HUMBOLDT BLOCKADE ROUGH ON MEN

Recent Arrival Graphically Describes Conditions Existing During Tie-up of C. N. R.—Experience Induced E. C. McLaren to Come to New Westminster.

E. C. McLaren, who recently landed in Canada from England with the intention of homesteading in Alberta, arrived in this city Saturday afternoon, and has decided to make his future home in B. C., preferably in New Westminster or surrounding district. During the short time he was in Manitoba and Alberta, Mr. McLaren experienced all the joys of a real winter, and a few days of it was more than sufficient for him.

Speaking to a News reporter yesterday concerning the conditions on the C. N. R. line between Winnipeg and Edmonton, Mr. McLaren remarked:

"We were seventeen days going from Winnipeg to Edmonton. We were tied up by the snow blockade near Humbolt. It was not a heavy fall of snow which so completely tied up traffic. The general impression is that there are several feet of snow down around Humbolt. That is not true. The snowfall which blocked us was only a light fall. But the snow was wet, and before it was cleared it froze over the tracks, imbedding them in a solid mass of ice. When the C. N. R. finally got its snow plows to the scene of the blockade, it was found that they were useless. Two of them were hitched together with their engines. Three of the trainmen were injured, and one of them seriously, his leg being broken in two places.

"There were four westbound trains called by the blockade at Humbolt. There were between 1,000 and 1,300 passengers, exclusive of the stockmen. The feeding of these by the railway company, while they waited for the raising, required more than two fishes and five loaves. Humbolt was eaten out of house and home.

"There was little in the experience that was amusing. There were only sleeping cars on the entire four trains, and sleeping every night for over two weeks in colonist and tourist cars is by no means conducive to a tranquil spirit. There was nothing to relieve the monotony of remaining in the coaches. The railway company refused to allow 500 men among the passengers to go out and assist in clearing the blockade. Two hundred navvies were employed to do the work, and it was said that there were no more picks or shovels available which the passengers, who volunteered to assist, could be provided.

"The delay finaly got on our nerves and indignation meetings among the passengers were held almost every day during the second week of the blockade. Some of us clubbed together and sent a message to the superintendent at Winnipeg demanding that we be sent around by way of Prince Albert and the Swan river branch. As a result of this telegram, an order came to meet our demand, and our train, which was the first one of the four, was backed down to Dauphin, a distance of two hundred miles, and then sent north to Prince Albert, from where we proceeded to the Swan river branch striking the main line again 65 miles west of the blockade. This trip around by Prince Albert was 716 miles. We struck the main line about four hours before the second train reached the same point.

"The tie-up in the traffic is resulting in serious stock losses. At Humbolt 75 cars of stock were side-tracked, and at Kamsack and Swan River there were 200 more. Many of the horses have been in the cars for 28 and 30 days, and many of them are dying, a result which spells ruin for many settlers. Settlers' efforts are also side-tracked. The stock losses, of course, not defrayed by the railway company.

"The line is now open, however, and a recurrence of an experience like that which 1,300 people have gone through during the last three weeks, is hardly probable this spring.

"For my part," concluded Mr. McLaren, "the experience was more than enough, and I decided as soon as I reached Edmonton that Alberta was not the place for me, and I came on to British Columbia. To use an expression common enough in this country: 'This looks good to me.'"

FUGUTIVE INDIANS SUPPOSED DEAD

HAZELTON AUTHORITIES BELIEVE THEY HAVE SUCCUMBED TO EXPOSURE OF SEVERE WINTER.

According to the latest word from the north, the provincial police at Hazelton are now almost entirely assured that Simon Gun-ah-noot and Peter Hye-Madam, the two Indians who are wanted on suspicion of murdering Max LeClaire last summer, are dead.

The two Indians, with a small party including Simon's wife and children, fled to the neighborhood of Bear lake after the crime was committed, and have since succeeded in evading all the search parties sent out after them by the police. As the winter passed and nothing was heard of them, it began to be suspected that they had perished, and now it is almost certain.

Both were sufferers from inflammatory rheumatism, and they could hardly have escaped alive after spending so rigorous a winter in open camp.

If the fugitives are alive it is thought that it must be because they received shelter at the hands of some of their friends. The provincial police are fairly well in touch with all the Indians of the neighborhood, and it is known that they were not sheltered in any of the reserves around Hazelton. There is one reserve near Bear lake the Indians at which are known to be friendly to Simon and Peter, and it is thought that they have been sheltered there. According to recent advices the police are preparing for a rigorous examination of the inhabitants of this reserve. They are being assisted by many parties of Indians in their search for the alleged murderers, the aborigines having been enlisted by the offer of a reward of $1,000 for the two men alive, or of $500 for their dead bodies.

According to recent advices, the weather continues very severe in the neighborhood of Hazelton, there being two or three feet of snow on the ground at the time that the last word was received.

AUTOS FOR PARADE.

Rare Treat Prepared for Children on May Day Festival.

J. Hudson, D. J. Stewart and F. J. Hart have kindly consented to allow their automobiles to take part in the May day festival parade, and the bubbles will accordingly be attractively decorated for this purpose. It is the intention of the parade committee to have a number of little girls dressed in white occupying seats in each auto, following directly after the May Queen's carriage. There will be no difficulty to find little girls willing to hold down the cushions in these conveyances.

Another feature of the parade will be the presence of three big trolleys, decorated with evergreens and bunting, on which will be erected pyramidical seats, capable of seating about thirty little maidens. The trolleys will be drawn by white horses groomed and brushed down with exceptional care.

$150 for Nine Inches of Land.

Toronto, April 21.—The Coles' bakery, Yonge street encroaches nine inches at the rear upon the adjoining property of Ralph E. Gibson and Robert L. McCormick, of the Conger Coal company. Messrs. Gibson and McCormick sued in the county court, before Judge Winchester, claiming $500 damages and for a removal of the bakery wall from this triangle with a nine-inch base. Mrs. Coles paid $60 into court, and claimed this to be ample compensation. Judge Winchester directed Mrs. Coles to pay the plaintiffs $150 for the space encroached upon.

Big Steamer Arrives.

Pilot J. W. Rogers brought into port yesterday morning the steamer Georgia, one of the finest vessels that has ever entered the Fraser, her gross tonnage registering 3,500 tons. Her destination after leaving here, will be Mexico. She is now loading up with ties at the Fraser River saw mills, and has already a part cargo of coal and sugar, which was taken on at Union Bay, the last port of call. At the present time, there are three large vessels loading lumber at the Fraser River mills.

WINNIPEG WOMEN HIT THE HOP PIPE

OPIUM DENS DISCOVERED BEHIND RESTAURANTS IN THE PRAIRIE CAPITAL—MANY EXPOSURES COMING.

Winnipeg, April 21.—An investigation as to the character of the business carried on by some persons in Winnipeg who have licenses for restaurants or to sell cigars and tobacco is being fully investigated.

It is said that some startling discoveries have been already made which go to show that some of the restaurants are regular dives, in which the business for which the licenses are issued is not the mainstay of the establishments.

Officers making the investigation came upon many strange scenes in the course of their work. In one case, after a little persistence entrance was secured to a room in which there were some women, some of whom were smoking opium. The place gave every evidence of being a regular dive operating under the name of a restaurant. In several other places it was found that stores, on the outside appearing to be only for the sale of tobacco and cigars, were apparently places of resort for very undesirable characters

The investigation as far as it has proceeded is said to have been quite a revelation as to the number of crooked joints and dives in the city.

CHICKENS POISONED.

Nineteen Valuable Pullets Killed Wantomly—Police Notified of Outrage.

Chief of Police McIntosh yesterday received a complaint from a west end resident to the effect that nineteen valuable young pullets had been poisoned by some unknown party a few days ago, the birds having been found dead in the backyard during the afternoon. The police are investigating the case, and hope to land the guilty party within the next few days.

There appears to have been no reason for the killing of the birds, as they were merely of a laying strain, and not intended for show purposes. From the circumstances, it appears to have been a pure act of spite on the part of some one having a grudge against the owner. Some of the birds had their heads crushed in when discovered, as if they had been trampled upon.

STRIKE IN BELGIUM.

Unrest Among Workmen Bodes Ill for Capitalists—Rioting Starts.

Brussels, April 21.—Preparations are being made for a general strike throughout the industrial regions of Belgium. The movement began with the miners and had its birth after the decision of the chamber on the eight-hour day. The Socialists are at the head of it. The miners claim that as the price of coal has increased, their wages should be augmented, and unless their demands are granted they threaten to strike forthwith. The railway men are also restless. They complain of their heavy work and poor pay.

The glassworkers in the Charleroi district take exception to the reduction of wages proposed by employers. They will come out on strike rather than suffer a reduction. The bricklayers in Flanders are actually on strike. Serious riots have taken place and the gendarmes have found it necessary to interfere. Several strikers were wounded.

MAD WITH HUNGER.

Wolves Attack Peasants on Village Streets—Many People Bitten.

Berlin, April 21.—Telegrams from the Jegorjewsk district of Russia show that the extraordinarily severe winter has driven the wolves mad with hunger. The animals penetrate into the villages in broad daylight. In Jadmost seven persons were bitten on the street while a peasant was attacked in his hut.

In the village of Kosanskoje, a peasant woman desired to save her children who were playing in the street. The frightened children succeeded in shutting the door of the house but the mother was left outside. The wolves attacked her, inflicting several wounds.

All the people bitten have been sent to Moscow for treatment.

DEATH IS PREFERRED TO STARVATION

Whole Families Refused Relief in China Suicide Rather Than Endure Pangs of Hunger—Government Gives One and a Half Cents per Dayto Sufferers.

Shanghai, April 21.—Investigation shows that the plans of the famine relief committee are admirable. A house to house inspection has resulted in 90,000 families totalling 500,000 famine sufferers being enrolled by the committee which is attempting to provide food for them until the harvest. Additions to the list of families will be made only when the funds available justify it.

Three kinds of relief tickets are issued. The first are free food tickets which are not issued unless the family has absolutely no money, food or pawnable articles, and its members are too weak to work. Often the thatch roofs and timbers of houses are sold and families because they had a table left have been refused relief and utterly discouraged they have committed suicide. Second, where they are physically able, one member of each destitute family is given work which is paid for in food. Third, the Chinese government is paying to some families one and one half cents per day. Tickets are given to the families entitling them to purchase famine supplies at cost. Food is furnished to ticket holders at the relief subcenters at stated times.

