COAL STRIKE IN WALES.

o Hundred Thousand Miners Will Go Out on March 31.

ardiff, March 21.—The prolonged otiations over the new wage eement between the South Wales l mine owners and the miners e been broken off and a strike of ,000 miners is regarded as inevit-e on March 31. This strike will ect altogether 1,000,000 workers, in-ding railway and dock employees d others dependent upon the col-ries.

Dominion Fisheries Inspector C. B. ord, who has been indisposed for me time, is now under treatment at e Royal Columbian hospital.

The B. C. E. R. has notified the ty that all material for track work Columbia street had arrived and at there should be no further delay.

Dick Sawyers, the well known foot-all player who has been laid up in e Royal Columbian hospital for the ast month, left that institution yes-erday, almost completely recovered.

A reward of $50 will be offered by e city council for information lead-g to the conviction of persons who, n Saturday or Sunday, March 12 or 3, destroyed some trees in front of e residence of Harry Major on Blackwood street.

Special services in support of the . M. C. A. movement will be reached in every Protestant church n the city on Sunday next, a majority f the pulpits being occupied by out-ide pastors. The canvass for the 30,000 building fund will commence n the following day, and will last or four or five days. C. R. Sayer, estern secretary of the Y. M. C. A., rrived in the city yesterday to com-lete the plans for the scheme.

SUPERINTENDENT STOTT TENDERS HIS RESIGNATION

Head of Water Department Will Leave Employ of City After Nineteen Years' Service.

After nineteen years' service in the water works department of the city of New Westminster, Superintendent W. Stott has handed in his resignation, to take effect on April 1. At last night's meeting of the council the resignation was read and accepted.

In losing Mr. Stott the city is deprived of one of its most reliable and faithful servants. Ever since the present waterworks system was started here Mr. Stott has been connected with it. He helped to lay the first main ever put down in the city and assisted, in 1892, in laying the first line to Lulu island. He knows the system from start to finish and can tell almost exactly from memory how many feet of water pipe there is under almost any street. When the system was first started there were only a few hundred subscribers, and now the consumers are numbered in the thousands.

No successor has yet been appointed. Mr. Stott has not announced his plans for the future.

FIREMEN'S STRIKE PROBABLY AVERTED

Amicable Settlement is in View—Wage Question to be Arbitrated.

Chicago, March 21.—All questions of dispute between 27,000 firemen on western roads and the railroad managers will be amicably settled, according to an arrangement reached today through the aid of United States Labor Commissioner Neill. It was agreed by W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers and a committee representing the men, and the general managers' committee representing the forty-seven railroads involved, to settle the controversy in the following manner:

"The question of seniority or the promotion of old time firemen over new men, and the question of representation by the union of firemen who have been promoted to be enginemen are to be compromised before any arbitration is attempted. The demand of the men for an increase in wages, of 12 1-2 per cent., is then to be submitted to arbitration under the Erdman act." In previous negotiations the railroads had agreed to arbitrate the wage question, but had declined to arbitrate the other two points on the ground that they were points of discipline and authority alone.

It is learned that both sides were brought to an agreement compromise through the insistence of Commissioner Neill that something had to be done quickly.

Mr. Neill declared that unless action was taken within twenty-four hours he would return to Washington.

The general managers tonight issued this statement: "A settlement of the whole matter will probably be made tomorrow which will be satisfactory to both sides."

Mr. Carter had no comments to make.

Billiard Championship Tonight.

This is the night that the Vancouver billiard players will play the first game with the local men for the Chamberlin cup. There will be five games of 200 points played, and there will be surely some good billiards. Manager Fletcher has announced that any ladies attending the match will be welcome and a certain part of the hall will be reserved for them.

SUMMER RESIDENCE BRINGS RECORD PRICE IN BURNABY

F. J. Hart sold his summer residence at Burnaby yesterday afternoon, consisting of a house and thirty-eight acres, for $65,000. The price is a record one for this district, and shows how rapidly values are rising. The property faces the Hastings road, near Deer lake.

