ONSTRUCTION WORK IS TO BE RESUMED

estminster - Eburne Railway Building Will Start at Once—Operate in October.

ancouver, Aug. 10.—William Whyte nd vice-president of the C. P. R., given instructions for the comple- of the right of way for the Eburne New Westminster railway, and ls with the various owners of prop- to be passed through within the limits of New Westminster are being completd. Once the right way has all been secured the work grading the road in the city limits be started and hurried to comple- as it is intended to have the line dy for operation in October.

ome months ago a hitch occured in nection with the purchase of the t of way in New Westminster, the es demanded by owners for the dred foot strip for the railway be- far higher than expected. Be- the owners and the company d not agree construction work was ped and nothing was done till Mr. te reached the coast. On his in- ctions the buying of the right of is again proceeding.

e grading of the road from rne has now been completed to in a mile and a half of the New minster terminal. The ties for entire nine miles of the line are lying in New Westminster and rails are on order. It is there- expected that the rails will be ready for the opening of the line tober. While the rails are going the British Columbia Electric way company will carry on the ead construction.

IKEBREAKERS ON TRAIN BECOME HUMAN TARGETS

kers Supposed to Be Responsible or Murderous Assault in Early Hours of Morning.

rmingham, Aug. 10.—A message e dispatcher's office of the Birm- am Mineral Railroad states that ain was fired upon near Blockton en 1 and 2 o'clock yesterday ning. The train had a company the First regiment aboard, a large d of strike-breakers, and about nty deputies.

he dead include Conductor Joe T. lins, one deputy and one strike- aker. Eight others on the train e wounded. The train was fired up- supposedly by strikers just as it entering Blockton. About 150 ts were fired.

D INDIAN RELICS FOUND NEAR NAKSUP

Nelson, Aug. 10.—A very interesting covery has been made by chance r Naksup. It is a cache of Indian ics of a very ancient type and olly unlike any that have been con- ered characteristic of the Indians Kootenay. The hiding place was a low near the beach concealed by a ick clump of trees and underbrush. contains many relics of the usual d of Indian stone ornaments and a rge number of arrowheads of a green one not found in the neighborhood. here are also stones of the same ma- rial that seem by their shape to have en intended some for axes, others r hammers, and for other simple ols.

OLDIERS DYING FROM DRINKING POOR WATER

Dale Creek, Wyo., Aug. 10.—Three ldiers of the Twenty-first infantry, S. A., are dead of dysentery at amp Emmet Crawford, and others the same regiment are ill of typhoid ver. Poor water is said to be the use. The bodies were shipped to rt Logan this afternoon. The names the dead are not known here.

Elopement Failed.

Lethbridge, Aug. 10.—Sam Jones, 35, d Gertie Pimm, a runaway couple om Lethbridge, were caught at Great lls, Mont., yesterday, and the elope- ent failed. Jones is charged with duction, the girl being under 16. e girl's father and Detective Egan

CHILLIWACK MINE IS CLOSED INDEFINITELY

Gold Basin Property Last to Become Idle—Owner Going to California.

Bellingham, Aug. 10.—J. O. Carlisle, who has been operating the Gold Basin mining property at Chilliwack, arrived in the city yesterday and reports that the mine has been closed indefinitely and that the chances are it will not be opened until arrangements are made for handling more ore than at the present time. The Gold Basin is the last mine in the district to be closed. All of the other properties have been idle for some time. Carlisle will leave in a few days for California, where he will engage in mining. His health has been poor for some time and he believes the change in climate will be of benefit.

DECREASE IN COLLECTIONS FOR FERNIE RELIEF FUND

Cash Contributions of Past Three Days Only Total $9.50—Clothing Still Received at Fader's Office.

Less than ten dollars in cash has been aded to the Fernie relief fund since Saturday, subscriptions showing a decided falling off as the horror of the calamity gradually becomes less intense. The local relief committee will continue working for a few days longer, and will hold a meeting towards the end of the week for the purpose of auditing the books and deciding upon what steps to pursue for the future.

The committee does not propose to send a third car, unless circumstances change considerably. After expenses are met for those cars which have been sent, the balance, which will not be above $300, will be spent in relieving destitute persons from the Fernie district who come to this city. Grants will be made in proportion to the necessity shown. Should anything be left over at the end of that time, the money is to be sent to the local relief committee. Those parcels which have come in since the second car went will be sent via the C. P. R., but not in a carload lot. The public has contributed generously since the committee appealed for clothing.

HE FOUND IT.

Man Hunting for Leak in Gas Tank Caused an Explosion.

Winona, Minn., Aug. 10.—Anton Peliski last night struck a match in hunting for a leak in a gas tank in the purifying building of the Winona Gas company, and a terrific explosion followed, setting fire to the building and causing heavy damage. The city will be left without gas light and it may be some days before service is again resumed.

The four walls of the structure were blown out and the roof was shattered to splinters. The fire was extinguished after a hard fight in offensive fumes. Thre men were injured, one of whom may die.

INDIAN HUNTER'S FAMILY KILLED BY LIGHTENING

Edmonton, Aug. 10.—Rev. H. Robinson, who arrived from Wabasca, reports that one of the best Indian hunters of that place with wife and daughter was instantly killed by lightening recently. Three others of the same family who were in a tent at the time escaped without injury.

CHILDREN BURN TO DEATH IN TENEMENT FIRE

New York, Aug. 10.—Six persons were burned to death in a tenement house at 332 East 112th street, four children between the ages of 8 and 12, an infant of two months, and an aged man. Other occupants of the tenement were injured jumping from the windows, three severely.

Merely a Bluff.

Tokio, Aug. 10.—The reported decision of the American transcontinental railroads to abandon oriental trade is not taken seriously here. It is looked upon as being merely a bluff in the interstate commerce commission in

MILL MANAGERS TO BE CONSULTED BEFORE DECISION IS REACHED

Booms of Logs Can Go Through Narrower Draw Than Present Plans Call for at Lulu Island Bridge—Franshise Works Hardships on Owners Who Have Not Completed Purchase.

At the meeting of the city council last evening all the members being present except Ald. Johnston, the principal business was to consider the plans of the Lulu Island bridge. A long report was read in committee, and in the council correspondence was made public as to the fees required by the engineer. The millmen will be consulted before the width of the draw span is decided. As there was no meeting of the council last week a number of small matters had collected requiring decision.