TEN COUNTERFEITERS MAKE FOUR-BIT PIECES

THE POLICE CAPTURE SEVERAL CLEVER CROOKS IN RED DEER—MONEY SHIPPED TO CALGARY.

Red Deer, April 21.—For the past few days the local police have been aware that a party of men in or near the town were engaged in the manufacture of counterfeit fifty cent pieces and have been working very hard to run the offenders to earth.

Last night a well organized raid was carried out on a shack on the outskirts of the town, and ten men were arrested. Several other arrests are pending, and will be made today or tomorrow. Owing to there being a few of the parties to the coin making still at large the police are very reticent regarding the matter and refuse to divulge anything.

The mode of procedure of the gang is alleged to have been to manufacture the coins here and then ship them to Calgary and other towns along the line, where they were received by accomplices and placed in operation.

Three packages of the bogus coins had been shipped to Calgary within the last two weeks.

PAINTED INDIANS FIGHT.

Clad in Full War Paint and Feathers, Red Men Quarrel.

New York, April 21.—The spectacle of two Sioux Indians in full war paint, in what might have been a fight to the death if interference had not come, created almost a panic in crowded Broadway today. Willie Big Charger, and Bad Wolf, the offenders are both under arrest.

Charger and Wolf were walking down Broadway in all the splendor of war paint and feathers, when they got into argument over Charger's wife, now dead. The men appeared to become very angry, and suddenly Charger drew a revolver, and pointed it at Wolfe's head, firing twice. Both bullets went wide, and as the crowd scattered the men prepared to continue the fight, but a policeman hailed by a bystander sprang upon Charger and wrenched the revolver from his hands before he could fire again. In an instant Wolf sprang to his erstwhile enemy's aid and attempted to free him from his captor. He was not successful, however, and soon both Indians were locked up.

WORK ON V. V. & E.

Many Men Employed on Construction of New Line.

The Vancouver, Victoria & Eastern railway is doing all in its power to rush construction on the line from Cloverdale to Sumas, and is employing all the help it can possibly get. At the present time over two thousand men are engaged in the work of grading the right-of-way, while hundreds of teams are employed. The camps along the line are an interesting sight, and although they contain a motley crew of laborers, including several races of white men, Hindus, Japanese and Chinese, they are kept in good order and in a first-class sanitary condition. It is expected that the right-of-way will be ready for tracklaying before the end of the present summer.

INSPECTOR SWORD DENIES SUGGESTIONS

BIRKENHEAD RIVER HATCHERY WAS NOT CHOSEN BECAUSE OF BABCOCK'S RECOMMENDATIONS.

Interviewed in regard to Hon. Mr. Fulton's speech in the "News Advertiser" on Mr. Oliver's motion to reduce the vote for the Seton lake hatchery, Inspector Sword stated that there was no truth in the suggestion that it was owing to Mr. Babcock's recommendation that the site for the Dominion hatchery on Birkenhead river had been chosen, nor was he aware that the Provincial government had in view the building of a hatchery there at that time.

In 1902, when John Crawford, superintendent of hatcheries for the State of Washington, was here on an exploratory tour with the view of deciding on the best site for an international hatchery, which the then fisheries commisisoner of Washington hoped to be able to establish, he selected this locality. His views as to its suitability were strengthened by a second visit in 1903. 'On both occasions, Mr. Sword and Mr. Crawford discussed frankly, the advantages and disadvantages of different localities for hatchery purposes. Mr. Sword had the full advantage of the information obtained by Mr. Crawford, and suggested this as likely to be a suitable locality for another hatchery. When questioned on this point by the late minister during his visit to British Columbia in 1904, when the building of a hatchery on the Birkenhead river had been authorized, the present site, which is practically the same as that recommended by Mr. Crawford, was chosen by Mr. Cunningham, Dominion superintendent of fish culture, after a personal inspection, in which he was accompanied by Thomas Robinson of the Harrison Lake hatchery.

As regards Mr. Fulton's statement that the Dominion government, after the province had secured the site of the Seton Lake hatchery, tried to get an option from those who had formerly owned it, Mr. Sword knew nothing. This was the first he had heard of it, and certainly no such attempt had been made through him.

All England Wins.

Under the most favorable conditions England vs. Canada football game was played on Cambie street grounds, Vancouver, Saturday afternoon, resulting in a win for England by a score of 3 to nil. The score by no means shows the strength of the losers who played a hard game. The game was witnessed by a crowd that circled the entire ground standing two and three deep in some places. Compared with the previous international game it was inferior, several of the players being obviously out of practice.

Open in July.

Victoria, April 21.—After a thorough inspection of the new hotel, The Empress, yesterday afternoon, William Whyte, second vice president of the C. P. R., came to the conclusion that there was nothing to prevent the completion of the structure and its opening to the public by Dominion day, July 1. Mr. Whyte spent considerable time in the building and he expressed gratification at the way the work on the structure had progressed.

LAST COLLIERY HAS CLOSED DOWN

SITUATION LOOKS GLOOMIER THAN EVER—ALL INDUSTRIES WILL BE PARALYZED.

Nanaimo, B. C., April 21.—The last of the coal mines to close down in British Columbia and Alberta was the Coal company's collieries at Nanaimo, Alberta, where the men went to work Saturday. W. H. Aldridge, managing director of the Pacific Coal company, will leave today for Fernie to attend the conference of the mine operators and employers to be held for the purpose of endeavoring to end the strike.

The C. P. R. has given notice that, owing to the shortage of coal because of the strike, it will handle no more coal and today refused small and large shipments of freight, consigned to Rossland to Greenwood, Trail and other points. The road has only enough coal for its passenger trains. If the strike continues for any length of time it will completely paralyze the mining, smelting and lumbering industries of the interior of British Columbia, and cause a large financial loss to the people.

BOYS DRIFT AWAY.

Plucky Lads Carried Out to Sea—Rescue Almost Impossible.

Victoria, April 21.—Two lads from the vicinity of Centralia, thought to be George Smith and Alex Maxwell, left by running away and endeavoring to ship on some vessel from the harbor, attempted the trip from Nanaimo to Westport this afternoon in a small row boat while the tide was ebbing and which was too strong for them as they neared the bar. They have not since been sighted and it is feared that they have drifted out to sea where rescue is hardly possible unless they may be picked up by one of the sea-going tugs coming in.

SOCIALISM BLAMED FOR RIOTS IN JAPAN

REIGN OF TERROR EXISTS AT ASHIO COPPER MINES—TROOPS AT SCENE.

Tokyo, April 21.—Socialism is given as the cause of the recent savage riots at the Ashio copper mines, near Nikko, in Japan.

Owned by the Farukawa family, well known pioneers of industry, the mines are equipped with the best engineering appliances and give employment to about 10,000 men. The town of Ashio is the center of this mining district.

With the disconcerting abruptness of an earthquake the public suddenly learned that hundreds of men from one of the mines were in revolt, that property was being destroyed by fire and dynamite, that the police were helpless, that the wives and families of terror stricken officials were taking refuge in the mountains, and that the town of Asho was set on fire.

Government and private authorities were worse than helpless during this period of anarchy, and so encouraged the maddened miners, whose grievances were forgotten in their lust for destruction and pillage. Not until the arrival of a large force of troops, was a semblance of order restored.

Briefly, three causes appear to have provoked the outbreak at Ashio—the wretched conditions under which the miners work and live; grievances against the officials at the mines, and socialist propaganda. The last is the most immediate and direct cause.

David McBroom, an aged city employee, who has been so seriously ill at the Royal Columbian hospital during the past few weeks, left that institution for his home on Saturday, greatly improved by his sojourn in the hospital.

HUMBOLDT BLOCKADE ROUGH ON MEN

Recent Arrival Graphically Describes Conditions Existing During Tie-up of C. N. R.—Experience Induced E. C. McLaren to Come to New Westminster.

E. C. McLaren, who recently landed in Canada from England with the intention of homesteading in Alberta, arrived in this city Saturday afternoon, and has decided to make his future home in B. C., preferably in New Westminster or surrounding district. During the short time he was in Manitoba and Alberta, Mr. McLaren experienced all the joys of a real winter, and a few days of it was more than sufficient for him.

Speaking to a News reporter yesterday concerning the conditions on the C. N. R. line between Winnipeg and Edmonton, Mr. McLaren remarked:

"We were seventeen days going from Winnipeg to Edmonton. We were tied up by the snow blockade near Humbolt. It was not a heavy fall of snow, which so completely tied up traffic. The general impression is that there are several feet of snow down around Humbolt. That is not true. The snowfall which blocked us was only a light fall. But the snow was wet, and before it was cleared it froze over the tracks, imbedding them in a solid mass of ice. When the C. N. R. finally got its snow plows to the scene of the blockade, it was found that they were useless. Two of them were hitched together with their engines. Three of the trainmen were injured, and one of them seriously, his leg being broken in two places.

"There were four westbound trains called by the blockade at Humbolt. There were between 1,000 and 1,300 passengers, exclusive of the stockmen. The feeding of these by the railway company, while they waited for the thawing, required more than two fishes and five loaves. Humbolt was eaten out of house and home.

"There was little in the experience that was amusing. There were only sleeping cars on the entire four, and sleeping every night for two weeks in colonist and tourist cars is by no means conducive to a tranquil spirit. There was nothing to relieve the monotony of remaining in the coaches. The railway company refused to allow 500 men among the passengers to go out and assist in clearing the blockade. Two hundred navvies were employed to do the work, and it was said that there were no more picks or shovels which the passengers, who volunteered to assist, could be provided.

"The delay finaly got on our nerves and indignation meetings among the passengers were held almost every day during the second week of the blockade. Some of us clubbed together and sent a message to the superintendent at Winnipeg demanding that we be sent around by way of Prince Albert and the Swan river branch. As a result of this telegram, an order came to meet our demand, and our train, which was the first one of the four, was backed down to Dauphin, a distance of two hundred miles, and then sent north to Prince Albert, from where we proceeded to the Swan river branch striking the main line again 65 miles west of the blockade. This trip around by Prince Albert was 716 miles. We struck the main line about four hours before the second train reached the same point.

"The tie-up in the traffic is resulting in serious stock losses. At Humbolt 75 cars of stock were side-tracked, and at Kamsack and Swan River there were 200 more. Many of the horses have been in the cars for 28 and 30 days, and many of them are dying, a result which spells ruin for many settlers. Settlers' efforts are also side-tracked. The stock losses, are of course, not defrayed by the railway company.

