ED FARMER GORED TO DEATH BY BULL

is Stannard, of Cloverdale, Meets Horrible End in a Pasture.

is Stannard, a farmer sixty s of age living near Cloverdale, ad as a result of being gored by ll on Saturday afternoon in the re at the rear of his farm. Full ls of the sad accident have not obtained, but it appears that Mr. nard had occasion to go out into pasture, and it was while on his back to the house that the bull denly caught sight of him, and a break for the old man. Be- the farmer could get away, the had pinned him to the ground, was slowly goring him to death. old man's cries for help were d by one of his sons, who rushed his assitance, but before the in- ted animal could be driven off, had inflicted such injuries upon Stannard that it was evident that was only a matter of a few rs.

he old man was badly lacerated the horns of the bul, large strips flesh being ripped off the body, le the clothing was a mass of rags. deceased leaves a widow and two ng up sons, who lived at home with r parents.

he date of the funeral has been d for this afternoon, and the ghbors are expected to turn out in e numbers to pay their last token spect to the memory of the man met such a cruel death on Sat- y.

he bull in question was known to ncious animal, although he had attacked anyone. Great care ays taken by anyone going ere near him, and on more than occasion, it was only by a quick p over the fence that others were ed from a fate such as Mr. Stan- d's. The bull was killed by one of neighboring farmers on Sunday rning.

BOTH FRIGHTENED.

ear Steps on Man's Face, He Yells, Cook Faints.

Alberni, B. C., Aug. 25.—While rest- g in camp on Kennedy lake, Clayo- ot, lying on his back, peaceably oking his pipe, and gazing at the ky, S. H. Toy, the well known min- g and timber man, of Alberni, had startling experience last week. He as rudely awakened from his re- ries by a black bear stepping on s face.

Mr. Toy was out with J.W. Thomp- n, professor of music in Knox col- ge, Galesburg, Ill., inspecting some mber claims that were recently pur- ased from him and his partner, W. Garrard, by an Iowa syndicate, of hich Prof. Thompson is a member. heir tent was pitched beside a small ck, and, the night being warm, Mr. oy had his head outside the can- as close to the boulder. The bear ad evidently caught the odor of the ck house, and was sniffing close to e stove when he almost collided th the cook. The prowler, realiz- g the danger of his position, made bound for the nearest opening to the ll timbers. He struck the top of e rock, but his claws failed him, nd he slipped down the side to here Mr. Toy's head was exposed, nding with one paw on the upturn- d face. Just then the cook, who had had time to regain his breath, made the night air shiver, and the tree ves tremble, with a yell that would make an Apache Indian feel cheap, and the bear lingered on Mr. Toy's face no longer than was necessary to recover his balance, and make an- ther jump for the woods.

Mr. Toy hurriedly grabbed his rifle, and followed the trail of the vanish- g brute for a short distance into the forest, but was unable to get a shot at his game. When he returned to camp he found the professor ad- ministering stimulants to the cook.

Nelson, B. C., Aug. 25.—Definite arrangements now have been made for the reception of the fire chiefs of the province and of Spokane, to con- vene here September 19, with the view of organization. A special committee of Twenty Thousand club is looking after the matter. Chief J. H. Watson, of New Westminster, will be chairman.

JAPANESE ASSAULT WHITE FISHERMAN

Brutal Conduct of Brown Men Leads to Police Court Proceedings at Steveston.

Two Japanese, S. Ishoboshi and Kaunagi, are facing a serious charge of assault before Magistrate Faulkner at Steveston this evening. The two men are accused of having unmercifully beaten a Swede, named Ole Haunson, who, they claim, had in his posession a net belonging to a friend of their, Euratta, of Vancouver. Haunson claims that he picked up the net on the river, and intended to turn it over to the proper authorities, but that when the Japs claimed it, he demanded $20 as a reward for saving it for them.

It was this demand on his part that started the trouble. The Swede was in his boat at the Terra Nova cannery wharf when he had the argument with the Japs, and the latter, in order to impress upon the son of Sweden a due sense of their own importance, commenced pelting him with large chunks of coal. Not liking these attentions, the Swede put out in his boat, but the Japanese immediately started out in pursuit, four of them manning a big boat, and overtaking Haunson about two hundred yards from the shore.

Ishoboshi and Kaunagi jumped into the Swede's boat, and according to the statements of witnesses, they savagely attacked him, knocking him out with one blow over the head, a long stick being used as a weapon. After the man was dazed, he was beaten with ropes, sticks and oars, jumped upon and kicked into unconsciousness. Leaving the man for dead in his boat, the Japs started to return to the shore, but about half way back, they decided to bring in the Swede's boat. When Haunson was landed at the wharf, he was covered with blood, several gaping wounds disfiguring his face and head. It took several hours work to bring the Swede back to normal condition.