Letter from Engineer.

J. A. L. Waddell, bridge engineer, wrote with reference to the new Lulu Island bridge, as follows: "In connection with your proposed Lulu Island bridge, I beg to make you, for the firm of Waddell & Harrington, the following proposition for the entire engineering work on the structure.

"For the sum of $3000, we will prepare complete plans and specifications for the substructure, superstructure, and wooden trestle approaches (including the drawings for the future widening of the bridge) will call for bids on the work, will prepare contracts between the city and the successful bidders (subject, of course, to your approval), will inspect the metal at rolling mills and bridge shops, will superintend the construction in the field, will make a final inspection and report upon the finished structure, and will prepare record plans for your files showing specially all measurements of actual construction below water.

"One half of the total fee is to be payable upon the completion of the plans and specifications, and the remainder, pro rata, as the work of construction progresses, or, in other words, proportionately to the monthly estimates.

As we have the necessary data for preparing plans, we can start work thereon whenever you notify us to do so, which I suggest that you do by wire in order to save time."

The letter was referred to the special committee dealing with the bridge, with power to act. The amended plans were subsequently discussed in committee.

Deepen North Arm.

It was decided to wire to Mr. Waddell for further information, in addition to that given in his letter to the special committee, but not read in public, and meanwhile the millmen will be asked to meet the council with reference to the width of draw necessary for booms of logs.

The mayor remarked that it was the desire of the council to see the channel of the North Arm deepened in the future, and they expected this would be done.

Vote to Reception Committee.

A deputation consisting of J. A. Lee, chairman of the lacrosse reception committee; T. Gifford, M. L. A.; J. J. Cambridge and F. J. Lynch attended to request the council for a subscription to the reception and presentation of the team.

Mr. Lee explained that the committee had set out to collect $3000, and had collected $2500. They asked the city to vote $500 to complete that fund. It was not necessary to submit arguments, for they were all familiar with the reasons, but the committee wished to give the boys something handsome, and pay the expenses of the tour. If they voted the money, he was sure the citizens would approve it.

Mr. Cambridge explained that the original idea was not to come to the council at all, but the Fernie disaster had made a big call on the citizens. Messrs. Gifford and Lynch also addressed the council.

Ald. Henley spoke of the advertising benefit to the city, and Ald. Garrett moved that the request should be granted.

Ald. Fader seconded, and the motion was passed.

Mr. Lee thanked the council for the grant, and the deputation then withdrew.

Ald. Garrett suggested that while team, they should not forget that they had some of the best shots in the Dominion and they ought to be rewarded. The matter dropped.

Fire Brigade Matters.

Fire Chief Watson reported that five fires had been attended by the brigade from June 29 to July 31. He recommended that Fred Kellington succeed Fireman J. Geddis, resigned. H. Gilchrist and Charles Brown were the two extra men suggested for training as firemen, in readiness for the new fire hall. The firemen were each taking a ten days' holiday. The report was received and the recommendations adopted.

Burrard Inlet Park.

W. Smith, of Burquitlam, wrote with reference to the advantage of securing a park on Burrard inlet, details of which were recently published. Ald. Garrett proposed, and Ald. Jardine seconded a motion that the letter be on the table until such time as the city should have the money to use for that purpose.

Walsh Accident.

Ald. Jardine moved the adoption of a report which provided for paying the expenses of recovering the body of John Walsh and the funeral expenses, amounting to $140.50, and also pay $750 balance due on a house and lot belonging to the deceased who met his death in the council's service. The amount was voted without discussion.

The finance committee reported what action had been taken with regard to the Fernie relief fund, and the report having been adopted the mayor thanked Ald. Fader for his action in the matter.

Wants the Franchise.

A long discussion took place on a letter from E. R. Fitzgerald, who had paid $2600 on a purchase of land on Carnarvon street valued at $3000, and was not on the voters' list. He wished to know how he could be placed thereon. As the law stands at the present time, the owner must be placed on the assessment roll as the registered owner, or be a householder paying $100 rent a year. While Mr. Fitzgerald's case was admitted to be an undoubted hardship, the council saw no way to help him as matters stood at present, as he could not make a declaration that he was simply a householder.

Queens Park Improvements.

Arrangements were made for lighting the Crescent on Thursday, and formal permission was granted to erect the platform on Albert Crescent. Probably the second octagonal building suggested at Queens park to form the lacrosse club dressing room, will be built of cement. The idea is at present in a tentative state, but as there will be a permanent fisheries exhibit, it is thought desirable to build a similar octagonal structure as a dressing pavilion.

Health Report.

The medical officer of health, Dr. Jones, reported that during July there were eight cases of scarlet fever. They were all mild, and had with two exceptions been released from quarantine. There were three cases in the city at the present time. The report was adopted.

Regrade of Columbia Street.

The proposed regarding and new sidewalks on Columbia street were considered. It was decided to place blue prints and copies of the report of the city engineers, Hill & Gauvreau, at the city hall accessible to the property owners, as the work will be done under the local improvement plan.

Miscellaneous.

Alberta street will be opened by the board of works, and roads in Sapperton where building is going on improved. The sale of debentures will be taken in hand at once.

A number of objections to assessment were read and referred to the finance committee to act.

The Dominion Trust company reported that the insurance of $4000 on the manufacturers' building at the

and asked for renewal. The communication was referred to the finance committee. In the absence of the city clerk next week City Treasurer McQuarrie was appointed to act in his stead.

George D. McMurphy reported that during July twenty-one cows, nine horses and a calf had been impounded. The receipts were $45.50, and four dollars had been collected for dog tax. The report was received and filed.

An extensively signed petition was received for extension of the hours for irrigating in the city. The petition was referred to the water committee to report.

Emily Moore Dominy, on behalf of the Arrow Press asked for orders for printing. Referred to the finance

ENGINE PULLED UP SLOWLY ...ETTE RIVER

Legislative Library.

Tender Alone Remains in River from Tuesday's Wreck—Cause of Accident Will Be Known.

After nearly a week's work the C. P. R. staff engaged at the Brunette river wreck succeeded in getting a pull on the engine and drawing her out of the water yesterday afternoon.