"The line is now open, however, and a recurrence of an experience like that which 1,300 people have gone through during the last three weeks, is hardly probable this spring.

"For my part," concluded Mr. McLaren, "the experience was more than enough, and I decided as soon as I reached Edmonton that Alberta was not the place for me, and I came on to British Columbia. To use an expression common enough in this country: 'This looks good to me.'"

COLLIERY HAS CLOSED DOWN

SITUATION LOOKS GLOOMIER THAN EVER—ALL INDUSTRIES WILL BE PARALYZED.

Nanaimo, B. C., April 21.—The last of the coal mines to close down in British Columbia and Alberta was the Coal company's collieries at Nanaimo, Alberta, where the men went out Saturday. W. H. Aldridge, managing director of the Pacific Coal company, will leave today for Fernie to attend the conference of the mine operators and employers held for the purpose of endeavoring to end the strike.

The C. P. R. has given notice that, owing to the shortage of coal because of the strike, it will handle no more freight and today refused small and shipments of freight, consigned from Rossland to Greenwood, Trail and other points. The road has only enough coal for its passenger trains. If the strike continues for any length of time it will completely paralyze the mining, smelting and lumbering industries of the interior of British Columbia, and cause a large financial loss to the people.

BOYS DRIFT AWAY.

Plucky Lads Carried Out to Sea—Rescue Almost Impossible.

Chehalis, April 21.—Two lads from the vicinity of Centralia, thought to be George Smith and Alex Maxwell, by running away and endeavoring to ship on some vessel from the Grays Harbor, attempted the trip from Aberdeen to Westport this afternoon in a small row boat while the tide was ebbing and which was too strong for them as they neared the bar. They have not since been sighted and it is feared that they have drifted out to sea where rescue is hardly possible unless they may be picked up by one of the sea-going tugs coming in.

SOCIALISM BLAMED FOR RIOTS IN JAPAN

REIGN OF TERROR EXISTS AT ASHIO COPPER MINES—TROOPS AT SCENE.

Tokyo, April 21.—Socialism is given as the cause of the recent savage riots at the Ashio copper mines, near Nikko, in Japan.

Owned by the Farukawa family, well known pioneers of industry, the mines are equipped with the best engineering appliances and give employment to about 10,000 men. The town of Ashio is the center of this mining district.

With the disconcerting abruptness of an earthquake the public suddenly learned that hundreds of men from one of the mines were in revolt, that property was being destroyed by fire and dynamite, that the police were helpless, that the wives and families of terror stricken officials were taking refuge in the mountains, and that the town of Asho was set on fire.

Government and private authorities were worse than helpless during this period of anarchy, and so encouraged the maddened miners, whose grievances were forgotten in their lust for destruction and pillage. Not until the arrival of a large force of troops, was a semblance of order restored.

Briefly, three causes appear to have provoked the outbreak at Ashio—the wretched conditions under which the miners work and live; grievances against the officials at the mines, and socialist propaganda. The last is the most immediate and direct cause.

David McBroom, an aged city employee, who has been so seriously ill at the Royal Columbian hospital during the past few weeks, left that institution for his home on Saturday, greatly improved by his sojourn in the hospital.

FUGUTIVE INDIANS SUPPOSED DEAD

HAZELTON AUTHORITIES BELIEVE THEY HAVE SUCCUMBED TO EXPOSURE OF SEVERE WINTER.

According to the latest word from the north, the provincial police at Hazelton are now almost entirely assured that Simon Gun-ah-noot and Peter Hye-Madam, the two Indians who are wanted on suspicion of murdering Max LeClaire last summer, are dead.

The two Indians, with a small party including Simon's wife and children, fled to the neighborhood of Bear lake after the crime was committed, and have since succeeded in evading all the search parties sent out after them by the police. As the winter passed and nothing was heard of them, it began to be suspected that they had perished, and now it is almost certain.

Both were sufferers from inflammatory rheumatism, and they could hardly have escaped alive after spending so rigorous a winter in open camp.

If the fugitives are alive it is thought that it must be because they received shelter at the hands of some of their friends. The provincial police are fairly well in touch with all the Indians of the neighborhood, and it is known that they were not sheltered in any of the reserves around Hazelton. There is one reserve near Bear lake the Indians at which are known to be friendly to Simon and Peter, and it is thought that they have been sheltered there. According to recent advices the police are preparing for a rigorous examination of the inhabitants of this reserve. They are being assisted by many parties of Indians in their search for the alleged murderers, the aborigines having been enlisted by the offer of a reward of $1,000 for the two men alive, or of $500 for their dead bodies.

According to recent advices, the weather continues very severe in the neighborhood of Hazelton, there being two or three feet of snow on the ground at the time that the last word was received.

AUTOS FOR PARADE.

Rare Treat Prepared for Children on May Day Festival.

I. Hudson, D. J. Stewart and F. J. Hart have kindly consented to allow their automobiles to take part in the May day festival parade, and the bubbles will accordingly be attractively decorated for this purpose. It is the intention of the parade committee to have a number of little girls dressed in white occupying seats in each auto, following directly after the May Queen's carriage. There will be no difficulty to find little girls willing to hold down the cushions in these conveyances.

Another feature of the parade will be the presence of three big trolleys, decorated with evergreens and bunting, on which will be erected pyramidical seats, capable of seating about thirty little maidens. The trolleys will be drawn by white horses groomed and brushed down with exceptional care.

$150 for Nine Inches of Land.

Toronto, April 21.—The Coles' bakery, Yonge street encroaches nine inches at the rear upon the adjoining property of Ralph E. Gibson and Robert L. McCormick, of the Conger Coal company. Messrs. Gibson and McCormick sued in the county court, before Judge Winchester, claiming $500 damages and for a removal of the bakery wall from this triangle with a nine-inch base. Mrs. Coles paid $60 into court, and claimed this to be ample compensation. Judge Winchester directed Mrs. Coles to pay the plaintiffs $150 for the space encroached upon.

Big Steamer Arrives.

Pilot J. W. Rogers brought into port yesterday morning the steamer Georgia, one of the finest vessels that has ever entered the Fraser, her gross tonnage registering 3,500 tons. Her destination after leaving here, will be Mexico. She is now loading up with ties at the Fraser River saw mills, and has already a part cargo of coal and sugar, which was taken on at Union Bay, the last port of call. At the present time, there are three large vessels loading lumber at the Fraser River mills.

WINNIPEG WOMEN HIT THE HOP PIPE

OPIUM DENS DISCOVERED BEHIND RESTAURANTS IN THE PRAIRIE CAPITAL—MANY EXPOSURES COMING.

Winnipeg, April 21.—An investigation as to the character of the business carried on by some persons in Winnipeg who have licenses for restaurants or to sell cigars and tobacco is being fully investigated.

It is said that some startling discoveries have been already made which go to show that some of the restaurants are regular dives, in which the business for which the licenses are issued is not the mainstay of the establishments.

Officers making the investigation came upon many strange scenes in the course of their work. In one case, after a little persistence entrance was secured to a room in which there were some women, some of whom were smoking opium. The place gave every evidence of being a regular dive operating under the name of a restaurant. In several other places it was found that stores, on the outside appearing to be only for the sale of tobacco and cigars, were apparently places of resort for very undesirable characters

The investigation as far as it has proceeded is said to have been quite a revelation as to the number of crooked joints and dives in the city.

CHICKENS POISONED.

Nineteen Valuable Pullets Killed Wantomly—Police Notified of Outrage.

Chief of Police McIntosh yesterday received a complaint from a west end resident to the effect that nineteen valuable young pullets had been poisoned by some unknown party a few days ago, the birds having been found dead in the backyard during the afternoon. The police are investigating the case, and hope to land the guilty party within the next few days.

There appears to have been no reason for the killing of the birds, as they were merely of a laying strain, and not intended for show purposes. From the circumstances, it appears to have been a pure act of spite on the part of some one having a grudge against the owner. Some of the birds had their heads crushed in when discovered, as if they had been trampled upon.

STRIKE IN BELGIUM.

Unrest Among Workmen Bodes Ill for Capitalists—Rioting Starts.

Brussels, April 21.—Preparations are being made for a general strike throughout the industrial regions of Belgium. The movement began with the miners and had its birth after the decision of the chamber on the eight hour day. The Socialists are at the head of it. The miners claim that as the price of coal has increased, their wages should be augmented, and unless their demands are granted they threaten to strike forthwith. The railway men are also restless. They complain of their heavy work and poor pay.

The glassworkers in the Charleroi district take exception to the reduction of wages proposed by employers. They will come out on strike rather than suffer a reduction. The bricklayers in Flanders are actually on strike. Serious riots have taken place and the gendarmes have found it necessary to interfere. Several strikers were wounded.

MAD WITH HUNGER.

Wolves Attack Peasants on Village Streets—Many People Bitten.

Berlin, April 21.—Telegrams from the Jegorjewsk district of Russia show that the extraordinarily severe winter has driven the wolves mad with hunger. The animals penetrate into the villages in broad daylight. In Jadnost seven persons were bitten on the street while a peasant was attacked in his hut.

In the village of Kosanskoje, a peasant woman desired to save her children who were playing in the street. The frightened children succeeded in shutting the door of the house but the mother was left outside. The wolves attacked her, inflicting several wounds.

All the people bitten have been sent to Moscow for treatment.

DEATH IS PREFERRED TO STARVATION

Whole Families Refused Relief in China Suicide Rather Than Endure Pangs of Hunger—Government Gives One and a Half Cents per Dayto Sufferers.

Shanghai, April 21.—Investigation shows that the plans of the famine relief committee are admirable. A house to house inspection has resulted in 90,000 families totalling 500,000 famine sufferers being enrolled by the committee which is attempting to provide food for them until the harvest. Additions to the list of families will be made only when the funds available justify it.

Three kinds of relief tickets are issued. The first are free food tickets which are not issued unless the family has absolutely no money, food or pawnable articles, and its members are too weak to work. Often the thatch roofs and timbers of houses are sold and families because they had a table left have been refused relief and utterly discouraged they have committed suicide. Second, where they are physically able, one member of each destitute family is given work which is paid for in food. Third, the Chinese government is paying to some families one and one half cents per day. Tickets are given to the families entitling them to purchase famine supplies at cost. Food is furnished to ticket holders at the relief subcenters at stated times.

