LOCALS NOT IMPRESSED BY FORM OF NATIONALS

Frenchmen Practice at Park—Critics Pick Flaws in Passing and Shooting.

Newsy Lalonde and his supporters in the cross continent quest after the Minto Cup put in a couple of hours hard practice at Queens park yesterday afternoon. The diversions on the sward were watched by a number of enthusiasts who were eager to get a line on the ability and speed of the Nationals. Only a couple of Westminster players, George Rennie and Grumpy Spring, took positions along the rail and criticized the work of their opponents. Captain Tommy Gifford came on the scene just as the Frenchmen were finishing their workout.

Here's a Good Offer.

President Fred J. Lynch watched the Frenchmen closely. Here is what he thinks of their chances of lifting the cup:

"I will bet $500 even money that the cup is retained in Westminster, or I will bet $500 to $750 that Westminster scores more goals in two quarters during the first match than the Nationals score during the entire game."

"If they play that kind of a game against Westminster on Saturday," continued Mr. Lynch, "they will not stand a ghost of a chance. That style of play may be all right among themselves when they are just practicing, but it will not be any good when the Minto Cup is at stake and Westminster is defending it.

"We have nothing to worry about. The series is as good as won right now."

Alex. Turnbull's Opinion.

Old Man Alex. Turnbull expressed his opinion of the Nationals to the News in no uncertain terms. In effect he said:

"The challengers make a big mistake in waiting until they get right in on the goal before they shoot. That's no way to get goals, and they will have no chance of coming in so close when they are checked by the Westminster defence. The chances they were taking today in rushing in will be disastrous to them in a match, but that will be their own lookout. They haven't got the western style of play at all, in spite of all the stories we have heard. They won't win."

Where Nationals Are Weak.

The Nationals, as a team, are a husky bunch of players and compare favorably with the Salmon Bellies in size and shape. No line on their speed could be obtained at the grounds yesterday, for all their practice was confined to the immediate vicinity of the goal posts, the challengers contenting themselves with passing, checking and shooting at the net. Their passing is far from being of the best brand, the man catching the ball having to reach out for it in six cases out of ten. In addition to having a poor eye for shootng, the Frenchmen do not always hold the ball when it lands in their stick and unless they can show a vast improvement by Saturday, they will not make a better showing than the Montreals, which is rather a harsh thing to say of any team.

L'Heureux, the National goaltender, is the fat boy of the school, his rotundity being increased by the wearing of body guards which make him look the animated centre of a dozen pillows. But Mr. L'Heureux can interpose his stick or himself between the net and the ball when occasion demands. He stopped some close-in shots yesterday that looked like sure tallies, but it remains to be seen if he can do this when the rubber is travelling towards him at the rate of fifty miles a minute five or six times in ten seconds. He sure will have a warm time in that feather bed of his on Saturday and should lose about twenty pounds before the game is over.

Newsy Looks Good as Ever.

Of course Newsy Lalonde, the captain of the team and the man whose headwork has brought Les Canadiens to the top rung of the N. L. U. ladder this season, was the boy who attracted the attention yesterday. Newsy is as fast as ever and his shooting eye is as straight as his arm is swift. Newsy, from the Westminster point of view, is the bad man on the Nationals, and he will have to be carefully watched.

Tommy Gifford to Check Newsy.

The task of keeping cases on the heady Newsy has been delegated to Tommy Gifford. As Newsy has a reputation to sustain and Gifford has one that he cannot afford to lose, it will surely be a great time when these two cross sticks on the oval in earnest. Tommy says Lalonde will only get past him by jumping over his head or his prostrate body.

Dulude Will Play.

Dulude, the inside home man of the visitors, who was reported to have broken a bone in his right hand a couple of weeks ago, was right in the midst of the busy times yesterday and doing good work. The bone was only partly crushed and is not troubling Dulude who will be in action on Saturday.

The Nationals have sixteen players, every one of whom was in uniform

(Continued on Page Five.)

PATRIOT WARNS AGAINST SEPARATION OF CANADA

Englishman Gives Fine Address Before Winnipeg Canadian Club—"Be Wary" Is His Advice.

Winnipeg, Sept. 13.—Sir George Doughty roused the members of the Canadian Club in Winnipeg today by a fine patriotic address in which he sounded a warning against separation from the rest of the empire.

"Some say that Canada might walk alone," he said. "I hope if she ever tries to do so she will walk warily, and that time will be far distant, because, however much Canadians might think they have got on, I would suggest to you that the more important you become, the more provinces are known throughout the world for their richness, the more certain will foreign nations jealously look upon you, and the more surely will they covet what you have got. But I do not think the time for separation will ever come. The patriotic feeling in Canada is too strong. You Canadians are interested in the consolidation of the empire in one government which will let the people of the world see that Britishers are determined to be supreme."

BALMORALS AND ALERTS GAME CALLED IN FOURTH

The game between the Alerts and Balmorals did not go the required five innings last night and was called by Umpire Fred J. Lynch on account of darkness. What there was of the game was good, but it did not start soon enough. When the game was called the Balmorals had eight runs and the Alerts seven. It was the last of the fourth and the Alerts were batting with two men out, but as none of the players could see the ball and the game was not a fair test of the abilities of the teams the umpire stopped it. The result will not count and the standing of the teams is the same as before.

LOCAL MANUFACTURERS WILL EXHIBIT AT FAIR

All Firms Not Occupying Space of Their Own Asked to Bulk Their Exhibits.

A combined exhibit of many of the small manufacturies of the city will be one of the features of the provincial fair. The scheme, which was suggested by the Daily News last year, has been worked up by the publicity commissioner who desires to see the city as well represented as possible at the exhibition.

He has written letters to all the manufacturers and merchants of the city asking them, if they are not going to have an exhibit of their own, to combine and utilize some of the space secured by the publicity department of the city.

C. H. S. Wade has received word from the manager of the exhibition that he can be afforded a space about sixteen feet square in the agricultural building. The space, though not very large, will be ample, and if the exhibit proves the success that it is expected to be, it will probably be set up as a permanent exhibit in the board of trade rooms at the city hall.

BURNABY WATER MAINS ARE LEAKING NOW

South Vancouver is not the only municipality which is suffering from leaky water mains. For out in Burnaby, where a small system has been installed as a temporary measure to provide for the needs of the residents—the entire system will not aggregate six miles—is not giving the results that were anticipated. There are at present some fifty or sixty services hooked up with the system and most of these are getting water all right, but the presence of leaks in the system is only too plain.

The water is obtained from a well that is owned and was at one time used by the B. C. E. R. This is located at Gilley station and the water is pumped from this into a tank about five hundred feet away. The capacity of the tank will approximate fifteen thousand gallons, but because of the leaks in the sides and bottom it is nearly impossible to keep this full and the pressure up to the mark. The mains have been leaking as well, for the ground immediately above these is rather damp, and where they have been unearthed it was found that the couplings were not watertight. Steps have already been taken with a view to remedying conditions. The officials anticipate that everything will be in fine shape in the course of the next few weeks.

This system is only a local one, and one of a number that will be installed in different sections of the municipality to supply water while arrangements are being made for a big system that will take care of the needs of the entire municipality.

SURREY MUNICIPALITY IS PREY TO DEVASTATING FOREST FIRES

Houses, Barns, Stock, Crops, Timber, Mills, Roads and Bridges Destroyed—White Rock Houses in Danger—Crescent Summer Cottages in Fire Zone—Great Northern Train Service Disorganized.

Forest fires still continue to devastate the country all around New Westminster and although no damage has yet resulted, the conditions are very serious and unless there is rain very soon there may be a terrible disaster.

The municipality of Surrey is practically a seething mass of flames. Wherever there is a house there is generally a sufficient clearing to allow the residents some chance of checking the flames, but in the bush there is nothing to check the fire, which is so extensive as almost to defy any effort which might be made to control it.

Big Timber Untouched.

A peculiar fact in connection with the fires is that the big timber on the Yale road, practically the only valuable timber in the affected district, has marvellously escaped, and the few hundred acres that are covered by it constitute practically the only part of the municipality which is not in serious danger.

Bad at White Rock.

