MPLOYEES REMEMBER RETIRED MANAGER

.C.E.R. Men Present D.J. McQuarrie With Armchair Silver Service and Address

Between twenty and thirty employees of the B. C. E. R. company, ld, assembled in the old I. O. O. F. ll yesterday evening for the purpose presenting D. J. McQuarrie, ex-anager of the local branch of the ompany, with an address and tangible kens of appreciation of past ser-ices and favors. The address, which as read by D. Millar, was as follows:

D. J. McQuarrie, Esq.:

"Dear Sir—The employees of the Westminster branch, B. C. E. R. Co., ld, cannot permit you to vacate the ffice of local manager, which you are so ably held, without marking ur sincere regret at your departure. We feel that we owe you a much eavier debt of gratitude than can e well expressed here in words. In our dealings with us as employees f the Westminster branch we have ound you open minded, just and generous. Not only this, but the interest n our personal welfare you have manfested in many ways. These reasons have made it an honor as well as a pleasure to have served under you. We therefore ask you to accept these presents as a slight token of our esteem.

"We trust that in your new business venture you will meet with every success financially, and that Mrs. McQuarrie and yourself will enjoy the blessing of health, happiness and prosperity for many years to come.

"The committee in behalf of the employees. (Sgd.) F. Cooper, L. B. Davies, J. Borradaile, A. J. Bond."

The gifts of the employees to Mr. McQuarrie took the form of a handsome leather upholstered arm chair and a silver table service, suitably engraved.

Mr. McQuarrie Returns Thanks.

In returning thanks for the handsome gifts from the men, Mr. McQuarrie intimated that he would rather work six months on the rock pile than make a speech, but his subsequent oratorical accomplishment discounted his modesty. He regretted than the range of the English language was too limited to permit him to thank them as he felt they ought to be thanked, both on his own and Mrs. McQuarrie's behalf, but from the bottom of his heart he could assure them that nothing could possibly have given him greater pleasure than to receive such a token of appreciation from the employees of the B. C. E. R.

In the course of his fifteen years' connection with the company he was happy to think that his relations, both with his superiors and with his subordinates, had always been pleasant, even if everything had not always gone as smooth as drawn oil. It had been with much regret that he had decided to break away from the old associations.

When first he entered the service of the company there were only three crews running on the main line, and at that they had to carry freight on the passenger cars. In those days they earned forty-five dollars a month, sometimes even going as high as fifty dollars, although this was exceptional.

Mr. McQuarrie expressed his pleasure at the fact that the employees had come to an agreement with the company over the wage schedule. The B. C. E. R. had always been fair and considerate towards the men, and would rather yield a point than precipitate trouble.

In conclusion Mr. McQuarrie said he would always treasure the presents given him as pleasant mementoes of his long relationship with the employees.

Local Manager Speaks.

In accordance to a request from the chair, represented by L. B. Davies, D. J. Stewart, Mr. McQuarrie's successor in office here, in a polished speech expressed his gratification that the employees had seen fit to remember the retiring manager. Mr. McQuarrie had had his ups and downs, and had not always been able to coincide with the views of the men, but these were mere trifles when all things were considered. He wished Mr. McQuarrie all success in his business venture, expressing the hope that in a few years he would again be in a position to retire, this time for the remainder of a life, which he hoped would be long and pleasant.

Several of the employees next took the floor, some requiring considerable coaching before they could be induced to "testify." Included among the speakers were A. J. Bond, F. C. Cooper, D. Gracey, G. S. Pressy, Tim Driscoll, D. Millar, George Reid and T. Reid.

The gathering broke up after the singing of "For He's a Jolly Good Fellow," in which all joined lustily.

Lieut. Howe Given Office.

Ottawa, June 20.—Lieutenant P. C. W. Howe, who has been loaned to the Dominion by the admiralty, has been appointed head of the dockyards branch of the new Canadian navy, and will rank next to Admiral Kings-

COUNCIL OPENS PAVING TENDERS

Second Street Improvements Advanced Another Stage —No Contracts Awarded.

Under the guidance of Acting Mayor Gray last night the council had a short and busy session. Most of the time was taken up with the reading of minutes and reports of various kinds, the only new business of great importance being the opening of tenders for the paving of Second street.

Three Tenders Submitted.

There were three tenders submitted and the figures quoted are supposed to cover the cost of sidewalks, streets and the construction of storm sewers. The Hassam tender, $62,100, was the lowest; that of the Rudolph S. Blome company, of Chicago, for granitoid pavement, was the next with $65,690, and the Warren Construction company, of Portland, for bithulitic paving, was the highest with $66,905. Alderman Jardine moved that the Hassam company be given the contract, contingent on the passing of the bylaw, but Alderman Johnston interposed with a remark that he understood the residents of this street were to have some say regarding the kind of pavement they wanted, and all the tenders were finally referred to the engineer for report at the next meeting. Engineer Blackman will figure out how much each lot will be assessed for before making the report.

Liquor Bylaw Not Discussed

The liquor license bylaw and the streets and sidewalks bylaw were not touched. The former will come up at a special meeting of the council to be held next Monday afternoon at five o'clock. The advice of the city solicitor and the opinion of the chief of police will be obtained on it before it is finally passed.

Alderman Bryson, chairman of the water committee, reported that he could not recommend the tapping of the water main at Fraser Mills as had been asked by Rev. Father O'Boyle; that a new meter had been installed at S. Tidy's residence and that several of the street valves of the system had been covered by the recent work on some of the streets in raising the grade. He asked that the water department be notified when when any work was being done that interfered in any way with the water system.

The board of works reported as follows:

1. Re the application of F. McCubbin for the clearing and grading of Fourth street and Tenth avenue, we recommend that the street be cleared at a cost of $300, and that a further estimate be made for grading later. This amount to be taken from bylaw for Fourth street.

2. Re complaint of J. Stewart about sidewalk on Fourth avenue between Eleventh and Twelfth streets, we recommend that the sidewalks be renewed at once as it is in a dangerous condition. Cost $105.

3. That the sidewalk on Eleventh street beween Hanlan and Auckland street be renewed as it is in a bad condition. Cost $160.

4. That a surface box drain be put in on the west side of Twelfth street between Fifth and Sixth avenues. Estimated cost $158.

5. That the cinders from the dis-

(Continued on Page Four).

ANDREW CHRISTENSEN TO PROBE COAL CLAIMS

Portland, June 20.—On July 1 next the field division of special agents of the general land office, consisting of Oregon, Washington and Alaska, will be turned over to L. L. Sharp, now chief of the division at Helena, Mont., and Andrew Christensen, present chief of the Oregon, Washington and Alaska divisions, will be detached to investigate the so-called Cunningham and Greene coal claims in Alaska.

The filings on these claims are at present withheld from patent by order of President Taft, and are the claims which led to the Ballinger-Pinchot investigation by congress.

ONE KILLED, FOUR HURT, IN FRIGHTFUL BATTLE

Foreigners, All Unable to Speak English, Injured in Fight Following Murder.

Rock Springs, Wyo., June 20.—In a frightful battle at a cabin near Mine No. 16 yesterday, one man was beaten to death, one fatally wounded and three others badly wounded. All are foreigners, none speak English, and the police thus far have obtained no names which they are able to transcribe into English.

Circumstantial evidence leads the police to believe that the man killed was held on the floor while a second man pounded him to death with a crowbar. The crowd then turned upon the murderer, and it is believed, fatal-

EARL GREY IS BOOSTING CANADA IN GREAT BRITAIN

Westminster Gazette Says Viceroy Belongs to School of Business Representatives Abroad.

London, June 20.—Earl Grey has already stirred the English business men to the commercial possibilities of Canada. The Westminster Gazette says: "Earl Grey, whom we are glad to see back in England for a brief visit, is in the school of business viceroys. Hardly had he landed when he was preaching the possibilities of Canada."

The paper then quotes Earl Grey's communication urging British commercial houses to send their best agents to Canada.

WESTMINSTER ABBEY HAS ADDED CHARM

London, June 20.—Every American who comes to London visits Westminster Abbey as a matter of course, and this summer, tourists from the other side will find an added interest in the ancient church.

This is the "Norman Undercroft"—the only complete portion now remaining of Edward the Confessor's original building, and dates back nearly one thousand years. This Undercroft is a low-vaulted chamber which formed, in other days, the substructure of the old dormitory of the monks. Preserved in the Undercroft are the effigies in wood and wax of kings and queens from Edward III. to James I., which were carried at their funerals and placed upon their coffins in the Abbey.

The figures, in various stages of decay, are dressed in rich clothes worn by their living counterparts, and the exhibition is the most curious if not the most beautiful, to be seen in the Abbey precincts.

GAS EXPLOSION IN MINE IMPRISONS MAN AND BOY

Amherst, N. S., June 20.—Shortly after Examiner Stevens and a boy named Tom Wood entered the Chignecto Coal and Railway mine this morning, there was a heavy explosion in the mine. Quantities of gas has so far prevented access to them, but the management and miners are doing all they can to reach them, dead or alive.

KING MAY BE CROWNED ON MAY 24, NEXT YEAR

Although Date Is Uncertain, Strong Sentiment Favors Selection of Empire Day for Ceremony.

London, June 20.—Although no definite date has yet been fixed for King George's coronation, it is not unlikely that the ceremony will take place on May 24, 1911. This date is celebrated wherever the British flag flies as Empire Day. It was chosen originally for the celebration of the "Imperial Idea" because it was the birthday of Queen Victoria.

It is known that King George favors the idea of being crowned on Empire Day. He is the first British monarch who has made a comprehensive tour of the British dominions and is an ardent imperialist.

The idea of the Empire Day coronation is due to the editor of the London Observer, J. L. Garvin, who writes:

"If King George were crowned in Westminster Abbey on Empire Day next year we are convinced that the ceremony would be as inspiring, as creative in its effect upon the thought, feeling, and purpose of the Mother Country and Greater Britain as any event in all the annals of the Empire and the throne. The self-governing states and India would take for the first time their rightful place; and could it but happen, the crowning on Empire Day of the king, who has seen more of his dominions than any other sovereign before him, would mean little less than a new birth of political imagination and imperial life."

BORDEN AND WHITNEY GET RECEPTION AT NIAGARA

Niagara Falls, Ont., June 20.—R. L. Borden and Premier James Whitney and party were met at the Grand Trunk station on the arrival of the 11:03 a. m. train here by a large crowd of citizens and were enthusiastically cheered as they stepped off the car. The local reception committee, which had ten automobiles in waiting, took the distinguished visitors in charge and drove them to all points of interest in Queen Victoria park and about the power plants, and also gave them a trip on the Maid of the Mist.

