## HEALTHY BUSINESS SHOWN BY RETURNS

### Although June is Generally Poor Month, Government Figures Are Big this Year

The statistics of the various government agencies in the city for the month of June indicate the healthy tone of the business of the country. Although some of the returns show a slight decrease from those of last month, they are still much higher than for the corresponding month last year.

June is generally considered one of the off months as the farmers are too busy with their spring work to transact much business and the absence of the agriculturalists always has an appreciable effect.

The land registry returns show that approximately $4,200 was taken in during the month. This is slightly below the figures for May, but is far ahead of June last year, and is considered remarkably good for this time of the year.

The following are the customs returns for the month:

Port—1910, $11,877.51; 1909, $10,134.99; increase, $1,742.52.

Outports—1910, $8,087.29; 1909, $5,471.64; increase, $2,615.65.

Total—1910, $19,964.80; 1909, $15,606.63; increase, $4,358.17.

In the crown timber office there was taken in $15,953.70 during June. This is only about half as much as was taken in during May, but that is accounted for by the fact that April and May are the months in which the ground rentals of the timber leases come due and the receipts are consequently much higher. June's receipts are made up of stumpage dues and miscallaneous fees, and indicates remarkable activity in the lumbering industry.

Next month it is expected that the receipts at this office will not be nearly so large, as the new office at Revelstoke will be in operation and will take a large proportion of the business.

## ALL RECORDS ECLIPSED IN PROVINCIAL TAX RECEIPTS

### Over $8,000 Taken in on Last Day Allowed for Cash Discount.

The last day of the rebate for the taxes in the provincial government office yesterday resulted in all previous records being eclipsed by a large margin. Up to the close of business at nine o'clock last night approximately $8,500 had been taken in. This is double any amount ever taken in on a single day previously.

Those who have not paid their taxes now will not be compelled to do so until the end of the year.

Owing to the great rush the office was kept open in the evenings for the past four or five days, but not a great many took advantage of the privilege, most of the taxpayers doing their business in the day time. The proportion of taxes not yet paid has not been estimated and Provincial Assessor Creighton refused to make a guess last night.

### PICTURESQUE SETTINGS.

**Drama Last Night Patronized by Small Crowd.**

"The White Squaw," a very mellow drama in four acts, was the attraction at the Opera house last night, and was played before a very poor house. The plot is unusual from the regular run of drama of this description, being the story of a white girl thrown by accident among Indians and brought up amongst them. Her sister happens to visit the Indian encampment and the two girls are brought together through the fact that they both love the same man, only of course they do not know of their relationship. Instinct happens to stop the Indianized sister when she is about to kill her sister and she makes all sorts of sacrifices afterwards.

Miss Della Clark plays the role of Neamata, the white squaw, and does it in a finished manner, making the most of the scenes of violent passion as are written in the character.

Joseph Gillow takes the part of Bruce Marshall, who is in the unique position of being loved by the two sisters unknown to each other—and makes the most of it. Miss Grace Cahill takes the part of Octavia, the civilized sister, with a degree of hauteur worthy of the part but a bit overdrawn in the emotional scenes.

The settings and costumes are picturesque and are presumably correct.

**Murder Over a Woman.**

Moncton, N. B., June 30.—As a result of jealousy over his attentions paid to a woman, James Power, twenty-three years old, was struck and killed at the McDonald farm, six miles from here, by Thomas Connelly, a fireman on the Intercolonial railway. Connelly gave himself up. The murder occurred at a dance at which there was a general carousal, men and women being all well supplied with liquor.

## TRAM SERVICE TO LANGLEY WILL START THIS MORNING

### First Regular Passengers Over Completed Portion of Chilliwack Line Will Travel Today.

Today will mark a new era in the development of the country on the south side of the river, for this morning the B. C. E. R. will run its first passenger train over its Chilliwack line as far as Langley, and in a few months it is expected that the service will be still further extended.

For the past month the company has been operating a milk train between Langley and New Westminster, and has done a rushing business. On May 24 a passenger excursion was run, but today the first regular service will be inaugurated.

The train will leave Langley in the morning and will return in the evening, giving the residents of Surrey the opportunity of spending the day in New Westminster.

Manager Allan Purvis, of the Chilliwack line, was over the route yesterday and made all arrangements for the starting of the service today.

### EXPERT TO INVESTIGATE RINDERPEST IN ORIENT

Oakland, June 30.—Dr. William Boynton, formerly a student at the University of California, star fullback on the university football eleven, leaves today on the steamship Siberia for the Philippines where he will remain for two years to make a scientific study of rinderpest and other animal diseases which from time immemorial have been the scourage of cattle in the islands. The study will be made with the hope of discovering a remedy for the pests. The work will be under the combined agencies of the war and agricultural departments.

Boynton was a member of the class of '06 at Berkeley and left in 1905 to enter the veterinary department at Cornell. He held an instructorship in Cornell for two years and was appointed New York state pathologist in charge of all diagnostic work on rabies and different animal diseases.

### LAUNCH LASHED BY STORM.

**Frail Vessel Had Terrible Experience on Arrow Lakes.**

Nelson, June 30.—On Tuesday occurred one of the worst storms on the main lake that has been seen for several years. Three of Nelson's motor fleet had an experience that will long be remembered by them. H. Nelson's Elk and Gelignite and the Atlanta, belonging to Hon. F. E. Grosvenor, were bound for Nelson, and when in the vicinity of Coffee Creek and Queen's Bay the storm, which had been brewing for some time, developed into a hurricane.

The Elk and Gelignite reached the river at Proctor in safety, but the Atlanta, twenty minutes behind them, came in for the worst of it. Her engine hatches were lifted off bodily and flung in the air like paper and after shipping quantities of water and having her engine-room flooded, she eventually made the river and comparative safety.

### INDIANS ARE INVENTIVE.

**Have Clever Device for Moulding Ribs of Launches.**

North Vancouver, June 30.—Yesterday Rev. Father Peytavin showed to Mr. McDonald, the Indian agent, a clever invention of the reservation Indians whereby the oak ribs used in the construction of launch and boat keels are moulded into the required position.

A long enclosed wooden box several yards in length and about a foot deep is raised from the ground to the height of about six feet. Underneath is placed a gasoline fire, the heat from which is conveyed to the box by means of a tube. Inside the box are laid the pieces of oak required for the keel ribs and the heat soon makes the wook pliable enough to be bent to almost any required angle. A large launch is being at present constructed by the Indians and the visitors had an opportunity of seeing for themselves the working of the novel device.

### PLANS APPROVED.

**Executive Acts on Application of Stave Lake Power Company.**

Victoria, June 30.—In the case of the proposed extensions of the works of the Stave Lake Power company, a favorable report was received from Engineer George Webster, and approval of the company's plans was granted at yesterday's executive meeting.

The dispute as to the Idylwyld subdivision at North Vancouver, and the application of the citizens of Prince Rupert for endorsement of their recent record of 300 inches of water at Woodworth lake for future civic purposes will be finally dealt with by the executive on Tuesday morning next.

### BANKS TO MERGE.

**Royal Bank Will Absorb Union Bank of Halifax.**

Halifax, N. S., June 30.—Royal bank auditors are now at work on the books of the Union bank of Halifax preparatory to the merger of the Royal bank and the Union bank. On their report will depend the basis of settlement. The Union bank has thirty-seven branches in this province.

## RAIN REJOICES HEARTS OF FARMERS

### Wheat Greatly Benefitted by Precipitation—Heat Wave is Apparently Over.

Winnipeg, June 30.—Crops in one or two districts have been slightly singed by the hot spell, but taking it all around, it is declared by those in a position to know, that there is nothing to cause any uneasiness. Last night's showers proved a fine tonic to lift the fears from the minds of the farmers.

Early today the three railway companies sent out queries regarding the downpour all over the west, and the answers are favorable. From what has been received by the C. P. R., there was rain last night north of Calgary and all branches thereabouts, while heavy showers drenched the country in the Outlook and Portal section of Saskatchewan.

In Manitoba there is also cause to be grateful, for there were heavy rains everywhere excepting on the main line east of Brandon. Very heavy showers are reported from the north, and the temperature of North Battleford today is only fifty-eight degrees. Farmers around Edmonton are in a state of high glee, many showers having made the necessary saturation to soil during the past couple days.

There is no return of the great heat in the north country around Edmonton, today's barometer showing a record of only fifty-five degrees. Rain has fallen at all points along the main line in Alberta.

Around Brandon and vicinity there is nothing to complain of, terrific showers falling all night.

