financial condition of the city as he did.

Ald. Gray taxed the committee with not having found out what the council were prepared to do in the matter before bringing a proposition before them. Mr. Cooksley, in answer, stated that they were there to ask what the council would do, their plans being only a suggestion. They had also known that the estimates were before the council and that if they delayed, they would probably meet with the answer that the estimates had been passed and could not be changed.

The mayor thereupon made the statement that he had been informed, by two different business men that if the city attempted to give anything to any advertising scheme, an injunction would be taken out to prevent it. The other members of the delegation spoke on the subject, Mayor Keary remarking as they left the presence that if the council decided to float a loan to cover the other expenditures, they might consider the request favorably.

REDUCING TAXATION

Victoria, Feb. 3.—(Special.)—It is learned on good authority that Finance Minister Tatlow proposes again moving an amendment to the assessment act, which would mean the reduction of personal, realty and income taxes by about one-third.

Government supporters claim that this is made possible by the increased revenue from other sources, and by the additional taxation which is to be imposed on coal mines by doubling the royalty to the government on the output.

GARBAGE BURNER PROPOSED FOR CITY

Medical Man Offers to Build Incenerator at Own Expense---Finances for Fair.

It was after 11 o'clock when the aldermen left the city hall for their homes last night, after hearing several deputations in committee and formally passing a number of resolutions of a routine nature in the council proper, without discussion, mostly referring the questions to committees to discuss behind closed doors and later bring in a report to the council. The only statement of any public interest during the meeting was one made by the mayor that a very eminent medical practitioner who was in the city recently had said that he would be willing to build an incinerator here, in any location the council might desire, at his own expense, charging the city fifty cents a load for all garbage destroyed. "The sewerage question is becoming a serious one," said Mayor Keary, "and something will soon have to be done in this direction." The mayor was asked to arrange a date for the gentleman in question to meet the council and discuss the matter. The incinerator would cost at least $20,000.

Gas Works Approved.

The council passed a motion approving of the establishment of a new gas plant in the city and authorizing the preparation of a by-law granting a right to lay pipes through the city streets, subject to the terms of the city charter and terms to be agreed upon between the company and the council. This matter was among those debated in committee at a special meeting on Thursday night last, of which the press was not notified; consequently the individual opinions of the aldermen on the subject could not be published.

On the recommendation of the chairman of the finance committee a motion was passed authorizing the placing of $10,000 to the credit of the school board to cover current expenses until the passing of the estimates.

Reports.

The water committee reported, with reference to a communication from the carpenters union, that there had been no carpenters working on the shed mentioned. It had been erected by employees of the water department.

The committee had engaged Francis Le Baron, engineer, to report on the water system of the city, paying him $200 for the work.

The finance committee recommended that the city treasurer be authorized to accept $2700 for lot 8, block 36, and that the mayor and clerk execute the conveyance for the same. They recommended the application of McNeill and Bird to purchase lot 35, block A17, lot 757, Lulu island, be refused, on the grounds that the lot had been reserved for the use of the city. The following school accounts were recommended for payment: Beadle and Smith, $2016.40; C. H. Clow, $95; Marshall & Bowell, $3916.70; R. Lennie, $4. The same committee stated that with respect to the request by the Children's Ward society that a cot be furnished by the city for the proposed ward, that while they looked favorably on the request they did not think the time was ripe, but would recommend that their successors in office take the matter into their favorable consideration.

Communications.

The school board estimates for the year, amounting to $72,199, were submitted to the council and on motion referred to the finance commitee for report. The estimates provide for $29,740 for teachers' salaries, $2316 salaries for janitors and secretary, $750 for contingencies, $10,212 for current expenditures, and $29,081 for extraordinary expenses. The latter includes $22,300 for the new Westside school building, $4000 for the school site and $1000 for the surveying and clearing.

Poundkeeper W. H. Patterson wrote that two cows had been impounded during the past month, and that the fees collected amounted to $3.85.

The report of the fire chief was read and filed, stating that four small fires had been attended during January.

H. E. Young, provincial secretary, wrote officially informing the council of the appointments of J. Jaggers and W. Townsend as members of the board of licensing commissioners, and E. J. Fader and T. S. Annandale as members of the board of police commissioners.

White, Shiles & Co. wrote submitting plans of subdivision of portion of lot 3, suburban block 9. The mayor was requested to sign the plans if in accordance with the by-law.

R. Curnew asked for the clearing of part of Seventeenth street on the north side of Seventh avenue. Referred to the board of works for report.

A petition signed by some nineteen persons was received asking for the opening of Hospital street, in suburban block 3, lot 21, Sapperton, and for an extension of the sidewalk. Board of works to report.

The Royal City mills sent a revised list of rates on material to the city, as follows: Rough stringers up to 24 feet, $15 per thousand; 26 to 32 feet, $17; drain covering, $16; sidewalk planks, D 1 S, $15.50. The prices are for lumber delivered less five per cent. The new rate is two dollars per thousand better on sidewalk material than the old rate.

Business in Committee.

In committee of the whole a deputation composed of Messrs. T. J. Trapp, M. Phillips, F. J. Lynch and Sheriff Armstrong requested that the council make an appropriation towards the provincial fair, instead of calling upon the business men of the city to put up the necessary expenditures as in previous years.

Mayor Keary expressed the opinion that it would be impossible for the council to do so this year, although he was in sympathy with the request.

Ald. Jardine, chairman of the finance committee, stated that the extraordinary expenditures asked for the present year were very large, including $5000 for the new market, $25,000 for the reservoir, $27,000 extra for the schools and a large sum for the Lulu island bridge.