TEN COUNTERFEITERS MAKE FOUR-BIT PIECES

THE POLICE CAPTURE SEVERAL CLEVER CROOKS IN RED DEER—MONEY SHIPPED TO CALGARY.

Red Deer, April 21.—For the past few days the local police have been aware that a party of men in or near the town were engaged in the manufacture of counterfeit fifty cent pieces and have been working very hard to run the offenders to earth.

Last night a well organized raid was carried out on a shack on the outskirts of the town, and ten men were arrested. Several other arrests are pending, and will be made today or tomorrow. Owing to there being a few of the parties to the coin making still at large the police are very reticent regarding the matter and refuse to divulge anything.

The mode of procedure of the gang is alleged to have been to manufacture the coins here and then ship them to Calgary and other towns along the line, where they were received by accomplices and placed in operation.

Three packages of the bogus coins had been shipped to Calgary within the last two weeks.

PAINTED INDIANS FIGHT.

Clad in Full War Paint and Feathers, Red Men Quarrel.

New York, April 21.—The spectacle of two Sioux Indians in full war paint, in what might have been a fight to the death if interference had not come, created almost a panic in crowded Broadway today. Willie Big Charger, and Bad Wolf, the offenders are both under arrest.

Charger and Wolf were walking down Broadway in all the splendor of war paint and feathers, when they got into argument over Charger's wife, now dead. The men appeared to become very angry, and suddenly Charger drew a revolver, and pointed it at Wolfe's head, firing twice. Both bullets went wide, and as the crowd scattered the men prepared to continue the fight, but a policeman hailed by a bystander sprang upon Charger and wrenched the revolver from his hands before he could fire again. In an instant Wolf sprang to his erstwhile enemy's aid and attempted to free him from his captor. He was not successful, however, and soon both Indians were locked up.

WORK ON V. V. & E.

Many Men Employed on Construction of New Line.

The Vancouver, Victoria & Eastern railway is doing all in its power to rush construction on the line from Cloverdale to Sumas, and is employing all the help it can possibly get. At the present time over two thousand men are engaged in the work of grading the right-of-way, while hundreds of teams are employed. The camps along the line are an interesting sight, and although they contain a motley crew of laborers, including several races of white men, Hindus, Japanese and Chinese, they are kept in good order and in a first-class sanitary condition. It is expected that the right-of-way will be ready for tracklaying before the end of the present summer.

INSPECTOR SWORD DENIES SUGGESTIONS

BIRKENHEAD RIVER HATCHERY WAS NOT CHOSEN BECAUSE OF BABCOCK'S RECOMMENDATIONS.

Interviewed in regard to Hon. Mr. Fulton's speech in the "News Advertiser" on Mr. Oliver's motion to reduce the vote for the Seton lake hatchery, Inspector Sword stated that there was no truth in the suggestion that it was owing to Mr. Babcock's recommendation that the site for the Dominion hatchery on Birkenhead river had been chosen, nor was he aware that the Provincial government had in view the building of a hatchery there at that time.

In 1902, when John Crawford, superintendent of hatcheries for the State of Washington, was here on an exploratory tour with the view of deciding on the best site for an international hatchery, which the then fisheries commisisoner of Washington hoped to be able to establish, he selected this locality. His views as to its suitability were strengthened by a second visit in 1903. On both occasions, Mr. Sword and Mr. Crawford discussed frankly, the advantages and disadvantages of different localities for hatchery purposes. Mr. Sword had the full advantage of the information obtained by Mr. Crawford, and suggested this as likely to be a suitable locality for another hatchery. When questioned on this point by the late minister during his visit to British Columbia in 1904, when the building of a hatchery on the Birkenhead river had been authorized, the present site, which is practically the same as that recommended by Mr. Crawford, was chosen by Mr. Cunningham, Dominion superintendent of fish culture, after a personal inspection, in which he was accompanied by Thomas Robinson of the Harrison Lake hatchery.

As regards Mr. Fulton's statement that the Dominion government, after the province had secured the site of the Seton Lake hatchery, tried to get an option from those who had formerly owned it, Mr. Sword knew nothing. This was the first he had heard of it, and certainly no such attempt had been made through him.

All England Wins.

Under the most favorable conditions England vs. Canada football game was played on Cambie street grounds, Vancouver, Saturday afternoon, resulting in a win for England by a score of 3 to nil. The score by no means shows the strength of the losers who played a hard game. The game was witnessed by a crowd that circled the entire ground standing two and three deep in some places. Compared with the previous international game it was inferior, several of the players being obviously out of practice.

Open in July.

Victoria, April 21.—After a thorough inspection of the new hotel, The Empress, yesterday afternoon, William Whyte, second vice president of the C. P. R., came to the conclusion that there was nothing to prevent the completion of the structure and its opening to the public by Dominion day, July 1. Mr. Whyte spent considerable time in the building and he expressed gratification at the way the work on the structure had progressed.

CRACK NUT SUNDAY.

Queer Method of Hearing a Sermon Still in Use in England.

"One fine autumn Sunday I attended a service in a north of England country church that would have driven a New York preacher clean crazy," said the man who travels. "The congregation didn't do a thing but sit around and crack nuts. Fancy a New York minister talking to a crowd of that kind! The modern preacher likes to have things quiet when he talks. It disconcerts him to hear a baby cry or a woman cough or an old man snore. If he is put out by such trifles as these, it is interesting to conjecture what he would do if he were to take hold of a congregation where everybody brought nuts to crack during the sermon.

"Worshipers, it seems, used to do this in England and even in our own states during colonial days. This disturbance was not a weekly occurrence by any means. If it had been, the poor preacher would have undoubtedly left his flock to administer spiritual consolation to suit themselves. But as it happened only once a year he was forced to endure it. This one day which was attended by such remarkable license came the Sunday before Michaelmas day and was called 'crack nut Sunday.' Nobody, no matter how pious he might be, hesitated to avail himself of the peculiar privilege granted him, and men, women and children came to church with their pockets stuffed with nuts, which they complacently cracked and munched during the sermon.

"It was that kind of a sermon that so impressed me with its oddity. It can be easily imagined that when forty or fifty people get to cracking nuts with all their might the noise is apt to be something terrific, and many times the minister was hard put to it to 'hear himself think.' That custom, from being regarded with high favor for many years, finally came to be looked upon as a nuisance, and the habit was suppressed, except in a few remote localities, although the act of suppression was attended with considerable difficulty, so firmly had the nut cracking fever taken hold of the fancy of the people."—New York Press.

TURPENTINE.

Moths will leave if it is sprinkled about.

Turpentine and soap will remove ink stains from linen.

Turpentine will remove wheel grease, pitch and tar stains.

Clean gilt frames with a sponge moistened in turpentine.

It will exterminate roaches if sprinkled in their haunts.

A few drops on a woolen cloth will clean tan shoes nicely.

A few drops added to water in which clothes are boiled will whiten them.

An equal mixture of turpentine and linseed oil will remove white marks from furniture caused by water.

Ivory knife handles that have become yellow can be restored to their former whiteness by rubbing with turpentine.

Carpets can be cleaned and colors restored by going over occasionally with a broom dipped in warm water in which a little turpentine is added.

Splendors of Cafes.

The cafes and hotels of New York are rivaling each other in the almost oriental splendor with which they have fitted up small rooms for dinner and after theater parties. At one cafe near Broadway the sides of one of these rooms are composed entirely of mirrors, after the French fashion, while the ceiling is covered with green leaves and grapes, bunches of pink and purple grapes of glass, within which are electric lights. The effect is that of a beautiful arbor. Another cafe has mirrors reflecting small red lights throughout the room, while the ceiling, also of mirrors, is an exquisite imitation of moonlight, the effect of which is obtained by electrics inclosed in globes of the color and sheen of moonlight seen through a delicate tracery of faint green leaves.—Exchange.

A Sad Case.

A Chicago physician was one day called to attend a sick child in a "shabby genteel" quarter of the Windy City.

"Madam," said the doctor to the mother, "you should send this child into the country for several weeks each summer."

"I am sorry to say, doctor," responded the woman, "that we are not rich enough to do that."

"Then," suggested the physician, "have her sent by the fresh air fund."

"Oh, doctor," exclaimed the woman, "we are not poor enough!"—Harper's Weekly.

Too Selfish.

Citiman—What's the matter with all you Swamphurst fellows? You don't seem to like my friend Backlotz. Subbubs—No; he's selfish. Citiman—Oh, come now! Subbubs—That's what he is. A barn near him caught fire the other night, and he put it out without waiting for the rest of us members of the Swamphurst Hose to reach the scene.—Philadelphia Public Ledger.

The Comfortable Fortune.

"What is your idea of a comfortable fortune?" asked the ambitious youth.

"One," answered the man of experience, "that is big enough to buy you everything you want and not big enough to attract the attention of the grand jury."—Washington Star.

A Novelty.

Guest—I hear you are going to give up housekeeping. Host—Sh! Not so loud! My wife wants to have the satisfaction of discharging the cook.—Puck.

Books Are Going Fast

SUNBURNT CHEEKS TURN RED WITH SHAME

MEN WHO ABDUCTED TWO YOUNG GIRLS ARRIVE TO COMMENCE TWO YEAR SENTENCE.

The two quartermasters of the Cassiar, Fred Ortago and Bruce Edwards, of Vancouver, were found guilty of the crime of abduction, and sentenced to two years in the Provincial penitentiary by Magistrate Williams on Saturday. The men were brought here yesterday morning and have commenced their term.

The accusation against them was that they had taken Ida Bell and Myrtle Ellis, two little girls, away from their homes without the sanction or knowledge of their parents or guardian, and had kept them concealed in their cabin on board, the Cassiar while the steamer made the round trip to the north.

Magistrate Williams, in passing sentence, administered a stern rebuke to the men, which dyed even their sunburnt cheeks with crimson. His Worship told them that if they had possessed the least spark of manly instinct, they should have advised the girls to return to their homes, and it was certainly their duty to have reported the presence of the girls to the captain.

It is probable that the prisoners did not fully comprehend the gravity of the situation, otherwise they might have secured counsel and although they were warned by the magistrate of the serious nature of the charge, they both pleaded not guilty.

Military Orders.

