VOLUME 2, NUMBER 81 NEW WESTMINSTER, B. C., SATURDAY MORNING, APRIL 6, 1907. 10 CENTS PER WEEK

BAZAAR BRINGS MUCH MONEY FOR GOOD CAUSE

Most Successful Sale of Recent Years Has Grand Wind Up —The Daily News Wins From Province in Popularity Competition---G. N. R. Wins Easily.

The total receipts from the Roman Catholic bazaar amounted to $1,475, the receipts yesterday being $620. As the total expenses will not exceed $75, the splendid success of the undertaking can be seen at a glance.

This information was telephoned to this office by Father O'Boyle at three thirty this morning, with the request that it be published and his thanks extended to the people of New Westminster for the active interest they had taken in the bazaar.

The four-day bazaar which closed in St. Patrick's hall last evening was certainly one of the most successful affairs of this kind held in New Westminster for many years past, the total receipts for the week amounting to something in the neighborhood of one thousand dollars. Apart from the excellent financial standing, the interest taken in the bazaar, and the different raffles and contests connected with it certainly stamp it as one of which the organizers may well be proud. The hall was emptied about twelve o'clock last evening, Father O'Boyle and a couple of trusty assistants along remaining behind to count up the receipts for the last day.

The interest in the two big contests was maintained to the last minute, and the victory of the two winners proved to be most popular. The Daily News, which had been leading its rival, the Vancouver Province, nearly the whole time, proved to be too strong for the outside paper, and won out with seventy-eight votes to spare. The figures on the tally board at the close were: News 509, Province 431. A large number of the supporters of the home paper were on hand to applaud the victory of the popular morning daily when the result was announced. Cries of "Platform" brought P. W. Luce, who had been selected as the representative of the Daily News, before the limelight, when he was presented with a gold-headed cane, donated by A. T. Morrow, of Saperton. In a few words, Mr. Luce expressed his gratification at having been successful in carrying off the prize, and thanked the public for the interest they had taken in the contest between the rival newspapers. He remarked that the victory was due in a large measure to the energetic work of the excelent committee which had been organized to further the interests of the News, and hearty thanks were extended to them.

The result of the railway contest was announced at eleven thirty, when a blackboard bore figures giving the G. N. R. 804 votes and the C. P. R. 619, this being a majority of 185 votes in favor of the Hill road. F. C. Meyer, representing the G. N. R., secured a handsome china set donated by Russell, of the Fraser Valey meat market. Loud applause greeted the announcement that the G. N. R. had won, although many were disappointed to see E. Goulet and the C. P. R. defeated, Mr. and Mrs. Goulet having been very active in furthering the interests of the bazaar.

Immediately after the award had been made, the different prizes in the raffle drawings were given out. Owing to there being a large number of tickets on the silver set, presented by Burns, of Vancouver, remaining unsold, P. W. Luce was requested to appear before the public once more, and dispose of the remaining chances. After a sufficient number had been sold, the books were closed, and the drawing proceeded with.

The wedding cake was one by Miss Sophie Beaudeau. It is understood that it will be reserved for disposal at some future date.

An amusing feature of the evening was the winning by Mrs. Goulet, of a handsome cut glass set. The drawing took place on the platform, E. Goulet taking the ticket drawn from the hat by a youngster, and announcing the number, while Mrs. Goulet searched through the book to find out the lucky prize winner's name. Her consternation to read her own name opposite the winning number was only increased by the hilarity the incident caused.

There were many very valuable articles put up to raffle, the "piece de resistance" being a silver tea set, valued at $60, which was won by C. Henry, an employee of the Royal City Mills. The drawing was done by Master W. Gilchrist. One of the most popular wins of the evening was that of J. Leamy, who appropriately won the Morris chair, valued at $25. The handsome torchon lace dress made by the French Sisters of Christian Instruction of St. Louis College, went to Mrs. F. M. Gaynor. W. S. Collister's gift, a most handsome Japanese centre piece, valued at $25, went to Mrs. C. Dynes, while the $25 gold watch was drawn by W. J. Burr. Other winners were: Rustic chair, won by Ed. Goulet; French doll, won by C. Feeney; cut glass set, won by Miss A. Turnbull; fancy clock, won by L. Carroll; silver and glass fruit stand, won by Roland Cliff; musical clock, won by D. Sullivan; torchon lace collar, won by Miss Margaret Lewis; cushion, won by Mrs. Lewis; cut glass set, won by Mrs. Goulet; cushion, won by Mrs. DeWolf Smith; Mr. Monahan won the canaries, which he most generously gave back to the bazaar to be auctioned off, when T. J. Trapp, overcome by his own eloquence, bid out everyone else and purchased for nine dollars. Many other articles were awarded to the lucky winners, including the centre table presented by W. E. Fales.

STRAW IS SCARCE.

Farmers Have None to Spare, and Livery Men Are Puzzled.

Liverymen and parties using straw are beginning to scratch their heads and wonder where the next lot of this useful article is coming from, as shipments of straw from local farmers have completely ceased.

Straw at present is becoming very scarce in the city, and several of the ones interested in this matter state that they have no idea where it can be procured.

There seems to be no explanation other than that the farmers at the beginning of the winter, burned what little they had on hand, not anticipating a long siege of cold weather, and the larger quanaities of bedding and fodder required.

BASEBALL TODAY.

