VOLUME 2, NUMBER 251. NEW WESTMINSTER, B. C., TUESDAY MORNING, OCTOBER 29, 1907. CENTS PER WEEK.

. GARRETT SENDS LETTER TO HIMSELF

rthy Alderman Provides musement for Council---ssessor Resigns.

e resignation of Walter J. Walker the position of assessment com- oner for the city of New West- er was read last evening at the ng of the city council, by the clerk. He thanked the council heir treatment of him during his as an employee of the city.

mmenting on the resignation, r Keary stated that during his ears of service, Mr. Walker had ded to his duties and worked en- ically.

. Jardine pointed out that ac- ng to the city's charter, the as- r must be a permanent employee e city. He then moved that W. uncan, city clerk, be appointed to eed Mr. Walker, and that J. B. ton and James Johnston be ap- ed at salaries of $75 a month, to assist him.

Duncan will superintend the car- out of the assessment in con- ion with his present duties as clerk.

ly communications took up the tion of the city council last eve- and there was an unusually number of them on the file. The bag contained one curiosity, h was the subject of a little badi- at the expense of Ald. Garrett. r Keary stated that he had never n a case before in which an al- an had addressed a communica- to himself. Ald. Garrett explain- that the man who circulated the ion would not let him sleep un- he had signed it. "But you can it out if you like, your wor- " concluded Ald. Garrett. Mayor y replied, with a touch of humor, he had no power to efface the ature.

e petition was signed by 101 resi- s of Sapperton who desired that present Pound by-law be amended provide for the extension of the ice to that section of the city. The tion was referred to the police mittee for a report.

otice was received from Ottawa an order was made on October by the board of railway commis- ers for Canada, approving of the ge in the route of the Eburne- Westminster railway from Four- h to Twentieth streets in this . The application for a revision he route was made by the Cana- Pacific railway, which company construct the line and lease it to B. C. Electric Railway company. notice was received and filed.

. W. Clow applied on behalf of the . Telephone company for permis- to lay a drain from the site of proposed telephone block on kson street to the McKenzie et sewer. The matter was referred he board of works with power to

half dozen residents of Annacis nd sent the following petition to council, the same being signed by H. Richardson and others:

We, the undersigned residents of acis island, desire to call your at- ion to the need of a bridge or y to connect this island with the of New Westminster and to re- st your co-operation to press our m on the government."

r. Richardson in a foot note ex- ned that the petitioners were all -owners, and that, there were n on the island for fifty more.

he petition was referred to the nce committee for a report.

Market Clerk McKenzie reported to effect that the sum of $161 had n collected during the months of gust and September in commis- s. The letter was filed for refer- e.

n application was received from Brunette sawmills for permission lay a drain along Columbia street een their mill and office, and to lay a drain along Cumberland et for a distance of about 100 s from Columbia street. The ap- ation was referred to the board works for a report.

There being no other business the ncil adjourned.

Anderson, the man with the big ncial hallucination who walked the lockup on Sunday and asked protection, has been taken to the ium, where he will receive proper dical treatment.

WATER IS LOW IN THE CAPILANO

Vancouver, Oct. 28.—Steve Madison, superintendent of the city waterworks, stated this morning that the water in the Capilano was the lowest he had seen it since the season of 1888. It was possible to walk across the stream at every point of its course and at the dam water is flowing over only one-half of the structure, and that of very small amount. Above the intake the dry bed of the creek is a mass of leaves, which will be washed down at the first rain. To prevent these getting in the intake, wire netting was sent up this morning.

On Seymour creek conditions are far different, the water of the stream being three times the amount of the Capilano even above the intake. This Superintendent Madison says, is due to the fact that the Seymour depends upon lakes for its supply.

POLICE OFFICERS UNDER SUSPENSION

Two Policemen Relieved From Duty Yesterday by Chief McIntosh.

Two of the city police officers were yesterday afternoon suspended from duty by Chief McIntosh, the order taking effect immediately and lasting until after the meeting of the police commissioners, which takes place either this afternoon or tomorrow, when the duration of the suspension order will be decided upon by the commissioners.

The officers who are under the ban are Johnston and Gill.

The chief of police yesterday declined to discuss the matter with a reporter, but went as far as to say that the suspension was the result of a breach of discipline, and was not of a grave nature. The two officers will be called upon to appear before the commissioners, when pertinent questions will be asked of them. The trouble which has resulted in their suspension is of recent date.

COAL IS PLENTIFUL AT COURTENAY RIVER

Two feet of what is reported to be excellent coal has been encountered at a depth of sixteen hundred feet at Courtenay river, Vancouver island, where the Vancouver Coal Prospecting company is now conducting boring operations. This company is composed entirely of Vancouver capital, which is operating on ground purchased from farmers in the Courtenay river district immediately after the decision of the Privy council that settlers within the Esquimalt & Nanaimo railway belt were entitled to the ownership of mineral on their lands should they find it.

The geological formation of the locality where the borings are being made is such that at a further depth of two hundred feet a six-foot seam is expected to be found. The drill is going down so well at latest accounts that it is believed this seam will be tapped before the end of this week. A third seam is looked for about two hundred feet below the point where it is thought the second seam will be located.