Bridge and Building Inspector Choate, who again directed operations, found on his arrival, that the Lidgerwood hoist, with engine 2013 to operate same, had arrived from Vancouver. This was more powerful than the steam hoist in use last week.

Double purchase cables were attached to a pulley block on the derailed locomotive, and to another block held by ties sunk in a pit behind the hoist, and the platform having already been prepared and greased for the engine to slide on, she was slowly pulled up out of the water. The tender had, of course, been detached from the engine, and the creaking and groaning of the timbers when the hoist got a pull on her showed that the lengthy preparations were a complete success.

It is expected that the tender will be pulled out today, but as she lies right in the water, the task will be tedious. All through the week numbers of visitors have come to the scene of the wreck, and photographers have been busy. Probably today it will be known definitely what was the cause of the bridge collapsing.

The mill company is preparing to rebuild a stronger and better bridge at once. The style will be varied a little, the Howe truss being selected, similar to a bridge a quarter of a mile up the Brunette river carrying the G. N. R. track over the stream.

EDISON NO LONGER WORRIES ABOUT COMMERCIALISM

Latter Day Wizard Said to Be Worth $25,000,000—Will Now Make Scientific Toys.

New York, Aug. 10.—Thomas Edison has begun gratify an ambition he has cherished for many years, and his laboratory at Llewellyn, N.J., will see comparatively little of him henceforth. Mr. Edison's ambition has been to give himself a roving commission into pure science and to steer clear of commercialism. He has got $25,000,000, which he thinks is more than enough. All his life he has been turning out money-making inventions. He will devote the remaining years to investigating anything that strikes his fancy, without regard to its financial productiveness.

WILL PERMIT ARMED FORCE IN AUSTRALIA

Melbourne, Aug. 10.—Referring to the refusal of the New Zealand authorities to sanction a rifle match between teams made up of sailors from the American battleships and the Dominion volunteers on the ground that the regulations forbid the landing of armed parties of foreigners, Hon. Thomas Thompson Ewing, Commonwealth Minister of State for defence, states he will not allow these technical regulations to interfere with the rifle matches of a similar nature that have been arranged as a part of the entertainment during the battleships' call at ports in Australia.

NOISE WILL DROWN MUSIC ON THURSDAY

Only One Band Secured for Welcome Home of Champions—Alex Is wanted.

Unless the Chilliwack, Mission and Mount Pleasant bands volunteer their services for the big celebration here on Thursday evening, there will be but little music to leaven the tumult caused by thousands of noise making machines. The boys' bugle band, so far, is the only musical aggregation secured for the welcome home to the champions of the lacrosse world. An effort to get the Westminster city band to turn out ended in a fizzle, the committee in charge of the music department deciding that $5 for parading from the C. P. R. depot to Albert Crescent, and $3 for playing for two hours afterwards, was just a little too much. Being a union organization, the band was unable to make any concessions, consequently negotiations were broken off.

Notables Coming.

At last night's largely attended meeting of the Minto cup celebration committee, Secretary W. N. Carry reported that he had sent invitations to the mayors and reeves of adjoining cities and municipalities, to the members of the provincial cabinet, and to a number of lacrosse enthusiasts in Vancouver and Victoria. He expected that a large number of the invited guests would attend.

Fireworks Galore.

About $80 will be spent on pyrotechnics, the original $60 spent for this purpose being supplemented by $20 last night. This sum will be expended in the purchase of Roman candles and electricleers to be let off during the progress of the procession to Albert Crescent. Fog signals and bombs will be placed along the C. P. R. tracks. These will explode when the train bearing the boys arrives in the city.

Meeting the Champions.

Arrangements in connection with the meeting of the boys at Agassiz were left in the hands of Thomas Gifford, M. L. A.

A proposition that seats be erected at the Crescent for the use of the members of the committee, their wives, daughters or sweethearts was defeated by a large majority, after the subject had been debated at length from a chivalrous and common-sense standpoint.

During the course of the meeting, a deputation, headed by J. A. Lee, descended to the council chamber to request the city fathers to grant a sum of money towards the expenses of the celebration. On their return they announced that the sum of $500 had been secured.

Want Alex. Back.

On the suggestion of H. Ryall it was decided to send a strongly worded telegram to Alex. Turnbull, requesting him to return to the coast at once in order to take part in the games against Vancouver on August 29 and against the Maple Leafs on September 7 and 19. The general opinion was that the services of Alex. were needed on the team to ensure the safety of the Minto cup, in view of the shuffling recently indulged in by the two Vancouver clubs. Alex. is now at Paris, Ont., and could arrive here in plenty of time to take part in the first game against the Vancouvers.

Keep on the Lights.

A request is made by the committee that all storekeepers allow their windows and signs to remain lighted on Thursday evening, for the purpose of giving the city a bright appearance. The train, if on time, is due to reach here at 8:40 p.m., the procession starting immediately after its arrival.

EXPERTS PUZZLED AT PERIODICAL MANIAC

Hazelton, Penn., Aug. 10.—Sane eleven months each year and a raving maniac every August, Mrs. Michael Herze, of Milnessville, is a puzzle to noted scientists, who are investigating her case today.

Mrs. Herze appears perfectly sane throughout eleven months of the year and lives happily with her husband and two children. Every August she becomes demented and while she is kind to her babies has an aversion for

INDIANS PREPARE TO WAR BECAUSE OF LOVE QUARREL

Gift of Mocassins and Declaration of Admiration by Pretty Klootch Stirs Up Bad Blood—One Indian Killed in Desperate Duel—Wholesale Slaughter Averted.

Dawson, Aug. 10. — One Indian woman, a chief's sister-in-law, pretty as far as comeliness goes among Northern Indians, and a gift bestowed of a pair of moccasins to a member of another tribe, was the cause of two tribes declaring war upon each other in the Yukon territory within the last few days. Only the prompt action of the Northwest mounted police and the fact that ammunition ran short is all that saved a merciless slaughter.

The uprising was general among the Pelly Indians and the Blind Creek tribe, headed by Chief Ijuth, over the murder of Blind Creek Jonathan by Liard Bob, a member of the Pelly tribe after a desperate duel fought in the wilderness in which Jonathan was killed. For the murder of Jonathan the Blind Creek Indian chief, Ijuth, demanded 1000 blankets and thirty rifles. These were not forthcoming and war was declared.