Two Strong Teams Play This Afternoon—Excitement Promised.

An exciting baseball match is on the bills for this afternoon, when the High School and Royal City teams will once more try conclusions in Queen's Park at 2 p. m. Since the last match a feeling that they can yet conquer the Royal City team has been burning in the bosoms of the School boys, and strong in the confidence of their prowess the gauntlet has been once more thrown down. As both teams have been practising hard during the week, some good sharp play is expected. The teams will line up as follows:

High School—H. Munn, captain; F. Bilodeau, p.; G. Gifford, b.; H. Fletcher, 2b.; G. Currie, 3b.; G. Corbet, rf.; R. Beattie, cent.; L. Mack, c.f.; O. Wilkie, l.f.

Royal City—W. Cunningham, captain; O. Swanson, p.; L. Robson, 1b.; N. Kenny, 2b.; G. Bilodeau, 3b.; H. Gifford, s.s.; L. Sharp, r.f.; A. Cotton, c.; P. Peebles, l.f.

TROUBLE BREWS AT PRINCE RUPERT

RIVALS DISAGREE AT SITE OF FUTURE METROPOLIS—WATTS' POOR OPINION.

News from the north would seem to indicate that affairs at Prince Rupert are not moving as smoothly or as rapidly as might be desired by those interested. J. Watt, of Similkameen, who has just returned from the northern townsite, says that the Pacific Coast Stevedore company have been ordered to cease their land clearing operations on the Tsimpsean Reserve lands. The order was given by the police of the Provincial Government and the company declined to obey on the ground that any such order should come through the United Supply and Contracting company with whom their contract was made. The matter rests there for the present, according to Mr. Watt, though he understood before he left that the provincial police were about to take steps to enforce the order.

The work of clearing the townsite is proceeding very slowly, only about four or five acres having been stumped up to the present, and the work seems to be suffering for want of competent management.

In regard to the future of Prince Rupert Mr. Watt is of the opinion that the poor character of the soil and the dampness of the climate will prevent the northern town from becoming a serious rival of those in the southern parts of the province. The soil, he says, is of a swampish nature, very retentive of moisture, and very unstable, it being necessary to drive piles down to bed rock in order to secure a safe foundation for buildings of any kind.

GOLD DEPOSIT FOUND IN STREET

RICH PAY STRUCK IN VANCOUVER—SYNDICATE STAKES CLAIMS IN EAST END.

Vancouver, April 5.—Seven placer mining claims were staked right in the heart of Vancouver yesterday morning. The discovery of gold nuggets, the largest of which returned a value of $15, led to the staking of these claims and for all any person knows to the contrary hundreds of persons are at this moment comfortably inhabiting houses, the foundations of which rest on auriferous alluvial deposit, which is as rich as the old Bonanza claims of the Klondyke region.

W. Harner is the man who found the nuggets. He did so while engaged in putting down a drain on the north side of Keefer street between Gore and Dunlevy avenues about two weeks ago. A syndicate was formed among a few of his intimate friends, and stakes were driven into the ground yesterday morning. The staking of claims within the city limits is perfectly legal.

YOUNG MEN ENTERTAIN.

Successful Reception Tendered to Ladies of Queen's Avenue Church.

A highly entertaining and successful reception last night was tendered to the ladies of the Queen's avenue Methodist church, by the young men of Professor Burwash's Bible class.

The programme, though short, was full of amusement; the humorous recitation by J. M. Clark, fairly bringing down the house, and "The Pumpkin Case" a farce trial, kept the audience in roars of laughter. Refreshments were then served, folowed by a unique exhibition of club swing ing by C. McDonald. In this feature, the room was darkened, and the clubs, which were in fact lighted torches, produced a very original and pretty effect. The accompaniments during the evening were rendered by the Sunday school band under the supervision of Leader J. A. Smith.

The entertainment was brought to a close by singing the National anthem, and with the satisfaction that a most enjoyable time had been spent by all.

FLAMES WIPE OUT STEVESTON'S SHAME

DISREPUTABLE SECTION OF FISHING TOWN IN ASHES—CITIZENS WORK HEROICALLY.

Steveston, April 5.—To accompaniment of a wild southwesterly gale and the poundings of wind tossed water against the dyke and cannery wharves nearby, every last standing board of Steveston's illfamed Chinatown disappeared in smoke and flame between three and six o'clock yesterday morning. With the exception of one house occupied by Japs and an old building in its rear, every one of the evil smelling shacks and rookeries officially designated as "Chinatown, No. 1 Road" has disappeared off the face of the earth.

That the whole town was not burned is due wholly to the heroic work of a number of citizens who manned the picturesque old engine which is Steveston's only fire fighting apparatus, and in spite of scorching heat and a veritable hail of burning shingles and cinders, kept the hose playing on the frame buildings but a few feet distant from the flaming shacks. For upward of an hour there was little hope of confining the fire and incipient blazes started in half a dozen different parts of the town, carried by the high wind.

Under the direction of J. O'Neill and Chief of Police Morrison and with the able help of Messrs. DeForest, Howe and others, the fire was kept within bounds even when all hopes of preventing its spread had been given up. The proprietor of the Star hotel, but a hundred yards away, offered to sell all his interests in the hotel for $10 and could find no taker, yet his building escaped entirely.