CHINESE ARE TO BE DEPORTED FROM RAND

Durban, Oct. 28.—Arrangements are nearing completion to draft considerable numbers of the Chinese coolies, engaged in the Rand mines, to Lobito bay, in Portuguese West Africa, for the construction of the Benguella railway.

Private contractors have undertaken to relieve the Transvaal of the cost of repatriation of the coolies employed.

The government and the chamber of mines have consented to the proposal, and the Chinese government offers no objection.

Three thousand coolies will shortly be despatched, and this will save the chamber of mines $75,000 repatriation charges. The coolies will be employed on the railway for three years, and will then be repatriated by the contractors.

COMMITTEE TO MEET LEMIEUX IN VANCOUVER

Information Concerning the Fraser River will be Given to Canada's Envoy.

The members of the River improvement committee are not disposed to resign their hopes of enlisting the assistance of the Hon. Rudolphe Lemieux in their scheme for river deepening, notwithstanding that that gentleman cannot find time to come to New Westminster, owing to the fact that the Empress of China, on which he will sail for the Orient, is billed to leave port this afternoon. The committee endeavored to arrange, through J. B. Kennedy, M. P., a meeting in this city with the minister, but the latter replied that he would not have time to come.

A member of the committee stated in substance last evening that if Mahomet could not come to the mountain, the mountain would go to Mahomet. The members will therefore trek to Vancouver this morning and endeavor to interview the minister there.

The need of improvements in the New Westminster post office, in the shape of more boxes, is another matter that will be brought to his attention.

DOMINION AND PROVINCIAL GOVERNMENTS CLASH

Victoria, Oct. 28.— The Dominion government and the provincial authorities are at variance with regard to their respective jurisdictions over certain portions of Thetis cove, Esquimalt. The provincial government some months ago granted a syndicate formed here, composed of Col. Markhaf, Capt. Williams, Dr. Milne, and others, the use of the land underlying the water at high tide for a distance of nearly a mile along the cove for the purpose of oyster culture. Recently the Dominion government has leased a portion of the same foreshore to the Graham Lumber company and has authorized them to build docks, mills, etc., there.

The provincial government on Friday last addressed a communication to Ottawa protesting against this action on the part of the Dominion on the ground that the cove is not navigable water and that therefore the Dominion has no jurisdiction over it.

At low tide the cove is nothing more than a mud flat as the water recedes until all the area north of Magazine island is denuded. Under the terms of the act the provincial government has jurisdiction over all foreshore not bordering navigable harbors. The contention of the Dominion government is that they have jurisdiction over this portion of the cove as if not navigable now, there is nothing but mudflats underlying the water, which can easily be dredged out.

The matter is a serious thing for the oyster culture company as at considerable expense they have imported seed oysters from the Atlantic coast and planted them in the area affected. Some of the first oysters have been marketed and the venture seemed about to prove a financial success and to develop into a well paying business.

The Graham company have large milling industries in this province and have been expanding and broadening their activities. The course of the dispute will be watched with much interest all over the province, as other grants under similar conditions have been made by the local government.

To Investigate Tartar Collision.

Victoria, Oct. 28.—The Federal government has instructed Mr. Justice Martin, admiralty judge, to conduct an investigation into the causes of the recent collision between the C. P. R. Oriental steamer Tartar and the ferry steamer Charmer off the Fraser river sandheads.

In all probability two marine men will sit with Mr. Justice Martin at the inquiry which will fix the responsibility for the accident. The date of the opening of the investigation has not yet been announced.

Mr. Justice Morrison will sit in supreme court chambers in the New Westminster court house tomorrow morning at 3 o'clock. A number of important applications for orders will be made.

LOCATES VALUABLE LAND IN SETTLED DISTRICT

Grand Forks, B. C., Oct. 28.—R. A. Brown, of Volcanic Mountain, has again sprung a surprise on the old-timers of this district by his recent location of a valuable ranch, of 320 acres, in a locality which was supposed to have been all settled. It seems that this valuable location is situated at an elevation of 2,000 feet above the sea level, and is only one mile from the Kettle Valley Line railway, and just one mile from the district school house. On this land there is over 6,000,000 feet of choice timber and over 60,000 railway ties. There are also various springs on the property. How this land should have remained vacant so long in the heart of a settled district is considered a mystery.

I. Brewster, who for a time filled the position of C. P. R. agent in this city, has entered the real estate business in Vancouver.

MEASURES TAKEN FOR PLAGUE PREVENTION

Medical Officers Are Stationed at All Entry Points From United States.

One of the measures for the prevention of the spread of bubonic plague to this province from Washington state, is the establishment of medical health officers at all ports of entry along the border.

Commencing yesterday, medical health officers were placed at Blaine, Sumas, and at the ports of entry in the Okanagan and Kootenay districts and these men will subject all applicants for entrances into this country to a rigid examination.

Bubonic plague makes its first appearance as a rash on the skin, and the provincial officers hope by keeping a close watch for such symptoms, to prevent the entrance to Canada of all infected persons. They will go through all trains crossing the line and examine every passenger.

