SKEENA CROSSING BRIDGE COMPLETED AHEAD OF TIME

Trains Crossed Last Sunday and by Last Night Four Miles of Steel Was Laid==Rails Will Reach New Hazelton by Middle of August==Many People Preparing to Come

The bridge at Skeena Crossing was completed on the 7th, when the first train crossed. This is a week ahead of contract time. On Monday the track-laying machine started to work on the east side of the river, and by last night over four miles of steel was laid. All the material is now on hand to rush the work, and the aim of the contractors is reach Skeena Gulch inside of two weeks, and here there will be a short delay until the bridge over the Gulch is finished. Rails will be in New Hazelton by the middle of August, and passenger trains will probably be running into the town by the first of September.

Prince Rupert, July 10—There is great interest being taken here in the Hazelton district, both in agricultural lands and in the mines. Many people are now getting ready to go up. The public generally concede the townsite victory to New Hazelton, and believe that the G.T.P. should accept the terms of the New Hazelton owners.

C.P.R. Steamers

The Canadian Pacific Steamer "Princess Royal" leaves Prince Rupert for Vancouver at 9 p.m. every Sunday, one hour after arrival of G.T.P. train from Skeena Crossing, arriving Vancouver 8.30 a.m. Tuesday.

Carss Wants a Race

It is said that Carss of Prince Rupert has aspirations, and would probably come to Hazelton to run Hetherington if a suitable prize were hung up.

OVER ONE HUNDRED MINERS KILLED BY GAS EXPLOSION

Cadeby Colliery the Scene of Horrible Disaster on Wednesday---Three Government Inspectors are Among the Dead--King and Queen Visited the Locality

Coinsborough, England, July 10—Following rapidly one after the other, two terrible explosions drove through Cadeby Colliery yesterday, causing the death of a hundred miners. The report could be heard at great distances from the disaster and the workings are a total wreck. Many other miners are missing, and it is feared the death roll will run up many more. Three government mine inspectors who were making an inspection at the time, are among the list of killed. The explosions were caused by a shot which ignited an immense volume of gas.

The King and Queen were in the vicinity when the explosion occurred, and they personally visited the scene later.

School of Mining

The Herald has received from the Engineering Society of the School of Mining, Kingston, Ont., a copy of their Sixth Annual Directory of the Graduates and Students of that institution.

TWO HUNDRED DOLLAR ROCK

Silver Standard Has Three Hundred and Fifty Tons Piled Up Around Shaft

Three hundred and fifty tons of $200 rock is piled up around the shaft at the Silver Standard. The bottom of the shaft is out of quartz, and all ore and tonnage coming up with every lift.

Anything more on the subject would knock the country.

MAY VISIT HAZELTON

Duke of Connaught May Extend Trip to Include This Point

According to a despatch received by the Lieutenant-Governor, the Duke of Connaught will arrive in Prince Rupert September 23rd, and remain until the evening of the 25th. During this time the Duke will probably make the trip up the Skeena as far as Hazelton.

Port Simpson Arrives

The Port Simpson arrived Thursday morning from Prince Rupert, after finishing her work on the Stikine, and will finish her season on the Skeena.

The Simpson brought up the manager of the company's Babine post, and about eighty tons of freight. Thirty tons were consigned to local merchants and the balance, including 600 cases and 75 barrels of local option, is for the post here It is expect that on her next trip she will bring Mr. A. Bassett, Victoria, general superintendent of the company's posts, who is on a trip of inspection.

We Miss Thee; Oh, We—

Out of respect for an officious-looking blue paper, the editor is this week at Prince Rupert telling whether or not Westenhaver Bros. owe the Daily News a bunch of money. Consequently the paper is at the mercy of the mechanical department, who are doing all the work from soup to nuts.

AMERICAN BOY SACKING ORE

Thirty Tons Being Prepared for Shipment—Sinking on the No. 3 Vein Two Feet a Day

The Harris boys are sacking 30 tons of high-grade from the shaft on No. 3 vein, preparatory to shipping when the rails reach New Hazelton about Sept. 1st. They have started to sink again on this vein, and are now down 140 feet. They are sinking two feet a day, and have 20 inches of clean ore at the bottom. Superintendent Al. Harris states that sinking will be continued to the 200 foot level before another cross-cut or drift is started. There is a foot of good ore in the new vein encountered in the cross-cut off the 110 foot level.

