ODD FELLOWS HAVE OWN LACROSSE STYLE

New and Peculiar Combinations Seen When Local Lodges Clash—Amity Won

Score, Amity, 5; Royal City, 3.

Scene of slaughter, Queens park.

Casualty list, Dr. T. H. Levey, scalp wound. (Will recover.)

Minor injuries, all the players and many spectators.

Amount collected for Royal Columbian hospital, $27.

As an excuse to collect money for the Royal Columbian hospital, and incidentally wipe out several old scores among themselves, the members of the two Odd Fellows lodges of this city introduced something brand new in the way of lacrosse at Queens park yesterday evening. Three hundred spectators gaped open mouthed at the eccentricities of the jerseyed queer guys disporting themselves on the oval. Several were so interested at the awe-inspiring spectacle that they failed to notice the approach of the delegates appointed to make a collection on behalf of the Royal Columbian hospital until too late to escape.

Concerning the game. It is safest not to tell the truth respecting the merits of several of the players on each team who had captured a place on the line-up probably because of their regular attendance at lodge meetings. Sandwiched among these grasshoppers were a few genuine lacrosse players, forced into the combat after much persuasive eloquence. Included among these were Billy Turnbull, Harry Latham and E. L. Webber for Amity lodge, and George Rennie, Harry MacKenzie and Mannering for the losing bunch.

Fred J. Lynch, who refereed the game, allowed the players considerable latitude, but he declined to countenance an attempt by Ernie Sinclair to get a Gotch toe-hold on Jack Eagles when the latter was holding him down with his teeth. Both were ruled for three minutes, with a warning that a repetition of the offence would mean suspension for the remainder of the season. Newt. Brown filled Amity goal to his own satisfaction, Oddy did his best, Dr. Levey violated an unwritten law by striking Bill Turnbull's stick with his head and was sent off for the rest of the game, Dr. Green being pressed as a ministering angel and inserting a few herring-bone stitches in the dentist's upper stope. The centre fielders of Amity were a pretty good combination, but, oh, who allowed those fellows to take up positions near the opposite goal. Sid Gregory did his best, bad as it was; Jack Eagles was a bird, while E. L. Webber, who had not played lacrosse since he wore long socks, was a star.

For the losers, Ernie Sinclair was tied in the net for part of the game, holding down the job in first base style. MacKay traded positions with him when the shadows began to lengthen. MacKay was not tired, but he looked it. George Rennie worked as hard as ever, while Barbaree, after last night's showing, has serious intentions of quitting baseball for the national game. Ed. Hughes will make a first class player as soon as he develops speed, agility and knowledge of the game. Frank MacKenzie is another once-was that has not forgotten all he knew. The remainder of the team connected with the ball at odd times.

A. P. Halliday, who volunteered to be the next victim in Dr. Levey's place, divided his time between his hat, the spectators and the game. The ground around his feet was very uneven.

Mat Phillips borrowed a Waterbury and acted as timekeeper. Towards the end of the match he borrowed a hat, borrowed E. L. Webber as scrutineer and toured the field as Worthy Collector. Tommy Gifford attended to the sounding of the gong, but cruelly stole away with the bell during the last quarter, leaving the teams playing on the field until half the men were down and out and yelling for time call. Eddie MacKenzie and J. W. MacDonald crouched in safe positions behind the nets as umpires. Both escaped serious injury.

"Biscuits" Peele occupied a commanding position on the fence. He authorized the News to give a public and emphatic denial to the story that he intends playing with the Victoria team this year. His denial is given for what it is worth.

The famous snake shot was introduced towards the end of play by E. L. Webber, who scored, much to his astonishment.

A majority of those who took part in the game last night will not be visible at their usual places of occupation today for reasons best known to themselves and their several medical attendants. The next melee between the two lodges will be a baseball match, to be played with telegraph poles, balloons and automobiles.

The guilty parties:

Amity—Goal, N. R. Brown. Oddy, Dr. Levey, H. Ackley, Purvis, Haggman, W. Turnbull, H. Latham, C. Bryson, S. Gregory, Eagles, E. L. Webber.

Royal City—Goal, W. E. Sinclair, R. C. MacKay, T. Grant, G. Rennie, Barbaree, R. Lawrence, H. MacKenzie, Ed. Hughes, Frank MacKenzie, C. E. Osborne, Chris. Jackson, Mannering.

MAINLAND CLUB CASE HEARD IN POLICE COURT

Magistrate Reserves Judgment in Case Against Officials for Breach of the License Law.

The case against the Mainland Club, limited, for selling liquor without a license, was fully investigated yesterday morning by Capt. Pittendrigh. Charges against the chairman of the board of directors, J. B. Sargent, and the secretary, A. J. S. Barnes, were also heard. The defendants pleaded not guilty. W. G. McQuarrie prosecuted, and W. F. Hansford defended.

Club Grows in Membership.

J. B. Sargent, the principal witness, said that liquor was sold on Sunday, May 10, the date on the information. The tickets sold on that date amounted to $40.50, most of which came back to the club on that day in exchange for liquor. The club, however, did not exist for the purpose of selling liquor on Sundays. Refreshments were supplied, and bedrooms kept for the use of members. In spite of the fact that this case has been pending for some days against the club, the membership has increased from 102 to 125. He believed that the wording of the charter enabled them to sell intoxicating liquor. In cross-examination he said the tickets were good for anything disposed of by the club. The public were not allowed to enter, but there was the usual provisions for guests.

Tickets Used, Not Money.

The city clerk, W. A. Duncan, as clerk of the licensing commissioners, gave formal evidence that the club was unlicensed. Three witnesses spoke of having drinks at the club, but they saw only tickets handed over.

Chief of Police McIntosh gave evidence as to the arrangement of the inside of the premises. He declined to explain from whom the information was obtained, and his decision was supported from the bench.

