JOHN OLIVER WANTS ELECTIONS POSTPONED

Voters' Lists For Many Constituencies Can Not Be Ready in Time.

On account of the fact that the voters' list for many of the constituencies throughout the province are not yet out of the hands of the King's printer, while those which have been published have only been at the disposal of the electors for the past few days, John Oliver, leader of the Liberal party, is making an effort to have nomination and election days postponed at least two weeks.

Petitions Governor.

To this end Mr. Oliver had addressed a petition to Lieutenant-Governor Dunsmuir pointing out that the voters' lists for many of the constituencies cannot possibly be in the hands of the electors of those constituencies by nomination day, which is set for Thursday of the present week. The withholding of the lists until the very eve of the election is, claims Mr. Oliver, working a grave wrong to the electors of the province, and on this he bases his petition.

The communication to the Lieutenant-Governor on the subject in full is as follows:

The Petition.

"Victoria, B. C., Nov. 5, 1909.

"To His Honor James Dunsmuir, the Lieutenant-Governor of the Province of British Columbia:

"May it pleass your honor—The petition of the undersigned showeth:

"There are only four clear days before nomination day.

"The voters' lists which must be used in this election are not yet obtainable.

"The King's Printer is unable to state when the voters' lists will be obtainable.

"Under the statute the King's Printer is the only person authorized to furnish the voters' lists.

"It is an utter impossibility for him to do so before nomination day.

"Only registered voters are eligible as candidates.

"Each nomination paper must be subscribed to by five registered voters.

"A great injustice is being inflicted upon the electorate by reason of being unable to obtain copies of the voters' lists.

"Your petitioner prays that your honor will bring this matter to the attention of your honor's advisers, to the end that a postponement of the elections for at least two weeks may be had so that voters' lists may be available for at least one week before nomination.

"And your petitioner will ever pray.

"JOHN OLIVER."

The answer of Lieutenant-Governor Dunsmuir is eagerly awaited. In the meantime all those who love fair play and who are opposed to the tricky methods of the party in power in attempting to secure a snap verdict,

(Continued on Page Four).

The Small and Bucklin Lumber company are preparing to erect a large burner for their mill in the west end of the city to meet the growing need of the plant. The contract for the driving of the foundation piles, five hundred in number, has been let to W. A. Gilley and the work will be commenced in a few days.

AVIATION CONTESTS AT LATONIA RACE TRACK

Glen H. Curtiss and Charles Willard Principal Contenders in Aeroplanes Nov. 12, 13 and 14.

Cincinnati, Nov. 8.—The horse will occupy the track for three days this week, the track for three days this week, the regular races being suspended to give place to contests between various types of modern air craft.

The days set apart for the aviation meeting are November 12, 13 and 14, and the netries include Glenn H. Curtiss, who will use the same machine with which he made his remarkable flight at Rheims; Charles K. Willard of Philadelphia; Roy Knabenshue, Lincoln Beachey and Cromwell Dixon. The last three will exhibit in dirigibles.

The principal event will be the race between Curtiss and Willard in aeroplanes for a cup offered by the local aviation enthusiasts.

It is understood that the meeting this week will be the opening move to secure for Cincinnati the international aviation meet for 1910.

Rally to the Flag.

Every Liberal should do his duty and call at the committee rooms to render all assistance in his power toward the abolition of tolls on the Fraser river bridge, and against the assumption of a liability of $45,000,000 by the 120,000 working men in British Columbia.

CHOOSES SPEEDY TRIAL.

Prisoner in Cosmopolitan Stabbing Case, Will Face Court on Nov. 15.

The case of John Reid, a mill hand, came up in the county court yesterday for election. The accused, after listening to the charge of having stabbed Harry Geary with intent to do bodily injury at the Cosmopolitan hotel, chose speedy trial, rather than wait for the spring assizes. He stated his intention of securing counsel to defend him. Judge Howay set the date of the trial for Monday, November 15.

The case was recently heard in the city police court, and the accused committed for trial by Magistrate Corbould.

STREET IMPROVEMENTS PROGRESS RAPIDLY

Board of Works Commences Operations on Front Street—Work on Columbia Street Progressing.

The board of work has commenced the placing of several fire hydrants along the south side of Columbia street. The work is being done in anticipation of future demands, in view of the construction this fall of the concrete sidewalks.

The city authorities yesterday decided to go ahead with the improvement of Front street and work was immediately commenced on the roadway from Eighth street eastward. A plough drawn by the city steam roller was employed to tear up the surface, which will be removed and replaced with crushed rock, in accordance with plans approved by the council some time ago.

The work of the Hassam Paving Company on Columbia street is progressing rapidly despite the inclement weather. The work is moving eastward and the road is now being opened up near the postoffice for sewer and water mains. A large manhole is being built at the corner of Sixth and Columbia streets. The retaining wall under construction between the Bank of Commerce building and the Thompson block, and intended to support the south side of Columbia street, has now almost reached the surface. It is being finished off with small fragments of rock, and a cement surface. The concrete mixer of the Hassam Paving Co. has been moved to the spot and will commence the first actual concrete work in connection with the improvement of the main street in a few days.

The death occurred yesterday of E. E. Atkinson, son of Mr. and Mrs. Atkinson, of Hospital street, Sapperton. The deceased was 21 years of age, and was well known in the city. He was a member of the Canadian Order of Foresters. The funeral will take place tomorrow from the family residence, Sapperton.

ROUTINE BUSINESS OCCUPIES COUNCIL

Many Minor Matters Considered Last Evening—Lulu Island Line.

Little important business was transacted at the regular meeting of the council last night. All the aldermen were present with the exception of Alderman Fader, who is in Victoria. The usual amount of routine business and correspondence was disposed of.

The Lulu Island Line.

Ald. Johnston on behalf of the committee formed to interview the B. C. E. R. brought in a favorable report. They had looked over the ground at Lulu island and reported that the track would be better on the left hand side of the road. They had not had time to look into the matter of the double tracking of the line from the Merchants' hotel to the bridge. The report was adopted.

A bylaw respecting the regulation of pawn shops and another prohibiting the setting off of firecrackers, squibs, guns, etc., and the lighting of fires in the street, received their third readings and were passed. Alderman Johnson asked what a squib was.

"I suppose it is a male squab," answered the mayor, and the council let it go at that.

Ald. Johnston, on behalf of a man who was contemplating the shipment of two or three million shingles on the next trip of the Georgia, wanted to know the rates charged by the city for the use of the market dock. Mayor Keary thought that if the shipper were going to transfer his shingles direct from the car to the boat, no charge should be made, but some of the aldermen held that a small charge should be levied to cover the wear and tear on the dock. The market committee was given power to act in the matter.

Raised Their Salaries.

The salary of Superintendent Furness of the board of works was raised

(Continued on Page Six).

START WORK ON INTERURBAN CUT-OFF

Big Step Toward Double-Tracking of B.C.E. R. to Central Park.

Work has been commenced on the new cutoff of the B. C. Electric Railway, to reduce the grade up the hill on the interurban line to Vancouver.

The line was surveyed some time ago and approved by the city council and Burnaby council, but was left in abeyance pending the completion of the heavy work on the double tracking of the line between Central Park and Vancouver. Now that the latter work has been finished, a part of the gang has been moved to the cutoff and the slashing of the right-of-way is in full swing.

The work was commenced from the Hyland Park end and nearly a quarter of a mile has been completed. As soon as this is done it is expected that the grading will be commenced. This will entail the making of a heavy cut through the ridge necessitating the use of steam shovels.

The construction of the cutoff is a part of the program laid out by the B. C. Electric Co. for the double tracking of the interurban line between the two cities with a view to operating trains instead of individual cars, enabling greater speed to be used and more accommodation to be afforded the passengers. The work of double tracking is now being pushed on this side of Central Park and a portion of the regrade has already been made between that station and Patterson.

New Directory of City.

A new Westminster streets and street car directory has just been published by Carl S. Meacham for the New Westminster Fire Department. It contains a complete alphabetical list of all streets, official names, locations and numbering systems, arranged so that a person can find any desired number with the least possible delay, either by walking, driving, or street car, and numerous other items of general information. The book is very complete in its details and give a full list and the location of all fire alarm boxes. The directory may be obtained at the fire hall.

RED WIDOW MAY ESCAPE GUILLOTINE

Evidence in Yesterday's Proceedings at Paris All for the Defence.

Paris, Nov. 8.—The state's case against Mme. Steinheil, the "red widow," who is on trial here on the charge of murdering her artist husband and stepmother, Mme. Japy, appears to be crumbling. Today's testimony was favorable to the widow and she is apparently confident of acquittal.