Minister of Lands Coming

Hon. Mr. Ross, Minister of Lands for British Columbia, has sent word that he will pay an official visit to the Hazelton district in August of this year and that he will spend considerable time here. One of his intentions is to visit the Bulkley Valley and the Kispiox Valley and study the nature of the agricultural lands in those districts.

What do you think of 80 acres near Round Lake in the Bulkley Valley at $10.50 per acre? This can be had from E. H. Hicks-Beach.

HAZELTON TO MEET TELKWA

Pea-Vine Leaguers to Travel Stylishly—Hetherington and Tibbals to Contest Sprints

The Pea-Vine Champs will leave for Telkwa on Friday, July 19, to play the Potato Pickers on the 20th and 21st. The locals expect to hang it on the Billville Blues for both games, with luck breaking half way decent for them. Quite a large crowd of rooters, including a few of Hazelton's merchant princes, will accompany the band. Everybody promises to be well mineralized, and there will be no hedging of bets. The team will go via automobile, George McBean taking seven in his big bullet and Bill Kennedy accommodating five in the Flanders 20. The "Zowiebangs" for heavy work on the side lines will go in hacks.

Wiggs O'Neill's auto-truck will arrive this week, and will probably make the trip. This car will accommodate fourteen passengers.

Hetherington will run Tibbals at Telkwa during the tournament, 50, 100 or 220 yards.

Telkwa's reputation for hospitality is proverbial, and a general good time is expected.

ROCHER DE BOULE IS READY TO SHIP

Over Half a Thousand Tons of $50.00 Ore on Three Dumps Ready for Government Road

The Skeena Crossing bridge is now nearing completion and the rails are about two miles on their way to New Hazelton. When Bob Jennings finishes the government road into the Rocher de Boule mine shipments can start immediately, as the wagon road, when completed, will be only nine miles of easy grade to the siding at the bridge.

There are 558 tons of ore on the three dumps valued at $50 per ton, and it is estimated that the ore now in sight as shown up by the work is approximately $1,500,000, and the ground is practically only scratched.

Small Business

The stork has been doing a very good business in little things this week. On Thursday he visited the home of Mr. and Mrs. Crum, leaving a little girl to brighten their home. On his return trip he paid a flying visit to Mr. and Mrs. R. S. Sargent, on Thursday morning, departing less a handsome wee Dick junior. All are happy and everybody doing nicely, thanks.

Sir Richard McBride and Hon. Mr. Bowser will address a public meeting in the hall on Tuesday evening.

GATHERING DATA

H. C. Charlton Will Make a Tour of this Section for G.T.P.

H. C. Charlton, G. T. P. Publicity Commissioner, is making a trip along the line through British Columbia to gather up-to-date information regarding the northern interior. This section of the country is attracting wide interest and the G.T.P. publicity department is preparing a new publication to supply the growing demand for accurate information.

Buzz-Cart Buzzings

Wiggs O'Neill's Pankard truck arrived on the Port Simpson Wednesday.

Bill Kennedy will probably see what the Flanders 20 can do on the Telkwa pike this week.

George McBean slipped into Telkwa in six hours with his Oldsmobile six. This is the first machine over the road this year and he felt out the headway carefully. He thinks he can make the trip easily in four hours.

H. H. McVittie arrived on the Port Simpson. His Winton six is undergoing repairs after going over an embankment at Victoria. Mac says he will have the speediest machine in the riding running around the rest of them on the way to Telkwa.

Sunday's Excursion

Last Sunday the Inlander run its first excursion out of Hazelton and it was well patronized.

SAW MILL FOR NEW HAZELTON LUMBER AT FIFTEEN DOLLARS

Harvey & McKinnon Make Arrangements with the Interior Lumber Company to Move its Plant in Two Weeks===Boom for New Hazelton Builders

One of the biggest booms in favor of New Hazelton has just been announced and it will mean the saving of a good many thousands of dollars to all who will do any building there. Arrangements have been completed with the Interior Lumber Co. to move their saw mill from its present site on the Two Mile Creek to New Hazelton where it will be put into operation. That company has a first class mill which will cut 25,000 or 30,000 feet of lumber per day and the contract between the New Hazelton owners and the company calls for the removal of the mill in two weeks. That time is allowed to enable the company to complete sawing a couple of hundred thousand feet of timber for Ross' tunnel contract.

Not only will the saw mill be removed to New Hazelton, and become the first manufacturing industry of that place, but the lumber will be sold to all New Hazelton people who will build for the very low price of $15 per thousand. This is $10 a thousand less than the present price and also less the cartage from the present mill which runs up to $8 or $10 a thousand.