The club secretary, A. J. S. Barnes, said that tickets were sold to members and visitors, and these exchanged for liquor. Witness was unable to state the names of men who had been refused admission to the club.

A Two Men Show.

For the defence Mr. Hansford submitted that the evidence showed that the proprietors had been carrying on the club under the impression that they had a right to sell liquor under their articles of association, which stated that liquid and *solid* provisions might be sold.

For the prosecution Mr. McQuarrie contended that the club officials were quite aware they had no right to sell liquor. Intoxicating liquors could not be called provisions. Two men practically controlled the club, and it was run in their interests. Clearly the bulk of the sales were for liquor and tickets did not alter the fact that sales took place.

The magistrate reserved judgment.

TWELVE INJURED DURING A PANIC OF PASSENGERS

Fort Worth, Texas, June 2.—Twelve persons were injured, two seriously, early today, when the motor box on an Arlington Heights street car caught fire, creating a panic among the passengers. The car carried 100 passengers. There were a large number of women and children in the car. Those seriously injured are: Mrs. B. Steinberg and Mrs. Laura Wester. Both may recover.

RETAIL GROCERS FORM LOCAL BRANCH

Separate Organization Has Been Constituted Here—A Provincial Association.

There was a meeting of retail grocers at the Russell hotel last evening which marks another step in the growing policy of organizations in the Royal City to branch out from the Vancouver associations with which they are affiliated. Up till now the Westminster grocers have been connected as members with the Vancouver body, but a lodge or chapter has been founded under the chairmanship of C. B. Deans for this city alone. Meetings will be held here, but the members will continue to be eligible for the gatherings in Vancouver.

Last night W. J. C. Hunter, secretary of the Vancouver body, attended, and among other matters discussed was the length of credit to be permitted, upon which the local men very much kick, and as was stated last week, have fallen into line in reducing credit some time ago.

The management of credits will continue to be controlled from the Terminal City.

An important movement is on foot to form a retail grocers' association for the whole provine.

WATER DRUNKARDS ARE DISCOVERED BY SCIENTIST

Doctor Declares Over-Indulging in Adam's Ale Is as Harmful as Whisky Drinking.

Chicago, June 2.—Water intoxication, induced by too copious use of water externally or internally, was pointed out last night by Dr. L. D. Mason as being as dangerous as over-indulgence in alcohol.

Dr. Mason declared patent medicine drunkenness almost as prevalent as the generally recognized forms.

"Many men and women drink too much water and are victims of that form of intoxication," he said. "We are all creatures of habit, and thousands are victims of patent medicine drunkenness. One prominent temperance lecturer of my acquaintance drinks so much of this stuff that he is constantly under the influence of this drug or intoxicant. Most of these patent medicines are 75 per cent. cheap whisky."

TACOMA COUNCIL REFUSES TO DISMISS FIRE CHIEF

Tacoma, June 2.—By a vote of nine to seven the city council tonight refused to dismiss Fire Chief McAlevy, against whom Mayor Linck had filed charges of incompetency and drunkenness. McAlevy is a Democrat, appointed by the Wright administration, but is working under civil service rules. Fourteen of the sixteen councilmen are Republicans.

TIMBER FELL ON MINER AT MICHEL

Michel, June 2.—William Stead, an English miner, about twenty-two years old, was yesterday seriously injured while at work in No. 8 mine. He was engaged in putting up timbers when one of the props fell, hitting him on the head, inflicting serious wounds. He was at once taken to Michel hospital, where he lies in a precarious condition.

FLOODS OVER MONTANA DEMORALIZE TRAIN SERVICE

Butte, Mont., June 2.—Flood conditions in Montana are probably the worst in the history of the Northern Pacific railroad, traffic on that road being demoralized, with trains tied up in Eastern Montana and at points west of the city.

Many feet of snow are lying in the mountains as the result of the recent storm.

Posses Pursue Bank Robbers.

Cuba, Kan., June 2.—Four masked men robbed the State Bank of Cuba early today and escaped on a hand car with between $6000 and $8000 after a fight with citizens. No one was shot, however. Posses are in pursuit.

GENERAL BULLER DIES OF JAUNDICE

Famous British Military Leader Passes Away Suddenly—A Notable Career.

London, June 2.—General Sir Redvers Henry Buller, who has been ill some weeks past, is dead. He was born in 1839.

General Buller entered the army in 1858 and in 1891 he had risen to the rank of lieutenant general. He saw active service in many parts of the world. He served in China in 1860, in the Ashanti war in 1874, in the Kaffir war, in the Zulu war in 1878-79. He was in South Africa in 1881 and in Egypt in 1882 and was present at the battle of Tel-El-Kebir. He also fought in the Soudan in 1884 and was under-secretary for Ireland in 1887.

He became well known during the Boer war as the man who relieved Ladysmith. He went out to South Africa in 1889, first as general commanding the forces in South Africa and afterwards as general officer commanding in Natal. He conducted the march for the relief of Ladysmith, which was successfully accomplished after an investment of 118 days and subsequently he conducted the operations that resulted in the expulsion of the Boer army from Natal.

In April General Buller contracted a chill in London and this indisposition was followed by a severe attack of jaundice and other complications. Early in May a hopeful view of his recovery was entertained by his physicians, and the turn for the worse was unexpected.

General Buller married Audrey Kane Charlotte, daughter of the fourth Marquis of Townsend.

CRICKET CLUB PLAYS FIRST HOME MATCH

The first home match which the New Westminster cricket team plays this season is timed to commence at 2 o'clock today at Queens park. The local team will be F. J. Peers (captain), W. Whiteley, C. S. Cooke, A. Mallins, A. Rowe, C. Purvis, J. B. Barlow, George Oddy, W. J. May and another. The Vancouver eleven will be Thomas, Armitage, Sterling, Lambert, Nelson, Crickmay, Gordon, Woods, Crossfield, Faulder and Hodges. This is a very strong combination, and good game may be looked for.

