## INDUS ORGANISE RISING AS HOLY WAR

### Anglo-Indian Authorities Are Anxious Over Spread of Movement.

London, March 21.—Investigators of the causes of the alarming movement India against British rule have ched the India office in London that the most difficult feature of the uation is the mingling of religion h politics, through which the agitors have managed to give their mpaign the aspect of a "holy war" the rank and file of the Hindu population.

**Leaders Are Wise.**

The leaders of the anti-British vement, as the India office sets its formation, are generally pretty thorhly emancipated from their forers beliefs, but recognize that ir appeal to the masses is much re effective as a "spiritual" than as political issue.

The Indian officials are reminded the form of the most popular of Hindu faiths lends itself with esial ease to the extremists' purposes. e people's pantheon is extremely prehensive and includes powers of as well as of good.

**Movement Wholly Western.**

The India office's investigators point however, that the present agitaon should not be confused with earHindu movements merely because ik and its predecessors have their gious and political sides. Both religious and political sides of rious disturbances have been pureOriental. In this one the political vement is wholly western. What agitators seek, and have in great accomplished, is to graft western deas upon an eastern stem.

**Copy Russian Methods.**

The actual work of terrorism is conted almost exactly along Russian s. The strong men who plan acts violence select, as far as possible, k, hysterical and susceptible tools commit them. The same weapons used as in Russia and in almost same way.

The English authorities confess nselves greatly embarrassed in the t they are waging against the terists' movement by the large numof open or secret sympathizers stand outside the actual body of anarchist organization. It is ofimpossible to decide whether sus s are to be classed as dangerous merely as academic supporters of anti-English cause, for which they prepared to work by legal, but not terrorist means.

is this combination of the open secret, of the legal and illegal, ch the India office believes respone for the Anglo-Indian authorities' ignorance of the real nature and nt of the anarchist movement.

## O THOUSAND NAMES ON NOMINATION PAPERS

### arkable Endorsation of Liberal andidates by Electors of Edmonton—Lengthiest Ever Seen

Edmonton, March 21.—Probably er before in a provincial election Canada have two candidates reed a fuller endorsation than has n given by the electors of the Edton constituency to the Liberal didates, Hon. C. W. Cross and n A. McDougall.

n the nomination papers of Messrs. ss and McDougall are over two usand signatures, probably the gest number that have ever been ched to the papers of any candies in western Canada.

**Football Meeting.**

Tonight the fortnightly meeting of Vancouver and District Football gue will be held at the National orts club, Vancouver. The league l be asked to sanction the transfer the Westham Island-Westminster gue match to April 3, among other tters. As the international match been set for Saturday, taking four the Westminster players away, it is improbable the benefit game for l, with the Shamrocks fixed for date, will be postponed.

## CAPTAIN OF DREDGE THANKS CITIZENS

### Officers Pleased With Westminster's Reception — Dr. Pugsley's Reply.

The Fruhling dredge lying off the department of public works wharf has been the subject of considerable interest since her arrival on Friday evening, and the courteous crew has been unremitting in its attention in showing responsible visitors over.

Stores are being taken on, and the vessel will commence its work at the Sandheads today or tomorrow, the work being already mapped out.

**Return Thanks.**

Captain Klaussen, on behalf of himself, the officers, and seamen of the Fruhling dredge desires to thank the people of New Westminster for the splendid reception given to them on their arrival by the citizens.

The minister of public works, Hon. W. Pugsley, has forwarded the following reply to the message sent from the city by the president of the Board of Trade on Friday:

"Telegram received. Thanks for congratulations. I trust that the work of improvement of the Fraser river now being inaugurated will result in bringing great development and prosperity to your city."

**Official View.**

John Reed, the representative who sold the dredge to the Dominion government, and came through to the Pacific coast to see the Fruhling tested, supplies the following description of its work:

"It is a new type of the suction dredge and its principal characteristic which is different to other dredges, is that it has a very large scraper head attached to the suction pipes. Now that suction head is dropped to the bottom, bites into the material, claws or scrapes it up and then the suction pipe sucks up the dredgings and discharges them into a hopper which can contain over a thousand tons. In soft material such as mud and earth the dredge is capable of lighting 1000 tons in twenty minutes, but if the material is very dense and hard packed like fine sand, the scraper does not bite so deeply into the surface and a hopper of 1000 tons in forty or fifty minutes is a fair average.

**Self Contained.**

"When the hopper is full, it steams away at a speed of nine or ten knots to any place where there is enough depth of water and drops the load. This is where the dredge is working in open water. Suppose the dredge is working in a narrow channel, and would have a long way to go to dump the loads through the bottom doors, it can run up close to the bank and discharge all the hopper contains through a shore connection which is temporarily made into the bank. Thus the dredge is not only a self contained hopper vessel, loading itself and dumping its load, but it is also what might be called a pipe line dredge and can be used for filling and reclaiming."

**False Creek.**

He holds that this dredge is unsuitable for False Creek, for it is important to have the right tools for the right place. False creek might need another type of dredge, being a channel of shallow water and the dredge might have to cut in her own flotation, and that would probably require a very large self-contained hydraulic dredge with the bow cutter. With regard to the First Narrows, the material to be dredged is practically unknown.