Mr. Trapp proposed that the extraordinary expenditures be spread over a term of years, thus relieving the burden on the treasury and making it possible for a grant to be made.

Mr. Armstrong remarked that the petition had been refused last year, and that if it was again turned down it would be very difficult to obtain support next year.

The matter was finally left in the hands of the mayor by the deputation to do the best he could for the petitioners.

A letter was raised in committee regarding the condition of the foundation of the Carnegie library, and a report on the subject was instructed to be brought in at the next meeting.

RED REVOLUTION RAGES IN PORTUGUESE CAPITAL

Fleet of British Cruisers Sails For Scene of Strife—Lisbon Seething With Sedition—Premier Franco Throws Aside Reins of Power --- Strict Censorship of News.

London, Feb. 3.—Despite the strict censorship maintained, Lisbon is known today to be a seething volcano of revolution. There is no doubt that the plan was to kill the entire royal family, and overthrow the monarchy.

A fleet of British cruisers sailed from Gibraltar this morning to assist in restoring order. Spanish ships are also to be sent to Lisbon.

Grave fears are felt for Queen Amelie. Dispatches here indicate that her reason is tottering, and she may die of the shock of the death of her husband and son.

Lisbon, Feb. 3.—Premier Franco has relinquished power, and a committee has been formed with Admiral Ferreria de Amaril as its president in the place of the late Dictator Franco. This step signalized the practical withdrawal of Franco from power. He agreed to this measure as one calculated to pacify public opinion, where only a spark we needed to inflame the whole country, and drag it headlong into revolution. It is believed that Franco will still be the "man of power," but his official acts are at least shorn of real power.

King's Pathetic Speech.

The opening was held today. King Manuel II appeared before his ministers, and with a voice vibrant with emotion, said:

"I am yet without experience either in science or in politics. I place myself entirely in your hands, and believing in your patriotism and wisdom."

The cabinet is made up on coalition element in the hope of reconciling the many disturbing factions. Some of the new ministers have been notably opposed to Franco's iron rule. Not one of the Franco ministers remain, so that his regime disappears with him.

Tracing Out the Plot.

The city is still in the throes of intense excitement, and the authorities continue to follow unceasingly the details of the plot which culminated in the assassination of the king and heir. It is established today that Buico, one of the regicides, is a widower with a daughter aged seven and a son only a few months old. The newspapers say one of the regicides who was killed was a Spaniard, who was taken into custody recently in connection with the discovery of a depot of bombs but was later released. Of the men now under arrest one is an Italian who played in the orchestra of a theatre in Lisbon. This man is in an extreme condition of hysteria. His food in the prison is served him without knives or forks, for fear that he will kill himself.

National Securities Fell.

London, Feb. 3.—The tragedy at Lisbon had a depressing effect upon several national securities, Spanish and Russian shares weakening as well as Portuguese. Portuguese 3 per cents., which were quoted Saturday at 62 slumped this morning to 60.

A telegram received this morning from Lisbon by the London and the Brazilian bank declares the general situation to be tranquil; that everything is quiet and business is progressing.

Warship Despatched.

Madrid, Feb. 3—The despatch of the cruiser to Lisbon is explained by the statement that the warship is to be put at the disposal of the Spanish minister.

Robe Dyed With Blood.

The Lisbon correspondent of the Imperial says that when the Dowager Queen Maria Pia arrived at the arsenal, the doctors were bathing the faces of the king and the crown prince. The queen threw herself upon the body of her son, the king, and the doctors were obliged to remove her by force. When the queen rose her robe was crimsoned with blood. Then she swooned.

Travellers Examined.

All travellers crossing the Portuguese frontier are being subjected to a rigorous examination.

On the evening of the assassinations no bugles were sounded in the barracks of Lisbon for fear that their notes would be taken as a signal that the government had been overthrown.

SHARP FIRING HEARD IN STREETS OF LISBON

Paris, Feb. 3.—A dispatch from Lisbon says the censorship maintained by the Portuguese authorities makes the transmission of news difficult.

Telegrams are mutilated and their transmission retarded. A censored dispatch received here today says that on Saturday evening sharp firing was heard in various quarters of Lisbon.

In explanation of this it is officially declared that armed bands tried to coerce two companies of infantry to join the revolution. The answer of the soldiers, however, was a volley, whereupon the bands retreated.

LUMBERMEN SEEKING MORE PRIVELEGES

Deputation of Fifty Waits Upon Government—University Bill Discussed.

Victoria, Feb. 3.—(Special.)—Owing to the absence of J. H. Hawthornthwaite from Victoria today the resolution which he has prepared providing for the dismissal of the Lieutenant-Governor was not presented before the house. At the request of Premier McBride, the resolution drafted by John Oliver, providing for the forwarding of a request to Ottawa that Dunsmuir be removed, was not presented.

On the second reading of the University bill, Dr. Young, Atlin, made a long speech, clearly outlining the scheme in all its details, and showing the benefits which would accrue to all classes by the passing of the bill. The speaker more particularly dwelt on the advantages which the bill would confer upon those seeking a technical education.

The conclusion of Dr. Young's speech was marked by loud applause from both sides of the House. Some opposition to the bill is certain, this being principally from the socialists. The debate stood adjourned.

A deputation of fifty lumbermen, headed by Dr. Judson Clark, waited on the government requesting the house to renew licenses for a period of ninety-one years, and also seeking a period of renewal and a time allowance within which to pay license fees. Lumbermen from different parts of the province were included in the deputation, which is bringing all possible strength to bear upon the ministers in order to secure the ends they desire.