New York Rain Record Broken.

New York, June 2.—May went out with a record for wetness. Counting her contribution to the moisture that came with cataract force Saturday, when the fall for nine hours was 1.88 inches, she let the floodgates loose to the extent of 9.10 inches, unequalled in any May since the weather bureau went into business, thirty-eight years ago. Figures given by Forecaster Emery show also that the greatest twenty-four-hour rainfall of any may occurred last May 7. The greatest previous twenty-four hours drenching was in May, 1893, and was 1.34 inches. The past record for the month was 7.01 in 1901.

Capitalists Fight Indictments.

San Francisco, June 2.—A motion to set aside the new indictments against Patrick Calhoun, Tirey L. Ford and Abraham Ruef, brought by the present grand jury, in the matter of the granting of the trolley franchise to the United Railways, is being heard today before Judge Lawyor. Attorneys for Calhoun, Ford and Ruef placed members of the grand jury on the stand in an effort to prove prejudice on the part of the members of the grand jury. They were closely questioned in regard to the newspaper they have been in the habit of reading, and also in regard to the statements made to the grand jury by Assistant District Attorney Francis J. Heney.

Czar to Visit Windsor.

London, June 2.—It is reported from Vienna that the Emperor and Empress of Russia will pay a return visit to Windsor in the autumn.

CHASE PATIENT ALONG BUSY STREETS OF SEATTLE

Smallpox Suspect Refused to Obey Quarantine Officer—Husky Official Teaches Him a Lesson.

Seattle, June 2.—A chase after a man who refused to submit to quarantine took place on Second and Third avenues yesterday, in the middle of a busy day and busy streets. The participants were G. R. Ford, of 1717 Twelfth avenue, and James F. McGee, city quarantine officer. The chase finally ended in the capture of the man after he had attempted to escape by leaping upon a moving street car.

Ford had been pronounced as suffering from smallpox by the health authorities, and his residence on Twelfth avenue, was quarantined. Yesterday a complaint was telephoned to the health office that the man had left his home, declaring that he would not obey the orders of the health department.

Quarantine Officer McGee learned that Ford was just at that time in a real estate office in the Marion building, and Dr. Willis Hall, assistant medical inspector, went down to examine the man.

As McGee stepped from the elevator Ford left the real estate office. He saw the quarantine officer and made a dash down the stairs, out of the building.

A University car was going up Third, moving fast, and Ford swung aboard. McGee put on extra steam and overhauled and boarded the street car in the next block. He grabbed the escaping Ford, who showed fight. But McGee, who is husky as well as fast, soon convinced him that the race is to the strong as well as to the swift. After a few admonitions as to future conduct. Ford was sent out to the pesthouse.

STORE GIRLS GIVE INJURED FRIEND LONG SCALP LOCKS

New York, June 2.—In order that Miss Catherine Gorman, cashier in a department store in Brooklyn, may come out of the hospital with a full head of hair, more than 100 department store girls will sacrifice from a quarter to one inch of scalp each, with long, flowing locks attached. On May 15 Miss Gorman's hair caught in a cash carrier and most of it was pulled out by the roots. Physicians at the hospital at first suggested a wig as the best means to cover the bare spot on Miss Gorman's head, but she objected to this and it was finally decided that the grafting process should be tried. Her friends in the department store readily consented to supply the necessary pieces of scalp. Girls with hair as nearly as possible the color of Miss Gorman's will be the first ones to make the sacrifice, but the physicians say it will be impossible to get all the hair alike. So after the new scalp has healed they will dye the hair any color that Miss Gorman may desire.

It is expected that it will take practically a year to complete the operation, as only small portions of the new scalp will be put on at a time. As soon as one piece begins to root, another of the same size will be taken from another volunteer, and so on until the operation is completed.

INDIAN STUDENTS CONFESS ROBBERY

Tacoma, June 2.—With the arrest of five Indians, students at the Puyallup reservation school, Detectives Raymond and Ellison today recovered four dozen revolvers, 10,000 rounds of ammunition and about $200 worth of Roman candles and fire crackers stolen last week from the warehouse of the Central News company. Confessing their guilt, the Indians said that they were planning a big Fourth of July celebration and had made the raid on the warehouse to further that plan.

Birthday of the Pope.

Rome, June 2.—In all the Catholic churches of Rome special masses of thanksgiving were held today in celebration of the birthday of Pope Pius X. His holiness was born June 2, 1835, in the Venetian province of Treviso.

BILLY SUNDAY'S SLANG CAUSES CONSTERNATION

Baseball Player Evangelist Stings Dignity of Divines, Many of Whom Walk Out.

Pittsburg, June 2.—Rev. Billy Sunday, the evangelist, delivered an address to the Presbyterian ministers of Pittsburg Sunday. His words caused consternation among the preachers, some of whom left the First Presbyterian church with their dignity stung, but most of them remained. Rev. Sunday, who is a former professional baseball player, has been conducting a revival at Sharon, near here, and came to Pittsburg to speak on "Why Some Ministers Fail."

The evangelist said many ministers of the present day were "fudge-eating molly-coddles, who were continually springing bull con to their congregations."

He asserted that few ministers of today are anything but "stiffs and salary quacks," willing to accept social distinction, and that many of them are "qualified for the funny house."

Continuing, he said:

"Some of you ministers are controlled by riches and not by the Bible. Many of you are grafters pure and simple. You know this, too. There are some of you preaching today that should be carrying the hod.

"What we do want is to tear down the seminaries and stand the professors on their heads in mud puddles. A seminary and its teachings are of no more use to preaching than a crane's legs are to a setting hen.

"I am not an osteopath; I am a surgeon, and my line is to cut out the abscesses in the side of the church."

HEIRESSES WILL DEVOTE LIVES TO CARE OF SICK

Beautiful Chicago Girl, Daughters of Millionaire Railroad Man, Decide to Adopt Nursing Career.