COHOE SEASON HAS BEEN SUCCESSFUL

The cohoe packing season which is just drawing to a close has been one of the most successful in years. The St. Mungo canning company have handled about 150,000 fish within the last two months and the B. C. Packers' association about 100,000 within the same period of time. The Packers' association are still getting out 2,000 cohoes a day from the Fraser river, and the run is expected to remain good until the first week in November.

During the present season, the Packers' association maintained two boats hauling fish from Butte and Tobie inlets, but the northern season closed last Saturday, when the Terra Nova arrived with 2500 cohoes.

The greater part of the catch has already been shipped out to eastern points, the B. C. Packers' association having disposed of over 20 carloads or 400,000 pounds in that manner. The fish are still coming in at a rate that taxes the local storage plant, while the company has stored over 300,000 pounds in Vancouver.

DISTRICT LIBERALS MEETING TONIGHT

A meeting of the Liberal association of this district will be held this evening at eight o'clock in the Liberal club rooms for the purpose of calling a convention to nominate a candidate for the House of Commons. All Liberals in the district are cordially invited to attend, as other business of importance may be brought before the meeting.

The conservative candidate, J. D. Taylor, has now been in the field for over a month, and it has been decided by the Liberals that the question of selecting a standard bearer for the district is one which might well occupy their attention at the present time. A representative gathering is expected at tonight's meeting.

OLD GUARD DARES YOUTHS TO BATTLE

Once Famous Kickers Still Believe They Know Something of Soccer Game.

The Asiatic Exclusion demonstration will not be the only event on Thursday that will mark the day in local history. The exclusionists will share the evening with the Hallow'een and Thanksgiving celebrators, but the footballers will claim the afternoon. The truth is that "Billy" Anderson of past soccer fame, but still frisky, has with the aid of the no less illustrious veteran knight of the pigskin, H. Ryall, organized a team from the remnant of the old guard, and has challenged the moderns to a contest. The challenge has already been accepted by the youthful bloods, and the event will be pulled off at Queen's park on Thursday commencing at 3 o'clock.

The ancients have come to the conclusion that the present day team is not up in the game as it should be and they have decided to show the youths a trick or two. If it develops that there are men in the city, old or young, who can out-class any of the present members of the regular city team, they will be urged into line next Saturday when a scheduled match between the Shamrocks and the New Westminster bunch will be played.

The enthusiasts responsible for Thursday's match believe the show will be worth two-bits, and they propose to assess that sum on all persons in male attire. The others will be allowed free entry.

THEATRE PATRONS SAW EXCELLENT PRODUCTION

By far the best acted melodrama produced locally this season was seen yesterday evening, when the Rambeau & Esmond company produced that stirring story of life in a mining camp, "Tennessee's Partner"—a play replete with dramatic situations ever culminating in an unexpected climax. The plot was woven around the marriage of a large hearted miner with a woman who in days gone by had been a noted adventuress, and who was compelled to sin again in order to protect a worthless brother.

Since its last appearance locally in "Young Mrs. Winthrop," the Rambeau & Esmond company has been materially strengthened, and the result of this was plainly noticeable yesterday evening. The company made a better impression upon the audience than in any of the previous occasions when it appeared on the local boards, several of the new members of the company showing marked histrionic ability.

Miss Marjorie Rambeau impersonated Tennessee Kent, a debonnair young miss, boarding at the camp, but the part did not afford her sufficient scope to display her versatile talent as leading lady. Her many admirers among the audience, however, did not fail to recognize her just claims to unstinted plaudits. Miss Nell Gibson, as Kate Cornish, the woman with a past, was cast for the most trying character in the play, and the success with which she interpreted the varying emotions of her career denoted clearly the high talent with which she is endowed. Miss Lillian Burnett satisfactorily acted the part of a cantankerous camp mistress.

Being a story of mining life, the masculine element naturally predominated throughout. Henry Esmond, as Kaleb Swan, had a character which exactly suited him, and his acting throughout was convincing and forceful. As Asa Bice, Percy Hunting scored an unqualified success, and easily proved himself possessed of marked dramatic ability. Vin Moore attended to the smile dispensary, he assuming the troubles and responsibilities of Gee Willinger Hay, the oldest inhabitant of the camp, whose memory always took him back to '67. The other members of the company evenly shared with the principals the honors of the evening.

"Tennessee's Partner" will be again produced this evening, and as this will be the last appearance of the Rambeau & Esmond company on the local stage for some time, there should be a capacity house when the first curtain is rung up.

THIRD EPWORTH LEAGUE IS ORGANIZED IN CITY

The young people of the West End Methodist church met last evening and organized a branch of the Epworth League of Christian Endeavor which will henceforth be a prominent factor in the work of the West End church. This makes the third branch of the league in this city, the other two being connected with Queen's Avenue Methodist church and the Sapperton Methodist church. The initial membership of the West End league is twenty, this number having signed the roll last evening.