New York, Feb. 3.—It is stated that arrangements have been made for a boxing match to take place in Reno between George Hackenschmidt and Frank Gotch. The agreement calls for a match for $10,000 a side to take place in New York, Chicago, St. Paul or Kansas City, not later than April 5.

PRINCE RUPERT IS NO PLACE FOR DUDES

Axman Writes of Conditions at Site of Future City—Living on Muskeg.

A letter has been received in this city from one of the axmen sent out to work on the clearing of the townsite at Prince Rupert early in the year, in the course of which the writer deplores the conditions existing at that point at the present time and makes known his intention of leaving the site of the future city at his earliest opportunity. The bunkhouse, according to his statements, consists of a tent 84 feet by 36 feet, pitched on a muskeg situated in a partly sheltered nook. A plank walk, four feet wide, has been laid in the centre of the tent, while each side of this is filled up with brush to a height of about five or six feet. On this brush the axmen are obliged to spread out their blankets and sleep as best they can. During the frosty nights they can hear the ice cracking beneath their beds, the cold being sometimes intense and always uncomfortable owing to the insufficient shelter provided.

Work on the clearing of the townsite is progressing but slowly, a large number of the men hired having decided that employment at Prince Rupert was a greater evil than being out of work in a city, and deciding to return to Vancouver or New Westminster as soon as possible.

Strong complaints are also made in connection with the action of some of the officials and foremen, but in the absence of proof, the News does not care to enter into details concerning this. In conclusion the writer declares that Prince Rupert is a —— of a place.

Ninety-one Miners Killed.

Victoria, Feb. 3.—A colliery disaster is reported from Yubari colliery, Hokaidi, where a gas explosion killed ninety-one miners. A large number who escaped from the mine were severely burned.

COLORADO UNION MEN MAKE WAR ON ORIENTALS

Denver, Colo., Feb. 3.—Several hundred representatives of union labor, in mass meeting yesterday afternoon, formed the "Yellow Peril Exclusion league," designed to prevent further influx of Asiatic coolie labor into the United States. One of the speakers said that thousands of Japanese were coming into the United States through the port of El Paso, representing themselves as prospective students.

A prominent Japanese of San Francisco, he said, was at the head of the enterprise and conducted the business from a clothing agency in the City of Mexico. Another speaker said it was useless to appeal to congress; that "bloodshed alone" would make congress appreciate the situation.

SMALLPOX EPIDEMIC RAGES IN CITY OF KOBE

Victoria, Feb. 3.—The steamship Empress of India brought news that the smallpox epidemic at Kobe is increasing alarmingly, hospitals are overcrowded, stretcher bearers patrol the streets. The new cases exceed 100 daily and since the outbreak at the end of December there have been more than 2000 cases. A special meeting of the Kobe municipal council authorized a special expenditure of $135,000 to defray expenses of an urgent campaign against the disease, and special corps of police, accompanied by doctors, were making house-to-house searches.

A number of old women professing to cure smallpox by incantation and charms have been arrested. The death rate exceeds 3.7 of the city's population.

Second Victim Dies.

Dorothy Israel, the seventeen months old daughter of Mr. and Mrs. J. Israel, of Mount Lehman, who was one of the three children injured in a powder explosion a week ago, died at St. Mary's hospital yesterday afternoon. Her mother was at the bedside when the child passed away. The baby boy, who was also injured, is progressing favorably.

JAPANESE SEALERS ARE WARNED BY GOVERNMENT

Victoria, Feb. 3.—Advices were received by the steamship Empress of India that in consideration of the raiding of foreign territory last year by Japanese sealers, official notification has been issued to the sealers about to leave Japan "to be careful not to trespass in foreign waters."

Notification is given by the Japanese communications department that it has been decided to install wireless telegraphy on the six steamships of the Nippon Yusen Kaisha running to Seattle, which will be ready to exchange communications after April 1.

SUSPECTED THUG HELD AT EVERETT

There is now in jail at Everett a man whom the Vancouver police believed is one of the pair who held up and robbed a number of people here on Saturday evening, January 25. He gives his name as Schlimme, and when arrested had two revolvers.

The pair who terrorized the neighborhood around Westminster avenue two weeks ago got over $300 as a result of their operations. The man arrested at Everett answers almost perfectly the description of one of the thugs.

WINTER CARNIVAL AT ROSSLAND THIS WEEK

Much Interest Centres in Event of the Season for Town in Interior.

Rossland, Feb. 3.—The eleventh annual ice and snow carnival games for the provincial championship of British Columbia in this city this week promises to exceed in point of interest, attendance and keen competition any former carnival of winter sports this city has ever seen in the past eleven years.

Additional incentives in the way of handsome trophies and keen interest because of a larger and more talented field of entries, bids fair to make the ice and snow contests this year worthy of watching by even the most fastidious of critics on Canada's most popular sports.

From the skating races to the hockey games, from the curling bonspiel to the ski-jumping, every field of sport on the carnival program finds many competitors. Teams and individuals have been in training for weeks, and the result is bound to be the breaking of many records.

Interest in Hockey.

As usual, the great interest will centre in the matches for the provincial hockey championship. For this, Rossland, Nelson, Spokane, Coleman and Phoenix have entered teams, with the possibility that Revelstoke, Cranbrook and Grand Forks will also enter. These towns will at least enter in the junior tourney, with Rossland, Nelson and Trail's juniors. Rossland and Nelson are, of course, the favorites for the hockey championship, and the honors of the Kootenays will never have been more hotly contested than when these two old-time rivals cross sticks Friday night in the final match, for it is not at all feared that any of the other teams will be able to stop them in the semi-finals.

