CANADIAN NORTHERN PLANS MODEL CITY BETWEEN BON ACCORD AND LIVERPOOL

Car Shops of New Transcontinental Line to Be Located Across the River---Deep Water Docks to be Built---Recent Activity in Surrey Realty Is Explained by Announcement of Intentions of Railway Corporation.

A new city across the river.
Railway car shops.
Deep water docks.

In the above three lines is embodied the announcement now semi-officially authorized by the Canadian Northern Railway company with reference to their intentions with regard to three thousand acres of land quietly purchased through agents during the past few months, the bulk being secured last November, White, Shiles & Company acting on behalf of the company's representatives, Senator Jansen, A. D. McRae and W. R. Davidson. McMillan & Oliphant, of Vancouver, also purchased considerable acreage for the railway company.

It is the announced intention of the C. N. R. to build a model railway town near Bon Accord, almost opposite the Fraser River mills, where they will have their roundhouses, car shops, repair yards, etc. The town will be laid out something after the style of Gary, Ind., where the steel trust gives employment to an army of men.

Work on the clearing of the land for the townsite will be commenced in April, and will be rushed forward with all speed, as it is the intention of the C. N. R. to make Westminster its headquarters during the construction period from this end of the line.

The property now controlled by the C. N. R. is located in Block 5 north, Range 1 and 2 west, and runs from about half a mile beyond Bon Accord to the old Liverpool townsite along the Fraser river, and back to the Hjorth road. Only two pieces of property within these limits have not been secured by the railway company, one having a small waterfrontage close to Liverpool, but running a good distance back, and the other comprising eighty acres which the owner refuses to sell at any price.

When the C. N. R. took options on the different properties a few months ago the owners of the properties were glad to accept an average of $25 per foot frontage on the Fraser. Today twelve inches of land with water frontage is worth anywhere from $50 to $150 for about a mile on each side of the land secured by the company.

The price of acreage has also been given a tremendous hoist, stuff bringing about $40 an acre six months ago cannot be touched now for anything less than two, three or four hundred dollars an acre.

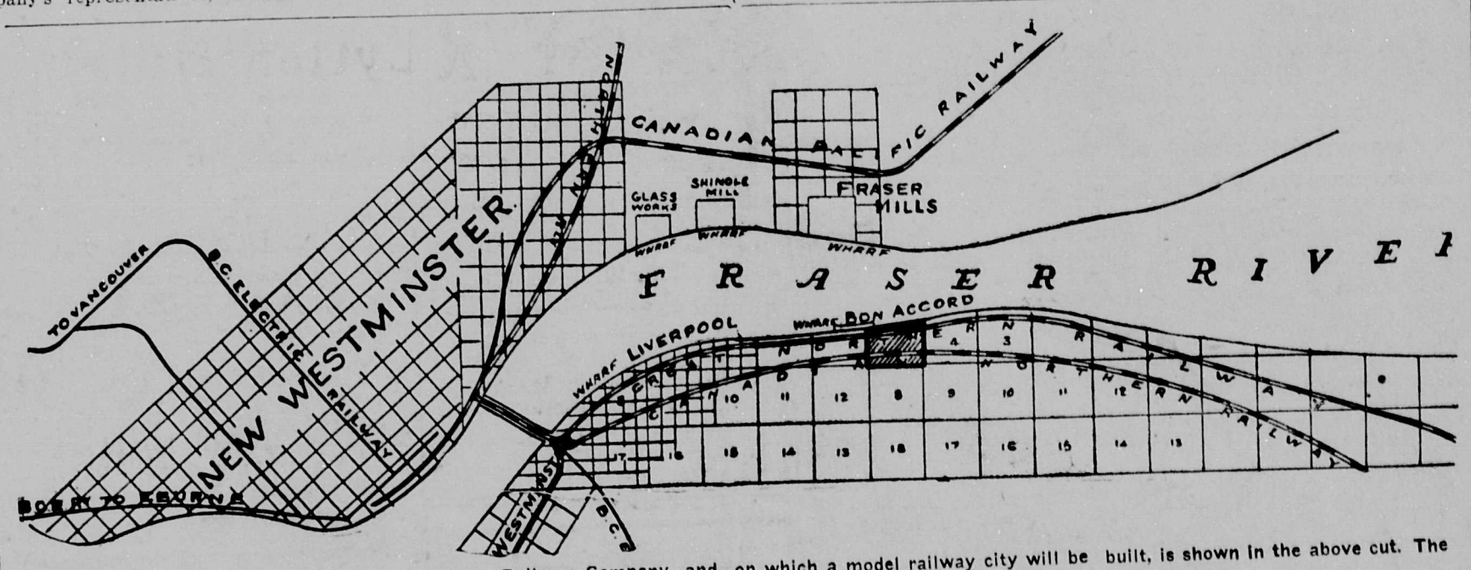
Much of the land acquired by MacKenzie & Mann was purchased from a local syndicate formed by White, Shile & Company in 1908, the members of which made a good profit on their investment, although the price they got for their holdings looks small compared to present-day values. Included among those who figured in this syndicate were J. S. Allen, of Vancouver; John Crean, J. B. Kennedy, A. E. White, D. A. Shiles, E. H. Sands, G. E. Corbould and A. E. Rand.