News of the uprising was furnished by the arrival of the steamer Pauline, which was placed in commission with Captain Fitz Horrigan to reach the headquarters of the tribe and command the Indians to keep peace. Both tribes had assembled to exterminate each other, when Horrigan arrived. The first news of the uprising was furnished by Poole and Field, two white trappers.

Horrigan found the Pelly's willing, but the Blind Creek's surly; the old chief being a brother of the murdered man, demanding the original payment or the blood of his enemies. After a long conference Horrigan gave Ijuth ten minutes to settle or to be seized by the squad. For a few moments it looked as if the chief might order his men to attack Horrigan's force. The chief then agreed to keep the peace. The next day the tribes held a tribal feast together.

The trouble began when the wife of Jonathan gave a pair of moccasins to Laird Bob, saying she did so because she loved him. Jonathan became jealous and attempted to kill Bob. They fought a desperate duel in the wilderness. Bob had no weapons, but overcame Jonathan who had a shot gun and a rifle. Bob wounded Jonathan slightly with his own shotgun, then both raced to get the rifle, Bob winning, killing Jonathan, who was an outcast from the tribe because of his stealing tendencies.

Horrigan reports a justifiable homicide on the part of Bob. Horrigan's timely arrival settled what meant the slaying of hundreds on both sides, perhaps including white prospectors and traders.

LITTLE GLOBE TROTTERS AT OPERA HOUSE TONIGHT

Pollards Produce "The Toy Maker" This Evening—Drilled Are Well Drilled and Entertaining.

After a triumphal tour of the great cities of Australia and the Orient the tiny little Pollards are to make a return visit to the opera house tonight and tomorrow. The Pollards Lilliputian opera company, as this combination of clever little people is known to the amusement world, is the most unique attraction on the globe. It is composed entirely of exceptionally gifted youngsters, who are selected on account of their predilection for the stage and their talents as songsters. They are trained, drilled and rehearsed and their particular qualities developed before they are permitted to take part in attractions offered by this world famous galaxy of lilliputians. They are not amateurs in any sense of the word for they appear in their respective roles with all the sang froid of the veteran professional. From the ranks of this aggregation have come forth some of the most notable stars of the operatic and dramatic stage of today. The little principals and the chorus are carefully looked after and are accompanied by a teacher and several matrons, and although they are constantly on the travel and have seen more of the world than falls to the lot of most mortals, it is rare that they are ever ill and on these exceptional occasions the ailments are of the most trifling character. All the favorites, including the Pollard Twins, Teddie McNamara, Eva, Ivy and Merle Pollard, Olive Moore, Irene Finlay and Lily Bull are still with the company. The repertoire now includes "Florodora" and "The Toy Maker." The opening bill tonight will be "The Toy Maker."

BIG NAMAKA FARM IS SOLD FOR $175,000

Calgary, Aug 10.—One of the most important land deals in the hitorsy of the Calgary district was consummated last week, when F. C. Lowes & Co. sold Messrs. Perley & Anderson's big Namaka farm for the sum of $175,000.

The purchaser is a wealthy American land owner from the southern states. The farm consists of 11,000 acres of the finest land lying out of doors in Alberta or any other country. It lies on the main line of the C.P.R. and stretches seven miles south to the Bow river. 1,300 acres are cultivated and under crop, constituting one of the most magnificent standing crops of barley and fall wheat in western Canada.

A ROMANTIC LEASE.

One Sweet Red Rose as the Rent For a Pennsylvania Farm.

The public is generally conversant with the annual custom of paying "one red rose" as ground rental in eastern Pennsylvania churches to the descendants of those who gave the ground for the edifices, but it is not generally known that hundreds of owners of farms are under a similar obligation, says the Cincinnati Commercial Tribune.

"Red rose rent" is yearly paid every second Sunday in June in the Lutheran church at Manheim, Lancaster county; in the Tulpehocken Reformed church, about sixteen miles west of Reading and in several edifices in Lebanon county, while several congregations in Berks are entitled to observe the event, but do not.

Roses paid on these occasions to representatives of families whose ancestors made such provisions are treasured as priceless heirlooms, and at Manheim they have come from many states.

It is known to few that more than 100 years ago great tracts of farm land were sold around Reading with the same stipulation. It is estimated that at least 20,000 acres of land in Berks are subject because of a clause in the original deeds to an annual ground rent of one red rose.

Records of the Berks courthouse show that many years before Baron Stigel provided for the payment of red rose rent by the church at Manheim Caspar Wistar sold land containing the same clause.

Red rose rent is mentioned in connection with land in Tulpehocken, Marion, Maxatawny, Oley and other townships. It dates back to 1738.

The Tulpehocken Reformed church is built on land that is subject to "one red rose" quit rent. The land was owned by Caspar Wistar, brass button manufacturer of Philadelphia. The red rose rent has been paid to the Philadelphia descendants of Caspar Wistar for some years. The most notable observance was in 1902, when thirty prominent Philadelphia Wistars attended the services and were paid 157 red roses in payment of arrears of rent.

John Page, described as "a gentleman from London," was another extensive real estate speculator in the early colonial period. He planned to establish a feudal barony along the Tulpehocken in 1735. Every deed of land sold by him contained the red rose clause.

Logical.

She—I think we should be able to live nicely on $3,000 a year. He—But my salary is only $2,000. She—I know it, dear, but my clothes come to $1,000 a year, and I have enough now to last for the first twelve months.

The Sheep Drives the Wolf.

The wolf will perish, eaten up by the sheep. The sheep is not what a rainglorious folk have imagined. The sheep presses forward, irresistible, driving before him lions and tigers, driving before him man.

Man?

Yes, man. Ask those thousands of English, those thousands of Scotch, those thousands of Irish, who have been driven back into the sea by flocks of sheep, urged forward by certain noble lords and large proprietors.—Elbert Hubbard's "Primitive Folk."

"Wear Progress Brand Garments—the brand that has made Canada famous for its durable Clothing."

For wear, for style and fit, for all the qualities that are essential to good clothes, Progress Brand Suits and Top Coats are the Canadian Standard by which all others are judged.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has a permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent of the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Synopsis of Canadian Homestead Regulations.

Any available Dominion lands within the railway belt in British Columbia may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY.
Deputy of the Minister of the Interior.