Spokane is sending an unusually strong team this year, reinforced by Wurtele, McDonald and McCaugherty, all old Montreal players. The first of these is rated as one of the fastest men on the ice Montreal ever knew. Last year Spokane sent a team for the first time in the history of the carnival and surprised everybody, including themselves, by beating out Revelstoke and Phoenix and putting up an excellent game against Rossland and Nelson. With their strengthened team this year, they may make trouble for the Canadian players, but lack of ice on which to practice has crippled the Americans considerably.

Ski-jumping Contest.

The ski-jumping contest will attract considerable attention this year from the fact that Torgal Noren, who last year leaped over 100 feet repeatedly in practice, has been doing 110 and 112 this year, and is expected to break all former records. Noren also expects to go east to Duluth to enter in the big international championship contests there February 11 and 12.

In the curling bonspiel, rinks from Cranbrook, Nelson, Grand Forks, Spokane, Trail, Rossland, Phoenix, Revelstoke and other British Columbia cities will compete. There are three competitions, the Le Roi, Josie and Centre Star. The rivalry between Walley, of Nelson, and Pretty, of Rossland, will mark this feature of the ice and snow games.

Skating and snowshoe races will vary the program. In addition will be tobogganing on the great Rossland slide, rated as one of the finest in the world, which has been enlarged and improved materially this year. The Rossland slide is 1500 feet long with a drop of 250 feet.

SALOONMEN ARE CHARGED WITH SUNDAY VIOLATIONS

Aberdeen, Feb. 2.—Acting upon the evidence gathered by members of the Good Templars, fifteen warrants were issued from the police court today, charging as many saloon keepers with having violated the Sunday closing laws by keeping the back doors of their places of business open on Sunday.

To Abandon Hop Growing.

North Yakima, Feb. 2.—Probably 1000 acres of land in the Yakima district will be plowed up this season, hops failing to yield a sufficient return per acre ot justify continuing them when fruit, alfalfa or other profitable crops may be raised. No hops will be grown on close in, valuable land.

London, Feb. 1.—George Hollamby Druce has begun a libel suit against the "Daily Cronicle" for the publication of a lenghy review of the case which contains certain reflections on himself.

FOR THE LITTLE ONES.

Blank and Ladder Is a Lively Game to Play Outdoors.

Blank and ladder is similar to the familiar game of hi spy. A boy is selected by the following counting out rhyme:

"In came a little man with a white hat;
If you want a pretty girl, take that;
Take your choice of one, two, three;
If you want a pretty girl, pray take she."

Lad after lad being successively excluded, the last one remaining is "it." The others hide themselves when "it" calls out, "Blank and ladder!"

The searcher may summon the fugitives to indicate their whereabouts.

"Hello if you're far off; whistle if you're nigh."

In Portland, Me., the shout of the concealed party is, "Blank, blank, Cornelia!" and in the western part of the state of New York, "Blancalilo!"

The searcher on discovering one of the hidden players calls, "Hi spy!" and tries to touch the latter before he can reach goal, the rule being that

Elbow and knee
Always go free.

Milk From a Tree.

Of course the milk we drink comes from the dear old moo cow, but down in South America there is a tree with a remarkable sap. It tastes exactly like the best brand of cow's milk. It is very nutritious and never curdles in hot mixtures. It will stay good for a week even in that hot climate and tastes like cow's milk in which there is a little cinnamon. It is thicker than milk, and if left standing for a time an oil cream will arise. If the cream is allowed to dry it has the consistency of wax.

Travelers aver that mixed with tea or cocoa it tastes better than cow's milk. This strange sap runs so freely from the tree that several quarts may be obtained from a single tree in a few hours.

The Game of Den.

Den is an out of doors game. Each boy represents some wild beast and has a separate tree or post which stands for his "den." Any player who leaves his den is liable to be tagged by any one who has started out at a later moment. The best runner usually ventures first, a second pursues him, and so on until possibly all may be out at once. If a player can tag any one whom he has a right to capture, he takes him home to his own den, and the captive must help him take the rest. The pursuer cannot be tagged while bringing home his prisoner.

Conundrums.

What is the best way to keep fish from smelling? Cut their noses off.

Did you ask Mississippi if she would let Delaware Georgia's New Jersey which she bought in New York? No, but Alaska.

What became of the man who stole the calendar? He got twelve months.

With what would you fill a barrel to make it lighter than when it was empty? Holes.

What pins are used in soup? Terrapins.

The Irish Potato.

Many great and good things have had their starting point in Ireland, but the Irish potato is not one of them. So far as we know to the contrary, the potato originated in Chile and Peru and was taken to Europe from Santa Fe, in America, by Sir John Hawkins about the year 1565. The first potatoes in Ireland were those raised on the estates of Sir Walter Raleigh, who introduced the culture shortly before his death in 1618.

Face Washing.

It seems to me the world would be
A very much nicer place
If all of the boys and all of the girls
Would cheerfully wash their face,
Not to mention their hands and necks,
And, oh, little dears, their ears!
Without salting the basin of water
With floods upon floods of tears.
The flowers all bathe every morning

Before we are up—in the dew.
That's why they're so sweet and fragrant
I would like to be sweet. Wouldn't you?
The chickens all preen their feathers,
The pussy cat washes her face,
The little bird sings as she shakes out her wings
And looks for a bathing place.
If I were a dear little girl like you
Or a nice little boy like Billy,
I wouldn't be beat by a pussy cat,
Nor a chick, nor a bird, nor a lily.