**Future of Crew.**

It is stated in the city unofficially that some members of the crew will return to Germany when their duties here are complete, to bring out another dredge from the Fruhling company for the Pacific coast of the United States, the location where it will work not having transpired. The dredge will be of a more powerful type than the Fruhling, which large as it is, forms one of the smallest types turned out at the Stettin yards.

**Secured Big Contract.**

Winnipeg, March 21.—M. J. Haney of Ottawa, was the successful tenderer for the Winnipeg Transcontinental railway. Mr. Haney's tender was the lowest, at $863,000. It is understood that Mr. Haney will be associated with Quinlaw & Robertson, a large contracting firm.

## BASEBALL BOYS MEETING TONIGHT

### Knights of the Bat and Ball to Arrange Plans For Season This Evening.

Every baseball fan in the city or within a reasonable redius is expected to be present at the annual meeting of the Westminster Baseball club at the Russell hotel this evening, when plans for the coming season will be discussed and decided upon. The meeting will be called to order at eight o'clock.

The suggestion that a four-team league be formed will not likely meet with any serious opposition, although there are a few supporters of the game who believe that better ball would be assured with only three teams in the league, but this would hardly permit enough games being played during the summer months Later in the season, should one of the three down town teams prove weaker than its rivals, it may break up and the best players join one of the other two aggregations.

The business to be transacted tonight will not include the drawing up of the schedule, it being the intention to appoint a committee for the purpose.

An effort will also be made to induce the City Council to be more generous with the baseball clubs this season in the matter of practice nights. Last year considerable friction was occasioned by amateur lacrosse players taking possession on Queen's park diamond on an evening allotted to the baseball boys, the tangle being only straightened out after recourse to the chairman of the parks committee.

A special invitation to attend tonight's meeting is extended to any ball players who have recently come to the city and who are not personally acquainted with the officers of the club.

## FIVE MEN KILLED AND MANY MORE INJURED

### Explosion in Sunnyside Mine Caused by a Windy Shot—Rescued Miners Tell Harrowing Tales.

Evansville, Ind., March 21.—Five men were killed, a score were injured and many were overcome by gas in an explosion in the Sunnyside mines yesterday. The explosion was caused by a windy shot, due to an overcharge of powder. Five men were killed by sulphuric fumes which followed the shot. The mine was swept as if by a whirlwind. Twenty-nine men were in the mine at the time.

Rescue work after the explosion was seriously impeded by the foul air at the bottom of the shaft, and twice in an hour rescuing parties were driven back to the top of the mine.

Some of the resuced miners tell harrowing stories of stumbling over the bodies of the dead.

## SASKATOON WILL BUILD UP-TO-DATE CITY MARKET

### Property For Site Purchased at Cost of $25,000—Council's Selection Does Not Please All.

Saskatoon, March 21.—Last night the City Council decided to purchase for the sum of $25,000 twenty lots in block one, situated on the west side of Avenue "A" north of Twenty-first street, for the purpose of erecting an up-to-date city market. As this site is on the west side of the C. P. R. tracks there is likely to be considerable opposition to the bylaw which must ratify the proposition. As the east side of the track is the business portion and the older and better residential section, it is felt by east-siders that the location selected by the Council majority does not fill the bill.

**No Racing at Kamloops.**

Kamloops, B. C., March 21.—Race events will be dispensed with this year at the annual agricultural fair.

## VISITORS SUFFER THREE DEFEATS

### Vancouver Students Win the Rugby Match, But Lose in Hockey and Basketball.

The Vancouver High School came out at the lower end of the horn in their meet with Columbian College in this city on Saturday. The rugby match was the only game they won, losing the two basketball and the hockey matches.

The rugby game, which the High school won with a score of 10 points (one drop goal, and two tries) to 3, (one try) was a well fought contest. The high school did not have the fine points of the game down nearly as well as McGill, which played here three weeks ago, their absence of open play and the value of kicking being especially noticeable; but taken altogether they were efficiently trained.

The toss up was won by Vancouver, who elected to play down hill. The College followed up the kick-off with a rush, and taking advantage of much fumbling on the part of High School backs, rushed the ball over the goal line and scored the first points of the match, in only a few minutes of play. The try was not converted, and receiving the ball from the 25-yard line the college again rushed the pigskin up the hill, but were unable to get it across the line.

Nearly at the close of this half, the oval was carried by Vancouver down into their opponents territory, and just as the local team had gathered to rush up the field, Aisteen, a Vancouver three-quarters, scored with a drop kick, netting four points, that sent his supporters into a roar of cheers.

**Locals Weaken.**

In the second half, the Columbian college played down hill. In spite of

## BERLIN INDEPENDENTS THREATEN STANDARD OIL

### Merchants Are Urging Public to Abstain from Buying American Product—Fight to be Keen.

Berlin, March 21.—War is threatened on the Standard Oil Company by independent wholesale dealers, who complain that the trust is distributing oil direct to small retailers in twenty one-quart cans thus enlarging its market while shutting out the middlemen and wholesalers.

