EIGHT NEW TEACHERS FOR CITY SCHOOLS

Vacancies Filled at Meeting of Board of Trustees Last Evening.

The appointment to the vacancies in the city schools were made at the meeting of the board of school trustees held last evening. The wholesale resignations which took effect at the close of the past term have left eight places to be filled, and teachers were found for all these at the meeting last evening.

The successful applicants were as follows: C. A. Falkner, B. A., of Victoria; D. P. McCallum, of Grandforks; Wilfrid Boulter, of Tryorn, P. E. I.; Miss Elizabeth Noonan, of Albany, P. E. I.; Miss Godson, of Victoria; Miss Clara Lord, Miss Stott and Miss Ross, all of this city.

Positions Not Decided.

The positions to be taken by the various new teachers will in all probability not be definitely decided until they arrive in this city. It is, however, practically assured that Mr. Falkner will take one of the vacant rooms in the High Schools. Mr. Falkner is an Oxford man, and comes to this city with high recommendations from a private school in Victoria.

Mr. McCallum, who is an experienced teacher, having held positions in the Grandforks schools, will probably go to Sapperton, where a new teacher is required in addition to the present staff, while Mr. Boulter will probably be assigned to the Boys' Central. Mr. Boulter held a position as an inspector of schools in Prince Edward Island.

The positions to be taken by the remaining teachers have not yet been even tentatively decided.

FLOODS CONTINUE IN CENTRAL STATES

Cloudbursts Take Place Daily Around Denver—Washouts Block the Railway.

Denver, July 9.—Daily cloudbursts throughout Colorado continue to interrupt railroad traffic and tonight the main lines of both the Denver & Rio Grande and the Atchison, Topeka & Santa Fe are blocked by a washout near Sedalia, about thirty miles south of Denver. Hundreds of westbound excursionists are delayed.

A cloudburst near Sedalia at 4 o'clock this afternoon washed out 200 feet of the Santa Fe track and 600 feet of the Denver & Rio Grande track. There were no trains in the vicinity at the time and no one was hurt. Officials announce that the damage will be repaired and the track open by morning. The evening trains from Pueblo and Colorado Springs on both roads are delayed by the washout, with between 400 and 500 passengers aboard.

With 400 men at work since 3 o'clock Monday afternoon, the Denver & Rio Grande cleared its tracks between Canon City and Echo, through the Royal gorge, this morning, and traffic westward was resumed at 10 o'clock. Three trains bearing delegates to the Elks' national convention in Los Angeles were sent west.

Dunsmuir Divorce Case.

San Francisco, Cal., July 9.—Living quietly at ther home in Sansalite is Mrs. Robin Dunsmuir, who married a son of Hon. James Dunsmuir, Lieut.-Gov. of British Columbia, and who formerly was Miss Madge Arlington Shoobert, of Sansalite and San Francisco. A divorce which was secretly obtained, is the cause of the retirement of Mrs. Dunsmuir to her mother's home.

Salvation Army.

The services at the local Salvation Army headquarters tomorrow will be of a special nature. In the afternoon there will be an enrolment of recruits, while Major and Mrs. Morris of Vancouver will speak at the evening gathering.

CHILLIWACK HOSPITAL IS DULY INCORPORATED

Notice Published in This Week's B. C. Gazette—Well Known Valley Residents on Board.

Notice is given in this week's Gazette of the incorporation of a board for the purpose of erecting a hospital in Chilliwack. The body is incorporated under the Benevolent Societies act. The notice of incorporation is as follows:

"That the corporate name of the association be 'The Chilliwack Hospital;' that the purpose of the association shall be to provide, establish and maintain a private hospital in or near the city of Chilliwack; that the number of trustees shall be seven; that the first trustees shall be Frederick C. Kickbush, A. B. McKenzie, T. E. Caskey, G. H. W. Ashwell, P. H. Wilson, M. Murphy and J. Hinchliffe, all of Chilliwack; that their successors shall be appointed in the following way: On or before the date of the annual meeting of the association, which shall be the first Wednesday in September in each year, one trustee for the ensuing year shall be appointed by the council of the city of Chilliwack, and one by the council of the municipality of the township of Chilliwack, and on the day of the annual meeting five trustees shall be elected by ballot by members of the association who may be in good standing at that date."

PROVINCE LOSES CASE BEFORE PRIVY COUNCIL

Highest Legal Court Upholds Dominion Government Against B. C. Water Rights.

London, July 9.—The privy council today dismissed with no costs, the appeal of the Burrard Power Company and the attorney-general of British Columbia against the king.

This is a case in which the provincial and the Dominion authorities have clashed upon the question of jurisdiction and the former has failed. It arose out of the grant to the Burrard Power Co., Ltd., in April, 1906, of a record of 25,000 inches of water out of the Lillooet lakes, river and tributaries, the water to be used for generating electricity. The grant was made by the water commissioners of New Westminster, purporting to act under the Water Clauses Consolidation act of 1897.

To obtain the necessary power, the company proposed to construct a power dam at the mouth of the Lillooet lake and divert the water from the river to Kanaka creek instead of bringing it back into the Lillooet river. Upon the taking of evidence before Mr. Justice Martin, counsel for the company alleged the water was to be returned to the Lillooet, but this did not appear upon the record.

Exception was taken to the action of the province by the Dominion government on the ground that the lake and river were within the jurisdiction of the province. The further objection was taken that the withdrawal of water from the Lillooet which was a navigable river for a great part of its course, was a direct interference with navigation, the regulation of which was entirely within the jurisdiction of the Dominion.

