AMSON INQUIRY DISCLOSES MUCH

Snag Puller in Charge of Resident Engineer—Bayfield Gives Evidence.

Alleged Incompetent Mate Offered Command of Tug—Faking and Looting Develop.

Much progress was made at the public enquiry into the facts connected with the dismissal of Mate William Boyd from the government boat Samson, when the hearing began before Commissioner Hon. W. Norman Bole, K.C., yesterday morning in the Dominion building. While the investigation really centres around Boyd, a few of the inner workings of the department were brought to light, among them being the fact that the Samson has been taken away from the control of Superintendent Bayfield and placed in charge of Resident Engineer Worsfold. Captain Carter, the river pilot, is now in charge of the vessel pending the outcome of the enquiry and in view of the resignation of Captain Young.

Superintendent of Dredges Bayfield was the first witness, and related just what happened when Boyd was dismissed. One peculiar fact was brought out by the evidence in that Captain Young, of the Samson, in his report to Superintendent Bayfield asking for the removal of Boyd, stated that he was incompetent to hold his position and that his eyesight was failing.

Bayfield's Evidence.

Superintendent Bayfield stated he did not question Boyd as to the facts nor did he present Boyd with a copy of the charges. He admitted that he had not gone into the charges himself, relying on what the captain of the vessel had reported, and therefore did not know whether they were correct or not. He was moved to discharge Boyd more on account of alleged impertinent remarks made by him to Captain Young in his own (Bayfield's) presence.

The commissioner asked if the charge against Boyd was not incompetence instead of lack of discipline. Mr. Bayfield admitted it was.

Cross-examined by Mr. J. D. Taylor, M.P., Superintendent Bayfield could not exactly explain why he had tendered Mate Boyd the position of captain of the government tug Port Hope at Vancouver after Captain Young had charged that Boyd was failing in his eyesight.

Remarkable Fact.

Commissioner Bole stated that it was a remarkable fact that whereas the witnesses had stated that Boyd could not be trusted in charge of the Samson, yet he had been tendered the command of a tug boat.

Mr. Taylor here suggested that the document giving the reasons of Boyd's dismissal and sent to Ottawa had been falsified or faked "in order to give you proper reasons for dismissal."

Superintendent Bayfield: "This is the second time you have accused me of falsifying and this will go no further." The superintendent was overruled by Judge Bole and was ordered to answer further questions.

Mr. Taylor asked why it was that Boyd was dismissed immediately after the report of a special commissioner who had enquired into certain alleged looting of public stores had been sent to Ottawa, and not before.

Mr. Bayfield's memory appeared very lax at times and he evaded several pertinent questions by stating that he did not remember to his knowledge.

News Leaked Out.

Mr. Taylor stated just before the meeting adjourned for lunch that he had asked for the removal of Mr Bayfield some months ago and had particularly asked the Ottawa authorities to keep the matter quiet until the investigator could be on the ground, but he had later learned that all the officials connected with the department had been warned of this by receipt of a letter from one of the office staff at Ottawa.

Mr. Bayfield was examined for a short time by Captain Boyd as to the proceedings which took place on Saturday, August 10, the day he was dismissed from the ship.

Captain Young, of the Samson, was the next witness on the stand. He stated that Boyd had been mate of the vessel for thirteen months, one month prior to that he had worked as deck hand. A deep sea officer was not required on such a river as the Fraser. He stated that Boyd was an incompetent person to be at the wheel anad that once near Woodward's slough he ran into a fishing net while going down the main channel.

Stores Disappeared.

There was no one in particular in charge of the ships stores, and he denied Boyd's charges that the latter had repeatedly called his attention to the mysterious disappearance of certain paints and oils.

He admitted that the blacksmith of the Samson had made an iron ladder for him, the same being now in use at his house on Pine street.

Captain Young stated that Wilson, the person who made an investigation regarding the alleged looting, had

(Continued on Page Eight.)

NARROW SHAVE FOR HORSES AND DRIVER

James Grigor Thrown from Sluice Wagon in Collision with Interurban Car.

James W. Grigor, who resides at the corner of Tenth avenue and Sixth street, was badly shaken up a 10 o'clock last night when the street sluicing wagon of which he is driver was struck by an out-going Burnaby Lake car at the corner of Columbia and Fourth streets.

Grigor was thrown from his seat by force of the impact and the wagon was turned around completely in the opposite direction to which it was going. The horses had a miraculous escape from injury if not death.

Both were thrown in front of the car and the head of one passed right under the fender. No harm was done the animals, however, but the wagon was slightly damaged in the rear, and the harness broken. Grigor was able to walk to his home.

DROPS BALKAN TRIP TO STAY IN CANADA

Nationalist Leader Prefers to Fight for Autonomy—Favors Plebiscite on Naval Question.

Quebec, Oct. 18.—As soon as he learned of Mr. Monk's intending resignation, Mr. Lavergne, the Nationalist leader, wrote a letter to the Hon. Sam Hughes, withdrawing his application to be sent by the department of militia as a military envoy to the war in the Balkans. In his letters he says that he stands by Mr. Monk and he stays in Canada to offer his services to the latter in his fight for Canadian autonomy.

He things that under the present circumstances his departure for the Balkans would be considered a desertion by his fellow citizens and he cannot accept what would be considered a favor from the present government.

Mr. Lavergne finds another reason for his decision in the fact that he has been requested to do his share in the actual fight for the rights of the French Canadian minority of Ontario.

Interviewed today, Mr. Lavergne said that he was very sorry to abandon his idea of going to the Balkans, but he could not possibly leave the battlefield here at the moment of battle.

"The liberty of the Christians in the Balkans is very important," he said, "but the liberty of Canada is still more to me.

"A plebiscite seems the only reasonable solution of the controversial naval question.

"The Nationalist program is the surest guarantee of Canadian prosperity and union and the integrity of the empire. I still believe in territorial defence as the sole obligation of Canada until we have representation in imperial affairs."

GOVERNMENT GIVES TWO SCHOOL SITES

Problem of Providing for Rapidly Increasing Children in Burnaby Is Becoming Acute.

West Burnaby, Oct. 18.—"The provincial government is more than meeting us half way in the matter of school sites," was the announcement of Chairman T. W. Mayne, of the school board, who, with Trustee Sanderson, returned this morning from Victoria, where they have been consulting the government regarding school affairs.

Two school sites, one at Broadview in North Burnaby, and the other at the corner of Griffiths avenue and Westminster road, were promised by the minister of education. The crown owns several hundred acres in Burnaby and the sites will be on part of this land.

The delegation also asked for financial support towards the erection of the new schools, and while not promised any definite amount, an assurance was given that careful inquiry would be made. It is considered that prospects are bright for the grant.

The difficulty of accommodating the increasing number of children in Burnaby is fast becoming acute. It was thought at the beginning of the present year that ample funds would be available, but several districts have built up so rapidly that the financial problem has become a serious one.

Nearly all the schools are crowded, while the number of teachers could be increased. The school at Vancouver Heights, which was opened last years with fifty pupils, now holds 210, all four rooms being crowded.

CANNON ROARING FOR CHRISTIANITY

Turkey's Efforts to Induce Greece to Secede from Alliance.

Heavy Fighting Reported — Greek Army Crosses Frontier—Fleet Sets Sail.

Athens, Oct. 18.—The foreign minister at the sitting of the chamber of deputies announced today that Greece had declared war against Turkey. He added that up to the last moment Turkey had made all kinds of efforts and held out all sorts of promises to have Greece break away from the Balkan confederation.

Premier Venizelos read to the deputies a message from King George in which his majesty said that the sufferings of their oppressed brethren had forced the Balkan states to recourse to arms. The premier also read a telegram from Crown Prince Constantine reporting that the Greek army had entered Turkish territory.

Greek Fleet Sails.

When the premier had concluded, the minister of war announced the departure of the Greek fleet. He said it was the one great wish of the Greek sailors to see the Turkish fleet leave its moorings.

Amid cheering, the president of the chamber asked permission of the deputies to send greetings to the executive chambers of the allies now that "cannon are roaring in the name of civilization and Christianity is at war against barbarism."

Big Battle On.

Constantinople, Oct. 18.—Heavy fighting is reported to have been in progress throughout the day in the region about Kirk-Kilesseh, northeastward of Adrianople. Large forces were engaged on both sides.

The departure today from Constantinople of the Balkan ministers was not attended by any hostile demonstration.

Thousands of Greeks and other prospective combatants of the Turks were permitted to depart to join their forces, but their leaving brought forth no unfriendly manifestation.

Pressure on Greece.

Doubt prevailed up to the last moment whether Greece finally would throw in her lot with her Balkan allies. It is an unquestionable fact that the Turkish government made serious efforts to have Greece withdraw her allegiance to the confederation.

It seems probable that Turkey was prompted chiefly by a desire to gain time in view of the superiority of the Greek fleet in the Aegean sea. Turkey at the last moment offered to send a new minister to Athens—one more acceptable than Mukhtar Bey—but this effort proved futile.

Servian Army's Progress.

Belgrade, Oct. 18.—There was great rejoicing here today over an unconfirmed report that Servians had captured Pristina, a town of 15,000 inhabitants in the vilayet of Kossovo, Turkey, but the only authentic information concerning the movements of the army was that the Servians had entered old Servia and were advancing in the direction of Uskup. It is doubtful whether they have reached Pristina.

