ESTHER MITCHELL WILLING TO HANG

Protests That She is Sane and Says it Was Her Duty to Kill Her Brother—Mrs. Creffield Confesses Share iu Crime.

Seattle, July 13.—Esther Mitchell and Mrs. Creffield will be charged jointly by Prosecuting Attorney Mackintosh with murder in the first degree for the killing of George Mitchell. The information will be filed in the superior court tomorrow morning. No trial can be had until fall. If the women demand it they will be given separate trials. Otherwise they will be tried together.

As soon as Esther Mitchell was brought to police headquarters she was taken into Chief Wappenstein's private office. It required only a few words to show the officers that Mrs. Creffield had been the instigator of the crime, and detectives were hurried out to find her. But almost before the men had left the woman herself called up on the telephone.

She said that she had just heard of the killing and that she was wanted. She said that she was at a grocery store at 434 North Broadway and would wait there until an officer came for her.

In the meantime Esther Mitchell made a statement to Chief Wappenstein and to Detective Frank Kennedy. Mr. Miller also talked to the girl. He asked:

"Why did you do this?"

She said: "Because it was my duty."

When detectives were taking Esther Mitchell from the city to the county jail she said: "The reason I killed George was that he killed an innocent man, and ruined my reputation by saying that Creffield had seduced me."

Esther Mitchell knows the penalty the law demands shall be paid by the person who takes the life of another in cold blood . She knows that the law does not take into consideration the promptings of a mind affected by the personal hatred or by a belief of personal justification. She knows that the only possible way in which she can escape the noose is to plead insanity and in face of all this the girl who shot her own brother with as little hesitancy as would accompany any one of a hundred acts of daily routine declares that she would rather hang than plead insanity as an excuse for her crime.

"I am not insane," she replied sharply, in response to a suggestion put by a reporter of the Times, who talked to her as she stood resting her arms on the little ledge which projects from the barred door of the little cell in the county jail in which she is confined. "Before I shot my brother, Mrs. Creffield and I talked it all over. We knew that we would be arrested and that the law would punish us and after my arrest I told the chief of police everything."

"Did you know that by talking you were convicting yourself?" was asked.

"I did not care, I only told the truth. I knew that the law would not consider the reason which makes me belive that I did right and any way I don't see what harm it can do, for I am going to be punished anyway, I suppose."

"Do you think more of the dead man Creffield than you do of your own family?" was asked.

"He was a holy man. My brother was of the world and was defiled. It was right that he should be punished for what he did, and the law set him free."

That was all. As calmly as though discussing some event of most ordinary character this girl had talked of what the future had in store. Question upon question had been asked and answered, and the seriousness of her position had been emphasized as well as the consequences of what she had done. Yet never did person appear more at ease than did she.

"I have no money," she said, "and have no friends to whom I could go if I would, and I would not. If they ask me I will say that I killed George, but will never say that I was insane. I understand that when anyone has no money the court gives them a lawyer, but don't see what is the use so far as I am concerned.

"No, I do not know Judge Upton. The message he sent me was read to me last night, but I never heard of him in my life, and I do not know why he should offer to help me. What can he do? I would not let him tell the jury I am crazy, for I am not, and you say that is the only way I can kep from being hanged."

Reminded that it was by pleading insanity that her brother escaped punishment for killing Creffield and so obtained his liberty, the girl replied:

"Yes, he was set free, but he didn't enjoy his liberty long, did he?"

Asked as to details of her crime and the events leading up to the moment when her hand, warm from contact with that of her brother whom she slew, leveled the revolver by which his life was snuffed out, the girl said:

"What is the use of going over all that? I told everything to the chief of police."

"Have you seen Mrs. Creffield?" she asked, and having been answered in the affirmative, "How is she? Do you think they would let me see her? I would like to. Yes, I volunteered to

SOUNDS AN ALARM

Rev. E. Bosworth Says High Church of England is Contemplating Amalgamation With Church of Rome.

In moving a resolution at the Baptist convention last evening, the Rev. E. Bosworth made a strong statement to the effect that he believed that the High Church of England was seriously meditating the practicability of amalgamating with the Church of Rome, and joining forces with the Roman Catholics. "There is no doubt," he said, "that strong forces are now moving towards Roman Catholicism with a view to strengthening the Church of Rome. I think that the High Church of England is steadily but surely moving towards Catholicism at the present time, and that before many years the combined forces of God's people will have to meet the combined forces af the Church of Rome, and we should be getting ready for this. We can see this by the steps that are being taken at Grand Ligne, in Quebec, in connection with our work there, and I have very great pleasure in moving that this convention shauld place on record its hearty appreciation of the work now being done at Grand Ligne among the French-Canadian people." The resolution was seconded and unanimously carried amid a perfect thunder of applause.

DREYFUS AFFAIR RESULTS IN DUEL

Rough House Follows Vote in the Chamber, and Blow on the Face is Paid for by Sword Thrust in the Lung.

Paris, July 13.—Amid great excitement the chamber considered the bill reinstating Capt. Dreyfus and passed it by a vote of 473 to 42. A tumultuous demonstration greeted the announcement of the vote.

There were two violent incidents as the voting began. M. Durre shouted a taunt directed at the Socialists, whereupon M. Lasies, anti-semite, rushed at his colleague and attempted to strike him, but several deputies intervened. At the same time M. Flandan, republican, and Mr. Ghesquiere were separated after an effort to exchange blows.