The White Rock fire, which broke out a couple of weeks ago, still continues to be the most serious reported. Although no more houses have been destroyed any slight change in the wind would wipe out the residences of half a dozen New Westminster people.

The customs house at Douglas is in danger.

The fire has spread about five miles towards Crescent and about four towards Blaine. A little strip of unburnt timber stands between this line of fire and the White Rock cottages, but fortunately the wind is blowing in from the ocean and the fire is burning away from the houses at present.

No Trains on Great Northern.

On account of several bridges being burned out on the main line of the Great Northern the trains were all sent around by Sumas yesterday and were considerably delayed. No. 274, due at 2:50 p.m., was delayed five hours and fifteen minutes. No. 270, due at 6:25 p.m., was three hours late. No. 272, due here at 9:30 p.m., was three hours late.

There is a bridge burned a few miles north of Blaine. It was a wooden structure about 120 feet long and fifty feet high, over a gully, and it was completely destroyed. Between Colebrook and Cloverdale a bridge over the Serpentine was also burned. Even if nothing else happens to the line, it will take a week at least before the trains are running over the regular route. The telegraph line is also out of commission.

Beach Lost Barn.

On the McLellan road in Surrey a man named Beach lost his crop and his barn, but managed to save his house.

Between here and Hall's Prairie several small bridges and culverts are burned out and it is impossible to reach the place by team or automobile.

Bad at Strawberry Hill.

At Strawberry Hill the residences of Snelling brothers and O. Flux are in the centre of the fire zone and their places are in serious danger.

Hazlemere Mill Burned.

Hunter's mill at Hazlemere caught fire yesterday afternoon and was burned to the ground. Men from the vicinity tried to save the mill, but their efforts were fruitless. The damage will amount to about $2000, partially covered by insurance.

Morrison Family Suffers.

Misfortune seems to pursue the Morrison family, of Hazlemere. Two years ago the mother was brutally murdered by a negro tramp. Since then ill luck has visited them frequently, and now their little home is burned to the ground, none of the contents being saved. The younger children had been earning a little money by picking berries this summer and had about $20 in their bank at home. Now they have neither home nor money.

Houses Go at Surrey Centre.

Two houses and a barn belonging to farmers were destroyed at Surrey Centre. H. V. Parr, near Cloverdale, had thirty acres of his timber limit burned over and destroyed.

B. C. E. R. Affected.

In some sections of the B. C. E. R. line the poles are burned and the high tension wires are on the ground. The company is operating on a small wire. Several trees fell across the track yesterday afternoon, but the company got a gang of men working and established a patrol which managed to keep the line clear.

Road Burned.

A plank road near Hazlemere was burned out for several hundred yards yesterday afternoon.

Business Forsaken.

Storekeepers, farmers and mill men have forsaken their business throughout the district to aid in fighting the fires. The schools are closed and the children are at home doing their best to protect their parents' property.

Frenchman Loses Stock.

In the vicinity of White Rock a French settler by the name of Blayel lost his barn together with a horse, a cow and some pigs.

Fire at Jubilee.

Last night a new bush fire was reported from Jubilee on the Vancouver line of the B. C. E. R. It was reported as being rather bad and threatened the house of a man named McLean. The B. C. E. R. had men working on it last night to keep it away from the railroad track. The fire is burning in the direction of the Royal Oak hotel.

Officials Inspect.

Yesterday afternoon F. J. MacKenzie, M. L. A., Chief Fire Warden Gladwin, of Vancouver, and John Sproat, superintendent of roads, went over the country in an automobile. On his return last night F. J. MacKenzie stated that there was hardly a part of Surrey which was not in flames. Where there was no timber the fire burned in the grass and in the sod and there was hardly a building in the municipality safe. He said that considering the extent of the fires there had been remarkable little damage done. The party will go out again this morning and look over the situation.

Fraser Mills Safe.

The fire which was burning on the other side of the Fraser mills is still blazing, but the mill men have the side next the mill under control and no further damage is anticipated from that quarter.

At Ocean Park.

Hearing that their houses were in danger at Crescent, Mayor Lee, T. S. Annandale and J. R. Grant went down yesterday afternoon, the train stopping at Crescent to let them off. They all have houses there and stayed to protect them, but it is not thought that the property there is in immediate danger.

Animals Driven from Woods.

At White Rock the flames have driven chipmunks, squirrels, grouse and pheasants from the bush and they are gathered in great numbers along the shore and wherever the fire has burned itself out. There are hundreds of the terrified birds and animals become so tame by the presence of danger that they are not afraid of anyone approaching.

Rowe's Good Work.

W. Rowe, who was stationed by E. H. Sands to fight the fires at White Rock a couple of weeks ago is still there and is doing good work. Some times he has been without assistance, but he has stuck to his post and has done a lot towards saving the residences at White Rock.

Subsiding Slightly.

Neil M. Matheson, customs officers at Douglas, returned to the city last night. He stated that the fires were bad all along the line, but showed signs of subsiding if the wind did not change.

Telegraphs for Supplies.

Ed. Murchie, who went to White Rock yesterday to protect his summer home, telegraphed in the afternoon that the situation was serious. He wanted to stay there and asked for some supplies. Captain Mayers will go down by boat this morning carrying enough provisions to keep the fighters going.

Yesterday afternoon, H. Mavius, Dr. T. H. Levy, Captain Mayers, J. Stewart and E. A. Paige, all of whom own houses at White Rock, went down to look over the situation. They did some hard work and will go down again today.

Late last night it was impossible to get more information, but the smoke in the city was denser than it had yet been. The wind was from the east and rising and it is feared that some serious damage was caused.

Fires Across the Line.

Bellingham, Sept. 13.—The crippled condition of telephone and telegraph lines makes it impossible to estimate the extent of the damages occasioned by the forest fires that have swept Whatcom county and parts of British Columbia during the past three days. The fierce gale that fanned the flames yesterday afternoon and last night has died away and in most places the fires have either burned themselves out or have been driven back from the settlements.

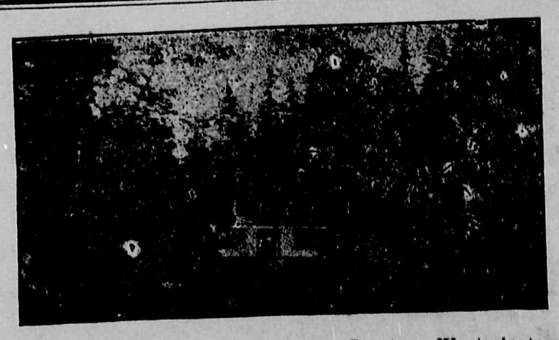
An unconfirmed report from Custer, fourteen miles northwest of Bellingham, says that thirty houses were destroyed there last night. Ferndale, Lynden and Blaine also suffered to some extent, but it is thought these places are now safe. Burned culverts and bridges makes it difficult to get couriers to the scenes of the most serious blaze.

Bennett's addition just outside Bellingham city limits, was practically wiped out last night. Eleven houses were destroyed before the flames could be checked.

The city itself is safe.

Now Under Control.

Bellingham, Sept. 13.—The forest fires which have been blazing around Bellingham for the past few days are now under control. The damage will amount to over half a million dollars.



—Courtesy Westminster Courier.

J. P. GOARD'S RESIDENCE AT WHITE ROCK.

This house, the finest in the district was completely destroyed by fire on Monday. The loss is estimated at $5000.

GREY SUGGESTS KEEPING FORT GARRY AS MONUMENT

Old Manitoba Landmark Should Be Preserved by Nation Because of Historical Interest.

Ottawa, Sept. 13.—The secretary of state received today from Professor R. W. Brock, who was with Earl Grey's party to the far north, an official mailed report giving a further account of the trip. More attention is paid to that part of the trip from Winnipeg to Norway House. There is a description of St. Andrew's Locks and of Lower Fort Garry, which his excellency suggests should be preserved by the nation as a historical monument.

George Grey, a cousin of his excellency, who was with the party, injured his leg while struggling with a pike and was lame for the rest of the journey.

The more important portion of the report deals with the trip out from Churchill harbor, which is described as a natural one shut in by projecting rocky points. The run to the straits was without incident.

Gives Permit for Demonstrations.

