ampions Defeat Vancouver 3-2—Fight, Police Assault and Riot Qualms.

aturday was bargain day at eens park. For the small sum of r bits—only half a dollar—some thousand people saw Vancouver eated in the best lacrosse match ved here this season, had the privge of cheering Tommy Burns, once yweight champion of the world, ringside standing room in a classy dleweight fistfest, were present at assault on a policeman by a Vanver supporter and had all kinds of r-riot qualms thrown in into the gain.

nyone who can prove the excitent provided was not worth the ce of admittance is entitled to a rn of the half-dollar invested at gate.

nterest was keyed up all through game, but the incidents on the rd were easily eclipsed by the revents, the most exciting that e taken place here since——but er forget that.

he mixup started immediately afthe game, when Longfellow, reting a remark addressed to him Howard, started in to teach the coverpoint a lesson. Before Howhad any idea he was to emulate es J. Jeffries, Longfellow had ked the Vancouver man's head unhis arm and was raining blows n his face with a vigor that beened good training in this particustunt in the past.

Howard got the worst of the argut. When the fighters were finally d apart, the Vancouver man had roken nose as a memento of the ounter; Longfellow had nothing th while in the way of a souvenir.

Police Officer Assauted.

he big crowd that had gathered to ch the fistic affair escorted the ncouver players to the dressing m, a number making disparaging marks the while. Police Officer Johnston got into an altercawith a Vancouver supporter out the Agricultural building, where lacrosse players disrobe. Someinside the dressing room, evidentrattled by the excitement, hurled liment bottle out of the window, ing the policeman on the cheek, ting the flesh nearly to the bone. helmet strap probably saved nson from very serious injury.

Much Excitement.

lowing his whistle vigorously for istance, Johnston stepped up to the r of the dressing room and bottled the entire lacrosse team, but in meantime a number of friends of players had stepped outside, inding, according to the officials, the n who threw the bottle. In any e, when reinforcements arrived it s found impossible to ascertain the ntity of the individual who woundthe police officer, thereby qualifyfor a penitentiary term.

n the meantime the crowd outside building was expectant—just what y expected most of the men in the wd did not exactly know but they re ready anyway. A long delay ued before the visiting team sald from its quarters, Hogan leading. ere was no demonstration of any d, Police Officer Pentland having uested the crowd to step back and rain from undue activity.

o ended the exciting aftermath.

The Game.

Thomas Burns, retired heavyweight mpion of the world (he was red on December 25, 1908, at Sydy, Australia, by a cullud posson, stah Johnson by name), resolved nself into his erstwhile self, Noah usso, of lacrosse fame, and started ngs going by facing off the ball. mmy was a conspicuous figure on field, attired in a featherweight ter and sporting a gold-headed and mond-studded cane. The way which he unbent after settling the here between the sticks showed him nower of lacrosse. As soon as hosties started Burns made a quick n for safety to the roof of the press nd, whence he watched the game th considerable interest.

Mr. Burns is not given to over-talkg, but during the afternoon he made veral comments on the game which re certainly to the point, even if e News stands in too great dread the Lords Day Alliance people to int them. But what Mr. Burns said s just about right.

Play Fast and Exciting.

For the first few minutes nothing exceptional interest happened. Both ams started going strong and it was ident the match was going to be a assy affair. The ball traveled all er the lot, each goal being attacked turn but without success until Cliff ring flung the rubber in after sixen minutes of play.

Bob Springer, who loves a fight betr than ham and eggs, showed his sposition early in the game, making vicious swipe at Doughey Spring, t failed to connect, much to Mr. pringer's regret. Intentions not enling players to penalty checks, pringer remained on the field and hieved a record by not going to the nce once.

VATICAN ANNOYED AT SPANISH METHODS

Premier's Action in Announcing Recall of De Ojeda Through Press Resented.

Rome, July 31.—The papal nuncio at Madrid, Mgr. Vico, has not been recalled by the vatican, which is awaiting the official announcement of the recall of the Spanish government of Marquis De Ojeda, ambassador to the vatican.

The vatican is greatly offended at the methods adopted by Premier Canalejas in the recall of the Spanish ambassador as the announcement was made through the press and neither the papal nuncio at Madrid nor the vatican was notified directly. As a consequence the papal secretary of state, Cardinal Merry Del Val, has not been able to take any measure of retaliation, but it is believed that Mgr. Vico will be instructed to leave Madrid immediately after the official announcement of Marquis De Ojeda's recall is received here.

The opinion is held in some circles, however, that the vatican will give further proof of its tolerance by permittiig the apal nuncio to remain at Madrid, notwithstanding the withdrawal of the Spanish ambassador, as was the case when the French government ordered the French ambassador at the vatican to return to Paris.

FRASER FISHERMEN ARE MAKING BETTER CATCHES

Head of Run Seems to Have Reached New Westminster—All Boats Make Good Hauls.

If the salmon run is not going to pass the Fraser river altogether this year, the big run ought to start today or tomorrow. The fish now have had just time to come up the river and the indications last night showed that the head of the run was not far off.

So good was the fishing that one or two boats got over one hundred fish and they all made good catches. It was by far the best fishing there has been this year and the canners are confident that they will make a killing today.

The run may already have started farther down the river, but it was impossible to get into communication with Steveston last night and no information was available.

SLEUTHS ON HEELS OF QUEER MONEY GANG

Porterville, Cal., July 31.—A game of hide and seek has been played for the past three years with the officers of the United States secret service and a gang of couterfeiters who have been operating in the White River country. The first arrest was made today and the alleged offender is now in the custody of the officers in Fresno, where he is kept under the closest guard.

Officer Stewart, one of the oldest of the officers in the service of the United States secert service and a former Scotland Yard man, made the arrest.

HIS FIRST SWIM FINE FOR HE FOUND A WIFE

New York, July 31.—Orion Robinson lived in Atlantic City thirty-three years before he went swimming in the ocean. Last summer he was persuaded to take a dip.

Down to the beach in a bathing suit that every person of taste had to look at came Miss Elizabeth Higgins, daughter of S. B. Higgins, an Atlantic City merchant. She plunged into the water. It was not long before she cried for help. Robinson brought her to shore.

Today, a year after that episode, he married her.

DAYLIGHT BURGLARS ROB BEFORE CROWDS

Cincinnati, July 31.—Almost within sight of the crowds passing on Vine street, burglars worked in the storeroom of the Richter & Phillips company, wholesale jewelers, Fifth and Vine streets, early last night, selected several thousand dollars' worth of loot, packed it up, lowered it by a rope into a brilliantly lighted alley, climbed down a ladder made of trunk straps and escaped.

U. S. Game Season Announced.

Washington, July 31.—Secretary Wilson today issued regulations as to Alaska game, declaring the open season for deer August 15 to November 1. Eight deer is the limit for one hunter. Sale of deer carcasses in Southeastern Alsaka suspended after October until 1912. Open walrus season in Bering straits and sea north of Kuskokwim is May to July 1. Walrus killing in Bristol bay and Bering sea south of Kuskokwim river is prohibited until 1912.

CRIPPEN AND INAMORATA ARRESTED ON BOARD MONTROSE

Inspector Dow, of Scotland Yard, Boards Vessel at Father-point. Clever Uxoricide Relieved. Miss Leneve Collapses When Captured.

Father Point, Que., July 31. — Dr. Hawley Harvey Crippen and Ethel Clare Leneve, his stenographer, who fled from London after the disappearance of Belle Elmore, the doctor's wife, were arrested here today aboard the Canadian Pacific liner Montrose at the command of Inspector Dow, of Scotland Yard.

The identification of the fugitives by the English detective marked the culmination of one of the most sensational flights of recent criminal annals.

Girl Breaks Down.

Accompanied by two Canadian officer Inspector Dow boarded the vessal at 8:30 o'clock this morning, and fifteen minutes later both the man and girl were locked in their staterooms, Croppen broken in spirit but mentally relieved by the relaxed tension, the girl, garbed in boy's clothing, sobbing hysterically. They were no longer the Rev. John Robinson and son, as booked from Antwerp on July 20.

After a brief delay the Montrose continued her 160-mile journey up the river towards Quebec, where jail awaited the pair.

Charge Is Murder.