President Brasson, in announcing the vote, said: "It is with pride that I register this vote, consecrating the triumph of virtue."

A fight occurred in the centre of the chamber as M. Pressenz, Socialist, demanded that the government prosecute the guilty officers.

M. Pugliesi-Conti, republican, shouted: "The government officers are scoundrels."

M. Sarraut, radical socialist, then sprung forward and struck M. Pugliesi-Conti a stunning blow in the face. A scene of tremendous confusion followed, during which the aisles were invaded by struggling deputies.

President Brasson then suspended the session and ordered the chamber to be closed and cleared, which measurably subdued the tumult.

The restoration of Col. Picquart was passed by 477 to 27.

Bloody Duel Follows.

The scene of tumult which marked the enactment today of the law restoring Dreyfus to the army was followed by a bloody duel tonight, in which Under Secretary of State Sarraut was dangerously wounded by the sword of M. Pugliesi-Conti. The duel assumed the aspect of a veritable combat between the government and the opposition, as Mr. Starraut's seconds were Ministers Clemenceau and Thomson, while Mr. Pugliesi-Conti's seconds were M. Millevoye and General Jacques, who were drawn from the elements which bitterly resisted Dreyfus' rehabilitation.

It was near the close of the session that the duel occurred.

Later reports show that M. Starraut is suffering from a deep wound in the breast, penetrating the lungs. While the wound is considered serious, it is not necessarily dangerous.

Revolutionists Scatter the Guatemalan Army

Mexico, July 13.—Today's advices and lend other gunboats to aid the from Salvador confirm the news of revolutionists, which they insist will the battle of Elcarigo and the killing result in the speedy downfall of of a number of Salvadorean troops under General Rigaldo, but announces a victory gained by General Toledo of the insurgent forces on the same day at a point further north, where the Guatemalan army was routed with heavy loss.

In an interview General Barcalas, the Guatemalan insurgent, laments the loss of General Rigalado, but says there will be no change in the programme of the revolutionists.

General Toledo is now at the head of the revolutionists in the field and is receiving heavy accessions daily.

The revolutionists claim they will be in Guatemala City within a fortnight. Gen. Toledo now has artillery.

The revolutionists now claim that Nicaragua will take part in the war President Cabrera of Guatemala.

Washington, July 13.—During the day a cablegram was received at the state department from Mr. Brown, secretary of the American legation at Guatemala City, reporting continued fighting near where Rigaldo was killed. Minister Merry, as San Salvador, cabled today that Salvador was willing to close hostilities, but complained against the aggressive attitude of Guatemala.

Martial Law Declared.

Panama, July 13.—Private advices received here from Guatemala report that martial law has been declared throughout the whole of that republic and that all male persons above 21 years have been called to arms.

WAITS FOR MOTHER TO GIVE HIM MONEY

Harry Thaw, Murderer of Stanford White, Is Up Against It Financially.

New York, July 13.—Harry K. Thaw, in the Tombs for the murder of Stanford White, is reported to be without funds, and it is stated that the elaborate plans which have been made for his defence cannot be put into execution until the prisoner's mother arrives from Europe and approves the necessary expenditure.

Harry Thaw's income under his father's will is $2,500 a year, and all that he has spent above this amount has come from his mother's purse. It is said Mrs. Thaw has allowed her son as high as $80,000 a year, none of which he has available now in the hour of his need.

What money the young man has had since he has been in jail has been supplied by his counsel pending the arrival of Mrs. Thaw. It is reported that his counsel has abandoned the insanity plea.

Fire Rages Fiercely.

Cleveland, O., July 13.—A bulletin from Conneaut Lake, Pa., says a great fire is raging there and the town is in danger of total destruction.

MISS CUSHING SUES MANAGER OF A BANK

Wants $30,000 From K. M. Christie of Penticton for Breach of Promise.

Montreal, July 13.—Miss Emma Cushing has instituted an action for breach of promise of marriage against K. M. Christie, former manager of the Canadian Bank of Commerce, near here, but now stationed at the branch in Penticton, B. C.

Miss Cushing claims in an itemized account damages to the extent of $30,000. She applied for a writ of attachment on moneys held by Mr. Christie. This was refused, the judge holding that there was no ground for the claim that Mr. Christie had left the province for the purpose of defrauding his creditors.

One claim in particular among the items in the account for damages is $15,000 for loss of support for an estimated lifetime of twenty-five years, $200 for presents, $10,000 for medical attendance as the direct result of his refusal to marry her and $5,000 for lacerated feelings.

Boy Drowned.

Toronto, July 13.—Richard Booth, 10 years old, was drowned while bathing in Lagoon Island park yesterday.

GOSNELL WILL BOSS VICTORIA COLONIST

Well Known Newspaper Passes Into New Hands—No Change of Politics.

Victoria, July 13.—The Colonist tomorrow will say: Yesterday negotiations which had been in progress for some days in reference to the controlling interest in the Colonist Printing and Publishing Company held by J. A. Lindsay, C. E. Pooley and A. G. Sargison, who retire from the directorate, were concluded. J. S. H. Matson will be managing director and R. E. Gosnell editor, general manager and assistant managing director. The Colonist will continue as formerly to support the Liberal-Conservative cause.

WALLS OF VATICAN FALLING TO PIECES

Pope's Apartment Is Considered to Be Unsafe and He Is Moving Out.