VICTORIA BRUTES ON TRIAL TO-DAY

ASSAULTED GIRL IS DELIRIOUS—DRANK PORTER AND SMOKED CIGARETTES IN OLD SHACK.

Victoria, April 5.—The three men detained by the police were this morning arraigned in the city police court on a charge of having committed an assault against a little girl in Victoria West. Chief Langley, on behalf of the crown, asked for an adjournment till tomorrow at ten, as the victim was unable to give evidence. Frank Higgins, who appeared for the defence, asked for an adjournment till Saturday. The case was accordingly set down for Saturday at 10 a.m.

The girl who, it is alleged, was the victim, was sufficiently recovered to make a statement to the police today. Detectives Perdue and Palmer took her deposition, which, as far as can be learned, tallies closely with that of her little sister. She states that one of the men asked her to meet him on the night in question. Together with her sister she was taken to an old house opposite the fire hall, where they all drank porter and smoked cigarettes. During all yesterday the girl was delirious.

STATEMENT SHOWS SALARIES PAID TO TEACHERS

New Westminster Pedagogues Receive Lower Average Remuneration Than Educators in Other Parts of The Province---Partiality in Increasing Salaries Displeases Many.

In an article published in the Daily News yesterday the statement was made that the average salary of the New Westminster school teacher was below the average paid by any other school board in the province. As this statement may seem incredible, the following detailed statement, showing the salaries paid in the different schools is published:

The following is a statement of the salaries paid to teachers in other cities of British Columbia as compared with those of New Westminster:

	New Westminster		Revelstoke	Nelson	Grand Forks	Rossland	Victoria		Vancouver	Nanaimo	Ladysmith	Kamloops	Greenwood
Senior Grade													
Principal	$ 100	$100	$ 125	$125	$125	$120	$ 105	$ 105	$135	$100	$100	$100	100

Second Asst.	70	65	80	70		70	72.50	69.17	90	70	60		
Third Asst.							70	69.17	75	65

Fifth Asst.	50	52.50	65	55	65	65	60	52.50	65	55	55		
Sixth Asst.				60			60	54.17	65	50	50

Ninth Asst.	52.50	50	60	60	65	60	65	52.50	65	40	50	50	
Tenth Asst.	52.50	52.50	65	60	65	60	55	52.50	60	55	60		
Eleventh "	65	40		75	72	70	50		55				
Twelfth "		45							50				
Thirteenth "									47				
Average	63	57	78	71	77	72	66	63	72	62	62	69	85

In the New Westminster list the first column is the amount paid in the Boys' School, and the second the Girls' School; in the Victoria list the first column represents the amounts paid the male teachers, and the second the female teachers.

The only place where salaries are in any way on a par with New Westminster's salaries, is Victoria, with an average of $64.50, this being $4.50 better than New Westminster, where the average for boys and girls is $60. The New Westminster teacher under the present system, comes on the staff at a salary which is set by the trustees, and he has no guarantee as to whether an increase will be granted at the expiration of one year, or ten years, as the matter of increase is altogether in the hands of the board and even should the teacher show good results at the end of the school term, if the board do not feel inclined to advance his salary, he has to take the same salary or go elsewhere, and the teachers feel that a schedule should be adopted which would give a definite standard of increase from year to year, in due accordance with the qualifications of the man. Should such a schedule be adopted, it would effectually do away with any possibility of partiality on the part of the trustees to individual teachers. The teachers have so far been very moderate in their demands, the schedule asked for being only what they, and numbers of disinterested parties, consider just and reasonable, as will be seen by a comparison of averages. Greenwood, a school of only two rooms, paying an average monthly salary of $85, while others range all the way up from $64.50. The seeming lack of action on the part of the trustees is causing considerable discussion and comment in many quarters, and should a favorable understanding not be reached by the month of June, the unpleasant fact remains that New Westminster will lose some of the most able and conscientious workers on its educational staff.

ESTIMATES BROUGHT DOWN.

Finance Minister Tatlow Claims a Surplus of $366,000.

Victoria, April 5.—Most important of the stages in the parliamentary session, the submitting of the budget, was reached yesterday afternoon, when Finance Minister Tatlow brought down the estimates and made his budget speech. So far as Vancouver is immediately concerned, the features of the greatest interest in the financial scheme of the provincial government are the sums allotted to public undertakings in the city. The finance minister claims a surplus of $366,000, and provision has been made for another $100,000 being applied to the building of Vancouver's court house, and a sum of $65,000 for improvements at Point Grey. The latter sum is in addition to the regular allowances for survey, and also to the regular appropriations for Richmond riding.

NEW CHIEF FOR VANCOUVER.

Foxy Grandpa Chisholm May Be Succeeded by Former Montreal Man.

Ottawa, April 5.—It is stated that Mr. Chamberlain, second in command of the Dominion police, which is in charge of Col. Sherwood, has received a tentative offer to become Chief of Police of Vancouver. The matter is now being considered. Chamberlain was formerly a detective in Montreal, and for a number of years has been one of the best known police officials in the country.

LARGE LOGGING CAMP.

Two Hundred Loggers Employed on Big Timber Tract.

Nanaimo, April 5.—A logging camp has been established just below Union Bay. It is reported that between one and two hundred loggers are to be employed to log a valuable tract of timber recently acquired by local investors in that section. The camp is the largest ever established in this district, and will be a valuable acquisition to the town from financial and other standpoints. The logs are to be shipped to both Canadian and American ports.

