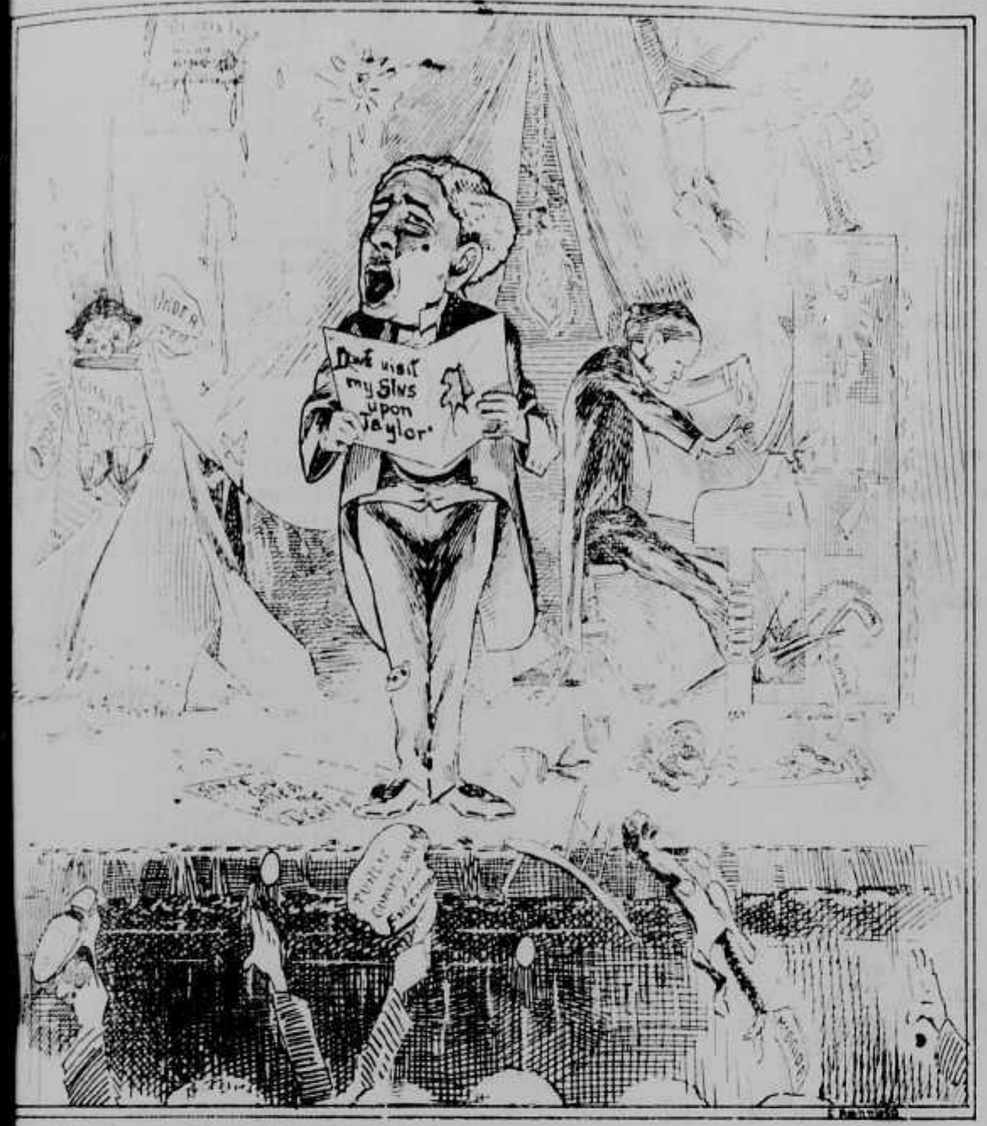
THE PREMIER SCAPEGOAT



My work, all my work"—a satire composed in a spirit of bitter sarcasm against the Fraser river fishermen, chanted with glee by the Hon. Richard McBride at the Westminster Opera house, at a meeting held in the est of J. D. Taylor, Conservative candidate, and loyal supporter of the bitter enemies of Westminster fish-n.

BALL CLUB FINDS ED OF BETTER SUPPORT

Sum of $3.50 is All That Asso-on Has to Its Credit—Onlook-ers Slow to Contribute.

udit of the finances of the Ro-football club was made at an e meeting held yesterday eve-hen the secretary reported that n of $104 had been expended eason, and that a balance of ow remained to the credit of ociation. Owing to the heavy es to be incurred before the the season, steps will have to n to replenish the treasury, it estimated that at least $300 spent before the last scheduled ch is played.

sum of $48 has been realized sale of membership tickets, mount of money collected at has been ridiculously small up only a couple of dollars be-thered in last Saturday, when wo hundred people were on the witnessing the match against m. Messrs. Anderson and were appointed a committee the hat around at future instructions being given them their persuasive eloquence to elusive dollars from the on-by all fair means in their

here team for the match the Nationals in the Vancou-d Soccer league on Saturday ounce will be as follows: Barkwell, Hacks, Clark and Bates, Bruce, Leamy, and Edwards, Watson, Craig, Reid, an and Lonsden.

WOMAN DROWNED IN VAT OF WINE

Santa Rosa, Cal., Oct. 12.—Mrs. George Collier, wife of a rancher of Occidental, was drowned yesterday in a vat of wine. The woman was visiting the winery on the Collier ranch, and had climbed to the edge of a large vat partly filled with wine. In some manner unknown, but probably through being overcome by the fumes, Mrs. Collier lost her balance and fell into the huge vat.

HON. R. LEMIEUX, K. C.,
Minister of Labor.

Valuable testimony to the Lemieux Act is furnished by the acceptance by the C. P. R. mechanics of the findings of the board of conciliation appointed under this measure, the useful and practical character of which has aroused the attention of statesmen in England, Australia and the United States.

ELECTORS !

A PUBLIC MEETING
will be held in the
OPERA HOUSE, NEW WESTMINSTER, ON

Friday, Oct. 16,

at 8 o'clock in the evening,
in support of ROBERT JARDINE, the Liberal candidate.

SPEAKERS:
Hon. W. Templeman, W. W. B. McInnes, Liberal candidate for Vancouver; D. Murphy, Esq.; Robert Jardine, Liberal candidate for New Westminster riding; and others.

The Conservative candidate is invited to be present.
Everybody welcome.
Reserved seats for ladies

HOUSEHOLDER FRANCHISE QUALIFIES FOR TRUSTEE

Legal Anomaly Causes Curious Position in School Administration—Under Which Flag?

A question has arisen in certain circles as to the right of one of the Westminster school trustees to remain a member of the body to which he was elected, as he is not on the assessment roll, but is a householder, and as such entitled to vote for municipal officers, but unable to take part in a vote for money by-laws.

This puts a man in the curious position of going on to the platform to advocate a money by-law for the schools, and being himself unable to vote for it, but such is the law, and although it is stated an endeavor will be made to test it, the law is plain enough on the subject. The flag question in the schools at the present time has directed attention to this anomaly, as the turn-over of a vote would determine the issue, and the determination to fly the Canadian flag has aroused considerable hostility in some quarters.

The supporters of the Union Jack as the only proper emblem to float over the public schools are determined that the flag question shall be the issue at the next election of school trustees, and will see to it that a pronouncement is made on the subject by all candidates seeking election to the board.

Section 32 of the Public Schools Amendment Act, 1905, says: "In every city school district any person being a householder in the school district, and being a British subject and of the full age of 21 years and otherwise qualified by these acts to vote at an election of school trustees in the city school district, shall be eligible to be elected or to serve as a school trustee in such city district." In a later amendment the word "municipal" is substituted for "city."

Japanese Dead.

A Japanese patient, admitted to the Royal Columbian hospital yesterday afternoon, suffering from internal injuries sustained early in the day, died about three o'clock this morning.

SEWER AND STREET WORKS NECESSARY

Council Urged to Advance First Street Sewer---Lord Strathcona Sends Unique Map.