Rome, July 13.—It has long been known that some parts of the Vatican are unsafe, but it has just been discovered that the palace is practically falling to pieces. Even the corner where the Pope's apartment is situated needs strengthening, and the pontiff is moving out.

The walls, which are cracked, bulging and leaning outward, will be temporarily strengthened immediately. To make the whole building safe will require more than $100,000.

Ontario Gets Money.

Toronto, July 13.—Almost one-half of the new provincial loan of three million dollars has been subscribed.

CANADIANS AGAIN WIN KOLAPORE CUP

Capture the Most Important Team Prize Open to the Empire and Wipe Out Defeat Suffered in Shoot for the McKinnon Cup.

Bisley Camp, July 13.—The Canadian marksmen repeated their success of last year in carrying off the coveted Kolapore cup.

Canada's scores were 729; the mother country came second, nine points behind, with India third at 705.

This makes Canada's third win, Canadians having been successful in 1896 as well as in 1905.

Not only have the Canadian eight had the glory of capturing the most important team prize open to the empire, but they have thereby the more material glory of annexing the "colonial prize," presented by the National Rifle Association to the team exclusive of the mother country which makes the highest aggregate. The colonial prize is worth about $400.

As opposed to the conditions governing the MacKinnon cup, which Canada lost yesterday, the British Isles are represented by one combined team instead of one each for England, Scotland and Ireland. The defeat of yesterday has consequently been lost in the victory of today.

The scoring was lighter than last year, when Canada won with 758, but better than 1903, when 719 gave Australia the honor.

Brothier Committed.

Vancouver, July 13.—Desire Brothier was today committed for trial at the assizes on a charge of forgery.

Warsaw, July 13.—An attempt was made today to assassinate Gen. Schoweisky, a member of the military tribunal. The general escaped without harm, but his wife was wounded by two bullets.

Insurrection Spreads, Many Killed in Battle

London, July 13.—The Leader's correspondent at Lisbon says that acording to intelligence received here the insurrection in Matto Grosso, Brazil, is swelling to huge proportions.

The insurgents, it is reported, have organized a large army and are marching on Rio Janiero, and already have captured several cities.

Gen. Ribero with 40,000 federal troops has been sent against the revolutionists. Fearful carnage is reported, and the killed are said to be already more than 4,000.

BUNTZEN FAVORS CHILLIWACK LINE

Says it Will Cost One Million Dollars and Will Not Pay for Some Time, But he is Prepared to Recommend the Scheme.

The meeting of the reeves of the municipalities interested in the proposed tramway extension scheme with Mr. Buntzen yesterday afternoon was of a private nature, the representatives of the press being asked to retire when they arrived at the meeting. From information given out later, it appears that the different extensions were discussed, and that the Chilliwack extension scheme met with Mr. Buntzen's favor. The building of the line will cost over a million dollars, and will have to be operated at a loss for some time, but Mr. Buntzen stated that he was prepared to report favorably on the scheme to his fellow directors in London. He said that he was entirely in favor of it, and that preliminary surveys would be taken immediately, and that the construction of the road would be proceeded with at the earliest possible time.

There were present at the meeting Mayor Keary, representing the city of New Westminster; D. S. Curtis and A. E. White, representing the board of trade; Reeve Kickbush, of Chilliwack; Reeve McDonald, of Langley; Reeve Bose, of Surrey, and Messrs. Buntzen and McQuarrie, representing the British Columbia Electric Railway Company. The reeves of Matsqui and Sumas were not present, but sent word that their municipalities were entirely in favor of the construction of the tramway through their districts. While pointing out the advantages of having a tramway through Chilliwack, Reeve Kickbush stated that the population of that town and municipality was now over five thousand.

TICKETS IN DEMAND FOR CITIZENS' PICNIC

Committee Suggests Entertainment for Those Who Will Have to Stay at Home.

There was another full meeting last night of the indefatigable citizens' picnic committee, and they had worked to such purpose that they were able to congratulate themselves in anticipation for the success of the outing on the 18th inst. is assured.

The various reports presented showed all the details were well in hand and that there are very few tickets remaining unsold.

The committee will meet again for a short final session on Tuesday evening next. Before adjourning the secretary precipitated a short discussion by suggesting that the committee might well afford to aid a movement to provide some sort of entertainment for the hundreds who, on the civic holiday, will be unable to go on the excursion to Nanaimo. He suggested a "picnic on wheels," and by utilizing all available vehicles visit Herbert Gilley's logging camp, which has the reputation of being the best equipped camp in British Columbia. Mr. Gilley had generously volunteered to assist in feeding the multitudes, and the return drive to the city could be via the Johnston and Hastings road. As an attraction an afternoon excursion to Pitt lake might easily be arranged on one of the river steamers. The meeting agreed that something would be all right and promised "moral support." Chief Watson, who is chairman, will be unable to leave the city on that day, but he said he would willingly meet with any who desired, on Monday night, and discuss the matter.

The Session Is Over.

Parliament was prorogued yesterday by his excellency the governor general. The usual ceremonies were duly observed. There is nothing of special interest in the speech. The Sunday bill, the act relating to immigrants and the forest reserves act are referred to and as to the latter a hope is expressed that provinces having jurisdiction over their public domains will do what is necessary to carry out the work proposed. There is loyal reference to the hope of a visit from His Majesty the King, and it is announced that the treaty between Japan and Canada has been ratified.

C. P. R. Extensions.

Macleod, Alta., July 13.—The C. P. R. tracklaying gang completed the road into town today. After the necessary ballasting is done and the road is put in running shape passenger trains will give the old station the gy-by and deposit passengers in town.

