C.P.R. CONTEMPLATES NEW BOATS ON PACIFIC

STEAMERS ENGAGED IN ORIENT PASSENGER TRADE FROM VANCOUVER TO BE REPLACED BY NEW VESSELS.

Montreal, July 22.—The Canadian Pacific railway announces that new steamers will be put on the Orient route between Vancouver and Yokohama immediately, making sailings fortnightly instead of every three weeks as at present. The boats will be new ones, apparently not involving the transfer of the Empresses of Britain and Ireland from the Atlantic service, as has been frequently suggested.

MRS. BUCKLIN BUYS FINE SEATTLE RESIDENCE

The purchase is reported of a fine property on Capitol Hill, Seattle, in the best residential part of the Queen City, by Mrs. Carrie Bucklin, wife of E. H. Bucklin, of this city. The house occupies a commanding situation on the northwest corner of Seventeenth avenue and Prospect street, and the price paid was over $30,000. It has about twenty rooms, the reception rooms being particularly fine. It is not the intention of Mr. and Mrs. Bucklin to leave Westminster to reside there, but rather they intend to build a home here in the near future, owing to Mr. Bucklin's interest in the Small-Bucklin Lumber company, and give up their residence in their home town, Ithaca, New York state.

The property bought in Seattle belonged to Martin L. Lutz.

Sunday Fishing Barred.

Juneau, July 21.—For fishing on the Sabbath, five Alaska fishermen have been arrested here and may be sent to the United States prison at McNeil island. Public sentiment in Alaska is not particularly Puritanical, but the law holds that seven days' fishing a week are too many for the good of the halibut, herring and salmon.

FALL FROM MOVING TRAIN ON WAY FROM CHILLIWACK

Man Hurt Near Kennedy Station—Fractured Leg and Ribs Broken in Accident.

Owing to an accident George Wren, an employee of the B. C. E. R., was so severely injured that he had to be removed to the Royal Columbian hospital on the arrival of the last train from Chilliwack yesterday evening. From fragmentary stories gathered from those on the train, Wren who was on the baggage car, slipped from the rear part of the train and severely injured himself. Tenderly he was carried aboard, and attended to, until the train arrived in this city, where he was removed to the Royal Columbian hospital, where it was found by Dr. Jones that Wren had sustained a broken leg, as well as injuries to his ribs.

It was fortunate that the injured man fell onto a heap of soft earth, otherwise he would have received fatal injuries. The accident happened immediately past Kennedy station.

PRESIDENT FUGITIVE WITHIN TWENTY-FOUR HOURS

Washington, July 21.—Despatches this afternoon to the state department from Port au Prince say the Haytien government is tottering and that President Simon probably will be a fugitive within twenty-four hours. The message came from Lieutenant Commander Dismukes, of the gunboat Petrel, which is now at the scene, and will protect Americans in the political convulsion after Simon's fall. Commander Dismukes wires that the only city in Hayti not controlled by the rebels is Port au Prince.

Auto Racer Killed.

Milwaukee, July 21.—Lewis Strang, of Racine, Wis., probably the best known automobile racer in Wisconsin, was killed at Blue River, Wis., this afternoon when the Case car, which he was driving in the state reliability tour, jumped an embankment. Strang was in charge of the machine carrying the technical committee. While going along at a good speed the machine encountered a passing team. In endeavoring to get out of the way, the car jumped a bank. Strang alone was killed. The others in the car jumped and escaped practically uninjured.

LOCAL MARKSMEN AT RICHMOND RANGE MEETING

W. J. Sloan Wins the Dawson Cup with a Possible—Captain J. H. Vidal Elected Representative.

In the third day's meeting of the B. C. Rifle association yesterday at the Richmond range, a Westminster man had the good fortune to win the Dawson cup, seven shots at 900 yards. W. J. Sloan tied with Sergeant C. J. Fothergill, each of them making a possible, but beat the Sixth regiment man on the shoot off easily, making four bulleyes. Mr. Sloan had six points to the good in shooting the tie off.

Vancouver match, won by J. C. Christie after a tie with Sergeant Fothergill, at 800 and 900 yards. They each scored 98. Westminster men's returns were: G. Turnbull 40 and 47, J. C. Chamberlin 42 and 45, J. H. Vidal 39 and 45, W. J. Sloan 43 and 40. The marksmen found the light good, but the wind was against records.

In the Bankers' match, ten shots at 800 yards, the local men scored as follows: Turnbull 47, Sloan 46, Chamberlin 45 and Vidal 44. It was won by Sergeant Parron with 49 points.

For the Dawson cup, in addition to W. J. Sloan's success with a possible, Chamberlin made 33, Turnbull 30 and Vidal 24.

In the events today Chamberlin, Vidal and Sloan have qualified for the second round of the lieutenant-governor's cup.

At the annual meeting of the association J. H. Vidal was appointed on the council as the representative of the Westminster Rifle association.

The Fifth regiment trimmed all competitors in the Tyro team match with an aggregate score of 1111 points, as against 1108 registered by the Vancouver Rifle association, and 1090 by two teams of the Sixth regiment of Vancouver.

Victoria will also take home the St. Charles challenge shield to the keen disappointment of Vancouver cracks. The Fifth regiment captured it from the Sixth regiment of Vancouver by an aggregate score of 1057, against 1041.

Winning by just one point—1832 to 1831—the Fifth regiment of Victoria won the Laurie bugle, presented by Lieutenant-General Laurie, formerly D. A. G. of this district. The match was open to teams of five efficient militiamen or cadets. A team of the Fifth regiment also snatched third place from the regulars o f Esquimalt by nearly 200 points.

Probably the most popular win of the entire meet was that of Lieutenant-Colonel Leckie, of the 72nd Highlands, who captured the aggregate in the Tyro match. He defeated Corporal A. R. Harness, of the Fifth regiment, Victoria, by just one point—236 to 235.

Today's Program.

8:30 to 9—Extra series, 800 yards.
9 to 9:45—Lieutenant-Governor's match, second stage, 800 yards.
9:45 to 10:15—Extra series, 900 yards.

11 to 11:30—Extra series, 1000 yards.
11:30 to 12:15—Lieutenant-Governor's match, 1000 yards.
12:15 to 1:15—Luncheon.
1:15 to 2—President's match, 600 yards.
2 to 2:45—President's match, 900 yards.
3 to 4—Skirmishing match.
4—Presentation of prizes.