It is said that Standard offered certain compensation, which did not satisfy the wholesalers, who are urging the public to cease purchasing American oil.

## IMMIGRATION RETURNS SHOW LARGE DECREASE

Ottawa, March 21.—The total immigration into Canada for the eleven months of the present fiscal year was 130,444, as compared with 247,056 for the same period of the last fiscal year, a decrease of 47 per cent. The immigration for the month of February was 4,791, as compared with 6,164 for February of last year, a decrease of 22 per cent.

**Commissioners Appointed.**

The following have been appointed commissioners for taking affidavits in the supreme court for the purpose of acting under the Provincial Elections Act, in the New Westminster electorial district: A. E. Kellington, S. Malcolmson, R. Buckland, James Anderson, Edward Falk, Robert Fenton, Andrew Halcrew, C. C. Cameron, John Murphy, Edward Mercer, Robert Mills, J. H. Jones, J. W. MacDonald, J. C. Digby, P. W. Luce, C. B. Deans, Alfred Hardman, and George Mackie.

**Former M. P. Here.**

R. J. Watson, who formerly represented Parry Sound in the house of commons, and who had been appointed to take charge of the Dominion timber in the railway belt, having charge of the Westminster & Revelstoke agencies, is registered at the Russell hotel.

## VICTORIA AFTER BIG RACE MEET

### Business Men Organize Club For Thoroughbred Events —$72,000 in Purses.

Victoria, March 21.—Victoria will have sixty days of racing this summer, according to an announcement made last night by T. R. McIntyre, representing the Victoria Country club, under whose auspices the meeting will be held. The club has sent a communication to the Pacific Coast Jockey club, asking permission for the sixty days, and as there are no conflicting dates in sight thre is little doubt that the jockey club, which controls racing on the coast, will grant permission.

**Capitalized at $100,000.**

The Victoria Country club has just been incorporated with a capital stock of $100,000, subscribed for by twelve prominent citizens of the British Columbia city. The stockholders control the present half-mile track at Victoria. A large amount of money will be spent in putting this track in first-class condition, and with the prospect of annual meetings of considerable duration, the track next year will be enlarged to a mile circuit. The club has a five-year lease on the property. The street railway is constructing a loop to run into the grounds.

The announcement of this big summer meeting at Victoria is of much importance to the race followers of the city and the Northwest, inasmuch as no other meeting of any length is now in prospect in this vicinity. It is probable that even if Vancouver should offer a long meeting, it could not start until late in the summer. The Victoria club expects to open on May 24, closing near the end of July.

**Will Offer Good Purses.**

Of much interest to the turfmen also is the announcement that the purses will aggregate over $72,000. More than $1200 a day will be offered.

The stockholders in the club are as follows: M. Carlin, capitalist; D. R. Ker, president Brackman-Ker Milling Company; H. G. Wilson, wholesale grocer; H. C. Ross, proprietor D. H. Ross & Co., wholesale and retail grocers; Dr. R. Hamilton, J. E. Miller, superintendent of the internal revenue department; George Fraser, druggist; Henry Fleming, proprietor Driard hotel; J. A. Fullerton, of the Canadian Pacific; D. E. Campbell, wholesale and retail druggist; J. E. Smart, auditor, and W. S. Chambers, retired lumberman.

**Death of Mr. Martin.**

Mr. Martin, a native of Sweden, died at the Royal Columbian hospital on Saturday afternoon from heart trouble. He had only been an inmate of that institution for a short time, and was about 45 years of age. He leaves a widow and family.

**Clean Up.**

Grand Forks, March 21.—At the last meeting of the City Council a resolution was passed that the owners of all lots in the fire swept section of the city be requested to clean up their premises.

## MAURETANIA BREAKING RECORDS ON ATLANTIC

### Cunard Greyhound Makes Average of More Than Twenty-six Miles an Hour for One Day's Run.

New York, March 21.—A wireless dispatch from the Cunard liner Mauretania, which sailed Wednesday for Liverpool by way of Halifax, and relayed through the U. S. S. Chicago, declares that she is again breaking all eastbound records. For twenty-four hours ending at noon Friday she made a run of 609 knots at an average of 26.33 knots an hour.

This was the best day on the run, and the best average run ever made by the sea champion.

**Fighters Jailed.**

Two men arrested for fighting on the public street, were incarcerated in the bastille yesterday afternoon. This morning the police magistrate will referee their difficulties and announce his decision.

## STRIKE BECOMES RIOT IN PARIS

### Existence of Present Form of Government Threatened —Trade Paralyzed.

Legislative Library 8-6

Paris (per London), March 21.—The telegraph strike in Paris has reached the riot stage, and the danger of a violent outbreak is hourly increasing. Local riots have been numerous all day, and as darkness fell upon the French capital the gravity of the situation was increased by a strike of the electricians who supply the postoffice with light. Army electricians were hurried to the stations in automobiles, and the situation was temporarily relieved. A strike of the electricians of the entire city of Paris is threatened and would increase the already grave danger of a serious uprising.

