TRACK FACILITIES ON LYTTON SQUARE

City Council Asked to Help Warehousemen For Access To Premises.

The city council, with three members away, had a light session last evening, little business calling for attention. There were present Acting Mayor Jardine, Aldermen Adams, Fader, Henley and Carter Smith.

Use of Lytton Square.

Vidal and Bacchus, warehousemen, waited on the council with reference to the project for communication between the B. C. E. R. and their new warehouse in the Thompson block for facilitating the transportation of freight, by means of a light narrow gauge track or other means.

H. P. Vidal, who had prepared a rough draft of the proposal, offered alternative proposals, a plank walk lengthwise from the tracks, suitable for trucking about five tons at a time, or else permission to put in a narrow gauge track flush with the square level. In either case the firm would be glad of a prompt decision.

Ald. Fader said the difficulty was to establish a precedent.

Helping An Industry.

E. W. Bacchus explained how imperative it was to their business to have facilities for track and wharf accommodation, convenient to the custom house, and quarters in a substantially built structure. The industry was new to Westminster, and they were doing trade which had formerly been handled in Vancouver, in fact, had spent money in establishing business which was ridiculed at first. It was not a question of a speculation, but of an established business wanting help from the city to develop itself.

Ald. Fader remarked that the proposal deserved every encouragement, and something should be done to help the scheme.

The matter was referred to the

(Continued on Page Two).

GUN EXPLODES ON JAPANESE WARSHIP

Twelve-Pounder Blows Up on the Asaki, Killing Four and Wounding Five.

Tokyo, July 26.—While the crew of the Japanese battleship Asahi was engaged in gun practice at Ise bay yesterday one of the twelve-pounders of the vessel blew up, killing four and wounding five of the gunners. Among the wounded were two officers of the battleship. Ise bay, which is slightly more than a hundred miles from here, in the province of Ise, has long been used as a place for target practice by the ships of the Japanese navy. No additional details of the explosion have been heard from there.

The Asahi is one of the older battleships of the Japanese navy, having been built at Clydebank in 1899. She is the sister ship of the Shikishima, and, like her, bore an important part in the sea fights of the Russo-Japanese war. Besides four twelve-inch and fourteen six-inch rifles, the Asahi carries twenty guns of the caliber of the one that exploded yesterday.

BREAKING CABLE SEVERS MAN'S LEG

Montreal, July 26.—With his leg whipped off as clean as though by a surgeon's knife, Olaf Targrsen now lies in the Notre Dame hospital, putting up a hard fight for life. He is a Norwegian sailor and was one of the crew of the Dronning Maud, which plies between Erie and Montreal. As the boat was coming down the canal Targrsen was working with the mooring lines, one of which suddenly became taut, and snapped in two. As the cable recoiled it struck Targrsen just above the knee, cutting the leg completely in two, the lower portion being completely separated. He is expected to recover.

LULU ISLAND REQUIRES BETTER WATER SERVICE

Growing Industries Want Better Protection—Saturday's Blaze Draws Attention to Defects.

As a result of the recent fire at the Barnet-McDonald mill on Lulu island, representatives of the Coast Central Mill Company, who purchased some property from the city on Lulu island for the purpose of erecting a shingle mill, and have cleared the land preparatory to the commencement of operations, are requesting more adequate fire protection on the island before they will commence actual operations, stating they can get an insurance rate under existing conditions. G. W. Beach, the representative of the proprietors in the city, wants some understanding before going ahead with the work.

A four-inch main at present serves the island, and when the waterworks extensions are completed, a six-inch pipe will be carried across the North Arm, quite independent of the Richmond main, which will not be tapped till it reaches the city boundary. Owing to the distance from the bridge industries located as far away as the Barnet-McDonald mill suffer severely when conditions arise such as those of Saturday.

Mr. McDonald himself called the attention of the council to the condition of things several times last year. With a fire like that the other day, however, all the hydrants going could not have saved the bulk of that portion burned out.

ENGLAND WATCHES BUDGET BATTLE

Conservatives and Liberals Are Locked in Deadly Strife in Old Country.

New York, July 26.—The London correspondent of the Tribune cables as follows: The government is not making much headway with the budget, but it is forming a closer connection with the labor section for the distribution of seats and the prevention of the nomination of third candidates at a general election. It is also organizing a movement for systematic campaigning against the Lords if they undertake to protect their own interests as land owners by modifying or rejecting the budget outright.

Ministers Jaded.

The ministers, although jaded by the prolonged struggle over the land section, are full of energy and aggressive force, Lewis Harcourt being one of the best fighters. They would probably be glad to drop the entire section if the opposition would agree to a revaluation of land throughout the kingdom but that is what the peers will not have on any terms. The ministers proclaim their intention of keeping parliament in session until Christmas, if necessary, but they evidently expect to make rapid progress with the budget after the land section has been completed.

Crisis Impending.

A crisis in the relations of the two houses is likely to arise in September, if the Lords decide to disregard the late Lord Salisbury's warning. The result seems inevitable, since Lord Salisbury's warning. This result seems inevitable, since Lord Lansdowne's abrupt proclomation that the Lords cannot be compelled to swallow the budget as a whole and that they have no intention of evading their responsibility for financial legislation. Apparently he has assumed the leadership in the House of Lords without consulting with Mr. Balfour and has boldly declared war on the budget. After this demonstration of hostility there must be a concentration of forces on both sides.

It is proposed to utilize a flow of natural gas near Chittagong, India, for lighting fuel and power purposes.

DISCOVERS NEW LAKE NEAR CITY

Situated in Burnaby—Existence Hitherto Unsuspected And on no Maps.

How little is known of some of the districts within but a short distance of the city limits of New Westminster and Vancouver is shown by the discovery recently of a hitherto unknown lake, lying almost between the two cities.

The newly discovered body of water lies between Burnaby lake and the south shore of Burrard inlet, just behind the steep hill which rises in the rear of Barnet.

Thick Timber in Vicinity.

The district was until a few years ago heavily timbered, while the underbrush was so thick that few people ever undertook to penetrate it. About three years ago, however, it was logged over by Gilley Bros., and since that time has been put upon the market for sale for agricultural purposes.

The new owners, a Vancouver real estate firm, had it surveyed, and even then the lake, which is hidden in a deep hollow, was not found. It was not until the piece of land in which the lake is comprised was sold that the body of water was finally discovered.

New Owner Finds Lake.

Some days ago the new owner undertook to look over his land, with a view to having it divided into blocks suitable for sale. In the course of his tour he was surprised to come upon the lake. It is described as a beautiful little body of water about the size of Deer lake, and bounded by firm, sandy banks. So pleased was the owner with the little piece of water that he decided to subdivide the land in such a way as to leave a large area around the shores of the lake with a view to ultimately selling it to someone who wishes a site for a beautiful country residence.

Now that it has been discovered the new lake will be duly surveyed and placed upon the maps of the district.

Worked Old Trick.

Detroit, July 26.—John Mohamed, colored missionary from Morocco, is locked up on a charge of obtaining money from churches in Detroit and Windsor by means of fraud. He told various stories wherever he collected funds and a trap was laid for his capture, which was effected by Dr. Magoon, pastor of Central Methodist Church, Detroit, who had to sprint about five blocks in pursuit.

SALMON AT LAST APPEAR IN FRASER

Over Three Thousand Are Caught in Upper River Yesterday—More on Way.

The sockeye run has at last commenced. Yesterday was the best day that the fishermen have yet had, over three thousand fish being taken in the river, while reports from the gulf are to the effect that vast schools of fish are on the way in to the Fraser.

Tide Brought Fish.

Large numbers of boats put out on Sunday evening, but during the early part of the night few fish were taken, and many of them returned. Once the tide had turned and commenced to run in, however, the fish appeared and yesterday morning the majority of the fishermen who had stayed on the river after midnight appeared at the canneries with good catches.

The average was about seventy to the boat, some being below this and some above. The biggest catch reported was two hundred and twenty-seven. Fifty-five boats reported at the St. Mungo cannery alone.

It is anticipated that from now on the fish will continue to increase in numbers, and by the end of the present week the canners expect to be in the very thick of th packing.

Thick in the Sound.

The following dispatch has been received from Bellingham:

Bellingham, Wn., July 26.—Sockeye salmon in great numbers are now running in Puget Sound, and for the next two weeks the canneries in this city and at other points will be swamped with the red fish. Yesterday a total of 49,000 sockeyes were brought in from the traps of the Pacific American fisheries. The Bellingham Canning Company received 25,000 sockeyes and the plant in South Bellingham is swamped today. The Astoria and Puget Sound Packing Company received 6000 fish this morning. Every trap on the Sound is now being fished daily.

F. B. Deming, manager of the Pacific American fisheries this morning received a telegram from Carmanah, near Cape Flattery, stating that the sockeyes are swarming into the straits and that the big run on Puget Sound has now started in earnest.

Enough Left For Cruiser.

St. Petersburg, July 26.—The committee in charge of the Russian naval fund collected during the Russo-Japanese war has decided to construct with the remainder of the fund a torpedo cruiser.

Weary of Daily Grind, Workers Form Suicide Club

Cleveland, O., July 26.—A club composed of disheartened factory employees advocating suicide as the only means within their reach of attaining the peace of mind they crave and to escape the torments of their daily grind, is believed to exist here. This fact was advanced today by the parents of Miss Rebecca Bosechk, 18 years old, who was found shot to death in Gordon park yesterday.

In addition to this the relatives believe another girl, a companion of Miss Bosechk, will end her life within the next few days. The mother of the second girl says she overheard her daughter and Miss Bosechk planning to kill themselves.

According to those who know the habits of Miss Bosechk, the club consisted of six girls, four young men and a man and his wife. Miss Bosechk is known to have met with these young people at various places. They are known to have read morbid literature and discussed death as the only relief for their woes.

WISHES TO SEND JEWS INTO WESTERN LAND

Well Known Zionist Says Israelite Immigrants Must Not Be Allowed to Settle in Cities.

Buffalo, N. Y., July 26.—Jacob H. Schiff, the New York banker and philanthropist, made the closing address of the thirteenth annual assembly of the Jewish Chautauqua Society here today.

"I am not a pessimist," said Mr. Schiff, "and I am certainly not a restrictionist. I am convinced that the United States can yet receive and absorb to its own advantage a very considerable part of the Jewish immigration from the Slavic countries. But the responsibility which accrues to us toward the people of this hospitable country is very great. It is high time that we stopped to consider what can be done to bring about a better distribution of our co-religionists, whom a continuance of conditions such as obtain in Russia are bound to bring to your shores.

"Unless we find an effective way to deflect the stream of immigration from New York city and the North Atlantic seaboard towns, the congestion already existing there is certain to grow and it may become a menace to the status of the Jew throughout the country."

Zionism, said Mr. Schiff, is idealistic and impracticable. The only solution of the problem is the better distribution of the Jews throughout the west through the ports of Galveston and New Orleans.

EXPLORER DISCOVERS NEW MAMMOTH CAVES

Are Located in Arizona—Tradition of Their Exitence Was Handed Down by Indians.

Denver, Colo., July 26.—That mammoth caves, containing caverns large enough in which to place a city office building, with natural stone bridges exceeding in beauty and grandeur those of Utah and Virginia, exist in Northwestern Arizona, is officially announced by Prof. Edgar L. Hewitt, director of the branch school of American Archaeology, located at Sante Fe, N. M. Stories of the existence of these wonderful natual cavens have been told by Indians of that section fo centuries, but were thought by white men to be merely legends of the aborigine.

Prof. Hewitt, in conducting an investigation of the records concerning Spanish occupation and control of the Southwest, made a trip to Spain a year ago, during, which he unearthed written proof of the claims of the Indians.

Carrying out his determination to explore the region, Prof. Hewitt organized an expedition which started from Gallup, N. M., and after a seven days' journey by pack mule, the caves were reached. Indians guided him to the spot and conducted him through the gigantic underground passages.

Prof. Hewitt, who is in Denver, gave publicity to the story of his discoveries yesterday. Prof. Hewitt will make another expedition to the caves next spring. He claims to have discovered traces of a race of cliff dwellers hitherto unknown.

COMMISSIONERS ORDER PROPER CATTLE GUARDS

Railways Must Arrange to Fence Tracks, Provide Cattle Guards and Highway Crossings.

When the railway commissioners were on the Pacific coast in February much was heard of the need for better cattle guards and fences in this district, and as a result of the meeting held at Ottawa in May last circulars on the subject have been issued. The finding of the commissioners is embodied in order No. 7473.

Railways subject to the jurisdiction of the board where the lands on either side are not enclosed, settled or improved are required to erect and maintain by January 1, 1911, fences at least four feet six inches high, with swing gates at farm crossings, and cattle guards on each side of the highway at every highway crossing at rail level—provided that sliding or hurdle gates constructed before February 1, 1904, may be maintained.

In railways not yet completed and opened for traffic, the companies shall erect fences, gates, and cattle guards, as the rails are laid.

Wherever the lands on either side of the railway are enclosed, settled or improved the company shall erect and maintain such fences, gates and cattle guards, and comply with section 254 of the Railway Act, by October 15 next.