Bulgarian Success.

Sofia, Oct. 18.—The Bulgarian army today occupied Kourtkala, an important stragetic point near Mustafa Pascha, which is in European Turkey, 20 miles northwest of Adrianople.

JOYNSON FUND.

The Joynson fund will come to a close on Monday and intending contributers are requested to send in their subscriptions as early as possible. It is hoped that today will result in a substantial increase being made to the list which now stands at $786.05, the only additional amount coming in yesterday being $1 from "A Friend."

Contributions may be sent to Rev E. G. Thompson, 407 Columbia street may be paid in to any of the city banks, or will be received at the offices of the Westminster Daily News or the British Columbian.

URGE IMPROVED B.C.E.R. SERVICE

Board of Trade Members Criticise Present Conditions—Action Taken.

Harbor Improvement—Joint Bridge Across Pitt River Suggested—Mail Eighteen Hours Late.

The B. C. E. R., its local passenger, car and freight service, its district freight service and its conductors and motormen were in turn roundly scored at the meeting of the board of trade held last night. A long discussion ensued on these matters, during which it was declared by Mr. J. G. Robson that the service supplied by the company was a curse not only to Westminster, but also to the district.

He stated that he had a standing order of two freight cars per day for his business, but had only managed to secure one in ten days, while other people, he declared, were even worse off than himself.

The subject was raised by Mr. T. D. Sherriff, who declared that the Sixth street service of the company was at present in a wretched condition. The tram crews were careless and indifferent it was also alleged. Other members spoke in strong terms regarding the service, and President Duncan, Messrs. Ryall, Vidal and Sherriff were appointed a committee to take the complaints to the headquarters of the company. It is their intention to suggest that the service on Sixth street be improved all round and specially augmented during rush hours.

That the government is keeping a watchful eye on the Fraser river was assured by Mr. J. D. Taylor, M.P., who announced that the contracts for the second and third parts of the jetty construction at the mouth of the Fraser were about to be let, and an expenditure of $1,400,000 would be made in the improvements.

Requesting that the board investigate the release from government service of Mr. Kinghorn, government inspector of hulls for B. C. Captain Worsnop, of Vancouver, sent in a long communication alleging that Mr. Kinghorn had been wrongfully compelled to hand in his resignation as the result of the loss of the steamers Iroquois and Sechelt.

The board could not see its way clear to take up the matter, but the receipt of the letter brought the captain in for a good round of adverse criticism upon statements he made recently at a meeting held in North Vancouver while digressing on the disadvantages of the proposed Second Narrows bridge. He is alleged to have declared that the Fraser bridge at New Westminster was a striking example of impediment to otherwise navigable waters.

Industrial Conditions.

The Dominion deputy minister of trade and commerce sent in a request for information regarding industrial conditions locally, what industries could be developed and what materials were here which could be used in any industry. Also what obstacles against industrial development existed and considerable other information along this line. The letter was left with the trade and commerce committee to supply the necessary information.

A committee of three members of the board was appointed to interview the C. P. R., with a view to discovering whether that company could not be induced to co-operate with the Western Canada Power company and the government in erecting a joint bridge across the Pitt river. It was thought by the board that if each different concern erected a separate bridge navigation on the stream would be greatly impeded. The secretary was also instructed to approach the government and secure its views on the matter.

Delayed Mail.

Mr. L. B. Lusby asked that the board take up the matter of delay in the arrival of old country mail in Westminster. He declared that at present it was shipped to an eastern point where it was redistributed, causing a delay of eighteen hours. He thought that if it was sent direct to Vancouver the delay in receipt would be greatly reduced.

A copy of the complaints made regarding the local land registry office by the Progressive association was submitted to the board with the request that a delegate be appointed to act in conjunction with a deputation from this city to approach the government at Victoria on the matter.

A motion of endorsement and support was accorded the Heaps' Engineering by-law which will be submitted to the ratepayers on October 29.

A report from Secretary K. Myers of the Progressive association, and Mr. W. L. Darling on their trip to Calgary and Edmonton in the interests of the city was received and filed.

The sum of $75 was appropriated to defray the expenses of a delegate to the province wide development organization meeting to be held at Vernon next Tuesday. President Duncan will attend if possible, and should he be unable to make the trip Mr. W. R. Gilley will go in his stead.

FIREMEN'S PROMPTNESS SAVES RESIDENCE

Blaze at Mr. N. H. McQuarrie's Home Does $100 Damage This Morning.

One of Mr. N. H. McQuarrie's household in his home at Albert Crescent waking up about 2 o'clock this morning, smelt fire, and on investigation found volumes of smoke issuing from under an oen fire place in one of the upstairs bedrooms. An alarm was sent in, Hall No. 1 responding.

After considerable trouble during which the entire fire place had practically to be torn down, a section of the floor betwee the roof of the parlor and the bedroom was found smouldering. On the removal of a portion of this flames broke out, but with the use of a hand extinguisher they were doused in a few seconds.

The most remarkable thing in connection with the blaze was the fact that the brother of Mr. McQuarrie living in the house on one side and the family living on the other did not wake up throughout the whole occurrence, even when the fire autos arrived and departed.

Mr. McQuarrie considers that if it had not been for the extreme promptitude of Chief Watson and his fire fighters in answering the telephone alarm he sent in, extensive damage would have been done and the house might even have been destroyed. From the moment of notification it took the firemen but three minutes to reach the scene.

MINNESOTAN DIES IN TRAIN WRECK

Two C. P. R. Freights in Collision—Cause Said to Be Absence of Flagman.

Moose Jaw, Sask., Oct. 18.—At an early hour this afternoon a freight train pitched into another freight train waiting for a superior train to go through to Uren, fifty miles west of here on the Canadian Pacific railway. R. T. Nicholson, fireman on the moving train, lost his life. He was a single man, aged 24, and a newcomer, a native of Minnesota.

It is said that the cause of the wreck was due to the stationary train not having a flagman out. Some damage was done to rolling stock. An inquiry is likely.

MONK'S RESIGNATION NOT YET ACCEPTED

Minister Attends Cabinet Meeting—Hon. George Perley Named as Successor.

Ottawa, Oct. 18.—The cabinet met both this afternoon and evening to consider matters in connection with the opening of parliament, which all the members agree in stating will be on Thursday, November 21. Hon. F. D. Monk attended the afternoon session of the cabinet, and this indicated that his resignation has not yet been accepted by the prime minister, if indeed, it is yet in his hands.

When seen after the meeting was over, Mr. Monk said he had no statement to make, but did not deny that his resignation would be in and take effect in the course of a few days.

There is a general impression that, following the formal resignation of Mr. Monk, the portfolio of public works will be placed under the cares of Hon. George Perley, the minister without portfolio, until such time as a new minister is named and secures election.

SECESSION IS DEAD IN NORTH BURNABY

Reeve and Councillors Address Crowded Meeting of Ratepayers—Transportation Question.

North Burnaby, Oct. 18.—The proposed secession of North Burnaby from the municipality of Burnaby received its quietus last evening at a well attended meeting of the ratepayers of this district held in the Vancouver Heights school. Interest was added by the presence of Reeve Wear and Councillors MacDonald and McGregor.

For some months the talk of seceding from the rest of the municipality has been to the front in the northern portion of Burnaby, but after the dif

(Continued on Page Four.)

DISFAVORS NORTH ARM COMMISSION

Should Come Under Jurisdiction of Proposed Westminster Harbor Board.

B. C. E. R. Explains Delay on Work—Adventures of Material—Permits for Burial Plot.

It is altogether probable that strong opposition will be waged by the city council to the proposed creation of a harbor commission which would have control of the waters and foreshore rights of the North Arm of the Fraser. This developed at the council meeting held yesterday afternoon when a communication was read from Messrs. Cowan, Ritchie and Grant, a Vancouver law firm, stating that they had made application and would press for a bill to be passed at the next session of the Dominion parliament for the creation of such an authority.

The law firm wished to know whether the port of New Westminster was governed by the city or by a separate body.

Alderman Kellington in speaking to the communication, said that he could see no reason why the North Arm of the Fraser should not be included with the project of New Westminster, and he felt that it should surely come under the jurisdiction of the proposed harbor commission of New Westminster.

One for All.

Mayor Lee suggested that a communication be at once sent to the government at Ottawa calling attention to the fact that under one commission better service could be obtained to the advantage to all.

Alderman Kellington again speaking stated that in view of the early opening of the Panama canal immediate action be taken in this regard so that no serious matters would hinder the work of the commissioners when once they are appointed.

After some discussion by the other aldermen present, the communication was referred to the harbor committee, which was given power to act.

Car Line Improvements.

A sequence of unavoidable circumstances was given by the B. C. E. R. as the reason why the car line connection at the corner of Columbia and Eighth streets, had not been installed in a letter then considered. This was in answer to complaints made of late concerning the delay on this and other improvements scheduled to be carried out by the company throughout the city.

The material for the Columbia corner, it was stated, had been shipped on May 8 from England, which was about a month later than expected on account of the coal strike. The steamer Artillion, on which the shipment was made, was wrecked off the coast of Mexico, but the goods had been salvaged and it were due in Westminster about November 6 or 8.

Leopold Place.

