OSSE AS SEEN IN AR AWAY AUSTRALIA

r Gives Details of the ough" Games---Writer nts Redshirts to Travel

t Hutcherson, of Rockton laremont, West Australia, who merly a resident of Ladner, to Mayor Keary under date ember 2, makes the proposal New Westminster lacrosse our Australasia next summer. ting on lacrosse matters and of the All Canada team, Mr. son writes as follows

Canadian team of lacrosse have been here, have seen, e conquered, and are leaving ening by the Orient line of s for home via. England. My ion of the game on Saturday t it was very tame and the done all the work, the Cana- erely waiting their chances to ball easily and then passing goal. They at no time push- game, but as I am inclosing ping from the leading paper state and gives a fair account game as well as an explana- m the Canadian side of the in Adelaide, when mounted had to be called in to sep- e players. Let me say that d on Saturday was very one- r one-eyed,as the saying here) will find most Australian the same, and at the present y are still thinking of the incident.

re there is a good opening m for next season, and if Westminster team have not r cunning it is their oppor- I would suggest, first, that m come not as Canadian, but Westminsters; second, as Columbians; third, as Canadi- would make it an advertising for your city and district. nice little booklet published venir of the visit. You would ell how to get that up. My ions would be a short history of the players and their pho- mostly of the city they came As to the tour, first Brisbane, Melbourne,Adelaide,Freeman- rth, then back as far as Syd- aying the second game on the from Sydney to Lanceoton and in Tasmania, and from Hobart Zealand. It might be neces- take an Australian team to aland to make up a game. The uld return via Fiji, as a steam- ects there from New Zealand. ssure you if there is anything o help give the boys a trip vertise your city, you can de- me doing so. Do not be sur- f you hear from others on this n in a short time.

kindest regards to all, etc.,
E. HUTCHERSON.

clipping enclosed by Mr. Hut- n is taken from the West Aus- published at Perth, and con- report of the last Australia- match, particulars of the Ad- incident in which the Canadi- ew on their heads unqualified from the Adelaide press, and rview on general lacrosse mat- th J. Millar, manager, and W. ley, captain, of the All-Canada

commenting at length on the an style of play, the West Aus- sums up as follows:

the whole, the visitors' play in ate has been perfectly fair, and retty safe to assert that had it en for the reports from the he incidents which have been ned here would have gone un- d. The subject of rough play entioned to the manager of the team (J. C. Miller) in an in- which a representative of the Australian had with him on ay night.

wish to make no apologies for en,' said Mr. Miller. 'I admit couple of times in the heat of ment they have lost their tem- and what game is worth the if men can never work up en- excitement in it to lose their s—but there is no vice in any boys. * * * *

our whole tour there have been two instances where our men cut up. The first was in Mel- e, when Grace undoubtedly did Steet, and we accept the blame But we don't think we are to for the Camplin incident in Ad- which has been magnified out of all proportion. * * * * The trouble was precipitated by jealousies among some of the Australian players. There was great soreness over the selection of the teams, and when Jones, Fletcher, and Presgrave, of Adelaide, were left out of the final test they openly sided with us. At half-time these players came and told us to look out, as Noblett, Kell and Humphris were going to lay Camplin out, or, as it was expressed, to cut their way through to goal. I don't know whether these threats had in fact been made, but they were conveyed to us, and it is not surprising that when play was resumed Camplin and Noblett did come into collision.'

"This is the true history of the Adelaide incident—an incident of the class inseparable from any strenuous sport, and one that ought never to have got beyond a mere casual notice. I am glad to say that we are on the very best terms with all your lacrosse players, and we are leaving your shores with nothing but the kindliest recollections of your sportsmanship and your hospitality.'"

HINDUS ARE EVERYWHERE CLASSED UNDESIRABLE

Vancouver, Oct. 17.—Mayor Bethune this morning received a letter from a personal friend, now located in Durban, South Africa, in which the writer refers in the most bitter terms to the manner in which the Hindu influx to that country has affected conditions there. One paragraph of the letter reads as follows:

"Take the advice of one who has had some experience with the race, and get rid of the brutes at any price despite the Imperial government or any one else. There is nothing but filth and disease attached to any country which is foolish and inexperienced enough to admit them."

Accompanying the letter is a page from the Johannesburg Sunday Times giving sketches of the deplorable modes of life of the Hindus in that section, and a column article describing their bad effect on the community.

HARRIMAN BRINGING CHINESE TO MEXICO

Railroad Magnate Engages One Thousand Asiatics for Construction Work.

Seattle, Oct. 17.—One thousand Chinese and 250 Russians comprise a party of laborers whom J. C. Epperley, now in the city on his way back to Shanghai, China, has just finished landing in Mexico to be used on the Harriman trunk line building across Mexico from the Pacific coast to connect with the main Southern Pacific line near Tucson, Arizona. Mr. Epperley has a contract to supply both railway ties and labor for this line.

These 1,250 laborers are all contracted to remain on the construction work in Mexico for three years, the Mexican laws, unlike those of the United States, admitting of such labor contracts. Mr. Epperley reports that the United States government is watching the Mexican border closely to prevent such laborers from crossing into this country, and that on this account there is little likelihood of any of them getting over the line.