Heat Overcomes Pedestrian.

Toronto, June 20.—"Jimmy" Reynolds, a noted pedestrian, started out to do a walking stunt for from Port Hope to Toronto and back this morning. He fainted near Newcastle, fifteen miles west of Port Hope, owing

PROSPECT IS IMPROVING FOR BETTER G.N.R. SERVICE

General Agent of Company Will Probably Arrange for Desirable Changes Before Long.

That the repeated protests of the board of trade to the Great Northern are having some effect, was evidenced by the visit here yesterday of K. J. Burns, general agent of the company. He came to inquire into the condition of the railway service on the south side of the river, and as a result there will probably be some marked improvements in the service soon.

He called on Publicity Commissioner Wade and had a long conference with him on the subject. He said that he would see that the representations of the board of trade in the district and the New Westminster parent organization would be brought to the attention of the higher officials of the company, and would receive attention from them.

Mr. Burns expressed himself as being in sympathy with the demands of the residents along the line. He thought that most of the requests made were reasonable. Mr. Wade asked that the trains be so arranged that people coming here from country districts would be landed in the city not later than 9:30 a. m. and Mr. Burns promised consideration of this request.

Mr. Burns pointed out that if the company were to give a better service on the local trains some of the stops would have to be cut out. At present there are seventeen stops between here and Port Guichon and it is impossible to make good time on that account. Mr. Wade said that that might be arranged so that the company would not have to stop its train at every crossing. If there were a stop every three or four miles arranged so that the residents along the line would not be more than two miles from a station he did not think there could be cause for complaint, and it is probable that some such system will be adopted.

Mr. Burns said that he would endeavor to have Mr. Costello and some of the other prominent officials of the company pay a visit over the line and examine into the conditions at close range.

It is proposed to take Mayor Lee and Mr. Wade along on this trip and the whole question will be thoroughly discussed.

DUSKY MONARCH PLANS VISIT TO UNITED STATES

Sultan of Sulu Coming to Dispose of Collection of Pearls Valued at $250,000.

Manila, June 20. — The Sultan of Sulu, who once offered his hand in marriage to Miss Alice Roosevelt, is to visit America. He says that the object of his trip abroad is to dispose of a collection of pearls valued at something like $250,000, the proceeds from which will be devoted to improving the condition of his poeple. He will be accompanied by fourteen prominent Moros. He has already sailed for India, and will make stops at several European cities.

In August, 1905, President Taft, who in his capacity of secretary of war, was touring the Philippines with a congressional delegation and an unofficial party, visited Sulu. The Americans included President Roosevelt's daughter, who was entertained lavishly by Sultan Hadji Mahammed Kiram, who showered them with gifts and finally declared his wish to marry Miss Roosevelt.

He insisted that his people were unanimous in their desire that she remain among them. Miss Roosevelt, however, returned home to become the wife of Nicholas Longworth, one of the party.

NO USE OFFERING SECOND CLASS SECURITIES

London, June 20.—Conservative bankers again state that Canadian promoters with second class securities to sell might as well stay at home and save their money, as they cannot sell them here. Bankers ridicule the flamboyant campaign of the newspapers to boom British Columbia lumber stocks, as the statements of the prospective profits are largely exaggerated.

Hainhara to Visit Japan.

San Francisco, June 20.—M. H. Hainhara, first secretary of the Japanese legation at Washington, arrived last night, en route to Yokohama on a leave of absence. He will leave for Japan Tuesday. Referring to the Asiatic exclusion matter, Mr. Hainhara said: "I believe that California is unfair in its attitude on the subjest of the immigration of Orientals into this country.

Farmer Killed by Lightning.

Sherbrooke, June 20.—Joseph Poulin, a farmer residing near Martinville, was struck by lightning and instantly killed this afternoon. He was

W.C.T.U. CONVENTION OPENS HERE TODAY

Important Business to Be Discussed at Twenty Seventh Conference.

This morning the twenty-seventh annual convention of the British Columbia Women's Christian Temperance Union opens in Queen's Avenue Methodist church, with delegates from all over the province present.

The convention will start promptly at 9 a.m., when Mrs. Lashly Hall, of Vancouver, will conduct a Consecration service in the school room of the church. After this, routine business such as the roll call of officers, reading of minutes, etc., will occupy some time.

The reports of the superintendents of departments will then be read in the following order:

Evangelistic—Mrs. Lashly Hall, Vancouver.

Sailors, Lumbermen and Miners—Mrs. L. Manson, Nanaimo.

Work Amongst Railroad Employees—Mrs. J. Smith, Ashcroft.

Exhibitions and Fairs—Mrs. S. Elliot, Kamloops.

Unfermented Wine—Miss E. Gilchrist, Ladysmith.

Foreign Work—Mrs. G. H. Smith, Vancouver, Grandview.

Temperance Grocery—Mrs. Conway, Summerland.

Parliamentary Usage—Mrs. G. K. McNaughton, Cumberland.

Parlor Meetings—Mrs. D. P. Pickard, Victoria.

Anti-Narcotics—Mrs. M. Stainton, Vernon.

Scientific Temperance Instruction—Mrs. J. F. Smith, Cranbrook.

At 11:30 there will be a devotional half hour.

The reception to the delegates is generally held in the evening, but this year a change has been made and the welcome and garden party will be held this afternoon on the grounds of Mrs. George Adams.

Chief Templar Fred Haggman, Mrs. C. S. Keith, president of the local council of women, and Mrs. Nesbitt, president of the local branch of the W. C. T. U. will deliver short addresses. Mrs. Gordon Grant, of Victoria, wil lrespond in behalf of the visitors.

Mrs. C. S. Keith, president of the local council of women and Mrs. Nesbitt, president of the local branch of the W.C.T.U. Mrs. Gordon Grant, of Victoria, will respond in behalf of the visitors.

The event of the evening will be the annual report of the president, Mrs. C. Spofford, of Victoria, but there are also several other important addresses and reports to be heard at this meeting. The following is the program for the evening:

Devotional—Mrs. Bryan, Vancouver.

Report of Corresponding Secretary—Mrs. M. A. Cunningham, New Westminster.

Report of Treasurer—Mrs. Gordon Grant, Victoria.

President's Annual Address—Mrs. C. Spofford, Victoria.

Rally Song—"All Round the World."

Address—Scientific Temperance Instruction in British Columbia.

Schools—J. Dougan, Vancouver.

The program for Wednesday will be published in tomorrow's issue.

STORY OF DAVID AND GOLIATH REENACTED

Pittsburg, June 20.—Charles Washington, a seven-foot negro, threatened to clean out a police court during a hearing of some friends who had been arrested. He had court officers and witnesses cowed until Lieutenant Thomas Carroll, who is but five feet and a half tall, placed a chair behind the negro, climbed upon it and felled him with a blackjack. A squad of police then carried Washington to a cell.

Curtiss Makes New Record.

Louisville, Ky., June 20.—Glen H. Curtiss broke the world's record for a quick start Saturday when he rose in his "Hudson Flyer" at the Churchill Down racetrack in 4 1-2 seconds. The previous record was 5 1-5 seconds.

ENGLISH AVIATOR TAKES TITLED LADY AS PASSENGER

First Flight of Lady Abdy Is Rank Failure—Machine Damaged by Dropping to Ground.

London, June 20.—Graham White, the English aviator who was near-winner of the London to Manchester prize of $50,000 recently, announced that he would take passengers in his biplane. Lady Abdy secured the right of first flight for £126. Second and third flights were to cost her £14 10s. The first flight took place Saturday.

Soon after the start the engine of the machine failed and the biplane fell It happened that it was only about ten feet in the air at the time, and Lady Adby and White were un-

POWER WIRE IS STILL CAUSING WORRY

Blame for Position of B.C. E.R. Juice Conductor Over Bridge Still Unfixed.

The high wire over the Westminster bridge came in for some more prominence at the council meeting last night, and now the whole affair seems to be more involved than ever. Harbormaster Shiles had informed the council that the advice he gave them on the height the wire should be was given on information he had received from C. Gardiner Johnson in Vancouver, but the letter given here, and which was read out at the meeting of the council last night, denies that such is the case; and the whole thing has now narrowed down to the two statements of Harbormaster Shiles and C. Gardiner Johnson.

Here is the letter received from Mr. Johnson:

Your favor of the seventh inst. only reached me yesterday as I was absent in Victoria. Now I note that you were directed, I take it, by his worship the mayor, to write to me re information I am reported to have given Harbormaster Shiles last September. May I endeavor to the best of my ability to put at rest this mischievous report by saying:

First, If I ever gave Mr. Shiles what he took for official information I don't remember it, and it must have been in conversation only and I don't remember the conversation.

Second, I do hold the position of Lloyd's agent for the province, but in no way could that position be connected with wires stretched anywhere obstructing navigation.

Third, In my capacity of secretary to the Vancouver pilotage authorities, I wrote to the Vancouver harbormaster and told him there was a vessel going east of the wires stretched over Burrard inlet and asked him for the height above water. I wanted this to confirm a letter I had written to the B. C. E. R. in my private capacity of agent of the vessel. The harbormaster gave me a very nice and prompt reply, stating (I think) as I write from memory, 352 feet, and the vessel went up and under.

Fourth. If I ever heard, I give you my word that I had forgotten that you had a wire across the Fraser river.

And lastly, If you will allow me, there is only one person to deal with a matter like this; i. e, the harbormaster, who can always refer by wire if necessary a difficult question like this to Ottawa.

I cannot conceive how the report became public that I had something to do with the stretching of these wires and how high they should be. Nothing could be farther from correct than such a report.

My private opinion, if I had been asked, would have been in the neighborhood of 350 to 360 feet; I think the great bridge above Quebec was 360 feet above the water.

C. GARDINER JOHNSON.

The letter was filed but later in the evening, under the head of inquiries, Alderman Bryson brought the matter up again by requesting that all the correspondence relating to the matter be read. The clerk read all the letters, including correspondence with and replies from the marine department at Ottawa.

The first letter is from Harbormaster Shiles to the city council and suggests that the wires be not less than 160 feet high. One is from the city to the department consenting to the wires being placed at that height. The others are relative to the same thing. There is no written record at present on hand to show that C. Gardiner Johnson gave his opinion.

The matter has been left in the hands of the mayor and will probably be straightened out in the course of time. At present Mr. Shiles is out of town and his version of the affair cannot be obtained.