Chicago, June 2.—Denying themselves the honors and privileges of society, Misses Adelaide and Vivian Walsh, daughters of John R. Walsh, millionaire ex-president of the Southern Indiana railroad, have dedicated their lives to the care of the sick and injured. Upon the eve of the graduation of Miss Adelaide Walsh from the Mercy hospital training school for nurses, a third sister, Dorothy Walsh, contemplates leaving the family home to adopt the same career.

The three girls are unusually beautiful, and as one after the other has determined to adopt the profession of nursing, they have met with determined opposition from society friends.

PERRY MAY SHOOT ON THE BISLEY TEAM

Ottawa, June 2.—Sergeant Perry, King's prize winner, will probably go to Bisley this summer. Recent changes of eastern men have put him at the head of the waiting list and certain others on the team will drop out and give British Columbia men their place.

False Pope Is Hanged.

Manila, June 2.—Faustino Ablen, leader of the Dios-Dios movement, who once assumed the title of pope on the island of Leyte, and Espiridion Rota, his principal follower, were hanged at the prison of Bilibid today. They were found guilty of several cruel murders. A strong effort was made to induce Governor-General Smith to commute the sentence, but he refused.

"This Is My 43rd Birthday"

Prince of Wales.

The Prince of Wales, England's future king, was born at Marlborough House on June 3, 1865. His brother, the Duke of Clarence, was seventeen months older, and the royal children passed their boyhood days together. They entered the navy as cadets in 1877, spending two years on the Britannia. Prince George was made sub-lieutenant in 1884 and joined H. M. S. Canada on the North Atlantic station. In the following year he became a full lieutenant. In 1889 he was presented with his first command, and in 1890 he commissioned the first class gunboat Thrush and spent a year therein on the North American station, visiting Canada and the West Indies. Upon his return to England in 1891 he was promoted to commander. The death of the Duke of Clarence the same year made him heir presumptive to the throne. The death of Queen Victoria in 1901 placed Prince George one step nearer the throne. Shortly after the accession of his father, King Edward VII., the Prince, then known as the Duke of Cornwall and York, made a tour of the world in company with his wife, who was Princess May of Teck. They were married in 1893 and have six children, five sons and a daughter. The eldest son, Prince Edward of Wales, is now in his fifteenth year and is being trained for a naval career after the example of his father.

WORLD TOUR PLANNED FOR BRITISH FLEET

London Daily Mail Suggests Cruise to Show England Is Still Mistress of the Seas.

London, June 2.—The Daily Mail in a burst of enthusiasm over Australia on account of the proposed visit of the American fleet, in an editorial this morning, reminds the commonwealth that the British admiralty is not altogether to blame for the withdrawal of the Chinese squadron, which left Australia open to naval attack, because if large detachments of the fleet were stationed at distant colonies, defeat in Europe would be risked, and furthermore, colonial contributions towards the maintenance of the navy were notoriously inadequate.

The Mail suggests, however, that in 1909, the admiralty should despatch a powerful fleet of modern battleships on a voyage to the great colonies of the British empire with a view to showing them that Great Britain possesses finer ships than the United States.

A WHISTLER STORY.

The Eagle That Was Made to Pose as a Fighting Cock.

Apropos of something Whistler once told a cockfight story so vividly that only a man with a sailor instinct could tell it as well, mimic it so keenly and enjoy it so thoroughly. It was a story of a strange species of the American cock, pictured to the smallest detail so beautifully that one forgot that it was a story.

Some American sailors were at a cockfight in a seaport town in England when one of them remarked to the owner of the champion:

"We have got an American cock on board that can whip any bird here."

"Go fetch 'im on," said the champion. "Chuck 'im in and see. If 'e licks one bird we 'ave plenty more to throw in that can lick hany blasted Hamerican bird you can fetch 'ere."

"All right. We'll bring one," said the sailors. When they got aboard they rigged up an American eagle. After their own manner, they painted, trimmed, spliced and reefed fore and aft, transforming the eagle to a cock. When ready they went ashore to pit their new American gamecock against all England.

At the pit the sailors chucked in their cock, which looked around for other surprises as he backed close to the wall.

"Now, bring on your birds!" yelled the sailors. A strutting cock was thrown into the pit and was another surprise to the poor dismantled eagle. He backed up closer and closer to the wall, wondering what would happen next. The cock walked three times majestically around the circle, cuffing at his strange opponent, the eagle pitiably abashed and bedrabbled, crouching lower and lower and looking around and above him for an explanation of what it all meant, while the crowd were yelling madly for the English fighter. The eagle made himself smaller and smaller, but at last, finding that he could get back no further and thinking that something was expected of him, and, as the cock dashed at him again, stretched out his long claws and took his opponent by the neck.

Here Whistler ended with an imitation by motions of what the eagle did. He stretched out his arm, shaped his hand like a claw, which by this time looked like a real one, drew it to his mouth and with one bite pulled off the head as he thought an eagle might do it. Then he looked blandly about the room, as the eagle had done, at the astonished crowd and said, "Now bring on your other birds."—Otto Bacher in Century.

TOWNS WITH TROUBLES.

London's trouble is her fog.

Tokyo's trouble is earthquakes. In her worst 200,000 residents were killed.

The mistral is the trouble of Marseilles, an east wind that increases the city's death rate 50 per cent.

Calcutta's trouble is cholera, and the bubonic plague is the trouble of Bombay. Each city pays to her trouble an annual tribute of 9,000 souls.

Bagdad's trouble is the "Bagdad button," a sore that attacks practically every resident and visitor, leaving a button shaped permanent scar.

Madrid's trouble is the solano, a summer wind from the southeast. It is exceedingly hot and is accompanied by blinding, choking clouds of dust, so that notwithstanding a temperature of 105 or 110 degrees all windows must be closed.—Philadelphia Bulletin.