The strikers held three sessions yesterday to perfect arrangements for active resistance should the government carry out its threat to end the strike at any cost. The letter carriers today marched side by side with soldiers carrying loaded rifles. The striking linemen have cut the wires east, south and north of Paris, while the telephone lines within the city have been tampered with to an etxent that they are practically useless. The government today hired 800 girls to take the places of the telephone strikers.

The new girls were threatened with serious injury by the mobs, and the greater part of them quit wok after a few hours.

**Help From England.**

The Paris unionists have received assurances of unlimited financial aid from English unionists and show no sign of yielding.

Meanwhile the financial situation growing out of the strike is growing in gravity. It is estimated that not less than $200,000,000 is tied up in undistributed mail, and the withdrawal of this sum from business channels is threatening many business houses with ruin.

Back, however, of the threat of bloody riots, paralysis of business and enormous loss to French trade is the apparent menace to the very existence of the republic.

**Republic is Menaced.**

The anti-Republican journals proclaim that today the beginning of the end of the republic is at haud. No matter how the fight ends, they say, the nation has entered into a contest with the proletariat which can only end with the fall of the republic.

The government has attempted to minimize the extent of the strike in the provinces, but tonight it is known that the strike has become general in nearly all the interior cities, and grave conditions in those places have been kept secret because of the paralysis of all means of wire communication.

Troops are out in the provincial cities to guard the wires and protect the strikebreakers from violence.

**Pangs of Famine.**

The pangs of famine are already beginning to be felt in Paris, and a continuation of the present paralysis of business for a few days will make the situation more than critical. Trains are still running, but the ordinary means of communication being closed, the forwarding of food supplies for Paris is greatly hampered.

**Strike May Become General.**

Unionists say that any attempt to end the strike with force will precipitate the general strike of all unionists, for which the workers have been preparing.

It is persistently rumored tonight that M. Simyan has decided to resign as director of telegraphs in order to relieve the government of its difficulty and permit the settlement of the strike. It is impossible to secure confirmation of this report.

The city has been placarded with posters demanding that the strikers stand firm. The placards declare that M. Simyan has deceived the chamber and that if the strikers stand firm he will be removed.

**Joe Lally Offers Sticks.**

Word has been received here that Joe Lally, who refereed the championship lacrosse matches between the Shamrocks and Westminster last year, will shortly forward to the secretary of the local club fourteen of his best brand of lacrosse sticks for the use of the seniors, and three dozen junior sticks, to be distributed among the coming players of the city as prizes.

Edgar Allan Poe, in one of his stories, says: "I took myself to the morning newspaper, and, having carefully perused the columns of 'Houses to Let' and the column of 'Dogs Lost,' I then attacked with great resolution the reading matter." This is interesting, because it shows that Poe, fond as he was of literature, read the classified advertisements before he read the news. Follow Poe's example in this matter and watch our classified ads. They talk to hundreds of people each day and they talk to the man when he wants to listen.

### ABDICATES KINGDOM TO BECOME BENEDICT

Lafayette, Ind., March 21.—Christmas Island in the Pacific Ocean, will find a new king, for its present ruler, John Davis Murray, Burdue University graduate, was married recently in London to a woman who prefers civilised domesticity to savage royalty. Murray will therefore abdicate. His college friends have received this information today. Murray, as Manager of the phosphate company's interests on Christmas Island, had been made king of the Islanders, so that he should have sufficient authority over the natives.

### EMPRESS OF RUSSIA SUFFERS FROM NERVOUSNESS

Berlin, March 21.—The "Kreuze Zeitung" states, on the authority of a distinguished personage, who was recently received in audience by the Emperor Nicholas, that the Emperor expressed considerable apprehension regarding the condition of the Empress. Her Majesty has been unable to receive visitors. In explanation of the Empress's condition, the Emperor said that since the accident to the Imperail yacht in Finnish waters Her Majesty had suffered greatly from nervousness, and had been unable to regain her mental composure.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

NEW BRITISH BATTLESHIP CONCERNED IN ACCIDENT

Barrow-in-Furness, England, March 21.—A gangway connecting the battleship Vanguard with the wharf collapsed yesterday. Fifty men were precipitated to the dock. Three of them were killed and 40 injured. The accident occurred in the Vickers Sons & Maxim yards, where the new ship was recently built.

### Bond Issue a Failure.

London, March 21.—Underwriters have had to take 84 per cent. of the Queensland Government Loan of $2,500,000, 3½ per cent. inscribed stock, issued through the Bank of England at 97, the net price allowing for interest, being £95 15s. The result shows how low-priced securities are going out of favor.

An application has been made to the London Stock Exchange to list £500,000 of Winnipeg 4 per cent.

## Visitors Suffer Three Defeats

(Continued from Page One.)

this advantage, the pace set having tired out the forwards because of their poor condition, they were not able to break through and stop the plays of the High school backs. The Vancouver team did not seem to be fatigued and by feeding the ball to their backs were able twice to push the ball over the goal line, and score tries, both of which they failed to convert. A penalty, which was given the college in the Vancouver 25-yard line, they took as a place kick, but failed to put it between the posts and lost their chance to even up the score.