Record Price for Waterfrontage.

F. J. Hart & Co., Ltd., also sold 1100 feet of waterfront above the Fraser river bridge for $100 per foot. It is almost adjoining the C. N. R. property and is three and three-fourth acres in extent and situated in part of sections 5 and 8. There is only a small waterfront separating it from that owned by the C. N. R. Though the vendor refused to give the name of the buyer, he stated that he had not bought it to turn over again, but that he had a business proposition and the deep water by which it was fronted was necessary to his business.

Five Year Bonds Sell Well.

London, March 21.—The application for the $105,000,000 of five year exchequer bands were so good that the lists were closed this morning instead of on Wednesday. The bonds were quoted at a fractional premium on the stock exchange.

GOVERNMENT PASSES PLANS OF POWER CO.

Coquitlam Lake Dam to be Raised — Westminster's Objections Overruled

It is stated that the Dominion government has authorized the plans of the Vancouver Power company for its hydraulic plant at Coquitlam lake.

For some time past negotiations have been under way for the improvement of the hydraulic plant of the B. C. electric at both Coquitlam and Buntzen lakes. The provincial government approved the plans and work was commenced, but the Dominion government interfered on the ground that the work was being carried on within the railway belt.

F. R. Glover went to Ottawa some time ago to conduct the necessary negotiations and returned on Saturday with the news that the matter had gone through satisfactorily.

The Vancouver Power company intends erecting a dam eighty-five feet high at the outlet of the Coquitlam, thus raising the water by sixty feet; the size of the tunnel connecting the two lakes will also be doubled. The completion of these undertakings will take about two years.

In order to carry them out the government has agreed to sell to the power company seventy-five acres of land at the Lake Coquitlam portal of the hydraulic tunnel and 3956 acres of land about Lake Coquitlam, covering the area which will be flooded when the level of the lake is raised by the new dam.

As soon as the work is completed the company will install an electrical unit at the Buntzen generating station of 20,000 horsepower. This will raise the energy sent from the point to over 50,000 horsepower, four units of 3000 horsepower each, and two units of approximately 10,000 horsepower each being now in service.

The objections raised by this city when the matter first came up for consideration, were that it already had powers granted it which the power company were seeking, and that their work would interfere with the water system of the city. These have apparently been overruled, the first on the grounds that the city had not perfected its claim for the rights on the Coquitlam, and the second on the grounds that the water supply of New Westminster will be thoroughly protected.

No official intimation of the government's action has been received in this city to date.

TAFT'S FRIENDLY MESSAGE ON TARIFF TO CANADA

Toronto, March 21.—Following the tariff conference between President Taft, Governor-General Earl Grey, and Minister of Finance Fielding, President Taft, through Dr. J. H. MacDonald, editor of the Toronto Globe, has sent a massage to Canada.

"Say to the people of Canada," said Taft to MacDonald, "that my most sincere desire is that not only the present unforeseen difficulty, but that all other difficulties between Canada and the United States be settled with justice to both and in a spirit of friendship and generosity.

"Assure the people of Canada that if it were only a matter of business, and on a question of interpreting the statutes, I would have had no trouble in proclaiming Canada as having the right to our minimum tariff. I have seen too much of Canadian people, hold too high an appreciation of Canada's worth, and am too profoundly in sympathy with Canada's inspirations as a part of the British Empire to haggle over the mere advantages and disadvantages of international trade.

"The difficulty has been interpreting a statute which has never before been interpreted. After a conference with Hon. Mr. Fielding I am hopeful of finding a solution which will have regard for my judicial responsibilities as president and also serve trade interests in both great countries."

This message was given MacDonald in recognition of his efforts to create an understanding between business interests of the two countries.

Forestry Graduates for R. R. Company

Toronto, March 21.—The Pennsylvania Railway company has applied to Prof. Fernow, dean of forestry, toronto university, for two graduates, as it is using considerable student assistance in its huge forestry branches.

Papal Delegate in Ignorance.