NO ONE BADLY HURT WHEN TRAIN LEAVES TRACK

Cincinnati, June 20.—One railroad employee was slightly injured when passenger train No. 73, of the Louisville & Nashville line, was derailed today at Catawba, Ky., thirty-five miles south of Cincinnati. All the cars that left the track remained upright, and except for a shaking up, none of the passengers were inconvenienced.

MANY PROTESTS FILED.

Six Hundred Names on Winnipeg List Objected To.

Winnipeg, June 20.—On Saturday over six hundred protests were filed against registrations placed on the voters' lists during the previous seventy-two hours. The majority of the protests were made by liberals.

Strong objections are taken to the limited time given for filing objections, only some twenty-four hours being allowed from the time the polls close, which gives little time for investigation.

Sir Herbert Haylock Dead.

London, June 20.—Sir Herbert Haylock, until recently assistant manager of the Bank of Montreal, died here

Tenth St., New Westminster.

STREET IMPROVEMENT DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand ($150,000.00) dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the city for the construction, improvement and repair of streets and sidewalks, and it is expedient that additional sums be spent in like manner, amounting in all (with the sums already spent) to the sum of One Hundred and Fifty Thousand ($150,000.00) dollars;

And Whereas, it appears that if the said sum of One Hundred and Fifty Thousand ($150,000.00) dollars, be appropriated from the general revenue of the city for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount;

And Whereas, for the payment of interest on the debentures or registered stock certificates, proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates, the sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars;

And Whereas, in order to raise the said yearly sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars, an equal rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of One Hundred and Seventy-four Thousand, Five Hundred ($174,500.00) dollars proposed to be raised under the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Schools Debenture or Registered Stock Bylaw, 1910," and the "Parks Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears;

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates, shall be payable on the first day of July, 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of Six Thousand, Seven Hundred and Fifty ($6,750.00) dollars for the payment of the interest thereon, and the sum of Eight Hundred and Forty and 32.100 ($840.32) dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise: towards paying the cost of the passing of this Bylaw and the issue and sale of the debentures or registered stock certificates therein referred to, recouping the treasury of the city such sums as have been this year expended in street works, or may be so expended until the proceeds of the sale of the said debentures or registered stock certificates have become available, the making, improving and repairing of such streets and sidewalks in the city as may be deemed expedient by the council, but no sidewalk or street shall be made or repaired out of the moneys borrowed under this Bylaw unless the same shall have first been approved by a resolution of the Council.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Street Improvement Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the day of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July, 1910, between the hours of nine o'clock a.m. and five p.m. at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

SCHOOLS DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Ninety-seven Thousand, Five Hundred ($97,500.00) dollars for School Purposes.

Whereas the Board of School Trustees of the City of New Westminster have caused to be prepared and laid before the Council a detailed estimate of the sums required by the Board for the current year's ordinary expenses of maintaining the schools of the said City of New Westminster; and have also prepared a like detailed estimate of the sums required to meet any special or extraordinary expenses legally incurrable by the Board, which last mentioned estimate is subject to consideration, alteration and final approval by the Council, and the same has been finally approved by the Council.

And Whereas, the amount required under the said last mentioned estimate for schools amounts to Ninety-seven Thousand, Five Hundred ($97,500.00) dollars, made up as follows: Thirty-five Thousand ($35,000.00) dollars for the erection and equipment of the new Sapperton school; Two Thousand, five Hundred ($2,500.00) dollars for the erection and equipment of a school on Lulu Island, and Sixty Thousand ($60,000.00) dollars for the erection of a High school.

And Whereas, by Section 40 of the the Public Schools Act 1905, as re-enacted by Section 30 of the Public Schools Act 1905, Amendment Act 1906, any statute to the contrary notwithstanding, the Council of any city, town or rural municipality in the Province including the City of Vancouver and City of New Westminster, may in each and every year pass a Bylaw or Bylaws for levying aspecial rate of not more than Five (5) mills on the dollar for school purposes, and the Council may in addition to such rate apply any portion of the ordinary revenue to school purposes.

And Whereas, it appears that the amount required to meet the current year's ordinary expenses of maintaining the schools will exhaust the amount authorized to be levied under Section 40 of the Public Schools Act 1905, as re-enacted by said Section 30 of the Public Schools Act 1905, Amendment Act 1906, and it will be necessary also to apply a portion of the ordinary revenue for such purposes.

And Whereas, it appears that if the said sum of $97,500.00 be appropriated from the general revenue of the city for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount.

And Whereas, for the payment of interest on the debentures or registered stock certificates proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates, when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates the sum of four Thousand, Nine Hundred and Thirty-three and 70-100 ($4,933.70) dollars;

And Whereas, in order to raise the said yearly sum of $4,933.70, an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of Two Hundred and Twenty-seven Thousand ($227,000.00) dollars proposed to be raised under the "Street Improvement Debenture or Registered Stock Bylaw, 1910;" the "Fire Debenture or Registered Stock Bylaw, 1910;" the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910," and the "Parks Improvement Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears.

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $97,500.00, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of $97,500.00 for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates shall be payable on the first day of July 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of $4,387.50 for the payment of interest thereon, and the sum of $546.20 to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July 1910, between the hours of nine o'clock a.m. and five p.m., at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

LOCAL IMPROVEMENT NOTICE.

The Municipal Council of the Corporation of the City of New Westminster having by resolution determined and specified that it is desirable to carry out the following works, that is to say:

To construct cement concrete sidewalks on both sides of Tenth street from Sixth avenue to Tenth avenue, except on the east side of said street between Sixth and Eighth avenues, also on both sides of London, Edinburgh, Dublin and Hamilton streets, Eighth and Seventh avenues between Tenth and Twelfth streets.

And that the said works shall be carried out in accordance with the provisions of the Local Improvement General Bylaw, 1909.

And the City Engineer and City Assessor having reported to the Council in accordance with the provisions of the said bylaw upon the said works, giving statements showing the amounts estimated to be chargeable against the various portions of real property to be benefited by the said works and other particulars and the said reports of the said City Engineer and City Assessor having been adopted by the council.

Notice is hereby given that the said reports are open for inspection at the Office of the City Assessor, City Hall, Columbia street, New Westminster, B.C., and that unless a petition against the proposed works above mentioned, signed by a majority of the owners of the land or real property to be assessed or charged in respect of such works representing at least one-half in value thereof is presented to the Council within fifteen days from the date of the first publication of this notice the Council will proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvements as the Council may by by-law in that behalf regulate and determine and also to make the said assessment.

Dated this 9th day of June, A.D., 1910.

W. A. DUNCAN,
City Clerk.

LAND REGISTRY ACT.

Take notice that an application has been made to register Duncan Bell Hall as the owner in fee simple, under Tax Sale Deed from E. A. Wilmot, Collector of dykes, to Duncan Bell Hall, bearing date the 13th day of July, A.D., 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, and more particularly known and described as part 3.60 acres of the southeast quarter of Section 18, Township 3, range 29, west of 6th Meridian.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice upon you, and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Duncan Bell Hall as owner thereof in fee. And I hereby order that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 30th day of April, A.D., 1910.

WILL SHIP OIL FROM CITY OF VICTORIA

Vancouver Concern Owning Rich Coal and Oil Lands Will Locate in Capital.

Victoria, June 20.—A large oil shipping enterprise for Victoria, with attendant head offices, will shortly be established in Victoria. This announcement was made this morning by James Auld, president of the Amalgamated Development company, who has been in the city for several days looking for a site for the location of the plant. Mr. Auld's firm, Auld, Gwin & McClarity, of Vancouver, have acquired all the rights and interests of the Alaskan Development company—all their oil and mineral properties at Katella, Alaska.

The various properties which the company was seeking having been secured it is now in a position to arrange development and terminal shipping facilities.

The oil properties are located at Katella, Alaska, and are very valuable. There are six producing oil wells. It is estimated that the wells will produce 3,000 barrels per day. The company intends to proceed at once to build reservoirs and prepare for shipping. As the oil is of the highest grade there is an ample local and foreign market, oil becoming more and more in use as a commercial utility.

The coal areas which the Amalgamated company have acquired are situated in northern British Columbia. Samples of the coal have proved it to be of the highest quality. It is hoped that this field will shortly be tapped by a line of railway by the Canadian Northern, D. D. Mann having promised that he will at the earliest date make an extension of the line which he is building from Stewart to tap his mining properties.

In respect to the oil venture it is hoped to secure a site in the vicinity of Esquimalt for refining purposes. Plans have already been drawn for a refinery which is to be erected at Katella. There is a large market, both local and foreign, and the expectation is that another important industry will be built up in the neighborhood of Victoria which, owing to its stragetical position on the shores of the Pacific, offers exceptional advantages for all shipments of products form the surrounding territory.

NEWSPAPER EMPLOYEES PULLED BY THE POLICE

Winnipeg, June 20.—A successful police raid was made last evening by Inspector Robertson, when he entered the Tribune Building and raided a room in which he discovered several employees of the paper playing poker. "You had better cash in," said the inspector, and the players then handed the chips to a man named Orris and he paid their equivalent to establish the case for the police. It is understood that they will all plead guilty.

LIGHTNING CHASES FOUR GOVERNORS

Louisville, Ky., June 20.—Four governors who are here today to select the time and place for the governors in November had two narrow escapes from being struck by lightning while automobiling from Versailles to Frankfort. Once the lightning struck the rails of an interurban line by the roadside and sent a shower of sparks over the machine. Again the lightning struck in the road twenty feet ahead of the automobile.

The governors in the car were Wilson of Kentucky, Hadley of Missouri, Ansen of South Carolina and Sloan of Arizona. Mrs. Wilson and Mrs. Hadley were also in the automobile.

NATIONAL BOULETTE.

Sir Hiram Maxim Would Substitute Roulette for Betting on Races.

New York, June 20.—A cable despatch to The Sun from London says: Sir Hiram Maxim has been preaching the fallacy of trying to win money by betting on races. He has figured out mathematically that no system can beat racing. Admitting that some people must gamble, Sir Hiram shocks the Nonconformist conscience by suggesting the establishment of national roulette wheels, a percentage of the winnings to go to the treasury. He says:

"I would have national roulette substituted for betting on races. Betting on races should be penalized so that ultimately racing would cease except between genuine horsemen. By organizing roulette, with minimum odds against the players, which would mean that about $10 out of every $500 passing over the tables would go to the State, the latter could pay off the national debt in a few years."