Art. Dewar, full-back for the visitors played the star game for his team. He was both the quickest and coolest man on his side, and his judicious punting was a striking feature of the game. Risteen, a fellow-three-quarters, made some brilliant plays and showed up well for his side.

On the College team, Watson and Myer, both on the three-quarter line, played a hard and consistent game throughout and were the mainstay of their mates. Their splendid defence was the cause of breaking the majority of the High School's attacks.

The result of the match does not seem especially auspicous for the future of the college rugby fifteen. But it is not possible to form a winning team without practise, and the present one was organized too late in the season to get in good shape to compete with teams formed last fall.

Mr. McRae, of this city, umpired in very satisfactory manner.

### Hockey.

The hockey game between the ladies of the Vancouver and New Westminster High Schools, which was played at the same time as the rugby match was won by the New Westminster school with a score of three goals to two. For the visitors Miss McEwan, centre forward, and Miss Macfarlane, a full back, were the best, the wing play being very good. For the Westminster girls Miss Elley scored twice, and Miss Lord once. The pick of the team were Misses Elley, Mary Robertson and Nellie Sangster. Although the positions were changed, the eleven was as already given. Mr. Pattison, of Vancouver, refereed.

### Basketball.

The two basketball games at the gymnasium in the evening brought out a crowd that filled the building. The noise of the opposing bands of students drowned the referee's whistle so that he was only with difficulty heard.

The first game, between the girls' teams, was very close, but C. M. C. won by 6 points to 4. Each side scored a field goal in each half, and the college also scored a free shot besides in each half, thus coming out ahead.

The teams were:

| C. M. C. | Points. |
|---|---|
| Cameron (f) | 1 |
| Cory (f) | 2 |
| Kenny (c) | 3 |
| MacLeod (g) | 0 |
| Reid (g) | 1 |
| Total | 6 |

| V. H. S. | Points. |
|---|---|
| Edmonds (f) | 0 |
| McGuire (f) | 2 |
| Macfarlane (c) | 2 |
| Fadden (g) | 0 |
| Cocking (g) | 0 |
| Total | 4 |

Columbian college won the boys' game by a score of 37 to 25. It was a very fast struggle, and at the end of the first half the winners looked doubtful, the score standing 19 to 17 in favor of the Westminster lads. The Vancouver crowd for some unaccountable reason, insisted on having an umpire for this game, and during the second half their umpire refereed, exchanging places with the former holder of that doubtful honor, Prof. Clark. But with this sixth man on their side, they fared worse than before, only scoring in the last 8 points to Columbian's 15. This game again shows that Columbian college is unbeatable on its own floor.

Kenny and Spring put up the classiest work of the college, both scoring five field goals; Spring also scored 3 out of 6 penalties. Banham and Smith did the best work of the Vancouver quintette. The teams were:

| C. M. C. | Points. |
|---|---|
| Kenny (f) | 10 |
| Smith (f) | 8 |

## ADVANCE NEW WESTMINSTER

Never since that memorable issue of the Daily Province, the day after our great fire, has any one through the press or otherwise attempted to throttle the advance of the Royal City. Much has appeared in the editorial columns of the Columbian that has tended to injure our interests, but never did the late editor, J. D. Taylor, M. P., in his wildest and most erratic moments, pen such miserable drivel as appeared under the caption of "The Small City" in last Saturday evening's issue of that paper. The time was particularly inopportune to tell us that we were a small community and should be content to remain so.

Just at the moment when the dawn of a new day to which our citizens have looked forward to and hoped for —when the dream of fifty years is about to become fact—and our great waterway is to be made a channel that shall bring to us the wealth of nations in return for our products, we are told that our sleep will be disturbed, by "the shriek of the railway whistle," the Fraser made hideous by a "wilderness of factories and dockyards," and the air be made "smoky and impure. New Westminster fears not the drawbacks inseparable from greatly populated centers, we are willing to put up with any inconveniences which may come to us with the hum and bustle of a new commercial life, our "serenity and pleasant societ " and the pastoral life surrounding us will still have full opportunities for making life worth living, and our people will take to the full their share of the earnings consequent upon the development of our great resources.

We have room for and will welcome the manufacturies, large or small, and we shall rejoice at the daily coming and going of the merchant marine from every clime. Let the whistles blow, let the rumble of the trains be heard and the hum of machinery and traffic possess us to the full, and let us hurl back on the neophyte that penned the article of Saturday night's Columbian, the determination to show that we are not content to remain a small city. This is no time for ping-pong, it is the time to put on the armor of determination that the finest freshwater harbor in the world shall become what the Creator intended it should be.

In these columns we have again and again called for a united effort and during the past three years we have had the pleasure of noting some fruit of our labors in the expansion and advancement of the city, but we wondered why that advancement was not more marked, we little suspected that there was an undercurrent which has now risen to the surface to keep New Westminster a small community, and we hope that what we say now will cause this surface ripple to be lost in the great flood of progress.