Ottawa, March 21. — Monsignor Sbarreti, papal delegate, knows nothing of the report that Canon Gauther, of that city is to succeed the late Monsignor Duhamel as Archbishop of Ottawa.

Will Distribute Big Surplus.

Chicago, March 21.—At a special meeting of the stockholders of the Pullman company here today, the issuance of $20,000,000 new stock, against accumulated surplus to be distributed gratis among stockholders on April 30, was approved .

King Edward Recovers.

Biarritz, March 21.—King Edward has completely recovered from his cold and today resumed his usual outdoor excursions.

CANADA-U. S. TRADE TO BE VIA ENGLAND

Tariff War Between Countries Would be of Benefit to Great Britain

London, March 21.—Newspapers here are devoting much space to telegrams describing the progress of the tariff negotiations between the United States and Canada. The hope is universally expressed that a war of retaliation will be averted, but it is a mere expression of nope, as it is believed here that neither Canada nor the United States will compromise.

The Nation says: "What will happen if wasteful, stupid hostilities commence, will be that the trade between Canada and the United States will be largely done through Great Britain, which will be the entrepot of shop in which they will buy one another's products, our merchants and shippers taking their toll. This is more profitable than colonial preference."

The Saturday Review, commenting on the tariff relations between Canada and the United States, says the American commissioners brought nothing back from Ottawa. Canada will make no concessions in return for the minimum rates of the Payne-Aldrich tariff. That the United States commissioners should have gone at all is a triumph for Canada. Time was when the pilgrimage was the other way, and 't was Ottawa that begged Washington. Now, thanks to her tariff, that time has passed. Canada has pulled through, and it is Washington's turn to beg. A prolonged tariff war is too serious a thing to contemplate. The interests involved are too great, and the results would reach too far. There is only one possible end, Canada must and will stand up well to the Americans. Her history is a good guarantee that she will do so, and her strong commercial position in relation to her opponent makes it plain that she will be comparatively successful. Canada will make no concession without return, and, if war is declared, she will not be first to call for peace.

Washington, March 21.—Members of the house of representatives whose districts are along the Canadian boundary line were in receipt of numerous telegrams from United States merchants urging them to do all in their power to prevent the imposition of maximum rates upon Canadian products.

Nearly every lumber dealer in Buffalo signed a telegram which reached the house today protesting against the establishment of the maximum rates on Canadian lumber, saying it would result in Canadian red wood being barred from entry, "with fatal results to the business interests and exorbitant prices to consumers."

Representatives Driscoll, Alexander, Vreeland, and nearly all the New York members, have received numerous dispatches. Michigan, Wisconsin and Minnesota also appear to be stirred up.

THINK FREAK HORSE PART COW, PART DEER

Ottawa, March 21.—At the village of Buckingham, on the Quebec side of the Ottawa river, a few miles from this city, is a horse, if such it can be called, that is only a third part horse, the other two parts being equally between cow and deer.

As a freak the animal probably has no equal. The normal parts are its head, eyes, teeth and one hind leg.

Its backbone is not in its center, but runs along the side of its back.

One side of the stomach is that of a deer, perfectly formed, with the fine close-set ribs and delicately curved body, while the other side resembles that of a cow, very full, with big rough ribs and the hide much rougher than on the other side.

THIRTY-TWO FISHERMEN ARE LOST IN STORM

Lisbon, March 21.—Four fishing boats, carrying thirty-two men, were lost today along the Portuguese coast.

Life-savers stationed along the coast have been attempting to render aid to the survivors, but it is believed that the task is hopeless. The storm has caused considerable property damage.

Hook Worm Gets Samoans.

Page Pago, Samoa, Feb. 7, via San Francisco, March 21.—Fifty-one per cent of the natives of American Samoa are suffering from hook worm, according to Medical Officer P. H. Rossiter.

Peruvian Legation Withdrawn.

Santiago, Chile, March 21.—The Peruvian government today notified the government of Chile of the withdrawal of the Peruvian legation at Santiago because of the recent expulsion of Peruvian priests from the provinces of Tacna and Arica.

