DORSE DEMAND FOR WIDER DRAWS

ard of Trade Supports Plea For 75-foot Draw on Serpentine River.

P. Gillies, manager of the Ta- a Construction company, appeared re the board of trade last evening outlined a scheme for the con- uction of a large business block the market square and fronting Columbia street. His proposition that if the city would convey the of the site to him he would erect building, financing it by selling k at $10 a share, and after con- ting the building transfer the title he site back to the city. He want- to have the title in his own name ive his proposition weight in fan- ing it. The building as planned, stated, would cost $200,000 and he his partner would be willing to scribe for $20,000 worth of stock. Gillies addressed the meeting at siderable length, showing up the vantages that would accrue to the through having such a building ated here. Several members re- d to Mr. Gillies commending the eme in part, but expressing their biousness as to whether the rate- yers would fall in with the idea of ding the property to a stranger hout receiving value. A committee m the board was appointed to in- stigate further and assist Mr. Gil- s in every way possible. They are Holmes, H. A. Eastman and Mar- all Sinclair.

Mr. Gillies had a second scheme. He ted that he had a gang of men in city who were here for the pur- e of opening a brick manufacturing siness for him and that all he need- was the sand and clay. He stated t his firm was prepared to expend 0,000 in the industry. In reply to inquiries, Mr. Gillies was inform- as to the location of several sand ds in close proximity to the city ich the members giving the infor- tion were confident were worth ting.

The matter of advertising the com- rcial advantages of the city among stern capitalists was again discuss- and the laxity of the advertising mmittee in formulating a compre- nsive scheme was commented on several members. Marshall Sin- air expressed surprise that a report m the committee had not been thcoming, especially as the season getting pretty well advanced. W. Kerr thought that one season was good as another for launching an vertising campaign, and not till the wn was dead and buried would it too late to advertise. H. T. Thrift s in favor of advertising modestly the Toronto and Montreal news- pers and A. E. White repeated his ew expressed at the former meeting at a large advertising scheme should t be undertaken by the board of de alone but by the city as a whole. r. White thought that the advertis- g committee, of which J. D. Taylor chairman, should hae acted on me of the suggestions for adver- sing industrial sites, that have been rown out at various meetings since st June. On motion of H. T. Thrift e secretary was instructed to write the chairman of the advertising mmittee insisting upon a report at e next meeting.

W. R. Gilley reported for the river provement committee that they had en working industriously and hoped have something of importance to y before the public at an early date. e expected that a public meeting ould be called and that plans for nding a delegation to Ottawa to k for the expenditure of government oney in improving the river would e laid before the meeting.

A. E. White reported on his trip to ave lake as a representative of the oard of trade with officials of the mpany and members of the Vancou- er board of trade. He gave a com- rehensive idea of the great work that going on at Stave lake, where ventually 75,000 horse power will be arnessed.

D. S. Curtis of the road and bridges mmittee reported on the negotia- ons entered into with the council f Surrey municipality which resulted a plan being decided upon where- y a wagon road will be constructed om the Fraser river bridge to Bon cord. The road he stated would ost about $6,000 and would be financ- d on the local improvement plan.

Asiatic immigration was briefly dis- cussed by H. T. Thrift who expressed the opinion that the present would be an opportune time to direct the government's attention to the memor- andum sent early in the sum- mer pressing for European rather than Asiatic immigration. On motion the suggestion was referred to the immigration committee.

Acting on the written request of McBride & Kennedy, solicitors for the Hyland & Sullivan lumber company, the president and secretary were au- thorized to communicate with the government and also with the officials of the G. N. R. and endeavour to have bridges with at least 75 foot draws each constructed over the Serpentine and Nicomekl rivers instead of 45 foot draws as are planned by the rail- way company. Mr. Gilley gave it as his opinion that a 45 foot draw would be a great hindrance to the mill com- pany in towing logs up to their mill because of the fact that nothing less than 60 foot booms can be economical- ly handled.

A complaint was received from W. E. Laking of Cloverdale, against the G. N. R. because of the alleged slow manner in which the railway com- pany handles his freight. Mr. Lak- ing expressed his kick in strong terms and the letter was endorsed by H. T. Thrift who stated that he had had experiences of his own with the G. N. R. The matter was referred to the transportation committee for investi- gation.

Other routine business was transact- ed after which the meeting adjourned.

INQUIRY INTO CAUSE OF BRIDGE DISASTER

Engineers and Others Responsible Swear Everything Was in Perfect Condition.