CHINAMAN SHOOTS MAN AT CHILLIWACK

Richard Davis, Well Known Young Farmer, Probably Fatally Injured.

Richard Davis, one of the best known farmers of Chilliwack, will in probability die as the result of a wound he suffered Sunday night from a rifle sifted by a Chinaman named On Lee.

Davis, accompanied by a friend named Richard Hall, was going home late in the evening, when the two men heard a rifle shot behind them. This was followed by another, and later a third. By this time the men were running, for the shots were close at hand, and they were frightened. Davis was hit in the back by the first bullet, which pierced his lung. It is not believed that he can recover.

Early yesterday morning On Lee was arrested. He admitted firing the shots. He said that he had been bothered by boys stealing articles from his garden houses, and wished to scare them.

Davis is very highly respected at Chilliwack. Richard Hall is the young man who was at one time supposed to have been drowned near this city last November.

WHITE PASS WILL PUT 500 MEN TO WORK

Vancouver, Feb. 3.—According to A. L. Beedoe, general manager of the White Pass road, who returned yesterday from a six weeks' business trip to eastern cities, five hundred men will be wanted by April 15 on that company's works at Skagway and in the vicinity of Whitehorse in connection with the building of ore bunkers at the former place and the extension of the White Pass & Yukon route through the Whitehorse copper camp. Mr. Beedoe thought that with plenty of labor, the White Pass would be ready to haul ore from Whitehorse camp to tide water by July 31.

Resignation of Dr. Jameson.

Cape Town, Feb. 3.—J. X. Merriman, leader of the Afrikan Bund, has accepted the premiership of Cape Colony in succession to Dr. Jameson, who resigned Saturday because of the defeat of his party in the parliamentary elections.

LIVING IN PARIS.

The Way One Rents an Apartment in the French Capital.

An apartment should be seen on a sunny day before engaging, and it is not legally secured until papers are signed. The lease is on a quarterly basis. Payments are made in advance the 15th of January, April, June and October and occupancy given up to these dates. But when intending to leave the tenant should give his three months' notice before the first day of these months. Failure to do this and neglect of the governmental tribute of a stamped paper hold him to a further three months' liability, as many a rueful American can witness. To avoid this it is merely needful to buy a stamped sheet of paper for 8 cents of the tobacconist, legal vender of all stamps, write the notice thereon and give it to the landlord personally or send it to him by registered letter. The concierge, although he collects the rent and has full charge of the house, is neither authorized to let the apartment nor to receive notices. In the paper signed by tenant and landlord the former guarantees to return the apartment in good condition, and if it is freshly papered, painted and waxed there will doubtless be something to pay on leaving, but care and economy in nail holes make the damages slight. —Circle Magazine.

VENUS OF MILO.

The Famous Ancient Statue in the Louvre at Paris.

The Venus of Milo in the Louvre, Paris, is supposed by some to be the work of Alexandros, one of the Asiatic Greek sculptors. It is said that the base of the statue bearing the artist's name was destroyed for the purpose of causing the king of France to believe that the work was more ancient than it really was.

It was discovered on the island of Milo in 1820 by a peasant. It was in a niche in a wall which had been buried for years. The Marquis of Rivere bought it and gave it as a present to Louis XVIII. of France. It is made from two blocks of marble joined above the drapery which envelops the legs. As it now stands it has two blemishes, which have been repaired by modern artists. The tip of the nose was broken when it was found and also the foot which projects beyond the drapery.

In point of fact, it has a great deal more resemblance to a goddess than to a beautiful woman. At one time it was dressed in clothes of a modern sort, and the effect was anything but pleasing. The figure of the statue is not at all adapted to modern clothes.—New York Tribune.

THE BRIDGE TOLL.

It is understood to be the intention of the Minister of Finance, Hon. Capt. Tatlow, to ask the Legislature to amend the Assessment Act with a view of reducing taxation on certain lines of assessment.

The reason assigned is that the satisfactory state of the finances, and the prospective continuance of prosperity in the Province, permits the guardian of the treasury to be optimistic with regard to future income. There is no "blue ruin" about this view, and it closes with a thud the clap-trap about soup kitchens and free dosses, and goes to show that British Columbia is sharing, and will share the prosperity and confidence throughout the Dominion resultant from the policy of the Laurier administration.

We think it would be a good opportunity for Hon. Mr. Tatlow to remove the small, but vexatious, traffic toll on the Westminster bridge. The surplus of income over the cost of collection would be a small matter compared to the contentment that would possess the farmers and others who are compelled to cross the bridge, and the only obstacle, that of providing an old man's refuge should be easy, and while it would be a pity to disband the group of present beneficiaries, their distribution to other occupations could be easily effected. In any case the resultant benefit to this city and district should be the first consideration and the other weighty problems should find easy solution at the hands of so able a man as Mr. Thomas Gifford, our member, and failing any other outlet, there is yet much to be done on the Dewdney trunk road, of ancient memory and colossal procrastination.

LANSDOWNE'S OPINION.

In the House of Lords last week in debate upon the address in reply to the Speech from the Throne Lord Lansdowne took occasion to express his gratification that 'the difficulty with the United States regarding the Newfoundland fisheries question was going to arbitration, and considered that the settlement of the differences between Canada and Japan was most creditable, not only to the Dominion government, but to the government of our ally, who had exhibited, not for the first time, a self-restraint and sagacity which had elicited the admiration of all who had opportunities of coming into close contact with its diplomatic proceedings.