Officers were elected as follows: Hon. president, Rev. F. A. Magee; president, Mrs. F. A. Magee; first vice president, Miss B. Hardman; second vice president, Miss R. Tupper; third vice president, Miss B. Wintemute; fourth vice president, Miss Bessie Breen; secretary, Laverne Adams; treasurer, Wesley McDonald.

The weekly meetings will be held on Monday evenings at 8 o'clock.

PILES FOR PANAMA COME FROM SURREY

Camps on Serpentine River Re-open---Piles Intended for Big Canal Work.

T. Hyland yesterday re-opened his logging camp on the banks of the Serpentine river, in Surrey, where twenty men will be employed cutting piles which are to be used in the construction of the Panama canal. The camp is located about ten miles from this city, on the McLennan road.

Pile cutting for the Panama isthmus canal work was commenced by Mr. Hyland last year, but owing to difficulties with the government over the taxes which had to be paid before the piles could be taken over to Blaine, the work had to be abandoned. Several other loggers were also interested in the same matter, and the collection of the taxes on poor grade lumber made it impossible for the industry to be carried on, and for several months, work was at a standstill in all the camps around Mud bay.

Another attempt is to be made to induce the government to take a more reasonable view of the situation, and in the hope that they will no longer be hampered, Mr. Hyland and several other loggers have decided to resume operations.

GOLD WEIGHS LESS AFTER LEAVING ARCTIC CIRCLE

Seattle, Oct. 28.—One of the peculiar difficulties the officers at the assay office in Seattle are frequently required to contend with is the satisfactory settlement of slight disputes which arise between the employees at the office and the miners who bring dust down from Nome and other Alaska towns. The disputes are, in nearly all cases, resultant from the differences in weight of the twelve ounces of gold weighed up north and in turn weighed at the local office.

It is not generally known, say the officers, that a pound of gold weighed in the north and a pound weighed in Seattle are different, the yellow metal weighing less in Seattle than in Nome. But such is the case, and recently the assay office attendants have found it necessary to use spring balance weights only in measuring the gold and sand which is to a certain extent mixed with it. Out of $10 in gold dust weighed at Nome, there is generally from 15 to 30 cents missing when weighed in Seattle. Out of $1,000 worth of gold dust, the prospector or miner will miss approximately $20.

This is an absolute truism, based on the experience of the assay officials, and it is explained by the fact that Nome lies in the Arctic circle. The flattening of the earth makes the weights differ. While the solution is a difficult one it has been proved by United States officials and scientists that an iron weight in Nome weighs more than a piece of iron of the same weight in Seattle, the two weights not balancing either here or in the northern city.

RUSSIAN CAPITALIST BUYS ISLAND IN RIVER

Col. Ludnovsky Intends to Bring Colony of Czar's Subjects to B. C.

Col. S. Ludnovsky, the Russian capitalist, who is in Vancouver interesting himself in the selection of lands within the province upon which to settle Russian colonists, has taken an option on an island in the Fraser river which he will inspect before sailing for Japan on the outgoing Empress. The island is about sixty miles from Vancouver and comprises seventeen hundred acres. The option price is said to be $15,000.

In addition to the purchase of three and one-half acres at the corner of Victoria drive and River road, Vancouver, which was completed on Saturday, and which will be immediately cleared and graded, Col. Ludnovsky will acquire information respecting all classes of farm lands in British Columbia and obtain options on such tracts as commend themselves to his judgment. These options will be considered when Col. Ludnovsky returns from the Orient in December, and such purchases made as appear necessary to the consummation of his plans.

The colonel, who is a great horseman and keeps a big stud in Russia, will engage in breeding race horses in British Columbia as a diversion to afford relief from the arduous projects for colonization which he has in hand.

Trouble at Salmon Arm.

There has been trouble at Salmon river. The police received information that the thirsty Siwashes in that quarter were being supplied with firewater, and an officer from Nanaimo was sent to investigate, and got on the trail of twelve men. Arrests followed, and the steamer Queen City, due today from Rivers inlet and way ports, is bringing down seven prisoners charged with supplying the Indians with liquor. The others said to be implicated have so far escaped.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior.

H. A. JACKSON.

GOLD YIELD IS $1 TO THE PAN

First Discoverer of Klondike Fields Again Makes Rich Strike Up North.

Dawson, Y.T., Oct. 28.—Robert Henderson, discoverer of the first gold in the Klondike basin, has returned from an expedition 300 miles up Pelly river with A. J. Keele, the Canadian government geologist. Keele remains there to make a topographical map and geological survey this winter.

Henderson reports that Dell Van Gerder and Dick Van Vibber, who are prospecting Francis lakes at the head of Pelly river for two seasons, report strikes a little beyond the Laird water shed which yield $1 to the pan and even better in gold.

They are taking supplies there with dog teams and freighting 100 miles beyond Hoole canyon after the snow falls. Henderson believes the Upper Pelly will prove a new Klondike.

On Gillis creek, tributary to Hoole river, in the Pelly river water shed, several gold-bearing streams have been opened this summer. Five parties are prospecting. As many are there, this finding is made over a wide area. Many rich mining prospects also were brought out by Henderson.

"Raffles, the Amateur Cracksman."

