HOPE OF THE WHITE RACE GOES DOWN TO IGNOMINIOUS DEFEAT BEFORE BLACK CHAMPION

Retired Heavyweight Fighter Makes Sorry Show Against Jack Johnson—Jeffries Knocked Out in Fifteenth Round—Battle Was All Johnson—White Man Suffered Terrible Beating and Only Landed a Few Blows.

Reno, Nev., July 4.—Jack Johnson is still the world's heavyweight champion. He knocked out Jim Jeffries in the fifteenth round today.

Fight One-Sided.

The fight was one-sided from the start. The negro blocked the old champion's blows at every stage of the game, and punished him severely in the last five rounds of the fighting.

James Jeffries, of California, winner of twenty-one championship fights, the man who had never been brought to his knees by a blow, tonight passed into history as a broken idol. He met utter defeat at the hands of the black champion. While Jeffries was not actually counted out, he was saved only from this crowning shame by his friends pleading with Johnson not to hit the falling man again and the towel was brought into the ring from his corner.

Big Crowd Glum.

At the end of the fifteenth round Referee Tex Rickard raised the black arm of Johnson and the great crowd filed out glum and silent.

Jeffries was dragged to his corner bleeding from nose and mouth and a dozen cuts on the face. He had a closed black eye, and swollen features and he held his head in his hands, dazed and incoherent.

Johnson walked out of the ring without a mark on his body except a slight cut on his lips which was the reopening of a wound received in training.

Jeff Had No Chance.

Ring experts agree that it was not even a championship fight.

Jeffries had a chance in the second round, perhaps, but after the sixth it was plain that he was weakening and outclassed at every point. After the eleventh round it was hopeless.

It was the greatest demonstration the ring has ever seen of the failure of a fighter to "come back" after years of retirement.

The science of the black man made Jeffries look like a green man. The great Jeffries was like a log. Johnson was like a black panther, beautiful in his alertness and defence and attack.

Old Man Game.

Jeffries fought by inches, it seemed, showing his gameness and his great fighting heart in every round, but he was only a shell of his old self. The old power to take a terrible beating and bear it until he landed the knockout blow was gone.

After the third round Johnson treated his opponent almost as a joke. Johnson joked playfully, warding off the bearlike rushes of Jeffries with a marvelous science and now and again ducking out of reach.

Facts Made Evident.

Out of the sea of opinions and arguments that bolstered this fight and made it the talk of the world, these pinnacles of fact have been cast up:

The fight was on the square. Of this there was no doubt after the first round.

There was no evidence of the alleged "yellow streak" in Johnson.

Johnson proved himself so absolutely Jeffries' master that experts such as W. Corbett, the Australian sporting writer and ring expert, declared that Tommy Burns had put up a better fight against Johnson, and that the black man was only playing.

End Swift and Terible.

The end was swift and terrible. It looked as though Johnson had been holding himself under cover all the rest of the time and now that he had measured Jeffries in all his weakness had determined to stop it quick.

Men Refuse to Shake.

Round 1.—The men refused to shake hands. Johnson smiled and Jeffries calmly chewed gum. After a long opening season of sparring Johnson shot his left to the face and they clinched. Johnson pushed Jeffries back. Johnson swung his left to the jaw and as Jeffries roughed it at close quarters the big black shot his left again to the face. The men locked arms and in the break Jeffries closed in twice with two short arm lefts to the face and the crowd yelled. "Why don't you let up," shouted Corbett at Johnson and the latter winked and smiled back at the former champion.

The men continued in locked embrace and as the gong sounded the round Johnson playfully tapped Jeffries on the shoulder and went to his corner smiling. Jeffries then told his seconds to let him alone; he would fight his own battle. It was a tame round.

Johnson Chatters.

Round 2.—Johnson came up chattering like a magpie but Jeffries only smiled. "He wants to fight a little bit, Jim," howled Corbett. "You bet I do, Mistah Corbett," retorted Johnson. As Jeffries held on, Johnson clouted him with a wicked right to the jaw. As the men squared from a clinch Jeffries swung his right to the stomach, to which Johnson retaliated with two ripping left uppercuts to the jaw. The men closed together, Jeffries leaning on the champion with his right shoulder. It was a case of strength against cleverness, with the Nubian having the better of it. Johnson and Corbett "kidded" each other incessantly.

"Come On," Shouts Jack.

Round 3.—Both came up slowly. "Come on, Jim," shouted Johnson. Saying this the champion hooked his left to the stomach with much force. Johnson jabbed his left twice to the face and as they closed in breast to breast, Johnson whipped a left uppercut to the jaw and neatly blocked the boilermaker's onslaught. As the men circled about the ring Johnson kept up a constant cross-fire of conversation. The men separated. Johnson jabbed thrice with left to the face, and whipped a short arm right to the face. A long clinch followed, when the black missed a wicked right uppercut. Jeffries rushed at Johnson and blocked him neatly on a vicious right swing. Johnson patted his antagonist on the shoulder as the round ended. Johnson, on points, had a good advantage, but there was not power behind his stings.

More Advice From Black.

Round 4.—Jeffries missed a left swing, Johnson rushing away, leaving a stab to the face. Johnson taunted Jeffries constantly. "Don't rush, Jim; don't you hear what I'm telling you?" shouted Johnson, backing it up with a right uppercut to the jaw. Jeffries got in a good right to the mouth and the blood started flowing from the colored man's lips. "First blood for Jeffries," yelled the crowd. Johnson shot a hard left to the stomach and almost had his man against the ropes. The "golden smile" had not faded from Johnson's face at this stage. Jeffries forced the champion against the ropes and half a dozen short body punches found their mark in rapid succession. In response, Johnson shot a right to the jaw, and the round ended. It was Jeffries' round, it being the best so far.

Jeffries Hits Hard.

Round 5.—Johnson as usual came up with a volley of words. Jeff paid no attention to this but rushed in close and wrestled for a spell. At close quarters Jeff shot two rights to the body, to which Johnson responded with a left uppercut, cutting Jeffries' lip a bit. Johnson a moment later drove his right to the jaw and then followed it with two left uppercuts to the same place. Johnson varied the fight with a straight left to the nose, and they exchanged in clinches. Both men were bleeding at the mouth. Suddenly Jeffries sent the black's head back with a straight left to the mouth and Johnson looked a bit serious as he took his corner. However, he gave the boilermaker his customary love tap. No serious damage.

Johnson Going Strong.

Round 6.—"I'm going to mix it with him now," said Jeffries to his seconds. Three lefts radiated from the champion's shoulder, catching Jeffries on the face in each instance and the blood started from Jeffries' left cheek. A ringside fan asked Johnson if he would like a drink. "No," quickly retorted the champion and he ripped in three uppercuts to the white's jaw. Jeffries waded in, but was met with a nasty left uppercut that closed his right eye tight. Johnson followed this with two similar punches and the blood spouted from the retired champion's nose as he took his seat, when the bell ended the round. Jeffries' seconds worked heroically on his damaged optics. This was Johnson's round.

Jeff's Eye Bruised.

Round 7.—Jeffries came up with a ferocious frown and they closed in. A long sparring bee followed without a blow being struck, Johnson meanwhile carefully priming himself for an opening. Although Jeffries' eye was badly bruised he never lost his poise. Johnson laughed sarcastically as Jeffries essayed a right swing at close quarters. With the men locked in an embrace Johnson jolted his man three times over the damaged right eye and followed this with a right uppercut to the jaw. Jeffries stopped Johnson's bickerings with a straight right to the jaw. Johnson countered with the left and right to the sore face. The bell clanged.

Featureless Round.

Round 8.—Jeffries rushed in and the black drove a left to the mouth and shorty after shot in two straight lefts to the face that carried considerable force behind them. "Hello, Jimmy," shouted the black. "Did you see that one?" as they closed in without damage. Jeffries shouted, "Break away Johnson," but Johnson did not break and laughed as Jeffries missed a vicious left swing. Earlier Jeffries at close range had worked in two rights to the body that failed to fease the negro. Jeffries pushed his man about the ring and the bell rang, closing a rather featureless round.

Jeffries in Distress.

Round 9.—Johnson kept up a constant conversation in his corner before coming up to the scratch in this round. He hooked his left to Jeff's face with great force and continued to hurl tersely framed sentences at Jim Corbett. Johnson hooked another left to the jaw that carried with it a world of power. After Jeffries had butted with his head Johnson flung his left to the stomach and they went into a friendly clinch. Jeffries crouched low and Johnson drove him with a wicked left full tilt in the stomach. A moment later he sent in two left jabs to the mouth and eye but Jeffries apparently paid little attention to these blows. The round ended in Johnson's favor and with Jeffries' face bleeding in several places.

Black Peppers Away.

Round 10.—Not much life marked the coming to the center of the ring. Johnson shot two lefts to the head and followed this with a short arm right to the ear. A long clinch followed. Jeffries swung his right around the body. The men confined themselves mostly to infighting and short streaks of wrestling, Johnson always on the alert to land a punch. Johnson whipped two lefts to the jaw and a right uppercut to the jaw that made Jeffries yell "Oh" audibly. Johnson peppered away with his left and clearly outboxed his sturdy opponent. It was Johnson's round.

Opened With Wrestling.

Round 11.—A half minute of wrestling without damage opened the round and Johnson smashed Jeff time and again with the left and right to the jaw and the big boilermaker fought back wildly. Johnson swung a terrific right, more of an uppercut, to the jaw and followed this with a clean right uppercut to the jaw and Jeff almost weakened. Johnson emplowed left and right uppercuts again and again to the jaw and varied this with left and right swings to the jaw, and the blood spouted from Jeffries' mouth in a stream. Jeffries was in a bad looking way at this stage of the game, but he suddenly electrified the crowd by making a bound and rally, landing his right to the jaw and a hard left to the body that brought the crowd to its feet. Johnson had a good advantage.