PROVINCIAL TEAM FOR DOMINION RIFLE MEETING

Vancouver, July 22.—The team to represent B. C. in the Dominion Rifle association meeting has been selected as follows: Sergt. C. J. Fothergill, Sixth regiment; Col.-Sergt. J. Moscrop, Sixth regiment; Gunner W. Winsby, Fifth regiment; Capt. W. H. Forrest, Sixth regiment; Sergt. L. M. Parron, Sixth regiment; Sergt. C. S. Carr, Sixth regiment; Sergt.-Major MacDougall, Fifth regiment; Sergt. C. W. Birch, Sixth regiment, and R. M. Blair, V. R. A.

The last named was selected as the best civilian shooting.

Not Much Use for Dr. Cook.

London, July 21.—In applying at Marlborough street police court for a reduction of bail in the case of a valet named John Goodliffe, committed for trial for wounding William Kent, of Livonia street, A. R. M. Samuel said the accused was a man of good character and was, in fact, the only Englishman who accompanied Dr. Cook "to the pole." The magistrate said no man had yet reached the pole and it did not add to any man's reputation to say he had been at or even near the pole, so he increased the bail.

Woman Climbs Volcano.

Lima, Peru, July 21.—Miss Annie S. Peck, the American mountain climber, accompanied by Carl Volkmar and five Peruvians, ascended two peaks, Volcano Coropuna, on July 16.

DROPPED CIGARETTE CAUSE OF BIG FIRE

EXPERT SETS DOWN PORCUPINE HOLOCAUST TO CARELESSNESS OF SMOKER — FINDING OF MORE BODIES.

Porcupine, July 22.—Chief Forester Atkinson, of the Dominion Conservation association, after a thorough investigation on the spot declares that the recent fire, which resulted in the death of seventy persons, and fearful loss of property, was caused by a dropped cigarette.

The bodies of three prospectors have been found, making 67 bodies so far identified.

END OF POTLACH WITH SUN DOWN TODAY

Seattle, July 21.—An army and navy parade, an illuminated pageant of progress, and flights in the Curtis biplane by Eugene Ely and demonstrations of the Curtiss hydroplane are the big features scheduled for today in Seattle's golden potlatch celebration. The big fete will come to a close tomorrow night with a maskers' march, to be held by the Elks. On this occasion everybody appearing on the downtown streets is expected to be in mask. This is by order of the king.

Ely made a sensational flight over the city last night. In the early dusk he soared over the skyscrapers with thrilling exhibitions of the fatal dip, and 150,000 people, packed like sardines in the streets below, howled themselves hoarse. The Curtiss hydroplane was shown in the harbor by Aviator Hugh Robinson and made a sensational flight out into Puget sound.

Trouble in Portugal.

Lisbon, July 21.—An invasion by Captain Couciere at the head of the royalist forces appears imminent. All attention is now fixed on the north. The Portugese monarchists possess thousands of rifles of the latest pattern smuggled in from Germany and Belgium and also many field guns and maxims.

CONTRACT LET FOR NEW CATHOLIC CHURCH

Port Moody Will Have Its Own Building for Ministrations of the Ancient Faith.

In place of the old school in which the Catholics at Port Moody have worshipped, a new building is to be erected, and the contract was let yesterday morning to S. Paquette, of Fraser Mills. He will start operations on the building next week.

There are a large number of Roman Catholics employed in the mills, and for their spiritual welfare Father Rocher has been ministering for some time. The church, however, has suffered from better accommodation for holding its services, hence this step.

Another Cardinal Possible.

Paris, July 21.—Information coming from reliable sources today states that the pope has determined to appoint another American cardinal, and that his reasons for this appointment are based partly on his desire to avoid the cry that the American church is dominated by Rome. It is said that for various diplomatic reasons the honor is likely to fall upon Archbishop James E. Quigley, of Chicago. The appointment probably will be made this fall.

FARMERS COME WEST ESCAPING LIABILITY

Toronto, July 21.—A surprise has been sprung in the Farmers' bank affairs. A cleverly conceived and well executed attempt to evade the double liability demands of the bank's curator has been made in Halton county. Over a dozen farmers are now on their way to the northwest, having sold out their property in Ontario. Against this property was the claim of the bank for the double liability, but the parties in question were acting under skilled advice, and had no fear of the consequences. Others are said to be planning a similar move.

In few, if any, cases are the "exits" being made to the United States or other foreign territory where international laws would apply. Instead, the money acquired from the sale of their eastern farms is being placed in Alberta and Saskatchewan homesteads, where the investors are advised no proceedings of the curator could reach them.

CHOLERA CASE FATAL AT QUEBEC

FIRST DEATH IN QUARANTINE STATION WHEN THE BENDU'S CREW IS ISOLATED—ANOTHER NOT EXPECTED TO LIVE.

Quebec, July 22.—One sailor from the crew of the steamer Bendu, detained at Grosse island quarantine station suffering from Asiatic cholera died yesterday. A second man is seriously ill, and his death is expected at any moment.

ENGINE TUMBLES INTO WELLAND CANAL

Port Colborne, July 21.—At 11:30 o'clock last night a Grand Trunk engine and tender tumbled over the bank of the Welland canal, drowning the engineer, Charles Smith, of Sarnia, and giving the fireman a ducking.

The canal bridge was swung open to permit a tug to pass up the channel. Apparently the train engineer was not aware of this for he slowly started forward. The bridge had not closed when he reached the bank and both engine and tender toppled over. The fireman jumped wide of the wreck. None of the cars went over, on account of the slow rate of speed.

Navigation on the canal will be completely blocked until the engine can be removed. The financial loss to shippers from the blockade of traffic will probably be very great as the passage on the canal during the past week has been the heaviest in its history.

Singer Denies Illness.

Paris, July 21.—Mary Garden's reappearance in opera has been postponed three times and each time it has been said that the postponement was because of ill health. Answering a query, Miss Garden writes that there is nothing the matter with her whatever; that, in fact, she never was in better health and that the real reason she has not sung is that it has not pleased her so to do. She adds, however, that she will sing in September.

