DERMEN APPROVE PRINCIPAL OF CIVIC LICENSING OF CLUBS

onged Meeting of Council Considers Social State of Chinatown—Position of Clubs Again in Limelight—Further Delay Over Telephone Pole Settlement.

e longest meeting of the city il for years was occupied last ng in discussing the vexed quest- f the opium traffic in Chinatown he alleged abuses of that unsav- eighborhood. The aldermen, at layor's request, all placed them- on record in favor of the li- g of clubs, but were not unamin- ith regard to raising the fees of licenses. The expected solution e Albert Cresent telephone pole ing did not mature and was re- d back for further information.

Licensing of Clubs.

Bose, hon. sect. of the B.C. Union unicipalities, drew the council's tion to the necessity of paying embership fee at once, and men- d that the next meeting of the tive would take place in Victoria, ctober, when a conference will be to meet the Attorney-General. A ing would take place in Vernon g November.

e Mayor explained that the fee lready been paid, but there was tter which was of considerable rtance submitted to the executive regard to the licensing of clubs. s a matter of great importance to ities of the province. He would that an expression of opinion d come before each member of ouncil, whether the clubs of the hould pay a license to sell liquor, . Continuing his worship said s strongly in favor of every club a license to the city. The West- er club for instance paid nothing e city, and he presumed it sold ch liquor as any hotel in town.

Aldermen Agree.

. Shiles thought it was doing an tice to those who paid license for matters to continue as they

. Fader said he wished to express ame views as Ald. Shiles. There no reason why clubs should not he same license as similar insti- ns in town.

d. Jardine believed they had never called upon for an expression of opinion in council, but they had often agreed with the views of the Mayor in committee. Those institutions, which were doing business in the city, should contribute to the city funds as others.

Ald. Johnston also understood that the members of the Westminster club individually did not object to a license. He was glad that they had checked a so-called club which was prepared to operate. He was sure the council was unanimously of opinion that the clubs should be governed under civic regulations.

License Fees Introduced.

Ald. Garrett thought that every member of the council who had spoken so far had certainly been in favor that the Westminster club should pay a license and the council, that the council should have the right to say how they conducted their business. The alderman pointed out how difficult it was to control those clubs, whose blinds were often down over the windows. He agreed that the clubs should not object to pay the licenses. That competition with licensed sellers was unfair to men who had invested their capital in business. Perhaps they might get an increase in the fees for licenses, not merely for clubs. They had been asked to deal with that question, and the whole proposition ought to be considered.

Hotels Have Difficulties.

Ald. Henley sympathised with the subject under discussion, but pointed out there were difficulties. Those clubs were often run on shares. Hotels had long bills to pay, and sometimes they got left like other people, so that had all to be considered before the license fees were raised.

The mayor said the expressions of the aldermen would help him when, as president of the B. C. Union of Municipalities, he came to speak on the question. As to what Ald. Garrett said about the blinds, those clubs were supposed to conduct their business on proper principles. With regard to raising the cost of licenses, it was a matter for consideration. He had promised that the council should look into that question for the police commissioners, and Ald. Jardine had that matter under consideration, but there were difficulties in the way, as had been remarked.

Telephone Poles Again.

G. C. Hodge, district superintendent, wrote asking the council to sanction poles being put along Agnes street, down the west side of Dufferin street, and asked the council to provide regulations to prevent tacking signs, and notices on telephone poles. The latter part of the communication was adopted without trouble, being referred to the police committee. The former suggestion, which is the proposed solution of the Albert Crescent pole difficulty, provoked a keen discussion.

"A Rotten Service."

Ald. Gray suggested that the construction agent should be permitted to use Dufferin street. It would be a great improvement to accept the proposal now suggested, in order to keep the poles off Columbia street.

The mayor objected that the poles would not be removed from Columbia street if the proposal was permitted. He did not wish the poles to go down Dufferin street, for it was a very narrow street and they must think of the future. He still thought that the company should cross Albert Crescent underground.

Ald. Gray said that it meant that the Crescent must be drained, and it was probbaly for that reason that the company wished to use Agnes street.

The mayor: "I hold that the telephone company should pay for the cable underground. The telephone company has not given as good a service as we ought to have in this city. The telephone service is rotten. It is of the worse type." He admitted that the company was trying to improve it, but up to the present it had continued most unsatisfactory. They were putting up good poles now and doing good work.

Settlement Postponed.

In the course of the discussion it was gathered that the B. C. E. R. would require their poles for the present on Columbia street and the change would not benefit it.

Ald. Jardine moved an amendment that the committee specially appointed at the last meeting should report to the next meeting.

The amendemnt was adopted, no one voting against it, though Ald. Gray remarked that it would go out in the papers that the council was opposed to the company's actions.

Mayor: "If you are afraid of the papers you had better get out of civic life." It was, he continued, a matter which was of importance to Sapperton, as the double tracking of the Sapperton line was under consideration, and he was as keen as Ald. Garrett for the improvement of Sapperton. He hoped to live to see the hospital rebuilt.

Anti-Opium League.

A petition from the Anti-Opium league with reference to opium smoking in Chinatown was read. The petitioners requested that acting steps should be taken by the passing of a by-law making the sale and use of the drug illegal, or the issuing of instructions to the chief of police to close all places where Chinamen congregate for the purpose of smoking opium, or by such other measures as they in their wisdom might think fit.

No Power to Act.

The mayor remarked that they had no power to act, or say that men should not use opium. They had one opium manufacturer licensed today, and obtained a premium of $500 a year. He understood that the Dominion government had passed some legislation recently that no more opium would be sold after a specified period.

Whisky Selling.

Ald. Gray remarked that if there was only one manufacturer, there were ten or twelve who sold opium. They had many complaints of Chinamen illicitly selling whisky.

The mayor pointed out how difficult it was to prove charges of selling whisky by Chinamen, or of the existence of opium dens, or gambling places. They knew that four or five thousand dollars had been paid in duty, but it was impossible to prevent it, as the liquor was sold down the river. They had never been able to get a conviction yet, and they had the best chief of police they had ever had.

Difference of Opinion.

Ald. Garrett said he had often been through Chinatown with the chief of police. Those things mentioned were being carried on, and liquor could be obtained in the district if desired. On Sundays dry goods could be bought in Chinatown, and things permitted to the Chinese that a white man dare not do. There were a dozen places where they could see gambling going on, and the money of the working Chinese going into the tills of professional gamblers. Time and again such sights could be seen.

Ald. Fader said that since he had become chairman of the police committee he had frequently been down in Chinatown, and had seen nothing on a visit as recent as Saturday of the vices complained of. Just as a man might buy a case of whisky at the Russell hotel and take it out to drink elsewhere, so might a man procure opium, and smoke it where he liked. They could not prevent it. He would vouch that he had seen Chinatown in good order on that occasion. Amid laughter he explained that he had tasted one of their alcoholic preparations, and could not distinguish its taste from water.

Police Opinion Wanted.

The mayor said he was not in the

(Continued on Page Eight.)

INSPECTOR NORTH MAKES "CAPTURES"

Provincial Fisheries Guardian Gets Summonses for Men Without Provincial Paper

Inspector Sam North, patrolling the water of the Fraser on board F. S. DeGrey's launch "Homespun," yesterday afternoon discovered a number of fishermen exercising their craft without being supplied with licenses issued by the Provincial government. Summonses for the appearance in the district court of these men were issued by Magistrate Pittendrigh early in the evening.