Coon Joshes Jeff.

Round 12.—Johnson misses hard left hook. Jeff ducks cleverly. They spar and the coon joshes Jeffries. Jeffries again ducks left and failed to land left to face. Jack hooks to ear three times with right. Johnson uppercuts with right to the mouth and hooks the eye with the left. They clinch. Johnson hooks Jeff's damaged phiz. Johnson cleverly blocks left for the stomach and uppercuts mouth with his left. Jack hooks left eye with his right. Johnson's round.

White Man Wobbly.

Round 13.—Jack lands left hook to ear and talks to friends over Jeff's shoulders. Johnson sent a nasty left hook to Jeffs' bad mouth, but misses with right uppercut. Jack hooks left to ear and uppercuts to chin in the following clinch. Jack sent two nasty lefts to Jeffries' bleeding mouth and the white man spits a lot of blood. Jeff sends three light lefts to stomach and Johnson lands three vicious wallops to face. They clinch. Jack sends right uppercut to chin and left to stomach. He hooks ear with right. Jeffries is wobbling and his face is covered with blood. He can scarcely see. Jack sends left to right eye. They clinch. Jack sends a hard right across to the head. Fiddling at the bell. It was Johnson's round. Jeff appeared dejected as he took his seat.

Jabs in Stomach.

Round 14.—Jeffries up rather weak and receives left to face. Jack prods his nose with left and the blood again comes. They clinch. They break and fiddle. Johnson lands a nice right to the head. Jeffries sends a hard left to the coon's mouth and Johnson grins at the cheering of the crowd. Johnson then sent a couple of hooks to Jeffries' ear, jabbed the face with two lefts and landed a light uppercut. In a clinch Jim jabbed stomach. Johnson sends two lefts to the nose and Jeffries laughs. They go into clinch. Jeffries rushes and lands light right to the stomach. Johnson yelled to Corbett: "I thought Jeffries was clever like you." The round was in Johnson's favor.

All Over.

As they came up for the fifteenth round Johnson went at his man savagely. He sent Jeff to the floor the first time with a rain of lefts and rights to the jaw, Jeff taking the count of eight twice.

Each time Jeffries fell outside the lower rope on the platform.

As soon as he got up the second time he staggered for a foothold and Johnson sprang at him like a tiger and with right and left swings to the jaw sent him through the lower ropes of the east side of the ring, where he lay until counted out.

"I couldn't Come Back."

As Jeffries was helped to his corner he said: "I am not a good fighter any longer. I could not come back, boys; I could not come back. Ask Johnson if he will give me his gloves."

Friends Sympathize.

As Jeffries hung through the ropes after the last knockdown a hundred of his friends rushed forward.

"Please don't let the old man be knocked out. Stop it," they called.

Jeff Not Counted Out.

Jeffries was not counted out. As the timekeeper's hand moved up and down the towel was brought into the ring from Jeff's corner. Whether counted out or not, it probably will be recorded as a knockout.

STORIES OF GRAFT DENIED IN COUNCIL

Sensational Yarn Published in Vancouver Paper is Given the Lie.

The crowd of people which turned out to the council meeting last night with the evident anticipation of hearing something spicy on account of the auditor's report and rumors recently circulated about the audit were doomed to disappointment, as the auditor's report was not read and there was not a great deal said about the trouble.

Alderman Welsh brought the matter up by referring to a report which had appeared in The Sunday Mail of Vancouver alleging that there had been grave irregularities in the Royal City's official accounts and intimating that there would be some terrible exposures when the auditor's report was read. Alderman Welsh remarked that the city could not afford to let such matters slip and he moved that a committee be appointed which might consult with the city solicitor and decide what was best to be done.

Suspects Member of Staff.

Alderman Gilley was of the opinion that someone connected with the city hall must have been spreading reports and he thought an effort ought to be made to find out who it was.

Mayor Lee thought that no one had been spreading reports from the city hall, but that there had been a lot of street talk since the first of the year and it had finally got into print. He said that street talk was all that The Sunday Mail published and he did not imagine for a moment that anyone connected with the city hall had been making any statements that would lead to the rumors.

Auditor Cotsworth's Statement.

Auditor Cotsworth asked permission to speak and on it being granted said that for the financial interests of New Westminster he felt that the report in The Mail should be denied as soon as possible, and for that reason he had issued a statement. Auditor Cotsworth absolutely denied that he has ever given out any statements re the civic accounts and in addition states that the reference to an "interurban railway" is without foundation.

Alderman Gray asked him if he considered the statement published in The Columbian a denial of the allegations made in The Mail.

"Well, in so far as it says so," said Mr. Cotsworth.

Alderman Gray thought that the report should have been denied completely if there were no truth in it. "There may have been irregularities, but there has been no graft," said he, "and The Mail states that there has."

Mayor Makes Explanation.

Mayor Lee undertook to explain matters. The gist of his explanation was that there had been no suspicion of grafting against anyone, but that there had been some things that looked doubtful on account of the bad system of bookkeeping in use. He thought that in fairness to the persons under discussion there should be no action taken until the auditor brought in his report.

Alderman Gray thought that the trouble should be cleared away as soon as possible. He had been informed that there was all sorts of graft going on. He had built a house two years ago, Alderman Jardine had built one last year and Alderman Smith was building one this year—and the money was coming from somewhere.

After all this, Alderman's Welsh's original motion to name a committee was carried and his worship appointed Alderman Welsh, Johnston and Gray to act with the city solicitor in the matter.

Police Officer Criticized.

Some unnamed member of the police force also came in for some unexpected criticism at the hands of T. L. Turnbull, who wrote a letter to the council asking if it was part of the duties of the city police to threaten a man with legal proceedings if he did not pay up certain money to a civic employee who alleged that he had money coming to him. This matter was referred to the police committee.

An estimate of $12,187.99 for work done by the Hassam Paving company was passed for payment and one for $17,138.02 in favor of McDonald Bros. for steel pipe suffered a like fate.

Engineer Blackman recommended that the covering on the deck of the Lulu island bridge be not renewed but that the hand rails of the bridge be painted. The report was adopted.

Alderman Gilley reported that the council had visited Chinatown and had seen a number of shacks which were in need of demolition, and recommended that the proper legal proceedings be taken with that end in view.

W. J. Whiteside was present at the meeting and asked that he be notified whenever the liquor license bylaw came up for reconsideration, as he wished to address the council on the

(Continued on Page Four).

SCHAAKE MACHINE WORKS ARE CRIPPLED BY STRIKE

Machinists Obey Mandate of Vancouver Union and Walk Out—Places of Strikers to Be Filled.

All the machinists employed at the Schaake Machine works put in an appearance yesterday morning, but only for the purpose of taking away their tools, having obeyed the mandate of the Vancouver union to walk out on strike until such time as the employers say fit to concede to the men's demands, forty-five cents (minimum) an hour and an eight-hour day.

As far as can be learned, the men employed locally are not enthusiastic over the prospect of being idle for an indefinite time, but they have no option in the matter.

Manager H. Schaake, in discussing the situation yesterday, declared that he hoped and expected to have his plant going full strength again in a few days. The Schaake Machine works in Seattle were now running to capacity, so that the cessation of work at the local plant would not absolutely cripple the firm, although it would considerably inconvenience it.

A number of the pattern makers were at work yesterday, but there will have to cease work in a day or two.

SECRET SERVICE MEN ACTIVE ON FRONTIER

Germany's Agents Gather in Two Men and Woman Who Tried to Obtain Official Documents.

Paris, July 4.—An idea of the activity of Germany's secret service may be gathered from the espionage case which has just been concluded at Rheims. The prisoners were a man named Tahin, formerly belonging to an engineer regiment at Nancy, and Rose Tamisier, who assumed the role of a decoy exercising her charms on young soldiers who, she thought, might be likely to procure documents relating to the national defence which the German secret agent wanted. The woman set out to win the heart of a soldier belonging to the One Hundred and Thirty-second regiment, but he discovered her real game, and instead of succumbing to her blandishments had her arrested. This soldier and two other women gave evidence.

The man Taffin declared that he had received $175 from the German secret service agent for certain papers, but while he got the money, he asserts that he did not part with a single paper.

The trial was a secret one. Taffin was found guilty and sentenced to five years' imprisonment, fined $600 and the woman was forbidden to reside in the country for ten years. The woman was exempted from punishment because she had denounced Taffin.

PLANS OF NEW HOSPITAL ARE FINALLY PASSED

Architect Consults With Plumbing Inspector and City Electrician Regarding Installation Details.

At a meeting of the building committee of the Royal Columbian hospital held yesterday morning, the specifications for the new hospital were finally passed. The architect yesterday was in consultation with the plumbing inspector and the city electrician, and as soon as some details of that nature are arranged it is expected that construction will be started.

Those present at the meeting yesterday were M. Sinclair, in the chair; J. J. Jones, L. A. Lewis, H. T. Kirk, J. J. Johnston and W. H. Keary.

CONNOLLY BEAT HORSE IN TEN MILE RACE

Winnipeg, July 3.—Jimmy Connolly, the fast little local long distance runner, is back in the city for a day or two, having returned from Abernethy, Sask. At Esterhazy, John D. Marsh and Connolly ran a twelve mile match race and a relay race against three men. Connolly lost to Marsh, but defeated the relay team. Jimmy then raced a horse ten miles at Hill Farm, winning by two yards in fifty-seven minutes.

After romping away from the equine Connolly's next race was a twelve mile relay against three Indians at Langtry, whom he defeated, going the distance in one hour, eight minutes and twenty seconds. In addition to these races since leaving Winnipeg, Connolly lost a five mile handicap event to four men, being defeated by two feet in the fast time of twenty-six minutes and sixteen seconds.