The Grand Trunk Pacific railway country evidently came in for the refreshing rain, for in the district around Melville there was an abundance of rain on Tuesday night. Other reports received today were of an encouraging nature.

## AMERICAN SQUADRON IS VISITING PLYMOUTH

### Captain George R. Clark Eulogizes Englishmen and English System of Colonizing.

Plymouth, June 30.—The officers and the midshipmen of the American squadron now visiting Plymouth attended a celebration yesterday in honor of Sir Francis Drake.

"Replying to the toast, "The Visiting Squadron," Captain George R. Clark said: "I have noted with growing astonishment and admiration the Englishman's wonderful mastery over men. Wherever Englishmen go they stand for law and order, progress and civilization. Order comes out of chaos and the worst places are made glad. Americans are proud to claim relationship with such people."

There was some comment, comparing these remarks with Roosevelt's Guildhall speech.

### CLOTHING UNIONS OUT FOR NINE-HOUR DAY

New York, June 30.—Forty unions in the various clothing trades in Greater New York and suburban towns began this week the taking of a referendum vote on the question of making a demand for a nine-hour working day.

According to the secretary of the Garment Workers' Trade council, the unions represent 150,000 workers. The taking of the referendum vote will occupy a week or ten days.

### IRON ORE AT CALGARY.

**Five Pounds of High-grade Iron From Seventeen Pounds of Ore.**

Calgary, June 30.—From seventeen pounds of iron ore found within fifty miles of Calgary, ex-Alderman Watson, local representative of a Boston syndicate controlling forty million dollars, secured five pounds of excellent iron of fine grain and admirably suited for the manufacture of steel. According to Mr. Watson, mountains of such ore exist within fifty miles of this city and within twenty-five miles of the railroad.

He states that within a few months work on a steel plant and rolling mills will be started in Calgary, a new line of railroad will be built direct from the mills to the mines and there is now every assurance that Calgary will be the Pittsburg of the Canadian west. Negotiations have already been partially completed with a view to securing a suitable site.

### REBELS WIN.

**Government Customs House at Pearl Lagoon Captured.**

Bluefields, Nicaragua, June 20.—The government customs house at Pearl Lagoon was taken last night by rebels under General Masis. The officers were captured, as was General Matuty, who was formerly associated with the revolutionary cause. The fighting lasted only twenty minutes and the total casualties were said to be fifty.

## FIRE BREAKS OUT ON PASSENGER BOAT

### People Aboard Burning Vessel Hold Dance While Ship Races to Port.

Philadelphia, June 30.—The Merchants and Miners company's steamship Grecian, which left this port yesterday afternoon for Boston with more than 100 persons on board, returned here today with a most serious fire in the hold.

Eighty of these on board were passengers, mostly all from Philadelphia, and they were safely landed.

Captain Briggs called the crew to the fire quarters and began pumping water into the hold. After passing out to sea and when he was abreast of Cape May, the fire appeared to gain headway, and the captain decided to return. Everybody was called on deck and the excuse given the passengers that the steamer was returning because of disarranged machinery.

While all hands were on deck with their baggage, a woman passenger learned the real situation, and there was considerable excitement among the passengers. Their fears were quickly calmed, however, and they were induced to return to the saloon. Their captain suggested that they amuse themselves. Somebody started playing the piano and others arranged a dance.

With the fire burning fiercely in the hold and the ship running full speed towards Philadelphia, the more daring of the passengers danced to the lively music of the piano.

Signals were displayed and the Philadelphia fireboats were at the pier when the Grecian arrived.

The passengers were calm on arrival here and left the burning ship without any confusion. The flames in the hold were drowned out during the day.

Twelve firemen were overcome by smoke but were revived after being brought ashore.

## NATIONAL COUNCIL WILL DISCUSS VOTES FOR WOMEN

### Meeting in Halifax Has Many Interesting Subjects on Order Paper—Delegates Entertained.

Halifax, N. S., June 30.—The National Council of Women of Canada, which has [illegible] committee work [illegible] Governor [illegible] Fraser gave [illegible] Assisting in receiving the guests was Mrs. Wilson, of Guelph.

Among the resolutions to be adopted will be one recommending that the earnings of men undergoing long terms of imprisonment be devoted to the support of their wives and children, and that there be more rigorous enforcement of the immigration regulations.

Another resolution condemns the "treating" system.

A resolution on the order paper is, "That the National Council of the Women of Canada hereby places itself on record in favor of the enfranchisement of women."

### CLIPPING FAD OF THE KING OF ITALY

Rome, June 30.—The King of Italy owns probably the largest collection of clippings about himself and family that vain man ever gathered. If you want to please his majesty, send him this paragraph. It is sure to be incorporated in his collection, neatly pasted up in a loose-leaf scrapbook under the appropriate heading. Better still, the King will read it carefully, for Victor never leaves his duty to his secretaries. Their business is to clip and clip, paste each item on a separate sheet of paper and submit to the king, who will classify it under "favorable," "unfavorable," "natural," etc. His method is certainly an improvement over those of Kings and sundry individuals of note who keep only puffs.

**Calgary Going Ahead.**

Calgary, June 30.—Bank clearings for the month of June in Calgary show a gratifying increase of over sixty-five per cent, totaling $13,035,062. The same month last year showed $8,113,535. Building permits also show a great increase over last year, [illegible] permits being issued during June calling for an expenditure of [illegible].

### BIG LEATHER MERGER.

**Will Control 75 Per Cent of Trade and Have a Captial of $15,000,000.**

Toronto, June 30.—The organization of a leather merger that will control seventy-five per cent of the leather used in the Canadian boot and shoe, bag and trunk and harness trades, will be announced shortly. Its capital will be $15,000,000 stock, and $5,000,000 bonds of six per cent or $20,000,000. There is to be an immediate issue of $13,500,000 stock and $4,000,000 bonds by this new concern, which is to be known as The Canadian Leather Co., Limited.

## CHANGES ANNOUNCED IN PEOPLE'S TRUST COMPANY

### W. J. Kerr Resigns From Presidency. J. K. Burden in Charge Pro Tem.

During the past few days there have been considerable changes in the Peoples Trust company, which has its head office in this city. It had been the intention of the company to take over the business of W. J. Kerr, Ltd., but yesterday Mr. Kerr decided that he would not merge with the company. Subsequently he decided to sever his connection with the trust company in order to give his undivided attention to his own business, and he resigned from his position as president.

The company has secured offices in the Thompson block, opposite the city hall, and J. K. Burden has been appointed managing director until a new president is elected.

The Peoples Trust company was formed about a year ago and has offices here and in Kamloops. Since the time of its formation it has developed with the general progress of the country.

### EXPENSIVE ART FOR CHURCH.

**Mural Painting Ordered That Will Cost $25,000.**

New York, June 30.—Robert Reid, it is learned, has received a commission of $25,000 for a mural painting for the new Fifth Avenue Baptist church, which will be built on the south side of Forty-Sixth street, west of Fifth avenue.

The title of Mr. Reid's mural decoration is "The Sermon on the Mount." It will be a large canvas, covering thirty by sixty-six feet, and will be placed in the center of the church over the baptistery screen.

It is also learned that well known sculptors will be commissioned to execute scuptural decorations for the facade of the church, covering an expenditure of about $20,000.

### MAN ON DIOGONESIAN TOUR.

**Airing Grievance, With Lantern, He Looks for an Honest Councilman.**

Washongal, Wash., June 30.—John Crone, who thought that he had a grievance against the city on account of the recent street assessments, created a sensation by going around to the business houses with a lighted lantern in his hand in the middle of the day, peering into the faces of those he met and saying he was looking for an honest councilman.

The laugh on the councilmen became so uproarious that they threatened him with dire consequences unless he desisted. His friends finally induced him to go home, fearing that [illegible]

[illegible]

Chicago, June 30.—Uniformity in signalling is to be adopted on all the railroads of the United States if plans now under consideration by railroad operating associations can be worked out. The question is being considered by a committee of operating experts, which probably will report on the subjects at the fall meeting of the railway association.

The committee is composed of committees from the American Railway association, the American Engineering and Maintenance of Way association and the Railway Signal association.

It is the opinion of many operating experts that one position of the semaphore of a block signal should mean the same thing on every railroad in the United States to prevent confusion when operating men go from one road to another.