A number of Indians and some Japs were caught fishing above Westminster bridge. These will also have to appear in court to state their reasons for disregarding the instructions issued by the McBride-Trap owners' combination.

It is altogether probable that these cases will be adjourned until the Kendall case has been disposed of, this latter being the first of the kind to be tried by the courts. Inspector North will be in evidence on the Fraser river again today, and will probably make a few more "captures."

ELECTRIC RAILWAY EMPLOYEES AND FRIENDS PICNIC AT LANGLEY

Two Hundred Spend Day in Country—Amusements Were of All Kinds---Tug of War Between Langley and Local Men Was Feature of Sports Program.

After lapsing for a year owing to the difficulty of securing transportation, the Westminster B.C.E.R. employees' picnic was resumed yesterday, and thanks to the kind offices of the weather clerk and the activities of an energetic committee, was a most successful event. Four years ago Langley was chosen, and the experience gained on that occasion determined the promoters to choose the old settlement as their picnic ground. The fact that the journey was short by river, giving a long time at the selected rendezvous, was an important factor in chosing Langley.

Arrangements for Party.

Two steamers, the Beaver and Ramona, were chartered, and proved ample to carry the excursionists, for although about two hundred made the trip, quite 300 tickets had been sold. The price was fixed low enough to meet expenses. From the very nature of the men's employment, only a certain number could attend, but their families were largely represented. Among the officials of the company present were F. R. Glover, acting general manager, B.C.E.R.; D. J. McQuarrie, local manager, and T. Driscoll, manager of the car shops.

The Catering.

The two boats left the C.P.N. wharf at 8:20, reaching Langley in a couple of hours. The swollen state of the river was noticed at several points, more than one grower having his potato patch under water. A number of fishermen were observed with their nets out in the upper reaches. Upon arrival the excursionists had about two hours to spend as they desired. The Commercial and Langley hotels catered for a succession of guests, and lighter refreshments, as ice cream and fruit, were dispensed just outside the grounds by the ladies' auxiliary of St. George's church. Also on the boats Owen Burdett catered to passengers. Musically the party was provided for by Harper's orchestra.

Excessive Heat.

The country was seen to its best advantage at the present time, with bracken and foxgroves in every hedgeside. The crops and fruit were looking well; quite large areas of wheat and oats being under cultivation in and around Langley. There was only one thing to militate against pleasure—the excessive heat, and the unceasing worry of insects. If no records were broken in the races, and no phenomenal score made by baseball or football players, no one was to blame: The sun was too powerful to encourage anyone to extraordinary exertions. The Municipal hall was the headquarters for the day, and offered very welcome shade from the playing field, which had been hired from John Taylor.

The committee responsible for the arrangements were Ralph Wilson, chairman; J. Archibald, Lance Grimmer, Ross Jameson, A. Mercer, and C. Feeney, secretary-treasurer. The sports committee were W. Simcock, F. Robinson, Ralph Jameson, and W. Silver. D. Ostrom was the dance manager. Reference should also be made to the efforts of Messrs. Berry and Coulter, of Langley. Throughout the afternoon dancing was kept up in the Municipal hall, but conditions were unsuitable for so exacting a pastime. The winners of the waltzing were: Women, Mrs. (Capt.) Young, Westminster; men, Mr. Walker, Vancouver.

Baseball Match.

The teams for the baseball match were:

Employees B.C.E.R.—Eastman, c; Silver, p; Sinclair, 1b; Jameson, 2b; Ostrom, 3b; F. Robinson, ss; Feeney, lf; Grimmer, cf; Fitzgerald, rf.

Central Park—Ladner, c; Silver, p; Bird, 1b; Gray, 2b; T. Robinson, 3b; B. Ferguson, ss; Baines, lf; Frodsham, cf; Parker, rf. Umpire, D. Sullivan.

Score by innings:

Central Park,	2	2	3	1	0	0	3	0	1	—12
B. C. E. R.,	0	2	0	0	2	4	1	4		—13

Good Win for Employees.

The game was often a farce, especially in the fielding, and errors were numerous. Until the fifth, Central Park had matters all their own way, but the employees then going in to bat, Jameson hit a ball over first base and made a home run, also taking a man in. In the sixth, Silver for the employees, repeated Jameson's hit in the same direction, bringing two men in and himself making a home run. The game, however, was undecided till the eighth, when the B.C.E.R. run out two ahead, and as the Park failed to equalize in the ninth, the employees won by thirteen to twelve.

The Sports.

W. T. Cooksley was a capable starter, and members of the committee judged the sports, which took place during the afternoon. The principal results were: Single women's race, 1, Kate Bourke; 2, Muriel Hooper. Married women's race, 1, Mrs. Allen, Langley; 2, Mrs. Constead, Langley. Homestead race, Mrs. Allen. 220 yds. men, 1, W. Robertson; 2, —— Dunsmuir. 100 yds., men, 1, Robertson; 2, Donnett.

The tug-of-war was a most exciting contest, and proved one of the best items of the day's pleasure. The teams were: Employees B.C.E.R., Coulter, Kerr, McDonald, Brooks, Rumble, Kingston, Jameson and Routley. Langley, Dare, Mowatt, Hooper, Titmus, Bine, Blair, McDonald, and Skea. The first pull was an easy thing for Langley.

A Splendid Performance.

The second, however, saw some of the finest pieces of work perhaps pulled off in a tug-of-war on this coast. Entrenched in holes cut in the sod, the eights lay down on the ground, and simply pulled against one another for the space of twenty-five minutes or more. The heat was oppressive, and the crowd were so excited they would hardly give the teams breathing space. Finally Langley won. The comrades of the men fanned them with hats when all was over, and the men emerged with perspiration rolling off them, covered with sand and dust, the crowd broke forth in a demonstration seldom heard on such an occasion. Langley thus won in two straight pulls. Mr. Cooksley took a photograph of the victors.

Baby Show.

The winner of the baby show, under eighteen months, was George Morrison, a chubby Langley boy of eleven months. The award was well received by the crowd. F. R. Glover was the chief of the judges daring enough to question the superior knowledge of many mothers.

Football Match.

A football game between Westminster employees and Langley was too much of a scratch affair to call for much, and the visitors also were short of men. Langley scored twice, once from a penalty, in the first half, but failed to find the net again. Short time was played.

Return Journey.

When the Ramona left the wharf at Langley about seven o'clock, an alteration having been made in the arrangements, and the Beaver sent on previously, leaving one boat to carry the excursionists back, cheers were given by the departing passengers and the townspeople. About an hour and a quarter was occupied in the return journey.

A three table pool room will be opened early in August at the Colonial hotel, one of the sample rooms being now in the hands of workmen who are fitting it up for its new use. Two ordinary pool and billiard tables and one bagatelle table will be installed. Other important improvements are also being made at the Colonial, the interior being painted and repapered, while the dining room will be fitted up with a new floor and have several other alterations made.

Machines Replace Hop Pickers.