Mr. and Mrs. Raymond M. Bosworth, of Queens avenue, have moved to Colebrook, B. C., where Mr. Bosworth has been appointed C. N. R. agent.

HIGH WIRE TROUBLE CROPS UP ONCE AGAIN

Alderman Bryson Resents Criticism of The News—Uses Strong Expressions.

Before any business was transacted at last night's meeting of the council Alderman Bryson undertook to give an explanation of his attitude on the high-wire question. He said that in commenting on some of the remarks made in a speech a week ago The Daily News had said that he was carried away, but he wanted to report for duty just the same. "A number of people would be pleased if the editor of The News were carried away and never came back again," said he.

Mr. Bryson said that the article in The News said that the letter from the department made the whole matter quite plain, but the only fact that it brought forth was that certain facts had not been properly laid before the council.

Former Harbormaster Good.

"The city used to have a harbormaster who knew his business. He saw that the wires on the lower river were placed 195 feet above the water. Unfortunately, that man died. The man we have now is a good man in some respects, but he is a housebuilder and not a shipbuilder. When the question came up he did not know what to do and he went to Vancouver to try and find out. They told him that 160 feet was high enough, and I am surprised that they did not tell him fifty feet, for the Vancouver people have an idea that there is nothing but scows and fishing boats come up the Fraser."

Asks News for Help.

From here Alderman Bryson digressed from his explanation and Mayor Lee called him to order. Alderman Bryson said that The News was annoyed that he evidently did not know that the government regulations on such things provided for only 160 feet. "I do not know and I would be much obliged if The News could tell me where I could find such regulations. Gardiner Johnson found the wires across the inlet too low and he notified the B. C. E. R. that a boat was going up the inlet with high masts and the wires were raised."

The speaker said that he had a list of ten ships which came up the Fraser river in the last ten years and they all had masts over 160 feet high. He had been told that it was seldom that a square-rigged vessel of 250 tons and over did not have masts that high.

Makes Remarkable Statement.

The alderman's speech wound up with a statement still more startling than the one he made a week ago. He remarked that his words on that occasion may have been a little colored as he was being carried away. The News had accused him of mud slinging, but if anyone thought they were splattered with mud they would not have to wait long, but when the auditor's report was read they would be calling for the rocks and mountains to fall and cover them.

WOMAN SEEKS REDRESS FOR HAVING BODY MOVED

Mistake in Selling Cemetery Lot Leads to Trouble—City Council May Have to Act.

The trouble between Mrs. Mabel Dodds and the cemetery authorities over the removal of her baby from one grave to another in the Church of England cemetery here last March has been reopened again.

The body of the infant was moved owing to the finding of some error in making out the deeds of the lot. Mrs. Dodds last night submitted an exhaustive statement of the case to the council and stated that the attorney general had informed her that it was the city's place to act.

Mayor Lee explained that the matter was not a new one and several attempts had been made by W. G. Walker, who has charge of the cemetery business, and who was the man who gave the order for the removal of the body, to arrange the matter with Mrs. Dodds, but without success.

The matter was finally left in the hands of a special committee consisting of Aldermen Johnston and Jardine, who will meet Mrs. Dodds and see if some amicable settlement of the difficulty cannot be made.

The sum of $75, the proceeds of a garden party held last week at the residence of Mrs. Carroll, Sapperton, by the young ladies of St. Peters parish, were handed over to the Sisters of Providence orphanage yesterday evening, when a number of the ladies interested called at the children's home for this purpose. Small amounts of money were also given to the boys and girls. Through the medium of The News, the ladies interested in the garden party wish to extend thanks to the business men and others who assisted in making the venture a success.

Good six-room house on Third avenue near Ninth; $2,000; $500 cash.

W. J. KERR, LIMITED.

CITY OF NEW WESTMINSTER.
Local Improvement Notice.

Pursuant to Section 20 of the "Local Imporvement General Bylaw, 1909," notice is hereby given that the Assessment Roll for Local Improvements on the following streets, viz., Tenth street on both sides from Sixth avenue to Tenth avenue, except on the east side of said street between Sixth and Eighth avenues; also on both sides of London, Edinburg, Dublin and Hamilton streets, Eight and Seventh avenues between Tenth and Twelfth streets, is open for inspection at the office of the Assessment Commissioner in the city hall, New Westminster, British Columbia, and in case the owner or any person interested in any of the properties included therein desires to appeal from such assessment, he shall, within the period of eleven (11) days from the first publication of this notice, give notice to the undersigned in writing of his intention to appeal.

Dated the 27th day of June, A.D., 1910.

W. A. DUNCAN,
City Clerk.

Date of first publication the 27th day of June, 1910.

STREET IMPROVEMENT DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand ($150,000.00) dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the city for the construction, improvement and repair of streets and sidewalks, and it is expedient that additional sums be spent in like manner, amounting in all (with the sums already spent) to the sum of One Hundred and Fifty Thousand ($150,000.00) dollars;

And Whereas, it appears that if the said sum of One Hundred and Fifty Thousand ($150,000.00) dollars, be appropriated from the general revenue of the city for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount;

And Whereas, for the payment of interest on the debentures or registered stock certificates, proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates, the sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars;

And Whereas, in order to raise the said yearly sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars, an equal rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of One Hundred and Seventy-four Thousand, Five Hundred ($174,500.00) dollars proposed to be raised under the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Schools Debenture or Registered Stock Bylaw, 1910," and the "Parks Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears;

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates, shall be payable on the first day of July, 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of Six Thousand, Seven Hundred and Fifty ($6,750.00) dollars for the payment of the interest thereon, and the sum of Eight Hundred and Forty and 32.100 ($840.32) dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise: towards paying the cost of the passing of this Bylaw and the issue and sale of the debentures or registered stock certificates therein referred to, recouping the treasury of the city such sums as have been this year expended in street works, or may be so expended until the proceeds of the sale of the said debentures or registered stock certificates have become available, the making, improving and repairing of such streets and sidewalks in the city as may be deemed expedient by the council, but no sidewalk or street shall be made or repaired out of the moneys borrowed under this Bylaw unless the same shall have first been approved by a resolution of the Council.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Street Improvement Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the day of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July, 1910, between the hours of nine o'clock a.m. and five p.m. at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

SCHOOLS DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Ninety-seven Thousand, Five Hundred ($97,500.00) dollars for School Purposes.

Whereas the Board of School Trustees of the City of New Westminster have caused to be prepared and laid before the Council a detailed estimate of the sums required by the Board for the current year's ordinary expenses of maintaining the schools of the said City of New Westminster; and have also prepared a like detailed estimate of the sums required to meet any special or extraordinary expenses legally incurrable by the Board, which last mentioned estimate is subject to consideration, alteration and final approval by the Council, and the same has been finally approved by the Council.

And Whereas, the amount required under the said last mentioned estimate for schools amounts to Ninety-seven Thousand, Five Hundred ($97,500.00) dollars, made up as follows: Thirty-five Thousand ($35,000.00) dollars for the erection and equipment of the new Sapperton school; Two Thousand, five Hundred ($2,500.00) dollars for the erection and equipment of a school on Lulu Island, and Sixty Thousand ($60,000.00) dollars for the erection of a High school,

And Whereas, by Section 40 of the the Public Schools Act 1905, as re-enacted by Section 30 of the Public Schools Act 1905, Amendment Act 1906, any statute to the contrary notwithstanding, the Council of any city, town or rural municipality in the Province including the City of Vancouver and City of New Westminster, may in each and every year pass a Bylaw or Bylaws for levying aspecial rate of not more than Five (5) mills on the dollar for school purposes, and the Council may in addition to such rate apply any portion of the ordinary revenue to school purposes.

And Whereas, it appears that the amount required to meet the current year's ordinary expenses of maintaining the schools will exhaust the amount authorized to be levied under Section 40 of the Public Schools Act 1905, as re-enacted by said Section 30 of the Public Schools Act 1905, Amendment Act 1906, and it will be necessary also to apply a portion of the ordinary revenue for such purposes.

And Whereas, it appears that if the said sum of $97,500.00 be appropriated from the general revenue of the city for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount.

And Whereas, for the payment of interest on the debentures or registered stock certificates proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates, when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates the sum of four Thousand, Nine Hundred and Thirty-three and 70-100 ($4,933.70) dollars;

And Whereas, in order to raise the said yearly sum of $4,933.70, an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of Two Hundred and Twenty-seven Thousand ($227,000.00) dollars proposed to be raised under the "Street Improvement Debenture or Registered Stock Bylaw, 1910;" the "Fire Debenture or Registered Stock Bylaw, 1910;" the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910," and the "Parks Improvement Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears.

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $97,500.00, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of $97,500.00 for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates shall be payable on the first day of July 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of $4,387.50 for the payment of interest thereon, and the sum of $546.20 to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

JAPAN IS LEADING WORLD IN DIVORCE

Proportion to Marriages is Three Times That of the United States.

London, July 4.—Japan leads the world in the number of divorces with the United States a poor second. This was brought out in the testimony given before the royal commission on divorce, which has resumed its session.

R. Newton Crane, member of the federal bar of the United States and also of the English bar, who gave this information, quoted figures showing the number of divorces per 100,000 of population. They were: Japan, 215; United States, 73; Switzerland, 32; France, 23; Germany, 15; England and Wales, 2.

He gave the commission much other interesting information concerning divorce in the United States.

One in Sixteen Bound for Rocks.

It appeared to be fairly well established, he said, that at the present time one marriage in every fifteen, or possibly sixteen, in the United States would ultimately be dissolved by divorce. In all the States adultery was ground for divorce, but, independently of adultery, there was a variety of other grounds. Desertion and cruelty in varying forms and degrees, were common grounds of divorce. In sixteen states the desertion need be for only one year, in seven states it must be for two years, and in one state for five years. Cruelty was a cause in nearly every state, and, in some of the states, "outrages rendering life together insupportable," "indignities rendering condition intolerable," "personal abuse or conduct rendering life burdensome," and "treatment endangering health or reason" were also specified grounds. In thirty-five states habitual drunkenness was a cause for divorce. In a very large majority of the states conviction for felony was a ground.