BOARD OF TRADE.—New Westminster Board of Trade meets in the Board Room, City Hall, as follows: Third Thursday of each month, Quarterly meetings on the third Thursday of February, May, August and November, at 8 p. m. Annual meetings on the third Thursday of February. New members may be proposed and elected at any monthly or quarterly meeting. A. E. White, Sec.

SHAH OF PERSIA IS HELD CLOSE PRISONER

Monarch Menaced More by Protectors Than Foes—Political Crisis Imminent.

St. Petersburg, Aug. 10.—Special dispatches received here from Teheran give a tragic-comic description of the position of the shah of Persia, who is virtually a prisoner in the hands of wild tribesmen summoned to Teheran to protect the throne against the revolutionists, but who have become a greater menace to the monarch than his other foes. The tribesmen are extravagant in their demands for money, which the shah is unable to grant, and they threaten to destroy the palace and pillage Teheran. The $250,000 secured from the Russian bank recently as a loan on the crown jewels of Persia already is exhausted. General Liakhoff's cossacks are unable to make any headway against the tribesmen, who have refused to permit the shah to leave the camp at Bado Shakh for Saltanabad, where the harem is now staying.

Famine is reported to be imminent in Southern Persia and this promises to bring about a crisis in political affairs in the autumn.

A dispatch received today from Tabriz says that severe fighting in which the recently arrived cavalry of the shah participated continued Saturday and that the revolutionists sustained heavy losses in men and some guns.

SOUTHERN PACIFIC SHOPS SWAMPED WITH WORK

San Francisco, Aug. 10.—When the employees in the Southern Pacific shops at West Oakland go to work tomorrow they will find that they are expected to work nine hours instead of eight per day. Their pay, however, will be on the nine-hour basis. During the last sixty days the railroad company has increased its working force in the Oakland shops until it is now as great as it was before the slump of several months ago. The increase of working hours is necessitated by the large amount of work on hand.

ORIENTAL JUGGLERS.

Feats Performed by Chinese and East Indian Magicians.

"During a trip through the far east I was much impressed with the wonderful feats performed by some of the Chinese and Indian jugglers and sleight of hand artists," said a Chicago man the other day. "In American theaters we see some skillful work along these lines, but the performer is usually at a considerable distance from the spectators and could employ many aids that the orientals do not use.

"I have seen Chinese and Indian magicians come on board a ship and in the center of a circle of passengers perform tricks that are little short of marvelous. For instance, one of the Chinese would ask a spectator to place a coin in the latter's hand. The Chinaman would close the fingers one after another over the piece of money and then, by passing his hands over the closed fist of his "subject," would in some mysterious manner extract the coin. I have had this trick worked on me a number of times, and I am no nearer to knowing how it is done than I was the first time.

"Then I have seen an Indian magician come out on deck, place a small seed on the planks, pour a little water over it, cover with a small cloth for a moment and then remove the cloth to disclose a living plant a foot or more high. These fellows do not wear long, baggy sleeves in which a piano might almost be concealed, but have bare arms. There is said to be a clan of jugglers, among whom the secrets of the craft are jealously preserved and handed down from father to son."—Detroit Free Press.

Crocodiles and the Cure.

One does not usually connect crocodiles with a health resort—rather the reverse—but the creatures are quite a feature of the Indian bathing place of Manghapir, about nine miles from Karachi. This town is a place of pilgrimage for pious Hindoos, but it is chiefly famous for the value of its waters in the cure of the dread scourge of leprosy. The waters are hot, and more than 60 per cent of the sufferers who bathe there annually, it is said, are cured. The crocodiles are rather noteworthy in that they live in the hot water, apparently suffering no inconvenience from its temperature or medicinal qualities.—Wide World Magazine.

A Parisian Shot.

"I hear," said Mrs. Gaddie, "that your husband's got a job as superintendent of a cemetery and you're going there to live."

"Well?" replied Mrs. Naybor shortly.

"Well, I was thinking it would be an awful ghostly and creepy sort of neighborhood."

"Perhaps, but the neighborhood will not be prying into our business."—Philadelphia Press.

DO NOT FORGET.

Do not forget the Conservatives refused to build wharves on the Fraser River so that settlers could get their produce to market.

WOULD THEY COULD SEE!

There is good cause for regret that Lord Robert's health prevented him from coming west, because his quick eye would not have allowed anything to escape him. He would have got behind the formal receptions, however hearty, and tried to grasp normal conditions. He would have seen the country and not just have passed through it. What it would have meant to us no person could estimate, because with his well known desire to see all sections of the Empire bound together in one solid compact, he would have lost no opportunity of speaking of the great possibilities of this vast Dominion. It would pay the country to have the Colonial Secretary and other leading statesmen of Great Britain as our guests and take them through the land without fuss and feathers and let them thoroughly master the conditions here. We do not wish to be understood that all receptions, etc., be abandoned, but that they should be a secondary consideration, so that the eyes and the digestion of our guests be given a chance. Hurrying across from sea to sea does not give the visitor a chance of taking personal observation of the vastness, the productiveness and the wealth we have here. He does not see the happy homes, the properous condition, or the varied chances of occupation which belong to the great masses of people within our shores and he does not gain the knowledge that would at once fit him to grapple with the greatest question of the old land, that of helping the great masses to help themselves, and if it were not for the pure air of our land his time and money is wasted. What we want the visitor to see is that there is a field here in Canada for the active intelligent producer, and that it is no place to dump the sloth, however regularly he may be supplied with funds, because the pace here in everything is faster than in the older settled country and as this swiftness permeates all phases of our national life, the indolent "banjoee" soon runs to the end of his funds and endurance. What we should endeavor to instil into the minds of those who come to see, is that we want our best to them in other lands, and we look for some portion of their best in return, and that Canada is not in any sense a dumping ground.

"Thirty feet to the gulf."

THE BUSINESS OUTLOOK.

The Toronto Globe has taken the trouble to interview the leading financiers, manufacturers, and business men of Toronto on the immediate commercial outlook of the Dominion, those who have special knowledge of all features of the situation with which they deal, and whose standing will carry weight with the general public throughout Canada, and sums the collective information concisely thus:

"The situation seem to hinge on the volume of grain, cattle, and other farm products which the year's work will produce. This is the primary consideration with every man who has given mature thought to the business outlook, and as the harvest prospects are exceptionally good, the feeling is general that the depression which began with last fall's financial stringency will soon be at an end. Estimates vary widely as to the extent of the coming revival and as to the prospects for a continuation of the activity expected, but that there will be a marked improvement is the universal opinion.