The Science of Chemistry.

Chemistry did not become a science—in other words, chemistry proper did not exist—until the seventeenth century, and it was as late as the middle of the eighteenth century before it began to amount to much. The old alchemy undoubtedly contained the germs, or at least the possibilities, of the present day chemistry, but beyond this the relationship between the modern science and the ancient delusion is slight indeed. Still, it cannot be denied that it was in the foolish search for the "Philosopher's Stone" and the "Elixir of Life" that men first hit upon the discoveries which were destined to develop into the great science of today.—New York American.

The Sarcastic Cabby.

The London bobby is notorious for overgrown feet and hands. Likewise the London cabby is generally accredited with never being at a loss for a reply. One day a bobby lifted up his hand majestically to halt a cabby, but the latter crowded his horse ahead.

"Didn't you see me raise my 'and?" demanded the bobby.

"I did see the sky darken a moment, but my 'orse was shyin' at your feet," retorted the cabby as he whipped up and went on.—London Graphic.

The Danes and the Raven.

Perhaps the Danes selected the raven for their standard out of feelings of gratitude, for before the invention of the mariner's compass they must have found him extremely useful. The only method of determining whether land was near was to let loose a raven. If the bird saw land he sailed away forever; if he did not, he returned to the ship.—London Chronicle.

Equally Culpable.

"I can say for myself that I never have been mean enough to get another woman's cook away from her."

"Neither have I, but I must confess that once or twice I have tried to work our cook off on some of my neighbors."

Shut Him Off.

"What are you taking for your cold?"

"Nothing."

"Nothing? But, my dear fellow"—

"Nothing. I say, not even advice. Fine day, isn't it?"—Illustrated Bits.

THE PASSING OF BULLER.

The passing of Sir Redvers Buller removes a familiar figure from the ranks of Britain's great men. Every inch a soldier, he was beloved in the ranks, whether at the home depots, or upon the battlefield. The empire has never forgiven the War Office for not sending him the men and horse he knew to be so absolutely necessary in the Transvaal. This was all the more open to censure because upon his urgent demand they had promised him mounted troops, and with this promise he went out and took charge and only failed at some points for the reason that the War Office did not keep its word. After a great sacrifice of life, and a change in command, the home authorities had to do what General Buller demanded at the start. The sacrifice of life was nothing to these "arm-chair" generals, they had accomplished what they most desired, that of seeing someone else take the first command over General Buller's head, but his name will stand out in history as a brave intelligent officer, an honor to his sovereign and his country, long after those of the men who fought him in the back have passed into oblivion.

G. T. P. BONDS.

It is lamentable to witness the depths of degradation to which the "rubber policy" opposition has gone to defeat if possible the ablest Government Canada has ever had. And in the swath they cut they disregard the costly injury they inflict upon the country. Not content with offering every objection possible to the construction of the second transcontinental railway, they now try to injure the project, by circulating reports calculated to injure the financial standing of the Grand Trunk Pacific Railway Company, which has undertaken the construction of the heaviest portion, the western division, and has also agreed to operate the whole system. These people must have short memories, or they would remember the Canadian Pacific people coming again and again to the Government of the day for large loans, grants and new guarantees.

The dictates of common sense, of which these obstructionists seem bereft, and patriotism of which they ought to have some little, demand that as the whole of the main line and some branches are under construction, the company should have all legitimate aid in procuring the immense capital necessary, on the easiest terms possible.

So long as the efficiency of the roadbed is not lowered and the standard of bridges, etc., is kept up, the less costly the work, the better it will be for the country.

The method proposed by the Minister of Finance of allowing the Company to hypothecate the bonds, instead of selling them, seems sound, and the scope and aim of the Bill now before Parliament is extremely safe and moderate. All railway companies are supposed to possess this right, but as in an undertaking of such magnitude as the Grand Trunk Pacific, demanded such specific safeguards, that everything had to be clearly defined, and as this matter was not as clear as the parties to the agreement think it should be, in view of late decisions of the Privy Council as to the re-sale after redemption, this measure is to remove any possible ambiguity, and clearly define the powers of the company and the Government and will doubtless pass with a large majority after the Opposition gets the mist cleared and steps out of its dazed method of obstruction.

CASTS SLUR ON THE MEMORY OF EMILE ZOLA

Paris, June 2.—On the eve of the transfer of the body of Emile Zola to the Pantheon, Colonel du Paty de Clam addressed what he styles a reply to Zola's famous letter "J'accuse" to the Aurore, in which M. Zola's letter was printed Jan. 13, 1899. In his letter Colonel du Paty de Clam refutes Zola's claim and in turn accuses him in having persisted in errors and hatreds after the errors had been shown through investigations. He further casts reproaches on the memory of Zola, saying that while the youth of France were defending their homes against the Germans, Zola was comfortably established at Bordeaux intriguing for a government post.

OLD BOYS' REUNION AT FOREST CITY IN AUGUST

Old boys and girls of London, Ont., are holding their reunion in the home town during the first week in August, and old boys' associations are being organized throughout the States and Canada. An energetic association has been formed in Vancouver and it is planned to run a monster excursion to the Forest City. An attractive through rate will be secured.

Membership tickets may be secured from either President John T. Stephenson, 1287 Davie street, or Secretary W. W. Stroyan, 74 Eighth avenue west, Mount Pleasant, Vancouver, who will be pleased to give any other information. The London Old Boys' association is the pioneer old boys' association on the continent, and from all parts of the world representatives are expected to be present at the week's carnival during August.

Rochester Woman a Centenarian.

Rochester, N. Y., June 2.—Mrs. Mary Barker celebrated her 100th birthday today at the home of her daughter, Mrs. Julie Bowen, in this city. Mrs. Barker was born in Rhode Island before the war of 1812 and remembers many of the history-making events during the early years of the last century. She spent much of her life in Florida, from which state she removed to Rochester in 1897. Mrs. Barker has been in remarkably good health for years and still performs many household duties.