## TARIFF RELATIONS

As was to be expected Germany, a great industrial empire requiring a market for the wares of her innumerable factories, wishes to do more business with Canada where the consumer is an increasingly valuable aset, but from which she is practically debarred by the operation of the tariff. There is little doubt that the introduction of German methods of handicraft into this country would prove very beneficial in many lines of industry where the product is crude and inferior, particularly in the more delicate features of textile workmanship, and in the steel and iron foundries, where many indifferent castings are turned out, often disguised under a coat of paint.

The campaign of publicity as to the resources and opportunities of the Dominion in the agricultural districts of Prussia, particularly in Silesia and Posen may succeed in attracting to the country energetic and industrious farmers who will make good in the middle west as their fathers did in the middle states of the southern republic half a century ago, and as so many have done in South Australia and elsewhere. On the other hand the great industrial centres of Westphalia and Saxony want a market for their goods, which may well be found here, though we think it will take some education to convince the public not to distrust the "Made in Germany" mark, and not to regard it as synonymous with cheap and nasty manufacture.

The splendid system of technical schools throughout the German empire has had no small share in fitting the artisan to perform his work with splendid efficiency, and again the military training has brought into business life a spirit of precision and respect for authority absolutely unknown in this free and easy western country. A high tariff manufacturing empire must find a market, and to do so Germany will be prepared to bargain through the reciprocity clauses of the tariff.

## INSPECTION OF BUILDINGS.

Now that the city council possesses an officer to enforce the rules of good building construction, it should lose no time in passing modern building by-laws framed on the model of adjacent municipalities.

The council has wisely seen fit to take over the inspection of the plumbing fittings of new and old buildings, and there is surely more reason why there should be an official to look over the plans of new structures before permission is granted, and to keep check of the work in progress of construction. Many of the cities throughout the west of much smaller population have introduced the practise of issuing permits, and keeping a check on construction both of business blocks and private dwellings.

A move in this direction would, we feel, receive the cordial co-operation of the architects, and of all contractors who are in the habit of doing good work for their clients. Again the knowledge that buildings will be properly inspected will be an important argument for the reduction of insurance rates when the right time comes.

The newspaper that minimizes and scoffs at the opportunities of a community is only fitted for a hamlet composed of one house, one water tank, and one dead mule in the creek.

### Possibility of War Now Considered More Remote — Servia Ready to Disarm.

St. Petersburg, March 21.—The Belgrade correspondent of the "Bourse Gazette" says in a despatch that M. Milanovich, the Foreign Minister, told him that Servia had accepted the advice of the Powers to disarm. Servia considers the action of the Powers to be a guarantee that she no longer has reason to fear armed attack from any side.

Belgrade, March 21.—The alarm of the possibility of war with Austria-Hungary is subsiding rapidly. The Russian Minister here had a long conference with Foreign Minister Milanovich this morning. No official information has been given out, but there is reason to believe that the peaceful settlement of the Austro-Servian controversy is now only a question of hours.

St. Petersburg, March 21.—The Russian Foreign Office has no advices confirming the alleged interview with M. Milanovich; on the contrary, the statement was made yesterday that no representations to that effect had been made to Belgrade.

Berlin, March 21.—According to a despatch to the "Frankfurten Zeitung" from Vienna, the Powers have expressed the wish that Austria-Hungary should delay answering Servia's note, in order to gain time for consultation among themselves and to permit further action at Belgrade. The Vienna Cabinet is willing to act accordingly, says the despatch, and Count Forgach, the Austro-Hungarian Ambassador to Servia, is therefore expected to wait until the end of the month before handing over Austria's answer.

**The Governorships-General.**

London, March 21.—The London correspondent of the Yorkshire "Post" says that he heard a rumor, for which he has reason to believe there is some foundation, that Lord Grey will succeed Lord Minto in India.

## B.C. MAN BUYS INTEREST IN TWO ST. PAUL HOTELS

St. Paul, March 21.—An announcement was made of the sale today by William P. Davidson, of the Aberdeen hotel and the Angus, a family hotel, located near each other in the residence district, to A. C. Burdick, of Victoria, B. C., and J. W. C. Wynette, of London, Ont. The consideration is said to have been $850,000, and a third interest in the property.

**STREET CAR COMPANY WILL EXTEND LINES**

Bellingham, March 21.—Negotiations which have been pending for weeks have been closed between the Whatcom County Railway & Light Company and the Bellingham Bay & British Columbia Railroad Company for the extension of the lines of the street railway company down Dock street and onto Sehome wharf. This means considerable to tourists and Alaska-Yukon-Pacific exposition visitors who come to the city this summer, for it makes it possible for them to get into the business section of the city from the wharf without walking half a mile or taking a carriage. The extension of the line will cost $15,000, and the material is on hand for the work to be commenced as soon as the franchise is granted by the city.

**ARIZONA EXCITED OVER TWO BIG GOLD STRIKES**

Phoenix, Ariz., March 21.—Two gold strikes, reported to be the biggest ever made in Arizona, one at Salome and the other at Bouse, have caused excitement throughout the territory and all the western part from Phoenix to the river is filled with prospectors.