ESCAPED DEATH BUT FRACTURED HIS LEG

Robert Griffiths, an employee of the Brunette saw mills, yesterday morning narrowly escaped death while working around the carrier in the main building. Griffith somehow got mixed up with some of the machinery, and before he could be extricated, one of his legs had been fractured, and he has sustained serious injuries in the lower part of the body which will seriously affect him for the remainder of his life.

When taken to the Royal Columbian hospital, it was at first feared that the fractured leg would have to be amputated, but after a consultation between the medical men, it was decided that there was a chance of saving the limb, and the fracture was reduced.

Information early this morning stated that Griffiths was doing as well as could be expected.

VALDEZ IS AT MERCY OF INFURIATED MOB

Thousand Railroad Laborers Cut Loose in Northern City ---Martial Law Proclaimed

Seattle, Oct. 17.—The town of Valdez is at the mercy of a mob of 1,000 infuriated railroad laborers, an employee of the suspended Reynolds bank done to death at his post of duty, and a proclamation of martial law by Wilford B. Hoggatt, these are the components of a wild rumor which spread through the city last night and turned every coast Alaskan half crazy with anxiety.

Whether there is truth in the story was impossible to learn. Sifted down to its origin it was found to have come from the purser of a steamship recently arrived from the troubled railway terminal, where the forces of the Home railroad and those of the Guggenheims clashed recently in bloody conflict.

George Esterly, a prominent citizen of Valdez, with Mrs. Esterly, is a guest at the Butler. He heard the story of trouble, and shook Seattle down from one end to the other for either confirmation or denial, but he got neither.

His cource of information was also the purser of a steamship, and beyond the meagre particulars already stated he had heard no more.

"Trouble there is not beyond possibility," declared he last night, "for there are still many men there and I guess they are not in the best of circumstances. I am hoping as hard as I can that this report is a canard, because a mob of 1,000 men turned loose in Valdez would mean the wrecking of about everything there before soldiers could be brought from the fort to quell the riot."

If the report is true that Governor Hoggatt has declared martial law, it means that he has sent to Fort Liscum for United States troops. Fort Liscum is within sight of Valdez and transportation of sufficient troops to quell any possible disturbance would be a matter of only an hour or so. At the same time, Valdez is the typical Alaska coast town. All of the buildings are either frame or of logs and as dry as tinder. While troops might easily stop the rioting the town could be destroyed easily while the soldiers were being sent for.

ANNUAL FESTIVAL A GREAT SUCCESS

The Thanksgiving festival and entertainment given last evening under the auspices of St. Barnabas church was a great success, financial and otherwise. The attendance was large, and both the feast and the program were much enjoyed.

Supper was served from 6 o'clock till 8 o'clock in the Parish hall, and during that time musical selections were rendered by an orchestra. After supper had been served, the following program was rendered: Selection by the orchestra; character sketch, Harry Tidy; song, "Snowflakes," Miss Vera Corbould; recitation, Annie Tidy; whistling solo, Allen Peebles; orchestra selection; song, Miss Spring; recitation, "An Irish Character Sketch," Mr. Barnett; piano solo, Miss Doris Clute; short speech, the Rector; orchestra. Many of the numbers were encored.

Decline to Meet Demands.

Calgary, Oct. 17.—The Builders' Exchange has refused to comply with the demands of the Carpenters' union for an increase to fifty cents per hour. The exchange considered the following clause illegal: "No contractors, foremen or member will be permitted to give or procure employment for a non-union man as long as there are union men to be had by applying to the C. D. C. or the local or business agent, but if union men cannot be had by such application, non-union men may be employed."

An application will be made in court chambers this morning in this city to have Norman Malcolm admitted to bail. Malcolm is the man who stands accused of committing a highway robbery near the G. N. R. depot about six months ago. He was billed for trial by the assize court which met in this city on the 7th inst., but the chief witness, John Anderson, did not attend, so the case was stood over till the next assizes, and in the meantime Malcolm is seeking bail. The application will be made before Judge Grant.

RUNS METER BACKWARD.

Inventor of Ingenious Swindling Device Admits His Guilt.

New York, Oct. 17.—For the edification of the judges of Special Sessions court Dr. George F. Sever explained to them the mechanism of a little contrivance, which, attached to an electrical meter, not only will prevent the meter from registering the amount of electricity expended, but if desired, will cause the meter to go backward instead of forward. This contrivance is an electromagnet, contained in an oblong box, with side pieces so that it may conveniently be placed over the meter. The inventor of this swindling device, Herman Barth, had just admitted his guilt. It was said that not only had he sold several of the magnets for $200 each, most of which were installed in saloons, but that at the time of his arrest he was constructing a larger one, which was to be bought by a garage where a large amount of electricity is needed day and night for the charging of electric vehicles.