There is also some talk of the establishment of a whaling station on Denman Island. An American has the project in view. Whales are very numerous in this vicinity, and such an industry on Denman would be a profitable investment.

Ottawa, April 5.—Lord Aylmer, Inspector General of the Canadian militia has been retired from April 1. He had no definite knowledgs of the fact until last evening. His retirement is not of his seeking. Lord Aylmer is in the best of health, is practically head of the Canadian militia, next to the minister, and has earned every step he has obtained on pure merit. It is said that he is to be succeeded by Col. Vidal. The order retiring Lord Aylmer was approved by Lord Grey today.

Things along the waterfront were quiet yesterday. The steamer Dunsmuir got in early in the morning with a scow load of coal consigned to Gilley Bros.

A Very Busy Man.

A school inspector went to investigate the case of a man who, although he could well afford to keep his children at school, had obtained labor certificates for them all and was taking frequent holidays while the poor little fellows worked to keep the home on.

To his wife's plea that the youngsters' wages were useful when "feyther" was out of work the inspector replied:

"A mere quibble, ma'am. Your husband has constant work, but is too lazy to do it. His employer told me so."

"Then it's a wicked story, and I'm not particular who hears me say it!" cried the woman indignantly. "My husban' is the busiest man in England, bar none. Why, he was up at daybreak this mornin' teachin' my youngest lad to swim, an' he's walked ten miles across plowed fields to fly a pigeon an' won a bounce ball contest an' a boxin' match since dinner, an' now, to wind things up," she added as a final proof of her husband's amazing industry, "he's down in the wood yonder trainin' his dog to catch an' kill rabbits without leavin' the marks of his teeth on 'em. If you want more work than that crowded into a day, you must be a regular nigger driver."—London Tit-Bits.

When Buttons Were Big.

Bachaumont writes in his "Secret Memoirs," Nov. 18, 1786: "The mania for buttons is today extremely ridiculous. They are not only of enormous size, some of them as big as six pound crowns, but miniatures and pictures are made upon them, and this ornamentation is extremely costly. Some of them represent the medals of the twelve Caesars, others antique statues and still others the Metamorphoses of Ovid."

Isabey, in his biographical notes, says that when he came to Paris he worked for a living by making copies of Vanloos and Bouchers on the lids of snuffboxes and that for these medallions he was paid from 6 to 8 francs each. "As it was still the fashion," he said, "to wear buttons as big as a five franc piece, upon which Cupids, flowers and landscapes were cut in cameo, I went into that business. I got 12 sous for each."—Paris Figaro.

Why Some Countries Are Uninhabited

A mere glance at our maps impresses a few general facts upon us. We see that the largest areas of the unknown are now in lands that are too dry, as in the Sahara, the desert of Arabia, and the steppes of Mongolia; lands that are too wet and hot, stimulating almost impenetrable forest growths, as in parts of the Amazon and Kongo basins; lands that are too cold and bleak, as portions of the northern areas of America and Asia. Even the characteristics of the inhabitants influence the extent of the unexplored. In proportion to total area there is more unknown surface in Liberia than in any other political subdivision of the world, because the Liberians, content to live along the coast, have scarcely entered their vast forest maze, though they teem with rubber and other resources.—Cyrus C. Adams in Harper's.

What Red Coral Is.

The red coral that is used for necklaces is a horny axis which supports a number of soft bodied, coral-like animals, or polyps, the entire structure bearing a strong resemblance to a small shrub. The fishermen, after they have brought this shrublike colony to the surface, clean the soft animal matter away, preserving the red core, or axis, which is sold as jewelry. Although red coral contains some line, it is largely composed of a substance akin to horn, and, like horn, it takes a fine polish. Horn, wool and other animal substances of this nature almost invariably change their color when brought into intense heat.—St. Nicholas.

Welsh Rabbit Fiasco.

"When I was starting my apartment," remembered the bachelor, "several of my lady friends wired me they would bring a small party of people up for Welsh rabbit. I went out and bought a chafing dish, the handsomest I could find; a dozen plates, silver knives and forks and spoons and napkins and a table to set the rabbit out on, so that the rabbit, which at a restaurant would have cost about $1 all told, cost me about $35. And then they didn't come."—New York Press.

His Opposite.

Jenkins—I am told that the happiest marriages are between people who are exactly opposite in every respect to each other, so I am looking for a young lady of that sort, don't you know. Miss Pert—Then you have come to the right place. Come to the other side of the room, and I'll introduce you to a bright, intelligent, well educated girl.

Deceived.

"I want to get a divorce from my wife."

"On what ground?"

"Well, I don't know the legal term for it, but she didn't tell me before I married her that she was an elocutionist."

The Cause.

Theater Goer—The love scene in your play isn't half so natural as it used to be last season. The same people do it too. Manager—Yes, but the lovers were married a few months ago.

Hard to Understand.

Bibbs — Some people get everything they go after. Gibbs—Yes, and others don't seem to get what's coming to them.—Smart Set.

Let another praise thee and not thine own mouth; a stranger, and not thine own lips.—Book of Proverbs.

"Snigsby has a new scheme that he purposes substituting for the ordinary swear off idea. He is going to carry a little savings bank around with him, and every time he buys liquid refreshments he will drop the cash equivalent in the bank for his wife."

Looking For Trouble.

