NEW ZEALANDERS COMING TO SETTLE IN CANADA

Visitor From Antipodes Declares Dominion is Well Advertised in England—Will Locate in Alberta.

A. E. Ratliff, of New Zealand, is a land seeker who intends to make his future home in Canada.

"Land is getting too high in New Zealand," he said yesterday. "I have been in the dairying business and now recently the land business, and I know the state of affairs. About 16 years ago I sold land for $5 an acre and today it is selling all the way from $125 to $150 per acre. That is a very great increase. If I make things go in this country, and I am sure I can, it will mean that others will come from the same district and settle here. I am now on my way to Alberta where I will look at the land and buy a suitable place. I intend starting in the dairy business on a small scale and grow as I progress.

"This Canada. It is the first time I have been here and the people have the free and easy life like those of New Zealand. You people are away ahead of us in raising cattle, but you cannot touch us in the sheep industry.

"I have been over to London and saw the Canadian exhibit at the exhibition there and it was simply beautiful. That is where one could see what better Canada can make us and better as New Zealand but cannot be. Wherever I went in England I saw Canada advertised while nothing was heard of the island from where I came. The progressiveness of Canada has turned many eyes towards her and I know that many people in New Zealand are about to come over to live."

RUSSIANS FIRE ON GERMAN SOLDIERS

Berlin, Nov. 23.—German military experts are puzzled upon by Russian soldiers while making experiments with a balloon. None was injured in the affair but it has stirred court circles and diplomatic agents will have to furnish an explanation. The balloon was about 100 meters above the frontier when it reached the frontier. The Russian guards informed the occupants that they could not cross the line. The men in the balloon seemingly misunderstood this order and proceeded on their course. The guards fired without further notice. The occupants brought the balloon to earth at Alt and communicated with the foreign office, which sent a protest to the Russian embassy.

Strong representations are being prepared and will be sent to St. Petersburg. Russia will be asked to disavow the action of her soldiers in firing upon German property.

FRASER RIVER COPPER CO. TO INSTAL ORE SMELTER

Kamloops, Nov. 21.—W. J. Smith came to Kamloops yesterday on business in connection with the Fraser River Copper Co. at Louis Creek, which mine is at present working.

The property which is known as the "Bonanza", belongs to a company of Russian capitalists, and is believed to be one of the richest in the province. The company has decided to instal a smelter.

AT ADVERTISE IN THE DAILY NEWS

JENKINS MUST HANG WITH FELLOW MURDERERS

Full Court Hands Down Decision Adverse to New Trial—Prisoner Has Not Known of Application.

The full court in Vancouver yesterday declined to give James Jenkins, the Hazelmere murderer, a new trial on the capital charge. Application was made last week by W. G. McQuarrie on behalf of Jenkins, and the arguments set out at length were opposed on behalf of the crown by Robert Cassidy, K.C. Jenkins was not informed of the application and probably will not now be told. He is taking very little interest in life during his confinement at the provincial jail, and will hang on Dec. 18.

GUESTS OF MRS. W. JOHNSTON CELEBRATE CHURCH JUBILEE

At the residence of Mrs. William Johnston, Agnes street, last evening, there was a gathering to celebrate the anniversary of the establishment of the Reformed Episcopal church in this city. The rooms were prettily decorated and a very pleasant evening was spent by the guests in music and conversation. The "piece de resistance" of the refreshment tables was a beautiful birthday cake, to commemorate the occasion, which was surrounded by twenty-five candles to mark the years of the life of the church. Silver naturally entered into the scheme of decorations of the spacious rooms.

CANADA SHOULD NOT ABROGATE TREATY

London, Nov. 23.—Editorially the Yorkshire Post, referring to the commercial treaty between France and Canada, says, regarding the suggestion made that Canada should abrogate the existing treaty of 1893, which was to have been superseded by the new one, that this would leave the Dominion free to impose retaliatory tariffs on France, that it is much to be hoped that such course will be entered upon. It would be unfortunate from every point of view and would give nothing but satisfaction to rivals of France in Canada and rivals of Canada in France.

Good Program for Concert.

A comprehensive program has been prepared for the Hicks concert to be given in the West End Methodist church this evening by the Sixth avenue (Vancouver) Methodist church choir, some of the principal pieces being: "When we are Together," (W. H. Manson and J. Stevens). "In the Chimney Corner" (George Kerfoot), "Come Where the Lilies Bloom" (Mesdames Green and Kerfoot and Messrs. Kerfoot and Hicks), "Crossing the Bar" (chorus), "Rockaby Baby" (Mrs. Kerfoot, G. and S. Smith and W. Hicks), "When the Heart Is Young" (Miss C. E. Hardy), "Stars Above" (W. H. Manson), "In the Spring Time" (Mesdames Green and Kerfoot), and "Sleep While the Soft Evening Breezes" (choir). In addition to these, a number of recitations and instrumental selections are to be given.

REFERENDUM MUST PASS TO ENSURE LULU ISLAND BRIDGE

City Council Practically Decides to Accept Two Tenders For Bridge and Return Other Deposits—Electric Light Charges Will Be Lowered—Macadamizing Front Street.

The principal business at the city council last evening was to discuss the acceptance of the tenders of the contractors for the Lulu Island bridge, and after a long discussion tenders were provisionally accepted, with the understanding that a referendum would be put to the ratepayers at the forthcoming municipal election on the matter.

New Lulu Island Bridge.

A long discussion took place in committee on the tenders for the sub-structure and super-structure of the new Lulu Island bridge, most of the old ground being travelled over. There were three tenders for the sub-structure metal, each in the former case the tenderers were the International Contract Co., Seattle ($59,642); Armstrong, Morrison & Co., Vancouver, and the Burrell Bridge and Construction Co., Seattle. The first was five thousand dollars less than either of the others. For the metal, 562,500 pounds of steel, for the super-structure, there were five tenderers, the U. S. Steel Products Export Co., Canada Foundry Co., Canadian Bridge Co., Minneapolis Steel and Machinery Co., and the Midland Bridge Co., Kansas City. The first was the lowest tender, but only about $120 less than that of the Canada Foundry Co. ($26,841.25).

Referendum.

Ald. Fader moved the acceptance of the tenders of the International Contract Co. for the sub-structure, and the Canada Foundry Co. for the super-structure, as it was the lowest Canadian tender, there being only a small difference from the American company.

Before the motion was put Ald. Johnston asked for further information, urging that it was no use going ahead with no money in hand.

Mayor Keary said the $15,000 promised by the provincial government would be forthcoming. Thomas Gifford, M. L. A., informed him, as soon as the work was begun. Only the draw-bridge would accommodate a car line, if the railways wanted to build across they must put up the work themselves.

Ald. Gray said there ought to be some understanding with the contractors that they purchase their supplies from Westminster merchants. The lumber certainly should be bought locally, and local labor should be given preference.