Crippen is charged with the murder of an unknown woman. The girl is held as an accessory. They will be taken back to England on the steamship Royal George, leaving Quebec on Thursday.

Inspector Dow Nervous.

The scene near the little settlement this morning was dramatic. Inspector Dow had spent a sleepless night at the Marconi operator's side. At 7:30 a. m. the approaching ship's whistle was heard. It awakened the villagers and the newspaper men, who had dressed hastily and waited in a drizzling rain for the liner's arrival. Shortly after 7:30 a. m. the Montrose pushed her nose through the fog, and at 8:15 a. m. the pilot boat Eureka set out from ashore.

Crowd With Pilot.

She carried a host of newspaper men and photographers and as many townspeople as could crowd aboard, but Inspector Dow was not among them. He had embarked on the Eureka's small tender, accompanied by Chief McCarthy, of the Quebec police, and ex-Chief Dennis, of the same city.

Dow Disguised.

All wore the garb of pilots and over his florid face the inspector had pulled a pilot's visored cap. He did not wish Crippen to recognize him before he could approach and take advantage of the only avenue of escape, suicide.

Scene on Vessel.

Four sailors quickly rowed the tender alongside the Montrose and Dow and his companions stepped aboard. Crippen was standing near the rail talking with Dr. Stewart, the ship's surgeon.

Crippen Was Afraid.

That he was nervous was indicated by his furtive glances and his remark to Dr. Stewart. "There are three pilots coming aboard," he said. "Is that unusual?" The physician did not reply, but kept his eyes on the strangers, who walked rapidly towards them.

Dramatic Scene.

"Crippen, I want you," said Inspector Dow, quietly, as he approached. The dentist recoiled involuntarily as he recognized the man who addressed him; then the blood left his face; his breath came short and fast and he gurgled incoherently. As he was being led away to the captain's cabin, from which he was transferred later to his own stateroom, he said gratefully, "Thank God, the suspense is over, and I am glad!"

The Girl Arrested.

Crippen's arrest accomplished, Dow hurried to Miss Leneve's stateroom, where he found her still dressed as John Robinson, jr., on the verge of nervous breakdown. Her appearance when told that she was under arrest was pitiable. All control that she had fought so hard to retain throughout the voyage left here. She cried out hysterically and became so faint that restoratives were administered.

DELAY ANNOUNCEMENT ON G.N.R. TRAIN SERVICE

Exhaustive Inquiries Being Made as to Passengers and Freight Before Changes Are Decided On.

There is still no definite announcement about the Great Northern train service on the south side of the river. W. A. Ross, assistant general passenger agent from Seattle, and K. J. Burns, superintendent, of Seattle, were in the city recently and went over the line. They made inquiries about the amount of freight and the number of passengers taken on at all the stops which have been cut out, but all that can be said at present is that they have the matter under consideration.

In the final reckoning, Superintendent O'Neil, of Seattle, will have the last word as to how the service shall be run, and he is evidently waiting until all the evidence is in before making a decision. The same applies to the question as to whether or not the trains shall come into the Westminster market every day. It has been promised that the train which comes in on Friday shall come as far as the market, and that is probably the only one that will, for the time being at least.

MINERS VOTE DOWN REFERENDUM PLAN

Denver, Col., July 31.—The Western Federation of Miners yesterday voted down a proposition to elect officers by referendum vote. It was hinted that the proposed change was primarily for the purpose of defeating President Charles H. Moyer for re-election.

The scheme was to have the convention nominate two candidates for the position and submit their names to the unions for vote as to choice. The one receiving the highest vote was to be declared president by the executive board. In the meantime Moyer would continue in the office until announcement of the union's choice was made. The proposition, made in the form of a resolution, was overwhelmingly defeated.

SIR WILFRID REACHES SASKATCHEWAN'S CAPITAL

Regina, July 31.—The prime minister is spending Sunday quietly here. He attended mass at St. Marys church with Lieutenant Governor Forget.

Tomorrow there will be an official reception by the city, a visit to the mounted police headquarters, a luncheon by the board of trade, and a mass meeting in the evening. He will open the Regina fair on Tuesday.

CAMPBELLTOWN SUFFERS STILL FROM CATASTROPHE

One Thousand People Without Beds. Quebec Comes Nobly to Rescue With Funds and Supplies.

Campbellton, N. B., July 31.—An indication that the outside world is becoming more aroused to the seriousness of the situation here is seen in the increased contributions received on Saturday. They totalled more than $3,000, the larger part from Upper Canada cities.

There was a heavy rain Saturday and the people are becoming somewhat downheartened.

One hundred and fourteen mattresses from the Alaska Feather & Down Co., of Montreal, fell short of the demands and fully 1,000 people yet have to sleep on blankets and spruce boughs.

BALLOONISTS ASCEND TO BREAK RECORDS

Marion, Ohio, July 31.—The balloon Drifter, which made an ascent from Hamilton at six o'clock last night, landed four miles west of this city this morning at nine o'clock, having first drifted south, then circled Hamilton, then north to Bellefontaine, thence back to Columbus and again north to Marion. The highest altitude attained was 8,000 feet.

The pilots were Walter C. Collins and G. R. Howard. Jean Arent was a passenger.

The ascent was made in an effort to break the forty-four hour endurance record for spherical balloons.

DUTCH COLONISTS SETTLING ON SOUND

Seattle, July 31.—A colony of sixty Hollanders, direct from the old country, arrived yesterday at Everett and were shipped direct to Birmingham, where they have purchased 600 acres on Lake Goodwin. So says C. D. Hillman, who asserts they will engage in dairying. Hillman expects 400 more of the Dutch immigrants to arrive from the old country this fall.

CLOUDBURSTS STOP RAILROAD BUSINESS

Telluride, Col., July 31.—Cloudbursts north and south of here this afternoon have about severed all railroad connection with neighboring towns. Ten miles south tracks of the Rio Grande Southern were weakened so that the southbound train went into the ditch. Every car and the engine left the track, but none of the passengers or crew were injured.

RUMOR SETTLES RAILWAY STRIKE

Negotiations Between Officials and Men of G. T. May be Successful.

Montreal, July 31.—The impression that the Grand Trunk strike is nearing its closing hours is stronger than ever tonight but when the various rumors are sifted down the most that can be positively said is that negotiations are still on and that a settlement is threfore not an improbability.

Vice President Fitzhugh, of the Grand Trunk; President Garretson, of the conductors, and President Lee, of the trainmen, held a prolonged conference today with Hon. W. L. Mackenzie King, minister of labor, but all of these parties when asked what is being done confine themselves to the statement that they cannot talk.

Report has it that the men have practically abandoned their demand that the company must agree to take back all the men who went out on July 18 and restore them to their former runs and pension rights before anything else is done, the company absolutely refusing to talk settlement on any other basis.

Soldier Shot.

Campbellton, N. B., July 31.—Harold Wheeler, of the local militia, was the victim of a shooting accident today and is in a precarious condition.

BRUTAL BELGIAN IS SEIZED AT WINNIPEG

Man Arrested on Charge Three Years Old—Will Be Taken Back to Belgium.

Ottawa, July 31. — Colonel A. P. Sherwood, head of the Dominion police was today notified of an important arrest at Winnipeg by one of the Dominion force officers. He took in charge Pierre Vinekir, who is wanted by the Belgian government, and who in 1907 was sentenced to six years on a charge of indecent assault on children under eleven years of age.

Vinekir escaped without serving any of the sentence and the Belgian government asked the Dominion authorities to apprehend the man, as it was believed he had come to Canada.

He was located in Winnipeg yesterday and will be extradited.

NEW YORK COURT ROOM AIR RICH IN "BUGS"

New York, July 31.—That the air of the average New York court room is far from pure, despite frequent house cleanings and large expenditures for ventilating fans, is evidenced by the results of tests made by state medical inspectors, who have just submitted their report. An example of what they found is the following, a portion of the report on the air in one of the county court rooms:

"The bacterological determination shows twenty-seven colonies of bacteria and five moulds in two letters of air aspirated through an aerobioscope. Isolation of the bacteria showed pseudo disptheria bacilli and klebs, loeffler bacilli, bacilli cold, tubercular bacilli, and nonpathogenic cocci."