It generally depends on the way you look at things in this world whether or not you are going to have any heaven. If you go around brooding all the time and looking for trouble you'll get it.—Manchester (N. H.) Union.

A Financial Coup.

"You don't mean to say that you loaned Stickles your umbrella?"

"Yes. And it was economy to do it. It saves me the 25 cents a day he used to borrow."

Inaccuracy is the twin brother of dishonesty.—Simmons.

Always Flashing.

Tess—She certainly is the luckiest girl. Jess—You mean because she has an engagement ring? Tess—Not only that, but she's left handed.—Philadelphia Press.

The Scallop.

The scallop can anchor itself as well as any ship. It never fails to drop its anchor on the approach of rough weather. The scallop, lying in its bed of shoal water, foresees a storm in true sailor fashion and at once puts out a tough and elastic little cable from a point near its hinge. This cable it fastens firmly to the nearest rock. It is then secure in the vilest weather. He who wades through scallop haunted shoals as a storm approaches may see the tiny shellfish mooring themselves on all sides with silent bustle.

Men-of-war on Paper.

Each man-of-war is built upon paper before a single plate of steel is forged. Not only are the length and breadth of a ship decided upon, but the naval constructor can tell to an ounce how much water she will displace when her armor and guns are mounted upon her, how many times her propellers will revolve in a minute with a given pressure of steam and how many tons of coal an hour must be consumed to attain a certain rate of speed.—London Graphic.

His Gloomy Life.

"What," asked the sweet girl, "was the happiest moment of your life?"

"The happiest moment of my life," answered the old bachelor, "was when the jeweler took back an engagement ring and gave me sleeve links in exchange."

Inquiry as to a Holdup.

She (sternly)—Why were you so late last night? He (apologetically)—I was held up on my way home. She (still sternly)—Were you too far gone to walk alone?—Baltimore American.

"THE FOOT OF THE THRONE."

Comment upon the Premier's proposed mission to London seems to the Daily News to be, in the present stage of the matter, little better than mere idle chatter. There is no reason of course, why people should not indulge in a little idle chatter now and then if it pleases them, but this particular subject does not seem to lend itself appropriately to that style of treatment. Whether or not one takes seriously this latest development of the better terms matter, the serious nature of the matter itself cannot be lost sight of; and it is not easy to treat the mission to London as a thing by itself, entirely apart from the events which led up to it. On the whole, therefore, it seems best to quietly await the issue.

But there is a related matter to which we feel compelled to refer. That is the action of the Government in preparing for its appeal to the Imperial authorities. Take the exerpt from a recent editorial article in the Colonist. Having stated its conviction that the one important thing is the warrant for his appeal to them, which the British Government will ask from Mr. McBride, will be "the united voice of the representatives of the people of the Province," our contemporary says:

"Therefore we appeal to Mr. Macdonald and the Liberal members of the legislature to discover some way in which they can place themselves on record in a manner that will strengthen the case of the province before the Imperial Government."

As the Daily News pointed out at the time the Government had it in its power to secure—nay, to compel—a unanimous vote in the Legislature. As the event proved, even the Socialists were prepared to vote for a resolution setting forth in clear and forcible terms the inadequacy of the compensation proposed, and insisting on British Columbia's rights; but neither Liberals nor Socialists could stultify themselves by voting for a resolution approving of Mr. McBride's course and conduct at Ottawa. Yet that approval was the first object of the "better terms" resolution which the Government brought down. The resolution was carried, of course, by the Government majority—the "Sordid twenty-two," if we may borrow a phrase from the Columbian—and Mr. McBride got his cheap coat of whitewash; now he turns about, and through his organ, whines for the support of the Liberals.

The whole thing is, of course, a political dodge; party advantage is the thing sought; nevertheless people should bear in mind the Colonist's admission that the Government by introducing a "better terms" resolution in such shape that the Liberals could not vote for it, deliberately threw away that unanimity—formally expressed, concrete, tangible—which the organ now acknowledges to be essential if the Premier is to have anything like a reasonable standing ground "at the foot of the throne."

WE PROTEST.

The Okanagan, anent that story about W. W. B. McInnes being appointed Canadian agent of the Gugegnheims, says: "The New Westminster Columbian fairly foams at the mouth and avers it does not believe a word of the story, and if it is true, it only goes to prove that there is something crooked going on or contemplated between the Dominion Government and the Guggenheims! If the Guggenheims should happen to hire a French chef, we suppose the Columbian would get a spasm of its swallowing muscle and charge Laurier with conniving at Quebec domination in the Yukon. The Columbian has certainly got a bad attack."

Now that is very unkind. Has not the Columbian a right to foam at the mouth if that sort of thing suits it? Does the Okanagan expect it to make bricks without stray? Its bricks are all labelled "Laurier and Loot," and it cannot be expected to neglect any straw that can be worked in. It is not every day that the Mail and Empire has an article which can be "warmed over" to suit publication in the Columbian,—besides the mails have been irregular lately,—and a chance to make a sneaking insinuation against a well known provincial Liberal, and have a sidewipe at the Ottawa Government also, was too good to be lost. The Okanagan should be ashamed of such an attempt to limit a brother journalist's opportunities.

Dry Salt—each tiny grain keeping fresh and piquant. Never caking. It's WINDSOR TABLE SALT. Use it.