MILLIONAIRES AND TRAMPS ALIKE LOAFERS BEFORE GOD

Seattle, July 9.—At the session of the Epworth League convention today, Rev. Dr. Chown of Toronto deprecated the trend to Socialism. He said: "Every reform must have a religious basis. An imperial system with a secular foundation must fail. The doctrine that each man must look out for himself is a theism applied to business. The millionaire and the tramp are alike loafers in the sight of God, whose only way of making the desert bloom is by labor. The man who corners the market, or in other words, takes advantage of the necessities of his fellows, is a thief and a robber."

RICHMOND PREPARED TO PAY THIRD COST OF WATERWORKS

Representatives of Neighboring Municipality Willing to Share Proportion of Scheme Totalling $378,000—Engineers' Estimate Surprises Aldermen—Call For Tenders For Steel Pipes.

PROPOSED CIVIC BYLAWS.

Bylaws will be submitted as follows:

Waterworks, $253,000, subject to revision.
Streets, $31,000, subject to revision.
Royal Columbian Hospital, $30,000.
Columbia street paving and lighting, $54,000.
Incinerator, $20,000.
Lockup and police court, $5000.
Advertising, $4000.
Borrowing power this year, $398,000, being balance of amount of $1,617,100, one-fifth of civic assessment.
Present indebtedness, $1,219,100.

The city council in committee last evening thoroughly discussed the proposed debenture issue, particularly the waterworks loan. The amount estimated by the engineers, $378,000, was a great surprise to the aldermen, who had been under the impression that about $300,000 would cover everything. Reeve Bridge and Councillor Trites of Richmond, attended, and it was only after two hours and a half's discussion that the two gave way on a proposal to contribute more than $100,000 toward the scheme, they ultimately promising a contribution of one-third, $125,000, and to take one-sixth of the water supplied from the lake. Councillor Trites expressed his fear that even that sum would not commend itself to the Richmond ratepayers, as the price of distribution when the water reached the city limits would amount to $150,000. The Westminster aldermen united in an opinion that Richmond was receiving generous terms.

Subject to Revision.

The bylaws were accepted provisionally, except the waterworks bylaw, which will be cut down from $253,000 in order to allow more work to be done on the streets than projected, the board of works estimate totaling $94,740, which with other bylaws, would bring the total to $461,000, or $63,000 above the possible borrowing powers ($398,000).

The bylaws will be prepared at once, and read a first time in the council on Tuesday night, as it is necessary to advertise them thirty days.

Estimate of Cost.

Hermon &Burwell submitted a report and estimate for the 24-inch supply main from Coquitlam lake to Queen's park reservoir, and a 12-inch supply main from the reservoir to the city boundary on Lulu island. Clearing, grubbing, culverts and trestles, excavating trench and back filling 74,000 feet, pipe laying and steel pipe delivered along trench, gate valves, air valves and special bends, the engineers estimated to cost $325,000. This includes the delivery of the water to Queen's park reservoir, while to supply 16,000 feet of steel pipe, laying, and placing a submerged pipe across North Arm of the Fraser river, with gate valves, etc., to serve Richmond municipality, they estimated the cost of $35,000. Contingencies, engineering, and inspection at five per cent. was figured at $18,000, or a total cost for the system of $378,000.

Amount of Supply.

Extracts from Hermon & Burwell's report are as follows: "The capacity of a 24-inch smooth pipe delivering water into the said reservoir would be at the rate of 6,250,000 imperial gallons per day. The capacity of a 12-inch main from Queen's park reservoir to the westerly boundary of the city, delivering water at this point under pressure of 86 pounds per square inch (equivalent to a head of 200 feet), would be at the rate of 1,040,000 imperial gallons per day, or one-sixth of the capacity of the 24-inch main. Should, however, your intake at Coquitlam lake be raised by the construction of a new dam the condition will be altered and the 24-inch main will then have a greater capacity, whereas the capacity of the 12-inch main will remain as before."

"Taking the estimated cost of the whole work at $378,000, the municipality of Richmond would pay about $92,000 on this basis.

Cost of Maintenance.

"There is another question to be considered, and that is the maintenance of this whole supply main, and also the benefit which the municipality receives in having the use of Queen's park reservoir. It is impossible to determine in advance how much the municipality should pay annually toward maintenance, although perhaps an amicable arrangement can be made as to the use of the reservoir on the basis of an annual rental."

The engineers sent draft applications for tenders for steel pipe to be in by August 9, the drafts being approved, and the city clerk will call for tenders in accordance with the above estimate.

Pros and Cons.

The discussion brought out all phases of the argument. By the city council it was urged that the city was providing free water, a reservoir, and right-of-way from the lake, while for Richmond the representatives urged that they placed their own main from the reservoir, paying one-third of the cost of the scheme for one-sixth of the water brought into the city, and on that ground Councillor Trites at last weakened from $100,000 to $125,000, being practically an offer of $32,000 for water rights at the lake, the engineers having estimated Richmond's share at $92,000 exclusive of these privileges.

Mayor Keary believed the sales of water in Coquitlam to the Fraser River Mills, provincial asylum and C. P. R. at Westminster Junction would pay the interest on the bonds when the system was in operation.

Reeve Bridge said it would entail a rental of $3 a month for the 400 services proposed in Richmond to pay the interest on their share of the debenture issue. Water must be had, and influences were at work to force the municipality to put in a waterworks system of its own. Ald. Adams moved a resolution which was several times amended.