In the regimental order No. 15 issued Saturday by Lieut.-Col. J. C. Whyte, commanding Sixth regiment, D. C. O. R. headquarters Vancouver, B. C., the following notices apply to the local companies:

District Order No. 30, 1907, by district officer commanding military District No. 11 is hereby promulgated;

"The inspection of the Sixth regiment of the Duke of Connaught's Own Rifles for 1906-7 will be held as follows:

Nos. 1 and 2 companies at New Westminster on the 29th instant.

Dress: Review order.

Paylists in triplicate, duly signed, to be ready for muster by the Paymaster at the close of the inspection. Medical officer's report to accompany the pay lists, one copy for each set of three (3).

Parade states to be in readiness for the inspecting officer on his arrival on parade.

Target practice reports to be completed, and forwarded as soon after inspection as possible.

Armories, books, etc., will be inspected at New Westminster, at the close of the parade on the 29th instant.

P. ELLISTON, Captain R. C. A.,
D. S. A., M. D. No. 11.

In accordance with the above A and B companies will parade at the Armories, New Westminster, on Monday, April 29, at 3 p. m. Dress: Review order.

The officer commanding has been pleased to approve of the following transfer:

Sergt. Lusby from the supernumerary list to A company.

By order,
J. REYNOLDS TITE, Captain,
Acting Adjutant.

THE SEALING INDUSTRY.

Henry W. Elliott, the foremost American authority on the fur seal, has written a long letter to the Toronto Globe in which he gives a most interesting history of the negotiations which have taken place between the British and American governments about the Alaskan seal fishing, in the matters of pelagic sealing and the American contention that they had exclusive jurisdiction over the waters of Behring sea. He blames both governments, but puts the weight of blame upon his own, and says that it yielded to the pressure of the lessees of the seal islands.

Referring to the present demand of these lessees that an end be put to pelagic sealing, he says:

"The pelagic hunters retort that they will not agree to any suppression of their work, since it will only increase the gains of a private monopoly. Why should they?"

He is quite emphatic in declaring that, if the seal herds are to be saved from extermination, more radical measures must be adopted. Butchered on land by the lessees of the islands and in the ocean by the pelagic hunters, the finish, he thinks, is not far off. He says:

"Facing these combined forces of destruction on land and in the sea, as the last of the fur seal herd of Alaska does today, how much longer before its total extinction will take place? Does any reader of the Globe believe it will be much longer?

"In view of these facts, would it not be wise, humane and merciful for the British and American governments to unite at once in a plan of mutual concession in and joint control of this business of killing fur seals on the Pribylov islands and on the high seas, so that all private interests shall be completely eliminated now and forever from that business?

"If the two governments would so unite and give that small nucleus of fur seal life now in existence a respite from slaughter on the islands of St. George and St. Paul, for say, ten or twelve years, then the history of the great Russian decline and restoration of this Alaskan herd would repeat itself. In 1834 less than 60,000 adult fur seals were in existence in the Pribylov islands. All killing was suspended in the islands save a few thousand small male seals annually for natives' food up to 1844-46. Then it was gradually resumed and wisely conducted, so that by 1857-69 an annual catch of 60,000 to 80,000 young males was safely taken up to the date of the cession of Alaska—taken without any impairment of the annual birth rate on the breeding grounds."

FOR PURER POLITICS.

J. S. Willison of Toronto, speaking before the Canadian club at Barrie, on the subject of civic service reform, said that while not asserting that all the evils of politics would be eradicated by the establishment of a permanent, non-partisan civil service and the disappearance of the patronage committee, independent action among the voters would be largely increased, public men would be relieved from dependence upon the mercenary element, the civil service would be greatly strengthened in character and efficiency, the independence of character would be materially advanced, and the great problems of administration and high political debate upon broad questions of policy and principle would become the chief business of statesmen and people.

Of vast importance is the conference which is to take place tomorrow between miners and operators of the coal fields of Crow's Nest and Alberta. Unless they come to an agreement the government will be forced by paramount public need, to take over the operation of the mines.

It did not need the Imperial Budget to inform us that British trade was in a flourishing condition; ample evidence of the fact has been forthcoming in other ways; but it is none the less satisfactory to have the official confirmation. John Bull is doing a big business and is making money, so it seems quite certain that any who wish to have him return to the folly of protection will have to possess their souls in patience yet a little longer.

In the Kitchen—use WINDSOR SALT. It is a serious mistake to use common salt. Use the fine, pure Windsor. 160

SNIVELY IS DISGUSTED.

Sabbath Breakers Offend Pastor and He Resigns as a Protest.

Chicago, April 21.—Disgusted with society and people's abandonment of church-going for the pleasure of automobiling, golfing and other kinds of country outings on the Sabbath day, Rev. Thaddeus A. Snively resigned the rectorship of St. Chrysostoms Episcopal church, 544 Dearborn avenue.

His church was one of the most fashionable in the city, but it has been only at rare intervals that his pews contained at any one service more than a few dozen representatives of the 300 wealthy persons on a communion list of 375. They hie away to spend the day in the country, either on automobile trips, playing golf, or enjoying some sports and pastimes in which "house party" sets were accustomed, according to Mr. Snively, to drive dull care away on Sunday.

Walton's Disciples Work.

Several fishing enthusiasts took advantage of the fine weather yesterday, and angled for the wily trout, both from the Burnette saw mills, as also from the several bridges which cross the Burnette river. At the Small & Bucklin's mills, few anglers turned up, although several fine trout have recently been landed there, one a Dolly Varden weighing six pounds, which during the past week has been exhibited by S. Rushton in his window on Columbia street. It may be that the severe ducking a well known manager received at the Small & Bucklin's mills—was it last Sunday—kept many away to fear of a like catastrophe.

Traffic Increases.

Bellingham, April 21.—Passenger traffic has increased so much on the Bellingham Bay & British Columbia railway that it is likely the road will run few if any excursions this year, declares Superintendent H. B. Paige.

More rolling stock is needed by the line and Superintendent Paige will recommend the purchase of another locomotive and two passenger coaches. In order to get the extra Saturday passenger service to Glacier, as was done last year the company would have to buy another locomotive. Because of the lack of this equipment, says Paige, the train that made a round trip originally between Bellingham and Glacier on Saturday last summer will not be operated this year.

"Hello Bill."

It is with pleasure that the management announces the appearance at the opera house on Wednesday, April 24th, of the jolly success "Hello Bill," that extremely funny concoction of funny lines and humorous situations from the facile pen of Willis Goodhue, which for the past three years has made the entire eastern country shriek with laughter. To tell the numerous funny situations of "Hello Bill" would be practically impossible, they follow one another with such startling rapidity as to keep the auditor constantly mystified as to how the author can possibly get his characters out of the seemingly impenetrable maze into which he has enmeshed them. But he does, and his manner of doing so is said to display one of the most cleverly constructed farcical comedies ever presented. For this season's tour new songs have been secured which, it is claimed, cannot be excelled by any similar organization on the road. It is headed by the eminent comedian, Ferdinand B. Ashby, whose ability is too well known to require mention, and his assistant funmakers comprise such clever people as: William H. Walmsby, Robert Watt, John Bartlett, Grenville James, Carolyne McLean, Elizabeth Briner, Mary Le Vere, Dorothy Allen and Ethel Gwynn.

BOOKS ARE GOING FAST. SEE PAGE TWO.

CITY NEWS

Cut flowers and Pot Plants. Ring up Tidy, the florist. 'Phone A184.

The Mission band connected with St. Andrew's Presbyterian church is preparing to hold an entertainment in the near future.

The city council meets this evening. Mayor Keary will occupy the elevated seat, having partly recovered from his recent indisposition.

Mrs. A. L. Lavery, accompanied by her son Wilfred, left yesterday for a month's visit to her parents, Mr. and Mrs. John Martin, Vernon.

In the district court on Saturday, George Wiliams, better known as George Billy, was given his preliminary hearing before Capt. Pittendrigh, the charge being one of murder, in connection with the death of Alex. Murphy at Harrison on March 16.

Major Currie, of Victoria, is urging the visit of the Sixth Regiment to the Capital city on May 24th. He wants the Celebration Committee to donate $400, and if this is done, the local regiments wil raise another $300, $700 being the estimated cost of the trip.

A large number of boating parties were out on the river yesterday afternoon, several gasoline launches being noticed among the number. Three boating excursions to Pitt lake have been planned for Sunday, May 5, in which thirty people will take part.

For cut flowers, carnations and funeral designs telephone T. Davis & Son, florists, Tel. B208.

Dr. Farish, the eye specialist of Vancouver, was called in to a consultation on Saturday in the case of S. Gordon of Blackie Spit, who recently suffered a severe accident to his left eye, when it was decided that an operation was not necessary, the injured eye still showing favorable progress, which has been well maintained up to this morning.

The baseball match at Queen's park Saturday afternoon was the first senior game of the season. Only a few of the city team managed to put in an appearance, and the missing men were replaced by intermediate and junior players. Columbia college, playing its usual team, managed to win the game by something like twenty-five runs. The city team circled the diamond several times.

A party of Hindoos were noticed by the police yesterday afternoon enjoying long drinks from a black bottle. Chief of Police McIntosh was curious to discover the brand favored by the swarthy sons of India, and investigated. He pronounced it whisky. Questioned as to where they had secured the liquor, none of the Hindoos were apparently able to speak English, but a move in the direction of the police station loosened the tongue of one of them, and he named a hotel in Vancouver. The chief is inclined to believe the man, as the whisky was a brand not handled locally.

The funeral of James Blair, section foreman of the B. C. E. R., who died last Friday at the Royal Columbian hospital, took place yesterday, the Rev. G. Bell of Central Park, being the officiating clergyman. Representatives of Vancouver Carmen's Union No. 101 and New Westminster Carmen's Union No. 134 followed the cortege to the English church cemetery at Sapperton, where the interment took place. The following colleagues of the deceased acted as pallbearers: George Rawlinson, W. Wilson, Norman Morr's, J. Grose, Frank McDonough and W. Stuart. Handsome floral tributes were sent by both the Vancouver and Westminster unions.

DRUG STORE

25 cents per pound.

George Lavery, of Kamloops, is in the city visiting his brother, A. L. Lavery.

In several of the city Sunday schools, special collections were made yesterday on behalf of the famine fund for the sufferers in China.

W. E. O'Brien, who for the past few days has been the guest of his brother, S. O'Brien, of the Bank of Commerce staff, has returned home.

