BIG CELEBRATION WHEN SERVICE STARTS

Opening of Fraser Valley Line to Chilliwack Takes Place on October 3.

After having a grand celebration at Chilliwack on October 3 to honor the completion of the Fraser Valley branch of the B. C. E. R., the tram company will start on October 4 its regular service between here and the fruit metropolis at the head of the valley.

It will be no stub service at the start, but will consist of three trains each way daily and a local as far as Langley, such as is running at the present time. The trains will carry as its first regular passengers visitors to the New Westminster exhibition, for which event the officials of the road have been rushing construction in order to be finished in time.

Formal Opening Big Event.

The event on October 3 will be a memorable one. The cars will leave Vancouver in the morning with the chief officials of the company, the mayor and aldermen and many of the prominent men of the Terminal City. Arriving here the excursion will be joined by the mayor and aldermen of New Westminster and for one day at least there will be perfect harmony between the railway and the city.

All the way up the line, the councillors and reeves of Surrey, Langley, Matsqui, Sumas, Chilliwack, and other prominent men of the different districts will join in until by the time the town of Chilliwack is reached, the trains will have most of the brains of the Fraser valley on board.

Big Welcome Assured.

The excursion will be met at Chilliwack by all the residents of the city headed by a band. The citizens there have been waiting so long for railway connection that they will know how to appreciate it and the place is preparing to turn itself inside out to welcome the visitors.

There will, of course, be speeches of welcome and congratulation and then the guests will sit down to an immense banquet. The cars will leave in time to get the delegates back to their homes at an hour that will not give rise to suspicion.

BREAKWATER COMPLETE.

Ten Years of Continuous Labor to Construct San Pedro Work.

Los Angeles, Cal., Sept. 23.—The great breakwater protecting the harbor at San Pedro, which represents an expenditure of many millions and ten years of continuous labor, is complete. The structure will be turned over to the government on October 1.

The breakwater is 9250 feet long. It has a width of twenty feet at the top and a mean width of 200 feet at the bottom. At the outer end the depth of water measures forty-eight feet. The structure is topped with concrete with a permanent light and fog station. Nearly 2,500,000 tons of rock were used in the sub-structure of the breakwater and 236,620 tons in the superstructure. The rock alone cost $2,748,690.

SEIZE OPIUM AT HONOLULU.

Tins Give Evidence of Having Been in Salt Water.

Honolulu, Sept. 23. — Unstamped opium valued at $5000 was seized today by United States District Attorney R. W. Beckens in a tenement house in Chinatown. The tins containing the drug evidently had been in salt water for some time. It is the theory of the federal officials that the opium, with a buoy attached, had been thrown into the ocean from some steamer approaching this port from the Orient, and afterward brought ashore in a launch or other small vessel.

MADAME LABADIE SCORES SUCCESS IN DOLL'S HOUSE

Henrik Ibsen's Clever Story Read with Dramatic Effect by Talented Elocutionist.

Yesterday evening Madame Harriet Labadie made a successful re-appearance, under the auspices of the Women's Educational club, of Columbian college, before a large audience in the opera house, when she gave a dramatic reading of Ibsen's "A Doll's House."

Madame Labadie, who was introduced by Mayor Lee, prefaced her reading by a few cordial remarks on the appreciation that her readings have received in British Columbia and thanked the audience for their warm welcome.

The play, which deals with the story of Torvald Helmer and his "doll wife," Nora, held the attention of the audience from start to finish.

The first act opens with Nora gaily preparing for Christmas festivities. There is not a sign of a shadow overhanging her blithe happiness until the entrance of Mrs. Linden, a former school friend. In a conversation that follows Nora confesses to her that at the time of her father's death, some eight years previously, she had borrowed money from Nils Krogstad to furnish funds for a trip abroad which had been ordered by the doctor for her husband, who was then seriously ill. Later, in a scene between Nora and Krogstad it transpires that Nora, not knowing where to turn on account of her father's critical condition, had forged his name as the only means to obtain the money needed for the complete change that could alone save her husband's life. At the present time Helmer has just been appointed in the place of the retiring manager of a prominent bank. It is known to him that Krogstad, whom he dislikes personally, in his earlier life, committed a forgery and it is understood that upon Helmer attaining his position that Krogstad will be dismissed from the staff. Krogstad then threatens to disclose Nora's act to Helmer if she cannot induce her husband to let him keep his place in the bank as he wishes to retrieve his character, and when she fails he keeps his word and exposes her in a letter to Helmer.

In the strong scenes between Nora and Krogstad, and in the last famous scene between Nora and Helmer, when Nora awakens to the fact that she has never really known her husband, who has treated her as a child and a plaything, and discovers that she can no longer live with him, Madame Labadie displayed intense dramatic power and completely carried the audience away.

The character of Nora alone, in all her moods, from grave to gay, afforded the artist ample scope to display her wonderful versatility, which was also shown in the clear drawing of Doctor Rank, in comparison with Krogstad and Helmer.

TRADE WITH EUROPE.

West India Merchants Like Old Country Credit System.

Washington, Sept. 23.—Shippers of goods from this country to the West Indies are severely criticized, according to reports to the American government, because they insist on cash or quick payment of invoices. The exporters of Europe are held up in those islands as examples among credit-givers. Because credit is extended to them on a more liberal basis, the merchants on the various islands give a large portion of their trade to Great Britain and Germany.

Will Take All Strikers Back.

Ottawa, Sept. 23.—After a conference Minister Graham and President Hays announced today that all G. T P. strikers would be taken back.

ENTRIES POURING IN FOR PROVINCIAL FAIR

Fruit Display Will Be Well Above Previous Exhibits —Prairie Cattle Coming.

This is the last day for receiving entries for the provincial exhibition which starts on October 4. During the past few days entries have been pouring in apace and there are already a much larger list of entries than there were for the exhibition last year.

The fruit prizes will be especially well contested as the crop this year has been excellent and the rivalry among the growers has been keen.

However, the fruit exhibits will not be the only exhibits at the exhibition that will exceed in quality and extent those of last year. In live stock there will be a marvellous display of thoroughbred animals from all over the district and from many of the famous stock farms of Alberta, Manitoba and Saskatchewan.

The district exhibits will be above the standard, and there will be difficulty in judging for the Dewar trophy held each year by the district making the best display of the products of its fields.

The engagement of the Al. G. Barnes company to put on all the side attractions and to provide most of the amusements on the grounds has freed the special features committee from much of the worry that has been theirs in former years. That the show is good there can be no question. It has just finished engagements with all the big summer fairs in the prairie cities and comes here armed with a formidable list of recommendations from everywhere it has exhibited. The wild animal circus is said to be the best trained animal show now travelling and its other features are in keeping.

GROWS LIGHT BLUE ROSE.

British Horticulturist Secures Rival to Green Carnation.

London, Sept. 23.—The green carnation has now been rivaled by the blue rose. After years of crossing, Alfred Smith, of Downley, High Wycombe, has produced a distinct blue rose which is exciting keen interest among his fellow horticulturists. The rose is light blue, shading to a deeper hue toward the base of the petals.

Mr. Smith says it is no freak, but can be reproduced now indefinitely, and the color intensified. It is not pretty, and is a poor specimen of a rose.

India a Sugar Country.

