WOMEN IN SESSION HEAR MANY REPORTS

Interesting Papers Read at Sixteenth Annual Meeting of B. C. Branch of the Women's Methodist Missionary Society—Progress All Along the Line.

Yesterday's morning session of the Women's Missionary society was chiefly taken up by the hearing of the various reports from the committees which is in close touch with the missionary work.

The session was opened with the usual devotional exercises, which were conducted by Mrs. A. Sandford, of Vancouver, after which reports were read.

The executive committee's report, which was first dealt with, was full of items of interest, the principal of which was the following resolution, moved by Mrs. Prescott and seconded by Mrs. Watson, "That inasmuch as there are no auxiliaries, except at Hedson in the upper country, your executive recommends that this branch set aside $100, or a sum sufficient to pay the expenses of a field worker for the coming year. It also recommends that Mrs. Betts, our president, be requested to undertake this work in behalf, making arrangements in the early autumn, or at such dates as she finds most convenient." This motion was carried unanimously.

The report of the supply committee showed good work being done in the distribution of supplies and clothing among the homes and missions in the province, the value of the articles so distributed amounting to $434.89.

The report on the Chinese and Japanese work in the province was read by Miss Sherlock, teacher and evangelist worker in the Chinese Rescue Home of Victoria, and was a good statement of the work being done in the various Chinatowns of the province. In the home at Victoria, the average number of residents of Chinese and Japanese extraction was 15, number on school roll 25, and an average daily attendance of 18. Several visits have been made to Nanaimo during the year, and owing to the slow progress of the work, Miss Cham had been appointed to assist in the evangelistic work among the inhabitants of the mainland Chinatowns. Miss Cham, who is not only an accomplished scholar in her native tongue, (Chinese) but thoroughly conversant with the English language and customs, has great influence among her countrymen and has been already doing good work.

The report from the Crosby Girls' Home was a bright and interesting one, describing the work and the manner in which vacations were spent. The health of the girls was usually good, and a tone of decided progress was remarked all through the report.

The Kitimaat home sent in a most comprehensive report of their many trials which beset the missionary in her work among the Indians. The building of the home was a bad setback, as the girls, many of whom were beginning to get along nicely, were obliged to return to their homes at a season when considerable festivities were going on, and liquor was being circulated freely among the natives. It was only natural that the tendency to revert to tribal customs would crop out in some cases. For the most part, the girls faithfully adhered to the teachings of the missionaries. One of the most regrettable incidents mentioned was the marriage of three of the girls, two of whom were barely sixteen and quite unfit to undertake the duties of married life.

The report from the Coqualeetza Industrial institute was of considerable length and practically covered the whole year's work. One of the most encouraging features noticed in the report, was the pupil's growing loyalty, appreciativeness, hopefulness for their own future, and the interest taken by them in their several departments of study. One of them obtained a third class teacher's certificate and has been teaching since November.

The program of work pursued at the institute was also given, and mention was made of the Sunday school work and Bible lessons, and the interest being taken by the pupils, some of whom were admitted to the church recently. The month of September had been an eventful one, owing to the hundreds of hop pickers in the neighborhood, which meant many visits to the institute of the relatives and friends of the pupils, and of pupils and staff to the hop pickers' camps.

In December, the destruction by fire of the primary school room, drying room, flour and general store room, root cellar, carpenter shop, shoe shop, and woodshed, caused untold inconvenience, and has been a heavy trial.

The financial statement from the Coqualeetza Industrial home showed the following: Running expenses $8405.18, which was fully met by the government grant and contributions from other sources; the earnings of the school for the three quarters amounted to $6468.58. The total number of pupils attending at the present time was eighty-five.

After the reports had been received, the delegates adjourned for luncheon which was provided by the ladies of the congregation and served in the lecture room of the church.

The first work of the afternoon session was the receiving of the report of the banner and prize awards committee by Mrs. Sipprell, which was as follows:

That, having examined carefully the reports of Mission circles and bands, and marked the different lines of work reported on, we find that in accordance with the basis adopted by this branch last year, the circle prize has been won by the Mount Pleasant circle of Vancouver. On the same basis the banner has been awarded to the Silver Band of Ladner. We recommend that the branch offer the banner to the bands on the same basis for the coming year, and that they offer a prize of books on the same basis."

The reports from the district organizers were next received. Mrs. Adams, of Victoria, reported as follows: "In all, four new organizations, two new auxiliaries, one at Duncans and one at James Bay, and two new Mission bands, one at Victoria West and the other at Saanich, have been established. Mrs. Watson reported a new auxiliary at Grand View, and Mission bands at Wesley, Princess street Vancouver and a Chinese and Japanese Mission band in connection with the work in Chinatown.

Evening Session.

At the evening session of the B. C. Women's Methodist Missionary society, the principal items were the introduction of the missionary candidates, and a lecture by Miss Ethel Harris of Vancouver entitled a "Visit to our Mission Stations." The candidates for mission work are Miss Murgatroyd and Miss Snider, who were introduced in a few well chosen words by the president, Mrs. Betts. These ladies will, in the autumn, proceed to Toronto, where a certain period will be spent in the training school, after which they will enter into the duties in the broader field of the missionary work.

Miss Ethel Harris's lecture was a regular treat. The lady, starting from Toronto and using several maps to illustrate her remarks, traced the mission work, and discoursed on the stations from that city clear through to the coast. From Victoria she carried her listeners across the Pacific to the sunny shores of Japan, and from thence to the Chinese kingdom, all the time keeping up a bright and instructive discription of the places which in fancy she was travelling through. The proceedings closed with the presentation of the banner and prize library, which were won by Mount Pleasant and Ladner. Mrs. George Frith made the presentation. The books which were won by the Mount Pleasant circle were taken charge of by Miss Copeland, and the banner and prize of the Ladner Mission band was consigned to the keeping of Miss Straines of that place. The meeting was then closed in the usual way, the benediction being asked by Mr. Best.

MANAGER'S SCHEME WILL NOT WORK OUT

LACROSSE CLUB OBJECTS TO POLICY OF EASTERN TEAM—DIVISION MUST BE FAIR.

The demand of the representative eastern lacrosse team, which is to tour Australia, will be discussed at the meeting of the New Westminster lacrosse club executive to be held at H. Ryall's office this afternoon. An offer was made to J. Miller, manager of the team, some time ago, but this did not meet with his approval, and he recently wrote asking for a larger percentage of the gate receipts than the members of the New Westminster club are willing to give him. The proposal was for the eastern team and the New Westminster to play a game at Queen's park when the team passes this way on its trip to Australia.