We are glad to see that the Opposition is putting up a fight (the first round of which it has won) against the bill entitled "An Act to revive and continue the Existnce of Certain Companies." To the ordinary man the bill looks like one that might have a big stand behind it.

We observe that our old friend Mr. McPhillips is just as ready as ever to jump upon any one who dares to object to charter-mongering schemes and all that sort of thing. The Colonist reports him as speaking "strongly" in defence of one of these schemes the other day. "Strongly" is probably a misprint for "loudly."

Delays Are Dangerous.

"But this is so sudden! You had better give me a week to think it over!"

"Very well, dear. And, perhaps, it would be as well if I thought it over myself at the same time!"—Sketching Bits.

Breaking In.

Mother—Dear me, the baby has swallowed a piece of worsted. Father—That's nothing to the yarns she'll have to swallow if she lives to grow up.

Her Sponge Cake.

A young bride, after serving to her husband a Sunday dinner that was so-so, said as the mince pie was brought on, "I intended, dear, to have some sponge cake, too, but it has been a total failure." "How was that?" the husband asked in a disappointed tone, for he was fond of sponge cake. "The druggist," she explained, "sent me the wrong kind of sponges."

Plenty of Advice.

"I wonder what the secret of Solomon's wisdom was?" said Mr. Meekton's wife.

"Good advice," replied Leonidas promptly. "He had any number of wives."—Washington Star.

Are You Looking For Snaps?

Well here they are again; and now stop kicking because you failed to secure some of the snaps we sold during our great fire and stocktaking sale in February.

Before our last great sale was half over our buyers purchased the entire standing output of the Alsace,Lorraine Furniture Company, of Copplestones, Ontario, (who are retiring from business. This stock was bought at 60c on the dollar, and we needed the goods to restock our depleted stores after the sale. The Alsace-Lorraine Furniture Company have been noted for the high class and artistic furniture they have turned out from their factories and the people of British Columbia are fortunate in having such a stock to select from when furnishing their homes, and more especially so when you consider the slaughter prices these goods will be sacrificed at. Three cars of furniture just unloaded and three more cars on the tracks waiting until we can find room for the goods. But they must be cleared out, and quickly at that. Absolutely no reasonable offer refused and you may obtain bargains that spell bargains with a big, big

A church parade of the New Westminster Rifles is called for tomorrow at 10:30 a. m. The companies A and B will parade from the Armories to the Holy Trinity Cathedral in full uniform and helmets.

An enjoyable dance was given last evening by the employees of the Fraser River mill, quite a number of young people from the city making the journey to the lumber burgh in order to participate in the festivities.

The trustee board of the Quene's avenue Methodist church, will meet in the Sunday school at eight o'clock Tuesday evening, to consider the plans for the enlargement and improvement of the church, which will be submitted by the architect at the meeting.

J. McAdam, from Douglas Lake, in the Simalkameen country, was in town yesterday. Mr. McAdam brought down seven head of good fat cattle and a nice lot of horses. He reports that where he came from, ice and snow still remain, and the temperature continues to be excessively cold.

The Stave Lake Power Company recently made application for another 77,000 inches of water, to be taken from the Stave river. As this is a large demand, Government Agent Fisher has gone up to inspect, and the hearing of the application has been postponed for a week until Mr. Fisher has satisfied himself in the matter.

The Vulcan Boiler Works of this city completed and turned out yesterday one of the large upright boilers for the heavy logging engines, which are being mounted at the Royal City Mills, and another boiler is expected to be ready to-day. These engines are some of the largest in use, and will be shipped up the coast to various camps as soon as completed.

Complaints are being received from many parts of the city that the endless chain of prayer fake that was worked here some time ago, is being started again. The fake, which is the silliest kind of practical joke, predicts great calamity to the person who receives the message, and refuses to pass it on anonymously to nine different persons for nine consecutive days, with instructions that it be kept going.

There is not much probability that the price of lumber will undergo any change this summer, according to the secretary of the B. C. Lumber and Shingle Manufacturing association. A few minor adjustments in the price list will be the extent of the changes. The price of shingles will go up a little, the price being raised from $2.20 to $2.50 per thousand, but from now on the price will be $2.50 to all comers.

The men employed at the Fraser River mills recently requested the managers of the company to erect a large hall at Millside in order that the employees may have a suitable place in which to hold dances, parties, and other functions. At the present time, dances have to be held in private residences, and the men are of the opinion that a suitable hall would be well patronized. The managers have promised to give the matter favorable consideration.

The civic employees will get their monthly cheques today. Several of the increases granted to the different departments will be paid out today for the first time. In the case of the teachers, the members of the staff whose salaries were raised some time ago will receive not only the increase for the past month, but increases for the two preceding months, this being the decision arrived at by the trustees. The great majority of the teachers, however, will receive the same salary as heretofore.

"The King of Tramps," a musical comedy was presented by Messrs. Cohan & Sutherland's company at the Opera House last evening and was well received by a fairly good audience. The various characters were well sustained and some eleven turns were given during the course of the play by Mr. Leon Allen and his sister Bertie the Bridges, (Alfred and Luce) while Mr. Victor Faust as the King of Tramps, was a host in himself, his musical selections in Act II. being especially clever and greatly applauded.