Provisions are set out in the order for the maintenance of suitable highway crossings. The width of approaches to rural railway crossings over highways shall be 20 feet road surface on concession and main roads, and 16 feet on side and bush roads. The material on the crossings is to be suitable planking, paving blocks or broken stone topped with crushed rock screenings.

BERNARD SHAW DENOUNCES CZAR

Says He Is Representative Of "Abominable Tyranny"—Will Visit America.

Lodon, July 26.—Bernard Shaw, in a letter to the Saturday Review explaining his reason for participation in the forthcoming demonstration against the Czar's proposed visit to London, which demonstration is to take the form of a mass meeting in Trafalgar Square, says:

"Nothing is more right and proper than that I should take part in such a demonstration, as I happen to believe that all England's advantages over Russia depend on the fact that when Kings behave in England as Czars do in Russia, we either cut off their heads or replace them by their nearest well-behaved relative."

After referring to the "abominable tyranny of which the Czar is the representative," Mr. Shaw concludes by expressing the hope that the Saturday Review will charter a canal barge, decorate it with Union Jacks, surmounted by caps of liberty and black flags in mourning for the Czar's victims, and "place it well in evidence in the Solent on the day of our national disgrace."

Mr. Shaw will visit America in the interests of the unemployed, in the near future.

ENGLAND LEADS IN IMMIGRATION TO CANADA

Ottawa, July 26.—The official figures of the immigration into Canada for the month of May issued today show a total of 29,030. The English lead with a total of 7397 but the United States citizens are a good second with 5987.

Arrivals from Scotland numbered 2714; those from Italy, 3091; and returned Canadians are given as 1095. The immigration from Northern Europe continues but on a small scale.

It is stated at the department that the outlook is that this year's immigraion will slightly exceed that of last year.

SCHOOL BUILDINGS ARE OVERCROWDED

City Must Provide Further Accommodation For Children Shortly.

The school trustees will be faced at the opening of the next term with the perplexing problem of providing for a great many more children than the present schools can accommodate with any measure of satisfaction.

Seventy-seven children sat for the High School entrance examinations, a good percentage of them will doubtless pass, and provision must be made for their accommodation. The numbers leaving will certainly not equal those wishing to come up into the higher grade, and there is certain to be further overcrowding.

The trustees have no money to spend in new buildings, and all the additional accommodation which will be available after vacation is a one-room school at Sapperton which is being built to relieve the pressure in the East End, and which will at some future time be converted into a cottage.

Eight-Room School Yearly.

When Inspector Stewart told the gathering at the opening of the Lord Kelvin school recently that the city should build an eight-room school similar to that one every year, he was heard with considerable surprise, but such is the case. The trustees hope to get a loan bylaw next year for a similar structure at Sapperton, and have dreams of a new High School on Tipperary or elsewhere.

No one who is familiar with the poor opportunities for giving even the simplest scientific instruction at the High School would question the need of better facilities there, but it is a difficult thing to get money voted for such purposes in Westminster. The present High School has encroached on the girls' portion, and threatens further to do it, as the children must be taught.

Concentrating Schools.

There is a large element in the city which favor new schools when money is found for the purpose, near Queen's park, and probably on Lulu island, but they will find themselves up against the modern spirit of concentration in educational matters which seeks to build large schools with well paid, and highly trained staffs rather than many buildings with less competent teachers.

This principle will be put into effect in Surrey as soon as possible, and a good central school is projected, with the retention of the present scattered buildings for the younger children. The provincial department of education is using its influence with trustees in favor of the concentration of school buildings all through the province for the reason stated.

PROVIDE PURE MILK FOR HAMILTON BABIES

Victorian Order of Nurses, Supported By the City Council, Makes Important Move.

Hamilton, Ont., July 26.—Early this week the members of the Victorian Order of Nurses will open a station from which pure milk will be sold to mothers of infants, the idea being to reduce the infant mortality as much as possible. The scheme originated with the board of health, and the city made a grant of $100 toward carrying it out, and granted the committee in charge the use of the Butter Market as a distributing station. The Medical Association also is taking an active interest in the scheme, and the doctors think that by providing milk for infants, bottled under ideal conditions, they will be able to reduce the infant mortality by at least 50 per cent.

The Grand Falls on the St John river, N. B., are to be utilized for the generation of electricity. The station is to have a capacity of 60,000 kilowats.

Nations Will Commence War on the Drug Habit

Washington, July 26.—The state department has requested all the countries which participated in the meeting of the International Opium Congress at Shanghai, China, last February to send delegates to a second conference to be held at The Hague in the near future, where means will be considered for the international control of the production, manufacture and traffic in opium with a view to the complete suppression of the use of opium except for medicinal purposes.

Hamilton Wright, who was one of the American delegates to the conference at Shanghai, is preparing a program to govern the discussion of the conference. It is hoped by the department that the conference will also take up the question of the use of cocaine and other narcotics and habit forming drugs. Mr. Wright is preparing legislation for submission to congress, which if enacted will place the manufacture and interstate traffic in habit forming drugs under the supervision of the bureau of internal revenue.

Word was received in the city yesterday evening to the effect that Lyons' hotel at Van Anda was totally destroyed by fire. The loss is calculated at about $50,000, partly covered by insurance. No lives were lost. The cause of the fire is unknown.

Retail Clerks Rejoice At Early Closing Law

Montreal, July 26.—A big celebration was held this evening by a number of the retail clerks' association to mark the enforcement of the city's early closing law, which went into effect today. Under the bylaw, all stores, with the exception of saloons, drug stores, ice cream and fruit stores, etc., must close every Wednesday and Thursday throughout the year at 7 o'clock and not open until 5 the next morning. It was originally passed three years ago, but was fought through the courts until finally the supreme court held it valid, and it was at once put into force by the city, starting with tonight. In honor of the event a procession was organized with about 200 carriages in line, which paraded the city, after which a reception was held, when speeches were made by acting Mayor Major and other aldermen, as well as a number of the union leaders.

TENDERS.

Sealed tenders will be received by the undersigned up to noon on the second day of August for the purchase of a quantity of timber on the Indian Reserve at Campbell River. This timber consisting of one million feet more or less, has been felled and cut into lengths ready to haul. A few trees in the block are still standing.

The tenders will state the price per thousand feet board measure according to the official scale of British Columbia, which will be paid in cash for the timber as it is at present on the ground. The timber must be removed before the thirty-first day of March, 1910.

The lowest or any tender not necessarily accepted.

By authority of the Department of Indian Affairs.

Indian Agent,
Alert Bay, B. C.

KANSAS ABOLISHES PUBLIC DRINKING CUP

Found to Be Means of Transferring Disease, It is Eliminated By the Board of Health.

Topeka, Kans., July 26.—The board of health has won the first round in the scrap with the board of railway commissioners over the common drinking cup on the passenger trains in Kansas.

The board of health found that several cases of infectious disease were spread through the use of the common drinking cup. So an order was issued to remove it from the trains. the board of railway commissioners called a halt, claiming the removal of the cup would be an impairment of the service. The question went to the attorney-general, who held it was the duty of the board of health to prevent the spread of infectious diseases, and that if it were found that the drinking cup spread diseases it should be abolished by the board.

B. C. FRUIT EXPERT TO LECTURE IN EAST

Lytton, July 26.—News has just been received here of the appointment of Fred Earle, son of Thomas Earle, one of the largest individual fruit-growers of British Columbia, to the fruit packing department of the Dominion Department of Agriculture. Mr. Earle has been notified to report at Ottawa, August 1. While it is not known yet to just what special duty he will be assigned it is highly probable he will be appointed lecturer on fruit packing to the farmers in the Maritime Provinces.

The Strike is Over.

Pittsburg, July 26.—The strike at the Standard Steel Car company's plant at Butler was ended today, when more than 2000 former employees returned to their work at the company's terms. Seven of the leaders of the strike were dischaged. Offircials of the company state that hereafter American workmen will be given the preference in all departments, and particularly in the construction of cars.

board of works and market, to report.

Tender for Pipe.

The council decided to purchase six new garden seats, four for Albert Crescent, and two for Moody square, from the Westminster Iron Works, Ald. Fader making the recommendation.

A tender for six-inch cast iron pipe and fittings was accepted from the Cunningham Hardware Company at $42.50 a ton for pipe, and $75 a ton for fittings.

The Westminster Trust & Safe Deposit Company undertook to pay two-thirds of the cost of a cement sidewalk from Columbia to Clarkson streets, which will be laid as soon as possible. Applications for sidewalk extensions on Nanaimo street to the premises of Daniel Barclay, and on the south side of Regina street through Lot 13 to Second street, were referred to the board of works to report.

Miscellaneous.

R. W Hodson, live stock commissioner, acknowledged the acceptance of Major Shepherd's services to lecture on road making, an dstated the council would be notified of the date

Complaints with reference to the dumping of refuse in the lane at the back of Dr. R. E. Walker's residence, and in the ravine adjoining were referred to the health committee to act, Ald. Henley remarking the best way to pursue was a prosecution of the offenders.

A communication from the B. C. Telephone Company asking for the street line on Twelfth street between Royal avenue and Auckland street, ture on road making, and stated the with a view to passing under the B. C. E. R. tracks, was received, and the board of works was authorized to act.

FOR SALE

Sir Robert Hart Retires.

London, July 26.—Sir Robert Hart, who has spent a year's leave of absence in England, the first vacation he has taken in more than twenty years, has practically decided to retire from the position of director-general of Chinese customs on account of ill health.

PRIEST WHO WARRED WITH VATICAN DIES

Father George Tyrrell Passes Away—Was Sympathizer With Modernist Movement.

London, July 26.—Father George Tyrell, whose sympathies for the modernist movement in the Catholic Church caused him to withdraw from the Society of Jesus and brought him into conflict with the Vatican, died this morning after an illness which began on July 6. M. D. Petre, in whose house he died states that the priest of the Diocese of Southwark was called in. Because both M. Petre and Baron Friedrich Von Hugel, one of his friends, were convinced that Father Tyrell would wish to receive all the rites of the Catholic Church. He apparently made a confession to this priest, and received a conditional absolution, the extreme unction usually administered in communion being out of the question owing to the absence of the powers of swallowing.

Father Tyrell's intimate friend, Abbe Bremond, was present at the end and had the opportunity in a moment of very clear consciousness the evening before his death of speaking to Father Tyrell as to his accepting such confession as he could make by sign and giving him the last absolution.

G. T. P. LOAN ISSUE ALREADY OVERSUBSCRIBED

London, July 26.—The Grand Trunk Pacific loan issue has been oversubscribed already. C. M. Hayes, when interviewed in Liverpool said there was no truth in the New York report of an agreement with the Allan line. He added that when the G. T. P. was completed the company would either build a fleet or form an alliance with some other company if it would bring about the same result.

WOULD PRESERVE HISTORIC PILLAR

Cornerstone of First Dockyard at Halifax Laid a Century Ago.

Halifax, N.S., July 26.—President J. A. Johnson, of the Board of Trade, has communicated with Hon. L. P. Brodeur for the preservation of a cornerstone laid in 1809 in the Dockyard at Halifax, which is now under the jurisdiction of the Canadian Government. There is a marble slab inserted in a pillar, which is constructed of masonry, and which at that time formed one of the posts for the main gate leading from the dock into the yard. On it is the following inscription.

"In the name of God, in the thirtieth year of the reign of His Majesty George the Third, this corner stone was laid by the Right Honorable Sir John Borlase Warren, Baronet, Vice-Admiral of The White, Commander-in-Chief at Halifax and its Dependencies; Grand Master Worthington, Great Britain, in the year of our Lord one thousand eight hundred and nine, and of masonry five thousand eight hundred and nine."

This pillar is in a very bad state of preservation and, at the present time, is propped up by wooden braces. No doubt there is a box deposited there containing things of interest of one hundred years ago and Mr. Johnson say he understands it has been rather encouraged to fall in order that this box might come to view. He makes a request that the piller be rebuilt of the original stone, and that great care be taken that the contents of the box deposited there shall not be robbed during the reconstruction.

CALGARY SUBURBANITES OPPOSE SUNDAY CARS

Calgary, July 26.—The citizens' league of northwest Calgary, comprising Hillhurst, Sunnyside and the suburbs across the Bow, placed themselves upon record last night as opposed to the running of Sunday street cars in Calgary at this time.

The meeting was fairly well attended, and the members of it were unanimously in favor of the resolution.

PROVED TOO MUCH FOR THE LIBERAL

Toronto, July 26.—Twelve thousand attended the annual demonstration of the North York Conservative Association at Jacksons Point, Lake Simcoe. The weather was showery, but Premier Whitney, and Hons. Pyne and Duff and others gave speeches. During the tug-of-war James Sweet, anchor for Gwillimbury township team, suddenly expired. His son and daughter were in the audience. Sweet was 55 years of age and a Liberal in politics.

Swallowed Fifty Pills.

Newton, N. J., July 26.—Fifty quinine pills swallowed today by John the four year old son of Cecil Drake, of Swarthood near here, caused the child's death in a few minutes.