Owing to slight damage by the ice during the winter months, the C. P. R. steamer Beaver is laid up at the docks in order that a new propelling wheel may be fixed. The boat will be in commission again shortly.

Owing to the approach of summer, the bull frogs in the swamp are once more making their croakings heard over the land, and residents in that vicinity are complaining that they are unable to sleep at night on account of the noise.

The party of G. N. R. officials which left St. Paul for the coast on Friday morning, arrived in Seattle yesterday, and may possibly reach New Westminster today. The party will carefully look into proposed improvements along the country through which they will pass.

According to a statement made by a medical man yesterday afternoon, the smallpox epidemic at Barnet is not as serious as at first reported, only three cases of a mild nature being under treatment at the present time. There is absolutely no danger of the disease spreading, as the patients are all quarantined.

It is expected that the Rev. J. S. Henderson, president of the Westminster Lacrosse club, will call a meeting of the club this week, as there is a considerable amount of business to be attended to, and also to receive the reports of the delegates to the recent B. C. A. L. A. meeting held in Vancouver. A full meeting of the executive is desired.

Saturday's police drag net brought to the city lockup two forlorn inebriates, one a Japanese and the other a Siwash. The Indian still tarries at the coop, but the Japanese was allowed out on $5 bail yesterday afternoon. The police are searching for the man who supplied the Indian with liquor.

Mr. and Mrs. Gale of Vancouver, spent Sunday in the city, the guests of Mr. and Mrs. J. L. McInnes.

SOLDIERS PARADE.

Volunteers Listen to Special Sermon By Rev. J. S. Henderson.

Headed by the Pipers band of Vancouver, about one hundred men of A. and B. companies, D. C. O. R., paraded to St. Andrew's church yesterday morning, where the Rev. J. S. Henderson delivered an eloquent sermon on a subject specially chosen for the occasion: "Four soldiers of Jesus Christ." For his text he chose the words: "A good soldier of Jesus Christ." The speaker prefaced his remarks with a reflection upon the outcry sometimes made that the country was too strongly inclined towards militarism, and alarms had been sounded that this was opposed to the principles of the prince of peace. Nowhere in the Bible was there any command made against the maintaining of armed forces for the purpose of maintaining freedom, but on the other hand, the Master had often used military language in transmitting his commands.

Continuing, Mr. Henderson remarked that Canada was too free a country to be ever controlled by the militaryism, although the spirit of patriotism was the life of the Dominion. He then went on to describe the four soldier friends mentioned in the opening part of his sermon. The first was the centurion of Capernaum, the second was a centurion of Jerusalem who was present at the crucifixion, the third was a centurion of Ceasarea named Cornelius, while the fourth was Juluis, who had charge of the Apostle Paul while the latter was a prisoner, and who showed him many kindnesses.

In concluding an eloquent sermon, the pastor said that to be a good soldier, a man must be kindly disposed, gentlemanly, high minded, courteous and a believer in prayer. Unless a man's Christianity was deeply rooted, it would soon be knocked out of him in the army, as that was no place for shams of any kind, but a true Christian would only have his piety deepened by serving his country as a soldier.

THE SEALING INDUSTRY.

Henry W. Elliott, the foremost American authority on the fur seal, has written a long letter to the Toronto Globe in which he gives a most interesting history of the negotiations which have taken place between the British and American governments about the Alaskan seal fishing, in the matters of pelagic sealing and the American contention that they had exclusive jurisdiction over the waters of Behring sea. He blames both governments, but puts the weight of blame upon his own, and says that it yielded to the pressure of the lessees of the seal islands.

Referring to the present demand of these lessees that an end be put to pelagic sealing, he says:

"The pelagic hunters retort that they will not agree to any suppression of their work, since it will only increase the gains of a private monopoly. Why should they?"

He is quite emphatic in declaring that, if the seal herds are to be saved from extermination, more radical measures must be adopted. Butchered on land by the lessees of the islands and in the ocean by the pelagic hunters, the finish, he thinks, is not far off. He says:

"Facing these combined forces of destruction on land and in the sea, as the last of the fur seal herd of Alaska does today, how much longer before its total extinction will take place? Does any reader of the Globe believe it will be much longer?

"In view of these facts, would it not be wise, humane and merciful for the British and American governments to unite at once in a plan of mutual concession in and joint control of this business of killing fur seals on the Pribylov islands and on the high seas, so that all private interests shall be completely eliminated now and forever from that business?

"If the two governments would so unite and give that small nucleus of fur seal life now in existence a respite from slaughter on the islands of St. George and St. Paul, for say, ten or twelve years, then the history of the great Russian decline and restoration of this Alaskan herd would repeat itself. In 1834 less than 60,000 adult fur seals were in existence in the Pribylov islands. All killing was suspended in the islands save a few thousand small male seals annually for natives' food up to 1844-46. Then it was gradually resumed and wisely conducted, so that by 1857-60 an annual catch of 60,000 to 80,000 young males was safely taken up to the date of the cession of Alaska—taken without any impairment of the annual birth rate on the breeding grounds."

FOR PURER POLITICS.

J. S. Willison of Toronto, speaking before the Canadian club at Barrie, on the subject of civic service reform, said that while not asserting that all the evils of politics would be eradicated by the establishment of a permanent, non-partisan civil service and the disappearance of the patronage committee, independent action among the voters would be largely increased, public men would be relieved from dependence upon the mercenary element, the civil service would be greatly strengthened in character and efficiency, the independence of character would be materially advanced, and the great problems of administration and high political debate upon broad questions of policy and principle would become the chief business of statesmen and people.

Of vast importance is the conference which is to take place tomorrow between miners and operators of the coal fields of Crow's Nest and Alberta. Unless they come to an agreement the government will be forced by paramount public need, to take over the operation of the mines.

It did not need the Imperial Budget to inform us that British trade was in a flourishing condition; ample evidence of the fact has been forthcoming in other ways; but it is none the less satisfactory to have the official confirmation. John Bull is doing a big business and is making money, so it seems quite certain that any who wish to have him return to the folly of protection will have to possess their souls in patience yet a little longer.

In the Kitchen—use WINDSOR SALT. It is a serious mistake to use common salt. Use the fine, pure Windsor. 160

SNIVELY IS DISGUSTED.

Sabbath Breakers Offend Pastor and He Resigns as a Protest.

Chicago, April 21.—Disgusted with society and people's abandonment of church-going for the pleasure of automobiling, golfing and other kinds of country outings on the Sabbath day, Rev. Thaddeus A. Snively resigned the rectorship of St. Chrysostoms Episcopal church, 544 Dearborn avenue.

His church was one of the most fashionable in the city, but it has been only at rare intervals that his pews contained at any one service more than a few dozen representatives of the 300 wealthy persons on a communion list of 375. They hie away to spend the day in the country, either on automobile trips, playing golf, or enjoying some sports and pastimes in which "house party" sets were accustomed, according to Mr. Snively, to drive dull care away on Sunday.

Walton's Disciples Work.

Several fishing enthusiasts took advantage of the fine weather yesterday, and angled for the wily trout, both from the Burnette saw mills, as also from the several bridges which cross the Burnette river. At the Small & Bucklin's mills, few anglers turned up, although several fine trout have recently been landed there, one a Dolly Varden weighing six pounds, which during the past week has been exhibited by S. Rushton in his window on Columbia street. It may be that the severe ducking a well known manager received at the Small & Bucklin's mills—was it last Sunday—kept many away to fear of a like catastrophe.

Traffic Increases.

Bellingham, April 21.—Passenger traffic has increased so much on the Bellingham Bay & British Columbia railway that it is likely the road will run few if any excursions this year, declares Superintendent H. B. Paige

More rolling stock is needed by the line and Superintendent Paige will recommend the purchase of another locomotive and two passenger coaches. In order to get the extra Saturday passenger service to Glacier, as was done last year the company would have to buy another locomotive. Because of the lack of this equipment, says Paige, the train that made a round trip originally between Bellingham and Glacier on Saturday last summer will not be operated this year.

35—Columbia and McKenzie.

"Hello Bill."

It is with pleasure that the management announces the appearance at the opera house on Wednesday, April 24th, of the jolly success "Hello Bill," that extremely funny concoction of funny lines and humorous situations from the facile pen of Willis Goodhue, which for the past three years has made the entire eastern country shriek with laughter. To tell the numerous funny situations of "Hello Bill" would be practically impossible, they follow one another with such startling rapidity as to keep the auditor constantly mystified as to how the author can possibly get his characters out of the seemingly impenetrable maze into which he has enmeshed them. But he does, and his manner of doing so is said to display one of the most cleverly constructed farcical comedies ever presented. For this season's tour new songs have been secured which, it is claimed, cannot be excelled by any similar organization on the road. It is headed by the eminent comedian, Ferdinand B. Ashby, whose ability is too well known to require mention, and his assistant funmakers comprise such clever people as: William H. Walmsby, Robert Watt, John Bartlett, Grenville James, Carolyne McLean, Elizabeth Briner, Mary Le Vere, Dorothy Allen and Ethel Gwynn.

CITY NEWS

Cut flowers and Pot Plants. Ring up Tidy, the florist. 'Phone A184.

The Mission band connected with St. Andrew's Presbyterian church is preparing to hold an entertainment in the near future.

The city council meets this evening. Mayor Keary will occupy the elevated seat, having partly recovered from his recent indisposition.

Mrs. A. L. Lavery, accompanied by her son Wilfred, left yesterday for a month's visit to her parents, Mr. and Mrs. John Martin, Vernon.

In the district court on Saturday, George Williams, better known as George Billy, was given his preliminary hearing before Capt. Pittendrigh, the charge being one of murder, in connection with the death of Alex. Murphy at Harrison on March 16.

Major Currie, of Victoria, is urging the visit of the Sixth Regiment to the Capital city on May 24th. He wants the Celebration Committee to donate $100, and if this is done, the local regiments wil raise another $300, $700 being the estimated cost of the trip.

A large number of boating parties were out on the river yesterday afternoon, several gasoline launches being noticed among the number. Three boating excursions to Pitt lake have been planned for Sunday, May 5, in which thirty people will take part.

For cut flowers, carnations and funeral designs telephone T. Davis & Son, florists, Tel. B208.

Dr. Farish, the eye specialist of Vancouver, was called in to a consultation on Saturday in the case of S. Gordon of Blackie Spit, who recently suffered a severe accident to his left eye, when it was decided that an operation was not necessary, the injured eye still showing favorable progress, which has been well maintained up to this morning.