IS WIDOWER A WEEK, THEN WEDDED A WEEK

Aberdeen, July 31.—Sheriff Edward Payette returned from the Quiniul reservation, tired and covered with dust and not in the best of humor. He had made a motorcycle trip of many miles in order to serve papers in a divorce suit brought against his bride of a week by John Shale, but was unable to find the defendant.

Shale married Annie Johnson, a girl of seventeen, at a double wedding, when his wife had been dead only a week. It took him but a few days to decide that she was too extravagant to suit his pocketbook, so he decided upon a divorce.

Mrs. Shale could not be found, as she had gone with a party of relatives and friends on a blackberry expedition a long distance down the beach several days before the sheriff's visit.

NEW THEATRE WILL BE ERECTED IN VANCOUVER

Vancouver, July 31.—Edward G. Cooke, representing the Klaw & Erlanger theatrical firm, of New York, is visiting Vancouver for the purpose of selecting a site for a theatre which it is proposed to erect here. In a statement at the Vancouver hotel, Mr. Cooke intimated that the new playhouse would be modern in every respect, the expenditure considered in connection therewith being something like $500,000. A deal for the purchase of a site will probably be closed in a few days, negotiations being now in progress in reference thereto. It is further stated that Klaw & Erlanger have arranged for the construction of new theatres in Seattle and Portland, and are negotiating for sites in Tacoma and Spokane.

NEW BISHOP MAKES AN OFFICIAL VISIT

Congregation of Holy Trinity Cathedral Presents Address to Bishop de Pencier

The Right Reverend Bishop de Pencier, bishop of New Westminster and Kootenay, yesterday paid his first visit in his new capacity to this city. At Holy Trinity cathedral yesterday previous to the morning service the following address was presented to him by the congregation of the cathedral:

To the Right Reverend Adam Urias de Pencier, Master of Arts, Lord Bishop of New Westminster:

Right Reverend Sir—On behalf of the Cathedral Parish of the Holy Trinity, New Westminster, we desire to extend a hearty welcome to your lordship, on this, your first official visit to the see city of your diocese. We are pleased that you are holding this ordination service, which constitutes your first Episcopal act, within the walls of the Cathedral Church, which stands on what has been hallowed ground for the past fifty years. Fifty years is but a short time in the history of the British nation or of the Church which existed before the nation itself; but it is a period of supreme importance in the inception of the Church's life in a new field. The foundations were well and faithfully laid by the Rev. John Sheepshanks, whom some of our congregation lovingly remember, and who has recently resigned the See of Norwich: and Queensborough, as our Royal City of New Westminster was then called—the capital city of the province—became the nucleus of the Church which has spread, under the wise guidance of our fathers in God, Bishop Sillitoe and Bishop Dart, throughout the length and breadth of the province. We are confident that, with the blessing of Almighty God, and under your leadership the Church will go on from strength to strength, and we pray that you may be spared to preside over this Diocese of New Westminster to which you have been called.

Again we beg to assure your lordship of our cordial and loyal welcome.

Signed on behalf of the congregation of the Cathedral Parish of the Holy Trinity, New Westminster.

G. C. d'EASUM,
Rector.
J. J. JONES,
R. EDEN WALKER,
Wardens.

In reply to the address, the Bishop said in part:

"Mr. Rector and Wardens of the Cathedral Church of the Holy Trinity: I deeply appreciate, more than I am able to tell you, this expression of kindly welcome from the congregation of this parish, and the good feeling which prompted this address. I trust that it may continue for all time, and I hope that you will consider that I am in every way working with you for the advancement of the Church in this rapidly developing country, and that we may together try to build upon the noble work done under my predecessors in the Episcopal office. This is not the time to try to give expression to the many emotions which surge upon me at this moment, but I wish sincerely to thank you for your address of welcome."

After the morning service, assisted by Ven. Archdeacon Pentreath of Columbia and Canon d'Easum, rector of the cathedral, Bishop de Pencier ordained to the deconate Rev. P. Walker, a graduate of Durham university in England and a recent arrival in this province.

During the choral service in the morning the choir rendered, "How Lovely Are the Messengers," from Mendelssohn, the solo being taken by A. Mackness. The special sermon for the occasion was preached by Rev. C. B. Clarke, of the diocese of Ottawa.

During the day yesterday Bishop de Pencier walked around the city in company of Rev. C. B. Clarke, visiting the waterfront and making a general tour of the city. It is expected that he will come over here to live as soon as arrangements can be made to move from Vancouver.

Suit Over Aching Tooth.

Paris, July 30.—Mlle. Delmares, late of the Folies-Marigny, suffered from toothache so badly that she had to fly from the theatre to her dentist and leave her part to an understudy. Her manager sued her and cast doubt upon her toothache. The courts have vindicated her completely. Her toothache was perfectly bona fide and the manager loses his action for damages, as well as being obliged to pay Mlle. Delmares a balance due on her salary.

Must Pay Taxes.

Fort Frances, Ont., July 31—A severe blow was given to C. W. Backus, of Minneapolis, the head of the power company operating here and at International falls, when the court of appeal judge on Saturday assessed him $400,000 on which he will pay taxes to the town of Fort Frances.

LIGHTNING EXPLODES DYNAMITE IN TUNNEL

Ossining, N. Y., July 31.—Two men were killed, one seriously injured and another rendered deaf by the premature explosion of ten pounds of dynamite 300 feet below the surface of the earth in the tunnel for the new aqueduct. The men were preparing to set off the blast when the charge exploded by lightning, which had struck the rails at the opening of the tunnel a quarter of a mile away and had followed the rails into the interior of the tunnel to where the blasting was in progress. Elijah and Elsey Cannon, negroes, were instantly killed, L. F. Walsh, foreman of the works, sustained many bruises and his eardrums were broken by the concussion. Merci Petre may die.

DECLARES JAPAN IS SEEKING ONLY PEACE

Diplomat Doubts Earnestness of Member of Irrigation Congress, Who Believes War Inevitable.

Chicago, July 31.—In reply to the prediction of H. L. Moody, member of the irrigation congress now in session here, that Japan is preparing for war with the United States, K. Yamasaki, the Japanese consul at Chicago, has sent a communication to a local paper, in which he says:

"The distinguished speaker seems to entertain the startling view that conflict between the United States and Japan is inevitable. I am inclined to doubt his earnestness. He makes a further assertion that the war will surely come within thirty years. He might as well contend that Japan will capture Chicago before one can say 'Jack Robinson.'

"Since the conclusion of peace with Russia, Japan has been engaged with renewed energy in peaceful development. Her ambition is to attain industrial prosperity and national welfare. It is true that Japanese steamships carry a part of the Pacific trade at present. To control that trade is, however, beyond the imagination of the Japanese people. The Japanese want only a legitimate share of the trade of the Pacific.

"No cloud whatever overshadows the most cordial relations existing between the United States and Japan; causes for war exist only in alarmists' fertile imaginations."

CHILDREN DROWN BEFORE MOTHER'S AGONIZED EYES

Bellingham, July 31.—While the mother looked on hopelessly, only a few yards from them, Alma Hildebrand, aged twenty-one, and Irving, aged thirteen, were drowned last night in Lake Whatcom, near their summer home, just above Revoille Island.

Mrs. Leda Gessdahl, a sister, saved herself from the same fate by clinging to the overturned canoe in which all three had been paddling. She was dragged ashore almost exhausted by her mother. The bodies of the two victims of the accident have not been recovered, although neighbors of the Hildebrands are dragging the lake.

News of the drowning reached the city this morning when Mrs. Hildebrand and Mrs. Gessdahl reached Silver Beach by boat and came there to the city by lake car. Both women were hysterical as a result of the tragedy.

ENGLISHMAN INVESTS $5; WINS $160,000 ON DERBY

London, July 31—"The luckiest man in England" this year is Capt. H. T. Raban, who drew the winner, Lemberg, in the Calcutta sweep on the Derby. On an investment of less than $5 he won $160,000. If he had kept his nerve his winnings would have amounted to one-quarter of a million dollars on his original $5—the greatest in the history of turf betting. But when he learned he had drawn Lemberg, he sold half of his tickets for $37,500.

The fortunate officer is now in England on a year's leave. No. 93,211 was his winning ticket. He is the stepson of the Rev. C. E. Chard, rector of Hatch-Beauchamp, in Somerset, and is an assistant military accountant of the first-class in the Indian army accounts department. He bought two other tickets for members of his family. He is a member of the Isthmian club.