It is not expected that the Chancellor of the Exchequer will seriously consider Sir Hiram's proposal as a new means of raising revenue.

Trade With Victoria City.

Victoria, June 19.—As an outcome of the work of the board of trade for the improvement of the steamer connection between this city and New Westminster a letter has been received from C. D. Vincent, agent of the Gulf Steamship and Trading company, offering to place a vessel on the route giving a double weekly service. The suggestion made is that the steamer in question should leave Victoria on Tuesday and Friday mornings. Simon Leiser, president of the board, is at present out of town, but on his return a meeting of the committee which has the matter in hand will be called to discuss the latest proposal for an improved service. If the offer of the company in question is considered satisfactory arrangements will be made to insure it proper support.

INDIANS ARE LOOKING FOR EXTINCTION OF WHITES

New Religious Craze Strikes White Bear Reserve—Pale Faces to Be Smothered.

Carlyle, June 1).—"Religion" is manifested in many queer and outlandish way; one of the most curious waves of religious fervor is just now afflicting the noble red men on the White Bear reserve, north of Carlyle.

The editor of the Carlyle Herald and a friend, while driving through the reserve at midnight on Sunday last, noticed that lights were burning in all the inhabited shanties, which at that hour of the night is rather unusual. A little later, the faint tinkle of a host of sleigh bells was heard, and a light seen approaching across the valley.

Pulling up their team in a shaded portion of the trail, the watchers witnessed an interesting portion of the ceremony representing the arrival of the "Great Spirit." Across the reserve, with measured tread, and carrying a light, marched two Indians, the source of the steadily increasing tintinabulation, apparently supporting a third between them. The whole party seemed loaded with sleigh bells, etc., and passing within a few rods of the watchers, they continued their slow and stately march till they came to the hut of the chief.

Here they stood, turned round once or twice, marched over to the stables, tramped around some more and stepped slowly back to the chief's residence, which they entered.

It seems that some years ago down in Wyoming, a new religious belief was hatched, which has since become widely spread amongst the Indians, and that the White Bear Indians have lately come under the influence. The Manitou had made a compact with the Indian race, that the whole world is to be overwhelmed or overlaid with thirty feet of fresh earth. The white men will be smothered under this layer of new soil, but the Indian will somehow or other be able to crawl up through and possess the whole earth. The buffalo and deer will also come out on top, and life will thereafter be a period of unalloyed bliss.

Just when the Great Spirit is going to carry out his contract is not known, but the period of waiting is now thought to be almost at an end.

SASKATOON MAY GET PORK FACTORY

Saskatoon, June 20.—George Gray, of Hull, Quebec, one of the largest pork packers in Canada, is in the city today with a view to purchasing a site for a western branch factory, which it is proposed shall be opened during the present year. The firm which Mr. Gray represents has plants at Hull, Peterboro and Brantford and branches at Ottawa and Montreal. They propose opening an establishment in the west, and it is with this view in mind that Mr. Gray is investigating the conditions in this city.

One of the important problems which Mr. Gray is investigating is the supply of pork, and whether or not there is enough of this meat raised on the prairies to warrant the establishing of a plant here. He believes that should his firm open a plant a great deal more pork would be produced and that hog raising would shortly become a great industry in this province.

LABOR ON THE FARMS.

Nothwithstanding the immense tide of immigration which has flowed in this year there is a general feeling among the farmers of the middle west that there will be a considerable shortage in the labor required when harvest time arrives. The cause of this is probably due to two circumstances. First, because the area of cultivated land has been considerably increased this year and there is every indication of an abundant crop; secondly, because very many, if not most of the immigrants, have become cultivators themselves. For the most part the newcomers have been of a superior class to the immigrants of former times and quite a large proportion of these have possessed a useful amount of capital. The ordinary wage-earning class of immigrants have not, apparently, been quite so numerous as usual.

There is a rather interesting point in connection with this farm labor question which has apparently escaped the notice of some. This is that the great prosperity of the middle west is, from the labor demand point of view, somewhat in the nature of an evil. That is to say, the prosperous condition of the country is such as to encourage every man worth his salt to strive to become a cultivator rather than a laborer, and as there is every facility existing this praiseworthy ambition can be accomplished with little difficulty. The general adoption of this principle results, of course, in depleting the ranks of the laborers pure and simple. Each year as the area of cultivation increases and the number of cultivators requiring help becomes larger, so in like ratio the labor problem becomes more acute. And it would seem that this shortage of labor must continue for a considerable time to come, until, in fact, the land is all settled. Then only will there be a surplus of labor, caused by the later arrivals being unable to obtain land, and in part by the overflow from the cities.

Yet it is evident that there is a considerable surplus of good labor material in Great Britain at the present time, which, if it could only be transplanted to this country would at least materially assist in solving the problem which now faces the prairie farmers. The difficulty is of course to get there people here. For the most part they have become pauperized owing to the long strain of unemployment, and have not the wherewithal to defray the expense of a journey hither. Their only means of accomplishing this is by obtaining assistance from one of the various charitable societies which exist for the purpose. But for one thing the British poor have a strong objection to seeking charity of this kind, and for another they distrust and dislike what they regard as the inquisitorial methods of the societies. Then again of course the funds of these charitable bodies are limited and they can only afford assistance to a very few. But it is able men by the hundreds that we want.

There needs be some permanent institution or fund from which poor people of ability and deserving character, who would make good citizens of Canada, could obtain a loan at a low rate of interest to enable them to emigrate as farm hands to this country. If one of the wealthy men, like Lord Strathcona, who now devote their surplus wealth to the endowment of public institutions, churches, free libraries and the like were to establish such a fund it would be to the lasting advantage of both Great Britain and Canada. Such a trust sufficiently endowed would be self-supporting, because it would always be receiving back the money advanced, would be, it seems to us, a noble way of helping a man to help himself. An institution of this character would not smack so strongly of that smug air of charity which is so repellant to the British poor. Moreover, it would be doing good work in the cause of Empire building. The same ambitious desire on the part of the erstwhile laborer to become a cultivator, to which we have referred, would continue, and that substantial section of the community formed of prosperous settlers would be constantly recruited from these worthy people who had made good.

Council Opens Paving Tenders

(Continued From Page One)

tillery be put on Brunette street there being an estimated quantity of about 550 yards at 40 cents per yard laid on the road. Cost $220.

The report was adopted in full.

The Vancouver Engineering works, Ltd., sent in a bill for $105 for stuff supplied for the Lulu Island bridge. Referred to the bridge committee for report.

C. E. Fowler, of the International Contract company, wrote that if the disagreement between themselves and the city could not be arranged otherwise, they were willing to submit the matter to arbitration. Several other letters in the same connection were received and all were referred to the bridge committee for report.

W. A. Gilley asked permission to put a piledriver and building material on the Lulu island road as he intended to start work on the B. C. E. R. approaches to the bridge at once. Permission was granted.

Joseph Crane asked the council for a lease of the west end of Fourth avenue so that he could make extensions to his business. He guaranteed to abandon the place any time the city required it. Referred to the finance committee for report.

J. Gifford's application for a sidewalk on the south side of Fourth avenue was referred to the board of works for report.

The residents of Third street sent in a petition asking for the paving of the street with Hassam pavement as soon as possible. Referred to the city engineer to take the necessary steps in compliance with the application.

AUTHOR WAS POOR MAN.

Bjornson's Widow Has Now Suffered Further Loss in Floods.

Christiana, June 20.—Bjornstjorne Bjornson was not a wealthy man when he died and his widow has just suffered a severe loss by the destructive floods in Norway.

The author's country seat, Aulestad, has been swept by torrents bursting through a dam and so much damage done that Mme. Bjornson cannot pay for the repairs and has determined to sell the property. This is the second time that Aulestad has been inundated, and the last time it severely crippled Bjornson's resources, as he generously assumed responsibility for damage done to other property than his own.

Surprise is expressed at the smallness of Bjornson's estate, but it is explained that he spent large sums on the maintenance of Aulstad, where he kept open house, while his illness in Paris was very costly. Mme. Bjornson's future is secured in a moderate way by royalties on her husband's books, and the Norwegian storthing has expressed its willingness to continue to the widow the so-called poet's state pension of $450 annually.

CRUISER CHATANOOGA DRIFTING IN OCEAN

Honolulu, June 20.—The cruiser Chattanooga is being towned to this port today by the cruiser Cleveland, which found the Chattanooga drifting 400 miles at sea, unable to proceed under her own steam. The port propeller had been lost. The vessels are expected to arrive here Wednesday.

The Chattanooga is a first class twin screw protected cruiser of ten guns and 3,100 tons. She is the first vessel of the second division of the Asiatic fleet, commanded by Rear Admiral Harber. The Cleveland is a sister ship, and both were en route to the Pacific coast for overhauling.

DECLARES JOE CANNON WILL BE RE-ELECTED

New Haven, Conn., June 20.—"Uncle Joe" Cannon will be re-elected to congress if he will consent to run, says a statement by Congressman N. D. Sperry, of this city, dean of the house of representatives. The statement, published here, says:

"Cannon is an honest man and his Illinois district will stand by him. Whether he will be re-elected speaker or not will depend upon the majority the republicans get in the fall elections. The republicans will control the next house without a doubt."

Asked what the insurgents would do, Congressman Sperry said: "Nobody on earth can tell."

Protecting Powers Overawe Crete With Display of Force.

Paris, June 20.—To insure respect for their decisions, the four protecting powers of Great Britain, Russia, France and Italy have decided to send naval forces to Suda bay in the northwestern part of Crete. The reintroduction of international garrisons at Crete in order to preserve a pacific state of affairs has been considered for some time, but the plan was opposed by Russia.

The present action follows the protests made by Turkey against the threatened purpose of the Cretans to elect and send delegates to the Greek parliament at Athens. The protecting powers entertained the protest and made known that while the Cretans would be assured autonomy, the nominal Turkish sovereignty in the island must be preserved.

CHICKEN SALAD CAUSES ILLNESS OF TIGHTEEN

Pawtucket, R. I., June 30.—A chicken salad served at a lawn party given by the Women's Aid society of the Edgewood Congregational church on Saturday evening, is said to have caused the illness of eighteen who are suffering today from ptomaine poisoning. Among the most seriously affected are Colonel Arthur A. V. Warfield, a member of the governor's staff, and his wife and daughter.

The pastor of the church, Rev. Dr. John Hale Larry, and his wife, are numbered among the sufferers.

Taft Signs Statehood Bill.