Fernie Elects Mayor.

Fernie, March 21.—The delayed municipal elections took place Saturday and created a considerable amount of interest, owing to the number of candidates in the field. Sherwood Herchmer, the present mayor, was again chosen chief magistrate of the city, defeating J. L. Gates, his opponent, by forty votes. The aldermen elected were as follows: Patrick Kennedy, L. E. McDonald, Thomas Beck, W. J. J. Morrison, Francis White and G. F. Johnson.

HEAD TAX COLLECTED ON CHINESE PRISONER

Owner of Ship Forced to Pay $500 When Oriental Is Taken Ashore to Be Sent to Penitentiary.

Prince Rupert, March 21.—Ah Wey, the Chinese sailor on board the Cape Breton, arrested for slashing a fireman with an axe and almost severing his right hand, was sentenced by Judge Young to serve three years at hard labor in the penitentiary at New Westminster, and went south in charge of Constable Leek. The other Chinese sailors were let off with a warning.

Collector MacDonald, of the Canadian customs, who has had deputies patrolling the dock since the arrival of the Cape Breton, to see that no Orientals came ashore, at once demanded $500 as head tax from the ship when Ah Wey was brought ashore and lodged in jail.

Captain Warden strenuously objected to paying the fine under the circumstances and Ottawa was appealed to by telegraph, asking for a remission; however, Collector MacDonald's ruling was sustained by the department and the money had to be deposited before a clearance for the Cape Breton could be obtained.

Ah Wey is expected to arrive at the penitentiary today to commence his three-year term.

STOPPAGE OF WORK ON C. N. R. DEPOT

Mayor Lee in Communication With Victoria. Excavation Not for Depot.

With regard to the cessation of work on the excavating by the G. N. railway into the bank below Columbia street, Mayor Lee has written to the provincial government to know the exact reason the work was stopped, and expects an answer any day.

Seen by a Daily News representative, Mayor Lee said, when asked if he knew the reason why the work for the depot was stopped, that the excavating was not taking place where the depot was to be situated, but some distance east of it, and was being done with a view to making a platform and siding.

The city could not interfere with the matter, as the property was leased to the government for ninety-nine years, on condition that they allowed no encroichments on Columbia street, and if the city interfered it would probably result in breaking the lease.

KING AND CZAR TO MEET IN COPENHAGEN

Copenhagen, March 21.—It is now settled that a meeting shall take place between the king of England and the tsar of Russia during the current year. According to present arrangements, this meeting will take place at the queen's villa, on the banks of the Sound, near Copenhagen, during the month of August.

The meeting will be an entirely private one, but it is understood that matters of common interest to the two countries, particularly in Russia, will be discussed by the two monarchs.

This meeting was sought by the tsar, who suggested that King Edward should take another yachting trip to Russian waters.

STATE FISH COMMISSIONER TO VISIT TROUT HATCHERIES

Bellingham, March 21.—John L. Riseland, state fish commissioner, has gone to eastern Washington to visit the state brook trout hatcheries and attend to the work of releasing eastern brook trout in the streams of several counties. On his return he will complete preparations for the trip up the Columbia river with the fisheries officials of Oregon for the purpose of making the preliminary survey for a boundary between the two states.

Lacrosse in Nanaimo.

Nanaimo, March 21.—With the old players of last year's lacrosse team, and the new players in town, there is no reason why Nanaimo should not have one of the fastest intermediate teams in the province. As the boys intend asking for admission to the intermediate league with New Westminster, Vancouver and Victoria, making it a four-cornered race, for the Pacific coast championship, all members will have to unite and pull in the same direction.

Hook Worm in Chenago County.

Utica, N. Y., March 21.—The hook worm has been discovered in Chenago county. The victim is a native of the south, who recently moved to Afton from Alabama. When taken sick he was operated on for appendicitis. His appendix was found to be in good condition but suspicious looking worms were removed from the intestinal tract. They were sent to Binghampton for examination and were promptly pronounced by the bacteriologists as hook worms.