Madrid, Sept. 13.—The Spanish government has authorized the holding of Catholic demonstrations in the principal cities of Spain in October. Cardinal Aguirra, primate of Spain, has sent his blessing to the juntas, inviting them to maintain order and recommending the invocation of Christ or the Virgin according to the devotion of the respective regions.

Saskatchewan Bar Elects Officers.

Saskatoon, Sept. 13.—At the annual meeting of the Saskatchewan Bar association here this morning, the following officers were elected: President, O. S. Black, Weyburn; vice-president, G. H. McRaney, Saskatoon; secretary-treasurer, H. L. Jordan, Saskatoon. Regina was chosen as the next place of meeting.

TROTTER SUBMITS REPORT ON IMMIGRATION SUBJECT

Laborite Strong on Criticism and Suggestion—Port Arthur Man Would Close Bars on Labor Day.

Fort William, Ont., Sept. 13.—Immigration was the principal theme of discussion at today's session of the Trades and Labor congress. W. R. Trotter, Winnipeg, presented a long report on the subject in which he laid special stress upon the necessity for restriction and for the provision against exploitation. He severely criticized some schemes of immigration and emigration followed in the past and in the concluding portion of his report he said, in part:

"It should be understood that no scheme detrimental to the interests of Canadian citizenship will be tolerated and Canadian citizenship must be held to include more than the Manufacturers' association and the allied press."

James Booker, president of the Port Arthur Trades and Labor council, offered a resolution asking for legislation closing all bar rooms on Labor Day.

REID EMULATES FAMOUS DR. CRIPPEN

Clayburn Suspect Has Disappeared—Man Arrested Not Missing Husband.

The reward for the arrest of George Reid, wanted on a charge of murdering his wife at Clayburn a week ago, still stands and the police remain scouring the country looking for the fugitive.

It was reported from Bellingham yesterday that the wanted man had been arrested, but the capture had no difficulty in proving that he was a different individual.

It is the first serious crime that has occurred in the country districts since the last assizes and the police are determined to catch Reid if possible. A dozen Canadian constables and as many American assistants are scouring the woods on both sides of the line, but so far their efforts have met with no success.

The man got four or five hours start and evidently made good use of it. It is possible that he could have walked to Mission and boarded the Vancouver train before the alarm was sounded on the day of the murder and in that case there would be no clue, for there are so many strangers and travellers around Mission Junction and so many getting off one train and on another, that unless there was something striking in his appearance he would not be noticed.

The only clue which seems to be in any way definite is the statement of a woman near Washington lake that she saw a man answering Reid's description in every particular board a freight train there. But the woman may have erred, for it is a well known fact that when descriptions of a fugitive are published far and wide, people have a strange faculty of fitting the description to almost any one who looks suspicious.

KING COMMENDS Q. O. R.

Sends Cablegram to Earl Grey After Receiving Detachment.

Ottawa, Sept. 13.—Earl Grey, governor-general, received yesterday the following cablegram from his majesty the King:

"I have had the pleasure of receiving today at Balmoral a representative detachment of the Queen's Own Rifles of Canada, and of hearing of their successful work at the manoeuvres. The spirit thus shown by the Dominion is a good augury of the future of the imperial army.

(Signed) "GEORGE R. and I."

ROAD TO PEACE RIVER.

New York Capital Back of British Columbia Project.

Winnipeg, Sept. 13.—Premier Sifton for the government of Alberta, yesterday signed plans for the Pincher Creek, Cardston & Montana railroad, which will run from the international boundary line to the Peace River Landing, 700 miles north. New York capital is building the railway.

DECISION OF HAGUE TRIBUNAL STANDS

The Hague, Sept. 13.—The award of the international court of arbitration in the Newfoundland fisheries case became irrevocable today with the expiration of the five days allowed for an appeal without either the United States or Great Britain having entered a protest against the findings.

OFFERS AVIATION PRIZES.

Paris Municipality Would Encourage Flight to Brussels.

Paris, Sept. 12.—The municipality of Paris proposes to offer a prize of $20,000 to the aviator making a flight with a passenger from Paris to Brussels and return on occasion of the visit of the city council to Brussels on September 26.

Fisher May Resign.

Melbourne, Sept. 13.—The long lasting dispute in Australian political circles anent the selection of the federal capital is not yet over. In fact, a serious crisis which may lead to the resignation of the Fisher administration has just developed.

BIPLANES DODGE IN FOG.

Two Aviators Narrowly Avert Collision in Air.

New York, Sept. 13.—"Joe" Seymour, in a Curtiss biplane, and "Tod" Schriever, in the Howard Dietz biplane, had an unusual experience early today when both became lost in a dense fog that hung over the plains, obscuring all objects. Both men had difficulty in getting their bearings and kept well up in the air to prevent collisions with trees and fences. Each aeronaut was warned of the other's presence by the throbbing of the motors, and thus avoided collision by flying over or below each other as they approached. Seymour made four long cross-country flights and Schriever made three.

Earth Shocks in California.

Salinas, Cal., Sept. 13.—Two sharp earthquake shocks were felt here at 4:56 o'clock this morning. No damage has been reported.

City Hall, September 13, 1910.

FOUND.

FOUND—TEAM OF HORSES. APply James Doyle, Penitentiary Row. If not called for in fourteen days will be sold to defray expenses.

FRENCH ARMY ENGAGES IN DEFENCE OF COAST

Mimic Warfare Undertaken to Demonstrate Result of Hostile Force Landing From British Channel.

Grand Villieres, France, Sept. 13.—The French army, with the new auxiliary of aviation added, began today a practical demonstration of what might be expected if a hostile force landed on the southern coast of the British channel.

The scene of this year's maneuvers is the plan of Picardy, the old province in the north of France, bordered on the north and northwest by the Slev., which separates the republic from Great Britain and forms the Department of Somme and part of Oise, Pas de Calais and Aisne.

The 80,000 troops engaged are divided into opposing armies, one, designated as the blue and representing an invading force, being under command of General Picquart, former minster of war, and the other, the red, formed the army of defence under command of General Munner. General Michel has the supreme direction of the practice.

The operations opened at daylight, General Picquart's men having effected, theoretically, a landing on French soil, advancing from the River Seine at Rouen. At the same time the red army concentrated near Amiens.

An interesting feature of the tactics was the employment of the guns with which each army is equipped. General Picquart, trained in infantry evolutions, scattered his cannon in support of the new open order formation of his infantry, while General Munger, the artilleryist, massed his batteries.

General Michel has strictly forbidden any feats of prowess on the part of the aeroplanes which might result in interference and collision and the work of the machines is restricted to a test of their capability as swift dispatch bearers for reconnoitering purposes.

The dirigible balloons participating are equipped with light wirless outfits and are in constant communication with the earth. In this way they perform the double mission of aerial scouting and of transmitting instructions from the commissioners to their officers.

Maj. T. Bentley Mott, American military attache at Paris, is attached to the staff of General Michel and is watching the operations for the United States war department.

GIANT AMERICAN FLEET TO GATHER AT NEW YORK

New York, Sept. 13.—The largest fleet of American battleships and armored cruisers ever assembled in the Hudson river will be seen in New York next week. Fifteen battleships, including three new Dreadnoughts, four armored cruisers and a correspondingly large division of auxiliaries will be in the great armada that Admiral Schroeder will bring here immediately following the conclusion of the battleship practice.

The vessels will remain in the Hudson ten days, and while here every one of the men will be paid off and receive shore leave.

While ashore, the navy department expects every one of them to have a "most respectable good time."

About $600,000 will be paid the men by paymasters. Most of it will be spent in New York.

At the end of the ten days' liberty period in New York the vessels will proceed to their various home yards for overhauling, preparatory to beginning the European cruise, which is scheduled to start at Hampton Roads on November 1.

Postpones Visit to Canada.

London, Sept. 13.—Right Hon. Walter Long, in consequence of ill health, is postponing his visit to Canada.

CORPORATION OF THE DISTRICT OF BURNABY.

Bylaw No. 83.