The Japs were arrested by Chief of Police Miller, of Steveston, who also arrested Haunson on a charge of stealing a net. Both charges will be investigated tonight.

CHRISTIAN SCIENCE SPREADS

English Disciples Do Not Approve of Mrs. Eddy.

London, Aug. 25—Christian Science is furnishing a London paper noted for its silly season discussions when news is scarce with a topic almost as exciting as "Is Marriage a Failure?" There is no question of the growth of Christian Science in Great Britain. Services are held regularly in some English and Scottish towns, and a special campaign has been instituted at the Aldershot camp where the meetings have been attracting widespread attention. Earl Dunmore was one among others who gave a recital of his cure, a complaint which one of the best London surgeons had pronounced incurable, and several army officers also testified. The English Scientists say Mrs. Eddy is regarded by the elect as woefully lacking in knowledge of the true basic principles of Christian Science in its more recent developments

SOCKEYE SEASON ENDED.

Nothing Like a Run During Six Weeks.

The pack from the sockeye season which has just closed is the smallest in the history of the Fraser river. In past years there has been a good run for a day at least during the season, but the present year was marked by an absence of anything like a run. There was a small spurt on Friday last, and a number of fishermen secured about fifty fish on an average, for which the Steveston canneries paid them twenty seven and a half cents. Some of the canneries were kept operating until noon yesterday to pack the last of the catch.

Spring salmon fishermen did good work on Friday and again last evening, some of the boats getting as much as three and four hundred pounds. Quite a number of fishermen will continue in the spring salmon fishing business as long as the run continues good.

GRIEF TURNS TO JOY.

Man Supposed to be Buried, Returns Home Safe.

Cohoes, N. Y., Aug. 25.—Although the relatives and friends of James Gaffney attended the funeral of a man they thought was he, they made a mistake, and the real Gaffney, a weaver 44 years of age, employed in this city, is very much alive.

The body of a man supposed to be Gaffney was taken from the Erie canal a week ago. It was identified as that of Gaffney and sent to Fall River, Mass., where Gaffney's mother accepted it as that of her son.

This morning the real Gaffney walked into police headquarters and convinced Chief Adams that he was not dead. His mother at North Adams was notified and her grief changed to joy.

HUNDREDS OF GREEK BOYS HELD AS SLAVES IN CHICAGO

Chicago, Aug. 25.—Hundreds of boy slaves are held under the padrone system in Chicago, and the immigration authorities today ordered a crusade against the padrones.

The boys, mostly Greeks, are held in bootblack parlors and fruit stores. Inspector Seraphis has discovered agencies for dealing in boys, and during the past week caused the arrest of four wealthy Greeks, who are charged with conducting a regular slave traffic. The investigation has been blocked by the terror of the boys, who are said to have been beaten and threatened with death if they reveal anything.

Commissioner Foote held several boys as witnesses, and on their refusal to disclose the facts concerning their bondage summoned Greek priests to administer the religious oath of their church. The priests refused to require the boys to testify. Inspector Seraphic is investigating a report that some of the priests are financially interested in the traffic.

Michael Georgopolk, a 14-year-old victim, told Commissioner Foote his parents sold him in service for five years. The price paid was the cost of his passage to America and $100.

WIRELESS COMBINE IS NEXT IN LINE

Several Aerial Message Companies Decide to Amalgamate---DeForest in Straits

Los Angeles, Aug. 25.—It has been persistently rumored for several weeks, and the story appears to savor of truth, that the wireless telegraph companies throughout the country are to be consolidated.

Complete confirmation of the report was not obtained here today but officials of the Pacific Wireless Telegraph company admitted that an amalgamation project has been suggested.

The proposed consolidation, according to the rumor, involves the Pacific, DeForest, Marconi-American and the Occidental and Oriental Wireless Telegraph companies.

The DeForest company is at present enmeshed in heavy liquidation and a number of financiers are reported to be making a desperate effort to crowd out the small stockholders and get control of the corporation.

General Manager L. Papham of the Pacific Wireless company, which has headquarters in Los Angeles, is now in Chicago. It has been stated that he went east in the interest of the reported merger, but this is denied at the local office.

Gasoline Tank Explodes.

Tiverton, R. I., Aug. 25.—A gasoline tank in a motor-boat in the Seaconnet river exploded tonight, causing the death of two persons and serious injuries to five others. The boat was a 30-footer, owned by Joseph Chouinard of Fall River, and contained fourteen young people who had been on a trip to Newport from Fall River and had stopped at Tiverton on their return.