A quiet meeting of the City council took place last evening, all the members being present. A long and interesting letter was read from Lord Strathcona, who sent a valuable map of the Northwest discoveries of the fur trader. Superintendent of Works Furness wrote urging the importance of the completion of the First street sewer.

Lord Strathcona's Message.

In addition to a brief biography of Simon Fraser sent by Lord Strathcona, the following is the text of the accompanying plan:

Map of the Northwest territory from actual survey during the years 1792 to 1812. This map, made for the Northwest company in 1813 and 1814, and delivered to the Honorable William McGillivray, then agent, embraces the region lying between 45 and 60 degrees north latitude and 84 and 124 degrees west longitude, comprising the surveys and discoveries of twenty years, namely the discovery and survey of the Oregon territory to the Pacific ocean, the survey of the Athabasca Lake, Slave river and lake from which flows Mackenzie river to the Arctic sea, by Philip Turner, the route of Sir Alexander Mackenzie in 1792 down part of Fraser's river, together with the survey of this river to the Pacific ocean by John Stuart of the Northwest company, all by David Thompson, astronomer and surveyor. (Traced from the original under the direction of Dr. Elliott Cones.)

First Street Sewer.

Superintendent of Works Furness drew the council's attention to the necessity of immediate action being taken to instal the proposed First street system of sewerage. "My reason for pressing the matter at this particular time is in view of the fact that the present wooden drain, which is being used as a sewer, is so badly decomposed that during the past two weeks it has caved in at three different places, and upon examination hardly a particle of the box could be found. Unless something is done at once to install the proposed system, all those parties who are now using this derelict of a box should be notified to make private arrangements for the disposal of their sewage. This is a very important matter, and should be summarily dealt with, as the health of the community may be endangered."

The letter was ordered to be laid on the table until the petition now in circulation was received for the work to be undertaken under the local improvement plan.

Street Improvements.

C. S. Keith asked for a sidewalk crossing on Royal avenue. Mrs. Louisa Kirk applied for a sidewalk from Columbia street from Keary street eastward. White, Shiles & Co., on behalf of clients, desired the opening up of Nanaimo street between Twelfth and Thirteenth streets, and for the laying of a plank sidewalk on same. The board of works was empowered to act.

Lulu Island Bridge.

With reference to the advertisement of tenders for the substructure of the Lulu Island bridge, it was resolved to restrict them to the local papers, and that the clerk should draw up the contract in consultation with the city solicitor. In this connection a wire was read from Engineer J. A. L. Waddell, asking for a date when the contract would be let. The council thought November 9 early enough for the tenders to be in.

Useful Assistance.

R. Holtby Myers, of Redlands, California, wrote with reference to some illuminating posts in use at Los Angeles which he thought would be useful on Columbia street. The cost ran something over $100 each. The letter was referred to the Light committee, with thanks to Mr. Myers for his investigations, in view of any early improvements to Columbia street in double tracking.

Water Waste.

Alderman Henley read the report of the board of works. It contained a

(Continued on Page Seven.

PROGRESS OF THE COUNTRY DUE TO WORK OF LIBERALS

Inclement Weather Fails to Keep the Crowd Away From Robert Jardine's Cloverdale Meeting—Tory Subserviency to C. P. R. Exposed---Fraser Improvement Touched Upon.

Notwithstanding the inclement weather, a considerable number were present at the Public hall, Cloverdale, last night to welcome Robert Jardine, the Liberal candidate. John Armstrong occupied the chair.

A. Whealler, speaking upon the importance of organization work, said there were many Conservatives who would support Mr. Jardine because they were unable to discover any reason why a change should be made in the government of the country. Sir Wilfrid Laurier and his ministers had in fact done remarkably well. They could point to their record in the development of the country and say they had done a great deal of good work in a short time. Among other things they had created a labor department and had appointed W. L. Mackenzie King, who had done so much in the cause of labor as deputy minister of the department. With the certainty of capable administration of the country's affairs and the fact that the members of the government had proved themselves such worthy servants of the state, it would be ridiculous to turn them out just to let the other fellows try what they could do.

Candidate Well Received.

Robert Jardine, who was well received, said he was seeking the vote of everyone who had the welfare and progress of the Dominion at heart. He declined to discuss the so-called scandals because he did not consider anything could be gained by doing so. Referring to the greater increased prosperity of the country, Mr. Jardine observed that this would not have been possible without the excellent immigration policy of Clifford Sifton. In British Columbia they provided timber, fruit, and fish for the large body of new settlers that had come into the middle west, whilst many of the older settlers had come west and taken up land in this province.

Touching on the Asiatic question, the speaker said every white man desired to see this country populated by those who could assimilate with the white people. (Hear! Hear!) He regretted to see the questions of Asiatic exclusion, Better Terms, and control of the fisheries made political issues by the Provincial government, and it was time that the electors protested against this.

Railway Development.

Every one would agree that in the development of the country railways formed one of the most important agencies, and the people of Cloverdale would readily recognize what the important railway works now being carried out there would mean to their town. He was in charge of the V., V. & E. railway bill in the House of Commons, and it was one of the hardest battles ever fought there to get the bill through. The seven British Columbia members were for a free trade policy in regard to railways, but the C. P. R. was very strongly opposed to another line coming up and tried hard to prevent James J. Hill getting into the country. With one or two exceptions, the Conservative party fought the bill and tried to prevent its passage by every possible means; if that party had had its way there would have been no railway running through Cloverdale. It was only after great difficulty that they managed to get the bill through. He (Mr. Jardine) was also intimately connected with the Chilliwack carline that would soon be running through there. Some years ago some people from the other side sought and obtained powers to dyke a vast area at Sumas, and in connection with this undertaking his (Mr. Jardine's) advice was sought. The company that obtained the powers did not, however, carry out the work. Then the B. C. Electric Co. came along and bought the grant the company had secured. A number of people at Sumas Prairie and Lower Sumas were strongly opposed to the dyking scheme and desired him to oppose it. But after careful consideration, he came to the conclusion that the scheme would be of real help to the progress of the country, and for that reason should not be opposed; but if he had done as the Sumas people wished, there would probably not have been any Chilliwack tram line.

Fraser River Improvement.

In conclusion the candidate referred to the improvement works now being carried out for the improvement of the Fraser river and said that this would result in at least two large new mill plants being laid down. The channel improvement would mean the creation of the finest fresh water port on the coast and would greatly expedite the growth and development of New Westminster. No one could say how great an advantage this important work would be to the whole of the Fraser valley. (Applause.)

H. A. Eastman briefly reviewed the principal political issues and spoke of the peculiar fitness of Robert Jardine to represent the important electoral district of New Westminster, and the proceedings concluded with cheers for Sir Wilfrid Laurier and the candidate.

WOMEN'S COUNCIL DEALS WITH USEFUL MATTERS

Results of Effort for Columbian Hospital During Exhibition—Will Memorialize Convention.

There was a fair attendance at the monthly meeting of the Local Council of Women yesterday afternoon, presided over by Miss Davis. The report of the result of the operation of tea rooms at the recent provincial exhibition was received and discussed, from which it appeared that the receipts were $449.35, and the expenditure would be about $225. The decreased attendance at the exhibition, and the consequent reduction in business at the rooms, account for a smaller sum being available from the effort for the Royal Columbian hospital than formerly, and the idea was suggested to place a part of the balance towards the purchase of an ambulance, though nothing will be definitely decided till all the bills are in. In this connection, a letter was read from Manager Keary thanking the council and the various ladies' aids for their management of this part of the exhibition work.

It was decided to pay part of the expenses of sending Mrs. Day, of Victoria, to the National convention of the various councils in Montreal, beginning Oct. 27, as none of the local ladies appointed at the previous meeting could attend.

The council resolved to memorialize the B. C. school trustees meeting at Revelstoke in favor of commercial classes at the high schools, which they are anxious to see inaugurated.