EDMONDS SOCIAL CLUB IN PROGRESS OF FORMING

Undecided Yet as to Location of Club—Committee Formed to Obtain Temporary Home.

At the adjourned meeting of the proposed Burnaby Social club held on Thursday evening, B. G. Walker, J.P., in the chair, among the company present being Reeve Weart and J. R. Richardson, it was resolved to form the club, to be known as the Edmonds Social club, and after a long discussion as to premises, in which the occupation of rooms in the new block of the Edmonds Development company, or alternatively construction of their own building came under review, the matter was laid over for further consideration.

A committee consisting of Reeve Weart, J. R. Richardson, P. B. Brown, W. S. Rose, Alex. McPherson, W. Griffiths and the chairman were appointed to go into the question of selecting suitable rooms for the present, bring up a report on equipment, and submit a provisional list of officers.

It is proposed to call another meeting at a later date. The subscription is suggested at $25 entrance, and $2 a month.

Guerrero at Frisco.

San Francisco, July 21.—The Mexican transport General Guerrero arrived here today and will remain several days before proceeding on her cruise to northern ports. The General Guerrero is the first vessel of the Mexican navy to leave either coast of the southern republic since the beginning of the revolution which resulted in the overthrow of President Diaz.

Montreal Assessment Roll.

Montreal, July 22.—According to the assessment roll, the value of the property of the city is $428,534,125, of which $109,192,499 is exempted, on the ground of being government, religious or municipal property.

Marching on Teheran.

Teheran, July 21.—News that the former shah, Ali Mirzu, is hurrying to the capital has caused great consternation. The government has declared martial law and the Bakhtia chiefs have offered 5000 men to defend Teheran, but they cannot arrive in time.

KNOX CHURCH UNDERGOES THOROUGH RENOVATION

Painting and Decorating Interior—Minister Given Rest During the Extensive Improvements.

Considerable changes and improvements are being made at Knox Presbyterian church, Sapperton, advantage being taken of the season when many members of the congregation are away to carry them out. Rev. E. G. Thompson, the pastor, is taking a well earned month's rest, and will shortly visit Victoria on a holiday. Meanwhile the services are being conducted by members of Westminster Hall, Vancouver, under the direction of the principal.

The church has been built for some twenty years, and has become in need of structural attention. The Ladies' Aid and other organizations have been at work raising funds for the alterations. The whole building is being renovated, and the interior is being painted and decorated afresh throughout, services being held meanwhile in another part of the building.

The platform for the choir is also being changed, in order to seat the members more comfortably.

These alterations are expected to be carried out in a few weeks' time.

Will Not Strike.

Butte, Mont., July 21.—By a vote of 172 to 124 the proposition for the members of the Western Federation of Miners to go on strike the day the trial of the McNamara brothers opens in Los Angeles, was defeated here at the convention of that organization. Messages bearing this decision are being sent today to all the affiliated branches of the federation. The convention voted to levy an assessment of 25 cents on each member monthly for the purpose of increasing the fund that will be used to defend the McNamara brothers.

TWO TONS OF FUEL FROM VALUABLE PAPERS

Washington, July 21.—More than $2,000,000,000 in redeemed bonds, representing the major part of the government's Civil War debt, is being fed to the furnaces in the bureau of printing and engraving. The engineers estimate that the immense sum in old securities will generate about as much steam as two tons of coal.

These securities include nearly $1,000,000,000 in the famous 7-30 bonds, which were made in the size of greenbacks and passed as money at the highest rate of interest the government ever has paid.

The usual process of reducing old securities to pulp by macerating them was attempted, but proved a failure.

Notice to Creditors.

Notice is given in the B. C. Gazette that Frank Lawrence Engman, of Port Hammond, county of Westminster, province of British Columbia, lumberman, carrying on a sawmill business at Port Hammond, has made an assignment to the Westminster Trust & Safe Deposit Co., Ltd., all his estate, credits and effects for the general benefit of his creditors, under the Creditors' Trust Deeds act, 1901, and amending acts. The creditors are notified to meet at the office of the assignee in the city of New Westminster, on Monday next at four o'clock in the afternoon.

TAG DAY CAMPAIGN FOR SASKATCHEWAN

Regina, Sask., July 21.—Awaking to the realization that in Saskatchewan alone last year tuberculosis reaped its death harvest of 200 souls, and that one-seventh of the human death roll is attributed to the white plague, Anti-Tuberculosis league of Saskatchewan has inaugurated and is engaged in carrying out an active tag-day campaign throughout the province, in order to build a sanitarium to combat the evil. Stimulus has been given the work by the offer of the provincial government to provide $25,000 towards the building and its equipment provided the public can raise a similar amount. More than $2200 has already been raised by tag days in twenty-seven of Saskatchewan's smaller towns, while several donors have come forward with gifts of various amounts. A. Bowerman, of Saskatoon, heads the list with $1000, while Paul Verigin, of the Doukhobor colony, has donated $100. An urgent appeal is now being made to the other cities and towns of the province and the munificence of the wealthier citizens for more aid in this direction.

Twelve Bodies Taken from Slide.

Pisa, Italy, July 21.—The slide at the Carrara marble quarry yesterday carried down a greater number of workmen than was first reported. Today twelve bodies had been recovered. The work continues in the hope that some burned men may be rescued alive.

AUTOMOBILE ROLLS OVER EMBANKMENT

EVERETT MAN KILLED WHEN CAR LEAVES ROADWAY—IN VICINITY OF MOUNT RAINIER PARK ACCIDENT OCCURS.

Tacoma, July 22.—D. W. Matthison, of Everett, was killed when his automobile fell over an embankment about 200 yards from the entrance to the Mount Rainier park yesterday.

Friends with him were not seriously injured.

INSTALLATION OF OFFICERS OF ROYAL CITY LODGE

The officers of Royal City Lodge No. 3, I. O. O. F., were installed last evening, the following acting as installing officers:

The lodge has now a membership of about 180 members.

Reward for Bandits

Minneapolis, Minn., July 21.—A reward of $7500 was offered here today by the Northern Pacific railway for the capture and conviction of three masked bandits who held up and robbed passengers of the North Coast Limited train near Tower City, N.D. Three suspects so far have been captured at Castleton, N.D., three more at Melrose, Minn., and three Jellan brothers are held by the authorities at Tolna, N.D.