The Calcutta sweep is the largest racing pool of the kind in the world, almost half a million tickets being sold in all parts of India and the East as well as in England. The tickets, which cost ten rupees, or about fourteen shillings each, are keenly competed for, and syndicates buy up large numbers and subpool the result. Even to draw a starter in the race means a large cash prize, and the second and third horses draw amounts in proportion to the first prize.

The history of the sweep has many romances. It was started by the Calcutta Turf club as a comparatively small affair, but it has yearly grown in popularity until now nearly every sportsman in the east and the colonies takes one or more tickets. One year the first prize of $150,000 was won by the six-year-old daughter of a signal man on an Indian railroad. The family was thus instantly lifted into prosperity. In another year the prize fell to the lot of an officer who had just lost his all through the speculations of his son.

The Derby sweep last year was won by a valet in the West End club in London, who sold half his ticket for $30,000, bought a large farm on the proceeds and retired.

PICTURE OF CIGARETTE MIGHT HURT POSTERITY

Chicago, July 31.—A painted cigarette may be the cause of depriving the city of Chicago of a portrait of the late Frederick Warren Freer, one of the most famous of local artists, who died several years ago.

The cigarette is shown in the portrait, held between the fingers of the dead artist, a wreath of light smoke curling up over his head. The portrait was offered by Mrs. Margaret Freer, the artist's widow, to Charles L. Hutchinson, of the Art Institute.

The portrait, it is said, was tentatively accepted, when a member of the committee, accompanied by Miss Lucy Page Gaston, viewed it as it hung in the Art Institute. A sudden opposition against the picture arose, based, it is said, on the cigarette which the painted figure held.

Miss Gaston is said to have led the fight against the picture, asserting that the influence of the cigarette would be harmful to generations to come who would gaze upon it if the city purchased the painting.

SPEAKER CANNON ONCE MORE BITTERLY SCORED

Congressman Murdock, of Kansas, Pays His Respects to Leader in House.

Pleasanton, Kan., July 29.—In a speech here yesterday afternoon, Congressman Victor Murdock said that "in the days of his power, it was harder to get into Speaker Cannon's chamber than into the White House."

Continuing, Mr. Murdock said:

"Only the members of his cabinet had the entry, and who is that cabinet? Why, Senator Lorimer for one. Lorimer, whose election to the senate is a national scandal. Who for another? Why, Joe Sibley, of Pennsylvania, who takes care of the lubricating end of the Standard Oil company's business. You remember Sibley. He wrote some letters to Archbold of the Standard Oil company once. Then there is Lucius Littauer, of New York, go-between for Tammany.

"Those are types of the speaker's associates. This man of the people! This is the man who ran your congress for you. There are many of us who can testify to the weight of his hand. What happened when congressmen dared to stand in his way? Cooper, of Wisconsin, did it and was bounced off his committee. Norris, of Nebraska, and Gardner, Massachusetts, did it, and they were lifted out of their committee places. I did it, and what happened to me? It took Cannon some time to fix on my punishment. He did not want to do anything that would make a martyr of me in Kansas, so he adopted the refined cruelty of taking me out of fifth place on my committee, which I had worked up to six years, and put me down at the bottom again, and there I am now. Well, do you imagine I can't kick as hard at the bottom of a committee as in the middle of it? It wasn't I he punished. I am not in congress. It is the eighth Kansas district and it is in the name of the people of that district that I am fighting Connonism."

BIG GERMAN BANK LOOTED IN TRUE AMERICAN STYLE

Dortmund, Germany, July 29.—The list of bank failures in Germany through excessive speculative operations has received a striking addition in the insolvency of Niederdeutsche bank, against which bankruptcy proceedings were begun today. This action was preceded by the arrest of Herr Ohm, one of the directors and the chief manager of the bank, who came to grief through his attempts to found numerous industrial companies which were inadequately capitalized.

The liabilities of the bank are placed at $12,500,000, while its capital is $3,000,000. It is stated that the depositors will lose the greater part of their money and the members of the board nearly the whole of their private fortunes. It is reported that Ohm owes the bank a huge sum and it is understood that other arrests are impending.

CITY GOVERNMENT COST SHOWS GREAT INCREASE

Washington, July 29.—According to figures prepared by the census bureau the larger cities of the country pay more for schools, and for police and fire protection and related service, than on all other accounts, and of these two items the payment on account of schools is much the largest, the per capita expenses for schools being $4.70, as compared with $2.25 for police, and $1.72 for fire protection.

The report covers all cities of more than 30,000 population, of which there are 158. The aggregate cost of operating these cities was $494,997,312.

The report indicates a general increase in the cost of maintaining city governments. In 1902 the average was $13.36 per capita. By 1906 it had advanced to $16.81; of the total amount more than one-fourth was paid by New York.

STRANDED INDIANS TO RETURN TO AMERICA

Washington, July 29.—Consul Watts at Brussels, having reported to the bureau of Indian affairs that thirty-nine Sioux Indians connected with an American wild west exhibition are dissatisfied and desirous of returning to their homes on the Pine Ridge reservation in South Dakota, the Indian bureau has cabled instructions that the red men be brought back.

It was recently reported to the bureau that the Indians were stranded owing to the show's poor season. The manager of the company, however, claimed that he could fulfill his contract obligations with the Indians and that they were willing to remain.

The officials asked the American consul to investigate the matter and their action was determined by his report that the red men wanted to come back. The transportation will be paid from the funds deposited as a guarantee by the manager.

TELEPHONE POOR FIRST AID TO TARDY JUSTICE

Trinidad, Colo., July 29.—As a first aid to tardy justice the telephone is not a success in the opinion of Samuel Chullo. Chullo, who lives near Elmore, engaged in a fight with his neighbor, Ignacio Maniscolco, Tuesday night. Immediately after the encounter Chullo called up District Attorney Clark by telephone and insisted on pleading guilty to a charge of assault and battery, and requested that the amount of his fine be made known so that he could mail in a check.

The district attorney told him that there was no case and went back to bed. Yesterday morning Chullo was on hand early and again begged leave to plead guilty. When again told there was no case against him Chullo was about to return to his home disgusted when Maniscolco appeared and filed a complaint. Immeriately Chullo was arrested and the case was set for hearing next Saturday.

Thoroughly disgruntled, Chullo then gave bonds and returned home.

QUITS SHIP IN 'OLD GOWN'; DUTY $600

"New?" Asks the Inspector "Dear Me, No," Says Woman, But She Capitulates

New York, July 29.—A good-looking young woman was standing on the Cunard pier waiting to have her baggage inspected by the customs officers soon after the Lusitania reached its dock. She was attired magnificently and had the proper air of hauteur becoming to a returning "othersider."

John P. O'Connor, one of the keenest-eyed deputies of the service, looked through her trunks. When he finished he said: "Pardon me, miss, but is that a new gown you are wearing?"

"Dear me, no!" responded the Lusitania lady, with crushing scorn. "This is an old thing that I had made by ——, of Fifth avenue, before I went away. Four months before I sailed, I think it was."

"I'm sorry," said the polite Mr. O'Connor. "I mistook it for one of the latest Paris models. I don't want to bother you any more than is necessary, so I'll simply call up your modiste and verify that statement. Then you can pass right along."

The exquisitely-gowned young woman gazed at Mr. O'Connor for a moment. He gazed at her. Then she said lightly:

"Oh, don't bother. I'll just declare this gown and pay the duty upon it—to save time."

"Thank you," said O'Connor, aloud. Under his breath he added: "I thought you would."

The Lusitania passenger paid $600 duty upon the gown, which was worth $1,000 if it was worth a cent. It was, as the inspector had believed (because he had kept in touch with foreign fashion magazines) one of the finest Parisian creations. O'Connor was gallant enough to withold the young woman's name.

BUTCHERS TO ORGANIZE TO LOWER MEAT PRICES

Chicago, July 29.—Lower prices of meats will be brought about if the plans of the United Butchers of America are put into successful operation.

The reailers declare that the packer is to blame for the high prices of meat, and now plan to prove it by eliminating that individual.

John H. Schofield, secretary of the butchers' national organization, says an attempt will be made at the convention here August 15 to 19, to organize and establish independent cooperative abattoirs, rendering plants and tanneries, and he expects arrangements to be made for trying the experiment in Chicago.