The C. P. R. has in contemplation considerable work. So far this summer material has arrived for the new roundhouse and other buildings. A new telegraph line following the new extension into the town will also be started soon, and numerous sidetracks for accommodation of increased traffic put in here.

Peace in Coal Fields.

Harrisburg, Pa., July 13.—The operators and miners of the Central Pennsylvania bituminous coal fields have reached an agreement with but a slight change in the scale: The agrement provides for open shop arbitration and an advance of 5.55 per cent. on the scale paid prior to 1906.

J. S. EMERSON MAY SUE SKINNER AND GREEN

Says He Will Lose Money Owing to Drop in the Price of Cedar.

The appeal in the action of Emerson vs. Skinner having gone against the defendant appellant, J. S. Emerson is now making arrangements to export between 10,000,000 and 12,000,000 feet of cedar logs, which he had stored in the north awaiting the decision of the full court. All this timber was cut under hand loggers' license prior to the passing of the timber manufacture act last March by the provincial legislature.

Through the sale of this timber on Puget sound now at a price less than it would have brought last March there may arise an action for damages against R. J. Skinner, timber inspector, and Hon. R. F. Green, chief commissioner of lands and works, both of whom Mr. Emerson declares he holds responsible for the tying up of the timber.

"I expect that Messrs. Skinner and Green will have to pay me the difference between the present price of cedar and what the logs would have brought had I not been prevented by them from exporting several months ago," said Mr. Emerson. "Cedar has dropped in price on the other side of the line owing to the strike of shingle weavers and for other reasons. Naturally enough, if I have to sell my logs at a reduced price now I expect some compensation from those who prevented me from selling last March."

MAPLE RIDGE SCHOOL NOTES.

A regular meeting of the school board was held Saturday, July 7. Trustees Laity, Marrison and Blake were present. The following communications were received

Requesting leave to use the Haney schoolhouse for divine service. Leave granted.

A petition and other communications against the amalgamation of the Stave river and Whonnock schools. Filed, and secretary instructed to urge necessity for new site and building for Whonnock school.

Resignations were received and accepted as follows: Paul Murray, Maple Ridge; T. R. Mills, Haney; Miss Webb, Stave river, and Miss E. Best, Lillooet. The secretary was instructed to advertise in three Vancouver papers; all applications on file to be laid over for two weeks.

Notice was ordered to be posted, forbidding trespass on school grounds before and after school hours and during vacation; trespassers to be prosecuted.

Adjourned, to meet July 21.

Tent Meetings.

Held by the Church of Christ on Moody Park. Meetings each night during the week except Saturday, at 8 p. m. and Sunday at 11 a. m. and 7 p. m. A cordial invitation is given to all to come and investigate the scriptures with us. Preaching by L. J. Keffer. *

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

COAL—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if ocated within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

PLACER MINING—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and subfor first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, aand if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the ject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds $10.000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile Yukon Territory to be paid to the comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been abandoned, anad open to occupation and entry by a free miner.

Berths on their sleepers are longer, higher and wider than in similar cars on any other line. They protect their trains by the Block System.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropiated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of $3 an acre, subject to royalty at such rate as may be specified by Order in Council.

FRIDAY'S MARKET REPORT

Yesterday's market was rather quiet owing to the continued hot weather, and all the business was done in the early morning. There was a marked decline in the volume of business done in meats, people generally buying in small quantities.

Beef was in fairly good demand, and was all sold at quotations. Lamb and mutton were in good demand, with a fair supply. There was a marked decline in the quantity of veal purchased, though there was a fair supply on hand. Pork was, as usual, very scarce, and the demand was very limited.

In the dairy section eggs were present in fair supply, with a good demand. A large quantity were purchased at the wholesale price of 27½ cents. There was a good supply of butter, and the demand was about the same as usual.

There was a fair demand for fowl, with a good supply on hand. Broilers were eagerly sought after, well grown birds especially being quickly disposed of. There was a sufficient supply on the market to meet the demand. Ducks were also quickly bought up, the demand for well grown birds being general.

Among the fruits there was a strong demand for cherries, black currants and gooseberries. Some very fine fruit was noticed on the stalls yesterday morning, and the city folk were not long in showing their appreciation of it.

Yesterday's Market Prices.

Beef, hind quarters, per lb., 7½c to 8½c.
Beef, fore quarters, per lb., 4c to 5c.
Lamb, per lb., 11c to 12c.
Mutton, per lb., 10c.
Pork, per lb., 9c.
Veal, per lb., 8½c to 9½c.
Potatoes, per lb., 1 to 1¼c.
Hay, per ton, $10.
Eggs, per doz., 30c.
Butter, per lb., 25c.
Fowl., per doz., $6.50 to $7.50.
Broilers, per doz., $3 to $4.50.
Ducks, per doz., $5.50 to $6.50.
Gooseberries, per lb., 6c.
Raspberries, per crate, $1.50 to $1.75.
Red currants, per lb., 9c to 10c.
Black currants, per lb., 8c to 9c.

BRADSTREET'S WEEKLY REVIEW.

New York, July 13.—Bradstreet's tomorrow will say: Canadian trade is relatively most active in the newer provinces, where good grain prospects, large immigration and active building are features. In the eastern provinces the features are the heavy export demand for dairy products and the gain in orders for fall drygoods and hardware over a year ago.