Broderel, on whose testimony the prosecution hoped to strenghten its case, testified that neither he nor Mme. Steinheil ever dreamed of marriage as a result of their relations This was considered a great point in the woman's favor, for if he had testified that he and the woman had seriously considered marriage the prosecution would have used it as a motive for the murders.

Dr. Acheray, the Steinheil's family physician, testified that the accused woman had cared tenderly for her husband and mother. This was another point in Mme. Steinheil's favor, as the prosecution attempted to prove that during the two months' illness of her husband she did not go near him.

Mme. Steinheil declares that the inquisitorial methods of the prosecution are helping her case.

CANADIAN PARLIAMENT OPENS ON THURSDAY

Ottawa, Nov. 8.—The Canadian parliament will open Thursday and the session probably will continue for six months. The chief item of business on the government program will be the bill by which the new Canadian navy will be constituted.

There will be tariff discussion, although little legislation in this direction is looked for beyond the bill to confirm the Franco-Canadian trade treaty. The possibility of the medium provisions of the Payne tariff bill being imposed on Canadian goods if France is put on more favorable tariff relations with Canada than is the United States will cause serious talk. A scattering of members on both sides will press the government to retaliate.

The Canadian banking act and the insurance act will be stiffened in the direction of better security.

Miss Pauline Johnson, the celebrated Mohawk poetess and elocutionist, and Miss Avina Munn, the well-known local singer, will be the chief attraction at the concert to be given by the Athletic association of Columbian college at St. George's hall this evening.

ASK THAT DATE BE SET FOR HEARING

Council Takes Further Step Toward Settlement of Coquitlam Dam Question.

The city council at its meeting last night took a step toward the solution of the Coquitlam dam tangle when they wired Hon. Frank Oliver asking him to set a date for the hearing of the case before the executive at Ottawa. This was the result of a motion by Ald. Johnson seconded by Alderman Smith, and was about the only definite conclusion arrived at after a long and not altogether harmonious discussion on the question.

Wanted Delegation.

Alderman Adams started the fireworks by reading a letter from the city solicitors, advising the council to send a delegation of two or three to Ottawa to present the claims of the city, and further advised the securing of legal counsel in the east for the same purpose. Alderman Adams wanted to treat the matter as settled and appoint the delegates. Mayor Keary wanted to know what the delegates were going to do when they got there.

"Stand up for their rights," said Ald. Adams.

The mayor did not see the logic in plunging into any considerable expense without knowing the reason. He pointed out that the facts of the case had been put before the minister of the interior when he was here a short time ago. Alderman Adams made some remark about what would happen when he got to Ottawa.

"But you are not sure whether you are going to Ottawa," said the mayor, whereupon Mr. Adams remarked that he would go to Ottawa whether the council sent him or not.

The discussion waxed warm for a time but the atmosphere finally cleared and it was decided to send a telegram to the minister of the interior asking for dates.

Await Reply.

The matter of obtaining counsel in the east was left with the special committee, and it was decided to call a special meeting of the council if the reply to the telegram is favorable.

CHURCH AND STATE WAR OVER SCHOOLS

French Roman Catholics Are Urged to Refuse to Allow Children to Use Interdicted Text Books.

Paris, Nov. 8.—The situation resulting from the French Episcopal's declaration of war against the public schools and the efforts to mobilize the Catholic voters for the coming general election, is rapidly entering an acute stage.

Monsignor Goly and other bishops have publicly forbidden Catholic parents to send their children to public schools if Catholic schools are available and parents everywhere are urged to refuse to allow their children to use the interdicted text books. Considerable demoralization of the schools already has resulted.

M. Deumergun, minister of public education, has ordered an investigation into the situation which probably will determine the government's ultimate attitude. The decision of the teachers' union, comprising 100,000 members, to test in the courts the right of the church to interfere with the public schools will be followed by damage suits instituted by the author of the interdicted text books.

The catechism is being revised for the purpose of teaching that it is a religious duty to vote for the candidate who is pledged to defend church interests.

WILL USE STEEL PIPE.

Final Draft of Water System Considered Last Evening.

George H. Cowan, M. P., of Vancouver, representing the municipality of Richmond, and Reeve Bridge and Councillor Trites of that municipality, met the mayor and aldermen of New Westminster, along with City Solicitor McQuarrie, at short conference before the regular meeting of the city council last evening.

The final draft of the agreement in regard to the joint water system was submitted by the lawyers and was read over by the representatives of the city and the municipality; it was not signed, however, several minor details requiring attention before the deal can be finally closed.

A proposal to use wooden pipe in place of steel on certain sections of the work was considered, but was turned down. Steel pipe will be used throughout.

House Blown Down by Gale.

Victoria, B. C., Nov. 8.—During the heavy gale of yesterday a two-story frame house on Tolmie avenue was blown down and the occupants, A. E. Ward, wife and four children had narrow escapes.

DRAWING TO A CLOSE.

Few Salmon Now Being Taken in River—Fishermen Give Up.

Very few salmon were netted yesterday by Fraser river fishermen, these few consisting almost entirely of cohoes and dogs. Some three or four canneries still continue to operate, but only on one or two days in the week, when a sufficient quantity of fish has accumulated to warrant the running of the plants. The fish are daily becoming more scarce and it is expected that another week will find all the canneries closed on the river. The canners are now preparing their returns of the salmon pack, but the figures will not be available for some two weeks.

POLICE HAVE THIEF WHO ROBBED LOCAL WOMAN

Pickpocket Who Stole Purse From Mrs. D. Welsh of This City Under Arrest at Bellingham.

Bellingham, Nov. 8.—Charged with being the "honorable" thief who snatched a purse from the hand of Mrs. D. Welsh of New Westminster on F street at 6 o'clock p.m. last Thursday evening, and who walked boldly up and laid the purse on the city hall steps half an hour after the holdup, Aden Larson, living at Silver Beach, was arrested by Patrolman Eldridge last night.

Aden is about eighteen years old and is "about half grown" as the thief was described by Mrs. Welsh. He told Detectives Tom Nugent and Logsdon last night that he was not in town the day the robbery occurred. The police claim, however, that they can prove he was in town last Thursday night and that he was on F street at about the time Mrs. Welsh was held up. The police further claim they can prove that Aden walked up F street and down Prospect street past the city hall at about the time the purse was left on the steps, just outside police headquarters.

The prisoner denies his guilt emphatically. It is claimed that he sticks to the assertion that he was not in town the night of the robbery. Detectives and Chief Cade will cross examine the suspect closely today in the endeavor to get a straight story from him. The Larson boy was one of the first to be arrested in connection with juvenile crimes when the city suffered under a pest of petty theft last spring for which many boys were arrested, say the authorities.

Mrs. Welsh, who was attending the rally of the Ladies of the Maccabees in Bellingham, has now returned to this city.

WINS CASE AGAINST RAILWAY COMPANY

S. H. Shannon Gets Damages For Injury to Horse—Important Ruling.

An unusual incident marked the conclusion of the long standing litigation between S. H. Shannon of Cloverdale and the V. V. & E. Railway Company in the county court yesterday when the jury returned, finding the defendant company guilty of negligence in the construction and maintenance of the fences along their right of way, and placing the damages at more than the amount claimed by the plaintiff.

His Honor Judge Howay, after consideration decided that he could not accept the verdict and instructed the jury to retire and reconsider. Without leaving the jury box they decided to reduce the damages awarded to the amount of the claim, $210, composed of $150 damages to the value of a mare and $60 for medical expenses in connection.

Jurors Claimed Exemption.

The empanelling of the jury was not as devoid of interest as these proceedings usually are, a diversion being caused by the claims for exemption advanced by two of the jurymen called. E. L. Webber objected to being empanelled on the grounds of being an active member of the militia. Sheriff Armstrong stated that he had not been furnished with a list of the militia this year and asked that exemption be not granted. Judge Howay granted the exemption, ruling that the act was clear on this point, adding that while he realized the position of the sheriff, the refusal of exemption might give cause for a new trial. W. J. Walker claimed exemption as an official of the provincial government, judge of the assessment appeal court. Judge How-

(Continued on Page Three).

Mrs. Robinson Escapes Noose.

Ottawa, Nov. 8.—The cabinet council today decided to recommend to his excellency that the sentence of death passed on Mrs. Robinson at Sudbury for murder be commuted to ten years imprisonment.