That this game would be a strong attraction is a well known fact, but the locals will not be held up by the travelers for a hog's share of the gate receipts, and if the game is played, a fair division of the profits must be made. A generally accepted theory, that the manager of the team which is to surprise the sportsmen of the Antipodes is trying to wriggle out of a game in this city has been advanced by some of the local sportsmen who are posted on the record of the men who will stickhandle on the tour.

R. H. Cheyne, speaking of the team yesterday remarked that the players were not the pick of the eastern teams by any means, and he would classify them as good intermediates, or perhaps second class seniors. In his opinion, the New Westminster men would not have much of a task to defeat them, and certainly he did not think that the local boys would suffer defeat.

When questioned as to whether he thought Miller was trying to wriggle out of a game here in order to save his team from the stigma of defeat before leaving Canadian shores, Mr. Cheyne would not express an opinion, but he admitted that a drubbing received on the eve of leaving for Australia would be something of a blackeye to the team.

"We are not particularly anxious for the game, and we will certainly not accept any terms they like to put forward in order to make a date with them," concluded Mr. Cheyne.

DOMESTIC SQUABBLE ATTRACTS POLICE

TAYLOR-McDONALD FACTIONS ENLIVEN EIGHTH STREET BY INTERESTING DISPUTE.

A little domestic fracas which involved two sturdy policemen, an expressman and half a dozen angry women, occurred at the boarding house kept by Mrs. McDonald, at the corner of Eighth and Clarkson streets, yesterday afternoon. It was over the ownership of a lot of furniture, which was disputed among the principals in the squabble, Mrs. McDonald and Mrs. Taylor. It seems that Mrs. Taylor was the former occupant of the house and that, owing to some months' arrears in rent, her furniture, or a large portion of it, had been retained by the owner of the house, Mr. Bole. The furnished house was later rented to Mrs. McDonald, and the incident forgotten.

It was revived by Mrs. Taylor, the former tenant, in a rather startling manner yesterday. About noon a large express wagon drove up to the door of the residence, and the driver proceeded into the house and coolly began to remove the furniture. This was promptly resented by the present occupant, who sent for the police. Before the arrival of the representatives of the law, the expressman had loaded most of the furniture pointed out by Mrs. Taylor, who was present. The policemen requested that it be replaced in the house and the fun began. The two women who claimed it argued loud and long, ably assisted by servants from the house. Finally order was restored, the furniture replaced in the house, and the expressman paid. The taunts of the McDonald household followed the retreating footsteps of Mrs. Taylor.

CALIFORNIA MEN COMING IN JULY

EXCURSIONISTS FROM SOUTH WILL VISIT NEW WESTMINSTER—SPECIAL TRAIN HIRED.

Between one hundred and seventy-five and two hundred representative business men of San Francisco, Oakland and Berkeley, California, will visit New Westminster some time during the month of July. The announcement is made by J. R. Nagel, travelling passenger agent of the Southern Pacific railway company, who was in the city yesterday. He had visited all the places which the excursionists propose touching en route in order to arrange with the various public organizations for their entertainment.

The tour, Mr. Nagel explains, has been decided upon as a result of an invitation extended to the citizens of the cities mentioned, and other important California centres, to visit the northern sections and to extend their trip to British Columbia. Although the party mentioned will include only representatives of San Francisco, Berkley, and Oakland, it is altogether probable that others will make the same tour later in the year.

Although the outing is being conducted under the auspices of the California State Board of Trade it is being managed by the officials of the Southern Pacific Railway company. It is for the purpose of attending to the details that Mr Nagel was here. He affairms that the party will leave San Francisco in a special train and will touch at different places along the way north, spending a day or two here and there until reaching Vancouver. From the latter city the tourists will go Victoria, where they will spend an indefinite time, as it will be their dispersing point according to the present arrangement.

Mr. Nagel states that members of the party will have the option of returning to California overland or by boat. He returned to the Sound last evening.

Panama, May 14.—As a result of a strike of workers on the steam shovels, only two shovels were worked yesterday between Bas Obispo and Culebra. The shovel men demand $300 a month instead of their present salary of $210.

CRUISER STRIKES IMMENSE LEAD

FREE MILLING QUARTZ FOUND NEAR REVELSTOKE—ASSAYS RUN TO $276 A TON.

Revelstoke, May 14.—Situated about eight miles south of Revelstoke and half a mile from the west bank of the Columbia river, is possibly the largest lead of free-milling gold quartz in British Columbia, and which in the very near future will be a valuable asset to this district from a mining standpoint.

About two years ago, while Neil McEachern was cruising timber along the west bank of the Columbia river, between Revelstoke and Arrowhead, he discovered this immense lead of free-milling quartz and located eight claims on it. The lead is fully 300 feet wide for two miles in length and it outcrops from 100 to 200 fet above the surface, which can be quarried without any difficulty and at very little expense. During last season Mr. McEachern did a large amount of work in sampling the property and nearly 30 assays were made of the rock, giving returns of $2.50, $8, $10, $15, $40, $72 and five assays running from $200 to the highest of $276 to the ton. For this year Mr. McEchern has completed his assessment and made all arrangements for the driving of a 50-foot tunnel. A cabin has been erected this spring on the ground. The citizens of Revelstoke will watch with a good deal of interest the work upon this property, realizing that in the near future, when the full value of the discovery is demonstrated, it will be another big asset to this city which will derive benefit from the exploitation and mining of so big a proposition.

BREACH OF FAITH EXCITES CHINESE

Japan's Failure to Return Property Appropriated in Manchuria Three Years Ago Cause Much indignation In Celestial Empire.

Mukden, May 14.—The repeated promises made by the Japanese for the past three years to return to China the property appropriated through the exigencies of war are unfulfilled. In consequence China is expressing much indignation at what is considered a gross breach of faith.

Recovery is considered doubtful of a large amount of government and private property in numerous places throughout Manchuria which was appropriated by Japan without compensation, on the sole pretext that China had failed to observe neutrality in allowing Russia to occupy these buildings, mines and land. This excuse is not considered honest, because Japan is fully aware of China's helplessness to enforce neutrality, while Japan in regard to the abuse of neutrality is considered equally guilty.

Russia holds much appropriated property which has been leased to Japanese traders without compensation to China.

LIQUOR LICENSES RECEIVE A HOIST

BELLINGHAM SALOON MEN MUST PAY $900 FOR PRIVILEGE OF SELLING HARD STUFF.

Bellingham, May 14.—After majority and minority reports and repeated amendments and arguments, the city council last night passed an ordinance fixing the annual retail saloon license in Bellingham after June 30, 1907, at $900.

The councilmen who voted for the measure were: Sells, Miller, Adams and Cleary. Those opposing it were Cloak, Mullin and Van Zandt.