Manitoba advices are that the wheat crop is heading well, and a large crop is looked for. Butter and cheese exports at Montreal are large. Canadian canned meats are reported supplanting many lines of United States goods at Toronto, which also reports cheese stocks light and holdings scarce and high. There is a fair export demand for flour at Winnipeg.

Trade is active in all lines in British Columbia, where new salmon prices are expected to be higher.

Failures for the week number 19, as against 18 last week and 20 in this week a year ago.

The following are the weekly bank clearings:

Montreal, $33,561,868; increase, 25 8.
Toronto, $25,157,209; increase, 17.5.
Winnipeg, $10,720,848; increase, 48.0.
Ottawa, $2,844,741; increase, 12.5.
Halifax, $2,014,755; increase, 5.2.
Vancouver, $3,594,217; increase, 15.6.
Quebec, $20,071,855; increase, 18.0.
Hamilton, $1,683,272; increase, 4.9.
St. John, $1,461,936; increase, 25.9.
London, Ont., $1,437,443; increase, 12.2.
Victoria, $563,972; increase, 6.3.
Calgary, $1,041,668.

ABOUT THAT ELECTION.

It appears that there is one place in British Columbia where the people are quite satisfied that an election is at hand. So we gather from the following paragraph clipped from our Nelson namesake:

"Kaslo electors are certain now that an election is near at hand. The Kootenaian has been purchased on behalf of supporters of the McBride government and a good price was paid for the property, indicating anxiety on the part of Conservatives to secure control of it. Conservatives are certainly great believers in printers' ink. Here and there throughout the province in the past few months agents of the McBride government have been purchasing newspaper plants or establishing new ones. There may be nothing more in this than the desire to spread the doctrines of Toryism and to offset the teachings of the Socialists, but such activity is calculated to raise the suspicion in the minds, even of the most credulous, that an appeal to the country is near at hand. Where does the money come from? Why, from the pockets of the Conservatives who have been made rich by the progressive policy of the McBride government, to be sure!"

An exchange summarizes in this way the latest departure in the matter of making things handy and comfortable in the home: "At Schenectady, New York, the headquarters of the General Electric Company, Mr. H. W. Hillman, apart from heating in winter, has adopted electricity for every imaginable household service, with results described and pictured in the Technical World for July. His kitchen outfit for a family of five persons comprises an electric table, oven, griddle-cake cooker, meat broiler, cereal cooker, water heater, egg boiler, potato steamer, frying pan, coffee percolator, and a stove for ordinary cooking utensils. A three-pound nickel-plated electric ironer is provided for the laundry. In the dining room is an electric chafing dish and a percolator. On the verandah and in the den are electric cigar lighters. In the sewing room the machine is driven by an electric motor. The bathroom has its electric mug which heats water for a shave in less than one minute; in chilly weather the luminous radiator yields just the slight heat which ensures comfort instead of discomfort. Of course, throughout the house electric lamps furnish light with the maximum of convenience and wholesomeness, and the minimum of risk. And how does this service compare in cost with the employment of coal and gas? With coal at $6.50 a ton and gas at $1.30 per thousand feet, the average monthly expenses was formerly $6.00; with electricity the bills are but 69 cents more per month."

The Victoria Times of Thursday says that the new steel steamer Petrel was to have her trial run that afternoon, and if found satisfactory was to be at once handed over to the Public Works agency here "for the purpose of towing the new snag boat." This is an error. The snag boat does not need towing, having speed enough under her own steam. The new boat will have her headquarters at Victoria, and will be used as a tender to the "dipper" dredges operated by the department.

Capt. Peele tells us that yesterday was the hottest day in thes parts since white men came to New Westminster. The captain has kept tab on meteorological matters for many years and has the whole subject at his finger ends, so that we feel safe in repeating any assertion about weather for which he vouches. It appears that only in every tenth year and always in a year the last figure in the designation of which is 6, has the mercury climbed over 90. Yesterday it touched 95, which is a "record," as the sporting editor would say. But it was a glorious day for all that, bright and clear, with a dry atmosphere and a fresh, steady breeze. When it does get really hot in New Westminster, one does not "feel the heat" which in that respect resembles the Winnipeg cold snaps.

It cannot be said that the session of the Dominion House, which has just been closed, was a very fruitful one. It was intended to be a very short one, a sort of pro forma affair for the transaction of the necessary routine business, as the House is to meet again in November, and the current financial "year" is to be nine months only. The discussion on the Sunday bill, and the attempts of the opposition to find something upon which they could found a charge of maladministration, have prolonged the session but have not added to its usefulness.

Correspondents should remember that the linotype machine has its limitations. The ordinary machine used in newspaper offices does not have either italics or small capital letters, so that matter must be set in "straight roman."

Crops Look Fine.

Macleod, Alta., July 13.—Wheat never looked better than it does now. The fall wheat in many sections will be ready soon for the binder. If the weather keeps good, in from eight to twelve days spring wheat will be in full head, has a length of from two to three feet in many instances, and certain fields will be ready to cut in three weeks' time. Barley is also looking good, most of it being well headed out. In parts, owing to lack of growth in the early spring, considerable damage was done to the grain by the cut worm, but no other damage has been reported. What is wanted now is plenty of warm weather to hasten the growth. Fields of fall wheat that looked discouraging early in the spring, but which were left undisturbed, are now looking fine and will yield from twenty-five to thirty bushels to the acre. Considerable land was broken up last season and planted in wheat.