The waterfrontage is suitable for the building of docks which will easily accommodate ocean-going vessels drawing from twenty-six to thirty feet of water, and that the building of these docks is sure to bring much foreign trade to this city is an assured fact.

The possibility of having one or more grain elevators built across the river, now that docks are assured, is a great deal nearer realization than has been the case to date. It is more than probable that the railway company will take the initiative in this matter long before a C. N. R. engine brings the first C. N. R. train to the Pacific coast over its own lines.

Negotiations which have been in progress for some time looking towards the purchase of the old G. N. R. line to Cloverdale by the C. N. R. have now fallen through, the offer of the Canadian company having been refused by the Hill interests. The reason for the refusal of the G. N. R. is not known, and, as that company is not making much use of that line since the building of the Scenic route, it is thought by many that another company is negotiating for the use of that section. This is probably the Stone & Webster railway, which is known to have surveyors in Surrey, and which would probably find it cheaper to buy and re-ballast than to build.

That construction camps will be dotting the south side of the Fraser river on or before July 1, the date set for the first shovelling of the dirt, would be indicated by the presence here yesterday of Dr. MacKenzie, brother of F. J. MacKenzie, M. L. A., for Delta, who is the head medical man for the C. N. R. in this province, and who appoints all his subordinates who will have the care of the men employed in the building of the line. The organizing of the medical staff will take some little time, but will probably be completed within the next two or three weeks.



The property owned by the Canadian Northern Railway Company, and on which a model railway city will be built, is shown in the above cut. The land runs about a mile farther back than the plan shows.

WILL NOT LET BOARD DROP EIGHT HOUR BILL

Trades and Labor Council Seek Conference With Board of Trade—Business Good in Labor Circles.

The attitude of the board of trade on the eight-hour day bill is still agitating the union men of the city. At last night's meeting of the trades and labor council it was decided to ask the board to set a date when the matter could be discussed. The labor men said that it might be too late to get any opinion from the board of trade before the bill came before the house at Ottawa, but thought it would be well to get an expression of the attitude of the board should they come up again. If they could persuade the board from endorsing any resolutions of the Canadian Manufacturers' association, on the grounds that it was not within their scope of activity, something would be accomplished.

The condition of the city laborers was brought up for discussion by Thomas Turnbull. The men now work nine hours per day, and it was the opinion of the meeting that eight was sufficient. The meeting also thought that the pay for this class of work might be raised. It was decided to make representations to the city council to that effect.

There was a long discussion on the purchase of union and non-union goods, and the members were urged to insist on the union label on all purchases. Some of the members also spoke on the advisibility of purchasing goods made in New Westminster as far as possible. The delegates were also asked to persuade their men to smoke union made cigars and tobacco.

Delegate Stoney, on behalf of the Typographical union, asked that all printed matter not bearing the union stamp be sent in to him and he would return it to the publisher with the intimation that his stuff would be more acceptable with the label on it.

Much time was consumed on the question of purchasing a cook stove for use in the Labor temple. There was a committee appointed to look after it at the last meeting but it was not in a position to report and after due deliberation it was decided to allow it more time to collect data.

The different delegates made their reports as follows: Cigar makers, "All working"; printers, "All working and printers scarce"; machinists, "Business improving"; barbers, "All working"; plumbers, "Mostly all working"; carpenters, "Business very good."

WERE TIRED OF LIFE.

Epidemic of Suicide Breaks Out Amongst Girls in Russia.

St. Petersburg, March 18.—Something of an epidemic of suicide, due to neurathenia and melancholy, was recently remarked here and further attention was called to it yesterday by the suicides of three girls of social status, one of them an heiress to $10,000,000.

Three men, after one of them had played Chopin's funeral march, all drank poison together. They left letters saying they were tired of life. Fifteen other suicides, mostly girls, were reported yesterday.

HEIR TO RICHES.

Homeless and Penniless Wanderer Lays Claim to $750,000.

Fresno, Cal., March 18.—A homeless and penniless wanderer at present in this city is heir to part of an estate of $750,000 in Boston, Mass. This man is Daniel Blake Russell, who has been missing from his eastern home for twenty-five years.

At present there is a man laying claim to Russell's legacy in Boston, giving himself out to be the missing man. Russell has made affidavit to his identity.