Ald. Johnston said that he would like the ratepayers to have some say as to whether they should go on with the steel bridge or not.

The aldermen all agreed that if the steel bridge was not built, a wooden bridge must be erected at the cost of about $50,000.

These two figures, with $3000 added for engineering expenses make the cost of the new bridge about $600,000, and there is also the cost of the removal of the present bridge.

The mayor suggested that a referendum of the question should be taken [illegible] Continued.

Total $476.25

Fire.

John Reid ..... $ 18.00

ONTARIO BARS ALL NEW YORK ANIMALS

Niagara Falls, Ont., Nov. 23.—Extraordinary precautions are being taken here to prevent the spread into Canada of the foot and mouth disease now prevalent in the states of New York and Pennsylvania, and a strict embargo is being placed on all shipments of animals, fodder, manure and fresh hides. The situation is so serious that not even dogs, cats or birds are allowed to pass the frontier.

THREE KILLED IN C. P. R. COLLISION

Pontypool, Ont., Nov. 23.—Three men were killed in a collision on the C. P. R. near here this morning, owing to an open switch. A double header freight crashed into a standing freight. Engineer Findlay, of Toronto Junction, Fireman Sweet, and Brakeman O'Conner were killed. The front engine of the double header was smashed into scrap iron.

cil wrote with reference to the proposed contract with Henderson's directory publishers for street numbering. The Typographical union and the trades council will be informed that the council did not intend to place the publication of a directory with Henderson Bros. The Columbian company's letter was couched in different language, and dealt with street numbering. This was referred to the special committee having charge of the matter.

Opium Prosecution.

Arising out of the recent opium prosecution, Whiteside & Edmonds wrote with reference to Hip Shing Lung to ask the return of a fine of $50 and costs inflicted on one of their employees named Wong Sing Jim for selling opium without a license and also request the return to them of $82.35 being proportion from Nov. 15 to Jan. 15 of license fee of $250 for the privilege of selling opium. Referred to the finance committee to act.

Municipal Debentures By-law.

A by-law was advanced several stages to regulate the issue of debentures authorized by the following by-laws: Waterworks, street improvement, market, fire, and public schools, all passed July 27, 1908. This was to appoint places for payment of the debentures. The places fixed were at the Bank of Montreal in Westminster, Toronto, Montreal, New York or London, England, at the holder's option.

In Treasurer's Office.

At the last meeting the finance committee was authorized to appoint a new official at the treasurer's office, and B. S. Brown was elected at a salary of $65. The salary of C. J. Robson, now appointed assistant treasurer, was raised to $90 a month.

Municipal Election.

Polling places were fixed at the municipal election at the city hall, fire hall, Sapperton and the waterworks store house, corner of Auckland and Eleventh streets, and the deputy returning officers were chosen as follows: Capt. Peele, H. J. H. Burnett, Hugh Barr and C. W. Gillanders.

Street Improvements.

Petitions were received as follows: Sidewalk on Tenth street between Third and Fourth avenue.

Macadamizing Front street from Cheese cannery to junction with Columbia street, to enable the heavy draying to be done instead of using the asylum hill.

Mrs. S. A. Moulton asked for a sidewalk from Seventh avenue to Thirteenth street.

Mrs. Marshall drew attention to water on lots on Seventh avenue.

William H. Barkley asked for road to be opened up to his lots, Nos. 17 and 18, S. 24, block 2.

Sidewalk on Sixth avenue between Second and Third street.

Sidewalk on McInnes street.

FASHIONABLE MENDICANT TAKEN FROM SUITE TO JAIL

Charity Organization Complains of Swell Beggar Who Lived Like a Prince on Borrowed Money.

New York, Nov. 23.—After living for years on the best the world affords, William Abbot Foster, reputed owner of mines in California, Nevada, Colorado and Alaska, is in jail today charged with vagrancy. The complaint is sworn to by Henry J. Forbes, head of the Mendicancy board of the Charities Organization society, who says that John D. Rockefeller first complained to the society.

Foster was arrested last night in his magnificent suite of rooms at the Claridon hotel, where his unpaid bill amounts to $2500. The suite was occupied by the Prince of Wales on his last visit to America and is the choicest in the hostelry.

According to accounts kept by Foster, the amounts he borrowed in the last ten years from rich men reach $867,500. He says he received about $600,000 and the balance represents interest and bonuses. He kept copies of letters sent to his creditors and one shows a request on John D. Rockefeller for a loan of $5,000,000.

Foster's wife, who is heart-broken at disclosures made, says he has not worked for ten years.

NEW YORK HARBOR BLOCKED BY FOG

New York, Nov. 23.—Incoming ocean liners were held up and dozens of ferry boats delayed, inconveniencing thousands of commuters, by a dense fog that enveloped the bay today.

The Pennsylvania railroad, ferryboat running from Brooklyn to Jersey City ran into a pier while rounding the Battery, tearing away about fifteen feet off the side of her cabin. There were thirty passengers on board, none of whom were hurt. Several ferry lines were compelled to stop running until the fog lifted.

SUPREME COURT TO PASS ON FINE OF $29,240,000

Washington, Nov. 23.—Attorney-General Charles J. Bonaparte filed today a petition for a writ of certiorari to the circuit to review the judgment of that court reversing the rulings of Judge K. M. Landis in the case in which the Standard Oil company was fined $29,240,000 on charges of violating the anti-trust law. The attorney-general takes the position that the court appeals was without jurisdiction when it reversed Judge Landis' decision.

Meeting of Women Voters.

At a meeting of the W. C. T. U. yesterday arrangements were made for the meeting of women voters at the residence of Mrs. J. R. Gilley on Thursday afternoon in view of the approaching municipal election. It transpired that a large number of women voters of the city are members of the union. Arrangements were also made for the visit of the provincial superintendent of W. C. T. U. work next month, probably at the holiday season, though no definite date was fixed.

FERNIE IS RAPIDLY RECOVERING FROM FIRE

Everything Is Hurry and Bustle in Streets of City—Business Men Propose Building Hotel.

W. Gibson, a recent visitor to Fernie, states that that city is in a horrible condition of wet and confusion, although everything is going along splendidly, and there are more people now in Fernie than there was before the fire. The streets are full of a confused jumble of bricks and lumber, and stone, and cement. There are no electric lights, the night illuminations being supplied by kerosene. Moving picture shows are doing land-office businesses in tents, and everything is hurry and hustle, work going along the same on Sundays as on week days.

During the fire all of the electric light poles and the wires were destroyed, but the sewerage system and the water system escaped, and are as good now as at any time before.

Next spring a number of the business men of the city will proceed with a project which they have had in mind for some time, that is the erection of a grand hotel, five storeys high, and modern in every particular.

EDUCATOR SAYS HE CAN SOLVE SECRET OF SEX

W. E. Castle Breeds Two Unknown Varieties of Guinea Pigs According to Mathematical Rules.

Boston, Nov. 23.—Fighting to vindicate his recent assertions that he has discovered a mathematical rule governing reproduction and sex determination of the higher animals Professor William E. Castle, of Harvard university, has bred two absolutely unheard of varieties of guinea pigs.