HARBOR COMMITTEE FINISHES DRAFT BILL

Would Gain Control of North Arm, But Do Not Consider New Westminster's Claims

The subcommittee of the harbor committee appointed by the cities of Vancouver and North Vancouver and the municipalities of North Vancouver, Burnaby, Point Grey and South Vancouver, met in Vancouver last evening and completed the draft bill for the creation of a harbor commission to have control of all the waterways round Vancouver as well as some which have up to the present been usually regarded as pertaining more particularly to New Westminster.

To Form Commission.

The bill will be submitted to the federal house at its next sitting, and if it goes through will place the waters of Burrard inlet, Vancouver harbor, English Bay, False creek and a large part of the North Arm of the Fraser in the hands of a commission chosen by the cities of Vancouver and North Vancouver, and the municipalities of South Vancouver, Burnaby, North Vancouver and Point Grey.

This commission would have power to make all necessary regulations for shipping in the waterways coming under its authority, and all works of importance for their improvement would be under its control.

Westminster Not Represented.

Inasmuch as the North Arm, which the committee is endeavoring to have included in the waterways to come under the scope of the commission is one of the means of egress to this port, there is a general feeling in this city that New Westminster should have been represented upon the board appointed to draw up the draft bill. That other cities and municipalities should have attempted to get control of one of the avenues into this port without consulting the authorities here, is regarded as rather cool, and it is probable that representations to this effect will be made in the near future by the board of trade. That New Westminster might be inclined to take umbrage at the way in which she had been disregarded was pointed out at the meeting of the harbor committee last week by ex-Mayor Buscombe of Vancouver; his remarks, however, did not influence the course of the committee.

The committee appointed to draft the proposed bill is as follows: Mayor Douglas, Vancouver; Reeve Byrne, Burnaby; Reeve Pound, South Vancouver; Reeve McNaught, North Vancouver; Reeve Home, Point Grey; Ald. McNeish, North Vancouver; President Irwin, North Vancouver board of trade.

SUNDAY CONCERTS.

New Westminster Orchestra Will Arrange for Series During Winter.

The success of the Sunday evening concert at the Opera House has decided the New Westminster Orchestral Society to continue the series, and the second concert will be held on Sunday evening next. A program of orchestral numbers will be rendered and several vocal numbers will also be given by local talent. The object of the concerts is not to make money, the voluntary collection being merely to cover expenses, but to bring together the musical talent of the city. Over 700 persons attended the first concert.

COTTON CROP FALLS OFF 1,179,260 BALES

Census Bureau at Washington Issues Report for Year Ending November 1, 1909.

Washington, Nov. 8.—The census bureau issued today a report showing that 7,012,317 bales of cotton, counting round bales as half bales, had been ginned from the growth of 1909, to November 1, as compared with 8,191,577 bales for 1908.

Round bales included this year are 109,665, compared with 149,866 for 1908. Sea Island 54,352 compared with 45,479 for 1908.

The report shows the following comparison of cotton ginned in Oklahoma and Texas up to November 1, compared with the same date in 1908. Oklahoma, 1909, 412,218; 1908, 217,629. Texas, 1909, 1,918,477; 1908, 2,502,862.

Liberal Committee Rooms.

Alderman J. J. Johnston's committee rooms are established at the Daily News block, opposite the Carnegie Library. Telephone No. 605.

Committees meet every evening at 8 o'clock.

The Liberal party desires that every one opposed to the "wild and unconsidered" railway policy of the government will rally round and make the rooms their headquarters.

Classified Advertisements

WANTED. FOR SALE. TO RENT. LOST. FOUND. REAL ESTATE. PROFESSIONAL. BUSINESS. FRATERNAL, ETC.

If a man had gold dollars to sell a fifty cents and did not let the people know anything about it, he would not sell any. You must tell the people what you have to sell, why they should purchase from you, and something of the value you offer them in return for their money. Too many of us have got the habit of thinking that because we have been a long time in business everyone must of necessity know all about us and our wares. Use the advertising columns of The Daily News and keep abreast of the times.

TO THE RATEPAYERS OF THE CITY OF NEW WESTMINSTER.

Ladies and Gentlemen,—In response to several large and influential requisitions from the electors of the City of New Westminster, asking me to again offer myself for the mayoralty, in view of the extensive public improvements now in hand, and proposed for the coming year, I feel it my duty to accede to the wishes of the electors in the premises, and will therefore offer myself as a candidate at the forthcoming elections.

As previously announced, it was my intention to withdraw from civic politics at the end of the present term, but the urgent wish of so many of the electors that I should continue in office until the improvement program, with which I am familiar in every detail, is carried out, compels me to bow to their wishes, and again seek your suffrages.

If elected I pledge myself to devote my very best energies toward protecting the welfare of the city, to maintain the principles of civic government, and in every other possible way advance the interests of our city.

Thanking you, ladies and gentlemen, for your generous support in the past, and respectfully soliciting your votes and influence, I am,

Yours very incerely,
W. H. KEARY.

New Westminster, B. C., Nov. 4, 1909.

TO THE ELECTORS OF THE CITY OF NEW WESTMINSTER.

Ladies and Gentlemen,—

At the request of a very large number of citizens I consented to allow my name to be submitted to the people for their support as Mayor of New Westminster for the year 1910.

Having consented to do so, I deem it my duty to place before the electorate the reasons for my Candidature.

Most of the Citizens are aware of the strenuous effort that has been put forth during the past year to protect the Water Supply of our fair city from contamination and for civic control of the watershed.

This effort was forced upon the city in consequence of an application by the Vancouver Power company to erect an hydraulic filled dam 75 feet high on Coquitlam Lake from whence New Westminster obtains its water supply.

The erection of this Dam would cause the water to overflow a large area of land covered with decaying vegetation, trees, dead wood, etc., which in the estimation of a number of our reputable citizens and in the opinion of competent engineers, would have a damaging effect upon the purity of the water, and might prejudice our control of the water system.

It is not my intention in this address to go into the details of the fight made to protect our interests as these have already been placed before you, but in order that every elector should have knowledge of the transaction before he or she casts his or her ballot I will state briefly the position New Westminster occupies.

The City of New Westminster on the first day of January of this year had the following undisputed rights in the water of and in the land surrounding Coquitlam lake:

(a) A right, by purchase, for $20,000 from the Coquitlam Water Works company, to take so much water as it required for municipal purposes.

(b) A right to a further 1000 inches of water for any purpose.

(c) A grant by order in council of the Dominion government of a belt of land one-half mile wide surrounding Coquitlam Lake, and a reserve of the timber on the watershed of Coquitlam Lake granted by order in council for the purpose of protecting our water supply.

You will observe therefore, that we had a splendid supply of water and to all appearances were amply protected

The effect of the application of the Vancouver Power company has been to jeopardize all these rights of the city on Coquitlam Lake and through some inexplicable circumstances, proper precautions were not taken to make our position unassailable and fully protect our interests.

We find that by order in council dated September 9th, 1909, it has been declared that the works of the corporation of the City of New Westminster in connection with its Water supply on Coquitlam lake have never been duly authorized, and it has no right to take the water of Coquitlam Lake or river. By the same order in council the timber reserve has been withdrawn and logging operations are practically permitted on this beautiful lake, the pure and natural water supply for the domestic use of all this district. Surely, Ladies and Gentlemen, this condition shall not be allowed to exist without every effort possible being made to reinstate New Westminster in undisputed ownership of its water supply and absolute control of the sanitary conditions around the lake.

The safety of the proposed dam is a matter of the utmost importance and I take the position that no authority to build it should be granted until undisputed evidence of its absolute safety be given by competent independent authority, uninfluenced one way or the other by local prejudices.

The purity of the city's water supply affects the health and perhaps the lives of every man, woman and child in the city and no effort should be considered too great to preserve and maintain that water supply pure.

While the water question is the issue upon which I make my appeal for your support in the forthcoming election there are other matters of vital interest and importance.

New Westminster is today attracting the attention of capitalists, investors and homeseekers and all are interested and influenced by civic progress and improvement upon which foundation we must build our future prosperity.

I appeal to you to support me on a policy for clean streets, lanes and alleyways; permanent sidewalks; a fair and equitable assessment; clean and efficient adminstration of civic affairs; improvement of public parks; a public discussion on all matters of civic policy, franchises or any other important transaction in which the city is a party; the administration of civic government for the people and the literal and straightforward execution of the laws on the statute; no persecution, but a vigorous prosecution of all offenders.

I stand for progress, a clean city and the administration of the city's affairs in the interest of the whole public and not for private advantage.

It is my firm conviction that our public men should not be in any way connected with corporations or companies doing business with the city that they may be free agents in protecting the city's interest.