IMMIGRATION A CURSE.

Better to Starve Where You Are Known, Says Labor M.P.P.

Kingston, Aug. 25.—Allan Studholme, the labor M. P. P. of Hamilton, in an address before the Kingston labor unions, declared that the people of Canada had very soon to decide whether this was to be a white man's country or a rendezvous of coolies.

He denounced the mining magnates who stated the demand for coolies by underpaid labor, with the result that they had to call for deportation on account of wholesale immorality. Immigration to Canada, he said, would be a growing curse unless taken up by the government and systemtaically organized. At present he recommended the immigrant to starve where he was known instead of in a strange land.

PROTESTED GAME IS ORDERED PLAYED AGAIN

The Vancouver-New Westminster protest, which was heard last Wednesday by a committtee of the B. C. Amateur lacrosse asosciation who has rendered a decision, the substance of which is that the match of August 10, which was won by New Westminster, shall be played over again in Vancouver, on a date to be mutually agreed upon. The committee found that New Westminster was at fault in playing Galbraith. The decision ruled that sixty per cent of the gate receipts shall go to the Vancouver club and forty per cent to the New Westminster club.

It is improbable that the game will be re-played. In conversation with some members of the club last evening, it was learned that they were very much dissatisfied with the result of the protest and that the game would not be re-played unless it was found necessary in order to win the championship.

The committe which heard the case consisted of C. W. Murray, chairman, J. Martin and J. J. Reynolds.

Mrs. Ryan Gets a Title.

New York, Aug. 25.—Mrs. Thomas F. Ryan, wife of the New York financier, has had the title of countess conferred upon her by Pope Pius X. This recognition carries with it church benefatcions.

CHINESE POLL TAX CASE IS NOT YET ENDED

James Anderson Decides to Take Proceedings Against Delta Magistrate.

Charley Sing, the Chinaman who was hailed before the magistrate of Delta and forced to pay $46 revenue taxes, on behalf of himself and other Chinamen, has found a champion of his rights in James Anderson, manager of the St. Mungo cannery, who affirms that he has instructed his solicitors to proceed against the municipality of Delta for their domineering attitude in dealing with the Oriental.

Mr. Anderson stated to a News reporter Saturday that Charley Sing, foreman of the Chinese gang at the St. Mungo cannery, arrived on the scene one week ago Friday and the following day at 4 p. m., he was summoned to appear before the magistrate at Delta on the following Monday at 10 o'clock to show cause why he should not pay the revenue taxes due from several Chinamen or go to jail.

Charley went to Delta in answer to the summons and was asked to square up the taxes and cost of the court, amounting to $46. On his refusal he was taken to jail, but growing uneasy as he neared the big stone house, he paid the amount. Mr. Anderson holds that the Delta authorities arrested the wrong man, inasmuch as Charley Sing is not the Chinese labor contractor, but merely the foreman at the cannery. Quong On Wo & company, he states are the labor contractors and they should have been negotiated with. The fact that the Delta constable took Charley away and prepared to hustle him off to jail before he had an opportunity of consulting the other men concerned, or the labor contractors, Mr. Anderson claims, is sufficient grounds for taking the matter into court.

ADVENTISTS OPEN SCHOOL AT HAMMOND

Legislative Library.

Up-to-Date College Will Be In Use Early in October ---Is a Fine Site.

The Manson industrial academy, established by the British Columbia conference of Seventh Day Adventists, designed as a training school for Christian workers, will be opened at Port Hammond on Wednesday, Oct. 2, of this year, with L. B. Ragsdale, principal; church school department, Bertha Lofstad; musical department, Ruth Watson; matron, Mrs. J. M. Watson; and preceptor, L. B. Ragsdale, in charge of the pupils.

The board of directors consists of E. L. Stewart, W. C. Young, J. L. Wilson, S. A. Wilband and William Manson.

The school farm consists of about two hundred and ten acres, part of which, consisting of open prairie land, is under cultivation. The remainder is timbered land which furnishes abundance of fuel and lumber. A saw mill is at present working the timber into lumber. There is also an abundance of pure, soft water, while snow-capped mountains to the north form beautiful scenery. This beautiful farm was donated to the Adventists some three years ago by William Manson.

The building now being constructed is 36 by 42 feet, two stories high, besides the basement. This building can be made to accommodate twenty students.

In the basement will be located among other rooms the kitchen and dining room where the students will be furnished with plain wholesome food. Two full meals and a lunch will be served per day. On the first floor the assembly and recitation rooms will be found. The second floor will be used as a dormitory.