WHEREAS Fourth street, Burnaby, being more particularly hereinafter described, has been used as a traveled road for several years past; AND WHEREAS doubts have arisen whether the whole of the said street has ever been actually dedicated to the public and the possession thereof vested in the municipality; AND WHEREAS is is advisable to establish and open the said street under the provisions of the "Municipal Clauses Act." THEREFORE the municipal council of the corporation of the district of Burnaby ENACTS as follows:

1. The street known as Fourth street Burnaby, and being particularly described as a strip of land forty-nine and a half feet in width, lying thirty-three (33) feet northeast and sixteen and a half feet southwest of the hereinafter described line, that is to say, commencing at the most easterly corner of lot twenty-eight (28), group one, New Westminster district, for a distance of one thousand nine hundred and thirty feet more or less to its intersection with Seventh avenue in lot twenty-eight, group one, New Westminster district. ALSO a strip of land sixty-six feet wide lying thirty-three (33) feet on each side of the hereinafter described center line that is to say commencing at a point on the line dividing lot twenty-eight (28), group one (1) from lot twenty-seven (27), group one (1), distant one thousand nine hundred and thirty feet north westerly from the most easterly corner of lot twenty-eight (28), group one (1), New Westminster district ,thence north westerly along the line dividing lot twenty-eight (28), group one (1), from lot twenty-seven (27), group one (1), for a distance of one thousand seven hundred and seventeen feet more or less to the most northerly corner of lot twenty-eight (28), group one (1), New Westminster district, shall be and is hereby established and opened as a public road and highway.

2. For the purpose of definitely vesting possession of the said road and highway in the municipality of the corporation of the district of Burnaby, the council may enter upon, expropriate and take any real property that is necessary or convenient for the said purpose subject to the restrictions contained in section 251 and 252 of the "Municipal Clauses Act."

3. This bylaw may be cited for all purposes as the "Fourth street appropriation bylaw."

4. Passed by the council on the 23rd day of July, 1910.

RECONSIDERED and finally adopted, signed by the reeve and clerk and sealed with the corporate seal on the ..... day of ....., 1910.

REEVE.
C. M. C.

This is to certify that the above bylaw is a true copy of one which is proposed to be reconsidered and finally passed on the 17th day of September, 1910.

HOBBLE SKIRT HEROINE WILL GET SILVER CUP

New York, Sept. 12.—Mrs. Sarah King, of Brooklyn, this week will receive a tall silver cup as the winner of the "100-yard hobble skirt championship of Greater New York."

A race for the trophy was the feature of a seashore outing at North Beach, L. I., yesterday. The program announced that "women desiring to enter who were not equipped with hobble skirts will be hobbled with ropes, until they are fully as uncomfortable as if dressed in the height of fashion."

The winner covered the 100 yards with only seven tumbles. No time was taken.

SANITARY NOTICE.

All rubbish and garbage must be removed to the foot of Sixteenth street and Fifth avenue, where it will be burned by the corporation.

Any person or persons who dump garbage or rubbish of any kind on any other street or avenue or on any lane, vacant lot or public property will be prosecuted under the provisions of the Sanitary Bylaw.

By Order, S. J. PEARCE,
Sanitary Inspector
City Hall, June 13, 1910.

SETTLERS CANNOT SECURE FREE LAND

Australia Handicapped By Not Being Able to Offer Enough Inducements.

Edmonton, Sept. 13.—On a tour of the British possessions, taking in Australia and New Zealand and coming to Canada by way of Vancouver, G. V. Cox, a native of the south of England arrived in the city from the south on Wednesday. Mr. Cox came to Canada from Australia where he has spent the past year.

Speaking of a dispatch which appeared in the press a few days ago, stating that Premier Fisher had announced the intention of the government to build a transcontinental railway through Australia, Mr. Cox stated that this was a part of the government's policy to open up the unsettled portion of northern Australia. The railroad would cross the continent from south to north and a line of steamships would be established from the northern terminus of the road communicating with ports of other British possessions.

The building of the railway would open up northern Australia just as the building of the Canadian Transcontinentals have opened up the prairie provinces of Canada, and British Columbia.

In answer to an inquiry as to whether Australia is getting a share of immigration from Great Britain proportionate with that which is coming to Canada from British shores, Mr. Cox stated that Australia has not the inducement to offer the settler that Canada has. The farming land there has practically all fallen into the hands of squatters and consequently there is no free land to offer as an inducement for immigration. The great distance from England to Australia is another factor which tends to diminish the number of settlers who decide to make it their home.

"The policy of the labor party which is now in power in Australia with Premier Fisher at its head is to open up the land for settlement as far as possible, but the carrying out of the policy will necessitate the purchase of the land from its present owners, the sheep and cattle men, and the settlers will in turn have to purchase it from the government said Mr. Cox. He compared the situation to that existing in Western Canada where the speculator has purchased large tracts of land in the vicinity of the new railway lines through the country and is holding it for higher prices.

Speaking of what he had seen of Western Canada on this his first trip through the Dominion, Mr. Cox stated that what impressed him most about the west was the vast extent of prairie land lying ready for the plow. This presented a marked contrast to what he had seen in Australia, where the greater part of the wild land is heavily wooded.

C. P. R. ANNUAL REPORT.

Pamphlet Contains Figures Setting Forth Year's Business.

Winnipeg, Sept. 13.—The annual report of the C. P. R. just issued in pamphlet form, contains some figures which have not hitherto been published. The working expense of the year amounted to 64.38 per cent. of the gross earnings and in the net earnings to 33.62 per cent. as compared with 69.92 and 30.08 per cent. respectively in 1909. Sales of agricultural land during the year aggregated 975,030 acres for $14,468,564, being an average of $14.84 per acre. Irrigated land brought $26.59 per acre, so that the average of the balance was $12.78. The company will expend $8,500,000 on the Eastern section of the irrigation block to provide water, the work to extend over three years. Out of the total earnings for the year of $94,989,490, passengers brought $24,812,020; freight $60,158,887; sleeping cars, express, etc., $9,226,536 and mails $791,745. The number of passengers carried was 11,182,891 against 9,784,350 a year previous. Tons of freight carried jumped in a year from 16,549,616 to 20,551,368 tons.

DIES IN JAIL BATH TUB.

Prisoner Has Attack of Heart Disease or Apoplexy.

Ellensburg, Wash., Sept. 13.—H. P. Hicks, of Cle Elum, died in the bath tub at the county jail shortly after noon yesterday. Doctors state that death was due either to heart failure or apoplexy. One of the jailers watched the old man get into the tub and start scrubbing, but was called to the telephone. He had not been gone two minutes when the prisoners said something was wrong in the old man's cell. On entering he found him dead in the tub, with his face partly covered.

FANATICS TAKEN FROM BAPTISM TO PRISON

Chicago, Sept. 13.—Six men, claiming to be members of a Persian religious cult, were arrested yesterday by the police while they, with about forty men and women were holding services in the waters of Lake Michigan. Services were held in the water at the foot of Diversey boulevard and attracted the attention of churchgoers.

Police were notified of the singing and shouting of the cultists. They arrived to see women and men lowered into water up to their necks. When the police tried to break up the services leaders of the cult protested loudly.

In their cells the prisoners renewed their unfinished services, each member preaching in turn.

Results or a Jolly

? ? ? ?

The keystone of success in business is judicious and consistent advertising.

The hard headed business man knows what mediums to employ to make his business better known---He uses the columns of the daily paper, preferably the morning newspaper.

The more easy going business man---the man who likes being "jollied along"---gives out his advertising to the smooth tongued peddlar of bubble publicity schemes.

One man gets results; the other gets a "jolly". Where do you belong, Mr. Merchant?

MODERN EDUCATION.

It has long been a question for discussion among those who take an interest in the training of the young as to the lines upon which the education of our primary schools should be directed. There is a strong leaning nowadays towards what is known as the educational ladder, the provision of stepping from the primary to the secondary school and thence to the university. Generally speaking the aim and desire of most parents is to afford their children the very best education that their means and the intellectual capabilities of the children will admit.

But according to a correspondent this idea is not what should be aimed at. He pleads for the training of children to fit them particularly for their environment rather than for high scholastic success. His plea is not without the strength of good reason. He says:

"The curriculum of the school should have some bearing upon and take intelligent cognizance of the occupation of the people, the industries and staple products in the section where the school is situated. If a child lives in a fruit-growing district special attention should be given to that particular industry in that particular school until intelligently apprehended not only from the point of view of nature study, but also from the more material side of gaining a livelihood.