GOLD STRIKE AT NOME VERY RICH

Nome, Oct. 12.—Word has been brought to Nome in confirmation of report indicating one of the richest placer strikes ever made in Nome district. The find was recently made on Yellow Jacko claim, in the neighborhood of Captain E. W. Johnston's holdings on third beach. Two miners, Peterson and Hall, run into rich dirt. On Sept. 27 they panned gravel from the face of the drift which went $8, $15, $16 and $18 to the pan. A big body of dirt is in plain sight.

EARL GREY REACHED WINNIPEG YESTERDAY

Winnipeg, Oct. 12.—His Excellency Earl Grey arrived from the west yesterday and is a guest at government house. In the afternoon he visited the agricultural college, and later was entertained at the Country club golf links. His excellency will go to Manitoba lake tomorrow morning for a few days' shooting.

AUSTRALIA HOPES TO BREAK UP JAP TREATY

Commonwealth Determined to Refuse Brown Men a Commercial Footing on the Island at All Hazards.

Melbourne, Oct. 12.—If the entire political pressure of Australasia is sufficient, the treaty binding England and Japan will not survive. Political Australia is determined to break the alliance as the first step to create a white man's Pacific ocean.

Desiring not to embarrass England, the Australian officials are not giving any official voice to the sentiment, but it is the belief of careful observers here that the treaty cannot last more than a few years.

The feelings manifested during the visit of the American fleet here and a series of inspired articles during the past week in the press throughout the Commonwealth have aroused interest in this subject anew in diplomatic circles.

In an interview today a man who is recognized as one of the moulders of Australia's destiny, a man in a high official position, who prefers to have his name unmentioned, gave the following explanation of the situation:

"The defensive and offensive alliance between England and Japan affects in reality only Manchuria and India, and is directed entirely against Russia. England is committed to assist Japan against the invasion of Manchuria and Japan has agreed to aid Britain in repelling an invasion of India. The only possible invader of either country is Russia.

"The alliance has been received with an outburst of popular disapproval in Australia, where the people are even more Anti-Asiatic than on the Pacific coast. We have drastic Asiatic exclusion laws and a tariff practically cutting off Japan and China from competing with our home industries. This is where the clash will originate.

"Soon Korea and Manchuria, which have been exploited for the benefit of the Japanese manufacturers, will have been exhausted and Japan will seek a market in Australia.

"We will deny commercial entrance to Japan and she will appeal to England for coercive assistance.

England will not dare to attempt coercion and Japan will retaliate through a boycott or a tariff against British goods and this will result in a rupture.

The English statesmen expect a rupture before the expiration of the present treaty and we think that a break is inevitable within a few years."

THE LATE ISAAC HOOD.

The late Isaac Hood, the victim of a fatality at Nanoose bay, near Nanaimo on Tuesday last, Oct. 7, whose remains were interred on Saturday, was a bridge carpenter by trade and a native of Bay Roberts, Newfoundland, where he was born in 1884. The manner in which he came to his death is still a mystery and a brother of the victim has gone to investigate the circumstances attending the fatality. The deceased leaves three brothers and two sisters: J. J. Hood and Mrs. Walter Baily, of Ninth street; William Hood, of Toronto; Henry Hood, of Bangor, Maine; Mrs. Henry Cave, of Bay Roberts, Nfld. The funeral, which was held from Fales' undertaking parlors, was conducted by L. O. L. 1150, of which the deceased was a member, and the services were conducted by Rev. C. W. Houghton. The pall-bearers were E. Mercer, A. J. Daw, J. Crane, R. Parsons, W. Mercer, and R. Hood. The following were the floral emblems: Wreathes, The Family, L. O. L. 1150, Misses Belle and Lily Hood, Mr. and Mrs. Robert Hamilton; sprays, Miss E. Smith, Mr. and Mrs. S. Daw, jr., Mr. and Mrs. J. Mosdell, Mr. and Mrs. C. Earle; cross, Mr. and Mrs. T. Hood; harp, Willie and Ethel Hampton.

(Eastern papers please copy.)

CARDINAL DEL VAL IS IN DISFAVOR

Rome, Oct. 12.—Persistent rumors that Cardinal Merry Del Val, papal secretary of state, is in disfavor in high quarters at the Vatican are current in lay official circles. The Quirinal is filled with a well defined rumor that the pope has been asked to dismiss him, and that the Roman Catholic dignitaries are quietly discussing the probable choice of his successor. Cardinal Rampolli, the late pope's secretary of state, although he is not on over friendly terms with Pius, is the strongest candidate for the post, according to general impression.

ROQUEFORT CHEESE.

How the Green Mold and the Flavor Are Produced.

A cheese expert has the following to say about Roquefort cheese:

"To make Roquefort cheese we must have the proper raw material—sheep's milk. Of course we have sheep in America, but show me a Yankee farmer who would go to the trouble of milking sheep! It is even too much for him to milk cows, and it is the standard lamentation of all our farmers that the boys, even if they stay on the farm, do not want to do any milking. Before they do such kind of work they would rather go to a business school or a college where they study agriculture, chemistry, etc.

"How is Roquefort cheese cured? The mold in the cheese is produced by moldy breadcrumbs which are ground to a green dust and mixed in the cheese curd. The country around Roquefort is very rocky. The limestone rocks are full of crevices and caves, which draw in the warm air in summer, give it out in winter, and vice versa.

"These caves have been provided by nature and improved by cellars that have been built in such a way that these natural currents of warm and cold air pass through them, where Roquefort cheese is cured. This is the way that Roquefort cheese is ripened and gets its peculiar flavor and character. It is all very well for the scientists to study the chemical process which the cheese is undergoing, but to produce this process in an artificial way is another question. Nature is the best chemist.

"The manufacture of Roquefort cheese has been tried in America, but the manufacturers did not make much of a success. Nobody manufactures Roquefort in America at present. We know of one manufacturer who tried to make Roquefort cheese of goats' milk. He boasted especially that he would use only the milk of 'imported' goats. Just think of the idea! Imported goats grazing on American pastures were expected to give better flavored milk than domestic goats. It is the climate, the special soil, atmospheric influences, etc., which produce the fine fragrant grass. The milk of the cows or goats or sheep is naturally the product of the grass they are eating, the water they are drinking, and neither this nor the climate nor the country can be imported to America—only the product which the climate or country produces. That is why neither the American Camembert nor Roquefort ever has the flavor or fragrance of the imported article in spite of all the imported goats or imported cattle or even of imported microbes."—Chicago Record-Herald.

Turkey's Way of Raising Revenue.

The land in all Turkey and her dependencies belongs to the reigning sultan and is only occupied at his will. It is divided among those who wish to cultivate it at a nominal rental of one-fifth of the produce, which goes directly to the crown. Three-fifths more are taken from the lessee on other pretexts, all for the maintenance of the government, the pasha in each district having the authority to lease the ground and collect the taxes, which may be in kind or money. If crops are short, they take four-fifths of all the man has in animals and even in household utensils, sometimes all his possessions, to make up the deficiency which Providence has withheld. Everything that can produce, be it a tree, beast, fowl, worm or the labor of a man and his family, is subject to the four-fifths tax. Those who toil at any labor or trade other than agriculture are taxed also pro rata according to their wages and must pay or go to prison.—Pearson's Weekly.

How to Remove a Corn; Try It.

Expose the corn and pass the finger tips of your right hand over it slowly and caressingly, at the same time sending a vibration from the brain to the corn. If it is a soft corn 413 vibrations per second will suffice; if a hard corn, put on a forced draft. Repeat slowly, "I am now sending a current of thought force into my corn and so separating, deducing, disintegrating, rendering, splitting, sundering, splintering, snipping, dwellicating, whittling, dispersing, dislocating, eliding, divorcing, pulverizing, slashing, slicing and dissecting it that presently it will pass away. Repeat it three times; then with rising inflection, "Avaunt, avaunt, avaunt!" Finish by repeating the password: "The universe is mine! I am it!" The corn will at first look extremely surprised, then wilt and fade beautifully from sight.—New Thought.