RAILROADS TRY TO AVOID CAR SHORTAGE

California Lines Studying to Perfect Plans for Quick Movement of Rolling Stock

Los Angeles, Oct. 17.—Nearly every railway corporation is studying to perfect plans for the quick movement of cars and other rolling stock with a view of eliminating the shortage features of business this winter. It is argued that, with the proper shifting of cars and a careful adjustment, nearly one-third more business can be transacted with the present equipment.

It is suggested by an official here, and the plan is under consideration, that there be formed a pool of equipment by the various roads and a clearing house for cars. Any demand for cars by any road would be made to the clearing house and that concern would give over the required number of cars from the nearest supply, or, in case of a shortage or a multiplicity of demands, the orders would be filled pro rata. Under this plan it would be the duty of every road to wire daily reports of the exact location of all its cars. The entire equipment of the pool would be registered in the clearing house, much after the manner in which the cars of a line are tabulated by each of the different roads at present.

By this method rolling stock would not be idle a moment as long as there is business on any part of the various systems. Again, it is said that many of the cars that are returned deadhead or empty now could travel both ways loaded, increasing the earning capacity of the cars.

EVERETT LUMBER MILLS TO CLOSE FOR PRESENT

Everett, Oct. 17.—Several large lumber mills have closed or are planning to do so, ostensibly for repairs, although the real reason is car shortage, lack of business and a desire to see what the new railroad tariff on the forest shipments between Puget Sound and the East will do to the trade.

An important deal executed yesterday was the sale of the mill and holdings of the Winlock Lumber company at Winlock by Stutchell & Murphy, of this city, to J. A. Veness, of Winlock. Although the sale price is not made public, the figure is known to be large, as the Everett men only last week took over the second half interest in the plant for $300,000.

Would-Be Lynchers Arrested.

Seward, Alaska, Oct. 17.—Warrants are out for the arrest of the men who participated in the attempted lynching of J. E. Kenny at Lake Creek, and Sam Wagner has been apprehended in Seward. He is the only one of those charged now in Seward. Nearly all the others are still in the interior. Wagner gave a $500 bond for his appearance. A complaint was filed before United States Commissioner Goodell, of Knik, charging the men with participating in a riot.

Honolulu, Oct. 17.—Senator Childinworth announces that the British steamships Inravella and Don of Ruthven have been chartered to convey Japanese from the islands. The former will sail in January for Vancouver, and the latter in March for Brazil.

WIRELESS MESSAGES SPEED ACROSS OCEAN

Marconi Stations Now Transmitting Despatches from Canada to Ireland.

Sydney, N. S., Oct. 17—The era of transatlantic wireless communication will date from today. After working quietly, Mr. Marconi announces that every detail is at last perfected and the transmission of messages over the seas will be established today, and that from now on commercial messages will be sent and received from Port Morien, in Nova Scotia, to the Irish station at Clifden.

Elaborate tests were made yesterday, and in every instance they were successful. Morse signals were received with perfect ease and without flaw or halt.

Moreover, the Irish station reports that its apparatus is working easily and receiving every message sent without a trace of obscurity.

Electric dots and dashes are traversing more than 2,000 miles of space with forty times the speed of a thunderbolt.

Marconi has been lecturing a corps of operators here for weeks. Now he considers them proficient and has turned the instruments over to them. He has stood over them day and night in the course of their tests, and declares that he is thoroughly satisfied with his apparatus.

The Irish station at Clifden has sent advices of the full preparedness of the operators and the connection of the station with British postoffice telegraphs.

Mr. Marconi was in communication all day yesterday with his London office. Long messages were sent and received. He received many congratulations from friends and relatives in England, which were transmitted by wireless from Clifden.

There were no formal opening ceremony today, as it is Mr. Marconi's wish to get busy in a business-like manner and without any formality or parade. He entertained a few guests who witnessed the sending of the first commercial message to cross the ocean without the aid of wires.

The opening message was addressed to a few important British newspapers. The first messages from Clifden was sent to American and Canadian newspapers. Then the Marconi wireless telegraph system was opened for business.

The commercial rate for wireless messages is 10 cents a word and the press rate 5 cents a word between Clifden and Port Morien.

Immediately after the service in Nova Scotia is well established the power at the wireless station at Cape Cod will be increased and a service opened thence to Poldu.

Marconi is in a most sanguine mood.

"My service is perfect," he said, "and I expect to handle press messages as well as commercial messages. The news men are among my very best friends and I look for their friendship to continue."

JAPANESE BILL OF COSTS REACHES HEALTHY TOTAL

Ottawa, Oct. 17.—The statement of the Japanese claims for the destruction of property by rioters in Vancouver, is one of the most complete documents ever prepared for presentation to the government.

The property is minutely described and photographed, or a blueprint of the buildings is given. There are two columns of figures. One shows the damage done and the other the loss of time to business. For loss of time there is a claim of $11,100, and for damage to property, consisting principally of broken windows, there is a claim of $2,400, making in all a loss of about $13,500.

Letter Thief Sentenced.