The school is open to all worthy persons of both sexes who are willing to comply with its regulations, whether they make a profession of religion or not.

The object of the college is to train young people for the ministry, according to the Seventh Day Adventist standard, and the men in charge expect that they will have about fifteen students to commence the first term. A large number of appplications have already been received, although nothing has been previously published about the training school. In addition to the religious education of the students, the following subjects are included in the curriculum:

Geography, reading, languages, arithmetic and accounts, penmanship, drawing, music, nature study, elementary physiology, book-keeping, history, civics, rhetoric, algebra, elementary astronomy, elementary botany, elementary physics, elementary literature, prophecies, Latin, elementary chemistry, elementary zoology, geometry.

CHICAGO POLICE ACTIVE.

War Waged on West Side Crooks by Several Squads.

Chicago, Aug. 25.—The Chicago police rounded out a day of warfare against criminals last night by killing a hold-up man just after he had robber a citizen, and by capturing the robber's companion. Thomas Kelly, who had a record of crime, was the man who was killed. His slayer was Policeman Park J. Fee. Kelly has held up Michael O'Neil, a steamfitter. A companion of Kelly's, Thomas Roach, was arrested at the same time.

Early in the day the police had gone actively to work to rid the west side of crooks. As a result more than twenty thieves, some of them criminals of international reputation, were shown to the detectives in the bureau at the nightly line-up. It was the result of the first day's work of four squads of picked men sent out to rid Chicago of the recent influx of criminals. This raid on criminals is to be kept up, says Chief Shippy, and is to be extended to the other sections of the city.

Discrimination Must Cease.

Lincoln, Neb., Aug. 25.—The state railroad commission has ordered the Great Northern railroad to cease its discrimination against Omaha in favor of Minneapolis. The railroad is accused of refusing cars to shippers who want to load grain destined for the Omaha mills.

PLAYERS DISGRACE NATIONAL SPORT

Vancouver Clubs Turn Lacrosse Game Into Exhibition of Brutal Fights.

In one of the roughest games see in British Columbia this year, if not in the last four years, the Vancouver lacrosse team defeated the Maple Leafs at Recreation park on Saturday by seven goals to one. The Vancouvers showed up in better form than their opponents but their rough stick play deprived them of the glory which otherwise was due them. The game was marked by several fistic encounters between players, ad once Referee Cheyne was assaulted by Vernon Green, of the Maple Leaf team. Cheyne attempted to retaliate, but was held back. Checking was hard all through the game, the body being used continually. Players were sent to the fence in numbers for fouling.

Seeing their men on the fence and the game slipping away from them, the Maple Leafs resorted to slugging and more were sent to the wall. Towards the finish the players devoted more attention to their opponents than to the ball, with the result that the exhibition was very poor.

Vancouver made two goals in the first quarter, one in the second three in the third and one in the fourth.

The Hill bunch got their goal in the second quarter, Trainor finding the net.

Ravey in goal for the Maple Leafs played a splendid game but owing to rough play he was not always present. He was sent to the fence four times and was finally ruled off for the balance of the game. Gibbons in goal for the Vancouvers did good work.

The next league match will take place at Vancouver on Labor day, September 2, between the New Westminster team and the Vancouver team.

The following is the present league standing:

	Won	Lost	To Play
New Westminster	3	2	3
Vancouvers	2	2	4
Maple Leafs	2	3	3

CHINESE PROBLEM.

Celestials Want to Attend Public Schools in Victoria.

Victoria, Aug. 25.—The influx of Chinese children and their application for permission to attend school in order that upon showing a certificate of attendance for twelve months they may receive a rebate of the amount of their head tax, has brought the school board face to face with a crisis.

So serious is the situation that Chairman Jay summoned a special session of the school board last evening to consider the matter. Pending it he instructed the superintendent to refuse permits to attend school to those Chinese children applying.

The trouble has been brought about by the following clause in the Dominion Chinese immigration act:

"Persons of Chinese origin claiming on their arrival to be students but who are unable to produce the requisite certificate as hereinbefore provided for, shall be entitled to a refund of the tax exacted from them on the production within eighteen months from the date of their arrival in Canada of certificates from teachers in any school or college in Canada showing that they are and have been for at least one year bona fide students in attendance at such school or college.'

By reason of the above the city and province are compelled to pay the cost of educating these Chinese who in twelve months enter the labor market.

At the session last evening the school board unanimously endorsed the action of the chairman and delegated Chairman Jay to interview the provincial educational department and instructed Superintendent Eaton to refuse permits to Chinese until the answer of the department is received.

Brakes Refused to Work.