$500,000 PAID FOR PAINTING BY HALS

New York, March 18.—Half a million dollars—a record high price for a painting—was paid today for the celebrated portrait of Franz Hals, the Dutch painter, and his family, painted by himself.

The purchaser was Otto Kahn, the banker, who secured the portrait from the Duveen brothers. J. P. Morgan bid between $350,000 and $400,00 for the picture.

FOR CONSCIENCE FUND.

Man Who Defrauded City of $425 Sends Money Back.

New York, March 18.—The largest contribution to New York city's conscience fund ever received was reported by Comptroller Prendergast today. The money, which amounts to $425, was brought by a Catholic priest. He received it, he said, from one of his parishioners who believed he had obtained it unfairly from the city. No further details were volunteered.

TARIFF WAR LOOKS GOOD TO MERCHANTS OF GERMANY

Possible Fiscal War Between United States and Dominion Pleases Teutons—German-Canadian Population Growing.

Berlin, March 18.—Germany counts on profiting handsomely by the impending Canadian-American tariff war, as the United States is regarded here as a more dangerous rival to German trade ambitions than the Dominion, Great Britain or France. Anything calculated to stem an invasion of the Canadian market, therefore, is hailed as an ill wind which can blow Germany only good.

The Vossich Zeitung, commenting on the possibilities of a fiscal war, recently observed that Germany had every reason to sit back and enjoy the conflict silently, smiling while the German press was publishing with pride statistics showing the growth of the German population in Canada. It is said that there are now 17,000 German residents in Canadian western provinces alone, and it is believed that they will be active promoters in the German trade ambitions with their adopted fatherland.

London, March 18.—Lieut. Shackelton, who holds the record of "Farthest South" and who is sailing for America tomorrow, has plans well advanced for another Antarctic expedition in 1911.

MOOSE JAW MAN BUYS CENTRAL HOTEL BUSINESS

W. Curran Purchases Local Hostelry for $22,000, Half Cash—Takes Possession on Monday.

For a consideration of $22,000, half of which was paid over in hard cash to bind the bargain, the Central hotel changed hands yesterday, the purchaser being W. Curran, of Moose Jaw, who bought from Miss Gordon, to whom the business had been willed by the late William Collier, whose death occurred only a few weeks ago.

The purchase includes the building, contents and goodwill of the business. The site on which the hotel is built is owned by W. Edmonds, and is not for sale at the present time.

In 1899 Mr. Collier secured a twenty year lease on the property. This has still nine years to run, but as there is no likelihood of a renewal at its expiration, it is not probable that Mr. Curran will erect a new building. He proposes, however, making a number of improvements both to the outside and inside of the hotel, and will endeavor to bring it strictly up to date. He enters into possession on Monday.

WESTERN CANADIANS ARE VERY PATRIOTIC

Toronto, March 18. — "There are more Canadians today born in Canada residents of the United States than there are in western Canada. Why did these men in the west go there instead of south of the line? It was because they were Canadians in spirit and wanted to remain in Canada." In these words Hon. Frank Oliver defended the Canadians in the northwest before the Canadian club today at luncheon. Mr. Oliver said that he did it because he had heard it from the lips of public men and read it in the papers, that there was a great misconception down east as to the spirit of patriotism existing out west. Mr. Oliver said that if easterners wanted to see what the real Canadian spirit was, they must look west of Lake Superior.

REGULARS UNABLE TO BREAK COMBINE

Bolting Republicans and Democrats Fuse---Champ Clark for Speaker.

Washington, March 18.—Flushed with two successive victories on Tuesday and Wednesday over the rule of Cannonism in the house, the insurgent-democratic-republican forces on Thursday joined in a movement to completely overthrow the power of "Uncle Joe," and when a truce came at 4:30 p. m. today in the shape of a postponement of the fight until tomorrow, the insurgents had things practically in hand.

After a thirty-six hour session, the most bitter in the history of the United States congress, the "regular" republicans practically admitted defeat. They consented to a conference with insurgent leaders in an effort to come to an agreement. This meeting of the two factions was without result.

From the democratic side came the positive declaration that the regulars were defeated, and it was merely a question of how and when.

From one of the most intimate friends of the speaker came the somewhat startling statement that if the Norris resolution was passed Speaker Cannon would resign, and that the regulars would vote with the democrats for the election of Champ Clark as speaker, rather than side with the insurgents for the selection of one of their number. This was denied by other friends of the speaker.

Every hour added to the weariness of the members, who had been in the thick of the combat for thirty-six consecutive hours. Dejection was written on the faces of many of the regular republican leaders, and it was plain they believed they were at best only prolonging inevitable dethronement.

VANCOUVER CATERER BUYS ROYAL CAFE FROM J. CASH

Business Was Disposed of for About $3800—Mr. Cash Will Start Another Restaurant.