The breeding of the two animals is looked upon as especially wonderful guinea pigs are of exactly the same character as Prof. Castle predicted they would be. His demonstration that fixed rules can be applied to the reproduction of animals of a certain character and that the color and length of hair and sex can be mathematically and precisely determined, has thrown new light upon the possibilities of animal breeding.

Professor Castle's experiments are looked upon as the farthest step yet taken in definitely solving the secret of sex.

TELEPHONE INDICATES APPROACH OF FISH

London, Nov. 23.—The movement of water made by fish in swimming is sufficient to actuate a telephone, and so communicate their approach to fishermen.

A Norwegian inventor has devised a microphone, enclosed in a water tight box, which may be immersed in the sea, and is connected by wires with the fishing boat. According to L'Electricien, the approach of a shoal of fish can be detected with certainty, and each kind of fish makes a distinctive sound in its motion through the water.

Experienced fishermen can, in the ordinary way, detect the presence of herring and mackerel long before they reach the fishing vessels, but where the more subtle movements of the flat fish are concerned it is possible that the microphone may prove a useful indicator of their whereabouts.

WINNERS OF NOBEL PRIZES UNOFFICIALLY NAMED

Stockholm, Nov. 23.—It is announced, but not officially, that the Nobel prizes are likely to be awarded as follows: For chemistry, Professor Ernest Rutherford, director of the physical laboratories of the University of Manchester, Manchester, England; literature, Algernon Charles Swinburne; physics, Professor Max [illegible]ck, professor of mathematics and [illegible]ics in the University of Berlin; [illegible], divided between Paul Ehr[illegible]erlin, and Professor Elie [illegible] of the Pasteur institute.

[illegible] unofficially stated a few [illegible] William Marconi was to [illegible] next Nobel prize in

TRADE CONDITIONS IMPROVE IN CANADA

Money is Now Much Easier Than During the Previous Months---Election Helped.

Ottawa, Nov. 23.—Trade and financial conditions in the Dominion are today better than at any previous time since 1902, according to the statement of Rudolph Forget, M.P., president of the Montreal Stock Exchange. There is a broadening tendency visible all around, and the indications are that there will be a good market for some months to come. All the banks are loaning money at 4½ per cent., and, in fact, money has never been so easy while the country's crop is on the move.

That confidence is now pretty well restored, Forget has no doubt, and with the effects of Judge Taft's election in the United States he is of the opinion that money conditions in Canada will improve more rapidly than at any time since the panic, which upset things generally on this side of the line. The industrial situation has greatly improved in almost all lines in Canada. In some cases the increase has been from 25 per cent. upwards over the previous month.

WOULD FORCE TRAMPS TO LABOR ON FARMS

New York, Nov. 23.—That most of the unfortunates who stand shivering in New York's bread-line waiting for dry bread and a cup of coffee, are liars and professional hobos who would not work if employment was offered them, is the opinion of T. V. Powderly, a government labor agent, who has made a study of condition here at close range.

Mr. Powderly has suggested the state purchase farms where professional receivers of chari be forced to work. If they do service there, his pla them in the hands of state department for correction.

THE STAGE

"Little Johnny Jones."

Ther is a fascinating something about everything that young Mr. Cohan writes that seems to please all classes. His "Running for Office" first brought him into prominence, "The Governor's Son" added more to his popularity, and then "Little Johnny Jones" placed him on the pinnacle of success as a native playwright. Mr. Cohan manages to inject a plot into everything he writes, and there is a rhyme and reason for things, and around the whole he weaves a delightful web of melody that is irresistibly fascinating.

"Little Johnny Jones" comes here on Thursday, December 3.

"The Lion and the Mouse."

With enriched vigor "The Lion and the Mouse" will be seen at the opera house on Wednesday, Dec. 2. Henry B. Harris is said to have left no detail unfinished in his supreme effort to present Charles Klein's greatest drama with exacting fidelity. Mr. Harris has taken advantage of the opportunity to choose the best players from two companies for their respective roles in the company to be seen here, a fact which should insure thorough interpretati Reports from the tra pany to be the best Lion and the Mouse complimentary re the present organi

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead.

competition in the building of magnificent yachts. Cornelius Vanderbilt has asked Clyde ship builders to estimate for a magnificent yacht of 1600 tons to be ready next season.

ADVERTISE — IN — THE DAILY NEWS

LUMBER MEN FEAR REMOVAL OF TARIFF

Portland Timber Man Much Alarmed at Prospect --- Sees Desolation as Result.

Portland, Nov. 23.—Just how much northwest timbermen fear competition from British Columbia in case the tariff on lumber is removed, is shown by an interview today with W. G. Howell, a big timber owner of Portland, who said:

"If the duty on lumber is taken off in response to the demands of some eastern theorists, the timber industry of the northwest will be paralyzed and every mill and logging camp will be shut down. The $2 a thousand duty represents the profits on its manufacture, and it can be easily seen that men are not going to manufacture lumber without some profit. Should the $2 be taken off Canadian lumber will swamp the markets of the east, and as there will be none shipped from the United States to foreign countries the woods of Oregon and Washington will be given over to solitude as they were before the advent of the whites into Oregon.

"That there is danger of lumber being placed on the free list is evident, therefore it behoves every manufacturer of lumber, and every owner of a logging camp in the northwest to be on the alert to avert the calamity."

REFERENDUM MUST PASS TO ENSURE LULU ISLAND BRIDGE

(Continued from Page One.)

to see if the fire rates could be reduced in the city now that there was better fire protection in additional halls and reservoir. The mayor and Ald. Jardine, who introduced the motion, both supported the idea.

George Arbuthnot drew attention to the condition of about 300 feet of the dyke road towards the North Arm side at the end of the gravel road on Lulu Island, the only avenue available for him and others. This was referred to the board of works to report.

John B. Rushton asked to be appointed assistant clerk in the treasurer's office vacanted by the promotion of H. P. Latham to be treasurer. Received and filed.

An anonymous contribution signed "Farmer" was received calling attention to the need of stabling accommodation at the city markets. The letter was received and filed, with power to act conferred on the chairman of the market committee.

The request of the Westminster Foot ball club for the use of the machinery hall at the exhibition ground was granted under the supervision of the chairman of the parks committee, Ald. Garrett.

G. W. Hubbard drew attention to the danger of engines on the G. N. R. track near the Brunette saw mills, to persons travelling on the level crossings, and the clerk was instructed to write to the proper authorities on the matter.

The following accounts were passed for payment:

Finance.