The view was spreading, he said, that if an unhappily married couple desired to have their marriage dissolved it was a matter which was peculiarly their own affair, and one with which the public had nothing to do. Of nearly a million divorces only about fifteen per cent were defended. He was of opinion that the frequency of divorce in the United States and the growing indifference to the duty and obligation of marriage were primarily due to the fact that marriage in America was defined by statute to be merely a civil contract, and that no form of solemnizing the ceremony was provided or required.

There were too many causes for divorce in America and too few in England. The health of the race, from a eugenic point of view, was imperiled by obliging a woman to live in marital relations with a husband who was a confirmed drunkard, or was subject to recurring attacks of insanity, or who had in him the seeds of an incurable disease. When the strain to which either spouse was subject by the continuous cruelty of the other had reached the breaking point, it was wise, not only in the interests of the parties themselves, but of the state and the church that the law should intervene.

Mr. Crane added that the greater number of divorce cases in the United States as compared with England did not mean that there was greater immorality in the States. It was due rather to the levity with which people regarded marriage, and legal laxity as to the marriage tie.

J. A. Barrett, another American barrister, thought the comparative cheapness of divorce in the States was the direct means of avoiding a great deal of irregularity. The statement that one marriage in fifteen was likely to be dissolved was true only so far as registered marriages were concerned, but there were thousands of marriages which were never registered at all, so that the figure was misleading. The causes of divorce were as numerous and liberal in other countries as in the United States. In Formosa "loquacity" was the cause of divorcing a wife.

The chairman: "Do you think there is a very high standard of morality in the United States?"

"I have no doubt whatever that the standard of morality throughout the United States is as high as it is in England, or in any other civilized country."

"What is your general explanation of the number of divorces?"

"They are largely unconnected with immorality, and largely associated with desertion."

MEETS ODD DEATH WHILE PLAYING BALL

Dominion City, Man., July ..—George Messenger, aged twenty-eight years, a native of Portsmouth, Eng., was fatally injured yesterday while running backward to catch a ball tossed to him. He fell over a truck landing on his throat, breaking the windpipe. He died three hours after the accident.

RAILROADS SHIP BEER; AGENT IS ARRESTED

Olympia, July ..—The Northern Pacific railroad, through an agent, has been arrested again for shipping beer into dry territory in Thurston county, this time at Rochester. Ten cases of beer were delivered at the depot there by the railroad for some Italian laborers. By direction of Prosecuting Attorney Wilson a warrant was issued for the arrest of the Rochester agent and preliminary hearing will be held July 6.

SWELL THEATRE IS PLANNED FOR LONDON

Building Will Cost $2,500,000 and Will Eclipse Anything in Same Line Ever Attempted.

London, July 4.—This city is to have the largest and finest Opera house in the world, for Mr. Thomas Beecham, son of the famous pill manufacturer has decided to spend $2,500,000 of his father's money in building an Opera house, far superior in every way to the old Covent Garden.

"Opera is not popular in London," said Mr. Beecham today. "It is supported because it is a social function and without that help would be as unprofitable as concert-giving. I want to make people realize that if they go to hear opera they will get something first class, something that will satisfy them, something that is worth the enormous expense attached to its presentation.

"The short season promoted at Covent Garden last winter gave me a personal experience of what it costs to present grand opera. At His Majesty's we have an orchestra of sixty-five instrumentalists, a chorus of sixty, and numerous first class principals. The only way to conduct a season of opera is to do it well, but I do not anticipate being able to keep my houses on this summer season under $50,000, and they might easily run to double that amount.

"All the same, I think our public can be encouraged to support it, just as the public on the continent is. To that end I want, and am prepared, to build an Opera house in London. I am only waiting until I can find a site in a good position at a fair valuation.

"This is not merely a commercial scheme. The making of money is not the object. To do everything in the best possible manner for the encouragement of opera, to attract the great public to hear the works of the greatest masters, will be its purpose, and if that can be done we are prepared to carry it on even if there should be some pecuniary losses attached to the working of it."

LIES ABOUT CHEWING GUM; LOSES HIS JOB

Washington, July ..—Chewing gum is responsible for the premature ending of the military career of Everett Charlton Crear, of Albany, a cadet at West Point. He denied that he was chewing gum when asked by the officer of the guard. Papers which have just been received at the war department show that he was tried and found guilty of making a false statement, and was dismissed. He was a member of the fifth class.

TURK'S MARRIAGE IS MADE EASIER NOW

Swains From the Land of the Unspeakable May Enter Blessed State at Small Cost.

Constantinople, July 4.—A step fraught with the greatest importance for the future of the Ottoman Empire has just been taken by the enlightened world. This reform abolishes the innumerable complications and restrictions connected with Turkish marriage.

To begin with, a Turk desiring to marry has to hand over to his bride's parents a sum of between $50 and $2,500, or even much more, according to the social position of the couple, in order to furnish the nuptial chamber. He must send to his prospective bride a number of presents, consisting of bracelets, earrings, brooches, rings, etc., of a price frequently beyond his means. If the presents are considered by the parents inferior to their pretensions they are immediately sent back and the engagement declared off.

The girl has, on her part, to defray all the expenses connected with the marriage and the frequent receptions following. After the engagement comes the so-called "nikiah," a kind of civil contract.

Should her husband subsequently intend to send his wife away or to divorce her, he must pay to her a sum of money varying from $50 to $5,000 or more.

Should a Turk be inclined to take a second wife—the legal number must never exceed four—he is obliged to provide for her a separate house in every respect similar to that of his first wife, as well as an equal number of servants, slaves and eunuchs. This is done in order not to excite jealousy.

These difficult and costly conditions always tended to discourage the reckless contracting of marriages, and of recent years the scarcity of weddings has become a serious question.

The present Sheikh-ul-Islam has, however, abolished, by a special enactment, which will soon become the injunction of a strict law, all the impositions of expensive marriage formalities, and reduced the whole transaction to its simplest forms.

Henceforward, there will be no obligation on the part of the Effendi to pay to the parents of his future wife any money. No costly presents will have to be sent, no extravagant expenses to be met in connection with any of the marriage festivities. The price of the nikiah as an indemnity in case of divorce has been fixed at only $5. The Sheikh-ul-Islam has, of course, foreseen that parents will, in consequence, put obstacles in the way of wedding celebrations. He has therefore decreed that young people who are of age need not, in order to marry, have the consent of the parents. They have merely to apply to the priest of their district with the necessary witnesses.

LEFT BALL GAME TO SEE BAPTISM

London, Ont., July 3.—Standing waist deep in the waters of the south branch of the Thames, twelve of those professing the "gift of tongues" were on Saturday afternoon baptized into the new faith.

The game in the factory league was practically deserted, the spectators lining the bank of the river witnessing the baptism. In long black gowns, those to be received into the new faith entered the water and were escorted out by an elderly man in a flowing robe, and a younger one in his street attire. Proceeding out until the water was above their waist the two men joined hands and lowered the one baptized till completely submerged.

EIGHTY SUCCUMB FROM AWFUL CHICAGO HEAT

Chicago, July 3.—Thousands of Chicagoans left the city tonight to spend the holidays in the country and escape the scorching heat, which has claimed twenty lives within the last twenty-four hours. Eighty persons have died from heat in Chicago since the hot wave struck the city.

Men, women and children slept in the parks and on the lake front tonight in an effort to escape the sweltering heat. Fire escapes were converted into bedrooms.

A hot wind from the inland blew up clouds of dust from the streets but was not strong enough to move the cloud of smoke which has hung about the city for days.

50,000 NEW YORKERS SLEEP OUT ON SANDS

New York, July ..—At least ten persons are dead while scores of others are in hospitals as the result of the terrible heat wave that is holding New York in its grip. Tonight the parks, porches and fire escapes provide outside sleeping quarters for many, while it is estimated that 50,000 persons slept on the shore at Coney Island, carefully guarded by an extra detail of policemen.

The Fourth will be a quiet day in New York. Everyone who can has left the city, while even those who remain will dispense with fireworks. Mayor Gaynor's plea for a sane and safe Fourth has met with great response.

King Pardons Deserters.

Ottawa, July 3.—A militia order issued today announces that, as an act of clemency, the king, on the occasion of his accession to the throne, has ordered the pardon of all deserters from the British army, whether in the Empire or abroad.

FATHER VAUGHAN APPROVES RACING

It Makes for a National Character, Declares Famous London Preacher.

London, July 4.—To those New Yorkers who love horseracing some utterances by the Rev. Father Bernard Vaughan will be peculiarly interesting.

Father Vaughan, brother of the late Cardinal, is nothing if not unconventional. He has aroused fiercely hostile criticism chiefly from the nonconformists, for praising King George for having decided to maintain the royal racing stud.

"Everything that makes for the national character ought to be supported and encouraged by Englishmen," Father Vaughan declares. "Every true Englishman has something of the sportsman in his character. When it is developed along legitimate lines it helps him to realize himself, and gives him that indescribable something in his deportment and character which makes for Englishmanliness.

"There are dangers, no doubt, attending the pasttime of racing, just as there are in playing croquet. But Englishmen should learn to become the architects, not the mere creatures, of circumstances. They have to learn how to train their betting instincts in the same way as they train their horses, riding them under control."

His critics remind Father Vaughan that betting is becoming a graver evil than drink among workingmen. The Anti-Betting League complains that its labors will be nullified if moral teachers encourage the gambling vice.

BOMBS MADE IN SCHOOL.

Schoolhouse Captured by Villagers After Fight With Masters.