Washington, Sept. 23.—India is one of the greatest sugar-producing countries in the world. Its output amounts to 4,000,000 to 5,000,000 tons annually, according to Consul Dennison, of Bombay. The establishment of large factories is planned there as a means of increasing the sugar yield and meeting the formidable competition of the imported articles.

EVIL FORTUNE DOGS BOTH TEAMS

Champions Minus Galbraith, Nationals Without Lalonde – Cup is Considered Safe.

The absence of Charlie Galbraith from the Westminster lineup in today's Minto Cup match against the Nationals will somewhat weaken the locals, but as the challengers will be without the services of their brains, Newsy Lalonde, and cannot play Jack Laviolette, the teams will step on the field about as evenly matched as they were last Saturday. Galbraith will not play because of the recent death of his father. Lalonde is suffering from blood poisoning and is reported to have been in bed for a couple of days at Harrison Hot Springs. Laviolette has an abcess on the foot and is walking on crutches. Had Laviolette been in condition he would have figured on the lineup, in spite of the protests of Manager C. A. Welsh, who notified President Lecours that that player was considered ineligible and that a report would be made to the cup trustees if he handled a stick during the series.

As Laviolette will not play there will be no occasion for a protest. This is just as well, for that would probably have engendered hard feelings between the challengers and the champions, and it would be a pity to see the present pleasant relations broken.

Will Keep Up Reputation.

Hughie Gifford, as first announced in yesterday's News, will make the twelfth man on the team, the defence half being rearranged because of Galbraith's absence. Hughie is a fast youngster and will make good today, for he has the family reputation to sustain.

Exactly who will replace the re-

(Continued on Page Five.)

PASSENGER AND FREIGHT COLLIDE IN INDIANA

Terre Haute, Ind., Sept. 23.—Northbound passenger train No. 28, on the Southern Indiana road, collided with an extra freight train one mile south of here tonight. John Cornutt, passenger train engineer, was fatally injured. Four others were seriously, and a dozen painfully, injured.

It is said the wreck was due to confusion of orders. Besides Cornutt, who was crushed and scalded, the most seriously injured are the fireman, a car repairer and five passengers.

Man Is Suing C. N. R. for $10,000.

Winnipeg, Sept. 23.—Charles G. Hamm has filed a claim for ten thousand dollars against the C. N. R. for injuries received when a train was thrown into the subway from a temporary level crossing. It will be remembered that a woman was killed in this accident, which caused the railway commission to interfere.

B.C.E.R. IS NOW READY TO BUILD FREIGHT SHEDS

Tramway Company Is Calling for Tenders for Building of Wharf and Sheds.

The extensions to the B. C. E. R. wharf and freight sheds which the company obtained permission from the city to proceed with recently will be started within two weeks. The company is now advertising for tenders on the work. The are to be in by October 1 and as soon as one is accepted the work will proceed.

It is the intention to build the dock about thirty feet out into the river and put one of the finest freight sheds in the city on it. This will give the company facilities for handling freight received from Victoria for places on the Chilliwack line and will mean much in the industrial development of New Westminster.

MAY HOLD UP SULTAN.

Monarch of Sulu May Have Trouble with the Customs Officers.

New York, Sept. 23.—The Sultan of Sulu, who is on his way to America carrying among other things $500 000 worth of jewels, may be held up by customs inspectors on his arrival here. Rumor has it that the Sultan intends to dispose of the jewels here. He carried them with him through Europe, but failed to find a purchaser with the requisite of ready cash.

Customs officials express various opinions in regard to the Sultan's precious freight. Sulu being part of the Philippines, some of the officials hold the opinion that the Sultan may bring them.

TWENTY PERSONS HAVE A NARROW ESCAPE

Minneapolis, Sept. 23—Twenty men, women and children were carried between ladders and saved from impending death early today when a row of frame houses at 619 to 623 Fourth street south caught fire. The flames spread so rapidly that many occupants of No. 619, a boarding house, found themselves cut off from the halls and stairway.

PROBABLY BROWN.

Qu'Appelle Man Suggested as Lieut.-Governor of Saskatchewan.

Ottawa, Sept. 23.—Premier Scott's presence has revived interest in the appointment of the new lieutenant-governor of Saskatchewan, and it is stated that the post will in all probability go to Brown, the Liberal candidate against Lake, of Qu'Appelle, at the last general election.

Traction Merger.

London, Sept. 23.—According to the Financier, it is believed that a fusion of the Montreal Electric and Traction corporations is impending. An announcement is possible in a few days.

RICH MICA DEPOSIT NORTH OF REVELSTOKE

Eight Claims Staked By W. I. Briggs, Former Westminster Man.

Valuable mica claims have been staked about 120 miles north of Revelstoke, on the big bend of the Columbia river, by William I. Briggs, son of T. L. Briggs, of this city. The claims, eight in number, each embracing an area of 1500 feet by 1500 feet, were located about three years ago and were duly recorded in the mining recorder's office at Revelstoke.

Yesterday samples of the mica taken from some of these claims were shown to a representative of the News. The mineral was exceptionally clear and was well sized. On the mica fields the ground is littered with broken pieces of the mineral. That on the surface is not of great value, but on going down into the ground a short distance the mineral is well formed and is found in enormous quantities.

The only difficulty at present encountered by the owners of the mines is transportation, as the country is hard to get into, but that difficulty will be overcome soon and the benefit that will accrue to the whole interior country will be very substantial. When the mines are in proper working order, their operation will mean an enormous increase to the mineral production of the province and is expected to be the commencement of a long period of commercial and industrial activity.

Mineralogist's Report.

W. O. Young, E. M., an eminent mineralogist, was retained by the owners of the claims to make a report on the discoveries and this he has done to the extent of eight closely typewritten pages. He goes into great detail in the report and is firmly convinced of the great possibilities of the claims. The transportation difficulty seems to be the only drawback he sees to immediate development of the claims. However, there are steps now under way for the removal of this difficulty.

In concluding his report he says:

"The outlook is very encouraging, with great possibilities, the only depressing feature being the means of transportation.

"In an interview with the provincial surveyor, I was informed that for a nominal amount a tramway could be constructed over Death Rapids, and he also tells me that the province has appropriated several thousands of dollars for this purpose. Then another steamer could be placed on the upper portion of the river, which I am assurred will be done as soon as traffic warrants.

"I was also informed by the Premier that in the not distant future a branch of the Canadian Northern will come down the Canoe river to Revelstoke, so this, of course, will overcome all difficulties. Then, too, the government is at present contemplating the construction of wagon road from Goldstream to Revelstoke. The claims will then lie within twenty or thirty miles of the road. By application this could be continued to Mica creek, thus placing the claims within about ten miles.

Can Mine Cheaply.

"Mining can be carried on cheaply; the formation of the matrix are such that they will yield readily to powder of a light percentage of nitro glycerine.

"The climatic conditions are such that will require preparation for long winters. The elevation naturally gathers much precipitation, and early in the season snow arrives and remains until quite late in the spring; so it would be necessary to mine in the winter and store the product for summer delivery.

Mica in Abundance.

"Mica is found in abundance. Water can be had from any of the many streams, which will furnish unlimited natural power. With these conditions, and the assurance of a competing railroad, these products can be mined and delivered at reasonable rates, thereby returning a handsome revenue to the investor.

"I would recommend that work be done on the Porcupine, Rainbow and Eagle Bluff claims.