As there are approximately sixty saloons the city will get about $54,000 from the retail liquor men next year if a big crowd of them do not get weak kneed and surrender their business rather than pay the high license.

GRAIN HANDLERS QUIT.

Situation in New York Longshoremen's Strike Still Acute.

New York, May 14.—The longshoremen's strike shows no change. Both sides are resolute and each asserts that the other is losing ground.

Herman Robinson, the New York representative of the American Federation of Labor, sought the headquarters of the Longshoremen's Protective union to inquire if the federation could be of any assistance in a possible settlement of the strike. President Connors, of the union, told him that the strikers were not looking for arbitration, and that if the steamship companies wished to communicate with the strikers, their agents could come to the longshoremen's headquarters.

Father J. F. Stanley, of the Roman Catholic church, which President Connors and other longshoremen attend, sent for Connors and asked him if he could not induce the union to treat with the steamship owners' agents. President Connors explained that not one of the union would vote the appointment of such a committee.

Persistent work is done by the strikers to persuade the men employed on the barges, which supply the liners with coal, to quit work. This would be the most telling stroke against the companies the strikers could make. As it is, the strikers made a distinct gain yesterday in getting the grain handlers at the fifty or more elevators on the New Jersey harbor front to strike in sympathy with them. This means that the shipping of grain from this port will be greatly retarded. The coal handlers insist that nothing will induce them to strike.

Need Unskilled Labor.

Victoria, B. C., May 14.—The demand for unskilled labor in the province is such that efforts are being put forth to induce those coming from Australia, en route to San Francisco, to stop here. Large numbers have been coming on steamers since steamers stopped running from Australia to San Francisco. To meet the demand, Japanese are being brought in from Honolulu. The Montara, which arrived today, brought nearly 300 of these.

JAPANESE YOUTH LEGALLY ADOPTED

RUNAWAY BOY RECEIVES AMERICAN NAME AND HOME—WILL BECOME JONES' HEIR.

Tacoma, May 14.—Danzo Nakahiro, a Japanese boy, will hereafter be known as Danzo Jones. He has been legally adopted by John W. Jones and wife, who declare they will educate the boy and make him their heir.

Danzo has been in this country a year or two. He ran away from his home in Japan, because, he says, he was cruelly treated, and made his way to Tacoma. Soon after his arrival and before he could speak a word of the English language, he was taken in by Mr. and Mrs. Jones, ranchers on the reservation, and they have become so attached to him that they now want him for their own son. The boy testified that he loved his adopted parents and that they were good to him.

IMMENSE IMPROVEMENT.

Seattle Finds Job too Big for Local Men to Handle.

Seattle, May 14.—For the first time in the history of Seattle a public improvement of such magnitude that local contractors are unable to cope with it and men from all parts of the United States will be invited to enter into competition, has developed in the proposed regrade of Denny hill.

At the meeting of the board of public works this morning City Engineer Thomson outlined the most feasible method of doing the work which is, by the way, the largest of its kind ever performed in a Northwestern municipality.

Thomson advocated advertising the contract throughout the East and inviting bids from all parts of the country. He advocated, the drafting of a prospectus with accompanying maps explaining in detail the work to be done.

Specifications presented to the board show that 3,719,000 cubic yards of earth will have to be moved from streets alone, 157,000 cubic yards from alleys, 1,518,200 from private property and 138,000,000 from the territory occupied by the Seattle Electric company trackage. Each day of the contract 15,000 cubic feet must be excavated.

It is asserted by Thomson that the work could scarcely cost less than 40 cents a cubic yard, bringing the full amount of the contract, including paving work, up to something more than $3,000,000. The time suggested by Thomson in which to complete the work is thirty months.

Mail Crushed.

Trinidad, May 14.—The Trinidad mail has been suffering of late from the cruel work of the car wheels. A number of times recently the sacks have been drawn beneath the wheels and the contents of the station on a curve it seems impossible to land the sacks safely from a train moving from forty to fifty miles an hour. In order properly to protect the mails it seems necessary that a slow order be placed upon No. 1 and No. 2 while passing the station.

CONFERENCE HEARS INTERESTING PAPERS

WAYS AND MEANS OF FURTHERING MISSIONARY WORK SET FORTH.

(By Miss Copeland, Vancouver).

The mission circle is one of the most important branches of the missionary work, because it has under its control the educating of the young in missionary subjects—subjects that seem to be very uninteresting to those who have never attended these meetings. It is important, because if conducted in the proper way, it may be the means, used by God, of calling some to devote their lives and talents for His service, not only at home, but unto the uttermost parts of the world. This is also the work of the band; but the members of the band are usually very young and not old enough to know what they are called to do, whereas the members of the circle are at the age when they should decide for what work they are best suited.

What is the work of the mission circle? It is to create a missionary spirit among those who already take some interest in it; and also to help spread the gospel among the heathen—thus carrying out Christ's last command, "Go ye into all the world and preach the gospel to every creature." How then is this work to be done with the best results?

In the first place each circle should have for its superintendent one who is fully qualified; i. e., one who is not only interested in the work, but who knows a great deal about it, and also, one who would be liked by all the girls in her society. The officers, also should be Christians who understand the value of the work.

Having good officers there will be no difficulty in keeping the members interested, but the work of everyone will be to get others interested, and to do this, the meetings should be conducted in such a way as to make everyone feel that they are losing something by not attending. If the members feel this, they will naturally speak to all their friends and in that way draw many of the meetings.

There are many ways in which meetings may be made interesting. The program of each meeting should be arranged beforehand, hymns that would be suitable to the meeting picked out, also some one chosen to read the scripture lesson. If held in the church, the room should be decorated and made as inviting as possible.

Some special study should be taken up in the meetings, because this very often leads one to think during the week of what is to be taken up at the next meeting.

The watch-tower is also very helpful and should be taken up by every circle, because in the missionary papers there are some of the most interesting letters, and accounts of work that is being done, which would perhaps never be heard by some girls, if not in this way. At our band at the Japanese mission, the watch-tower has proved to be very interesting and helpful. Of course our band does not consist only of little ones as it is an auxiliary circle and band combined, and we not only have the little ones take part, but also the older ones. Everyone has been listened to the accounts telling of the work that is being done.

Another very good plan for keeping the interest of the members and also for drawing the members nearer to Christ is to study the missionaries themselves. Learn their names, follow up the work they are doing, and also write them helpful and encouraging letters.

Then again, we have every opportunity of doing missionary work at home. We have Japanese, Chinese and Indians all around us, who know nothing of Christ. We have missions where there is always work that can be done. Even a song given by some girls of a circle in one of the missions would not only be helpful to the listeners but would lead the girls to see the character of the work that is being done far away in foreign countries.