Washington, June 20.—President Taft this afternoon signed the statehood bill admitting New Mexico and Oklahoma to the Union.

LONE CANADIAN SUFFRAGETTE PREFERS TO REMAIN INCOG

London, June 20.—Canada was represented by one lone banner out of seven hundred in a remarkable women's suffrage demonstration in London on Saturday. A Canadian friend watching the procession gave a street urchin sixpence to run up to the lady with the Canadian banner to ask her her name but she replied it was not to be known.

CARD OF THANKS.

Mr. and Mrs. John Burkett wish to thank all those who so kindly sent flowers and other tokens of sympathy in their recent sad bereavement.

OPHY IS GIVEN TO CRICKET PLAYERS

Ross Robertson Presents Cup For Competition Among Willow Wielders.

oronto, June 20.—Cricketers in da will be pleased to know that ndsome trophy has been present- o the club who can successfully d it against any club in Canada. e the Toronto City league, posed of ten city clubs, divided two divisions of A and B respec- y, will be the first clubs having option of challenging for the cup, trophy is by no means a local Any club from any part of Can- can challenge the holder of the after it has been won by one of ten clubs of Toronto during 1910. several clubs in good standing tario, Quebec and Winnipeg, and a cup worth while holding, inter- the game should be consider- aroused. The conditions are by eans narrow in any one clause ction, and clubs are relieved of notive that may be directed at by the sole executive of trustees.

Conditions of Cup.

ditions of the J. Ross Robert- Cricket Cup: (1) The cup shall mblematic of the cricket champ- ip of Canada, and shall be open competition by any recognized club in the Dominion.

(a) The management of all es for the cup will be vested in trustees, who shall receive all enges; (b) Fix the date and e of all games; (c) De- what grounds the matches are e place; (d) Appoint umpires cognizance of all matters ing to the trophy. They may a secretary to undertake any work, but the secretary shall no part or vote in any of the edings of the trustees; (e) The s of the cup shall defend it called upon to do so by the tees.

tches are to be played on nds of the holders, except in case trustees decide that the grounds not suitable, in which, cause trus- may appoint some other grounds e same city or vicinity.

Players Eligible.

player is eligible to play in any matches; (a) who is not a bona member of his club, and in good ding, who is not a continuous dent in the city in which the club sented for one year, before the e of the match, or, who has not yed for his club in at least five ular schedule matches before the match.

Defend Three Times.

A club having won the trophy not be called on to defend it than three times in any sea- Any club losing the trophy shall ve the right to challenge for in the same season.

OVERNOR DENIES THAT PRESSURE WAS PUT ON HIM

Sacramento, June 20.—Replying to e intimation that strong pressure d been brought upon him today by rsons interested in the Jeffries- nson contest in San Francisco, overnor Gillett stated last night:

"There has been no attempt made anyone in an endeavor to influence e in changing me in my position in gard to this fight between Mr. Jef- ies and Mr. Johnson. On the con- ary, I have been receiving messages d letters all day from people all er the country congratulating me pon the stand I have taken.

"I have confidence in the authorities San Francisco and know that they ill not violate the law in regard to rizefights. I further wish to state at the Jeffries-Johnson fight will not ake place on California soil under ny circumstances. This is final and mphatic as I can make it."

WEST ENDERS ON TOP IN RACE FOR JUNIOR HONORS

Sapperton Defeated Yesterday Evening by Four Goals to Two—Game Fast and Fairly Even.

The West End juniors again showed their superority yesterday evening by defeating the Sappertons by four goals to two, thereby gaining a firm hold on the leadership of the league. Play was fairly even for the first three quarters, the defences keeping out the home pretty well.

In the final period play was fast on both sides, the Westenders having slightly the best of the argument. The winners played better combination and showed up well in several rushes, some of which, however, were broken up by the strong Sapperton defence.

Tim Mahoney refeered. E. Follis and E. R. Gilley acted as goal umpires.

The scorers were: First quarter—Johns (West End). Second quarter—Sclater (Sapperton), Sangster (West End). Third quarter—No score. Fourth quarter—Carroll (Sapperton), Sangster, Fee (West End).

These are the opposing teams:

Sappertons—Goal, Saint; Chambers, Patchell, Campbell, W. Follis, George Atkinson, Carroll, W. Sclater, House, Bowell, Guy Atkinson, H. Sclater; spare man, A. Follis.

West End—Goal, Feeney; Mortison, Gregory, Cooper, Adams, Fee, Sangster, Burr, Wilkie, Battson, Murray, Johns; spares, Ackley and Gilley.

THE TROUBLES OF CON.

Being the Wise, Wiser and Budweiser Remarks of Con Jones to Divers and Sundry Personages, as Hereinafter Set Forth.

Con speaketh to Si Wash, the scribe, on the uncertitude of sport—on the ingratitude of players—on the troubles of a lacrosse manager—and other things.

* * *

My son, put not thy trust in home brews (else it be beer) for Bredhere boys cause much trouble, yea, even great annoyance.

They creep into thy sweaters and swat thine enemy over the cocoanut many times with thy sticks, but envy and malice are in their hearts.

They look upon their twenty-five per and say unto themselves, even with an exceeding loud voice: "Behold this is but a trifle."

"Is not Howard pulling down a bigger wad. And doth not Griffiths corral more hay. Verily they do."

And having thus communed among themselves, these sons of Coal Harbor become greedy of great gain.

They come unto me in my holy of holies, even in the National Sports club;

And they say unto me, with malice in their mouths and avarice in their heart:

"Con, cough up more dough or we quit."

And having gazed upon them sadly I looked into my coffers, and lo, they were not overflowing with rhino;

Wherefore I wept and shattered my straw hat into bargain counter remnants, for I knew that we must part.

And my heart was faint within me for Toots Clarkson, for he was a mighty man of valor; yea, he had laid low many enemies.

And I was saddened to number Gibbons with the wicked, for his like was not in all the land.

So I reasoned with them and reproved them. I cajoled them with visions of a certain Cup and of a great feast;

But they would none of my counsel; they despised all my reproof.

Therefore shall they eat the fruit of their disobedience all the days of their lives, or until they go and dwell in a far country, whence I shall buy them as slaves, even as hirelings for my servants.

Even so shall hap to all who discount me at less than the usual rates.

But whosoever shall dwell with me and work my will shall I supply plentifully with the root of all evil, them shall I smother with greenbacks and choke with much copper.

And all these things shalt thou, Si Wash, the scribe, put down on a scroll of parchment and the heralds shall read it aloud to the multitude that they know my words and my Will Ellis.

KAUFMAN-LANGFORD BOUT OFF FOR KEEPS

San Francisco, June 20.—Louis Blot, promoter of the Langford-Kaufman fight, which was postponed until next Saturday on account of the drastic action taken by Governor Gillett, has announced that the fight is off for good.

Blot declared that he would not attempt to stage a "test" contest today, as had been planned, but would try to secure from the chief executive a definition of a boxing contest.

The governor has asserted that he will not interfere with any strictly boxing contest that Blot may hold, but that he will not permit a prizefight.

We have for exclusive sale, lot on Regina street, between First and Second streets, only $650. One-third cash; balance in 6 and 12 months at 7 per cent.

SURREY

One-quarter section on Hjorthe road at $200 per acre. One-third cash; balance on easy terms.

Fifteen acres in Section 16, B. 5, N. R. 2 W. at $1,200 per acre. One-third cash; balance 6, 12 and 18 months at 7 per cent.

We also have large listings of business and residential properties in city.

Malins, Coulthard & Co.
Limited.
REAL ESTATE, INSURANCE AND FINANCIAL AGENTS.

Take Your Pick !

Here are a few sample propositions of the many good opportunities for profitable investment in City, District and Waterfrontage property listed with HALE BROS. & KENNEDY, LTD.

Some City Snaps

Two Lots—Corner Richmond Street and Tenth Avenue, Sapperton, close to proposed Burnaby Lake car line. Substantial advance certain. Price $350 each; cash.

Two Lots—Corner Major and Kelly Streets, Sapperton. One block from Columbia Street car line. Lane in rear. Good level lots, easily cleared. Situation gives beautiful view. Price $1,400 for the two. Terms, $500 cash; balance in 6, 12 and 18 months. For residential site, or as an investment, a good thing.

Fraser River Frontage

40 Acres, 1,300 Feet—On Parsons Channel, near Port Kells, above Port Mann. Price $275 per acre, or only about $8.50 a front foot. Terms, one-third cash; balance in 1, 2 and 3 years at six per cent.

Two Choice Waterfrontage Propositions—At upper end of Lulu Island, on main river, within city limits. Eleven hundred feet frontage in one, and fourteen hundred feet in the other, at about $100 a front foot. For particulars apply.

Desirable District Deals

Lots in Westminster View—A few of these rare bargains for the homeseeker or small investor left. It only takes $25 down to secure a $200 residential lot in a most delightful scenic location; within ten minutes of the city by the New Westminster-Chilliwack tram line.

80 Acres in Surrey—Within half a mile of the New Westminster-Chilliwack railway and the Great Northern railway. This is a snap at only $80 an acre, with $2,400 cash, and balance spread over four years.

Another Eighty Acre Pick Up—At $75 an acre, only $1,500 down, balance in 6, 12 and 18 months, is located in Langley Municipality, near Aldergrove, not far from the extensive Fraser Valley Nurseries, lately removed from Burnaby. Less than a mile from the Great Northern railway and a little over a mile from the B. C. Electric railway. Projected branch line to Nurseries will bring it closer. Would make a fine fruit farm, or four of twenty acres. Sure thing investment to turn over before second payment at good profit.

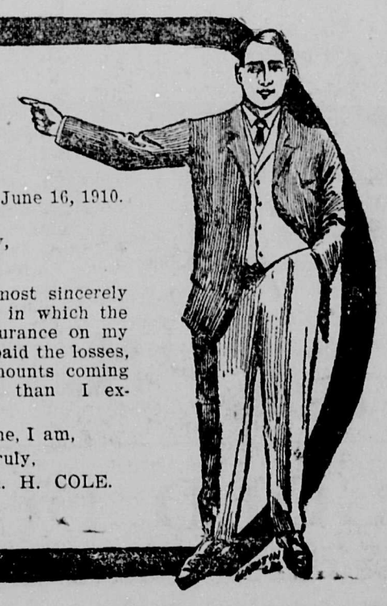
Quick Settlement of Fire Loss

READ THIS LETTER



Coquitlam, B.C., June 16, 1910.