The Resolution.

The resolution adopted was, "That the municipality of Richmond be allowed to connect with the New Westminster city water system with a twelve-inch main from Queen's park reservoir to the city limits for $125,000. They agree to maintain their own twelve-inch pipe line from the reservoir after twenty years, and pay one-sixth of the maintenance of the 24-inch trunk line from Coquitlam lake to the reservoir in Queen's park."

SUPREME CHANCELLOR VISITS LOCAL KNIGHTS

Highest Officer in America of K. of P. Will Meet Members of British Columbia Lodges.

Knights of Pythias of this city will have an opportunity to mee the highest officer of their order in America today.

Supreme Chancellor H. P. Brown, of Clebourne, Texas, is in Vancouver today, and this evening he will be tendered a reception at the hands of the lodges of this city, Vancouver and North Vancouver.

The reception will be held in the Cordova Street Temple, Vancouver, and it is expected that it will be largely attended. The local knights will be officially represented by Past Grand Chancellor A. H. Ferguson (for Granite lodge) and Past Chancellor George Gray (for Royal lodge). The reception will be open to all brethren in good standing, and it is hoped that there will be a large attendancse from this city.

Supreme Chancellor Brown is accompanied by his wife and daughter. He came up from the South to see the Seattle fair, and has taken advantage of his proximity to the international boundary to pay the knights of this part of the world a visit.

WANT LABOR DAY CELEBRATION HERE

Some Vancouver Members, However, Would Rather Have It in Terminal City.

It is not yet quite certain that the Vancouver Trades and Labor Council will co-operate with the local council in holding a big Labor Day celebration here this year.

Last year there was a tacit understanding between the two councils to the effect that they would co-operate in holding the annual celebration for 1909 in this city. The matter was brought up at a meeting of the Vancouver council on Thursday evening, President Feeney and Secretary Stoney of the local council submitting the claims of New Westminster in the matter to the Vancouver men.

The members of the New Westminster council had thought that there would be no hesitation in deciding on holding the celebration in this city, but when the matter was discussed at the Vancouver council meeting it appeared that several of the unions in that city had opposed the holding of the celebration here, and wanted it to be in Vancouver, as was the case last year.

The whole question was laid on the table for a week pending further information from the various Vancouver councils.

One thing is certain and that is that the big lacrosse game between Vancouver and New Westminster, which will be the major attraction on that day, will take place in this city. This was decided upon at a meeting of the New Westminster Lacrosse club held some time ago.

HIGH TREASON CHARGED AGAINST PORTUGUESE DON

Madrid, July 9.—The Portuguese Duke of Albuquerque was arrested here yesterday and taken to Lisbon

The newspapers claim that the arrest was based on a charge of complicity in the assassination early last year of King Carlos and Crown Prince Louis of Portugal.

Masons in Session.

Toronto, July 9.—For three hours West Toronto was the headquarters of the Masonic grand lodge of Canada, the occasion being the laying of the cornerstone of the new Masonic temple at the corner of Anneta and Aziel street. M. W. Brother, A. T. Freed, grand master of Canada, took part in the ceremony.

WORK TO START ON NEW STEAMER

Her Keel Will Probably Be Laid Down Within the Next Two Weeks.

Work will be started within the next two weeks upon the new boat for the up-river run.

This was the announcement made at the meeting of the Royal City Navigation company, held in the Board of Trade rooms at the city hall last evening.

The meeting was the most encouraging that has been held since the company was inaugurated. Manager Whitmore reported that he had secured within a very small sum of the amount required for the actual purchase of the new vessel, and that without having canvased the up-river communities at all. The money that has so far been subscribed has come entirely from this city, and Mr. Whitmore stated that when he came to canvass the valley he had not the slightest doubt but that he should be able to raise the required balance without difficulty.

As a result of the success of the canvass for stock subscriptions made by Mr. Whitmore, it is now virtually assured that the boat will be fully paid for from the first and that it will be without incumbrance from the time that it starts to run.

Officers Elected.

The officers of the newly formed company were elected at last evening's meeting, and the company is now fully organized. The officers are as follows: President, Capt. Joseph Mayers; vice-president, T. S. Annandale; directors, John A. Lee, Alex. McLeod, H. A. Belyea, George E. Martin; managing director secretary and treasurer, R. Whitmore.

W. B. Pattinson of Chilliwack was present at the meeting, and voiced the sentiments of the dwellers up the river in regard to the proposal for placing the new boat on the river. He stated that the move was welcomed all along the valley, the present transportation facilities on the river being quite unable to cope with the traffic.

Tenders Called.

It was announced in the course of the meeting that tenders had already been called for the boilers and machinery and that they would be in within a few days. Alexander Watson, the well known designer of Victoria is at work upon the plans for the hull, and as soon as these are to hand, tenders for the actual building of the vessel will be called.

It is expected that the tenders will have been received, contracts let, and work started within two weeks.

PROMINENT MINISTER REACHES COAST NEXT WEEK

Hon. Dr. Pugsley Will Be Entertained to Luncheon by the Board of Trade.

Hon. Dr. Pugsley, minister of public works, arrives on the coast next week, and will deliver several addresses. The Canadian club of Vancouver, and the North Vancouver municipal authorities plan to receive him, while in this city he will be entertained at luncheon by the board of trade.

He will have an opportunity of seeing for the first time the Fruhling dredge, the first of its kind in Canadian waters, and doubtless some statement will be made by him as to the suggested removal of the offices of the department of public works from this city to Vancouver into the new Dominion building.