F. J. Hart & Co.	$115.90
R. H. Gordon	68.90
Total	$184.80

ONTARIO BARS ALL NEW YORK ANIMALS

Niagara Falls, Ont., Nov. 23.—Extraordinary precautions are being taken here to prevent the spread into Canada of the foot and mouth disease now prevalent in the states of New York and Pennsylvania, and a strict embargo is being placed on all shipments of animals, fodder, manure and fresh hides. The situation is so serious that not even dogs, cats or birds are allowed to pass the frontier.

THREE KILLED IN C. P. R. COLLISION

Pontypool, Ont., Nov. 23.—Three men were killed in a collision on the C. P. R. near here this morning, owing to an open switch. A double header freight crashed into a standing freight. Engineer Findlay, of Toronto Junction, Fireman Sweet, and Brakeman O'Conner were killed. The front engine of the double header was smashed into scrap iron.

PROSPECTUS

Pitt Lake Brick and Cement Company, Ltd

NEW WESTMINSTER, B. C.

Having been authorized by the Company to sell stock of the above Company I hereby submit to the public the following particulars: **Capital, $100,000. One thousand shares at $100.00 each at par.**

Subscription list is opened today for $30,000 only, there being applications already made for $40,000, and the list will remain open for ten days, when it will be closed. Should the amount be over-subscribed by the public, there will be issued to the subscriber his proportion of shares applied for.

The following gentlemen have interested themselves previously to the registration of the company:

E. J. Fader	$20,500.00	Thomas Freeman	300.00
H. P. Naylor	10,000.00	T. S. Annandale	500.00
Dr. R. E. McKechnie, Vancouver	1,000.00	Percy Shadforth	500.00
E. P. Bishop	1,000.00	John A. Montgomery	300.00
Dr. J. W. Thompson, Vancouver	500.00	Charles E. Doherty	500.00
W. H. Keary	500.00	Mrs. F. P. Bishop	100.00
T. S. Hall, M. D.	500.00	Miss Eagle	100.00
W. G. Schroeder	100.00	Edwin R. Fitzgerald	500.00
J. E. Allan	500.00	White & Shiles	500.00
Joseph Reichenbach	500.00		

NO APPLICATION WILL BE RECEIVED AFTER TEN DAYS FROM THE ABOVE DATE.

The offices of the Company shall be at the Northern Crown Bank, 248 Columbia Street, New Westminster, B. C.

Present Directors of the Company are:

E. J. FADER, Lumberman, President and Managing Director.
J. REICHENBACH, Wholesale Meat Merchant, Vice-President.
J. E. ALLAN, Bank Manager, Secretary-Treasurer.
H. P. NAYLOR, Vice-President Berg Machinery Manufacturing Co.
W. J. WHITESIDE, Solicitor.

BANKERS—NORTHERN CROWN BANK.

The Solicitors of the Company are Whiteside & Edmonds, New Westminster, B. C.

Any person subscribing $500.00 or over may become a Director of the Company upon application, subject to the approval of the Board.

It is proposed to issue the stock on the instalment plan, 20 per cent. upon application, and 20 per cent. monthly until fully paid.

The property the Company proposes to take over is known as Timber Berth No. 400, and situated on Pitt Lake, covering an area of 214 acres tributary to New Westminster and also two mineral claims situated in the middle of said property, covering an area of about 3000 feet by 1500 feet wide, and known as the Silicon Mineral Claim No. 1, and Silicon Mineral Claim No. 2, which when Crown granted entitles the Company to all the mineral rights therein under the Laws of the Provincial Government of British Columbia. The timber berth covers all the rights to all the timber thereon the said area mentioned which has abundance of timber to supply the plant with fuel and timber for many years to come.

The property is situated adjacent to the shore of Pitt Lake which is a distance of about twenty-eight miles from the City of New Westminster, and affords navigation all the year round for steam boats and river boats and barges and has an ideal harbor where the said plant will be erected to operate on the ground. On this property there is a large deposit of clay of a cement nature which is very accessible, the bench of clay being over fifty feet high above the level of the water, which affords easy access to excavation. The clay bank mentioned is between 2000 and 3000 feet long by from 300 to 500 feet wide and affords a natural incline for transportation from the bank to the plant which will be a distance of about only 400 feet from the lake shore. The clay has been thoroughly tested by the Berg Machinery Manufacturing Company, of Toronto, which was reported on in report hereto as follows by H. P. Naylor.

The Pitt Lake Brick & Cement Company, Limited, New Westminster, B. C.

Gentlemen,—I hereby beg leave to report to you that I have on the 4th day of October, 1908, examined the property above mentioned in your prospectus on Pitt Lake and have found the material on the property to be the same as that sent to us for testing by Mr. E. J. Fader, of New Westminster, which has given the following results, that is to say: Some few months ago samples were sent to our Toronto plant by Mr. E. J. Fader for testing. We found on analysis that this clay contained properties of a very unusual nature containing almost every mineral necessary for the making of Portland Cement. We found by drying in a rotary kiln and pulverizing and pressing that we could make brick from it without burning that was superior in our opinion to any brick manufactured in Canada, being perfect in appearance, extremely rigid and of great fire resistance, and also non-porous, such as we have furnished the Pitt Lake Brick and Cement Company and stamped "Berg," which speaks for itself. My Company, namely the Berg Machinery Manufacturing Company, Limited, has guaranteed to the Pitt Lake Brick & Cement Company the manufacture of those brick at a cost on the ground not to exceed $4.00 per thousand as per exhibit. The brick was tested in the School of Practical Science of Toronto and the crushing test was 3,740 lbs. to the square inch. (Signed) H. P. NAYLOR,
Vice-President Berg Machinery Manufacturing Company.

The following is the report of J. O'Sullivan as to the fire test: Vancouver, B. C., June 29th, 1908.

E. J. Fader, Esq., New Westminster, B. C.

Dear Sir,—I beg to report that the present silica brick submitted by you for fire test was subjected to a white heat in my wind furnace i.e., to a temperature ranging between 1300 and 1400 degree centigrade or 2372 to 2552 degree Fahrenheit for 1¾ hours without disintegration. The only effect of this great heat was to cause a slight crack in the brick due mainly to the escape of steam from the water of combination of the plastic material of the brick. In my opinion a building constructed of this brick would withstand the destructive action of fire, and can therefore be used with perfect safety. Yours faithfully, J. O'SULLIVAN, F. C. S.

It can readily be seen from the above report that the brick intended to be manufactured by the Pitt Lake Brick & Cement Company, Ltd., can be placed on the market at such a price that no other pressed brick manufactured in Canada can compete with it.

It is the intention of the Company to proceed with the erection of the plant at the earliest opportunity and place the brick upon the market of British Columbia and other places where a market can be had. Mr. E. J. Fader has agreed to sell to the Company the whole of his interest in the said property as above mentioned for the sum of $30,000, payable as follows: $2000 in cash, and $28,000 in stock in the Company. Apart from this Mr. E. J. Fader subscribes to the Company for $20,000 treasury stock, which he agrees to pay within two years.