BOWLING SEASON WILL COMMENCE NEXT WEEK

Attractive Competition to Set the Ball Rolling—Entries Now Being Taken at Alleys.

The bowling season of 1911-12 will be set rolling in this city next week when in the first street alleys the proprietors will run through the first ties in a seven pin competition.

M. J. Phillips will donate the first prize, which will take the form of a suit of clothes, fashioned in the latest style, and valued at $25. The second prize will be given by the proprietors.

Entries may now be made at the alleys for this competition, which is sure to be keenly contested.

Although the weather has been against the bowling pastime of late, the alleys on Front street have been the coolest place in the city, and devotees of the trundling game have been keeping their hand in by practicing. Before the season opens in real earnest the proprietors will make a number of alterations in their premises, and it is safe to predict that the rousing battles which have been nightly fought out on the floors in the past will be re-enacted only more strenuously in the future.

WILL VOTE TODAY ON RECIPROCITY

Washington, July 21.—The Canadian reciprocity bill will be voted on in the senate tomorrow and probably will be passed. Votes on the wool revision bill and farmers' free list will be taken July 27 and August 1, following which will come the house apportionment and statehood bills, on August 3 and 7 respectively. Adjournment is expected to be made shortly afterward.

It is believed the reciprocity measure will be passed by the senate in the same form as it came from the house.

Senators Penrose and McCumber, the latter the most bitter opponent of the bill, predicted today that the bill would pass by 2 to 1. Senator Stone said the vote would be in the proportion of 57 to 34. Senator Bristow declared that 45 per cent. of the Republicans would support the measure.

Fall End Fatally.

Vancouver, July 22.—Angus MacKenzie, who fell from the roof of the grandstand at Hastings park when at work there on Tuesday, died yesterday from his injuries. Little hope was held out from the first of his recovery.

MARKET REPORT

Business was quiet on the market yesterday. The berries have become scarcer, and strawberries were selling at two boxes for a quarter. Meat offerings were better, and with cooler weather everything promises for larger quantities coming in. There was a fair amount of fish, while salmon remaining at 50 cents a fish. Poultry continued short, with steady prices.

Owing to the haymaking season there was little doing in the auction ring, and save for a few general purpose horses, not much business could be transacted here.

Retail prices for vegetables held firm, and among the fruit features were gooseberries, cherries and red currants.

DEAD MAN'S SHIN IN WOMAN'S LEG

New York, July 20.—By grafting the shin bone of a man on to a woman suffering from necrosis, thus practically giving her a whole new lower leg, the surgeons of the New York hospital for deformities have completed an operation unique in surgery. Up to now, operations of this sort have been confined to experimental work done on dogs.

The first essential was to get a good healthy bone to take the place of the one eaten by disease. After a time one of the hospitals, which handle emergency cases, reported that a man had been killed in an accident. As the body was unclaimed and would have gone either to Potters' Field or the dissecting table of some medical college, requisition was made for one of the legs, from which the tibia was taken. It was kept in an ice box, immersed in a strong salt solution until the surgeon was ready to use it.

SERIOUS SITUATION IF COAL STRIKE CONTINUES

Spokane, Wash., July 20. — The trustees of the Spokane Chamber of Commerce at a meeting on Tuesday, presided over by Edwin T. Coman, president, adopted resolutions to request the chambers of commerce, boards of trade and commercial organizations of eastern Washington, northern Idaho and the province of British Columbia, to consider ways and means of co-operation for the purpose of assisting in settling the strike of miners in the Crows Nest coal district, which has been in progress since March 29. The movement was originated by the Western Fuel association, of which W. N. Day, of Spokane, is president.

The resolution points out that the supply of coal from the Crows Nest Pass mines is used largely in eastern Washington and northern Idaho, and furnished practically the entire supply of steam coal for the Spokane market, also that the further prolonging of the strike is bound to result in great injury and distress to the people of the provinces of British Columbia and Alberta. It also states that many residents of Spokane are financially interested in the Canadian mines and that the Spokane International railroad, which has access to the mines is owned by Spokane people.

E. F. Waggoner, a trustee of the Chamber of Commerce and the Western Fuel association, said in an interview:

"The steam coal trade of Spokane is supplied principally by British Colubia and Alberta mines, and, unless the strike is settled very quickly, the local dealers will have to look elsewhere for their supplies, as the mines, if they do not resume operating soon, will not be able to supply the home trade, and, as a consequenc would be unable to export very little, if any coal, during the next four or five months."

JAPANESE MAGAZINE MAN PAVES WAY OF FAIR

Portland, Ore., July 21.—Y. Vryan Yamashita, editor of the Japan Magazine and member of the advisory board of the grand exposition to be held in Tokyo in 1917, is in Portland today stirring up interest in the fair, which is to commemorate the fiftieth anniversary of the wedding of the Emperor and Empress of Japan. The Japanese government has appropriated 20,000,000 yen, and a site has been chosen in the heart of Tokyo for the exposition.

Yamashita lived with William J. Bryan for several years and is a great admirer of the Nebraskan, whose name he adopted.

Dangerous Experiment.

Windsor, Ont., July 21.—Apparently ignorant of the presence of the deadly third rail, the slightest contact with which means sure and instant deaht, Richard Hardy, aged 20, who says his home is at Edmonton, managed to elude the watchman at the mouth of the Detroit river tunnel yesterday on the American side and safely made his way through the tube to Windsor. Here he was met by the immigration officer who took him to police headquarters and after question him allowed the young man his liberty.

FIRST R. C. BISHOP OF REGINA DIOCESE

Regina, July 19.—Monsignor Olivier Elzear Mathieu, D. D., C. M. G. superior of the Quebec seminary, has been chosen first bishop of the new diocese of Regina.

The new bishop was born at Quebec, Dec. 24, 1835, and is the son of Joseph Mathieu and Margaret Latouche. He was educated at the Quebec seminary and was graduated a doctor of theology at Laval university in 1878 and ordained priest by Cardinal Taschereau, June 2, 1878, being appointed professor of philosophy at the University of Laval at the same time. He received the degrees of doctor of philosophy and doctor of the academy of Saint Thomas at the University of Quebec in 1883, and continued to act in the chair of philosophy of Laval university. He took the degree of M. A. in 1889. Became professor Laval university and superior of the seminary, Quebec, 1899. He was nominated prothonotary apostolic by His Holiness Pope Leo XIII. in 1902. He was made C. M. G. on the visit of their royal highnesses the Duke and Duchess of York (their majesties King George and Queen Mary) to Canada in 1901. He was created a Knight of the Legion of Honor by the president of the French republic.