Such a statement from such a man is worth all the fireworks of a Bowser or the whirlwind of a McBride.

AVOID BROWBEATING.

The Catholic Register protests against the sort of manners which distinguish some of the Oppositionists at Ottawa. It says: 'For example, one of this tribe recently, in a debate on Hon. Mr. Brodeur's travelling expenses, remarked that this Minister 'had never before entering into politics put his knees beneath a fifty-dollar cloth and his hands were never wiped by a two and a half dollar napkin.' And we regret to notice that this irrelevant remark, which ought not to have passed muster within the pale of decent society, was greeted with laughter in the highest legislative Chamber in Canada. The level of our political life is lowered by utterances such as the above. It is the duty of our representatives to scrutinize carefully every item of public expenditure and to condemn in no uncertain terms whatever savors of ministerial extravagance. But this can be done in a gentlemanly manner, and not in the style of a browbeating police court practitioner. Political differences are not justification for scurrility."

Truth is somethin' like the arnica a feller puts on a burn—it stings like blazes, but goes straight to the spot!!

What is going to happen? A Toronto lawyer has refused for the second time to be created a K. C. Wonders will never cease.

Anthracite coal men have decided not to make the usual summer reductions. There is no assurance that they will not make the usual winter advances after sustaining the price all summer. The price of anthracite is "all the traffic will bear."

The congestion in the labor market ought soon to end. Even now, with two more months of winter before us, the contractors for the section of the Grand Trunk Pacific west of Edmonton are asking for 3000 men. It begins to look as if the silver lining to the commercial cloud were beginning to show itself.

British Columbia seems determined to get a snubbing. The introduction of the so-called Natal act is so much mere "playing to the gallery," for the McBride Ministry knows that the legislation is ultra vires and cannot be allowed by the Dominion, even if the province had power to pass it.—Ottawa Free Press.

From Winnipeg comes the news that there is much less poverty in that city than for many years. Even the foreign element appears to be better provided with clothing, food and fuel than they were last year. The weather last winter was much more severe, but that is not an unmixed evil because a volume of work is provided by bad weather conditions which in the present mild season is wanting; so that with the work cut off and less destitution apparently things generally are on a better basis.

The people of the two leading cities of the province were most grossly deceived by the lying statements of Mr. Bowser just on the eve of the day of polling. That individual's political disrepute has been thoroughly established by an independent tribunal, and if the public shall ever be taken in by him again it will be the public's own fault, and it will thoroughly deserve not only what it gets between now and the next general election, but a continuation of a regime which promises to leave nothing of the great natural resources of the province for the people but bare bones.—Victoria Times.

In the Alberta Legislature at Calgary last week Mr. Simmons (Lethbridge) introduced a resolution in the interests of employees as follows: "Resolved that a memorial be presented to the Government setting forth the desirability of certain amendments to the Railway Act of Canada, providing that before prosecution is begun against trainmen or other employees of railroad companies for negligence causing accidents in the operation of trains or otherwise that provision be made for the proper investigation before a competent committee or other competent body with a view to arriving at the cause of the accident.

This will prevent rushing to the courts with the consequent cost to the accused and the country, with cases of a more or less flimsy nature in which there is no possibility of conviction.

WINDSOR SALT—ought to cost more—so pure, fine, well-savoured. Goes further, too. But not a cent dearer.

As the result of an attempt on the part of four Japanese who were being deported on the Canadian-Mexican line steamer Lonsdale to reach Canadian soil early yesterday morning, one was drowned, and three others received a cold bath. In the darkness of the night the four attempted to slide down the head line of the ship into the wharf at the Brunette mills, where the vessel was loading. The rope was loose and the would-be visitors to Canada were doused unceremoniously in the ice cold water. Three were pulled back on board, but one lost his hold of the line and drowned. The ship almost immediately after the accident was on her way to Victoria. The city police during the afternoon dragged the river in the neighborhood of the accident, but failed to locate the body, finding only a bundle, containing Japanese goods.

Tenth avenue east is about to be opened up, the corporation of Burnaby bearing half the cost of the work, this city contributing the remainder.

The first snowstorm of the season visited Westminster yesterday afternoon and evening. Indications are that the streets will be slushy today.

Regina Mill Burns.

Regina, Sask., Feb. 3.—The Regina roller flour mill, owned by T. A. Hunter and C. F. Smith, was totally destroyed by fire last night, despite every effort on the part of the fire brigade. The origin of the fire is a mystery. The mill was an old building, having been erected some twelve or fifteen years ago by Geo. Spring Rice, of Pense, though much of the machinery was comparatively new. The capacity of the plant was 125 barrels per day. The loss is about $25,000 with a total insurance of $13,000.

FERNIE OLD TOWN SCENE OF FIRES

Fernie, Feb. 3.—A serious fire occurred here yesterday afternoon in the old town, where there is a considerable number of Chinese laundries. The Chinese were celebrating their New Year by the firing of firecrackers, when by some means one of the laundries caught fire. The blaze quickly spread, and three buildings were burned to the ground. The old town had a narrow escape from being wiped out.

SPONGES

For years we have been trying to get a line of sponges that we could recommend. At last we have been successful. We have just imported a big lot from headquarters, the best values we ever had. Unlike the average sponge; what we have now, will wear like leather, ranging in price from 5 cents to $4.50 each. Suitable for INFANT, TOILET, BATH, CARRIAGE, AND STABLE. If the sponge is not satisfactory, money refunded.