Trusting that you will with your vote and influence return me as your Mayor for the year 1910, I am,

Your obediant servant,
JOHN A. LEE.

NOTICE.

Notice is hereby given that an application will be made by the Vancouver, Westminster & Yukon Railway Company to the Parliament of Canada at its next session for an act to extend the time for commencing the construction of the line of the company's railway, authorized by Chapter 87 of the Statutes of 1901, until the 15th day of May, 1912; and to extend the time for finishing and putting the said line in operation until the 15th day of May, 1915; and also to change the route of that part of the line of the company's railway authorized by Section 7 of the said act, which runs from Squamish valley to Hazelton, or some other point on the Skeena river from the route authorized by the said section of the said act, to a route described as follows: Commencing from a point at or near the city of Vancouver or some other convenient point on the shore of Burrard Inlet to a point at or near the city of New Westminster in the province of British Columbia (such line of railway being in addition to the line of railway between the said points which is authorized by the company's act of incorporation), and from the said point at or near the city of New Westminster to the south side of the Fraser river, thence by the most feasible route through New Westminster District and in an easterly and northerly direction through the districts of Yale, Lillooet and Cariboo to a point on the branch line from Willow river to Edmonton authorized by Chapter 176 of the Statutes of 1906 at or near Tete Jaune Cache; thence northwesterly following the line of railway authorized by Chapter 176, of the Statutes of 1906, along the South Fork of the Fraser river to a point between Fort George and Fort McLeod; thence by the most feasible route to Hazelton or some other point on the Skeena river.

Dated at the City of Vancouver, province of British Columbia, this 23rd day of October, A. D., 1909.

TURKEY JOINS IN WARSHIP MARATHON

Will Spend $100,000,000 in Good Money on Unproductive Junk.

Washington, Nov. 8.—The Turkish ministry will urge upon the Ottoman parliament soon after it reconvenes, November 15, the adoption of a naval program, providing for the expenditure within the next seven years of $100,000,000. According to this program seven battleships of the Dreadnought type would be constructed, together with a number of torpedo destroyers and one hospital ship.

For the next fiscal year an appropriation of $12,000,000, to begin the construction of two of the proposed warships will be asked. In order to carry out this building program it probably would be necessary to negotiate further loans, in addition to the one closed this fall.

The decision of the ministry is said to be in keeping with the general attitude of the people. Contributions to a public fund for the construction of the battleships are said to be pouring in by the thousands.

STRANGLES HIMSELF WITH SILK HANDKERCHIEF

Vancouver, Nov. 8.—Despondent and brooding over his loss of a position as interpreter with the American legation at Shanghai, China, Hugo Webber, aged forty, this morning committed suicide in his room at 137 Cordova street east by hanging from the bedpost.

When Webber failed to respond to repeated knocks at his door about noon, the door was forced. He was found fully dressed and in a reclining position against the head of the bed, his purple features frightening those who first went into the room. The police were instantly notified. It was found that Webber had deliberately strangled himself, as it would have been impossible for him to have held up his body. Two handkerchiefs of fine Chinese silk were twisted into a strong cord and one end was tied tightly around the man's neck and the other was tied to the bedpost.

Webber went to the lodging-house about two weeks ago and fretted continually over loss of his position with the legation which paid $200 a month. He told those he made friends with that he had a wife and child at Salmon Arm, where he was for a while in the fruitstore business. He was a nativeof Switzerland.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land on each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY.
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

LAND REGISTRY ACT.

Re the south half of the southwest quarter of Section 26, Township 16, New Westminster District.

Whereas proof of the loss of certificate of title Number 12,179F, issued in the name of Robert Fleming Seymour, has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, in a daily newspaper published in the City of New Westminster, issue a duplicate of the said certificate, unless in the meantime valid objection be made to me in writing.

C. S. KEITH,
District Registrar of Titles.

Land Registry Office, New Westminster, B.C., October 11, 1909. 242-26

NOTICE RE LULU ISLAND BRIDGE.

The condition of the old bridge is not considered safe for vehicular traffic, and the public generally are cautioned against hauling loads of any kind over it.

Persons continuing to do so after this notice must take all the risks on themselves.

By order. W. A. DUNCAN,
City Clerk.

AUCTION SALE OF TIMBER BERTH COVERING DOMINION LANDS.

The right to cut timber under license on berth No. 530, comprising the following lands in the Province of British Columbia, wil be offered at public auction at the upset price of $7873.00, which includes the cost of survey, at 2 o'clock p.m. on Wednesday the 12th of January, 1910, at the office of the Dominion timber agent at New Westminster:

Timber berth No. 530, situate in the Province of British Columbia, and comprising the northwest quarter of Section 25, the Northeast quarter of Section 26, the Northeast quarter of Section 27, the east half of Section 35, and all of Section 36 in Township 12, east of the Coast Meridian, containing an area of 1410 acres, more or less, as shown on plan of survey thereof, signed by J. H. Brownlee, D. L. S., dated the 6th of May, 1909, and of record in the timber, grazing and irrigation branch of the department of the interior.

A license will not be issued until the full amount of the purchase price and the ground rental for the first year have been paid.

The conditions of payment, rate of rental, etc., are contained in the timber regulations, a copy of which may be secured on application to the undersigned, or to the crown timber agent at New Westminster.

P. G. KEYES,
Secretary.

Wins Case Against Railway Company

(Continued from Page One.)

ay ruled that the objection was not valid, since as a judge, Mr. Walker could not be an officer of any government, or his independence would disappear.

W. G. McQuarrie appeared for the prosecution and called a number of witnesses to prove that the railway company was responsible for damages to a mare owned by Mr. Shannon.

Evidence As to Injuries.

A veterinary surgeon, Dr. Swinnerton of Vancouver, was called to prove the injuries to Mr. Shannon's mare. At that time he thought it impossible for the animal to recover. The mare was well bred, about four or five years old.

Addressing the jury for the prosecution, Mr. McQuarrie submitted that it was the duty of the railway company to build good fences and to maintain the fence. It was unreasonable to expect a man to keep his horses out of the fields until the company fixed the fences. The prosecution had shown that the fence was not in good repair and that as a result injuries had been inflicted on the mare in question.

J. E. Bird, of the firm of McNeill & Bird, for the V. V. & E. Railway and Navigation Co., stated to the jury that the case had been delayed so long that it was impossible to get evidence for the defence. He claimed that the fence was a good one within the law, and asked the jury to believe that the railway was maintaining its fences and cattle guards. The prosecution had not shown that any bad condition of the fence had been brought to the attention of the company. And the witnesses deemed the condition of the fence such that they did not hesitate to leave their valuable animals in the ground.

Judge Howay, summing up, gave the jury the legal definition of negligence, on which the case depended. It was for the jury to say whether the railway had built the kind of a fence that a reasonable man would build, remembering that fences are built for service, not as a bluff. There was no conflicting evidence to weigh, since the defendant had no witnesses. Then the jury would have to decide what damage, if any, had been done. If the question came to one of damages, it should be the difference between the value of the mare before and after the accident, plus any bills incurred in connection therewith.

The jury were out for thirty minutes, returning with a verdict of negligence on the part of the defendant company in the construction of the fence and an award for the amount of damages claimed, judgment being rendered accordingly.

STUDENTS WILL GET AFTER ROWDIES

The Outrages of Halloween Have Aroused Toronto Men and They Will Take Action.

Toronto, Nov. 8.—University circles are stirred as never before over the outrages perpetrated by a section of the students body on Hallowe'en. President Falconer's appeal to the mass meeting convocated this morning for undergraduates' support in the suppression of the outrages which are sullying the fair fame of the university, has met with the unqualified support of the majority of the students and every undergraduate society to which appeal was made is only too ready to take all possible steps to aid the authorities.

Resolutions of support of President Falconer's proposal will be passed by the various societies as soon as they can meet. The literary and scientific society of University College will pass a drastic resolution on Friday night. At present the investigation into the occurrence is going on behind the walls of the president's room, and there are hopes of securing the names of at least a half dozen of those concerned. President Falconer says that those apprehended will be treated with justice only tempered by the necessary mercy.

CUTTERS AND TRIMMERS ORGANIZE UNION

Toronto, Nov. 8.—The local clothing cutters and trimmers are to form an independent organization free from the control of the international association. Fred Healy, president of the United Garment Workers of America, today was waited upon by a delegation of the cutters and trimmers and asked to form an independent local. There are 250 members of the trade in Toronto. They claim that their interests have been neglected by the international union.

Graft Investigation Collapses.