Mining men of experience who have visited the scenes of the strikes say that the ore is of surprising richness and that there are evidences of permanence in the ledges. The strikes are in districts where mineral has been found heretofore in paying quantities.

**New Paper in St. John, N. B.**

St. John, N. B., March 21.—The "Standard," St. John's new Conservative paper, will make its appearance this week. James H. Crockett will be business manager, and S. D. Scott editor.

## OUTLOOK GLOOMY FOR BUILDING IN WINNIPEG

### Unions Draw up New Scale of Wages Demanding Increase in Pay—Bosses Want Reduction.

Winnipeg, March 21.—Builders and contractors in this city anticipate serious labor troubles during the present year, which, unless they are speedily adjusted, will cause a setback to what is anticipated should be the record year for building in Winnipeg. The bricklayers will demand 62½ cents per hour, an increase of 2½ cents over the price paid last year. While these demands are being prepared by the unions, the master builders are drawing up a new wage schedule, which provides a reduction of 5 cents per hour. The carpenters are now getting 35 cents, but will ask 40 cents per hour in their new agreement. Nothing definite has been decided with regard to what the plasterers will require this year, but it is understood that they will ask 55 cents, instead of the 50 cents they are now getting. Several other unions consider that the hourly wage is not sufficient to meet requirements, and may prepare new schedules.

**MISSOURI RIVER CUTTING SHORTER ROUTE TO SEA**

St. Louis, March 21.—A revised list of landings on the Missouri river compiled from recent government surveys shows that the distance from the mouth to Fort Benton, Mont., is 2283 miles. Government surveys made in 1878 showed the length of the river at that time 3112 miles. This indicates that the Missouri river has shortened itself 829 miles.

**Liquor Legislation in New Brunswick.**

Frederickton, N. B., March 21.—In the Legislature yesterday Premier Hazen announced the Government's intention to amend the Liquor License Law by providing that a vote on Local Option may be taken in any city or municipality on application of one-quarter of the taxpayers, and the majority of the votes cast will decide the issue.

**The Anthracite Crisis.**

Shamokin, Pa., March 21.—The election of 200 delegates from the local unions of the United Mine Workers in the Ninth district, to the Scranton convention next Tuesday, was reported to district headquarters here tonight and of these about 50 per cent. are said to have been instructed to vote for a general tieup, unless the operators grant concessions.

**Coulson Surrenders.**

Winnipeg, March 21.—W. A. Coulson, former secretary of the Western Canada Retail Merchants' Association, for whom a warrant was issued for embezzlement, walked into the office of the chief of provincial police yesterday morning, and gave himself up. He was released on $8000 bail.

**LAND REGISTRY ACT.**

Take notice that an application has been made to register George Adams as the owner in Fee Simple, under a Tax Sale Deed from the Mayor and Treasurer of the City of New Westminster, to George Adams, bearing date the 25th day of September, A.D. 1902, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of New Westminster, in the Province of British Columbia, more particularly known and described as Subdivisions 15 and 16 of Lot 8, Suburban Block 11.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the Land Registry Act, are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice upon you, and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register George Adams as owner thereof in fee.

And I hereby certify that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, province of British Columbia, this 16th day of March, A. D., 1909.

**Synopsis of Canadian Homestead Regulations.**

Any available Dominion lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

## NEW SALMON FISHERIES REGULATIONS ISSUED

### B. C. Gazette Defines Meaning of "Taking or Catching" Salmon Along Coast.

The following fishing regulations appear in the current number of the B. C. Gazette:

1. In the following regulations "take salmon" shall mean the taking or catching of salmon by means of a boat and net, or by fish trap, and a person shall be deemed to take salmon and to require to obtain a license under these regulations who takes salmon by means of a boat and net, or by means of a fish trap.

2. No person shall take salmon of any kind in any waters of this province unless authorised so to do by a license issued under the provisions of these regulations.

No fishery license shall be granted to any person unless he be a British subject and resident of the province.

A license to take salmon by means of a boat and net for one year, from the first day of January until the thirty-first day of December, may be obtained from the Commissioner of Fisheries upon payment of a fee of twenty-five dollars.

A license to take salmon by means of a fish trap for one year, from the first day of January until the thirty-first day of December, may be obtained from the Commissioner of Fisheries upon payment of a fee of five dollars.

Such a license shall authorise the licensee to take salmon of the kind at the time and in the manner prescribed by the Dominion Fishery Regulations.

**The Diary of King Solomon.**

June 23—Another carload of sawed cedar in from Tyre for the Temple. Boss carpenter reports most of it under length. Wrote Hiram of Tyre a letter calling him down. Considerable trouble owing to H's desire to short-change me in this contract.

June 25—Married four times today. Two brunettes from Moab, one auburn and a sorrel. Am afraid I'll have to hire a new best man. Party now holding the job complains of overwork.

June 29—Looking over family today. I took note that brunettes predominated. Decided to liven up the color scheme a trifle. Fired the following telegram to Hiram: "Please forward promptly one blonde wife. Unless absolutely necessary, don't send per."