"Our present course of study unfortunately tends to fill the cities and depopulate the country. It looks forward to the learned professions as its goal. It is rank class education. It is vocational training for doctors, lawyers, clergy and professors of medical institutions of so-called culture. The present demand, however, is for vocational training for the farmer, the fruitgrower, the dairyman and the artisan.

"The present day cry is 'back to the land,' and we need a course of study which will not only keep people on the land, but will bring those who have left it back to it. Too much time is spent on Latin roots and too little on the roots which nourish and sustain life. Some there are who say this view is of the earth, earthy, basely utilitarian, and loses sight of culture as the great end and object of education. No education which will induce the growing boy properly imbued with the dignity of honest labor to take an intelligent loving interest in the principal industry of his community, to understand it in all its details, to love and to study mother earth which responds generously and abundantly to well-directed labor scientifically applied, can be said to lack the essential elements of the best culture. The training here indicated enables him to provide himself with the highest culture possible.

"This is no experiment, the phase of rural education just lighly touched upon in this letter, and to which the department of education in this province has shown iself so indifferent, if not actually hostile, is now carried out in many rural schools in the eastern provinces. There are schools in Nova Scotia, New Brunswick, Prince Edward Island and Ontario to which are attached from two to ten acres of land where every cereal, fruit vegetable, tree and plant suitable to the respective places is raised, cared for and tended by the children under the care of the teachers. Each of these school gardens or school farms takes the place for a model or experimental farm for the section in which it is placed. In fact, in some of the schools scientific dairying is carried on. While British Columbia is joined to her idols the dead languages, which only the dead have time to learn, the other provinces of the Dominion are working out the details of a national system of rural education.

"The educational authorities in British Columbia, when the system is critized adversely usually point out with swelling pride the record of our students at McGill and Toronto universities. Such records only show that we have some of the very best material in this province, and we wish to broaden our system of education so that such records may not be confined to classics and mathematics alone but will embrace every line and avenue of human activity suggested by the various resources awaiting development in this richly endowed province. Our young men and women if we provide adequate educational facilities will grow and develop like our firs and cedars.

CABINET MEETINGS ARE RESUMED AT OTTAWA

Business Accumulated During Summer Must Be Cleared Before Legislation Is Considered.

Ottawa, Sept. 13.—Cabinet meetings were resumed today and will continue at frequent intervals until the sessional program shall have been arranged. The summer accumulation of arrears which, as it happens, has not been very serious this year, will be first cleared up and then the legislation program to be laid before parliament will be considered.

The recess has not been one of general relaxation for the cabinet. Sir Wilfrid Laurier, Hon. George P. Graham and Hon. William Templeman have been busy in the West on a political mission; Hon. A. B. Aylesworth has been occupied with The Hague arbitration and has not yet returned; the postmaster-general is away in a representative capacity to South Africa; the minister of labor is on an official commission to Europe. The departmental arrears consist principally in the formal completion of appointments, most of the public works and railway contracts having been duly awarded during the holidays.

Perhaps the most important subject to be dealt with will be the invitation of the United States authorities to a resumption of reciprocity negotiations. With the parliamentary session booked for about the middle of November and the congressional elections on the other side taking place on November 8, there is very little probability of a practical stage being reached, but it is good guessing that in view of the fact that the campaign will be fought on the tariff issue, preliminaries for reciprocity negotiations will be in evidence during October.

The T. H. SMITH Co. LIMITED

REMEMBER WE CLOSE AT 6 P.M. SATURDAYS, 10 P. M.

New Fall Fashions In Ladies' Clothes

Continue to arrive daily, making welcome additions to our select stock of ready-to-wear. We are using the new portion for this department already, which makes it a roomy, well lighted section, enabling us to display to better advantage our enormous collection. We invite all who are interested to come and inspect the new styles,—our goods and prices will stand inspection—even if you are not prepared to purchase come in and see what the fashions are to be. We received our seven tons of merchandise last week, a large portion of this being directly imported. We hope to be using the entire extension by the end of the week, including the fine new windows. Watch for our announcement.

THE NEW COATS

Quite a stir in coats already. Many who have come to inspect have been tempted to purchase, on account of so many of our garments being exclusive models. Cheviots, Broadcloth and Diagonals in Serge and Tweed effects are largely to the fore this season. Severe tailored styles, military effects, pleated skirt models with braided trimmings, made from plain cloths and mixtures in striking and fashionable colorings. From ..... $14.00 to $50.00

Suits To Suit All Tastes

Everything that is smart and up-to-date in suits is to be found in this, our busiest section. Models in Diagonal, Cheviot and Broadcloth, all new and fashionable shadings in exclusive styles that appeal to all well dressed ladies. The collection of colors is extremely large this season, almost rivalling the colorings of last season for variety. Stunning models in shades of raisin, green, grey, brown and blue, pleated, panelled and strapped effects. Moderately priced, from.. ..... $18.50 to $50.00

Busy Days in the Dress Goods Section

And no wonder, the choice this department affords in fabrics and colors, is sufficient to suit the most fastidious. For children's school dresses our stock of navy Serges and Worsteds cannot be beaten for value. For ladies' suits and dresses we have the largest and best assorted range of staple and novelty fabrics in the city, and for evening or afternoon wear our selection of exclusive Silk Foulards, Eoliennes, and Voiles are attractive on account of their distinctiveness. Inspection invited. Prices range from, per yard ..... 30c to $2.50

CORPORATION OF THE CITY OF NEW WESTMINSTER, B. C.

Devastation By Fire

CHILLIWACK.

Chilliwack, B.C., Feb. 10, 1909.
Messrs. White, Shiles & Co.

Gentlemen,—I am enclosing receipts for the amount of our insurance, ($5,500.00) in full on the Steamer J. P. Douglas, which was destroyed by fire last month, and wish to thank you and the Companies, (Phenix and Connecticut) for the very satisfactory manner you settled our loss. . . .

Yours faithfully,
(Signed) A. E. YATES, Mgr.

WHITE ROCK, B.C.

Sept. 12, 1910.
White, Shiles & Co.

The fire here extends from the C. N. R. station for about four miles. Store and five residences burned up, mill and Ocean Park property in danger.

(Signed) ROBERT ROE.

COLUMBIA STREET NEW WESTMINSTER, B. C.

NEW WESTMINSTER.

September 12, 1910.
Messrs. White, Shiles & Co.,

Gentlemen, — Please accept my thanks for your exceedingly prompt settlement of my fire insurance claim in connection with the fire that took place at my office last night.

(Signed) RICHARD G. DINGLE.

BURNABY.

Burnaby, B.C., Sept. 8.
Messrs. White, Shiles & Co.

Gentlemen,—I beg to acknowledge receipt of your cheque for $1,800.00, in full settlement of my claim under the Connecticut Fire Company's Policy, upon my dwelling and contents, burned August 26th.

Please accept my thanks for your prompt and satisfactory settlement of this claim.

Sincerely yours,
(Sgd.) GEORGE EVERY-CLAYTON.

SPORT NEWS OF THE DAY

Expert Opinions on Coming Minto Cup Games Printed in Today's Eastern Newspapers

Westminster Sanguine.
(Today's Toronto Globe.)
New Westminster, B.C., Sept. 13.—(Special to the Globe.)—Nationals practiced here this afternoon. On form and style of play locals concede' challengers no chance. Unlimited Westminster money ready to back champions.

Westminster Cocksure.
(Today's Toronto World.)
New Westminster B.C., Sept. 13.—(Special to World.)—After seeing Nationals practice here today Westminster sanguine of easy victory. Challengers' tactics easy meat for Salmon Bellies. Frenchmen hopeful. Westminster cocksure.

Locals Not Impressed By Form of Nationals

yesterday. This gives the visitors an advantage over the cup defenders, as Westminster has only fourteen men, all told, in shape to step out on the field, Longfellow and Tom Rennie being both medical cases at present.

New Turf on Field.