Russia Heavily in Debt.

St. Petersburg, June 2.—According to the Russ, Finance Minister Kokovsoff has sent a letter to the cabinet proposing the immediate issue of an internal loan of $100,000,000 to cover the deficit in the 1908 budget and other expenditures that cannot be deferred. The approval of the duma would have to be obtained.

A meeting of the New Westminster Liberal association will be held in the Liberal club rooms on Friday evening, commencing at 8 o'clock, when a number of prominent local speakers are to be in attendance. All Liberals in the city and district are heartily invited to attend.

A fast motor boat service between this city and Chilliwack will be in operation during the first week in July, Messrs. Rose and McMillan having purchased a swift motor boat to be used on the up-river run. While light freight will be carried between the two points, passenger traffic will form the bulk of the traffic catered to.

As a result of a recent meeting of the local plumbers the organization will cease to be a branch of the Vancouver local, and will receive an independent charter. Officers have been elected and will meet regularly under J. V. McMurchy's presidency. The Vancouver local has given the new organization a good send off, and one of the organizers, Mr. Love, was present at the meeting when the steps were taken.

A board of arbitration, consisting of Judge Cane, Judge Howay and F. J. Hart, have heard the evidence in the dispute between the V. V. & E. Railway company and the B. C. Cannery company regarding the value of land required by the railway from the cannery company. Judgment was reserved. R. L. Reid, K.C., appeared for the railway company, and C. H. Makeell, K.C., for the cannery company.

Members of the Children's Ward Aid society are in line for a treat about the beginning of next month, when they will be given an excursion to Bridal Veil falls, Pitt lake, on one of the river steamers specially chartered for the purpose. The general public will also be allowed to make the trip—at so much per. The date on which the excursion will be held will be decided at a meeting to be held as soon as the school examinations for this term are concluded, when a few outstanding matters will also be disposed of.

At the regular monthly meeting of the Y. W. C. T. U., held yesterday evening at the residence of Miss Velma Rowe, delegates to the silver jubilee convention of the W. C. T. U. of Victoria were named, the following being elected: Miss Jennie Marshall, Miss Alice Cunningham, Miss Mabel Bowell. T. F. Phillips was also elected to attend, he being an honorary member. Reports read at the meeting showed the Y's now have thirty-two affiliated and thirteen honorary members. Neat badge pins to be worn by the latter were received yesterday by the secretary, and will be distributed this week. Arrangements were made for the holding of a garden party at the residence of Miss Mabel Bowell, Third avenue, on Tuesday, June 23, committees being named to look after details. The next meeting of the union will be held at Miss Annie Lorey's, Third street and Fifth avenue, on the first Tuesday in July.

The Favorite came in yesterday evening from Westham Island with a cargo of seven hundred bales of straw, which is being unloaded at the Brackman-Ker wharf.

Yellow Labor Agitates London

London, June 2.—The problem of Asiatic labor, which has been a source of great trouble recently in Canada, Australia, South Africa and other parts of the empire, has now been brought closer home. At the present time there is serious trouble in the east end of London owing to the engagement of Chinese crews for British ships, and within the last week or two desperate riots have been prevented with the utmostly difficulty..

The difficulty has arisen over the action of several shipping firms in engaging Chinese crews, to the exclusion of British and other European sailors, some hundreds of whom have not had a ship for months past.

The National Seamen's and Firemen's union has taken the matter up and is picketing every shipping office where Chinamen are dealt with. In the House of Commons, Mr. Havelock Wilson, one of the labor members and himself an officer in the seamen's union, asked the government for particulars in regard to the recent disturbances. Mr. Churchill in reply said that the recent unusual increase in the number of Chinese seamen shipped in the United Kingdo mports was receiving prompt and searching attention, and must be regarded as a matter of serious concern. Any case in which sufficient evidence was available of a boardinghouse keeper having supplied a crew, Chinese or otherwise, would be considered with a view to legal proceedings.

The object of shipowners in shipping Chinese crews, the leaders of the union assert, is to have men serving whose accidents are not likely to lead to compensation claims. To this it is added that the Chinese on an average accept a lower rate of wages than the Europeans, as well as a cheaper dietary scale.

Lulu Island Land Sale By-Law, 1908.

A Law to Authorize the Sale of Certain Lands on Lulu Island.

WHEREAS the Corporation of the City of New Westminster is the owner of (inter alia) Lots One (1) to Thirty-four (34) both inclusive, in Block A of Lot Seven Hundred and Fifty-seven (757), Group One (1), in the City of New Westminster, Province of British Columbia.

AND WHEREAS the present wooden bridge across the North Arm of the Fraser River in the said City of New Westminster is in an unsafe and dangerous condition and it is necessary to replace the said bridge with a new steel structure.

AND WHEREAS it is deemed advisable in the interests of the said Corporation that the said lands should be sold and the proceeds devoted in part payment of the cost of construction of the said steel bridge and otherwise on Lulu Island.

AND WHEREAS by the "New Westminster Act, 1888—Amendment Act 1889," it is provided that the Council of the said Corporation may, with the assent of the ratepayers of the said Corporation, to be first had and obtained in like manner as is requisite for the issuing of debentures for the raising of any loan, sell real property belonging to the Corporation on Lulu Island with full power and authority to execute all deeds and instruments to effectuate the same.

THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

(1) It shall be lawful for the Council to sell and absolutely dispose of, to any person or persons, body or bodies corporate, all or any part of the said lands hereinbefore mentioned being Lots One (1) to Thirty-four (34) both inclusive, in Block A of Lot Seven Hundred and Fifty-seven (757), Group One (1), in the City of New Westminster, Province of British Columbia, upon such terms and conditions as the said Council may by resolution determine. And the Mayor and Clerk of the said Corporation are hereby authorized and empowered to execute and deliver such conveyances, agreements for sale or other instruments as may be necessary to effectuate such sale or sales; provided that the proceeds of any such sale or sales shall be devoted in part payment of the cost of construction of the said steel bridge or otherwise on Lulu Island as the Council may by resolution determine.