The baseball match at Queen's park Saturday afternoon was the first senior game of the season. Only a few of the city team managed to put it an appearance, and the missing men were replaced by intermediate and junior players. Columbia college, playing its usual team, managed to win the game by something like twenty-five runs. The city team circled the diamond several times.

A party of Hindoos were noticed by the police yesterday afternoon enjoying long drinks from a black bottle. Chief of Police McIntosh was curious to discover the brand favored by the swarthy sons of India, and investigated. He pronounced it whisky. Questioned as to where they had secured the liquor, none of the Hindoos were apparently able to speak English, but a move in the direction of the police station loosened the tongue of one of them, and he named a hotel in Vancouver. The chief is inclined to believe the man, as the whisky was a brand not handled locally.

The funeral of James Blair, section foreman of the B. C. E. R., who died last Friday at the Royal Columbian hospital, took place yesterday, the Rev. G. Bell of Central Park, being the officiating clergyman. Representatives of Vancouver Carmen's Union No. 101 and New Westminster Carmen's Union No. 134 followed the cortege to the English church cemetery at Sapperton, where the interment took place. The following colleagues of the deceased acted as pallbearers: George Rawlinson, W. Wilson, Norman Morris, J. Grose, Frank McDonough and W. Stuart. Handsome floral tributes were sent by both the Vancouver and Westminster unions.

SIMMERS'

Toronto Parks LAWN GRASS

For Sale Only at

CURTIS' DRUG STORE

25 cents per pound.

George Lavery, of Kamloops, is in the city visiting his brother, A. L. Lavery.

In several of the city Sunday schools, special collections were made yesterday on behalf of the famine fund for the sufferers in China.

W. E. O'Brien, who for the past few days has been the guest of his brother, S. O'Brien, of the Bank of Commerce staff, has returned home.

Owing to slight damage by the ice during the winter months, the C. P. R. steamer Beaver is laid up at the docks in order that a new propelling wheel may be fixed. The boat will be in commission again shortly.

Owing to the approach of summer, the bull frogs in the swamp are once more making their croakings heard over the land, and residents in that vicinity are complaining that they are unable to sleep at night on account of the noise.

The party of G. N. R. officials which left St. Paul for the coast on Friday morning, arrived in Seattle yesterday, and may possibly reach New Westminster today. The party will carefully look into proposed improvements along the country through which they will pass.

Accouding to a statement made by a medical man yesterday afternoon, the smallpox epidemic at Barnet is not as serious as at first reported, only three cases of a mild nature being under treatment at the present time. There is absolutely no danger of the disease spreading, as the patients are all quarantined.

It is expected that the Rev. J. S. Henderson, president of the Westminster Lacrosse club, will call a meeting of the club this week, as there is a considerable amount of business to be attended to, and also to receive the reports of the delegates to the recent B. C. A. L. A. meeting held in Vancouver. A full meeting of the executive is desired.

Saturday's police drag net brought to the city lockup two forlorn inebriates, one a Japanese and the other a Siwash. The Indian still tarries at the coop, but the Japanese was allowed out on $5 bail yesterday afternoon. The police are searching for the man who supplied the Indian with liquor.

Mr. and Mrs. Gale of Vancouver, spent Sunday in the city, the guests of Mr. and Mrs. J. L. McInnes.

SOLDIERS PARADE.

Volunteers Listen to Special Sermon By Rev. J. S. Henderson.

Headed by the Pipers band of Vancouver, about one hundred men of A. and B. companies, D. C. O. R., paraded to St. Andrew's church yesterday morning, where the Rev. J. S. Henderson delivered an eloquent sermon on a subject specially chosen for the occasion: "Four soldiers of Jesus Christ." For his text he chose the words: "A good soldier of Jesus Christ." The speaker prefaced his remarks with a reflection upon the outcry sometimes made that the country was too strongly inclined towards militarism, and alarms had been sounded that this was opposed to the principles of the prince of peace. Nowhere in the Bible was there any command made against the maintaining of armed forces for the purpose of maintaining freedom, but on the other hand, the Master had often used military language in transmitting his commands.

Continuing, Mr. Henderson remarked that Canada was too free a country to be ever controlled by the militaryism, although the spirit of patriotism was the life of the Dominion. He then went on to describe the four soldier friends mentioned in the opening part of his sermon. The first was the centurion of Capernaum, the second was a centurion of Jerusalem who was present at the crucifixion, the third was a centurion of Ceasarea named Cornelius, while the fourth was Juluis, who had charge of the Apostle Paul while the latter was a prisoner, and who showed him many kindnesses.

In concluding an eloquent sermon, the pastor said that to be a good soldier, a man must be kindly disposed, gentlemanly, high minded, courteous and a believer in prayer. Unless a man's Christianity was deeply rooted, it would soon be knocked out of him in the army, as that was no place for shams of any kind, but a true Christian would only have his piety deepened by serving his country as a soldier.

UMBRELLA AND SHOES.

Their Importance In the Eyes of the Indian Native.

India is so vast that different etiquettes prevail in different districts. We have no standard etiquette, no standard dress. We mostly copy European etiquette while with Europeans. Even a Bengalese shakes hands with a Bengalese, speaks in English for a few minutes and then breaks forth into the vernacular. We shake hands with a European on parting, but by mistake again touch the hand to the brow in a salaam, so we both shake hands, salaam and do the like, and no sober minded European ever cared for the anomaly.

The umbrella is the emblem of royalty, the sign of a rajah, so natives generally fold their umbrellas before a rajah and not before anybody else, however great. It is not a part of the dress, but a protection from the rain or sun, a necessary appendage, just like the watch and chain. You might as well ask a European to take off his waterproof coat. A cooly is not bound to fold his umbrella when a brigadier general rides past. But a menial generally closes down the umbrella on seeing his master, whom he considers his king. But no Indian however humble, ought to fold up the umbrella, even before a magistrate, because he is neither the master of the humble passerby nor his superior officer, nor is he bound to salaam him. But if he does, no harm. In a word, natives generally fold the umbrella before a master or a superior officer and not any other citizen, however great, and this is no insult.

While going to see a native chief in his palace the native visitor or official takes off his shoes if the reception room has a farash and the rajah is sitting on his musnud. But if he is received in the drawing room, furnished after the European style, the shoes are allowed. In some states no natives can go to a rajah without a pugree. In others the pugree is taken off and tossed at the feet of a rajah.

It is ridiculous in a European (from the Hindoo point of view) to order a native to take off his shoes. This is what we ask our priest to do, so that we may touch the dust of his feet. A munshi when mildly rebuked by his sahib took off his shoes, but recounted the whole scene to his better half, saying, "Sala hamara gor ka gurds lenay magtna!" ("The brother-in-law wants the dust of my feet.")—Indian Military Gazette.

POINTED PARAGRAPHS.

No man ever landed a particularly easy position by trying to dodge work.

Almost every man imagines he would do a lot of philanthropic stunts if he had the money.

Why is it that the people with nothing to do but sit around and visit are such dreadful bores?

Some people imagine that by being impudent they are showing others they are "as good as anybody."

When a father and son are in business the son can usually tell of a lot of mistakes his father makes.

Almost any married man can make his friends smile by saying he is perfectly free to do as he pleases.

When the carbolic acid bottle finds itself next to the cough medicine on the shelf, Death stops sharpening his scythe to lean back and be merry.—Atchison Globe.

"Checkmate."

"Checkmate!" represents "shah mat!" —"the shah is dead." "Shah," in fact entered our language long ago via Arabic and old French, arriving in the form of "check." "Chess" is really "checks," kings, and the cry of "Check!" means your king is in danger, hence the verb and substantive "check" in all their English meanings—"check," which was originally the counterfoil of a bill that served to "check" fraud; "checkered," from the aspect of the chessboard, and "exchequer," from the checkered pattern of the tablecloth on which the king's accounts were kept with counters. All these we owe to the Persian sovereign's title.—London Chronicle.

The Bosnian Roasting Jack.

A curious variety of the old fashioned roasting jack is used by the peasants of Bosnia and Herzegovina when roasting sheep whole, as on the occasion of a wedding ceremony. One often sees near a running stream a long pole having one end revolving freely in a socketed peg, while the other, overhanging the water, is equipped with miniature paddles. This is the Bosnian roasting jack. The sheep to be cooked is impaled on the log, a fire is lit underneath, and while the current spins the paddles and the pole merrily round the big joint is cooked literally to a turn.—Wide World Magazine.

Why She Was Pleased.

Tess—Did Mr. Borem ever call on you? Jess—Yes; he called last evening. I was quite delighted when the girl brought up his card. Tess—Oh, come now. You weren't really delighted? Jess—Certainly. You see, if she hadn't brought up his card I might have gone down to him, thinking it was some one else.—Philadelphia Press.

Suited For Something.

"Your little boy may become president some day."

"I hardly think so. Archibald is too modest and retiring."

"Oh, well, he may get to be vice president."—Philadelphia Bulletin.

The largest grasshoppers are found in South America, where some specimens reach a length of f[illegible] inches, with a spread of wings o[illegible] inches.

Land Registry Act.

TAKE NOTICE that an application has been made to register Francis C. Honour as the owner in fee simple, under a tax sale deed from the Mayor and Treasurer of the City of New Westminster, to Francis C. Honour, bearing date the 2nd day of October, A. D. 1903, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of New Westminster, in the province of British Columbia, more particularly known and described as subdivisions 17, 18, 19, of lot 8, suburban block 9.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice, otherwise I shall register Francis C. Honour as owner thereof in fee, and I direct that publication of this notice in a daily newspaper published in New Westminster for thirty days shall be good and sufficient service hereof.

Dated at the Land Registry Office, New Westminster, province of British Columbia, this 19th day of March, A. D. 1907.

C. S. KEITH,
District Registrar.

To George W. Jamieson, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

Tenders for a License to Cut Timber on Dominion Lands in the Province of British Columbia.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 514," will be received at this Department until 12 o'clock noon on Wednesday, the 26th day of June, 1907, for a license to cut timber on Berth No. 514, comprising lands situate in the Province of British Columbia, and described as follows:

Timber Berth No. 514, comprising two blocks in about Township 27, Ranges 1 and 2, West of the 6th Meridian, in the vicinity of Carnes Creek:

Block 1.—Commencing at the south-east corner of Timber Berth 467; thence westerly along the southern boundary of said berth 1.50 miles, with a depth of half a mile, measured at right angles thereto, containing 0.75 square miles, more or less.