St. Catharines, Ont., Nov. 8.—The civic investigation into the allegation of graft in connection with the paving contracts, was closed this morning by Judge Caman, no one appearing to make the charge. Judge Caman said he would make a report on the investigation within a few days.

Hearing Adjourned.

Chatham, Ont., Nov. 8.—Mrs. Mary Rumble, charged with blowing up her husband's house in Harwich on the morning of October 23, while Rumble and the family were asleep, was arraigned this morning, but the hearing was adjourned for a week.

UNION LABEL

TUESDAY, NOVEMBER 9, 1909.

STILL WILD AND RECKLESS.

The much discussed agreement entered into between Premier McBride and Mr. D. D. Mann calls only for "the building of a line of railway to connect with the main line of the Canadian Northern railway through the province from Yellowhead pass to the City of Vancouver." That with the Kettle Valley railway provides for a line of thirty miles from Grand Forks up the north fork of the Kettle river, another from Midway to Penticton, and another from Penticton to Nicola. But the Premier and his henchman, Mr. Bowser, are engaged in touring the country and preaching loudly and strenuously a wonderful policy of development to be undertaken by the Government, if returned to power. Not only are they going to do all manner of things with the Canadian Northern—in their view the limitations of the published agreement do not appear to count for much—but they promise a railway connection for almost every place they touch at. In fact the country will become, according to the alluring pictures presented by the political twain, a mass of interesting railway lines, a veritable maze of railways. Such wild and reckless statements and promises can only arouse the suspicion of the electors as to the veracity and good faith of the Conservative —well we will call them enthusiasts.

It is quite easy to see that these reckless promises and random statements are neither more nor less than bribes to the electorate. As such they will receive as little value as is their due. One cannot forget however that these men, who are so ready to barter their honour for a few paltry votes, are the very men who have been administering the affairs of the province, and, unluckily, have still the reins of government in their hands. Hitherto there has been present in the councils of the province the restraining influence of two consciencious men, Messrs. Tatlow and Fulton. But these, horrified and alarmed at the proposals and arrangements of the Premier, resigned in haste and departed. Now Mr. McBride and his filibustering companion, the whilom Attorney-General, who has become Finance Minister, have things entirely in their own hands.

It is evident that the newly fledged guardian of the public treasury means to have a real good time, to put it in colloquial terms. He is busily engaged in making it known that he intends to deal with the finances of the country in the good old free and easy, spendthrift style. He will have nothing of the careful, calculating methods of his predecessor about his department. He will not accumulate funds to produce reserves and surpluses. The record of Mr. Bowser as Attorney-General is sufficiently notorious to enable everyone to arrive at a safe conclusion as to who are likely to benefit from the munificence and liberality which he intends to pursue. But we have a strong faith that the electors of British Columbia will see to it that his opportunity for sqaundering the resources of the treasury of which he is just now in charge will be short-lived.

AN INJUSTICE.

We hope the effort that is being made by the leader of the Liberal party to secure fourteen days extension of the date for polling will be successful. Mr. Oliver, finding that the voters lists will not be obtainable from the King's printer for some days has presented a petition to the Lieutenant-Governor setting out circumstances and praying for the extension named. The lists cannot possibly be ready in time for the nominations and to proceed with the elections without these lists would be a manifest injustice to the electors.

AS OTHERS SEE IT.

Not in the Agreement.

Although the agreement with Mr. Mann is dumb on the subject of a first mortgage for the province on the line subsidized in British Columbia, the Premier declares that the ultimate contract will contain a first mortgage, and if it does not he will resign.

If this be true, and if Mr. Mann was ready to actually sign the contract, as the Premier says he was, why was this provision left out of the agreement which he did sign?—Victoria Times.

Position of the Province.

The province by that guarantee is placed in precisely the same position as a business man who endorses his friend's paper and then goes to the bank for money for his own business. The banker will promptly tell him his credit is exhausted. Moreover, he is very liable to ask that any overdraft be immediately covered. More especially is this likely to happen if it is known that the business man has been disposing of his assets and has not been developing his business as he should have. British Columbia has been selling her lands, her forests, alienating her permanent assets, and she has not been developing her resources by building roads or adding to her permanent revenues.—Saturday Sunset.

Co-Operation of G. T. P.

Speaking of the proposed government's railway policy, W. Wainwright second vice-president of the Grand Trunk Pacific railway, now in Victoria, stated that they should look to offering additional facilities by branches into southern British Columbia. At present his company has 100 miles from Prince Rupert, eastward along the Skeena river, almost completed, and an additional 200 miles is now under contract. At the same time another contract has been entered into from the end of the prairie section at Wolff Creek, which is one hundred and twenty miles west of Edmonton. Branch lines are also under construction both in Alberta and Saskatchewan. It will readily be seen that the road is already making such headway through British Columbia in both directions, that co-operation on the part of the Provincial government is all that is necessary to ensure railway facilities to meet the growing requirements of the country being furnished without any question. —Vancouver World.

C. N. R. in its Favorite Role.

The arrangement made with the British Columbia government by the Canadian Northern railway, which is the issue in the elections now pending, represents the high-water mark of achievement by this corporation in their favorite role of tapping governments for assistance. * * *

The guarantee applies to the principal as well as to the interest. There is, however, nothing exceptional in this. The Manitoba guarantees, which form the model for all these bond-guaranteeing enterprises, are guarantees of principal. If they were not they would be of no particular value to the railway company. But there are some unique features in this British Columbia arrangement which indicate a progressive facility on the part of the Canadian Northern officials in handling provincial governments. One is the absence of a definite agreement, expressed in the terms of a contract. The plea has been made on Mr. McBride's behalf that in this he has been following the precedent set by Manitoba in 1901. The statement has been made that the Manitoba Legislature in 1901 simply authorized the Manitoba government to make a contract along certain lines. This is quite inaccurate. The contract between the Province of Manitoba and the Canadian Northern Railway, dated February 11, 1901, is part and parcel of chapter 39 of the Manitoba statutes of 1901—the legislation providing for the guarantee. The mortgage was executed subsequent to the passage of the legislation, but it was, of course, governed by the terms of the contract which had been approved by the Legislature.

The most extraordinary feature of the agreement is that the Province of British Columbia has no security for the contingent liability of $21,000,000 which it assumes beyond a general promise by the Canadian Northern that it will indemnify the Province against all loss. There is no provision for a mortgage on the line—obviously there is no intention to provide for such a mortgage. Mr. Mann's generous offer to pledge thet receipts of the entire Canadian Northern system to repay any money which the Province may have to pay under this guarantee, is, of course, subject to the prior obligations of the company to its mortgagees and bondholders. The proposition appears to be that if the Canadian Northern is not able to pay interest on its British Columbia bonds the Province shall pay them in which case the Canadian Northern Railway will repay these amounts to the Province. This is a very peculiar understanding indeed; and it is by no means remarkable that leading Conservatives, like Sir Charles Hibbert Tupper, find themselves unable to give it their support.—Manitoba Free Press.

NOTICE.

Notice is hereby given that the Court of Revision o fthe list of householders entitled to vote in the City of New Westminster will sit at the City Hall in the City of New Westminster B. C., on Monday the 15th day November, 1909, at the hour of 10 o'clock in the forenoon.

Dated this 8th day of November, 1909.

W. A. DUNCAN,
City Clerk.

John Oliver Wants Elections Postponed

(Continued from Page One.)

are hoping that the Liberal leader may be successful in his efforts.

Little Change in Situation.

There have been few changes in the lay of the political forces since the close of last week. In Newcastle and Nanaimo the Socialists have the field to themselves, and will be allowed to retain it. It is now practically certain that Ymir will not be contested by the Liberals and Kaslo where N. F. Mackay is running in the Conservative interests, may also be allowed to go by default. The remaining constituencies in which no Liberal nominations have yet been made will, however, in all probability all be contested.

Martin L. Grimmett, president of the Yale Liberal association, yesterday announced that after a thorough canvas of the constituency he had found the opinion among the Conservatives of the riding so strongly in favor of Stuart Henderson as the standard-bearer against Premier McBride, that he did not deem it necessary to call a convention.

Premier McBride will have two sturdy foemen to fight at the polls, in the persons of Leader Oliver in Victoria and Stuart Henderson in Yale. Those who know the men and the feeling in the constituencies which will be contested by the Premier would not be at all surprised if after election day the head of the present government found himself under necessity of arranging with one of his underlings to resign his seat in his favor.

