Washington, March 24:—The Mexican situation cleared considerably today. President Taft announced that he will do everything in his power to maintain friendly relations.

Troops were massed on the the Mexican border on representation that the condition in Mexico was approaching a crisis that might endanger American lives and property, in which case intervention would be necessary.

Washington, March 24:--Baron Uchida yesterday assured President Taft that Japan will withdraw entirely and hereafter take no part in Mexican affairs. Japan will cease efforts to obtain a coaling base at Campos or a naval base at Magdalena Bay. Colonization of the Isthmus of Tehuantepec is to cease. Mexican despatches state that the secret treaty of 1910, which authorities claim never existed, has been abrogated.

For Roads and Trails—$85,000

Wm. Manson, M. L. A., for Skeena, when interviewed by a Herald representative in Victoria shortly before the legislature adjourned, stated that the share of the appropriation for Skeena district that would be spent in the vicinity of Hazelton, including Bulkley valley and other interior points would not be less than $85,000 for roads and trails alone. Adding to this the amount for bridges and an allowance for extras, the whole amount to be spent on roads, trails and bridges in the interior section of the district will not be less than $100,000.

The wagon road to Nine Mile mountain is assured and the largest single item will be the continued improvement of the main trunk road through Bulkley valley.

Negroes Must Be Admitted

Emerson, Man , March 24:—A special train loaded with negro immigrants destined for points on the G. T. P. near Edmonton were permitted to pass the boundary line unchallenged. The train is being held here while a rigorous medical examination is being made. Physical unfitness is the only ground on which they can be barred. Only two have been rejected to date. Members of the party say they are merely the advance guard and that thousands will follow them if they are successful.

A DELIBERATE SUICIDE

Bulkley Valley Man Takes His Own Life—Lived Four Hours With Bullet In Brain

In a fit of despondency, following a prolonged drinking bout, Joseph Martin committed suicide on Sunday night at his cabin near Mosquito Flat. The unfortunate man, who was well known in Hazelton, had been drinking heavily for several days before going to his pre-emption on Saturday last. Robert Montgomery, Charles Chellew and George McLaren, who lived with him, say he appeared despondent, but said nothing to excite suspicion.

The men retired early, and the cabin was in darkness when Martin bade them goodby and they heard the report of a rifle. It was found he had shot himself through the head. He lived in an unconscious condition for four hours. Dr. Wallace and Constable Milne hurried to the scene, but arrived after Martin's death.

An inquest was considered unnecessary, and the funeral took place on Wednesday.

TREATY APPROVED BY THE BRITISH PRESS

German Opinion Hostile—Pictures Colonies As Opposed To United States

London, March 23:—The "Observer" says: "It is apparent that Canada as a whole is to develop her national identity under the British flag and is determined to become a link between the Empire and United States instead of causing strife. If Britain is wise this action will mean permanent union in the English speaking world without the secession of Canada from the Empire.

A German Opinion

Comment by the German press is interesting. The Berlin "Morgen Post" warns Britain against arbitration with the States, declaring that it would threaten British supremacy and drive Canada and Australia and the West Indies into arms against the States.

Asquith in the House said it was not proposed to give the House an early opportunity to discuss New Zealand's proposal for an imperial house of representatives.

New Mineral Find

At Paget's camp, about 23 miles down the river from here, a find of galena ore is reported in one of the railway cuts and practically on the bank of the Skeena. Considerable excitement has been created in all the nearby construction camps. A group of claims has been staked on the discovery, in which Mr. Paget is interested and work will be done to determine the value of the find. The vein is said to be two feet wide. Samples brought to town are of the same appearance as other ores of this district.

To Register Voters

The latest Gazette received contains the following appointments as commissioners to register voters in this district:

A. R. Macdonald, W. H. Larmer, C. G. Harvey, Hazelton; Rev. F. L. Stephenson, J. H. Davey, Aldermere; W. S. McDonell, Telkwa; George Findlay, McGlashan, South Bulkley; Harry Marment, Francois Lake; H. Morgan, Ootsa Lake; J. B. Thompson, Glentanna; James McCulley, Kispiox.

All residents of the Omineca district who are entitled to have their names on the voters list should see that they are registered without delay, in order that their names may be registered at the next revision.

NOTICE is given that there will be a meeting of Odd Fellows held in the Eagles Hall at Hazelton on Saturday, April 1, at 8 p. m. All members of the I. O. O. F. are requested to be present.

New Ore Runs High

Assays of ore from the new strike on the Duke claim of the Silver Cup group returned values 180 ounces of silver and 53 per cent lead, or $136.21 at the present commercial prices of those metals. This is nearly three and a half ounces of silver to the unit of percentage of lead. At last reports this ore body was 22 inches wide with practically no quartz or vein matter contained in it.

As soon as all danger of snow slides is past driving will be resumed in No. 3 tunnel on the Silver Cup, where it is estimated there is eight feet yet to go before reaching the ore.

R. J. Rock, of the telegraph service, and Walter Noel, of Port Essington, have arranged to open an up-to-date men's furnishing store adjoining the Ingineca hotel, where a neat building for their use is now being erected by Stephenson & Crum.