"The question has been under consideration for some time, and now we feel certain that the project will go through," he said. "This move will enable the retail butcher to operate independently. We propose to kill all our cattle and market the by-products. With the great profit accruing from the by-product, we would be able to retail meat to the consumer at least fifty per cent cheaper than the prices now asked, and still make a healthy profit."

MILLIONS TO BE HAULED THROUGH CITY'S STREETS

Chicago, July 29.—Twenty-five million dollars in gold, silver and greenbacks, as well as $93,000,000 in securities, will be moved Saturday from the Continental National bank to the Commercial National. The transfer will necessitate the use of scores of policemen and private guards. Two wagons will be used to haul the money.

The two banks have been merged and on August 1 the new Continental and Commercial National bank will begin business.

"PIERRE OF THE PLAINS."

With the presentation of "Pierre of the Plains," by Harold Nelson company of players at the Opera house next Friday, the pinnacle of local interest has been reached. Mr. Nelson is Canada's foremost dramatist; is the pioneer producer of palatable entertainment of the educational and highly moral sort, and is perhaps the only star who has the advancement of things theatrical in this section really at heart.

This was demonstrated when he closed his run of unprecendented success August 1, at the Beck theatre, Bellingham, to make his annual road tour of the Canadian provinces and upper Washington. The Beck theatre, Bellingham, and the Garrick theatre, San Francisco, have been put at Mr. Nelson's disposal as producing houses and at high admittance prices his efforts have won favor and unlimited engagements. Despite these alluring inducements he has induced his manager, G. G. Garrette, to arrange his time so as to permit of the present tour.

"Pierre of the Plains" is Mr. Nelson's masterpiece. It deals with stirring scenes on the border in the days of early settlers. Pierre, played by Mr. Nelson, is a breed who has been much maligned by enemies in the eyes of Jen, the daughter of a road house keeper. He loves the girl devotedly without telling her until after he has proven his courageousness in a tragedy that serves as a thrilling climax. The end is a happy one to all concerned.

In the excellent supporting company, Miss Grace Johnston, the beautiful young San Francisco leading lady, heads the feminine contingent with a deliniation of Jen, that tingles with vivaciousness in every line.

ALL-RED ROUTE SCHEME MAKES LITTLE PROGRESS

England Shows No Interest in Patriotic Plan to Link up Scattered Sections of Empire.

London, July 31.—The "all red route" project, about which so much was heard a year or two ago is declared in an official bluebook just published to have met with so many difficulties as to have made little or no progress towards realization. The project, as is well known, proposed a fast line of steamships on the Atlantic and Pacific oceans and an accelerated train service across Canada, government aid being sought for the purpose.

The same bluebook contains correspondence published since the imperial conference was held in 1907, showing that the home offiice advocates discussion of measures for preventing the arrival in Great Britain of undesirables expelled from the dominions. Between 1907 and 1909, 516 aliens were deported from Canada, of which 464 were removed from Great Britain to the country of origin.

A deputation saw Mr. Asquith yesterday in reference to the scheme for inviting representatives from the dominions over the seas to the coronation. They urged the government's co-operation. Mr. Asquith suggested that the matter should be left to both houses of parliament who would decide what course should be allowed. It is probable the visitors will be the guests of the lords and commons.

The question of imperial preference was brought up in a speech last night by Lord Milner at Newton Abbott. He said the question today was "Would preference be maintained in the future as it is in jeopardy today and in the greatest jeopardy in the very country which originated it—Canada."

"It is entirely our own fault," he said, "because we have not taken the slightest step or lifted a finger to encourage Canada or any other dominion to maintain it."

Lord Milner said he did not like to think what condemnation future generations would pronounce on the obstinacy and wrong-headedness of the statesmen responsible for this failure, if failure came, or on the blindness of the nations which permitted it.

COMMITS SUICIDE AT 102.

Had Been Tired of Life and Wanting to Die Fifty Years Ago.

Vienna, July 31.—Explaining that he was terribly bored with life, a man named Joseph Reslowsky committed suicide at Budapest at the age of 102. He left a letter stating that after waiting patiently half a century, he decided to take the matter in his own hands.

BRAVES AMMONIA FUMES.

Ice Plant Engineer, Blindfolded, Does Act of Heroism.

North Yakima, July 31.—When the return bend of the ammonia condenser in the local ice plant burst, John Venn, the engineer, wrapped a damp cloth about his face and eyes, held his breadth and rushed blindfolded to the valve which controlled the ammonia supply and shut it off.

RAISE OF PAY FOR CANADIAN OFFICERS

Ottawa, July 31.—An order in council has been passed fixing the rates of pay for officers and men in the naval service of Canada. Pay allowances and gratuities are based upon the rates in the imperial navy, taking into consideration the increased cost of living in Canada. On the whole the rates vary from twenty-five to fifty per cent more than the British rates. Captains, on promotion, will receive $8.20 per day, after four years' service $9, and after eight years' service $9.60. Commanders will receive $6 per day on promotion, and lieutenants $4 per day with corresponding increase as regards length of service. Other figures include: Gunners, boatswains and carpenters $2.50, able seamen fifty cents, ordinary seamen fifty cents.

MISCHIEVOUS LEGISLATION.

The feeling of indignation against the British Columbia companies act is growing apace, a circumstance which will not surprise any one who posesses a modicum of common sense and business experience. A more mischievous piece of legislation it would be difficult to concoct. The act is not only annoyingly unfair to manufacturers throughout the other provinces of the dominion, but is directly opposed to the natural and proper freedom and development of trade. Yet the author of this wonderful statute absolutely declines to listen to the representations of the commercial interests, either of this province or of the dominion, and persists in enforcing its provisions in a most high-handed way.

Many large commercial concerns in the eastern provinces are experiencing great annoyance and loss by reason of the act. The representatives of some of these have been held up in this province until the necessary license is obtained. The annoyance in this respect is increased by the delay which ensues in securing such license. One large Toronto firm has had its representative waiting on the coast for over three weeks awaiting the issue of this precious document. It would seem impossible that this state of things can continue.

The Canadian Grocer, commenting upon this form of legislation, observes:

"The extra provincial tax of British Columbia is a menace to inter-provincial trade. There is no doubt about it.

"It is a sort of McKinley act levied against the other provinces composing the dominion.

"But while this is true, do not let us who live and do business outside British Columbia, play the hypocrite. These British Columbians may be sinners greater than we are in this one respect, but none of us can lay claim to being altogether free from narrow provincial legislative sins of the type which has been placed upon the statute book of British Columbia.

"Several of the provinces have rather drastic laws on their statute books in regard to extra provincial companies. In Ontario, for example, the penalty for non-registration is the same as in British Columbia, namely, $50 a day for the company and $20 a day for the agent or representative. And then some that have not extra provincial taxes, permit municipalities to levy taxes upon commercial travelers, which is even a more irksome form of taxation.

"Wherein the British Columbia act chiefly differs from similar acts on the statute books of Ontario, Quebec and Manitoba is in its enforcement. British Columbia seems determined to strictly enforce the law; the other provinces that possess a similar law are in the main unconcerned about its enforcement. The Vancouver board of trade has failed to induce the attorney-general to suspend the operations of the act for even six months.

"The enforcement of the law will certainly interfere with trade relations between British Columbia and the other provinces.

"But the tax of $25 to $250, according to the capital stock of the company, is not the worst feature of the legislation. It is its narrow provincialism that is most to be deprecated.

"It is nationalism, not provincialism, which should be the aim of every Canadian to develop.

"A law which, according to the attorney-general's own words, declares it to be illegal for a person in British Columbia to order goods from a non-registered company located outside the province, certainly does not savor of nationalism.

"Before, however, the business men of eastern Canada seriously undertake the modification of the objectionable British Columbia act, would it not be well for them to begin at home? Their laws in practice, may not be as aggressive as that in British Columbia, but they are on the statute book, and as long as they are thereon they can scarcely, with clear consciences, undertake the regeneration of their fellow sinners in the Pacific province."