"Apart from the crop outlook the chief ground for a favorable forecast is the comparative absence of valid economic reasons for depression. Much shrinkage was merely a reflection from the monetary stringency across the line. Manufacturers of excellent financial standing, with good and safe business on hand, had to ask customers to cancel orders simply because they could not get the necessary accommodation to pay their employees. Men were thus rendered idle when there was an actual economic demand for their labor. This fact does not lessen the loss and injury due to their idleness, but holds out hope of an early revival. One estimate places the surplus production of the West at only half the indebtedness, but even if this were admitted it would be unfair to draw the inference that two years of excessive production would be necessary to the restoration of stable and prosperous conditions. The promised harvest will put the West in a position to resume the free patronage of eastern commerce and manufacture. The situation gives promise of an immediate revival, and it will certainly be free from unhealthy speculative features."

The response to the two appeals in this city during the last week for two special funds made practically to all citizens irrespective of station in life would seem to indicate that things, while not anything to boast about, are sound and healthy.

There is a commendable caution being exercised that must have a good effect in preserving unburdened the business interests of the city, so that when things broaden out after harvest we should feel the benefit almost immediately and the sum of the year's trade surpass that of any preceding year. Our people are pulling together more than at any time in the history of the city, and are quietly pushing the city's interests in every direction. We have yet nearly five months to run before the books close for the year, and as a people we should frown down anything that would disrupt this unity because we cannot afford to have our citizens arrayed against each other or any unrest created that would prevent people or capital from joining us in our fortunes.

"Thirty feet to the gulf."

Weekly Gun club shoot for the cup and the Dupont trophy will take place at Moody square this evening. As the number of shoots yet to be fired off this season are now few in number, a good attendance is desired tonight. There will be no outside marksmen present to try conclusions with the locals.

We are offering the biggest snaps ever heard of in New Westminster at our great shoe sale. Johnston's big shoe store. **

The greatest musical treat of the season, the Albert E. Greenlaw concert. **

About the middle of next week the cutting down of the hill traversed by the G. N. R. just beyond the Brunette falls at Sapperton will be commenced, the rail and rock being removed and used as ballast on the V. V. & E. line now under construction across the river. A steam shovel will be brought over for the work from Vancouver, and a large gang of men will be drafted here to cope with the task. The work will take several weeks to complete, and will cost several thousand dollars.

Thursday

Tomorrow night the moonlight excursion tonight under the auspices of the Pythian Sisters, Westminster to mouth of river and return. Steamer Beaver leaves C.P.R. wharf at 7:45 p.m. Tickets 50 cents. Good music and refreshments furnished. Come. **

Monday

Thursday, special representations had been made yesterday to Manager Muller, of the Pollard Lilliputian opera company, with respect to his intention of rushing his troupe over here in time to appear on the boards at the opera house, returning to Vancouver immediately after the performance, he decided that such a proceeding would greatly tend to lessen the attendance at the two performances, and announced that a portion of his company would make their headquarters in Westminster today and Wednesday. Had he persisted in his original intention of merely coming over here for the sake of the box receipts, and declined to put up at one of the city hotels, his share of the takings at the opera house tonight would have been smaller than it deserved to be—and that is saying a great deal. A town that is worth playing in is certainly worth patronizing.

Clearing out all our summer boots and shoes to make way for the swell fall and winter goods. Johnston's big shoe store. **

MANY LOCAL SUCCESSES IN MATRICULATION EXAMS.

The results of the matriculation examinations for Toronto and New Brunswick universities are now issued, and contain many local successes:

Junior, Toronto, first class honors—J. E. Lane.

Second class—Miss Hazel Kenny, C. Harold Robson, W. Ray Barraclough and J. A. Smith.

Passed, starred in various subjects—Misses F. Bowell, I. Cross, C. C. Hall, L. Hale, M. Johnston, E. McBride, F. Oliver and E. Shaw; H. C. Betts, A. J. Devereaux, W. A. Fuller, G. B. Latimer, H. H. MacKenzie, A. H. White, G. B. White and W. F. Shaw.

The following passed the examination, matriculating for New Brunswick university:

Second division—Alice McEwen, Annabel Morrow, A. S. Kirkland, Otway Wilkie, Vera C. Gilley, Margaret Archibald, Mabel B. Bowell, Jane M. Peebles.

Third division—Marion F. Sutherland, Edna Bros and Marguerite M. Watson.

WILD FANS CHASED UMPIRE AT SPOKANE

Spokane, Aug. 10.—The dissatisfaction of Spokane baseball fans with conditions generally since the Spokane club began to lose its place at the head of the Northwestern league in favor of Vancouver culminated on Sunday afternoon in a wild and deliberate attempt to do personal injury to Umpire "Red" Ehret. Ehret gave a decision in the ninth calling Rowan of Seattle safe at the plate on a home run that gave Seattle the game, four runs to two. Fifteen hundred fans, wildeyed and threatening, chased Ehret, and he was forced to take refuge on the top of the fruit stand until the patrol wagon with policemen arrived from the city and escorted Ehret to his hotel.

Travellers Condemn Parcels Post.

Milwaukee, Aug. 10.—At the closing session last night of the National Travellers' association convention, a resolution was adopted condemning the parcels post plan, and the secretary was instructed to send a copy of the resolution to every congressman and senator throughout the United States.

I am the original Teddy Bear and have been engaged to give a series of talks on insurance in this space and introduce various members of my family during my stay in town.

Today I want to impress on you that this space is engaged by the leading and most progressive insurance office in New Westminster and if you wish information of any kind regarding insurance consult McLeod's Insurance Offices.

ARMSTRONG BLOCK.

A SOURCE OF DISEASE.

Beware the Man Who Blows Smoke Through His Nostrils.

A popular practice of many smokers consists in discharging the smoke inhaled, especially from cigarettes, through the nostrils. This is even considered by some to be essential to the full enjoyment of the flavor of the tobacco.