Deutschland Bumps.

Dover, Eng., July 13.—The Hamburg-American line steamer Deutschland, which left Hamburg yesterday for New York, while leaving Dover this morning collided with the Prince of Wales pier and twisted her stem.

The steamer immediately anchored off the admiralty pier to investigate the extent of the damage she had sustained, and it was found to be so great that she was unable to proceed and must be docked for repairs.

The Deutschland was split from her bow rails to her keel, but her watertight compartments prevented her taking much water.

Money for Temperance.

London, July 13.—The will of John Crowle, a well known merchant of London, gives $1,250,000 for the promotion of temperance in England, under the direction of the Wesleyan Methodist conference, conditioned on the church raising a like sum within five years.

Succeeds Loudon.

Toronto, July 13.—Prof. Maurice Hutton, president of the University college, was this morning appointed acting president of the Toronto university, to fill the vacancy caused by the resignation of President Loudon.

Napanee, Ont., July 13.—Dora Morden, 14 years old, was killed on the railway track here yesterday. She was riding a bicycle and waited for a ballast train to pass the crossing, but did not notice the light of the engine of the other track.

Considerable alterations are being made in the Depot hotel at the present time, the bar being enlarged and a new counter put in. To make room for the alterations the large safe that has stood in the corner of the bar for so many years has been moved and placed in the office at the rear of the sitting room. It required the combined strength of eight men to move the money box, while a score more assisted with valuable advice which they tendered gratis. A cellar is being dug under the barroom for the storage of beer.

Robert Carrick, a fisherman, was charged at a special meeting of the police court yesterday afternoon with having stolen a mast belonging to Sam Johnson one of the employees of Schaake's machine shop. Acting upon information received, the chief of police and Detective Bradshaw took a trip across the river yesterday morning and found Carrick in possession of the mast, which he had fitted to his boat as a bowsprit. He claimed that he had found the mast floating about in the river and picked it up. He was committed for trial before a higher court.

REPLY TO FATHER LARDOU.

New Westminster, July 13, 1906.

Editor Daily News:

Sir—In your issue of the 12th inst., Parish Priest Lardou makes a protest against statements reported to have been made by myself in the course of an address delivered on the 11th at the British Columbia Baptist convention. Your report does not profess to be a verbatim one, and your reporter has read into my address some things that were not said and that were not thought of by me. It is not, however, these things to which Father Lardou objects. His protest is against two statements: First, he says: "We do not want to rule people in any part of the world, no more in Quebec than in British Columbia, and our Catholics are not disposed to be ruled improperly." The first part of this statement is absolutely true, because the Roman Catholic church claims the right to rule every individual life and every nation under the sun, as witness the following from a sermon by the late Cardinal Manning, in which he puts the following into the mouth of the Pope: "I acknowledge no civil power, I am the subject of no prince, and I claim more than this; I claim to be the supreme judge and director of the conscience of men, of the peasant that tills the field and of the prince that sits upon the throne; of the household that lives in the shade of privacy and the legislator that makes laws for kingdoms. I am the sole, last, supreme judge of what is right and what is wrong. Moreover we declare, affirm, define and pronounce it to be necessary to salvation for every human creature to be a subject of the Roman pontiff."

From the cardinal we go to the papal encyclical. In Enc. XXVII. we read: "The Romish church ought to have dominion over the temporal affairs." In Enc. XLII.: "In case of conflict between the ecclesiastical and civil powers, the ecclesiastical ought to prevail." Bishop Gilmour says: "Nationalities must be subordinate to religion, and we must learn that we are Catholics first and citizens next."

Cardinal Manning again: "The right of deposing kings is inherent in the supreme sovereignty which the popes as vicegerents of Christ exercise over all Christian nations.

From these quotations it will be seen that the Romish church claims the right to rule every nation, British Columbia as well as Quebec. If Priest Lardou disagrees with these deliverances of papal decrees and the utterances of the dignitaries of his church, we are glad.

The whole matter turns upon the interpretation of Father Lardou's "ruled improperly." Doubtless he believes, as a true son of the church, that no individual or nation is ruled properly unless controlled by that church, which really means by its priests.

Here are a few statements read by myself at that meeting from a booklet now being circulated largely in Quebec, bearing the following imprinatur: "Ottawa, 25 Martii, 1897. X. J. Thomas, Arch. d'Ottawa." On page 21 are these words: "Q. What is the priest? A man who holds the place of God, a man clothed with all the power of God." . . . "When the priest forgives our sins, he does not say God forgives you; he says I absolve thee." On page 25: "Next to God Himself, the priest is everything." On page 24: "The priest has the key to God's treasures; it is he who opens the door; he is God's steward, the administrator of His treasures and His goods." This is the kind of power exercised by the priest in his rule of Quebec and of everywhere else where men put him "in the place of God."

Secondly, he objects to an "insinuation" that Catholics worship Mary. I shall merely quote the portions of another booklet also largely circulated and bearing the imprinatur of Paul, Arch. of Montreal. It is entitled "The great promises and the scapular of the sacred heart." After teling of the apparation of Mary to Estelle in the south of France in 1876, in which she enjoined her to make known "this devotion" we read on page 42: "What new glory is this that remains to be proclaimed? This new glory of which a St. Thomas and a St. Francis of Assisium had a glance. Mary herself reveals to her happy beholder, "I am Mistress of my Son.' Behold therefore what has not yet been published. Mary has been honored as the Immaculate Virgin, as the Mother of God, as the Queen of Angels and of Men. She has all these titles, but there is one which surpasses all others. She is mistress of the heart of her Son. The heart is the centre of all good, and Mary declares herself 'mistress' of it. This heart is docile in her hands. Mary becomes mistress of God Himself. O prodigy confounding wisdom and reversing the natural order! Here the creature commands and the Creator obeys. Therefore the glory of Mary to be proclaimed, her incomparable glory, is that she is 'Mistress of the Son of God' and of God Himself. In heaven she reigns as queen."