This proposition, without exception, is believed by most expert men to be one of the best brick propositions that has been placed upon the local market, considering the fact that the brick in question is a waterproof brick, which as far as we know, cannot be found in the whole Dominion of Canada, and has all the qualities of a first class brick. As you will note from the above report by Mr. H. P. Naylor, it has a crushing test test of 3740 pounds to the square inch, which it is doubtful if any other brick made can equal. Apart from this, it is a handsome brick and will make a very pretty finished building.

The subscriber can easily judge from the cost of the manufacture guaranteed by the Berg Machinery Manufacturing Company, namely $4.00 per M what an enormous profit there must be made from the proposition, considering the fact that our local pressed brick and Seattle pressed brick is placed upon the market above $30.00 a thousand, places us in a position as you will readily see to cut those prices in two, if necessary, and then make 300 per cent. on our output, and I see no reason why the people of New Westminster should permit the outside public to take up this stock when they have at their door a proposition which cannot be surpassed by any which have been formed in British Columbia. I have already formed several companies here that the public of New Westminster know, and have made for foreign capitalists enormous sums of money which really should have remained at home. This is the first time that I have formed a company in New Westminster and asked the present public to subscribe, and I want you to plainly understand that I am not doing so with the object of coaxing you into the proposition. I am merely offering it to you as a good, solid, bona fide investment, and I am giving you the first opportunity to subscribe and at the same time knowing that the stock will be readily subscribed within thirty days in the East. I therefore consider those who have the money to invest should not lose the opportunity as there is not the slightest doubt that this Company will pay enormous dividends. Work commenced on the ground last week, and a gang of men is now clearing a site for the plant and opening large cuts into the clay, so that visitors may have an opportunity of visiting the property and seeing for themselves at any time.

The Company anticipates having the plant running within six months from the above date, and you therefore should not miss the opportunity of getting in your application at an early date.

Samples of the brick and clay may be seen at my office at the Northern Crown Bank, New Westminster, and any further information that any subscriber wishes to know, I shall be pleased to give them such particulars at my office.

Ladies or gentlemen are invited to subscribe. (Signed.) E. J. FADER, Promoter.

PITT LAKE BRICK AND CEMENT COMPANY, LIMITED.

To the Directors of the Pitt Lake Brick & Cement Company, Limited, New Westminster, B. C.

Gentlemen,—I hereby make application for ..... shares in the above named Company of One Hundred ($100.00) Dollars each, and request you to allot me that number of shares; and I hereby agree to accept the same or any similar number that may be allotted to me, and pay for the same as follows:

Twenty per cent. on the signing of this application; and 20 per cent. monthly until paid. And I authorize you to register me as the holder of the said shares.

FOOD OR WORK.

England has a serious problem to solve just now, that of the unemployed, and the Government is persuading municipal authorities to undertake useful works within their bounds and are willing to guarantee to the extent of £300,000 any loss accruing on account of unskilled labor being employed upon such works.

While such guarantee may appear to relieve the government of any responsibility for the suffering being experienced by the unemployed and their families, it does not put the much needed bread into the hands of the famishing thousands, neither does it provide a remedy for the poverty which, like a disease, seems to have taken a thorough hold on the British masses.

It appears to us very much like the shifting of responsibility from the shoulders of the government to those of others less able to cope with the extra expenditure needed on these works, which the municipalities could well do without in the time of depression. Social reform has not had the impetus given it that was expected when John Burns became President of the Local Government Board. Neither does the Labor Party from which he sprung offer anything in the shape of sound counsel to its representative in the Cabinet, but rather chides him on the fact that nothing has been acomplished to bring about a better state of things. Failing anything else the Economists fall back on the habits of the working class and the consumption of intoxicants as being the reason, but they are unable to offer a solution, for the extremist's demand for curtailment of his privileges at once finds its rebuff in the vote of the working man who will brook no interference with his religion or his beer, and the bye-elections show the Government candidates supporting restriction to fall like nine pins before the indignation of the electorate.

The drink question is only an excuse to get away from the real issue, which to our mind is the extremes, the very rich and the very poor. It is the remnant of the old feudal system, the dependence of the worker upon the will or business ability of the aristocrat, which has brought about the condition that the worker has no reliance in himself to enter a new field, or even apply his ideas to the improvement of the old ways of work.

Then again it appears to us that the Government has not made it its business to find new avenues of trade, that it is simply resting on the goodes of the past generations, when it practically controlled the trade of the world. It does not seem alive to the new conditions under which it must struggle to keep pace with the young and progressive nations. The struggle for the next half century will not be by force of arms but by the finesse in the handling of the trade channels and nations will rise or fall in proportion to their power to grasp the markets of the world, and it seems to us that now is the time to call in to counsel men of the outside of the Empire, so that in the struggle of trade Great Britain, and the Greater Britain beyond the seas, may secure their legitimate share in the world's volume of trade.

It is charitable to provide for the immediate wants of the needy but it is statesmanlike to so direct the nation's business that every one may find remunerative employment sufficient to put them above want and thus remove the pauper system from this greatest nation now known on earth.

Correspondence

PUBLICITY REQUIRED.

Editor Daily News,

Sir,—I am writing to ask if the city council is taking steps to have the New Westminster district represented at the forthcoming exhibition at Seattle. I see that the North Vancouver council has just decided to secure a prominent position in the British Columbia section.

This seems to me to be the opportunity of a lifetime to acquaint the hundreds of thousands of visitors to the exhibition with the possibilities there are of profitable settlement and investment in the Fraser Valley. These latter are more suitable and certainly much cheaper than anything else on the British Columbia coast and everyone should know it.

I trust that the publicity association will also be represented and arrange for the distribution of suitable literature; but above all, the city council should secure a location second to none and show the public what can be turned out in fruit, lumber and fish.

Now is the time for New Westminster to push herself to the front and acquaint the world with her possibilities.

"BUSINESS MAN."

Vancouver, Nov. 23, 1908.

Funeral of James Hutchinson.

The funeral of the late James Hutchinson took place yesterday under the charge of the Fraternal Order of Eagles, of which deceased was a member. The interment took place at the Church of England cemetery, Rev A. Shildrick officiating. There were about fifty-seven members in the procession, which was headed by the city band of fifteen members, playing funeral strains, including Chopin's funeral march. The pallbearers were R. Johnston, A. Barnes and J. Robertson, of the Eagles; and F. Howard, J. Woods and G. Price of the Bartenders' union. The service of the order was read by President H. J. Clark, and B. Robb, chaplain.

There were a large number of flowers, which included the following: Mr. and Mrs. Pearce, heart; Gilchrist and Murchie, cross; B. White, spray; M. Humble, spray; V. Bray, spray; Mr. and Mrs. Howard, cross; G. Brown, spray; Mr. and Mrs. Nelson, spray; J. A. Rosengren, wreath; Mainland club, pillow; G. Price, spray; Eagles order, Peters and Hogan, Bartenders' union, Miss Farr, Wilberg and Falch, Mrs. Cota, wreaths.

