R. S. Sargent will build an addition 36 feet long and the width of the present building in front of his store. Part of the lumber is already on the ground, having been hauled last fall.

Lumber is being hauled for the rebuilding of the Hazelton Hotel. The new structure will be eighty feet by forty-two, three stories high with a large lean-to at the back. Stephenson & Crum have the contract.

TUNNEL TO BE STARTED AT ONCE

PREPARATIONS ARE BEING MADE TO START A 300 FOOT TUNNEL

Frank Martin arrived from Vancouver Friday evening and immediately started hustling dogs and toboggans to transport supplies to the claims on Bear river, about eighteen miles southeast of town and about ten miles from Bulkley river.

A three hundred foot tunnel is to be driven and work will start immediately.

The vicinity of these claims is but little prospected and no work been done. The ore is an arsenical iron, carrying $26.00 in gold in a vein of an average width of two feet on the surface. There is also a galena ledge on the property which has not been prospected.

This properto is about thirty miles north and in the same range as the Cronin, Law and other properties which are well known for their rich ore. Favorable results of the tunnel driven by Martin will give this end of the range a prominence which it has not received before.

OFF FOR THE COAL CLAIMS

COAL BASIN PRONOUNCED THE GREATEST ANTHRACITE DEPOSIT OUTSIDE OF PENNSYLVANIA

Frank Jackson, representing the B. C. Anthracite Syndicate, owning 23 coal claims on the upper Skeena near Groundhog mountain, has been busy this week getting supplies started for the north. Indians with dogs and toboggans are hauling the stuff. Jackson and his crew will leave with the last loads.

When the claims are reached cabins will be built and development commenced.

As soon as pack trains can get in, about August 1, supplies will be forwarded for winter with the intention of doing a large amount of work.

Men who know coal have pronounced the basin in which these claims are located the greatest anthracite deposit outside of Pennsylvania. Coal crops everywhere and the number of seams has never been established but, big and little, there are probably thirty. The largest seam shows twelve and a half feet of coal and there are five others that are from five to eight feet thick. The full extent of the coal bearing area has not been established.

The Western Development Co. is another syndicate that holds claims in the same locality, their property comprising sixteen sections. The owners are people heavily interested in the Crow's Nest Coal Co.

The Western Development Co. has sent an expedition north each summer for several years and a number of short tunnels have been driven on their property.

Considerable difficulty has been experienced in getting supplies packed in for the summer months owing to the poor state of the trail after leaving the telegraph trail, a distance of 35 miles; and before attempting to take in supplies for continuous work it will have to be fixed up. Asplication will probably be made to the Provincial government for a small appropriation to do this work, and to which they are entitled from the amount of money going into the Probincial treasury each year for the licenses.

The prisoners who are doing time in the local jail are being used to put the streets in a little better shape. While the government team has little else to do gravel is being hauled and dry crossings made where needed.

Card of Thanks.

Mr. Metcalfe wishes to thank the many kind friends for their kindness and sympathy in his recent sorrow and bereavement.

HANDICAPPED BY TRANSPORTATION

The amount of work in different lines that will be done in this district this year will be limited only by the amount of supplies that it will be possible for the river boats to bring. Foley, Welch & Stewart will tax their fleet to the utmost in transporting railway supplies and cannot be expected to either give or receive any help in settling the transportation question. The new boat, building at Victoria under Captain Bucey, will do a great deal and with this assistance the increase in freight offering will probably be taken care of, but no more.

The regular annual increase in resident population would create a demand for more supplies that would be within the power of the Hudson's Bay boats to supply; the increase in mining activity will provide another appreciable increase in freight needed. Government work this year will use double the amount of last year.

In all this there is no cause for alarm; it means that the country can go ahead just so fast and no faster. A constantly growing proportion of the food supply is being produced at home and it is safe to say no one would want in that line under any circumstances.

APPROPRIATIONS SHOW LARGE INCREASE

Appropriations by the Provincial government to be spent through the Hazelton agency are being practically doubled each year. For 1908 about $34,000 was spent. In 1909 the whole amount was practically $75,000 and for 1910 the sum of $136,000 included in the estimates, assures every part of the district an improvement in the existing means of travel. This is a magnificent appropriation. While it will not do all that needs to be done in the district it will do all that could be done under any circumstances unless the government should go into the steamboat business and transport supplies up the river. It will also afford employment to every available man.