The members of the board of trade will be called together for a special meeting to receive him early next week.

New Westminster Youth Has Fearful Experience

Pasco, July 9.—Blinded by the fearful sandstorm which swept over the entire southeastern portion of the state Wednesday, and bleeding from a severe wound in the leg which he received by running against a barbed wire fence while seeking help, Felix Holcumb, a resident of New Westminster, B. C., reached this city shortly after midnight Wednesday after being exposed for nearly twenty-four hours in the blinding storm.

According to Holcumb's story, he left Connell early Monday morning to visit Al. Evans, a friend, whom he believed to be living near the Columbia river. He followed the road until noon when the storm became so severe that he became lost. He does not know how he reached Pasco but says he awakened near the Twin City ice plant. He will recover his sight.

G. T. P. Advances.

Edmonton, July 9.—The G. T. P. track laying gang is working night and day 18 miles this side of Tofield. Steel will reach Edmonton tomorrow. The G. T. P. will use C. N. R. lines from the packing plant to the northern part of the city for a couple of weeks until the line is completed to the centre of the city. They are now removing buildings and ballasting the right-of-way in the city.

DIGNITARIES OF CHURCH DENOUNCE RECENT LAWS

Council at London Refuses to Acknowledge Validity of Deceased Wife's Sister Act.

London, July 9.—By a vote of 224 to 24, the church council, which was attended by the leading bishops, clergy and laymen of the Church of England, yesterday declared that marriage to a deceased wife's sister, recently legalized in this country, was contrary to the moral rules of the church and to the principles of the scriptures. Furthermore, the use of the prayer book in the services solemnizing such marriages was reprobated in the strongest terms.

This law was passed largely owing to the preponderance of the Nonconformist element in the present House.

JUDGE DECLARES LAW UNCONSTITUTIONAL

Washington's New Cigarette Edict Was Knocked Out by Court's Decision Yesterday.

Tacoma, July 9.—In a sweeping decision this morning, sustaining a demurrer to complaints of the state in the case of F. E. Snook and J. R. Murphy, arrested and fined for smoking cigarettes, Judge Clifford, of the superior court, pronounced the statute enacted by the last legislature unconstitutional.

Following the decision, Prosecuting Attorney McMurray announced that there would be no more prosecutions in Pierce county for cigarette smoking until the supreme court had passed upon the law.

It is believed that Judge Clifford's decision also knocks out the law prohibiting the sale of cigarettes.

Imprisoned Suffragette Starts a Hunger Strike

London, July 9.—The latest heroine of the suffragette cause is Miss Wallace Dunlop, who recently was sentenced to a month's imprisonment in Hollaway jail for posting notices on the walls of the house of parliament. Miss Dunlop organized a hunger strike in the prison and the authorities discharged her this afternoon after she had refused food for ninety-one hours. Miss Dunlop had only been in prison five days.

Following a direct appeal made to the king by Mrs. Despard and a deputation of suffragettes, the home secretary, the Right Hon. S. J. Gladstone, accorded a very courteous audience this evening to eight of the women's representatives. Mrs. Despard was leader of the deputation. After hearing arguments and reading their petition, the home secretary made a sympathetic speech, expressing regret at the present involved situation and the belief that the matter would finally be settled in a way satisfactory to the women.

Mr. Gladstone explained that he could do nothing to commit the government. He admitted that the petition was an argument for an audience and promised to forward it to the king.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land on each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY.
Deputy of the Minister of the Interior.

ANTI-VIVISECTIONISTS TO HOLD CONVENTION

Leading Social Lights of England to Gather in Humane Crusade in London.

London, July 9.—A conference of anti-vivisectionists representing all the countries of the world meets here today. Socially the convention will be a success because many distinguished English women are giving entertainments in honor of the friends of animals. The Duchess of Hamilton is hostess for England; Lady Arthur Paget, for Italy, and other hostesses are Princess Marie Louise of Bourbon, the Marchioness of Donegal, Baroness Barnekow, who organized the congress. Among the conspicuous delegates to the congress are Annie Brynt, Earl Haddington, Earl Lonsdale and Jerome K. Jerome. On Saturday all the branches of the Anti-vivisection league and delegates of all the societies in England for the prevention of cruelty to animals, will march to Hyde park, where a great demonstration in behalf of the cause meets. Never before in Europe was the public so aroused against cruelty to animals practised in the name of science.

FIGHTS WITH DEATH AT BOTTOM OF SEA

St. John, N. B., July 9.—Thirty-five feet beneath the waters of the channel, between Partridge Island and the shore a diver, Fred Doyle, fought a desperate battle with death through the failure of a pump diving apparatus to keep him supplied with air. After repeated signals for air, he had just strength enough to pull the life line, and was hauled to the surface in a semi-conscious condition with blood flowing from the mouth and nostrils Revived by means of stimulants administered by Dr. R. C. Ruddicks who was hastily summoned he later was able to walk from the landing at Reeds Point to his home.

WORKERS MAY CONTROL ACTIONS OF NATIONS

Toronto, July 9.—Trades and Labor Council at its meeting tonight declared against war, and the remedy suggested was that against nations which refuse to arbitrate differences and go to war the workers should beclare a strike.

A gentle Damsel.

Senatobia, Miss., July 9.—Steve Veasey, a negro, was hanged yesterday for the murder of A.T.Veasey, a young white man. The execution was witnessed by the four sisters of the muredered man. One of them asked to be allowed to spring the trap, but was refused.