June 30—Hiram don't know much about business abbreviations. Just got a query from him by wire, collect: "Per what?"

Wired back this answer:

"Peroxide, of course."

Consider Hiram a pretty dumb proposition.

July 3—Blonde arrived O. K. Looks like the genuine article, but can't be sure these days. Good many drugstores in Tyre.

July 4—Took advantage of glorious Fourth to be married a couple of times. Am informed that I lost several children and a brother-in-law by permature explosions of toy cannons and Roman candles. (Memo: to ascertain name of late brother-in-law; might have known him personally).

July 8—Family physicians report goods news from wives 28, 134 and 379; merely two girls and a boy. Think I'll order a private census.

July 11—Completely surprised by results of census. Counting out possible ringers, census enumerator reports a total of six hundred and ninety wives—at least seventy-five more than I had expected. Must be a good many strangers among them. Hope to take a day off this week and go round and get acquainted.—New York Evening Sun.

**For Pure Fertilisers.**

Ottawa, March 21.—Hon. Mr. Templeman has introduced a Bill respecting agricultural fertilisers, which has received its first reading. Its object is the protection of farmers who buy fertilisers, and among other things, compels manufacturers to be registered and an analysis of their fertilisers made public. The legislation is founded on a Bill introduced in the Senate last year, which, however, did not get beyond the preliminary stage.

**C. P. R. Official Changes.**

Winnipeg, March 21.—Robert Kerr, Passenger Traffic Manager of the C. P. R. for many years, is to be retired and W. R. McInnis, Freight Traffic Manager, will succeed Mr. Kerr, having control of both the freight and passenger traffic departments. Mr. Lanigan is appointed to the position of freight traffic manager, having control of the whole freight system under Mr. McInnis, and his headquarters will be in Montreal.

## A. Y. P. EXHIBITION WILL ATTRACT MUCH ATTENTION

Scenic Beauties of Seattle Will Be Revelation to Visitors from Eastern States.

Right now the Alaska-Yukon-Pacific Exposition is the magnet that is attracting thousands of people from eastern, southern and middle-western states to the Pacific coast partly for the reason that the exhibition will open up a new line of thought with its great displays from Alaska, Hawaii and the Philippines as well as the Orient and partly because of the much advertised scenic beauties of the states bordering on the Pacific.

The state of Washington and more particularly the Puget Sound country will soon be eth mecca for trainloads of strangers. But Washington will not hold the visitors for an indefinite period for they have something in mind further than a visit to the exposition at Seattle.

The exposition itself is going to open the eyes of the thousands of visitors who will come to Seattle expecting to find an exhibition very similiar to what has been offered before. The Alaska-Yukon-Pacific Exposition is not going to be remembered after its gates close because of its great size or by the number of its buildings, but because of the beautiful picture formed by the work of the builder and landscape artist, framed in by lakes, mountains and woodland scenery distributed lavishly on every hand by nature.

### OBITUARY.

**Thomas Shannon.**

The funeral of the late Thomas Shannon, of Cloverdale, took place on Saturday morning to the cemetery at Laygley Prairie, Rev. A. Dunn, of Sapperton, officiating. There was a very large gathering, as Mr. Shannon was a pioneer of the Clover valley, and the coffin was borne by old friends of the deceased. Many floral tributes were sent. D. Murchie conducted the funeral.

**Mrs. Robertson.**

The death occurred on Saturday evening at the Royal Columbian hospital of Mrs. James Robertson. She had been twice married, her second husband who pre-deceased her, formerly being engineer at the Burnaby substation. She leaves a son and two daughters.

**Mrs. Johnston.**

The interment took place on Saturday at Mission of Mrs. Sarah Johnston, aged 61, who died on Friday evening at the Royal Columbian hospital.

# *An Ideal Farm Home*

We are offering for sale an ideal farm home in the Fraser valley. There are 80 acres of the richest alluvial soil; 40 acres cleared and balance very light brush. It is convenient to town, water mains pass the door, and water is pumped to the buildings. We offer this farm for only $9000; half cash, balance at 7 per cent.

Here's another only four miles from town; 80 acres; 60 cleared. This is a money-making investment. Price $8000.

To rent—100-acre farm; 80 acres cleared, and free from stumps; balance good pasture land. There is a first-class orchard on the property from which last year over $400 worth of fruit was sold; 20 acres are in fall wheat. The buildings are good. It is an ideal dairy and fruit farm and a money-maker to any one. Easy terms.

ANNOUNCES THE DISPLAY OF MORE NEW HATS

New shapes, new flowers, new ornaments, straw braids, and other trimmings of every description, have arrived since the Grand Millinery display. Those in charge have been busy turning out hats trimmed in styles which are models hard to distinguish from the expensive pattern hats. The adaptation of styles to suit your requirements, the pricing of hats so that they are within the reach of every purse, are features carefully thought out and are what make our Millinery Department so popular.

Then again there is placed before you here an immense range of everything to choose from in the matching and making up of hats to your liking. Select now when you have such choice—and leave your orders early.