The Premier and his faithful henchman, Attorney-General Bowser, have been pursuing their course in the upper country, although today the premier will probably leave for Vancouver where he has been subpoenaed as a witness in the World libel case. On Saturday they addressed a large meeting at Cranbrook and were given a good reception, but there was manifest lack of enthusiasm. Both discussed the railway policy at length, but confined their remarks mainly to glittering generalities, ignoring entirely the point of chief concern here, early construction of the Kootenay Central. McBride's talk was smooth and consiliatory, while Bowser made a characteristic attack upon the Dominion government, appealing especially to the anti-Mongolian sympathies of the audience. However, his tirade was too bitter and too lengthy to create any favorable impression, more especially as Cranbrook electors still have in mind his campaign slander of the last election in reference to the alleged importation of 50,000 Japanese to work on the G. T. P.

The same evening Liberal candidate, MacDonald addressed a large gathering at Marysville, where he was given an enthusiastic reception. Dr. King, ex-M. P. P., also addressed the same meeting and the two made mincemeat of the McBride railway policy insofar as its effects for good in this part of the province were concerned.

The latest word from Fernie is to the effect that Ross will probably run third in the race. Fisher, the Liberal candidate, has splendid prospect of success, although it is generally conceded that Harrington, the Socialist candidate, will make a close, if not a winning run.

Liberals of southeast Kootenay are in splendid shape for the fight and their cause will be materially assisted by the disaffected Conservatives who, either because of the McBride railway policy or because of dissatisfaction with the nominees, are out strong against the McBride government. The feeling throughout this section is that if the coast Liberals do their duty, November 25 will see the end of the McBride government. All that is necessary is for united effort.

SPORTING NEWS

MINTO CUP McCULLOGH HAS ANOTHER ATTACK

Gentleman Who Induced Calgary to Challenge for Minto Mug Now Talks About Stanley Cup.

J. A. McCullogh, secretary of the Calgary lacrosse team, who was mainly responsible for the challenge issued by that aggregation to the Minto cupholders in this city, is again in the limelight.

Mr. McCullogh is out after another piece of silverware, and this time it is the Stanley cup. It appears that in the winter time the Calgary lacrosse team turns its attention in the direction of hockey, and Mr. McCullogh evidently thinks that if capable of challenging for the star lacrosse trophy the Calgarians might just as well talk about the Stanley cup too.

Fortunately for the reputation of the Foothill City, very few Calgarians take much stock in Mr. McCullogh's hot air. Did they do so suspicions might be aroused in the outside world that the high altitude of Calgary, while excellent for the lungs, is very bad for the brains.

This is what the Calgary Albertan has to say about it:

"Very few hockey enthusiasts will take the above statements of Manager McCullogh very seriously.

"In the summer he was instrumental in getting a challenge sent in for the Minto cup. That was feasible, though not very advisable. The Stanley cup proposition is an entirely different one. Of a large number of prominent hockey officials and players whom the Albertan has asked their opinions, not one, with the exception of Manager McCullogh, seems very enthusiastic about the matter."

KLING MAY BE OUT OF GAME FOR FOUR YEARS

Chicago, Nov. 7.—Regarding the reported plan of the Chicago National league management to turn John Kling over to the Brooklyn club, B. B. Johnson, of the National Commission says that in the event Kling is traded the club securing his services will be unable to play the star catcher during a period of four years.

"I don't see how Kling can be turned over to another club," said President Johnson. "He is a player who violated the terms of his contract by failing to report to the club during an entire season. Toward the latter days of season he played here with a semi-professional team. From the time he refused to report he laid himself liable to punishment.

Another Lipton Trophy.

Chicago, Nov. 7.—Sir Thomas Lipton has tendered to the Lake Michigan Yachting Association a cup to be raced for by all classes of yachts, under handdicaps to be provided by yachting committees. The prize will be known as the Sir Thomas Lipton special cup.

Is Now a Referee.

Harry Tidy, who has been prominent in intermediate football circles in the city, has received notification of his success in obtaining a "B" class referee's certificate at the recent examinations held in Vancouver. Harry is now after the "A" class certificate, and proposes to referee senior games.

Crazed by Religion.

Prince Albert, Nov. 8.—Matt Hall, formerly of the Salvation Army, was picked up on the street this morning suffering from a violent attack of religious lunacy, and locked in the cells.

JEFFRIES TO TOUR WITH ROLLER AND GOTCH

Heavyweight Pugilist Starts to Make Money But Ma yRuin Chances For Big Fight.

Seattle, Nov. 8.—According to advices received from Jack Curly, the sports promoter, who is now at his old home in Chicago, Dr. B. F. Roller of this city is to hook up with an all-star combination composed of Jim Jeffries, Frank Gotch and Dr. Roller, to tour the country before Jeffries meets Jack Johnson in the ring to settle that little dispute as to which man is entitled to the title of heavyweight fighter of the world.

Curly writes a local sporting editor that the tour is already arranged for seventy one-night stands reaching from Maine to Florida and extending as far west as Denver, taking in all the big cities. The plan is for Jeffries to meet all comers wherever permitted and when he cannot find an opponent he will box with Sam Berger. Gotch will forfeit $500 of his own money to any wrestler who can stay fifteen minutes with him and Roller will put in his time taking on the smaller fry and handicap matches.

Jeffries will start on his tour Nov. 15 at New York city. Gotch and Roller are to wrestle once more for the championship of the world at Kansas City the night of the 15th, and immediately after that match they will hurry east to join Jeffries.

Jeffries undoubtedly figures on picking up a pot of money while on the road and in the meantime he will try to fight himself into condition to meet Johnson. But that one-night stand business is terribly hard on the digestion, and the tour may do Jeff more harm than good.

Lipton Gives a Cup.

Chicago, Nov. 8.—Sir Thomas Lipton has tendered to the Lake Michigan Yachting Association a cup to be raced for by all classes of yachts, under handicaps to be provided by yachting committees. The prize will be known as the Sir Thomas Lipton special cup.

ST. YVES SHOWS HEELS TO JOHN D. MARSH

Spokane, Nov. 8.—Henri St. Yves, the little French waiter, raced home an easy victor over John D. Marsh, the Canadian, and the rest of the field of four in the Marathon race at Recreation park yesterday afternoon. St. Yves was fully 500 yards, more than a lap and a half, in the lead at the finish. His time for the 20-mile course, six laps to the mile, was 1:54:32 2-5, only two minutes slower than the race at Seattle three weeks ago, also won by St. Yves.

The race was run under the most discouraging weather conditions, a fine drizzle falling steadily throughout. Promoter Tim McGrath is something like $2000 to the bad on the venture.

Will Discontinue Stage.

W. W. Fisher, who has been endeavoring to operate a stage between Sapperton and Fraser Mills, yesterday informed the Daily News that he had given up the service until such time as the road is improved by the city and government, its present condition being almost impassible. After a while, when conditions have improved if the residents of Fraser Mills so desire, Mr. Fisher will again operate a stage line to that place. In the meantime he has arranged with the Fashion livery to make their premises his headquarters for a four horse heavy rig outfit, designed for the conveying of parties through the country.

Correspondence

(The Daily News is not responsible for the opinions of its correspondents.)

Said Michael O'Doyle to Patrick McCarty,
"What will Gifford do for the labor party?
Dick McBride is always stuffin',
But Tom Gifford, he'll say nothin."
Said Pat McCarty to Michael O'Doyle,
"Tom'll do as Dick says with the sons of toil.
You never will hear him, he's continually bluffin',
He'll do as he's always done, you've said it—Nothin'."

George Walsh was arrested last evening charged with rolling a rancher in one of the down town hotels a few days ago. He will appear before the magistrate this morning and try to explain where his friend's sixty dollars disappeared to.

RICHARD CROKER HAS HAD ENOUGH

Prefers Horseracing in Ireland—Will Not Again Take Leadership of Tammany Hall.

New York, Nov. 8.—"No, sir, not for a million dollars. I'm through with active politics, and nothing can induce me to reconsider by determination to keep in the background. I have absolutely no comment to make on the result of the election," Richard Croker said, as he paced up and down the reception room of the Democratic club in Fifth avenue today.

Mr. Croker had a score of callers in the morning. Nearly all were members of the Croker "Old Guard," Tammany veterans, who had fought with the big chief through many a campaign.

"Oh, yes, they have asked me to come back, but it's no use. They asked me not to quit years ago when I gave up," said the former chieftain. "They said then that they wanted me, just as they have said so since. I have planned to go back to the other side in the spring. I'm going to do all the racing I can, and hope for better luck."

DEMAND RANSOM FOR STOLEN JEWELS

Thieves Who Robbed Madonna Open Negotiations With the Monks, Her Keepers.