A Nice Distinction.

A well known Atlantan has a wife with a sharp tongue. Jones had come home about 2 in the morning rather the worse off for a few highballs. As soon as he opened the door his wife, who was waiting for him in the accustomed place at the top of the stairs, where she could watch his uncertain ascent, started upbraiding him for his conduct. Jones went to bed and when he was almost asleep could hear her still scolding him unmercifully. He dropped off to sleep and awoke after a couple of hours, only to hear his wife remark, "I hope all the women don't have to put up with such conduct as this." "Annie," said Jones, "are you talking again or yet?"—Kansas City Star.

The Pernicious Salt Habit.

Dr. H. W. Wiley makes the very important announcement in connection with his official health statistics that we are now using 29 per cent more salt than we were twenty-five years ago. He also says that we are having 30 per cent more kidney diseases recently.

J. W. TROUP, General Superintendent, Victoria.

Mail Service

Following are the hours of despatch and arrival of mails at the New Westminster post office, the hour given in each case being the hour of closing, which is half an hour, as a rule, before the actual despatch. All mails, unless otherwise stated, are despatched and received daily except Sunday. The only mails dispatched and received Sunday are the C. P. R. south and C. P. R. east mails, not including the way mails, Sapperton, Fraser Mills and Coquitlam.

Mails Despatched.

6:00 a. m. (closed at eleven o'clock the previous night)—Vancouver via G. N. R. "Owl."

6:20 a.m.—Vancouver and (except Tuesday) Victoria, via B. C. Electric railway.

Sumas and Seattle, including all U. S. points east and south, and points between New Westminster and Huntingdon, B.C., via C. P. R. south; also C. P. R. east, Sapperton, and Fraser Mills.

8:30 a.m.—Blaine and Seattle, including all U. S. points east and south; also all points between New Westminster and Blaine, via G. N. R.

Note.—Cloverdale and district (Clover Valley, Surrey Centre, Elgin, Alluvia and Kensington Prairie) Hazelmere, Port Kells, Hall's Prairie and Nicomekl despatched daily except Sunday; Clayton, Monday, Tuesday, Thursday and Saturday; Tynehead and Bon Accord, Wednesday and Saturday. These mails are all received same days as despatched.

11:00 a.m.—Vancouver, Victoria and Central Park, via B. C. Electric railway.

12:30 p.m.—Strawberry Hill, Timberland and South Westminster, by courier (Tuesday and Friday).

1:30 p.m.—East Burnaby, by courier.

2:00 p.m.—Burquitlam, by courier.

2:30 p.m—Ladner, Port Guichon, Westham Island and Sunbury, daily except Sunday; Woodward, Tuesday, Thursday and Saturday, via steamer Favourite, Capt. J. C. Bruce. (Steveston mail despatched and received via Vancouver.)

Vancouver and Piper Siding, via G. N. R. north.

4:00—Vancouver and Burnaby lake, via B. C. Electric railway. Saturday an extra mail is despatched to Victoria via Vancouver at this hour.

Blaine and Seattle, including all U. S. points east and south, via G. N. R. "Flyer."

4:45 p.m.—C. P. R. east, Sapperton, Fraser Mills and Coquitlam.

Note.—The two 6:30 a.m. C. P. R. mails, south and east, take mail for all points from New Westminster east (including Langley and district via Port Haney.) The 4:45 p.m. C. P. R. despatch omits all Lower Fraser points east of Coquitlam except Pitt Meadows, Port Haney, Port Hammond, Webster's Corners, Mission City, Agassiz and Harrison Hot Springs. Mails for Port Moody and Barnet goes both via Vancouver and C. P. R. mails.

Mails Received.

6:45 a.m.—Blaine and Seattle, including all U. S. points, via G. N. R. "Owl."

9:00 to 10:00 a.m.—Strawberry Hill, Timberland and South Westminster, by courier (Tuesday and Friday).

8:20 a.m.—Vancouver and Victoria, via B. C. Electric railway.

9:30 a.m.—Vancouver, via G. N. R.

10:00 to 11:00 a.m.—Ladner, Port Guichon, Westham Island and (Tuesday, Thursday and Saturday) Woodward, via steamer Favourite, (Steveston despatched and received via Vancouver.)

10:30 to 11:00 a.m.—C. P. R. east, Sapperton, Fraser Mills and Coquitlam.

1:00 p.m.—Vancouver, Central Park and Fraser Arm.

1:30 p.m.—East Burnaby, by courier.

2:30 p.m.—Burquitlam, by courier.

3:30 p.m.—Blaine and Seattle, including all U. S. points; also all points between Blaine and New Westminster, via G. N. R. (See note above as to days on which these mails are despatched and received.)

4:45 p.m.—Vancouver via G. N. R. "Flyer."

6:20—Vancouver and Victoria, via B. C. Electric railway.

9:30 p.m.—Sumas and Seattle, including all U. S. points and points between Huntingdon and New Westminster, via C. P. R. south; also C. P. R. east and Fraser Mills.

Synopsis of Canadian Homestead Regulations.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

Synopsis of Canadian Northwest Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may however, be made at any agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Such ownership in land will not meet the requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or if on a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

How to Save

Saving begins at home and the foundation of a savings account is the determination to save regularly.

FIRST—Make a definite allowance for a savings deposit, as early as possible, before any expenditure is made from the regular income.

THEN—Keep a careful account of income and expenses in order to avoid waste.

Do It Now

OUR depositors receive interest on their SAVINGS ACCOUNTS every three months—March 31st, June 30th, September 30th, December 31st. The red ink interest entries that you see put down in your savings bank-book will strike you very pleasantly indeed.

HOME SAVINGS BANKS, in large, medium and small sizes, furnished on application.

ADVERTISE — IN — THE DAILY NEWS FOR QUICK RETURNS

From Other Points of View

Gentle Appreciation.

The government has certainly done some good things. It is rightly proud of its coal work, the preferential tariff. It was looked on as a beginning in reducing protective burdens. That promise might now very well be carried to performance in further reduction. The department of agriculture has done splendid work for the farmers. The postal service has been greatly improved in many respects.—Montreal Witness.

Providence and the Wise.

The Conservative party say that the credit of the great progress of Canada should be given to a beneficent Providence. Providence was just as beneficent previous to 1896 when the Conservatives were in power, but the same progress was not made. Providence always provides the opportunities, but the wise alone know how to embrace them and turn them to advantage. The difference between the progress of Canada in the periods before and after 1896 has been the difference in administration. The people recognize that they have had a business-like, progressive government in office during the past twelve years and are not in any humor to make a change. The government is as strong, as capable, as progressive and imbued with as great a desire to serve the people as ever it was and can be safely entrusted with the affairs of the nation for another parliamentary term.—Lethbridge Herald.

Laurier or Chaos.

In accordance with the announcement recently made by the Leader, we publish elsewhere in this issue summaries of the political situation as it exists today in the various provinces throughout the Dominion. Summing up the situation as set forth in these despatches, but one conclusion can be arrived at, viz., that from one end of the Dominion to the other the ministry of Sir Wilfrid Laurier will be sustained and that Canada's "Grand Old Man" will be sent back to "finish his work" with a majority of certainly not less than forty-five and with every indication of a majority largely in excess of that figure. That this should be so is hardly to be wondered at, for the country really has no choice. It is simply a question of Laurier or chaos.—Regina Leader.

Just a Contrast.

The contrast between the present government and the preceding one is epitomized in the contest in Brandon, Man.

Mr. Sifton is offering for re-election in that riding, and is opposed by Hon. T. M. Daly, minister of the interior from 1892 to 1896.

Sifton and Daly! Progress and Dry Rot! Sifton inspired the policy which has peopled the Canadian west. Daly sat with folded hands while the Canadian west stagnated for want of intelligent effort to attract population.