D. Murchie carried out the arrangements.

Cut flowers and bulbs of all kinds. Tidy. **

The steamer Favourite, which has been chartered for the purpose of taking a number of prospective investors to view the property held by the Pitt Lake Brick & Cement company at Pitt lake, will leave the market wharf at ten o'clock this morning, returning towards evening. A large number of influential citizens have announced their intention of taking part in the excursion and investigating the proposition.

For sale—Seven roomed house, bath room, pantries, closets, woodshed; horse stall, carriage house; fruit trees; on full lot. For further particulars apply to owner, 192 Eighth street. **

For the first time in many years the annual Sons of England banquet will be held in this city, the date having been set for Dec. 14, when the members of the lodges of Westminster, Vancouver, North Vancouver and Mount Pleasant will meet in the Russell hotel. As each lodge has a large membership, a monster gathering is assured. For a number of years past the annual gathering had been held at the Badminton hotel, Vancouver.

Arthur Anderberg has taken over the Colonial billiard and pool room and will conduct a handicap pool tournament commencing next Monday. Valuable prizes given. **

The goats at the enclosure of Queens park have been taking a little running exercise with a human being of the feminine gender, with the handicap of a child, as a pacemaker. This tale of woe reached the ears of the city council last evening and Ald. Garrett, who has a tender love for the animals in his care, thought it could not be charged up to the civic wards, but to some stray animal which had not been trained in the gentle ways of municipal affection.

Royal City Cleaning and Dyeing Works, pressing and repairing. Phone 278. **

A conference was held yesterday at the city hall between Mayor Keary, Ald. Gray and Ald. Henley, Superintendent of Works Furness, and Electrician Bowler, on behalf of the city, and George E. Halse, secretary-treasurer, and George McCartney, on behalf of the B. C. Telephone company. A number of outstanding matters between the bodies was dealt with, and in response to applications to the council poles which are obstructions to private parties will be removed.

The Hicks concert given in West End Methodist church this evening will be of a high order. Admission 25 cents. **

Arrangements are being made for the holding on an anniversary party by the Children's Ward Fund society on Monday, Jan. 4, at the residence of one of the members, this suggestion having been made at a meeting held at the residence of Mrs. C. A. Welsh, Sixth street, on Saturday. The drawing of tickets for the painting donated by Mrs. L. Thornber resulted in No. 17 securing the prize. The winner is requested to claim the prize at an early date.

While crossing the Vedder river, near Chilliwack on Saturday afternoon, a young man employed by the Sumas Lake Developing company as civil engineer, C. A. Dertsler, was drowned, being thrown into the water by the breaking of a raft. The body is still in the river, but as a reward of $50 for its recovery has been offered, and a large number of Indians are on the lookout, it is expected that it will be found within a short time. A companion who was crossing with Dertsler at the time the latter was drowned escaped by holding on to a log for some hours until picked up.

ADVERTISE IN THE NEWS

PLOT AGAINST WHITES AIMS AT MASS KILLING

Carnival of Crime Planned by Indians--British Residents Fear Assassination.

San Francisco, Nov. 23.—That the Hindus and Mohammedans in India have laid aside their prejudices and united in a gigantic conspiracy to wipe out British rule in that country in one bloody stroke, is the sensational story which is told today by Miss Helen Wilcox, a medical missionary, who returned from the Orient on the steamer Mongolia yesterday.

Miss Wilcox says that the manufacture of bombs by the revolutionists is a well known fact, the women being as active in making these infernal machines as are the men. Wholesale arrests have been made by the British authorities, but the purpose of the natives is not broken. Miss Wilcox says that for a while every British resident in India feared assassination, dynamite outrages being of almost daily occurrence. But she says the native are now thinking of wider ranges of activity, and have decided that it will be easier to wipe out the British race in India at one sweep, instead of wasting time on petty outrages

CRISIS IN CHINESE EMPIRE CLOSELY WATCHED BY JAPAN

Mongolian Army Placed Under Different Commanders to Mitigate Possibility of Revolution.

London, Nov. 23.—Japan is watching closely the development of affairs in China and is preparing for whatever emergency the crisis may bring, according to advices today by the British foreign office.

Despite Japanese denials of interference in Chinese affairs, there is every indication that the Mikado is keenly alive to the possibilities of the Oriental situation and will not be found unprepared in any event.

Chinese messages, reaching London by way of Japan, say that Prince Chun is splitting up the Chinese army and appointed division commanders with separate authority, as he fears to trust to the consolidation of power under any one general.

This is taken to mean that serious disaffection exists in the ranks of the army and gives color to the report that a revolution is threatened.

Humor in the Far East.

Abdur Rahman, the late ameer of Afghanistan, had a grim sense of humor which was sometimes exercised without scruple. On one occasion a durbar he was holding was interrupted by a man who, in a state of the greatest excitement, rushed in declaring that the Russians were advancing to invade Afghanistan. Turning aside for a moment from the business in progress, the late ameer in the most unconcerned tones ordered his shahgassi to conduct the man to the summit of a certain watch tower. "Look you out well for the Russians," commanded Abdur Rahman, "for you do not eat until you see them arrive."—Grand Magazine

Cooks Ruin Their Taste.

"I never season things up to my own taste," said a man who has cooked in a restaurant for many years. "Very few cooks do. They have palates that crave high seasoning. The longer they cook the more salt and pepper and spices they require. If I should send up my dishes as I like them, they would be so hot and peppery that half the patrons in the restaurant would be unable to eat them."—New York Press

Dairy Routine.

Never mix milk of different temperatures.

Too much churning will injure the grain of the butter.

Twice as much water is needed by cows which give milk as those not giving milk.

Cleanliness, proper feeding and careful attention are the chief requisites of the dairy business.

This is the time of year to weed out the unprofitable cows and give your best stock the care they deserve.

It will pay to keep a record of every cow you own, the amount of milk she gives, the date of her birth, calves, etc.

Absorbing Powers of Milk.

In an experiment made to determine the absorptive powers of milk there was inclosed in jars a portion of milk, and in different jars, but not in connection, different substances, giving off flavors. At the end of eight hours a portion of the milk was drawn from near the bottom on each jar by means of a pipette, so as not to disturb any part of the milk. In every one of fifteen trials the milk had absorbed the flavor to such an extent that it had penetrated the very lowest stratum.

TENDERS

Sealed tenders addressed to the undersigned, and endorsed "Tenders for Public Building, Vernon, B. C.," will be received at this office until 4.30 p.m. on Friday, November 20, 1908, for the construction of a public building at Vernon.

Plans and specifications can be seen and forms of tender obtained at this Department, and on application to the Postmaster at Vernon.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 per cent.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

NAP. TESSIER,
Secretary.

Department of Public Works, Ottawa, Oct. 20, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Synopsis of Canadian Homestead Regulations.