A. W. McLeod, Esq.,
Insurance Agent, City,

Dear Sir,—

I beg to thank you most sincerely for the prompt manner in which the companies carrying insurance on my mill have adjusted and paid the losses, the cheques for the amounts coming through much quicker than I expected.

Thanking you for same, I am,
Yours truly,
(Sgd.) A. H. COLE.

You can never fortell when your premises are going to be destroyed by fire, so protect yourself in time by insuring in reliable companies that pay their losses promptly, and whose rates are the lowest.

Telephone or call at my office and I will be pleased to give you rates and any other information.

ALFRED W. McLEOD
"The Insurance Man"

ADVERTISE IN THE NEWS

SEAL HUNTING IN NORTH ATLANTIC

A Dangerous Calling and Small Reward—Pelts and Oil Product of the Hunt.

A Newfoundland correspondent of the New York Herald gives an interesting account of the sealing industry, which is very important to the ancient colony.

Previous to 1862 the Newfoundland seal fishing was carried on entirely by sailing vessels, and twelve or fourteen thousand men were annually employed during the six weeks' open season. In 1840 more than 600,000 seals were brought into port by Newfoundland vessels, and as the revenues were at that time light, each man got a goodly amount as his share in the trip. In 1862, for the first time, two steamships left Newfoundland ports in search of seals, but when both returned with comparatively nothing, the idea of fishing for seals with steamships was given up for some years.

At present, however, there is only one sailing vessel in the whole seal fishing fleet of twenty-five craft, and as this one has met with hard luck in the past few years she will be withdrawn soon.

Adventurous Calling.

The men taking part in the annual seal hunt are principally Newfoundlanders of long experience in the business. Although the season lasts but a short time, the seal fisher meets with more adventurers and runs far greater chances than any other kind of seafaring man. His work requires that he dispense with ships and boats and all defensive weapons except a short, heavy metal-tipped club and on rare occasions a light gun.

The average crew of today on board Newfoundland sealing ships is about 175 men. The men's share ranges from $50 to $80, those in bad luck sometimes getting as low as a single dollar, and those with a run of good luck reaching an even $100. It is an extraordinary event when every man of a crew gets $100 for his six weeks' of hard work, but hardly a year goes by but that poor fishing and hard luck send several vessels back to port with less than $5 as the share of each man of the crew.

Seal fishing exercises much the same sort of fascination over those engaged in it as the theatre does over the stagestruck youth or the card table over the gambler. There are men with this year's sealing fleet who have made the trip every year since they have been able to walk, whose fathers made the perilous venture before them, whose children will make it after them, and who will continue to go out on the ice pans as long as their legs will carry them.

The seals for which these men endure such inhuman hardships are not the fur-bearing seals, the pelts of which are made into garments. The fur-bearing seal is a native of Alaska and the Pacific, and as compared with the Newfoundland seals an Alaskan seal is a small fortune. As an individual the Newfoundland seal is almost worthless, the value of the Newfoundland fisheries being dependent upon quantity rather than quality.

The seal of the Atlantic bears no fur worthy of the name. It is of commercial value simply because of its oil and pelt, the latter being made into leather, and it is because so many thousands of them are slaughtered each year that the returns of the sealing industry are much larger for Newfoundland than for Alaska.

The Harps and Hoods.

The most valuable seals caught by the Newfoundlanders are the harps and hoods, while the scarcest and most eagerly sought after is the square flipper.

The harp seals are essentially the seals of Newfoundland commerce, and of all the cargoes landed at St. John's harps make up more than ninety per cent. The harp seal is a migratory animal, ranging many miles during its life through the Arctic and North Atlantic. They live in communities, called "patches" by the Newfoundlanders, and choose the edge of the northern ice floe as their home. In the words of the Newfoundland hunters they choose the "new" ice—that is, ice recently formed—where they can find plenty of water and can keep their blowholes open, that they may descend into the water whenever they feel inclined. They breed upon the ice floes and procure their food from the open water beneath.

The Main Patch.

Harps are never found upon heavy ice floes except when stranded there by an unlooked-for ice jam, which closes their blow-holes, and, stopping up the leads of open water, cuts off their escape into open water.

Vessels starting in search of harps always try to locate the great community of these seals that congregates every March on the edge of the Arctic ice floe. This the Newfoundlanders call the "main patch."

The harps allow themselves to drift southward with the ice until after the young seals are weaned, at the age of about four weeks, and until the edge of the ice floe has reached a point opposite the Grand Banks.

February is the weaning month for the young of the harp seals, and in the last of the month the young seals, called white coats, because of the pure white color of their skins, first take to the water. At first they are perfectly helpless and flounder about much as a human infant attempts to toddle after it has graduated from the creeping stage. They seek the soft snow and keep close to their parents for some time after the weaning has taken place.

By the middle of March, when the hunting season opens, the young harps are in their prime and their pelts weigh about fifty pounds. It is the

(Continued on Page Seven).

QUEEN CHARLOTTE NEWS COMPARES GOVERNMENTS

Federal Member Has Done Much to Deserve Thanks—Not so With McBride Group.

The last issue of the Queen Charlotte News contains the following under the caption "A Comparison:"

The grand total of $72,000 is the amount we have received in appropriations from the Dominion government through the instrumentality of our member, the Hon. William Templeman, who visited the islands last summer and noted a few of our requirements. Ten thousand dollars a year for a mail service for five years; $27,000 for wharves and clearing out log jams from Yakoun river; and now the gratifying news is announced that another wireless station is to be erected at Lawn Hill and rushed to completion in Queen Charlotte City. In addition we might mention that the wireless station at Ikeda Head, Moresby Island, was installed this year. This is certainly gratifying to the people of Queen Charlotte Islands and is about all we could ask from the Laurier government in one year.

If the McBride government would only do one-half as much we would be able to develop our resources to such an extent as to surprise the whole world, and we will be here when a lot of other places are forgotten. The people of Queen Charlotte Islands have come to stay. All we ask from the provincial government is a fair return for the money we are paying into the treasury. A paltry $12,000 for roads and trail for the whole Queen Charlotte group is farcical. The treasury receives from this group of islands nearly $300,000 per anuum and still we are the most neglected district in the whole province. Our new road superintendent, who is all that could be asked, cannot do more than blaze the needed trails, let alone build them and the necessary roads.

This is on a par with our police protection—one man to patrol the whole Queen Charlotte group—is ridiculous. Drunken brawls are getting too frequent; we don't have "blind pigs," ours all have eyes; they don't even need glasses for there is no police in sight. And yet one of our government offices ranks third in scraping in cash, of the whole province. Our member is all right and we think has done all he could, but something more than broken promises are needed, and at once.

Another expression of opinion, under the heading "A Nasty Knock," is as follows:

The Provincial government is most surely packing a handicap. Bowser is too heavy, as shown by the recent election in Prince Rupert. The people of the Skeena district supported William Manson most loyally last fall, and what have we got in return? It will take more than the pap-fed press to convince the people of this district at another election that we are getting a fair show for our money, and a few cliques and hole-in-the-corner rings with fat hands will get what is coming to them. Some one is riding for a fall that will surely come.

DAIRY SPECIAL IN MANITOBA.

Agricultural Department of That Province Emulates Alberta's Plan.

Rosenfeld, June 20.—The dairy special in charge of Professor Mitchell, made its first stop of the tour at Plum Coulee, where an interested audience of between fifty and sixty people took in the lecture delivered by Professor Mitchell and his able assistant, Mr. Corwe. During the course of the lecture many intelligent questions were put to the lecturers by the members of the audience. Demonstrations of butter making, separating, etc., were given and the various methods of testing in order to determine the right moment at which the cream was perfectly ripe for the work of making into butter, was simple and clearly explained. Mr. Sherman, the well known show judge of dairy cattle, gave a short outline of the points necessary to produce the best grade of milking cows and explained the system of feeding and bringing forward so that the average milk yield would make it a paying investment.

THIS FINNY STORY WILL BE GOOD ONE

Duluth, June 20.—A whitefish weighing thirty-six and a half pounds was caught off the northeast end of Isle Royale, Lake Superior, by Captain John Maloney.

Six pounds makes a good size whitefish, and this great fish must have been a greybeard among his special finny tribe.

The big fish measures three feet two and a half inches in length and is five and a half inches thick through the back.

It is twelve and three-quarter inches wide.

Capt. Maloney caught the fish from a launch and says that it gave him an even hour's fight.

B. C. E. EMPLOYEES TO AGREE TO NEW SCALE

Vancouver, June 20.—While no official statement is yet forthcoming from either the men or the company in regard to the arranging of a new schedule it is understood that the B. C. Electric employees have agreed to the terms as submitted by the company with a few minor changes. For the past week the men have had before them copies of the new schedule. All city car men, it is understood, have agreed to accept the terms which give them a liberal advance over the former scale. The interurban employees are practically unanimous on the terms as arranged, and when finally signed by all the man will be handed back for acceptance by the company. The new schedule will take effect on July 1.

DOMINION LANDS RAILWAY BELT BRITISH COLUMBIA.

Coast Division.

Surveyed agricultural Dominion Lands in the Railway Belt not reserved or withheld from entry and disposed of or occupied, are open for entry under the provisions of the British Columbia Dominion Land regulations.

In the Coast Division of the Railway Belt any male person over eighteen years of age and otherwise eligible, may obtain under entries for homestead and pre-emption, a legal subdivision of forty acres of Benchland. Residence is required for at least six months in each of five years. Total cultivation required to earn patent for a twenty acre homestead, five acres cleared and six cultivated, and if the remaining twenty acres is pre-empted by the homesteader, an additional ten acres cleared and six cultivated either on the homestead or pre-emption, no additional residence for the pre-emption. Price of pre-emption, five dollars per acre, payable in five installments with interest.

Conditional purchase entries may be obtained for twenty acres of Benchland by a male over eighteen and otherwise eligible and not holding homestead or pre-emption. Residence required only for six months during the fifth year but cultivation doubled increased. Price, ten dollars per acre, five installments.

Bench Lands in this division are lands below twenty-five hundred (2,500) feet above sea level. Uplands are lands above that altitude and are subject only to disposition by entry in sections under homestead entry or grazing lease to settlers. Fodder lands may be reserved for hay purposes or leased to settlers by subdivisions.

Entree fee for homestead, pre-emption and conditional purchase is five dollars for each entry. After securing patent in connection with the land first entered for, the settler may secure another entry and so on, but not for more than a total of one hundred and sixty acres.