Quebec, Sept. 11—Inquiry was resumed into the Quebec bridge disaster yesterday. J. Sterling Deans, chief engineer of the Phoenix Bridge company, Phoenixville, Penn., resumed his testimony, giving details of the work of the company's officials on the bridge, and Theo. Cooper's relations to the work. All the officials of both the Phoenix and the Quebec Bridge company were in accord, and every precaution was carried on through every detail of construction, and had any defect been noticed, it was the duty of those discovering it to report it to the proper officials.

McClure, who followed, said he had been appointed inspecting engineer at the bridge by Cooper, and was responsible to Messrs. Cooper and Hoare. He had never to report, however, as every piece had come from the shop in perfect condition.

Kinloch, bridge inspector, was the next witness. His duty was to see that the iron was in good condition before it went on the bridge. As a rule he inspected it on delivery of cars at Chaudiere storage yards. He never noticed anything except minor defects, which were worked up for repairs.

Seven more bodies of victims were picked up today floating a short distance from the bridge. Five have been identified.

LARGEST CHURCH IN WORLD.

Rockefeller Behind Scheme to Erect Monster Edifice.

Clevelnd, Sept. 11—The church that will be the largest and most novel in this country and probably in the world, is to be built here under the enthusiastic support of John D. Rockefeller. The edifice is to stand on the present site of Euclid Avenue Baptist church, the Rockefeller place of worship, and will bear the name of the present structure.

It will be sixteen stories high and be institutional in character, having gymnasia, lecture rooms, in which courses of lectures will be delivered, rooms for clubs and societies for the work of men, women and children in various fields, training schools for missionaries, servants, artisans, restaurants, dormitorites and hospital.

Notices will be posted on the Lulu island bridge today that all persons hauling loads exceeding 2,000 pounds over the bridge will do so at their own risk. This notice will displace the one which has been effective for the last couple of years placing the limit at 3,000 pounds. The bridge is old and is of course getting weaker all the time, hence the decrease of the strain put upon it.

BOWSER TO VISIT FRASER FISHERIES

With the assumption of control of the fisheries of British Columbia by the provincial government, the future is bound to bring requests for the establishment of more provincial hatcheries on the Fraser river and tributaries, and on the northern rivers frequented by sockeyes.

In order to thoroughly familiarize himself with conditions in respect to the salmon fisheries of the Fraser river, Hon. W. J. Bowser, minister of fisheries, will leave about the end of the present month for the Seton lake hatchery and other spawning grounds of the sockeye. He will meet John P. Babcock, provincial commissioner of fisheries, and with him will go fully into the question of the conservation of the salmon fisheries of the Fraser. Mr. Babcock is at present at Quesnel looking over the spawning grounds in that vicinity. It is reported that but very few sockeyes have reached the spawning grounds on this river this season, and the results at both Dominion and provincial hatcheries are expected to be exceedingly poor.

Will "Our Dick" Please Explain.

Ottawa, Sept. 11—To the World, Vancouver, B.C.—Lieutenant governor under instructions from Premier McBride withheld his assent to Natal act last session. This I verified in the office of the secretary of state here this morning. Had a most satisfactory interview with Sir Wilfrid Laurier. Am sure a satisfactory solution will result. No good can follow from overt acts. The Japanese and Chinese in the country must be protected and we only weaken our own cause by rioting.

RUSSELL HOTEL CANNOT BE COMPLETED FOR FAIR

The owner and contractors of the new Russell hotel have resigned themselves to the view that they cannot possibly get the hostlery into condition for the accommodation of exhibition visitors. Owing to the lack of sufficient helpers the work has got greatly behind and Mr. Fader stated yesterday that he concluded that the establishment would not be ready for occupancy before the fifteenth of November. The Vanstone Heating & Plumbing company, he stated, had lost considerable time in getting the heating apparatus installed, and the contractors, Smith & Sherbourne, of Vancouver, had also progressed much more slowly than they had anticipated. The agreement between Mr. Fader and the contractors call for the completion of the hotel by the fifteenth of September, otherwise a monetary penalty becomes effective and increases as time goes on. It is expected that C. J. Tabor, the lessee of the hotel, will arrive here about the middle of October.

Jewish Blood Runs Freely.

Braila, Roumania, Sept. 11—Newspapers reports, have reached here of another serious and atrocious anti-Jewish outbreak at Kishinev. It is estimated that no less than 80 Jews lost their lives in encounters with the inflamed populace. The outbreak occurred on Monday. The Jewish quarter of Kinshinev was attaceked by organized bands of roughs, who looted houses and shops, and ruthlessly killed or wounded all those who attempted to defend their property. The Jews are fleeing from Kishinev in a state of panic. Many of them who made their way to the banks of the Pruth in the hope of finding protection in Roumania were driven back by frontier guards.

