CITIZENS' PICNIC TWO WEEKS HENCE

Princess Beatrice Secured For Trip to Bellingham Wednesday, August 14.

After meetings innumerable and postponements galore, the date and details in connection with the citizen's picnic have at last been arranged, and everything is now settled. The excursion will take place on Wednesday, August 14, exactly two weeks from today. Bellingham has been selected as the objective point, and the Princess Beatrice is hired for the occasion.

A full meeting was held yesterday evening when final arrangements were made. The Princess Beatrice has accommodation for 400 persons, and although an effort was made to have the license inspector make a special exception in this case, nothing has been done, as it would be creating a bad precedent. Everything possible for the comfort of the excursionists will be on board the boat, the dining room crew having been engaged for the occasion, so that meals may be obtained at any time during the trip. The Princess Beatrice will leave New Westminster at 7 a.m., and will be due to return about ten or eleven o'clock at night.

A special committee, consisting of T. A. Gilley, E. W. Cook and D. E. Morrison, was appointed to make the necessary arrangements for the supply of music on board the boat. An effort is to be made to secure the services of a good orchestra, as this is preferred by most people to a band on a water excursion of this kind. The New Westminster city band will be asked to furnish the orchestra from among its members.

Included in the sport will be a baseball match between the New Westminster seniors and the Bellingham team. J. H. Watson and J. H. Vidal have been appointed to look into details concerning this.

The usual picnic sports and attractions will also be in evidence, while the mayor and council of Bellingham will be notified of the coming of the excursionists, and it is likely that a formal welcome will be made to the New Westminster citizens.

It is probable that Mayor Keary will be asked to make August 14 a civic holiday, in order to allow everyone in the city to take part in the excursion. Tickets for the picnic will be on sale by the members of the committee within a few days, the price being $1.50 for the round trip. There will be no reduction in the price for children, the committee adopting this plan in order to protect itself, as all persons going aboard the boat will be checked by the officials, and only the number hundred will be allowed to make the trip.

The full committee in charge of all arrangements consists of George Lakely, chairman; E. W. Cook, W. A. Gilley, F. P. Maxwell, J. H. Vidal, J. H. Watson, W. Davidson, R. H. Benson, Capt. J. W. Rogers and D. E. McKenzie.

Open Up Big Tract.

Fredericton, N. B., July 30.—The provincial government has completed the transfer of 50,000 acres of land from the New Brunswick Railway company. The deed is ready for the government and the title will be taken within a few days, the price which the government is paying for the land is 75 cents an acre, and it will be sold to settlers in 100 acre lots at that price plus the cost of survey and interest. The land is in Victoria county, and is known as the Blue Bell tract. It is well watered by branches of the Tobique river, and Grand Trunk Pacific railway surveys show that the road will pass through the northeast end of it.

Famine in Jamaica.

Kingston, Jamaica, July 30.—The central districts of the island of Jamaica are suffering from a severe drought, and the outlook for the banana crop is not bright. The drought has caused more loss to the island than the earthquake of January last. There is a famine in some parts of the island, especially in the province of Elizabeth, where actual cases of starvation have been reported. There was a slight shock of earthquake last Sunday morning.

PETREL IS HERE.

Steamer Arrived Yesterday From Victoria—Movements Uncertain.

The Dominion government steamer Petrel arrived in port last evening from Victoria, in charge of Captain Berry. She came in at 7 o'clock, and tied up at the government wharf, where she will await orders as to her future course. When interviewed Captain Berry stated that he did not know why the boat had been sent to New Westminster, or what she will do now that she is here. He had received orders to proceed to this city and in accordance with these instructions, he had left Victoria yesterday afternoon.

The Petrel has just left the ways at Victoria after having undergone repairs. She was used as a tender to the new dredge Mud Lake in Victoria harbor all last winter, and has now been relieved by the steamer Princess.

Bowser May Be Opposed.

Vancouver, July 30.—It is understood that as the result of some of the meetings which were held last night, Joseph Martin has been approached with a request that he make the running as an independent candidate in opposition to Mr. Bowser. To this request Mr. Martin is reported to have made such answers as to plainly indicate that "Barkus is willin'" provided always that support is pledged from certain sections of the labor and liberal vote. Mr. Macdonald, the provincial liberal leader, has been wired on the subject, and much depends on his answer.

WOOL SMUGGLERS RUN TO EARTH

Lindsay Seems to Be Favorite Haunt of Crooks Of Divers Kinds.

Lindsay, July 30.—The town is stirred with another sensation that promises to rival the thrilling incidents of the counterfeit cases. Only a few days have passed since Lindsay was heralded as the centre of the operations of a gang of bogus moneymakers and passers, and well known citizens were arrested and cast behind iron bars. Right on the heels of the sleuths who ran these men to earth have come others. They are working on another get-rich-quick scheme, this time from furs, which has been developing for several months into extensive proportions.

Lindsay is looked on as a centre which game wardens of the province have been working to change the furbearing animals of the Algonquin park into cold cash.

Certain Grand Trunk railway officials may also be asked for explanations.

The scent is being followed hotly and detectives are at work trying to trace a connection between the government preserves in the north, Lindsay as a stopping-off place for the furs, and Toronto as the end where the pelts illegally obtained were sold at figures that meant a fair profit to the original game men, the middlemen, and the fur dealers.

The trail has become so hot that a resident of the district is said to have disappeared. He is wanted very badly, and when he shows up will be asked to explain his frequent trips north to secure "wool," and his equally frequent trips to Toronto to dispose of that "wool."

CURZON'S ADVICE.

Late Viceroy of India Criticizes Colonial Office.

London, July 30—Lord Curzon, chancellor of Oxford university, speaking at a banquet given in his honor, after expressing the opinion that the trouble in India is only skin-deep, strongly criticized what he described as Great Britain's "unscientific hugger-mugger method of administering the empire."

He said that no country in the world had such a reserve of experience and authority in the art of civil government and made such little use of it.