Toronto, Oct. 17.—Horace Mountain, an employee of Contractor Newell, who collects mails in the northern part of the city, was arrested this morning by Postal Inspector Henderson and handed over to the police on the charge of rifling letters, and abstracting money therefrom. Mountain not only robbed boxes on his route, but also took letters from other routes. He appeared before the magistrate, pleaded guilty, and was sentenced to four years in the penitentiary. Mountain is an English lad, and is eighteen years of age.

KINCAID'S ACCOMPLICE IS IN THE TOILS

Dawson, Y. T., Oct. 17.—John F. McDonald, a Dawson jeweler, was arrested at Whitehorse yesterday on the arrival of the steamer Selkirk from Dawson, charged with complicity in the robbery of $40,000 of Tanana gold from registered mail in Dawson, July 29.

This makes four arrests in the case, the first being Richard Hall, who was taken here; the second George Kincaid, chief government foreman, who was arrested at Selkirk and who committed suicide; third, Tom Vaughn held on suspicion with a blanket charge of vagrancy against him; and the fourth, McDonald. Other arrests are expected to follow.

So far the plot is not all unraveled. It now develops that Knicaid lived at a great pace here for many months, spending as high as $2,000 to $4,000 nightly in the past few weeks on wine and women, giving some men $100 at a time, telling them to have a good time. Kincaid was a clever building master. He dressed fashionably.

UNION MEN WORK TO ESTABLISH LEAGUE

Oriental Exclusionists Are Actively Preparing for Big Meeting Next Week.

The iniatial step towards the formation of an Asiatic Exclusion league in this city was taken yesterday when a petition asking Mayor Keary to call a public meeting for a discussion of the subject was circulated in the city and signed by a large number of representative citizens. Most of the labor unions are also represented in the list of signatures, and R. A. Stoney, of the Typographical union, will present the document to Mayor Keary today. It is understood that His Worship will readily agree to the holding of a public meeting. No date has yet been set, but it is likely that next Wednesday will be the date fixed upon for the meeting.

A wide interest in the subject is being taken, and the probability is that the meeting will be one of the largest that could be assembled. All members of labor unions are of course desirous that the wages going to Orientals should go to white men; business men would rather have whites for customers and all or nearly all inwardly believe that the country would be better without Orientals. The Hindus inhabiting the shacks in the West End of the city are in a condition of poverty, surrounded by dirt and vermin, and are looked upon as the fererunners of vice and disease.

CLUNG TO FLOATING LOG TO AVOID DROWNING

George Harvey, mate of the steamer Beaver, met with an accident near Port Langley yesterday which nearly cost him his life. He was standing on the bow of the boat, taking soundings, when the boat struck a snag and Harvey, losing his balance, went headlong into the water. He was in the water ten minutes before a boat could be lowered to rescue him. The mishap was witnessed by a large number of persons on deck, who felt certain that a drowning was about to occur, and many of them ran in the cabin to avoid the sight.

Harvey swam around until he reached a log, by which he supported himself until taken out of the water by a couple of the crew in a small boat.

"ALSO PROFESSIONALS."

A whole lot of people who went over to see the Tecumseh and New Westminster lacrosse match are strongly of the opinion that it was sold. The eastern professionals, they allege, deliberately laid down and let the western champions, also professionals, win. There may be something in the rumor.—Edmonton Journal.

Portland Wants New Name.

Portland, Oct. 17—The One Hundred club proposes to change the name of Portland to Multnomah. By a switch of this sort, it is said that all of the county of Multnomah can be included within the city limits, whether it is build up or not, without exciting suspicion. A campaign for this change is to be made.

ADVERTISE IN THE NEWS

SWIFTWATER BILL'S WIFE TIRED OF LIFE

Twice Divorced Spouse of Alaskan Miner Now Seeks Exit from Wicked World.

Seattle, Oct. 17.—Kitty Gates, 22 years old, one of the divorced wives of "Swiftwater Bill" Gates, the spectacular Alaskan, tried to commit suicide yesterday morning by drinking laudanum at Second avenue south and Washington street. She had purchased the poison a few minutes before at Guy's drug store, where she said she wanted it for a toothache. The drug clerk put enough glycerine in the poison to counteract its effect and that precaution resulted in saving the woman's life.

Kitty Gates was formerly Katherine Bardon, of Seattle. She married "Swiftwater Bill" twice. Each time she was separated from him. She was divorced the last time about a year ago.

He Used Chisel on Dynamite.

Kenora, Oct. 17.—Charles Swanson was unloading a cargo of thirty-one packages of dynamite, when in attempting to open the first with a chisel, the steel threw a spark, which caused the shipment to explode. The man was thrown over a cliff forty feet high, causing injuries from which he died an hour later.

Sentimental Play.