LADIES OF FASHION WEAR HAIR OF CHINESE CRIMINALS

Once in a while, says the Vancouver Province, the manifest of the white Empresses, from the Orient to Vancouver, includes a shipment of human hair. The consignments are not large ones but they come through regularly and this trade is a recognized factor in the exports fom Hong Kong. The tair is from the queues of dead Chinamen, principally malefactors such as murderers who have been executed and the hair which was formerly the pride of a Celestial is in time transformed into a "rat" or switch for fashionable women. It would upset the ladies of society to know that their hirsute additions probably adorned the head of a Chinese criminal, but it is true nevertheless.

Lever Brothers, Toronto, will send you free a cake of their famous Plantol toilet soap, if you mention this paper

CURIOUS SUBSTITUTES USED FOR COFFEE

Europe Turns Out 257,000 Tons Annually That Has None of Real Berry In It.

statistics of a Paris paper, which has been investigating the subject, there are no less than 106 factories in France for the manufacture of artificial coffee. These factories turn out 24,000 tons annually, while there are 568 such establishments in Austria-Hungary, including 412 for the manufacture of coffee from figs, and in Germany nearly 15,000 hands are employed in the trade, and the annual output is 100,000 tons. It follows that a large quantity of "coffee" which we drink has not an atom of the real berry in it. The list of substances out of which it is manufactured is alarming. Cereals soaked with beer, brandy or rum, chestnuts and horse-chestuts, haricot beans and broad beans, carrots, dates, and, finally the hard roe of cod. The annual output of what is charmingly called "fanciful coffee" for Europe is estimated at over 257,000 tons.

Shovels Go Up.

Montreal, July 26.—There was a conference here today between the wholesale hardware people and the shovel trade, in which an over stocking has, it is alleged, brought about a deal of price cutting. So much so, in fact, that the manufacturers threaten that they will do the retailing themselves, instead of selling to the wholesalers and jobbers.

It is understood that while not coming to a definite agreement, the wholesale men gave the manufacturers a good assurance that prices would be maintained in future.

ROGATORY COMMISSION TAKES EVIDENCE ON CANAL

Paris, July 26.—The Rogatory Panama Canal commission composed of Henry L. Wise, U. S. attorney, New York and Stuart McNamara, assistant attorney for the district of Colombia, has begun the taking of testimony of voluntary witnesses in a room at the American embassy, which was placed at its disposal by Ambassador White. The commission came to Paris early this month to obtain testimony in the Panama libel case. By an agreement between counsel of both sides the sittings are in secret and no statement regarding the nature of the evidence submitted can be secured for publication. Beyond this voluntary testimony nothing is likely to be obtained as the idea of appealing to the French government for an examination of the records has practically been abandoned.

Australia's Navy.

Melbouren, July 26.—Hon. Mr. Cook, Minister of Defence, states that he is thoroughly in favor of a local squadron, provided it becomes a section of the Imperial Navy. Australia's offer of £2,000,000 is unconditional, but should the home authorities prefer to employ the money in building swift cruisers for the protection of Australian trade routes so much the better. These could train Australian sailors to work in conjunction with local destroyers.

Government Aids Strikers.

Sydney, July 26.—As a result of the recent strike on the Broken Hill silver fields, a large number of men were displaced, and when they agreed to return to work their places were no longer open to them. Keen distress has naturally followed, and the Government are assisting in maintaining the families of the men and in providing work where they can. The strikers bitterly complain of being left in the lurch by their leaders.

CANADIANS CONTINUE TO GAIN BISLEY HONORS

Martin Challenge, Service, National and Handsworth Competitions Shot Off Yesterday.

Bisley, June 26.—In the Martin's Challenge cup, a rapid firing competition, Lieut. Morris, in 10th place, won £5; Sergt. Mitchell in 23rd place won £3; Sergt. Stack, Sergt. Richardson, Lieut. Mortimer, Sergt. Huggins, Major Jones and Sergt. Smith, in 41st, 58th, 96th, 101st, 102nd, and 109th places respectively, each won £2.

In the Service Rifle championship competition Sergt. Blackburn in second place won the silver jewel, while bronze medals were won by Sergt. Mitchell, Sergt. Richardson, Lieut. Morris, Sergt. Smith, Sergt. Huggins, Sergt. Freeborn, Lieut. Smith in 3rd, 13th, 14th, 17th, 26th and 36th places respectively.

The jewels in this competition are given by the National Rifle Association to which is attached the Financial Times Challenge cup presented to the N. R. A., in 1900, by the proprietor of the Financial Times. The prizes are awarded to the highest aggregates in the Grand Aggregate, the Elkington and the Martin's competitions.

In the Handsworth competitions at 900 yards Sergt. Blackburn in 17th place won £1.

Girl Bandits Are Latest.

New York, July 26.—According to a special despatch from Denver, M. Babbitt, of Buffalo, who is taking part in the Glidden automobile tour, tells how he was held up and robbed by two girl bandits. With him were Richard Radley, a lawyer of Peoria, Ill.; A. Y. Bartholmew, a driver, and P. L. Mupel, mechanic.

NOTICE.

Notice is hereby given that the Pitt River Lumber Company, Limited," having applied to His Excellency the Governor-General in Council for the approval of a certain site for the construction of certain booms and booming grounds in the Pitt River, in the District of New Westminster, Province of British Columbia, have deposited with the Honorable the Minister of Public Works, at Ottawa, plans of said booms and booming grounds, together with a description of the site thereof, and have also deposited a duplicate of each in the office of the Registrar of Deeds for the said District of New Westminster, in which district said works are proposed to be constructed, in accordance with the requirements of Section 7 of the "Navigable Waters Protection Act," Chapter 115, Revised Statutes of Canada, 1906.

AND WHY IT IS A BETTER FLOUR.

We use selected wheat from the best wheat producing regions of the Canadian West, where the sunshine is long, where the soil is rich, giving to the wheat that quality of gluten which makes the very finest flour. This is factor No. 1.

Scientific milling which follows the wheat step by step, selecting only the best and purest portions of the wheat grain and making it into the most perfect flour. This is factor No. 2.

Care exercised in storage and marketing so that there is no possibility of deterioration from the time the flour leaves our hands until it reaches you. This is factor No. 3.

Now isn't there a reason why you should ask for Royal Standard Flour? And besides, in every 49-lb. sack there is a numbered coupon entitling you to a chance to win one of ten beautiful dinner sets given away each month.

THE COLUMBIAN AND THE G.T.P.

In last night's issue, the Columbian, true to its policy of insinuating graft, and wrong doing, even after exhaustive enquiries have been held, lets itself loose again on the resignation of the Chief Engineer of the Grand Trunk Pacific, a recital of the true facts of the case is therefore not out of place.

The Chief Engineer of the Western division of the road sent to the Government his testimony of the cause of increased cost. This is what he says in part:

"A question has arisen as to the estimated cost of construction of the Grand Trunk Pacific prepared in 1903 being so far in excess of the estimated cost today. The explanation is simple. The reason is two-fold—first, the general increase in cost of labor and materials; and second, the superior character of the eastern section of the road as being constructed compared with its character as contemplated in 1903."

Since 1903, the rate of wages for ordinary and skilled labor used in railway building has increased 25 per cent, and the cost of lumber, timber and ties has increased 35 per cent. The price of steel rails has gone up from $25 to $35 per ton, an advance of 40 per cent.

The estimates made in 1903 were based upon a road with maximum grades and curves, and timber culverts and structures, such as are found in the ordinary railroad of Canada. Whereas the structures upon the Moncton to Winnipeg section are of steel with sub-structure of concrete. There are 228 of these steel bridges in this section alone. The road now being built is costly but up-to-date and will be permanent and workable at the minimum of expense.

This explains the additional cost over the estimates of 1903. The road is well built. It pays to built a road well, economy is not found in a cheap article. Millions of dollars have been expended and miles of track abandoned by the Canadian Pacific in overcoming some of the curves and grades which distinguished the road when it was first constructed. The Moncton to Winnipeg section is being built right at the start, and is the most scientifically constructed railroad in the world today.

By making a good road, by bringing grades down to the finest point, the Government are doing the best they can to cheapen transportation. If the people of Canada are building a more expensive road than they contemplated in 1903, they will get the benefit in cheaper freight rates many times over.

So much for the reasons which explains the increased cost of the road. Another point raised is that Mr. Lumsden resigned because he found the Hodgins charges justified. This is ridiculous.

The evidence in the Hodgins affair established beyond question that the charges were absolutely without foundation. Major Hodgins not only failed to prove the charges, but specifically withdrew them, and unqualifiedly exonerated the commissioners and their engineers from any improper conduct or undue influence over officials over them, or of collusion with the contractors.

Major Hodgins also repudiated the interview with himself upon which the charges were based. In fact the whole thing collapsed, and nothing more was heard of it until the resurrection a few weeks ago of the half-forgotten incident by the Tory press in an attempt to find some connection between these charges and the resignation of Mr. Lumsden.

During the Hodgins investigation it was shown that there had been a discussion and correspondence between Mr. Lumsden and the divisional and resident engineers on the Moncton to Winnipeg section, as to the classification of solid rock, loose rock and common excavation, and that on 9th January, 1908, an interpretation was decided upon by Mr. Lumsden, which was agreed to by Mr. Woods, assistant chief engineer of the Grand Trunk Pacific company, which has been acted upon since that date.

To mix up the Hodgins charges with the resignation of Mr. Lumsden is to acquit the Government of all responsibility. The committee of investigation in the Hodgins not only failed to prove the charges as contained in the "Colonist," both in the letter and interviews, but that he specifically withdrew them, and has unqualifiedly exonerated the commissioners and their engineers from any improper conduct or undue influence over officials under them, or of collusion with the contractors, and that if questions as to classification arise they should be decided by the tribunal previously provided therefor by the statute.

RHODESIA GOLD OUTPUT INCREASES

Salisbury, July 26.—Figures which have just been published show that the mineral output of Rhodesia for the month of April has been declared of the value of £237,214, as compared with £219,242 for March. The gold production amounted to 52,905 oz., valued at £222,700, an increase on the previous month's figures of 4875 oz. in silver, lead, and asbestos showed little change at £2135, £950, and £280 respectively. Chrome iron and copper shipments were both somewhat less at £4245 and £228. Coal sales improved from £5513 to £6676. With a total of 213 altogether, there were fifteen more producers in April than in the previous month.

CORPORATION OF BURNABY.

Applications will be received up to 12 noon on Friday, July 30, 1909, for the position of constable and road tax collector. Salary as constable at the rate of $2.25 per day of eight hours when on duty and a monthly retainer of $5. Road tax to be collected on commission of 20 per cent. Applications to be endorsed "Constable and Road Tax Collector."

C. T. SAUNDERS,
Municipal Clerk.

Municipal Hall, Edmonds, B. C., July 24th, 1909.

New Westminster Land District, District of New Westminster.

Take notice that Wilfrid Dougall of Vancouver, occupation farmer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at Northeast corner of lot 1469, thence south 20 chains, thence east 40 chains, thence north to coast, thence following the coast line to point of commencement.

WILFRID DOUGALL,
Per G. M. Dougall, Agent.

Dated July 21st, 1909.

Live Stock Insurance

Live stock insurance has fast become recognized as one of the best kinds of insurance in existence, and an ever-increasing number of stock owners are protecting themselves against the serious losses which they have had to suffer in the past. I represent the only strong, reliable Canadian company carrying this class of insurance, and as they do not handle any insurance but live stock they are able to fulfil their obligations to the greatest satisfaction, and every legitimate loss which has occurred on any of the company's policies since they started business, has been promptly paid, cheques usually being forwarded within a day or two, and the following letter is an instance:

New Westminster, June 23, 1909.

A. W. McLeod, Agent British American Live Stock Ass'n Ltd., New Westminster, B. C.

Dear Sir,—I beg to thank you and your company for the prompt settlement made for the loss of my mare "Nell," for although my claim form was only completed yesterday I have already received cheque for $200.00 in full payment.

Yours sincerely,
(Sgd). J. A. GIBSON.

You may be the next to lose some valuable stock, enquire for particulars.

Advertising Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Four Thousand ($4000.00) Dollars for the purpose of advertising the City.

Whereas, it is expedient to expend the sum of Four Thousand ($4000.00) Dollars in advertising the City and that the said sum should be raised on the credit of the Corporation.

And Whereas, It appears that if the sum of Four Thousand ($4000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars.

And, Whereas, in order to raise the said yearly sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-four Thousand ($394,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Two Hundred ($200.00) Dollars for the payment of interest thereon, and the sum of Thirty-Five and 46-100 ($35.46) Dollars to provide for the repayment of the principal

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Advertising By-law 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh Street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

City Gaol Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Six Thousand ($6000.00) Dollars for the purpose of building a City Gaol and Police Court Room.

Whereas, it is expedient to erect a building to be used as a City Gaol and Police Court Room, and to use that portion of the Civic Building, now used for those purposes, for other purposes and to expend in the erection of the said building the sum of Six Thousand ($6000.00) Dollars, and that the said sum should be raised on the credit of the Corporation.

And Whereas, It appears that if the sum of Six Thousand ($600.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars.