Any available Dominions lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected there with under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

Mail Service

Following are the hours of despatch and arrival of mails at the New Westminster post office, the hour given in each case being the hour of closing, which is half an hour, as a rule, before the actual despatch. All mails, unless otherwise stated, are despatched and received daily except Sunday. The only mails despatched and received Sunday are the C. P. R. south and C. P. R. east mails, not including the way mails, Sapperton, Fraser Mills and Coquitlam.

Mails Despatched.

6:00 a. m. (closed at eleven o'clock the previous night)—Vancouver via G. N. R. "Owl."

7:30 a.m.—Vancouver and (except Tuesday) Victoria, via B. C. Electric railway.

Sumas and Seattle, including all U. S. points east and south, and points between New Westminster and Huntingdon, B.C., via C. P. R. south; also C. P. R. east, Sapperton, and Fraser Mills.

8:30 a.m.—Blaine and Seattle, including all U. S. points east and south, also all points between New Westminster and Blaine, via G. N. R.

Note.—Cloverdale and district (Clover Valley, Surrey Centre, Elgin, Allsville and Kensington Prairie) Hazelmere, Port Kells, Hall's Prairie and Nicomekl despatched daily except Sunday; Clayton, Monday, Tuesday, Thursday and Saturday; Tynehead and Bon Accord, Wednesday and Saturday. These mails are all received same days as despatched.

11:00 a.m.—Vancouver, Victoria and Central Park, via B. C. Electric railway.

12:30 p.m.—Strawberry Hill, Timberland and South Westminster, by courier (Tuesday and Friday).

1:30 p.m.—East Burnaby, by courier.

2:00 p.m.—Burquitlam, by courier.

2:00 p.m.—Ladner, Port Guichon, Westham Island and Sunnyside, daily except Sunday; Woodward, Tuesday, Thursday and Saturday, via steamer Favourite, Capt. J. C. Brown (Steveston mail despatched and received via Vancouver.)

2:30 p.m.—Vancouver and Fraser Siding, via G. N. R. north.

4:00—Vancouver and Burnaby, also via B. C. Electric railway. Saturday an extra mail is despatched to Victoria via Vancouver at this hour.

Blaine and Seattle, including all U. S. points east and south, via G. N. R. "Flyer."

2:30 p.m.—C. P. R. east, Sapperton, Fraser Mills and Coquitlam.

Note.—The two 7:30 a.m. C. P. R. mails, south and east, take mail for all points from New Westminster east (including Langley and District via Port Haney.) The 2:30 p.m. C. P. R. despatch omits all Lower Fraser points east of Coquitlam except Pitt Meadows, Port Haney, Port Hammond, Webster's Corners, Mission City, Agassiz and Harrison Hot Springs. Mails for Port Moody and Barnet both via Vancouver and C. P. R. mails.

Mails Received.

6:45 a.m.—Blaine and Seattle, including all U. S. points, via G. N. R. "Owl."

9:00 to 10:00 a.m.—Strawberry Hill, Timberland and South Westminster, by courier (Tuesday and Friday).

8:20 a.m.—Vancouver and Victoria, via B. C. Electric railway.

9:30 a.m.—Vancouver, via G. N. R.

10:00 to 11:00 a.m.—Ladner, Port Guichon, Westham Island and Tsawassen, daily, Thursday and Saturday, Woodward, via steamer Favourite. (Steveston despatched and received via Vancouver.)

12:30 to 1 p.m.—C. P. R. east, Sapperton, Fraser Mills and Coquitlam.

1:00 p.m.—Vancouver, Central Park and Fraser Arm.

1:30 p.m.—East Burnaby, by courier.

2:30 p.m.—Burquitlam, by courier.

3:30 p.m.—Blaine and Seattle, including all U. S. points; also all points between Blaine and New Westminster via G. N. R. (See note above as to days on which these mails are despatched and received.)

4:45 p.m.—Vancouver via G. N. R. "Flyer."

6.00—Vancouver via B. C. Electric railway.

9:00 p.m.—Victoria via Vancouver.

7:00 p.m.—Sumas and Seattle, including all U. S. points and points between Huntingdon and New Westminster, via C. P. R. south; also Fraser Mills.

1:00 p.m.—C. P. R. east.

Advantages of a Bank Account

It is well to pay bills promptly, but not to pay the same bill twice. Sometimes bookkeepers, by mistake, send out bills after they have been paid. If you pay by cheque, however, the cancelled checks are returned to you, and can be produced as receipts.

Checking accounts are, therefore, more than a convenience. They are high insurance against over-payment. Every man or woman who [illegible] should do so with checks.

DISCREDITS REPORT OF WANT AMONG INDIANS

A. W. Vowell Believes Natives in Northern Interior Are All Right.

Victoria, Nov. 23.—The report of starvation among the Indians in northern British Columbia is discredited by Superintendent A. W. Vowell, of Indians affairs for British Columbia.

"The story of five hundred Indians east of Fort George being on the verge of starvation carries it own refutation on its face," said Mr. Vowell. "In the first place, two hundred miles east of that post lands you on the prairies of west central Alberta.

Mr. Vowell says that the only Indians that could be affected are the Na-annes, a nomadic tribe north of Connolly lake and a tribe at the lake. The entire number of these tribes could not exceed about 200.

From the most reliable reports, however, these are all right. The Indian department has an arrangement with the Hudson's Bay forts to supply Indians who are in pressing need, so that it is practically impossible for instances of starvation to arise. The Hudson's Bay posts are well supplied with food so that no credence can be placed in the reports of want.

If, as the report says, wolves abound, the Indians need not lack as the bounty collectable on wolves would supply their needs.

THE "HOLY HOUSE."

Legend of the Home of Mary and the Saviour.

Let me give the main outlines of the legend. At Nazareth was preserved with pious care the house of Our Lady. The dwelling place in which she received the gracious message of the incarnation, the lowly home which sheltered the holy family for so many years, was a very precious sanctuary. On May 10, 1291, a month after the taking of Tripoli and Ptolemais, this holy house was carried by the hands of angels from Nazareth to a place in Dalmatia between Fiume and Tersata on the Adriatic shore.

It was a one roomed edifice, built of red square stones, fastened with cement, and bore proof of age and oriental design. It stood without any foundations and had a wooden decorated ceiling. The walls were covered with frescoes, there were a door and a narrow window; inside were an altar of stone, an ancient crucifix, a small cupboard, containing a few vessels of common use; a chimney and hearth, above which was a cedar statue of Our Lady with the Holy Child in her arms. The pastor of the place learned in a vision that the building was the house of Our Lady, the stone altar that at which St. Peter celebrated mass and the statue the work of St. Luke the Evangelist. In proof of the vision he was cured of a serious illness. A deputation of four responsible persons forthwith were sent to Nazareth to investigate the mystery, and they found that the house was no longer to be found.