When the Nationals arrived at Queens park they saw a number of men in uniform at work, with their trainers standing guard over them with rifles. Any suspicion that this might be the Westminster lacrosse team was dispelled when they were informed that it was the chain gang returfing a portion of the grounds in order to have it in the best of shape for Saturday. Nine hundred feet of turf are being laid and all that is needed now is a heavy roller to get the surface down to billiard table condition.

Team Is in Good Shape.

Speaking to the News, President Lecours said the players were in good condition and had not felt any ill effects as a result of the train journey. Mr. Lecours admitted it would not surprise him greatly to see the Nationals win the cup.

Coach Shiner White remarked that some of the men were suffering from slight colds, but this trifle will not affect them.

Team Back to Vancouver.

After the workout the Nationals went back to Vancouver, where they are making their headquarters at the Badminton hotel. The officials and Mr. Prince, managing editor of La Presse, of Montreal, remained in the city to discuss details concerning the forthcoming games with the officials of the local club.

The big talk at the conclave raged round the price of admittance to the bleachers. The Nationals wished the figure to be fifty cents, while the locals stood out for twenty-five cents, that a dollar being charged for seating space in the grandstand and on the temporary stand. The challengers advanced the argument that at the Montreal-Westminster matches the price for the bleachers had been fifty cents, hence it should be fifty cents now. But the Westminster men, who have been given too much free advice on this four-bit tax since those games are not anxious to hear another prolonged howl on the same subject and stood pat for the lower figure. The twenty-five cent proposition carried.

At that figure the Nationals will make about as much money as the Montreals, for these had to pay half the cost of the new stand.

Visitors See the Cup.

The officers of the Nationals were given a private view of the Minto Cup last night. Alderman C. A. Welsh, in cahoots with Manager C. A. Welsh, of the lacrosse team, and Chairman C. A. Welsh, of the library committee of the city council, where the cup is kept in storage, connived to arrange for the display of the trophy in the window of C. A. Welsh's grocery store. Here the distinguished party was taken yesterday evening and permitted to view the object of their trip to the home of lacrosse. The Montreal men gazed with awe and wonder at the silverware. Then they sighed. And then one bolder than the rest, said, right out loud, "It's coming back with us to Montreal." But his tone was not convincing. All the same, Mr. Welsh insisted on everyone leaving the store before he did, keeping an eye on the cup until the visitors had stepped outside. Then he counted the crowd to make sure no one had hidden himself behind the prune box with foul and evil design.

The party consists of Adolphe Lecours president of the club; J. S. Duquette, secretary of the lacrosse committee and director of the club; William Labrecque, director; Lorenzo Prince, managing editor of La Presse; L'Heureux, J. Cattarinich, Fred Gagnon, Jos. Decarie, Monty Clement, Dr. Lachapelle, O. Secours, E. Dulude, Eugene Gauthier, Eddie Lalonde, Jos. Lamoureux, George Dussault, Jack Laviolette, Richard Duckett, Napoleon Boulianne, George Beauchamp, William Noseworthy, trainer; Shiner White, Mr. Mallette and Mr. Seguin.

Lacrossettes.

The Nationals will play in blue sweaters, with the letter N worked in white on the breast.

The challengers are protected with pads and guards and elbow protectors. Small chance to hurt those boys.

After yesterday's practice, the man with money to bet is no longer worried about the result. For the first game three to two is good odds.

The Westminster lacrosse players are not at all curious. Only two of them turned out to watch their rivals' cavort round the field.

Con Jones may take the Nationals and the Vancouvers to Victoria for an exhibition game.

The Nationals may be Frenchmen, but they talk English most of the time.

Trainer Noseworthy was selected as the victim to sample the water which the Frenchmen will drink on Saturday. He pronounced it good.

"I think Matt Barr and Lionel Yorke will give us a fair shake, and I think we can win," declares Newsy Lalonde. Newsy is right in two places; the referees will give him a fair shake and he thinks he can win.

The minor officials for the big matches will be selected on the field.

Forecast announcement for Friday: "Only officials will be allowed on the field."

By courtesy of Lorenzo Prince, managing editor of La Presse, the News is permitted to publish the following despatch, sent by him to La Presse yesterday evening:

"I am wiring you from the very grounds where next Saturday the Minto Cup dispute will begin. Westminster is some ten miles from Vancouver and is reached by rail, steamer or trolley.

"The National team started right after lunch to have their first practice on the field, where the first championship of the world game will take place. The campus is fine, with the exception that there is a grade of seven to eight feet between the two goals.

"All our men were out at practice and for a couple of hours the home worked like Trojans against the defence. Jack Laviolette did some good work at inside home and it is probable Jack will replace Dussault for the first championship game.

"Our field, although the men must feel tired after their long trip, was fast and the boys seem quite determined to play the game of their lives. Our home and our defence being strong, it will be left with our field to be rapid, entertain the home with the ball and get the defence rid of the ball.

"After the practice, which was generously allowed by the Westminster club, some members of the executive, including Charles A. Welsh, manager of the team; Fred J. Lynch, president of the club, and Alderman A. W. Gray, entertained the directors of the Nationals and myself at their club.

"These gentlemen promised us a square deal and fair play and we did not hesitate, in return, to assure them that if we were beaten fairly we would readily admit it and go back home with no ill feeling.

"Personally, I firmly believe the Nationals will receive fair treatment at the hands of the home team. But to bring back the cup, we will have to win it and it will not be an easy job.

"I have secured information concerning the Westminster team. They are a strong, heavy and rapid team and will not leave the trophy go without making a desperate resistance.

"After the practice the National team returned to Vancouver. The next practice will take place tomorrow morning on the Vancouver grounds.

"Con Jones, general manager of the Vancouver team, has done everything possible to make things smooth for our men during their stay here. He attended the practice this afternoon.

"PRINCE."

Leave Winnipeg This Morning.

Winnipeg, Sept. 13.—After spending the afternoon in driving around the city and attending an informal reception in the evening, the three hundred visiting members of the Canadian Manufacturers' association leave at nine o'clock tomorrow morning for the west, en route to the coast, the first stop being at Portage la Prairie.

NATIONALS WILL PLAY AT PROVINCIAL EXHIBITION

Frenchmen Sign Agreement to Play Four Games with Vancouver and New Westminster.

After prolonged dickering at a meeting yesterday between the officials of the R. A. & I. society, Con Jones, representing the Vancouver Lacrosse club, and representatives of the Nationals and New Westminster Lacrosse club, the exhibition officials managed to secure an agreement guaranteeing them four games of lacrosse.

The Nationals agree to play four games under R. A. & I. auspices, and Vancouver and New Westminster two each. The games will not interfere with the Minto Cup matches.

The first of the series will be played between the Nationals and Vancouver on October 1, three days before the exhibition, and the others will be played on dates to be arranged by the R. A. & I. society.

What terms the managers of the exhibition offered to the Nationals for their services is not known, but it must be substantial, for no professional lacrosse team is playing four games of lacrosse in one week just for the sport of it.

Owing to the arrangements made, the Nationals' games with Vancouver in Vancouver, have been cancelled.

Long Distance Cold Feet.

Nationals will leave from the Windsor station at 10:30 o'clock for their trip to the coast in quest of the Minto Cup. A grand send-off is being prepared for the champions. In the meantime, however, it appears that from a couple of thousand miles away New Westminster are contracting a rather severe attack of that dread malady, known as "cold feet."—Montreal Gazette.

Latest English Betting.

London, Sept. 13.—Following is the latest betting on Cesarwitch: 4½ to 1, Bronsino; 6 to 1, Puregam; 16 to 1, Shultoi; 16 to 1, Laughing Moor; 20 to 1, Rock Savage; 20 to 1, Lestrall; 20 to 1, Bridge of Earn; 20 to 1, Admiral Togo. On the Cambridgeshire the betting is 12 to 1 on The Story; 14 to 1, Haleyon; 14 to 1, Christmas Day; 20 to 1, Lonawand; 25 to 1, Cannonite.

FEAR LAUNCH PARTY OF FIFTEEN HAS BEEN LOST

Bellingham, Sept. 13.—Fifteen people comprising a launch party which left the waterway Sunday morning to spend the day at Cypress, fifteen miles south of here, it is feared, are drowned. Shortly after they left a gale arose from the north and continued with increasing velocity. Incoming shipping men fail to report the craft, and vessels have been dispatched to search the bay. Nothing so far has been heard of the launch.