### WILL OF THE LATE PROF. GOLDWIN SMITH

Toronto, June 30.—The conflicting reports of the terms of the late Goldwin Smith's will are all incorrect, says G. Larratt Smith, solicitor to the estate, in denying the reports stating that the amount which would go to Cornell university would be much smaller than at first stated. "The fact is," he said, "that neither Dr. Schurman nor myself knows what the amount will be. Cornell university is the residuary legatee, but it will be ten or twelve days before we will be able to make any public statement of the value of the estate or the number of the legatees."

Mr. Smith admitted that the estate was large and the legatees numerous, but would not hazard a statement of the probable amount which would be left for Cornell. He stated that an injustice had been done by a report that Arnold Haultin, secretary to Goldwin Smith, was a beneficiary under the will for $5,000. "There is a legacy," he admitted, "but in addition Mr. Haultain is made literary executor for Dr. Smith. All of his manuscripts and copyrights revert to Mr. Haultain, who will finish the work upon which Dr. Smith was engaged, and publish it together with new editions of his other works."

**Direct Nomination Bill Defeated.**

Albany, N. Y., June 30.—The combined influence of President Taft, Theodore Roosevelt and Governor Hughes failed to save the Cobb direct nomination bill from defeat in the assembly today.

## PARLIAMENT WILL ADJOURN IN JULY

### Lloyd George Introduces the Budget—No Decrease in Whisky Tax.

London, June 30.—In the house of commons this afternoon Premier Asquith announced that the government proposed to adjourn parliament at the end of July, and that it would reassemble in November. July 11 and 12, he said, would be devoted to the second reading of the Women's Enfranchisement bill.

Chancellor Lloyd George then introduced the budget. He had no novelties to offer in introducing the budget of 1910-11. He took an optimistic view of the future, despite the fact that he had to find the revenue to meet an estimated expenditure of almost £200,000,000, or, to be exact, £193,930,000. The chancellor figured a total revenue of £199,791,000, leaving a surplus of £861,000. The chancellor was cheered when he stated he had already wiped out the deficit and that everything pointed to better outlook in trade.

The greatest increase in expenditure was for the navy, which was £5,550,000, the total under this heading amounting to £40,000,000.

He announced there would be no reductions in the whisky tax, despite the reduction in the revenue from this source of £1,400,000. The decreased consumption of 10,000,000 gallons of whisky, he said, conducted to the well being of the people.

Drunkenness in Ireland and Scotland had decreased immediately to a great extent after the increase of the tax, and the chancellor said whoever would reduce the tax would be guilty of a crime against the state.

## B.C.E.R. EMPLOYES AND COMPANY SIGN AGREEMENT

### Wage Schedule Decided Upon for Next Three Years—Everybody Satisfied With Negotiations.

Vancouver, June 30.—Representative officers of Vancouver, New Westminster and Victoria divisions of the Amalgamated Association of Street Electric Railway Employees held a final conference with officials of the B. C. E. R. company yesterday and formally signed the new agreement, covering a period of three years. This agreement takes effect on the expiry [illegible]

[illegible] during the whole period.

All members of the three divisions are satisfied with the termination of the negotiations and are confident that the good feeling that has existed in the past between the company and employees will continue in the future.

According to the terms of the agreement if at its expiry conditions are satisfactory to both parties it may be extended for further periods of twelve months, or until such time as it may be deemed advisable by either party for reopening of negotiations.

### BIG TIMBER DEAL ON VANCOUVER ISLAND

Victoria, June 30.—It was learned today that St. Louis parties have purchased 20,000 acres of timber in the vicinity of Port Renfrew for a cash consideration of over $100,000.

The deal was put through by C. C. Michener, president of the Red Fir Lumber company, of Nanaimo, but the names of the clients have not been made public. The land was owned by an individual and the transaction is one of the largest ever made for cash in the district.

It is understood that a logging railway will be built from the property, the logging of which will commence shortly, to Port San Juan, to provide water transportation in the event of the Canadian Northern choosing an inland route.

**Twelve Families Homeless.**

Montreal, June 30.—As a result of a fire in St. Mary street today, four frame dwellings were destroyed and twelve families are homeless.

### TODAY'S FIXTURES.

**W. J. KERR, LIMITED.**

## CITY OF NEW WESTMINSTER.

### Local Improvement Notice.

Pursuant to Section 20 of the "Local Imporvement General Bylaw, 1909," notice is hereby given that the Assessment Roll for Local Improvements on the following streets, viz., Tenth street on both sides from Sixth avenue to Tenth avenue, except on the east side of said street between Sixth and Eighth avenues; also on both sides of London, Edinburg, Dublin and Hamilton streets, Eight and Seventh avenues between Tenth and Twelfth streets, is open for inspection at the office of the Assessment Commissioner in the city hall, New Westminster, British Columbia, and in case the owner or any person interested in any of the properties included therein desires to appeal from such assessment, he shall, within the period of eleven (11) days from the first publicatibn of this notice, give notice to the undersigned in writing of his intention to appeal.

Dated the 27th day of June, A.D., 1910.

W. A. DUNCAN,
City Clerk.

Date of first publication the 27th day of June, 1910.

## STREET IMPROVEMENT DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand ($150,000.00) dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the city for the construction, improvement and repair of streets and sidewalks, and it is expedient that additional sums be spent in like manner, amounting in all (with the sums already spent) to the sum of One Hundred and Fifty Thousand ($150,000.00) dollars;

And Whereas, it appears that if the said sum of One Hundred and Fifty Thousand ($150,000.00) dollars, be appropriated from the general revenue of the city for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount;

And Whereas, for the payment of interest on the debentures or registered stock certificates, proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates, the sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars;

And Whereas, in order to raise the said yearly sum of Seven Thousand, Five Hundred and Ninety and 32-100 ($7,590.32) dollars, an equal rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of One Hundred and Seventy-four Thousand, Five Hundred ($174,500.00) dollars proposed to be raised under the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910"; the "Fire Debenture or Registered Stock Bylaw, 1910"; the "Schools Debenture or Registered Stock Bylaw, 1910," and the "Parks Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears;

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of One Hundred and Fifty Thousand ($150,000.00) dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates, shall be payable on the first day of July, 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of Six Thousand, Seven Hundred and Fifty ($6,750.00) dollars for the payment of the interest thereon, and the sum of Eight Hundred and Forty and 32.100 ($840.32) dollars to provide for the payment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise: towards paying the cost of the passing of this Bylaw and the issue and sale of the debentures or registered stock certificates therein referred to, recouping the treasury of the city such sums as have been this year expended in street works, or may be so expended until the proceeds of the sale of the said debentures or registered stock certificates have become available, the making, improving and repairing of such streets and sidewalks in the city as may be deemed expedient by the council, but no sidewalk or street shall be made or repaired out of the moneys borrowed under this Bylaw unless the same shall have first been approved by a resolution of the Council.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Street Improvement Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

### NOTICE.

Take notice that the above is a true copy of the proposed Bylaw which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the day of the first publication thereof in the "Daily News" newspaper, which first publication took place on the 13th day of June, 1910, and that a vote of the electors of the city will be taken on the said proposed Bylaw on the 14th day of July, 1910, between the hours of nine o'clock a.m. and five p.m. at the following places, namely: The Council Chamber, Civic Building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, June 11, 1910.

## SCHOOLS DEBENTURE OR REGISTERED STOCK BYLAW, 1910.

A Bylaw to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Ninety-seven Thousand, Five Hundred ($97,500.00) dollars for School Purposes.

Whereas the Board of School Trustees of the City of New Westminster have caused to be prepared and laid before the Council a detailed estimate of the sums required by the Board for the current year's ordinary expenses of maintaining the schools of the said City of New Westminster; and have also prepared a like detailed estimate of the sums required to meet any special or extraordinary expenses legally incurrable by the Board, which last mentioned estimate is subject to consideration, alteration and final approval by the Council, and the same has been finally approved by the Council.

And Whereas, the amount required under the said last mentioned estimate for schools amounts to Ninety-seven Thousand, Five Hundred ($97,500.00) dollars, made up as follows: Thirty-five Thousand ($35,000.00) dollars for the erection and equipment of the new Sapperton school; Two Thousand, five Hundred ($2,500.00) dollars for the erection and equipment of a school on Lulu Island, and Sixty Thousand ($60,000.00) dollars for the erection of a High school.

And Whereas, by Section 40 of the the Public Schools Act 1905, as re-enacted by Section 30 of the Public Schools Act 1905, Amendment Act 1906, any statute to the contrary notwithstanding, the Council of any city, town or rural municipality in the Province including the City of Vancouver and City of New Westminster, may in each and every year pass a Bylaw or Bylaws for levying aspecial rate of not more than Five (5) mills on the dollar for school purposes, and the Council may in addition to such rate apply any portion of the ordinary revenue to school purposes.