BLIND CRIPPLE SAVES MAN FROM DROWNING

Philadelphia, July 31.—With his eyesight so bad that he can scarcely distinguish light from darkness, and with his right leg cut off at the knee, Thomas Erndt, at Bloomburg, proved himself a hero when he jumped into ten feet of water in Fishing creek and saved James Hershaman, of Epsy, who had jumped into the stream with suicidal intent. Herchaman handed his money to Erndt, with the request that he give it to his wife, and left the house. A few moments later Erndt heard a splash in the near-by creek, and, hobbling to the place jumped in, his wife on shore directing his efforts. His one hand finally clutched the drowning and unconscious man, and he managed to get him to shore unaided. Physicians worked with Herschaman an hour before he regained consciousness.

FOUND AGAIN!

Dr. Cook Now Discovered Living With Brother in Brooklyn.

New York, July 31.—Friends of Dr. Frederick A. Cook, the explorer, believe that he is now in seclusion at the home of his brother, W. L. Cook, in Brooklyn, and that he has been there since July 2.

The manager of the Waldorf-Astoria hotel, where Dr. Cook stayed for six weeks when he first returned to this country from Denmark, showed tonight a letter, in Dr. Cook's handwriting, which had been received on the evening of July 2 and which was postmarked Brooklyn early in the afternoon of the same day.

The letter read: "Kindly send the receipt for the package of furs which you have placed in storage for me, to W. E. Cook, 474 Bedford avenue, Brooklyn, and oblige. Yours truly, (Signed) F. A. Cook."

The ink on the letter was still fresh, which would seem to remove any possibility that it had been written earlier at a distance and mailed to Brooklyn under separate cover to be posted again.

MANY DRUNKS.

Twenty-Five Thirst Quenchers Faced Magistrate Last Month.

In the city police court last month there were more cases of drunkeness than there were off all other offenses combined. The following is the table of crimes, the most serious of which is pointing a revolver:

Breach of street bylaw, 1; breach of pound bylaw, 1; breach of sanitary bylaw, 1; breach of explosives bylaw, 1; breach of Indian act, 4; assault, 1; carrying concealed weapons, 1; pointing a revolver, 1; indecent act, 1; obstructing an officer of the peace, 1; drunkenness, 25; exceeding speed limit, 1; theft, 2; vagrancy, 1; total, 42. The number is almost the same as last month.

CONVICT ROADMAKER GIVES GUARDS SLIP

Bellingham, July 31.—That seven guards cannot properly oversee the 100 convicts employed on state road work in Skagit county was proved for the tenth time yesterday, when another prisoner walked away up the side of a hill so steep that the bloodhounds in charge of officers from Mount Vernon were unable to follow.

William McLaren is the prisoner who escaped. He sneaked away when he found himself alone and behind a gravel dump out of sight of the guards. That he had planned his escape carefully is shown by the fact that he had mixed his blankets and camp belongings with those of his bunkmate so that dogs could not be given the scent.

McLaren was sent up from Snohomish county for burglary. He had a year more to service.

Woman Kills Lawyer.

Sturgis, S. D., July 31.—Attorney D. T. Thomas was shot and killed by Mrs. M. McMahon, widow of his late partner, in the McMahon & Thomas law office this morning. Mr. McMahon died a few months ago, and it is said Mrs. McMahon wanted Thomas to vacate the law office. Thomas refused and this led to a wrangle.

SPOKANE METAL TRADES DECLARE FOR OPEN SHOP

Spokane, July 31.—The United Metal Trades Association of Spokane has declared for the open shop. The gauntlet has been thrown down to the striking metal workers in a set of rules posted in every shop dominated by the association.

In the rules posted the association goes on record as favoring all men according to the work that they turn out, irrespective of whether they belong to a union; favoring the elimination of the restriction on the number of apprentices to be employed in a shop and suggests that a restriction has a tendency to keep boys from learning a profitable trade. No scale of wages will be recognized if the association lives up to its posted rules, the wages paid to each man to be such as may mutually be agreed on by the employer and the employee. Absolute disapproval of strikes and shutouts is another plank in the platform enunciated in the rules.

IT PAYS TO ADVERTISE.

Parson Has Faith in Printers' Ink. Sensationalism Is Not Worst.

Spokane, July 31.—"I have drawn people to hear my sermons by advertising. I have attracted them with moving pictures, hot suppers, pink teas and flags. If I have had any degree of success in Spokane it is because of the liberal use of printers' ink," said the Rev. Dr. James W. Kramer, pastor of the First Baptist church, who came to Spokane from South Carolina two years ago.

"There is something worse than sensationalism. It is the inability of the church to produce life. The church that does not advertise is behind the times and is nursing empty pews, and he who rails against the minister for advertising is suffering for a congregation. I am not an advocate of ragtime methods or vulgar preaching, but I do plead for the church which is a humming plant of machinery, with live coals in the firebox, smoke curling from the stack and every belt, wheel and pulley going. I believe, too that the people need instruction and that a minster of the gospel is first, last, and all the time, a teacher. There must be life,

Your Opportunity

We have now placed on the market a limited amount of 50 per cent. paying stock of a conservative firm doing business in the City of New Westminster and Vancouver. The firm, wishing to extend their business to Prince Rupert, require more capital, and consequently this opportunity is given to the public to share in the profits of a safe and going concern, guaranteeing large profits to those who are fortunate enough to invest some of their surplus money. We feel that we are well within the mark in stating that the profits in the next three months will be 20 per cent. of the investment. It will pay you to call at our offices, at the corner of Columbia and Begbie streets, and investigate this proposition, as an opportunity of this kind has seldom, if ever, been offered to the citizens of New Westminster.

AMATEURS TRIM CAPITAL TWELVE

Seniors Drop Their Jonah Between Here and Victoria and Win.

"Hurrah! Hurray! We win, thirteen to four," ran the telegram which James Keary sent to H. Ryall on Saturday night.

Though the size of the score and in the win were some unexpected to the news that the amateur seniors had finally won a game, and that a score which left no doubt that may have been a stroke of luck or fluke, caused considerable delight in New Westminster.

From reports brought back by the players it seems that the amateurs played better in their lives than they did at Victoria on Saturday. Every man did his duty with a vengeance. Scoring thirteen seconds after the whistle blew and thereafter keeping the goal tender in a sweat, the unpaid seniors proved their right to travel away from home with a team, lacrosse sticks and a stop watch.

Swanson was the star man on the home team. He had Johnston, who gained fame on his appearance here with the Victoria nets, buffaloed by keeping the ball within three feet of the goal every time he shot. Hume, who played third home, scored five of the goals, which is pretty good for a home man.

Not once in the game did Brynjolfson take the ball from MacKenzie at the faceoff, and all over the field the New Westminster players piled up over their checks in passing, speed and stick handling.

The game was marred by several bouts of fighting, the principals being Swanson and Sweeney and MacKenzie and Brynjolfson. Referee Peele, as a general thing, kept the players well in hand.

Five goals were scored by Swanson, five by Hume, two by Smith and one by Kenny.

The following are the teams:

All Kinds of Extras Given Free Saturday

(Continued from Page 1.)

efforts to lift the cup were naturally closely watched, both by the players and the spectators. Hogan, who has the inside job, showed more class than his brother, who cavorted on the oval with the Montreals recently. Con's Hogan has more of the western style of play and knows how to bore in and get close to the nets. Charlie Galbraith, whose duty is to place his bulk before Sandy Gray and the aforesaid Con's Hogan, exercised himself a-plenty doing this on Saturday. On occasions the cruly-headed boy with the Emerald Isle name felt badly indeed after his rushes goalwards had been spoiled by Gally.

Shaun O'Reilly, another Help Help recruit, also made a showing entitling him to a Con-stant job. Shaun can run and field and intercept and check and take some punishment. That is about all that is expected of Mr. O'Reilly besides catching, passing, shooting and scoring.

Longfellow Gets a Chance.

Ed Longfellow, who incurred the enmity of the Vancouver lacrosse team some months ago by joining in a sympathetic strike, made his debut in a Salmon Belly uniform. He was closely watched and hard checked and worried considerably by the uncharitable remarks of the Vancouver men who applied ugly epithets to him.