The colonial office, he said, was made up of permanent officials, many of whom had never set eyes on the colonies they administered.

He asked why there should not be an Imperial council of some kind to assist in their administration.

ARREST OF INDIAN REVIVES MYSTERY

Murphy Murder Suspect Held By Provincial Police—New Light Thrown on Case.

Another chapter was added yesterday to the now well known Alex. Murphy murder mystery, when Pat Thompson, a young Indian residing on Nicomen island, was placed under arrest by the provincial police and is being held on suspicion that he knows more of the murder than he has told to the police.

Since Dan Billy and his father, both of Harrison, were committed last spring to stand trial on the charge of murdering Alex. Murphy at Harrison last February, the case has taken up very little attention, but all this time Provincial Constable Lane, in whose territory the murder was committed has not been idle. Guided by a firm suspicion that Pat Thompson had something to do with the case, he tracked him about the district for months before he was successful in his search.

Yesterday morning he found Pat on Nicomen island. The Indian's answers to questions strengthened Constable Lane's conviction that the Indian was aware of the facts. He therefore advised Pat to accompany him to New Westminster, where the Indian was given in charge of Chief Constable Spain.

Constable Lane has gathered considerable other new evidence which may be material when the trial for the murder comes on at the next assizes. A man named Yoemans is prepared to assert, reports Constable Lane, that he saw Indians driving along the road near Harrison on the night of the murder with either a drunken or a dead man in the wagon. The human form did not move while he had an opportunity of watching it.

Alex. Murphy disappeared from the house of a friend where a dance was being held at Harrison early in the month of February last. He was never seen again. After weeks of investigation, Provincial Constable Spain and his officers obtained conclusive proof that the Indian had been murdered. It was even learned that the body had been carried along the Harrison lumber mill yard and burried in the saw dust near the water, and that it was later raised and re-interred in another place. Dan Billy and his father were arrested and charged with the crime. Dan was accused of murder, and his father with having been an accessory after the fact. Both men were indicted by the grand jury at the spring assizes, and they were committed to stand their trial this fall at the assizes.

Hewitt Mine Sold.

Nelson, July 30.—It is understood that the sale of the Hewitt mine for $180,000 has been consumated and that $50,000 has already been lodged by the buyers, who are New York people.

MINTO CUP PROPOSITION UNKNOWN TO OFFICIALS

If there is any proposition on foot to send the New Westminster senior lacrosse team east this fall to compete for the Minto cup, such a plan has not been confided to the directors of the team. Members of the executive of the club stated last evening that the subject had not been discussed, and it was improbable that a team would go east.

"The present New Westminster team has never been up against a really fast aggregation," stated a prominent member "and they have therefore no idea of the kind of showing they would make in the east. After their match with the Tecumsehs or some other fast eastern team in New Westminster during exhibition week, they will be able to form some idea of what they can do down east."

The person interviewed, who was a member of the last team which was sent east, stated that in order to win on strange grounds, with the crowd and referee pulling for the home team, a coast aggregation would need to be about 35 per cent. better than the easterners.

ONE ON THE PREMIER.

Hon. Richard McBride in City Yesterday—He Set 'em Up.

The Hon. Richard McBride, premier of the province, spent yesterday afternoon in the city, visiting his parents and other old friends, and boarded the steamer Charmer at 11 o'clock last evening en route to Victoria. He was summoned to appear in Vancouver to give evidence in the Green vs. World libel suit and having discharged his obligation to the court yesterday morning, he was at liberty to spend the balance of the day in a care-free manner.

A News reporter bumped into the premier last evening at the tram office as the latter was waiting for a car to take him to Vancouver.

While the scribe was puzzling his head for pertinent questions which might mean "scoops," his plan of action was shattered by an invitation from the premier to have an ice cream soda "on him." Between drafts at the straw, the premier asked questions about the News, the town, and other matters of local interest, and then was gone to catch his car before the hoped for information on affairs of state had been secured.

Close Time Regulations.

The News is indebted to the courtesy of Inspector Sword for the following copy of a dispatch received by him yesterday from the fisheries department:

"This department informed boats fishing salmon above New Westminster bridge, Sunday night.

"Amending regulations, requiring that no one shall fish for salmon with nets less than seven inches (mesh) from 6 a. m. Saturday to 6 a.m. Monday, above bridge, now gazetted."

As no one is allowed to fish either above or below the bridge or outside the river for that matter, with any nets, of any mesh, from 6 a.m. Saturday till 6 p.m. Sunday, it would appear that the above dispatch has become somewhat twisted in transmission, and that the meaning of it is that the extra 12-hour close time above the bridge (6 p.m. Sunday to 6a.m. Monday) applies to sockeyes, or small mesh, nets only, and does not affect spring salmon fishing. The information on which the department acted was sent, it is understood, by a "spotter" in the employment of the McBride government.

Toronto Fights MacKenzie.

Toronto, July 30.—An interesting fight is now on between Wm. MacKenzie and the city of Toronto. The railroad magnate has for years been trying to close Edmonton street, as he owns all the property on the south side, and nearly all on the north side. He now wants to put big gates at each end of the road and keep out the general public.

Twice he has attempted to put up gates and had holes dug when the city engineer's men came along and filled them again. Mr. Mackenzie is now building gates on the extreme edge of his own property and the city is carefully watching till he gets on to the road allowance. The city engineer says he will have him brought up in the police court.

ALL-CANADIAN TOURISTS SHUT OUT AUSTRALIANS

By the overwhelming score of 11 goals to nothing the All Canadian tourists in Australia won their second game in the Antipodes, this time defeating the New South Wales team. The stick handlers from New South Wales were not by any means up to the standard of the Queensland club, being far less able to cope with the experience and superior combination of the Canadian tourists. It was fairly interesting, but the Australians were not nearly as proficient at the game as the tourists expected after playing the Queensland team. The Canadians simply did as they pleased with their less experienced opponents.