AN ORIENTAL REBUKE.

Tokyo, July 19.—Inscriptions upon Oriental ware, vases, jars, fans and textiles are often examined with an amused but baffled curiosity. What can they mean? It is certain that they mean something. Even on the cheap halfpenny fans there are curious and grotesque faces which could not have been painted for their beauty. Only the initiated can read their story, and even among the Japanese themselves probably these specimens of pictorial rebus require classical knowledge for their interpretation. History and fable and myth must be understood and a Japanese who can understand must be equal in imagination to a commentator of Shakespeare. A recent traveller in Japan gives the story of one of these riddles. It is as good as any Egyptian hieroglyph. A Japanese of hisoric renown is represented as washing his ears in a waterfall. No basin would answer and no placid stream suffice. He must have the full force of a cataract to cleanse the ear into which an improper proposal had been spoken. At a pool below the fall a cow is drinking, but her owner ,standing near her, glowers with anger at the ear-washer who is contaminating the stream. If individually people took to cleansing their ears from scandal and other unpleasant inpourings, no "waterworks" would suffice. Lady Macbeth's query would be in order—"Will all great Neptune's ocean do it?"

SHOOTING UP THE PERUVIAN CHAMBER

Lima, Peru, July 20.—The opening of the preliminary sessions of the Chamber of Deputties here has been made the occasion of a demonstration, in which two persons were killed and several wounded. Dr. Miro Quesada, the president of the chamber, presided.

The government failed to send a guard to keep order, but several secret police acted for the troops. When the deputies were leaving the chamber trouble arose. There were cheers for the government and cries of "Death to the congress."

Hundreds of revolver shots were fired, which resulted in the killing of two men. None of the deputies were injured, but Dr. Quesada's hat was smashed by a stone.

POISONED BY OPIUM DIES IN HOSPITAL

Toronto, July 21.—The death occurred this morning of William McCool, formerly an emplayee of the Northup and Lyman Co., who was found unconscious in bed by his landlady, Mrs. W. Robb Gibson, 26 Charlotte street, yesterday afternoon. Dr. G. E. Smith, of King street west, was called, and surmised that the man was suffering from opium poisoning, and had him sent to St. Michael's hospital. He had been in his room for two days, and Mrs. Gibson said he had not been looking well of late. He was about twenty-two years of age.

GERMANY'S INTENTIONS.

To Morocco has become attached the evil reputation which at one time was possessed by Turkey. The North African state has become the subject of political disputes and a centre of perpetual unrest. Quite a number of diplomatic troubles have arisen over incidents and affairs arising in and about the territory of Sultan Muley Hafid during the past few years. On one or two occasions it has looked as though war between certain of the European powers would result, but happily this has so far been averted. Again, however, the ominous cloud of war is hanging over the Sultan's country.

Serious differences has arisen between France and Spain in regard to the treatment of certain Frenchmen, including the French consul at Alcazar, by the Spanish authorities. The incident has resulted in France threatening to withdraw her ambassador from Madrid unless an immediate apology is tendered and due reparation made, which marks the near approach of a crisis. But this is not all. For some reason the real truth of which yet remains to be explained, Germany dispatched a warship to Agadir, a port on the west coast of Morocco, and adopted the very unusual course of not advising the powers of her intention to do this. On the day the warship dropped anchor in the bay of Agadir an identical note was presented to the powers who were signatories to the treaty of Algericas, stating that as soon as quiet and order are reestablished in Morocco the warship sent "to protect imperilled her many interests will leave the harbor."

This action of Germany has naturally excited considerable consternation in Europe, especially in Great Britain and France. Both of these countries have asked for more specific assurances of German's intentions, which so far have not been given. In fact, Germany seems inclined to adopt an indifferent if not an insolent attitude in regard to the matter. A general belief has arisen that the real object of Germany is to secure Agadir as a naval base in the Atlantic. If this be so then a serious international situation will be created.

A very remarkable reply has been made to the French note by Germany, this being to the effect that in return for her withdrawal from Morocco the coast of the French Congo should be ceded to her. This puts quite a different complexion on the situation to that of the first note to the powers. Germany must be well aware that the response of France to such a proposal or demand will be a decided refusal, and the question arises whether the kaiser's government is trying to precipitate a conflict with France.

The feeling in diplomatic circles is that Germany is behind Spain in prompting the recent acts of violence against French interests in Morocco. There are some indeed, who consider they can see the Bismarckian policy in the intrigues being carried on in various parts of Asia and the near East. Altogether it looks as though Germany were anxious to again humiliate her old enemy, France, and to try conclusions with one or more of the powers. If the Spanish trouble is not satisfactorily ended and Germany persists in her unfounded assumption of rights in Morocco, there certainly will be war. In such a case Germany and Spain would be allies against Great Britain and France, which are in perfect agreement in regard to the Moroccan situation. A conflict thus begun is sufficiently terrible to contemplate, but it is not unlikely that other European powers would also become involved.

J. D. Taylor, M. P., says it is very pleasant to make the music to which Sir Wilfrid Laurier had to dance to the last session. To a man who is fond of working his vocal chords as is J. D. Taylor, M. P., the pastime would no doubt be delightful but as to whether his mouth noises could be classed as music is another question. Then imagine Sir Wilfrid Laurier, or even a third rater dancing to J. D. Taylor's music, even if he could make music.—Saturday Sunset.

LORD KITCHENER WILL BE WELCOMED

Alexandria, July 21.—The report that Lord Kitchener succeeds Sir Eldon Gorst in Egypt, has given great satisfaction to Europeans. Its effect on the Bourse has been favorable. The native press receives the announcement calmly. The Moayad, a moderate organ, expresses its approval, on the ground that "Lord Kitchener knows all about Egypt." The semi-official Ahali, says that the appointment was not expected, inasmuch as it was thought that Lord Kitchen was preparing to assume the post of commander-in-chief of the British army. Further, Egypt requires an agent as experienced in statesmanship as Lord Kitchener is experienced in military affairs.