Madrid, July ..—The inhabitants of the village of Puebla Alpicen made an attack on the local school because they declared anarchistic doctrines were taught in it. The masters defended the building, firing on the villagers with revolvers, and they managed to hold their own until the arrival of the civil guard, who prevented the mob from carrying out its intention of lynching them. The local authorities, however, caused a search to be made in the school, which brought to light a formula for the manufacture of bombs and plans of the city of Barcelona, as well as explosives and models of infernal machines.

PATRIOTISM AND SOCIALISM.

Looking over the broad sea of circumstance one cannot fail to observe that the death of King Edward, lamentable and painful as this untoward event was and is, is likely to prove the means to great achievemnts, in other words, that it may prove to be the blessing of mankind rather than a misfortune. And this not alone to Great Britain, but to the world at large. Such a result is of course due to the remarkable influence for good which was exercised in so many directions by our late beloved sovereign. One notable result that followed upon his death was the immense outburst of loyalty to the throne. It is already recognised that this great revelation of loyal sentiment will have a direct bearing upon the Socialist campaign in England.

One of the foremost of the Socialist organs, the New Age, freely admits that the results of forty years propoganda in England show that "either the English character is alien to Socialist ideas, or that the ideas themselves have been misdirected, badly expressed, and in consequence, misunderstood." This journal thinks that the whole subject of Socialism is in urgent need of restatement, and that it should now be expressed in terms of patriotism if it is to make any further headway in Great Britain. It says the only way in which Socialism can be made acceptable is: "By a frank appeal to Englishmen as Englishmen; in other words, by invoking the spirit of patriotism. By this means, and by none other, will it be possible to persuade the country both that Socialists are patriots and that patriotism means Socialism. No doubt, such a venture to take this line will be scoffed at by many of their old 'comrades,' but the right reply to them is that their Ishmaelitish methods have failed. The new interpretation of Socialism that is wanted involves the unlearning of what has proved untrue, the complete abandonment of the bad old traditions of the Socialist movement while it was still romantic and underground, and the inception of new methods closely in touch with the common public and national life. There does not need to be any degradation of principle in all this. Quite the contrary. The national life, in such aspects as the reformer would desire to touch it, is extraordinarily high; so high, indeed, that at its best moments the English nation is not only a physical and geographical unity as well. The dawn of a conscious nation is heralded by such streaks of light as we have recently witnessed in the spectacle of an Empire moved, if only momentarily, by a single emotion. Could such an emotion be created for a reformation of society, who doubts that it would be effective? On such a foundation it is possible for Socialists to begin to build.

"Finally, it is a question of knowing the best aspect of the English national character and of appealing to it. This excludes mere popularity-hunting; for popularity-hunting is not popular in the best mind of England. There is, as English literature shows, a side of English character which has never been more than adumbrated in English politics. It is seen dimly in Palmerston's phrase, Pax Britannica, a vision of peace and justice prevailing over the whole area for which the British race is responsible. Feeble and dim as it yet is, the idea is native to our soil and no stranger to the national mind. And it is on that vision and on that idea that the spirit of Socialism must be engrafted. Once persuade Englishmen that it is not and may not be the English way to tolerate the degradation by poverty of any citizen of his Empire, but that, on the contrary, his pride must be and it in the equitable distribution of the means of happiness to all without fear or favor, and the task of Socialists will then be good enough for Englishmen."

Such a gospel is far truer in spirit and broader in principle than the old order of teaching to which we have been accustomed. Yet it sounds a little strange and, in view of the penalty meted out to Robert Blatchford by his fellows for an attempt to direct modern Socialism in a similar channel, we are inclined to doubt whether it will secure adoption.

TOO YOUNG CALVES OFTEN SOLD AS VEAL

Winnipeg, July 4.—It is a well known fact that in many places in Canada farmers are frequently committing the fault, if not the sin, of shipping young calves, under four weeks old, to the market to be sold for veal. Calves at this age are not fit to eat, and therefore are of no value to the consumer, while, on the other hand, the farmer by keeping them for another few weeks would be able to realize a good deal more for them than by shipping them when they are too young. The state of New York realizing both these facts have taken rather stringent methods against shipments of this sort, as is seen by the following notice in one of their newspapers:

"The attorney-general of the State of New York has informed the state agricultural commissioner that it is his duty to stop all shipment of calves in New York State where the animals are under four weeks old. Many carloads of calves are shipped to points without the state, and the commissioner's power to stop them was disputed, his power of seizure being alleged to be limited to consignments intended for points within the state."

Occasionally some small calves are seen even on the local market which undoubtedly are not much over four weeks, if that much, and it would seem a wise step, if not in the case of humanity, if some restrictions were advanced by the proper authorities.

Stories of Graft Denied in Council

(Continued from Page 1.)

subject. He was informed that he would be notified in due course.

Chinese Work on Sundays.

J. J. Johnston asked if there were any police regulations which prevented the Chinese laundrymen from collecting and delivering washing on the Sabbath day. The matter was referred to the police committee for report.

Tenders for Water Main.

Tenders for the laying of the new water main to Coquitlam lake were opened. Three firms tendered: The Municipal Construction company, of Vancouver, for $108,557.37; J. H. Vickers, for $149,624., and Broley Martin for ten per cent of the cost of the work. The tenders were referred to the water committee for report. Tenders were in detail and the lump sum of the cost was not given.

Alderman J. J. Johnston asked if some arrangement could not be made with the B. C. E. company to have Columbia and Front streets sprinkled by the company, and Alderman Jardine said that he was already in negotiation with the company about the matter.

Alderman Johnston gave notice of an amendment to the civic officers bylaw which he will introduce at the next meeting. This will merely confirm the appointment of J. R. Rennie to the position of city treasurer.

The Letter File.

The following comumnications were dealt with in short order:

E. A. Wagg and W. M. Alexander offered to erect an elevator with a capacity of 100,000 bushels and a flour mill of 200 barrels capacity if the council would grant them a lease of lots 57, 58, 59, 60 and 61 for a term of ninety-nine years, with an exemption from tax for twenty years. Referred to the finance committee for report.

The Mount Pleasant Sunday school asked permission of the council to hold a picnic on the exhibition grounds on July 14. Request granted under supervision of parks comittee.

J. P. Hampton Bole, on behalf of his client, Chey Wah Hea, asked permission to complete a building on Ramage street. The Chinese merchant had commenced the building without complying with the fire regulations. The clerk will notify Mr. Bole that what he asks is contrary to the bylaws and therefore his request cannot be granted.

Crane & Company, of Vancouver, asked for an extension of the time for receiving tenders on valves and pipes. The company will be notified that the council cannot extend the time.

A communication from the Canada West bureau at Washington was referred to the special committee on advertising for report.

A petition from the residents in the vicinity of Colbourne street asking for the opening up of Colborne street from Sixth to Seventh was referred to the board of works for report.

Frewen Loses His Case.

Vancouver, July 4. — The case of Frewen vs. Charles M. Hayes, et al, an action involving the sale of Prince Rupert lots was dismissed by Chief Justice Hunter this afternoon.

SPORTING NEWS

ENGLISHMEN FOR SWEDISH GAMES

British Officials Taken as Models For the Coming Olympic Contests.

New York, July 4.—According to W. Hellstrom, who is secretary of the Sedish Olympic games of 1912, a batch of English officials are to be invited to do duty at the Stockholm festival because the Swedes think the Britons are the real thing when it comes to sports. In speaking about the Olympic games Hellstrom said:

"We have taken England for a model and have been guided by them in our choice of sports, and have made tremendous progress in athletics during the last few years. Whenever we could we have had champions visit us, and most of the prominent Englishmen have had a trip over. If you ask them they will tell you Sweden is a nice place, and that they have all had a good time.

Building Big Stadium.

"We are devoting heart and soul to the promotion of these Olympic games. A spacious stadium is being built, perhaps not quite so good as the London stadium, as we have not got as much money, but still a very excellent one, without many superiors in the world.

"A splendid cinder track will be made, and to insure the very best we intend to have an Englishman over to superintend its preparation, for we do not want our visitors to be able to say that the track was not good or conducive to fast time. Our program will not be as large as the London Olympic, as boxing, tennis, archery are not in the program. Some of the events are unnecessary, as, for instance, motor boat racing, while the same applies to others in which you see the same competitor always wins both. Altogether the games will last over a period of ten days, and excursions will be arranged all over Sweden, and I can assure you that those competitors who visit us will have the time of their lives. As long as they live they will remember a Swedish welcome.

Swedes Strong in Distance Runs.

"Now as to Sweden's chances of winning. We have some great distance runners in Sweden. Two of my countrymen in America have beaten world's records over twenty miles, and the Marathon distance, and we have several other great distance men as the English amateurs have found when they visited us. Duncan, Voight, Deakin and Neaves have been beaten when they came over."

PRIZE FIGHTING GAME IS PATRONIZED IN WINNIPEG

Town is Gradually Becoming Wide Open—"Sparring Exhibitions" Are Brutal Affairs.

Winnipeg, July 3.—Winnipeg is fast becoming a wideopen fight town and the promoters are becoming more daring as the game is allowed to go on.

For a long time there seemed to be an understood rule that the so-called "exhibitions" were to be limited to ten rounds, but this is a rule of the past, and the fighters now go up to the fifteenth round mark.

Encouraged by the success that they have achieved in pulling off the bouts without interference, the promoters are becoming bolder and it was stated in all quarters at the big fight last night that Battling Nelson would be brought to the city to meet the winner.

The exhibition of the manly art which the Red River Athletic club pulled off at the Arena last night was certainly the most brutal exhibition of prize fighting ever seen in the city and those in the big crowd of fifteen hundred who wanted to see a prize fight certainly saw one and to the limit at that.