The tourists are gradually working their way to the southern part of Australia, having started at Brisbane, and are now probably far down to the south. They will meet some of the teams from the big cities in the south there. They seem to be drawing the crowds, and this is what will appeal to them more than anything. They are apparently putting up a good game, much better than was expected when they left here and look as though they would win all their games while abroad.

FORTY MILLIONS PLACED ON MARKET

C. N. R. Stock Offered to Public For First Time in History of Road.

Montreal, July 30.—It was stated in financial circles yesterday that the common stock of the Canadian Northern Railway Co., amounting to $40,000,000, will be placed on the market at a very early date or whenever the different stock exchanges of the world are in better condition to absorb new issues. In the opinion of railway men and financiers the world over the promoters, Wm. Mackenzie and D. D. Mann, president and vice president respectively, have performed wonders in being able to construct their already large system in both eastern and western Canada without the issue of any portion of the company's common stock, hence the interest today when it was learned that the security was at length to be offered to the public.

It is known that up to the present day Mackenzie and Mann have been the exclusive holders of the Canadian Northern's common stock and it is not yet known how great a portion of it will now be issued. It is stated that J. H. Dunn will have charge of the issue in London and that it will also be listed on the Montreal and Toronto stock exchanges in the near future.

FAKE FIGHT FRAUDS BUNKO GAME SPORT

Easy Mark Parts With a Thousand Simoleons to See Ink Filled Bag Burst.

Omaha, July 30.—By a fake prize fight, following a long ride from Louisville to Council Bluffs, Henry Hazelbaum, a Kentucky thoroughbred sport, was made the victim of one of the most elaborate confidence games known to the Omaha police.

R. L. Thielman, brother of the Cleveland pitcher, and E. A. Alstean are under arrest here charged with being the principals in the affair and with profiting $1,000 by the deal. Hazelbaum was approached in Louisville by Alstean with information that a prize fight, strictly secret, of course, was to be pulled off in Council Bluffs. Thielman represented himself as a prize fighter named Casey. His opponent was called Gorman.

Hazelbaum was permitted to bet more than $18,000 on Casey, but the bets were all contracted with confederates of the gang and were made with bogus $1,000 bills. Finally the Casey money ran out and the victim was induced to bet $1,000 of his own money, at odds of 2 to 1 and Hazelbaum also put up his diamonds and other valuables, which he valued at another thousand.

The fight was actually pulled off for Hazelbaum's benefit at a Council Bluffs hotel. In the third round Gorman struck Casey flush on the mouth and ruptured a small sack filled with red ink. At the sight of the spilled "blood" Hazelbaum fainted. When he came to he was warned that the police were seeking him for promoting a prize fight, and he took the first train home.

Detective Ross of Louisville is here, and will take Thielman and Alstean back to Kentucky for trial in the state where the deal was hatched. They are charged with conspiracy to defraud.

Pekin, July 30.—The Chinese government has formally announced its assent to the proposal made by the United States for a joint investigation by the powers, including China, into the whole question of the opium trade and of the production of opium. Details of the procedure will be arranged later. China's delay in acceptance was due to a misunderstanding on her part that six independent commissions contemplated such an inquiry, as well as a series of inspections in the interior of China. About a month ago Mr. Rockhill, the American minister, formally communicated to the Chinese government the proposal of the United States for an inquiry of theopium trade by a commission which should include in addition to China and the United States, Great Britain, France, Germany, Hol-

PUNISHED FOR LYING.

Man Perjured Himself at Hazelton—Three Years in Pen.

Because he did not tell a plain truthful story while giving evidence before a court at Simpson last winter, Charles Stevens, of Hazelton, was sentenced to serve three years in the penitentiary for perjury very recently by Judge Young, of Hazelton. Stevens was brought to New Westminster yesterday, and was turned over to the penitentiary authorities.

The foundation for the case was laid last winter when Stevens was being tried on a charge of supplying liquor to an Indian woman. He swore that he had not had any dealings with the woman, a statement which was shown by evidence to be false. Stevens has already served six months for supplying liquor to Indians.

THREE THOUSAND STRIKE.

Discharged Workman Cause for Acute Situation on Rock Island.

Minneapolis, July 30.—Three thousand carmen are on strike on the Rock Island railroad, and trouble is imminent on the Northern Pacific.

Thirty-one shops and 3,000 men on the Rock Island are affected by the order issued from St. Paul by Frank L. Ronemus, chief of the Brotherhood of Railway Carmen of America.

The strike was ordered because the road refused to reinstate a workman who, the chief carman thinks, was wrongfully discharged from the big Moline shops. It is said to be part of the agreement with the road that no man shall be discharged without cause. Mr. Ronemus was in St. Paul attending to the grievance of the Northern Pacific car men, who want more wages and an equalization of the rates by classes.

The principal Rock Island shops are at Moline, Silvis, Ill.; Chicago; Horton, Kan.; Shawnee, Okla.; Cedar Rapids. The union men say that the Rock Island trains are not inspected as they should be, and they will call the case to the attention of the interstate commerce commission. E. A. Dunn, the man discharged, was a painter at Silvis, who was said to have removed his working clothes before the shop whistle blew.

Love, Suspicion, Shooting.

Coalgate, I. T., July 30.—Believing that the relatives of his three week's bride had induced her to separate from him, Edgar Doyle this afternoon shot and killed her. Turning the weapon upon Alice Dobbins, sister of his slain bride, the young man fired two shots at her. She died from the wounds in a few hours.

Young Doyle stood above the bodies of the young women for a moment and then fired a shot into his own brain, killing himself instantly.

The young couple were prominent here and both are members of good families. Their wedding three weeks ago was one of the events of the year and everyone prophesied a bright future for the young people. It was little more than a week until the bride left her husband and refused to discuss a reconciliation.

Doyle believed that the family of the young bride had been responsible for the estrangement. He openly accused his wife of this just before firing the fatal shots.

Strikebreakers Living in Comfort.