"Proper sites should be selected where large openings could be made easily, thus creating large exposures of merchantable mica.

"In conclusion I will state the industry and demand for this product are such that from the appearance of the surface indications, with objectionable features overcome, these properties are worthy of the investors' attention and warrant further investigation."

Russia Imports Much Cotton.

Washington, Sept. 23.—Indications are that the Russian cotton crop will exceed the 1909 yield, which was 398,000,000 pounds. Imports of raw cotton into Russia during the early months of the pre[illegible] year have been very heavy, the valu[illegible] the first four months being more th[illegible] $23,000,000. If the demand by the Russian mills continues throughout the year, it is declared the buying record of all previous years will be exceeded.

Joe Lally is the Man to Succeed Ross as Cup Trustee

The retirement of P. D. Ross from the position of managing trustee of the Minto Cup has not cast any shadow of gloom over this fair city. There has been no weeping, wailing or gnashing of teeth. Rather there have been rare exhibitions of unholy joy in the back office of a drug store at the corner of Columbia and Lorne streets, where lacrosse sports do congregate.

Mr. Ross no doubt tried to be fair and square according to his lights. Unfortunately his were eastern lights and his mental vision could see no good beyond the Rocky mountains. Ross was, is and ever shall be, a N. L. U. man through and through.

Now that he has resigned the question of naming a successor crops up. A suggestion came through from the east yesterday that a Winnipeg man should be selected for the position, the argument being that Premier McBride should represent the west, the Winnipeg man the central section of Canada, and Sir Edward Clouston the east.

Isaac Pitblado, of Winnipeg, is well qualified for the position, but he must be sorely out of lacrosse practice by this time, for Winnipeg has about as much use for lacrosse as for ping pong.

The Minto Cup trustees should belong to lacrosse towns. McBride belongs to Westminster, Clouston to Montreal. The first is the home, the other the haunt, of lacrosse players. There is only one town in Canada that can vie with this city in lacrosse history, Cornwall, the nursery of the national sport.

Cornwall is therefore the logical city for the home of the new Minto Cup trustee, which means, of course that Joe Lally is the man who should succeed P. D. Ross.

There is no man in Canada better qualified to act as guardian of the vice-regal silver than P. J. Lally, and there is no man who would be more acceptable all round. Lally is popular in the east and popular in the west, where he is now known and appreciated at his true worth. His appointment would certainly give satisfaction from Cape Breton to Alberni.

The west has great pleasure in nominating Joe Lally for Minto Cup trustee. Will the east please second the motion?

MISS HAZEL KIRKE.

Leading lady in "A Stubborn Cinderella," who will face-off the ball in the big lacrosse match this afternoon. The lacrosse players will be guests of the company at the opera house to night.

"A STUBBORN CINDERELLA" BIG ATTRACTION TONIGHT

Miss Hazel Kirke Will Personify Lady Leslie in Much Talked of Production.

Theatregoers of Westminster are about to have their curiosity gratified in the coming of the much-talked-about musical play, "A Stubborn Cinderella," which comes to the Opera house tonight.

This is the big Chicago production by the authors of those big successes, "The Time, the Place and the Girl" and "The Goddess of Liberty," etc., and was produced at the opening of the Princess theatre in Chicago, and has been playing to phenomenal business ever since.

The story of a "Stubborn Cinderella" in brief follows:

The president of a Columbus university is expecting Lady Leslie (under escort) to unveil a statue recently made by a noted sculptor. Lady Leslies arrives and proves to be a charming young woman, who has never been permitted to speak or have anything to do with real live young people. She is the victim of one of those foolish old country engagements of childhood, and is on her way to meet the man she is to marry and whom she has never seen. "Mac" shows up, and being thoroughly American, a whole-souled and hearty American college youth, the inevitable follows. He is introduced (in a joke) as the sculptor, who made the statue, and is engaged by Lady Leslie's guardian to go with the party on a trip to the Pacific coast to make a statue of Lady Leslie. Instead, he and Lady Leslie become very much in love with each other, and eventually Lady Leslie renounces her lordly betrothed and takes "Mac" in his place.

The music is of the most charming variety with a host of pretty song numbers interspersed throughout the action of the piece, the best number being perhaps, "When You First Kiss the Last Girl You Love."

E. Coit Albertson heads the cast which will be seen here, with Miss Hazel Kirke playing the part of Lady Leslie. Lilian Goldsmith, Mabel Charlebois, Dan Moyles, Neal Burns, Bobbie Wagner, Linford Lefferson, Edwin Burns, Dr. Dudley C. Fosher, are some of the principals.

LEARNING TO CHEW GUM.

Germans Are Being Educated in Art of Mastication.

New York, Sept. 23.—The Sun has received the following from London: The Germans are to be educated in the gum-chewing habit. "Kangummi" they call it, and in advertisements it is described as "excellent for sportsmen, refreshing and disinfecting, an aid to digestion and the best means to get rid of the habit of excessive smoking.

The Munich Medizinische Wochenschrift, an influential medical weekly, does not like the prospect at all, and warns Germany against the danger of becoming a country of ever-moving jaws. It describes the alleged baneful effects of gum-chewing, of which spitting is the least harmful, it declares.

Monster Gas Well Opened.

Dunkirk, N. Y., Sept. 23. — The Standard Oil company has struck a gas well at Arkwright, near here, which has a steady flow of nearly 1,000,000 feet a day. The roar of the escaping gas can be heard a mile away. The well is the largest ever opened in Western New York.

FRAGRANT WITH JOYS OF LONG YEARS AGO

Contractors Excavating for Victoria Building Disturb Vats in Which Pioneers Distilled Whisky.

Victoria, Sept. 23.—Two distillers vats—those which were used in the '60's by the pioneers of Victoria who manufactured whisky for the northwest at large—were unearthed yesterday afternoon by the contractors excavating the site of the Alexandra club. The hoops of the vats were rotted away to such an extent that the plow went through, for there were still six bottles of the well-made whisky left in the ground and this also was broken to bits by the horses. The contractor endeavored to save some from spilling into the earth, but was unsuccessful.

Fifty years ago there stood upon that site—according to a pioneer— a distillery that supplied many miners who traversed the northern countries in the quest of gold and it was from this city that they operated. The remains unearthed are a memento of pioneers of the years of 1858 or even earlier.

SIN IN THEATRE IS O. K. IN CHURCH

Montreal, Sept. 23.—Rev. J. Edgar Hill wrote a letter to Bishop Farthing today, on behalf of the Lord's Day Alliance, telling his lordship that the proposed meeting of the Brotherhood of St. Andrew on Sunday at the Princess Theatre was in contravention of the city bylaw. The meeting will take place in St. George's church instead.

FINLANDERS BUYING LAND ON ARROW LAKES

Finnish Government Experts Locate in Kootenay After Tour of Canada —Another Big Deal.

Nelson, B. C., Sept. 23.—Bjorn Lindberg, fruit inspector for the Finnish government, and A. D. Adlerkreutz, a horticultural expert from Finland, have purchased from J. E. Annable two ten-acre tracts of fruit land at Deer Park on the Arrow lakes for their own use and are in negotiations for the purchase of 320 acres at the same place for the Finnish government which intends to send a colony of settlers there.