The preliminary started off with MacLaglan and Adams as contestants, and went the limit, ten rounds. It was a hit and go affair mixed up with plenty of slugging and before the fight was half through both men were badly cut up. The referee, "Kid" Ashe, declared the fight a draw, though MacLaglan seemed to have a shade the better of the bout.

The main bout, which went the full fifteen rounds, between Billy Lauder and Kid Lucca, was certainly a cruel one, and from the spectators point of view a most brutal exhibition of the manly art. Lucca proved to be the cleverest man, though Lauder fought very game. Lauder was nearly knocked out in the fifth round, but the gong saved him. The fight was certainly fast all right and kept the fans on edge all the time.

In the eighth round Lauder's head was badly cut and he bled to such an extent that both fighters looked like two red demons as they fought doggedly. Lauder looked such a horrible sight that a large number of the fans called for time, but the referee let them keep at it. They fought on to the full fifteen rounds and the last two rounds were certainly corkers. Lucca had the best of the fourteenth round, but Lauder had the best of the fifteenth.

Altogether it was the most brutal and bloody exhibition of prize fighting ever pulled off in Winnipeg.

BUILD TEMPORARY STAND TO ACCOMMODATE CROWDS

Lacrosse Club Will Erect Long Bleachers on East Side of Oval for Minto Cup Games.

The main item of importance at last night's meeting of the executive of the lacrosse club was the decision to build a temporary grandstand along the east side of the oval, extending north 100 yards from the dressing room. It is expected that this structure will accommodate about 600 people and will go a long way towards relieving the congestion at the Minto Cup games.

There will be still room left in front for people to stand up if they desire.

The seniors were feeling good last night, and they decided to give the amateur seniors the sum of $100; but to get this they will have to play a game with Victoria as a curtain raiser to a senior game with Vancouver. Howard Welsh and Nels Nelson were at the meeting as delegates from the amateurs and they were well pleased with the night's work.

WHY AMERICANS TRAVEL IN EUROPE

Albert Kincross Says it is Because of Vacuum in the United States.

London, July 4.—Albert Kinross has a curious article in the Graphic headed "Why Do Americans Came to Europe in Search of a Soul?" Mr. Kinross is apparently a believer in the Oriental theory of past existences, or, at any rate in the atavistic theory as expressed by Lafcadio Hearn, and his idea is that the Americans, "stranded" in their own country, "void of all ancestral memories," are conscious of a "terrible vacuum." This, he thinks, explains their frequent voyages across the Atlantic, their violent appetite for the historical novel, their passion for art of the same character. He goes on:

"Is the American tourist that one meets in the Old World a pilgrim seeking his forsaken selves and all the ghostly treasures of the past? And, lastly, is the untravelled native-born American a creature disinherited, worse off for ancestral light than Aztec or Red Indian, a flake of windblown down sprung from nothing and going nowhither? An affirmative reply would explain America's undoubted supremacy in the world of material and transient phenomena. And also it would explain the American belief in American 'morality.'

Easy to Understand.

"Postulating the American as a human being whose past selves are dormant and can only be revived by a stay of some duration in the ancient world, it is easy enough to understand his or her—and especially her—remarkable attitude toward the European standard of conduct or misconduct.

"And so we get the amazing spectacle of a people rejecting a pathetic gnat in the shape of Maxim Gorki, yet swallowing whole so shameful a camel at the Thaw tragedy; or again, adoring some prosperous brigand who has cornered a staple article or wrecked a railroad, while barring out some poor devil of an immigrant who may have been in jail for stealing a loaf of bread.

"In both instances a tradition, a memory of the past from which they have cut themselves adrift, would have saved them. It is possible, however, that they do not wish to be saved; indeed, they may have forgotten the very meaning and significance of the word salvation. One day, if I survive this paragraph, I shall go over and see for myself."

MEXICAN "CORNER" ON MILLIONAIRES

Most Exclusive and Wealthy Colony in the World is in Merida City.

Merida, Mexico, July 4.—The farmers of the United States have made Merida, Mexico, the richest city of its size in the world. A steady stream of gold has poured from the coffers of the American wheat farmers into the vaults of the hemp growers of Yucatan during the last twenty years.

The growers of corn and oats and the manufacturesr of ships' cable and other ropes also have contributed to the wealth of the fibre planters of Yucatan, but it is chiefly from the wheat farmers that their enormous fortunes have come.

In no other part of the world is to be witnessed such extravagance of living as is practiced by the millionaires of Merida. They do not flaunt their wealth in the face of the world, but it is their magnificent residences that they revel in the luxuries they gather from the four ends of the earth. It is here that the most exclusive millionaires' colony in the world is located.

It has a membership of about thirty-five men, all of whom have made their fortunes during the last fifteen or twenty years from growing or sale of the henequin or hemp fiber, practically all of which produce was marketed in the United States, where it was converted chiefly into binder twine.

Get $300,000,000 in Gold.

It is estimated that in the last fifteen years the fiber growers of Yucatan have received for their product more than $300,000,000 gold. Most of this is net profit, as the cheapness of labor and cost of handling the product are small. Some idea of the amount of wealth that each grower has realized during the period may be had when it is stated that there are only about 400 of them.

While there are about thirty-five men living in Merida, who have each made a fortune of more than $1,000,000 gold out of the henequin fiber, there are about 200 planters whose wealth aggregates several hundred thousand dollars.

Several of these millionaires have residences in Paris and London and spend a part of each year abroad. Practically all of the henequin planters of Yucatan belong to an association which has for its purpose the fixing of the price of the fiber and the marketing of the product. It is said that this association even regulates the matter of establishing new plantations of henequin and that it is impossible for an outsider to engage in the industry in Yucatan without its consent.

PET ANGORA GOAT EATS NEWSPAPER COPY

Wallace, Idaho, July 4.—"Old Joe," a pet angora goat, escaped from a rear yard and came downtown on a personally conducted tour and enjoyed himself until becoming frightened by the unusual surroundings it bounded into the composing room of the Daily Idaho Press, where ,during an exciting quarter hour before the animal was captured by Eddie Malcolm Glendining, and the office devil, it vied with the preverbial bull in the china shop in working mischief.

Racing through the office, over composing stones and tables, the goat pied several forms of type waiting to be put on the presses, chased the office bulldog out of the window, then, attracted by fluttering sheets of paper on the copy hook, jumped over Linotype Operator McLeod's head and began tearing copy off the hook and devouring it.

This was the final act that aroused the editor's wrath, and by main strength, and the assistance of the devil, the goat was grabbed by the horns and tail and thrown bodily through the front door.

"I stood a good deal," said the irate editor, but when he tackled the live copy hook that got my goat."

LAND REGISTRY ACT.

Take notice that an application has been made to register Duncan Bell Hall as the owner in fee simple, under a Tax Sale Deed from E. A. Wilmot, inspector of dykes, to Duncan Bell Hall, bearing date the 13th day of June, A.D., 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as part 3.60 acres of the southeast quarter of Section 18, Township 3, Range 29, west of 6th Meridian.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty five days from the date of the first publication of this notice upon you and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Duncan Bell Hall as owner thereof in fee. And I hereby order that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 30th day of April, A. D., 1910.

C. S. KEITH,
District Registrar.

DISTRICT COUNCIL

SURREY.

The council met at the Town Hall, Surrey Centre, on Saturday, July 2, the Reeve and all the members, except Councillor Murphy, being present. The minutes of the previous meeting were read and confirmed.

Communications were received as follows:

From H. T. Thrift protesting against the approval of the plans of subdivision of a portion of S. E. 1-4 Section 10, Township 1, submitted by F. J. Hart & Co., on the ground that no street allowance is shown on the northern boundary. Received.

From H. T. Thrift, on behalf of himself and associates requesting to inform the council that they have presented their petition to the government, having thereon between sixty and seventy names of residents and property owners, praying the lands they are interested in may be taken out of the Municipality of Surrey for reasons given and others that may be advanced. Received.

From Hon. H. E. Young, provincial secretary, enclosing copy of a petition received by the Lieutenant-Governor-in-Council re the exclusion of certain sections in the Municipal District of Surrey, and wishing to know the views of the council in the matter. Received.

From J. J. Thrift, saying some days ago their team went through the bridge at the G. N. Ry. crossing on the North Bluff road, causing damage to the extent of $25 and saying their claim against the council was for this amount. Received.

From E. Brettell, saying that while proceeding in his automobile from Langley Prairie to the lumber mill at Hazelmere, he sustained a serious accident owing to a large tree stump projecting to a considerable height above the road bed in the center, which the car struck causing damage to the extent of $40, and wishing to know if the council are prepared to grant him any compensation in the matter. Received.

From F. V. Brown, attorney G. N. Ry., re furnishing gravel, saying that the company had not offered to furnish gravel at $10 per car, that he had no authority to make such an offer, but that he wished to know if that would be satisfactory to the council before taking the matter up with the operating department. Received.

From J. H. O'Neill, superintendent G. N. Ry., re putting a crossing over their tracks on the line between Sections 10 and 11, Township 1, White Rock, asking to be furnished with a sketch showing where this crossing will be located. Received.

From Kappelle and Dockerill, saying they had issued a writ on behalf of Francis Turner, against the Municipality of Surrey to have the tax deed purporting to convey a portion of Lot 7, of subdivision of Lot 12, Group 2, set aside, and for an injunction and that they were registering a lis pendens against the property. Received and referred to the solicitors for the municipality.

The Reeve reported signing the plans of F. J. Hart & Co's. subdivision of a portion of the S. E. 1-4 of Section 10, Township 1.

From R. T. Prince, re auditing. Received.

From Arthur G. Andrews, Eburne, submitting for approval, plans of subdivision of S. E. 1-4 of Section 16, Township 8. Approved.

From Malins, Coulthard & Co., submitting for approval, plans of subdivision of Section 30, B. 5, N., R. 1, W. Approved.