Nothing but good reports has reached this city about the intensely sensational Hornung-Presbrey drama, "Raffles, the Amateur Cracksman," and now at last Joseph M. Gaites' splendid company, with the talented young romantic actor S. Miller Kent as Raffles will present the play at the New Westminster Opera House, Wednesday night, October 30.

Mr. Kent has made a genuine and tremendous success in this best of all detective stories wherever he has played it in the United States, and this city will probably give the same verdict. "Raffles" is decidedly one of the most interesting dramas of its kind, and the title role, that of the debonair, polished man-of-the-world who steals because he cannot help it, fits Mr. Kent precisely, even better, perhaps, than did some of the romantic characters in which he has been seen before.

DECISION IN FAVOR OF CANADIAN PRINTERS

Ottawa, Oct. 28.—Word was received here of the ruling of Commissioner Sargent, of Washington, in the case of a Canadian printer who was stopped at Port Huron, Mich., while on his way to the Printers' home at Colorado Springs, Col. Commissioner Sargent holds that the Canadian printer had a perfect right to go to the home so long as he was not in a dying condition, as he is a charge only on the printers themselves.

Shakespeare Style.

To advertise or not to advertise; that is the question.
Whether 'tis wiser in a man to suffer
The wants and worries of an unprofitable business.
Or—to sling some ink into a telling ad.
And make things hum. To drone—to sleep—
Perchance to dream of dollars when the miller's bill
Just hangs fire and all the babies in the house
Are crying loud for frocks—when a few words
About the value of your wares would make your stores
The marts of all the people in this town and change
These antique-laden shelves into a silver stream
And boost your bank accounts. This surely is
A consummation devoutly to be wished for.
Then,
Let us advertise and keep on advertising.
To grunt and sweat under a weary life
But that the dread of something not to eat
Makes us keep hustling. The lack of advertising
Explains the weary routine of our days and the game
Of checkers in the back store. Let us shuffle off
Old fashioned methods and attune our ways
Like unto those of shrewd players of the game.
And enterprises of great pith and moment,
In this respect will no longer turn awry—but
Be what they were meant to be—a source
Of affluence for us and our posterity.
Then,
Let us start advertising and keep on advertising.

—T. T. Stewart.

THE FARMER.

A writer in an Old Country paper has lately been telling his readers something about farmers in general and the British farmer in particular. He has a high admiration for the British farmer as a man, but thinks him behind the times, particularly the farmer of the southern counties, as a scientific agriculturist. Of the farmer's life he says:

"The man who farms to live may expect health and strength, unless he abuses his natural privileges; a life crammed with robust enjoyment and good days, and sufficient to provide him with the necesaries and comforts of a happy home. The air, the sunshine, and the land are his; but he is so accustomed to them all that he seldom, if ever, realizes how strange they are to the workers in the towns."

As a man, the British farmer has, in this writer's opinion, "no equal outside the man of his own race and blood," but his outlook is too circumscribed:

"He has a wholesome, or unwholesome, tendency to despise the farmers of the Continent, be they the owner-occupiers of Holland or the science-trained agriculturists of Denmark, who have beaten him in two of his own particular industries—butter and egg production. He knows nothing of the exhaustive and trained labor of the German farmer or of the skill which is exercised among the best of our French neighbors in the production of beet and grain, butter and cheese, the apple and the vine."

This results from the fact, thinks the writer, that the British farmer is not a holiday maker. "Market day serves his purpose. He is, indeed, a convivial stay-at-home—home embracing the adjacent villages and market towns,—but he is at his best as a host, hospitality being a natural characteristic of his class. Yet he is temperate and not too easily disturbed in temper."

Then he draws a contrast between the foreign farmer and his British compeer. In many countries he had found "The tiller of the soil a worthy man, glad to welcome an English guest, and, indeed, to tell him all he desires to know if he once gathers that, like himself, he is a farmer," but nowhere was there "The same cordial ring in the metal of the man."

The article points out some of the causes which, in the writer's opinion, send farmer's sons to the cities, and prevent the young men of the cities from choosing the life of a farmer, and he deplores the fact that the professions of law and medecine should be overcrowed with men, struggling for a living amid poor conditions, whose intellectual training, had it been directed to the agriculture, would have made them the very men to give a needed impetus to scientific farming.

THE ORIENTALS AGAIN.

The Presbyterian Record, a monthly publication which serves as a means of communication between the officials and the people of the Presbyterian Church in Canada, and which is mainly devoted to the publication of news about missionary and financial matters, but generally contains also a little editorial comment, has this to say on the question of Oriental Immigration, referring particularly to the Japanese:

"Moreover, the question cannot remain one of labor supply. Such a race will not be content with labor only. The business openings of all kinds will be eagerly entered, and the trade and commerce and manufacturing, as well as the labor of the west, will pass into their hands. A man has a right to say whom he will invite as a dweller into a house he has made. A people have a right to say whom they will invite to share with them the domain which they and their fathers have won from the wild. The U. S. A. once imported a few negroes from Africa for labor. To-day they have twelve millions of them, a black problem that will not down and that never can be got rid of. Canada is to-day receiving in large numbers the Japanese, a strong, agressive race, and the race problem is bound, even now, to be a perpetual one in the far west. The size and importance of that problem in the future depends upon the action of the present."