Wasn't Delicate at All.

A young man not regarded as a very desirable suitor had called upon a young lady a number of times, each time to be told by the maid that "Miss Florence is not well today."

One day in response to his card the young lady's mother, who was a recent accession to the newly rich ranks and whose education was not as sure as it might be, appeared and explained once more to the young man that the daughter was not well.

"I am very sorry, indeed," said the young man as he rose to go, "that your daughter is so delicate."

"Delicate?" sniffed the mother. "Florence delicate? Not at all. Why, she is the most indelicate girl you ever met."

His Scheme Worked All Right.

It is related that a certain man was recently very sad because his wife had gone out of town on a visit, which she would not shorten in spite of his appeals to her to come home. He finally hit upon a plan to induce her to return. He sent her a copy of each of the local papers with one item clipped out, and when she wrote to find out what it was he had clipped out he refused to tell her.

The scheme worked admirably. In less than a week she was home to find out what it was that had been going on that her husband didn't want her to know about.

The Return Address.

It has been found that misdirected letters, with the return address written on the back of the envelope, have been sent to the dead letter office. The ruling of the postoffice department is that clerks cannot be expected to look on both sides of an envelope and that the proper place for the return address is the upper left hand corner of the front of the envelope.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent of the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

LAND REGISTRY ACT.

Northeast half of lot 2, block 25, New Westminster City.

Whereas proof of the loss of certificate of title number 4085A, issued in the name of Emily Moore Dominy, has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, issue a duplicate of the said certificate, unless in the meantime valid objection be made to me in writing.

LINCOLN'S GROCERY.

Result of One Partner's Hunger and the Other Partner's Thirst.

A giant in stature, he was as awkward as he was strong. His rustic appearance was enhanced by an ill fitting suit of homespun. Thus at the head of the ox team he made his debut in the outer world, without means, without education, without influence. This may seem a sorry beginning, but let it be remembered that if on that day he had graduated from Harvard in a fashionable coat the gates of history would probably have been closed against him.

Mr. Lincoln's first business venture resulted in downright failure. He formed a partnership with one Berry, under the firm name of Berry & Lincoln, to carry on a grocery, for the purchase price of which the firm note was given. Berry was a jolly, irresponsible soul, who was born thirsty and who gave his undivided attention to that part of the stock known as "wet groceries." Mr. Lincoln, on the other hand, having a keen appetite, devoted himself to the crackers and cheese, smoked herrings and other edibles at the dry end of the shop. This happy adjustment rivaled the familiar case of Jack Spratt and his congenial spouse, but the meager stock could not long withstand the inroads of hunger at the one end and thirst at the other, and a crisis came which required the sale of the remnant of stock. The purchaser defaulted, and Mr. Lincoln was left to pay all the liabilities—a task which plagued him for several years. Thereby he had impressed upon him a legal proposition that a partner is liable in solido.

It is related that Mr. Lincoln bought a barrel of a customer, in the bottom of which, among other rubbish, was found a copy of "Blackstone's Commentaries." This was a great find for the law student, but as the book thereafter engrossed his attention the grocery business collapsed. Thus ended the first lesson.—J. V. Quarles in Putnam's.

A "Jumbie Bird."

In the West Indies is found a bird called the sunset bird, because half an hour before sunset and half an hour before sunrise it utters its peculiar cry of "Soleil coucher!" The natives call it a "jumbie bird" (a bird possessed of the devil) and say that to kill it would bring death to its slayer. Another bird found in the same region is the "Soufriere bird," which makes its home near the volcano of Soufriere, and among the natives there is a strong belief that the first individual to see this bird will die, while the most horrible torture by evil spirits awaits the man who kills it.—Minneapolis Journal.

Billy Blond—The hero, meaning me, rushed to the rescue?

Bertha Brunett—No; the fence you were trying to scale broke down and—and I woke up.—Houston Post.

Tommy's Discovery.

A little city boy out in the suburbs for the first time remarked as he looked out of the window in the morning and saw numberless dandelions on the lawn:

"Oh, mamma, just look—the grass is all covered with freckles!"—New York Press.

Taken at His Word.

"No," growled the chronic kicker, "I don't see why I can't have as much as my neighbor has. It ain't right."

"Very well," replied a passing microbe, "one of your neighbors has the smallpox. I'll attend to you at once."—Catholic Standard and Times.

The Mohammedan Oath.

Of all the many forms of taking the oath used in the courts perhaps the most picturesque is that which the Mohammedan is required to take. It is a silent ceremony. The son of Islam places his right hand flat upon the Koran and puts the other on his forehead; then he brings his forehead down to and in contact with the book. He then raises himself and looks up steadfastly for some seconds. The officer of the court should then—though he sometimes forgets this—ask the Mohammedan, "Are you bound by the ceremony you have performed to speak the truth?" and the answer is, "I am." In India the ceremony has been abolished in favor of an affirmation.

BOWSER'S BILL IS QUITE HARMLESS

Ottawa Opinion on Value of Natal Act Fathered by Attorney-General.

Ottawa, Feb. 3.—If the Imperial authorities do not make any objections it is not likely that the Dominion government will interfere with the Natal act which is being passed by the British Columbia legislature. The bill in its present shape is said to be perfectly harmless. Under the British North America act, the Dominion has the right to make laws in regard to immigration and in cases where this has been done the province cannot interfere. That being the case the provincial Natal act cannot apply to Chinese or Japanese.