Regarding the Leopold place improvements this work was delayed because the engineering department of the company had not received the proper information concerning it until ordered from the States. Material for the other improvements, it was added, was also on order from the States, so as to avoid the long delay in obtaining it from England. In reference to paving work which might be carried out by the city at a later period the company asked that it be given notice ahead of time if it affected the car system in any way, as it was difficult on account of the large amount of work on hand to rush any job on a short notice. Mr. Conway, however, whose signature was attached to the letter, gave definite assurance that all work would be pushed ahead as rapidly as possible.

The council ordered the communication to be placed on file for future reference.

Affecting Burials.

Calling attention to the condition of the public cemetery at Eighth street, Mr. S. J. Pearce, health inspector, wrote the council recommending that the broom and other noxious weeds growing on the grounds be torn up by the roots and burned in order that the grounds might be put in as respectable condition as possible. His recommendation was referred to the board of works, and the suggestion that undertakers be requested to take out a permit for burial plots in the cememtery from his office in order that they might be kept on record, was adopted.

A request from the Labor Temple Building company for the street grades at the corner of Royal avenue and Seventh street in order that they might be able to go ahead with some improvements to the T. & L. building, was referred to the engineer. An application from Hatsu Hisijima, a Japanese woman, proprietor of a boarding house at Queensborough, for permission to erect a bridge 30 feet by 68 feet across the ditch in front of her building was similarly dealt with. St. Mary's hospital applied for permission to construct a sewage water drain from the furnace chamber in the hospital to the sewer on the north side of Agnes street. This was referred

The Market.

With Thanksgiving Day looming up strong on the horizon the receipts of poultry on the local market are increasing by leaps and bounds. Yesterday it was chickens and ducks everywhere with hardly a place to stow them and the market officials are looking forward to still heavier arrivals next week. The feathered stock of good quality found ready buyers but the same was not the case with the poorer class goods, some hens of exceptionally low grade being hard to sell.

The market yesterday was one of the best on record as far as heavy receipts were concerned. Eggs were the only goods that were not as plentiful as usual, and as a result the retail price advanced to 60 cents. Small though the supply of hen fruit was, dealers had considerable difficulty in getting rid of their stocks and at the price they were charging and business in this line was the dullest for weeks.

An abundance of vegetables of all seasonable varieties were on hand. Spuds as usual predominated among the stocks but sold fairly well at the standing price. Some fine cabbage sold at 1 cent a pound while a few crates of onions from up river points found ready purchasers at figures varying from $1.25 to $1.50.

There was a very large supply of apples on hand at the fruit stalls, the best quality selling readily. There was but a small arrival of pears which were eagerly sought for.

A good number of horses and cattle were put up for auction in the market square and appeared to find ready buyers at reasonable prices. On the whole the business of the day was better than it has been for some time and dealers had no reason to complain of the trading.

NEW SUPERINTENDENT OF DOMINION PARKS

Ottawa, Oct. 18.—An order in council has been passed appointing Philip C. B. Harvey superintendent of Dominion parks in the west to succeed Howard U. Douglas, whose services were dispensed with on the score that he was a partisan.

The new superintendent of the parks system came to Canada from the Motherland 22 years ago and has been connected with survey work. His headquarters will be in Edmonton.

DIAZ FOR PRESIDENT IF REVOLUTION SUCCEEDS

Mexico City, Oct. 18.—That Porfirio Diaz, deposed president of Mexico, will resume the office of chief executive, provided his nephew, Felix Diaz, succeeds in his present rebellion, is the report current here today.

With the younger Diaz in control of Vera Cruez, one of the most important seaports of Mexico, the matter of importing arms and ammunition to support the revolution would be an easy matter.

Municipal Enterprise Pays.

Calgary, Alta., Oct. 18.—Earnings of the municipal railway system for the fiscal month just closed $13,066. The total revenue was $59,136.

CANADIAN EMIGRATION.

Two Views From London As to Who Should Come Over Here.

London, Oct. 18.—Mr. William Baker, director of Barnado's homes, told the Imperial Trade Commission today that he strongly favored the emigration of children about seven years of age, so that they might grow up Canadians from childhood. Canada offered children better conditions than South Africa or Australia, he said, and could absorb all they could send.

The light in which some people regard Canada as an emigration field is shown by an incident yesterday at the petty sessions at Wakefield, Yorkshire. Two brothers charged with fraud were bound over on the understanding that their uncle would send them back to Canada whence they came.

"It was the best way to get rid of the two young fools," the bench said, and hoped the prisoners would be carted off to Canada immediately, for it would be better for England.

A bite of this and a taste of that, all day long, dulls the appetite and weakens the digestion.

Restore your stomach to healthy vigor by taking a Na-Dru-Co Dyspepsia Tablet after each meal—and cut out the "piecing".

Na-Dru-Co Dyspepsia Tablets are the best friends for sufferers from indigestion and dyspepsia. 50c. a Box at your Druggist's. Made by the National Drug and Chemical Co. of Canada, Limited.

Mrs. Cheever, Queen's Court, will receive on the third Thursday of each month.

* * *

Mrs. Harry Briggs, of Victoria, is the guest of Brs. T. L. Briggs, Royal avenue.

* * *

The W. A. of St. Andrew's Church will hold their annual supper on the 25th of this month. The supper is to be followed by a Scotch concert.

* * *

Mr. and Mrs. M. M. English arrived down from Essington this week and will occupy Mr. A. P. Grant's residence on Blackford street for the winter.

* * *

Mr. and Mrs. N. F. Kendall, of Homer, B. C., arrived in the city on Saturday evening, and will be the guest of Mrs. R. Dickinson, Armstrong street, for a couple of weeks.

* * *

The Misses Brown entertained at a small work tea on Monday afternoon in honor of Miss Kate Dauphinee, of Cedar Cottage, whose marriage to Mr Hirst, of Penticton, B. C., took place on Wednesday evening.

* * *

Mrs. Gaynor invited a few friends in for tea on Thursday afternoon. Among those invited were: Mrs. Macdonald, Mrs. Sinclair, Mrs. Ardagh, Mrs. Creighton, Mrs. Doherty, Mrs. Davidson, Mrs. Marcon, Mrs. Worsfold, Mrs. Sutherland, Mrs. Grant, Mrs. Malins, Mrs. Gracey, Miss Moore, Mrs. J. E. Allen, Miss Marion Martin and Miss Lewis.

* * *

On Thursday evening Mrs. A. F. Cotton was hostess at a very enjoyable bridge when Mrs. G. D. Brymner and Mr. Rand were the winners of the first prizes. The consolation prizes were won by Mrs. Gaynor and Mr. G. D. Brymner and Mr. Gracey won the prize for the lucky chair at the end of the evening. Among those present were: Mr. and Mrs. G. D. Brymner, Mr. and Mrs. Richardson, Mr. and Mrs. Russell, Mrs. Gaynor, Miss Wright, Miss Moore, Mr. Gracey and Mr. Rand.

* * *

Mrs. W. F. Edmonds (nee Briggs) held her wedding reception on Wednesday afternon at her pretty home on Linden avenue, Edmonds. The bride, who wore her handsome wedding dress, was assisted in receiving by her mother, Mrs. T. L. Briggs. Masses of pink and white carnations and similax adorned the rooms, while on the tea table was a beautiful centre of "black-eyed Susans." Mrs. Munroe, of Magee; Mrs. James Brymner and Mrs. G. A. Allen presided at the tea table and were assisted by Mrs. Harry Briggs, Mrs. Watson, Mrs. Sweeny (Vancouver), Mrs. H. L. Edmonds, Miss Briggs, Miss Manuella Briggs, Miss Brown, Miss Green, Miss DeWolf Smith and Miss Nora Armstrong. The callers were admitted by Miss Noel Armstrong. In spite of the weather quite a number called during the afternoon. Among whom were Mrs. Watson and Miss Watson (Vancouver), Mrs. Dickinson, Mrs. Diamond (Vancouver), Mrs. Charleson Mrs. Yuengling, Mrs. Dockrill, Mrs Phillips, Mrs. T. J. Armstrong, Mrs. Corbould, Miss Corbould Miss Wright, Mrs. Clute, Miss Phillips Miss Armstrong, Mrs. G. B. Corbould, Mrs. Curtis, Mrs. C. N. Macdonald, Mrs. J. R. Grant, Mrs. Gaynor, Miss Gray, Mrs. Malins, Mrs. Beatty, Miss Shildrick, Mrs. J. C. Armstrong, Mrs. Sutherland, Miss Marion Martin, Mrs. Frank Pearson, Mrs. Jakeman, Mrs. Robson, Mrs. Muir, Mrs. Sinclair and others.