Measurement and other means taken proved that the house that had suddenly appeared in Dalmatia was indeed none other than that which had so suddenly left Palestine. Three years after, on Dec. 10, 1294, the holy house again disappeard and under the pontificate of Celestine V. came to Recanati, a little town in the march of Ancona, when it fixed itself in a laurel grove belonging to a pious lady called Loreto. It was discovered by some shepherds and soon became recognized and was henceforth a much frequented place of pilgrimage. Eight months afterward the house removed to a small hill, three miles from Recanati, to land belonging to two brothers, who, however, fell out shortly afterward over the division of wealth which began to flow to the new shrine. To save strife between the brothers the house was suddenly lifted once more and this time settled down finally in the middle of the public way, which had to be diverted in consequence. Here, too, in the course of time a chapel was built, which gave way in time to the present basilica. The famous pilgrimage of Loreto goes on today. Popes, kings and princes have visited this shrine and left great gifts. Later on a festival with liturgical rites was instituted, and in time the feast of the translation of the holy house was extended to many countries.

The Mohammedan Oath.

Of all the many forms of taking the oath used in the courts perhaps the most picturesque is that which the Mohammedan is required to take. It is a silent ceremony. The son of Islam places his right hand flat upon the Koran and puts the other on his forehead; then he brings his forehead down to and in contact with the book. He then raises himself and looks up steadfastly for some seconds. The officer of the court should then—though he sometimes forgets this—ask the Mohammedan, "Are you bound by the ceremony you have performed to speak the truth?" and the answer is, "I am." In India the ceremony has been abolished in favor of an affirmation.

New Smyrna FIGS

We have bought too many figs and are selling them at very low prices:

Two inch figs in one lb. box, each 10c

Three inch fig, two lb. box, each 25c

Valena figs in baskets, each 15c

Three inch Smyrna figs in large boxes, per lb. 15c

These are all new figs, of the very best quality, and the price we are quoting is very low.

Free Land for Calgary Hospital.

Calgary, Nov. 23.—The board of the Calgary General hospital has been successful in securing from the department of the interior an assurance that a piece of land immediately in front of the present site will be granted to the board, provided suitable arrangements could be made with the city regarding the closing up of the street allowance.

It is claimed that these two lots comprise an area of almost 15 acres, and the board feel that this latest acquisition is worth in the neighborhood of $50,000.

Funeral of Thomas Allen.

The funeral of the late Thomas Allen yesterday showed the respect in which he was held, particularly in Sapperton. There were very large crowds at the Masonic cemetery, where the remains were interred. Having been for some sixteen or seventeen years member of Royal City lodge, No. 3, I. O. O. F., about forty members turned out from the Odd Fellows' order, and were marshaled by M. J. Phillips. C. S. Keith acted as chaplain. Most of the officers of the two local lodges were present, including Noble Grand G. E. Gilley, of No. 3. The pallbearers were: Mayor Keary, J. B. Kennedy, D. Sullivan, James R. Brennan, Ald. Garrett and Capt. DeBeck. Rev. E. G. Thompson conducted the service and the Odd Fellows' burial ritual was also read.

Flowers were sent as follows: Wreaths—Mr. and Mrs. W. J. McMillan (Vancouver), Mrs. W. Johnson (Vancouver), Royal City lodge No. 3, and "Brehaut and Booth."

Sprays—Mrs. and Miss Shaw (Vancouver), Mr. and Mrs. Clarence DeBeck, Mr. and Mrs. J. B. Kennedy, Mr. and Mrs. Hugh McDonald, Mr. and Mrs. Nels Nelson, Mr. and Mrs. Patchell, Mr. and Mrs. Stinett (Vancouver), Mollie and Florence Walmsley, Mr. and Mrs. McRory and Miss Weir, Mr. and Mrs. R. Best, Mr. and Mrs. House, Mr. and Mrs. J. K. Armstrong, Mr. and Mrs. Teskey, Mr. and Mrs. E. Johnson, Mr. and Mrs. W. McDonald, Mr. and Mrs. Gillespie and Charley, J. and Miss L. Walmsley, Mr. and Mrs. Garrett, Mr. and Mrs. J. A. Montgomery.

Crosses—Mrs. C. Digby, Dr. and Mrs. G. McGuire, Mr. and Mrs. D. Sullivan and family, Mr. and Mrs. F. Smith (Vancouver).

Sickle—Mr. and Mrs. Murdock McLean and Fred McLean.

Crescent—James R. Brennan and W. J. Brennan.

Anchors—Mr. and Mrs. McLachlan (Vancouver), Mr. D. S. McLachlan (Vancouver), Women's Guild (Mount Pleasant Presbyterian church), Mr. and Mrs. W. R. Gilley and J. Hinch, Mrs. Kirk, and Mr. and Mrs. J. Travers.

The funeral arrangements were carried out by D. Murchie.

Exquisite Evening Wear MUSLINS

Known on the American side as "Soie Perlee." They have such a close resemblance to silk that we might sell them as that. The finish is equal to that of a soft silk and the fabric is extremely sheer, with delicate shading in the lifelike flowers, which are stamped on plain ground. We show them only in dress lengths of 15 yards (one dress of a pattern) per yard ..... 50c and 65c

Plain Soie Perlee

The same fabric as in the fancy styles; shown only in cream, pink and sky; any length, per yard 40c

Cream Japanese Pongee

Sheer, soft, pure silk Pongee, which makes up into serviceable handsome evening dresses and waists; washes well and wears well; 27 inches wide, per yd 65c

A Superior Quality of Feather Bed PILLOWS

$1 to $3.50 Each

Read this maker's guarantee:

"We guarantee that the filling contained in this pillow is absolutely all feathers, thoroughly cured and cleaned and purified and free from odor or adulteration."

This is the first time we have ever had pillows with a guarantee like this and after careful investigation are decided that no other make would do us. You will be satisfied with them as we were.

And then again, they are lower in price than previous brands. They have nicer coverings and better sizes and full weight, running from 2 1-2 to 3 1-4 lbs. each. Ask to see them. Each ... $1.00 to $3.50

Pleated Delaines 75c per yard

42-inch All-Wool Pleated Delaines in navy, brown, cardinal, sky, cream and black. Suitable for Ladies' and Children's skirts etc. Plain goods of same shade may be had for waists.

CHILDREN'S SCHOOL UMBRELLAS 75c each

What is the use of giving the children a good umbrella of large size, expensive probably, for school use, when you can buy a special small size suitable for boys or girls. They are made just right size, with short handles, fancy or plain wood designs, covered with cotton taffeta. All one price 75c

Bordered Kimona Cloths

Exceptionally attractive American Flannelette known as superfine flannel owing to the finish. This material comes in neat patterns, is 35 inches wide and has a 3 1-2 inch Paisley pattern border on one side only, which proves a dainty trimming for front collars and cuffs of garment; colors are sky, navy, brown and cardinal. Per yard ..... 25c.

A SPECIAL Cashmere Hose FOR LADIES