CROWDS SEEK LAND IN WESTERN ALBERTA

Camp for Hours in Registry Office to Secure First Chance on New District.

Lethbridge, Alta., July 9.—Not since the opening of pre-emption land last September, has there been such a rush at the Land Office as there was this morning, when about twelve sections near Bowisland and Burdette, and two townships in the Bad Water Lake district were opened for entry. To secure these there was the wildest sort of rush. From Wednesday, men have been camping on the steps of the office. Last night at midnight, there were sixty or seventy packed into the passage from street to door.

About three o'clock this morning there was a wild scene. A gang of a dozen half-breeds and others, not too gentle either in looks or actions, drove up and undertook to clean out the place and secure first positions. They made an attack on the congested mass in the passage way, but were repulsed. They they started throwing stones at the crowd, whereupon some of the men on the outside proceeded to get back at them. The janitor of the building, hearing a row, sent for the police, who were soon on the scene. The only way they saw out of the serious difficulty was to put the whole crowd back, and keep them there, which they accordingly did.

STRANGE DISEASE ALARMS PARISIANS

Sudden Epidemic of Hysterical Mania Breaks Out and Spreads Very Rapidly.

Paris, July 9.—Medical annals report sporadic cases of contagious insanity when the sudden madness of a relative, or friend, spreads to others afflicting them with the same form of mental diseases. The other day five cases of contagious hysteria were noticed in the drying room of the military laundry. An ambulance was summoned for a laundress named Alosia, twenty years old, attacked by a fit of hysteria. Before the doctor arrived, three more girls were writhing on the floor, afflicted in the same manner and before the additional ambulance drove away, a fifth victim was added to the list. It happened to be noon time and the medical director of the hospital advised the manager of the laundry to dismiss and send home the other female employees from fear that they might also be seized with hysteria

A Little Too Sure.

New York, July 9.—So certain was Andrew Herschi that a 22-calibre rifle would not carry 200 yards that he offered himself as a living proof of his theory this afternoon. Tonight he is in a Jamacia, L.I., hospital with a 22-calibre bullet in the outer wall of his heart dying. The police have the name of the man who fired the shot, but no arrest has been made.

AND WHY IT IS A BETTER FLOUR.

We use selected wheat from the best wheat producing regions of the Canadian West, where the sunshine is long, where the soil is rich, giving to the wheat that quality of gluten which makes the very finest flour. This is factor No. 1.

Scientific milling which follows the wheat step by step, selecting only the best and purest portions of the wheat grain and making it into the most perfect flour. This is factor No. 2.

Care exercised in storage and marketing so that there is no possibility of deterioration from the time the flour leaves our hands until it reaches you. This is factor No. 3.

Now isn't there a reason why you should ask for Royal Standard Flour? And besides, in every 49-lb. sack there is a numbered coupon entitling you to a chance to win one of ten beautiful dinner sets given away each month.

MARKET REPORT

The market yesterday was well attended but owing to wet weather some farmers were unable to get in. Business was brisk, and a satisfactory day's sale is reported. The offerings of live stock and implements obtained ready sales in the rings.

Meat was well supplied, beef all selling. Lamb and mutton had been staged in large quantities, and the offerings held steady for good quality meats. A fair supply of pork found brisk inquiry, with easy transfers for prime stock. One large hog was condemned by the health inspector as being unfit for food, fortunately a rare occurrence at the market. A good supply of veal proved that the demand and price still keeps up for this class of meat.

Poultry was well supplied, fowls selling at quotations, while chickens, in fair offering, had a good call. A large supply of broilers all sold according to size and condition, while a fair demand for ducks failed to sell out the large supply. Eggs, offered in large numbers, all readily sold at old prices.

Fruit, chiefly berries, still held high. Strawberries are about over, with small offerings. Raspberries came in for the first time, with a fair demand. Cherries were well supplied, only the best qualities being sold. Potatoes came in large quantities with limited sales, while in green state, the public not easily taking to them now.

HONEYMOON SHORT BUT NOT AT ALL SWEET

Mineola, L.I., July 9.—After a honeymoon of twenty-one days, Alfred Burt, said to be worth $100,000 was found hanging to a beam in the garret of his home here yesterday. He was a farmer.

Burt married Miss Edith Albrecht of Elmon, L. I., on June 9. Several days ago the bride, according to her story, asked for money to buy shades and was refused. Burt, she alleges, slapped her face and on Sunday she left him. She came back last night and found the house locked. Then she sent word to the Sheriff's office, and, accompanied by Constable John Buhler, discovered her husband's body.

BELGIAN ENGINEERS SPYING OUT LAND

Montreal, July 9.—Canada's prosperity is attracting visitors from all parts of the world. One of the latest indications is the visit of a party of Belgian engineers to the city. They represent a syndicate of Belgian capitalists and have come to spy out the land. They will visit Cobalt and Gow Ganda and other mining sections, and will also investigate the power industry in its recent developments.

SOUTH AFRICAN TRADE COMMENCES TO REVIVE

Commissioner Says That Tide Has At Last Turned—Effects of Confederation.

Ottawa, July 9.—H. R. Pousette, Canadian trade commissioner at Durban, South Africa, reports that the long looked for turn of trade tide has come and that recovery is likely to be gradual. A united South Africa, he says, will make for settled trade conditions, progress and steady prosperity. Exports and imports have increased.