Entries under the British Columbia Dominion Land Regulations, effective on the 2nd July, 1910, may on and after that date be made for lands then open to entry. Any lands withdrawn from timber berths, as well as newly surveyed lands, will before becoming available for entry require advertisement for thirty days. "Surveyed" Lands for the purpose of entry means legal subdivisions abutting on a surveyed line, or, in case of Uplands, quarter sections abutting on a surveyed line.

For further information apply to the Dominion Land Office, New Westminster, B. C.

P. G. KEYES, Secretary.

IT WILL BRING RESULTS

GROWING TEMPERANCE MOVEMENT IN IRELAND

"Catch My Pal" Has Enrolled 120,000 Members Within Twelve Months.

Dublin, June 20.—Ireland was the birthplace of the first great temperance movement when the Father Matthew crusade was started more than a generation ago, and today she has again the honor of giving the whole kingdom a lead in the matter of temperance. The "Catch my Pal" movement, which began in Armagh less than a year ago, has spread to England and Scotland and promises to have an effect there quite as revolutionary as it has had in Ireland.

Branches of the organization have just been established in London and the founder of the movement, the Rev. R. J. Patterson of Armagh, is in so great demand to start fresh branches that it is evident he will soon have to give up his pastorate and devote his whole time to the work.

The "Catch my Pal" organization which now has 120,000 enrolled members in Ireland owes its origin to a most trivial incident. Mr. Petterson, who is a Presbyterian clergyman, had been lecturing on temperance in his church in Armagh, but the lectures were just part of his ordinary work, and he had no idea that they were to be the starting point of a great wave of reform. On July 13, 1909, he was going along the street when he noticed six men lounging about a lamppost. One of them came over and spoke to him. "There are five men, your reverence," he said, "that you ought to get to take the pledge." The incident struck Mr. Patterson as peculiar and he crossed the street and had a chat with the men. The result of it was that they all called at his house later in the day and expressed their willingness to become total abstainers. Mr. Patterson was pleased, of course, but he pointed out to the men that they ought to do what they could to get others to follow their example. "All right," said one. "I know a pal I can catch."

Another thought that he also could "Catch a Pal" and before they left every one of them had promised to bring in at least one "pal." The expression struck Mr. Patterson and he determined to adopt it as the label of his movement, which from that day spread with amazing rapidity. The influence which it exerts can be judged from statements made at Lambeth Palace, London, the other day at a conference of the bishops of the Anglican church. The Right Rev. Dr. Crozier, Bishop of Down, Connor, and Dromore, declared that he could name dozens of towns in the north of Ireland where there had been no petty sessions this year on account of the influence of the "Catch my Pal" movement. One of them is Armagh, and it is common knowledge that in the past the ecclesiastical capital of Ireland has not been notably free from drunkenness and crime.

Another remarkable feature of the new crusade is the way in which it has brought all religious denominations together. The Roman Catholic priests are just as enthusiastic "Catch my Pallers" as their Protestant confreres and constantly appear on the same platform with them. The different Protestant denominations seem to have sunk all differences and instances are common now of Church of Ireland clergymen taking the services in Presbyterian churches and vice versa. Hundreds of publicans have gone out of business and hundreds more are thinking so and the Irish pawnbrokers are also suffering from a diminution in the volume of their trade.

GENERAL ESTRADA IS TAKING RADICAL ACTION

Bluefields, Nicaragua, June 20.—A score of American soldiers of fortune, including Victor Gordon and his corps of men, brought from New Orleans, were shipped to Colon Saturday as a result of General Estrada's proclamation barring "undesirable characters" from Nicaragua.

Estrada's men admitted that the Americans had rendered excellent fighting service to the revolutionists, but they expressed the fear that the Americans would sell out to Madriz. Only Americans favoring Estrada will be allowed to remain.

WIRELESS STATIONS OPEN FOR BUSINESS

Ottawa, June 20.—The following government wireless telegraph stations on the British Columbia coast are now in commission and in a position to handle commercial business: Victoria, Point Grey (Vancouver), Cape Largo, Pachena, Estevan, Mangle Island, Ikeda Head, Queen Charlotte Islands and Prince Rupert.

Following are the tolls: To and from ships, $1.20, first ten words, and twelve cents each additional word, which is the maximum rate allowed by the Berlin convention. Rates for vessels on the Vancouver-Victoria-Seattle service, twenty-five cents. For local business, rate is from fifty cents to seventy-five cents.

MINISTERS FIGHT DUEL TO DEATH IN CHURCH

Rock Creek, Ky., June 20.—Rev. Robert Vanouver is dead and Rev. Isaac Perry is under arrest today following a duel fought with knives late last night. The duel took place in the pulpit of the Rock Creek Baptist church, where the participants were associate pastors.

It is believed trouble over church affairs caused the fight.

Rev. Vanouver was stabbed in the left ear and the wound resulted instant death.

Seal Hunting In North Atlantic

(Continued from Page Six.)

custom of the hunters to remove the pelts and leave the carcasses on the ice, and within a week after the season has opened the whole front of the northern ice floe is covered with the bleaching bodies of thousands of young harps.

About March 25 those that have escaped slaughter leave their parents and take to the water for themselves, and thereafter they are known as "ragged jackets," as they begin to shed their first coat and to take on a second one, much more hairy and rougher than the first coat, which gives them much the same appearance as a Newfoundland dog just after leaving the water. The color of the coat, however, does not change appreciably until the seals are four years old, when it gains the dark color and its harp-like markings that give this family of seals the name of harps.

Although the young harps may be easily captured, and allow themselves to be clubbed like sheep, the old harps are difficult to capture, not so much because of their fighting abilities as because they take to the water at the first sign of danger. When caught on the ice floes with no chance of escape, however, they may be clubbed and when the blow-holes have been closed by jamming ice and there are no leads of open water at hand many thousands of them may be killed and skinned in a few hours.

The Hood Seal.

The hood seal receives its name from the peculiar cowl that protects the head of the males of this species and which is not developed until the seals reach their full growth. More than any other variety is the hood seal pugnacious.

Hoods live together in families and disdain to mix with harps or any other variety of seal. Unlike harps, they seek the heavier ice, where they scatter over a wide territory and make their surroundings resound with growls on the approach of danger. Rifles are always used when hunting for adult hoods, for, contrary to the general run of seals, hoods have the parental instinct fully developed and a male hood will protect its mate even as a female will protect her young—by fighting to the last breath. Hunters are seldom killed outright by the attacks of hood seals, but the members of Newfoundland crews who will carry the marks of an infuriated hood seal's teeth to the grave are many, and numberless cases might be cited to show how deadly a wound the hood can effect.

A Ferocious Animal.

A comparatively light blow with a club on the end of the nose or under the chin is sufficient to kill a hood, but to give such a blow to an adult female watching over her young is well nigh impossible for both sexes are remarkably agile, and should a hunter miss the seal and go sprawling over the ice, as often happens, the hood will quickly revenge the attempted assault with a few vicious bites from a set of sharp teeth.

Two men are necessary to kill an adult dog hood when there is no gun handy. One man approaches the old dog from the front and occupies his attention while the second man creeps up behind and hits him a stout blow on the paddles or hind flippers, which causes him to turn his head, when the man in front tries to club his nose or a certain spot beneath his jaw. This operation is by no means simple, however, for by this time the dog hood is aroused, and with his cowl-like head protector lowered so that it covers his head and bulges down over his eyes he presents a ferocious sight, and when the hideous bladders, each as large as a man's fist, make their appearance from the ends of his nostrils, and his hideous growl is vented, even an expert seal hunter feels a desire to flee.

The end of the nose and a spot just beneath the jaw are the only known vital spots of the hood seals, and when attacked they protect these parts by ducking their heads and catching the blows on the hood, which is impervious to cudgels and buckshot. Old seal hunters tell tales of old dog hoods that catch the hunter's club in their mouth and by muscular force hurl it many feet across the ice, and one hunter insists that he saw a dog hood tear a club from a hunter's hand in this way and hurl it straight at the hunter striking him with such force that it knocked the man senseless.

The Flipper Seal.

The square flipper seal receives its name from the shape of its great flippers, which, when extended, measure more than a foot across. Although in reality members of the seal family, the square flipper presents more the appearance of the walrus. The tusks of the latter animal are wanting, however, and the resemblance is principally due to the prominent position of the canine teeth. A mature seal of this species will weigh about a ton, the pelt alone weighing eight hundred to one thousand pounds, and produces oil of the best quality. In the thickness of their pelts, too, they differ from the harps and hoods, for their pelts vary from three to five inches in thickness. The young are covered with a coarse dark brown hair, which turns grey and grows more and more briskly as they grow older.

The Sealers' Return.

On the return from the seal fishing the vessels dock at St. John's, where the cargoes are landed and turned over to their respective firms. Experts, who receive high pay in comparison with the hunters (from $13 to $14 a day), then skin the seals, and the pelts are cured and manufactured into leather, while the rest of the animal is placed in huge vats, covered with glass, where the best quality of oil is drawn out by the sun's action. The oil is known as "cold drawn oil" and commands a good price. The rest of the carcass is then put into a steam vat, and what little oil remains is boiled out. The oil and skins are shipped to England and to the United States, where the former product is used in making fine soaps and in tanning. The oil was formerly used in lighthouses and lightships for illuminating purposes, and a great deal of it was formerly shipped to Germany where it was chemically treated and sold as pure cod liver oil.

A single bright spot in the lives of the seal hunters is furnished by the public welcome which these hardy seamen always receive on the return from the fishing. For weeks after the season is closed the whole coast of Newfoundland talks of nothing but the results of the season's hunting, and "flipper suppers," consisting of various tasty dishes prepared from the flippers of the seals, especially those of the square flipper seal, are the order of the day.

MAIL SERVICE.

Following are the hours of despatch and arrival of mails at the New Westminster postoffice and hour given in each case being the hour of closing, which is half an hour, as a rule, before the actual despatch. All mails, unless otherwise stated are despatched and received daily except Sunday. The only mails despatched and received Sunday are the G. N. R. south and C. P. R. east mails, not including way mails, Sapperton, Fraser Mills and Coquitlam.

Blaine and Seattle, including all U. S. points, east and south, via the G. N. R. "Flyer."

TWO BIG STEAMERS HAVE COLLISION

Liverpool, June 20.—The crew of the steamer La Rochelle of Bayonne, N.J., numbering ten men, were drowned today following a collision between the La Rochelle and the steamer Yewes. The La Rochelle ran down the Yewes and sank within a few minutes after the collision.