And, Whereas, in order to raise the said yearly sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-Two Thousand ($392,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Three Hundred ($300.00) Dollars for the payment of interest thereon and the sum of Fifty-Three and 19-100 ($53.19) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "City Jail Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

Waterworks Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars for the purpose of increasing the capacity of the City Waterworks System.

Whereas, it is expedient to construct an additional Main Pipe Line for the City Waterworks System from Coquitlam Lake to the Queen's Park Reservoir, and also from the Reservoir to the City limits on Lulu Island, and for that purpose to expend the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars.

And Whereas, It appears that if the sum of Two Hundred and Thirty-Four Thousand ($234.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Eleven Thousand Seven Hundred ($11,700) Dollars for the payment of interest thereon, and the sum of Two Thousand and Seventy-Four and 52-100 ($2074.52) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Waterworks Debenture, By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

Hospital Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Thirty Thousand ($30,000.00) Dollars for the purpose of granting the same to the Royal Columbian Hospital.

Whereas, it is expedient to grant the sum of Thirty Thousand ($30,000.00) Dollars for the purpose of assisting in the erection of a new building for the Royal Columbian Hospital in this City.

And Whereas, It appears that if the sum of Thirty Thousand ($30,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars.

And, Whereas, in order to raise the said yearly sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Sixty-Eight Thousand ($368,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Fifteen Hundred ($1500.00) Dollars for the payment of interest thereon and the sum of Two Hundred and Sixty-Five and 96-100 ($265.96) Dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Hospital Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

JOHN REID, Proprietor.

Tenth Street, - New Westminster

Street Improvement Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Four Thousand ($104,000.00) Dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the City for the construction, improvement and repair of certain streets and sidewalks, and it is expedient that certain additional sums be spent in like manner, amounting in all (with sums already so spent) to the sum of One Hundred and Four Thousand ($104,000.00) Dollars.

And Whereas, It appears that if the sum of One Hundred and Four Thousand ($104,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars.

And, Whereas, in order to raise the said yearly sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Two Hundred and Ninety-Four Thousand ($294,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Four Thousand

104,000,000) Dollars and to cause e same to be paid into the Treasury the said City for the purposes mened herein.

2. It shall be lawful for the Mayor cause any number of debentures be made, not exceeding in the hole the sum of One Hundred and ur Thousand ($104,000.00) Dollars such sums of money as may required, not less than $100.00 ch, or an equivalent expressed pounds sterling of the Unit Kingdom of Great Britain and land, at a value of 4.866 to the und sterling; and all such debent es shall be sealed with the Seal the Corporation signed by the yor and countersigned by the easurer thereof, or by such other rson or persons as may be there to lawfully authorized.

3. The said debentures shall be yable on the first day of July 1959, such place or places as the Coun of the said Corporation may from e to time appoint, with the ap val of the holders thereof, and ll have attached to them coupons the payment of interest at the e of five per centum per annum on amount thereof, which interest ll be payable half yearly on the st of January and the first day of y, in each and every year, and the d coupons shall be signed by the d Mayor.

4. A special rate on the dollar ll be levied and raised in each r, in addition to all other rates, all rateable property of the City, ficient to pay the interest on the bentures, and to create a sinking d for the payment of the principal reof when due, subject to any Act enactment respecting the same.

5. Subject as aforesaid, there shall raised annually by special rates aforesaid, during the currency of said debentures, the sum of Five usand Two Hundred ($5,200.00) llars for the payment of interest reon, and the sum of Nine Hun d and Twenty-two ($922.00) Dol s to provide for the repayment of principal.

6. The proceeds of the sale of the d debentures shall be applied as ows, and not otherwise: Towards ying the cost of the passing of s By-law and the issue and sale the debentures therein referred to.

7. This By-law shall take effect on 25th day of August 1909, and may cited as the "Street Improvement benture By-law, 1909."

8. This By-law before the final sing thereof, shall receive the as t of the electors of the said City the manner required by law.

Received the assent of the electors the.....day of.....1909.

Reconsidered and finally passed in n Council the.....day of..... 9.

City Clerk. Mayor.

Incinerator Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Twenty Thousand ($20,000.00) Dollars for the purpose of building an Incinerator.

Wheras, it is expedient for the improvement of sanitary conditions in the City that a public Incinerator should be built for the destruction of refuse at the cost of Twenty Thousand ($20,000.00) Dollars.

And Whereas, It appears that if the sum of Twenty Thousand ($20,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of One Thousand One Hundred and Seventy-seven and 30.100 ($1177.30) Dollars.

And, Whereas, in order to raise the said yearly sum of One Thousand One Hundred and Seventy-seven and 30-100 $1177.30) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand One Hundred ($1,219,100.00) dollars irrespective of the sum of Three Hundred and Seventy-Eight Thousand ($378,000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, bodies or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Twenty Thousand ($20,000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Twenty Thousand ($20,000.00) (Dollars for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of One Thousand ($1,000.00) Dollars for the payment of interest thereon and the sum of One Hundred and Seventy-Seven and 30-100 ($177.30) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Incinerator Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication there of in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p. m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the New Westminster Division of New Westminster District.

(a). The name, address and occupation of the applicant is the Vancouver Power Company, Limited, having its head office at the City of Vancouver, British Columbia, having capital of $2,500,000, divided into 2,500,000 shares of $1.00 each, all fully paid up.

(b) The name of the lake, stream or source (if unnamed, the description is an unnamed creek coming from the northeast emptying into Mislilloet river, North Arm Burrard Inlet (Indian River) at or about four miles from its mouth.

(c. The point of division is about five miles fom the junction of said creek with said river.

(d). The quantity of water applied for (in cubic feet per second), 150 cubic feet per second.

(e). The character of the proposed works is the diversion of said creek by means of dam, ditch, flume, natural waterways, tunnels and pipes, and the establishment in connection therewith of a water power plant for the generation of electricity for mechanical, industrial and commercial purposes and particularly in the operation of motors, machinery, electric lighing, tramways and other works for which such light, heat and power are suitable and available.

(f). The premises on which the water is to be used is to generate electric power, light and heat for traction, lighting, heating, manufacturing and all and every industrial or other purposes to which it may be applied.

(i.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return. The water is to be returned to the North Arm of Burrard Inlet at or near the place where the present power house of the applicant is situated. The difference of elevation between point of diversion and point of return is about 2200 feet.

(j). The area of Crown land intended to be occupied by the proposed works will not exceed 80 acres.

(k). This notice was posted on the 13th, 14th 16th 19th day of July, 1909, and application will be made to the Commissioner on the 20th day of August, 1909.

The part of the memorandum of asosciation of the company which authorizes the proposed application and works, reads as follows:

(3). The objects for which the company is established and to which objects the company are restricted are the acquisition of water and water power by records of unrecorded water or by the purchase of water records or water privileges for.

(a). Constructing, operating and maintaining electric works, power houses, generating plant and such other appliances and conveniences as are necesasry and proper for the generating of electricity or electric power, or any othe form of developed power, and for transmitting the same to be used by the company or by persons or companies contracting with the company therefor, as a motive power for the operating of motors, machinery, or electric lighting or other works, or to be supplied by the company to consumers for heating or as a motive power for propelling tramways, or for driving, hauling, lifting, pumping, lighting, crushing, smelting, drilling and milling or for any other operations to which it may be adapted or to be used or supplied for or in connection with any other purposes for which electricity or electric power may be applied or required.

(g). For rendering water and water power available for use, application and distribution by erecting dams, increasing the head of water in any existing body of water, or extending the area thereof, diverting the waters of any stream, pound or lake into any other channel or channels, laying or erecting any line or flume, pipe or wire constructing any raceway, reservoir, aqueduct, weir, wheel, building or other erection or work which may be required in connection with the improvement and use of the said water and water-power or by altering, renewing, extending, improving, repairing or maintaining any such works or any part thereof.

HEALING VIRTUE RESIDES IN LAKE

Wonderful Body of Water On Line of G.T.P. Cures Many Ills.

Winnipeg, Man., July 26.—With the construction of the Grand Trunk Pacific Railroad, which has opened for settlement a vast tract of hitherto unknown country, many secrets of Canada's Hinterland have been laid bare. Vast forests, rolling prairies, and rich mineral deposits known only to the Indians and voyages, have been tapped, showing the country to the North (for years considered worthless) to be rich beyond conception.

One of the most interesting of these discoveries is Lake Manitou, the waters of which have been used by the Indians for past centuries to cure all manner of ills. So effective have these waters proved that the Red Men travelled from all directions to benefit by them. They would not camp on the shores of the lake for tradition told them the Great Manitou spirit) took up his abode in these waters many, many moons ago and would "get them" if they would pass the night within a certain distance of the shore. To the waters being possessed by the Great Spirit, the Indians attributed the many miraculous cures of scrofula, eczema, tuberculosis, rheumatism, fever, and many other sicknesses.

The lake is denude of any living object and water fowl give it a wide berth. It has no inlet or outlet and always maintains an even level. This wonderful lake is situated at Watrous Saskatchewan, on the main line of the Grand Trunk Pacific Railway. It is from half a mile to three-quarters of a mile wide, and about 14 miles in length. The water is as clear as crystal and is deeply impregnated with rochelle salt and solution. In addition, there are eight other distinct curative chemicals or minerals found in these waters.

Primitive indeed were the Indian bath-houses, a shallow pit scooped out and willows bent over it and covered with several thicknesses of skins and blankets formed the bath-house, which was filled with water and stones heated to a white heat. The Indian then entered the primitive bath-house and sweated in the vapor produced. Two or three treatments cured the worst cases of rheumatism or skin disease, and when the Red Man was too ill to make the journey to the lake, his fellows carrieds the water to him, giving his treatments at home until he was sufficiently recovered to make the journey to the lake.

Today the merchants of Watrous have installed several modern baths in their stores at Watrous, and the white people are beginning to take advantage of the curative powers of the waters of Lake Manitou which were known to the Indians for so long.

Two companies have been incorporated within the last month, one at Watrous and one at Saskatoon for bottling the water and sending it out to sufferers, far and wide. A modern up-to-date santiorium is now under consideration by several capitalists and in a very short time Manitou lake will be known far and wide as the most remarkable and curative lake on the American continent, if not in the world.

CIVIL SERVANTS MUST NOW BE ECONOMICAL

Ottawa, July 26.—A government order has been issued to all departments notifying the heads of the various branches of the civil service that they will be expected to keep all expenditures this year within the appropriation voted by parliament last session. The order is sent out with a view to insuring a strict economy in the expenditures of public money this year, and with a view to the prevention, of the usual supplementary estimates, which have hitherto been found necessary each session to sanction expenditures not foreseen in the main estimates.

TORONTO GLOBE BUYS PICNIC GROUND FOR STAFF

Toronto, July 26.—A scoop of a novel character has just been pulled off by the Globe. The Globe Co. has bought a neat little park at Port Dover ofr thes ummer vacation accommodation of the members of its staff. The Simcoe Reformer, which reports the transaction, states that the park contains three acres, with eight neat cottages, substantially furnished. The bathing grounds are safe and clean and Port Dover has a supply of natural gas, if this be necessary. It is calculated that 40 families will be enabled to get a fortnight's outing during the season. The property comes into the hands of the Globe on September 1.

Tourist Steamer Explosion.

Cologne, Germany, July 26.—The boiler of the tourist steamer Gattenberg blew up yesterday near Rolandseck, a port on the Rhine. One stoker was killed and five members of the crew severely hurt. Several passengers were injured.

SALMON BELLIES ENJOY RESPITE

No Game For Two Weeks—Players May Make Short Visit to Harrison Springs.

The Salmon Bellies have now a two weeks' rest ahead of them, the next game with Vancouver being scheduled for August 7—and right welcome it will be to them. The men have really not had a chance to get any rest since the cup series with the Tecumsehs, and are all badly in need of a little relaxation. For the next few days the strict training regime under which the players have been living for several weeks past will be softened, and the men will take it easy before commencing to get into shape for the next game.

May Go to Springs.

It has been suggested that the team go up to Harrison Hot Springs to bathe their wounds in the healing waters there for a few days, and this suggestion is now being considered by the management. As an incident in the short respite from training Ald. Fader has invited the playing members and officers of the team to a banquet to be held in the Russell hotel this evening. Thomas Gifford, M. L. A., who has always taken a keen interest in the club, will also be present, and it is possible that Premier McBride, who is expected to return to town from upriver today, may attend.

Too Much Training.

At present the men are badly in need of a rest. In fact, it was largely owing to sheer weariness, due to overtraining, that the defeat of last Saturday is attributable. Several of the players are suffering from sprains, bruises and divers and sundry other injuries, and all feel the need of a short breathing spell. Among those who are on the sick list are Doughy Spring with a broken nose and a knee badly cut on the hard Vancouver ground; George Rennie with a sprained ankle, and Sandy Gray, who is still suffering from the effects of a blow over the heart. There will be no difficulty in getting all these men in shape for the next game.

Players Leave Hospital.