From A. J. Hill, submitting for approval plans of subdivision of Block 17, Lot 4, Group 2, and a portion of N. 1-2 of Block C of Section 20, B. 5, N., R. 2, W. Approved.

On motion the following appropriations were made: Ward 1, $75 on Halls Prairie road, to cut brush and clear ditches from railroad to Gordon ditch; $300 on Lattimer road, north; $37.50 on Serpentine road; Ward 3, $600 on Johnston road, south; $40 on Johnston road, north; $50 on Blackie Spit road; $100 on McInnes road and $200 on Wilson road; Ward 4, $37.50 on Serpentine road; $50 on Old McLellan road, east of Halls Prairie road and $200 on Halls Prairie road at Nicomekl; Ward 5, $30 on the McInnes road; $100 on Halls Prairie road; $100 on North Bluff road and $30 on the Stevenson road.

Councillor Inglis gave notice that he would introduce a Dog Tax Bylaw at next meeting.

Councillor Johnson gave notice that he would introduce a Road Protection Bylaw at next meeting.

The Surrey Revenue Bylaw was reconsidered and finally passed.

Accounts amounting to $6077.23 were passed and cheques issued.

The council then adjourned to meet again on Saturday, July 16, at 1:30 p.m.

WAITERS ANXIOUS TO ABOLISH TIPPING SYSTEM

Detroit, July 4.—Head waiters and plain waiters from all parts of the United States and Canada will forsake their positions and tips for three days, July 10, 11 and 12, coming to Detroit to attend the first national convention of its kind ever held in this country.

The subject of tipping will come in for a thorough discussion. The waiters are practically a unit in declaring it an evil. They admit that its abolition would mean equal service for all, but they contend that the practice can never be done away with until the waiters' employers increase their wages to a figure higher than that now permitted them.

The Detroit organization, which for a year past has conducted a school of instruction at 148 Gratiot avenue, will endeavor to secure the establishment of similar schools in every large city in the United States. Each Wednesday afternoon a head waiter from one of the Detroit cafes has been occupied in teaching "recruits" the proper method of handling his guests and dishes.

IMPORTANT DEVELOPMENTS IN ALASKA COAL AND OIL PROPERTIES.

On the 15th inst., through the offices of Auld, Gwin & McClarty, of Vancouver, a large deal in Alaska oil properties was put through, whereby the Amalgamated Development company acquired a large acreage of oil-proven lands situated near Katalla, Alaska.

Upon one of these claims, of 160 acres, for which a patent has been issued by the United States government, there are situated four oil wells with a proven daily capacity of about 2,000 barrels of very high grade oil, tested by the government chemists and published in their Geological Bulletin No. 335 as being equal if not superior to the highest grade Pennsylvania petroleum. Two other wells equally as good are situated upon the unpatented acreage.

Besides these the company acquires all the buildings and improvements, $100,000 worth of well-drilling machinery and commissary supplies, casing, saw-mill and everything in the way of supplies needed in an oil camp.

This property was purchased from the Alaska Development company, which, for the past few years, has had it leased and under option to an eastern syndicate for a very large sum of money, but dissensions within the ranks of the two companies caused a suspension of development work and laying of pipe lines to tide water for the past five years.

Messrs. Auld, Gwin & McClarty had been negotiating for the purchase of these holdings for over a year, which was finally consummated on the 15th inst., and all the property turned over to the representatives of the Amalgamated Development company.

This is the same property of which the great English oil expert, Boverton Redwood, in a report dated December 3, 1900, said: "I may say that in the whole course of my thirty years' experience in reporting upon petroleum territories I have had occasion to arrive at a conclusion upon more promising data than those which the report of Mr. Burls furnishes, and I may add that no new oil fields would be developed if better indications were held to be necessary to justify the application of the only test, viz., that of a drill."

Messrs. Auld, Gwin & McClarty are to be congratulated upon the consummation of this big deal, which is of special interest to many Vancouver and Victoria people who are interested in the company.

The plans of the company are to erect a small refinery, the castings of which are all made, on the ground to supply a part of the local demand for the finished product, and then to build a pipe line to tide water in order to ship the crude oil.

We are informed that the present plans of the Amalgamated Development company include the erection at an early date of an oil refinery at some suitable and central point on the coast of British Columbia, for the treatment of the crude oil which will be shipped to tide water from their wells. It is understood that the company have been considering the securing of a suitable site in the vicinity of Esquimalt Harbor, on Vancouver island, a locality which possesses exceptional advantages on account of its situation. No definite decision on this point has, however, yet been arranged.

The Amalgamated Development company have also secured some very valuable and extensive coal properties in the northern part of British Columbia. The coal on these holdings has been most carefully tested, and has proved to be of the highest quality. These coal areas are most advantageously located, being in close proximity to the surveyed line of the Vancouver, Westminster & Yukon railway—the all-Canadian route to the Yukon—and also to the route of the Portland Canal Short Line railway, now under construction by D. D. Mann and associates, from the town of Stewart, on Portland Canal, up through the Bear River valley.

HUMMING BIRDS DOOMED.

Demand for Feathers Likely to Reduce Their Number.

Berlin, July 4.—Prof. Schillings, the German wild beast photographer, whom Col. Roosevelt made a point of meeting in Berlin, says that woman's perverse taste in the decoration of hats is gradually devastating the bird world, though another chief cause, he thinks is the artificial creation of certain fashions of millinery houses.

He mentioned one Berlin firm which made purchases of humming bird feathers to the amount of thousands of dollars the moment a leading Paris firm gave the word that humming-bird decoration was to be the mode.

In Florida, he said, whole colonies of herons of from 10,000 to 30,000 pairs produce families. Then come the heron hunters and in fourteen days not a heron is left. The hunter, however, has gained from $2,000 to $3,000.

These remarks were made at the ornithological congress in Berlin, which was attended by delegates from all parts of Europe. One delegate called attention to the new fashion of using bird feathers for the decoration of women's shoes. In a Paris shop window, he said, he saw a pair of shoes with humming bird feathers on them priced at $1,100.

OYSTER BED TESTS SHOW NO BACILLI

Olympia, July .—Dr. Elmer E. Heg, of Seattle, state commissioner of health, announced here today that tests from fourteen beds in Thurston and Mason counties showed no bacilli. Tests of oysters from these beds on sale at Seattle showed typhoid and other bacilli, tending to confirm the statement made by the local oyster growers that dealers at Seattle fatten oysters in Elliot bay and thus expose them to disease germs. Dr. Heg will personally visit all the oyster beds in this part of the Sound and thoroughly investigate the methods of cultivating and handling for market.

DIVORCE COURTS PUT ON BRAKES

Decrees Fewer Since Stricter Rules Have Been in Force in Washington.

Seattle, July 3.—The policy of care-scrutiny and insistence upon at least a year of married life before a divorce complaint will be considered at all, recently adopted by the King county superior court, resulted, during June, in cutting down the number of divorce decrees to figures below those of any previous month for almost a year. The number of divorce complaints filed during June was well up with the average of previous months, being 102 as against 85 for May, 107 for April and 109 for March. The decrees granted during June numbered 76 as against 89 granted in May, 125 granted in April and 116 granted in March.

Of the cases filed during June, 53 were for desertion and nonsupport, 28 were for cruelty, 12 were for drunkennness and seven were for incompatability, while other cases were scattered among other statutory charges. Eighty per cent of the cases were based on desertion, nonsupport and cruelty, which is about the percentage that has been maintained throughout the year. About fifteen per cent of the cases each month are founded on drunkenness.

Many cases that would ordinarily not have been filed until July or August were filed in June, the court officials say, for the reason that it will be difficult to procure the trial of divorce cases through the summer vacation season.

SPOONERISM AND WHAT IT ALL MEANS

Something About the Quaint English Doctor Who Regularly Mixes His Words.

London, July 4.—The heads of four Oxford colleges gave receptions in honor of Mr. Roosevelt. Of of them was at New College, where the colonel's host was the famous Dr. Spooner, who has given to the English language the term" Spoonerism."

It is doubtful, perhaps, if the quaint little doctor has perpetrated one of the verbal mixups to which his name has been given, but generations of undergraduates have exercised their ingenuity in fabricating examples. Most people at some time or other have unwittingly made a Spoonerism, but the New College don is supposed to make them all day long.

A Spoonerism consists of the transposition of the initial letters of two of more words in the same sentence. Some of the best known examples attributed to the head of New College are supposed to have been made at table or in the college chapel.

Once when he wanted some stewed figs he is said to have electrified a luncheon patry by asking a lady to pass him the pigs' fleas. Those who know the doctor would understand at once that he was merely asking for the figs, please.

Talk Is All Tangled Up.

At the same luncheon he is said to have asked his neighbor to have "some of this stink puff," pointing to an ornamental dish of pink jelly. In chapel it is recorded that he read out the first line of the well known hymn which starts "From Greenland's icy mountains" as "From Iceland's greasy mountains," and has spoken of the wicked men whose words were "as ears and sparrows."

Once, when he was not officiating in the service, he was surprised to find someone occupying his pew in chapel, and addressed him sternly with "Are you aware, sir, that you are occupewing my pie?"

One of the quaintest mixups put down to him is perhaps a phrase he once used in a sermon. Speaking of the vague, half formed wish so often experienced in the mind, he said: "We all know what it is to have a half warmed fish in us."

Late for dinner one night he sidled into the room with the explanation that he had been "hatching a pasty snipe." Even an old friend would take a moment or two to translate this into "snatching a hasty pipe."

Hard on the Baby.

His poetical description of a gipsy encampment as a "tipsy gent pitched in a pot of grease" was even more complicated. Of course he meant "a gipsy tent pitched in a grot of peace." His description of his baggage to a railway porter as "two rags and a bug" was simpler.