Fitchburg, July 30—Strikebreakers who have been brought here in an attempt to break the strike of 300 machinists are living in comfort. They are quartered in the fifty-thousand-dollar Fitchburg Athletic club gymnasium and have all manners of luxuries. The kitchen is presided over by a French chef. They have the free run of the place and at night the billiard and card roms are in constant use by them. The striking machinists want better pay and shorter hours. The master machinists have determined to resist the demands.

Canadian Capitalist in Brazil.

Rio Janiero, July 30—Messrs. Harvey Graham and Leslie Jennison, who are at the head of a company of Canadian capitalists, have proposed to the Brazilian government that in return for certain concessions they will undertake to work the iron mines, assuring the exportation of at least a million tons.

The Lulu island bridge, after being closed to traffic for a few days, was reopened again yesterday morning. The damage which had been sustained by the

COMMISSIONER WILL PROBE JAP PROBLEM

Nipponese Government Is Sending Representative to Look Into Situation.

Vancouver, July 30.—The Imperial Japanese government is sending a special commissioner to Hawaii, the United States and the Dominion to study the Japanese labor question at close range. This important mission has been entrusted to K. Ishii, director of the Commercial Bureau of the Japanese foreign office. Mr. Ishii reached Honolulu yesterday on the Nippon Maru, according to a private cable received in Vancouver today.

The decision of the Japanese authorities to send him abroad was primarily due to a desire to have a detailed report of the labor troubles in California as regards existing conditions, and the alleged ill-treatment and discrimination shown the Japanese immigrants. His countrymen are now virtually excluded by virtue of President Roosevelt's executive order of last April requiring new arrivals—who must come direct from Japan—to be provided with passports. However, there is a large Japanese population in California.

Mr. Ishii will visit Vancouver and Victoria on the homeward trip to study labor conditions, as it affects the Japanese. Upon the nature of his report will depend whether the Japanese government will adopt measures to prevent further emigration to Canada and the United States.

After completing his investigations in California, the commissioner will go east to Washington and Ottawa. He will probably further discuss the matter with the authorities at both capitals.

Bookies Barred at Regina.

Regina, July 30.—There will be no book-making at the Regina fair this year, although one of the best race cards ever put on in the west is to be run, and every race will fill. The repartment of agriculture of the province and the department of the attorney general have shut down on the book-making and those who desire to make the races more interesting by wagers will either have to buy the pools down town or make private bets on the grounds.

The result will doubtless be better racing from the standpoint both of the public and horse owners, for it is thought that last year there were some drivers who might easily have won had they not wanted to let the bookies down easy.

Last year the provincial government withheld the grant from the fair because book-making was allowed on the grounds. A protest was made against it during the far, but the practice was not stopped, and when it came time to hand over the government money, there was no check forthcoming for the Regina fair management.

Volcanic Eruption in Ocean.

Sidney, N. S. W., July 30.—Reports from the Tonga islands say that seven columns of volcanic eruptions were visible at sea for two weeks recently fromth e island of Tongatabu, within an area of two miles. The eruption has been accompanied by a continuous roaring noise and frequent explosions. Black pumice stones in large quantities were thrown as far as Nukualofa, the capital of Tongatabu, a distance of 30 miles. The Tongan government Gazette states that land is forming around the scene of the eruption and it is believed that a new island is in the process of formation. The Tonga or Friendly islands are in the south Pacific ocean, lying southeast of Fiji. In October, 1885, a violent submarine volcanic eruption took place about 48 miles northwest of Nukualofa, resulting in the submergency of an island nearly three miles in length by one in width.

To Investigate Opium Trade.

Pekin, July 30.—The Chinese government has formally announced its assent to the proposal made by the United States for a joint investigation by the powers, including China, into the whole question of the opium trade and of the production of opium. Details of the procedure will be arranged later. China's delay in acceptance was due to a misunderstanding on her part that six independent commissions contemplated such an inquiry, as well as a series of inspections in the interior of China. About a month ago Mr. Rockhill, the American minister, formally communicated to the Chinese government the proposal of the United States for an inquiry of theopium trade by a commission which should include in addition to China and the United States, Great Britain, France, Germany, Holland and Japan.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Cumberland, B. C.," will be received at this office until Monday, August 19, 1907, inclusively, for the construction of a public building, Cumberland, B. C.

Plans and specification can be seen and forms of tender obtained at this department and on application to the postmaster at Cumberland.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted check on a chartered bank, made payable to the order of the honorable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the check will be returned.

The department does not bind itself to accept the lowest or any tender.

By Order,
FRED. GELINAS,
Secretary.

Department of Public Works.

Newspapers inserting this advertisement without authority from the department will not be paid for it.

Liquor License By-law 1889, Amendment By-law, 1907.

A bylaw to further amend the "Liquor License By-law 1889."

The municipal council of the corporation of the city of New Westminster enacts as follows:

(1) Section 12 of the "Liquor License By-law 1889" is hereby repealed and the following substituted therefor:

"12. No new license for the sale of liquors shall be granted unless, in addition to the other requirements and provisions in that behalf required by law, a petition or requisition for the granting of such license, signed by a majority of the qualified electors resident within the division in which are situated the premises in respect of which the license is sought, be delivered to the clerk or acting clerk of the corporation at the time of delivering to him the petition mentioned in section 6 of this bylaw, and he shall thereupon transmit the same to the licensing board, and the board shall not be bound to grant such license, if in the opinion of the majority of the board then present the public interests justify a refusal, provided that the petition herein provided for shall not be necessary upon any application for a wholesale license. For the purpose of this section the city shall be divided into the following divisions:

1st. All that portion of the city lying west of the middle of 12th street.

2nd. All that portion of the city lying betwee the middle of 12th street, and the middle of 8th street.