Redding, Cal., July 20.—Machines will take the place of hop-pickers in E. Clons Horst company's yards at Bohemia, Tehama county. Last year between 250 and 300 pickers were employed during the harvest. This year equally large crops will be harvested by five hop-picking machines and a few men.

xcitement Over Westminster-Shamrocks Game Is High

xcitement in connection with the mpionship lacrosse game which is be played today in Montreal bet- n the Shamrocks and the West- sters runs high in this city, the nces of the local team forming sole topic of conversation. There nly one viewpoint among the en- siasts of this burgh—the Sham- cks are simply nowhere, the differ- ce of opinion being confined to the mber of goals which will be scored.

The progress of the game will be ade known here by means of a C. R. bulletin service, the first mes- ge being expected about noon. The sult of the game should be known two or two-thirty o'clock.

Arrangements have been made by . Ryall to post the result of the ame by quarters on a blackboard in ont of his store, while several other places have also arranged for a bulletin service.

The dope is that the Westminster boys will work hard for a lead in the two first quarters of the game, playing on the defensive during the remainder of the match.

Shamrock Money in Sight.

A Vancouver sport giving the name and address of E. J. Murphy, Hotel Astor, telephoned over yesterday afternoon that he had several hundred dollars to back his opinion that the Westminsters would be beaten in today's lacrosse game against the Montreal Shamrocks. As Mr. Murphy offered to give odds, there was no difficulty in finding the necessary capital to take the other end of the wager, the News undertaking to negotiate the deal. The Shamrock backer, however, failed to be discovered at his usual haunts last night, consequently the money has not yet been placed. As it seems a pity to leave so much money lying idle in Vancouver when it could be used to advantage in this city, and as there are a number of loyal Westminster men hungering for the sight of a Shamrock wad, the above particulars are given publicity. It is up to Westminster to send a delegate over to Vancouver early this morning to get a cinch hold on those dollars, as it will be too late to get a bet up after 12 o'clock. The name, E. J. Murphy; address, Hotel Astor.

This Is My 53rd Birthday

Fred M. Warner.

Fred M. Warner, governor of Michigan, was born at Hickling, Nottinghamshire, England, July 21, 1855. When he was an infant he was brought by his parents to the United States. A few months after the arrival of the family in America, the mother died and the child was adopted by a relative living in Michigan. The boy's common school education was supplemented by a year of study at the Michigan State Agricultural College. After leaving that institution he engaged in business pursuits. In 1889 he became interested in the creamery industry, and in a few years he had built his business up to large proportions. While achieving marked success in business he also became active in political affairs as a Republican. In 1895 he was elected to the Michigan senate, serving until 1898. He was elected secretary of state of Michigan in 1900 and again in 1902, being the youngest man to hold that office since the adoption of the state constitution in 1850. In 1904 he was elected governor of Michigan and was re-elected to the office in 1906.

PACKERS RECEIVE ANNUAL REPORT

Condition of Fisheries on Fraser and Other Rivers Detailed by President.

At the annual meeting of the shareholders of the B. C. Packers' association held yesterday morning at the offices of the company on Granville street, Vancouver, the balance sheet for the last fiscal year was presented, directors elected, and the report of W. H. Barker, general manager, presented. The old directors were all re-elected as follows: W. H. Barker, Aemilius Jarvis, E. W. Rollins, E. E. Evans, Campbell Sweeny, William Braid and Robert Kelly.

The report of W. H. Barker on the business of the company for 1907 was as follows:

"We operated twelve canneries and one cold storage plant.

"The run of sockeyes on the Fraser rvier was almost a failure—the total pack of Fraser river was less than 60,000 cases. Our total pack from all points was 139,805 cases canned salmon, 180 tons mild cured salmon, and 2,783,978 lbs. of frozen salmon and halibut, besides a small quantity of cod, herring, sturgeon, etc.

"Quite a large part of our canned salmon was of the cheaper varieties, the packing of which shows little or no profit; the lower grades of salmon being in demand owing to the short supply of sockeyes.

"Betterments.—Our frozen and fresh fish business having grown beyond the capacity of our plant, we decided to enlarge it. We succeeded in getting a lease from the Canadian Pacific railway of three lots adjoining our plant, and have built an addition, which doubles our capacity and gives us two boilers, two engines and compressors, making a complete up-to-date cold storage plant. We have also added another cold room to our Balmoral cannery on the Skeena river, and installed a five-ton compressor there.

"Steamers.—We have built a new hull for steamer Constance's engines. We had a new boiler, and upon examining the hull, we decided that it would be unwise to place the new boiler in the boat. Our new steamer is well suited to our business in every way.

"Traps.—Our venture with Messrs. J. H. Todd & Sons in joint operation of traps, proved very satisfactory last year. We have arranged to continue it, and in addition, to operate jointly their Esquimalt cannery. So far the traps have done slightly better than last year in catching spring salmon. We trust they will do as well with sockeyes.

"Hatcheries.—Our Nimpkish hatchery again turned out its capacity of sockeye fry—about 5,000,000. The natural grounds were also well seeded. While our pack of sockeyes at Alert bay was not very large in 1907, being 4135 cases, taken in comparison with that of 1902, which was 17,772 cases, and 1903, 1505 cases, it would look as if the hatchery should get some credit. The hatcheries on streams tributary to the Fraser river turned out quite a large quantity of sockeye fry, about 50,000,000, everything was favorable for the retention of the parent fish. The natural spawning beds were not well seeded. The hatchery at Rivers inlet did better than last year, having turned out some 14,000,000 fry. The two hatcheries on the Skeena also turned out some 12,000,000. Both at Rivers inlet and the headwaters of the Skeena, the natural spawning grounds were well seeded.

"Cold storage.—As previously stated we have doubled the capacity of our cold storage plant, and have installed the boiler and engine of the tug Cleeve. Our fresh halibut shipments have increased a little, but not as much as we expected, probably owing to the hard times.

"Northern plants.—The writer has just returned from an inspection trip of the northern plants. All are in excellent shape and have made a fair start. The weather has been very bad; this interferes very much with fishing at Rivers inlet. We trust for the balance of the season they will have better weather.

"Preparations.— We are operating ten canneries this year, two less than last—seven north and three on the Fraser river. We have prepared for a pack of 152,000 cases, or a little more than we packed last year, when we did not succeed in filling all our cans, carrying over some 45,000 cases.

"Stocks.—We had on hand June 30, 1908, 12,554 cases canned salmon—mostly Fraser river halves. These should soon be disposed of at good prices; a few are being sold from time to time. Stocks are lighter than they have been for years.

"Finances—The balance sheet shows a profit for last season of $68,146.07. We have on hand canned salmon valued at $91,983.91, and have used in preparations for this season's pack, new cold storage, steamer, new machinery, etc., including amount of inventories of materials, $517,912.21. Stock of frozen fish in cold storage, June 27, $23,000, and sundry accounts, $28,986.42. We owed the banks June 30, $74,901.85; outstanding accounts, same date, $8,817.51.

"Your directors thought best to only pay a 3½ per cent. dividend last year, adding balance of profits earned to working capital."

This Date in History

July 21.

1773—Pope Clement XIV. signed bull for the extinction of the Jesuits.

1796—Robert Burns, Scottish poet, died. Born Jan. 25, 1759.

1797—Bonaparte defeated the Mamelukes at the battle of the Pyramids, and thus subdued Lower Egypt.