W. G. Fisher reports from Glasgow that wheat is likely to be abundant in Britain, in most of France and Italy and in Spain. Full average crop should be reaped both by Russia and the States. Mr. Fisher says there is a falling in Scotland that more flour should come from Canada and by British boats. At present a great deal of it is coming by United States ports and classified as coming from America.

ANY ONE COULD SPARE TOES AT THIS PRICE

Butte, Mont., July 9.—Five thousand dollars for each lost toe on his left foot, or $25,000 in all, was the verdict of a jury yesterday afternoon in the $30,000 damage suit of Frank H. Knuckey, a miner, against the Butte Electric Railway Company.

The verdict is the largest ever rendered in a personal injury suit in Silver Bow county.

Knuckey alleged the motorman failed to stop as directed when he attempted to alight, throwing him under the car and causing the loss of this toes.

Story is Denied.

Mexico City, July 9.—It is denied here that Dominico Cannutti, the Italian arrested here on June 24, is being held as asuspect for the murder of Detective Joseph Petrosino, who was killed in Sicily. It is said that the man has been identified as the one wanted for the crime of killing one of his parents in Italy six years ago. He was condemned to life imprisonment after his conviction but managed to escape.

TENDERS.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Postoffice Fittings, Vancouver, B. C.," will be received at this office until 5:00 p.m. on Wednesday, July 21, 1909, for the work mentioned.

Plans, specifications and forms of contract can be seen and forms of tender obtained at this department on application to Mr. C. Tossell, Clerk of Works, Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, with their occupations and places of residence.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

A FACTIOUS OPPOSITION.

In a country where representative government is in force it is well to devote some attention to the accomplishments of the administration. In this country there are two great political parties—the one in power, and the other in opposition. The one is framing legislation for the good of the country, and the other is busy finding fault, seeking defects and making charges against those in authority. The aim of the one is to govern righteously, wisely and economically—the object of the other is to discredit the government and gain power if possible.

The Liberal government has been assailed by its political opponents ever since coming into power, but nothing has been advanced, accompanied by proof, that would justify any want of confidence on the part of the people.

The prudent and statesmanlike action of the government has had much to do with this state of things. There was no reason why the conditions of today should not have obtained fifteen or twenty years ago, save and except that the government of those days did not seem to be equal to the task of framing a policy which did much to bring about the excellent results which Canadians have enjoyed during the past twelve years.

The people of Canada are tired of pointless criticism on the part of the Conservative press. What they want is to see some appreciation expressed for the good things accomplished by the government. Mr. Fielding is engaged in raising money to pay off maturing debts contracted by the Conservatives years ago. This does not prevent The Toronto Mail and News from alluding to the additions to the debt created by the government.

While the press unfriendly to the government makes reference to small affairs, out of which an attempt is made to create a scandal, nothing is said of the larger matters of government.

The subject of provincial rights is one about which there has been much controversy. A case settled by the judicial committee of the Privy Council places the matter exactly in the terms stated in the House by Sir Wilfrid Laurier. The Liberals are the champions of provincial rights, but they are not parties to a reactionary policy.

EX-SULTAN BECOMES RECONCILED TO LOT

Ceases to Complain at His Deposition —Lays Blame for Evil on Councillors' Shoulders.

Salonika, Turken, July 9.—Abdul Hamid, the ex-Sultan of Turkey, is slowly becoming more accustomed to his surroundings and reconciled to his captivity. He has cast off his morose demeanor, no longer gives way to outbursts of anger, and conducts himself in a quiet and refined manner. Repeatedly he expresses his satisfaction at being kept at Salonika, requests that he be allowed to remain at the Villa Allatini, and prays that he may be permitted to live there and end his days like a good old man. For whatever may be the opinion of his former subjects, the ex-Sultan's confidence in his own virtues remain undiminished.

"Why do my people say and write such bad things about me, and attempt to blacken my character?" he frequently demands. "Why do they revive everything that is bad, and never mention all the good things I have done for my country?" After all, the bad things were not due to me, they were the works of my councillors. Every man I had round me was bad—absolutely bad. I had no opportunity to choosing my advisors."

Four Years For Blackmail.

San Francisco, July 9.—Benjamin Wellington Soule was sentenced to four years in San Quentin yesterday for sending threatening letters to Rudolph Spreckles, president of the First National bank. Soule wrote that unless Spreckles sent him $3,000 he would cause his death by means of a subtle poison.

IMMIGRANTS INCLUDE DISEASED RUSSIANS

Toronto, July 9.—"The Russian Jews who have been arriving in the city for some time are nearly all diseased," said Relief Officer Taylor. "Last month there were 152 applicants for admission to the hospitals, as against 132 in June of last year, and many of them were Russians." The applications for food and shelter last month totalled 214, a falling-off of 36 as compared with June 1908.

NEW TURKISH SULTAN REVIEWS HIS FLEET

Constantinople, July 9.—The Sultan reviewed the fleet yesterday on board the yacht Erthogroul, passing through three lines drawn up in the Bosphorus composed of all the vessels of the navy. He was received with salutes and was cheered by the crowds which manned the ships. The imperial yacht was followed by the yacht Stamboul, conveying the members of parliament.

The Sultan went on board the battleship Messoudieh, which he closely inspected. He was again saluted on his departure. The occasion was interesting as being the first one which the Sultan of Turkey had reviewed a fleet or visited a warship.

Another Bomb Thrown.