Bryson has now left the hospital, where he has been for the past two weeks, and has returned to his home. There is little hope, however, that he will play again this season. In fact, it is feared that he may be out of the game for good. His knee has stiffened, and it is not yet certain as to whether it will limber up sufficiently to enable him to take his old place again.

Bryson is another victim of the Vancouver lacrosse ground, the hard, gritty surface of which is more deadly to the local players than the checking of the Vancouver men.

Dad Turnbull, who kept Bryson company in the hospital, is now almost well again. His broken ribs have knitted in a satisfactory manner, adn it is expected that he will leave the hospital on Thursday of the present week. There is little likelihood that Dad will again appear on the field this year, however.

A meeting of the club will be held this evening to consider matters in general

BIG ENGLISH BANKS AGREE TO AMALGAMATE

London, July 24.—The directors of the London & Westminster Bank, Ltd., and the London & County Banking Co. Ltd., have agreed to amalgamate, subject to the consent of the shareholders. The two concerns have a combined capital of $110,000,000, and their deposits aggregate $340,000,000.

The amalgamation is regarded as one of the most important mercantile combinations ever recorded in London. The banks together cover some 106 branches in Greater London, while the London & County Banking Co. maintains nearly 200 branches in the provinces.

Sorenson-Farley.

The marriage of Carl Sigward Sorenson, of Seattle, to Mrs. Eva Farley, of the same place, was performed by the Rev. J. S. Henderson last evening at the residence of E. W. Peck, 233 Sixth street. Mrs. Farley was supported by Mrs. A. M. Peck, of Vancouver, and the bridegroom by E. Peck. Mr. and Mrs. Sorenson left later for their honeymoon in Victoria.

BUDGET LEAGUE ORGANIZES CAMPAIGN

Meetings in Support of Government to Be Held in England.

London, July 27.—The Budget league, formed to carry on the great national campaign in favor of Mr. Lloyd George's financial proposals, issued its first notice of arrangements yesterday. So far eighteen mass meetings have been arranged at various large towns in England and Scotland at these ten cabinet ministers will speak.

Many Meetings.

The places at which meetings are to be held extend from Aberdeen to Plymouth. The prime minister is to speak at Bletchley, the great railway centre, where a mass meeting for the county of Buckingham will be held. Sir Edward Grey will speak at Leeds on a date which is not yet fixed. The chancellor of the exchequer is going to Limehouse, where at the Edinburgh Castle he will be able to speak for himself and his budget.

Lord Crewe is booked for Glasgow, Mr. Haldane for Liverpool, Mr. Churchill for Edinburgh and Dorsetshire, Mr. Birrell for Blackburn, Mr. Sydney Buxton for York, Mr. Harcourt for Derby and Leigh division of Lancashire, and Mr. Herbert Samuel for Bedford.

Other members of the ministry are taking their share of the fight. No man knows more about land taxation than the lord advocate, and he is down for the meetings at Lincoln, Bury and Wirral. Col. Feely goes to Rochdale, Mr. Trevelyan to Lewesham, and Mr. F. D. Acland to Colne Valley.

Of course, this does not by any means exhaust the list. Every day new fixtures are being booked and fresh arrangements made. By the end of August the whole country will be covered by the missionaries of the budget league.

Reform Union's Help.

Mr. G. A. Symonds, the secretary of the National Reform Union, has kindly placed at the disposal of the league the highly developed organiza-

(Continued on Page Three).

SHERIFF OF HALTON DIES OF HEART FAILURE

Milton, July 27.—Matthew Clements, sheriff of Halton, died yesterday afternoon after an illness of several weeks, heart failure being the immediate cause of death. He was in his 83d year and was appointed by the Ontario government in 1882, on the resignation of the late Hon. George C. McKindsey.

SPANISH RIOTERS KILLED IN STREETS

Troops Clash With Citizens in Streets of Barcelona—Many People Are Killed and Wounded.

Barcelona, July 27.—Twelve persons were killed and fifty wounded this afternoon in a clash between the troops and the rioting strikers. The dead include a military captain, three gendarmes and eight rioters. The situation is critical and more bloodshed is expected before night.

Hundreds of strikers took possession of the streets today and the troops were ordered out a second time to disperse the mob. As in the earlier clash efforts to clear the streets without force were unavailing and the troops were ordered to fire on the strikers.

Several volleys were poured into the ranks of the strikers before they dispersed.

The commander of the troops has demanded that artillery be sent to aid him in keeping order, and declared today that he would suppress the rioters at any cost.

Since the failure of Saturday the G. N. R. officials have commenced another effort to raise the wrecked locomotive at the Fraser bridge, and two inch and a half cables are now in use. Sidney Transfer barge No. 2, and tugs, are engaged, and a hoist will be taken later in the week.

B. C. E. R. CO. USES TALL POLES FOR WIRES

Those Now Being Planted on Front Street Are One Hundred and Fifteen Feet High.

Work has been commenced upon the erection of the poles for carrying the power wires, for the new branch of the B. C. E. R. Co. to Chilliwack. Yesterday a gang of men was employed on Front street and two of the poles are already in place.

The poles on which the wires will be hung are considerably larger affairs than those ordinarily used for such surposes, being one hundred and fifteen feet in height—almost twice that of the ordinary telegraph and telephone poles. One hundred and twenty-five of these will be planted along Front street, from the office of the B. C. E. R. Co., to the bridge, where the wires will be transferred to a tower about two hundred feet in height. From here they will be stretched across the river, to a similar tower on the south bank. The wires are being hung at so great a height above the river in order to allow of the free passage of the loftiest sailing vessels underneath.

The high voltage wires which will carry the power to Chilliwack will occupy the tops of the poles on Front street. Below these will be a wire guard, so arranged as to catch the wires in the event of their breaking, while below this will be the trolley wires for the cars. It is probable that the telephone and electric light wires will also be transferred to the new poles, and the present ones removed.

G.T.P. INVITES TENDERS FOR ANOTHER SECTION

Winnipeg, July 27.—The G. T. P. is inviting tenders for another 135 miles of main line eastward from Prince Rupert. This will leave barely 450 miles of the main line in western Canada to be put under control, it is also officially announced today that trains will be running between Fort William and Chamberlain, Alberta, at the foot of the Rockies before the end of the year. This will be a distance of 1,438 miles of the main line connected with the lake ports, and some 100 miles of the Hudson's Bay line from Melville.

FIFTY PER CENT. OF STUDENTS PASS

Results of Entrance Examinations to High School Are Announced.

Total number of candidates	1017
Total passed	548

Of the children who went up for the entrance examinations to the High Schools throughout the province, a little more than fifty per cent. succeeded in getting the required number of marks. One thousand and seventeen students tried the examinations, and five hundred and forty-eight succeeded in passing.

The New Westminster students did slightly better than the average which obtained throughout the remainder of the province. Seventy-seven local students tried the examinations and forty-four were successful.

The girls did slightly better than the boys, twenty-two out of twenty-eight passing from the girls' Central School, while from the boys' Central the successful students numbered seventeen out of twenty-six.

Examination Centres.

Examinations were conducted at the following centres:

Armstrong—No. of candidates, 22; passed, 7.

Chilliwack—No. of candidates, 33; passed 17.

Cumberland—No. of candidates, 15; passed, 7.

Enderby—No. of candidates, 13; passed, 3.

(Continued on Page Two).

VERDICT RENDERED ON BRIDGE ACCIDENT

Jury Finds Points Misplaced By Agency at Switch—Coroner's Comments.

The hearing of the evidence in the inquest on the body of George A. Ziedwied, drowned in the Fraser river as a result of the accident on June 19, was completed yesterday, the fourth day of the inquiry, and the jury after an hour and a half's retirement returned a verdict as follows:

The Verdict.

"That the said George A. Ziedwied came to his death by drowning on June 19, 1909, at or about the hour of 3:10 o'clock in the afternoon while discharging his duties as engineer on the locomotive of the Great Northern Railway passenger train No. 274 from Seattle to Vancouver, when the said locomotive plunged into the Fraser river from the 'Y' at the northerly end of the Fraser river bridge at New Westminster, B. C.

"We find the accident by which the deceased met his death resulted from the following causes:

Two Causes of Accident.

"First, that the deceased ran his train to and across the said Fraser river bridge with the right-of-way fixed signals against him, and from the evidence given, having interpreted same signals apparently given by hand to proceed when no such proceed signal was given.

"Second, that the locomotive left the rails and plunged into the Fraser river on account of the points of the switch at the 'Y' at the northerly end of the bridge having been misplaced by some agency on the bridge at the switch, and not by the use of the proper switch levers in the tower."

Final Day's Evidence.

The government was again represented by W. E. Burns, and J. R. Grant, the Great Northern Railway by A. H. MacNeill, and the B. C. E. R. by L. G. McPhillips and A. E. Beck. Public Works Engineer F. C. Gamble attended.

The witnesses called were Edward Johnson, section foreman of the G. N. R., David McClennan in the B. C. E. R. employ Thomas Gifford, superintendent of the bridge, Gug Simpson, and Charles A. Dunham of St. Paul, chief signal engineer of the G. N. R., who gave expert testimony as to the working of signals, how trains should

(Continued on Page Eight).

RUN SLACKENS OFF.

Fishermen Got Only Poor Catches in River Yesterday.

After the small school which went up the river on Sunday night and Monday had passed beyond the fishing limits, the salmon run slackened off again, and yesterday, although nearly all the fishermen on the river put out, only a few fish were taken. There were none but a few stragglers in the river. Some of the boats put back again without any fish at all, while the majority of the fishermen only got two or three apiece.

The canners are not greatly worried over the slackening of the run yesterday. It is now known that the sockeye are swarming in the gulf, and it is practically certain that these fish are on their way to the river. It is not, however, expected that they will arrive in the river until the end of the week.

TURKEY STILL IN BELLINGERENT MOOD

Thirty Trains Are Held in Readiness For Use of War Department—Ready For Hostilities.

Constantinople, July 27.—In spite of the pacific assurances given by Turkey, it is learned from a trustworthy authority that the Turkish government has called upon various railway companies to hold thirty trains at its disposition. The companies replied that they can dispose of only fifteen trains a day, but the government insists upon the total number being furnished.

The miniser of finance has in addition paid over to the minister of war a sum necessary for the immediate purchase of 9,000 horses. The reports indicate a bellicose disposition on the part of Turkey. The Journal Tanine, the organ of the Young Turk committee, has published an article threatening Greece and calling for the immediate recall of the Greek afficers in Crete or an official declaration that they have no mandate from the Greek government. Otherwise their presence is to be regarded as a casus belli.

The Italian ambassador has advised Hilmi Pacha to strike out of the Turkish note the demand that a Turkish guardship be stationed in Cretan waters, for the powers have decided categorically to refuse the grant.

NATIVE SONS END GRAND POST SESSION

Will Assemble Here Next Year—Honor For J. Stilwell Clute, Jr.

The annual meeting of the Grand Post of the Native Sons of British Columbia was opened on Monday morning in the city of Nanaimo, the meeting being held in the Old Bastion building, the following delegates in attendance No. 1, Victoria, E. E. Wootton, G. F. Fox, A. E. Haynes and T. Watson; No. 2, Vancouver, W. S. Dalby, Sol. Oppenheimer and Mr. Edmunds; No. 3, Nanaimo, F. J. Stannard, A. J. Randle, J. McGill; No. 4, New Westminster, J. S. Clute, A. W. Gray and J. J. Johnston.

Congratulate Premier.

F. J. Stannard, Grand Factor of Nanaimo, occupied the chair. Delegates from Vancouver and New Westminster were introduced to the Grand Post, and instructed in the mysteries of that degree. Before any business was taken up the following telegram to the Hon. Richard McBride, premier of B. C., who is a Native Son, was forwarded:

"Grand Post Native Sons in annual meeting assembled extends fraternal greeting to you as an eminent and worthy Native Son."

The reports of the several different posts in the province were then read by the several Deputy Grand Factors, each post showing that progress had been made and much interest manifested in their work. The membership of the several posts of the province were as follows: Victoria, No. 1, 214; Vancouver, No. 2, 33; Nanaimo, No. 3, 30; New Westminster, No. 4, 83; making a total of 360.

Election of Officers.

The election of officers then took place resulting as follows: Grand factor, Sol. Oppenheimer, Vancouver; deputy grand factor, J. Stilwell Clute, jr., New Westminster; grand secretary, A. E. Haynes, Victoria; grand treasurer, J. P. R. McGill, Nanaimo; The above officers were then duly installed by the past grand factor, Thomas Fox of Victoria.

As a recognition of the faithful services most acceptably rendered during his many years in office, the grand secretary, A. E. Haynes, of Victoria, was made a past grand factor. The grand factor then appointed A. E. Wootten of Victoria Post No. 1, Dr. W. S. Dalby of Vancouver Post No. 2, A. J. Randle of Nanaimo Post No. 3, and A. W. Gray of New Westminster Post No. 4, as deputy grand factors of their respective districts.

To Meet Here.

An invitation was extended by the New Westminster delegates to hold the next Grand Post meeting in this city. The invitation was accepted unanimously with applause. Votes of thanks were passed to the retiring officers, and to the members of Nanaimo Post No. 3 for the courtesies extended to the officers and delegates during their stay in Nanaimo.