* * *

One of the smartest teas of the season took place on Thursday afternoon, when Mrs. H. C. Major entertained in honor of Mrs. A. P. Grant, now of Vancouver. Large bowls of white and yellow chrysanthemums decorated the pretty rooms and the tea table was centred with a large bowl of black-eyed Susans. Assisting the hostess to entertain her many guests were her sisters, Mrs. Frank Pearson and Mrs. Williams (Vancouver), also Mrs. Dr. Welsh, Mrs. Arthur Welsh, Mrs. Clute, Mrs. Brown, Mrs. C. G. Major, Mrs. Lee. Presiding over the tea table were Mrs. Meredith, Mrs. Brown, Mrs. Collister and Mrs Eddy, who were assisted by Miss Brown, Miss Gertrude Brown, Miss Corbould, Miss Drew, Miss Watson, Miss Rickman, Miss Wright and Miss Warwick. In the ice cream room were Mrs. Fred Hill and Mrs. Dr. Welsh assisted by Miss Meredith Miss Curtis and Miss Fletcher. Miss Evelyn Major and Miss Dorothy Lee attended the door, assisted by little Joy Major and Esther Eddy, who wore dainty white embroidery frocks. Among those noticed calling during the afternoon were Mrs. Watson Mrs. Ritchie (Vancouver), Mrs. Drew Mrs. Fletcher, Mrs. Houghton, Mrs. Corbould, Mrs. Rant, Mrs. Charles Robson, Mrs. Phillips, Mrs. Dockrill, Mrs. J. S. Clute, Mrs. G. B. Corbould, Mrs. F. N. Sinclair, Mrs. G. A. Allen, Miss Fraser, Mrs. Harvey, Miss Rashleigh, Mrs. Scott, Brown, Mrs. Phipps, Mrs. J. E. Allen, Mrs. Ardagh, Mrs. Macgowan, Mrs. Gowan Macgowan, Mrs. Shadwell, Mrs. Balloch, Mrs. Welsh, Mrs. Chamberlin, W. G. McQuarrie, Mrs. Thompson, Mrs. Johnston, Mrs. H. Bourne (Vancouver), Mrs. W. Johnston, Mrs. Carter Smith, Mrs. J. H. Jones, Mrs. Lynch Mrs. Ramsay. Mrs. Burnett, Miss Bontor, Mrs. Ed. Johnston, Mrs. Jakeman. Mrs. H. L. Edmonds, Mrs. Wolfenden, Miss Marion Martin, Mrs. Agar, Mrs. W. F. Edmonds, Mrs. Kellington, Mrs. Hill, Mrs. Beatty, Mrs. Muir, Mrs. Gracey, Mrs. Stott, Mrs. Cheyne, Mrs. Streight, Mrs. C. Lord, Mrs. Renshaw, Mrs. Dingle.

Churchill May Not Come.

Ottawa, Oct. 18.—There is good reason to believe that the much-talked-of visit of the Rt. Hon. Winston Churchill, First Lord of the Admiralty, to Canada has been abandoned In view of the present European situation it is improbable that he will come even unofficially. While Premier Borden was in London it was suggested that Mr. Churchill should cross the Atlantic in a warship to be present during the coming parliamentary debate on the question of naval aid.

Policeman Shoots Robber.

Seattle, Oct. 18.—John King, 33 years old, was shot and killed late tonight by Patrolman R. S. Johnson, just after King and a companion, who gave his name as Frank O'Donnell, emerged from a saloon in Sixth avenue south, which they had robbed.

King and O'Donnell had locked the proprietor of the saloon and a patron in the ice box and were rifling the cash register when Johnson observed their operations through a window. He telephoned to the police station for assistance, and then waited at the door for the highwaymen. When they came out he ordered them to halt and was answered by a blow on the jaw. Without further parley the patrolman shot, killing King. O'Donnell was captured.

One of the leopards which will appear at the Royal theatre Monday under the direction of Professor Arnoldo.

FOOT THE BILL.

In a little over a month the Dominion parliament will reassemble at Ottawa, and shortly afterwards the Canadian people will be in a position to judge of the merits or otherwise of the measures proposed by the cabinet with regard to naval defence of the Empire. Gradually it has appeared in the despatches of late that an immediate contribution of a considerable sum of money will be voted the British admiralty.

In due course there must be Canadian representation upon the body controlling imperial defence, but it would appear at present that the time is hardly ripe for this. Hon. Martin-Burrell at Grand Forks on Thursday, referring to the Dominion, said he knew of no other case where a nation of eight millions of people had been enabled to work out its own material achievements and to follow its social and industrial life without a thought or care as to any external interference.

He added that every thoughtful man knew that this liberty and peace had been won by the blood and struggles of the past, and that no man or nation could escape individual and national responsibilities.

Canada has always been sheltered by the power and prestige of armies and navies paid for, not only by the British taxpayer, but subscribed to by our kinsmen whose homes like ours are outside the British Isles.

When we consider that for a long period of years Canada has given absolutely nothing beyond talk to the upkeep of the power that is responsible for her affluence and peace; when we think that every man, woman and child in New Zealand three years ago went into debt to the extent of $10 and was ready to increase that debt to $20 in order to contribute to naval defence; when we think that Australian ships and South African money contributions are in one case fully equipped and in the other have been pouring in for a long period of years, we shall not murmur at any money contribution that the government now proposes to make in the same cause.

All we can hope to do now is to pay up our back debts like men. We can never wipe out the stigma among our oversea kinsmen of being long winded, but we should see to it that ample amends be made now and soon.

WAR AND THE MASSES.

The good people who have anti-militarism on the brain are always characterizing war as the fault of the class to which the street Arab refers as "the big bugs." These good people are always—particularly when labor agitators—referring to war as something which would never take place if "the rich men" who are pictured as always trying to promote war had "to go to the front themselves instead of sending poor laboring men there to be shot at." History shows that for every war caused or promoted by politicians or plutocrats, or even soldiers, two wars are caused by the outburst of the passions or prejudices of the common people. Of the latter kind is the explosion in the Balkans.

Nearly every government in Europe has been trying to prevent the outbreak of this war. Every big politician in civilization has set his face against it. The great powers of Europe with their millions of soldiers in leash, have urged peace. The people of the Balkans will have no peace. The story comes over the wires that their princes and leaders have not dared to attempt too far to hold their people back. Their feelings are aroused; they must fight.

The moral for "anti-militarists" is, or ought to be, that if they are depending on sense and logic to keep their own country from getting into war, as they might reasonably do if only politicians and plutocrats or even captains and colonels, had the say, they are taking bad chances. A gust of popular fury not amenable to reason or logic or persuasion, is much more liable to precipitate war than any calculated selfishness of political leaders or commercial interests. And the nation which notes this fact sensibly will not leave itself at the mercy of chance.—Ottawa Evening Journal.

Indian Misses Gallows.

Calgary, Alta., Oct. 18.—Life imprisonment was the sentence imposed today upon Jime Ham, an Indian, also known as Mike Running Wolf, convicted of killing R. N. W. M. P. Constable Francis Davis near Bassano June third last. The jury was out less than an hour and found the defendant guilty of manslaughter.

DISFAVORS NORTH ARM COMMISSION

(Continued from Page One.)

to the health committee to report.

The finance committee will deal with Mr. D. E. MacKenzie's application for the balance of the provincial government grant to the exhibition. The remaining portion amounts to $2000.

Complaints and Requests.

Mr. W. Minthorne appeared with the complaint that the basement of a house owned by him on Thirteenth street was flooded with water on account of some alleged defect of the city drains. His grievance was referred to the board of works committee to examine and report.

Mr. Herbert sent in a request for a refund of taxes amounting to $79 which had been paid on the west one-third section of a lot in lot 16, subdivision 5, as the property had been given to the city for street purposes. The matter was left in the hands of the finance committee.

Complaining that there was no sidewalks from Fourth street to his house in the 300 block, Sixth street Mr. E. Knott wrote requesting that some action be taken. The board of works will look into the matter.

Stating that the maps were not available Engineer Blackman reported that the city would not be able to comply with the request of the B. C. land surveyors for grades on various grades in the city. The parties who sent in the requests will be notified to that effect.

The council approved of the street grade plans for Elliott street and Albert Crescent. Previous to the meeting the whole of the council visited the ground affected and decided on the action adopted.

SECESSION IS DEAD IN NORTH BURNABY

(Continued from page one)

ferent matters had been explained by the reeve and his confreres, a unanimous vote against the proposition was carried.

Reeve Weart spoke at length on the transportation question, which has affected the northern portion of Burnaby more than any other section owing to the total absence of electric lines. He thought that the negotiations with the B. C. E. R. in regard to the consolidation of franchises were progressing satisfactorily and predicted that a 25 year franchise would be obtained in the near future. The reeve also spoke on matters affecting the whole of Burnaby, as did Councillors MacDonald and McGregor. Before the meeting broke up a hearty vote of thanks was accorded them for their presence.

A JOCULAR MONARCH.

Ivan the Terrible Had Cold Blooded Notions About Jesting.

Ivan the Terrible forgot neither his devotions nor his diversions. His palace alternately resounded with praying and carousing. He had a company of jesters, whose duty it was to divert him, especially before and after any executions, but they often paid dearly for an unseasonable joke.

Among these none was more distinguished than Prince Gvosdef, who held a high rank at court.

The czar, being one day dissatisfied with a jest, poured over the prince's head the boiling contents of a soup basin. The agonized wretch prepared to retreat from the table, but the tyrant struck him with a knife, and he fell senseless to the floor. Dr. Arnolph was instantly called.

"Save my good servant!" cried the czar. "I have jested with him a little too hard."

"So hard," replied the other, "that only God and your majesty can restore him to life. He no longer breathes."

Ivan expressed his contempt, called the deceased favorite a dog and continued his amusements.

Another day, while he sat at table, the waywode of Staritza, Boris Titof, appeared, bowed to the ground and saluted him after the customary manner.