1861—Battle of Bull Run.

1874—Charges of Theodore Tilton against Henry Ward Beecher made public.

1899—Robert G. Ingersoll, American orator and lawyer, died.

1907—Fifty lives lost by the sinking of the steamer Columbia off the California coast.

WOMEN THREATEN DRASTIC LAWMAKER

Violence and Even Death Feared by Man Who Would Bar Cosmetics and Pads.

Atlanta, Ga., July 20.—Threats of dire vengeance and even death were received today by Representative Glenn, among the numerous missives from indignant women, from whom he had been hearing in unmeasured terms daily since he introduced a bill prohibiting the ensnaring of husbands by false charms. Glenn is in a very delicate position at home also, his wife expressing her indignation at the number of letters he is receiving from women and refuses to accept his explanation as to their nature.

Fearing that some fanatical woman will attempt to carry out her threat of death, Glenn has asked the House of Representatives to detail a sergeant-at-arms to constantly attend him as a personal bodyguard. He says the real danger of many of the women who have made threats against him is not to be doubted and he fears for his life.

Glenn's bill, which stirred up the tempest, provides that any marriage resulting from false charms of the bride shall be declared null and void. He put pads, false teeth, cosmetics, wigs and rats on the list of tabooed beautifiers.

Railway Sale Denied.

Bellingham, July 19.—Reports emanating from San Francisco and New York that the Bellingham Bay and British Columbia railway had been disposed of to a holding company and would be used jointly by the Union Pacific and Canadian Pacific railroads, are denied in a dispatch from H. H. Taylor, president of the corporation, to local officials. It had been reported that the Canadian line would use the road as one link in its new line from Vancouver to Seattle, while the American road would use it as a part of its road to the Canadian city.

Nelson's Growing Time.

Nelson, July 19.—The municipal power plant at Bennington Falls, nine miles west of Nelson, on the Kootenay river, of 1500 horsepower, supplying the city with light and power for tramway and industries, will be finally taken over on Tuesday next. The needs of the city are growing so fast that a second unit has become necessary, and the by-law will be submitted next month. The plant's capacity will be doubled this time next year.

The End of Books.

What brings about the end of books; is it fire, water, worms? As every ship launched is bound to be wrecked, every theater to be burned, the finis of the book is its reduction to ashes. What became of the Alexandrian library? Did the Saracens burn it in 640? There is this question asked. Was there any library at Alexandria containing 700,000 books? Gibbon inclines to the opinion that there was no such library. Canon Taylor insists that if there had been a library it was burned in the time of Julius Caesar. Tradition seems to indicate, however, that there was a library in the serapeum, by no means a large collection, but whether destroyed by Theophilus or Theodosius is not known. It looks as if the charge brought against the Arabs rested on no foundation. Explorations of Alexandria in 1895-96 show no traces of the serapeum. The seaport of Egypt was built on a damp foundation, and granting that there was a library, if not destroyed by fire, then the papyri might have suffered from decay due to water. Books of today taken to India, to the southern states and to the West Indies perish through mildew.

Robinson Crusoe.

The second volume of "Robinson Crusoe," by Daniel De Foe, published on Aug. 20, 1719, was the first story published in England with illustrations. The illustrations consisted of a map of the world, in which the different voyages of the hero of the tale were delineated. The first volume of "Robinson Crusoe" was published in April, 1719, and became popular at once. A second edition was printed seventeen days after the first, twenty-five days later another followed, and a fourth was published on Aug. 8 of the same year. On Aug. 20 the second volume was issued under the title of "The Further Adventures of Robinson Crusoe; being the second and last part of his life and of the strange, surprising account of his travels round three parts of the globe. Written by himself. To which is added a map of the world, in which is delineated the voyage of Robinson Crusoe."

A Curiosity in Figures.

The following remarkable contribution to the curiosities of figures consists of two series of numbers, of which no description is necessary, as they speak for themselves. Perhaps there is no special profit in them, but they are worth preserving nevertheless:

E. A. Paige.....Managing Director

TUESDAY, JULY 21, 1908.

DO NOT FORGET.

Do not forget that the Conservatives when in power did practically nothing on the Fraser river. What permanent improvements have been made were done since the Liberal administration took office in 1896.

"Thirty feet to the gulf."

DOMINION FINANCES.

Yesterday we showed up one of the most dirty and tricky methods adopted by the Opposition since they lost control of the treasury in 1896. The entering into an agreement with the minister of railways that he would make a statement with respect to the estimated gross cost to the country of the Grand Trunk Pacific railway, so as to give the finance lieutenant of Mr. Borden an opportunity to be prepared to speak in reply. The utter disregard for this arrangement by the leader of the Opposition, and an attempt without notice to provide material for campaign literature and the practical refusal to withhold that literature from the country until Mr. Graham had had an opportunity to make a statement in reply.

The management of the finances of the country by any government is a very legitimate subject of criticism. Theories may be advanced with the most silver-tongued oratory, but if the purse of the country has not been handled with due regard for the public interest then the party in control must be said to have failed. Notwithstanding the urgent requests by members of the Opposition for necessary outlays required by the advancement or expansion of their districts, they now raise a hue and cry about the extravagance of the Laurier regime since it has held power. Accusations of this kind appear to be the only stock in trade left to the Opposition. They charge the Laurier administration with the crime of doubling the expenditure since they took office in 1896. It is the only indictment ever made by the Opposition founded upon fact. With this charge they have only told half the story.

If they have continued to state that notwithstanding the reduction in taxation per capita since the first opportunity they had to present a budget in 1897 there has been an excess of receipts over expenditure not only on consolidated revenue account but also over the expenditure on capital and all other accounts. In 1903 the excess of revenue over expenditures on all accounts amounted to $10,222,101. They forget to state that the diminished taxation has given a material buoyancy to the commerce and industry of the Dominion. Let us consider the striking contrast under Conservative administration. For twelve years prior to surrendering the seals of office the debt of the Dominion showed an increase of $79,376,746, or at the rate of six millions a year. From 1896 to the close of the fiscal year 1907 the debt has increased by $5,174,427, which is somewhat less than half a million a year.

No one wishes to put aside the fact that a railway had been built during the first period, from Lake Nipissing to the Pacific seaboard, but it must be remembered that this was largely financed out of the lands of the new region it was to open up. The Liberal administration shall lift its head in pride at this magnificent financial record. By comparison we see the expenditure of the neighboring republic in 1897 was nearly $449,000,000. At the session just closed the total expenditure of the country according to the appropriations were several millions over a billion. In comparison Great Britain expended on consolidated account in 1897 $89,643,669, while in 1907 it had reached the total of $121,323,837. During the same period in every other country the same set of facts have been revealed. And with the expansion, and development of our growing country with such an immense area to be provided for, how could we expect to be exempt from these world-wide conditions?

It is conceded that during its twelve years of office, without any special effort to that end, the Government has seen the revenue doubled. It does not claim to be wholly responsible, neither does it take credit for this great expansion, but it is just in its claim to have contributed somewhat to such a successful state of affairs, by its able administration.

We consider it would have been against the best interests of the whole people if the Government at the time the financial flurry was in the air had curtailed its expenditures on the permanent public works of the country.