These are not my words, but the utterances of the teachers of Father Lardou's own church, and I submit that they dethrone God and put Mary in His place.

Thanking you for your kindness in giving space to this reply,

E. BOSWORTH,
Field Sec. Grande Ligne Mission.

Causes of Shipwreck.

"As a representative of one of the insurance underwriters I have taken part in the investigations of more than 400 shipwrecks," said a former sea captain. "The causes of wrecks are drink, fogs, neglect to use the sounding lead and unknown currents.

"The most dangerous waters are off the east coast of England, Cape Ushant and Cape Finistere. In the past the shifting of the cargo caused a good many wrecks, but the adoption of feed pipes has changed all that. Cargoes liable to shift consist of wheat, iron ore, coal and so on. Great feed pipes filled with part of such cargoes now run down into the hold, and if the cargo shifts at all the pipes automatically pour more cargo into the space that has been made vacant.

"Off a wild part of the South American coast a four master loaded with high heeled French shoes was once wrecked. The native Indians stole the shoes, but couldn't wear them. They used them instead for boxing gloves, giving each other terrific taps with the French heels."

Beats Horse Show Driving.

A western man was telling some stories of daring driving, some realistic and some hyperbolic. "There is a story," he said, "of One Eyed Pete McCoy. If this story is true, the four-in-hand drivers of the east are only practicing a decayed and degenerate form of coaching. One Eyed Pete drove a Dakota stagecoach that made a circuit of Deadwood, Carbonate, Spearfish and Bear Gulch. He tore into Carbonate one day on his usual dead run. Like an avalanche, the coach clattered up to the hotel door. There suddenly it stopped, and one of the horses fell stone dead.

"'A very sudden death,' said a bystander.

"'Sudden? Not at all,' said One Eyed Pete. 'That there hoss died at the top of the hill, nine mile back, sir, but I wa'n't goin' to let him down till I got to the reg'lar stoppin' place.'"

The Chinchilla.

Chinchilla is a beautiful soft gray fur. It is not the most durable of furs, and, because of the difficulty of getting the perfect skin, it cannot be said to be among the least expensive. A muff and stole of the real chinchilla cost easily $1,000 or so. The tiny chinchilla itself, not more than twelve inches long, with a plump little body on short, stout legs, thrives only in the tropics. The little beasts have to be killed with the utmost precaution not to injure their fur, that grows on a skin nearly as tender and soft as a web of silk. A perfect skin not larger than a small pocket handkerchief is a revelation in fur growth. The texture of every hair is finer than floss silk, the length of it nearly an inch and the coloring about that of the soft, undyed marabou feathers.—Philadelphia Bulletin.

Salt Water Falls.

There are a good many salt cataracts in existence. They may be found in Norway, southern Chile and British Columbia, where narrow fiords, or arms of the sea, are obstructed by barriers of rock. The rising tide flows over and filters through such reefs into the great natural reservoirs beyond, but the water is held back at the ebb until it breaks over the obstruction in an irresistible torrent. Most curious of all is the waterfall at Canoe passage, where the island of Vancouver approaches the British Columbia mainland. Here the flood tide from the gulf of Georgia, to the southward, is dammed back at a narrow cleft between two islands until it pours over in a boiling cascade eighteen feet high, with perhaps double the volume of the Rhine. At the turn of the tide, however, the waters from the north rush back into the gulf, producing a cascade of equal height and volume. This salt water fall actually flows both ways.

Sensible.

That was both a kind and a wise man who, when about to marry for the second time, settled $10,000 upon his unmarried daughter. "I should like to have her go on living at home," he said, "but who can tell whether she and her stepmother will be harmonious and quite happy together? She shall feel that she is free to go or stay." The consequence was mutally happy relations, since both women knew there was no dependence or necessity for them to live in closer relations that might prove agreeable.

The Dominant Air.

As through an opera runs the rhythm of one dominant air, so through men's lives there rings a dominant note, soft in youth, strong in manhood and soft again in old age. But it is always there, and, whether soft in the gentler periods or strong amid the noise of the perihelion, it dominates always and gives its tone to the whole life.

His Happiest Hour.

He—Do you remember the night I asked you to marry me? She—Yes, dear. He—For a whole hour we sat there and not a word did you speak. Ah, that was the happiest hour of my life!—Translated For Tales From Echo de Paris.

Pain Through Ignorance.

All our misery, all our pain, is traceable to ignorance and misuse of our forces. Enlightenment is the sovereign cure alike for physical and moral ills.—Horatio W. Dresser.

The Wasp.

Don't fool with a wasp because you think he looks weak and tired. You will find out he's all right in the end.

No Contest.

BAPTIST CONVENTION BROUGHT TO CLOSE

Scheme for Erection of College at Summerland Is Endorsed—Address Delivered.

The Baptist convention which opened in Olivet church last Tuesday was brought to a close with last night's session.