A different tone is adopted by the Ahali, which represents the extreme section of the Egyptian nationalist party.

"Lord Kitchener," says this paper, "will renew the Cromer epoch, and may even adopt a severer and stronger attitude, but the Nationalists are ready to receive his appointment with firmness and determination. Lord Kitchener may pursue a policy of vengeance, but he will not turn the Nationalists from their noble aims."

SENIOR AMATEURS PREPARE TO STRUGGLE FOR KILMARNOCK CUP

All Lovers of Lacrosse Should Attend at Queens Park This Afternoon—Capitals in Good Shape—Plea for Tennis Tournament—Criticism of "Knock-Out" Brown's Claim to Spurious Title.

BY ROBERT A. WILSON.

WELCOME to the Capital City team who this afternoon make their bow to the lacrosse fans of the Royal City when the Kilmarnock cup championship bout will be contested at Queens park. The amateurs who will battle for the winning brackets today will show that the grand old sport of playing for the love of a sport is far from being relegated to the top shelf. While Victoria look on paper to have the best chance of gaining the mastery this afternoon I have a hunch that the Westminsterians will come out with flying colors and prove that not only have we the champion professional team of the world in our midst, but the amateur combination as well. It would be well, win or lose this afternoon, if the senior amateurs did a bit more practice. Perfection only comes by these means and the amateurs must bear this in mind. I admire the pure seeker after sport, the athlete who goes into the fray for the benefit his body gets from it, but it must be remembered that the mastery is only to him who is willing to sacrifice time in order to devote spare moments to the branch of sport which he takes up. I would like to see the senior players out more regularly, practicing combination, the bete noire of lacrosse. I do not wish to be considered a knocker, but I would like the officials of the league to insist that our boys get out on the field more often than has been the case this season and show that they had made up their respective minds that the Kilmarnock trophy is going to keep the Minto cup company in this city for the next twelve months.

BOTH twelves will be at full strength today and a hard battle may be looked forward to by lovers of the national sport. We will welcome back to the city Gerald Clute, formerly of Westminster, and who is now playing manager of the Victoria bunch. J. J. Mahoney, who will handle the game, is too well known to require any flattery. That he will carry out his arduous duties in a capable manner is already assured. I want to see a clean game, a game like that shown by the Westminster professionals last Saturday. Remember, boys that goals cannot be scored from the timekeepers' bench. Play the game all the while, play it manfully fair, and above board and victory shall rest with you, everything else being equal. It is up to the patrons of sport to turn out en masse today to cheer the Mann cup champions of the future on to victory.

NICK Carter has been handed his papers by Con Jones owing to refusal to train with his team fellows. This information switched over from the Terminal City this week made for deep thought. Does Jones see the writing on the wall? Was the form shown by the champions but a foretaste to the Vancouver manager of what is to come in the four matches still to be played? Writing absolutely impartially, it is a thousand pities that a highly paid player like Carter should so far forget his obligations to his employers as to fall down at a time when all that is best in a man is required, when he should have brains enough to know that he was not brought from the east for a joke, or for his health. While lacrosse magnates have not the same hold in this province as our friends the baseball rulers over the border, players should remember that those responsible to the public for class play cannot afford for many reasons to let one of their number out unless the offence committed is bad, and Carter's appears to come under this category. It is unfortunate that men who can really play good lacrosse should so far forget themselves as to cause worry and trouble to those who employ them. The time may come when refractory players will be reported to the other ruling bodies throughout the Dominion, and by these means put a curb on stickhandlers who apparently think they can run a club as they see fit. The sooner players realize that they are in the game for the money, and as such should play the game not only as experts, but as men, the better it will be for all concerned. When the history of the season of 1911 comes to be written, some strange doings of players will be told.

SHALL we see any tennis matches in this city this season? There seems to be no reason why a series of competitions should not be held from time to time, and thus help to give the healthy pastime an impetus in this city. While we have no Dohertys or Gores, or Poidevins in our midst, it is no reason why weekly competitions or contests could not be held. Now that the suffocating spell of heat has passed the weather is ideal for the racquets game. In the time to come we may have intercity competitions between Victoria, Vancouver, Nanaimo and the players of this Royal City. There are sufficient enthusiasts here to make the scheme possible, and with the organization in proper hands, interesting and eagerly contested meetings could be arranged.

FREDDIE Welsh and Knockout Brown will in all likelihood meet on Labor Day in San Francisco, according to the latest arrangements made by Promoter Clark, of the Golden Gate city. As one who has followed the fistic game for many years, I fail to see for a moment where the interest in such a meeting could be even for the veriest tyro. Welsh is certainly entitled to a match with some of the best lads, and is gradually getting to the top rungs of the ladder, but Brown is to the majority of lovers of the mitt game not far removed from being a joke, this despite what others may say to the contrary. It's wonderful when one thinks of why this boxer from New York was ever given the attachment of Knock-out" to his name. Looking over his list of bouts with second and more often has not, third raters, it is easily seen that this bunch of never-wasers met, went out in quick order, that is if they ever were in the ring with the youth. Since Brown came into the limelight by a mistake on someone's part, he has never performed in a manner which would give him any license to mix it with the top notchers. Presuming we begin with the contest with Pal Moore, who is a good lad, we find that out of twenty-six bouts he won but seven, the others being no-decision bouts, which means that had he been proficient enough he would have sent in the sleep punch, but as the bouts went their prescribed route no verdict was given. Still they style him the "knock-out" youth and get away with it. There are boxers in the old country who are in the game daily, and who could give Brown poundage and a licking, yet these do not get up showy record books with the doings of their wonders in the squared ring like our youth from the Bronx. You can fool some people all the time, all the people some of the time, but not all the people all the time.

IN AN article which would have been interesting had it been accurate, I read this week of the black boxers who had made good in England and detailed doings of Jackson, Dixon, and the other colored "pussons" who were feted by the London gentry some years ago. The writer in the course of his article threw up a screed about the misfortunes regarding Frank Craig, better known in boxing history as the Harlem Coffee Cooler, and then the wise one went on to tell of how Craig years and years ago went into the saloon business and left the mitt game alone for good. One has to travel afar to get dope of this kind, but I could tell a different story of the career of Craig, who is a credit to the boxing game, a man who mixes wtih the best company in the motherland and who is still taking part in boxing contests every week in London. I had the pleasure of refereeing a large number of Craig's chief battles in England, and never want to be the third party in the ring alongside a better cultured lover of the Queensberry code. Craig, who must be well over forty years of age, lives a clean life and conducts himself on a higher plane than many white glove performers whom I could name.