RAILROAD IS PLANNED TO CROSS DEATH VALLEY

Los Angeles, Sept. 11—Harry L. Baker is staying at the Hayward hotel. Mr. Baker is the associate of John Salsberry, the mining baron of Tonopah and Goldfield, the lumber king of Southern Nevada, the copper king of Ubehebe.

Mr. Baker announces that work has begun on the construction of a railway forty-two miles long, from Montana station on the Las Vegas & Tonopah railway to the copper properties in the Ubehebe region. This will be the only railway to cross Death valley proper.

The plans of the projectors include the erection of a smelter of large capacity on the new railway.

OCTOPUS FIGHTS FOR LIFE AGAINST SIX FISHERMEN

Nanaimo, Sept. 11—An exciting fight with an octopus at Duncan bay, in which the crew of the Kestrel figured victorious, was reported on the arrival of the federal cruiser in port yesterday afternoon. Government Naturalist Halkett, Fisheries Inspector Taylor and Capt. Newcomb of the Kestrel were the principal actors in what was the tragedy of the octopus' life.

While making a landing at Duncan bay they perceived an octopus in the water and immediately started to capture it. The monster fought desperately, exhibiting terrible strength. It would throw one tentacle around a rock, defying the united efofrts of some five or six men in the boat to dislodge it. The struggle lasted for an hour or more, boat hooks, oars, clubs and knives being used on the octopus, until finally it was landed in the boa. Even while dying it showed great strength.

Graham Welcomed Back.

Brockville, Ont., Sept. 11—Citizens from all points in the surrounding country gathered here yesterday, to attend the public reception to Hon. George P. Graham. When the meeting opened this afternoon at 1 o'clock Victoria hall was crowded to the doors, President W. Bruce of the Liberal association, presiding, and an address appreciative of the honor he has brought to the riding and of his executive ability was presented to the new minister of railways and canals after which he made a reply. Upon resuming his seat Hon. Mr. Graham was formally nominated as the liberal candidate for the bye-election to be held on the 25th.

HINDUS NOT ALLOWED TO LAND LAST EVENING

The nine hundred Hindus who arrived in Vancouver yesterday evening on board the Monteagle remained on board that vessel all night, and will be disembarked at an early hour this morning and shipped out of the city, in order to prevent any hostile demonstration on the part of the white men who have been taking an active part in the rioting of the past few days. The C. P. R. wharf was sacred property all last evening, no one but officials being permitted to approach within hailing distance of the liner. A large crowd stood for hours some distance away, but there was no attempt to rush the ropes or otherwise show the feeling against the Asiatics which actuated the mob.

In Chinatown everything was quiet. A few curious whites passed through every once in a while, generally in groups, but no attempt at molestation was made. Notices in the Chinese language were posted in conspicuous places, and attracted considerable attention among the Celestials, dozens of them standing in front of the bulletins and discussing the information. When questioned, however, there was not a Chink who "savvied."

Murder Suspected.

Grand Forks, Sept. 11—James Welcher, one of the best known prospectors of this district, and the original discoverer of Franklin camp has been drowned in Curlew lake, Washington. He attended the labor day picnic at the lake on the 2nd instant, and was not seen after until Monday evening, when search parties found his lifeless body at the bottom of the lake. Foul play is suspected as his watch and some money he had are gone. The coroner at Republic is holding an investigation into the cause of his drowning. The deceased was about fifty years of age and unmarried.

FORMULA DID NOT WORK INVENTOR GETS NO MONEY

Boston, Mass., Sept. 11—A verdict was given for the defendants, Henry H. Rogers and Charles Pratt, of New York, by Auditor Winfield S. Slocum, of the supreme court, yesterday in a suit brought by Cadwallader M. Raymond, of Somerville, to recover $50,000,000 alleged to be due in royalties for the use of a secret process for rendering petroleum and its products non-explosive.

The suit has been pending for some time and was referred to an auditor by the supmere court. The auditor found that the formula did not perform what was claimed for it and ordered a verdict for the defendants.

THERE'S NO GAMBLING DECLARES THE CHIEF

News Man Offers to Show Him Different, But Proposition Is Not Taken.

The chief of police budded out as a theorist yesterday afternoon when he was asked by a News man what was being done concerning the gambling in Chinatown. This is his answer:

"I am convinced that there is no gambling among white men in Chinatown. The Chinks may possibly gamble among themselves, but no white man can get into the game. I know why the News published that story this morning. A certain hotel keeper is responsible, and he is making a kick because he wants to introduce gambling on his own premises." That's his theory.

Chief McIntosh declined to name the hotel man in question, and the News is still ignorant of his identity. Whoever the mysterious boniface is, he must be an expert telepathist, for it is certain that the ordinary channels of communication have not been used by him. Thought transference is the only solution.