NEW JEWELLERY STORE

OPENING ANNOUNCEMENT

S. E. EDWARDS (late with W.C. Chamberlin) opens out on Thursday, Sept. 15, at 445 Columbia Street, Dean Block, a new and complete line of the latest, most up-to-date, and chaste stock of Jewellery ware.

AMERICAN MONTE CARLO.

Tex Rickard Has Big Scheme for Gaming Halls.

Notwithstanding the fact that baseball magnates jumped on Tex Rickard with both feet, spoiling his plans to tour America with an all-star team, he still has other ideas. Tex Rickard is a natural promoter. Born in Los Angeles, where he has been spending the past few weeks, he has a new scheme every day. His favorite is along sporting lines. There is a spot in Mexico, just thirty minutes' ride out of San Diego, Cal., that looks good to Tex. He has been figuring, with some big people in the transportation lines, upon making the place the American Monte Carlo. Rickard's scheme is to get the sanction of the Mexican government, which he says will be an easy thing, and then fit the new Monte Carlo up for everything in the sporting line. San Diego is one of the most delightful summer resorts in the world, and a great winter resort as well. It would be easy for American sport lovers to live in San Diego and take the short thirty-minute trip across the line on all important occasions. Moreover, San Diego is within easy reach of the Santa Fe railroad, and people could go there just as easy as to Reno. Rickard plans to have a great race track, large gambling palaces and the finest fight arena ever built. He says that he will have champion bouts in his arena. He can hold an affair like the Jeffries-Johnson contest without the slightest danger of being chased across the border. Of course, all of this is going to cost a barrel of money, but that's no hindrance to a man like Rickard. He has a reputation, and since handling the Gans-Nelson fight at Goldfield, has never found it hard to get backing for any sporting proposition. If Rickard manages to put his scheme through, Nevada will take second place among sporting centers. Still, many a good championship fight will be held in Nevada. Legislators in the sagebrush state have no intention of shutting down on the boxing game. They like to live in a free country, and Nevada people are with them to a man.

BIG GAME DISASTROUS TO INNOCENT PASSERS-BY

New York, Sept. 13.—Two persons are under the care of surgeons here as the result of a ball game yesterday for the championship of the Harlem league. Strangely enough, neither of the injured was playing or witnessing the game.

Both were struck by batted balls. Joseph Smith was passing the grounds in his automobile when a low foul went spinning over the back fence and hit him squarely in the eye, smashing his glasses and blinding him for a time.

An hour later, Jacob Goldklein, eighteen years old, passed the same spot in time to receive another low foul behind the ear. He was knocked unconscious.

SYNOPSIS OF CANADIAN HOME STEAD REGULATIONS.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land on each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY.
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

The Fall Fairs.

The dates of the fall fairs through the upper country and coast have been announced as follows:

Nicola Valley, September 14.
Kamloops, September 28, 29 and 30.
Vernon, September 15, 16 and 17.
Armstrong, September 22 and 23.
Kelowna, September 20 and 21.
Salmon Arm, September 23 and 24.
Vancouver, August 15 to 20 inclusive.
Victoria, September 27 to October 1.
New Westminster, October 4 to 8 inclusive.

meets you half-way—does all your work in half the time if you follow directions.

Sunlight Soap—absolutely pure—saves clothes from injury—hands from roughness—life from drudgery.

IDAHO TOWN WANTS ONLY HOMELY SCHOOL TEACHERS

Bachelor Members of Avery Board Wed Pretty Ones and Leave Children No Instructor.

Spokane, Sept. 13.—The school board of Avery, Idaho, wants no more comely schoolma'ms in the little school of the village which was almost destroyed by fire three weeks ago. The secretary of the school board has written to the district school superintendent at Wallace, asking that he recommmend a woman teacher for the school, and one that is not good looking.

Last year two of the members of the board were bachelors, and in sending in a request to Wallace for a teacher they asked that the applicants be the best looking school teachers that could be found. During the year one of the members of the board married the school teacher, and the school was closed for two months because no one could be found to finish out the term in the outlying district. This accounts for the request for a homely teacher.

PACIFIC COAST SHOULD HAVE SIXTEEN SHIPS

San Francisco, Sept. 13.—That a naval force with a fighting line of sixteen battleships is the right of the Pacific coast of the United States, was the declaration made last night by Rear Admiral Robley D. Evans, retired, who commanded the battleship fleet on the first stage of the world-girdling journey.

Admiral Evans made the statement in an address to the directors of the Panama Pacific Exposition gathered in conference, and placed himself on record as favoring San Francisco as the site for that exposition. He suggested a great naval pageant as an adjunct to the fair.

"San Francisco is ideally situated for such a naval demonstration," he said. "The entrance of the North Atlantic fleet through the Golden Gate is still fresh in the memory of all who witnessed the stirring picture. With the co-operation of the governments of the world, that picture can be surpassed."

FLAMES OF OIL WELLS SHOOT 300 FEET IN AIR

Bakersfield, Cal. Sept. 13.—Flames shooting 300 feet in the air from two blazing gushers of the North Midway group of flowing oil wells kept this city and the entire west side oil region in a state of intense excitement for three hours yesterday until 200 firefighters succeeded in stopping the fire.

Flames from the burning wells shot in all directions and the men who were rushed out from here struggled desperately to keep the fire away from other wells in the vicinity.

While the flames were at their height, a fissure more than 1000 feet long and of unknown depth opened up between two wells, breaking the embankments and causing the loss of a large quantity of oil. The crack is supposed to have resulted from the collapse of the cavity left by the sands thrown up by the walls when they chocked off the flow automatically and starved out the flames. No estimates of the loss have been made.

FRANCE INVESTIGATES WINE GROWING CRISIS

Paris, Sept. 13.—It is reported from Macon that the government inspector, M. Couanon, has begun his official investigation as to the condition of the wine growing district, and has visited by automobile several communes. The result so far ascertained is that the wine crop for this year is almost totally lost. Only in very rare instances will one-half, or one-third, or one-fourth of the usual crop be gathered. M. Couanon fears that if the bad weather continues and the wine growers abandon their farms, as is now happening in many parts, next year's crop will be seriously compromised.

The government inspector is accompanied by M. Simyan and M. Simonet, of the chamber of deputies.

BILLIE BURKE TO WED?

Londoner Will Be Bridegroom, It Is Reported.

London, Sept. 12.—About next January the Rialto will witness two weddings that promise to be of much general interest among theatrical people.

Next month Captain Frank Cary and Nicholas Jervis Wood, young Londoners, will sail for New York to wed Miss Billie Burke and Miss Pauline Chase. Miss Burke will be married early in January, and it is believed Miss Chase's wedding will follow in a few days later. The prospective grooms are well known club men.

Send Unemployed to Canada.

London, Sept. 12.—Lord Brassey, who has announced that the present is his last voyage, has been studying the problem of emigration in its relation to Canada. He believes that the difficulty surrounding unemployment in England can be settled by sending an increasing number of young men overseas.

MEXICAN BANDITS ROB AMERICAN MINING MEN

After Taking $2,450, Outlaws Mount Horses of Their Victims and Gallop Off Into Mountains.

El Paso, Tex., Sept. 13.—Details reached here today of the robbery Saturday, near Cananea, Sonora, Mexico, of Cashier Paul Probert and Superintendent A. N. Hauser, of the Calumet & Sonora Mining company.

The two men were on their way to the mine with $2450 with which to pay off the miners, when the bandits stepped into the rear, forced the officers off their horses, took the money and the horses and galloped into the mountains.

Eight suspects are now in jail. The holdup occurred almost in the town of Cananea.

Two Negroes Lynched.

Nashville, Tenn., Sept. 13.—Will Sharp and Bob Bruce, two negroes, were lynched near Thompkinsville last night for an attempted assault on two little girls.

TENDERS WANTED

Sealed tenders will be received by the undersigned up to noon, September 20th, for the clearing of 450 acres, more or less, of timber lands. Plans and specifications can be secured on application. The lowest or any tender not necessarily accepted.