Cash's restaurant (the Royal Cafe) has been sold. The purchaser is E. W. Seabold, of Vancouver, who has had considerable experienc in that line and will carry on the business in the Dominion Trust block. He will probably move upstairs, where the pool room now is, in the course of a month.

The vendor, J. P. Cash, has been in possession of the cafe since the first of November, and during that time has worked up a first class trade and made the place one of the best restaurants on the coast. He states that he is not going to retire from the restaurant business, as he is going to start another as soon as he can secure a suitable site, probably on Columbia street. He has several offers under consideration at present.

Mr. Cash did fairly well on the deal. He paid $2800 for the place four months ago and it is understood that the selling price is in the neighborhood of $3800.

The new management will take charge on Monday.

LLOYD-GEORGE ON VERGE OF PHYSICAL BREAKDOWN

London, March 18. — Lloyd-George, chancellor of the exchequer, but better known as the moving power of the government forces, today is on the verge of what his friends fear may be a physical collapse.

The chancellor shows plainly the result of the terrible strain and worry he has undergone in the last six months in guiding the fortunes of the present regime. The chancellor realizes his depressed condition, but maintains stoutly that he "simply needs rest." His friends, however, fear that he will not take a sufficient rest, owing to the complicated political situation.

Fielding to Meet Taft.

Washington, March 18.—President Taft has invited W. S. Fielding, minister of finance of Canada, to meet him in Albany tomorrow or Sunday for a conference regarding the Canadian tariff dispute.

RACETRACK GAMBLING

The bill introduced into the House of Commons by H. H. Miller, to make racetrack gambling illegal, is attracting considerable interest on both sides of the House, and when it comes up for consideration, which will be within the next two or three days, an animated debate is likely to ensue. The bill has been favourably reported upon by the special committee to which it was referred, the majority of the committtee in favour of the measure being five to two.

The whole subject of race track gambling was thoroughly gone into by the committee, before whom quite a large amount of evidence was given both for and against the proposal. In fact all parties who were in any way interested in the subject, whether from a religious, moral or commercial standpoint, were allowed to give expression to their views. The report of the committee therefore, based as it is upon so wide a consideration represents a potent argument in support of the measure.

An amendment was submitted by the two minority members of the committee as an alternative to the majority report, which proposed to permit bookmaking, but to prohibit certain practices generally conceded as being harmful and injurious, such as the selling of race forecasts or advance tips. This was however promptly rejected. As bookmaking may be regarded as the source of the whole evil, it would have been paramount to destroying the whole purpose of the bill to have allowed this.

No doubt this measure, which is of a somewhat drastic character, will be somewhat modified in its passage through the House, but it is scarcely likely that its real object, the elimination of the professional betting element, in its various forms, will be weakened or destroyed.

THE BEST APPLE.

Quite an amusing contest over the question as to which province in the Dominion grows the best apples arose in the House of Commons on Thursday, in connection with the discussion upon the government bill to prevent the spread of insect pests and diseases destructive to vegetation. Hon. Sidney Fisher, by whom the measure has been introduced, claimed supremacy for the province of Quebec, which, he said, produced apples ahead of all others in both flavour and quality. Thereupon the member for Halifax reproached the minister for his ignorance as to the superiority of the Nova Scotian product; several Ontario representatives declared that their province was entitled to first place for pomological specimens; whilst the member for Kootenay submitted an unquestionable proof that the province of British Columbia enjoyed premier honours the numerous medals and awards won by her displays in Great Britain and elsewhere. For all this Mr. Fisher stood his ground and delcined to admit that the apples of Quebec had any superior, they were indeed, he said, the very best apples in the world.

As to the bill itself, which passed the second and third reading, this proposes to put in force throughout the Dominion measures of precaution and prevention similar to those which have for some years been in force in British Columbia. The excellent results which have attended the system of inspection in this province that no interference or overlapping should result from the government's legislation. "Splendid work was being done by British Columbia," said Mr. Fisher, and added significantly that "if other provinces were doing as well there would not be much necessity for the new legislation." Such a declaration must be very gratifying to the people of this province.

PRESIDENT LUSBY DELIVERS ADDRESS

Many Suggestions Made as to Work for Year—New Committees Appointed.

The following is the address delivered Thursday night at the regular meeting of the board of trade by President Lusby, who presided for the first time:

Members of the Board of Trade,

Gentlemen,—Before attempting to outline the work of this board and its committees as it suggests itself to me, I wish to say, that in assuming the position of president of the New Westminster board of trade, I do so with considerable diffidence knowing the responsibilities of such an honorable position, a position which I consider the highest that the business men of ths city can bestow.

When accepting this office I intimated that there were some changes in the conduct of the work of the board which it seemed to me might be made with advantage.