Under Sifton, the main stream of immigration from the British Isles was diverted to the shores of Canada, and has flowed in an increasing volume. Under Daly, immigration of all kinds dwindled into virtually nothing.

Under Sifton, scores of thousands of United States farmers have crossed the line into this country. Under Daly, the movement was all the other way.

Sifton shook the dry bones of the immigration department. Daly left the dry bones dryer.

Sifton has done a national work. Daly had the same opportunity and did nothing.

The difference between Sifton's record of great achievement, and Daly's record of incapacity and failure is the difference between the two political parties in the present campaign.—London Advertiser.

The Great Silence.

A silence which can almost be felt envelopes Mr. R. L. Borden on the Hudson Bay railway policy of the government. Like Sir Wilfrid Laurier he is touring eastern Canada promulgating the policy on which he appeals for the support of the electorate, but unlike Sir Wilfrid he keeps silent on the issue which above all others is of transcendant importance in this western country. Sir Wilfrid Laurier in his addresses before Ontario audiences—which presumably are not greatly interested in a railway from western Canada to Hudson Bay—never fails to declare that his government will stand or fall by its pledge to immediately construct a railway to the bay as a government work. He pledges himself further to retain absolute government ownership of all elevators and terminal facilities and also indicates a possibility that the government itself will operate the road.

But where does Mr. Borden stand? Absolutely silent. So far as we have been able to gather from his speeches thus far in the campaign, Mr. Borden is too busy noising for small scandals against his opponents and shouting "graft" and "corruption," to give a thought to a constructive policy for the upbuilding of the Dominion as a whole, and western Canada in particular, such as the Hudson bay project. So far as Mr. Borden is concerned we are left to assume what his policy on this great question is from the attitude and speeches of his supporters in this western province. * * * Laurier's policy is clear and positive. He will build the road and build it without delay. He declares that the country wants the railway and wants it now.

Borden's policy is one of silence so far as he is himself concerned and open hostility on the part of his party as voiced by representative lieutenants.—Regina Leader.

Laurier, the Man.

There is much that is heroic in the character of Sir Wilfrid Laurier. He has been tutoring and disciplining himself his whole life long, ever climbing up to a greater greatness as the years come to him. Not of our race, but with our finest aspirations, he has more accurately than most of us read the signs in the upward path that God gave the British peoples to tread in both hemispheres. He looked round the world and saw the whole empire. Never posing, never seeking to thrust himself to the front, but always facile princeps, taking the high places which men assigned to him, but in a simple, quiet manner and with a gentle winning courtesy. Chivalrous, too, the sort of man who would fight for his country, or for the humblest man in it, with equal ardor. Never forgetting the supreme duties of manhood; withstanding his church when he believed he was right, but with respectful front, born of his faith in her and of his love for her. Loving his dear old France, too, as a man would love his grandparents, but never forgetting his own mother—Canada. A leader and lover of men, of all men, even his enemies. When goaded into passion, flashing fire, and, when he had given the rebuke his throbbing indignation would dissolve into balm, which he would pour upon the wounds he himself had made. A man to be revered, to be loved, through all time.

But Laurier is not the only statesman whom our French brothers have given us. There was Cartier, too, who, we fear, is not sufficiently remembered in our day. Strong and brave, stern and sturdy was he, not loveable, but true, always to be depended on. We shall never forget the lesson in tolerance that George Brown gave to a young Liberal who was rejoicing over-much in Cartier's defeat in Montreal; how Brown, dropping into his own loved Scottish tongue, said: "Laddie, laddie, you dinna understan' Cartier; he's a man in ten thousand; when he gies you his word you can take it."

Yes, there were giants in Cartier's days; there are giants now, and there always will be.—Victoria Times.

DO NOT FORGET.

Do not forget that the Columbian's sneer about the new Government dredge as "the German mud-slinger," is only its way of expressing its sorrow that New Westminster is to be made the greatest port of the North Pacific.

CAN THE TORIES EXPLAIN?

The provisions for improvements by the government in power, where absolute need is apparent, is considered to be bribery to the electorate benefited by the much needed grants. The Free Press, of Ottawa, with a clear vision from East to West, has the following:

"Both Mr. Borden and Mr. Foster have been especially denunciatory of an alleged promise by Mr. Lemieux at Berlin that he would provide a clock for the post office tower there, and Mr. Foster has gone so far as to say:

"'In England such an action would earn universal disapprobation, and the same standard should apply in this country.'

"The same issues of the daily press which contained the above expression also published a despatch from Vancouver in which Mr. G. H. Cowan, the Conservative candidate for that city, is reported to have just returned from a visit to the east, where he saw Mr. Borden and received from the Conservative leader an explicit pledge that if he is returned to power he will appoint an independent tribunal to investigate British Columbia's demands for better terms, notwithstanding the action of the Interprovincial Conference and the legislation of two sessions ago.

"This pledge by Mr. Borden to Mr. Cowan is, if correctly reported, more than a bribe to a constituency. It is a bribe to a whole province at the expense of the other provinces of the Dominion, and it would be interesting to have Mr. Borden explain how he can justify it while at the same time denouncing "bribes" to single constituencies."

Mr. Cowan is not in it with Mr. J. D. Taylor, with his double-tracking of the C. P. R. from Kamloops to Vancouver; the rehabilitation of the Agassiz Limited, and the building of a road and bridge over the Fraser from Matsqui to Agassiz. "I will have it done, gentlemen, if you elect me." The mystic wave of the mitt by the candidate-editor is all that is necessary, until Sir Thomas Shaughnessy and a few other of Mr. Taylor's subordinates are allowed to exercise their reason. Mr. J. D. Taylor and other editors will be a long time dead before any such idiotic promises will have a likelihood of fulfilment. But nevertheless they are bribes, and it is a wonder the purity Bordenites do not get next and call for clean politics.

ISSUED INSTRUCTIONS.

Evidencing the desire of the Liberal government to proceed without delay on the construction of a thirty foot channel to the gulf we reproduce a letter handed us by J. B. Kennedy, ex-M.P., for publication from the Hon. William Pugsley, minister of public works, to him:

St. John, N. B., Oct. 3, 1908.

Dear Sir:

Replying to your favor of the 21st August, I beg to say that instructions were given to the chief engineer some time ago to have the work at the mouth of the Fraser river proceeded with as rapidly as possible, and I presume it is now well under way.

Yours very truly,
WM. PUGSLEY.

Jas. B. Kennedy,
Sapperton, B. C.

The campaign against the "foreign born" is not confined to Hon. W. J. Hanna and to Mr. Thomas Birkett. In Red Deer, Alberta, the Tories are charging it as a crime against Dr. Clark, the Liberal candidate, that he "was" an Englishman. Unfortunately for these campaigners, the majority of the voters of the riding were born south of the Tweed and are likely to resent this insult as emphatically as the "foreign-born" of Ottawa city when polling day comes.—Ottawa Free Press.

We heard much after Colchester, N. S., bye-election about the turning of the tide, but the Conservative "reaction" still progresses. Mr. Henry Delby, who was Sir Charles Tupper's organizer in 1900, is to oppose Mr. H. B. Ames in Montreal; and Mr. Melzear Avery, who was Conservative M. P. for Frontenac in the recently dissolved House, is out as an "Independent Liberal." The most of Conservatives in this constituency who think the prosperous condition at this time does not warrant a change, will add to the incoming tide of popular approval of the Liberal government.

The Tories seem to be of the same brand all over the Dominion. Mr. G. H. Cowan is charged openly with garbling a newspaper attack on Mr. McInnes, the Liberal candidate in Vancouver, and the facts prove the charge. Now the Ottawa Citizen is clearly proven to have cut out of the official report of a deputation which waited upon Sir Wilfrid Laurier, relative to the moral condition of the Yukon, the letter of instructions given by the government to the Commissioner of the Yukon, on May 22 last, in which he was required to fully enfore the law. Notwithstanding these disreputable tactics the country, thanks to the press, will be well informed as to the truth and will resent such miserably mean actions in the playing of the political game.