And Whereas, it appears that the amount required to meet the current year's ordinary expenses of maintaining the schools will exhaust the amount authorized to be levied under Section 40 of the Public Schools Act 1905, as re-enacted by said Section 30 of the Public Schools Act 1905, Amendment Act 1906, and it will be necessary also to apply a portion of the ordinary revenue for such purposes.

And Whereas, it appears that if the said sum of $97,500.00 be appropriated from the general revenue of the city for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the corporation, and that debentures or registered stock certificates should be issued for that amount.

And Whereas, for the payment of interest on the debentures or registered stock certificates proposed to be issued under this Bylaw, and for creating a sinking fund for the payment of the said debentures or registered stock certificates, when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures or registered stock certificates the sum of four Thousand, Nine Hundred and Thirty-three and 70-100 ($4,933.70) dollars;

And Whereas, in order to raise the said yearly sum of $4,933.70, an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And Whereas, the whole rateable property of the said city, according to the last revised Assessment Roll thereof, is Seven Million, Two Hundred and Forty-nine Thousand and Ten ($7,249,010.00) dollars;

And Whereas, the total amount of the existing debenture debt of the said city is One Million, Six Hundred and Seventeen Thousand, One Hundred ($1,617,100.00) dollars, irrespective of the sum of Two Hundred and Twenty-seven Thousand ($227,000.00) dollars proposed to be raised under the "Street Improvement Debenture or Registered Stock Bylaw, 1910;" the "Fire Debenture or Registered Stock Bylaw, 1910;" the "Lulu Island Bridge Debenture or Registered Stock Bylaw, 1910," and the "Parks Improvement Debenture or Registered Stock Bylaw, 1910," of which none of the principal or interest is in arrears.

Now Therefore, the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures or registered stock certificates hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $97,500.00, and to cause the same to be paid into the treasury of the said city for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures or registered stock certificates to be made, not exceeding in the whole the sum of $97,500.00 for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures or registered stock certificates shall be sealed with the seal of the corporation, signed by the Mayor and countersigned by the treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures or registered stock certificates shall be payable on the first day of July 1960, at such place or places as the Council of the said corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half yearly on the first day of January and the first day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the city, sufficient to pay the interest upon the debentures or registered stock certificates, and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures or registered stock certificates, the sum of $4,387.50 for the payment of interest thereon, and the sum of $546.20 to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures or registered stock certificates shall be applied as follows, and not otherwise; towards paying the cost of the passing of this Bylaw and the issue and sale of the said debentures or registered stock certificates therein referred to, and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the city treasurer to the several persons to whom moneys are payable.

7. This Bylaw shall take effect on the day of 1910, and may be cited as the "Schools Debenture or Registered Stock Bylaw, 1910."

8. This Bylaw before the final passing thereof, shall receive the assent of the electors of the said city in the manner required by law.

Received the assent of the electors on the day of 1910.

Reconsidered and finally passed in open council the day of 1910.

### NOTICE.

### LAND REGISTRY ACT.

Take notice that an application has been made to register Duncan Bell Hall as the owner in fee simple, under a Tax Sale Deed from E. A. Wilmot, Inspector of dykes, to Duncan Bell Hall, bearing date the 13th day of June, A.D., 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as part 3.60 acres of the southeast quarter of Section 18, Township 3, Range 29, west of 6th Meridian.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty five days from the date of the first publication of this notice upon you and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Duncan Bell Hall as owner thereof in fee. And I hereby order that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 30th day of April, A. D., 1910.

## ASQUITH'S ANNOUNCEMENT IS ANXIOUSLY AWAITED

**Truce Between Rival Political Parties Believed to Have Ended in Failure—Radical Group Chafing.**

London, June 30.—There is increasing impatience among the Liberals at the prospect of the prolonging of the veto conference for several months. The Radical group yesterday passed a resolution urging the premier to forward the conference on the ground that delay was perilous to the popular cause. The chief whip received a delegation with the resolution which eventually was not presented.

These facts have given rise to rumors that the conference has broken down and Mr. Asquith's statement today is awaited with some excitement.

Corrobation of the idea that the truce is broken is found in some quarters in Mr. Balfour's denunciation, during the debate on the colonial office vote, of a single chamber of finance in connection with the recent incident in the Transvaal government.

In the discussion on the colonial office vote, Colonel Seeley referred to the Union of South Africa as the outstanding feature of the year. Of the other self-governing colonies, there was nothing but good to record. With regard to Canada there has been a very real advantage in settling certain outstanding questions with the United States. In all parts of the self-governing dominions there had been real steady progress and there was nothing to look back upon either in the relations between this country and the self-governing colonies or what had happened in those dominions themselves that could give cause for regret.

Mr. Lyttleton urged the necessity of preparing a detailed report for the imperial conference and said the house should have an opportunity of discussing the topics and scope of the conference in which they were so profoundly interested.

Kinlock Cook criticized the Canadian immigration regulations. Colonel Seeley replied saying that the agenda of the conference was not prepared, but the governmnet naturally awaited communications from the self-governing states.

### Toronto Murderer Hanged.

Toronto, June 30.—Pasquale Voctricini was hanged at Toronto jail at eight o'clock this morning for the murder of Rafaele Fabbio on March 6.

### Jail for "Joy Riders."

Toronto, June 30.—According to Magistrate Kingsford "joy riders" in Toronto will hereafter be punished by jail sentences instead of by fines.

## EXEMPT DOCTORS FROM SPEED LAWS

**Strong Article by Dr. W. A. Young — Says "Toronto Physicians Are Held Up"**

Toronto, June 30.—War has been declared by the medical profession of Toronto against the present methods of the police in "holding-up," physicians' automobiles, even though they are hustling to accidents. The mayor has been written to about the matter, and he is also in receipt of a marked copy of the latest issue of The Canadian Journal of Medicine and Surgery, in which the editor, Dr. W. A. Young, vigorously attacks the present methods of the police re auto speeding.

Under an article entitled, "Why are the autos of physicians 'held up' daily by the police?" Dr. Young says in part: "That the men who have given their best years to the study of the saving of life, and their hours unstintingly to the service of suffering humanity, should, when suspected of breaking the speed bylaw, be treated as ruffians going on a joy-ride, is a disgrace to the police system of a city the size of Toronto. The physicians of this fair city are gentlemen, and, by courtesy, servants of the public, but not serfs under Russian rule. If, on going to a case where perhaps death seems imminent, a doctor exceeds the ten-mile limit, he is summoned to the police court, and there, when giving a true and proper explanation of the circumstances, he is interrupted by a police inspector who seems to have more than his share of assurance, and adds, uninvited, his opinion, and gives it in spite of the Magistrate presiding over the court. Whether this inspector is to be taken seriously, or just as a preacher values the family parrot when it swears him out of the house, after just adding a saintly 'Amen' to his prayer, is a subject worthy of discussion."

The article concluded with a recommendation that the board of control pass in council an ordinance similar to that at present in existence in Rochester, N.Y., exempting physicians when on professional duty, from adhering to the speed limit as required in the by-law.

The Star Yard company, of Lulu island (E. Mercer, Proprietor) has just launched one of the strongest scows ever built on the Fraser river. It will be used in the Nanaimo coal trade for Captain Mayers of the New Wellington Coal company. The scow has a capacity of 300 tons and is eighty-eight feet by twenty-eight with 7.7 beam.

## SPOKANE RAISES BAN ON STREET ELOQUENCE

**Truce Called in Bitter Fight Between Police and I. W. W., During Which Jail Was Filled.**

Spokane, June 30.—The edict against street speaking in Spokane has been recalled, and permits have been issued to the Industrial Workers of the World, against whom the anti-street-speaking crusade of the local police was specially directed. Permits to speak on the streets have also been issued to half a dozen religious organizations.

The issuing of the permits marks the close of one of the bitterest fights in the history of Spokane, in which the I. W. W. orators were driven from the streets, hundreds of arrests were made, men were imprisoned in the city jail, the guardhouse at Fort Wright, and in the old Franklin school, which was fitted up as a special stockade. During the war the arrested I. W. W. members refused to eat the meals doled out to prisoners of the city and a number of instances are cited in which zealots passed several weeks without eating a meal.