The only thing that it can do is to prevent Hindus from coming in and they have been already shut out by immigration regulations. The order in council making all immigrants come direct, excludes Hindus. It is also recognized that the province cannot enforce the Natal act, as it has no machinery to guard the long boundary line between British Columbia and the United States on the south, or between the province and Alberta on the east. The Hon. W. J. Bowser and the provincial government need have no apprehension as to the allowing of their bill.

VISITOR TO ASHCROFT RELIEVED OF $2000 CASH

Kamloops, Feb. 3.—Roy Bell, of this city, was the victim of a theft at Ashcroft last week by which he is the loser of $2000 in hard cash. He went to Ashcroft on Monday with the intention of purchasing stock from Indians and others in that vicinity and put up for the night at one of the hotels in the town.

When he went to bed he placed his vest, which contained the money, on a chair with his other clothing and locked the door. In the morning he found his vest on the floor, the key of his room also on the floor and the money gone. So far there is no clue to the thieves.

Nelson Real Estate Active.

Nelson, B. C., Feb. 3.—Already there is considerable demand for real estate throughout Nelson district. This applies more particularly to lands adopted to fruit growing. The dealers report numerous inquiries and there have been many sales during the week. An excursion party of thirty homeseekers from Manitoba arrived in Nelson last Saturday, and of that number more than twenty invested in fruit land. J. E. Annable is said to have disposed of nearly 2000 acres to members of the party. The excursionists have left for the coast, but will return within a few days when it is likely others will buy fruit ranches. Another excursion party will leave Winnipeg to reach Nelson on the evening of February 6. They intend to settle in the Nelson district and have the money to pay for good land.

SUNDAY LAW HAS SHUT UP WINNIPEG

Winnipeg, Feb. 3.—There was closed shop at all skating rinks and concert halls in Winnipeg yesterday. The police commissioners instructed the police to visit all places of amusement, all restaurants and cigar stands, to obtain evidence of any violation of the Lord's Day act.

For several Sundays concerts have been given in the Walker theatre, and the skating rinks have been open, but the police yesterday found everything closed. Some evidence was obtained against cigar dealers, but it is not thought any prosecutions will follow the first effort to enforce the law.

IMMIGRATION LAST YEAR INCREASED

Ottawa, Feb. 3.—The total immigration into Canada last year was 277,376, as compared with 215,912 in 1906. Those arriving at ocean ports numbered 220,825, an increase of 61,464. Immigration from the United States totalled 56,551, a decrease of 7231.

Kaid McLean to Be Released.

London, Feb. 3.—The government has received a telegram from the British charge d'affaires at Tangier, Morocco, to the effect that Raisuli, the bandit chief, has promised to bring in Kaid Sir Harry McLean this evening, exactly seven months to a day from the time when he was taken a prisoner by Raisuli.

POPULAR JOURNALIST DIES IN ENGLAND

Newspaper Man Well Known on Pacific Coast Succumbs After Strenuous Task.

T. Lockhart Grahame, a newspaper man well known in this part of the world, died on Saturday at Worthing, Sussex, England, death resulting from heart failure, the fatal attack being accelerated by a severe cold from which he had been suffering for some time.

Mr. Grahame had for some time occupied a position on the Columbian, and while working in this city he was married to Miss Ellard, who, with one child, still survives him. Among other positions which he held during his stay in B. C. were that of editor of the World, editorial writer for the Victoria Times, editor of the Nanaimo Free Press, he being also connected with the Colonist and other papers. He also founded the Ladysmith Leader, which he conducted successfully until the strike in that city. Some three years ago he decided to return to England, joining one of the Harmsworth newspapers, becoming later continental representative of the London Daily Mail.

Commissioned by Lord Northcliffe to secure material for a series of stories intended to prevent the formation of a gigantic soap trust in Great Britain, Mr. Grahame applied himself to the task with such energy that his health broke down. Sent to the Rivera to recuperate at the expense of his newspaper, he was slowly regaining his health when he undertook to take part in a record breaking motor run from Nice to London. The sufferings endured on this nerve racking journey proved too much for his weakened constitution, and a relapse from which he never recovered forced him to abandon journalism and take up less arduous literary work, but his decision was reached too late and he steadily grew worse until Saturday, when he passed away.

The news was cabled on Sunday to F. R. Glover, assistant manager of the B. C. E. R., who is a brother-in-law of the deceased.

BOYCOTTERS HEAVILY MULCTED IN DAMAGES

Washington, Feb. 3.—That section 7 of the anti-trust act, awarding to the complainant three times the amount of damage sustained through a combination in restraint of interstate trade can be invoked to prevent a boycott by organized labor, was held today in a decision by the supreme court of the United States in the case of Lowe & Co., hat manufacturers of Danbury, Conn., vs. Martin Lawlor and 200 other members of the United Hatters' union of that city.

The decision of the court was announced by Chief Justice Fuller and reversed the holding of the United States circuit court of appeals for the second district.

Newfoundland Protests.

St. John's, Nfld., Feb. 3.—The legislature on Saturday by unanimous vote adopted resolutions protesting against the action of the British cabinet in overriding the Newfoundland laws, and arranging a modus vivendi with the United States. All political parties agree on the constitutional aspect of the question, but the vote of the opposition is not regarded as an endorsement of Premier Bond's policy in dealing with the American fishermen on the west coast during the past four years.

Many Bogus Princes in Russia.

St. Petersburg, Feb. 3.—A revision of the College of Heraldry of Georgia, Trans-Caucasia, has resulted in the uncovering of monster forgeries of princely titles. Among 2000 registered hereditary coats of arms, 600 have been found to be bogus.