"God save thee, my dear waywode. Thou deservest a proof of my favor."

He seized a knife and cut off an ear. Titof thanked the czar for his gracious favor and wished him a happy reign.—Pearson's Weekly.

OUR EARLY RAILROADS.

Rules That Used to Be In Force Half a Century Ago.

A curious relic of railroad operation some fifty years ago in Tennessee and Georgia is exhibited in the following extracts from the rules then in force:

Each engineman will keep a watch, which must be regulated by the time of his conductor at the commencement of each trip and will always have in his possession the current schedule book.

Should any stock be killed which may be likely to endanger the safety of the next train passing, the engineman will stop his train until track is cleared.

As a general rule, when trains meet between stations the train nearest the turnout will run back. Any dispute as to which train has to retire is to be determined at once by the conductors without any interference on the part of the enginemen. This rule is required to be varied in favor of heaviest loaded engine or the worst grades. If they meet near the center, in case of backing, a man must be placed on the lookout, so that any danger to the rear-most part of the train may be seen and the engineman at once receive notice. The backing must be done cautiously.—Railroad Man's Magazine.

JOHNSON ASKED TO EXPLAIN RELATIONS

With 19-Year-Old White Girl—Mother Makes Appeal to Police—Champion's Excuse.

Chicago, Oct. 18.—Jack Johnson, the negro heavyweight champion pugilist, appeared before Chief of Police McWeeny today to explain his relations with Miss Lucille Cameron, 19 years old, white girl, the daughter of Mrs. F. Cameron-Falconet, of Minneapolis, for whom the police had been asked to search by the mother.

In a dramatic appeal Mrs. Cameron-Falconet told of her failure to get her daughter away from the hypnotic influence of the negro. She described her anguish when she learned last Friday that her daughter was a frequenter of Johnson's cafe, her hurried trip here to rescue the girl, her interviews with the pugilist, who she declared, insulted her and flouted her plea that he give up the girl. Johnson, she said, told her he could "get" any woman he wanted.

Johnson made an absolute denial of unduly friendly relations with Miss Cameron and that his infatuation for the Cameron girl was one of the causes of the suicide recently of Mrs. Etta Duryea-Johnson, his white wife.

Johnson issued a statement later in the evening, saying in part: "It is not my fault that white women become infatuated with me and follow me around."

"PLUMS"

The "plums" of life are for the people who know how to pick them and where to pick them. You have heard of Penticton. Richard McBride knows it, and this is what he says of it: "Penticton ever to the fore." Where do the "plums" come in?

Penticton in the literal sense cannot help growing them because of its sunny dry clime and fertile soil. It is rich in its orchards and richer in its possibilities. Probably you were at the Exhibition last week and saw exactly what can be grown in this Penticton. Such apples. Have a look in the window of the Peoples Trust Co. and see the display. It will tell you at a glance better than we can in writing. But it is to the possibilities of the town we want to draw your attention. It is the centre of the Okanagon fruit growing district. It is prosperous even now with the water transportation on Lake Okanagon but with the railway now being built the city will grow by leaps and bounds.

Your plums can be picked now by securing some of the cheap buys in city lots which are to be had today. Prices are low today. Isn't this the time to buy. City lots right in the heart of it are to be had today from $200 to $500 per lot. Terms easy.

ROVERS EXPECT TO WIN TODAY'S GAME

Have Drawn with Hibs and Thistles Thus Far—Meet Celtics at Moody Park.

Much interest is being taken as to the outcome of the Rovers-Celtic battle which is scheduled for Moody park this afternoon. The race for the championship is now in full swing and today's game will no doubt have a great bearing as to the chances of the Rovers in heading the league.

All the players have been getting in no end of practice during the two week's lay-off and no matter what the other teams of the city do, it can be expected that the Rovers will leave the field with their first two points won in a single game.

So far this season they have drawn with the Hibernians and the Thistles, but missed chances in the forward division were accountable for this.

"There will be no errors Saturday afternoon," said Manager Grant yesterday. "We are out to win and the spectators can expect us to put up one of the best games seen on the park."

Although a slight change might be made in the line-up the following list will be reasonably near the mark.

Goal, Collier; full backs, Lyon, Hotchkies; halves, Smith, Bruce, Meiklejohn; forwards, McMillan, Cavdzien, Shawcross, McLeod, Carinduff and Hayes. The kick-off is scheduled for 3 o'clock.

AT QUEENS PARK.

Connaught's Meet R. C. H. S. Hockey Team—Rugby Game Follows.

The first hockey game of the season will be played at Queens park this afternoon when the newly formed Connaught team composed of Burnaby and New Westminster ladies meets the girls' team of the Royal City High school. Both elevens have been practicing assiduously during the past week preparing for the event, and while the R. C. H. S. are perhaps to be favored owing to their experience last season, the Connaughts are planning a little surprise and have high hopes of annexing the points.

The following will represent the Connaughts: Miss Bowman, Miss Dick, Miss B. Annandale, Miss Wilkie Miss Draper, Mrs. Gildersleeve, Miss G. Kirby (captain), Miss Wilson, Miss Draper, Miss Dick, Miss Eastman Reserves, Miss DeWolf Smith, Miss I. Kirby and Miss Bowman.

Mr. L. Avory White will handle the whistle, the bully-off taking place at 2 o'clock.

The Westminster rugby team will do battle with the Native Sons at 3:30 p.m., following this game.

HOCKEY GOSSIP.

Although Lester Patrick has not given out anything definite regarding the players he has signed up to play on the coast hockey teams this coming winter, at the present stage of the proceedings it appears as if the Victoria man is having difficulty in securing the players he was after when he left the coast two weeks ago.

Perhaps the successful raid which brother Frank Patrick pulled off last winter and also the equally successful raids operated by Con Jones have something to do with it, but the fact remains that the Eastern magnates are playing a great game of hide-and-seek with the Coast man, and if reports be true, many of the N. H. A. clubs have signed up most of their players for the coming season.

However, there are several hooks dangling yet and it would not be surprising if Lester gets a bite before many days have passed. A feature of the Patrick brothers which is worth mentioning is their desire to recruit from the ranks of the younger clubs so that there will be little danger of getting a man out on the Coast for one season and then of having the mortification of seeing him drop out of the game as a has-been.

The New Westminster team last year was particularly fortunate in this respect as witness the ages of Harry Hyland, Ken Mallen, Ran McDonald and Hugh Lehman, all of them in their prime as far as playing ability and speed are concerned. Jimmy Gardner is also not an old stager in the game but reports from the East yesterday stated that the popular captain would lead the Canadiens this season. Any way, we have Hyland, McDonald and Mallen already signed up, while it is possible that Art Ross, the star who engineered a western tour will be seen as captain of the Royals.

Frank Patrick is now on a combined business and pleasure tour of the Western States and with his return during the next two weeks, things will begin to hum in Coast hockey circles.

ATHLETIC SHARP PRACTICE.

A couple of months ago, in commenting upon the success of the Americans at the Olympic games, Lord Desborough remarked that he should not be surprised to find some of the athletes who had distinguished themselves under the colors of other foreign nations figuring as American representatives in Berlin four years hence. For this sneer he was taken to task by the New York Post. A few days ago the Post handsomely apologized to Lord Desborough, for in the meantime Hannes Kolehmainen, the wonderful Finnish middle distance runner, had actually become a member of the Irish-American Athletic Club.

Since then Kolehmainen has taken part in several races in the United States, bearing the colors of this famous athletic organization. The Brooklyn Eagle investigated his case and found, as expected, that the Finn does not speak a word of English, and to disqualify him still further as a representative of the Irish-American Athletic Club, he does not speak Erse either. He is staying with his brother, a working man. Hannes however, is not working. He is living in some affluence, nevertheless and appears to be well supplied with money, though in Finland he was too poor to provide himself with a proper running rig.

It is plain that Hannes has met what theatrical people call an "angel," and it seems a fair inference that, though he claims to be an amateur, he is being financed on account of his ability as a runner, and will probably be entered as an American representative at Berlin. The Rochester Democrat and Chronicle is of the opinion that his entry may be rejected, and it remarks that "kidnapping foreign athletic stars and exhibiting them at international meets as American products will not enhance our athletic reputation abroad."

A country that has so many first-class athletes as the United States does not need to import stars from Finland or from any other country but Ireland.—Toronto Mail and Empire.

"IL TROVATORE."

One of the largest and perhaps the most fashionable audiences that ever attended the opera house was on hand last evening to hear the presentation of Verdi's famous opera "Il Trovatore" ("The Troubadour") Performed for the first time 59 years ago, it still remains one of the most popular of grand operas and the pleasure of hearing in English the familiar gems with which it is replete was evident, especially when rendered by such a company as that with Mr. Joseph F. Sheehan.

There were many old timers there who welcomed this music as a blessed memory of youth and who perhaps experienced strange, happy sensations may be tinged with regret when the glorious arias of the maestro were heard once again after a lapse of many years.

Miss Gladys Caldwell is the bright star of "Il Trovatore." As the unhappy Leonora she was superb both in singing and in acting. Her velvet like soprano voice blending with the robust tenor of Mr. Sheehan in the famous Miserere duet brought down the house. It was a musical treat indeed.