3rd. All that portion of the city lying between the middle of 8th street, and the middle of 4th street, and a line being the northeasterly boundary of 4th street produced to the Fraser

4th. All that portion of the city lying between the third division, and the northeasterly boundary of Queen's park and a line being the said northeasterly boundary of said park, produced to the northwesterly boundary of the city, and to the Fraser river, also that certain parcel of land on the south side of said river included within the limits of the city.

5th. All that portion of the city not included in the divisions hereinbefore described.

(2) This bylaw may be cited as the "Liquor License Bylaw 1889, Amendment Bylaw 1907."

Done and passed in open council this 22nd day of July, 1907.

L. S. W. A. DUNCAN, City Clerk.
W. H. KEARY, Mayor.

THE MORNING PAPER IS THE BEST PAPER FOR ADVERTISERS.

UNKNOWN SCHOONER SEEN IN DISTRESS

Lumber Freighter in Danger of Drifting on Rocks Off Vancouver Island.

Victoria, July 30.—A four-masted schooner, name unknown, was close to the rocks off the Vancouver island coast yesterday and but for a fortunate change of tide would have piled up on the rocks near Clo-Ose, not far from where the barkentines Vesta, Uncle John, and Janet Cowan went aground.

The vessel, evidently a lumber schooner, was sighted from the lighthouse off Carmanah point yesterday morning, according to a message received here. She was then three quarters of a mile away from the shore and two miles south of Carmanah. All morning she lay close in shore and in danger of drifting on the island coast. She was becalmed and helpless, and it seemed that she was likely to be set on the rocks, when at the change of tide yesterday afternoon she drifted off shore.

At 8 a. m. yesterday the schooner Winslow, a vessel of 496 tons, 17 days out from San Francisco, in ballast for Winslow to load another lumber cargo for the Golden Gate, was reported from the entrance to the straits in a sinking condition. When the news was received tugs were ordered to her assitance from Neah bay. The Winslow was completely waterlogged.

At 12:20 p. m. a message was received from Tatoosh that the vessel had been picked up by a tug and was passing into the straits in tow. The observer at the Tatoosh weather station reported that water was over the deck of the schooner. She passed Port Crescent at 6 p. m., bound for Port Townsend on her way to Winslow mills.

Franklin Camp.

Grand Forks, July 30.—Franklin camp is again making good by showing up new finds of splendid copper ore. On the Buffalo and adjoining claims owned by Captain Rogers, Bert Averil, and the McDonald Bros., of Phoenix, all situated west of the well known Gloster mineral claim, a lead of ore has been exposed which is of an unusually fine type. The copper is in the form of chalcopyrite and bornite and will certainly give some remarkable assays.

Captain Rogers is one of the veteran mining men of the district. He was a "forty-niner" and has had lots of experience in Montana and Colorado camps. He has long been interested in southern British Columbia and in spite of his advanced years is one of the most active men in the hills. He vows that Franklin will yet put all the other camps in the shade and he is one of the men who knows what he is talking about.

Hotel Guests.

Guichon—F. W. Adams, Revelstoke; W. H. Bottom, Minneapolis; George W. Bolton, Seatle; A. F. Hall, Vancouver; P. M. Smith, Victoria.

WATER ONCE MORE.

At any other time we should feel it necessary to apologise for printing three consecutive articles about even such an important matter as our water supply; but just at present it appears well, for several reasons, to go fully into the matter.

As stated in a previous article, the civic authorities of the day felt that they had done as much as could be or should be undertaken at the time, when they had put in a system which was capable of supplying water enough for the ordinary use of eleven or twelve thousand people, and when they had done it in such a way that a supply by gravitation was available "up on the hill" even for fire protection, and that only a small number of outlying residences were beyond reach of connection with the mains. The amount of water coming through the main pipe (except twice for a few hours each time, when breaks occurred) has been constant—varying a little only as the rise and fall of the lake made the "head" a little more or less. Some defect or inefficiency of the main pipe was blamed for the low reservoir which was the main cause of the disaster of '98, but the subsequent investigation showed that leakage in the distribution system, not defect in the main, was the real cause.

The complete system contemplated a second reservoir in, or at the level of, Queen's park. This was to be connected with the main by a pipe which would be laid, practically, on the level, and would receive its supply under a head of somewhere about 170 feet. That would mean, of course, the delivery of a very much larger amount of water than the present reservoir receives, and as the manufacturing establishments, the hotels and offices, and a very considerable number of residences would take water from this second reservoir, the draft on the upper one would be greatly diminished, and enough water to keep it full would be available. In this way it was calculated that a population of something like twenty thousand could be supplied before it would be necessary to go in for any construction expenditure other than the cost of the second reservoir which was to complete the system.

In 1899, an engineer whose reputation as an expert in such matters stands very high, was employed to go over the whole system, and he fully approved of the plan of a second reservoir, and furnished the council with detailed particulars as to its construction and operation. These, we presume, are still in the city hall.

The building of a dam at the outlet of Coquitlam lake was mentioned by all the engineers who have reported on the waterworks, and while all of them agreed that it would be useful, as it would raise the "head" and increase the flow through the main, they also agreed in saying that it would "cost more than it would come to"; that is, the extra supply obtainable would not be worth the money. New Westminster was able, however, to secure the advantage without the cost, as the B. C. E. Ry. built the dam in connection with their power scheme. The increased flow thus secured gives us a supply of water sufficient for the present population for about nine months out of the twelve; and the added expedient of pumping makes the supply large enough to see us through this summer with nothing worse than some inconvenience; but population is growing; manufacturing establishments are coming in, and we must provide for the immediate future if we are to keep up to date.

Although we are not in possession of exact information on the point, we believe that the use of water in New Westminster is larger per head of the population than in the average city. This is not because we have a greater proportion of wasteful users—they are in all communities—but because our use of water in manufacturing establishments is large. This must be taken into account. Putting the allowance for "ordinary use" at a liberal figure, manufacturing establishments took last year enough water for fifty days "ordinary" supply of ten thousand people. No one grumbles at that—quite the contrary; but such a condition was not taken into account when the works were built, and the necessity of making provision for it—and for extensions of it—must be reckoned with now. Again, more new services were put in during the first six months of this year, than during the whole of last year, and it would be a fatal mistake to drift into a condition which would make it impossible to meet this growing demand. The council should meet all reasonable demands for new services in the most liberal spirit, and should make extensions of the distribution system with an eye to future as well as to immediate requirements.