(2) This By-law before the final passing thereof, shall receive the assent of the ratepayers of the Municipality of the said Corporation in like manner as is requisite for the issue of debentures for the raising of any loan.

(3) This By-Law may be cited as the "Lulu Island Land Sale By-Law, 1908."

Done and passed in open Council this 20th day of January, 1908.

Received the assent of the ratepayers this day of 1908.

Reconsidered and finally passed this day of , 1908.

City Clerk. Mayor.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

AND, WHEREAS, the value of the whole real property rateable under this By-law, as ascertained and finally determined as aforesaid, is two hundred and eighty-seven thousand and thirty ($287,030) dollars;

AND, WHEREAS, the amount of the debt which this By-law is intended to create is twenty thousand ($20,000) dollars;

AND, WHEREAS, it will require the sum of one thousand ($1,000) dollars to be raised annually for a period of twenty (20) years to pay the interest of the said debt, and the sum of seven hundred and forty-four and 31-100 ($744.31) dollars to be raised annually during the said period for the payment of the debt to be created by this By-law, such last mentioned sum being sufficient, with the estimated interest on the investment thereof, to discharge the said debt when the same becomes payable, making in all the sum of seventeen hundred and forty-four and 31-100 ($1744.31) dollars to be raised annually as aforesaid;

AND, WHEREAS, the value of the whole real property rateable under this By-law directly benefitted by the said improvement, and work upon which it will be required to charge an annual special rate in the dollar sufficient to pay the interest and create a sinking fund for paying the said principal debt of twenty thousand ($20,000) dollars within twenty (20) years, which said debt is created on the security of the special rate settled by this By-law and on that security only is two hundred and eighty-seven thousand and thirty ($287,030) dollars;

NOW, THEREFORE, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

(1.) During twenty years from the first day of July, 1908, the currency of the debentures to be issued under the authority of this By-law the sum of one thousand ($1,000) dollars shall be raised annually for the payment of interest on said debentures, and also the sum of $744.31 shall be raised annually for the payment of the debt, making in all the sum of $1744.31 aforesaid annually to be raised annually as aforesaid.

(2.) A special rate of 6.08 mills in the dollar is hereby imposed on the real property above described according to the value thereof as hereinbefore mentioned, exclusive of improvements, over and above all other rates and taxes, which special rate shall be sufficient to produce in each year the said sum of seventeen hundred and forty-four and 31-100 ($1,744.31) dollars, and shall be annually inserted in the Collector's Roll in each year for the next succeeding twenty (20) years, and shall be payable at the time or times and at the place and in the manner in which the ordinary City taxes are payable, provided, however, that no rebate shall be allowed on the amount levied hereunder as aforesaid.

(3.) The sum of twenty thousand (20,000) dollars shall be raised by loan by this Corporation on the security of the special rate hereby imposed and on that security only, and debentures amounting to the sum of twenty thousand (20,000) dollars shall be issued by the said Corporation therefor.

(4.) The said debentures shall be made payable at the expiration of twenty (20) years from the date of issue of the same and bear interest at a rate not exceeding five per centum per annum.

(5.) The debentures may both as to principal and interest be payable in any place in Great Britain, in the United States of America, or Canada, and may be expressed in sterling money, or in any other currency, and may be made payable in gold and the amount to be raised therein shall be paid out and expended in paying off and discharging any temporary loans heretofore obtained on account of the said improvements and works, and for any other necessary expenses in connection with said improvements and works, and for no other purpose whatever.

(6.) If at any time any of the owners of the said real property hereinbefore described, or of any part thereof, desire to commute the Assessment imposed by this Act by the payment of his, her or their proportionate share or shares of the cost thereof as the principal sum in lieu thereof, he, she or they may so commute by payment of such sum as may be necessary to realize at the end of the currency of such debentures a sum equivalent to the balance then unpaid of the said special rate thereon.

(7) All monies arising out of the said annual special rate, and all monies received in commutation thereof under the preceding section of this By-law shall be deposited in the Savings Bank of some chartered bank.

(8) Every debenture to be issued hereunder shall contain a provision in the following words: "This debenture or any interest therein shall not, after a certificate of ownership has been endorsed therein by the treasurer of the corporation, be transferable except by entry by the treasurer or his deputy in the debenture registry book of the said corporation at the City of New Westminster."

(9) The amount of the special rate levied hereunder shall be added to the taxes for the financial year in which such rate is assessed and levied, and such special rate may be collected in every respect as ordinary land or real property taxes of the City of New Westminster and may be enforced and recovered in the same way whether by action to be brought in any court of competent jurisdiction, by sale of the land or real property upon which the same attaches. Provided, however, that no rebate shall be allowed on the amount levied here under.

(10) This By-law shall come into operation and take effect on the day of the passing thereof.

(11) This By-law may be cited as the "Sixth Street Sewer By-law, 1908."

Done and passed in open Council this 27th day of May, 1908.

ALL OVER THE HOUSE.

To Remove Grease Spots From Carpets and Clothing.

Spots on carpets and unwashable clothing are not difficult to remove. First brush out any dust that may have gathered on the soiled place. Then rub powdered French chalk, or, if this is not at hand, common chalk or magnesia, on the wrong side of the fabric if you can get at it. If not, apply a paste of the alkali to the right side and cover to exclude the dust. Leave it thus for twenty-four hours. Now lay several thicknesses of tissue or of blotting paper over the chalk and set a moderately hot iron on it, shifting the paper as the grease appears on the surface. This is best done by working from the wrong side. If all the oil is not extracted, sponge with household ammonia and renew the alkali.

Javelle Water.