Woodstock, R.I., July 9.—A dynamite bomb, thrown into the midst of a crowd surrounding a street vendor last night, injured nine people, one of whom died later. The bomb-thrower was not arrested and the cause of the trowing of the missle is a mystery. Alfred Lamay, aged 14, was partly disemboweled, and died in a few hours.

GERMANS REFORMING ANCIENT SALUTATION

Berlin, July 9.—A number of Germans who resent the ridicule of visiting foreigners on the native manner of bowing, have formed a society for its reform. The correct way of greeting a friend in the Fatherland, of either sex, is to bend to an angle of ninety degrees remove the hat slowly and reverently dropping it with stiffened arm until it reaches the knee, and replace it in the same manner.

Progressive men are revolting against a custom which dates back to a period when people had time for ceremony, and the reform manner of greeting consists merely in touching the hat without removing it.

The first member of the reform society to carry out the new idea was a young official who greeted the chief of his department with nothing but a short nod, and a raised hand. He was at once arrested for insubordination, and this event has somewhat checked the progress of the reform.

Stole a Horse—Is Captured.

Toronto, July 9.—William Brown, a former employee of Buffalo Bill's show stole a horse at St. Thomas and drove furiously to Aylmer. He was pursued by officers in an automobile and captured.

Murderer Pleased With Himself.

Wadena, Sask., July 9.—Further developments in the Fraser shooting tragedy at Margo indicate a cold blooded brutal murder and Sanford Hainer is now under arrest, the self confessed slayer of Alfred David Fraser. After the preliminary hearing held at Margo yesterday Hainer told the story of the shooting in a cool manner and expressed pleasure on learning that he had done his fiendish work so thoroughly.

Live Stock Insurance

Live stock insurance has fast become recognized as one of the best kinds of insurance in existence, and an ever-increasing number of stock owners are protecting themselves against the serious losses which they have had to suffer in the past. I represent the only strong, reliable Canadian company carrying this class of insurance, and as they do not handle any nsurance but live stock they are able to fulfil their obligations to the greatest satisfaction, and every legitimate loss which has occu red on any of the company's policies since they started business, ha been promptly paid, cheques usually being forwarded within a day o two, and the following letter is an instance:

JULY, WESTWARD HO!

The July issue of "Westward Ho!" magazine is of special value. A portion of Hon. C. H. Macintosh's "Builders of Empire Before and After Confederation" being a concise little sketch of a forthcoming publication, forms the principal feature, and is excellently illustrated with photographs of the famous men in recent Canadian history. Another leading article is a story by Lieut. Col Codd on the relief expedition force sent to Fory Garry by the Dawson route in 1871, which gives some idea of Fort Garry in the early months of its existence, before Manitoba was more than a name, and Winnipeg in its infancy.

Fiction, particularly when it deals with probabilities of the future, is always attractive as the stories of George Griffiths and H. G. Wells prove and the "Pacific War of 1910" gains in dramatic interest with each issue. Two articles also deserve special attention, dealing with the possibilities of the province, on Naramata, in the Okanagan, and small holdings in the lower Fraser Valley. In the latter sketch the writer, C. E. Hope, remarks that the cities of the coast, the consuming population, is growing "at a far greater rate than the producing capacity of the rural districts." Mr. Hope will continue the statement of his views in the next number.

COUPLE WERE AMATEURS AT GETTING MARRIED

Seattle, July 9.—An Everett couple, in blissful ignorance of just how to get married, ten days ago applied for a marriage license in King county, and went back home and started housekeeping on the strength of the clerk's permission to wed. On each license is a blank to be filled in by the officiating clergyman and returned to the county clerk. Careful of some of the technicalities, the proud husband filled in this return and yesterday forwarded it to the county clerk, as directed.

The blank for the officiating clergyman's name was filled in as follows: "Officiating clergyman, Claude F. Gage, deputy county clerk."

When Mr. Gage saw this yesterday his hand trembled visibly, and he tore a great lock of hair from his head. He is now having a little pamphlet printed as a guide for bridegrooms, entitled, "How to Get Married." Yesterday Probate Clerk Percy F. Thomas returned the dollar filing fee remitted and wrote:

"You are apparently under the impression that the issuance of the license is all that is required. The license only gives authority to a qualified person to perform the marriage ceremony and no marriage exists until the ceremony is performed by such person."

LIFE IMPRISONMENT THREATENED BY MAGISTRATE

Cobalt, Ont., July 9.—Life imprisonment may be meted out to a man, J. Skinner, charged with looting a safe on the night of the fire. At the trial three witnesses, Messrs. Jacobson and Simonson and Mrs. Jacobson, swore that he had entered their store and had broken into the till and after a long chase during which they had lost him in the crowd, had been captured.

"The case is a very serious one for the defendant if he be found guilty," declared the magistrate, "and he will be liable to life imprisonment on this count. I will reserve judgment until Monday in order to study the evidence carefully. If I find him guilty I will make this a lesson to all others."

Why Swedes Go to America.

Stockholm, Sweden, July 9.—Herman De Lagercrantz, Swedish minister to the United States sends to the government here the results of his inquiries among Swedish workmen in America as to why they left home. Of the replies 3 per cent. declared that it was due to the socialistic rule of the unions.

Ten Minutes Under Water.

Brantford, July 9.—Walter Hunt, a 15-year-old boy, sank in the Grand river in this city, while swimming. The lifeboat of the fire department was called, but before it arrived the body was recovered by Alexander McRobb, after being in the water ten minutes. The firemen successfully applied resuscitation methods with the result that the boy revived after half an hour.