The general advertising of the city for the purpose of attracting population, investors and industries, I regard as quite distinct from the usual commercial work of the board. I am

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land on each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

MILK SHIPPERS' UNION ELECTS OFFICERS FOR YEAR

At a meeting of the Lower Mainland Milk and Cream Shippers' union held in the board of trade room here yesterday afternoon it was decided to leave the question of the price of milk during the summer to the executive, which will hold a meeting for that purpose early in April.

The following officers were elected:

President, Thomas Foster, Whonnock; vice-president, H. F. Page, Matsqui; secretary, S. H. Shannon, Clovdale; directors, M. E. Alexander, Matsqui; A. W. Haine, Dedwney; R. Warik and George Hunter, Langley; Angus Campbell, Upper Sumas; Erskine, Sea Island; L. W. Embree, East Delta; Sam Smith, Dewdney; W. H. McMyn, Pitt Meadows; J. M. Steves, Steveston; J. Laity, Hammond; Duncan McDonald, Lulu Island.

Big Bond Issue.

London, March 18.—The chancellor of the exchequer today announced an issue of $105,000,000 five-year exchequer bonds, bearing three per cent. interest. The bonds are offered at 99 1-2.

AMERICAN WARSHIPS FOR SOUND WATERS

Puget Sound Navy Yard, Wash., March 18.—That a battleship division consisting of the battleships Oregon, Iowa, Indiana and Massachusetts will be stationed in these waters, is the general belief at the navy yard today.

The Oregon is now being completely remodelled at the navy yard, her armor and guns increased and a military mast added, until she little resembles the famous "bull dog of the navy" that rounded the Horn in '98. The other three ships are on the Atlantic. They are expected to arrive here next summer. Just where the information comes from cannot be discovered, but it seems to be authentic.

RAILWAY COMMISSION TO INVESTIGATE WRECK

Olympia, March 18.—The members of the state railway commission went to Seattle this morning to attend a meeting of Great Northern officials, which will be held to investigate the causes of the recent disaster at Wellington.

This is the first time the commission has been called upon to determine whether such disasters can be classed as acts of providence or whether it might have been possible for the officials to have averted the tragedy.

TARIFF QUESTION DOES NOT AFFECT CANADIAN BUSINESS

New York, March 18.—In the western part of Canada wholesale trade is good, but in the turnover shows a very slight improvement. In that section colder weather holds back orders. Shoemakers are busy, and the provision market continues very firm. Retail trade is fair in the east and in the west. No apprehension is felt over the tariff question except among lumber interests. Business failures for the week number 25, which compares with 36 last week and 32 in this week of 1909.

Dorando finished one third of a lap ahead of St. Yves in the fifteen-mile race in Vancouver last night. The time was 1 hour 27 minutes and 30 2-5 seconds, almost seven minutes behind the professional record for the distance. Marsh dropped out in the tenth mile, his leg going bad on him from a sprained tendon he received in California some time ago. St. Yves stopped to tie his shoe in the fourteenth mile and the delay probably proved fatal. A fair crowd watched the race.

CONTRACTS PLACED FOR NEW TURKISH BATTLESHIPS

London, March 18.—Contracts for two battleships and a cruiser, the nucleus of the new Trukish navy, were placed today with the builders, at Elswick, Barrow and Clydebank respectively. The order represents an expenditure of $15,000,000.

Suffragists Rejoice.

London, Eng., March 18.—Winston Churchill's advocacy of a plan to modify English prison regulations affecting women is accepted by suffragists as a veritable victory for their cause. They see in his championship of a less rigorous prison regime a step toward the accomplishment of their campaign against the treatment of their members who are jailed for participating in public demonstrations.

Railroad Merger.

New York, March 18.—The announcement was made this afternoon that the Lake Shore railroad has secured the Toledo and Ohio Central and Zanesville and Western railroads. The Chesapeake and Ohio has acquired large stock holdings of the Hocking Valley and Lake Shore and the Chesapeake and Ohio has acquired the Kanakawana and Michigan stock owned by the Hocking Valley.

Rome, March 18.—A poem by the Emperor Charlemagne has been discovered by Cardinal Rampolla, who was papal secretary of state under Leo XII. The cardinal, who is publishing a book on ecclesiastical history, found the manuscript in the Vatican library in two pieces. He has no doubt as to its genuineness. The poem, which is in Latin, was written by the great emperor as a lament for the death of his son. That Charlemagne was a poet of no mean gifts is proved by the existence of his epitaph on Pope Stephen and other verses.

EMPLOYERS' LIABILITY

Why You Should Insure Against Lawsuits

WORKMEN can sue you without cost to themselves, and they have EVERYTHING to gain and small chance to lose by so doing.

PERSONS other than employees accidentally injured about the premises invariably sue for damages.

REGARDLESS of their own responsibility for the accident, or the existence of negligence on the part of others.

ON the slightest pretext employees may sue you, even for accidents caused by the negligence of a fellow-workman, and

THE suit may be brought against you long after the occurrence of the accident by which he was injured.