To one gallon of water add a one pound can of chloride of lime and four pounds of common washing soda—sal soda. Allow it to boil ten minutes. When cool turn into bottles, fruit jars or stone jugs. A cupful in a tub of water will loosen dirt in the most soiled clothing, bleaching perfectly. It will cut grease and dirt out of cooking utensils, sinks and drain pipes. Dilute the javelle water for all except for washing clothes. Keep tightly corked and plainly labeled.

Horseradish Sauce.

Put into a saucepan over the fire a tablespoonful of butter and a half tablespoonful of flour. Stir and cook until blended, then add one-half cupful of strained soup stock, half a cupful of milk, half a teaspoonful of salt, five whole peppers and a bit of bay leaf. Cook five minutes, remove bay leaf and peppers, add three tablespoonfuls of grated horseradish, cook a minute longer and serve.

Care of the Baby.

Don't give the baby any kind of raw food or any kind of fruit.

Don't give the infant coffee, tea, beer or any liquor or any kind of food except that which is prescribed.

The infant should sleep alone in a crib. Don't let the baby sleep in a room near the kitchen. Don't have unnecessary clothing in the room where the baby is kept.

A Reproof.

"Did you not have your nails polished by a blond lady on Tuesday morning?" asked the attorney.

"I decline to answer," said the witness.

"Did you not have your hands massaged by the same blond lady Wednesday afternoon?" persisted the lawyer.

"I decline to answer," again said the witness.

"Did you not have your nails polished by the same blond lady on Thursday?" inquired the lawyer.

"I decline to answer," declared the witness once more.

"But why do you refuse to answer?" interposed the court.

"Because he asks too manicurious questions," stated the witness and immediately fell from the chair in a faint.—Judge.

A Parisian Shot.

"I hear," said Mrs. Gaddie, "that your husband's got a job as superintendent of a cemetery and you're going there to live."

"Well?" replied Mrs. Naybor shortly.

"Well, I was thinking it would be an awful ghostly and creepy sort of neighborhood."

"Perhaps, but the neighborhood will not be prying into our business."—Philadelphia Press.

JAPANESE ANNOYED OVER CLAIM AWARDS

Belated Howl Is Let Loose by Nipponese Newspaper Published in Vancouver.

Vancouver, June 2.—If the Japanese methods of written expression may be judged in the light of Occidental understanding the subject of the Mikado in Vancouver believe their claims for damages received during the anti-Asiatic riots of last year were unfairly and dishonorably dealt with. This is boldly stated in an issue of the Canadian News, a Japanese paper published in Vancouver. Besides complaining of alleged injustice in the treatment of Japanese claims this mouthpiece of the Japanese element in Canada creates for itself the inference that the white people believe the moral sense of the Japanese is inferior to that of the Chinese, and then, in most interesting manner, proceeds to argue the Japanese out of the peculiar position in which it places them itself. Disappointment that Japanese claims were not allowed in full without question is bespoken in every sentence of the following translation of an article in the Canadian News:

"The investigation of the Chinese indemnity claims has begun, and it is said that Mr. King has expressed his satisfaction that the claims are really smaller than the actual losses sustained. The Province, comparing this with the Japanese (claims) declares that there is a great difference between the course adopted b ythe Chinese and that of the Japanese whose claims are charactized as 'shameless and brazen-faced,' insinuating that in point of moral sense the Japanese are inferior to the Chinese. Be that as it may, we Japanese, who have suffered so much of unjust criticism, feel that we have a right to be heard in the presence of an accusation like this. We take special pleasure in the fact that there are not a few white people in this city who can understand articles printed in Japanese.

"As we have frequently pointed out in the past, reparation for losses sustained in the riot was something which we had a right to demand. It was a claim, not merely a request, which we presented. We made this claim in accordance with the commands of the law, for losses sustained through the failure of the Canadian government to do its duty. The laws of Canada guarantee us protection of life and property. It was incumbent upon those in power to make reparation to us for the sin of failing in their duty to protect us in the riots. It was perfectly proper for us, in obedience to the command of the law, present individual and detailed estimates of our losses. But how were these estimates dealt with? The court treated us like criminal culprits under cross-examination! And as that were not sufficiently humiliating, our people, who are unused to that sort of thing, were picked up on their words, any little discrepancy of speech being followed up and made a reason for reducing the amount of the claim. Under such methods of examination where under heaven could any just claim be established! And especially when the extreme difficulty of estimating the losses, direct and indirect, in such a case, is taken into account. If such claims are 'brazen-faced and shameless,' where, pray, can we find any claims which are not 'brazen-faced and shameless?'

"We do not know whether the Chinese claims are less than their real losses or nt. But granting, for argument's sake, that they are, there is nothing in such a case to warrant any inference of moral superiority or inferiority. If a claim is just, it is just to set it forth at full value. Nothing in the moral law forbids this. Where is the superior morality in skilfully and conviently sending in a small claim? On the contrary we regard such conduct as unmanly, unjust and impartial. To rejoice earnestly simply because the amount (claimed) is small is proof of a beggarly disposition. What is becoming of the honor of Great Britain?"

Cases in Chambers.

In chambers yesterday morning before Mr. Justice Morrison the following cases were dispersed of:

In re Alexander Tait. J. R. Grant for plaintiff. For declaration of title. Order made.

In re Frank Fero. Letters of administration. Order made. Mr. Grant for plaintiff.

McLellan vs McCuaig. G. E. Martin for plaintiff. Order for payment out made.

In re Louis Rhodes. Order made for auxiliary probate. Mr. Martin supported the application.

The case of Coulthard vs. Sinclair, adjourned from the assize, will be heard today.

The man Curry, or Barnhardt, who was held by the Revelstoke police under the allegation that he was the man who hired a buggy form Thompson's stables by false pretences, and did not return, was brought to this city yesterday by Detective Bradshaw. The accused will be brought up at the court today.