After denying the truth of the story, the chief challenged th enewspaper man to name a white man who had been gambling in the two joints named, and again stated that the Chinese would not allow the whites to play. He offered to send a man to Chinatown with the News man during the course of the evening, and was ready to back his statement with coin that they would not be allowed to play in any of the joints.

His offer was promptly accepted, the only stipulation being that the News man's companion should not be a member of the police force.

No one appeared at the News office yesterday evening, but the offer is still open. Unless the chief has warned the Chinamen in the meantime, any white man can go down to the two places mentioned in the News yesterday morning and play black jack, chuck-a-luck, or any other game.

He will lose money on these games every time, because the games are not on the square.

MAN IN FIERCE FIGHT WITH PACK OF JACKALS

Cape Town, Sept. 11—While he was on a shooting trip about fourteen miles from his home at Beaufort West, Cape Colony, this week, A. E. Clarke Kuir, a British settler, had a terrible fight with jackals.

What he took to be a herd of buck approaching him turned out to be a pack of "Panne" jackals, the large variety so much dreaded by farmers and herdsmen. Instead of allowing the pack to pass unmolested, he fired and killed the leader.

The others advanced on him, and before they surrounded him he killed three more and wounded two. Then a grim fight against overwhelming odds began, for he was alone in the bush. Using his rifle as a club, Mr. Kuir disposed of a few more of the brutes, but his weapon broke and he was left with only the two barrels to defend himself. By this time he was fearfully torn and mauled about the neck, arms and thighs, and was rapidly growing exhausted.

Just before he sank to the ground unconscious one large jackal sprang on his shoulders and buried its teeth in his neck, and he remembered nothing more. When he recovered his senses he was in a sheep kaaral with four friends, who had saved his life.

They came on the scene as he was falling, and as the infuritaed beasts were rushing on him to tear him to pieces a few shots and a combined rush scattered the animals in all directions.

After taking him home, Mr. Kuir's rescuers returned, and found twenty one dead jackals, which they skinned. They sent him half a dozen of the skins as mementos of the incident.

J. Macdonald, formerly of the city police force, passed through the city yesterday on his way from Rivers inlet to Coeur D'Alene, Idaho, where he will make his home for the future. Macdonald quit the police force at the beginning of the summer, and has been logging up north since that time. Judging from the wad he exhibited, fortune has been smiling pleasantly on him during the past few months.

GREEN MUST EXPRESS REGRETS FOR ASSAULT

Bob Cheyne's Assailant Severely Criticized at Association Meeting.

Green, the Maple Leaf club lacrosse player, was severely criticised at a special meeting of the B. C. Lacrosse Association held in Vancouver last evening, for his action in assaulting Bob Cheyne during the progress of the Vancouver-Maple Leaf match at Vancouver on August 24, and on a vote of the meeting he was ordered to tender Mr. Cheyne a public apology for his action. Green will also be asked to apologize to the Association. It was plainly stated at the meting, all parties concurring, that any future actions of a similar nature during the progress of games will result in the suspension of the offending member or members.

With regard to the Vancouver-New Westminster protested match, it was decided to have the clubs interested appoint each a representative to meet and fix a date and place for re-playing the match. Meetings of the clubs will be held at an early date to name representatives.

The necessary arrangements for playing the scheduled match between the Vancouver team and the Maple Leafs at Brockton Point on Saturday afternoon were made. A. W. Gray was appointed to act as referee and Billy Gifford judge of play. Other minor matters were dealt with.

The New Westminster club was represented at last evening's meeting by Ald. Gray and C. A. Welsh.

Abe Hummel is Dying.

New York, N. Y., Sept. 11—Abe Hummel lies in Blackwell's island penitentiary hospital on the verge of death from organic disease.

According to Dr. Sigmund Tynberg, president of the board of medical control, it is very doubtful whether he will live to regain his liberty. Once the keenest of the lawyers at the New York bar, he has sunk into a state of lethargy, and keeps to his cot almost constantly.

Hummel became ill on his first night in prison, on May 22, and next day he was admitted to the hospital. After a weeks' treatment he was given light work in the prison store room, and afterward at garden work outside. He could not stand the exertion and returned to the hospital.

TEN GOOD TICKETS ARE HELD LOCALLY

Salmon Sweep on St. Leger Prizes Won by New Westminster Men.

London, Sept. 11—At Doncaster race meeting today the St. Leger stake 25 sovereigns each for three year olds, about one mile and six furlongs and 132 yards, were won by Woolwinder; Balting-glass was second and Acclaim was third. A large crowd including King Edward were present. Woolwinder who ran second to Richard Croker's Orby in the race for the Derby stakes was the favorite in the betting at 11 to 10 against.