Grand Forks, B. C., Aug. 25.—A wreck occurred on the Great Northern spur to Phoenix yesterday, but no one was seriously injured. It was another case of the brakes refusing to work. Several of the heavily laden ore dumps were piled up.

EXPELLED BOARDERS USE EGGS AS PROTESTS

Puritans of Pilot Mound Close Hotels and Force Many Into the Streets.

Pilot Mound, Man., Aug. 25.—Last night was one of the most disorderly in the history of Pilot Mound. All day the roomers and boarders, who had been turned out by the closing of the two hotels, paraded the streets in search of other lodgings. In the evening, those that were still homeless formed a parade and presented a number of temperance agitators with an assortment of eggs.

Mayor Baird had to be called and after much difficulty succeded in restoring order. During the day a number of travellers stopped at the Mound and had considerable difficulty in finding accommodations. Some of the town laborers were also compelled to drive to Crystal city, a distance of five miles to get their meals.

It is understood that both the Shore House and the Friend's Hotel have been offered for sale to the temperance people at very low figures, but neither has been accepted and very little effort will be put forth to find other accommodations for the public.

SPIKELESS CACTUS.

Mexican Greatly Impressed With Burbank's Improvement on Nature.

San Francisco, Aug. 25.—Enrique C. Criel, Mexican ambassador to the United States, who is visiting San Francisco, spent yesterday at Luther Burbank's gardens at Santa Rosa. He was profuse in his praise when he returned to the Fairmont hotel last night of all that he saw at Santa Rosa.

"Burbank has done a great work," said the ambassador. "He has done a service to nature the value of which cannot be underestimated. He has produced wonderful results. I was especially interested in the spikeless cactus which he has produced and more so in relation to the uses it will have in my own country.

"Mexico is especially adapted for the extensive growth of the cactus and the introduction of the spikeless variety will be of much service to the country. I shall certainly recommend the establishment of experimental stations in Mexico upon my return, at which the production of the spikeless cactus will be pursued."

SIX ARE DEAD.

Dispatcher Bungles Orders, Trains Crash Together.

Oklahoma City, Aug. 25.—Because a train dispatcher at Sapulpa failed to give train orders correctly, two passenger trains on the Rock Island, Numbers 212 and 213, crashed into each other this afternoon at 4 o'clock, a mile and a half west of Tulsa, completely demolishing both locomotives and five cars, killing six persons and seriously injuring several others.

The identified dead are: Christ Bentz, engineer, Monett, Mo.; Chas. Granger, fireman, Sapulpa; Tom Cooney, engineer, Monett, Mo.

Both were through trains, one doing the bulk of the business of Texas points to Oklahoma city, and the other a Texas and Oklahoma train out of Oklahoma city and Kansas city. Both trains caught fire.

Doukhobors All Arrested.

Kenora, Ont., August 25.—Doukhobor travellers who have been sojourning in the neighborhood of Kenora, for a rest, started towards the east a few days ago. The party got as far as Margach, about twenty miles east, when they were all arrested for marching along the C. P. R. track. The whole number were returned to Kenora this evening in a freight car in which they are domiciled for the night. The leader of the band has unaccountably disappeared and it is thought that with him went all the funds of the Doukhobors.

Must Live on Fish Now.

New York, Aug. 25.—Deliveries of meat from local packing houses were completely stopped today by a strike of the 400 wagon drivers. The only meat delivered is that from refrigerator care. The drivers handling refrigerator car meat may strike this afternoon.

Since August 14, when the agreement between the packing companies and the teamsters' union expired, the representatives of both have been endeavoring to adjust certain differences, but the teamsters decline to accept a clause providing arbitration on all questions.

Big Dynamo Placed on Boat — Town Left in Deep Darkness -Bank Annoyed

Friday Harbor, Aug. 25.—This city is suffering from the effects of a Japanese invasion and is shrouded in darkness all because a party of men from Roche Harbor, a neighboring town, walked off with its electric light plant one night this week.

Long after the midnight hour had fallen, Dr. Capron, of Roche Harbor, two white lieutenants and twenty Japanese, it is alleged, dismantled the plant which has been lighting the town and put the dynamo in a boat. Then Dr. Capron sailed for his home, miles away.

Before breakfast next morning Friday Harbor was in an uproar. Everybody was demanding to know why the electric current would not work, and the power company was roundly scored behind its back. Great was the surprise when it was learned that the chained lightning factory had been stolen. It was hours before it was known what had become of it.

It now appears that a mortgage held against the mill company which furnished the power to light the town, and in which Dr. Capron is heavily interested, is the cause of the trouble. The San Juan County Bank holds the mortgage, which it declares includes the power plant. This is denied by Dr. Capron, and to forstall its seizure he carried the dynamo away.