SENIOR AMATEURS READY FOR VICTORY THIS AFTERNOON

Manager Grimston is confident of the boys annexing the game this afternoon at Queens park, when they entertain the Victoria team. Given fine weather there will be a record attendance for an amateur game, and both sides are assured of a square deal from Referee J. J. Mahoney.

The teams:

The Westminster twelve will be: Goal, Keary; point, W. Patchell; cover point, Willis Patchell; defence field, B. Galbraith, H. Battson and L. Gregory; centre, K. MacKenzie; home field, J. Fitzgerald, J. A. Smith and J. Gifford; outside home, C. Smith; inside home, O. Swanson. Spares, B. Henry, E. Cooper, W. Sangster and Hume.

Victoria—Goal, Johnson; point, L. Sweeney; cover point, Dakers; defence field, Stiles, Okell and Brynyolfsen; centre, McArthur; home field, Petticrew, Hunter and McDonald; outside home, McDougall; inside home, Clute.

MAPLE LEAFS WIN FROM BALS ON DIAMOND

In a six innings game last evening, the Maple Leafs defeated the Balmorals to the tune of five to three at Queens park. The game was perhaps the best of the season, but was marked by many errors. Fred Lynch, the genial secretary of the B. C. L. A., was umpire, and his decisions at all times were satisfactory to the fans.

REFEREE DITCHBURN PAYS COMPLIMENT TO TEAM

Salmon Bellies Worked on Saturday in "Good Clean Style"—Vancouver Men Did Not Want Hot Baths.

In an interview with the Daily Colonist, Victoria, W. E. Ditchburn, one of the referees of the big game on Saturday last, has some kind things to say about the Salmon Bellies: "They gave me a genuine surprise," he says.

"Not only were they 50 per cent. better than in any of the previous 1911 matches, but they worked in good, clean, sportsmanlike style."

Gifford was painstakingly clean. By this he meant that he took chances to make it clear that he regretted his unsportsmanlike conduct of the previous week. In order to avoid the semblance of a cross-check, when one would have been quite harmless and perhaps excusable, he had dropped the stick to his side and used his body.

"What the trouble was with the Vancouver players the Victorian could not say. Certainly they were in bad shape. They were not able even to play good lacrosse let alone match the speed and cleverness of their opponents. Personally he was inclined to think there was considerable sense in the theory advanced by one of those with whom he conversed after the game. This person volunteered the opinion that All-Stars had suffered, instead of benefiting, as was intended, from their short stay at Harrison Hot Springs.

"All that was needed was a little practice to keep their eyes true, and their wind right. Baths and such like could do nothing but harm. Therefore he was convinced that the little trip to the summer resort mentioned, which Con Jones planned for the pleasure and the improvement of his boys had an effect contrary to what was desired."

BY RAIL TO SUPPOSED GARDEN OF EDEN VALLEY

ENTERPRISING AMERICANS PROPOSE TO BUILD LINE IN ASIA MINOR—TO MT. ARARAT'S FOOT BY TRAIN.

Washington, July 21.—A railroad projected and built by Americans may before many years open up the interior of Asia Minor, bring the products of this rich but undeveloped country down to the Mediterranean coast and carry the manufactures of the world and globe-trotting tourists to the foot of Mount Ararat, to the supposed Garden of Eden, the ruins of ancient Babylon and Ninevah and the unvisited, almost unknown cities of the Euphrates and Tigris valleys. This project has advanced so far that Dr. Arthur T. Chester, who has been at its head and who has just returned to this country, feels assured of success.

Dr. Chester.

Dr. Chester, who is a son of Rear Admiral Colby M. Chester, U. S. N., retired, has been at work on the enterprise for several years. His father has been frequently called upon to represent the United States at Constantinople, and in that way Dr. Chester became acquainted with the great resources of the Ottoman empire. With the passing of the government of Abdul Hamid he saw the possibilities that the country presented for development.

He discovered also that Europe was intent upon getting all the advantages possible out of the new era. The Russians wished to develop the country to the south of the Black Sea, the Germans already had the Bagdad railway concession, the French had railroads in operation in Syria, and the English were operating steamboats and trading along the lower stretches of the Tigris and the Euphrates. In the furtherance of his own project it thus became necessary that he should make many modifications to suit the schemes already progressing and the demands of the interested European countries. For this reason he is only now able to furnish the full details of the American plan as it rests with the Ottoman parliament.

Young Turks Agreeable.

The men at the head of the new Turkish government, Dr. Chester says, are desirous of having their country developed. They appreciate as well as does any foreigner who has had an opportunity to investigate, the great natural wealth that lies hidden within the heart of the empire. They see that Turkey must have railroads and a development of the internal waterways. Turkey has not the money to accomplish these things and the government must naturally use foreign capital.

Under these conditions American interest in Turkey and American business are desired. The Ottomans want an American market for their products and they want American cooperation in the development of their resources. For this reason Dr. Chester thinks that the country presents a great opportunity for the American manufacturer and capitalist.

The original plan of Dr. Chester and his associates was the building of a road from Aleppo in the highland near the head of the Mediterranean sea down to the coast. Aleppo had a great trade that was carried by pack trains over one of the ancient highways to Alexandretta or some other of the neighboring ports But an investigation showed that much of this trade, in fact the bulk of it, did not originate at Aleppo, but was brought to it from the rich land of the interior.

It was also evident that the Bagdad railway when completed would form a sort of net that would gather in much of it before it could reach Aleppo. It became thus a matter of going to the source. From this inspiration grew the present and completed project.

A Few Railways.

Asiatic Turkey, it should be said, is not entirely without railways, although the building has been slow and not in accordance with the increasing demands. The French have a road, much used by tourists visiting the Holy City, that runs from the sea port of Jaffa to Jerusalem, a distance of fifty-five miles. This was the pioneer road of the Holy Land, and for years was without a competitor. It will eventually revert to the Turkish government.