The Daily News has no intention of dogmatizing about what should or should not be done; neither does it propose to indulge in foolish talk about "tanks in which water may become stale" and ignorant rubbish of that kind. The only point as to which we care to be positive is that there must be no amateur tinkering with the system. We had enough and to spare of that in '98. The original plan of the works, before it was adopted, was submitted to one of the foremost consulting engineers on the continent, and, as we have said, the city has in its possession the report of the expert who examined the system in 1899.

The steps recommended when extension should become necessary were—

A second reservoir at Queen's park level, taking its supply under greatly increased pressure, as compared with the original reservoir, and so "gated" that there would be no overflow—the full supply of the main going on to the upper reservoir when the lower was full.

Selling all water by meter.

A second main to the lake.

Raising the banks of the original reservoir was also contemplated; but this, while it would be very welcome to residents on the upper levels, as it would increase the pressure both for irrigation and fire protection, would hardly give a storage capacity sufficient to carry us through next summer, unless our growth in the meantime should be less than we may reasonably expect.

Before leaving the matter for the present, we beg to say again that there must be no amateur tinkering with the system. The city has in its possession the detailed advice of engineers of repute. If any new facts have come to light, or if the conditions governing the question are held to have so changed that further expert advice is desirable, a few hundred dollars will procure it.

In an article which appeared in these columns yesterday, the word "reserve" was printed in place of the word "revenue." This amounted to an accusation against some former council that it treated the "reserve" of water (in the reservoir presumably) as a very secondary matter, whereas the reserve was a point of prime importance but the revenue was counted as secondary.

CITY NEWS

A. G. McIntosh, a drummer with a line of fancy goods, was in the city yesterday on business.

The funeral of an aged man named Williams took place from St. Mary's hospital yesterday afternoon.

For cut flowers, bouquets or funeral designs telephone T. Davies & Son, B 208.

The Dominion snagboat Samson is tied up at the government wharf, and is receiving a coat of paint and undergoing considerable repairs. She will be ready for action again in a few days.

Officer Bourke yesterday evening attended to the case of one McCormick, who was suffering from an excessive jag. This morning, Magistrate Corbould will adminster the usual warning or fine, as the case may be.

J. G. Deiffenbach, of the office staff of the Fraser river sawmills, who was recently married in Iowa, writes to friends here that he is spending his honeymoon very pleasantly, and will return with his bride towards the end of August.

It is reported from Abbotsford that prospectors are boring for oil in that vicinity, and that very good indications have been discovered. The development work is being carried on at Fish creek, a short distance this side of Abbotsford.

The Owls will make a special trip to Vancouver on Monday evening next a special car having been chartered for that purpose. A number of grand executive officers will be present at the reunion to be held in the Terminal city, the occasion being the closing of the chapter, which was opened in that city about three months ago.

An attempt to burglarize the Burnaby municipal hall was made on Monday night, when the side door was broken, apparently with a log, and a hole cut into it, the Yale lock being neatly removed by the thief. A search was made through the building by the burglar, but nothing of any value appears to have been taken. The police are investigating.

An application will shortly be made to the city council for a 4-inch water main to be laid to Lulu island, in order to ensure the industries an adequate protection against fire. At the present time, the water is conveyed to the island through a 2-inch pipe, and this is not considered sufficient for the needs of the different industries which will shortly be located there.

A patent medicine salesman, accompanied by two entertainers, appeared on Begbie street, near the Windsor hotel last evening, and dispensed tape worm killers at 50 cents per box and more or less state jokes to a large assemblage. Mr. Cummings, the lecturer and salesman, is a good talker and his arguments were effective, inasmuch as they brought the sum of $80 into the lecturer's coffers. H. G. Moran's singing was of a fairly high order.

Once more was a fairly large bunch of baseball fans, were jollied into going to Queen's park last evening to see a baseball match that did not materialize. The report was sent out that an aggregation known as the Stand-bys would play the regular New Westminster baseballers. The new bunch challenged the regulars, and the challenge was accepted on behalf of his club by Manager J. A. Cunningham, of the senior club. Not more than a dozen men appeared on the field to play in both teams, and the match had to be cancelled.

Up to yesterday afternoon about $30,000 had been received by the city treasurer from people who were anxious to secure the ten per cent. discount on taxes paid on or before the first of August. In order to accommodate the public, the city treasurer's office will be kept open this and tomorrow evening from seven until ten o'clock, when ratepayers may liquidate their indebtedness to the city. N. H. McQuarrie, city treasurer, expects to see a large number of taxpayers calling in on him during the course of the next two days.

Four hundred men are engaged on the construction of the big power plant at Stave lake, and the work will be rushed with all reasonable speed from now till its completion. R. Hinton, a member of the company, was in the city yesterday, and stated that the plant would be in working order within a year from the present. Regarding the use to which the great amount of power would be put, Mr. Hinton stated that a great quantity of it had already been sold, and that the directors would have no trouble of getting rid of all the electrical energy.

For all kinds of cut flowers and potted plants, see Tidy, the florist.

Dr. J. N. Hutchison of Winnipeg, visited the city yesterday. During his stay, he was the guest of Mr. and Mrs. H. O. Lamb.

George Bartley, book-keeper at the Brunette sawmills, will leave early in the month of September for England on a visit to his old home.

The tug Robert Dunsmuir arrived in port last evening with a boom of logs, for the Brunette sawmills. The logs were towed from an up-coast point.

M. A. Gray, charged with attempting to pass bogus checks, yesterday denied remembering anything of the incident. Sentence will be passed upon him this morning by the police magistrate.