Miss Alma Stetzler as the Gypsy Queen gave a splendid delineation her clear contralto voice being used with telling effect. Of the others Mr Francis J. Boyle in the role of Fernando was great. His magnificent bass voice ranks him among the highest artists on the stage. The whole the company was so exceptionally fine that one could hardly pick flaws in the work of any. The scenery was all that could be desired.

The attendance could not have been bettered and it is a sure sign that masterpieces of this kind are appreciated by the Westminster people no matter should the clouds weep. Another treat is in store on Thursday next when the "Chocolate Soldier" will be presented.

AT ROYAL THEATRE.

The biggest animal feature that has ever been seen in this city will hold the boards at the Royal Theatre next week. The Arnolds troupe consists of three leopards and two mountain lions, all full grown and magnificent beasts. Many naturalists maintain that leopards, like wild cats, are untamable, but Prof. Arnoldo has succeeded in making his beautiful but treacherous beasts perform feats that require a high degree of intelligence.

Leopards and lions alike use him as a human springboard in some of their feats, jumping on to his shoulders and then on to a big globe on which they balance themselves. It is an act that has created a veritable sensation wherever it has appeared. There will be two other strong supporting features in the same program.

TOO MUCH DRINK.

Was Cause of Supposed Holdup—Minimum Sentence Imposed.

John Oram and William Orange were the worse for drink Thursday night, and with their playful handling of guns they had the police department and numerous spectators believing that a desperate holdup was taking place. It cost Orange $10 and costs in police court yesterday morning. He pleaded guilty to the charge of unlawfully pointing a loaded revolver, and was given the minimum sentence for the reason that he was undoubtedly intoxicated and not responsible for his actions.

Oram was held over night as a material witness, but was not called upon to testify. He was released. The gun was confiscated and Orange was warned to leave the liquor alone.

A peculiar feature of the hearing was that Orange was not questioned as to his having a loaded revolver in his possession.

When Hubert Howley appeared before Magistrate Edmonds a few days ago on a charge of drunkeness, he was given the nominal fine of $2.50 and costs. When he appeared again yesterday morning, the magistrate decided that he was making too much of a good thing and Howley will spend the next thirty days at hard labor.

SPORTSMEN!

Your attention is drawn to the fact that we have the largest variety of shooting accessories in the city.

Sterlingworth Dble. Bbl. Hammerless Shotguns, each.....$35.00

MORAL REFORMERS TO BE CENSORS OF PLAYS

Toronto, Oct. 18.—The board of control this morning received the following resolution passed by the police commissioners:

"That the board of control be requested to appoint a censor of plays whose duty will be to supervise all plays in theatres of this city, and relieve the police from such duty which do not properly belong to them."

Mayor Gary spoke strongly in favor of the change. Controller Foster suggested that the moral reform departments of the churches nominate a censor. The board laid the matter over.

PROGRESS IN AVIATION.

The Hydroaeroplane So Far Seems to Be a Safe Craft.

The hydroaeroplane is operated both in the water and in the air exactly like an aeroplane. The craft, driven by the propeller, travels over the surface of the water until it has gained sufficient speed; then the elevating plane is tilted upward by a simple motion of the controlling lever, and the air pressure against the upward tilted planes lifts the machine out of the water.

When the desired altitude is reached the elevating plane is brought to a level and the machine travels horizontally. To descend, the elevating plane is tilted downward until the floats are about to touch the water, then upward a little to break the impact, and the craft is then gliding on the surface of the water like a hydroplane.

If this is done properly there is no shock, and the passengers know that they are again traveling on the water only because the speed is about ten miles per hour less and the water sprays at the head of the hull.

The advantages afforded by the hydroaeroplane over the aeroplane proper are many. First of all, it affords much more safety and thus removes the greatest objection against the aeroplane. In the fourteen months since Glenn H. Curtiss made the first successful flight with the hydroaeroplane there has not been a serious accident, yet it has been used most generally.—Henry Woodhouse in Metropolitan Magazine.

ITALY HAS LOTS OF MONEY.

Her War With Turkey Hasn't Bothered Her a Bit Financially.

An illustration of the hitherto unsuspected prosperity of Italy is the fact that she has not had to borrow a cent of foreign money for the expense of her war with Turkey. This war had cost Italy up to May 11 $47,880,000, or just $210,000 a day since it began on Sept. 27, 1911. Nevertheless her 3½ per cent government bonds are quoted in the markets of Europe between 97 and 98, varying, of course, from day to day.

Bonaldo Stringher, director general of the Bank of Italy, has just made an official report stating that Italian emigrants send at least $90,000,000 a year back home, while tourists spend almost if not quite as much in Italy. Either one of these sources of wealth would more than suffice to pay the entire expenses of the war.

Money is so abundant in Italy that when popular subscriptions were opened in many cities for military aeroplanes to be presented to the government the lists were filled in a few days, the total amount of the subscriptions far exceeding those of a similar nature in France, in spite of the wave of popular enthusiasm for aeroplaning in the latter country.

It is worthy of note that this war has cost Italy in human lives only 53 officers and 549 men, according to the official figures, an unprecedentedly small loss for eight months of active warfare.—Exchange.

"Our Personal Advice to all Skin Sufferers"

F. J. McKenzie, Druggist.

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the effective eczema remedy, you can depend upon it that we give our advice, not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell all the well-known skin remedies from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription.

Again and again we have seen how a few drops of this simple wash, applied to the skin, takes away the itch instantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Toronto, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch you will feel soothed and cooled, the itch absolutely washed away the moment you apply this D. D. D.

We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee will be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY.
Deputy Minister of the Interior

The Corporation of the City of New Westminster

BY-LAW NO.....

A By-law to grant to Heaps Engineering Company, Limited, lease with option to purchase certain lands belonging to the Corporation of the City of New Westminster and situate on Lulu Island.

WHEREAS the Corporation of the City of New Westminster is the owner of certain lands on Lulu Island within the limits of the City of New Westminster, and application has been made by the Heaps Engineering Company, Limited, for lease with option to purchase of the said lands for the purpose of establishing thereon the industry known as the "Schaake Machine Works," and to enlarge its plant.

AND the Corporation of the City of New Westminster has agreed to grant the said lease in terms of the Indenture made a schedule to this By-law and incorporated herein.

NOW THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. There shall be granted to Heaps Engineering Company, Limited, lease with option to purchase of the lands described in the Indenture of Lease in the Schedule to this By-law in terms of said indenture which is hereby incorporated with and made part of this By-law.

2. The Seal of the Corporation of the City of New Westminster shall be affixed under the hands of the Mayor and City Clerk to the said indenture of lease on the final passage of this By-law.

3. This By-law shall take effect on the 1st day of November, 1912, and may be cited as the "Heaps Engineering Company, Limited, Lease By-law, 1912."

4. This By-law before the final passing thereof shall receive the assent of the electors of the said City in the manner required by law.

DONE AND PASSED in open Council the day of , A.D. 1912.

RECEIVED the assent of the electors the day of , A.D. 1912.

RECONSIDERED and finally passed the day of , A.D. 1912.

City Clerk. Mayor.

SCHEDULE referred to in the "Heaps Engineering Company, Limited, Lease By-law, 1912."

THIS INDENTURE made in duplicate the day of One Thousand Nine Hundred and Twelve. IN PURSUANCE OF THE "LEASEHOLDS ACT."

Between:

THE CORPORATION OF THE CITY OF NEW WESTMINSTER, hereinafter called the "Lessor," of the first part; and

HEAPS ENGINEERING COMPANY, LIMITED, a body corporate having its registered office at the City of Vancouver, in the Province of British Columbia, hereinafter called the "Lessee," of the second part.

WHEREAS the Lessee is the owner of the business now and lately carried on at the City of New Westminster under the name of the "Schaake Machine Works, Limited," and have applied to the Lessor to lease the premises hereinafter mentioned for the purpose of removing thereto the plant of the said Schaake Machine Works, Limited, which the Lessee intends to enlarge and improve and have and erect a plant on the said lands of the value, with stock in trade, of approximately of the sum of One Hundred and Fifty Thousand Dollars ($150,000.00), and employ there continuously white labor except as hereafter provided.

AND the Lessor has agreed to lease to the Lessee the said lands for the purpose of establishing thereon the industrial enterprise aforesaid in terms hereof.

NOW THIS INDENTURE WITNESSETH that in consideration of the rents, covenants, and agreements hereinafter reserved and contained on the part of the Lessee to be paid, observed and performed the Lessor DOTH HEREBY DEMISE and lease unto the Lessee for use and occupation as an industrial plant for the manufacture and sale of machinery, engines, boilers, tools and other articles and merchandise—ALL AND SINGULAR those certain premises situate on Lulu Island in the city of New Westminster and Province of British Columbia, and described as follows:

Firstly: Commencing at a point where the Northerly boundary of Ewen Avenue intersects the Easterly boundary of Furness Street and running North 32 degrees 24 minutes West and following along the said Easterly boundary of Furness Street a distance of 256.3 feet; thence South 84 degrees 28 minutes East a distance of 10.7 feet; thence North 5 degrees 32 minutes East a distance of 331 feet, more or less, to the High Water Line of the North Arm of the Fraser River; thence Easterly and following along the said High Water Line, a distance of 647 feet more or less; thence South 27 degrees 36 minutes West a distance of 140 feet, more or less to a point on the Northerly boundary of Ewen Avenue; thence South 57 degrees 36 minutes West along the Northerly boundary of Ewen Avenue a distance of 560 feet to the point of commencement and containing an area of 4.9 acres be the same more or less, as shown marked "A" on the plan hereto annexed.