Those who enjoy beautiful sentiment, real human interest, brilliant comedy and thrilling realism in the drama, will find a veritable treat in "A Wife's Secret," which comes to the New Westminster Opera house Saturday night. It is said to be a vivid study in life-like colors, of a woman's trials and brave fortitude under the scorn of an unforgiving husband, and the persecutions of relentless enemies. Many strongly and truthfully drawn characters are shown—the suffering young wife driven from her husband's roof; the stern uncompromising husband and his hypocritical, sanctimonious sister, who, like Iago, whispers lies into his ears against his innocent bride; the drunken criminal father of Mona, who

comes into her life after years of absence, to help in wrecking her happiness; the goood old "nigger mammy," Aunt Dilsey, who follows her young mistress to comfort her in poverty and disgrace; the persistent friend who, fascinated with Mona, and not satisfied with her downfall, follows to still further make her life unbearable by his insinuating attentions; the brave little newsboys and the big-hearted "copper" who befriended her; the rascally old sexton who tries to turn her misfortunes to his own account for a few paltry dollars; little Marie, Mona's child, a bright tot of six years, the one tie that still holds the separated husband and wife; and many others, all shown in striking fidelity to human nature. The production which Spencer and Aborn have given "A Wife's Secret" is said to be most elaborate and beautiful, and the company is composed of actors and actresses well known to the dramatic stage.

ADVERTISE IN THE NEWS

BIG CASH OFFER IS COLDLY TURNED DOWN

Stupefaction Reigns in Railroad World because C.N.R. Men Refused $75,000,000.

An offer of $75,000,000 cash for the Canadian Northern railway has been turned down by its chief owners, Messrs. William Mackenzie and Donald D. Mann. The news leaked out a few days ago. The proposition emanated from the banking house of Messrs. J. Pierpont Morgan & Co., New York. Owing to intimate financial relations of this house with J. J. Hill, the offer is believed to have emanated from the Great Northern railway, whose plans for an invasion of the Canadian wheat fields have had a great deal of publicity and have been partially realized during the past two years.

Messrs. Mackenzie & Mann have always cherished the ambition of ultimately extending their road to the Pacific coast; and less than two months ago Mr. Mann while in Vancouver, stated that the project would be realized, adding that construction work on the mountain section would not be undertaken until they had secured a government subsidy. One section built and in successful operation now extends from Port Arthur, at the head of navigation on Lake Superior, to a point thirty miles west of Edmonton. The system also embraces the Regina & Long Lake railway between Regina and Prince Albert as well as several hundred miles of railway in Quebec and Onatrio. Mr. Mann was authority for the statement that seventy per cent of the main line from the city of Quebec to the Pacific had already been completed.

It has been well understood that the two magnates have had no little difficulty in floating their bonds in the London money market. Their refusal to accept the offer of Morgan & Co. after an expert in its employ had inspected the entire system created no little surprise in railway circles.

"I am at a loss to account for their action in turning down a seventy-five million dollar offer. It can only be ascribed to their desire to hold out for a larger amount or because they hope some day to build through to the Pacific. If they had sold out they would have realized a profit of at least fifty million dollars," was the comment of a well-known railway man in discussing the affair.

Watchorn as Labor Agent.

Montreal, Oct. 16.—The report is current in immigration circles that Robert Watchorn, immigration commissioner for the United States at Ellis island, and former commissioner in Montreal, has been appointed fuel purchasing and labor agent of the Grand Trunk Pacific, and that his functions will find practically immediate scope in the selection of laborers for the building of the new system in the west. In the absence of Mr. Hays and Mr. Morse no confirmation of this report was obtainable at Grand Trunk headquarters, as no directions have been issued regarding a circular containing the announcement.

THE DOVE OF PEACE.

It has been the fashion during the sitting of the Hague Conference to refer to it as "a failure" and to crack jokes at its expense, but that has always been the practice in the popular treatment of reforming agencies. The mere meeting of the representatives of forty-five nations with a friendly purpose was in itself an epoch marking event in the slow advance of the higher civilization, and when these representatives continued to meet day after day with the avowed purpose of preparing the way for enduring peace on earth and goodwill among men, it was surely natural that "practical" people should lose patience with them and that those whose business it is to wear the cap and bells for the amusement of the said "practical" people should give more or less refined and entertaining expression to that impatience in their daily tale of witticisms.

But in the summing up of its labors the Conference of 1907 does not appear either as a failure or as a proper target for small jokes. Of the twenty-five or more points discussed, four only led to disagreement which has been put on record. More than twenty descisions tending to advance the prime object of the meeting have been reached, and not the least important of these has been that which sets a time for subsequent meetings, so that theConference is now an international parliament which is to have regular sessions, instead of being a hap-hazard affair meeting only when called together by the ruler of some powerful nation.

Certain agreements looking to the prevention of the bullying of small nations by big ones; a renewed condemnation of "militarism"; declarations as to agreements between countries of emigration and countries of immigration, the rights of neutrals, the duty of belligerents as to declaration of war, the use of neutral territory for wireless stations, the use of balloons in war, are among the recorded results of the Conference; and quite possibly its unrecorded result of better understanding is quite as important as any. It is an easy sneer that this "peace" conference was largely engaged in discussing the conditions of war; but to limit war's evils, to make it more difficult, to increase its list of possible offences against international law, is to pave the way for its abandonment.

THE INDUSTRIAL PROBLEM.