Our Dominion is the greatest commonwealth on earth, and her people from ocean to ocean are thriving, happy, and wealthy, and the most lightly taxed.

"Thirty feet to the gulf."

PROVINCIAL OFFICERS PROMISE PROTECTION

Fraser River Fishermen Advised to Disregard Dominion Regulations—Offered Support if Prosecuted.

While the Province and other Conservative organs are trying to make political capital by circulating false charges against the Dominion fisheries officials in that they are advising fishermen not to take out Provincial licenses, there is positive proof that officials in the employ of the Provincial government have requested at least four fishermen to refuse to take out Dominion licenses, and advised them to deliberately violate the law, holding out an offer of protection in case of prosecution.

These four fishermen were discovered in the act yesterday evening and upon being questioned they gave out the above story.

CARD OF THANKS.

Mrs. R. B. Kelly and family take this means of acknowledging the general expressions of sympathy and kindnesses extended in connection with their recent bereavement; and desire especially to thank the members of the Grand lodge, A. F. & A. M., and Union and King Solomon lodges and also the many friends who sent beautiful floral tokens of esteem.

GREAT SEMI-ANNUAL SALE

CITY NEWS

Guichon Hotel meals 25c. **

Rev. P. Wright has secured the use of Queen's park for a Sunday school picnic of Kitsilano Presbyterian church tomorrow.

Not made to please the eye, but to please the palate. The "B. C." and "Old Sport" Cigars. **

Mrs. J. McBroom, of Princess and Sixth streets, yesterday presented her husband with a baby girl. Mother and child are doing well.

See J. Eugene Brown's windows for snaps in outing suits. **

The result of today's Westminster-Shamrocks lacrosse championship game at Montreal will be bulletined at the Windsor hotel this afternoon, Proprietor P. O. Bilodeau having arranged for a special bulletin service.*

Grand handicap bowling tournament commences Tuesday, July 21, at Carver's bowling alley. Five prizes. All bowlers have an equal chance. **

The R. T. of T. excursion this evening, in which the local council will combine with two Vancouver councils, will take place to Stanley Park, and not to Second Beach, as previously announced.

We have a nice cottage on extra large lot, with fruit trees and small fruits in rear. Ninth street, near Queen's avenue, for short time at $1,500, easy terms. Abbott & Hyde, 238 Columbia street. **

Beulah Rebekah lodge, No. 5, I. O. O. F., will give a lawn party at the residence of Mrs. C. S. Keith, 271 Royal avenue, on Wednesday afternoon and evening. A musical program will be rendered, and refreshments will be served to all comers.

First class cut carnations only 25c a dozen at Davies & Son. Telephone B 208. **

An interesting lacrosse game between the Reginas and the Sapperton teams will take place at Queen's park on Thursday evening. Players on both teams are practicing hard for the game, which should be evenly contested. The line-up has not yet been selected.

A mild cigar, but strong on quality, the "Auto." **

The weekly shoot of the Westminster Gun club takes place this evening, when competitions for the Carver Cup and the Dupont trophy will be continued. As usual, a silver spoon for the man making the high average of the shoot will be given by W. C. Chamberlin.

For cut flowers for any floral work, ring up Tidy, the florist. Phone 184. *

Two Siwashes brought before the police magistrate yesterday morning to answer a charge of having been intoxicated on Sunday, were mulcted in fines of $5 each. One prisoner paid up, the other, not being a capitalist, languishes in the McInnes sanatorium pending the earning of the necessary fifteen by his klootch, who expects to raise the money by selling berries, baskets and other things before many days are over. Should the klootch fail in her valiant efforts, the Siwash will cultivate an appetite for government rations by reducing the size of rocks during the next fifteen days.

Your outing will be incomplete without a box of "B. C." Cigars. **

Special cars leave the depot on Wednesday morning at 7:50 a. m., to accommodate all those going to the St. Peter's church annual picnic, which is to be held this year at Bowen island. Tickets can now be obtained at Lavery's store, or on the cars.

The ladies of Knox church, Sapperton, are having a trolley party to English bay on Friday evening, July 24. A special car will leave Sapperton limits at 7:10 p.m. Tickets for round trip, 50c. **

Tenders for the excavation work on the basement of the new K. of P. lodge, which is to be built at the corner of Eighth and Agnes streets, were received yesterday and discussed at a meeting of Royal lodge. The successful tender was named, but pending definite arrangements his name is withheld. The new building is to be completed by Sept. 20.

The products of the fruit lands of the Okanagan valley occupied a prominent place in the prize list at the recent Dominion fair at Calgary. Kelowna is the centre of the Okanagan fruit district. Irrigated lands there sell at $150 per acre on payments spread over three years. If you want to investigate the opportunities here see White, Shiles & Co., 260 Columbia street, New Westminster, respecting their free trip proposition on July 28th. **

Application has been made for a charter by the recently organized local of the Barbers' union, the document being expected to reach here in about three weeks' time. But little business was transacted at last night's meeting of the tonsorial artistes, it being decided to call a meeting during the second week in August, when permanent officers will be elected.

J. Burtt Morgan, sometime temporary proprietor of the Chilliwack Progress, and who achieved some notoriety by his scurrilous attacks on the Liberal government during the last provincial election, is now stumping in Edmonton in the interests of the Conservatives of that burgh. In a recent speech he electrified his audience by declaring, with regard to the Liberals and the National policy, that "they had swallowed this hideous monster, this octopus, horns, hair, hide and hoofs." He did not explain just what peculiar species of octopus embraces in its anatomy horns, hair, and hoofs, but conclusively showed himself an amusing adapter of apt alliteration's artful aid.

The attention of the Burnaby council has been called to the possibility of a fatal accident having happened to a well digger on D. L. 90 some months ago, a grip containing clothes belonging to an unknown man having been found in an abandoned shanty by a Mr. Dougall. The matter is being revived by B. G. Walker, J. P., who desires the council to investigate and probably empty the well which caved in and which is supposed to have buried the remains of the unknown man. Councillors Cliff and Anderson will act.

W. G. McQuarrie has informed the Rev. A. E. Vert of his intention to donate a gold medal to the value of $20 to be competed for at the Scottish sports to be held during the exhibition under the auspices of the Lord of the Isles camp, 191, S. O. S. This medal will be for the B. C. championship piping competition. Another friend, whose name is at present withheld, has donated a $20 gold medal to be competed for by juveniles 14 years and under, dancing the Highland fling.

SOCIALISM SUBJECT OF CLEVER LECTURE

Dr. Hall Deals in Lucid Manner With Interesting Problem of Sociology.

A small turnout greeted Dr. Hall, of Vancouver, who addressed the Young People's society of Olivet Baptist church last evening on Socialism, a lecture which was worthy of the interest of anybody.