NEWSPAPERS SEEK CHEAPER WIRE RATES

Railway Commission Hears Grievances of Editors Representing all Canada

Ottawa, March 21.—Representatives of newspapers from the Atlantic to the Pacific were before the railway commission today in regard to the question of telegraph rates in news despatches by which, according to the tariff filed with the railway commission, matter is based on a net rate which eastern publishers have taken exception to on the ground that they do away with the flat rates which have existed in the past.

The newspaper representatives included J. Ross Robertson, Toronto Telegram; J. E. Atkinson, Toronto Star; Stewart Lyon, Toronto Globe; C. Gordon Smith, Montreal Witness; B. A. Macnab, Montreal Star; P. D. Ross, Ottawa Journal; Norman Smith, Ottawa Free Press; M. E. Nichols, Winnipeg Telegram; E. H. Macklin, Winnipeg Free Press; W. F. Kerr, Regina Leader, M. R. Jennings, Edmonton Bulletin; R. L. Hill, Vancouver World; F. M. Ralston, Fort William Herald. The C. P. R. Telegraph company was represented by James Kent, manager; W. J. Camp, electrical engineer, and W. H. Beatty, counsel. The Canadian Northern Telegraph company was represented by F. H. Phippen, Winnipeg.

Mr. Beatty, on behalf of the Canadian Pacific railway, argued that in the past telegraph companies had been free to make such contracts as they desired. If it was now proposed to put rates on a scientific basis, it should be a basis in which there should be profit for the companies.

George Henderson, K. C., on behalf of the eastern publishers, said he could find nothing in the ruling of the board respecting the Western Associated Press which would apply to the east, because there was but one press association.

Chairman Maybee said that under the railway act it might not be possible to allow flat rates. Mr. Phippen argued that there was nothing in the railway act to justify flat rates.

After some further discussion it was, at the instance of the commission, decided that the newspaper men who came from Ottawa should discuss the rate matter and show cause why tariff rates should not rule east of Fort William.

Chairman Maybee stated that while the arrangement was not yet clear in his mind, he thought it would be possible to put matters on such a basis that newspapers would only pay for what they used of Associated Press despatches.

LIPS ARE SEALED ON TARIFF SITUATION

Ottawa, March 21. — Hon. W. S. Fielding, minister of finance, returned from Albany this morning but said his lips were sealed as to the result of his conference with President Taft. An agreement was made at Albany that nothing should be said at the present time, and in view of this it is likely a simultaneous announcement will be made here and at Washington. Regarding the Albany report, that he might be in Washington at the end of the month, Mr. Fielding had nothing to say.

LORDS PASS FIRST PART OF ROSEBERY'S RESOLUTION

London, March 21.—The lords today unanimously passed the first part of Lord Rosebery's resolution, declaring that a strong efficient second chamber was necessary for the well being of the state. The adoption of this is construed by many as a challenge to the government and indicative of the lord's refusal to submit to any limitation of their powers.

FRANCE'S NEGOTIATIONS.

Tariff Arrangements With the United States Seems Likely.

Paris, March, 20.—The French cabinet devoted all of today's session to a consideration of the Franco-American tariff negotiations. Subsequently a semi-official note was given out, which read: "The status of the tariff negotiations with the United States affords the hope that a satisfactory agreement will be reached."

Nothing more definite was forthcoming today, despite the fact that President Taft is quoted here as having announced last night that a complete agreement had been reached, and that he would today sign a proclamation giving France the favored rates as provided in the Payne-Aldrich law.

BIG WATERFRONT SALE.

Although many large deals in waterfrontage have been made in and around New Westminster lately, there are not many that have eclipsed the sale made by E. J. Fader yesterday. One mile of waterfront on Annacis Island was sold to a Vancouver syndicate for a sum in the neighborhood of $100,000. The property consists of about 180 acres. Mr. Fader is not at liberty to divulge at present the names of the purchasers.