OVER-PRODUCTION OF EGGS CAUSES TROUBLE

Chicago, Oct. 28.—Eggs—too many of them—developed a crisis today.

There are 350,000,000 eggs in the cold storage houses of Chicago. This is 100,000,000 eggs more than there were in the freezers this time last year.

As a result four South Water street firms are said to be in serious financial trouble and other dealers dismayed by the generous enthusiasm displayed on the nest last spring by the United Sisterhood of Hens of America.

The four firms are concerned over the rapidity with which the carloads of "hen fruit" have piled up in the cold storage bins as well as over the slowness with which the stocks have been unloaded on the public.

The trouble of the four firms originally is attributed to the money difficulties in the east. Prices of eggs in carload lots have dropped fully a cent a dozen during the last week. But while this crop has been sufficient to discourage the holders of eggs and to draw from the banks demands for the commission houses to deposit with them more margins upon the eggs on which the bank funds have been loaned, still the fall has been too small to induce the public to eat more "ham and."

Fine dairy farm of 100 acres, best black soil; part underdrained. House and small barn; only eight miles from New Westminster; good road. For short time at $70 per acre. Abbott & Hyde, next Guichon hotel, New Westminster, B. C.

A Thousand a Day.

New York, Oct. 28.—It was learned today that Morris Rosenthal, the Standard Oil's $1,000 a day lawyer, is originator of the unique defense to be made by the $100,000,000 corporation in the government suit to dissolve it.

It was his conception of the defense that caused the Standard to employ him at the unprecedented salary, which began last spring. Estimating Rosenthal's salary to represent a return of 6 per cent in property value, his friends here figure that the actual market value of his brains exceeds $6,000,000.

Ald. Garrett returned yesterday afternoon from down river, and it is probable that the meeting of the police commissioners will take place this afternoon. The moral reform question will be the chief subject of discussion.

We have the finest assortment of choice turkeys, geese and chickens for Thanksgiving day. Reichenbach company, limited. **

Chief Constable Spain and Constable Deane brought over a number of prisoners from Vancouver yesterday and delivered them in the charge of the penitentiary authorities. The men were sentenced in Vancouver on Saturday, having been convicted of various crimes at the assizes last week.

For cut flowers, bouquets or funeral designs telephone T. Davies & Son, B. 208. ***

The marriage of Miss P. M. McCrimmon, a recent graduate of the Royal Columbian hospital, to A. B. Matheson, of Cloverdale, will be solemnized at the residence of the bride's father, A. McCrimmon, Langley Prairie, on Wednesday, October 30. After a brief honeymoon, the young couple will take up their residence at Cloverdale.

Save Friday evening for the Harold Jarvis recital in the Methodist church. He alone is worth the dollar. ***

E. Goulet, who has been engaged during the last three months in doing organization work in the interests of the railway telegraphers, returned from Winnipeg on Saturday and resumed his duties as local C. P. R. agent yesterday morning. George Robinson, who has had charge of the station for some time in place of Mr. Goulet, will assume charge of the Westminster Junction station.

We sell Perfect Baking Powder, 35c per tin, at the Good Cheer Store, 255 Front street. **

The Fraser River mills at Millside will most likely be closed after today for a certain length of time, and a number of men will be forced to seek employment elsewhere. Yesterday morning, ten of the carpenters employed around the big mill were paid off, and no date was fixed upon for their return, a circumstance which would point to a close down of some length.

Bristo soap for cleaning and polishing knives, etc., 10c per paceket, at the Good Cheer Store, 255 Front St. **

A general meeting for the organization of a Canadian club in this city will be held next week, according to the present plans of the men who are acting in the matter. A copy of the Canadian club constitution has been received, and after thoroughly familiarizing themselves with the cardinal principles of the institution, the local promoters will call a general meeting of all interested in the matter.

The architect is now engaged in compiling plans of the addition to the B. C. Packers' association's local plant and construction work will be commenced during the month of November. The work has been delayed owing to the pressure of business in connection with the season's fish supply, but as soon as the cohoe run slows down, the management will turn their attention to the proposed new block. The addition will cost in the neighborhood of $40,000.

E. L. Richardson, manager of the Dominion exhibition which will be held in Calgary next year, was in the city for a short time yesterday and called on Mayor Keary. Mr. Richardson has gone to Victoria, but will return to New Westminster tomorrow and endeavor to arrange with the management of the New Westminster exhibition and Fraser River Valley agriculturalists in general to secure representation of this district at the Calgary event. He will tour the Okanagan and Kootenay districts before his return to Calgary.

Mrs. Anna Watson Bilwell, Toronto's renowned soprano, and Miss Bellamy, graduate of the Boston School of Expression and Oratory, will assist Harold Jarvis Friday evening, in Quene's Avenue church. Do not miss this treat. ***

For all kinds of cut flowers and potted plants, see Tidy, the florist.