Thousands of circulars denouncing the Spokane police force, and city methods, and the Spokane Chamber of Commerce, for inducing people to come to this city on what was termed false representations were sent out by the organization. City and county officials were embroiled, and the publications of the I. W. W. in the city were repeatedly confiscated as they had been run off the press.

While hundreds of men congregated in the lower part of the city Sunday evening to listen to the orations of I. W. W. leaders the speeches were absolutely free of the old abuse of the Spokane police and their methods methods which formerly characterized the addresses of the same leaders. Everything points to a compromise and understanding between the police and the I. W. W.

### FLIP COIN TO DECIDE WHO WILL TAKE WIDOW

Sterling, Ill., June 30.—By a mistake as a result of a matrimonial "ad." Frank Baker, Alton, Ill., and John A. Davis, Waterloo, Iowa, arrived here today to marry Mrs. Elsie Carter, who resides fifteen miles south of here.

Both men arrived on the same train and both men hired rigs and drove to the home of the widow. The men were not angry about the matter, but were willing to compromise.

Mrs. Carter seemed to be well pleased with both and it was finally agreed that the best way to settle the difficulty was to flip a coin, and Mr. Baker called for heads, and heads it was.

### CITY OF NEW WESTMINSTER
### SANITARY NOTICE.

All rubbish and garbage must be removed to the foot of Sixteenth street and Fifth avenue, where it will be burned by the corporation.

Any person or persons who dump garbage or rubbish of any kind on any other street or avenue or on any lane, vacant lot or public property will be prosecuted under the provisions of the Sanitary Bylaw.

By Order, S. J. PEARCE,
Sanitary Inspector.
City Hall, June 13, 1910.

### LAND ACT.

## THE RIVAL MARKET.

It is certainly not for want of energy and effort on the part of the Market and Industries committee of the Vancouver council that the retail produce market established in that city about two years ago has failed. Every thing that could be done has been done by the committee and its officers to secure the success of this undertaking. An official was sent out into the highways and byways of the surrounding country to bid the fruit growers, poultry farmers and market gardeners send in their produce to the market, and considerable sums of money were spent upon the buildings and appurtenances of the establishment. But for all this the Vancouver market has failed, and failed badly, too.

It was expected by its promoters, we believe, that this would soon form a serious rival to the old established and prosperous weekly market of New Westminster. But there has never been any danger of this. The Vancouver market has not been much more than a dumping ground for consignments to wholesalers in the Terminal City. Neither producers nor consumers displayed any particular anxiety to patronize the establishment on Westminster avenue. The former have, in fact, always regarded it with suspicion and disfavor.

This is probably the reason for the failure of Vancouver's attempt. The market clerk, however, attributes this to the fact that it is too far away from the source of supply. Whatever the actual cause may be the committee has now abandoned the attempt to run a civic market on anything approaching a paying basis, and has leased a portion of the building to the Dominion Fish company.

## MR. ROOSEVELT'S ROMANES LECTURE.

Ex-President Roosevelt's recent Romanes lecture at Oxford university, in which he dealt with the development of nations, has, not unnaturally excited considerable controversy in Great Britain; little less, indeed, than his now famous speech at the Guildhall, London. Both were undoubtedly brilliant efforts, but whilst the tone and character of the latter were questionable and came in for a great deal of unfavorable criticism, the Romanes lecture was, from a scholar's point of view, a notable contribution to modern thought. The general opinion of the leading organs on the other side of the Atlantic is in this direction. The Spectator, for instance, says of the lecture:

"One is temped to say of nations that though they may decline to a certain extent through misfortune—through the rise of more able and powerful communities—they need never disappear except through their own fault. A nation which masters itself need never become a slave. It may always hold its place among the leaders. Neither biology nor history warrants us in prophesying for an nation a permanence which has never yet been achieved. But at all events we may eliminate all the conditions of decay that history has yet revealed. What are these? In a single sentence, they are all faults of character. Mr. Roosevelt thinks, and we heartily agree with him, that in future, much as intellect will count, character will count even more. He cited the case of Lincoln. We accept Lincoln as the type of wise democrat, perhaps the best example the world has produced of tolerance, good temper, reasonableness, and resolution. He never wavered in the appalling task of crushing his countrymen of the South, and yet he never said an unfair thing of the South. He fought with the tenacity of a man of hate, and yet hate was foreign to his heart. One can only wonder and admire it."

## Correspondence

### THE SCHOOL BYLAW.

Editor, Daily News:

Sir—I shall endeavor to place before you in brief the position of the school board in reference to the School bylaw.

1. The board is ready and willing to place the High school on any possible site that would be agreeable to the majority of the ratepayers. The bylaw does not fix the site. We would welcome a plebiscite to decide that matter.

2. The Sapperton school is overcrowded, unsanitary and intolerable any longer. A school there is an absolute necessity. We propose to erect one similar to the Lord Kelvin school. A magnificent site is about ready now.

3. A small school on Lulu island is very desirable. The distance to the other schools is considerable, and the roads thereto beset with many dangers to small children on account of the bridge, railroad and street car tracks to be crossed. We have obtained this year a free site for that school from the provincial government. This school is at present held upstairs in a rented building in very unsuitable quarters.

4. The Central school is overflowing. A room in the Carnegie library is now being used for a school room. Still more accommodation will be needed next term.

5. It is likely that an additional High school room will be necessary next term.

6. The present High school is unsatisfactory, too small and never was suitable for a High school. It was not intended for any but temporary use as a High school.

7. It is undesirable for many reasons to have the High and Public shcools in the same building and on the same property. They should be separate and each have its own bounds.

8. By building a new High school we not only secure the accommodation needed for High school work, but also make it practicable to properly equip the school for that work. It is not possible to do that now.

9. A new High school, by releasing five rooms in the brick building to public school uses, will supply all the accommodation that will ever be needed for Public schools in the Central district.

10. The whole present situation, the future growth of the city and what that will lead to have all been carefully considered. The trustees and the secretary of the school board are most conversant with the conditions at present in school matters, and these six men are unanimously of the opinion that the plan put forward by the school board is best, to meet not only the present, but the future need of the city. This should carry a great deal of weight with the ratepayers, and it does.

11. The plan of the school board is a complete and single plan to meet the school needs of the city. Build a High school and the needed Public school and the needed High school are both supplied; but build only another Public school and the High school problem remains, only in an aggravated form.

12. For these reason the trustees urge all ratepayers to strongly support the school bylaw, and they put forth their plan with every confidence that it will commend itself to any ratepayer who will think it over, with a mind open to see only the welfare of the city and its schools.

Lastly—The board is ready and willing to place the High school on any possible site that would be agreeable to the majority of the ratepayers. The bylaw does not fix the site. We would welcome a plebiscite to decide that matter. We have asked the council to submit such a plebiscite. The council has so far refused to grant our request, without giving us a reason for their refusal.

The Site for the High school is a different matter. With your permission we will give the trustees' attitude on that question in another issue.

## COLONIZERS DREAM OF AIRSHIP SERLICE IN B.C.

Aeroplanes Would Be Cheaper Method of Traveling to Undeveloped Sections of Province.

Victoria, June 30.—Nowhere else in the world has the inauguration of passenger airship service in Germany been observed with more active and peculiar interest than in this far western province of British Columbia, and more particularly by those directly and actively engaged in the promotion of colonization in New Cariboo, having Fort George as its hub and future capital. The necessity of securing immediate and convenient transportation to this new center of population is fully appreciated, and the airship is looked upon as offering unique facilities for meeting existing difficulties.

In the difficult nature of the country to be traversed in securing connection with established railway facilities, the building of roads involves a question of time, and time-saving is extra important at the present juncture. If airships can be employed to connect Fort George with points on the C. P. R. a very obvious difficulty in Cariboo's colonization will be solved. A group of capitalists particularly interested have therefore sent an agent to Berlin to patronize the new Germany agency of communication and also to investigate all incidental costs in connection with the possible establishment of a similar airship service in Central British Columbia. If satisfactory arrangements can be made, the inauguration of aerial communication between Fort George and Ashcroft may be brought about before the advent of winter, or by next spring at the latest.

The German airship service covers a route of 300 miles in length, and the dirigible employed is stated to be able to travel 700 miles without a stop. The speed on the first trip averaged almost thirty-five miles an hour, or better than that of the ordinary passenger train on many western railways. The lifting capacity was twenty-two tons, while with twenty passengers the total weight of the load carried was only five tons and a half, this including the weight of the restaurant car and other equipment designed for the comfort of possengers. Such an airship might easily be operated from points on the C.P.R. mainland to the Cariboo, the Chilcotin or Fort George. If two or three stops were made on the way at bases like Quesnel, it would not be necessary to go more than 100 miles at a single flight en route from Ashcroft to Fort George and vice versa. The time required would be much less and the comfort much greater than by stage, horse, or automobile.