The Chinaman, Cheo Young, accused of having broken into a number of houses in and around the local Chinatown, was given a preliminary hearing before the police magistrate yesterday morning. The case will be continued this morning.

The committee of the board of school trustees which was appointed to choose teachers for the vacancies on the teaching staff, have decided upon a male teacher for division three of the boys' Central schol. His name will be announced at the next meeting of the board.

Nineteen samples of milk were submitted to analysis yesterday morning by the city medical health officer. All the samples were found to be well up to the standard, the recent consolidation of the milkmen's interests having apparently had no effect on the quality of the lacteal fluid supplied to families and hotels.

Mayor Keary stated yesterday that he had visited the reservoir early yesterday morning, and had found the larger reservoir overflowing into the smaller one. He believed the increased quantity of water was due to the large electric pump which was installed a few days ago, in the place of the old one of smaller dimensions.

The charge of selling liquor during prohibited hours, preferred against four city hotels, will be continued on Thursday morning, the parties interested having asked for an adjournment. One hotel entered a plea of guilty, another pleaded not guilty, while the other two reserved their plea yesterday morning, when the case was called before Magistrate Corbould.

The employees of the Standard Furniture company, of Vancouver, have recently become imbued with the idea that they can play ball. So cocksure are they of their ability that they have offered to play any amateur team in the province for a side bet of $50. The local bat artists heard of the proposition, and the game is to take place on Saturday afternon at Queen's park.

The sockeyes have arrived at last in fairly large quantities, and there is every probability of a good run during the next week or ten days. All the boats on the river Monday night averaged good catches, and, according to reports from down the river last evening, good catches were being made. The St. Mungo cannery received about 2,000 sockeyes Monday night and yesterday, and about twice that many Sunday night and Monday, up till 6 p.m.

A charge of supplying liquor to a child, or the more serious charge of manslaughter, will be laid against Thompson Jim, of Nicomen island, and the preliminary hearing will be taken at Mission on Saturday. Jim is suspected of having supplied gin to the little five year old girl who died at Mission on Sunday afternoon from what Dr. Stewart stated was alcoholic poisoning. The Indian was followed to this city on Monday by Provincial Constable Lane, who proposed to place him under arrest, but Jim got back to Nicomen island before he could be captured.

SHIMOSE NO LONGER HIGHEST EXPLOSIVE

American Officers Learn Composition of Deadly Powder and Go One Better

Washington, July 30.—What can the Japanese powerful explosive, shimose, do to the armor of the new United States battleships? This, according to bits of news received here, is the question the government agents recently at Sandy Hook were trying to answer by actual experiments. The targets were the equivalents to the armor on the warships. The projectiles were the counterpart of those used by the Japanese against the Russian fleet, and also in the field artillery service.

Shimose has been the secret of the Japanese for four or five years. Its base was known to be picric acid. After the Japanese-Russian war the Russians picked up one unexploded shell which was loaded with shimose. This was analyzed, but whether the United States government has accepted the Russian analysis or obtained shimose on its own account and analyzed it is not known. It is believed that the United States' tests were with original material.

Shimose is so-called from the name of its inventor, Prof. Shimose of Japan. Japanese shells were discovered during the recent war as executing fearful havoc wherever they struck, putting lydite, maximite, jovite, melanite and several others in the shade.

Officials here do not give any positive information about the Sandy Hook tests. One officer, however, said that if the Japanese explosive was an unknown quantity for some years, there was no reason why it should remain so indefinitely, and that it was the business of the navy experts to find out all about it.

It is reported, too, that Gen. William Crozier, chief of the army bureau of ordnance, who was present at the tests of shimose, also has a new and powerful explosive. There is considerably rivalry between the army experts and navy experts over the really effective explosive as against battleships, and reversely of battleships against the coast defense.

The air about the war and navy offices today indicate that shimose is no longer a secret and that the war department has it outdone in a material for destructiveness.

Hot Time in Texas.

McGregor, Texas, July 30—A terrific heat visitation yesterday lasted an hour and twenty minutes. The thermometer registered 179 degrees in the sun and 117 in the shade. An area three miles long and two miles wide was affected. The visitation was accompanied by a peculiar haze hanging like a veil in the sky, which moved over the area affected.

Scores of persons were overcome. Horses, cattle, hogs and poultry dropped dead, one man losing thirty-five head of stock. The phenomenon has not been explained.

FRANK VANDALL,
Agent, F. VANDALL.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Electric Elevator, Calgary, Alta., Public Building," will be received at this office until Friday, August 2, 1907, inclusively for the construction of an electric elevator at the Calgary, Alta., Public Building.

Plans tendering are notified that tenders will not be considered unless signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, July 4, 1907.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Tenders for License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Comissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 525," will be received at this Department until 12 o'clock noon on Wednesday, the 28th day of August 1907, for a license to cut timber on Berth No. 525, comprising lands situate in the Province of British Columbia, and described as follows:

Timber Berth No. 525, comprising the North half of section 29, West of Mara Lake, the North half of section 29, and all section 32 in Township 20, Range 8, West of the 6th meridian, containing an area of 185 square miles more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted check on a chartered bank in favor of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

The highest or any tender not necessarily accepted.

No tender by telegraph will be entertained.

PERLEY G. KEYES,
Secretary.

Department of the Interior,
Ottawa, June 29th, 1907.

Tenders for License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 524," will be received at this Department until 12 o'clock noon on Wednesday, the 21st day of August, 1907, for a license to cut timber on Berth No.524, comprising lands situate in the Province of British Columbia, and described as follows:

Timber Berth No. 524, comprising Legal Subdivision 14 of Section 12, Township 6, Range 7, West of the 7th Meridian, containing an area of 40 acres, more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

The highest or any tender not necessarily accepted.

No tender by telegraph will be entertained.

Secretary.

Department of the Interior,
Ottawa, May 30th, 1907.

In the Matter of the "Trustees and Executors Act," and in the Matter of the Estate of Augustus William Lundbom, Deceased.