LOCAL NOTES.

A meeting of the police commissioners is called for this afternoon, it being understood the social evil will be the principal subject.

Today week the representatives of the local municipalities interested in the promotion of a joint water scheme from Seymour creek, or other source north of Burrard Inlet, will meet at Vancouver to discuss the matter further.

The thirteen cases arising out of the raid on the disorderly houses came before the magistrate in the city police court yesterday morning, only three appearing to answer the charge of keeping houses of ill-fame, while ten others summoned as inmates, failed to put in an appearance and bench warrants were issued for their arrest. The cases of the three present were adjourned till Thursday at the request of J. P. Hampton Bole, who appeared for the defence. W. G. McQuarrie prosecuted.

A serious accident was narrowly averted on the B. C. E. R. car line about seven o'clock yesterday evening, when the motorman in charge of a car bound for Vancouver was forced to suddenly apply the brakes and reverse the power to avoid running over a man lying prostrate on the tracks just beyond the Royal City hotel. The name of the individual who recklessly endangered his life could not be learned, as he shuffled off into the darkness as soon as the car stopped.

Tonight A. T. Waters, a pioneer medical missionary of Africa, will give an interesting and instructive lecture in the Salvation Army barracks. The subjects for the evening will be "How I Got to Africa," "Pioneer Missionary Travels," and "Work Amangst the Untutored Natives of the Interior," etc. The travels of Mr. Waters have been extensive, and the work to which he has devoted his life and talents has been marked by its marvelous success.

At the residence of J. D. Atkinson, West Burnaby, on Saturday evening, William North and Miss Nina Jackson, both of Nelson, were united in the bonds of holy matrimony by the Rev. F. A. Magee, of West End Methodist church. The bride, who was given away by Mr. Atkinson, was attended by Miss Katie Atkinson, while the groom had the support of Audrey Jackson, brother of the bride. The young couple left on yesterday morning's train for Nelson, where they will make their home.

Fisheries Inspector North yesterday morning started on a little cruise amongst the Japanese fish curers located on the river, of whom there are said to be thirteen, and from each a license fee of $100 will be collected in addition to which each boatman engaged in fishing for curers will be forced to hold a license, the cost of which will be $2.50. Before any license will be granted, however, the Japanese will have to become naturalized British subjects. When the thirteen hundred odd dollars in fees have been added to the provincial treasury, Inspector North will make a round of the curers at Nanaimo and Jervis Inlet, who will also be asked to part with a hundred dollars each.

CARD OF THANKS.

We wish to thank the many kind friends who showed their sympathy in our sad bereavement; also those who sent floral tributes. J. J. Hood and Mrs. W. Baily.

SUPREME COURT CHAMBERS BEFORE JUDGE HOWAY

Lane vs. Cochrane: For service ex juris. Application adjourned. W. F. Hansford for plaintiff.

Bartlett vs. Tatelshi: Application to set aside judgment adjourned till Oct. 16. J. P. Hampton Bole for plaintiff, and W. M. Griffin for defendant.

In re Eliza Kent Murnie: Order for letters of administration granted on filing affadavit of death. J. R. Grant for executors.

In re Difends: Order for letters of administration. J. D. Kennedy for executors.

QUAKERS STRAT FIGHT ON SPEAKER CANNON

Lawrence, Kan., Oct. 12.—The yearly meting of the Friends (Quaker) church of Kansas, Oklahoma, Missouri and Nebraska, in session here with 1000 members present, has passed a resolution whereby a petition will be sent to the house of representatives asking the members not to elect Joseph G. Cannon speaker on account of his attitude toward the temperance question. This is considered remarkable, as Cannon was reared in the Quaker faith.

Wireless Record Broken.

San Francisco, Oct. 12.—A new record in wireless telegraphy is claimed by the United Wireless Telegraph company, which from its station on Russian Hill in this city established communication with the Kuhuku station on the island of Oahu, of the Hawaiian group. The station at Kuhuku was caught at 1:30 o'clock this morning and messages were exchanged until 4 a. m.

NOTICE

The regular monthly meeting of the Westminster Publicity Association will be held in the board of trade room, City hall, on TUESDAY evening, Oct. 13, at eight o'clock.

Mayor Keary is expected to complete the immediate work connected with the exhibition by tomorrow or Thursday, and the office will then be moved to the city hall.

All dealers handle "B. C." and "Old Sport" cigars. The old reliable brands. **

W. R. Johnston, G. Johnston and G. H. Ferguson returned yesterday from Nicomen Island, after a few days successful grouse shooting. Mr. Ferguson left today for Alaska before returning to his home in New Brunswick.

C. Hamber, a member of the old firm of W. J. Walker & Co., has returned to the city, after an absence of some years, and commenced business anew as an accountant and auditor, with offices in the Brine block. Mr. Hamber is well known to many old timers of the city and will be likely to enjoy a good connection. **

Andrew Halkett, naturalist in the geological section of the department of agriculture at Ottawa, who has been here in connection with the Dominion fisheries, left yesterday for Regina on government business.

Officers of the Matsqui Farmers' Institute have recently completed arrangements for the providing of stumping powder to members of the association at either Matsqui or Abbotsford, at the low price of $5.80 per case.

For first class cut flowers, pot plants or bouquets, telephone Davis & Son, florists. Tel. B 208. **

The funeral of the seven-year-old daughter of Matt Simpson, of the Scott road, Surrey, who died from diphtheria on Friday afternoon while her mother was away summoning assistance, took place yesterday afternoon at Surrey Centre cemetery. W. E. Foley had charge of the obsequies.

Many enquiries have been received for the debentures soon to be disposed of by the city council. Not only Canadian, but American financial interests are making application for particulars, among those received yesterday being from leading firms in Chicago and Cincinnati. Another two weeks have yet to elapse before the opportunity to bid closes.

A prominent builder of this city has been mercilessly twitted for the past few days, he being suspected of having shot a tame cat under the impression that it was a grouse while indulging in a day's hunting in the Delta. While the accused party strenuously denies the charge, the evidence of reputable witnesses, reinforced by the clammy corpse of the feline, is all against him.

After being lost for the past three weeks, "Rex," a valuable Irish setter owned by W. E. Sinclair, and one of the best known canines in the city, returned home yesterday in charge of "Bill" Free, who located the erring dog in Vancouver, where he had been held in captivity by a party of sportsmen who had been out on a hunting trip to Howen Island. "Rex," during his wanderings in foreign fields, has lost considerable flesh.

The final meeting of the Westminster Lacrosse club executive will be held at Ryall's office this evening, when all accounts owing by the club will be passed for payment. All persons having claims against this association are requested to send in their bills as early as possible, as no accounts can be passed this year after tonight. Other matters of importance will also be dealt with at the meeting.

It does not seem that the improvements of the Queen's park oval will take the thorough-going character anticipated at first, to judge by a discussion at the meeting of the City council last evening. Although the matter is still sub rosa, owing to a committee having been appointed consisting of Ald. Johnston, Gray and Garrett, with Superintendent of Works Furness, Superintendent of Waterworks Stott, and the park ranger, Ralph Robertson, the scheme now outlined may be said to be to fill the holes rather than re-turf before spring returns. An effort will also be made to confine the water running from near the Third avenue gate into a better channel and forming a pond for ducks and swans.

ADVERTISE IN THE NEWS

QUEER LOVEMAKING.

A South American Bird Which Wins Its Mate by Dancing.

There is a bird in South America that makes love with its feet. It is a handsome creature, but walks clumsily, and the only sound it can utter is a hoarse cluck. It dances, however, in a way that wins admiration from the females of its sex, though its antics only serve as an incentive to laughter to human beings who see them.

This bird, known as the cock of the rock, lives in the northern mountainous portion of South America. It is about the size of a large chicken.