Messrs. Lindburg and Adlerkreutz arrived in Canada some weeks ago and made a tour of the country in order to send a report to their home government upon conditions regarding fruit growing in the Dominion. They visited Ontario and Calgary and were taken over a number of ranches in the Kootenays.

Vastly impressed with what they saw in this district they sent a number of specimen apples and pears and samples of soil home with the result that the Kootenays have been chosen by them as the most desirable country from a fruit grower's point of view in the whole of Canada.

Mr. Annable last week sold a block of 500 acres of fruit lands at Corquendahl, on the Arrow lakes to J. O. Johnson, of Calgary, who will subdivide immediately and put the tracts on the market in his home town. Corquendahl is three miles below the old townsite of Brooklyn and the land lies between the railroad track and the lake.

GOLD DUST will sterilize your kitchen things and make them wholesome and sanitary

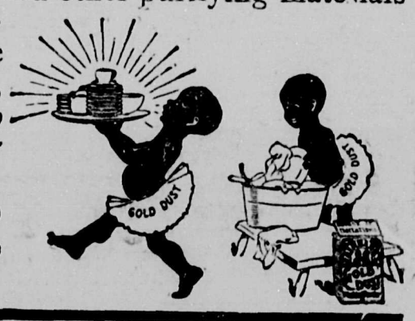
Soap only cleans; GOLD DUST cleans and sterilizes.

Soap washes over the surface, leaving a greasy film behind it; GOLD DUST digs deep after germs and impurities, and insures purity and safety.

Soap needs muscle help (as an exerciser, it's fine); GOLD DUST does all the hard part of the work without your assistance, leaving you to take your exercise in a more enjoyable manner.

GOLD DUST is a good, honest, vegetable oil soap, to which is added other purifying materials in just the right proportions to cleanse easily, vigorously, and without harm to fabric, utensil or hands.

"Let the GOLD DUST Twins do your work."



Made by THE N. K. FAIRBANK COMPANY
Makers of FAIRY SOAP, the oval cake.

STAMP COLLECTING IS AGAIN BEING TAKEN UP

Public Interest in Royal Hobby Is Revived—Philatelists Display Scientific Interest.

London, Sept. 23.—Stamp collecting rapidly is coming into vogue again. And all because the public has ascertained that it has for years been one of King George's hobbies.

"Why, more than a dozen persons connected with the court already have decided to start collections and have come to us as clients," said the head of a prominent West End firm of philatelists. "Others who formerly collected have taken up the task again with renewed zeal and are bothering their friends half to death for stamps. Then, too, the infection has spread to all classes through the effort to attain the most extensive and valuable collection and fairly promises to become a contest as popular in society as was the solving of jig-saw puzzles for a time.

"Numbers of lawyers and men in the financial district have caught the idea, as we know by our books. All these collectors are keenly waiting the impending new issue of postage stamps, hoping that certain initial stamps may suffer some irregularities which will give them great value. As the Earl of Crawford remarked recently, stamp collecting as a boy's hobby is dead, but stamp collecting as a science is just beginning. And, of course, his majesty has done a very great deal toward advancing stamp collecting to recognition as a scientific study. The boyish interest in stamp centers chiefly in having a large number of fairly uncommon and obviously different specimens and a better collections than the other boys. There it stops.

"But the new scientific interest, which is slowly but surely attaining its hold, lies much more in possessing stamps with only the veriest shade of difference in them, and in collecting entire sets. For instance, almost all stamps really worth collecting have been printed from wooden 'sheet'—a sheet being a piece of wood upon which the engraver has carved out a compact square of twelve or more impressions. Though the engraver would aim at perfect similarity, each of those twelve impressions would produce stamps with, to the trained eye, quite distinct markings upon them. So the intelligent collector sets to work to procure a specimen of all the twelve impressions and so on. You can see, therefore, that it affords some interest."

WANT CAR SHOPS.

Victoria Will Urge B. C. Electric Company to Locate Works There.

Victoria, Sept. 22.—The city council will back up the residents of Victoria West in their desire to secure a proper tramway service during the approaching fair week, and incidentally the company will be urged to locate shops here for the building of rolling stock. At last night's meeting of the council the following resolution was unanimously passed:

That this council realizing the desirability, for the convenience of residents in Victoria West, of a thorough tram service from that section of the city to the Fair frounds during Exhibition week, would request that this matter be given the favorable consideration of the tramway company, and further that upon the visit of the general manager of the company to the city, in the course of a few days, his worship, the mayor and the mover and seconder of this resolution, be a special committee to urge upon him that such through service be arranged, and that it be further urged that car shops be erected for the tramway service in Victoria.

Alderman Mable, who seconded the resolution, which Alderman Ross moved, pointed out that with the growth of Victoria and the fact that the company's shops a New Westminster are over-worked and there is talk of additions, that perhaps the company could be induced to locate shops here. His suggestion was incorporated in the above resolution.

A. W. McCurdy was present at last night's meeting and brought the above resolution to the attention of the council. Mayor Morley, on behalf of the council, tendered thanks to Mr. McCurdy, who declared that if the improved service were secured the council would be deserving of the thanks of the women and children of Victoria West.

ELECTRICAL TESTS IN HORTICULTURE

London, Sept. 23.—How the yield of corn, fruit and vegetables can be increased by the use of electricity was described by J. H. Priestley, lecturer on botany at Bristol university, in an address before the Royal Horticultural society in London.

"One of the first experiments," he said, "was the electrification of twenty acres of growing wheat. The current was conducted by wire from the generating station to the wheat field, and there raised to a very high voltage before distribution over the field on wires attached to poles ten feet high. The current, escaping from the wires attaches to the ground, passed through the plants and so completed the circuit. The increase in yield in one case amounted to twenty-nine per cent. In other experiments cucumber plants gave an increased yield seventeen per cent., strawberry plants eighty per cent, and mangolds eighteen per cent.

"The effect of electricity on plants is to accelerate and increase their growth, and in some way improve their health and make them better able to resist disease, but the precise action of the electrical current is not yet fully understood."

MARKET REPORT

All the quotations at the market yesterday remained almost stationary with the exception of the price of eggs, which showed a tendency to advance two to three cents per dozen.

There was a first class market with a large attendance of both buyers and sellers and a good day's business was transacted. There were no unusual features at the market, but none of the vendors objected to that as long as the business done was up to the average.

Of lamb and mutton there was a good supply and the demand was fair. A large quantity of veal brought in proved to be equal to the demand. There was a fair supply and a good demand for pork, which, however, did not advance from its present comparatively low price.

All kinds of poultry sold well at the usual quotations. Ducks in good condition were especially in demand.

The supply of fruit was not as great as it has been for the last two or three markets. There were more apples, but the plums and prunes fell off slightly. The quality of the fruit now being brought in is a considerable improvement on that with which the season opened, but there is still some inferior fruit offered for sale.

Of potatoes there was a large supply and a fair demand. There was a good supply of all kinds of fresh fish, and the market was given a festive appearance by great quantities of cut and pot flowers in the florists' stalls.

New Zealand's Defence Scheme.

Wellington, New Zealand, Sept. 23.—The Premier, Sir Joseph Ward, has introduced the defence amendment bill on the lines of Lord Kitchener's report. It provides for a force of 50,000 men at an annual cost of £400,000. The bill was favorably received.

SATURDAY, SEPTEMBER 24, 1910.