These are plans for increasing interest and missionary zeal: how is a circle to help spread the gospel in heathen lands? The members of the circle can assist in two ways—by giving of their means and by prayer. When the girls know that what they are doing is going to bring encouragement to some missionary and Christ to someone who is living in heathen darkness, then there is interest and willingness on all sides.

There are many ways of raising money, but the most important, I think, is that given willingly by the girls, either through the mite boxes or through some work they have done. The money that comes from these sources show selfdenial and love for those who know not Christ.

Another very good plan for raising money is making an autograph guilt. Of all the plans we tried on Mt. Pleasant, nothing proved to bring out the interest and work of the girls, more than the making of the guilt which we sent up north. Many times I heard girls saying—"No one knows how much good that quilt might do. It will not only help to keep some one warm, but the verses on it might lead them to enquire about Christ. And then the fifty-dollars we raised from the names will also help a great deal."

Then again the girls can use their talents and gives a social or entertainment, by which they may raise much money.

But after all, will just the carrying out of these many and varied plans lead to the results we are seeking after? The question is often raised: "What new methods or means can we employ to stir a deeper and more universal interest in our missionary work? We spend much time in arranging programs, obtain interesting speakers and introduce novel means. These are all good in their way, and perhaps necessary as adjuncts, but they are of absolutely no permanent or real benefit unless underneath and through all shall pulse the continuous and earnest prayers of both officers and members.

The Twentieth Century mission circle is to me the one whose officers and members find themselves at the close of the year praying and giving more than at the beginning. It is the society which has gained in spirit of prayerful service and in power to win others to Christ's cause. Prayer definitely for some one means, and interest in that cause, and working for that one, makes it seem worth while. Thus we see how God's spirit works through us upon others. It has always been so. God uses those who are intimate with Him. Then it is for us all to increase in faith and works by the prayer method—the only invaluable and divine method.

(By Miss Winter, New Westminster.)

My theme today is rather a difficult one, as it covers so much ground—or water, we would say, after looking at the maps. I believe that you wish for hints to leaders as to the ways of taking up the study of the missionary effort in the islands of the sea. First of all a good map like this one is required and then I would get materials for the making of a map by the children themselves for we "learn by doing" and what our brains plan and our hands do our memories retain. There are various ways of making progressive maps—for this a sand table is not the best as it soon dries and has to be remodeled. Relief maps in clay are good but are a great deal of bother, pulp maps made by soaking torn paper until it is reduced to a thick pliable substance are easily made and can be painted but the easiest though slightly most expensive material is plasticine. I will show you how it is used by my kindergarten children. Now with a board as large or larger than this map, painted blue and a few pounds of tinted plasticine, pictures, and pin flags, and this book, one could have a series of very interesting and instructive lessons. There are as many different ways of procedure as there are leaders so if you will allow me I will confine myself to what I think would be my way if I were privileged to take up this work with a bright band.

First of all, proceeding by the psychological method "from the known to the unknown," have a little talk on our own Vancouver island known more or less to all our children. How did it get its name? Who was Capt. Vancouver? How long ago was it? Conditions here at the time of his visit? Indicate on the map his probable course and lead the children's thoughts out over the broad Pacific with Capt. Vancouver and Capt. Cook and make them in imagination discoverers of these Hawaiian islands. To my mind much of the interest and success of the year depends upon the vividness with which this first lesson is conceived and presented. Page 4 on the climate, page 14 botanical notes, and pages 91, 92 and 93 will help out one's imagination. In talking to children one need not be afraid of being too picturesque, even a little extravagant, in one's language. Arouse their interest and fire their imagination at any rate.

Picture the days, weeks even months of sailing the calm deep blue sea, the sunny skies, the warm perfumed air, the entering of the splendid Pearl Harbor. The actual facts are described on page 102.

With the shuttle of the imagination weave garments of reality, for all facts which you deal to young children. Have one of the band who had previously prepared it describe the appearance of the islands and their careless, happy, kindly nature, as described by Stevenson. Show all the bright beautiful side of the picture, their free life in the forest and on the sea, the picturesque war canoes, their great feasts, their gay decorations of flower-wreaths and their gorgeous feather mantles, etc. Then let another member describe the darkness and superstition of heathendom.

To juniors we must pass over what is to us the darkest side of the picture—their frightful immorality, but the tabu can be dwelt upon and illustrated, their hideous cruelty in offering human sacrifices, cannibalism with its horrors, their ceaseless wars and the common practise of killing their children, their many Gods, etc. All these show but too plainly the dark side of the picture. Stevenson's "Song of Rahero" might almost be read to them, as full as it is of "local color," and picturing so clearly the conditions before the introduction of Christianity.

A third lesson would take up the story of the first missionaries to this group and here must be told in greater detail the story of the effect on the natives' minds of the visits of Capt. Cook and Metcalf and the efforts made by Capt. Vancouver to undo these ill-effects, also the work of Davis and Young. Here also comes in the path-

(Continued on page 3.)

EAT NEMO AND LIVE

THE SHOE BUSINESS!

WE'D EXPECT TO DO A VERY RESTRICTED business if we confined ourselves to any certain make of shoes, as only a limited number of persons stick to a specified kind.

We buy the choicest and best of many different makes, so that everybody, no matter what their shoe preferences, can get complete satisfaction without difficulty.

We ask you to see the latest styles put in stock this week. We can interest you in new ideas of SHOES.

JOINT AUCTIONEERS

CONFERENCE HEARS INTERESTING PAPERS

(Continued from Page Two.)

etic story of Obookiah, a failure as the world counts success, but what a glorious inspiration his failure was, when his death was the means of sending seven in his stead.

Here a member of the band could relate the cause and dramatic circumstances of the overthrow of idolatory and the breaking of the tabu.

Still the missionaries found it no easy task to secure an opening, why? As we all know, it was the evil influence of unprincipled white traders. "He that gathereth not with me scattereth abroad." However, the coming of new faith found us always with waiting hearts to welcome it and many thrilling tales of the new converts can be found. Among these one that will hold the children breathless is the story of Kapiolani's visit to Pele. Others also as told or read by different members will help make a very interesting meeting. Tales also of heroic soldiers of the cross, such as Titus, Coan, Hiram, Bingham, Rev. William Richards, Rev. William Armstrong, Rev. Peter Gulick and among the Hawaiians themselves who answered the Macedonian call of their heathen brethren, Kauwealoha and Kekla, tales of these men and their brave wives will fire the enthusiasm of our children.