The London Lancet, while acknowledging that perhaps under ordinary circumstances no harm is done to the smoker save to his sense of smell, has sounded a note of warning against the habit as a possible disseminator of disease. Hay fever and other annoying complaints have been spread through unsuspecting households by the unthinking visitor who habitually blew smoke through his nose.

The surface traversed by the tobacco smoke before issuing from the nose, it is remarked by the Lancet, is moistened with the natural secretion of the mucous membrane lining it, and this secretion is mingled with the fluid discharged from the conjunctival sac protecting the eyes. It therefore contains numerous micro-organisms, which floating in the air have become attached to the moist and stick surface of the conjunctiva, as well as those which pass over the surface of the nasal membrane. As Tyndall long ago showed, germs are completely filtered off from the air inhaled by the extensive and irregular surfaces presented by the turbinal bones. These germs are carried into the air by the man who blows smoke through his nostrils.

A SENSE OF DIRECTION.

The Prime Requisite For Making a True Woodsman.

A sense of direction I should name as the prime requisite for him who would become a true woodsman, depending on himself rather than on guides. The faculty is largely developed of course by much practice, but it must be inborn. Some men possess it; others do not—just as some men have a mathematical bent, while to others figures are always a despair. It is a sort of extra, having nothing to do with criterions of intelligence or mental development, like the repeater movement in a watch. A highly educated, cultured man may lack it; the roughest possess it. Some who have never been in the woods or mountains acquire in the space of a vacation a fair facility at picking a way, and I have met men who have spent their lives on the prospect trail and who were still and always would be as helpless as the newest city dweller. It is a gift, a talent. If you have its tiniest germ you can become a traveler of the wide and lonely places. If you have it not you may as well resign yourself to guides.—Stewart Edward White in Outing Magazine.

Science and Morality.

The true student of the professional technical school becomes heir to a comprehensive and clear understanding of his duties and responsibilities in his relations to his fellow men and to the community. Those duties and responsibilities present themselves to his trained mind in their real proportion. He is neither nondeveloped nor maldeveloped in his judgment of affairs. His university training, especially in the technical school, has taught him accuracy and penetration in the analysis of any proposition confronting him and that truth and knowledge must be sought with the directness of a plumb line. Science yields nothing but confusion to the shifty, devious and dishonest inquirer. The fundamentals of morality are the very stepping stones to technical success or professional attainment.—Scientific American.

The Hellbender.

"There's no reason why the hellbender shouldn't be good to eat," said a scientist. "Its principal food is the crayfish, the same as the principal food for bass. The hellbinder belongs to the same family of amphibians as the frog and is very closely related. Both are hatched from the egg, and both pass through the tadpole stage before reaching maturity. The hellbender is a mighty fine fish, as any one can prove to himself if he will conquer his natural aversion." The hellbender is found principally in streams about the foothills of the Alleghany mountains.

The Saddle.

Early Greeks and Romans rode horses bareback. They regarded it as effeminate to ride in a saddle. The modern saddle, with pommel, cruppe and stirrups, was unknown to the ancients. Nero gave our fancy coverings to his cavalry, and the bareback riders of the German forests used to laugh at them. Saddles with trees came into use in the fourth century, stirrups three centuries later.

Standing and Sitting.

David Slowpay—I shall bring you back those dark trousers to be resoled, Mr. Snip. You know I sit a good deal. Mr. Snip (tailor)—All right, and if you'll bring the bill I sent you six months ago I will be pleased to receipt that also. You know I've stood a good deal.—London Tit-Bits.

Properly Situated.

"They may say what they like against him," said the convicted one's defender, "but his heart is in the right place."

"Yes," assented the other, "and so is the rest of him for a few years."

Practical.

"What did she say when she heard he was dead in love with her?"

"She wanted to know if he carried any life insurance."—New York Times.

Homemade Starch.

One of the simplest forms of starching in a case of sudden need is the use of borax water. A quarter of a teaspoonful of borax in half a teacupful of cold water will give a dressing like new to embroidered cuffs and collars or even those made of linen. Dip the article you wish to starch in the dissolved borax, wring and roll in a dry cloth for a few moments, then iron.

To Clean Light Furs.

To clean white or light colored furs sponge with a mixture of one part gasoline, one part alcohol and one part ammonia, or if a dry cleanser is preferred sift powdered fuller's earth into the fur and leave it covered for three days before shaking and beating out the powder. Work it well into the fur. It will extract oil and cleanse generally.

The Mirror.

The looking glass may be polished with a soft cloth wet with a few drops of aqua ammonia. It injures a mirror to allow the sun to shine full on it. In some way the sun's rays affect the metallic coating of the glass, causing it to lose its brightness, and often cracking the reflecting surface and always making it a poor reflector.

Maitre d'Hotel Sauce.

Cream one-quarter cup of butter, add one-half teaspoonful of salt, a pinch of pepper, one tablespoonful of chopped parsley and one tablespoonful of lemon juice. Spread at once on the hot meat or fish.

Cleaning Silver.

A little ammonia added to the whiting and water with which you clean your silver will improve its appearance wonderfully and quite remove that dull look.

ADVERTISE — IN — THE DAILY NEWS

If You've LOST Anything.

Advertising COSTS MONEY

Too much money is spent on useless advertising by city merchants every month. Many columns might be written on the folly of using certain advertising mediums, but the moral in the end would be that there is only one really sure remunerative advertising medium.

The Daily Paper

Reaches customers past, present and prospective, in all parts of the city and district. These people read the advertisements, study the bargains offered, and realize the need of goods the merchant has for sale.

TELL the story of your store and goods to the public early in the morning, through the medium of Westminster's morning newspaper.

Notice to Contractors

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Construction," will be received at the office of the Commissioners of the Transcontinental Railway, Ottawa, until twelve o'clock of Thursday, the 20th day of August, 1908, for the work required to be done in the construction of the railway in accordance with the plans, profiles and specifications adopted by the Commissioners, of the sections of the Transcontinental Railway, viz:

District "C"—From a point designated on the plans of the Commissioners, Westmantachenie, in the Province of Quebec, 186.38 miles westerly to a point near Lake Nemiscau, distance of about 100 miles. Date of completion, 31st December, 1910.

(2) District "D"—From a point designated on the plans of the Commissioners, 107 miles 67 westerly in the Province of Quebec, easterly to the end of the Grand Trunk Railway Company's contract, a distance of about 114.97 miles. Date of completion, 31st December, 1910.