Attorneys for the bank are in Friday Harbor now and will bring suit to recover the property. Meanwhile more than half the people of the town are in high dudgeon over Dr. Capron's bold escapade, and they would like to call him to account.

CREDITORS WERE EASY.

Two Months' Resident Secured Thousands of Dollars.

Winnipeg, Man., August 25.—Anxious creditors are looking for R. C. Morley, who is supposed to be somewhere between Winnipeg and the United States boundary in a Northery automobile, which is not his property. Morley had been running a garage in the old roller rink on Garry street for the past two months, and, according to the story given by his creditors, he did some work in high financing during his brief career. Morley came from the States in June, and after working in some twenty garages for a month, decided to start up for himself. He borrowed several thousand dollars on notes and skipped with two automobiles not his own.

Bones of Monster Found.

On Queen Charlotte island the bones of a gigantic animal of prehistoric origin have been discovered that are so ponderous and unusual in appearance as to mystify scientific men who have seen them. The bones have been brought to Vancouver, where they now are on exhibition.

The skull measures seven feet across the forehead and the eye sockets are eighteen inches in diameter. One of the ribs is sixteen feet long. The animal when alive could have nibbled the foliage off the tops of the tallest fir trees. Human beings and the domestic animals of today would have appeared like pigmys besides this monster that once stalked about the primeval forest on Queen Charlotte island.

MAIL CONTRACT

SEALED TENDERS addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the twenty-seventh day of September, for the conveyance of His Majesty's mails, on a proposed contract for four years, twice per week each way, between New Westminster and Strawberry Hill (Proposed Post Office on Scott Road), during the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Post Offices of New Westminster and from Mr. Robt. G. Lee, Scott road, and at the office of the Post Office Inspector.

INQUESTS NECESSARY.

One of those errors which are so apt to occur in hurried writing, gave to an article which appeared on the front page of this paper on Friday last, the appearance of an insinuation against a leading medical practitioner of this city, and that error, for which the Daily News has already expressed and again expresses its regret, makes it a somewhat painful matter to refer to the subject again; but a newspaper must put its duty to the public first. It was that feeling of duty which caused the publication of our former article, and which now induces us to return to the subject. There was no intention at first and there is no intention now to impart blame to anyone. The officials acted in the matter, we believe, in the honest exercise of discretion which the law as interpreted allows them; the fault, therefore, lies with the law.

The protection of a country's citizens is the first duty of the government of that country, and the point we wish to make is that full public investigation into every case of violent or unnatural death is necessary for the protection of the public.

In the case which has given rise to this discussion, the officials who knew the facts were satisfied that the unfortunate man died by his own hand, and there is no reason to doubt the soundness of their conclusion; nor can anyone fail to recognize the fact that the course they pursued was dictated by a desire to spare the stricken family a most painful ordeal. That desire in itself was most praiseworthy, but what has been the result? Public comment has forced the matter into publicity in a way quite as distressing to all concerned as a formal inquest would have been. No argument, however, should be, or can properly be, founded upon the circumstances of any particular case. The general principle which we have stated will, we feel sure, be approved by everyone who gives the matter consideration.

It should be quite evident that private enquiry into the circumstances of a death which has resulted from other than natural causes cannot in all cases be sufficient to establish the fact of accident or suicide, and no sentimental considerations should be allowed to stand in the way of such full and searching enquiry as shall put the law officers of the crown in possession of all ascertainable facts. Public safety as well as a proper feeling of the sacredness of human life, demands that the full light of publicity be turned upon all such cases. Anything short of that—anything which makes easy the hiding of essential facts—would plainly open a way for crime which would sooner or later be taken advantage of.

We need not dwell further upon this subject now. As we have said, anyone who gives the matter consideration will see at once that we should fail in our duty to the community if we neglected to point out the danger of allowing such cases as that upon which we have commented to be kept from the knowledge of the public and treated as private matters which could be properly disposed of by one or two officials after more or less perfunctory personal investigation.

BIG GUNS.

Speaking of the result of the recent artillery competitions between Canadian and Old Country volunteer teams, the Globe says:

"The Canadian gunners at Halifax have won the King's cup. At Petawawa last month the Canadians were also successful, and won the Prince of Wales' cup and the Londonderry Challenge cup. * * * * * * The record of the work done throughout these artillery competitions, which began on July 22 and closed August 17, ought to be highly gratifying not only to the military authorities of

194 W

Canada, but to those of Great Britain as well. The teams representing the British National Artillery association and the Canadian Artillery association were composed of citizen soldiers. The standard of efficiency attained by officers and men in all cases was exceedingly creditable. Artillery is a scientific branch of the service, and demands of its officers and men a high standard of technical knowledge and skill, and no doubt the British were surprised to find the Canadians, who drill for only compartively short periods each year, so well up with their work. Nevertheless, the discernment and adaptability of the Canadians enabled them to learn enough from the excellence of the British drill during the final stages of the competitions to equalize the results."