Considerable interest has been taken locally in this race owing to the fact that a number of people are interested in the sweep organized by Salmon, of Victoria, a large number of chances of which have been taken by local people. J. G. Gamon, who sold the tickets, furnishes the following list of winning numbers held by New Westminster people. None of the winning horses are included, Woolwinder, the winner, being held by a Victoria man.

The tickets which drew horses are 58, St. Martin; 74, Victoria; 76, Yeoman; 1126, Knight of Tully; 1153, Bachelor's Beauty; 1154, Skevening; 1194, colt by Chartereus-Heartsease; 1198, colt by Florizell-Nightshade; 2455, Hand's Cross; 2471, Lowland Lord. The number of shares disposed of in the sweep was in the neighborhood of 3,600.

The three winners were drawn in order named, as follows: 3261; 2099 and 909.

TUNNEL WORKERS FEAR LIVES ARE IN DANGER

Windsor, Sept. 11—The first section of the new Michigan Central tunnel reached here today after being towed down from St. Clair, Mich., by the tugs Miner and Lorman. It is a 260-foot steel twin tube and will be sunk into the 500-foot trench at the bottom of the river after being divested of its wooden casing. On account of its size and shape some difficulty was had in towing it down the river, but the entire trip was made without a hitch.

Simultaneously with the arrival of the first section, work on the tunnel was practically suspended today by a strike of nearly all the men employed in the underground work. The shield workers and laborers went out early this morning and this tied up work in other departments. According to the strikers the shield workers were to be paid a scale of $3.98 per day for 10 hours' work, while laborers were to get $3.50 for the same length of time.

The men also say that their lives are constantly in danger and they now refuse to return to work unless they are paid $4.00 a day with 8 hours' work. The contractors treat the matter lightly and say work will not be seriously interrupted.

CONVICTED THIEF CANNOT ENTER JAIL

Chicago, Sept. 11—John E. McCaffrey, who was granted two months' time to provide for his wife and baby before beginning a year's term in the Bridewell for stealing from the United States mails, tried to begin sentence today but failed. Now he has to wait until the end of September before he can fulfill his promise to Judge K. M. Landis, who granted him the sixty days of grace.

With his wife, who is twenty years old, and a sister-in-law, sixteen years old, McCraffrey, who is twenty-two years old, went to the Bridewell this morning fully expecting to enter a cell.

Supt. John L. Whiteman refused to let him enter the crowded city prison, however, because McCaffrey did not have a ticket of admission.

McCaffrey visited the offices of the United States clerk and United States marshal, trying to get the proper papers, but was told nothing could be done until Judge Landis' return at the end of the month.

The Average Man

"The average man comes very near being an idiot in taking care of himself. You have seen him wearing a fur cap on his head while his shoes let in the snow and water. He wears an overcoat on his back and nothing but a thin shirt over his chest. He is mighty scared about freezing his fingers while his throat is exposed to blizzards and he is often ailing or thinks he is. It's herb tea, root tonics, Peter's pills, Paul's pine tar cordials or plasters and cures, until the balance wheel in the machine comes to a stop. Nature wants to keep going, but she can't. He drinks whisky and that clogs the valves; he drinks beer and that clogs the wheels; he pours down lemonade, gingerale, buttermilk, ice water, tea, coffee, and what not, and then wonders why the fire under the boiler does not burn. If you should take an ox and put him through a like performance he'd be dead in a year. The simplest and plainest laws of health are outraged every hour of the day by the average man. Did Adam smoke? Did Eve wear corsets? Did Solomon chew tobacco? Did Ruth chew gum? Did the children of Israel make for a beer garden after crossing the Red Sea? Did Rebecca eat gum drops and ice cream and call for soda water? Adam was the first man and was made perfect from head to heel. How long would he remain so after eating a mince pie before going to bed? Suppose he had slept in a bedroom 5x7 with the windows down, the door shut and two dogs under the bed? Suppose Eve had laced herself up in a corset, put on tight shoes, and sat up all hours of the night eating her fill of trash and sizzled her hair. When you come to look at the way a man misbehaves himself you can only wonder he ever lived to get there.

According to the foregoing you may be a fool—you certainly are if you neglect your **eyesight**, and yet hundreds are putting off the use of glasses because they do not want to "look old"—nonsence—you can get a new set of teeth, but nobody can give you a new pair of eyes. Be wise. Consult our OPTICIAN—DON'T BE AFRAID OF THE COST—you can get fitted at your own price and fitted properly.