The meeting adjourned to meet on the third Monday of July at 10 a.m. in this city.

In the afternoon the visiting members were the guests of the local post on a launch ride, which occupied several hours. In the evening the regular meeting of the post was held at which a large number were present, the evening being pleasantly spent about the banqueting board.

BRINGS ACTION AGAINST MOVING PICTURE MEN

Wireless Operators of Wrecked Str. Republic Says He is Belittled By Cineomatograph.

New York, July 27.—Jack Binns, the hero of the wreck of the Republic, whose wireless "C. D. Q." saved hundreds of passengers, has brought a suit for $25,000 damages against the Vitagraph Company of America. In additon to the damage demanded Binns asks that the company be restrained permanently from exhibiting moving pictures purporting to be likenesses of himself on "Saved by Wireless" films. Justice Bishop has granted him an injunction calling upon the defendant to appear in court next Monday to argue upon the merits of the application.

Binns states in his complaint that he was the first wireless telegraph operator who succeeded in calling aid to a sinking ship at sea. As a result of this feat he says he gained notoriety and received many offers from theatrical managers to exhibit himself on the stage. He has refrained from doing so, he adds, "because having gained fame and a good reputation in noble adventure, I do not desire to belittle myself in that manner."

Binns alleges that the moving pictures are a misrepresentation of the actual scene of the wreck and they make him ridiculous.

CHIEF MACINTOSH RESENTS IMPLICATION

Says He Will Arrest Lacrosse Players on First Appearance of Intentional Injury.

The sporting editor of the News-Advertiser has broken out in a new place. This time it is the matter of police protection. From certain remarks printed in the sporting column of the Vancouver journal of yesterday it would appear that the said sporting editor would like to see each of the Vancouver players accompanied on the field by a Vancouver bluecoat.

This is what he says:

"Chief Macintosh of New Westminster witnessed the match on Saturday and stood within twenty yards of the spot where Bones Allen was knocked cold, yet he failed to even reprimand the offender. Just so long as the authorities permit players to indulge in dirty tactics they will do so and in resorting to rough playing the members of the contesting teams are knocking their own game."

Questioned in regard to the statement of the Vancouver paper yesterday Chief Macintosh pointed out that it was rather unreasonable to blame him for not seeing a thing that the representative of the News-Advertiser himself in his writeup of the game practically admitted that he had not seen.

"I was standing close to the press stand at the time when Allen was injured," said the chief, "and was unable to see who it was cut him. Had I seen who did it, and felt sure that it was intentional, I should certainly have run in the player who hit him. On the other hand, had I felt sure that it was accidental I should not have felt called upon to take action. Not having seen the affair at all—in common, I believe, with the representative of the News-Advertiser, however, I felt that I could do nothing."

"In regard to warning the players," continued the chief, "I may say that for the last two years I have spoken to the players, before a large number of the games. I have always said, and say now, that as soon as I see any intentional roughness—anything that might be termed an assault, I shall take quick action."

In the meantime lacrosse fans in this city would like to know the name of the "exchange" from which the sporting editor of the Vancouver paper clipped the extract which he makes the text of his little homily.

SCOTTISH SETTLERS LIKE THE VALLEY

Show Satisfaction By Letters to Their Homes in Old Land.

R. W. Hunter, of Liberton, Edinburgh, Scotland, who has been in correspondence with the secretary of the board of trade with reference to taking up land in the district, in the course of a letter says: "Several letters come from people that I know that are in your district, and they all speak highly of New Westminster and its district."

This tribute to the growing popularity of the Westminster district from a distance of 6000 miles speaks of the advantages of publicity work, and the best of all praises from the people who live here.

The office of the agent-general for British Columbia (Hon. J. H. Turner) in London has applied to the secretary for further supplies of the pamphlets published by the board, for which there has been an increasing demand in Great Britain.

The body of Oscar Wilde was removed from the Bagneux cemetery and finally interred with religious rites in the Pere la Chaise cemetery, Paris.

The population of Montreal city proper, according to the new Lovell's directory, is 389,837, an increase of 16,837. With unannexed suburbs and outskirts, the population of Greater Montreal is 476,334.

BURNABY MYSTERY TAKES NEW PHASE

Friends Think Body of Woman May Be That of Marion McLean.

Provincial Constable Wilkie has been receiving inquiries with reference to the body of the woman found at East Burnaby on May 11, ever since that date, but further investigation has failed to connect the missing ones with the corpse. However, the accompanying cutting from the Paisley (Ont.) Advocate may help the elucidation of the mystery:

A Missing Woman.

"Marion McLean, daughter of Mrs. Donald McLean, Greenock, has been missing for some time, and the family believe that it was her body which was found a couple of months ago in a cedar swamp near New Westminster, B. C. The missing woman was about 35 years of age. She left here several years ago to go to keep house for her father, who was then living in Michigan. The father later came home, but after remaining with the family for a while went to British Columbia, and Marion went to him there from Douglas, Arizona, where she had been living in the meantime. Some time ago Mrs. McLean ceased to hear from her daughter, and no explanation could be found for her silence. A despatch appeared in the Globe stating that the remains of a woman had been discovered, and although no particulars were therein given, Mrs. McLean felt that this might be her daughter, and inquiries were instituted at first through neighbors who had friends near Sapperton, B. C.

Disappears From Home.

"No information was obtained in this way, however, except that she had disappeared from her father's home, and a sister at Lake Linden, Mich., was no more successful in her quiries. Recently Mr. Thos. Fullerton lent his assistance. He wrote to the Attorney-General of British Columbia, and in reply received a copy of the evidence taken at the in-

(Continued on Page Five).

Great Y. M. C. A. Building.

London, July 27.—Ground was broken Wednesday for the $750,000 Central Young Men's Christian Association building, which is to be erected in Tottenham Court Road, as a memorial to the association's founder, Sir Geo. Williams, by the 8,000 associations scattered throughout the world. Lord Kinnaird turned the first sod, and repesentatives of twenty nations, followed him in the use of the spade.

EASTERN SITUATION BECOMES COMPLEX

New Appointment to U. S. Consulate in China Causes Flurry in Diplomatic Circles.

Pekin, July 27.—The appointment by President Taft of Charles R. Crane of Chicago, a man unknown to the eastern world or in diplomatic circles, to be Minister to China, is recognized in Pekin official circles as the breakng of new ground, as well as the most striking action with reference to American representatives in China for the last fifty years.

High Chinese officials declare that Japan is China's greatest enemys. Concurrent with the change in Japan's continental policy, that nation, in the opinion of Chinese statesmen, having turned aside from her peace promises of 1905 to the consideration of postbellum interests and her position in Manchuria, Great Britain has unofficially warned China that the Anglo-Japanese alliance was never more strong than it is at present, and has urged that China devise amicable relations with Japan.

China more than ever recognizes America's neutral influence, and the personnel of the government is keenly interested in the arrival of the representative of a new policy, the political importance of which Pekin officials are closely scrutinizing.

Turkish Women Must Still Wear Their Veils

London, July 27.—After the proclamation of the Constitution in Turkey the Ottoman women, as mentioned at the time in this correspondence, at once took a mighty stride toward emancipation. Believing that the grant meant for them a new era of liberty and equality, they commenced to walk freely about the streets, discarded their yashmaks and founded women's clubs. They reckoned without their host, the chief of the Constantinople police, who has been unchivalrous enough to issue the following public proclamation: "By a notice inserted in all the newspapers we have recommended all Mussulman women not to walk in public unveiled. We learn, however, that certain Mussulman women do not respect this order and continue to appear without veils in public places, the principal streets of Pera, and the bazaars. Consequently we again give notice that we have given instructions to all police officers to stop all Mossulman women who do not follow the obligation of walking in public veiled."

English Firm Hopelessly Outbid By Americans

Melbourne, Australia, July 27.—Official papers issued explaining the accepting by the committee of the government the tender of Pratt and Whitney, of New York, for the erecting of a small arms factory in Australia for the govenment show that the British firms which bid were hopelessly outclassed both with regard to price and time. One English bid was $500,000 as against $340,000 bid by the Americans, and required three yeas to build as compared with the American firm's one year. The Americans allege that the British rifle factories are 20 years behind the modern continental arsenals.

Questioned in parliament with regard to the contract, Minister of Defence Cook said he willingly would have made sacrifices to give the work to a British firm but he was obliged to accept the American's bid, as its conditions all round were so much better.

Classified Advertisements

WANTED. FOR SALE. TO RENT. LOST. FOUND. REAL ESTATE. PROFESSIONAL. BUSINESS. FRATERNAL, ETC.

If a man had gold dollars to sell a fifty cents and did not let the people know anything about it, he would not sell any. You must tell the people what you have to sell, why they should purchase from you, and something of the value you offer them in return for their money. Too many of us have got the habit of thinking that because we have been a long time in business everyone must of n cessity know all about us and our wares. Use the advertising columns of The Daily News and keep abreast of the times.

TENDERS.

Sealed tenders will be received by the undersigned up to noon on the second day of August for the purchase of a quantity of timber on the Indian Reserve at Campbell River. This timber consisting of one million feet more or less, has been felled and cut into lengths ready to haul. A few trees in the block are still standing.

The tenders will state the price per thousand feet board measure according to the official scale of British Columbia, which will be paid in cash for the timber as it is at present on the ground. The timber must be removed before the thirty-first day of March, 1910.

The lowest or any tender not necessarily accepted.

By authority of the Department of Indian Affairs.

W. M. HALLIDAY,
Indian Agent,
Alert Bay, B. C.

GERMANY STRIVES FOR CANADIAN TRADE

Special Correspondent of Great Daily of Fatherland to Visit Here in August.

London, July 27.—A Berlin despatch states that Germany is striving with might and main to secure a firmer commercial foothold in Canada. The efforts of the German government are being backed up with the greatest enthusiasm by merchants and commercial magnates, and scarcely a day passes without the attention of traders and exporters being drawn, through the press, to Canada as a field for German enterprise. The Berliner Lokal Anzeiger will despatch in August its naval correspondent, Capt. Vonpustau, to the Dominion to make an exhaustive tour and write a series of articles. Vonpustau will also endeavor to interview Canadian statesmen in order to bring to their notice the recently formed German-Canadian Economical League, and will sound them as to the prospects of a better commercial understanding in the near future.

ST. CHARLES EVAPORATED CREAM

The best food for baby. Best, because you can always depend upon it. St. Charles Cream is never anything but pure, unsweetened, sterilized cream. It is made only under the most cleanly conditions, on scientific principles.

In our 20 oz. size, we offer a can considerably larger than the ordinary Family size, and which is full strength, no thin, watery preparation of weak quality.

It never curdles, even in the hottest weather—costs less than milk or cream, and all that is needed to fit it for immediate use is pure water.

Oakland street between First and Second streets.
Elgin street, between First and Second streets.
Second street between Third and Sixth avenues.
Fifth avenue between Second and Third streets.
Brandon street.
Regina street between Second and Fourth streets.
Sixth avenue between Second and Third streets.
Third street, between Regina street and Fifth avenue.
Fourth street between Brandon street and Sixth avenue.

And that the said works shall be carried out in accordance with the provisions of the Local Improvement General bylaw 1909.

And the City Engineer and the City Assessor having reported to the Council in accordance with the provisions of the said bylaw upon the said works giving statements showing the amounts estimated to be chargeable against the various portions of real property to be benefited by the said works and other particulars and the said reports of the said City Engineer and City Assessor having been adopted by the Council,

Notice is hereby given that the said reports are open for inspection at the office of the City Assessor, City Hall, Columbia street, New Westminster, B. C., and that unless a petition against the proposed works above mentioned signed by a majority of the owners of the land or real property to be assessed or charged in respect of such works representing at least one-half in value thereof is presented to the Council within fifteen days from the date of the first publication of this notice the Council will proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvements as the Council may by bylaw in that behalf regulate and determine and also to make the said assessment.

Dated this 17th day of July, A. D., 1909.

W. A. DUNCAN,
City Clerk.

SASKATCHEWAN WILL HAVE GREAT WHEAT CROP

Government Report Shows Two and One-Half Million Acres Set Out in Grain.

Moosejaw, July 26.—The crop bulletin issued by the government of Saskatchewan at Regina for June contains much interesting matter.

The province is divided into nine districts, three of which comprise south of the Qu'Appelle valley and South Saskatchewan river. These three districts, by the report, are more important than the remaining six, comprising all north, as follows:

Crop acreage in districts 1, 2, and 3—Wheat, 2,245,749; oats, 993,144; barley, 85,016; flax, 222,985; total, 3,546,894. Crop acreage in districts 4, 5, 6, 7, 8 and 9—Wheat, 1,666,748; oats, 1,199,272; barley, 150,447; flax, 55,850; total, 3,072,317.

With the present crop outlook the south will have 10,000,000 bushels of wheat and 2,500,000 bushels of flax more to export than the north. At present prices this balance means at least $12,500,000.

Three great railway systems will carry out the produce of the north, 1,666,748 acres of wheat and 55,850 acres of flax; one system the C. P. R. will have to carry out the product of the south, 2,245,749 acres of wheat and 222,985 acres of flax.