The clerks of the local stores are combining to petition their employers for a weekly half-holiday during the summer months. The hardware men of the city have already granted their employes Saturday afternoon, and as the clerks feel that it would hardly be right to close all the shops on the same day, it has been arranged to petition for Wednesday afternoon, which will be the same as last year. Some inconvenience was experienced by the customers last year when this half-holiday was granted, but the clerks contend that the people will expect it now and consequently arrange for their purchasing before hand. A similar petition is being made by the Vancouver clerks, and several of the clergy in that city have promised to support the move by referring to the matter in their Sunday sermons.

The executive committee of the Civilian Rifle Association met Thursday night to discuss equipment and the desirability of having a greater number of targets, and a longer range, as at present there are only four targets and an 800-yard range. It was decided to make application to the Minister of Militia, through Col. Holmes, and Mr. Kennedy, the local member, for sixteen more targets and 1000 yards of range. This association is the largest of its kind west of Toronto, having a membership of ninety, and it is hoped that their requests will be granted, as with the required additions of targets and 1000 yards of range it will be possible to have the provincial rifle matches held here. A deep interest is being taken by the members of this association in its affairs, some of them having sent to Edinburgh, Scotland, for rifles of a special make.

CARD OF THANKS.

On behalf of the Great Northern Railway, I wish to heartily thank the citizens of New Westminster for the manner in which they have expressed their endorsation of the work and merits of this company by returning it at the head of the poll at the contest held during the past four days at St. Patrick's hall. It is very gratifying to see that the efforts of the Hill road to help New Westminster along have been duly appreciated.

F. C. MEYERS.

CARD OF THANKS.

To the many friends of the Daily News who took such an active interest in the popularity contest closing last evening, sincere thanks are tendered. The victory of the home paper over the Vancouver Province was a deservedly popular one. To the active members of the committee who contributed in such a great measure to the success of this paper, too much praise cannot be given, and their untiring efforts are gratefully acknowledged on behalf of the Daily News.

FRIDAY'S MARKET REPORT

A large and busy crowd attended the market yesterday morning and though the weather was far from favorable, the thrifty housewife was strongly in evidence, and bargaining was briskly carried on. The scarcity of potatoes among the farmers is having the effect of keeping that indispensible article on the raise, the quotation yesterday reaching $25 and $26 dollars per ton. No ducks or geese were offered but the supply of other feathered offerings was good and at prevailing prices quickly snapped up.

Beef supply seems to have dropped off this week, though there was sufficient to satisfy the demand. Spring meats such as mutton, veal, and lamb are popular and in high demand, the supply in some cases not coming up to the demand. Pork was scarce and quickly found buyers at good figures.

Eggs and butter were in good demand and the supply well up to requirements. Apples were very scarce and any that were brought in were disposed of early in the day.

Quotations.

Beef, hind quarters, 9½c to 10½c lb.
Beef, fore quarters, 7c to 7½c lb.
Veal, 11c to 11½c lb.
Pork, 10½c to 11c lb.
Lamb, $6.00.
Mutton, 13c to 14c lb.
Potatoes, $25 to $26 ton.
Eggs, wholesale, 30c dozen.
Butter, 35c lb.
Fowl, $8.50 to $10.50 dozen.
Chickens, $7 to $9 dozen.
Ducks, $11 to $13 dozen.
Apples, $1.40 to $1.50 box.
Onions, $1.50 sack.

Market Visitors.

Some of the market visitors who were seen in town yesterday: Mr. Rice, Coquitlam; M. Marshall and R. Routley, Langley; Mr. Spencer, Surrey; L. and J. Tomlin, Westham Island; Mr. Smith, Scott road; Mrs. Quaggan, Sunburry; M. Pillatt, Bon Accord; R. C. McNeil, Mud Bay; L. Cline, Scott road; J. Holmes, Delta; Mr. Bartlett, Chilliwack; Mrs. Milburn and son, Hall's Prairie; G. Neuman, Blaine; J. Gillis, Port Kells.

Things along the waterfront were quiet yesterday. The steamer Dunsmuir got in early in the morning with a scow load of coal consigned to Gilley Bros.

REAL ESTATE in the City of New Westminster and throughout the New Westminster District is advancing in price very rapidly. Property is changing hands so quickly that prices ruling the market today are oftentimes non-existent on the morrow.

Lots throughout the city are doubling in value, owing to the many large and new industries starting up, bringing in their train a greater population of homeseekers.

He Took a Hand.

Mr. and Mrs. Stockson Bonds are inveterate bridge whist players, and their home is the meeting place of bridge players of all grades. On one evening in every week they are "at home" to any of their friends who wish to play, and on other evenings they entertain parties of their own selection for games which range from a cent a point to a much higher figure. Recently, long after the house had been closed, a noise was heard downstairs, and, regardless of his wife's protests, Stockson Bonds went below to ascertain the cause. The noise continued and grew louder, but no answer came to the wife's calls from above. She became alarmed, opened the window, saw a policeman, and he made a rush for the basement door. A few minutes later the husband appeared before his panic stricken wife and told her he had found the servants playing bridge and wrangling over the propriety of a certain play.

"Did you send the whole party away?" asked the wife.

"Why, no. I took a hand and decided the question before I realized where I was."—New York Tribune.

He Held On.

"In a town back in Vermont one time," said a doctor, "a big, husky lumberman entered the office of a dentist I knew and showed the doctor a bad tooth. The dentist decided that the tooth should be pulled.

"'All right," said the lumberman. 'But listen now. If I tell you to stop, you stop pulling or I'll beat you up.'