ALIEN GARCONS TO GIVE PLACE TO ENGLISH WAITERS

Britishers Form Society With Object of Training Natives Who Will Equal Foreigners in Art of Waiting.

London, March 20.—The supremacy of the alien waiter is threatened by a new institution entitled the Loyal British Waiters' society, which is making a determined attempt to depose the foreigners and reinstate the British waiter.

In London alone as many as 130,000 foreign waiters are employed, said Sir William Serjeant, in a recent interview. This is due to the fact that up to the present the French, the Italian and the German have proved that they are better suited to this class of work.

"They are better trained as waiters. They are cheaper, and they find it is more profitable to seek work here than in their own country.

"When we hear of the daily increase in the unemployed the great number of foreigners employed in this capacity over here is deplorable. The object of the society is to provide temporary or permanent employment for British-born waiters who are reliable and loyal and whom the society can recommend with confidence to employers.

"To this end," he added," the society has instituted a school of instruction at the Surrey restaurant, in Surrey street, Strand, where a large number of men will be taught those essentials which will gain for them the confidence of hotel proprietors. The chief faults that employers find with English waiters are that they are uncivil, clumsy and not nearly so quick as their alien rivals.

"At the school the teachers will endeavor to overcome those faults and to inculcate a correct conception of duty towards employers. We are already assured of the co-operation of employers, who would be only too willing to give preference to Englishmen if they were convinced of their suitability."

WOMAN LIES FOR FOUR MONTHS UNCONSCIOUS

Boise, Idaho, March 20.—For four months the wife of Chief Justice George G. Stewart, of Idaho, has lain in a state of unconsciousness suffering from a disease which has baffled the medical fraternity of Boise, Portland, Spokane, Salt Lake and eastern cities.

Mrs. Stewart suddenly swooned late during last fall while at a reception. She was hurried to a hospital and every effort was made to revive her but without effect. This condition prevailed for several weeks until one day her eyes opened. Recently she has been able to make unintelligible sounds.

THE TORY DEBACLE.

It is evident that the one thing in connection with the Lumsden enquiry which the conservative party dreads is that it should be proved that their cry of scandal was utterly baseless and unfounded. They had hoped to work up quite a merry list of sensational revelations in connection with this affair. But, alas! they reckoned without their host. At the outset Mr. Lumsden himself cut away the ground from under their feet. His statement showed for one thing that the engineers of whose classification he had complained were under his own jurisdiction and could be dismissed by him if he considered them unfit or failing in their duty; for another, that if there has been over-classification there is ample means of remedying it, and the remedy is now being applied by the Arbitration Board; and yet again, that if the contractors were overpaid on these classifications there is ample means of recovering from them.

Arrived at this pass the tory members of the committee had to do something to escape the ridicule which would certainly fall upon them. They therefore concocted a wonderful scheme. This was to raise a new bogey anent the non-representation of Mr. Lumsden by counsel.

Mr. Lumsden said he did not desire any counsel, although the government was willing to bear the expense of the same. The opposition members on the committee tried in vain to influence him and compel him to have counsel against his will. Then they wanted a counsel to act on behalf of the people, a counsel to be appointed, not by the liberals, not by the committee, but by the opposition members of the committee. The committee declined to allow such unheard of procedure. They would not listen to a request that the minority should appoint a partisan lawyer, but contended that any appointment should be made by the committee as a whole.

It was then arranged that two members of the committee, Messrs. MacDonald and Barker, should submit a name to the committee. This was done ,and the name of Wallace Nesbit, K. C., ex-judge of the supreme court of Canada, and a conservative, was submitted, but the conservatives refused to accept him. They still contended for the right to appoint a counsel of their own selection. The committee firmly refused to agree to this.

Realizing that they could not run the committee to suit their own political ends, the conservative members resigned in a body. Whereupon the committee appointed Mr. Chrysler, K. C., of Ottawa, to represent the people, and announced that the investigation would proceed as if nothing had happened.