For tickets on the German airship line rates ran from $25 upwards. These charges will be materially reduced in the near future, but taking everything into consideration they compare not unreasonably with the passenger rate now prevailing from Nelson to the Pacific coast— a similar distance in an air line. They are very much lower than the cost of travel in this province by horse or auto stage. To inaugurate a passenger service by airship it is unnecessary to go to the great outlay required in building a railway or even a wagon road. There are a number of points in this province which are not likely to have railway communication for some years. There may be a railway into Quesnel and the Chilcotin within the next five years or there may not. If regular passenger airship service proves practical in Germany, it will be but a very short time before it is duplicated in the colonization of this province.

### EGGS FOR NEXT WINTER.

Newark, N.J., June 30.—Forty-five million eggs have been shipped into this city since April 1 and placed in cold-storage by warehouse men, to remain there until the big shipments of last winter are duplicated. The eggs come mostly from Indiana, Michigan and Ohio. They were purchased at an average price of from twenty-three and a half to twenty-four cents a dozen. Two cents a dozen is added to cover insurance, storage costs, etc., which brings the total cost up to about twenty-six cents a dozen.

If the eggs can be retailed in New York next winter at forty-five cents a dozen, which they sold for last winter, there will be a profit of nineteen cents a dozen, or a total of something over $700,000.

### Premier Whitney's Daughter Dead.

## REASON DISCOVERED FOR PRIVILEGES OF FAVORITES

Exhaustive Inquiries Reveal Reason Why Lacrosse Fans Invade Recreation Park Oval.

After a vast amount of research, involving untold difficulties, the full list of all those allowed inside the fence at the Vancouver Lacrosse grounds is, for the first time set before the public. It has long been a mystery to the general public who have to be contented with a comfortable seat in the grand stand, by what right all the great crowd which stands in each others way in the two inch space between the grand stand and the field, is entitled to occupy the proud position, but below is given a full list of the qualifications necessary.

An attempt was made to estimate the numbpers, but owing to difficulty in taking the census in Northern Manchuria and the undiscovered regions of the south pole, the attempt had to be abandoned.

Those qualified to go on the field in Vancouver during the progress of a lacrosse match are divided into four great classes: I. Players and those connected with players; 2. Officials and those connected with officials; 3. Newspapermen and those connected with newspaper men; 4. Everybody else and those connected with everybody else.

The first of these classes is rather unimportant, but it is made up as follows: (a) The twenty-four men playing lacrosse; (b) spare men, estimated number seven; (c) old players of the teams engaged, estimated number twenty-one; (d) future players of both teams, estimated number 134; (e) those who would like to play if they could, estimated number 436; total number of first class 622.

The second class—officials. (a) The referee; (b) the president, honorary presidents, vice presidents, secretaries, treasurers, office boys, committees, etc., of both teams, estimated number thirty-nine; (c) the similar officers of all other clubs in Vancouver, New Westminster, Victoria and every other place, estimated number, 2450; (d) rubbers down, trainers, coaches, megaphone wielders, doctors, lawyers, peanut vendors, badge sellers, policemen, estimated number forty-six; (f) the mayor and aldermen of both cities engaged, school trustees, members of parliament, teachers, estimated number fifty-seven. Number in second class, estimated, 2593.

The third class—newspapermen. (a) reporters, nine; (b) messenger boys, telephone girls, photographers, estimated number, fourteen; (c) proprietors of newspapers from all over Canada and the United States, estimated number sixty-nine; total number in third class, estimated, ninety-two.

The fourth class. (a) Everybody; (b) everybody else; (c) anybody; (d) everybody who is a friend of anybody; (e) anyone who is not a friend of anybody and everybody he may be friends with, if anybody; (f) all those not included in the foregoing category; (g) the president of the United States and the Emperor of Germany; (h) Jim Jeffries and Jack Johnson; (i) Governor Gillette; (j) George Ham; (k) Bob Edwards; (l) Joe Martin; (m) R. R. Gamey; (n) Count Zeppelin of Dusseldorf; (o) Alfred Austin; (p) Tex Rickard; (q) Carry Nation.

Attempts were made to estimate the number included in this class but the man on the job died twice before he was half way through and the results of his labors were seized by his creditors. However, the number in the other three classes is 3307, and as a conservative estimate the total number of the fourth class added to that would bring the figure close up to the 200,00,000,00,0,00,0 mark.

Those who are entitled to pay their money and take their seats in the grand stand are all those not included in any of the above classes.

It is expected that most of those entitled to a place on the field will fill it this afternoon, and Manager Jones has arranged that, if there is not room for the players, the favored individuals on the field will not be disturbed.

### W. J. BRYAN WATCHES AVIATORS AT MONTREAL

Montreal, June 30.—The feature today at the aviation meet was the flight of Walter Brookens, the Wright aviator, with Bertrand De Lesseps, brother of the count, as a passenger, lasting twenty-three and a half minutes and ascending to a height of 1,140 feet. It was the first time that De Lesseps had ever been up in a heavier-than-air machine.

William Jennings Bryan was an interested spectator. The Nebraska statesman is leaving for home by way of Chicago this evening.

The machine in which Count De Lesseps crossed the English channel has not yet arrived from New York.

### SEEKING CHARTERS FOR TWO JOCKEY CLUBS

Hamilton, Ont., June t30.—The law firm of Brice, Brice & Councill has applied to the Dominion government for a charter for a new jockey club, to be known as the London Jockey club.

St. John, N. B., June 30.—Several Montreal men have made application for a charter for a Jockey club here.

### Harvard Defeats Yale.

New York, June 30.—Harvard won the varsity eight-oared race by four lengths today. Time: Harvard, 20:46½; Yale, 21:04.

## TEAMS CONFIDENT OF TODAY'S RESULT

Both Vancouver and New Westminster Have Strong Teams and Expect Victory

If it were not for the absence of Tom Rennie and Jim Gifford from the New Westminster lineup today, the Royal City team would have the strongest team she has had this year. As it stands the outfit that faces Vancouver today is not any slouch organization and if Vancouver wins the game she will have to travel fast.

The Terminal City has regained some confidence during the lull in the lacrosse storm and with the presence of Bun Clark and Sandy Cowan, the Vancouvers expect to be able to give New Westminster a hard game. At the last game in Vancouver the Salmon Bellies did not have any cinch securing a victory; in fact, it was one of the closest games of the season and this time Vancouver will undoubtedly have a stronger team.

However, the locals have been practicing hard and are in much better shape than when they last played. During the two weeks' rest the men have had a chance to recover from the scars of the earlier games and are in great form.

Jimmy Gifford, who for the first time in history has considered his private interests more important than lacrosse, will be badly missed on the defence and Hughie will have a hard time keeping tab on Bones Allen. However, Hughie ought to be able to stand the pace and if he can stand as much marathoning as Bones during the game, he will not have too big a job.

Grumpy Spring will play for the first time in three weeks. The last game he mixed in was a sad performance from a Vancouver standpoint, and today he will probably outdo the stunts he amazed Con's pets with on that historic occasion.

The crowd going from here is expected to eclipse all previous records by several blocks. There is nothing going on here and if the census of New Westminster were taken about three o'clock this afternoon the enumerator would need only to confine his attention to the jail and the hospital.

The following are the lineups of the teams:

New Westminster—Goal, Gray; Galbraith, T. Gifford, Marshall, H. Gifford, Marshall, taoin shrdlu shrdluuuu ford, Rennie, C. Spring, W. Turnbull, Wintemute, Feeney, L. Turnbull, G. Spring.

Vancouver—Goal, Clark; Griffith, Howard, Godfrey, Pickering, Springer, West, Hennessey, Allen, Cowan, Sumner, Adamson.

Referee—W. E. Ditchburn, of Victoria.

## INTERIOR TOWNS SUPPORT WESTMINSTER CHAMPIONS

Fred Lynch Finds Much Interest Taken in Coast Lacrosse by Smaller B. C. Towns.

F. J. Lynch, proprietor of the Beaver cigar factory, is back in the city after an extensive business tour all over the interior of British Columbia and a short distance into Alberta. He traveled the main line of the C.P.R. and also "did" the Crow's Nest line. It was business all the time and the factory will have to keep working to supply the orders he booked.