Next I would take up the establishment of the early Christian church with its successes and failures, and the reasons for such, the moral reforms inaugurated, the establishment by the "Bill of Rights," of the laws of civilized nations and the educational effort put forth.

Present needs and conditions and our moral responsibility, these islanders being our next door neighbors, will provide us with a fruitful topic for a "talking-it-over meeting, which should prove profitable and stimulating to the leader. Material for this can be easily obtained by diligent searching of papers and magazine; and in any one of a long list of books given in the back of our text book. Now I have taken Hawaii rather fully as a model plan for the study of each group as the map progresses. I would suggest that pictures be used largely in this connection and also that pin flags with names or dates be struck in the islands to refresh the memory. Also I would advocate five minute drills after this fashion: "What missionary came to Hawaii in 1822?" "Who was Kekela?" "When did Kapeolani visit Pele?" "What do the Hawaii people look like?" If your question is quick and merry, the children will thoroughly enjoy it. After the study of each group, a missionary drill on the lines of the regular old fashioned spelling match, with perhaps a little prize for the one who stays up longest, would be of value both in fixing facts in their minds and in revealing to oneself the strength or weakness of this method.

Briefly then my plan for each group would be on this outline:

1. Formation, appearance, vegetation and climate of islands with description of native population and their means of livelihood and productive activities, if any.
2. Heathen conditions simply told and illustrated by stories.
3. Accounts of first missionaries, with all possible interesting information.
4. Reception of Christianity, illustrated as fully as possible.
5. Growth of Christianity since its introduction; results and present conditions and needs.

(By Miss M. C. Jeffs, President Mission Band, Vancouver.)

The paper which I have been requested to prepare is one which I almost hesitate in attempting on account of the great importance attached to it. Upon this training depends the future success of the work of our church. The training of the young minds we consider one of the most important duties in connection with Christian work of today. My experience in this branch of work has been limited, and I realize that one of wider knowledge would be better fitted to prepare a paper which is expected to contain such useful information and help for other workers. However, one can only do their best and under the circumstances I think it wise to give my personal experience in our "Band" work in Princess Street church. We were organized last July with a membership of sixteen. We now number 45 members and have five regular teachers. Our work amongst the girls has been very encouraging for the teachers. We, who undertake such important work, should endeavor to live consecrated lives, remembering daily our members at a Throne of Grace. Without our Father's wise guidance we are quite unprepared to do this work, although we may interest them in different ways. Our one aim and object should be to win each girl for Christ. There is no literature we introduce into our work which is more appreciated than the bible. We have therefore introduced a fifteen minutes talk on the "Sabbath School" lesson for the following sabbath, the teachers taking the lesson in turn. We have found it necessary to be fully organized. Each teacher takes the responsibility of a certain number of girls and keeps a list of their names and addresses. Should any member absent herself for more than two or three meetings she endeavors to visit the homes and interest herself in the parents as well as the children. When we have the sympathy of the parents in our work, we have won the children as a rule.

In order to keep up the interest and accomplish even a small amount of work, we decided to meet weekly. A fee of five cents per month, payable on the first Thursday, is charged in order to defray the expenses of sewing material, etc. This is not really compulsary but we have found the girls willing to help along with the work in this way. We are pleased to be able to tell you of our freewill offering at Easter, which amounted to nine dollars. Each girl earned her donation at home working for mother in different ways. One little girl we might specially make mention of. Her envelope contained forty cents. I asked her how she had earned so much—for we had found her of rather an indifferent disposition—she said by "filling the wood box twice a day."

Besides instilling a spirit for missionary work we thought the children would be made more useful at home. Each girl had the privilege of telling how her donation had been earned. We find six or eight pupils quite enough for one teacher to take care of if she expects to accomplish good work. No idle moments should be allowed, if possible. We try as far as possible to vary the exercises and work for each meeting. When we find all kinds of work a little tiresome, we spend one hour chatting over the work and drawing from each girl her ideas. It is profitable to spend the time as pleasantly as possible, introducing a social gathering or concert every second month. There is great scope for good Christian work amongst our girls, and in order to have this accomplished, each teacher should endeavor to be with he girls at every meeting, showing tha she has their welfare at heart. Man more might be added to our numbe if personal work in the homes and prayerful consideration were the two special features of our work.

PERSONAL SKETCHES.

Among the changes brought about by Mr. Bryce's break into the ranks of the diplomats, is the promotion to full cabinet rank of the son of Vernon Harcourt. His entry into the minor circle of the ministry recalls the fact that in the days of Liberal dissension Mr. Lulu Harcourt was described by Lord Rosebery's adherents as an arch-intriguer. He was not then in the House, but he was frequently in the lobby, as his father's secretary, and it was supposed that he pulled political wires. It may be difficult to reconcile the reputation which he formerly had with the characteristics now familiar to members—the soft voice, the languid manner, the conciliatory demeanour, the perfect, old-world, elaborate courtesy. Anyhow he is now happy in his political life, and serves under a leader whom he loves.

John Burns is another of the Imperial ministers who is a good deal "in the lime light," as we say in this country. No one doubts his loyalty to principle or his courage in standing by his convictions; but some mannerisms are disappearing. The familiar blue jacket is exchanged sometimes for a coat—a short morning coat, and the change in clothes may be symbolical Office and power must bring restraint and some conventionality even to Mr. Burns. But his energy, swiftness and vehemence are as great as ever. He is still one of the most vivacious figures in the lobby, talking gaily and intensely with many men, and darting a glance over his shoulder to see if he is observed. Other great politicians may enjoy notoriety as much as Mr. Burns, but they have the art to conceal their enjoyment. They affect to ignore the photographer; Mr. Burns poses obviously. Yet he is one of the most real and vital figures in a parliament which has a greater regard than its precedessors had for earnestness and thoroughness. He inspires increasing confidence. The House of Commons knows that much as he enjoys applause he will not throw over his opinions or conceal them in order to win it.

The forty thousand dollars which President Roosevelt received when the Nobel Peace Prize was awarded to him, he has given as the nucleus of a fund to establish a Foundation for the Promotion of Industrial Peace. The Foundation has been duly authorized by congress, and has the chief justice of the U. S. supreme court as president, Seth Low as treasurer and John Mitchell as secretary.

Many people in New Westminster will be pained to learn of the death of Dr. Carroll, of Vancouver. The deceased gentleman, who was a brother-in-law of A. E. Rand, of this city was one of Vancouver's best known citizens and was a man highly esteemed and popular. He was in the prime of life, and but a few months ago seemed to have many years of usefulness before him.