The convention endorsed the proposed erection of a college at Summerland, on the site offered by Messrs. Ritchie, and adopted a resolution at the evening meeting thanking these gentlemen for the very generous help offered, which consists of a site, valued at the present time at $5,000, and a monetary offer of $20,000. The principles of a Dominion Baptist union of the churches was also endorsed after some discussion. There seems to be no prospect of the Baptists joining with the other churches—Methodists, Congregational and Presbyterian—until these other denominations see fit to change their present views that are not in accordance with the views held by the Baptists.

The annual report of the treasurer, which was presented, read as follows:

Dr. S. N. McKechnie, Vancouver, treasurer of the Baptist mission board of British Columbia, presented the annual report, showing an overdraft in the bank on June 30 of $541.54. The churches in British Columbia gave $2,587.53, as compared with $2,430.23 the previous year. Olivet church, New Westminster, gave $196.74, as compared with $190.65 the previous year. Ontario and Quebec gave $2,310 and other contributions brought the total for the year up to $6,052.47. The expenditure for the yera amounted at $6,504.01.

At the evening meeting Rev. D. B. Harkness, editor of the Northwest Baptist, of Winnipeg, spoke on the gospel opportunities of Western Canada. From his opening remarks until the close of his address Mr. Harkness held the attention of his hearers and proved himself to be one of the finest speakers at the convention. His command of language in describing the riches of the province and the scenery while traveling through the Rocky mountains was marvelous, and no one could listen to his oration without being impressed with the strong personality of the man who was speaking. At the conclusion of his address he received more applause than all the other speakers combined, and it certainly was well deserved. In part he said:

"On a warm night like this I should make a few chilling remarks to the chairman for calling upon me to speak, but instead of that I have been asked to speak upon the gospel opportunities in Western Canada. There is a wonderful inspiration in the tracing of the purpose of God that appeals to the Christian man. When thinking of the patriotism that is due to our country we must not forget that there are two sorts, the patriotism that is earthly and the patriotism that is heavenly. This latter kind is closely related to the Christian soul. A Christian man will look about him in this new land and ask himself why it has been left untilled from the beginning of time. I consider that this is the last great country on the face of the earth where the people can come to found a new nation. It was part of the purpose of God that this great land should be left until now that in it might be laid the foundation of a great nation. We are not, and never will be, an Anglo-Saxon race, because in the making of this new nation there is entering members of every people under the face of the sun, all of whom are going to make the great Canadian nation. People from all parts are pouring into this country every day, and the question is what is going to be done to evangelize them. The work must be carried on at once, before it is too late."

Mr. Harkness then dwelt upon his work among the foreign population of Winnipeg and Manitoba, and spoke of some very gratifying results among the Galicians and other foreigners from Southern Europe. He pictured the change that came over these men when they found that they could act and think as they pleased in this land, and remarked that they were not slow to avail themselves of their opportunities. In concluding his address, Mr. Harkness said: "If we fail to do our duty as Baptists now that we have the opportunity, in years to come our children will turn our pictures to the wall because we heard the call and did not obey."

Rev. J. A. Gordon, of Montreal, was the next speaker, dealing with "Our Country's Hope" in a masterly manner. He first spoke of the size of the country compared with other countries, and incidentally mentioned that he had traveled almost everywhere that the C. P. R. had run a spur track, as well as in the far north, where he had been able to reach isolated pioneers by the aid of the R. N. W. M. P. He pointed out that the great hope of the country was not in its broad acres or in the bushels of wheat which they might raise, but in the moral character of the individuals that lived in the country. Here again he emphasized the importance of educating the many foreigners who were coming into the Dominion every day. He closed an excellent address by asking every one to assist as much as possible in this work.

Rev. Mr. Shanks, of Nelson, was next called upon, but on account of the lateness of the hour limited himself to a few remarks about the work in his city.

Several resolutions were then moved and adopted, including one thanking the people of Olivet Baptist church and their friends for the very kind reception they had given them and the hospitality that had been tendered to them. The proceedings then came to an end, and the Baptist convention terminated with the singing of a hymn and the benediction.

ESTHER MITCHELL WILLING TO HANG

(Continued from Page One.)

shoot George. She did not want me to, but we knew she could not do it, for they were afraid of her, and so I did."

Led back by questioning to the danger she is in, and told that despite her wishes to the contrary she would be compelled to stand trial, the girl told again of her knowledge of the law and what it would demand from her.

"Do you fully realize the punishment the law provides in case of a crime like yours?" she was asked.

"What, for murder in the first degree? It is hanging, isn't it? I suppose that is what they will do with me."

Esther Mitchell is all alone in her cell. She rested easily last night, and her jailers say that so far as they know she slept soundly. She did not eat any breakfact this morning, for her plate of mush and bread and the tin cup of black coffee which was sent in to her came back untouched. A window of her cell opens to the light of day, and she has spent most of the time sitting with her face on her hands and gazing through the bars into space.

Mrs. Creffield is in the woman's tank. All around her, as prison companions are women who have run the gamut of all that is degrading. Mrs. Creffield believes in the doctrine of an eye for an eye and a tooth for a tooth. The only excuse she had to offer for her part in the killing of George Mitchell was based on this deduction:

"I had as much right to cause his death as he had to kill my husband. I would have done it myself, but I could not because they were afraid of me. Esther knew this and volunteered to kill him herself. At first I did not want her to, but when we had talked it over for a while I told her to do it if she could."