The G. T. P. branch lines company is building from Melville to Regina, and the C. N. R. from Maryfield toward Estevan.

Budget League Organizes Campaign

(Continued from Page One.)

tion of that body, and all its branches throughout the country will arrange meetings to be addressed by speakers from the league.

At every meeting, whether it be a great mass meeting in a populous town, addressed by a cabinet minister, or a score of peasants assembled on a village green, the same resolution will be proposed, approving of the principles of the budget. By this means something approaching a really national expression of opinion will be obtained.

Other important meetings will be held in the near future at Plymouth, Norwich, Dundee, Aberdeen and Wolverhampton, London and its suburbs are also to be covered by a series of meetings.

Everybody wants meetings, and everybody is quite certain that the only speaker to "go down" is either the prime minister, Sir Edward Grey, Mr. Lloyd George, or Mr. Churchill and, failing these, at least a cabinet minister. As each minister has the onerous work of his own department to attend to it is rather difficult to gratify their wishes.

CLERGY MUST NOT ATTEND PICTURE SHOWS

Rome, July 26.—The pope has issued a decree forbidding the clergy to attend bioscope exhibitions of any kind on the ground that many such exhibitions offend religion and morality. It seems that the clergy, who loyally obey the well known prohibition against attending theatres, patronize the cinematograph shows quite freely.

INDIAN AGITATORS THREATEN BOYCOTT

Hindus May Combat British Supremacy By Refusing to Purchase English Goods.

London, July 27.—Big British business interests are in a panic today over the threatened boycott of English goods in India, even more than they are over the anti-British demonstration planned throughout the country August 7.

If the boycott could be made permanently effective England might still be able to hold India, but it is doubtful if it would be worth holding. The country has wonderful resources of its own, and enterprising German, French and Chinese firms are keen to break the English monopoly of trade there.

Native professors of the leading Indian colleges are publicly advocating the anti-British movement and are urging the people to join the boycott. Ajit Eingh, deported at the same time as the famous disturber, Lala Lajpat Rai, and subsequently allowed to return, and Arabinde Chezo, another widely known anti-English agitator, are going through the country preaching passive but stubborn resistence to British authority.

Sedition continues to spread. While the Indian office in London was at first disinclined to take the situation seriously, the veiled threat by Sir Norman Baker, who recently told the Bengal council that, if the Indians did not co-operate with government, there would still be a solution, but neither a peaceful nor a painless one, has shown the government officials that Englishmen on the ground do not regard it lightly.

Royal Standard

AND WHY IT IS A BETTER FLOUR.

We use selected wheat from the best wheat producing regions of the Canadian West, where the sunshine is long, where the soil is rich, giving to the wheat that quality of gluten which makes the very finest flour. This is factor No. 1.

Scientific milling which follows the wheat step by step, selecting only the best and purest portions of the wheat grain and making it into the most perfect flour. This is factor No. 2.

Care exercised in storage and marketing so that there is no possibility of deterioration from the time the flour leaves our hands until it reaches you. This is factor No. 3.

Now isn't there a reason why you should ask for Royal Standard Flour? And besides, in every 49-lb. sack there is a numbered coupon entitling you to a chance to win one of ten beautiful dinner sets given away each month.

CONTINENTAL ROBBERS USE DOGS IN BUSINESS

London, July 27.—Police dogs have proved so successful on the Continent in tracking criminals or overpowering them when caught in some nefarious act that the thieving fraternity are now retaliating by training dogs to attack their victims, and especially policemen. At Toulouse, France, a band of burglars has been caught who made it their business to train powerful mastiffs that way. A landowner near Toulouse was found the other day lying dead near his home with his throat bitten through. Clutched in his hands, which were stained with animal blood, were tufts of hair, which was pronounced to be that of a dog. The house had apparently been ransacked after its master had been killed, but the neighbors had heard no suspicious noises. The police were at once put on the track and one gendarme has since unaccountably disappeared. As these criminals' dogs are especially trained to attack policemen, it is feared that he also has fallen a victim to some sudden and ferocious attack.

Police Warn Women.

Hanover, Germany, July 26.—The president of the police has issued a decree warning women against the dangers of wearing long hatpins. He points out that several deplorable accidents have occurred recently from this cause, and he announces that if in the future an accident occurs to another through a woman's hatpin, she will be liable to arrest and prosecuted for assault.

Dr. Price's Cream Baking Powder

A pure grape cream of tartar powder. Its fame is world-wide. No alum, no phosphatic acid.

There is never a question as to the absolute purity and healthfulness of the food it raises.

MORE ABOUT THE G. T. P.

When considering what the completion of this road means to Canada any argument directed at the cost appears ridiculous and un-Canadian. What does it mean to Canada?

It will double the industrial and productive area of the country, and roll up the map of Canada 300 miles to the northward.

It will provide competition in rates for the farmers of the West and the manufacturers of the East.

It will be the only all-British railway across the continent under one management.

It will develop vast coal fields in the Saskatchewan, Athabasca and the Peace river for the supply of fuel to the prairies.

It will give to the most northwesterly part of the prairie region, which is furthest from the Atlantic, a short outlet to the Pacific.

It will connect the railway system of Canada with 2,000 miles of steamboat navigation on the Athabasca, Peace, Liard and Mackenzie rivers, their great lakes, and the Arctic Ocean.

It will develop mining and lumbering in northern British Columbia, and provide facilities for profitable interchange of mutual necessities between the prairies and the mountain regions of the far west.

It ensures a third railway outlet from and through the great wheat fields of the West to the lakes.

It will develop a thousand miles of Northern Ontario and Quebec at present unknown and inaccessible.

It induces the investment of $150,000,000 of British capital in Canada, and correspondingly interests the British investing public in Canadian affairs.

It provides for the co-operation of the Grand Trunk Company, thus ensuring business from the start, and secures the Government from payment on its guarantee.

It places all points in Eastern Canada in direct connection with the West without extra cost.

It transfers the through traffic interests of the Grand Trunk from the United States to Canada.

It povides shipping facilities for the thousands of farmers who were compelled to locate land outside the land grant of the Canadian Pacific Railway.

The country pays for seven years the interest only on cost of construction of the eastern division of the railway from Moncton to Winnipeg, amounting to $26,859,676.

That the total cost of that portion of the road will be about $124,400,000 and not $250,000,000.

That the charges made by Mayor Hodgins were withdrawn by him before the committee appointed to investigate them.

That the reason the Moncton to Winnipeg section of the road is costing more than the original estimate, is on account of the character of the road, being far superior to what was contemplated, and the increased cost of labor and supplies.

That the western division will earn money from the start, and therefore the Government will never be called upon to pay a dollar of guarantee on the bonds.

The Government acted wisely in building the most up-to-date railway that was possible. The fact that the science of railway building is advancing, and that the Government is taking advantage of the latest scientific adjuncts and incorporating them in the road. The fact that wages are higher under the present Government than ever before in the history of the country. The fact that railway material costs more money than formerly, are all evidences of the country's prosperity, and the increased cost of the road should not be attributed to extravagance but to the legitimate reasons given here.

The expensive portions of the Canadian Pacific have been rebuilt since the road was declared completed thirty years ago. Mile for mile there is very little doubt but the Canadian Pacific has cost the same as the Grand Trunk Pacific is costing, if the figures could be secured. The people of Canada demand the best road that money will buy, and they are getting it. The petty fault-finding of the Conservative press in regard to cost will meet with no sympathy from the people. It has not been even alleged that on dollar has been improperly paid out. The Auditor-General attends to that, and the entire system has been offered at public competition, and every contractor in the Dominion had an equal chance to bid for the work.

In a few years from now, when there comes a demand for yet another transcontinental system, the people will wonder how business was transacted before the Grand Trunk Pacific was built. Sir Wilfrid Laurier was authorized to complete his work, and he will not be turned aside by the ravings of a hostile and prejudiced press.

THE ROSS RIFLE.

The annual rifle matches at Bisley, extending over a fortnight, are to the riflemen of the whole British Empire what the Olympic games were to the athletes of all ancient Greece. In this year's matches at Bisley, now drawing to a close, the riflemen from Canada, using the national arm of Canada, the Ross rifle, have been drawing worldwide attention to their superior marksmanship and the superiority of the Ross rifle as a weapon of precision. When the distribution of prizes takes place tomorrow the Canadians will be heavily laden with the trophies of their prowess.

The shots fired by the Canadians at Bisley with their Ross rifles last week and this, are "shots heard round the world." They have made the world sit up and take notice that Canadian riflemen can shoot straight, and that Canada has provided its militia with a Canadian-made rifle which has proved itself to be the best all-round light military weapon in the world. This is a notable advertisement of Canada and the Canadians.

The whole Canadian people are justly proud of the triumphant manner in which the representatives of the riflemen of the Dominion have acquitted themselves and demonstrated their superiority as marksmen and the superiority of the rifle which is the distinctive arm of Canada's military force. This is not the first that the people of Canada have heard of the Ross rifle. Not by any manner of means. The Ross rifle enjoys not only the distinction that it has won at Bisley, but also the distinction of having been one of the leading "issues" of the Dominion opposition in that great and loud-resounding political campaign which ended in the Waterloo of October 26 last.

The opposition orators in parliament and on the stump from end to end of the Dominion declaimed loudly against the Ross rifle as "inferior to the Lee-Enfield," "dangerous," "only fit to be placed on the scrap heap," and so forth and so on. Opposition newspapers used their largest type and their most virulently colored ink in maligning the Ross rifle. The same unmeasured violence was resorted to in regard to the Ross rifle "issue" as in regard to the other issues of the great slander campaign, until the man on the opposition side in Parliament best entitled to speak with knowledge about rifles and rifle shooting, Col. Sam Hughes, spoke out manfully the truth in defence of the Ross rifle.

Forthwith the scandal-howlers of his own party turned their howls against him, as having been "bought." That stirred Col. Hughes' just indignation and he delivered a speech in which he said: "I am not under any obligation to the Prime Minister, the Minister of Militia, or the whole Liberal party. I have treated them as gentlemen, but when they have gone astray I have not hesitated to let them feel the weight—whatever it might be, heavy or light—of my indignation. I have been a loyal follower, so far as I could be, of the leader of the Opposition; and so long as the Conservative party takes a straight line I will follow it. But, as I have said, I owe no allegiance to any man that affects my allegiance to my own conscience. So when the Conservative party departs from the course of right, as they have done in this case, as they did on the Yukon question, and as they did on the Manitoba school question, I will not follow it."

The slander campaign continued to rage with unabated violence. Everything connected with the Ross rifle, from the establishment of the Ross factory by the inventor of the rifle, Sir Charles Ross, of Scotland, with Government aid, to the character of the weapon itself and of Col. Hughes and other experts who recommended it, was attacked with a virulence and a disregard of truth that led some to think that there must be something wrong with the whole business. But the whole truth is now before the country, in regard to the manufacture of the rifle, its cost, and its merits as a weapon. Of all the exploded "issues" of the great scandal campaign, none has had a "blow back" more damaging to the scandal campaigners than the Ross rifle "issue."—Winnipeg Free Press.

WHITBY BIGAMIST GETS SENTENCE OF FOUR YEARS

Whitby, July 27.—H. B. Willing, found guilty of bigamy in marrying Gertrude Lomax, a former sweetheart whom he lured from England when he already had a wife and family here, was sentenced to four years in Kingston penitentiary.

The steamer Princess Ena passed up the river yesterday evening, berthing at the Brunette Saw Mills wharf, where she took on a consignment of lumber.

LATHAM AGAIN FAILS TO CROSS ENGLISH CHANNEL

Calais, France, July 27.—Hubert Latham's ill luck pursued him today when he made a second attempt to cross the English channel in his aeroplane, and once more was hurled into the water far from shore.

After repairing his machine, which met with a minor accident this morning, Latham started to cross the channel at 6 o'clock this evening. He was within two miles of the Dover shore when his machine plunged into the waves

Latham had a similiar experience several days ago when he made his first attempt to cross the channel. At that time he made only eight miles in his machine before the machinery broke and the flight ended in failure.

Burnaby Mystery Takes New Phase

(Continued from Page One.)

quest held when the body was found. It is the description of the dead woman's body and clothing that leads the family to believe that they have solved the mystery of Marion's silence. The body was discovered on May 11 by a man who was searching in a swamp for cedar stakes. The body was in an advanced state of decomposition, and the indications were that it had lain there for months.

Inquiries Continued.

"A bottle that had contained carbolic acid was found near the remains, and a fire had been made to burn up some articles of clothing. The metal parts of a purse and other small articles were found in the ashes. Further inquiries are being made through Mr. D. Forrester, barrister. Mr. McLean could not be communicated with since the finding, as he left there shortly before that time, and his address is not yet known. He had been farming near Sapperton, and his home was on the farm."

The Mr. McLean who is referred to above is stated to be residing in Coquitlam municipality.

ABOUT APPLE LAND

The NEW TOWNSITE AND FRUIT DISTRICT along the line of the B. C. Electric Chilliwack Line and V. V. and E. Cloverdale to Sumas Railway.