One of our Vancouver contemporaries was the victim of a funny error yesterday. It had an article making a timely comparison between the lovely weather we have been enjoying in this favored end of the Dominion and the frost and snow which have made May a winter month in middle and eastern Canada so far. The editor wrote the words "Unseasonable Weather" as a heading for the article, but the types made it "Unreasonable Weather." Like the vast majority of papers of that particular brand (Tory), the paper in question is a little afflicted with the vice of cocksureness—the inability to see any good in anything which does not line up with its own peculiar ideas of right; but it never intended to go the length of attributing "unreason" to Providence. Its types betrayed it.

No lumpiness in WINDSOR TABLE SALT. Each pure, rich salt-grain keeps separate, retaining all its natural strength. 150

ESTIMATE SHOWS GREAT INCREASE

GREATER SEATTLE HAS POPULATION OF 232,300 SOULS—CITY PROPER NEARLY 200,000.

Seattle, May 14.—Greater Seattle has a population of 232,300.

This estimate is made by R. L. Polk & Co., and is based upon the Polk City directory to be published about the middle of the present month, using a multiple of 2 1-4 in the computation. A multiple of 2 1-2 is usually taken to estimate populations, and the only excuse offered for the use of the lower multiple is that it would be better to underestimate the population of Seattle rather than to overestimate it.

This estimate includes Ballard, South Park, Columbia and Southeast Seattle, now in course of annexation, and West Seattle, Alki Point, Youngstown, Rainier Beach and Georgetown, which will undoubtedly be annexed to Greater Seattle within a short time.

Seattle and the territory already in course of annexation has a population of 220,100, while Seattle proper, without any of the new territory added within the last month, has a population of 196,000, based on the number of names in the new city directory. This shows an increase in the city proper of 20,000 within a year. Populations of other years compared:

1870	1,107
1880	3,533
1890	42,847
1900	80,671
1906	176,000
1907	232,300

Cricket.

At a committee meeting of the cricket club held last night in the St. Barnabas Parish rooms, the players from whom will be picked the twelve to meet Victoria on Saturday were chosen. Those selected were: F. J. Pierce, captain, J. Chappell, L. A. Lewis, H. J. Davis, A. Howard, F. S. Cameron, G. Schroeder, C. Purvis, T. S. Annandale, J. Barlow, Rev. C. W. Houghton, J. H. Vidal, A. Malins, T. Mahoney and E. Baccus. From these fifteen devotees of the English game it is expected that a team capable of holding their own with any on the coast will be selected. All those whose names appear on the list, and all the other players, are requested to be out to practice this afternoon at 2 o'clock. Another meeting will be held some time before Saturday to pick the local team, and in the meantime every possible occasion to get in some practice will be taken advantage of.

Negro Cannibals.

Berlin, May 14.—A correspondent of the Cologne Gazette, writing from South Cameroons, says that the Maka, a negro tribe inhabiting the territory between the second and sixth degrees, north latitude, are cannibals, and not only eat captives, but criminals who have been condemned to death.

BEATS OF A WATCH.

Few People Realize Immense Strain of Reliable Timepieces.

Horace Dorer, jeweler, next to tram office, when speaking to a reporter of the delicate mechanicism of a watch, said yesterday that the American watch of today was constructed to make 360 beats in one minute, 18,000 beats in one hour, 432,000 in one day, 157,680,000 beats in one year; so that a person realizing that a watch going every day for one year, and making one hundred and fifty-seven million six hundred and eighty thousand beats in twelve months, should need a little attention.

When you consider that the watch has passed through a winter, hardening the oil, or vice versa, this means that the watch in some parts will be almost dry.

Most men who own a watch think they know all about it; they have the number fixed in their memory, in case it is lost or stolen, they could probably pick it out from fifty other watches with their eyes shut, but how many men know that their watch is a compass and will tell north from south as accurately as it will tell the time of day.

Stanley, the explorer, did not know it until he had groped his way through the Dark Continent, and met a Belgian sailor on the coast.

Every watch is a compass. If you point the hour hand to the sun, the south is exactly half way between the hour and the figure 12 on the dial. Suppose, for instance, it is four o'clock point the hand indicating four to the sun and the two on the watch is exactly south. If it is eight o'clock, point the hand indicating 8 to the sun and the figure 10 on the dial is due south. No man need get lost if he carries a good watch.

Hot Weather Will Come

And then the ears of dallying people will tingle with "I told you so's."

What's the use of grumbling about the cool weather—turn it to advantage by getting ready while it's still cool, for the sweltering days just around the corner!

Remember those days last month—76 to 78 degrees—in June and July we look for it to be 86 to 88 degrees in the sun; perhaps it'll come in May—we didn't say just when, but IT WILL BE HOT!

This is a Summer Goods Store

Every department is bright with displays of those things which remind of summer. Summer Dresses, Blouses, Underwear, Hosiery Gloves, Neckwear, Towels, Millinery, Etc.

Today we speak especially of the Wash Goods, of which we have abundant supplies and advise those who intend to be cool this summer to buy the makings of dresses now and be ready for the hot days when they come.

What 10c and 12 1-2c yd Will Buy

Flowered Muslins with fine stripes running through lengthwise, checked ginghams in black, navy and red; white lawn and dainty flowered lawns, in pretty colors, 25 to 28 inches wide, 10c and 12½c

What 15c yard Will Buy

Chambrays' in grays, blues, pinks, checked ginghams in black, navy, red, pink, sky blue, best English prints; a large assortment of flowered batistes in large and small patterns; white striped and crossbar muslins and dotted Anglo Swiss muslins, per yard 15c

What 25c yard Will Buy

Splendid qualities in Victoria India Lawn, fine imported ginghams and chambrays, real Swiss "dotted and spotted" muslins, mercerized checked zephyrs, flowered and striped organdies and mulls, and a few choic epatterns in cotton voile, per yard 25c

The finer lines include flowered silk tissues, flowered French voiles, embroidered voiles, flowered Parisian organdies and checked Japanese silks in black and white and blue and white; yard, 35c, 40c and 50c

CITY NEWS

Miss Davis, of Vernon, is spending a few days in the city visiting friends.

Phone 138 for sweet cream, ice cream and buttermilk.

There will be no mid-week prayer meeting at the West End Methodist church tonight, owing to the meetings of the Methodist convention being held at that church.

For cut flowers, carnations and funeral designs telephone T. Davies & Son, florists, Tel. B208.

The trouble among the longshoremen at the Fraser river mills has been smoothed over, and all the men are back to work again. The strike only lasted for a few days, and did not cause the millmen any serious inconvenience.

Pupils of Miss Sara Dallas and Miss Lila Walker will give a musical and vocal recital in St. Patrick's hall this evening. A lengthy program has been prepared, and several well known local amateurs will take part and assist the pupils.