"New Hazelton" Lots Sold

M. McPhatter of Vancouver, who is the owner of some twelve hundred acres of land on the west side of the Skeena opposite the town reports that he has bought all the remaining unsold lots, something over 300, in the "New Hazelton" townsite, which lies between the hospital and Bulkley river.

BOOZE SELLERS FINED

Convictions In Six Cases Against "Blind Pigs" at Sealey—Others Will Be Prosecuted

For several weeks Chief Maitland-Dougall has been engaged in securing evidence against unlicensed sellers of liquor, with the result that a number of illegal bars have been closed, for the present at least.

The cases against a number of suspected sellers have not been perfected, but six convictions were obtained as the result of a third round-up of the Sealey Blind Pigs. Magistrate Allison heard the cases last Saturday, and as the evidence was clear, fined each of the prisoners $300 and costs, with the alternative of nine months in jail. Those who were thus dealt with were James Tremblay, Oscar Nelson, Richard Romain, Wm. Raines, J. Johnson and Peter Stepich.

Murder and Hold Up

Port Arthur, March 25:—Three Finns, who had been working in nearby logging camps were waylaid in the bush by an unknown man who shot one dead and dangerously wounded the others, securing their time checks which were not negotiable. An alarm was given by one of the wounded men and the police are in pursuit.

A committee of the Rifle Association is making plans for a smoking concert, which will probably be held in about two weeks.

Are You On The Voters' List

The large number of men coming into this district should show a corresponding increase in the names on the voters' list. That it has not done so is no doubt due to the fact that no election is expected in the near future. It is a matter of importance to the district, and to the individual, that the voters' list should show as large a number of names as possible. Several reasons might be cited but they are too apparent for it to be necessary.

Any government agent, notary public, justice of the peace, postmaster, provincial constable or commissioner of affidavits can make out the necessary declaration. A list of the newly appointed commissioners for taking affidavits is published in another column.

The impractical nature of all sumptuary legislation directed toward the prohibition of the sale or use of intoxicants, and the tendency of such farcial prohibition to produce general and dangerous indulgence in stimulating but highly injurious drugs, were strongly asserted in the Provincial Legislature a few days ago, in consideration of the principal of Mr. Frank Mackenzie's to prevent the sale by druggists of habit-forming drugs. Mr. Hawthornthwaite led in the only opposition offered to the measure, his objections being based solely on the proven impracticality of legislative interdictions in matters of personal conduct. There appeared to be, Mr. Hawthornthwaite said, no question as to growth of the use of habit forming-drugs in British Columbia. He gravely questioned, however, that legislation would accomplish the desired results. The Province had recently had experience with the Local Option or Scott Act agitation, and the conclusion had been reached by all men of sound judgment that it had been found impossible by legislation to suppress the practice of excessive drinking of intoxicants. This was by no means a local conclusion, but a conclusion based upon the experience of all America. Maine in particular had endeavored to suppress by prohibitory enactments, the use or abuse of abuse of intoxicants. It had been sought not merely to suppress excessive drinking, but to interdict the use of intoxicants in any degree whatever. There and elsewhere it had been found that legislative prohibition was altogether ineffective. When such laws were vigorously enforced, as they seldom were, the representatives of the law succeeded merely in closing the open and controlled saloon, while as an evitable sequel, worse conditions quickly presented themselves. The people who use liquor had no difficulty in getting it whenever they wanted it, in what was known as "blind pigs;" while men, women and children, even young girls, peddled inferior liquors through the streets of the cities, and these were sold in the homes. It was also disclosed in the experience of many cities where the sale and use of intoxicating liquors were suppressed by ill-advised prohibition laws, that drug habits were created and quickly obtained dangerous hold upon the communities. In some of the Eastern provinces, in Ontario more particularly, where laws had been adopted and directed against the use of intoxicants, the use of dangerous drugs had seemingly been stimulated until it had become a great and growing evil most difficulty to cope with.

And with these statements and conclusions, the entire House agreed.

The Carnival City

The United States House of representatives decided in favor of San Francisco and against New Orleans as the city in which an exposition to celebrate the opening of the Panama Canal in 1915 shall be held. On a final vote, the San Francisco resolution was adopted by a vote of 259 to 43.

With a gala spirit that excelled any of the farfamed festivals ever held in the city, San Francisco celebrated the adoption of the resolution. The receipt of the news was greeted with a burst of enthusiasm seldom witnessed even in the spontaneous west. The firing of bombs from the newspaper buildings announced the victory to the expectant city and was the signal for the sirens and steam whistles of every craft in the harbor and of factories and power plants on land.

RIFLE ASSOCIATION

Target Shots Elect Officers for the Coming Season—A Successful Year.

There was an enthusiastic gathering in the court room on Monday evening, on the occasion of the annual meeting of the Hazelton Rifle Association. This organization, begun a year ago, has proved very popular, and closed a most successful year with a membership of fifty-two, which will be largely increased during the coming season.

Owing to the heavy initial expense, the financial statement showed a small deficit, but measures will be taken to replenish the treasury without increasing the annual subscription.