We quoted lately from a New York paper an article in which the conclusion was arrived at that the maladministration of affairs in this province would rob it of all or almost all the benefit which should be derived by the country from the construction of great works like the Grand Trunk Pacific railway, save only in so far as benefit might be derived from the wages paid for the labor by which the road was constructed. That, of course, puts into prominence the importance to the country of having the right kind of labor. Some people talk and write as if this were a small matter. They look, as it were, only to the benefit to accrue to the country from the operation of the road, and even in their calculations as to that, they seem to forget that the benefit from operation will be very much greater, for many years at all events, if the right kind of labor is employed in construction. Give construction gangs of such men as would be employed on the building of a railway, say, in the United Kingdom, and we should find a fair percentage of them settling in the country, many of them to become customers of the line they had helped to build. And during construction, which is the point under consideration, it is evident that the wages paid to such men would be of more benefit to the country than wages paid to gangs of coolies. This, to quote again from the New York papers, is the "industrial problem which the province is forced to face. But it is not new. It is one that India has long had. It was the principal inspiration of a vicious war in South Africa. It has fastened itself upon Mexeico and threatens the republics of South America. It has become a potent part of the politics of the United States, and now it is taking a firm hold on Britain's half of North America. It has, in fact, become a continental problem here. It has perplexed economists, and it has corrupted legislative bodies. Perhaps it is but a chapter in the economic schooling of the world. At all events it is an unsolved equation. May British Columbia help to find the answer."

We noticed yesterday in an obscure campaign sheet, published in the interest of the long-date Conservative candidate for the Commons, a story about the council and the water works, which was paraded as if it were "news." For months it has been known that the council was alive to the necesity of providing for an increased water supply, so that the "news" that it has the matter under consideration is not exactly startling. Months ago, the whole facts as to the measures recommended by the experts who were engaged in the construction of the system, and in its "revision" after the fire of '98, were fuly set forth in the Daily News, as also was the fact that detailed plans, etc., were in the city hall, so that we do not stand astonished when we are told that these plans are under review as part of the consideration which the council is giving to the matter. We have now and then occasion to differ from the council, but we have never denied it the possession of common sense and ordinary business ability, and giving it credit for these, it follows that it is looking into the water works matter in a common sense and business-like way.

RATS FEED ON A CHINESE CORPSE

Vancouver, Oct. 17.—It is a common theory that the Chinaman makes a practice of following the example set by the besieged in Paris when the Germans had cut off the food supply, and eats rats. If that be so, there was a reversal of that in Vancouver in connection with the case of Luen Kam, or Ah Lee Kam, who was drowned in the harbor. The particulars of how the Chinaman was drowned while trying to get ashore surreptitiously have been given. He had put his clothes in a ship's bucket and then jumped overboard with a life preserver. He got tangled up with a rope in such a way that he could neither extricate himself nor get his head above water. The coroner's jury at the inquest brought in a verdict of accidental drowning while trying to escape from the ship to the shore.

The six good men and true came very near becoming so nauseated that they could not go on with the inquest, because when they came to view the body they found that while it lay with a sheet over it after being hauled out of the water, rats had got at it and had eaten away considerable of the head. There was a hole gnawed in the forehead and the nose had been nibbled.

Chinese Object to Sea Burial.

Victoria, Oct. 17.—While the steamer Georgia, of the Canadian-Mexican line which arrived this morning, was on her way from Salinas Cruz, one of the Chinese stewards died, and when an attempt was made to throw the body overboard the Chinese threatened to mutiny. The body was then coffined and brought to port for shipment to China. A heavy gale was experienced at Mazatlan, where a number of lighters were wrecked and the steamer was obliged to put to sea for safety.

She is greatly pleased with the little town in which her husband is now devoting his energies to the publication of a weekly paper, and is enthusiastic believer in the future of Alberni.

Meals at the Windsor hotel 25c. **

Superintendent of City Works Thomas Furness has completed his inspection of the Sapperton park, and will hand in his report on cost of clearing, etc., to the council at an early date. It is expected by the Sapperton people that an appropriation will be made by the council for clearing and grading the ground this fall.

George Grimston, who has been hunting pheasants on Westham island during the last couple of days, reports that there are very few birds on the island. He was successful in getting only two, and many other hunters met with similar luck. Several good bags arrived yesterday from East Delta.

Now is your chance to secure the choice of the 15-acre plots in best fruit growing district of B. C.; only 15 minutes' walk from R.R. station and steamboat landing, and one hour's travel to either Westminster or Vancouver. Price $60 an acre and up; by Abbott & Hyde, next Guichon hotel.

Andy Ward, the man charged with stealing a horse from a South Vancouver party, was committed for trial on Wednesday evening by the Vancouver police magistrate. Ward was arrested by Chief Provincial Constable Spain, of this city, on Sunday last, as the accused was riding the animal near Blaine.

A record of 250 inches of water was formally granted yesterday by Government Agent C. C. Fisher to the municipality of Delta from the Nicomekl river. The application was heard some days ago, but final action was deferred pending the filing of a report on the volume of water, by a competent engineer. The municipality proposes installing a water system.

Fine dairy farm of 100 acres, best black soil; part underdrained. House and small barn; only eight miles from New Westminster; good road. For short time at $70 per acre. Abbott & Hyde, next Guichon hotel, New Westminster, B. C.