(3) Districts "D" and "E"—From a point designated on the plans of the Commissioners at the western end of Fauquier Branch contract, in the Province of Ontario, westerly about 100 miles. Date of completion, 31st December, 1910.

(4) District "E"—From a point designated on the plans of the Commissioners, sixty miles west of the easterly boundary of District "E" in the Province of Ontario, easterly to Fauquier Branch contract. Date of completion, 31st December, 1910.

(5) District "F"—From a point designated on the plans of the Commissioners, 107 miles 67 west of Weymontachenie in the Province of Quebec, westerly to the end of the Grand Trunk Railway Company's contract, a distance of about 114.97 miles. Date of completion, 31st December, 1910.

(6) Districts "D" and "E"—From a point designated on the plans of the Commissioners at the western end of Fauquier Branch contract, in the Province of Ontario, westerly about 100 miles. Date of completion, 31st December, 1910.

(7) District "F"—From a point designated on the plans of the Commissioners at or near Dog Lake, in the Province of Ontario, to a point at or near Dog Lake, a distance of about 126 miles. Date of completion, 31st September, 1910.

(8) District "F"—From a point designated on the plans of the Commissioners at or near Dog Lake, in the Province of Ontario, to a point at or about mile 26 west of what is known as Peninsula Crossing, by alternative routes as shown on the plans, a distance of about 232.8 miles by the northerly route, and 229.1 miles by the southerly route, and the selection of the route to be at the option of the Commissioners. Date of completion, 1st September, 1909.

Plans, profiles and specifications may be seen in the office of the Chief Engineer of the Commissioners at Ottawa, also in the offices of the following District Engineers, viz: John Aylen, Acting District Engineer, North Bay, Ont.; T. S. Armstrong, Nepigon, Ont., and S. R. Poslin, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made in duplicate and on the printed forms supplied by the Commissioners. A separate tender must be submitted for each section.

Tenderers shall not be in any way entitled to rely upon the classification or any other information given by any person on behalf of the Commissioners; and before submitting any tender, bidders should make a careful examination of the plans, profiles, drawings and specifications, and read the forms to be executed, and fully inform themselves as to the quantity and quality of the materials, and character of workmanship required; and it is understood to accept and agree to be bound by the terms and conditions in the form of contract, specifications, etc., annexed to the form of tender.

Each tender must be signed and sealed by all the parties to the tender, and witnessed and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, as follows:

For Sec. No. 1	District "C"	$150,000
For Sec. No. 2	District "C"	150,000
For Sec. No. 3	Dist. "D & E"	150,000
For Sec. No. 4	District "E"	150,000
For Sec. No. 5	Dist. "E & F"	200,000
For Sec. No. 6	District "F"	100,000

The person whose tender is accepted shall within ten days after the acceptance thereof furnish such additional approved security as may be required by the Commissioners; sign the contract, specifications, and other documents required to be signed by the said Commissioners; and, in any case of refusal or failure on the part of the party whose tender is accepted to complete and execute a contract with the said Commissioners, and to furnish the additional approved security within ten days after the acceptance of the tender, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure and all contract rights acquired by the acceptance of the tender shall be forfeited. The cheques deposited by parties whose tenders are accepted will be deposited to the credit of the Receiver General of Canada as part of the security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

Attention is called to the following clauses in the form of contract:

"All mechanics, laborers, or other persons who perform labor for the purposes of the construction of the works hereby contracted for, shall be paid such wages as are generally accepted as current for competent workmen in the district in which the work is being performed, and if there is no current rate in such district, then a fair and reasonable rate; and, in the event of a dispute arising as to what is the current or a fair and reasonable rate, it shall be determined by the Commissioners, whose decision shall be final."

"This agreement is subject to the regulations now in force, or which may at any time hereafter be in force during the construction of the works hereby contracted for, made under the authority of the Department of Labor, and which are, or shall be, applicable to such works." (The schedule of minimum wages determined upon by said Department will form part of the contract).

"The contractor shall in connection with the whole of the said work, as far as practicable, use only material, machinery, plant, supplies and rolling stock manufactured or produced in Canada, provided the same can be obtained as cheaply, and upon as good terms, in Canada as elsewhere, having regard to quality and price."

The contractor shall conform to the fire regulations adopted by the Commissioners, and also to the laws and regulations respecting fires in the different provinces wherein the work is being performed.

The right is reserved to reject any or all tenders.

By order,

P. E. RYAN,
Secretary.

The Commissioners of the Transcontinental Railway.
Ottawa, 18th July, 1908.

Newspapers inserting this advertisement without authority from the Commissioners, will not be paid for it.

Re Subdivision A of the northwest quarter of Section 2, Township 16, New Westminster District.

Whereas proof of the loss of certificate of title number 7460 F, issued in the name of Donald Fraser, has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, in a daily newspaper published in the City of New Westminster, issue a duplicate of the said certificate, unless in the meantime valid objection be made to me in writing.

C. S. KEITH,
District Registrar of Titles.

Land Registry Office, New Westminster, B. C., June 29, 1908.

Fernie Sufferers Helped by Westminster Residents

Funds for the relief of the victims of the Fernie fire are still coming into the hands of the treasurer of the collecting committee, Marshall Sinclair, who now has over $2190 in cash and kind. About $200 promised early in the past week is not yet paid. Contributions will be received until notice to the contrary is given.

The following is the complete list of contributions to date:

THE POLLARD TWINS.

Exceptionally Low Prices

FOR THE SECOND WEEK OF

Collister's Big Annual Summer Clearance Sale

THESE SUMMER GOODS, all odd lines, are being sold rapidly. Every article must be cleared out in its season. Our sale lasts during August. You can expect big bargains for every day. Read this list of prices for this week:

A Complete Clearance of Our Children's Dresses and Sailor Suits

Not a last season's dress in the whole lot, as we have added the children's department this year. There is not a badly made or imperfect garment in the stock. We handle only the best made garments possible for us to buy. Materials are perfect washing goods; all neatly trimmed in neat suitable style.

Note the Prices

ONE LOT CHILDREN'S SAILOR SUITS—Regular $2.25 to $3. Now $1.75. Materials are white drill, colored duck and drill, etc.; sizes 6 to 12 years.