"SHIP HINDUS TO OTTAWA" IS SUGGESTION MADE

Vancouver, Sept. 11—Nine hundred Hindus reached the city today on the steamer Monteagl and nobody knows is to be done with them. The situation is exactly described in the following telegram which Mayor Bethune has sent to Sir Wilfrid Laurier:

"Nine hundred Hindus arriving today on steamer Monteagle. Neither accommodation nor employment for them, nor is it possible to house them under sanitary conditions. Shall we house them in Drill hall at Dominion government's expense?"

Meanwhile action is being taken by the people at the city hall with a view to raising the sum of eight or nine thousand dollars to charter a special train and ship the whole crowd to Ottawa. City Solicitor Cowan headed the list with a hundred dollars to which the World adds another $100. All the city officials who discussed the matter agreed to contribue. A meeting was held in the office of the chief of police, Mayor Bethune, the medical health officer, Alderman Brydon-Jack and Bird and City Solicitor Cowan present. The telegram given above was agreed upon as the best way of bringing the matter to the attention of the Ottawa authorities. The World will accept subscriptions and acknowledge the same. The list will close at 5 o'clock p. m. tomorrow, when it is to be hoped the pilgrims from the coral strand will be well on their way to Ottawa.

In connection with the anticipated trouble regarding the arrival of the Monteagle, R. Marpole of the C. P. R. Campbell Sweeny, of the Bank of Montreal, and other gentlemen waited on his Worship Mayor Bethune and asked him to make arrangements for the protection of the arrivals. It was explained to his worship that most of the arrivals on the Monteagle were in bond for United States points. His worship wanted to know why, if that was the case they were not landed on American soil direct. To that he got no answer. His worship informed the committee that he had communicated with Col. Holmes at Victoria regarding troops and had been told in reply that they had no troops there available, but that the Duke of Connaught's Own could be called on and Major Boultbee, local officer in command had been notified accordingly. The Duke's Own are at the present time under standing orders to respond to the call of the bugle.

Victoria, B. C., Sept. 11—The C. P. R. steamer Monteagle arrived at the outer dock here last evening from the Orient with 1165 Orientals on board, including 910 Hindus ,149 Chinese and 115 Japanese; 120 tons of cargo were put ashore here, but the human freight, except some or all of the Japanese, is destined to Vancouver. Considerable apprehension of trouble in Vancouver is said to be felt by the Asiatics on the steamer.

THE RIDICULOUS ORGAN.

The local McBride organ has printed this week a couple of articles which give point to the old saying, "like master, like man." Contending that British Columbia was guaranteed the right to control immigration, it quotes in support of its contention a clause of the constitution which expressly declares that provincial legislation on the subject shall be allowed only when and so far as it does not trench on Dominion legislation. The clause which it quotes it speaks of as part of the "bargain" made with British Columbia by the Dominion to induce the province to enter confederation, whereas the clause is really a section of an Act passed by the Imperial parliament four years before British Columbia joined the Dominion; and it adds that this clause is "just as much an essential part of the terms of union as the money provisions as to which Ottawa lays such stress as final and unalterable." The argument, if one can call it argument, is as rotten as the English in which it is expressed. The clause is not part of the terms of union at all; and so far from laying stress upon the money clauses of those terms as "final and unalterable," Ottawa changed the said money clauses, and changed them to our advantage, no longer ago than last session. Turning to provincial action, the organ informs us that "there is at present an exclusion act adopted by the legislature awaiting only the sanction of the federal ministry to become law." There is no such act. The legislature passed a bill which most of the members believed to be an exclusion act, but which, through carelessness or trickery, contains a fatal error, so that it would, if law now, exclude nobody: further, it does not await the sanction of the federal ministry, but of the Lieutenant-Governor, who is advised by the McBride ministry, which is responsible for his acts.

Another extraordinary statement is that "it often happens that the Ottawa government holds up provincial acts for months while the minister of justice cudgels his brains in the endeavor to find excuse for interfering with their operation." Is the Columbian so grossly ignorant as to believe its own statement? The Ottawa government can disallow an act and so put it out of operation, but cannot "hold up" an act for a day or an hour; the act continues in full operation until its disallowance is proclaimed.

These samples must suffice. We have neither space nor patience to follow the ridiculous hotchpotch any further.

The managers of the Victoria exhibition advertise it as "The Biggest and Best in the Province," but omit to mention what further part the Ananias club is to take in the proceedings.

If you want to be sure of your civic vote in December, go to the city hall now and take a look at the voters' list. If you neglect it now, and are left off, it will be useless to kick about it later on.

A recent British visitor to the United States, speaking of a number of young men, called them "a splendid lot of boys," and the American reporter feels it necessary to explain "he meant kids." From which it would appear that, in the United States the word "boy" connotes nothing as to the age of the person spoken about. Misuse of English by Americans is "none of our funeral"; but the fact that our Canadian youth are taught this American language instead of English, is, or ought to be, a matter of concern.