Mr. Lynch would have made his trip last a little longer, but he could not miss the great lacrosse game in Vancouver today and so he returned. He states that there is considerable interest taken in the game in the interior and the fans follow the results of the Vancouver-New Westminster matches with almost as much interest as they do here. The interior towns are great supporters of New Westminster. This may partly be accounted for by sympathy for the smaller city, but is undoubtedly caused in a large measure by the disapproval of Vancouver's action in importing half Eastern Canada.

Mr. Lynch was in Kamloops when one game was played here and in Vernon when another was in progress, and in both places the results of the games were received in quarters and bulletined in the hotels and newspaper offices. The followers of the game in the interior are all confident that New Westminster can hold a little more than her own against both Vancouver and Montreal.

### INTERMEDIATE LACROSSE IN NORTH VANCOUVER TODAY

The intermediate lacrosse club will go to North Vancouver this afternoon to play that city a friendly game. North Vancouver is said to have a strong team this year and it will be interesting to see how the game comes out as the "City With a Future" is not represented in any league. The gate receipts will be divided between the two teams.

### MONEY PAID FOR THE MINES BACK IN C.N.R.

Toronto, June 30.—Hon. James Dunsmuir, who sold his great Vancouver Island coal mines to the Canadian Collieries company, in which Messrs. Mackenzie & Mann, are, of course, the principals, has just purchased six million dollars of the guaranteed bonds of the Canadian Northern Railway company.

It is understood that Mr. Dunsmuir received cash for his mine, and that in reinvesting these funds he used six million for the purchase of the three and a half per cent Canadian Northern bonds.

### CHANCE FOR KITCHENER.

London, June 30.—The Daily Telegraph hears that Sir Eldon Gorst, British agent at Cairo, will become ambassador at Constantinople, from which city Sir G. A. Lowther will go to St. Petersburg to replace Sir A. Nicholson, who has just been appointed permanent under-secretary of the foreign office.

This, says the Telegraph, should open the way for the appointment of Lord Kitchener as British agent at Cairo.

### Rumor Not Confirmed.

Washington, June 30.—The state department refuses to confirm the rumor that the United States is contesting Canada's sovereignty over portions of the Arctic territory. This is a matter which probably will be before the court at The Hague, and in the meantime officials here do not desire to discuss it.

### Dr. Sutherland Is Dead.

Toronto, June 30.—Rev. Dr. Alex. Sutherland, missionary secretary of the Methodist church in Canada. died this afternoon, aged seventy-seven.

**This Sale is Now in effect and Will Last through the Month of July.**

# The Truth About Shoe Conditions

The Spring Season has been, to say the least, decidedly disappointing. The cold rainy weather has certainly put a damper on the sale of Summer Shoes, such as Oxford ties in Tans and Suedes, Canvas goods and all Summer Footwear. We optimistically assembled the greatest spring stock of boots and shoes in our history. Thousands of pairs of Summer Shoes on our shelves that should be giving good service to the wearer's feet.

## TODAY WE ARE OVERLOADED

Of course. we could carry this surplus over into next season, but such an action would be in direct opposition to our firmly established policy; so we have taken the only steps possible to

## Force Business At Once by Making Our August Reductions Now

Think a moment---understand us fully. The reductions that we usually make in August, our regular month of clearance, when stocks are depleted, go into effect **RIGHT NOW** on our entire big stock. Instead of a Clearance Sale of the odds and ends of after stock-taking time, you have the choice and selections of complete lines. In short, we are presenting shoes so desirably new and fine, and at prices so irresistably attractive, that in deference to your own good common sense you simply cannot pass up the opportunity.

## 6,000 PAIRS OF SHOES

Over 175 pairs a day must be sold before stock-taking, August 1st. They will be sold, for prices will be no object during the Great Reduction Sale.

## DR JOHN REID PASSES HIS EIGHTIETH MILESTONE

Honored Pastor, Formerly of This City Is Recipient of General Congratulations.

Victoria, June 30.—Rev. John Reid, sr., for many years a resident of Victoria, in fact, one of the city's earliest pioneers, celebrated his eightieth birthday yesterday. His many friends, many of whom had learned of the occasion, called and submitted their heartiest congratulations. During his active ministry in Victoria, and since he has retired, the Rev. Mr. Reid has popularized himself by the prominent part he has taken in philanthropic and charitable works, but perhaps even more than in this way his influence has been felt in his kindly and unobtrusive labor for the betterment of his fellow men. Thus, among his wide circle of acquaintances, as well as by his nearer friends, the reverend gentleman is beloved, and all united in extending him sincere and heartfelt well-wishes.

It was in Kilmarnock (June 27, 1830) that Rev. Mr. Reid was reared and received his early training and preparatory education in the schools of that towns, prior to going to Glasgow, where he was trained for the ministry under the learned Principal Morrison and Prof. John Guthrie, D.D., of the E. U. Theological college, Glasgow. He was ordained in 1849 at Cambuslang, and ministered in the Congregational church there, the father of Dr. David Livingstone being a worshipper in the congregation.

From Cambuslang he went to Avon Bridge, where he remained over two years. From there he was called to Jedburgh, where he stayed some two years, where he was specially blessed in evangelistic efforts. While he was at Jedburgh a call was received to Dumbarton. Thence he was called to Cathrine, Ayrshire, his native county, where he spent five very successful years. In 1860 he received a call to the Troutbeck Congregational church, Windermere, built by the saintly R. M. Somervell.

During his ministry there he was brought into touch with the brightest minds of both Europe and America, the Lake District of England being a favorite resort for professional men seeking rest and recreation. Among some of his warm friends at this time may be mentioned, Drs. Guthrie, Edinburgh; Binney, London; Parker, London; Raffles, Liverpool; Matrin, London; Spurgeon, London; Sir Francis Crossley, M.P., Halifax, and the noble hearted William Carver, of the city of Manchester.

In 1867 he received a unanimous call to the Manchester road Congregational church, of Burnley, Lancashire, at which place he was twelve years in all, when failing health necessitated his resignation, and at the suggestion of his friends he came to the Pacific coast, commencing his ministry in reorganizing the First Presbyterian church, Victoria, where he remained for nearly six years.

In 1880 he spent six months in San Francisco, supplying the First Congregational church on leave of absence, and assisting at Moody's meetings, etc.

In 1881 he returned to England to his former charge in Burnley for over four years. On his return to British Columbia he became assistant to Bishop Cridge, of the Reformed Episcopal church in Victoria and New Westminster. He is now retired.

### WESTERN HUSTLE.

Prince Albert, June 30.—A good example of western hustle here was seen yesterday when a deal was closed whereby the Starland theatre will open in Prince Albert in a few weeks. The representatives arrived at 10:30 and the deal was closed, the contract for excavation for the new building was let and teams were at work by 1:30 on the excavation. The building will be three stories, 30 x 132 feet.

## EXPLORER WAS AWAY FOR OVER TWO YEARS

Spent Long Time on Desert Island, Returning By Way of Melbourne.

A hardy young explorer, M. Rallier du Baty, who accompanied Dr. Charcot on his previous Antarctic expedition, has just returned from an adventurous voyage, to which he and his brother Henri devoted the whole of their small fortunes.

Two and a half years ago they purchased a Boulonge fishing boat, fifty-five feet in length, renamed her the J. B. Charcot, and having fitted her out with the aid of some private friends, set sail with a crew of four other young companions for the desert island of Kerguelen, in the south of the Indian ocean.

In the forty-ton fishing boat they have successfully completed a voyage of 15,000 miles.

After a fine outward trip as far as Rio de Janeiro they encountered a terrible cyclone between that port and the island of Triston d'Acunha, which was reached in twenty days from Rio. There they found a population of eighty-three souls, which they describe as half-civilized and as of English origin.

From Tristan d'Acunha to Kerguelen took another month's sailing. The little boat was buffeted by heavy storms off the Cape, but the desert isle was safely reached in March, 1903. Fifteen months were spent in exploring the island, making scientific observations and hunting seals.

In November the monotonous life was varied by the arrival of a Norwegian steamer, which, besides bringing news of the outside world, left welcome supplies of tobacco, coffee and other comforts. The only other vessel that visited the island during their prolonged stay was a French sealer.

In June last year the party started for Australia. They had a terrible passage of fortyfive days, during which time one storm after another was encountered and several times all hope was abandoned. It was only by throwing out oil that the boat was kept afloat.