The announcement that the C. P. R. will probably run two transcontinental trains per day all winter is a pretty good straw to indicate which way the wind of British Columbia's prosperity is blowing.

The latest piece of Tory "cheek" is the accusation that Sir Wilfrid Laurier wants to make a political issue out of the "all red" route proposal. The boot is on the other foot. Notwithstanding the fact that prominent Conservatives advocate the scheme, certain organs of that party are sneering at it and calling it a "fad" and a "crazy idea" and so forth —and why? There are two theories, but which is the true one we do not know. One is that Tory opposition to the proposal arises only and simply from the fact that the Liberal leader brought the matter forward; the other is that the power behind the Conservative party—the "institution" which owns that party—is withholding assent to the scheme in the meantime until it sees whether its will be in its own interest to approve it.

More Doukhs on Tramp.

Minnedosa, Aug. 25.—Another party of thirty Doukhobor pilgrims, seeking a country where nature supplies food without labor, reached here last evening, en route east. They were not accorded as much sympathy as the previous party, as the people begin to think they are imposing on their good nature, and have been a sed as to the direction of their route and how to go about obtaining alms. A number of little children were in the party. They come from Thunder Hill village, who are under the leadership of a man who has always been agitating and creating unrest among his people. He is trying to induce the Doukhobors engaged with the farmers to join the pilgrimage, but with no success. Two of the younger people have already deserted and returned to their homes.

Surplus from Trams.

Nottingham, Eng., Aug. 25.—Last year the municipal tramway carried 31,000,000 passengers, an increase of 2,355,386 over the previous year. The undertaking shows for the year a profit of over £24,000, and of this sum £17,000 has gone to the relief of the rates. There has been no accident of a serious or fatal nature throughout the year.

ELOPED IN STYLE.

Jap Steals Countryman's Wife, Using Auto as Runaway Coach.

Tacoma, Aug. 25.—In search of his wife, who, he said, had been abducted this morning while he was at work by H. Nakushima, proprietor of the Howthorne rooming house, M. Inosha, accompanied by three countrymen, speeded to the police station in an automobile and told Chief Malony his story.

Inosna informed the chief that Nakushima had run away with his wife. Inosha said that Nakushima had used an automobile and before he could follow the eloping couple they had disappeared. Chief Malony searched the three Japs for concealed weapons, but did not find any, and giving Inosha a list of the garages of the city, started him out to search for the automobile that had carried away his wife.

After making an attempt to close all real estate offices in the city on Saturday afternoons, and succeeding fairly well for some weeks, the dealers in land have almost abandoned the scheme, as several of them will refuse to keep closed on Saturdays in future. On Saturday afternoon only about half a dozen offices remained closed, all the others doing business as on any other day. It is expected that it will be only a matter of time before all the offices are again open on Saturdays, as the present system is far from satisfactory to all concerned.

NEW SULTAN MAKES TROUBLE FOR OLD

Moors Split Into Two Fighting Parties—Arms Smuggler Captured at Tangier.

Tangier, Aug. 25.—A fierce struggle for the Moroccan throne is expected here as a result of Mouley Mafrid proclaiming himself sultan in Morocco city a week ago, according to advices brought here today. He was hailed as leader by his followers.

The tribes of Southern Morocco are rallying to the standard of Mouley Hafid and it is expected Abdul Aziz, the present sultan, will have a hard fight to hold his throne against his determined relative in view of the support sure to be given the pretender by the dissatisfied tribesmen of the south.

The proclaiming of Mouley Hafid as sultan was accomplished with great ceremony, today's advices state. A salute of four guns marked his assumption of the throne. There was a notable review of his party. Chieftains of half a dozen of the fiercest and most warlike tribes immediately paid their homage to their new sultan and promised their aid in ousting Abdul Aziz.

Mouley Hafid immediately formed a court and announced Jabbao Curesk Pasha of Kasbah as his vizier. He announced his intention of naming his brother, Mohammed, as kalief of Fez.

Mouley Hafid is supposed to be now on his way with a strong, well armed force to take command of the Moors besieging Casa Blanca. A fierce attack on the European armies there is expected on his arrival. An attack on Casa Blanca may prove more than the French and Spanish forces can meet.