In considering what can be accomplished with this year's appropriation it will be remembered that all the more expensive and urgently needed bridges are already built or, as in the case of the Skeena river bridge above Hazelton, provided for out of last year's money. Last year four bridges were undertaken and three finished; one across Babine river at the foot of Babine lake, and the ones across Telkwa and Kispiox rivers. The delay in shipping the cables was the only thing tnat held back the suspension bridge across the Skeena.

No part of the program for this year has been made public beyond the fact that it is generally understood the Bulkley valley wagon road will have enough money spent on it to put it in good shape. Last year this road was the eye sore of the country. Continued and heavy rains kept it always wet; the passage of traffic cut into the clay until it was a continuous stream of mud, impassible to a loaded vehicle. To stop patching and make this a good permanent road will be no small job.

CORRESPONDENCE

Pioneer Ranch,
(McInnes Bros.)
Bulkley Valley.

Editor Omineca Herald:

A. B. McInnes arrived home from Hazelton on the 6th, making the round trip in twelve days and having the largest load ever brought into the valley with one team—two tons. Tom Harris is expected at the Pioneer ranch next week for a load of bridge material.

The Government has had a gang of men for the last week clearing a sleigh road to Burns lake, with W. Clark as foreman. We are pleased to hear that W. Williscroft has given his consent to put the Francois lake road over the hill from the Government ranch as it means a loss of two days to have to go around by Pleasant valley.

Oscar Lund intends to go in for poultry raising on a large scale this spring and has purchased an incubator and brooder. The climate around South Bulkley is better adapted to poultry raising than any other part of the valley.

Latta bros. moved into their new house last week.

Wanted—A telegraph office at Glenview.

FUNERAL OF MRS. METCALFE HELD LAST TUESDAY

The death of Mrs. Metcalfe came as a great shock to her many friends in Hazelton and Bulkley valley. As Miss Margaret Nelson she first became acquainted with the people of this district, coming here in the summer of 1908 and shortly afterward accepting the position of teacher in the local public school. On October 3, of that same year, Miss Nelson and Harold B. Metcalfe were married in Hazelton and continued their residence here for nearly a year when they moved to Bulkley valley where they have resided since. Following the birth of a daughter at the hospital Mrs. Metcalfe took a turn for the worse and in spite of all efforts succumed to an untimely end last Sunday evening.

The funeral, held last Tuesday afternoon, was attended by her friends in life, the major portion of the townspeople. Services were conducted by Rev. J. Field of St. Peter's Church.

Deceased was born in England and at the time of death was thirty-two years of age. A sorrowing husband left to mourn her loss and an infant daughter who will never know a mother's care.

Land Values Rising

Activity in real estate circles is on the increase and there is a boom on in Bulkley valley lands, if a sudden jump in prices with numerous sales can be taken as such. In the Pleasant valley section land is stiffly held at $25 an acre.

For surveyed government land the demand is keen and numerous applications are being put in at the local office.

Since returning from the coast Arthur Skelhorne has made several sales of Bulkley valley land to outside parties and at a continually advancing price. E. H. Hicks Beach has turned over a block of land on the lower river at a good figure. All of the real estate men report a tremendous increase in the number of inquiries concerning land in the district for anything that is good to which title can be given.

Prices have not done rising and of those best informed no one is prepared to set a limit on what good farm land will bring before the year is over. Abnormally high prices for all farm produce and no possibility of a slump until the railway is completed from Edmonton to Prince Rupert tend to put values up and a strong speculative movement from the outside is doing its share.

Development of the mines, coal and metal, has progressed to a point where there is no doubt of a future industry of great proportions, capable of supporting a large population and affording a home market for farm produce of all kinds. This is another factor that is being taken into account in estimating the value of land.

Fred Siever was brought to the hospital from Salvus' camp on Monday.

A sweepstake has been started at Sargent's store on the time of arrival of first steamer at Hazelton. Drop in and get particulars.

POLICE COURT.

Monday morning James Hatfield was up before Indian Agent Loring charged with being in possession of intoxicants on the Indian reserve. He was fined $12.50 which he paid.

The next morning James May, an Indian, was up for being drunk and under examination charged John Mathison or "Shorty" as he is known, with supplying him with the liquor. May added $12.50 to the government funds.

Shorty stoutly maintained his innocence but the Indian was positive in his identification. Other circumstances were brought at the trial and Mathison was fined $50.00 and costs which he paid. He states that the case will be appealed as soon as possible.