THE NEW HOSPITAL.

We are glad to see that there is a disposition on the part of the managers of the Royal Columbian hospital to reconsider their former decision not to place the new building on a more suitable site than that now occupied at Sapperton. On previous occasions, when advocating this change, we pointed out how very unsuitable the present location had become by reason of the greatly increased amount of disturbing influences and annoying noises which have grown up around in consequence of the residential and industrial development of the neighborhood. Quiet is one of the essentials for successful hospital treatment and if the managers of our hospital can secure this blessing for future patients they will confer a decided boon upon the community.

The site now under consideration, adjacent to the asylum would, we believe, make an almost ideal location for the new hospital and we hope no difficulties will arise to prevent its adaption to the desired purpose.

THE UNIVERSITY SITE.

It is now some months since the university site commission undertook its tour of inspection and enquiry with a view to choosing a suitable location for the provincial university, and folks are beginning to ask why it has taken so long for this body to make its report. At the conclusion of their investigations and just prior to their return to the east one of the commissioners gave out that a decision had been reached, and that it only required the report to be formally drawn up. That it should have taken more than three months to do this seems strange, to say the least.

A rumor has long been current in Victoria that the Capital City had found chief favor in the eyes of the commissioners and there has been some rejoicing in consequence. But so far no official report or announcement in support of this rumor has been made public. The Victoria Times, however, has asserted that the commissioners report was long since received by the government and that it has for some purpose been suppressed. This Dr. Young, the minister of education, has denied. He states that the government has not yet received the report, nor has it any information as to what its contents will be.

This denial the Times politely declines to accept and declares that it has been informed on very good authority "that Dr. Weldon, chairman of the commission, has forwarded to the provincial government the decision of that body on the location of the university; and further that there has been ample time, since Dr. Weldon entrusted the precious document to the mails, for the report to reach Victoria. It may have been received a week ago or it may have been in Mr. McBride's hands for a month or more, but that it is in Mr. McBride's hands there is very little doubt."

So the mystery deepens. Just why the Premier should desire to withhold this report is not quite plain. It can have no political significance like the Canadian Northern railway agreement, which, it will be remembered, was withheld from the public for some days. The entire province is deeply interested in this matter and if the report of the commissioners is in the hands of the government it should certainly be made public without further delay.

LYNCHING OF ITALIANS IS UNDER INVESTIGATION

Tampa, Fla., Sept. 23.—Vice-Consul Savarez, who is investigating the lynching of two of his countrymen, Catango Ficcarota and Angelo Albano, in West Tampa on Tuesday night, following their arrest on the charge of being implicated in the shooting of J. F. Easterling, said today that he has so far been unable to determine the citizenship of the two men. It developed, however, that Ficcarota was a registered voter, while Albano was not. Savarez said that if proof of citizenship in America is forthcoming the Italian government would drop the case.

WATCH REPAIRS

Probably that watch of yours is not giving you proper satisfaction. You have had it in the repair shop, but, while it is running, will not run accurately. The reason for dissatisfaction is that the man who did the repairs is either incapable or doing good work or is not conscientious in his work, or, in all probability, he is gifted with both of the faults mentioned.

We have been fortunate in securing the services of a first class watchman who has taken charge of our watch repair work. A man who will tell you the truth in regard to the condition of your watch, and will repair it properly, and, as a consequence, it will not only run, but keep accurate time.

Agents for Howard, Ball and Longine Watches.

Chamberlin's THE JEWELER

GOOD BUYS IN CITY HOMES

SPORTING NEWS

CROSSE MADNESS IS RAMPANT HERE

Lally Says Everything Here Centres Around Sport—O. K's. Sentiment

ollowing is Joe Lally's "dope" on orrow's game between the West-sters and the Nationals. The la-se sage makes his remarks gener-his time, but intimates that the onals have an almighty slim ce of winning out. The story, as lished in the News this morning, special to the Montreal Star and Toronto Telegram, and is given by courtesy of Mr. Lally:

is generally understood that sy Lalonde will be out of tomor-s game owing to having been oned about the face after last Sat-y's game. The loss of Lalonde be a serious one to the National n champions and the chances of winning out look very slim.

ere is still the high tension in-t taken in tomorrow's game, and town can be truthfully said to be osse mad.

u can talk about devotion to a osse team, but the east in the y days was never a circumstance e Royal City—Everything is la-se. The farmers grow their squash h they take to market with the lem of the world's champions, ything from a grind stone to a pound tin of butter which is sent e Yukon is branded lacrosse. y kid and every gray haired an is a lacrosse rooter. Lacrosse a religion in New Westminster. thereby hangs a tale of the pions sentiment and a love for native town, and not the love ere is uppermost in the minds of team which can and will retain proud title of world's champions. w Westminster will in tomor-s deciding match be without the ice of Charlie Galbraith, their t player, whose father died sud-y last night and whose funeral be held Sunday. Charlie's place be filled by moving Tom Gifford to point and putting Marshall at and Hughie Gifford, a member e celebrated Gifford family, a ster of eighteen years, will play defence.

is rumored that the Nationals in-playing Jack Laviolette tomor-and Manager Welsh says he will a protest on the grounds that olette has not been eligible to with the Nationals in the N. L. U. year.

e same officials, Matt Barr and el Yorke, will handle the game.

Isn't It Awful.

ere is an excerpt from a story d to an eastern paper by Billy eworthy, trainer of the Nationals, week: The boys have heard to-that the wife of the president of Westminster team, Mrs. Lynch, a French-Canadian lady, and that will attend the game with a cane trimmed with purple and white. y are well pleased with the happy rrence, and say they are going to in every nerve so that her colors prove the right ones, and that e will be nothing left for her thy husband but to go through a orce case. Even at that the odds on New Westminster, being three one, and Nationals not saying a but keeping their good spirits up the time.

ME STARTED LATE IS CALLED IN FOURTH

The Balmorals and Maple Leafs yed another abortive game at eens park last evening. It was lled in the fourth inning on account darkness and the result will have effect on the standing and the me will have to be played again, e score was five all when the game opped, but if it had lasted a few inutes longer the Leafs would prob-ly have scored as they had a man third and there was no one out. arr, catcher for the Alerts, did the mpiring. The following were the ams:

Balmorals—Munn, R. Smith, W. E. inclair, Ryall, Wright, C. Smith, C. ein, Price and Canfield.

Maple Leafs—Smith, Storm, Han-rd, Sinclair, Roach, Hankey, Dignan, amieson and Owens.

AM GILES WAS THERE FOR A MINUTE OR TWO

(Calgary Albertan.)

Sam Giles was in town yesterday. Every person who reads this page knows who Sam Giles is, or should know. Mr. Giles was manager of the Victoria baseball club when that team was in its most flourishing condition. He was also associated with various forms of athletics during his long sojourn in this city. He left Calgary for the coast three years ago come next month, and has been doing exceedingly well there. He is proprietor of the Matsqui hotel at Mission City.

"This city is sure coming along," said Mr. Giles. "Something has been doing during these three years. The city has been forging ahead, even if I wasn't there. Alberta is a wonderful province. But British Columbia is just as good. Cut off Canada at the eastern boundary of Alberta, and there is enough to the west of that for my roaming ground. It is the best there is our Canadian home."

Mr. Giles went back to Mission City this morning.