EMPLOYERS and business men can ill afford to assume the risk of this ever-increasing and uncertain liability.

CREDIT of otherwise responsible manufacturers and business firms is sometimes seriously impaired by such damage suits.

TO go to law means loss of time, money, endless annoyance and worry.

YOUR profits may be seriously curtailed as a result of accident unless you are insured.

ONLY insurance against such risks will enable you to fix and reduce your expenses to a minimum.

UNDER the protection of a Liability Policy in the Railway Passengers' Assurance Company you will save money and time and be relieved from all such annoyances.

ADVERTISE IN THE NEWS

President Lusby Delivers Address

(Continued from Page Four.)

rather of the opinion that the regular work and proceedings of the board have been given undue prominence in the daily press and I think that the business interests of the city might often be better served with less publicity. The question arises whether reports of proceedings of the board should not be given to the press by the secretary.

I need only refer to the annual financial report to remind you that our finances are not in as flourishing a condition as we could wish and I think steps should be taken to reduce our expenses.

The following are a few suggestions I would advance for the consideration of the various committees:

Agriculture.

New Westminster being the centre of a rich agricultural district, the duties of this committee are very important. One feature that seems to stand in the way of more rapid development of our farming interests is the great expense of clearing land. I would suggest that a scheme to enlist both government and municipal assistance be taken up, and the district boards be asked to co-operate. Fruit culture and its possibilities, especially as to its disposal in a manufactured conditon, might profitably be looked into.

Commerce and Industries.

We have for years been claiming this city as the best site in British Columbia for the location of manufacturing industries, and to back this claim up, it is necessary to gather and put in concrete form data covering probable cost of site and power, freight rates and markets. Before endorsing any industrial proposition the bonafides of its promoters and the reasonable chances of its success should be well looked into. At the same time our existing industries should not be overlooked but should be fostered in every possible way. It has appeared to me sometimes that a better showing of "made in New Westminster" might be arranged for our exhibition.

I wish also to impress on the committtee and upon the citizens the importance of the small factory, the factory that will grow with the city. These establishments need your assistance.

Transportation.

In this lies the secret of trade and commerce. If New Westminster wishes to be a large commercial centre it is absolutely essential that all obstacles be removed that will in any way retard cheap and quick handling of the world's products.

Our commerce and industries demand equal advantages in freight rates and facilities in order to meet competition. In this at present, I regret to say, we are discriminated against, and it will take strong, firm action to have this righted. There is work ahead for this important committee.

Legislation.

This excellent committee, composed as it has been in the past, of able men, has not had many matters rerenctly to consider. I would suggest that many of the resolutions from other boards, etc., that are presented to this board for approval or endorsement, be handed to this committee for consideration and report before action is taken that any resolution that this board may wish to adopt and forward, especially to governments, be carefully scrutinized by this committee.

Roads and Bridges.

The question of better roads is a burning one, and on this subject the district boards should be urged to take strong action with the municipal authorities and government, and impress upon them the vast opening for improvements in this connection.

Membership.

In one word, "Activity."

Postal Connections.

That not only the local service be kept up to an adequate standard, but our connections with the outside world, and especially with district points, be the very best possible.

Municipal.

A large amount of money has been voted by the ratepayers for the betterment of our streets and other improvements and, with much permanent work in view, it should be our aim to co-operate and assist the city council in every possible way. To all committees I would say, "Anticipate requirements."

In addition to the different subjects which come directly before the standing committees, the following I ask to be considered:

That an effort be made to have band concerts during the summer months.

That the question of a general Saturday half-holiday be taken up by the business men of the city in order that the proprietors and clerks alike be allowed to enjoy this boon as well as others. I urge this.

That our business methods relating to transactions among ourselves be improved, and that every effort be made to have the business men of the city extend their trade to the limit by increasing their stocks, strict attention to business demands and details, going out after business, etc., in order that we may capture and retain the supplying of the vast requirements of the district immediately tributary to this city.

Commercialize! Commercialize! "Not Boom, but Business."

BRITISH MANUFACTURERS WATCH TARIFF SITUATION

London, March 18.—The tariff situation between Canada and the United States is being keenly watched by British firms, as in the event of an imposition of a surtax on American goods by Canada, British manufacturers, it is expected, will reap considerable advantage.

JOHNSTON'S Are in a Quandary

OWING to the unexpected delay in regard to our store alterations, we find we will not be in a position to display our Easter and Spring Footwear as we usually do. Regardless of this our Spring Goods are pouring in—already we have opened up hundreds of cases of the very newest styles of Men's, Women's, and Children's Shoes. There is not a line missing. We have all the new creations in Women's Shoes. Patent Pumps, Gun-Metal Ankle Pumps, London Smoke Tan Ankle Pumps, and a variety of Ladies' Colored Top Patent Bluchers form some of our leaders. Our large stock of Ladies' Suede Button Boots is a special feature. No store in the west can surpass us in the matter of stylish shoes for women.