W. H. HASLITT,
Purchasing Agent.

CIPHERING PRODIGY LIVING IN MICHIGAN

T. C. O'Neil, of Hubbardston, Toys With Figures in a Wonderful Way.

Squaring the number seventeen and squaring its product seventeen successive times, without the aid of a paper and pencil, is the unusual stunt performed by T. C. O'Neil, a resident of Hubbardston, Mich. The villagers took the answer, which occupied a roll of paper 650 feet in length, and locked it up in a safe. Six months later it was removed and O'Neal repeated the list of figures, both forward and backward, from memory.

In every Hubbardson store one may find evidences of O'Neil's phenomenal mental arithmetic. He foots columns thirty-six feet in length as rapidly as he can glance over hem. When a farmer wishes to know how many feet of wire fence he will need to inclose a certain area he asks O'Neil, and the latter, without even pausing in his discussion of politics, will give him the answer at once.

O'Neil's one diversion is his love for figures. He does not attempt to account for his answer is flashed on his brain like a photograph the minute a problem is propounded. He says figures are always before him. He sees them all the time, but they mean nothing unless a problem is propounded, and then they arrange themselves before him, and he can read them as though they actually were written.

O'Neil's talent came to light thirty-one years ago in one of the Michigan district schools. The teachers asked some one of his class to volunteer to square nineteen. Without a bit of hestitation O'Neil, then a mere lad, jumped to his feet and gave the answer. The teacher was suspicious, and the lad was kept after school. Then the boy demontsrated his wonderful powers in mathematics.

"GOING SOME."

A Whirlwind Marathon Comedy Triumph, by Rex Beach and Paul Armstrong.

A house party is given by Miss Jean Chapin, whose brother Jack owns the Flying Heart Ranch in New Mexico. Among those invited are Miss Helen Blake and Mrs. Roberts Keep, the chaperone both of Smith college, the other guests being Berkley Fresno, member of the Stanford university Glee club; Culver Covington, the inter-collegiate runner of Yale and his roommate J. Wallingford Speed.

The situation at the ranch is one of deep gloom, because the cowboys have just lost their phonograph machine and records, which was a wager on a foot race between one of their boys and the cook of a rival ranch, the Centipede.

Speed arrives ahead of the other invited guests, explaining that Covington is delayed and will come later. With Speed, as valet, comes Larry Glass, the trainer of the Yale football team. He is supposed to be Speed's trainer, although Speed is in reality no athlete at all. Berkeley Fresno does not take kindly to Speed's interest in Miss Blake, and begins plotting his downfall. The result of Fresno's plotting and Speed's desire to appear in a heroic light before the ladies of the party is that a race is planned between the winner of the phonograph and Speed, much to the delight of the cowboys of the Flying Heart ranch.

Speed begins training at once as a blind, relying upon the arrival of Champion Covington to run the race at the last moment. The way his training proceeds and the many screamingly funny predictaments into which he and his trainer Glass are placed bear out the claim of the management that "Going Some" is the funniest comedy before the public. New York raved over it; Philadelphia laughed herself sore at the sides; Chicago said it was the "laughiest" ever; Seattle took a vacation and laughed it out; Spokane is talking about it yet; San Francisco never will forget it, and in fact every important city on the continent turned out en masse and placed the stamp of merit upon "Going Some" as the best and brightest, most laughable comedy ever seen by the inhabitants.

This "Going Some" show will be seen here on Friday evening.

OFFER FREE SITE TO THE CONSERVATORY OF MUSIC

Calgary, Sept. 13.—The Calgary Conservatory of Music intend putting up a $10,000 building, and the city finance committee recommended last night that they be granted a free site, consisting of four lots on the corner of Twelfth avenue and Eighth street west. The property reverts to the city if the land is used for any other than educational puropses, and another proviso is that the building must cost at least $10,000.

PITTSBURG ENGINEERS DO SURVEYING AT NIGHT

Pittsburg, Sept. 13.—Civil engineers have added their company to an already large number of night workers here and believe that their idea of surveying at night may be a really new thing. The engineering corps of the Pittsburg flood commission, which is finding out just what work is necessary to keep the three rivers from inundating the lower city every spring has lately had success in making observations in the dead of night.

The main advantage lies in the fact that there is no street traffic to hinder, but it is also claimed that by the use of an electric flashlight the numbers on the measured poles are more easily distinguished through the transit at night than by day.

City Property

We have several lots on Eighth avenue which must be sold. Call and see us at once.

Port Mann

In townsite, one-half acre lots and blocks up to eighty acres.

We have the exclusive sale of the very choicest buys in the townsite. Prices from $800 to $2000 per acre.

The People's Trust company report the sale yesterday of 100 acres of land in Surrey municipality. A number of important deals in property adjacent to Port Mann are pending and some of these will probably be closed this week. A growing demand for city houses is also noticed.

Mrs. J. S. Clute left for Kamloops yesterday where she will attend the formal opening of the new sanatarium at Tranquille, Kamloops. She is the only representative from New Westminster to attend the function. The mayor and other city officials were asked to go, but owing to the pressure of other business they could not leave the city.

Hays-port will have a million and a half dollar cold storage to be completed early next year. Particulars at W. J. Kerr & Co., Ltd. **

A bush fire in the city limits was the cause of the firemen having two runs yesterday. The first call came in about four o'clock in the afternoon from the corner of Seventh avenue and Third street. Halls Nos. 2 and 3 responded and managed to check the fire. About nine o'clock at night another call from the same place came in, and the firemen had no difficulty in keeping the blaze under control.

The Misses Connor and McQuarrie have pleasure in announcing to the ladies of New Westminster and district, that they are having their new fall millinery opening on Wednesday and Thursday, the 14th and 15th of September. They extend a cordial invitation to you to be present at the opening, in which the most important features of the latest models are offered. The new millinery parlors are over T. H. Smith's store, rooms 1 and 2. **

A Chinaman driving a lame cow attracted the attention of a policeman last evening. The cow walked as if it had its leg broken and was in considerable pain. The policeman investigated and found that she had a stone in the cleft of one of her feet. It was wedged in and could not be got out and so between the Chinaman and the policeman they summoned a dray and gave the cow a ride to its residence in the west end. The cow had been walked in from Port Moody.

The Public Supply Stores

You Need

groceries at all times, and our store is the right place to make your purchases.

We have the best groceries in town. Our bottled and canned goods, flour, butter, eggs and other staples are noted for their excellent qualities. They make good eating possible, and that means good health.

We Deliver

your goods to your home, and save you the trouble and inconvenience of your carrying them. Call at our store, and leave your order for what you need, and our boy will deliver your goods very promptly. We don't charge you extra for this.

Our First Autumn Showing of Millinery Wednesday, Sept. 14th and Following Days

WE extend the invitation and will welcome one and all to the store during our opening display of Autumn Millinery. The Millinery Section will be found in the same location as in previous seasons, but a larger space has been given over to to the needs of this important department. Better light and improved surroundings will serve to make the showing more attractive than was possible under our past crowded condition.

THE SHOWING WILL BE LARGER AND MORE AUTHORITATIVE THAN EVER BEFORE

We have gathered together from Engliish, continental and American fashion centres the very newest styles and productions. We established long ago the millinery supremacy hereabouts. Wednesday's opening display will demonstrate that no store in British Columbia affords a more complete or up-to-date showing of Autumn Millinery.

W. S. COLLISTER & CO.

THE STORE FOR WOMEN'S WEAR.

More Troops at Coronation.

London, Sept. 13.—The arrangements for the King's coronation will include a larger representation of contingents of troops from Canada than on the last occasion. Probably Australia and South Africa, having also felt a rapid expansion like Canada, will send an impressive delegation. The colonial premiers and other officials will naturally receive invitations.

PREDICT MUCH SUFFERING.

St. John, N.B., Sept. 13.—A. E. G. Mackenzie, of Campbellton, who has had charge of the military tents and civic affairs in the burned town, says he considers the conditions serious there and predicts much suffering for the people in the winter months. The relief committee has received $95,000 in all, whereas the loss was several millions. There are still 350 tents in use and winter is at hand. Building operations are now being rushed.