FORMATION OF GOLF CLUB ADVANCED ANOTHER STAGE

Permission Will Be Sought to Name Association "Royal British Columbia Golf Club."

At a general meeting in Vancouver last night of those interested in the formation of the proposed gold club it was agreed to proceed with the formation of a company with a capital of $100,000, allotted in shares at $100 each. This was the plan suggested by the committee appointed a fortnight ago and it was adopted unanimously by the meeting. Interim forms of application for shares were distributed among the members present and may be had on application to T. D. Sherriff, J. H. Vidal and J. R. Duncan. Ladies will be admitted to the privileges of the club on the payment of a nominal sum, but they will not be asked to subscribe for stock.

There was some discussion as to what would be the most suitable name. The "Royal British Columbia Golf Club" was the one finally chosen, but its choice is somewhat tenative, as it will be necessary to get the permission of the Royal and Ancient Golf Club of St. Andrews, Scotland, before the prefix "Royal" can be used officially.

The committee in charge of the formation of the club at present is composed of Messrs. Brooks, Brown, Gilchrist and Sherriff, with J. R. Duncan acting as secretary.

The next general meeting will be held in two weeks' time, when it is hoped that the club will be fully incorporated.

ACTING MAYOR IS STIRRING UP SEATTLE

Seattle, Sept. 23.—While Mayor Hiram Gill is cruising in the waters of Puget Sound on a vacation trip, Max Waddell, a youthful councilman, who is acting mayor by a succession of odd circumstances, is effecting such radical reforms that privileged interests are frantically trying to locate the mayor of Chief of Police Wappenstein, who is in California. Waddell closed a notorious dance hall and bade the acting police chief to enforce the liquor law to the letter. The dance hall people got a restraining order declaring that the liquid dispensed in their resort was not genuine beer, but a non-alcoholic substitute. The city chemist, however, today pronounced the stuff real beer.

CONVICT MAKES BIPLANES.

New York, Sept. 23.—Henry Britton, a New York civil engineer, sixty years old, who is in the Queens county jail under a life sentence as an habitual criminal, has turned his attention to the aeroplane. He has already sent two biplane models to the patent office and is working on a monoplane Britton is an expert machinist ar claims to have discovered a principle of flying which has not half been known to aeroplane builders. He explains this as consisting of "application of a dead weight centre to the plane, thereby securing equilibrium."

Britton's life sentence was brought about by the exposure of a swindling game in which he advertised extensively for a governess to go to California. His scheme was to accompany the victim to the train on pretext of buying her a ticket, secure her money and decamp.

LITTLE DORRIT IS DEAD.

Close Personal Friend of Charles Dickens Dies at Ripe Old Age.

London, Sept. 23.—A link with Charles Dickens has been severed by the death of Mrs. C. M. Hayman, one of the novelist's closest personal friends. She was asserted by her family to have been the original Little Dorrit. She would have reached her eighty-first birthday next month.

Mrs. Hayman's father was a solicitor living in London and was for years an intimate friend of Dickens. The novelist was a visitor at his house and took a keen interest in all the members of the family.

Find Woman's Body.

Hamilton, Sept. 23.—The police this morning fished another woman's body out of the bay, just off the revertment wall where two other young girls ended their lives within the past three weeks. The victim was about twenty-three years old and her identity is unknown, though she is believed to come from London, Ont.

Sluice-Box Robbers Taken.

Seattle, Sept. 23.—Word has been received here of four more arrests in the recent sluice-box robbery at Nome, when $14,000 was taken.

Will Start New Probe.

Spokane, Sept. 23.—It has leaked out here that investigation of entirely new frauds in Alaska coal lands is now being probed.

Evil Fortune Dogs Both Teams

(Continued From Page One)

doubteable Newsy on the Nationals home is not known, but Dick Duckett will probably don the purple and white uniform.

The Nationals have been spending the week at Harrison Hot Springs where they have had daily workouts on the hotel lawn. With the exception of Lalonde and Laviolette the boys are in good shape and feel fit for today's match, though, if the truth be told, they are not looking forward to it with any great relish, as even the most optimistic among them cannot see, as through a glass darkly, the Minto Cup speeding to Montreal.

Newsy's Absence Regretted.

It is unfortunate that the two teams will not play both matches at full strength, as the absence of Lalonde will give the eastern carpers an opportunity of hollering "hard luck." This cry, however, will not come from the Nationals, the only eastern aggregation that ever crossed the Rockies and accepted defeat as sportsmen.

Matt Barr and Lionel Yorke will officiate as last week. The minor officials will be selected on the grounds. In this particular the Frenchmen also differ from the Montreals. The Nationals accepted the men suggested by the Westminsters without quibbling. The Montreals insisted on looking up the standing of every official in Bradstreet's, finding out if they belonged to a church or had ever suffered from mumps, and demanded the production of the family tree as a guarantee of responsibility and respectability. In short the Montreals acted on the principle that the residents of this peaceful burgh were cutthroats and vagabonds; the Nationals presume they are gentlemen.

Hazel Kirke, Facer-off.

Play is not to be started today by any ordinary two-by-four lacrosse fan. From from it. The ball is to be faced off by as sweet a fannette as ever caused masculine hearts to flutter. Miss Hazel Kirke, leading lady in "A Stubborn Cinderella," has consented to be the cynosure of all eyes for a few brief moments and will drop the rubber between the sticks as directed. Hazel—beg pardon, Miss Kirke—doesn't know very much about the game, but she will learn a whole lot before today is over.

There is great rivalry between the officials of the club as to who shall have the task of looking after Miss Kirke. The News yesterday secured exclusive information on this point, but as the lucky individual is married a solemn pledge was extracted from the scribe not to reveal his name, lest the wife of his bosom interfere. After the game is over, of course—but what's the use of touching on that distressing part of the program.

The Teams.

This is probably the order in which the men will take their stands on the field:

Westminster.	Nationals.
Goal.	
Gray	L'Heureux
Point.	
T. Gifford	Catterinich
Cover Point.	
Marshall	Gagnon
First Defence.	
J. Gifford	Decarie
Second Defence.

Live Stock Insurance

Live stock insurance is a subject that should interest all stock raisers, horse breeders, and horse men.

The theory of live stock insurance is not new, untried or temporary, but one that has stood the test for many years and met with absolute success.

The British Empire Insurance Company is the only company in the West that insures live stock against death from any cause.

McColl, Mrs. Hanington, Mrs. J. R. Payne, Mrs. L. W. Richardson, Mrs. H. B. Shadwell, Mrs. E. N. Sutherland, Mrs. C. J. Fagan (Victoria), Mrs. J. Stillwell Clute, Miss Corbould, Miss Claire Corbould, Miss Freeze, Miss DeWolf Smith and Miss Shildrick, who is Mrs. Worsfold's house guest.

* * *

Mrs. Leamy was a gracious hostess on Thursday afternoon of this week in honor of her daughter-in-law, Mrs. Harold Leamy, a recent bride. The hostess received in the drawing room, which was brightened with autumn flowers. Mrs. Leamy wore a handsome gown of prune-colored satin brocade, while Mrs. Harold Leamy looked dainty and girlish in pale blue mull. In the dining room the table was centered with a bowl of purple asters and the ladies assisting were Mrs. J. H. Diamond, Miss Leamy, Miss Lewis, Miss Alma Lewis, Miss Marion Martin, Miss Freese, Miss McBride and Miss Naomi Briggs.