The speaker showed himself to be a thorough student of the subject, and capable of imparting his knowledge in a clear way. Socialism, he said, was synomymous with sociology, and was properly the study of society and the laws which it obeyed. The great periodic business depressions occurring throughout the world, but especially acute in America, at irregular periods of about twenty years (the panic of 1873, of 1893, and the one of last year, which is a little ahead of the usual time), show that something is essentially wrong in the present state of industry, and the resultant effect on men. By an actual census, six million people desirous of work are unable to obtain it in the United States. After going over the various theories raised to account for these depressions, including those that connected them with the regular appearance of sun spots, over-productions and poor crops, he effectually proved their fallacy. But he explained how a few men, who under the existing conditions could gain control of the great majority of wealth, and so had great power over the economic conditions of the land, thus putting the power in the hands of a few, it was impossible to expect a just government of all. One man selling his rights or results of labor to another brought about labor slavery, and the control of monopolies by a few prevented just distribution of property. The remedy which students of sociology think should be applied is government ownership of monopolies, by which all of the people would have the profit of the trusts, and popular referendum of all laws, the power to bring any law directly before the people would prevent corrupt laws being passed by bribed legislatures.

The church has always hung back in great reforms, for instance, slavery, temperance, etc., but it ought not to be a reason that because people have unlike principals, but are all working for the good of humanity in some one line, they should not unite in that one direction, thereby producing a multiplied power for good.

After the lecture, an excellent quartette number was sung by Miss A. Wooster, Miss Dymock, E. Morgen, and Mr. Crandell. Mr. Bell was organist. Refreshments of ice lemonade and cake closed the evening's program.

A private message received here yesterday evening by J. G. Gamon announces that the Dorothy trophy had been won by H. C. Chamberlain, of Vancouver, in the provincial riflemen's shoot commenced at Clover Point ranges, Victoria, yesterday morning. He made a score of 98. The Westminster team won the B. C. E. R. cup with an average of 94 per man. The following Westminster men are attending the shoot: St. Sgt. George Turnbull, Sergt. W. J. Sloan, Sergt. R. Wilson, V. H. C. Abbott, N. W. C. R. A., tyro, W. D. Goodfellow, tyro, Pte. E. E. Johndro, Lieut. T. Cunningham, S. W. Bodley, and Tim Mahoney.

A WHISTLER STORY.

The Eagle That Was Made to Pose as a Fighting Cock.

Apropos of something Whistler once told a cockfight story so vividly that only a man with a sailor instinct could tell it as well, mimic it so keenly and enjoy it so thoroughly. It was a story of a strange species of the American cock, pictured to the smallest detail so beautifully that one forgot that it was a story.

Some American sailors were at a cockfight in a seaport town in England when one of them remarked to the owner of the champion:

"We have got an American cock on board that can whip any bird here."

"Go fetch 'im on," said the champion. "Chuck 'im in and see. If 'e licks one bird we 'ave plenty more to throw in that can lick hany blawsted Hamerican bird you can fetch 'ere."

"All right. We'll bring one," said the sailors. When they got aboard they rigged up an American eagle. After their own manner, they painted, trimmed, spliced and reefed fore and aft, transforming the eagle to a cock. When ready they went ashore to pit their new American gamecock against all England.

At the pit the sailors chucked in their cock, which looked around for other surprises as he backed close to the wall.

"Now, bring on your birds!" yelled the sailors. A strutting cock was thrown into the pit and was another surprise to the poor dismantled eagle. He backed up closer and closer to the wall, wondering what would happen next. The cock walked three times majestically around the circle, cuffing at his strange opponent, the eagle pitiably abashed and bedrabbled, crouching lower and lower and looking around and above him for an explanation of what it all meant, while the crowd were yelling madly for the English fighter. The eagle made himself smaller and smaller, but at last, finding that he could get back no further and thinking that something was expected of him, and, as the cock dashed at him again, stretched out his long claws and took his opponent by the neck.

Here Whistler ended with an imitation by motions of what the eagle did. He stretched out his arm, shaped his hand like a claw, which by this time looked like a real one, drew it to his mouth and with one bite pulled off the head as he thought an eagle might do it. Then he looked blandly about the room, as the eagle had done, at the astonished crowd and said, "Now bring on your other birds."—Otto Bacher in Century.

TOWNS WITH TROUBLES.

London's trouble is her fog.

Tokyo's trouble is earthquakes. In her worst 200,000 residents were killed.

The mistral is the trouble of Marseilles, an east wind that increases the city's death rate 50 per cent.

Calcutta's trouble is cholera, and the bubonic plague is the trouble of Bombay. Each city pays to her trouble an annual tribute of 9,000 souls.

Bagdad's trouble is the "Bagdad button," a sore that attacks practically every resident and visitor, leaving a button shaped permanent scar.

Madrid's trouble is the solano, a summer wind from the southeast. It is exceedingly hot and is accompanied by blinding, choking clouds of dust, so that notwithstanding a temperature of 105 or 110 degrees all windows must be closed.—Philadelphia Bulletin.

The Science of Chemistry.

Chemistry did not become a science—in other words, chemistry proper did not exist—until the seventeenth century, and it was as late as the middle of the eighteenth century before it began to amount to much. The old alchemy undoubtedly contained the germs, or at least the possibilities, of the present day chemistry, but beyond this the relationship between the modern science and the ancient delusion is slight indeed. Still, it cannot be denied that it was in the foolish search for the "Philosopher's Stone" and the "Elixir of Life" that men first hit upon the discoveries which were destined to develop into the great science of today.—New York American.

The Sarcastic Cabby.

The London bobby is notorious for overgrown feet and hands. Likewise the London cabby is generally accredited with never being at a loss for a reply. One day a bobby lifted up his hand majestically to halt a cabby, but the latter crowded his horse ahead.

"Didn't you see me raise my 'and?" demanded the bobby.

"I did see the sky darken a moment, but my 'orse was shyin' at your feet," retorted the cabby as he whipped up and went on.—London Graphic.

The Danes and the Raven.

Perhaps the Danes selected the raven for their standard out of feelings of gratitude, for before the invention of the mariner's compass they must have found him extremely useful. The only method of determining whether land was near was to let loose a raven. If the bird saw land he sailed away forever; if he did not, he returned to the ship.—London Chronicle.

Equally Culpable.

"I can say for myself that I never have been mean enough to get another woman's cook away from her."

"Neither have I, but I must confess that once or twice I have tried to work our cook off on some of my neighbors."

Shut Him Off.

"What are you taking for your cold?"

"Nothing."

"Nothing? But, my dear fellow"—

"Nothing, I say, not even advice. Fine day, isn't it?"—Illustrated Bits.

This Little Story Comes From Toronto:

Newspaper Advertising Best

The Retail Merchants' Association of Chatham is a level-headed organization. At a recent meeting newspaper advertising was discussed, and the general opinion of the members was that newspaper advertising was the best, and program and other advertising of that class was almost useless.

re Debenture By-Law, 1908

y-Law to enable the Council of the Corporation of the City of New Westminster to raise by a loan the um of Six Thousand Five Hundred ($6,500.00) Dollars for the erection nd equipment of a Fire Hall at Queen's Park and for improvements and equipment for the Fire Hall at Sapperton.

HEREAS, it is proposed to erect equip a Fire Hall at Queen's Park he said City and to improve and her equip the Fire Hall at Sapperin the said City, entailing the exditure of $6,500.00.

ND WHEREAS, it appears that if said sum of $6,500.00 be appropted from the general revenue of City for the current year the rate axation will be excessive, and it xpedient that such excessive taxn should be avoided, and the said should be raised on the credit of Corporation, and that debentures ld be issued for that amount.