At this point the conservative members of the committee pretended to take umbrage, and resigned. Their idea was no doubt that if they resigned the investigation would come to an end and the danger which threatened them would be averted. But the committee thought differently and determined to proceed, find out from Mr. Lumsden just why it was he resigned, and the names of the engineers, if any, who had forfeited his confidence. As the matter stands now all parties are represented by counsel, Mr. Lumsden will consult with Mr. Chrysler, and the investigation will proceed just the same as if the conservatives had remained on the committee. It would seem that the latter have followed the lead of Mr. Lumsden. That gentleman resigned because he said he had lost confidence in his staff. The conservative members of the committee have resigned because they had not confidence in their case or in themselves.

THE NEW HOSPITAL.

Editor Daily News,

Sir,—Since the topic of interest to many at the present moment seems to be that of the new hospital, it has occurred to me several times to request the favor of space in your valuable columns for the expression of opinion regarding the subject from a woman's point of view.

We all undoubtedly want the new hospital, but many of us do not want to see it erected upon the site of the old building, believing that for many reasons it is a most undesirable location for a general hospital, chief of which is the complete absence of the crowning essential for the comfort and welfare of its patients, that of serene and perfect quietude.

It has been a matter of surprise to many that this most important point does not seem to have fully presented itself to the board of management, proving as it certainly has done and will continue to do, a tremendous drawback to the success of the institution if erected, as now proposed upon the old site.

No one who has not at some time or other been an inmate of the Royal Columbian hospital could possibly realize or describe the torture inflicted upon sick nerves by the discordant noises and clamor of traffic even at the preesnt time surrounding the hospital, and if trying now, what will the situation be ten years from now, when the very heart and centre of our city's commercial life will be Sapperton.

It seems to me that there cannot be two opinions as to the extreme inadvisability of building the new hospital upon the old site; the adjacent lumber mills with their whistles and whirring; machinery the constantly passing trains with their arriving and departing signals; the screaming of steamers for the bridge; the nearby and ever recurring tram cars, and by the way, the last mentioned has a trick all of its own for getting upon the nerves of a patient, causing many a restless hour and loss of sleep, since one finds oneself intently and anxiously listening for the scrunching wheels and tinkling bell—at least I know it was so in my case when I spent five weary weeks within the walls after a heavy operation and practically got no sleep except under opiates. If, therefore, this expression of opinion be the means of bringing forth voices on the subject, I shall feel something may be done that is worth while, towards correcting what will certainly prove in the future a huge mistake.

It is not as though the board stand to lose finnacially in altering their arrangements, since the sale of the present holding would undoubtedly furnish more than the funds required for the purchase of just as beautiful and far more desirable location for the home for our sick people and so many will not feel compelled to seek the Jubilee hospital in Victoria, in order to secure rest and quietude during their enforced retirement from the cares of life.

WIDE-OPEN REIGN BEGINS.

Tempestuous Career Lies Ahead of "Liberal" Regime in Seattle.

Seattle, March 21.—The new Republican city administration, eelcted on a platform favoring liberal administration of the saloon and Sunday laws was inaugurated tody with prospects of a tempestuous career.

One of Mayor Hiram C. Gill's first acts was to remove from office Fire Chief Harry W. Bringhurst, who is subject to the civil service rules and who will fight in the courts against removal.

A storm of wrath has been raised in a large section of the city over Mayor Gill's announcement that the large wooden barracks on Eighth avenue south, built a year ago to contain women, and left unoccupied because of popular protest, would be the seat of a so-called restricted district. The property is owned by wealthy politicians.

Necessity of Large Reserve Stocks.

Only when adversity comes, can we know our full strength—or weakness.

A smaller concern would have been completely dismayed by the disastrous fire which, in one night, wiped out our Dundee warehouses, together with two million gallons of Watson's Whisky.

But we were carrying on business—without inconvenience to any of our customers—the very next day.

The large stocks of whisky we continually hold in reserve at other points, enabled us, at that crucial time, to fill all orders with the usual promptness—and with whisky of the uniformly high quality that has always distinguished our brands.