* * *

The Women's Auxiliary of Holy Trinity Cathedral, held a tea and social on Wednesday afternoon and evening, at the home of Mrs. Whittaker, Third avenue, when the sum of sixty dollars was realized for church work. Mrs. William Wolfenden and Mrs. J. D. Taylor poured tea and coffee and later Mrs. Levy and Mrs. Whittaker. They were assisted by Miss Phillips, Miss Whittaker and Miss Herring. The plain-work table was in charge of Mrs. Dickinson and Mrs. Price. The ices were served by Miss Jones, who had Miss Minna Walker and Miss Marjorie d'Easum helping her, and the candy table was looked after by Miss Eastman, Miss Grace Eastman and Miss Marjorie Larnder. In the evening games and dancing were enjoyed.

* * *

A quiet and pretty wedding took place at St. Alban's church, Burnaby on Wednesday, the contracting parties being Mr. Walter S. Rose, of New Westminster, and Miss Ethel M. Bradley, of Burnaby. The service was performed by Rev. D. Dunlop, rector of the parish, the musical portion being under the direction of Mr. B. G. Walker. The bride was attended by the Misses Chrissie and Phyllis Brown, while the groom was supported by Mr. J. A. Motherwell. The bride was given away by her brother Mr. Henry Bradley. The church was profusely decorated with autumn tints and white asters. At the close of the ceremony a reception was held at Knights, the residence of Mr. and Mrs. P. B. Brown, the happy couple leaving later for the south, where the honeymoon is being spent. Mr. and Mrs. Rose will reside at The Bungalow, Edmonds.

* * *

A reception was given to the visiting members of the Canadian manufacturers association by the officers and members of the British Columbia branch in the Dominion hall, Vancouver, on Wednesday. An orchestra was in attendance and the decorations were carried out with flags and bunting. The guests were received by his honor the lieutenant-governor and Mrs. Paterson, who were introduced by Mr. John Hendry, president of the association. Among the New Westminster people present were his worship Mayor Lee and Mrs. Lee, Mr. and Mrs. L. B. Lusby, Mr. and Mrs. T. H. Smith, Mr. and Mrs. W. T. Reid, Mr. D. S. Curtis, Mr. W. S. Collister, Mr. A. E. White, Mr. C. H. Stuart Wade and Mr. E. Goulet. Included in the local people who enjoyed the Fraser river excursion on Thursday afternoon were Mr. and Mrs. L. B. Lusby, Mr. and Mrs. Herbert Ryall, Mrs. C. E. Seymour and Mr. and Mrs. C. Balmer McAllister.

METHOD FOUND TO REDUCE FOG

Londoners Will Be Able To See "Big Ben"—Electricity Taking Place of Coal.

London, Sept. 23.—There was a time when the notion prevailed among a number of foreigners that London was generally enveloped in a yellow fog. That yellow fogs, so thick that at times it has been impossible to see the ground, have occurred at frequent intervals in times past, cannot be denied, but it is equally true that as time goes on, they occur with less frequency. This improvement in the atmospheric condition of London is undoubtedly largely due to the extensive use of electric power, and it is to be hoped that as modern discoveries are made and inventions perfected the day will be brought near at hand when the "London fog" will be known merely as a thing of the past.

With comparatively few exceptions, coal is used for cooking and heating in this great city, and this remark applies equally to other great cities such as Glasgow, Manchester, Liverpool, Sheffield, etc., the officials of all of which are too anxious that every possible step should be taken to prevent the disagreeable experience of fogs, caused by innumerable chimneys.

In this connection, a deputation representing nineteen municipalities and public associations was received at the local government board office recently by Mr. Burns, when a memorial on the smoke nuisance was presented by the chairman of the smoke abating league, J. W. Grahame. It was pointed out in the memorial that, broadly speaking, legislation had not successfully coped with the pollution of the air and the loss of sunlight caused by the smoke during the process of manufacture, and it was urged that the "smoke clauses" of the London County council bill be introduced and made applicable to the whole country.

It was further proposed that a smoke department of the local government board should be formed, with men of scientific training as inspectors. Any step that could be taken to prevent the occurrence of soot-laden fogs in London and other great manufacturing centers will be as welcome to factory owners as to the public, provided that in the carrying out of such regulations as may be made no undue expense is incurred, and it is hoped that efforts now being made by those interested in the question may be successful.

CHURCH SERVICES

(Changes for this column must be left at, or telephoned to, this office by 9 p.m. on Fridays. The omission of any church notice from this column indicates that no copy has been turned in by the pastor or other responsible party.)

RO EMPIRE OF THE SUDAN

ndon, Sept. 23.—That powerful o empires of great size and some re existed in the Sudan before white races entered Africa, is the iction of a French scientist, M. ner, who reports in La Nature on results of his archaeological inves- tions in the basins of the rivers r and Senegal.

thin a triangle formed by the s of Timbuctoo, Kayes and Bam- he located fifty-two archaeological deposits consisting of ruins of unknown cities. M. Zeltner's most interesting finds were made in caves on the upper Senegal. Here an abundance of runic signs and drawings were found traced on rocks. They were similar in character to those discovered in South African caverns. The writings have some resemblance to those signs found on acient ruins further eastward in the Sahara desert, and are believed by M. Zeltned to be related to the present Tuareg alphabet.

The discoveries made have yet to be thoroughly studied. M. Zeltner thinks that the archaeological exploration of the African continent is yet in its infancy and will doubtless yield surprising results in establishing the advanced state of development attained by the black races in early times.

To Refuse Applications.

Victoria, Sept. 23.—The applications here for land registry offices at Nanaimo, Revelstoke, Fernie and Vernon will probably be refused by Attorney-General Bowser, who is said to have a scheme for the entire re-organization of the department nearly ready.

COLUMBIA STREET, NEW WESTMINSTER.

"HOBBLE" SKIRT MUST GIVE WAY

Latest Freak in Fashionable Creations Is The "Quinze" Dress.

New York, Sept. 23.—The "hobble skirt" is to have a successor in the field of freak dressmaking creations, to be known as the 'Quinze' dress. This statement is made upon the authority of C. Poynter Redfern, head of the great London dressmaking establishment which bears his name, who arrived here today upon the liner Adriatic.

"I detest the hobble skirt," said Mr. Redfern heartily. "We have something coming out shortly to be known as the 'Louis XV.' or 'Quinze' dress, which, although like the hobble skirt in some respects, is entirely different in others."

Here is as much of the description as the famous dressmaker would reveal of his forthcoming creation:

"The Louis XV. resembles the hobble and then again it does not. It has its few good features and none of its many bad ones. It has the band around the bottom, but this band won't make women fall all over themselves getting on or off cars, or in and out of automobiles.

"It will be the rage in London within a few months.

"The hobble is doomed. London's society leaders have pronounced against it. Dressmakers have always been against it, characterizing it as the homeliest thing in women's apparel ever designed."

St. Louis Women the Worst.

Speaking as an expert, Mr. Redfern says that the worst dressed women in the world will be found in St. Louis, and the best in New York, London and Paris.

Accompanying the eminent designer of wearing apparel was Sir William Treloar, former lord mayor of London, and England's greatest philanthropist. Sir William came to study homes and hospitals for crippled American children. He is particularly anxious to go to Pittsburg to view living conditions among the working people.