Secondly: Commencing at a point on the Northerly boundary of Ewen Avenue, situated 560 feet Easterly from the intersection of the said Northerly boundary of Ewen Avenue with the Easterly boundary of Furness Street; thence North 27 degrees 36 minutes East a distance of 140 feet more or less to the High Water Line of the North Arm of the Fraser River; thence Easterly along the said High Water Line a distance of 58 feet more or less, thence South 5 degrees 32 minutes West a distance of 33 feet more or less to a point on the Northerly boundary of Ewen Avenue, thence South 57 degrees 36 minutes West along the Northerly boundary of Ewen Avenue, a distance of 137.7 feet to the point of commencement and containing an area of 0.13 acres be the same more or less, as shown marked "B" on the plan hereto annexed.

TOGETHER WITH the rights of the Lessor to the foreshore of the said Fraser River adjoining the said lands and all riparian rights and other appurtenances, rights and privileges to the said land appertaining; the Leesee to conform to the harbor line on any extension of wharf or structure over the waters of the Fraser River.

RESERVING HOWEVER to the Lessor right to make and maintain a drainage ditch or lay a pipe for conveyance of sewerage or drainage through the said lands in or along a strip of land five (5) feet in width on each side of the line marked "Dyke" on the plan hereto annexed.

AND RESERVING FURTHER to the Lessor the right to lay and maintain a water main through the said lands in or along a strip of land two and one-half feet in width on each side of the line marked "Water Main" on the said plan hereto annexed.

PROVIDED ALWAYS that such reservation shall not interfere with the right of the Lessee, subject to the approval of the City Engineer first obtained, to erect buildings on such strip and to place foundations therein so long as drainage as aforesaid is not interfered with.

TO HAVE AND TO HOLD the said demised premises unto the Lessee for the term of twenty (20) years to be computed from the first day of September One Thousand Nine Hundred and Twelve—SUBJECT to the reservations as regard Parcel "B" as hereinafter mentioned.

YIELDING AND PAYING THEREFORE yearly and every year during the said term unto the Lessor the sum of One Thousand Seven Hundred and Sixty-two and 50-100 Dollars ($1762.50) to be paid quarterly and in advance on the first day of September, December, March and June in each year, the rent to start from the first payment to be made on the first day of December, One Thousand Nine Hundred and Twelve.

The Lessee COVENANTS with the Lessor to pay rent;

The Lessee COVENANTS with the Lessor to pay taxes on the value of the land, as assessed from time to time, but no assessment shall be made at a higher rate than the assessment of adjacent land similarly situated.

AND IT IS AGREED between the parties hereto that all improvements on the said lands, shall be exempt from Municipal Taxes for the space of Twenty (20) years from the date hereof.

The Lessee COVENANTS with the Lessor that the Lessee shall not assign or sub-let without leave, save in case of re-organization or re-construction of the Lessee, and such leave shall only be signified by Resolution of the City Council.

The Lessee COVENANTS with the Lessor that the Lessee will forthwith commence the erection on said lands of the plant aforesaid, and have within one year thereon a plant to the value, with stock-in-trade, of One Hundred and Fifty Thousand Dollars ($150,000.00).

The Lessee COVENANTS with the Lessor that the Lessee during the term of this Lease shall employ no Asiatics except by consent of the Lessor to be signified by Resolution of City Council.

The Lessee COVENANTS with the Lessor that in case the Lessee shall become insolvent and make assignment for the benefit of its creditors or in case the company be wound up as insolvent under the "Companies Act" or "Winding Up Act" or in case the Lessee removes the plant or fails within six (6) months to commence the re-erection of buildings in case of desruction by fire or abandons the premises or removes the plant or in case the premises are used by the Lessee or any other person or corporation for any purpose other than as an industrial site without the consent of the Lessor, this lease shall at the option of the Lessor cease and be void, and the term hereby created expire and be at an end, and the then current quarter's rent shall thereupon immediately become due and payable, and the Lessor may re-enter and take possession of the said premises as though the Lessee or its servants or other occupant of the said premises was holding after the expiration of the said term, and the said term shall be forfeited and void.

THE Lessee shall within ninety (90) days after the expiration or determination of this Lease and the term hereby granted have the right to remove the buildings, plant and fixtures erected by it thereon PROVIDED, HOWEVER, that the Lessee shall not have the right to remove any wharf or dock erected on the foreshore of the Fraser Fiver, but such wharf or dock shall on the expiration or determination of the Lease become the property of the Lessor.

Any building or structure on the said lands after the expiration of ninety (90) days from the expiration or determination of this Lease shall be and become the property of the Lessor.

The Lessee COVENANTS with the Lessor that the Lessee will pay the cost of moving the Bridge-keeper's dwelling now erected on the said premises to adjoining lands and leave the same in good condition and repair. AND WILL PAY the cost incidental to this Lease and submitting the same to the ratepayers of the Lessor for approval up to One Hundred Dollar ($100.00) PROVISO for re-entry by the Lessor on non-payment of rent or non-performance of covenants or seizure or forfeiture of the said term for any of the causes aforesaid.

The lessor COVENANTS with the Lessee for quiet enjoyment.

AND IN FURTHER CONSIDERATION aforesaid the Lessor, after the Lessee shall have established on said lands a plant to the value, with stock in-trade, of not less than One Hundred and Fifty Thousand Dollars ($150,000.00) DOTH HEREBY GIVE AND GRANT unto the Lessee the right or option to purchase the lands and premises hereinbefore described as Parcels "A" and "B" at any time within five (5) years from the date hereof for the sum of Seventy Thousand Five Hundred Dollars ($70,500.00).

AND the further right to purchase the said lands after five (5) years from the date hereof and at any time within seven and one-half years (7½) from the date hereof at the price of One Hundred and Five Thousand Seven Hundred and Fifty Dollars ($105,750.00).

AND the further right to purchase the said lands at any time after seven and one-half (7½) years from the date thereof and within ten (10) years from the date hereof at the price of sum of One Hundred and Forty-one Thousand Dollars ($141,000.00).

AND the further right after ten (10) years from the date hereof and prior to the expiration of the term hereby granted to purchase the said lands at a price to be agreed upon, or if an agreement cannot be made as to price the price shall be fixed by arbitration under the "Arbitration Act."

One-third of the purchase price shall be paid in cash and the balance in three equal instalments at the expiration of One (1) Two (2) and Three (3) years from the exercise by the Lessee of the option of purchase. Interest at the rate of five per centum per annum shall be paid on deferred payments.

Time is the essence of this agreement.

AND IT IS FURTHER PROVIDED that in the event of the Lease and term hereby granted being forfeited or determined by reason of non-payment of rent or non-performance of covenants that the option to purchase herein contained shall immediately cease and determine, and the Lessee's right of purchase shall be immediately forfeited and void The Lessee shall have no right to assign this option of purchase without the assent of the Lessor signified by Resolution of the City Council.

Upon the exercise by the Lessee of the right of purchase aforesaid, and on payment of the cash payment of the purchase price of the said lands by the Lessee to the Lessor this lease shall be void and the Lessee relieved from all the covenants and conditions herein contained on the part of the Lessee. The conveyance from the Lessor to the Lessee of the said lands shall reserve the easement or right to the Lessor to maintain the waterway or drainageway hereinbefore described through the said lands. AND said conveyance shall also reserve the easement or right to the Lessor to maintain the water main hereinbefore referred to through the said lands.

PROVIDED, HOWEVER, and it is hereby further agreed that should the land hereinbefore described as parcel "B" be required for the purpose of establishing a street thereon, the Lessor may at any time within five years from the date hereof on ninety (90) days notice to the Lessee cancel this Lease so far as it relates to said Parcel "B" and the rental reserved hereby shall thereupon be reduced by the sum of One Hundred and Forty-five Dollars ($145.00) per annum, and the option of purchase of said parcel shall thereupon be cancelled and void; and should the said Lessee exercise his right of purchase prior to such revocation the Lessor may at any time within five years from the date hereof re-purchase said parcel "B" with all riparian and other rights from the Lessee its successors and assigns at the price of Five Thousand Eight Hundred Dollars ($5,800.00) and interest at five (5 p.c.) per centum per annum on that sum from the date of payment to the Lessor of the Purchase money therefor and the conveyance from the Lessor to the Lessee of said Parcel "B" shall reserve that right of re-purchase within five (5) years from the date of these present;

AND in the event of the said street being established within five (5) years the Lessee shall have or make no claim for damage to adjoining lands or otherwise or receive any compensation or payment whatever except the rebate of rent or the payment of purchase money aforesaid for said Parcel "B."

SHOULD the Lessor not open and establish a highway on said Parcel "B" after resumption, or having resumed, shall ceases to use the said Parcel "B" for a highway, or shall allow the use thereof for any purpose inconsistent with its use as a highway, then and in any such case the right of the Lessee to said Parcel "B" shall be renewed, and the same shall be subject to the terms of this Lease as if no resumption had been made by the Lessor.