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the New Westminster Division of New Westminster District. (a) The name of Company, Vancouver Power Company, Limited. The head office at the City of Vancouver, British Columbia. The capital, $2,500,000, divided into 2,500,000 shares of $1.00 each, all fully paid up; (b) The name of the lake, stream or source, unnamed stream running through section 29, block 5, north range 2, west, thence in a northwesterly direction flowing into the Fraser river; (c) The point of diversion, 2,300 feet in a southeasterly direction from the southeast corner of section 19, block 5, north range 2, west; (d) The quantity of water applied for, 166 cubic feet per second; (e) The character of the proposed works, a small dam and pipe line; (f) The premises on which the water is to be used, two (2), three (3) and four (4), group two (2), New Westminster District; (g) The purpose for which the water is to be used, domestic; (h) If for irrigation describe the land intended to be irrigated, giving acreage, no; (i) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return, no; (j) Area of Crown land intended to be occupied by the proposed works, none; (k) This notice was posted on the 2nd day of June, 1910, and application will be made to the commissioner on the 13th day of July 1910; (l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet, none; (m) The part of the Memorandum of Association of the company which authorizes the proposed application and works reads as follows: "(3) The objects for which the company is established and to which objects the Company are restricted are the acquisition of water and water power by records of unrecorded water or by the purchase of water records or water privileges for,——(g) Rendering water and water power available for use, application and distribution by erecting dams, increasing the head of water in any existing body of water, or extending the area thereof, diverting the waters of any stream, pond or lake into any other channel or channels, laying or erecting any line or flume, pipe or wire, constructing any race-way, reservoir, aqueduct weir, wheel, building, or other erection or work which may be required in connection with the improvement and use of the said water and water power or by altering, renewing, extending, improving, repairing, or maintaining any such works or any part thereof." (n) The Company applies for a license to store water. The place of the proposed reservoir for storing the said water is section twenty-nine (29), block five (5), north range two (2) west; (o) The means by which it is proposed to store the water, by dam; (p) The area of the reservoir site or sites at each foot in depth above the outlet, the depth above the outlet will approximately average about six or seven feet; (q) How it is proposed to acquire the land necessary for the purpose, by purchase, or if necessary by expropriation; (r) Approximately the number of acre feet intended to be impounded, 20,000 square feet.

Something New in Floor Wax

The easiest way to finish a floor is to saturate a soft cloth with Columbus Liquid Wax and apply lightly to the floor, let it dry for about fifteen minutes, and bring to a polish by light rubbing with a soft cloth.

No brush to push—no work—no backache. Resists heel-marks, scratching, and water will not turn it white. Goes farther and lasts longer than any paste wax. Try it! Be sure to ask for the genuine

Mayor Lee, Sheriff Armstrong, George E. Martin and J. Stilwell Clute left yesterday to attend the meeting of the grand lodge of Masons at Cranbrook.

The wedding will take place on Tuesday morning next of Miss Pilling, of Vancouver, and W. N. Carty, of New Westminster. The ceremony will be performed in Christ church, Vancouver, at 11:30 a. m.

The French-Canadian workmen at Fraser Mills have planned a celebration of the Festival of St. John the Baptist today. This fete is always a big occasion in Old Quebec, and her transplanted sons intend following the custom in their new homes.

In the police court yesterday, W. Weir was fined $5 for setting off explosives within the city limits; two Swedes, charged with being drunk, forfeited their bail, and Walter King, charged with attempted theft of a cheque, was held until further inquiries are made concerning him.

Many Floral Tributes.

The floral tributes of loving sorrow and esteem laid on the grave of the late Charlotte Ethel Burkett, whose funeral took place last Friday, were very numerous. The deceased, who was nineteen years of age, was the eldest daughter of Mr. and Mrs. John Burkett, of Ninth street, city, and was greatly loved and esteemed by a large circle of friends to whom her unexpected death came as a great shock. The remains were borne to their last earthly resting place by Messrs. W. Burr, George Burr, E. Warwick, E. Turnbull, G. Morgan and E. Harris.

Rev. Canon d'Easum officiated at the graveside, while the Rev. A. deB. Owen conducted the service at the house. The floral tributes were very beautiful and numerous, the sorrowing mother and father placing a floral pillow on the casket, while the other floral offerings included the following:

Wreaths—Mr. and Mrs. Watson, Mr. and Mrs. Turnbull, Mr. and Mrs. F. Doane, Mr. and Mrs. D. McDonald, Mr. and Miss Warwick, Mr. and Mrs. Russell, Mr. and Mrs. Harris, Mr. Erickson, Drs. Jones and McQuarrie.

Floral crosses—Mr. and Mrs. W. R. Gilley, Miss B. O. Jameson, Mrs. A. H. Gordon.

Sprays—Mr. and Mrs. Pearce, Mr. S. E. Fletcher, Mr. and Mrs. Creedon, Mrs. S. J. Spearin, Mr. and Mrs. H. Stead, Mr. and Mrs. W. Mackie, Mr. and Mrs. E. Gilley, Miss Blair, Mr. and Mrs. Fulton, Mr. and Mrs. Hardie, Mr. and Mrs. Mathers, Mrs. G. Osbourne, Miss Walmsley, Miss Bannon, Miss Taylor, Miss Merryfield, Miss G. Burr, Mr. and Mrs. Hugh Burr, Mr. and Mrs. Spring, Mr. and Mrs. W. Hughes, Miss N. West, Miss Dowd, Mr. and Mrs. W. Henderson, Mr. and Mrs. Schaake, Mrs. Levar and Miss Gilley, Mr. and Mrs. A. Chappel, the Misses Mercer, Mr. and Mrs. S. F. Mark and many others.

Mr. and Mrs. C. W. Munro, of Chilliwack, and Mr. and Mrs. A. D. McRae sent a floral heart.

Will Adjust Coal Strike.

Indianapolis, June 20.—President Lewis, of the United Mine Workers of America, announced today that the great strike in the southwestern coal districts would be adjusted within two weeks. Thirty thousand men are idle in the southwest.

Who Holds No. 7155.

Tom Freeman's drawing for the trip to the Jeffries-Johnson fight took place last night, the winning number being 7155. No one present could produce the lucky number. If the man with the good card does not make himself known before Saturday evening another drawing will be held, and on that occasion will continue until a number held by some one in the room is drawn.

BIG CROWD TURNS OUT TO ENJOY "THE ALASKAN"

"The Alaskan" is a good show and the large crowd which turned out to see it last night was not disappointed. It has been advertised as having a plot and that may be corect, but when it comes to the manager of a theatrical company marrying an Eskimo girl, who is far prettier than anyone north of the arctic circle has a right to be, the plot is a little too thick for the average mind.

The singing and the music are the main things, and the different songs were repeatedly encored, especially the famous Totem pole song, in which real live Totem poles meander around the stage in grotesque and amusing antics.

The choruses were much better than the individual selections. Totem Pole Pete's voice had spent so much time around the North pole that it had been evidently frozen, and the voices of the lady singers were also slightly raucous. Dick Atwater had a fairly good voice, but his song was not as catchy as the rest.

Ku Ku, the little Eskimo maid, was charming, and so was the Polar Bear.

The humor of the play, supplied by Walzingham Watt and Professor Knicklebien, was distinctly good, and the audience was kept in a continual state of merriment while either of them was on the stage. The hit of the evening was made when Walzingham Watt remarked that on his journey from Alaska to Chicago he would have to stop off at New Westminster to see that the Great Northern put up a new depot.

Altogether the play was enjoyable, and the attendance shows that productions of even average merit and age will receive good patronage here.

If you want something Choice for Sunday's Dinner, ring up Phone 101 and order a nice roast of Spring Lamb, Veal, Spring Chicken or anything else that is good in the meat line. You can sure get it at

Alteration Sale

Commences Tuesday, June 21st

30 Days of Alteration Sale Prices—Prices that are down lower than any before offered in New Westminster. We are forced to reduce our stock to the lowest possible limit inside of 30 days. During the past few weeks customers and ourselves have been inconvenienced by the work necessary in altering and enlarging our store. In a few weeks we must temporarily vacate the portion now occupied by the Housefurnishing and Millinery Departments. To crowd our stock into two-thirds the usual space means a great hindrance to business.

So we enter this Alteration Sale with a determination to sell at least $15,000 worth of our stock before we must crowd everything together.

We give here the first list of prices. Watch every advertisement. Keep your eyes on our show windows and, what is better, view the piles and racks full of goods at prices which leaves us without the expectation of profit on our sales. Doors open at 8 a. m. Tuesday. No goods on approbation. Cash only. Everything reduced.

A simple list of prices without many words—figures speak louder:

500 Pairs of Hose 25c per pair

Regular 35 and 50c per pair. Ribbed Cashmere, Boys' Cotton, Girls' Cotton, Embroidered Cashmere and Cotton; Natural Wool Feet, etc. All sizes. One price, per pair, 25c.

500 Yards Colored Pongees and Foulard Jap Silks 50c

Regular 60 to 75c. All colors in Pongee, 34 inches wide, and Fancy Colored Jap Silks, 27 inches.

ONE LOT MUSLINS, GINGHAMS, ETC.

9c Per Yard.

Regular values, 12½ to 20c.

GREAT SNAPS

SOILED BLANKETS, COMFORTERS, LACE CURTAINS, BEDSPREADS AND TOWELS—

No room to mention prices, but long piles of these must be sold before we must move the department.

ALL HATS AT HALF PRICE

We simply have no place in the store where the Millinery Department can find the necessary room. Come prepared for bargains in Trimmed Hats, Ready-to-Wear Shapes, Children's Galateas, Sailors, and Trimmings of every description.

One Lot of Corsets 75c per pair

Cromptons, P. D., and B. & I. Corsets. Odd lines which we have discontinued ordering anew. Sizes 18 to 28 in., one or more styles.

These Items are Worth Seizing Quickly

LADIES' CLOTH SUITS, $6.95 EACH.

LADIES AND MISSES' WASH SUITS, $2.95 EACH.

WHITE BLOUSES, REGULAR VALUES $1.50 TO $2.50 EACH 75c.

WHITE EMBROIDERY AND INSERTION, 1¼ to 4 inches wide for 5c PER YARD.

SPECIAL LOT CHILDREN'S WASH DRESSES AND APRONS AT 25c, 55c, 95c, AND $1.35.

1000 Yards of Lace 5c per yard

Regular values to 35c. A long list of old and new; Cream White and Black soles; 1½ to 5 inches wide.