Warsaw, Nov. 8.—Daring thieves who broke into the chapel of Pauline Monastery at Czenstockowa a week ago and robbed the highly venerated figure of the Virgin there of a valuable collection of gems have found it impossible to dispose of the loot with safety to themselves. So they have sent an agent to negotiate with the monks for the return of the jewels in consideration of a large sum of money.

The most precious of the stolen articles were a pearl-embroidered robe and a diamond crown. Besides these were taken numerous votive offerings of jewelry placed by worshippers at the Virgin's feet.

Since the desecration many weeping and praying women and men have thronged the chapel.

IT PAYS TO ADVERTISE —IN— THE DAILY NEWS

SAFETY OF FRANCE IN PUBLIC SCHOOL

Premier Briand Counsels French People Not to Be Trapped by Clerical Enemies.

Paris, Nov. 8.—M. Briand, the Premier, in an eloquent discourse last night, at the dedication of the home of the Educational League, at which President Fallieres and several of the ministers were present, announced that one of the government's principal pre-occupations would be the protection of the public schools, whose enemies were the real enemies of the republic.

He counseled the people to be calm under attacks, as he was convinced that the country's enemies were setting a trap and hoped to win over public opinion through excesses of passion and anger at the defenders of the public schools.

Pointing out that the last struggle was not with the church, but against those who pretended to direct the church, M. Briand declared that France will never obey orders from the outside and that Catholic France, which does not view religion as the instrument of a political propaganda, never will permit the exercise of brutal force against public institutions to which the nation is dedicated.

"The public schools," he continued, "are the hope of the future security of France, and if their enemies succeed in undermining the schools, it is the republic itself which will be weakened. The government will strive to secure adequate laws, but the support and defence of the people will be most efficacious."

Routine Business Occupies Council

(Continued from Page One.)

from $110 to $125 a month, and that of Assistant Engineer Stewartson was raised from $75 to $90 a month.

Mrs. Gilbert E. Hay sent in a long letter about the bad state of the street in her section of the city, but forgot to mention the exact locality. She characterized the street as a cow path and threatened to complain to the government. This was referred to Aldermen Johnston and Gray with power to act. Alderman Jardine was subsequently put on the same committee. Alderman Adams wanted to put the rest of the council on but they wouldn't stand for it.

The Letter Bag.

A petition was received from Geo. Godfrey and others asking the council to improve the street leading from Columbia street in Sapperton through subdivision 16, and to duly christen the said street. The communication was referred to the board of works.

L. A. Worthington, of the Fraser River Tannery, wrote asking permission to remove the floating portion of the old ferry landing to the new dock now being built. He stated that his company woudl be willing to allow the public to use their new dock. This will also receive the attention of the board of works.

A letter was received from Whiteside & Edmonds re $1000 damages for flooding the premises of Vidal & Bacchus, and a letter from Parr & Fee in reference to the same thing. Both were left over for consideration at the next meeting of the council.

The secretary of the Brunette Saw Mill company wrote asking for a raised-rock crossing at the corner of Columbia and Cumberland streets, for the convenience of passengers getting off the electric cars at that point. Referred to the board of works.

Whiteside & Edmonds rendered a bill of $175 for legal work in connection with the Coquitlam waterworks. The motion carried that the bill be paid.

Wade, Whealler & McQuarrie wrote advising the council that the consent of the superintendent of education was not necessary before selling the old school lot on Sixth avenue. Filed for reference.

The city solictors also advised that in their opinion the city was not liable in the Vidal & Bacchus damage claim.

Fritz Buse of Vancouver wrote asking the city for remuneration on account of having broken hsi leg, owing, he says to the bad condition of a sidewalk in Sapperton. He enclosed a letter from Dr. E. J. Rothwell, bearing out his remarks as to the extent of his injuries. The matter was referred to the finance committee.

C. J. Saunders, clerk of the municipality of Burnaby, wrote to the effect that tenders had been received for the grading of fifteen chains of Tenth avenue, and the contract awarded to E. Doran at $29 per chain subject to the approval of the New Westminster board of works.

S. I. Kelly asked for improvements to the hill on First street, city limits, writing that it was almost impassable. Referred to board of works. The matter of placing an electric light in the same locality was referred to the fire, water and light committee.

A communication was received from L. C. Gilman of the Great Northern Railway Co. referring the city to the railway solicitor at Seattle, regarding the improvements to their property in New Westminster.

J. T. Holmes wrote offering the city part of his lot on Columbia street, to provide room for the retaining wall necessary for the Hassam pavement. The offer was accepted and the thanks of the council was tendered to Mr. Holmes.

Alderman and Mrs. Wells Gray returned yesterday from a short visit to Bellingham, Wash.

S. S. TRANSFER

The steamer Transfer will leave Brackman-Ker wharf every week day afternoon at 2 p.m. for Ladner Westham Island and way ports, returning to New Westminster on following day. Saturday, returning same evening.

Pensioners For New Brunswick.

St. John, N. B., Nov. 8.—No successor to Agent-General Duff Miller will be appointed at present, but the London office will be conducted under the direction of Superintendent Wilmot here. The government has also appointed three commissioners, Hon. Dr. Landry, Superintendent Wilmot and Secretary Hubbard to act under a recent order of the British War Office, looking to a settlement of pensioners on the lands in this province.

Carnegie Does Not Expect War.

New York, Nov. 8.—Andrew Carnegie says regarding present relations between England and Germany:

"England is at present in a state of frenzy unwarranted. Germany has absolutely no idea of making war on England. She may war on England commercially, but there is nothing in any of the moves she has made to indicate that she desires to carry the conflict to any greater extreme."

The meeting of the Altar society of St. Peter's church, called for Thursday of the present week at the residence of Mrs. Carroll, will, owing to the absence of Mrs. Carroll from the city, take place at the home of Mrs. Ed Goulet.

PICTURE OF VENUS WAS DISAPPOINTING

But the Buyer Did Not Realize That Fact Until it Proved to Be Too Late.

Paris, Nov. 8.—An unusual scene was witnessed at the corner of the Rue Manuel and the Due des Martyrs last night. A crowd had gathered. The people were gazing on a picture of Venus which stood at the foot of a tree. Venus was asleep. Her pose was nonchalant, and she was nude, after the fashion of goddesses.

Why had the picture been placed at the foot of a tree? The crowd admired and wondered. It got so large that traffic was interfered with, and a policeman conceived it to be his duty to remove Venus to the police station.

A picture more than twelve feet square is not found in a public thoroughfare every day, and the police commissioner instituted an inquiry concerning this one.

He unearthed a rather piquant story of a picture transaction. A collector in a quarter bought Venus and persuaded himself that he had secured a treasure but when his friends, whose opinion he valued, saw the picture, they declared that it was a wretched production.

The collector rushed to the dealer accompanied by a commissionaire carrying Venus and demanded his money back on the ground that he had been deceived as to the artistic value of the picture.

"Not at all," replied the dealer. "You examined the picture a long time. It pleased you. We did not disagree about the price. You carried the picture away and paid me. It's a straight deal."

"In any case I am not going to give this rubbish house room," retorted the collector, and forthwith ordered the commissionaire to throw it into the street.

Venus will be taken to that place, the fourriere, where all unclaimed property is removed. Meanwhile she is being admired by prisoners in the police station.

LONDON APPARENTLY BECOMING VIRTUOUS

London, Nov. 6.—The city of London is apparently becoming virtuous. When the lord mayor took his seat in the Mansion House police court last Saturday, there were no charges or other cases to come before him—a happy state of affairs that had not occurred since 1895. In accordance with custom, a pair of white gloves was handed to the lord mayor to mark the occasion.

This immunity from crime does not mean so much as it might, for the district under the Mansion House court's jurisdiction is a section of the "city," consisting entirely of shops and offices, with a scanty resident population. The West End, the East End, the "Surrey Side," and the "Northern Heights" are just as wicked as ever.

Largest Scow on River.

The largest scow on the river, recently launched for Gilley Bros. from the ways of the Westminster Marine Railway Co., Lulu island, makes her first trip today. She was towed to Gilley's wharf yesterday and today leaves for Comox in tow of the tug Flyer to bring a load of 300 tons of coal for this city.

NO LONGER TORTURED.

A Sergt.-Wheller in R.C.A. Finds Cure From Agonizing Skin Disease.

Sergt. Wheeler Thos. P. Bennett, R. C. A., who lives at 705 Albert St., Ottawa, describes the relief which he got from D. D. D. Prescriptions.