The entire bird—body, head wings and tail—is blood red in color, with the exception of the tail feathers, which have a narrow band of brown across them near the ends which are tipped with buff. On the head is a crest of feathers like a great red ball, which contracts or expands at the pleasure of its owner.

When the mating season comes seven to ten males seek some secluded spot where there is a level patch of ground and clear it of any sticks, stones or leaves, stamping down the dirt till it is hard and level.

Then they call the females, who stand at the edges of this novel arena. One at a time the males then perform a most curious dance. Each dancer will first strut up and down a few times and then, to the apparent delight of the rest, commence to caper around in an extremely ludicrous manner, spreading his tail and wings, puffing up his crest, bowing to the others and at the same time keeping up a hopping gait until he is exhausted.

When all the males have danced each female will choose a mate, and the happy pairs depart to begin housekeeping.

BIRD SUPERSTITIONS.

Queer Beliefs That Were Held by the Ancient Mariners.

Birds as inhabitants of the air were naturally chosen by the ancients as oracles and augurs of future happenings. The sensitiveness to atmospheric changes shown by many birds aided in establishing these notions. The real indications often furnished by sea birds of a coming storm or calm were doubtless magnified by the anxious, superstitious sailor.

The custom of hanging the sea swallow so that the bill may point to the wind arose from the old time custom of suspending the bird by the feet, expecting it would renew its feathers as if alive.

Divination by the flight of birds was a favorite method in the olden times. Sailors watched their flight for indications of prosperous voyages and favoring winds. As they were thought to fly through the air to heaven, they easily became messengers of the will of the gods.

The albatross is believed by Jack tar to sleep on the winds. It was at one time thought that the petrel hatched its eggs under its wings.

The kingfisher was at one time kept in chests to keep away moths.

The fishhawk was esteemed a bringer of good luck; it boded good or evil as its cry was to the right or left.

There was an old superstition that gulls were never seen bleeding. Shooting stars were then supposed to be the half digested food of winter gulls.

CLEOPATRA.

The Story of Her Death From the Bite of an Asp.

It is admitted that Cleopatra killed herself to avoid being exhibited at Rome in the triumph of Octavius, who had made war upon her and Antony because the latter had divorced his (Octavius') sister on the queen's account. But did she die from a snake's bite? It is better to think not. "If her death had been caused by any serpent, the small viper would rather have been chosen than the large asp, but the story is disproved by her having decked herself in the royal ornaments and being found dead without any marks or suspicion of poison on her body."

Death from a serpent's bite could not have been mistaken, and her vanity would not have allowed her to choose one which would have disfigured her in so frightful a manner.

Other poisons were well understood and easy of access, and no boy would have ventured to carry an asp in a basket of figs, some of which he even offered to the guards as he passed, and even Plutarch shows that the story of the asp was doubtful. Nor is the statue carried in Augustus' triumph, which had an asp upon it, any proof of his belief in it, since the snake was the emblem of Egyptian royalty. The statue (or the crown) of Cleopatra could not have been without one, this was probably the origin whole story.

Shakespeare or Shakspere?

It is not to be wondered at the boys and girls are sometimes puzzled over the spelling of the great poet's name. It is written in three different ways—Shakespeare, Shakspeare and Shakspere. Which of these is right? The first is generally preferred, though many of our best scholars write it Shakspere contending that it is right because his autograph signature appears in that form. At the same time it should be remembered that the name appeared as Shakespeare on the title page of books that he superintended, and this warrants the belief that he accepted it as the correct spelling, in spite of the autograph signature. There is very little authority for the form Shakspere.

THE STAGE

"The Rivals."

Nowadays, as theatrical managers are looking high and low for sensational dramatic material—when the book of the day is quickly scissored and pasted into a play, and the latest tragic police news is manufactured into a melodrama—Joseph and William W. Jefferson continue on their popular and successful way with "The Rivals," in which the human heart is deliciously involved and laughs are the jolly companions that lead us from scene to scene to the very last act. Nothing meretricious—nothing prurient—nothing "advanced" figures in this delightful play; it is clean, happy and wholesome. Local theatregoers will have an opportunity to witness the magnificence and multi-phased beauties of the acting of these histrionic artists and will understand and appreciate it and have the rare satisfaction of knowing that the Jeffersons have added to the gladness and gaiety of the nation without giving the shadow of offense to the purest minded person. The comedy is mounted in elegant fashion and the supporting company will be one of the best that has ever visited this city. This classical offering comes to the opera house tonight.

"The Flaming Arrow."

Lincoln J. Carter will present for an engagement of one night, Wednesday, Oct. 14, the stirring drama of western life, "The Flaming Arrow." The story relates the love of a daughter of a colonel of the United States army, commanding a western post, for a young Indian—White Eagle—and the machinations of two villains which furnish the motives of the action. The villain inflames several braves to make war on the forces at the fort and in the attending excitement abduct the commander's daughter. The daughter, after a series of hair raising adventures, is rescued by her Indian lover and justice is dealt out to the villains in true western style. The cast is a large one and contains the names of many prominent people. A tribe of full blooded Indians is also carried. The scenery is said to be especially elaborate, many of the scenes being taken from real life.

"The Honeymooners."

After George M. Cohan produced "The Honeymooners" at the New Amsterdam theatre last summer his reputation as the brightest and most popular of American composers and librettists was doubly assured for "The Honeymooners" made an instantaneous success and ran all through the heated term to capacity houses at winter prices. It is this production which, with a cast of twenty and a chorus of forty girls comes to the opera house on Tuesday. "The Honeymooners" is the most popular of the Cohan song shows. It is packed with excellence. There are twenty musical numbers in which the young composer is heard at his best, there are a dozen beautiful dances in which Cohan is seen at his best as a stage manager, there is a dashing and exciting plot which reveals Cohan as a born dramatist and there is a crisp kindly satire and bubbling humor that reveals Cohan as a great humorist.

BULGARIANS CROWN PRINCE FERDINAND CZAR

Populace Goes Wild With Joy When the New Ruler Is Crowned—Austrian Minister to Servia Reported Assassinated---Germany Supports Austria.

Sofia, Bulgaria, Oct. 12—Prince Ferdinand of Bulgaria was crowned Czar of Bulgaria and his wife was crowned Czarina today amid wild demonstrations from the populace. The new flag of Bulgaria was unfurled and the populace went wild with rejoicing.

Vienna, Oct. 12.—It is reported here today that Count Bergach, the Austrian minister to Servia, has been assassinated. The city is in a fever of excitement and warlike demonstrations are being made.

Communication with Belgrade has been cut off and it is impossible to verify the report. The foreign office discredits the rumor, but has no authoritative information.

Mob Sacks Austrian Consulate.

Buda Pest, Oct. 12.—The Austrian consulate at Antivari, a port in Montenegro, in the Adriatic Sea, was attacked by an infuriated mob today. The royal coat of arms was torn from the door and burned in the street, while the crowd danced about, yelling like maniacs.

The building then was sacked and the authorities rescued the attaches just in time to save their lives. It is probable that some of the Austrian officials would have been murdered if they had fallen into the hands of the mob, which was beyond control.

Two Austrian warships have been ordered to the scene and now are en route.

Servians Invade Hungarian Territory.

Belgrade, Oct. 12.—A band of Servians today burned an Austrian ship and carried the Hungarian flag to the public square and burned it, with wild cries. The Servian government appears to be unable to check the warlike tendencies of the people. According to a despatch received here today, Servian custom officials from the town of Shabats went to the Ostand of Bajakulitz, Hungarian territory, today and drove out all the Hungarian customs officials with arms, and now hold possession of the fort.

A despatch from Canea, Island of Crete, says that the Cretan parliament today formally voted the union of Crete and Greece.

Servia Votes War Appropriation.

Belgrade, Servia, Oct. 12.—The Servian national assembly today voted in favor of making an extraordinary military appropriation of $2,000,000 to meet the immediate demand of mobilizing the army and protecting the frontier. A resolution was adopted containing the following significant explanation:

"After hearing the government's explanation, parliament expects to exert the most vigorous activity to protect the threatened interests of the nation."