All persons having any claims or demands against the estate of Augustus William Lundbom late of Surrey Centre, British Columbia, deceased, are hereby requied to file with the undersigned their names and addresses and full particulars of their claims, and the nature of the securities (if any) held by them, duly verified, on or before the 31st day of August, 1907.

Notice is hereby given that after the said date the executors will proceed to distribute the said estate amongst the parties entitled thereto, having regard only to the claims of which they shall then have had notice, and they will not be liable for the proceeds of the estate, or any part thereof, so distributed to any person of whose claim they had not notice at the time of distribution thereof.

Dated this 24th day of July, 1907.

F. W. HOWAY,
Solicitor for John McKenzie and John Churchland, executors of above estate.

LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Margaret Robson as the owner in Fee Simple, under a Tax Sale Deed from The Corporation of the Township or District of Surrey, to Margaret Robson, bearing date the 7th day of November, A D., 1901 of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as lot 7, subdivision of Northwest quarter of Section 19, Township 2.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice upon you, otherwise I shall register Margaret Robson, as owner thereof in fee. And I hereby direct that publication for thirty days in a daily newspaper published at New Westminster of this notice will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 18th day of July, A.D., 1907.

C. S. KEITH,
District Registrar.

To Fredrick Throssell and H. Burton.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

Re South West quarter of Section 28, Township 16, New Westminster District—All that part of the South East Quarter of said Section lying to the North and West of Lot 47, Group 2, and all that part of the North East Quarter of said Section lying to the West of Lot 356, Group 2.

LAND REGISTRY ACT.

A Certificate of Indefeasible Title to the above property will be issued to Margreta Jepsen, on the 19th day of August, 1907, unless in the meantime a valid objection thereto is made to me in writing by a person or persons claiming an estate or interest therein, or in any part thereof.

C. S. KEITH,
District Registrar of Titles.

Land Registry Office,
New Westminster, B. C., July 18, 1907.

The person or persons having in their custody or possession the following Title Deeds relating to the said property are requested to deliver the same to the undersigned.

Conveyance dated 9th May, 1894, from Thomas Graves Gregson to Elizabeth McGregor.

A. WHEALLER,
42 Lorne Street,
New Westminster, B.C.,
Solicitor for Applicant.

Tenders for License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 527," will be received at this Department until 12 o'clock noon on Wednesday, the 4th day of September, 1907, for a license to cut timber on Berth No. 527, comprising lands situate in the Province of British Columbia, and described as follows:—

Timber Berth No. 527, commencing at the West end of the most Northerly boundary of Timber Berth 290; thence East, along said North boundary of Timber Berth 290, 20 chains, more or less, to the West boundary of Timber Berth 378; thence North, along said West boundary of Timber Berth 378, 120 chains, more or less, to the shore of Pitt Lake; thence West 20 chains, more or less, to equal length of South boundary: thence South 120 chains, more or less, to point of commencement containing an area of 240 acres, more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

The highest or any tender not necessarily accepted.

No tender by telegraph will be entertained.

PERLEY G. KEYES,
Secretary.

Department of the Interior,
Ottawa, July 5th, 1907.

NEW WESTMINSTER LAND DISTRICT.

Educational Oddities.

To the Editor of the Daily News.

Sir: It is very odd that the Colonist, the government paper at Victoria, should have started the report that a pupil of the Golden school obtained the highest rank in the province at the recent high school entrance examinations, and a pupil of its own city held second rank.

It is very odd that it did not know that the Golden pupil had passed on an easier examination, and therefore was not in the same class as the Victoria one.

It is very odd that it did not know that the education department prepares an easier set of questions for the rural examination for entrance to a high school than for the urban schools.

These three oddities are enough to make one sit up. Now for the facts. (1) The Colonist on Sunday 21 first published the results with that heading. (2) The Golden pupil obtained her marks on the rural set of questions. (3) Inspector Gordon in the public schools report states that the examination questions set for rural schools are easier than the urban set.

It is therefore plain that to Miss Norma W. Spencer of Victoria, belongs the honor of having passed first in the province, because she passed the urban examination.

It it also quite plain that this custom of passing up pupils into the high school from the rural schools on an easier examination than from the city schools should be made public.

Please publish this and help the Teachers' institute to induce the education department to make a change in the conduct of these entrance examinations.

J. N. MUIR.

Vancouver, B. C., July 30, 1907.

Bookies Barred at Regina.

Regina, July 30.—There will be no book-making at the Regina fair this year, although one of the best race cards ever put on in the west is to be run, and every race will fill. The repartment of agriculture of the province and the department of the attorney general have shut down on the book-making and those who desire to make the races more interesting by wagers will either have to buy the pools down town or make private bets on the grounds.

The result will doubtless be better racing from the standpoint both of the public and horse owners, for it is thought that last year there were some drivers who might easily have won had they not wanted to let the bookies down easy.

Last year the provincial government withheld the grant from the fair because book-making was allowed on the grounds. A protest was made against it during the far, but the practice was not stopped, and when it came time to hand over the government money, there was no check forthcoming for the Regina fair management.

Construction will shortly be commenced on the new building which will be erected by the B. C. Telephone company on the lot adjoining the Murchie undertaking establishment. George H. Halse, secretary of the Telephone company, was in the city yesterday for the purpose of arranging for the commencement of work in the near future.

COLLISTER'S

Great Annual Summer Clearance Sal

Commences THURSDAY, August 1, 1907

During this month we will take in the store occupied by Mr. Thomas Gifford. We expected to be occupying that store a year ago, but owing to circumstances we made no move to obtain possession until the first of this year. The time in which to make our alterations is short now, as we ought to have had the carpenters in the store on the 1st of July. To make a quick clearance we will reduce everything in the store (except threads and Butterick patterns) **FOR FIFTEEN DAYS ONLY.**

Watch for every advertisement. You will see something to your advantage, as we are determined to make a clean sweep of all summer goods.