ND WHEREAS, for the payment nterest on the debentures prod to be issued under this By-Law, for creating a sinking fund for the ment of the said debentures when it will be necessary to raise by cial rate, in addition to all other s, each year during the currency he said debentures, the sum of ee hundred, eighty-two and 63-100 2.63) Dollars;

ND WHEREAS, in order to raise said yearly sum of Three Hund- Eighty-two and 63-100 ($382.63) lars, an equal special rate on the r will be required to be levied on whole rateable property of the of New Westminster.

ND WHEREAS, the whole rate- property of the said City, acing to the last revised assess- t roll thereof, is Four million, one dred and fifty thousand, eight dred and eighty ($4,150,880.00) ars;

ND WHEREAS, the total amount e existing debenture debt of the City is one million, eighty-seven sand, one hundred ($1,087,100.00) ars, irrespective of the sum of hundred and twenty-five thous- five hundred ($125,500.00) Dol- proposed to be raised under the terworks Debenture By-Law, " the "Street Improvement De- re By-Law, 1908," the "Market nture By-Law, 1908," and the lic Schools Debenture By-Law, " of which none of the principal interest is in arrears.

OW, THEREFORE, the Municipal cil of the Corporation of the City New Westminster enacts as fol-

) It shall be lawful for the Mayor he said City to raise by way of from any person or persons, body odies corporate, who may be willto advance the same on the credit he debentures hereinafter mened, any sum or sums of money, exceeding in the whole the sum of 00.00, and to cause the same to be into the Treasury of the said for the purposes mentioned ein.

2) It shall be lawful for the Mayor cause any number of debentures to made, not exceeding in the whole sum of $6,500.00 for such sums of ney as may be required, not less n $100 each or an equivalent exssed in pounds sterling of the Uni- Kingdom of Great Britain and Ire- d, at a value of 4.866 to the pound rling; and all such debentures shall sealed with the seal of the Corpotion, signed by the Mayor and counsigned by the Treasurer thereof, by such other person or persons as y be thereunto lawfully authorized.

(3) The said debentures shall be yable on the first day of July, 1958, such place or places as the Coun- of the said Corporation may from me to time appoint, with the appro- l of the holders thereof, and shall ve attached to them coupons for the ment of interest at the rate of five r centum per annum on the amount reof, which interest shall be pay- le half-yearly on the first day of nuary and the first day of July in ch and every year, and the said upons shall be signed by the said ayor.

(4) A special rate on the dollar hall be levied and raised in each year addition to all other rates on all the teable property of the City, sufficint to pay the interest upon the deentures and to create a sinking fund r the payment of the principal thereof when due, subject to any Act or enctment respecting the same.

(5) Subject as aforesaid, there shall e raised annually by special rate as oresaid, during the currency of the aid debentures the sum of Three Hundred and Twenty-five ($325.00) Dollars for the payment of interest hereon, and the sum of Fifty-seven and 63-100 ($57.63) Dollars to provide for the repayment of the principal.

(6) The proceeds of the said debentures shall be applied as follows and not otherwise, towards paying the cost of the passing of this By-Law and the issue and sale of the debentures therein referred to and all expenses in connection with the said loan; recouping the treasury of the said City such sums as have been this year expended until the proceeds of the sale of the said debentures have become available and towards the cost of the erection and equipment of a Fire Hall at Queen's Park and improvements and equipment for Fire Hall at Sapperton aforesaid.

(7) This By-Law shall take effect on the 1st day of August, 1908, and may be cited as the "Fire Debenture By-Law, 1908."

(8) This By-Law, before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the day of 1908.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-Law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the first publication in the "Daily News" newspaper, which first publication took place on the 25th day of June, 1908, and that a vote of the electors of the City will be taken on the said proposed By-Law on the 27th day of July, 1908, between the hours of nine o'clock a. m. and five p. m., at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Light Station, Tenth street.

W. A. DUNCAN, City Clerk.
City Hall, June 25, 1908.

Market Debenture By-Law, 1908

A By-law to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Six Thousand ($6,000.00) Dollars for extension to Market Building.

WHEREAS, certain sums of money have this year been expended out of the general revenue of the City for the construction of an extension to the Market Building, and it is expedient that certain additional sums be expended in like manner, amounting in all, with the sums already so expended, to the sum of Six Thousand ($6,000.00) Dollars.

AND, WHEREAS it appears that if the said sum of Six Thousand ($6,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

AND, WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures, the sum of Three Hundred and Fifty-three and 20-100 ($353.20) Dollars.

AND, WHEREAS in order to raise the said yearly sum of Three Hundred and Fifty-three and 20-100 ($353.20) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND, WHEREAS the whole rateable property of the said City, according to the last revised assessment roll thereof, is Four Million One Hundred and Fifty Thousand, eight hundred and eighty ($4,150,880) Dollars.

AND, WHEREAS, the total amount of the existing debenture debt of the said City is One million, eighty-seven thousand, one hundred ($1,087,100) dollars, irrespective of the sum of One hundred and twenty-six thousand ($126,000.00) dollars proposed to be raised under the "Waterworks Debenture By-Law, 1908," the "Fire Debenture By-Law, 1908," the "Public Schools Debenture By-Law, 1908," and the "Street Improvement Debenture By-Law, 1908," of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Municipal Council of the Corporation of the City of NewWestminster enacts as follows:

(1) It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $6,000.00, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

(2) It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Six Thousand ($6,000.00) Dollars for such sums of money as may be required, not less than One hundred ($100.00) Dollars each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation, signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

(3) The said debentures shall be payable on the first day of July, 1958, at such place or places as the Council of the said Corporation may from time to time appoint with the approval of the holders thereof, and shall have attached to them coupons for the payment of the interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half-yearly on the first day of January and the first day of July in each and every year, and the said coupons shall be signed by the said Mayor.

(4) A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the City sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

(5) Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures the sum of Three hundred ($300.00) dollars for the payment of interest thereon, and the sum of Fifty-three and 20-100 ($53.20) dollars to provide for the repayment of the principal.

(6) The proceeds of the sale of the said debentures shall be applied as follows and not otherwise, towards paying the cost of the passing of this By-Law and the issue and sale of the debentures therein referred to; recouping the treasury of the City such sums as have been this year expended on the works herein mentioned or may be so expended until the proceeds of the sale of the said debentures have become available, and in paying the amount to become due for the completion of the said extension to the said Market Building.

(7) This By-Law shall take effect on the first day of August, 1908, and may be cited as the "Market Debenture By-Law, 1908."

(8) This By-Law, before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the day of 1908.

Reconsidered and finally passed in open Council the day of 1908.

City Clerk. Mayor.