As a worker Longfellow is all to the good. He has the steam and energy. He is not afraid of anything, Howard included. Nobody can justly accuse Longfellow of being a laggard. But the big question that is agitating the fans is whether the new man has the ability to play on the champion twelve of the continent. He missed a large number of passes on Saturday—more than any other man on the field, and in several other ways he showed a lack of lacrosse knowledge of the championship brand. He may improve later, but just at present it is doubtful if he will do more than figure as fifteenth man on the team

H. Wilson, of Ladner, who peddled the penalty tintypes, overlooked quite a few things and showed traces of nervousness not in keeping with his job. Still, considering he has been out of active senior lacrosse for a considerable time, he did not do too badly.

The first man to taken an enforced rest was Billy West, whose crime consisted in hitting Longfellow, who survived easily.

Only five-minute penalties were handed out during the game, nothing warranting a longer period being discovered.

Both goaltenders were called upon to exert themselves. Bun Clark saved the Vancouver net from being torn to ribbons by his superexertions and Gray at the other end of the field wore out his stick turning them aside. The defences worked well, but occasionally the home men would get past and then it would be up to the man between the flags. The small score showed that they were there with the sure eye. The scoring couple of the Vancouvers failed to negotiate a tally. At the other end Grumpy Spring was also frozen out.

Tommy Gifford Absent.

Tom Gifford's hulk was missing from the rock ribbed defence of the locals, but if Tommy was absent from his usual place he was somewhere in the neighborhood, half buried in the club megaphone, separating himself from advice and instructions to the team. Len Turnbull also played hookey, pleading a late attack of Montrealitis as an excuse.

Buck Marshall, who plugged in the captain's place, was a regular warhorse, doing active duty between two other willing workers, Galbraith and Jimmy Gifford. Tom Rennie showed up better than in the Montreal matches. Brother George played his usual game, running north, south, east and west backwards, forwards or sideways with equal facility and speed.

The absence of Len Turnbull from the attacking detachment has occasioned a rearrangement of the team, Pat Feeney moving up to outside home and Cliff Spring taking the seconm home position, making Longfellow the pivot player. Every one of the home men worked well, Grumpy Spring trying hard to score time and again.

Con's Men Strong.

There were no weak spots on the Vancouver team. Clark in goal earned his salary, whatever it is, and in front of him Griffith and Howard did not loaf any. Lanky Bob Springer worked like a Trojan, matching up to Godfrey in activity. The remainder of the team played sterling lacrosse and there will be little need of rearrangement as long as that twelve hangs together.

GAME HUNTERS HEADING FOR BRITISH COLUMBIA

Famed Norwegian Shot in Van of Army Mustered From Every Quarter of the Globe.

Victoria, B. C., July 31.—Big game hunters are now heading for British Columbia from all parts of the world. They are coming to get into the woods by the time the shooting season opens on September 1. The majority of the hunters will arrive before the middle of August, according to advices received by Bryan Williams, provincial game warden.

A number of parties will leave Vancouver for the Cassiar district before the middle of next month. Franz Rosenberg, a prominent Norwegian shot, is the first of the foreigners to arrive. He reached the Pacific coast several weeks ago and will set out for the interior country.

Mr. Rosenberg is the owner of large caribou and salmon fishing preserves in his native country and he annually visits the haunts of big game in other parts of the world. During the past few months he has been scouring the plains and hills of Patagonia in search of the big game of that locality.

WELL INSURED.

Spokane, July 31.—George H. Swearington, of Kansas City, who claims a record of having written a policy for $1,500,000 on the life of George H. Nicholson, head of eight cement companies in weastern and eastern states with headquarters in Kansas City, has come to Spokane to broker part of that amount among insurance concerns in this city and other parts of the Pacific Northwest. He said that the policy is carried by forty-six companies, $250,000, the largest amount assigned to one concern, being underwritten in New York. Mr. Nicholson was examined 108 times, by two physicians on each occasion, and 71 physicians were employed to make the physical tests. The premium is a matter of a little more than $60,000. Mr. Swearington said that because Mr. Nicholson practically holds the future of the cement business in his hands, the directors of the eight companies of which he is head found it necessary and advisable to insure his life for $1,500,000.

Mr. Nicholson is forty-nine years of age, and is in perfect health.

SUFFRAGISTS TO SHOW BABIES TO PROVE IT

New York, July 31.—There are to be some novel features in a big suffrage parade which is to take place in New York City in October as the opening gun of the suffragists' fall campaign. According to the announcements just issued one float is to be filled with "suffrage babies," to show that suffragists do not neglect rearing families.

Another float is to contain "the most beautiful American suffragist," seated on a sedan chair. A third float will carry "three pioneer suffrage workers"—three women who took active part in the first suffrage meeting in this country, held at Geneva, N. Y., in 1884. The three women are Miss Roda Palmer, of Seneca Falls; Mrs. James Casey, and Mrs. W. P. Hallowell, of Rochester.

One section of the parade will be devoted to a demonstration that women are usurping man's place in many trades and professions. There will be a division of women athletes and a squad of women on horseback, driving four-in-hands and automobiles.

The Bank of Vancouver will open a branch at Westminster Junction today, this being the first institution of its kind to establish itself at that point. The bank's home is in the new Millard block, a cement building recently put up at a cost of about $12,000.

Representatives of the municipalities of Langley, Surrey and Coquitlam have signified their intention of giving every aid to the project of the board of trade to have an exhibit of Fraser valley products at the National exhibition to be held in Toronto in August. It is understood that Premier McBride has also promised his assistance in this direction.

It is expected that the boat which the C. P. R. has promised to put on to carry freight regularly between Victoria and New Westminster will begin her trips some time this week. The name of the vessel is the Trader, but she is not the same vessel which at present has New Westminster on her regular calling list and which belongs to the Gulf Shipping company.

DENNY & GALLOWAY'S

Our Furniture Business - - One Year Old This August

Just a word before reading about the bargains : After being in business for one year it is necessary to take stock and find out exactly our financial position. In order to make as good a showing as possible, we want our stock turned into ready money. We, as most of you are aware, sell at an extremely close figure, consequently we cannot have sales every month, but on this special occasion we are reducing the price of everything in our store except Ostermoor Mattresses. This is not a catch-penny-sale, offering some lines under cost and making it up on the better goods. That's not our style. Everything is plainly marked. We cannot be fairer. We must leave the rest to your good judgment. All we can say in conclusion is come and look around for yourself

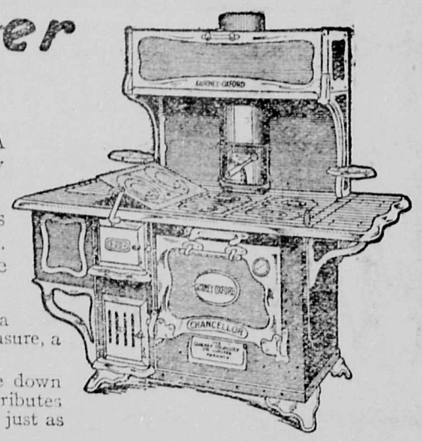
The Best Baker in Canada



A good oven is the housekeeper's delight. A poor one is the despair of her life. That's why we want to tell you about this Chancellor.

A special divided flue makes the oven a **perfect** baker. There is not a range in the country can beat it.

Baking day instead of being a trial and a disappointment is a pleasure, a satisfaction.

Come in the store when you're down town and let us explain to you just how this flue distributes the heat evenly over the whole oven. Bakes in front just as well as back—under crust as well as upper.

The GURNEY OXFORD STEEL TOP

means a marked saving in fuel, and better baking results. The Chancellor not only does its work **better** but **at less cost** than other ranges.

We can demonstrate to you the whole superior Chancellor principle of **economy** and **efficiency** in ten minutes.

Isn't it worth that much of your time right now?

The Chancellor is made for either coal or wood. Other **Gurney-Oxford** designs of every sort, for every purpose and all kinds of fuel, on display on our floor. Special **demonstration now.**

WHITE WIFE IS RID OF CHINESE SPOUSE

Seattle, July 29.—Paula M. Jett, a child-wife of sixteen when wedded, was awarded a decree of divorce by Judge J. T. Ronald in the superior court yesterday from Chin M. Jett, a Chinaman, fifteen years her senior, and in awarding the decree, the court declared that the marriage was performer through the connivance of the bride's mother. The couple were married in Newark, N. Y., December 1, 1904, and have one son five years old.

BRITISH STEAMER HELPS SLOOP CREW IN DISTRESS

Sailors Dying From Exhaustion Off Barbadoes Succored When Distress Signals Are Observed.