NON-UNION CARMEN SHOT DOWN IN FRISCO

San Francisco, Sept. 11—Five non-union carmen were shot in a pitched battle that was fought shortly before midnight at Twenty-fourth and Utah streets between members of United Railroads wrecking crew and strike sympathizers.

The battle was carried on for several minutes, volley after volley being fired by both sides. Only the arrival of the police brought an end to the affair.

The wounded were taken to the St. Luke's hospital. One of them may die. The members of the gang suspected of having done the shooting were taken into custody by the police.

The non-union carmen on a wrecking car were just about to switch into the barns and had alighted to make the switch when one opened fire upon them from the darkness.

The non-union carmen took refuge behind the wrecking car and their revolvers replied to the fire of their assailants. The fusilade continued until the entire neighborhood was aroused.

A riot call was turned in and the police in the Mision station responded When they arrived on the scene the injured were lying on the car tracks. The squad was immediately sent out and arrests were made. Wholesale arrests are expected to follow.

London, Sept. 11—TheSalford Distress committee has decided to apply to the Salvation Army for the history of a man and his son who were sent to Canada by the army at the committee's expense last May, who returned in July stating that he had been imprisoned for vagrancy through not accepting work for which wages were too low. He also states that whilst his destination was Winnipeg he was not sent further than Quebec. The man says he planned a scheme for the modern drainage of a Canadian village, with a possible view to lucrative employment, but was told that he was a hundred years before his time.

The Clothes Story Reduced to Fractions

Nine-tenths of the Men of this Country wear ready-for-service Clothes.

Two-thirds of these Men wear the good kind of Clothes, while the other third keep the shoddy factories going.

It is only a question of time when the third last mentioned learns that it is poor economy to buy cheap Clothes, and then they will join the vast majority in the purchase of good Clothes---the kind they ought to wear.

We beg to make it understood that we do not handle the kind the one-third wear, but we have everything in the good lines---they are a credit alike to Maker and Wearer.

Handsome Fall Suits $10, $12, $15, to $30.
Elegant Overcoats $10, $12, $15, to $25.

STRENUOUS SESSION OF GRAND FORKS COUNCIL

Grand Forks, Sept. 11—A most sensational sesion of the city council was held here last evening, when Mayor Hammar suggesed that ex-City Solicitor Ernest Miller be empowered by the council to prepare an agreement between the city and the West Kootenay Power & Light company. Mr. Miller utterly refused to have anything to do with it. He further stated that Alderman Hardy had made a statement that he (Miller), while acting as city solicitor, was favoring the West Kootenay Power & Light company.

He then stated that Alderman Hardy war a liar, and at the same time reached out and slapped his (Hardy's) face.

A sparring match between the two then took place with honors being in favor of the ex-city solicitor. Finally the two clinched, and all efforts to separate them were fruitless.

At this juncture Alderman W. M. Miller attempted to pull the the ex-city solicitor off his victim, but he was prevented from doing so by A. E. Smith, a real estate man, who in no uncertain terms threatened to make quick work of any one who would interfere.

Great excitement prevailed in the city over the unfortunate affair, but the almost unanimous opinion is that ex-City Solicitor Miller has been very shabbily treated by Alderman Hardy and other members of the council, and it is hinted that a general dissolution of the city council may be looked for any hour. Miller is a son of the postmaster of Vancouver.

Chinamen Claim Citizenship.

Halifax, N. S., Sept. 11—The case of 17 Chinamen in custody at Sydney, on suspicion of being smuggled into Canada from Newfoundland, to escape the head tax of $500 each, is to be argued here. Today, W. F. O'Connor applied to Judge Russell for a habeas corpus order for hearing on the Chinamen's behalf and the judge intimated he would grant the order for a hearing. The Chinamen claim to be British subjects and one of them produces a certificate showing a head tax paid at Victoria, B. C., in December 1905. The law does not provide for deportation of the Chinamen under the present conditions, and Mr. O'Connor holds they cannot be held without a warrant. It was proposed to detain them in custody for a year and in the meantime legislation covering the case might be passed at Ottawa.

Men Will Wrestle.

Vancouver, Sept. 11—Harry J. Duker, manager of the Recreation park company, when informed that a by-law had been passed by the city council last night prohibiting jiu-jitsu exhibitions in the city, stated that if officially notified to that effect he would make arrangements for the wrestlers to engage in a bout under cach-as-catch-can rules. Mr. Duker further stated that he understood Kanada had a good knowledge of this style, and if the matter could be arranged the public would at least be given some compensation for the prohibited match.