The Eastern capitalists who recently purchased a controlling interest in the Fraser River sawmills, are on the coast for the purpose of inspecting the mill and the company's logging camps in British Columbia and Washington state. The party consists of Peter Jansen, of Jansen, Neb.; T. B. Darling, New York; A. R. Davidson and Col. Davidson. They left for up-coast points Wednesday evening to inspect their various timber holdings and to decide upon future development. They will go as far north as Smith's inlet.

Sapperton Specials. 2 6-roomed houses, newly painted and renovated throughout, $1500 each, Keary street near Columbia. New 7-roomed modern house near Brunette street, $1600. Easy terms. White & Shiles, 260 Columbia street, city.

The Provincial minister of finance and agriculture, Hon. R. G. Tatlow, is circulating blank forms among the farming communities to be filled out by farmers desiring any kind of farm or household laborers. In a circular accompanying the forms, the minister states that under a contract entered into with the Salvation Army, a large number of immigrants will arrive here in the spring of 1908, and that they will be directed to parties needing laborers. In the forms which are being circulated, farmers are to give the number of laborers wanted, wages offered, length of service, and other information.

Manager W. H. Keary, of the R. A. & I. society, denies the statement given out in Calgary, and reproduced in yesterday's News, by the runner A. J. Burn that besides the $250 in cash which the society was to give him for racing here in exhibition week he was also to get a $250 cup as a trophy for his victory. According to the mayor, Burn and his manager called at his office several times and asked for more than the prescribed $250. They were willing to accept orders on merchants for clothing or almost aaything, provided they could get more returns for the race which was run here.

J. P. Thompson, a well known mining prospector and timber cruiser, returned to the city yesterday after spending about six weeks in cruising around Port Douglas, at the head of Harrison lake. Here he staked out some fine timber belts, and also prospected to some extent, coming across valuable copper ore deposits, which, however, had been staked some years ago by a man who has since retired from the prospecting field, consequent upon his becoming heir to a large estate in eastern Canada. Although the original locator's claim holds good for another year, stakes have been driven on the lead by the agent of a man named Brown, of Vancouver, who is anxious to obtain control of the property.

WHY WASTE YOUR TIME IN LOOKING AROUND WHEN EVERY ONE WILL TELL YOU THAT WE STAND AT THE TOP IN THE CLOTHING TRADE. WE DO NOT, HOWEVER, FEAR COMPARISON. WE ESPECIALLY INVITE YOU TO COMPARE OUR READY-TO-WEAR SUITS WITH THOSE THE TAILORS MAKE AND CHARGE YOU MUCH MORE FOR. OUR CLOTHING IS MANUFACTURED. BUTCHERS DO NOT MAKE OUR CLOTHING BUT TAILORS. BUTCHERS DO NOT TAILOR SUITS, BUT TAILORS SOMETIMES BUTCHER SUITS. YOU CAN TRY ON ONE OF OUR SUITS AND YOU NEED NOT TAKE IT UNLESS IT SUITS YOU AND FITS YOU. YOU WON'T HAVE TO MAKE YOUR FRIEND, THE TAILOR, FEEL BADLY BECAUSE YOU DO NOT LIKE THE SUIT WE TRY ON YOU. IS NOT YOUR BEST FRIEND, YOURSELF? WE CAN SAVE THOSE WHO WEAR "TAILOR-MADE" CLOTHES 25 PER CENT. TO 40 PER CENT.

RESPECTFULLY

H. L. DeBECK

STEAMER CHARMER GROUNDS IN A FOG

Princess May Also Gets Into Trouble at Victoria---No Damage.

Victoria, B. C., Oct. 17.—The steamers Charmer and Princess May both had mishaps this morning owing to the foggy weather. The Charmer ran aground while entering the harbor, and was towed to the wharf by the Rithet. She was aground for a couple of hours, but is not seriously damaged.

The Princess May, while entering the harbor on the trip from Seattle, ran into a boom of logs. She was proceeding under slow steam and as a result was not damaged. This alone saved her from considerable injury.

UNION OF MINISTERS NEXT.

Cleveland Preachers Complain of Meagre Salaries.

New York, Oct. 16.—The Tribune has received the following dispatch from Cleveland: "Cleveland preachers have raised their voices for a raise in pay, and one has gone so far as to suggest a union, by which to enforce a demand for a higher scale of remuneration. Increased cost of living is blamed, and the charge is made that salaries have not advanced in ten years, while necessities of life cost so much preachers must squeeze each penny."

"The average pastor's work is sadly hampered by the meagreness of his salary," said Dr. E. D. Bagby, of the Franklin avenue church of Christ, today. "He has to plan and skimp and figure every penny to make both end meet."

"Why not a union? The carpenters have one; why not a union of the disciples of the Carpenter's Son?" asked another pastor.

Hindus Trek South.