TORONTO BAKERS GIVE SMALLER LOAF

In Consequence of Rise of Flour They Reduce the Weight of Bread by Four Ounces.

Toronto, July 9.—The 20 ounce loaf of bread, is going out of fashion with the bakers.

Beginning today some of them will reduce the cube to 16 ounces and others will follow on Monday. The 16 ounce size has been confined to the "fancy" output, now coarser brands will be of that size also.

This is the equivalent of an increase in price, the same money, but less bread, and the bakers say it is in consequence of the rise in flour.

STATES STAND SECOND IN NAVAL POWER

Big Parisian Journal Declares That U. S. Outclasses Germany in This Respect.

Paris, July 9.—The Temps takes issue with M. Michet who declared yesterday in the Chamber of Deputies during the debate on the naval inquiry commission's report that Germany stood second among the naval powers. The Temps pointed out that second place is held by the United States, which with a fleet of sixteen battleships "accomplished an admirable feat in the circumnavigation of the globe."

The paper adds that all English authorities class the United States second among the naval powers, Germany therefore, would be third and France fourth.

PRIEST CARRIES HOST THROUGH LONDON STREETS

Police Lined the Way but There Was No Attempt at Disturbing the Procession.

London, July 9.—The outcry raised last year by the ultra-Protestant party against the proposal to carry the host in procession round the Roman Catholic cathedral of Westminster may be remembered. Questions were asked in parliament, the home secretary was urged to forbid th procession, and in the end a compromise was reached by which the procession was allowed, but the host was not carried.

On that occasion dense crowds gathered in the narrow streets surrounding the cathedral, and only the most vigorous efforts of the police, mounted and on foot, made it possible for the procession to force its way in single file past several points. But last Sunday the host was openly carried through the streets of London by a Roman Catholic priest without the slightest interference.

The route taken was about a quarter of a mile in length round the Catholic church in Herring street, Walworth. In front walked the League of the Cross guards with acolytes in cassock and surplice, carrying lighted candles. The Host itself was preceded by six little girls in white, with baskets of blessed flowers, with which they strewed the road. Two youths with thuribles incensed the sacred wafer.

The priest bore the Host aloft in a monstrance open to the view of all. Policemen and members of the League of the Cross guards lined the streets, but not the slightest sign of irreverence was shown by those who looked on at a picturesque spectacle rarely seen in this country.

ST. CHARLES EVAPORATED CREAM

For many things in cookery, St. Charles Cream is an essential. It is as good as the best milk or cream for any purpose. For many purposes it is much better. It gives to coffee, for instance, a flavor which even the best of ordinary cream cannot approach, and it aids in bringing out the delicate aroma of chocolate and cocoa. For confection and ice cream it is unexcelled. For invalids and infants it is indispensable. It never curdles. It strengthens the strong. If only pure water is added it will agree with the most delicate stomach.

Sold by best grocers everywhere.

WEST ENDERS WIN JUNIOR LEAGUE GAME

Defeat the East End Boys by Score of Ten Goals to Six in Close and Hard Fought Match.

In a lively and hard fought game, crammed with interesting play from end to end, the West End juniors won from the East Enders by a score of ten to six last evening.

The game was one of the closest and most exciting of the season and was watched by a large number of enthusiastic lacrosse fans. The junior players all did well, some of the boys on the homes of the two teams showing up in particularly good shape.

The game was refereed by Charles Galbraith, who, however, was not called upon to do a great deal, the majority of the players showing no disposition to get out of hand. Only one man from each team went to the fence in the course of the match.

The teams lined up as follows:

WEST END.		EAST END.
Feeney	Goal.	Stoddart
Battson	Point.	Sinclair
Gregory	Cover.	Henderson
Ackley	1st Defence.	Pentland
Turnbull	2nd Defence.	Sabourin
Curry	3rd. Defence.	Courtney
Burr	Centre.	Henry

FOR MUNICIPAL ENGINEER.

Fifteen Applications Received at the Meeting of Burnaby Council.

Applications were considered for the position of municipal engineer for Burnaby municipality, at the meeting of the council held last evening.

That the position is regarded as desirable was demonstrated by the fact that since applications for the position were called for no fewer than fifteen had been received by the municipal clerk.

The various applications were briefly reviewed by the councillors, but the hour being late when that order of business was reached owing to the fact that it had been preceded by a large quantity of routine, it was decided to leave the whole question over until a special meeting which will be held on Wednesday morning of the coming week at 10 o'clock, especially to consider the matter.

LITTLE ROMANCE IN REAL LIFE, THIS

Philadelphia, July 9.—The marriage of Mr. Hugh J. Duffy, of Toronto, to Miss Margaret C. McHugh, which took place here, followed a romantic courtship which was begun in Toronto when Miss McHugh was visiting that city some time ago.

The first meeting of the young people was brought about by an abusive street beggar, to whom Miss McHugh had refused alms. Mr. Duffy happened along and drove the man away. Next evening he met Miss McHugh again at a social gathering, and the friendship thus started soon led to an engagement.

Miss McHugh belongs to the exclusive set in Germantown. Mr. Duffy is manager of the Crown Coal company, Toronto.

Austrian Duke Scales High Peak.

Paris, July 9.—The Turn correspondent of the Echo de Paris says that the Duke of Abruzzi has penetrated the region of eternal snows in the Himalayas. The expedition reached points beyond those reached by any other expedition. The Duke, accompanied by his guides, scaled the loftiest peaks on the Himalaya chain.