The Lessor may at any time release to the Lessee this reserve as regards Parcel "B."

IN WITNESS WHEREOF the parties hereto have caused their corporate seals to be hereto affixed under the hand of its proper officers respectively.

SIGNED, SEALED AND DELIVERED in the presence of:

.....

TAKE NOTICE that the above is a true copy of the proposed Bylaw upon which the vote of the Municipality will be taken on the 30th day of October, 1912, between the hours of Nine o'clock A. M. and Seven o'clock P. M. at the following places, viz:

LOCAL NOTES

The Woman's Auxiliary of St. Andrew's Church, will on the evening of the 25th hold their annual supper from 6 to 8 p. m., which will be followed by a Scotch concert. Supper and concert to be held in the lecture room. Price 35c. **

Mrs. Agret, 59 Sixth street, a special line of trimmed hats for $5.00. **

Mr. Pat Feeney has been appointed to succeed Mr. Ed. Hoult as janitor of the city hall at a salary of $75 per month. Announcement to this effect was made by Alderman Gray at the council meeting yesterday.

Edmonds wood and coal yard Phone R 1111, W. A. McDonald. **

The New Westminster Croquet and Bowling club will hold a card party in St. George's hall next Friday at 8 p.m. The chief interest of the evening will centre around a progressive euchre game.

A. Hardman, the cake man. Get good bread. Eighth street Bakery. Telephone 281. **

A number of errors have been found in the coloring of the suburban blocks in the new city maps which were issued for the first time the other day. City Engineer Blackman in the council yesterday reported to the council that the lithographers were responsible for the defects and stated that they would be made correct without any expense to the city. Meanwhile the maps have been withdrawn from sale.

"Bottled Up People, or Things Worth While" entertainment to be given in the Sixth Avenue Methodist Church after the Thanksgiving supper, Oct. 28. From 6 to 8 p. m. supper will be served by the Ladies' Aid at 50c. The Rev. W. S. A. Crux will give the entertainment at which a collection will be taken to defray expenses. **

Miss Minerva A. Smith, Graduate of Music, has opened her studio at 13th avenue and 6th street. Telephone R 735. **

Tris Speaker sliding to home in the World's baseball series had nothing on the scene which took place about five o'clock last evening following a runaway down Sixth street by a heavy team. The horses, seeing the obstruction at the corner of Columbia street where paving work is being carried on, must have imagined that the only course left was to slide. They slid. No injuries were done, although it was a happy circumstance that few pedestrians were passing at the time.

The Y. M. C. A. High school boys had a rousing time yesterday evening on the occasion of their annual banquet and business meeting. Speeches, toasts and music contributed to a thoroughly successful gathering. The address of Mr. F. J. McKellar, of the Vancouver Y. M. C. A., on the relations of the High school boys and the Y. M. C. A., was particularly interesting and full of sound advice. The boys mapped an elaborate program for the winter's work.

With the necessary twenty applications for tuition received by Secretary L. Avory White, the inauguration of the night schools in Westminster is now assured. Sufficient applications have also been secured to make the city eligible for a provincial government grant to help out the night classes which will be started in the Central school as soon as arrangements can be made. The appointment of a teacher will come up at a meeting of the trustees which will be held at an early date.

The Pythian Sisters will celebrate the 24th anniversary of the order by giving a whist party in the K. of P. hall, corner of Agnes and Eighth streets, on Monday evening, Octobe. 21. Refreshments and program. **

In response to the invitation of the Overseas club the Native Sons have proffered their support to the grand Trafalgar Day concert which will be held in St. Patrick's hall on Monday evening. The Sons of Scotland have also announced their intention of taking part in the affair, while the Sons of England acted in conjunction with the Overseas club in planning for the entertainment. Permission has been given by Lieutenant Colonel Johnson to the members of the 104th regiment to appear in uniform on the occasion and members of the United Service club and National Reserve are expected to be present.

POLLING DAY NOV. 2.

Burnaby Will Then Vote Upon Road and Sidewalks By-laws.

Edmonds, Oct. 18.—Saturday, November 2, has been decided upon as the polling day when the two by-laws, aggregating $300,000, will again be voted upon. These by-laws were submitted in January last, but owing to an omission in the technical observances pointed out when the bonds were about to be sold it is necessary for them to be again submitted to the people.

As most of the work covering the two by-laws, one for roads ($250,000) and the other for sidewalks ($50,000), has been completed, it is thought that the ratepayers will ratify these bond issues with a like large majority to that which characterized their passing in the early part of the year.

DEBATERS MAKE PLANS FOR WINTER'S WORK

The Y. M. C. A. Debating club held its annual meeting last night. Officers for the year were elected as follows: Honorary president, His Honor Judge Howay; president, J. W. Cunningham, B.A.; vice-president, H. A. Breen; secretary-treasurer, R. R. Hudson; executive committee, F. O. Canfield, B.A., Wallace Lane, B.A., F. P. Maxwell and K. S. Brown.

The winter's work was mapped out and plans were laid for holding several debates and other literary events at intervals. If advisable a mock trial or parliament will be held later in the season. Prominent public men will be secured both from Vancouver and this city to deliver addresses and to act as critics.

The club was very popular last year and judging from last night's enthusiasm this season should eclipse all records. The first meeting will take place on Wednesday evening in the Y. M. C. A. building. Prospective debators are requested to leave their names with any of the officers.

SAMSON INQUIRY DISCLOSES MUCH

(Continued from page one)

told him that Boyd was the person who had reported the affair to the head office. He then reported Boyd to the superintendent and his dismissal followed in quick order.

He thought that such a man as Boyd, who reported certain matters over his and Mr. Bayfield's heads to Mr. J. D. Taylor, was a dangerous man to have around.

Captain Young was then taken in hand by Mr. Taylor and examined through the commissioner as to certain events which have taken place in the department.

Young Cross-Examined.

Mr. Taylor—Who appointed Boyd mate of the Samson?

Captain Young—It was in my hands to appoint him with consent of Mr. Bayfield.

Mr. Taylor—During the thirteen months that Boyd was mate of the vessel you did not deem it necessary to report Boyd officially to Mr. Bayfield?

Witness—No.

Mr. Taylor—You have said that Boyd once ran over a fishing net when at the wheel. How many nets have you run over during your command?

Witness — Perhaps hundreds of them.

Mr. Taylor—You state that Boyd was incompetent. Did he ever have an accident?

Tied Up at Dinner.

Witness—No, I never gave him a chance. I was always at the wheel and would tie up during dinner hour at the river bank.

Mr. Taylor—Did you ever discuss this Boyd matter with Mr. Bayfield in this office in Vancouver, making a special trip over there?

Witness—Never.

Mr. Taylor—Would you be surprised to see me bring a witness who heard you go over the whole proceedings in Mr. Bayfield's office?

Witness—Yes, I would be if you can produce such a witness.

Mr. Taylor—You say any man is a dangerous person who reports his superior officer to the member for the district when he has reason to suspect that everything is not right?

An evasive answer was given to this.

Withdraws Resignation.

Just before the commission adjourned Captain Young stated that several persons had told him to resign and that he would not be called as a witness. Had he known this was not so he would certainly have not sent in his resignation. After some little discussion he stated to Judge Bole that he wished to withdraw his resignation. This development will be reported to Ottawa.

The hearing was adjourned until 11 o'clock on Monday morning when several other witnesses will be called to the stand.

The commissioner reiterated his statements of the day previous that any person who can throw any light on the proceedings is welcome to be present and give evidence.

GREAT HORN SPOONS.

The Ones That Are Made by Natives of Southern Alaska.

Horns of the Rocky mountain sheep, the buffalo and the mountain goat are made into dishes, ladles and spoons. Some of these are carved, while others are both carved and inlaid with shell. The decoration is sometimes geometric, but often a conventional representation of animal forms. This is especially true of the spoons of the Indians on the coast of northern British Columbia and southern Alaska. A few of these spoons are so large, so wonderfully artistic and so well made from the horn of the rare Rocky mountain sheep that even a moderately good one may appropriately be called a "great horn spoon." These are of a rich, golden yellow color. By far the greater number of horn spoons in this same region are made of the horn of the mountain goat, and these are black. A few have black handles of goat horn and golden bowls of sheep horn. All these handles are usually carved to represent traditional or mythical men, animals or monsters belonging to the lore of the individual family, just as among our people silver spoons bear the family monogram.—Detroit Free Press.

Church Tower Belfries.

Probably you have noticed that the openings in the belfry of a church are usually filled with a number of slanting boards, sometimes covered with lead. These are improperly called louvres, and many persons imagine that they are so arranged as to keep out the rain. The right name for these slats is abatsons, a word that means to throw down.

Their use is not to keep out the rain, because the wet does not hurt the bells at all and rain can beat in through the openings very easily. They are designed to turn the sound of the bells downward, so that persons on the ground can hear them better. In the middle ages some of these abatsons were beautifully carved and decorated. —New York Press.

The Game of Lacrosse.

The game known as lacrosse was originally played by the Canadian Indians, and from them adopted successively by the French and English settlers, and by them introduced to the United States. The object of the game is to drive the ball through goals situated at each end of the field. The players are usually twelve on a side. In 1867 the Lacrosse Association of Canada was formed, and an Indian team visited Great Britain, creating great excitement. The game is one of real importance in the English sporting world.