W. A. DUNCAN, City Clerk.
City Hall, June 25, 1908.

Waterworks Debenture By-Law, 1908

A By-Law to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Thirty-two thousand, five hundred ($32,500) Dollars for the construction of a Reservoir at Queen's Park and connecting mains

WHEREAS, certain sums of money have this year been expended out of the general revenue of the City on the construction of a reservoir at Queen's Park and connecting mains, and it is expedient that certain additional sums be expended in completing the construction of the said reservoir and connecting mains, amounting in all, with the sums already expended, to the sum of Thirty-two thousand, five hundred ($32,500) Dollars;

AND, WHEREAS, it appears that if the said sum of Thirty-two thousand, five hundred ($32,500) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

AND, WHEREAS, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures, the sum of Nineteen hundred, thirteen and 13-100 ($1913.13) Dollars;

AND, WHEREAS, in order to raise the said yearly sum of Nineteen hundred, thirteen and 13-100 ($1913.13) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

AND, WHEREAS, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Four millions, one hundred and fifty thousand, eight hundred and eighty ($4,150,880) Dollars;

AND, WHEREAS, the total amount of the existing debenture debt of the said City is One million, eighty-seven thousand, one hundred ($1,087,100.00) Dollars, irrespective of the sum of Ninety-nine thousand, five hundred ($99,500) Dollars proposed to be raised under the "Street Improvement Debenture By-Law, 1908," the "Market Debenture By-Law, 1908," the "Fire Debenture By-Law, 1908," and the "Public Schools Debenture By-Law, 1908," of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Municipal Council of the Corporation of the City of NewWestminster enacts as follows:

(1) It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Thirty-two thousand, five hundred ($32,500) Dollars, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

(2) It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Thirty-two thousand, five hundred ($32,500) Dollars, for such sums of money as may be required, not less than One hundred ($100.00) Dollars each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation, signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

(3) The said debentures shall be payable on the first day of July, 1958, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half-yearly on the first day of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

(4) A special rate on the dollar shall be levied and raised each year, in addition to all other rates, on all the rateable property of the City, sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

(5) Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures the sum of One thousand, six hundred and twenty-five ($1,625.00) Dollars, for the payment of interest thereon, and the sum of Two hundred, eigaty-eight and 13-100 ($288.13) Dollars for the repayment of the principal.

(6) The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise, towards paying the cost of the passing of this By-Law and the issue and sale of the debentures therein referred to, recouping the treasury of the City such sums as have been this year expended on the said works, or may be so expended until the proceeds of the sale of the said debentures have become available; and paying the cost of the completion of the said reservoir and connecting mains.

(7) This By-Law shall take effect on the first day of August, 1908, and may be cited as the "Waterworks Debenture By-Law, 1908."

(8) This By-Law, before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the day of 1908.

Reconsidered and finally passed in open Council the day of 1908.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-Law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the first publication in the "Daily News" newspaper, which first publication took place on the 25th day of June, 1908, and that a vote of the electors of the City will be taken on the said proposed By-Law on the 27th day of July, 1908, between the hours of nine o'clock a. m. and five p. m., at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Light Station, Tenth street.

W. A. DUNCAN, City Clerk.

THREE-CENT FARES MAKE POOR SHOWING

Cleveland's Experiment in Cheap Transportation Does Not Prove to Be a Success.

Cleveland, July 20.—Cleveland has had nearly three months of 3-cent car fares and two of the montaly reports have shown a deficit. A similar report is predicted for July. The operating expenses and fixed charges have been from $40,000 to over $50,000 a month in excess of the earnings. The Municipal Traction company, which is operating the local lines under a lease, also is under a promise to give free transfers after July 28. The revenue from transfers has been about $30,000 a month, a cent each having been charged.

The officials of the company still express their belief that 3-cent fares will pay in time. An important meeting of the directors will be held next Tuesday to consider the inauguration of free transfers and other vital points. Transfers may be made free for a time as an experiment to see if it will increase the patronage.

"The property will not be turned back to the old company if we have to charge the highest rate of fare allowed by our franchise," President Dupont has said.

The franchise permits a rate of six cents. The operating company's franchise has been attacked in court and also will be voted on under the state initiative and referendum law.

He Wins the Palm.

Many stories have been told of mean men, such as he who used a wart for a collar button and he whose birthday gift to his son consisted in washing the windows so that the lad might watch the cars go by. This man, however, seems to have won the palm. There was an extremely mean man in New Hampshire who was the proprietor of a hotel. By his direction rules were posted in the hostelry forbidding almost every conceivable privilege to those not guests of the place. There was absolutely no chance for the casual loafer to get newspapers, pens, ink, stationery, etc. There were not even free seats in the office. One day he chanced to observe a chronic loafer gazing at the old clock that hung on the wall. The next day a sign was placed over the clock. It read, "This clock is for the use of the guests of the hotel only."—Success Magazine.

ADVERTISE — IN — THE DAILY NEWS FOR BIG RESULTS.

APPROVE PRINCIPAL OF LICENSING CLUBS

(Continued from Page One.)

habit of frequenting Chinatown, but he had been there on several occasions. He was satisfied with the chief of police, who could be depended on to enforce the law.

Ald. Gray said he knew of a Chinaman selling opium during the past three months. He had seen gambling in Chinatown.

Ald. Garrett, following a remark of the mayor, rose on a question of privilege. He was there to speak the truth as he understood it.

The mayor asked for the chief of police to be summoned, and a fruitless search for him was instituted all over town by the city hall janitor, Detective Bradshaw and Sergt. Geiser.

The council went into committee of the whole, and a desultory debate on a number of subjects followed, while waiting for the chief, but he did not come. The mayor further remarked that they had no power over Sunday closing, either Chinese or whites.

The matter will come up again when Chief of Police McIntosh will appear before the council.

Preparations for Poll.

Preparations were made last evening for the poll on the debenture by-laws on Monday next. A public meeting will be held on Friday at the city hall, when the by-laws will be explained by the mayor, and a printed statement of the city's finances will be prepared. Deputy Returning Officers were appointed for the polls on Monday.

Track Changes on Front Street.

L. C. Gillman, attorney for the Great Northern railway, asked to be allowed to address the council with regard to the proposal of the B. C. Electric railway to move over the C. P. R. and G. N. R. tracks on Front street. In his opinion the change would be detrimental to the interests of the G. N. R., and he wished to take the matter over, to come to an amicable arrangement. He will be informed that the city council would let him know when a meeting of the representatives of the companies would be held.

Plumbing at Market.

The plumbing contract at the market has been let for $312.50 to R. Miles. A map of the gas pipe lines of the present company will be sought. The police committee was given further time to report on the chain gang proposal. A report was also received from the board of works on new works.

Wharf Improvement.

Mayers & Preston wrote submitting a plan of the wharf proposed to be constructed on water lots 77 and 78, which they desired to have approved. Referred to the finance committee to report.

Miscellaneous.

A report was received from the medical officer of health, Dr. Jones, as to infectious diseases during 1907 in the city. It showed that the health of the city had been very good. It acknowledged that the work of the sanitary inspector had been quite satisfactory.

The Scherzer Rolling Lift Bridge Co., of Chicago, wrote expressing a desire to tender for the contract of constructing the new Lulu island bridge. The company will be told that the designs are not yet completed.

C. Arnell asked to have stumps pulled during grading operations on Tenth avenue and thrown on his lot, removed therefrom, as he wished to build. Referred to the board of works for a report.

W. Dodd, on behalf of the local branch of the Amalgamated Association of Street Railway Employees, asked permission to hold meetings of the branch in the board of trade room. Referred to finance committee to act.

White, Shiles & Co. asked for renewal of fire insurance premium on civic property, which would expire on July 25. Referred to the finance committee to act.

The controller of Dawson City, Y. T., offered for sale various items of fire apparatus that city desired to sell. The letter was referred to the finance and fire committees.