There is something rather forced, perhaps, in his definition of a happy evening as reading quietly by the fireside, while his dear wife was "hitting the nose" of his little one.

Dr. Spooner is an albino with the weak sight characteristic of the type. He is also undoubtedly somewhat absent minded. These two circumstances may account for a couple of stories told of him which are believed to be true.

At dinner one night he stuck his fork into a lady's hand, urbanely remarking. "My bread, I think." Once when speaking to one of a pair of twins who were undergraduates at New College, he said: "Am I addressing you or your brother?"

There is some doubt as to the truth of his chasing a black hen down the High street at Oxford under the impression that his college cap, which he was holding on as he ran, had been blown off by the wind. It is easier to believe that he poured his claret over some salt he had spilled on the tablecloth.

ACROBATIC MAYOR GETS MONEY EASILY

Berlin, July 4.—The mayor of Posen is a man who understands how to get extra money out of citizens. Recently at a fashionable soiree he asked a rich citizen for $1,250 for some public purpose.

"Get along with you," said the millionaire. "You will as soon get the money from me as stand on your head."

"Then I shall not wait long," retorted the mayor, who immediately dropped on all fours and, to the amazement of the well-dressed throng, promptly performed the gymnastic feat, then walked on his hands across the room.

It is almost superfluous to add that the millionaire paid up.

New York's public-spirited millionaires are just now being held up by the Berlin press as examples.

"When New York wanted a new riverside park," says the Zeit am Mittag, Berlin's most popular midday paper, "the very first call produced $18,000,000 in gold and the value of another $4,000,000 in land. But none of the Berliners who have grown rich through the growth of the city puts his hand in his pocket to help the city now that it is in danger of losing its hygienically valuable girdle of forest. True, German fortunes are not so great as American, but at least they are not ten times smaller. Yet our public benefactions do not amount to even ten per cent of New York.

Secure a permanent summer home at the seaside now, before the prices rise. Lots at all the nearby seaside resorts have advanced one hundred per cent in the last two years and next year they will show a similar advance over present prices. White Rock has the best beach, train service and water supply. See White, Shiles & Co. for prices and terms. **

GERMAN WOMEN PLAN TO START OWN BANK

London, July 4.—The foundations of an Independent Women's Joint Stock Bank, controlled ,managed and carried on solely by women, is an enterprise which is in process of development in Berlin, under the leadership of three enterprising German women who have had considerable experience of business affairs.

"A bank carried on for the purpose of giving financial support to the great number of women, who are compelled now-a-days by circumstances to establish themselves in business on their own account, is one of the most urgent needs of women's development," said Fraulein Anna Hoffman, the originator of the enterprise.

"Though hardworking, honest and capable women find it impossible to obtain from ordinary banks the temporary credit often needed in those businesses. The reason is that the ordinary bank manager mistrusts a woman's business ability. Furthermore, the larger banks are not accustomed to lend money in such small sums as these women require.

"It is in order to remedy this evil that we hope in the course of the next few months to open our Independent Women's Bank somewhere in the center of Berlin. The director's staff, and customers will all be women.

SALVATION ARMY IS DOING A GOOD WORK

London, July 4.—The Salvation Army suicide bureau had 1,200 applicants in London alone in the first year of its existence. They came with poison in their pockets, razors up their sleeves, and revolvers already loaded. The bureau has saved thousands of men and women from suicide, said General Booth recently at Brighton Hippodrome.

Commissioner Booth-Tucker in a recent address on the work in India, said that in one part of India 20,000 criminals are registered with the police, and the Salvation Army is taking over 1,000 with a view to converting them, whereupon they would become preachers to their brothers.

"For the Army," he said, "believes it to be a good policy to set a thief to catch a thief."

Mr. Booth-Tucker mentioned that the Salvation Army has now 430 day schools in India, and that in these 9,000 children are being taught.

CITY NEWS

A. W. McLeod returned yesterday from a business trip to Kamloops.

Edison July records now on sale at Todd's Music House. **

Mrs. B. McDonald, of Kelowna, B. C., is visiting Mrs. J. R. Meldrum, 1925 Fifth avenue.

The management of the Bohemian Cafe sees to it that the best only is served there. **

Richard Polly, of Vancouver, has been appointed fisheries overseer for the Fraser river.

When at White Rock pick out your camp site and then consult White, Shiles & Co. as to prices and terms.**

The Maple Leafs and and Balmoral baseball teams are scheduled to play a game at Queens park this evening.

McQuarrie Bros. are specialists in New Westminster realty. Watch their advertisements for bargains. **

Morgan and Bernerdette Clifford, of Vancouver, are spending the summer holidays with D. D. Bourke, of Cariboo street.

For a pleasant cool drink, try the Ice Cream Sodas at The Royal Cafe. **

Clarence Stein leaves today for a holiday visit to London, Ont., and other eastern cities. He expects to be away about a month.

Carloads in and more on the way. See our stock. We defy competition. For Anything in the Furniture line come to W. E. Fales. **

Mayor Lee will call a public meeting, probably for Friday night, to discuss the money bylaws to be voted on by the ratepayers on July 14.

For Geraniums, Dahlias and all kinds of Spring Bedding Plants phone Davis' Greenhouse, R 208. **

Arrangements are being made for a big Orange celebration at Kamloops on the Twelfth of July. A good program of sports is being arranged.

McQuarrie Bros. are now ready to do business in the real estate and insurance lines. Office, 609, Columbia street. **

The run of salmon in the river is slowly improving. There are now a few sockeyes being caught in addition to the springs, which still remain rather scarce.

The amount of money collected in taxes at the provincial tax collector's office during the month of June is officially announced as $30,000, an increase of $6,000 over the same month last year.

The board of control of the exhibition has shipped the plans of the proposed horse show building to the minister of agriculture at Victoria for his approval. As soon as word is received that the plans have been approved, tenders for its erection will be called.

According to the report of George Rennie, chief operator of the Lulu island bridge, 324 vessels passed through the draw during the month of June.

Marriott & Fellowes, one of the best known real estate firms of Vancouver, has established a canvas office at Port Mann, evidently with the intention of being first on the spot when the next movement in real estate takes place across the river.

Henry T. R. Watson, a flashy young man who cashed bogus cheques here last summer, and managed to get away before his offence was discovered, has just been sentenced to from four to six years' imprisonment at Detroit for a similar practice.

The poundkeeper's report for the month of June is as follows: Horses impounded, 3; redeemed, 2; sold, 1; cows impounded, 4; all redeemed; dogs impounded, 15; escaped, 2; killed, 8; escaped, 2; stolen, 1; given away, 1; remaining in pound, 1; number of dog taxes issued up to date, 465.

A few transplanted Americans remembered the Glorious Fourth yesterday and raised the Stars and Stripes in honor of Independence Day. W. E. Fales, who has been here so long that he hardly knows whether he is Native Son or American, solved the problem by flying the Union Jack from one flagpole while Old Glory fluttered from another staff.

Secure a permanent summer home at the seaside now, before the prices rise. Lots at all the nearby seaside resorts have advanced one hundred per cent in the last two years and next year they will show a similar advance over present prices. White Rock has the best beach, train service and water supply. See White, Shiles & Co. for prices and terms. **

A deputation from the Coquitlam council last night appeared before the city council and asked that body to change the route of its pipe line in the municipality slightly as, in its present location, it interferred with road making. The council promised consideration and Alderman Bryson and Engineer Blackman will take a look over the ground. There seems to be some difficulty about changing the route now, as the pipes must be full of water to meet any sudden demand that might be made on the supply.

E. M. Dagg and W. M. Alexander have made a request of the city council which, if granted, will result in a large industry being established here. They offer to erect an elevator with a capacity of 100,000 bushels and a flour mill with an output of 200 barrels per day on condition that they are granted a 99-year lease of water lots 57, 58, 59, 60 and 61, and that they be exempt from taxes for a period of twenty years. The finance committee will report on it before the matter is considered by the council.

Alteration Sale Prices For July

PRICES GO DOWN ANOTHER NOTCH TODAY

The greater the task the greater the efforts put forth to accomplish the object of your toil. We simply must have more room, at least the space occupied by thousands of dollars worth of over-stocks and odd lines. The time grows shorter until the contractors force us to shift our departments around. Prices are down another notch today. We realize that low prices is the greatest lever in accomplishing our object of reducing our stock. July Sale Prices mean much to our customers. Investigate these new offerings. Everything reduced in price.

Women's Outing Coats

$1.95c Each

Regular values $5.50 to $7.50, 8 only, Linen and Indian Head Coats which have become slightly soiled, affecting the ready sale at the regular prices. We clear them out at a price ridiculously low. Coats are three-quarter and hip lengths; white only. Sale Price, each, $1.95.

Women's and Misses' Wash Suits

$1.95c Each

Regular values up to $6.50. Another odd soiled lot of White and Colored Wash Suits and Coat Suits. Mostly last year's styles. Only 36 suits in the lot; all sizes. Your choice today, $1.95 each.

New Shirt Waists

$1.95 Each

Some of this season's newest Tailored Waists and Embroidered Front Blouses in a complete range of sizes. As everything else in the store, receives a lower price for our big Alteration Sale. These blouses are among the lines with big overstock, hence a much lower price than usual. White only. Regular prices $2.25 to $3.00. Sale Price, each, $1.95.

Girls' White Muslin Dresses

$2.95 Each

Regular values $4.00 to $6.75; 10 only, of the finest Muslin Dresses; nicely trimmed with fine laces and insertion. As we are no longer ordering goods of this make, we make considerable sacrifice to clear them out. In the lot are dresses suitable for girls 5 to 14 years of age. They are well made, fresh and clean, and are attractive in every way. Your choice, each, $2.95.

Have you any House Furnishing Needs

Our Alteration Sale prices means that you can save by buying now. If you are going camping note the special prices on Camp Necessities.