The German sailing vessel Schwarzenbec, which has been loading at the Fraser River saw mills for the past few weeks, will have the last of the cargo placed aboard this morning, and will be ready to proceed to its destination this evening. The Schwarzenbec is bound for South America, and has a cargo of 1,650,000 feet of lumber.

At a meeting of the Street Car Workers' union held last evening, an informal discussion regarding the annual picnic took place. The Sick Benefit committee will look after all arrangements as usual, and it is the intention of the members to commence the organizing work early next week.

Owing to pressure of other business, R. H. Cheyne has decided that it will be impossible for him to act as manager of the New Westminster lacrosse team this season, and a new manager will probably be appointed at a meeting of the executive to be held this afternoon. Mr. Cheyne has held this important position for many years, and has always given the team and the public the best of satisfaction.

Several of the Methodist ministers left yesterday to attend the annual conference which opens in Vernon tomorrow morning. Delegates from this city were: Revs. Dr. Sipprell, W. H. Barraclough, Dr. White, F. A. Magee, J. P. Bowell, and Prof. Burwash. Among other ministers from coast points are: Rev. J. S. Thompson, president of the conference, Victoria; Rev. T. W. Hall and Rev. C. M. Tait, of Cowichan.

An interesting series of picture postal cards, representing scenes during the May Day festivities last Friday, has been gotten up by W. T. Cooksley, and will be on sale at Morey's on Thursday. The pictures include scenes along the route of the parade, the crowning of the queen, children dancing around the May pole, Col. Scott making a speech, and several other equally interesting snapshots.

A meeting of last year's Citizen's Picnic committee was held at Malins and Coulthard's office yesterday evening, when the affairs for the past year were wound up. After paying all expenses, a small balance remains in the hands of the treasurer. A meeting has been called for Tuesday evening in the board of trade room, when arrangements for this year's picnic will be made. Those present at the winding up meeting were: J. H. Watson, D. E. MacKenzie, Captain Rogers, George S. Blakeley, E. W. Cook and J. H. Vidal.

Norman Malcolm, suspected of being concerned in the assault and robbery of John Anderson on Monday last, was arrested by the Vancouver police yesterday and brought back to this city by Detective Bradshaw. The arrest was made as a result of telephone messages to the Vancouver force, asking them to be on the lookout and arrest suspicious characters who landed in that city yesterday morning. All possible information as to the appearance of the men was given, and it was not long before Malcolm was gathered in by the Vancouver detectives and asked to give an account of himself. As this was not satisfactory, the local police were communicated with, and Malcolm was brought to this city. When searched, the prisoner did not have much money on him, only about fourteen dollars in all.

Spring salmon is reported scarce, the local fish merchants being in receipt of very small consignments.

The creamery delivers sweet cream, ice cream and buttermilk.

H. O. Lamb returned last night from a business trip to Nicomen island and Mission.

A meeting of the executive of the Local Council of Women will be held in the usual place at three-thirty Friday afternoon.

Mrs. A. C. Fleishman, of Vancouver, is spending a few days in the city, the guest of Mr. and Mrs. Dave Grossman, Seventh street.

The creamery delivers sweet cream, ice cream and buttermilk.

The meeting of the New Westminster Needlework Guild, slated to take place at the residence of Mrs. J. C. Whyte yesterday afternoon, was abandoned on account of the serious illness of Col. Whyte. No date for the next meeting has yet been fixed.

A prolonged attack of hiccoughs is responsible for a serious indisposition on the part of T. J. Tait, bookkeeper at T. J. Trapp's. Mr. Tait has been confined to his residence for over a week, and, although the hiccough is now over, he still remains weak, and will not be able to return to his duties for some time.

Phone 138 for sweet cream, ice cream and buttermilk.

Mrs. Drew and Mrs. Dauphinee will be "at home" to the ladies of the Missionary societies of Queen's Avenue, Sapperton and West End churches, and the delegates to the Methodist convention on Wednesday, May 15, from 4 to 6.

The municipalities of Burnaby, Richmond and South Vancouver will, at their next meeting, appoint delegates to act as a committee with the object of securing a satisfactory water supply from Seymour creek, or elsewhere, for their respective municipalities.

The gun club will hold a shoot at Moody Square this evening, and every member is requested to be on hand as early as possible. A large number of shooters have signified their intention of taking part in the shoot, and a good evening's sport is looked forward to.

Henry Eckert, of the B. C. Manufacturing Co., left for Seattle yesterday, where he will meet Mrs. Eckert, who is returning home from California. Mrs. Eckert went south on account of ill health, and is returning much benefitted.

Cut flowers and Pot Plants. Ring up Tidy, the florist. 'Phone A184.

The police has been asked to be on the lookout for a man wanted in Bellingham for forgery. It is alleged that the man, who claims to be connected with the Siemons Lumber company of that city, passed checks supposed to be authorized by the firm, to the amount of $868 and left for Vancouver on the Owl train early Sunday morning. If this is true, he will be somewhere in the neighborhood of this city, and the Vancouver and Victoria police, as well as the local force, are looking for him.

Sale of Burnaby Lots.

A successful sale of Burnaby lots was held last night in the offices of W. J. Kerr, when a new subdivision, known as Baynescroft, was disposed of. About 50 lots were sold at an average price of $100 per lot, corners going for $125 and others for $80 and $90 each. A prominent local real estate broker was one of the heaviest buyers, while a large number of Vancouver investors bought up the bulk of the property.

Look! Look!! Look!!!

JUST ON THE MARKET.
JUST ON THE MARKET

Vancouver manufacturer needs good men to represent the very latest novelty. Agents coining money. Get wise, start working for yourself. Everybody buys on sight. Profits over one hundred per cent. Don't waste time asking foolish questions, but send one dollar for finest samples in America.

LAURIER'S SCHEME ADOPTED.

Imperial Conference Falls in Line With Sir Wilfrid's Views.

London, May 14.—The Imperial conference, at the closing session today, adopted the motion of Sir Wilfrid Laurier, in favor of an all-British subsidized steamship route from the United Kingdom to Australia by way of Halifax. A Vancouver committee is to be appointed to inquire into the cost of such a route and draw up a definite proposition on the subject.

The motion of Sir Wilfrid Laurier is designed to bring about a reduction in freight charges, thus giving an indirect form of preference to the British colonies, reducing the time from England to Australia to twenty instead of thirty days, and in the end diverting the traffic now going by way of New York to the Canadian route.

The clerks at the land registry office are now working overtime during the evenings in order to enable them to cope, to a certain extent, with the large amount of work which they have to do. The extra clerk, who was to have been appointed some time ago, has not yet put in an appearance.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

FORESHORE LEASES.