Melbourne was reached after two years' absence from civilization. The sale of the seal oil collected sufficed to pay the small crew's wages, but for a long time all efforts to sell the now sadly deteriorated fishing boat proved unavailing.

The young explorer was six months in Melborne before he managed to dispose of the craft to a Numean captain for a "handful of gold." This, he says, was his ransom and with a heart rather heavy at parting with the vessel that had safely carried him over 15,000 miles of ocean he took the passenger steamer from which he has just landed at Marseilles.

He will report on his voyage and observations to the Academy and the Geographical society.

### HUSBAND KEPT HIS WIFE'S SKELETON IN CUPBOARD

Vienna, June 30.—An extraordinary instance of a husband's devotion to his wife's memory has just been revealed at Bukharest.

An inventory of property left by Miklos Denner, a merchant was being made, when the skeleton of a woman was discovered locked up in a cupboard. It was at first thought that a murder had been committed, but inquiry showed that the skeleton was that of Denner's wife, who died a natural death ten years ago, and was buried in the ordinary way.

The husband was inconsolable till he secretly exhumed his wife's remains, and hid the skeleton in the cupboard, which always stood in his bedroom.

The skeleton is to be reinterred in Denner's grave.

### DOMINION LANDS RAILWAY BELT BRITISH COLUMBIA.

Coast Division.

Surveyed agricultural Dominion Lands in the Railway Belt not reserved or withheld from entry and not disposed of or occupied, are open to entry under the provisions of the British Columbia Dominion Land regulations.

In the Coast Division of the Railway Belt any male person over eighteen years of age and otherwise eligible, may obtain under entries as homestead and pre-emption, a legal subdivision of forty acres of Bench Land. Residence is required for at least six months in each of five years. Total cultivation required to earn patent for a twenty acre homestead, ten acres cleared and six cultivated, and if the remaining twenty acres is pre-empted by the homesteader, an additional ten acres cleared and six cultivated either on the homestead or pre-emption,, no additional residence for the pre-emption. Price of pre-emption, five dollars per acre, payable in five installments with interest.

Conditional purchase entries may be obtained for twenty acres of Bench Land by a male over eighteen and otherwise eligible and not holding homestead or pre-emption. Residence required only for six months during the fifth year but cultivation duties increased. Price, ten dollars per acre, five installments.

Bench Lands in this division are lands below twenty-five hundred (2,500) feet above sea level. Uplands are lands above that altitude and are subject only to disposition by quarter sections under homestead entry or grazing lease to settlers. Flooded lands may be reserved for hay purposes or leased to settlers by legal subdivisions.

Entree fee for homestead, pre-emption and conditional purchase is ten dollars for each entry. After securing patent in connection with the land first entered for, tne settler may secure another entry and so on, but not for more than a total of one hundred and sixty acres.

Entries under the British Columbia Dominion Land Regulations, effective on the 2nd July, 1910, may on and after that date be made for lands then open to entry. Any lands withdrawn from timber berths, as well as newly surveyed lands, will before becoming available for entry require advertisement for thirty days. "Surveyed" Lands for the purpose of entry means legal subdivisions abutting on a surveyed line. or, in case of Uplands, quarter sections abutting on a surveyed line.

For further information apply to the Dominion Land Office, New Westminster, B. C.

P. G. KEYES,
Secretary.

### District of New Westminster. New Westminster Land District.

Take notice that I, John Beckett, of Abbotsford, B.C., lumberman, intend to apply to the Chief Commissioner of Lands at Victoria, B.C., for a license to prospect for coal and petroleum on and in the following described lands:

Commencing at a post marked J. B., S. E. corner, planted at the S. E. corner of Section 31, in Township 19, Municipality of Sumas, New Westminster District; thence north 80 chains; thence west 80 chains; thence south 80 chains; thence east 80 chains to point of commencement and containing 640 acres.

Dated at Abbotsford, B.C., this 9th day of June, A.D., 1910.

JOHN BECKETT.

### District of New Westminster. New Westminster Land District.

Take notice that I, T. Walters, of Abbotsford, B.C., engineer, intend to apply to the Chief Commissioner of Lands at Victoria, B.C., for a license to prospect for coal and petroleum on and in the following described lands:

Commencing at a post marked T. W., S. W. corner, planted at the S. W. corner of Section 32, in Township 19, Municipality of Sumas, New Westminster District; thence north 80 chains; thence east 80 chains; thence south 80 chains; thence west 80 chains to point of commencement and containing 640 acres.

Dated at Abbotsford, B.C., this 9th day of June, A.D., 1910.

T. WALTERS.

### CITY OF NEW WESTMINSTER.

Notice to Contractors—Tenders for Laying Water Main:

Tenders will be received by the undersigned for the laying and jointing of about fourteen (14) miles of 25-inch Steel Rivetted pipe and about 8,000 feet each of 12-inch and 13-inch Lap-welded Steel pipe. The tender includes hauling the pipes, fixing of all valves and specials, construction of bridges, culverts, etc. Plans, profiles, specifications, conditions of contract and further information may be obtained from the City and Waterworks Engineer, J. W. B. Blackman, on receipt of a marked cheque, value $50, which will be returned on receipt of a bona fide tender. A marked cheque for five per cent of the amount must accompany each tender.

Tenders will be received up to 5 p.m. of June 27, 1910. The lowest or any tender not necessarily accepted.

W. A. DUNCAN,
City Clerk.

City Hall, New Westminster, June 8, 1910.

The time for receiving tenders for above has been extended to Monday, July 4, at 5 p.m.

W. A. DUNCAN,
City Clerk.

The family of the late Mrs. Shaw, of Coquitlam, wish to express their gratitude for the kindness and sympathy extended by the many friends in their recent bereavement.

### TOWN OF MESSINA IS SLOWLY BEING REBUILT

Messina, June 30.—While the rehabitation of Messina proceeds very slowly the "Regina Elenatown," on the mountain side overlooking the old city, gives the impression of a prosperous, well regulated American villa colony. It is a spotless town in the best sense of the word, and no one is permitted to live there who doesn't bind himself to observe the most stringent sanitary rules. Persons wishing to acquire property must bind themselves to garnish the balcony of the little house placed at his disposal with flower beds and to have fresh curtains at the windows. Among the inhabitants are 700 couples who married shortly after the earthquake and received as a wedding gift $60 from the Queen.

The re-building of the old town has begun, but not a single, house more than thirty-feet in height is permitted and all must be so constructed as to be able to withstand earthquakes. The streets are to be broadened, none to be less than sixty-feet. There are now about 60,000 people in Messina, one-half of whom live in barracks. There will be no rent collected until January of next year and no taxes. Twelve public schools are operated and there are twenty-six miles of water pipe.

### IMPERIAL LEAGUE FORMED TO SOLVE LABOR SHORTAGE

To promote the emigration of deserving Britishers to Canada, and to arrange for the founding of towns in this province named after those in the Midlands of England, an Imperial league has been formed in Great Britain under the honorary presidency of Joseph Chamberlain. Norton Griffiths, M.P., the president, and one of the principal promoters of the scheme, and others associated with him have taken up a large tract of land on the line of the Grand Trunk Pacific railway on which the proposed immigrants, many of whom will be adapted to farming, will settle.

During a recent visit made to the Old Country, Graham Forester, of Victoria, identified himself with the league in question and has been made its representative in British Columbia. Mr. Forester in his new capacity is now in a position to supply any contractor with skilled and unskilled labor drawn from residents of the British Isles. As well as arranging for the despatch of emigrants to this province and other parts of Canada, the new Imperial league will attract the attention of British capitalists and manufacturers to this portion of the Dominion. In effect, the motto of the new organization is "The British Empire for the British Race."

### Ulsterking Is Winner.

London, June 30.—In the Prince of Wales' stakes, run here today, Ulsterking captured first place.

If you want something Choice for Sunday's Dinner, ring up Phone 101 and order a nice roast of Spring Lamb, Veal, Spring Chicken or anything else that is good in the meat line. You can sure get it at

**F. J. HART & CO., Ltd.**

**ONLY TWO WEEKS**

**Before We Must Make Way for the Contractors**

By July 15 we expect to have the builders forcing us out of the Millinery and House-furnishing Sections.

Everyone will find in this great Alteration Sale things they are needing now at far below what they will pay when this sale has come to an end. Only an urgent demand for clearance, and a progressive spirit which calls it better policy to cut prices now when stocks are fresh than later when dirt and dust have done their worst makes possible such sterling reductions on the best of merchandise.

***Fine Lisle Hose 35c Per Pair***