Despite the active preparations of war, there is a quieter feeling among the people today. This feeling, it is said, is due to the realization that Servia is not prepared to make war successfully against Austria. An explanation is that the people are now convinced the government is preparing for war and are satisfied with the development of events.

Servia today demands the secession of Sandjak from Austria and a money compensation for the annexation by Austria of Bosnia and Herzegovina.

Germany Will Support Austria.

Paris, Oct. 12.—According to a despatch published in the Temps this afternoon, the attitude of Germany in regard to the troubles in the near East is that there has been no violation of the Berlin treaty. The despatch says that Germany holds that the annexation of Bosnia and Herzegovina by Austria and the declaration of independence by Bulgaria is not a violation of the treaty.

If the Temps despatch is correct, it means that Germany will support the claims of Austria, which in effect, is the same as that set forth as the attitude of Germany.

SEWER AND STREET WORKS NECESSARY

(Continued from Page 1.)

number of items already dealt with in these columns. Superintendent of Waterworks Stott reported favorably to rebates being granted on water waste, but the council was divided, and a resolution of Ald. Shiles opposing rebates was carried on a division.

Two Claimants.

R. H. Gordon, agent of the Montreal-Canada Fire Insurance Co., wrote asking for a renewal of the $3000 insurance on the cattle sheds at Queen's park.

A. W. McLeod, on behalf of the Ontario Fire Insurance company, also asked for renewal of insurance on the same property.

The letters were referred to the finance committee.

Miscellaneous.

The secretary of the general board of missions of the Methodist church, Rev. W. R. Young, wrote thanking the council for being present at the banquet held on October 7 at Columbian college, and for the special car provided. The letter was filed.

T. A. Gieschen, an old taxpayer, applied for aid to obtain work, being in difficulties. The council passed a resolution empowering the chairman of the board of works to find the man a job.

R. J. Watson asked for the extension of the sidewalk on Regina street between Second and Third streets. Referred to the board of works to report.

Considerable discussion took place on the condition of some of the Sapperton streets, especially Hospital street and Blair avenue, to Sherbrooke street. The council decided to leave the matter to the board of works, with power to act.

A. W. McLeod, as agent for the house of Lot 22, Block 9, suburban block two, Sapperton, wrote with reference to the water supply at the house, not being satisfied by the treatment accorded by the department. Referred to the water committee to report.

H. Schaake met the council with reference to the lease of his water lots.

COLONIAL OFFICE WILLING TO ASSIST RHODESIAN RAILWAY

London, Oct. 12.—The Standard understands that as a result of the prolonged negotiations between the colonial office and the Chartered South Africa company the government has consented to guarantee it either a loan of $50,000,000 or interest on Rhodesian railway debentures to a similar amount with the object of assisting in the development of the company's territory and railways.

AUTHOR IS KILLED IN NORTHERN WILDS

Winnipeg, Oct. 12.—It is reported from the Pass that James Oliver Curwood the well known American author of Detroit, Mich., who recently went into the Hudson Bay wilds for the Bobbs Merrill Publishing company, has been killed by Cree Indians in the Lac La Rouge country.

The trader through whom the report comes says that the Lac La Rouge Indians assert that the white man began the trouble by shooting one of their number. The report of the Northwest Mounted Police, who are investigating the case, is expected in a few days.

MOOSE WALKED AWAY WITH TELEGRAPH LINE

Dawson, Oct. 12.—A bull moose became entangled in a telegraph wire which is being stretched along the Yukon Gold company's pipeline near Kentucky point. The animal made a desperate struggle, and after becoming badly entangled walked off with a mile of wire. He is still moving through the woods with the mile of wire wound round him like a spool.

Columbus' Anniversary.

New York, Oct., 12.—The 116th anniversary of the discovery of America by Columbus was celebrated today by the Italian-Americans of New York. A parade of the Knights of Columbus was held today and banquets, balls and festivities will be held tonight.

ASIATICS TERRORIZED BY ANGRY ELEMENTS

San Francisco, Oct. 11.—The ship Star of France, belonging to the Alaska Packers' association, arrived here today from the Arctic, after experiencing one of the most severe storms ever encountered by her commander, Capt. Starr. For three days she lay on her beam ends and her yards were stripped clear of canvas. The storm reached its height on September 19, when it was necessary to use a large quantity of oil to calm the sea. There were 100 Chinese and Japanese cannery hands on board, who were terrorized with fright during the gale.

CONTRACTOR NAILS TORY CAMPAIGN LIE

Insinuation That Liberals and Railway Builder Intended to Defraud Country Promptly Denied.

Ottawa, Oct. 11—M. J. O'Brien, who has several contracts on the National Transcontinental railway, was interviewed today in respect to the statement made by T. W. McGarry, M.L.A., at a political meeting at Pakenham to the effect that a contractor, presumably himself, had contributed $400,000 to the Liberal campaign fund, and that it was to be repaid through the contract later on. When seen today, Mr. O'Brien declared that there was absolutely no truth in Mr. McGarry's statement and, referring to the McGarry charges, said: "If any such political subscription had been made it would be utterly impossible for the man who made it to get his money back. The only way in which it could be returned would be by means of fraudulent classification, and this would involve a conspiracy to the country, extending from the commission down through its officials to the resident engineers who check the work. It would involve also collusion of the Grand Trunk Pacific railway engineers, which could not be obtained, since the Grand Trunk, under the terms of its contract, is to pay the interest on the cost of the road for fifty years."

Judgment Summonses.

Yesterday before His Honor Judge Howay:

Brennan vs. C. S. Martin: Adjourned till November court.

Corporation of New Westminster vs. Moody: Adjourned till next court.

T. J. Trapp vs. H. B. Owen: Ditto.

Sinclair vs. Brymner: Ditto.

Canada Law Book Co. vs. Hansford: Adjourned till next court.

Schaake Machine Works vs Selkirk & Ainslee: Adjourned till November court.

Ward vs. Kenny: Set for day to be fixed.

Sunday Closing Law Questioned.

Portland, Ore., Oct. 12.—That the Sunday closing law as provided by the state legislation is unconstitutional, was the decision of presiding Judge Gantenbein in the circuit court today. The decision of Judge Gantenbein was handed down in deciding a demurrer which had been filed by the state through the district attorney's office in answer to the injunction granted by the presiding judge restraining the police deaprtment and all other city officials from making any arrests for violation of the Sunday closing law.

IMPORTANT

When You Are Sick

That you should have the very best attention. Now, we are not doctors, neither do we profess to be. It's not our business to prescribe, we prefer letting your doctor do that. Where we come in is when you want the prescription filled, through this channel we co-operate to bring about a cure. Our duty is plainly to give you exactly what the doctor orders, and of the best quality, this is where the honor of the druggist is tested. To put it mildly, the druggist who is not honest with the sick is a disgrace to the profession. We want to fill your next prescription no matter what doctor writes it, and we pledge our honor that you will get a square deal as to correctness, quality and price. We have been twenty-five years in business here and are willing to be judged by our record. If you cannot afford to pay for your medicine we will supply same free of charge.

CURTIS'

DRUG STORE

NEW WESTMINSTER.

P.S.—Can give you better value on spectacles than others. We make a specialty of this line

An Underwear Department That Can Supply Your Every Need

It is not the ordinary kinds of Underwear for women, misses and children that are to be found here. True it is that we carry many lines which are similar to what you can buy elsewhere, but then again we pay special attention to the selection of unusually good underwear lines which other stores think it is not worth while to bother with. Take the time to read about the lines mentioned below. Then visit our underwear department and see for yourself if our values are not all we claim. Just mention any line you wish to see and it will be shown to you with pleasure.

Ladies' Wool Combinations

Union and All Wool Makes

Penman's Natural Wool Combinations. Each ..... $2.50 and $2.75