When you consider that a two million gallon loss could not hamper us, you can readily understand how well we are prepared to meet any untoward circumstances that may arise, and to ensure uniform age and quality for the contents of every case we ship.

MATERIAL FOR MINTO TWELVE TO BE FOUND IN OTTAWA

Ottawa, March 21.—"We have material right here in Ottawa for a Minto cup twelve," said Coach Pete Green, of the Capitals, in discussing the present situation as regards the national game in the city. There is no keener lacrosse enthusiast between Vancouver and Halifax than Green and the showing of the Capital team last season was one series of disappointments to him, nothing being more gratifying, however, than the phenomenal brace which the garnet and grey took at the close of the season, when both the Toronto and Tecumseh teams were beaten here.

"There is no necessity of going outside the city for players," said Coach Green. "Had the team been properly handled last summer, we would have been right up with the leaders. Our defence at the close of the season was without exception the best in the league while the home, as was demonstrated in the match with Toronto, was sufficient to bewilder any defence in the game. All these boys are available again and if the promised reorganization materializes, you can depend on the Caps for a great fight for the flag.'

EMPLOYERS' LIABILITY

Why You Should Insure Against Lawsuits

WORKMEN can sue you without cost to themselves, and they have EVERYTHING to gain and small chance to lose by so doing.

PERSONS other than employees accidentally injured about the premises invariably sue for damages.

REGARDLESS of their own responsibility for the accident, or the existence of negligence on the part of others.

ON the slightest pretext employees may sue you, even for accidents caused by the negligence of a fellow-workman, and

THE suit may be brought against you long after the occurrence of the accident by which he was injured.

EMPLOYERS and business men can ill afford to assume the risk of this ever-increasing and uncertain liability.

CREDIT of otherwise responsible manufacturers and business firms is sometimes seriously impaired by such damage suits.

TO go to law means loss of time, money, endless annoyance and worry.

YOUR profits may be seriously curtailed as a result of accident unless you are insured.

ONLY insurance against such risks will enable you to fix and reduce your expenses to a minimum.

UNDER the protection of a Liability Policy in the Railway Passengers' Assurance Company you will save money and time and be relieved from all such annoyances.

ACREAGE IN SOUTH WESTMINSTER

OH YOU SURREY

You've read all about the coming development of the C. N. R. and B. C. Electric on the South bank, so why dwell upon it further.

As an old timer said to me this morning: "There'll be 5000 people across the river within 18 months."

South Westminster is going to be a North Vancouver over again and here are a few parcels of acreage which will play a prominent part in the evolution.

55 Acres at $500

This 55 acres is in the south half of Section 29, township 2, and is a dandy for subdivision purposes. On Chilliwack tram and Sandal roads, superb view and light clearing,---a piece of land with untold possibilities at $500 an acre.

11 Acres at $650

Eleven acres in Section 21, on Yale, Hjorth and Sandal roads, high, dry and with a splendid view of the Fraser and the city. Can be subdivided to excellent advantage.

9 and a half Acres Cleared at $9,500

This piece is in Section 20. The tram runs right through it, all cleared and part in bearing orchard, Right against South Westminster post office and a store, not more than 20 minutes walk from the New Westminster city hall. This is eminently inside stuff and will produce a rental to the man who wants to hold it. One third cash.

18 Acres at $500

This block faces on the Yale and Hjorth roads in Section 27, and has a house and barn on the Yale road side. One acre is cleared, the rest is light marketable timber. Here is one of the chances which stand ready to make a lot of money for some man on the south shore. Will bring $1000 an acre before a year.

Five acres in Section 30, touching the tram, t $900 per acre. This lies beautifully, and here is no nicer homesite.

Ten acres, N. E. corner of Sec. 32, almost cleared at $350 per acre, for two days only.

Ten acres in Section 34 at $350. House, barn, etc., included.

145 Acres, Delta farm. All cleared, right at G. N. R. Depot, for $200 per acre. $4000 cash handles this, balance long terms.