DREADNAUGHT OF TODAY WILL BE DWARF OF FUTURE

London, March 16.—The battleship of the future may be fifty per cent. larger than the present Dreadnought. This is the prediction of Rear Admiral Bacon, commander of the original Dreadnought, who addressed the Intitsute of Naval Architects today. The size of the guns must increase until actual warfare confirms or qualifies the present theories of naval construction, he added.

COAL MINERS MUST HAVE MORE PAY OR WILL STRIKE

Cincinnati, March 16.—Only by advancing wages can the coal mine operators of the country avert a strike of union miners on April 1, according to developments before the special convention of the United Mine Workers of North America here today. The session lasted only forty-five minutes, but in that time the leaders of the men indicated plainly that more money must be paid to the three hundred thousand workmen involved, or no new wage agreement will be signed.

SEEKING EX-MEMBERS QUEEN'S OWN RIFLES

Several thousands of former members of the Queen's Own Rifles will assemble from all parts of the continent at Toronto next June, for a reunion in celebration of the Semi-Centennial of the regiment. The festivities will commence Saturday, June 18, with a reception at Government House, his Honor, the Lieutenant-Governor, like many other notables, being an ex-member of the crack regiment. On Sunday a monster church parade of ex-members and the present members will be a unique affair. During the week, grand historical pageants on a scale only equalled at the Quebec Tercentenary, will be given by several thousand performers on the Rosedale Athletic grounds. In addition, there will be numerous social meetings of old comrades.

In nearly every town and city in the Dominion, and in many in the United States and elsewhere, are men who have served in the Queen's Own, and the Semi-Centennial committee is desirous of getting personally in touch with as many of them as possible. To that end, it will greatly facilitate matters if the ex-members who see this will at once communicate with the permanent secretary, G. I. Riddell, 36 King Street East, Toronto, and prevail upon all the other ex-members they know to do the same. Mr. Riddle will promptly send them particulars.

FADS OF THE FAIR.

A Tip as to Wedding Veils—Ornament For Hair Arranged In New Style.

A wedding veil of tulle will cost from $10 to $15 to begin with. The price depends somewhat upon the height of the wearer, for the veil must fall quite to the end of the long train. After the lengths of tulle have been draped on the head and spread out over the skirt the lower edge should be shaped so that it falls gracefully just over the train. The veil which falls over the face is the easier to arrange, for it has only to be thrown over the head, a coronet of orange buds holding it in place on top. White pearl headed pins should be used for fastening it to the bride's hair.

Cords with large, bright jewels arranged in little pyramids are quite effective for the new coiffures, which have a flat effect in front.

AN ATTRACTIVE HOUSE GOWN.

Coats for small girls are of pure white materials untrimmed, but little collars and muffs of ermine or white fox usually accompany the wrap.

This simple house gown is very practical and pretty. Dotted challie is the material used. The straight, slightly full fronts give long and becoming lines, and the fitted back is in every way attractive.

JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 34 to 44 inches bust measure. Send 10 cents to this office, giving number, 6548, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

SNAPSHOTS OF LA MODE.

Sash and Belt In Favor—Colored Year For Debutante.

The return of the blouse and separate skirt restores the sash and belt to favor, and some attractive styles in leather and silk are to be found. Satiny folds encircle the waist line, while scarf ends are knotted at the back.

The conventional color for the long suffering debutante is no longer white, but almost any shade may be chosen for her coming out gown this year.

Coats for small girls of white coney are very smart and bordered with white fox, while coney is also developed into evening wraps for women. Coats for small girls are pretty with collars and cuffs of ermine or white fox.

YOKE NIGHTGOWN.

In children's clothes black and white checked materials are much used. Little coats of the same are worn over these dresses.

The simple nightgown that is made with square yoke is always a desirable one, and the model in the cut suits all materials that are used for underwear. It can be made either high at the neck with the rolled over collar or with square neck and with long or short sleeves. In the illustration it is made of nainsook and trimmed with lace bands and ruffles.

JUDIC CHOLLET.

This May Manton pattern is cut in sizes from 32 to 44 inches bust measure. Send 10 cents to this office, giving number, 6546, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

ROBIN HOOD FLOUR IS DIFFERENT

This is the Wonderful New Flour

that has made such a sensation throughout Western Canada.

Made of highest grade Saskatchewan wheat, in the newest, best-equipped, largest mill on the prairies.

Made with the determination to give users better flour-value, greater certainty of baking-success, fuller satisfaction with the final result, whether with biscuits, cake or bread.

Housewives throughout all the West admit that Robin Hood Flour gives all this. Therefore, Madam, it is the flour for you.