Owing to the pressure for room at the provincial jail in this city, about thirty-five prisoners were transferred to the provincial jail at Victoria yesterday. The fall assize courts which have just concluded their labors in various parts of the province have caused a large increase in the enrolment at the provincial institution with the result that the accommodation is being severely taxed. The jail at Victoria is also well stocked with provincial charges, and it is probable that the old jail at Nanaimo will have to be brought into service again.

Fresh Alberta butter, 3 lbs. for $1, at Kyle & Son, Front St. ***

The arbitration to settle the amount of damages sustained by Chris Brown, of Delta, by the entry of the V. V. & E. railway onto his property will be held in the local court house tomorrow afternoon. Suit was entered by Mr. Brown some weeks ago to recover a certain sum per acre from the V. V. & E. railway, and the court made an order placing the case in the hands of arbitrators, F. W. Howay, representing the V. V. & E.; F. J. Coulthard, representing C. Brown; and J. J. Cambridge, who was chosen upon by the other two. The arbitrators went out to the locality on the fifth inst, and took notes of the situation and will therefore be able to deal with the matter intelligently.

Monsoon tea, 40 cents per packet, at the Home of Plenty, 255 Front street. ***

Thanksgiving day fare is to be found in profusion at Reichenbach's Columbia street. Phone 101. All orders promptly attended to. **

The Hon. Rudolphe Lemieux, Canada's special envoy to Japan, will not be able to come over to New Westminster today to personally investigate the need of the deepening of the Fraser river channel, owing to his late arrival in Vancouver, he having only reached that city yesterday evening. At Westminster Junction Mr. Lemieux was met by J. B. Kennedy, M.P. for Westminster district, who accompanied him to Vancouver and discussed the Fraser river improvement question with him at length. MacKenzie King, deputy commissioner of labor, met Mr. Lemieux at Glacier, and acquainted him with the result of his investigations into the Oriental problem on the coast. Mr. Lemieux will sail on the Empress of China this afternoon or evening.

For the Thanksgiving turkey, call at Reichenbach's, Columbia St. ***

Now is your chance to secure the choice of the 15-acre plots in best fruit growing district of B. C.; only 15 minutes' walk from R.R. station and steamboat landing, and one hour's travel to either Westminster or Vancouver. Price $60 an acre and up; by Abbott & Hyde, next Guichon hotel.

Two Cent Fare in Sight.

Ottawa, Oct. 28.—Argument is being heard before the supreme court today upon the question of granting a two-cent mile rate by the Grand Trunk, according to its charter. The railway commission some months ago ruled that the company was bound by its charter to provide third-class passenger accommodation at two cents a mile.

The company appeals on the ground that the obligation imposed upon it in this matter by its act of incorporation was repealed by Chapter 28 of the Acts of the Dominion parliament of session 1883, which allowed a variation of tolls.

To Build Kootenay Central Railway.

Revelstoke, Oct. 28.—According to the latest reports the C. P. R. appears to be preparing to construct a part of the Kootenay Central railway from Golden to Fort Steele. Fifteen or twenty surveyors have been sent in on this work.

The C.P.R. has considerable property in the Columbia valley and Mr. Bruce is there representing the C.P.R. for the purpose of superintending the installation of an irrigation scheme similar to that at Calgary which will render much more productive large areas of this great valley. The idea of the company is to encourage settlement and with this end in view will push the work and make the land available at an early date.

STOLEN GOLD IS FOUND IN VANCOUVER

Part of Big Loot Secured in Dawson Discovered in Possession of Miner.

Vancouver, Oct. 28.—Three hundred and fifty ounces of pure gold, part of the $40,000 worth that disappeared from a registered mail sack on July 29, while in transit from Fairbanks to Dawson, has been found by the Canadian Detective bureau, of the Inns of Court building, in this city.

This portion of the booty was traced by the agency from Dawson. A. J. Kelly, a Quartz creek miner, who recently arrived from the north, brought it down as an accommodation for a friend, who had unwittingly become the possessor of it. According to his instructions he was to have taken the gold to the assay office in Seattle, but when the local detectives explained the position he promptly handed it over to the authorities.

The Princess May, the last boat of the season, arrived last night from the north with many passengers, and a strict search has been made for other portions of the booty which it was believed was being sent out on her by private individuals, the unconscious dupes of those who engineered the robbery.

George Kincaid, who was arrested for being implicated in the robbery, committed suicide while being brought down to Dawson. Richard Hall is confiened in the barracks at Dawson awaiting trial. Two others suspected of complicity in the theft are now being sought for by the police, a strict watch having been kept on all the steamers from the north.

It is understood that several women of a Dawson resort are suspected and other prominent Dawson business men may be roped into the case. It is not known just how the gold was taken out, but it is believed that Kincaid stole it from the post office, where he was working. The empty mail bags were found under the school house at Dawson.

More Deaths in Italy.

Rome, Oct. 28.—The latest reports from the scene of the earthquake are that there are over six hundred deaths and more than a thousand injured.

Relief is being sent as rapidly as possible, but the district is difficult of access. At Ferruzzano, owing to the lack of salvage parties, the bodies are still unburied and decomposition has set in.

Land Registry Office, New Westminster, B. C., Oct. 24, 1907.

LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Joseph Tays as the owner in Fee Simple, under a Tax Sale Deed from C. C. Fisher to Joseph Tays, bearing date the 16th day of November, A. D. 1904, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as Lot 13, Block 5, subdivision of Lot 201, Group 1.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice upon you, otherwise I shall register Joseph Tays as owner thereof in fee. And I hereby direct that publication of this notice for one month in a daily newspaper published at New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 26th day of October, A. D. 1907.

C. S. KEITH,
District Registrar.

To John Sirr, Esq.

All persons served with this notice, and those claiming through or under them and all persons claiming any interest in said land by virtue of any unregistered instrument, and all persons claiming any interest in said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

FIGHT FOR REWARD WILL BE STIFF ONE

Different Parties Who Informed on G.N.R. Bandits Want $14,100 Purse.

Spokane, Oct. 28.—From present indications there will be a stiff legal fight to determine to whom the $14,100 reward for the capture of the two men believed to be the Great Northern bandits, who were arrested here Friday evening, having in their possession $14,350, which has been identified as a part of the $40,000 secured by the bandits when they held-up the Oriental limited, near Rexford, Mont., September 12.

Jesse E. Howe, the liveryman, and Thomas Riley, the dance hall proprietor, both of Bonners Ferry, Idaho, who came to Spokane with the men, and who assert that to them is due the capture, because they notified the authorities that the men were on the train, declare that they are entitled to all of the reward, and have engaged attorneys to handle their case.

The Spokane officers, who, with the Great Northern detective, made the arrest, believe that they are entitled to a share of the reward, and last night three citizens from Bonners Ferry put in a claim for a share in the reward, claiming that the capture was due to them. They are S. E. Cummings, proprietor of the Casey hotel, at Bonners Ferry; H. B. Walton, the railway agent there; and S. E. Henry, an attorney.

Borden Wants Big Damages.

Ottawa, Oct. 28.—Sir Frederick Borden has instituted proceedings for libel against the Nineteenth Century which reproduced a story from the Calgary Eye Opener, of an alleged bacchanalian orgy at the military dinner in Toronto and the subsequent hilarious proceedings, all of which the minister of militia declares is easily capable of disproof. The amount of damages is understood to be fifty thousand pounds sterling.

Beware once again! Another comet is approaching the earth, and, according to astronomers it will come as close as thirty-five millions of miles, November 8 being the date of its closest approach to the earth. It will be visible to the naked eye in the early part of the evening of that date. The celestial visitor is known as the Mellish comet, in honor of a young astronomer named Mellish, of Wisconsin, who discovered it on September 1.

Harold Jarvis, the celebrated tenor, will appear in the Queen's Avenue Methodist church Friday evening. Do not miss the chance of hearing this magnificent voice. Tickets, one dollar. ***

KELOWNA TOBACCO.

Expert Pronounces Favorably on Quality of Okanagan Product.

Kelowna, Oct. 28.—J. Charlan, chief of the tobacco division of the department of agriculture at Ottawa, spent a few days here recently preparing a report to the Dominion government on the possibilities of tobacco growing in British Columbia. He pronounced the bench lands in this vicinity as being well adapted for the growing of the leaf, but thought the difficulties of irrigation and the scarcity of labor would be a great drawback for some time.

The crop of Messrs. Holman and Corsoro was visited, and Mr. Charlan spoke in glowing terms of the quality of the article as he found it. He said under proper conditions the Kelowna product should be worth from twenty-five to thirty cents a pound in the Canadian market, whereas the market price is now only about twelve cents a pound. He also said the tobacco grown in this district was a better quality than that grown in the States, but as is already well known, sufficient qoantity is not yet grown in Canada to supply the home demand, and until then it will be necessary to import the product.

Real Saving

Whether or not a price is low depends on what sort of value you receive for the price. On this basis we save you money on everything that druggists sell. Our first aim is to supply our trade with dependable goods; our second to save our customers something on the cost. We are invariably successful in both these intentions.

We Invite You

—TO OUR—

Thanksgiving Linen Display

A bright, cheerful showing of snowy white Linens of every description takes place throughout our main store

During the Next Ten Days

We have now in stock the largest assortment of Staple and Fancy Linens that we have ever purchased.

To show to all lovers of nice Linens (and who does not appreciate such), that we have the most comprehensive range ever seen in New Westminster is our reason for extending this invitation.

You will find the goods displayed in every conceivable space---in the Windows, on the Ledges, Counters, Show Cases, Linens, etc.

Realizing, also, that between now and Christmas thousands of people in New Westminster and vicinity will be looking for Christmas presents, we feel confident that this exceptional display will result in our mutual benefit.

To fully realize the importance of this display just take a walk through our store during the next ten days. Any information we can give will be gladly given. Ask about any want you have in

Table Damask, Table Sets, Napkins, Drawn Linens, of every description; Teneriffe Pieces, Doylies, Embroidery and Round Thread Linens, for fancy work; Handkerchiefs, Towels, Towelings, Aprons, in fact every article of Linen for household use.

That we have the goods you will need now or later on we feel sure. As to prices, we leave you to judge.