Major R. F. Leslie, captain of the Association, was reelected by acclamation. A. R. Macdonald was chosen vice-captain, in succession to Chief Maitland-Dougall, who will shortly leave the district to accept the office of Government Agent in Cowichan. H. W. Sharpe, the energetic secretary-treasurer, was unanimously reelected. J. C. Boyd and G. O. Graham were elected members of the executive committee.

Arrangements for the season's shooting, including plans for improvements to the range, will be taken in hand at once.

SUBJECTS FOR CONFERENCE

Questions of Imperial Council and Imperial Court of Appeal —South Africa and Trade Preference

The government has brought down the correspondence with the overseas dominions setting out subjects for discussion at the approaching imperial conference.

New Zealand suggests an imperial council. with representatives in all parts of the empire, a secretary for imperial affairs instead of a colonial secretary, and with separate departments for the self-governing dominions and the crown colonies. It is also suggested that the high commissioners be raised to the status of ambassadors.

South Africa proposes that matters relating to the self-governing dominions be placed directly under the premier. On January 20 South Africa cabled, suggesting considering the replacing of trade preference by contributions, classed as imperial, national and local. These suggestions, however, were withdrawn by cable of February 10, since when General Botha has cabled that the imperial preference will not be withdrawn.

Australia rises the question of the Declaration of London, regretting that the colonies were not consulted, and opposing its provisions affecting the food supply and the destruction of neutral vessels in time of war.

Right Hon. Lewis Harcourt, Colonial Secretary, hopes that the conference will meet fifteen times between the coronation, May 22 and June 22. Its first business will be to decide whether it will sit privately, as last time, or whether the press will be admitted. The "All Red" route with a state cable and a line across Canada will be among the subjects considered.

Newfoundland proposes a line of steamers subsidized by Britain, Canada and Newfoundland to link up the three countries. Another topic will be an imperial court of appeal, New Zealand and Australia suggesting representation of the overseas dominions in it.

The home government raises the following questions: The status of British Indians, labor exchanges, a uniform design for stamps and the expulsion of undesirable aliens.

Canada has no special proposals, but would welcome suggestions for a uniform naturalization law.

Commenting on the conference programme, the Daily Mail says: 'The British government seems altogether lacking in constructive ideas. There is still too much the air of frigid stepmother which Mr. Chamberlain strove so earnestly to abolish."

The Morning Chronicle, commenting on the absence of the Canadian proposals for the conference programme says Canada is well pleased with the empire as she finds it.

In referring to the absence of the Canadian proposals for the conference the Times says: "There are good reasons for this cautious attitude. Canada is extremely busy with her own affairs. The country is developing more rapidly than the most sanguine dared to hope a few years ago. These propituous conditions naturally produce a comparative lack of interest in external imperial affairs. Another motive for not taking an active part in the desire to avoid any step that might disturb certain political susceptibilities at home. But the principal reason is that imperial preference, in which Canada is keenly interested, is barred out."

CORRECTING SURVEYS

New Official Map of the Bulkley Valley Comes Into Force

At the last session of the Legislature just closed a bill was passed affecting the official map of the Bulkley valley. A new map has been adopted by the department as official for townships 1a, 2a, 3, 4, 5, 6, 7, 8 and 9, Range 5, Coast district.

In the year 1892 a survey was made of the townships 1a, 2a, 3, 4, 5, 6, 7, 8 and 9, all in Range 5, Coast district, and maps purporting to correctly represent such survey were compiled from the field notes of the surveyor, the maps and field notes being on file in the Department of Lands at Victoria. Numerous errors have been found to exist in the maps which do not properly represent the survey, or show the true position of the monuments purported to have been planted to mark the boundaries thereby established. In view of the errors existing in the old survey, it has been found advisable, in order to remove all doubts and to secure the titles of the lands in the townships to the parties to whom they justly belong, that a rectification survey should be undertaken and new maps of the townships prepared. Such survey has been undertaken and correct maps have been compiled of all of the townships. The newly compiled maps so prepared have been substituted for the old official maps. All Crown grants or certificates of title issued in respect of any lands situate in any of the townships, and all other deeds and documents in respect of any of the lands, in describing the parcels when reference is made to the official maps of any of the townships, whether made, executed or issued before or after the passing of the new act, shall be as construed referring to the official maps as authenticated and validated by this act.

Boundary of Alaska

Sir Wilfried Laurier has laid on the table of the House of Commons the fourth report of the Alaska Boundary Commission, which was authorized by the Washington convention of 1906. The report, which is signed on behalf of Canada by Mr. W. F. King, and on behalf of the United States by Mr. C. H. Tittman, states that the boundary work has been completed between Katashat Ridge and the Yukon river. A line was traced from a point forty miles north of the crossing of the Porcupine river. One hundred and fifty-seven miles of line projecting was done. The distance monumented was 146 miles and the number of monuments placed was 49.

Burns Promises Beef

The drives of beef cattle to supply the railway camps and local markets for the coming summer will be started much earlier this year than last according to Robt. Grant who is to resume the management of the business of P. Burns & Co. in this vicinity as soon as navigation opens. The first drive is scheduled to arrive early in June and there will be no underestimating the requirements of the country this year.