Seattle, Oct. 17.—A score of Hindus and Afghans came from Vancouver yesterday, and after spending the day in Seattle, went to Portland. The Asiatics said that their final destination was Chico, Cal., where they will seek employment in a match factory. With one or two exceptions they had discarded their turbans.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

SIMIAN SCRAPS WITH BABY GIRL

Monkey Grabs Child and Severely Scratches and Bites Screaming Infant.

Spokane, Oct. 17.—Wild screams at noon today attracted a large crowd to Post street and Riverside avenue, where a monkey had a two-year-old baby down on the sidewalk biting it while the frantic mother tore at the animal in an effort to save her child.

Mrs. A. Jorgenson, of 230 Post street, was wheeling her child when they passed a large and ferocious monkey held by J. A. Bell. Without warning the animal broke away, leaped into the baby carriage and threw the baby to the street. Mrs. Jorgenson and Bell both attempted to free the child from the monkey, but its clutch was too strong and it bit the child three times on the forehead before the babe was rescued. When men picked up the child and carried it into a nearby drug store, Bell, with the monkey, fled down the street pursued by a crowd shouting:

"Kill the monkey; lynch him!"

Bell was arrested and taken to the city jail, along with the monkey. He was charged with keeping a vicious animal.

While being booked he insisted that the animal was not vicious. He had no sooner made this declaration than the monkey bit him through the hand. Later the animal attempted to bite several policemen at headquarters. The child's injuries are not serious.

The Foundation of Every "Progress" Coat

The good looks, and shape, and wear, too—of a "Progress Brand" Coat, depend on the part you never see—the INSIDE.

This figure shows the anatomy of "Progress Brand" Coats. The patent sleeve and shoulder pads—the strong felt, genuine hair-cloth and thoroughly shrunken canvas. This foundation is moulded by hand and held by hand stitches.

It is this perfect building of the foundation that gives perfection to the finished "Progress Brand" garment.

"Progress Brand" Suits and Overcoats prove that they are made right, by the wear they give.

MAN AND BOY HAVE BEEN MISSING TEN DAYS

The mysterious disappearance of a man and boy which is causing considerable anxiety and distress to the families concerned is occupying the attention of the Provincial police. The man is named D. Silver and he was a hand logger on Reed island, about 14 miles from Nanaimo. Stating only that he was going to Nanaimo on business, he left the island in company with the boy, Albert Lawrence, in a large blue fishing boat on the morning of Tuesday, Oct. 8. At five o'clock that same evening they were seen at Nanaimo, but since that time no trace of them or of the boat has been discovered. Silver is reported to have had a double barreled gun with him when he left Reed island where his wife and two children are now eagerly awaiting news of him. The police at Nanaimo have been investigating the mystery so far without result and this morning a brother of Silver came across to the Provincial police headquarters to put the circumstances before them. If anyone has found the boat, communication should be made with the police.

To Form Hop Pool.

Portland, Oct. 17.—Steps are being taken to farm a hop pool in Oregon of a magnitude never before attempted in this or any other state. It is proposed to withdraw all the unsold hops of the Oregon crop of 1907—more than 160,000 bales—from the market until they can be sold for a certain price considerably above that now current. What this price will be is not stated, but it is probable the growers will fix upon fifteen or twenty cents as the minimum.

Theatres Must Close Sundays.

Kansas City, Mo., Oct. 17. — The grand jury in the criminal court here today returned nineteen indictments against managers of the Kansas City theatres for keeping their places of amusement open on Sundays. The indictments had been asked by Judge William H. Wallace, who gave notice two weeks ago that he intended enforcing the Sunday closing law. The theatrical managers had secured a temporary injunction restraining the closing of their places. Warrants will now be served and the managers brought to trial.

Death List Thirty-eight.

Fontenet, Ind., Oct. 17—The latest estimates of the destruction wrought by the explosion of the Dupont powder mills Tuesday morning is that thirty-eight persons were killed, 600 injured, fifty seriously, and a property loss of approximately $750,000 caused. From a workman employed in the glazing mill it was learned today that a "hot box," due to too much friction on the shafting, causing sparks to be transmitted to some loose powder, was in all probability the cause of the terrific catastrophe.

London Bishop Leaves for Home.

New York, Oct. 17—Many friends and acquaintances of the Bishop of London, who has been a guest in the United States during the past week, gathered at the dock today to bid him farewell on his departure for home. The bishop was a passenger on the steamship Celtic.

Big Floods Menace France.

Paris, Oct. 17.—Dispatches from the centre and south of France today all confirm the worst reports of destruction caused by the floods. In hundreds of cities and towns there is from two to ten feet of water in the streets. The weather is clearing and the worst appears to be over.

Commissioner Under Arrest.

New York, Oct. 17.—Police Commissioner Theodore Bingham was placed under arrest yesterday, following the service upon him of papers in a civil suit in which damages of $25,000 are asked. The complainants are ex-Police Captain G. Reynolds, who was ejected from headquarters yesterday, where he called to lodge a formal protest against his enforced retirement from the department.

Real Saving

Whether or not a price is low depends on what sort of value you receive for the price. On this basis we save you money on everything that druggists sell. Our first aim is to supply our trade with dependable goods; our second to save our customers something on the cost. We are invariably successful in both these intentions.