"It gives me pleasure to commend D. D. D. to sufferers from skin diseases. For three years I suffered intensely from a skin disease which I developed on the back of my neck. It grew continually and sometimes cast off scales. Neighbors' advice, prescriptions, salves and expensive blood medicines were lavishly used.

"At last I found relief in D. D. D. used according to directions. It required just one bottle to effect a cure. I am no longer tortured so I have no hesitancy in acknowledging to the world the worth and great virture of D. D. D."

Blood medicines cannot kill the germs in the skin which cause eczema and other skin diseases. Salves fail because they cannot penetrate. D. D. D. goes right into the pores, kills the germs and cures, as many of our New Westminster people can testify. Frank MacKenzie, Druggist, New Westminster.

For free sample bottle of D. D. D. Prescription write to the D. D. D. Laboratory Department, N. N., 23 Jordan St., Toronto.

For sale by all druggists.

OXFORD UNDERGRADS LOSE ON RACES

Sporting Men Make Big Money Out of Callow Youths at English Universities.

London, Nov. 8.—Borrowing money and betting on horse races, it has been discovered, form a considerable part of the industry of undergraduates of Cambridge and Oxford universities. The facts have been disclosed by a case brought under the betting acts, in which Edward Fairfax Studd, justice of the peace in County Devon, sued a sporting "tipster" for sending his son, a minor, an invitation to gamble on the Cesarewitch race. The defendant was fined $50 and costs.

"You will be given every facility to appeal," said the spokesman for the bench, "because of the importance of the case. The more the public knows about the luring of the university youth of this country from their studies and the paths of safety the better."

Mr. Studd told the magistrate that thousands of circulars were distributed among undergraduates of Oxford and Cambridge, some detailing how wealth could be acquired by gambling, and other offering loans on promissory notes without security. Ordinarily the fast life of the university is confined to the "bloods," a small minority of the students, but the combination of tips and proffered loans is said to tempt many poorer students to gamble.

STRIKE THIRTY-FOOT SEAM OF IRON ORE

Important Discovery Made on the Nova Scotia Steel Company's Property.

Halifax, N. S., Nov. 8.—The Nova Scotia Steel & Coal Company has struck a 30-foot seam of iron ore on their Wabana property.

The company has been looking for a new seam for the past two years. Tunnelling work has been going on all that time. The tunnel to the new seam is one and a half mile long, and extends that distance under the sea. The Dominion Iron & Steel Company's area extend one mile under water, and to reach the new seam the Nova Scotia Steel & Coal Company had to tunnel through their property the lease of sale giving them that right.

At present both companies are working leads on land, and the seam on land now being worked by the Nova Scotia Company is thirteen feet thick. As the new seam is thirty feet, it will be seen that it is of immense value.

The composition of the new seam is two feet of solid ore, two feet of broken ore and then 30 feet of solid ore of the best quality.

FATHER AND MOTHER DREAMED OF SON'S DEATH

Five Hours Later Came the News That He Had Fallen From a Bridge.

Camden, N. J., Nov. 8.—Five hours before they received by wire news of the death of their son, George Kepler, sr., of Third and Mount Vernon streets, and his wife, said that each had dreamed that he was killed.

Mrs. Kepler woke her husband up by her weeping, and in answer to his query related a dream almost identical in character with one he had dreamed. Both were so excited that they arose and awakened other members of the household. The ordinary duties were abandoned and all were expecting bad news when at noon a telegraph messenger mounted the doorsteps. Mrs. Kepler saw him first and swooned. The message said young Kepler had fallen thirty-five feet from a bridge at Steubenville, O. He was on a wedding tour and his bride is bringing his body to Camden.

To Reconstruct Famous Chapel.

Venice, Nov. 8.—It has been decided to begin the reconstruction of the famous Chapel of the Rosary, which was erected to commemorate the battle of Lepanto, a naval victory won in 1571 by the Italian and Spanish fleets over the Turks. The chapel was badly damaged by fire in 1867.

Tut, Tut.

Ottawa, Nov. 8.—Wilson Foster, a Yukon mining man, has presented the Dominion geological survey with a collection of gold and topaz and opal stones, valued at $10,000, which were taken from the gizzards of partridges, grouse and other ground birds found in the Yukon.

IS CLASSIC COMEDY.

"Forty-Five Minutes From Broadway to Show Here November 22.

Nothing has struck the popular chord with fuller force in years in New York, Chicago and Boston than George M. Cohan's play, "Forty-Five Minutes From Broadway," which Cohan & Harris present at the New Westminster opera house on Monday, November 22, with that ever-popular comedian, Charley Brown, as "Kid Burns," and Elizabeth Drew as "Mary, the Housemaid," in New Rochelle, New York. There are humorous incidents galore and numerous songs and dances in the entertainment. Its music is being hummed and whistled everywhere, and its bright lines and jokes are everywhere repeated. Nothing has been more successful from the theatre standpoint or from fulfillment of the playwright's mission to entertain and satisfy a discriminating public. The original cast and production will be seen here.

Scotch Whisky

The Maturing Process.

Everyone knows that whisky, no matter how good, no matter how carefully distilled, must possess *age* in order to be palatable.

An unmatured whisky, even though distilled from the very best barley, is harsh to the taste—bites the tongue.

It is not, however, so generally known that in order to *properly* mature Scotch Whisky, it should be aged in Sherry wood.

Distilled in the Highlands of Scotland, from pure, malted barley, Watson's Whisky is stored for years in Sherry Casks—and the capacity of our warehouses is such that we never need to withdraw any for shipment until we are quite sure it is matured to that degree of "mellowness" for which our brand is famed.

Insist on Watson's

"THREE STAR"—A mild, thoroughly matured Scotch.
"NO. 10"—A full-bodied, richly flavored Scotch.

JAMES WATSON & CO., Limited - Dundee.

In the police court yesterday only one offender was called, and he failed to put in an appearance, a five-spot having saved him the necessity of answering to his name. The bail was forfeited.

Don't fail to hear Pauline Johnson and Miss Munn at St. George's hall tonight. Admission 50c.

A dance will be held in the Eagles Hall, on the 11th inst., at 8 p.m. Everybody welcome. 259-2

Repairing neatly done by D. F. Quigley at Sinclair's shoe store.

The civic court of revision for the householders list will be held in the city hall on Monday mornig next, November 15, at 10 o'clock, in preparation for the approaching elections next month.

New Furniture Store.—Messrs. Denny & Galloway have opened up a new furniture store in the Cunningham block, 43 Sixth street. They will be pleased to have you call and inspect their stock.

Chief Watson of the Fire Department and his wife returned yesterday from a few days' holiday to Everett, Wash. The chief had a very enjoyable trip and reports everything booming in the southern city.

Miss Pauline Johnson and Miss Munn will give an entertainment in St. George's hall tonight at 8 o'clock. Don't miss it. Admission 50c.

The steamer Transfer will hereafter leave the Brackman-Ker wharf for Ladner, Westham Island and way points, at 2 o'clock in the afternoon instead of at 3, as hertofore, returning on the following morning. On Saturday she will make an extra return trip arriving in the city in the evening. Trips will be made to Steveston as the business warrants. **

Some time ago Mayor Keary received a letter from James Samson who wrote that he was touring the country in the interests of the Government Annuities scheme. A week ago Mr. Samson called on the mayor and asked him if he could arrange to have a meeting on that night. As there was a council meeting on that night the mayor was able to oblige him. Mr. Samson left for the East and none of the city officials have heard from his since.

Security—That is the factor in a safety deposit vault. Ours are absolutely perfect in this regard. You may go away and leave your valuable papers in these vaults with the feeling of perfect security. No injury can come from fire, from floods, from burglar or any other cause. Isn't it worth something to you to have that feeling of perfect security? Dominion Trust Co., Ltd., T. R. Pearson, manager New Westminster branch.

The fire brigade was given a run to Columbian College about 10 o'clock yesterday mornig, a defective chimney having started a blaze between Principal Siprell's office and the dining room. The firemen found it necessary to tear up some of the floor before the incipient blaze was finally brought under control. The brigade arrived just in the nick of time as there would undoubtedly have been a serious conflagration, if it had got a little more time.

The town of Port Moody now enjoys the advantages attendant upon the possession of electric power. Yesterday the B. C. Electric Railway completed their power line to that town and the people are now no longer afraid to go home in the dark. The company has had a large force of men at work for some time erecting the new pole line from Barnet to Port Moody and the wires are now all up. The new line receives its service direct from the station at Lake Buntzen, branching off the main line after crossing Burrard Inlet and running along the shore to Port Moody.