There is a narrow guage from Beirut to Damascus and another road from Haifa on the coast round the Sea of Galilee past Mount Carmel and in sight of Nazareth to Damascus Another road, which is Turkish, is the Hedjaz railway, which was built, with the intention practically of carrying pilgrims to the Mohammedan holy cities. The work has been held up recently on account of the rebellion in Arabia and the opposition which some of the tribesmen have shown to the enterprise along the southern part of the route.

This road starts from Damascus and runs almost directly south to Medina, the burial place of the prophet. The Turkish government is now endeavoring to complete the remaining 285 miles across the desert to Mecca, which is as far as the line is at present planned. When finished the railroad would cover a distance of about 1100 miles, mostly through a sterile and desert land.

AUCTION

PUBLIC SALE OF VALUABLE PROPERTY AT EDMONDS JUNCTION.

Five Cent Fare from New Westminster.

To those looking for a SURE and LUCRATIVE INVESTMENT, for a small outlay of cash, we strongly recommend their attention to this sale,

WEDNESDAY, THE 26th INST., 2:30 p.m.

Favored with instructions we will sell to the highest bid:

(1) Store building, with two front entrances, suitable for partitioning off for two good stores, with five room flat above, and 45 foot lot, on Edmonds street—the business street, and within a block and half of station and block of new building just being erected, costing $15,000. Terms—$500 cash, balance very easy.

(2) Thirteen other lots adjoining. Terms—$90 cash, balance 6, 12 and 18 months.

Particular attention is called to these properties from an investment point of view as the activity in development in Edmonds just now is marked and houses are being started all around. This activity is bound to continue and purchase of land like the above must show a quick advance. especially when an opportunity of buying below value is afforded. Property has gone up 100 per cent. here within nine months. Go and see the place for yourself—that's all we ask, and remember these properties must be sold. Those are our instructions.

Place of sale will be announced later.

CITY NEWS

Mr. and Mrs. F. C. Cook have taken up their residence at their summer home at White Rock.

Mrs. Jessie Sutherland, of Seattle, has arrived in the city to take up her residence with her son, Charles A. Sutherland, Durham street.

D. Ellsworth Munn, manager of the F. J. Hart & Co.'s real estate branch in Chilliwack, came into the city yesterday to spend the week-end with his parents.

The magnificent McLaughlin-Buick automobile, to be given away by the Daily News, is to be seen in the window at T. A. Muir's drug store, Columbia street. Full particulars on page six. **

John Garland, who is a patient at the Royal Columbian hospital as a result of a tree falling upon him at Coquitlam, inflicting serious injuries, is making slow progress from his severe limb fractures.

The People's Trust company yesterday afternoon sold twenty lots of their subdivision at Montrelynview to a syndicate of upper country buyers. The prices ranged from $550 to $850 a lot. The company has now only thirty of the original 176 lots left.

As the result of a police trap laid by the Burnaby chief of police on the occasion of the last lacrosse match on Saturday, over a measured course on the River road, a number of automobilists who exceeded the speed limits will appear before Magistrate Walker this morning.

Miss Ruth E. Agar, daughter of J. R. Agar, of this city, wins the governor-general's bronze medal for highest marks in this district at the annual High school entrance examinations. Miss Bessie Smith, of Chilliwack, was not only medal winner at Chilliwack, but first in the whole province with 869 marks.

After several years absence Joseph Gill, clerk of the Windsor hotel, is leaving for his old home in Manchester, England. Mr. Gill will be absent for about three months, and after visiting his old home will tour the British Isles. Last evening the members of the hotel staff and a number of friends waited on Mr. Gill and presented him with a handsome diamond scarf pin as a token of their esteem. Mr. Gill will leave on Sunday next. He was formerly in the city police force.

A presentation was made to R. A. McLellan last evening by the newspaper men of this city, on the occasion of his marriage today to Miss Bessie Coutts, of this city. The feelings of his brother journalists were voiced in an address read by R. H. Best, and Mr. McLellan suitably replied. H. Turner, of Vancouver, an old newspaper man of this city, fulfilled the office of chairman most unconventionally, for who looks for humor in a chairman? The address was written by P. W. Luce, formerly news editor of the Daily News.

MAGISTRATE DOWN ON LETTER WRITER

London, Ont., July 21.—Charles James, a hotel keeper, whose place of business is situated on the market, was fined $200 and costs by magistrate Judd yesterday, for a third offence against the liquor act, made inside of two years. James gave notice of appeal, as he loses his license by this conviction.

After passing judgment, the police magistrate took Mrs. Mary Thornley severely to task for a letter written by that lady, to himself, on behalf of the W. C. T. U., in which it was stated that witnesses for the defence had perjured themselves, and expressing the hope that James would be convicted.

HOW POSTAL VOTING IS CONDUCTED

Sydney, July 21.—Consul-General Bray, in a report on the election laws and regulations of the Australian Commonwealth, says:

"It is interesting to note the provisions which these laws make for what is known as absent voting. The Australian Commonwealth, like the United States, is divided into states, with election sub-districts. By one method for absent voting the elector is permitted to cast his ballot at any polling place within the state of district for which he is registered on making a simple declaration that his name is enrolled on the records of one of the polling places within that state or district.

"The second method of absent voting is by mail. An elector who has reason to believe that during the polling hours of an impending election day he will not be nearer than five miles to the polling place at which he is registered, on application may receive a postal vote certificate and a postal ballot paper. With these he may at any time on election day present himself before any government officer or employee at any place in the commonwealth and in his presence mark the ballot. He will then deliver the marked ballot to the government officer or employee, having first put it in a sealed envelope, and the latter will mail it to the electoral officials of the district for which the voter is enrolled. The ballot so sent will be counted when received by the electoral officials in the same manner as if it had been regularly and personally cast at the polling place."

Mrs. Roth, who was injured in a fall from a box car at Sapperton when seeing her husband off for Calgary in charge of stock on Thursday, is making satisfactory progress at the Royal Columbian hospital.

Commencing Sunday, July 23, the steamer Transfer will make the trip to Steveston and return on Sunday afternoons during the fishing season, leaving the B. C. Electric wharf at 3 o'clock. Round trip every Saturday, leaving B.-K. wharf at 2 o'clock. **