WILD MAN IS SEEN IN TACOMA STREETS

Tacoma, Sept. 11.—With hair reaching to his waist and wearing nothing but a breech clout, a strange looking, emaciated man is wandering about the district in which is located the old power house on South Twelfth and Proctor strets. He has been seen several times, and is as wild as a deer, taking to his heels at the sight of a man. Places have been found where he has dug roots and stripped berry bushes. The fellow, who is rarely seen in the day time, is believed by the police to prowl at night. Starvation has pinched and drawn his skin about his bones until he has almost the appearance of a skeleton, and exposure to the elements has tanned his body to a reddish brown. Several wild men have been captured heretofore in the same district in which the man is at large, the region being an extensive common covered with a thick growth of underbrush and second growth timber.

Prohibit Jiu-Jitsu.

Vancouver, Sept. 11—The council passed a resolution Monday evening directing that the police be directed to stop the Thursday night contest at any cost. In discussing the plan to be pursued in carrying out this order it was thought advisable to take sure ground, hence the solicitor prepared a by-law absolutely prohibiting such contests in the future. This was passed under suspension of the rules, and made a municipal law before the meeting adjourned.

The municipality of Delta is about to commence the installation of a water system for supplying the town of Ladner and the surrounding district. An application for a record of 250 from the Nicomekl was posted in the water commissioner's office yesterday by N. A. McDiarmid, clerk of Delta municipality to form the supply. According to the application the water will be taken from the river in Township 8 and will be piped to the Delta.

Archibald Bros. have been awarded a contract for repairing the roof of the city hall, the city hall furnace, and also the chimney of the civic building. The work will be done at once.

Messrs. Annan and McLean, two patients who had been under treatment at the Royal Columbian hospital for typhoid fever, were able to leave that institution yesterday afternoon completely recovered.

Miss Louise Robert, of Vancouver, who had business at the New Westminster provincial building yesterday, returned a short time later and reported that she had lost a twenty dollar bank note some place in this city, and was under the impression that she had dropped it while in the court house. The note had not been seen about the court house.

A picked team from the Intermediate lacrosse players of this city will go up against the Fairview team for the second time at Vancouver on Saturday afternoon. The team will be picked this afternoon. Reports from Vancouver are to the effect that the Fairview club will line up the best team possible, all the old reliables having been trained for the match. The game will be played at Recreation park commencing at 3 o'clock.

Both Vancouver lacrosse teams are out after the top prize which will be given in connection with the lacrosse tournament to be played at Queen's park during exhibition week. The Maple Leafs and the Vancouvers never practiced harder than they are practicing at the present time. It is reported from the terminal city that the stick-handlers are at work on the field during the afternoons as well as the evenings on their regular practice days.

The market clerk received instructions to sacrifice a large consignment of prunes at prices which barely cover the cost of boxes and handling and quite a few people took advantage of the bargain yesterday to lay in a stock. The fruit was brought down from Chilliwack by steamer and landed at the market wharf the other day. Fearing that it would spoil before being disposed of, the owners decided to sell cheap. Four hundred crates were taken yesterday by the grocery firms while the New Westminster Fruit Packing company purchased several hundred boxes at a low figure. There are still a hundred or more boxes at the wharf for sale.

Best of fruit land, clay loam and clay subsoil; very easily cleared in blocks to suit $15 per acre. Abbott & Hyde, next to Guichon hotel.

A cock pheasant met with a misfortune early yesterday morning and is now in captivity at the park. Quite early in the morning Mrs. Bole's attention was directed to a noise in her drawing room, and on entering discovered Mr. Pheasant lying unconscious on the floor, it having been knocked out by its collision with the glass, which it had broken through in its flight. Judge Bole had just a few minutes before left for Chilliwack, but Mrs. Bole rose to the occasion and after lacing heavy shackles on the bird's feet let it loose in the woodshed, where it soon after recovered from the shock. The bird was later in the day turned over to Chief Watson as a contribution to the park zoo.

20 lots at the west end of Seventh avenue, close to two proposed car lines, at $100 per lot. Murray Bros., opp. Windsor hotel. *

Initial work was done yesterday on the site on Clarkson street where the B. C. Telephone company proposes to erect a large brick building for the accommodation of its New Westminster central telephone station and office. A gang of men were placed at work tearing down the stone retaining wall that fronts the premises. The entire lot which is situated on the north side of Clarkson street between D. Murchie's undertaking establishment and Walsh's tailor shop will be excavated down to a level with the street. It is understood that the work will be pushed along with all possible dispatch to completion, and judging from the adverse comments heard daily respecting the present telephone service the equipment can not be brought up-to-date any too quickly.