Block 2.—Commencing about 1¼ miles above the junction of the North and South Forks of Carnes Creek, on the said North Fork; thence up stream 60 chains in direct distance with a depth of 40 chains, on the easterly side thereof, measured at right angles to the general bearing of said North Fork within the berth, containing an area of .37 square miles, more or less, excluding any portions of Timber Berths Nos. 467 and 475 which may fall within same.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

The highest or any tender not necessarily accepted.

No tender by telegraph will be entertained.

Land Registry Act.

Re Subdivision 8 and 9 of Lot 1, suburban Block 7, New Westminster City. Whereas proof of the loss of Certificate of Title Number 5192a, issued in the name of Grace P. Pride, has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, issue a duplicate of the said Certificate, unless in the meantime valid objection be made to me in writing.

C. S. KEITH.
District Registrar of Titles.
Land Registry Office, New Westminster, B. C., March 13, 1907.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $[illegible] per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of [illegible] cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

MYTHICAL CREATURES.

The General Belief in Fabulous Monsters in Olden Days.

Now that the cold light of science has thrown its ray upon the most remote parts of our globe there is no longer room for legendary creatures—save the sea serpent—and we are told that the mermaid is nothing more than a dugong, a unicorn either a rhinoceros or a Tibetan antelope, while the cockatrice, the phoenix and the roc appear to be pure imaginations.

But in the Elizabethan age—an age when the dodo had but recently been discovered—these and many other mythical creatures were, if not living, at all events actual realities to the ordinary public, and as such were referred to in the works of the great dramatist and other contemporary writers. We meet, for instance, in the "Winter's Tale" the line, "Make me not sighted like the basilisk," and in "The Tempest," "Now I will believe that there are unicorns." But not only was more or less of credulity given to the existence of these and such like fabulous monsters, but a web of mystic lore encircled the most common and best known of beasts, birds and fishes. Who, for instance, is forgetful of the popular superstitions connected with the salamander, the newt and the blindworm, and who fails to remember White's account of the "shrewash" at Selborne? And if such superstitions still survive among uneducated peasants of the present day we may be assured that two centuries ago they were fully believed by the higher classes.—Academy.

WORKS OF A WATCH.

All the Parts Are but the Expression of One Idea.

To one who has never studied the mechanism of a watch its mainspring or the balance wheel is a mere piece of metal. He may have looked at the face of the watch, and while he admires the motions of its hands and the time it keeps he may have wondered in idle amazement as to the character of the machinery which is concealed within. Take it to pieces and show him each part separately, and he will recognize neither design nor adaptation nor relation between them, but put them together, set them to work, point out the offices of each spring, wheel and cog, explain their movements and then show him the result. Now he perceives that it is all one design, that, notwithstanding the number of parts, their diverse forms and various offices and the agents concerned, the whole piece is of one idea. He now rightly concludes that when the mainspring was fashioned and tempered its relation to all the other parts must have been considered; that the cogs on this wheel are cut and regulated—adapted—to the ratchets on that, etc., and his final conclusion will be that such a piece of mechanism could not have been produced by chance, for the adaptation of the parts is such as to show it to be according to design and obedient to the will of one intelligence.

Fifty Miles to Market.

It is not an uncommon thing in France to see a farmer forty or fifty miles from home in wet weather with a load. If he sees a prospect of a three days' rain, he puts his tarpaulin over his load, a cover over his horses and a waterproof coat on and starts off to market. He may go fifty miles before he finds a market that suits him, or he may know in advance just where he is going. You do not often see anybody driving fifty miles through a rainstorm in the United States to find a market for a load of hay, but it is not uncommon to see farmers' wagons forty or fifty miles from home in France. They choose the wet weather for that purpose. Their roads are just as good then as at any time.

The Chinese.

Conservative historians among the Chinese claim for their race an antiquity of at least 100,000 years, while those whose estimates are a little "wild" assert that the Chinese were the original inhabitants of the earth and that Chinese history goes back at least 500,000,000 years. The government records of China place the foundation of the empire at 2500 B. C. and claim that it was established by Tohl, who, they assert, is the Noah mentioned in the book of Genesis, B. C. 2240.

How It Struck Her.

"You seemed greatly impressed," said the minister, "with my description of how they brought the head of John the Baptist before the king on a salver."

"Yes," sighed Mrs. De Style; "I was thinking how much better they trained servants in those days. Now, mine, when they bring me things, are forever forgetting the salver."—Louisville Courier-Journal.

A Sure Way.

First Author—Oh, the unutterable monotony of existence! I am thoroughly disgusted with it all. Would that I might completely disappear for awhile. Second Author—Then why don't you marry a famous woman?—Judge.

Her Mourning.

Maud—Why is that lady over the way always in black? Is she mourning for any one? Bess—Yes, a husband. Maud—I didn't know she'd been married. Bess—No, but she's mourning for a husband all the same.

Of Course.

Professor (a little distracted)—I'm glad to see you. How's your wife?

"I regret it, professor, but I'm not married."

"Ah, yes. Then of course your wife's still single."—Fliegende Blatter.

Tenders for a License to Cut Timber on Dominion Lands in the Province of British Columbia.

Sealed Tenders addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 513," will be received at this Department until 12 o'clock noon on Wednesday, the 26th day of June, 1907, for a license to cut timber on Berth No. 513, comprising lands situate in the Province of British Columbia, and described as follows:

Timber Berth No. 513, comprising two blocks lying on the easterly side of the North Fork of Illecillewaet River, in about Townships 27 and 28, Range 28, West of the 5th Meridian.:

Block 1.—Covering the tract lying along the said River between Blocks 1 and 2 of Timber Berth 474, and extending back from said River three-quarters of a mile, containing an area of 0.56 square miles, more or less.

Block 2.—Covering the tract lying along the said River between Blocks 1 and 3 of said Berth 474, and extending back from said River three-quarters of a mile, containing an area of three-quarters of a square mile, more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth.

The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at New Westminster, B. C.

Each tender must be accompanied by an accepted cheque on a chartered bank in favour of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license.

No tender by telegraph will be entertained. The highest or any tender not necessarily accepted.

PERLEY G. KEYES.
Secretary.

Department of the Interior,
Ottawa, April 2nd, 1907.

RUSSIANS OUTRAGE MANY JEWISH WOMEN

A CHRONICLE CORRESPONDENT TELLS SORDID STORY OF CONDITIONS—SEMITES SEE SEA OF BLOOD.

London, April 21.—A special correspondent of the Jewish Chronicle tells a horrible story of the outrages practiced with impunity on the Jews in Russia, and of the persecution to which they are subject in almost all parts of the empire. He says: "I have collected data for the months of June, July, August, September and October of last year, and have personal information of 120 cases of attacks on Jewish girls and women, whose ages range from 10 to 65 years. This is happening at present in South Russia."

The whole air of Russia, says the writer, is poisoned with anti-Semitic bacilli; only three Jews have been elected to the new Douma, whereas in the first there were twelve. He sums up as follows: "The situation of the Jews in Russia is not better than before, and in some respects it is worse, because the Jews have behind them outrages and see before them a sea of blood which will not be less serious than its predecessors."

SLOW BREAK-UP.

Navigation on Lakes Will Be Much Later Than Usual.

Port Arthur, April 21.—The indications are that the break-up of the lake will be about the latest in the history of navigation at this port. Last week Capt. Craig, Supt. Sellers, of the British-American Elevator Co., and R. Milne went over to the cape. They arrived back yesterday. Mr. Sellers states the prospects did not look very bright for an early opening at Silver island and they found an ice-field extending several miles out into Lake Superior. In fact, no open water could be seen.

The party went out three miles from the island and there cut a hole through the ice and found it to be 32 inches thick. There is no sign of the icefield weakening, in fact, the sun has had no visible effect on it, the ice being covered with snow the same as in the middle of the winter.

EMPLOYMENT AGENCY SWINDLE.

Immigration Department Will Take Action on Behalf of Englishmen.

Winnipeg, April 21.—The immigration authorities will take action against a local employment agency which, it is claimed, took money from English immigrants, and sent them out west on a day's railway journey, only to find on arrival at their destination that there was no job for them. James Campbell, of the immigration department, has the case in hand and will insist on the men having the fee paid by them and their expenses returned by the agency.

April 22—Regina Lacrosse Club Meeting.

April 22—Queen's Avenue Epworth League Banquet.

April 23—Lawn Tennis Club Meeting.

Polish Your Furniture with Johnson's Prepared Wax. It preserves and brings out natural beauty of the wood. It produces a rich, artistic finish, to which dirt and dust will not adhere. Just try it and you will see how much better it is than any other polish.

Johnson's Prepared Wax is "A Complete Finish and Polish for All Wood." Use it on your floors and woodwork, too. Johnson's Powdered Wax is for all dancing floors.

You can get Johnson's **free** book, "The Proper Treatment for Floors, Woodwork and Furniture" and these preparations of

Anderson & Lusby

ALSO JOHNSON'S Wood Dyes *and* Crack Fillers

Absolute Accuracy in Dispensing

is a special feature here. Your doctor knows what quantities and materials to put in your prescription. Here you get exactly what your doctor orders. Every drop is measured and every grain is weighed by scales and measures proved accurate by tests.

It is in your health's interest to have your prescriptions filled by us.

New Hats IN THE Millinery Department

The past week has brought many novelties in headwear. New flowers, foliage, feathers and ready to wear shapes in large numbers have been added and brightens up the stock after the past few weeks' busy selling.

This week's arrivals are direct from London, Eng. In the various ready to wear shapes, Sailors, Flops, Toques, will be seen something entirely different to what was shown in trimmings. We invite all women to visit this opening of new headwear.

Many New Wash Collars and Belts Are Being Shown

Every day brings some new idea in neckwear. While any woman may have anywhere from one to a dozen collars, an announcement such as this causes a flutter of excitement and the neckwear section becomes a busy place.

The newest collars shown are without tabs and in this style we show lace collars, linen collars, silk forms in all shades, chiffon collars. All attractively priced.

Lace Collars	15c to $1.25
Linen Collars, each	15c to 75c
Silk Collars, each	35c to $2.00
Chiffon Collars, each	35c to $2.00