This flour cannot be described in an advertisement. We use this paper merely to give the introduction—to say:

"Let us make you acquainted with Robin Hood Flour."

It is the guaranteed flour. If you are not satisfied with it after two fair trials, ask your grocer for your money back. He will give it to you.

Add more water than usual when using Robin Hood Flour. Made of such hard, dry wheat, it absorbs more moisture—producing a larger, whiter loaf.

The difference between Robin Hood Flour and other flours you have to find out for yourself. That there is a difference every woman who now uses Robin Hood admits.

The Firm Behind

NA-DRU-CO

Medicinal and Toilet Preparations

When your doctor gives you a prescription and your druggist fills it, you have confidence in that medicine. You have good reason for that confidence, for behind the medicine is the professional skill as well as the honor of two men whom you know and respect.

When you buy what are ordinarily known as patent medicines at your druggist's, what guarantee have you of either the formulæ or the compounding? Your druggist can give you none, for the makers do not take him into their confidence.

Take for instance headache cures. Many people hesitate to buy them because they don't know what may be in them. Not so with **NA-DRU-CO Headache Wafers.** Your druggist can get the list of ingredients from us for the asking.

NA-DRU-CO TRADE MARK — ONLY OUR PRODUCTS BEAR THIS TRADE MARK

Can you think of any article you buy with which it is more important that you should have **a definite guarantee, made by responsible men,** than medicinal and toilet preparations?

NA-DRU-CO TRADE MARK — ALWAYS LOOK FOR THIS TRADE MARK

When you buy preparations bearing the NA-DRU-CO Trade Mark you have this guarantee, made by the National Drug & Chemical Company.

A Guarantee that Carries Weight

The National Drug and Chemical Company of Canada, Limited, is one of the largest wholesale drug firms in the world, having a Paid-up Capital of over Five Million Dollars. We have wholesale branches in **Halifax, St. John, Montreal, Ottawa, Kingston, Toronto, Hamilton, London, Winnipeg, Regina, Calgary, Nelson, Vancouver and Victoria,** and chemical works and laboratories in Montreal and Toronto.

We are the largest buyers of drugs and do the greater part of the wholesale drug business in Canada. We employ a staff of about nine hundred people and distribute in salaries, dividends and other expenses over One Million Dollars annually. We carry a stock distributed among our branches of about Two Million Dollars, and in addition to these and other large assets our real estate and buildings are today worth about Five Hundred Thousand Dollars.

All this backs up our positive guarantee that goes with each package bearing the NA-DRU-CO Trade Mark.

A Comprehensive Guarantee

Every **formula** used in compounding NA-DRU-CO articles has been given years of careful study and practical tests, proving beyond question its value and its safety.

All the **ingredients** in NA-DRU-CO preparations are the best and purest that money can buy.

Every NA-DRU-CO preparation is **compounded by expert chemists** in our employ—men who are thoroughly qualified both by training and experience.

Our confidence in NA-DRU-CO preparations is best expressed by the two following unconditional offers:

We are prepared to furnish, on request, to your physician or druggist or to any other physician or druggist in Canada, a full list of the ingredients in any NA-DRU-CO preparation.

If you are not entirely satisfied with any NA-DRU-CO Preparation you buy, return the unused portion to the druggist from whom you bought it and he has our authorization to **return you the full purchase price** and charge it to us.

If your druggist hasn't the particular NA-DRU-CO Preparation you want in stock he can get it for you within two days from our nearest wholesale branch.

MARKET REPORT

The gradual rise in the price of vegetables and a slight decline in the wholesale price of eggs were the features of a good market yesterday. As spring advances it is becoming harder to secure good firm vegetables and consequently the price has been stiffening for some time. Yesterday onions were quoted at $2 per sack and carrots at 75 cents, which are the highest prices recorded for the year.

The attendance at the market was better yesterday than it has been for some weeks, the vendors taking advantage of the fine weather to appear in force, and the buyers also turning out well.

There were large quantities of potatoes brought in and the demand was scarcely equal to the onslaught, but most other lines were sold out early in the day.

Beef was not so plentiful but the demand was good.

Lamb and mutton was brought in in fair quantities, but the supply was short of a strong demand.

Veal was in the same class, the supply and demand both being strong.

Pork, although there was a good supply of it for sale, was short of demand.

No ducks were offered.

All fowl which was offered for sale found ready buyers.

There was a fair supply of apples and good stock sold readily.

The supply of eggs was very good and the wholesale price dropped two cents in consequence.

HUDSONS BAY ROAD TO BE RUNNING IN THREE YEARS

London, March 16.—William MacKenzie, president of the C. N. R., who is in London, expressed the opinion that the Hudsons Bay railway will be running within the next three years. It remains to be seen, however, whether the Dominion government or a company will build the railway from the Saskatchewan river to Hudson bay.