London, Aug. 25.—Arms and ammunitions are being smuggled today from Tangier, destined for Mouley Hafid, who has proclaimed himself Sultan in opposition to the reigning monarch, Aziz.

It is asserted that hundreds of rifles and thousands of rounds of ammunition have been landed along the coast by smugglers. One smugggler has been captured, according to the Tangier correspondent of the Central News.

The French cruiser Du Chayala, he reports, arrived there today bringing in a German sailing vessel captured off the Moroccan coast with a cargo of French rifles aboard. The vessel was flying the Spanish flag at the time. Her captain is reported to be held a prisoner.

LIGHTS OUT.

Orientals Resent Watchman's Attempt to Enforce Rules.

Bellingham, Aug. 25.—Because he broke up their gambling game and insisted that the lights in the bunkhouse be put out, Watchman Jones of the Pacific American fisheries plant was attacked Wednesday night by two Japanese and severely beaten. One of the athletic little Orientals wielded a poker and the other a shovel handle and when Jones appeared in the bunkhouse he was beaten about the body in a way that will leave him sore for days.

According to the story told, it is the rule of the company to have the lights in the bunkhouse extinguished by 11 o'clock at night. Wednesday night Watchman Jones noticed lights burning in the Japanese department of the big bunkhouse and went to enforce the rule. The Japanese resented the fancied intrusion in their home and attacked Jones with the first weapons they could find.

Jones succeeded in getting out in the open air after a fierce struggle.

FLOATING LIGHTS ON RIVER COMMEMORATE PEACE

To fittingly celebrate the close of the negotiations of the peace conference in 1905, the Japanese employed above the New Westminster bridge by C. Shincbu and other parties on Saturday evening sent floating down on the bosom of the mighty Fraser over one thousand "kiyunoshus" or parti-colored lights, fastened on shingles and small pieces of board. The effect of these little luminants sailing down the river was greatly admired by the many who wondered at the reason for the strange display of brilliancy. Many theories as to the cause were put forth, but very few people guessed right.

The peace conference, which brought about the termination of the war between Russia and Japan, took place at Portsmouth, N. H., lasting several days. The parties who took part in the debates, which were conducted with the utmost secrecy, were Count Witte and Baron de Rosen, representing Russia, and Baron Komura, the Japanese statesman, and Baron Takahari, ambassador to Washington. President Roosevelt was also present at the conference, but merely exerted his influence whenever it was necessary in the interests of peace.

The Japanese at Steveston also celebrated the occasion in much the same manner as their New Westminster brethren, and added to the number of floating lights on the Fraser.

MONEY FOR MONTREAL.

Montreal, Aug. 25.—The story is that English and French capitalists are about to establish a trust company here with a capital of $5,000,000 although details are being withheld for the time being.

A Montreal financier said today that a large amount of capital would soon be brought to this country, although he could not say what turn the affair would take.

He said that capitalists were getting apprehensive of affairs in the United States, and as the political situation was by no means certain in South America, he now believed we would see very large investments made in the Dominion. In a word, he considered the trust story well founded

Bringing in Aliens.

Toronto, Aug. 25.—The members of the International Journeymen Stonecutters' union will attempt to prove a charge against local employers of violating the Alien Labor act

They claim that fourteen men have been brought over from New York to break the strike. Representatives of the union complained to the city today that contractors in civic works, the morgue and Pape avenue police station, were paying 40 cents instead of the union rate of wages, 50 cents an hour, and the contractors will be written to by the city.

Peg-leg in Trouble.

St. Catherines, Ont., Aug. 25—There was great excitement around the corner of Niagara and Church streets last evening when a little girl named Ethel Bell, eight years of age, was missed, and it was learned that a strange man had been seen leading her away. An alarm was given and a large number of neighbors started in search of the pair. They were followed along Niagara street and the canal bank to near the Queenston street bridge, where the man was arrested. The police had been notified and arrived on the scene in the nick of time, otherwise the man would have received severe treatment. The man, who has a wooden leg, gave his name as Emory Brague. The little girl said he had bought her candy and enticed her along with him. He was taken to the police station and after a brief hearing remanded until Tuesday.

Nature's Object Lesson

How many in this life are like the butterfly who lives in the enjoyments and pleasures of the present, with no thought of the morrow, and how few, comparatively, are like the ant which continually labors, preparing for that rainy day or cold weather which is sure to come—

No, the "Butterfly" man is not a success. It takes a "Hustler" to get on in the world. Start it now. We can show you choice investments in City and Farm Properties. Now is the time to start. Buying now will insure good profits. We can show you how, by buying right, 'tis easy to make