Advertising Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Four Thousand ($4000.00) Dollars for the purpose of advertising the City.

Whereas, it is expedient to expend the sum of Four Thousand ($4000.00) Dollars in advertising the City and that the said sum should be raised on the credit of the Corporation.

And Whereas, It appears that if the sum of Four Thousand ($4000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars.

And, Whereas, in order to raise the said yearly sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-four Thousand ($394,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Two Hundred ($200.00) Dollars for the payment of interest thereon, and the sum of Thirty-Five and 46-100 ($35.46) Dollars to provide for the repayment of the principal

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Advertising By-law 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p. m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

City Gaol Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Six Thousand ($6000.00) Dollars for the purpose of building a City Gaol and Police Court Room.

Whereas, it is expedient to erect a building to be used as a City Gaol and Police Court Room, and to use that portion of the Civic Building, now used for those purposes, for other purposes and to expend in the erection of the said building the sum of Six Thousand ($6000.00) Dollars, and that the said sum should be raised on the credit of the Corporation.

And Whereas, it appears that if the sum of Six Thousand ($600.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars.

And, Whereas, in order to raise the said yearly sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-Two Thousand ($392,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Three Hundred ($300.00) Dollars for the payment of interest thereon and the sum of Fifty-Three and 19-100 ($53.19) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "City Jail Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p. m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

Waterworks Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars for the purpose of increasing the capacity of the City Waterworks System.

Whereas, it is expedient to construct an additional Main Pipe Line for the City Waterworks System from Coquitlam Lake to the Queen's Park Reservoir, and also from the Reservoir to the City limits on Lulu Island, and for that purpose to expend the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars.

And Whereas, It appears that if the sum of Two Hundred and Thirty-Four Thousand ($234.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Thirteen Thousand, Seven Hundred and Seventy-Four and 52-100 ($13,774.52) Dollars.

And, Whereas, in order to raise the said yearly sum of Thirteen Thousand Seven Hundred and Seventy-Four and 52-100 ($13,774.52) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of One Hundred and Sixty-Four Thousand ($164,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Two Hundred and Thirty-Four Thousand ($234,000) Dollars, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Two Hundred and Thirty-Four Thousand ($234,000) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Eleven Thousand Seven Hundred ($11,700) Dollars for the payment of interest thereon, and the sum of Two Thousand and Seventy-Four and 52-100 ($2074.52) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Waterworks Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p. m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

Hospital Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Thirty Thousand ($30,000.00) Dollars for the purpose of granting the same to the Royal Columbian Hospital.

Whereas, it is expedient to grant the sum of Thirty Thousand ($30.-000.00) Dollars for the purpose of assisting in the erection of a new building for the Royal Columbian Hospital in this City.

And Whereas, It appears that if the sum of Thirty Thousand ($30,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars.

And, Whereas, in order to raise the said yearly sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Sixty-Eight Thousand ($368,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Fifteen Hundred ($1500.00) Dollars for the payment of interest thereon and the sum of Two Hundred and Sixty-Five and 96-100 ($265.96) Dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Hospital Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

Tenth Street, - New Westminster

Street Improvement Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Four Thousand ($104,000.00) Dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the City for the construction, improvement and repair of certain streets and sidewalks, and it is expedient that certain additional sums be spent in like manner, amounting in all (with sums already so spent) to the sum of One Hundred and Four Thousand ($104,000.00) Dollars.

And Whereas, It appears that if the sum of One Hundred and Four Thousand ($104,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars.

And, Whereas, in order to raise the said yearly sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Two Hundred and Ninety-Four Thousand ($294,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Four Thousand

$104,000,000) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of One Hundred and Four Thousand ($104,000.00) Dollars for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds, sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of One Thousand ($1,000.00) Dollars for the payment of interest thereon and the sum of One Hundred and Seventy-Seven and 30-100 ($177.30) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Incinerator Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of.....1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the New Westminster

sum of Twenty Thousand ($20,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of One Thousand One Hundred and Seventy-seven and 30.100 ($1177.30) Dollars.

And, Whereas, in order to raise the said yearly sum of One Thousand One Hundred and Seventy-seven and 30-100 $1177.30) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.-00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand One Hundred ($1,219,100.00) dollars irrespective of the sum of Three Hundred and Seventy-Eight Thousand ($378,000.-00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Twenty Thousand ($20,000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Twenty Thousand ($20,000.00) Dollars for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of One Thousand ($1,000.00) Dollars for the payment of interest thereon and the sum of One Hundred and Seventy-Seven and 30-100 ($177.30) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Incinerator Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of.....1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street,

W. A. DUNCAN,
City Clerk.

Incinerator Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Twenty Thousand ($20,000.00) Dollars for the purpose of building an Incinerator.

Wheras, it is expedient for the improvement of sanitary conditions in the City that a public Incinerator should be built for the destruction of refuse at the cost of Twenty Thousand ($20,000.00) Dollars.

And Whereas, It appears that if the

Division of New Westminster District.

(a). The name, address and occupation of the applicant is the Vancouver Power Company, Limited, having its head office at the City of Vancouver, British Columbia, having capital of $2,500,000, divided into 2,500,000 shares of $1.00 each, all fully paid up.

(b) The name of the lake, stream or source (if unnamed, the description is an unnamed creek coming from the northeast emptying into Misilloet river, North Arm Burrard Inlet (Indian River) at or about four miles from its mouth.

(c. The point of division is about five miles fom the junction of said creek with said river.

(d). The quantity of water applied for (in cubic feet per second), 150 cubic feet per second.

(e). The character of the proposed works is the diversion of said creek by means of dam, ditch, flume, natural waterways, tunnels and pipes, and the establishment in connection therewith of a water power plant for the generation of electricity for mechanical, industrial and commercial purposes and particularly in the operation of motors, machinery, electric lighing, tramways and other works for which such light, heat and power are suitable and available.

(f). The premises on which the water is to be used is to generate electric power, light and heat for traction, lighting, heating, manufacturing and all and every industrial or other purposes to which it may be applied.

(i.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return. The water is to be returned to the North Arm of Burrard Inlet at or near the place where the present power house of the applicant is situated. The difference of elevation between point of diversion and point of return is about 2200 feet.

(j). The area of Crown land intended to be occupied by the proposed works will not exceed 80 acres.

(k). This notice was posted on the 13th, 14th 16th 19th day of July, 1909, and application will be made to the Commissioner on the 20th day of August, 1909.

The part of the memorandum of asosciation of the company which authorizes the proposed application and works, reads as follows:

(3). The objects for which the company is established and to which objects the company are restricted are the acquisition of water and water power by records of unrecorded water or by the purchase of water records or water privileges for.

(a). Constructing, operating and maintaining electric works, power houses, generating plant and such other appliances and conveniences as are necesasry and proper for the generating of electricity or electric power, or any othe form of developed power, and for transmitting the same to be used by the company or by persons or companies contracting with the company therefor, as a motive power for the operating of motors, machinery, or electric lighting or other works, or to be supplied by the company to consumers for heating or as a motive power for propelling tramways, or for driving, hauling, lifting, pumping, lighting, crushing, smelting, drilling and milling or for any other operations to which it may be adapted or to be used or supplied for or in connection with any other purposes for which electricity or electric power may be applied or required.

(g). For rendering water and water power available for use, application and distribution by erecting dams, increasing the head of water in any existing body of water, or extending the area thereof, diverting the waters of any stream, pound or lake into any other channel or channels, laying or erecting any line or flume, pipe or wire constructing any raceway, reservoir, aqueduct, weir, wheel, building or other erection or work which may be required in connection with the improvement and use of the said water and water-power or by altering, renewing, extending, improving, repairing or maintaining any such works or any part thereof.

TWO THOUSAND BUFFALO IN FIVE YEARS

Commissioner of Parks Expects Great Increase in New Candian Herd.

Edmonton, July 27.—"With the same measure of success that we had in Banff, we will have two thousand head of of buffalo at Wainwright within five years," said Howard Douglas, Dominion commissioner or' parks, recently.

The commissioner recalled how the herd at Banff numbered but seventeen at the outset. A few weeks from now one hundred buffalo will be transferred from the Banff park to Wainwright, a herd of twenty being left in the fomer place. All these animals have sprung from the original herd of seventeen.

Buffalo Park at Wainwright, according to Mr. Ellis ,is large enough to support a herd of 5,000 buffalo. The park has an area of 107,000 acres. It is enclosed by 73 miles of wire fence.

The remaining 190 head of buffalo are now being rounded up in Montana by Michael Pablo, the Mexican from whom the herd was purchased by the Dominion government, and the final shipment will be made early in September. Mr. Ellis expects that the herd will be increased next year by over one hundred calves.

The first freight carried on the G. T. P. will be two car loads of wire, grass cutters and other implements for the Wainwright park. This material is being transferred from Lamont.

In September next, Mr. Douglas, accompanied by R. H. Campbell, Dominion forestry commissioner, will make a trip to the big Jasper Park reservation of 5,400 square miles near the Yellowhead Pass, on the east slope of the Rockies. Mr. Douglas stated that the object of the trip was merely to gain a knowledge of the ground and to make arrangements to prevent squatters from locating on the land. It is probable, too, that fire wardens will be established in the park.

MONTREAL DOCTOR RECEIVES DECORATION

French Government Makes Dr. Roy Member of Order of "Dragon of Nnam."

Montreal, July 27.—Dr. J. N. Roy of 379 St. Denis street has just received from the French government the order of the "Dragon de L'Annam." This decoration, which has not previously been conferred on any Canadian, is largely bestowed for military services.

Dr. Roy when travelling around the world about four years ago was a passenger from Saigon, in Cochin-China, to Haiphong, in Tonking, sailing on a steame of the Messageries Maritimes. At a port of call the captain of the steamer received instructions to proceed to Port d'Ayot, where a French warship, Le Lutin, had been wrecked by an explosion. On arriving there it was found that about twenty of the sailors were injured, and as there was no official doctor on the warship or the steamer, Dr. Roy's services were called into requisition, and for two days he gave the sufferers every attention, afterwards accompanying them to Tonking, where they were placed in the Military Hospital It is in recognition of his services on this occasion that Dr. Roy has been made an officer "Du Dragon de L'Annam."

INDIAN WAR CANOE AGAINST RACING SHELL

University of Washington Eight Training for Match With Ten-paddle Dugout.

Seattle, July 26.—The American Indian will make a last desperate stand against his white brother at the Alaska-Yukon-Pacific Exposition on August 28, when a picked canoe crew of eleven sound Indians will race the University of Washington eight-oared shell over a three mile course on Lake Washintgon.

The Indians are training every day on Hoods Canal on Puget Sound and they are making phenomonal speed. They claim that they can paddle over a ten mile course in faster time than the Washington Oarsmen have made the mile in their four-mile races.

The Washington oarsmen have the best shell which it is possible to secure, the boat in which Cornell made the world's record for a four mile course in 1901. The men are being trained by Coach Conibear every night for the big race with the Indian canoe.

The eight will be stroked by Arthur O'Neil, stroke of the varsity eight last spring. The men who make up the canoe have rowed together all year for the University of Washington, and consequently, have every advantage which pratcice and training can give. The Washington oarsmen have twice in the past three years won the intercollegiate rowing championship of the Pacific coast.

The Indians use a short paddle stroke and they stand up in their dugout canoe. People who have seen them practicing say that the speed they make is wonderful and many believe they will outdo the shell in the big race.

Verdict Rendered on Bridge Accident

(Continued from Page 1.)

be stopped, and the standard regulation of draw bridges.

Coroner's Summing Up.

The coroner, Dr. Rothwell, made an admirable summing up, which included the following comments:

"When Ziedwied got up to the bridge he stopped and gave the proper signal, and everything up to this time appeared to be correct. Then he gave two whistles to say that he accepted the signal, and as to who gave that signal we have had several witnesses, apparently it was given by Corrigan, the power man at the bridge. Corrigan could not operate his levers, he knew a tain was coming over, ran down to the bridge, and then there comes a conflict of evidence. It would seem that he went first to the north of the bridge, on seeing the train was coming, and finding this so, as I judge, he ran back, grabbed a flag from the oil house, and when he got back with the flag the engine was about twenty feet from him, so he waved it."

The coroner passed on to suggest that the enginer must have mistaken the red for a yellow flag, and interpreted the movement according to the railway rules, that he was justified in going across the bridge.

The Switch.

"This switch, so far as we can make out," said the coroner, "was out of order. Trying to fix the responsibility in regard to this switch has taken up so much of our time.

Criticizes Bridge Control.

Having discussed the whole question of the signals, the coroner proceeded: "In regard to the torpedo boxes, I gather that the experience has been that the torpedo boxes have been out of order to a considerable extent. It seems that if they had been in proper condition the engineer would have got a signal to stop, though we do not know if he would have acted upon it."

The work of this bridge will have to be conducted in a different way to what it has been. The system of signalling must be better, and the men engaged should be instructed to know it properly, and they must have mon instruction and wnow more abut their duties as signalmen. It is too important a position to have a man up there who has not been properly instructed, and he should be a capable man. That is not a place where any man should be put."