"The dentist agreed, and the lumberman got in the chair. The dentist took hold of the tooth and began pulling. Almost immediately the lumberman yelled, 'Hold on!'

"The dentist continued to pull. 'Hold on!' yelled the lumberman. The dentist kept pulling, and the tooth came out. Then the lumberman jumped from the chair mad.

"'Why didn't you stop when I told you to?' he asked fiercely.

"'You didn't tell me to stop,' said the dentist.

"'I did too! I yelled "Hold on!" twice.'

"'Oh,' said the dentist innocently, 'I thought you meant to keep hold of it.'

"The lumberman believed him and cooled off."—Denver Post.

Agility of Hares and Rabbits.

Interesting figures on the relative agility of hares and rabbits are given in a volume by J. G. Millais. "When running at ease," he says, "the length of the hare's stride is about four feet, but under conditions of fear its leaps extend to ten and twelve feet, while some authors claim that it can jump ten ditches twenty to twenty-five feet in width. Perpendicularly a hare can jump on to a five foot wall, but seems to be nonplused by one about six feet. The stride of the rabbit is about two feet. When necessary it can make leaps of six or seven feet horizontally. About three feet is the highest that a rabbit can attain to even when helped by the asperities of a stone wall." Mr. Millais tells how rabbits swim—when compelled to: "They swim with the head held as high as possible, while the hocks of the hind legs appear above the element at each stroke. The shoulders and front part of the body are buried beneath the water, while the rump and tail are high and dry."

Tyranny of Clothes.

Place a man in a silk hat and frock coat and transport him to a farmyard. Agricultural pursuits may be the one passion of his life, but clad in these garments he feels in such surroundings miserable, out of place, essentially urban. Clothe him, conversely, in flannels or knickers and place him in a church, and it is utterly impossible for him to assume a fittingly devotional frame of mind. Unlimited autocracy itself cannot impose such tyrannies on the subject. Civilization is the slave of its clothes, and there is no prospect of freedom. — London Graphic.

The Juice of the Grape.

The Arabs say that when the first grapevine was planted the demon Iblis sacrificed a peacock on the spot where the plant was set. As soon as it began to sprout forth he sacrificed an ape over it. When the grapes began to appear he slaughtered a lion, and when these were ripe he offered up a pig; hence it is that he who drinks wine feels at first as proud as a peacock and becomes subsequently as tricksome as an ape, as bold as a lion and at length as stupid as a swine.

Definitions.

Asked to define a suffragist, a British schoolboy answered, "A person who creates a disturbance." One boy described "surf" as "a form of seaweed which grows in the Pacific ocean." In an essay on the canine race a pupil declared that "small dogs improve by keeping," and another gave the singular of "twain" as "worsted."

There Yet.

Scott—My wife's mother has visited us only once in five years. Mott—That isn't bad. When do you expect her to pay her second visit? Scott—Oh, she hasn't got through her first yet.—New York Telegraph.

Then She Talked.

Reporter—Well, I've interviewed her. Editor—Did she talk without restraint? Reporter—I should say nit! She wouldn't say a word until her husband came in and told her to keep still.—Philadelphia Inquirer.

Daniel's Fame.

Deacon Jones—Why was Daniel the most popular man mentioned in the Old Testament? Brother Smith—Because he was lionized.

FAMISHED CATTLE SHORT OF FEED

HEAVY LOSS PREDICTED—HAY SCARCE, AND SNOW STILL COVERS RANGES.

Reports from the interior of the province indicate that there will be a very heavy loss among the ranchers as a result of the severity of the past winter and the delayed opening of the spring. The snow in the direction of Kamloops and Lillooet is still covering the ground. The result is that the hay stored for the cattle during the winter months is very scarce.

The winter has been so severe that it has tried the strength of the herds and there have been very heavy losses throughout the past five months. Following this is the late spring and the shortage of feed, so that the weakened herds are now becoming depleted to an alarming extent.

In some cases it is reported that there will be herds of cattle completely wiped out. In other cases it is more than likely that the losses will amount to at least fifty per cent. of the stock.

The cattle in many cases suffered from frost bites and have developed agravated sores which sap their vitality. The cattle that go out on the grass will be in a very weak condition and will require the closest attention for some time after the spring opens.

A Curious Notice.

This curious official notice was once published in Germany: "At the request of Herr Wilhelm Leigson of Innsbruck the seaman, Johan Leigson, who was drowned in May, 1869, on a journey from Stockholm to Hamburg in the Kaiser Friedrich, is hereby called upon by the courts to appear and report himself on or before April 1, 1881, under pain of being declared dead."

Financial Note.

Jerrold—Could you pay me that 10 shillings you owe me? I owe Johnson some money and want to pay him. Hobart—Well, I'll tell you what. You pay Johnson what you owe him, and then I'll borrow 10 shillings off Johnson and pay you.

Familiar.

Visitor—Will you tell your master that I called? Servant—Yes, sir, if you will please tell me your name. Visitor—That is unnecessary. He knows me quite well.—Wanderer.

If people resolutely do what is right, in time they come to like doing it.—Ruskin.

In coats, a shipment from Germany adds a touch of newness, at prices most reasonable. Many new *lines of blouses, new gowns*, in a full range of lengths. In fact all over the store can be seen something new. We will consider it a favor to be allowed to show you these new goods.