Notice is hereby given that, 60 days after date, I intend to apply to the Hon. Chief Commissioner of Lands and Works for a lease of the foreshore right for booming and milling purposes, comprising the whole of a bay, given the name of Independent Bay, situated about two miles south of the north end of Costi Island, on the east bank of Kitimat Arm, and about two miles south from Kildala Arm.

Located April 5th, 1907.

WILLIAM MOODY, Locator.
FRANK VANDALL, Agent.

LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Florence Mary Eveleigh as the owner in Fee Simple under a Tax Sale Deed from The Corporation of the District of Burnaby, to James Cunningham, bearing date the 19th day of March, A. D., 1902, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as subdivisions 23 and 24 of subdivision "A" of lot 29, group 1.

You and each of you are hereby required to contest the claims of the tax purchaser within forty-five days from the date of the first publication of this notice, otherwise I shall register Florence Mary Eveleigh as owner thereof in fee. And I hereby direct that publication of this notice for thirty days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 25th day of April, A. D., 1907.

C. S. KEITH,
District Registrar.

To L. A. Bayne, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

LAND REGISTRY ACT.

TAKE NOTICE that an application has been made to register Alice B. McDougall, as the owner in Fee Simple, under a Tax Sale Deed from the Mayor and Treasurer of the City of New Westminster, to Alice B. McDougall, bearing date the 15th day of January, A. D., 1906, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of New Westminster, in the province of British Columbia, more particularly known and described as: Subdivision 30 of Lots 8 and 9 Suburban Block 3.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice, otherwise I shall register Alice B. McDougall as owner thereof in fee. And I direct that publication of this notice for thirty days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office New Westminster, Province of British Columbia this 25th day of April, A. D., 1907.

C. S. KEITH,
District Registrar.

To William Edmonds, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

NOTICE.

Department of the Interior,
Ottawa, April 25th, 1907.

Tenders for License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 521," will be received at this Department until 12 o'clock noon on Wednesday, the 24th day of July, 1907, for a license to cut timber on berth No. 521, comprising lands situate in the Province of British Columbia, to the East of Chehalis Creek and Lake and comprising 5 blocks, described as follows:

Block 1.—Comprising that portion outside Timber Berth No. 44, Block 1, and Timber Berth 254 Block 1, of Section 23, Township 4, Range 30, West of the 6th Meridian, containing an area of 387 acres, more or less.

Block 2.—Bounded on the west by Chehalis Creek, on the east by Timber Berth 298 Block 1,and the east boundary of same produced northerly to Timber Berth 298 Block 2; on the north by Timber Berth 264 Block 2, and 298 Block 2; and on the south by Timber Berth 254 Block 1, containing an area of 725 acres, more or less.

Block 3.—Commencing at the south east corner of Timber Berth 298 Block 2, thence north-easterly at right angles to the easterly boundary of said Berth 298 Block 2, 2 miles; thence north-westerly at right angles to last course, 54 chains; thence south westerly, at right angles to last course, 2 miles to easterly boundary of said Berth 298 Block 2; thence south-easterly along said boundary to place of beginning, excluding therefrom any portion of Timber Berth 308, which might fall within the same, containing an area of 864 acres, more or less.

Block 4.—Commencing at a point on the easterly boundary of Timber Berth 302 Block 1, 5 chains south-easterly from the north-east corner thereof; thence south-easterly along said easterly boundary 80 chains,more or less, to the angle in said east boundary of Timber Berth 302; thence north-easterly, at right angles to last course following the boundary of said Berth 302, 40 chains; thence north-westerly paralled to first course 80 chains, more or less, to correspond with length of first course; thence south-westerly paralled to second course 40 chains, to point of commencement, containing an area of 320 acres, more or les.

Block 5.—Commencing at a point on the easterly shore of Chehalis Lake, 50 chains southerly from northerly end of said lake; thence southerly along said easterly shore of lake, 2½ miles in direct distance, with a depth of 67 chains on said east shore, measured at right angles to the general bearing of said easterly shore of lake within the block, containing an area of 1,340 acres, more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained. The highest or any tender not necessarily accepted.

PERLEY G. KEYES.
Secretary.

Department of the Interior,
Ottawa, April 24th, 1907.

LISTER LECTURES ON ELECTRICITY

METHOD OF TRANSMITTING THE GREAT NATURAL FORCE EXPLAINED BY AN AUTHORITY.

Before an audience not nearly as large as the quality of the lecture deserved, J. G. Lister, the eminent electrical scientist of Vancouver, delivered an interesting and instructive lecture on the methods employed by the B. C. E. R. company in transmitting the greatest of all natural force into light and power. Mr. Lister handled his rather difficult subject in a manner that proved him to be one who has devoted a great part of his time to this study. By a clear and concise discussion of the subject, which, though devoid of superfluous technical terms, was yet absolutely accurate, and aided by excellent lantern views and experiments which permitted every one in the audience to see for himself every part of apparently complicated electric secrets, the lecturer made clear to all the manners in which the power is brought from Lake Buntzen to this city.

For over two thousand years, prominent men have been trying to find out what electricity really is. It is only very recently that scientists think they have discovered the secret. One of the most important discoveries in connection with it is the fact that it can be produced by chemistry. A magnet and a coil of wire are the basis of all electrical workings, simple as this solution for some of the wonderful things done by the great power may seem. The production of the greatest and most powerful magnets which generate power for some of the most important plants in the world, was shown by the lantern and fully explained by the lecturer. Views of the machines and power producers at the big plant at Lake Buntzen were shown on the screen, and the audience listened to a description that was almost equal to being taken over the works.

At the conclusion of the lecture, a number of prominent gentlemen in the audience, representing the school board and other important institutions of the city, complimented Mr. Lister upon the ability which he showed in handling his subject, and expressed themselves as being much enlightened upon the science. The position of chairman for the evening was ably filled by Mr. McMillan, who performed the duties in a creditable manner, and proposed a vote of thanks to the speaker, which was unanimously carried.

Hotel Guests.

Guichon—L. J. Smith, Chilliwack; H. H. Davison, Toronto; P. D. Roe, Port Moody; R. A. Nicholson, Greenwood; N. H. Milers, Vancouver; J. A. Rogers, Huntingdon; R. Baley, 150-Mile House.

Windsor—H. Gibbs, A. Robertson, Pemberton; M. Duncros, J. E. Harvey, Vancouver; J. Lowerson, Mission; W. P. Barnour, St. Paul; B. M. Currie, Cincinnati; G. H. Turner, Mission; J. A. Rogers, Huntingdon.