New York, July 31.—Two days after leaving Barbadoes on July 23, the British steamer Ikalis, in today from Buenos Ayres, sighted a sinking sloop flying signals of distress, and in a few minutes had come upon one of those mute histories that make the terror and the romance of the seas.

The sloop was the Little Sunlight, a wandering cargo carrier between small ports of the islands of Antigua and Barbadoes. She lay yawning helplessly in the light puffs of the wind, her canvass flapping, her wheel idle, her master and crew of five flat on the decks. There was no water and no food in sight.

In a few minutes the men had been hoisted aboard the steamer and after an hour's work revived; then came thanks and explanations. When the rescued men had been refreshed they insisted on returning to the Sunlight, which had been kept in sight.

Accordingly they were put aboard with a store of water and provisions, but while the Ikalis was bidding them adieu they called for help. The storm-strained little ship was sinking. The Ikalis took them off again. The Sunlight was abandoned and the wrecked men were brought to this port.

GIRL LIVING TORCH WHEN DRESS BLAZES

Tacoma, July 31.—Olga Margaret Holmberg, aged three years and ten months, daughter of Ole Holmberg, of this city, was playing with matches in the back yard about six o'clock last night when her dress caught fire and before her mother could reach her every stitch of clothing was burned off and not a spot on her body, except the soles of her feet, escaped the flames. She lived about three hours in great suffering.

HIS FOUR FINANCEES MEET.

Then Handsome German Student Is Arrested for Fraud.

Zurich, July 31.—Erich Cristin, a handsome young German student, has been arrested at Zurich on a charge of fraud. Cristin's way was to become engaged as often as possible to girls of good families, and then to borrow money from their parents. His arrest was due to an accident. Four of his fiancees ordered their trousseaux at the same shop and time at Nuremberg, and this naturally let to conversation and disclosures.

BATTLE OF TOOTHPICKS RAGES AT CHICAGO "U"

Chicago, July 31.—A battle of toothpicks is on at the University of Chicago. The "regulars" have declared war on the summer students because the latter use the "picks" in public with too little delicacy. This habit, say the "regulars," is unaesthetic to the point of annoyance.

The anti-toothpick crusaders tacked a notice on the official bulletin board yesterday informing the warm weather visitors of their attitude. The notice was as follows:

"Summer students, attention:

"Warning is hereby given that the public exhibition of toothpicks in action, wooden, quill, or otherwise, is no longer regarded as good form at the University of Chicago. Persons who insist on using the same will kindly perform their dental excavations in private. The use of toothpicks on the sidewalk, on the lawns, in classrooms or at social functions at the university is hereby declared an abomination in the eyes of the student body, and is forbidden.

"Violence will be used if necessary."

DISCOVER PLOT TO KILL ITALY'S DOWAGER QUEEN

Would-Be Assassin Commits Suicide After Arrest—Police Suspect Plot Has Wide Ramifications.

Naples, July 31.—Naples police today are investigating the plot against the life of Dowager Queen Margherita, which culminated in the arrest of the man selected to carry out a revolutionary death decree, and his suicide last night in the jail at Milan.

The police fear that the plot may have had ramifications in other cities and the authorities of Naples, one of the strongholds of the anarchists, are active. Many arrests are expected. The police have clews to others concerned in the plot, it is declared, and hope to bring them to justice.

The plot was to have been carried out yesterday, the tenth anniversary of the assassination of King Humbert, who was slain at Monza, July 29, 1900.

Details of the plot have not been given out by the police, but it is said that the assassin was to have slain the queen as she was on her way to attend memorial service held in honor of the late king.

The assassin gave himself up to the police. His courage failed him and he went to the police station before the police had heard of the plot.

King Victor Emmanuel and Queen Helena, when told of the plot, were greatly shocked. The king has requested the police to investigate thoroughly the movements of anarchistic societies throughout Italy.

FARMING IN ALASKA IS PAYING PROPOSITION

Washington, July 31.—"How would you like to be a truck farmer in Alaska?"

This is a hypothetical question asked by the United States department of agriculture in an official report from the department, and the answers are included. The report say:

"Would you care to run a truck farm with strawberries selling at $1.25 to $2 a quart, cucumbers $2 to $5 a dozen, celery fifty cents each, tomatoes fifty cents to $1 a pound, and other products at proportionate prices? Or would you prefer general farming with a few pigs and chickens as a side line, with hay at $60 to $100 a ton, hogs thirty cents a pound, young pigs seventy-five cents a pound and eggs $2 a dozen?

"These prices are received in Alaska under favorable market conditions, but the prospective settler should consider the difference and expense of farm as well as the high prices of his products."

Alaska is not generally given much consideration from an agricultural standpoint, and yet, despite the rigorous climate, a large variety of grains, small fruits and vegetables are successfully grown. Experiments are being made with tree fruits, but the results thus far have not been very encouraging.

The work conducted by the government with grains at the Rampart experiment station has been an unqualified success. Varieties of nearly all grains have been found to grow well.

MAY GET $15,000 FOR DAY'S WORK FOR CITY

New York, July 31.—For twenty-four hours' actual services as superintendent of public buildings and offices in Manhattan, William Walker is likely to receive from New York $15,000, with interest for three years.

Removed from office by Ex-Borough President James Ahern about three years ago, Walker was reinstated recently by the appellate division of the supreme court. He reported to Borough President McAnaney for duty this week and was assigned to his old position for twenty-four hours in order to have his reinstatement formally recorded.

Mr. Walker will resign when the office closes today and immediately collect his back salary for three years at the rate of $5,000 a year with interest.

COUNTRY EDITOR TO GET TRUTH ABOUT HIMSELF

Newburgh, N. Y., July 31.—When Charles E. Spraight, publisher of The Fishkill Standard, gets out of the Newburgh hospital, where he was operated on for appendicitis, he will have an opportunity to know how highly he is regarded by his fellow members of the Knights of Pythias, for he will receive a set of fine memorial resolutions passed by the grand lodge in its annual session at Far Rockaway this week, which were sent to a member of the local lodge here to be presented to the family.

The rumor gained circulation at the convention that Mr. Spraight was dead and a committee was appointed to draw up eulogistic resolutions. The committee completed its work and sent an engrossed copy to the family before any of the members discovered that the report of Spraight's death was untrue. He is recovering rapidly, according to the hospital reports.

BANKERS SAY PEOPLE ARE AUTOMOBILE MAD

New York, July 31.—The Westchester Bankers' association, on information received by the members, believes that the people of the country are "automobile crazy." At a session at the Briarcliff hotel, near White Plains, yesterday, it was decided to look carefully into the applications of those who want to borrow money on notes. If the object of the applicant is to purchase an automobile the bank is to use extreme caution in discounting his paper. The bankers declared that hundreds of persons have either mortgaged their homes or hypothecated valuable securities to buy machines in the last six months.

Work Train Wrecked.

Salina, Kan., July 31.—Three men were killed and several others injured when spreading rails caused the wreck of a work train on Missouri Pacific, between Linsbororg and Marquette, Kan., late this afternoon. The dead are two brakemen and an unidentified tramp.

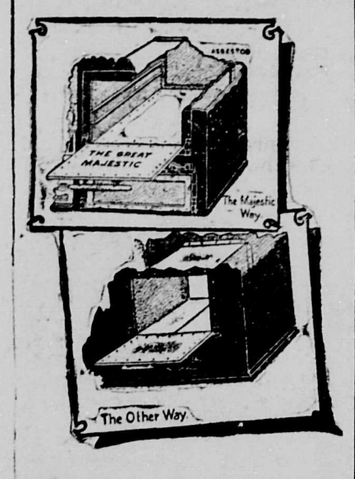
The Oven Of a Range



THAT a perfectly constructed, air-tight oven will bake better with half the fuel than a loosely constructed oven, is a fact beyond question. The Majestic oven is made of heavier material than any other, and is riveted (not bolted) to a malleable L or angle iron frame, making it absolutely air-tight. The oven in an ordinary stove or range is bolted or riveted to the range body, without bracing and without frames, allowing a knife blade to pass through corners and sides. It is natural that with an oven constructed in this manner, it requires twice the fuel, and not near as good results as can be obtained in any oven of a Majestic Range. The Majestic oven stays that way, too.