PRINCE, TURNED PRIEST, WILL VISIT EDMONTON

Prince Szeptycki, Primate of Ruthenian Catholic Church, Is Touring the Canadian West.

Edmonton, Sept. 23.—A prince who turned priest that he might advance the work of his church in the world, and better the condition of his people, will shortly visit Edmonton, in the person of his excellency Monsignor Count Szeptycki, prince bishop of Limborg, and primate of the Ruthenian Catholic church over the entire world.

His excellency has just commenced a tour of Canada for the purpose of visiting the numerous missions among his people, of whom there are close to 90,000 in the three prairie provinces of Manitoba, Saskatchewan and Alberta.

His excellency's life history is a most interesting one. He comes of an ancient family of Ruthenian nobility, and holds a place in the Austrian house of lords. He is likewise a member of the privy council of Austria. Before he entered the church he was a cavalry officer in the Austrian army.

Monsignor Szeptycki has been attending the Eucharistic congress in Montreal, but leaves there this week for the west, reaching Edmonton some time in October. He is being accompanied on his tour by Bishop Oryterski, of Philadelphia, and by Archbishop Langevin.

STOLE MOTOR CAR IN STRANGE WAY

Paris, Sept. 23.—A large motorcar was stolen from a Paris garage the other night by means of a magnet.

When the garage of Lamberjack Bros. was closed for the night, the last man to leave locked the door and dropped the key in a letter box. The letter box was opened every morning by a night watchman who slept on the premises.

During the night the thieves slipped into the letter box a magnet tied to the end of a string and drew out the key. Opening the door, the chose a beautiful new motor car belonging to the firm, supplied themselves with two or three extra tires and other necessaries for a trip, including a new motor coat, and drove the motor car out of the garage without disturbing the night watchman.

"FRA" IN VAUDEVILLE.

Detroit, Sept. 23.—Fra Elbertus, the sage of East Aurora, is going into vaudeville at a salary of $2000 a week. He said so Sunday. During the day he spoke at the closing session of the National Insurance Underwriters association at the Hotel Pontchartrain and brought down the house.

"I'd as soon be in vaudeville as writing for magazines," said the Fra. "People may say it's a loss of dignity, but if dignity is all I'll lose I can afford it, for dignity is the mask behind which many people conceal their ignorance." The Fra said he was writing some advertising for the Standard Oil company and he criticized Ida M. Tarbell's recent exposure as being unfair to that corporation.

DATES OF EXHIBITIONS THROUGHOUT PROVINCE

At the annual meeting of the agricultural societies of British Columbia, held in Victoria in January last, dates for the fairs throughout the Province were arranged as follows:

First Circuit.

CITY NEWS

Fred J. Lynch, who has been in Victoria on business for the past few days, is expected back today in time to witness the Minto Cup match.

See Fales' furniture stock before purchasing elsewhere. Agnes street. *

The presbytery of Westminster will meet in Westminster hall, Vancouver, on Thursday afternoon to license the students of the first graduating class.

Guesses in J. H. Todd's competition on the result of the Minto Cup matches will be received until one o'clock this afternoon at his store. **

Commencing tomorrow, social song services will be held in the school room of Queens avenue Methodist church after the regular evening service.

Pot plants and fresh cut flowers at Tidy's store. Phone 184. **

The case of F. H. Lantz & Co. vs. A. R. Attoe and F. Muttitt came up in the county court yesterday, but was adjourned to a date yet to be set by the court.

For carnations, sweet peas and dahlias, phone Davies greenhouse, R 208. **

In the city police court yesterday Thomas Beatty, a bartender at the Colonial hotel, was fined $50 and costs for selling liquor to a drunken man. Magistrate Edmonds heard the case.

Don't forget that the Montelius Piano House is giving $100 discount off regular prices on all pianos within the next ten days. **

A meeting of the Liberals of this city will be held on Thursday evening at eight o'clock in the Liberal club rooms, over the Daily News office. A representative attendance is desired, as business of importance is to be discussed.

Davies greenhouse is the place to get bouquets, floral designs and all kinds of cut flowers. Phone R 208. **

The last act of the sordid Clayburn tragedy was finished yesterday when George Reid, the murderer-suicide, was buried in the Douglas street cemetery. There were no religious rites at his burial and his remains were interred in unhallowed ground.

W. E. Fales carries the best selected stock of household furniture in the city and prices defy competition. **

A man by the name of McLachlan was brought to the city yesterday from Agassiz to serve a year sentence in the penitentiary. He was convicted before Magistrates Agassiz and McRae on charges of supplying liquor to an Indian and of stabbing a halfbreed. McLachlan is a white man.

Iron beds and bedding, the largest range of designs and prices. W. E. Fales. **

The trial of Sasakai, the Jap accused of wounding a fellow countryman at Aldergrove early in the summer, has been postponed till October 11. It was set a few days ago for October 3, but on the application of the counsel for the defence Judge Howay consented to change the day.

Touring Car.—I have a five passenger touring car nearly new, for sale cheap. Apply P. O. Box 249. **

The appeal for help for the Morrison family made a few days ago by Frank MacKenzie, M. L. A., is meeting with a hearty response, donations of money and clothing being brought to his store every day. The amount subscribed to date is still far short of the loss sustained by this family through the recent bush fires.

For all electrical work and contracts phone T. Roberts, 761. **

Joe Lally, who was here yesterday getting acclimatized for today's game, spent a busy day. In addition to viewing the natural beauties in the neighborhood in company with H. A. Eastman, who took him around in an auto, Mr. Lally interviewed several of the city merchants and took orders for sporting goods, the manufacture of lacrosse sticks and like weapons being Lally's sideline. His real business is refereeing lacrosse matches.

The Montelius Piano House are located in the old Guichon hotel block. See the magnificent stock of high grade pianos there. Remember that $100 discount will be given off any piano selected. **

The Princess Ena, of the C. P. R. line, came in port last evening. She is awaiting the arrival of the Beaver at the C. P. N. wharf and will take to the capital many of the exhibits shown at the Chilliwack fair. The Victoria exhibition starts in a day or two and the vessel has been chartered by the fair directors to take all the exhibits from here and from district points to the capital. She will leave as soon as the Beaver arrives and the cargo is transferred.

Try a "Want" ad in The News It will bring results. **

REFORM HIGH SCHOOLS ADVOCATED IN COURIER

A strong case for the reform of high schools and collegiate institutes is made by Norman Patterson in the current issue of The Canadian Courier. It is pointed out that in order to keep the boys on the farm, agricultural countries must establish agricultural schools which will train the farmers' sons in the principles of farming. The present high school curriculum tends to drive young men into the universities and the professions. Similarly, the technical high school should replace the present institution in all manufacturig towns. This has already been done in Berlin and several other important industrial centers in Ontario. Here the young men are taught the simpler forms of working with wood and iron, as well as being given elementary training in the making of tools and the use of machinery.

In brief, a high school education should be a help to the great industries of the country, commercial, industrial, and agricultural. It should not confine itself so closely to the making of teachers, doctors, lawyers and dentists. It should develop all that is in a youth, without giving him false ideas as to the nobility of industrial and agricultural pursuits. It should be practical as well as theoretical.

The Public Supply Stores