The logs will be cut from the townsite. The entire property will be cleaned up and everything of any size will be put through the mill. It is estimated that there are a million feet or more on section Two alone. Thus the townsite will be cleared, the timber turned into merchantable lumber, the lumber converted into buildings and a thriving town will spring up and prosper.

This scheme has been one of F. C. McKinnon's, of Harvey & McKinnon, agents for Section Two, New Hazelton, and he has been working on it for some time. By getting it put through Messrs. Harvey & McKinnon are now enabled to make a remarkably attractive inducement to the people who will build in New Hazelton. Lumber at $15 per thousand is sufficient alone to cause most of the Hazelton people to desire to move. At the same time this also applies to outsiders who are preparing to commense business there or build homes.

Off to His Ranch

Jas. Latham has been preparing for the past few days to go out to his ranch on Francois lake where he expects to spend several months clearing and making improvements.

BIG DEALING IS EXPECTED SOON

Camp Can Expect a Pleasant Jolt Any Time Now—A Review of the Situation

At the present time there is every indication that there will be a great deal of trading in the mining properties of this camp before the season is much farther advanced. It is true that mining men with large capital behind them have not been coming in as fast as some expected they would. At the same time there are several parties here who have been working for some time and who have the business for several big deals in pretty good shape. Before many more days are gone announcements will be made which will surprise the camp. It is also more than probable that the number of operating properties will be considerably increased this season. The exceptional results obtained from the mines now working have caused a greater interest in the camp among the moniedmen on the outside than local people have any idea of. It is only a matter of transportation and as the railway is getting closer and will soon be running into New Hazelton it will soon be possible for capitalists to come in. In the meantime there will be big development work carried on and several properties will be in shape for inspection.

OMINECA DISTRICT IS BEING DEVELOPED ON HUGE SCALE

Royal Standard Investment Co. Investing Large Sums in Placer Gold Fields---Free Milling Gold, Silver Lead and Many Other Minerals are Now Lying Undeveloped

Percy H. Fraser, general manager of the Royal Standard Investment Co., Vancouver, left the early part of the week for Jamieson creek, Omineca district, where his company has twenty-one miles of placer leases. This ground also includes six miles of dredging property—five miles on Omineca creek and one mile on Jamieson. "We have," said Mr. Fraser, "enough land to keep us busy for fifty years."

With the manager arrived an hydraulic plant, which also left this week for the gold fields, E. E. Charleson's pack train taking it out. Later on in the summer, and in the fall, between fifteen and twenty tons of supplies and machinery will arrive and be packed in by the company's own train of about sixty horses, which are on their way here. This will mean that the pack train will be going practically all winter, and one of the chief objects of the manager's visit is to ascertain the feasibility of an all-year trail into the Omineca.

The company desires to get the machinery and supplies in as soon as possible, and to get the plant working. This year's expenses alone will amount to about $40,000, and next year that sum will be doubled or trebled. It is, therefore, desirable to start taking out money as soon as possible. With this end in view, operations will continued all winter.

Mr. Fraser also informed the Herald that his company had given a contract for a dredge to be constructed ready to go into the gold fields early next season, and they will also put in a larger hydraulic plant. The present outfit is more to get things going, and next year it is expected that the railway will be far enough advanced that they will be able to get machinery and supplies a great many miles closer to the property, and thus save a great deal on the packing rates.

The Omineca district is this year witnessing more development than since the first two years of its history. In fact the only real development is what is going on now. Besides the placer ground, which is reported rich, the reports from the quartz miners is very flattering. There is a wide field to prospect, and free milling gold, silver lead and a number of other minerals have been found there, and are lying undeveloped only for the lack of transportation. That country has a wonderful future ahead.

FRIDAY, JULY 12, 1912

-----as an Investment

If a new goldfield was discovered anywhere on the Pacific coast, producing say, ten million dollars a year, the newspapers would have much to say about it; if the field produced fifty millions yer year, the papers would be full of it continuously; if the production were a hundred million, the whole coast would be wild with excitement, and the stimulating effect on every line of business would be incalculable.

We know of a source from which, at a very conservative estimate, a hundred million dollars of brand new money can be poured in annually on the Pacific coast of this continent. Of this money British Columbia would get as large a share as any section; and we repeat that the above estimate is very conservative. In answer to the possibly sceptical smiles of some of our readers, we will simply say that the figures are not ours, and that they are conservative and reasonable beyond a doubt.

The way to get this stream of wealth turned to the Pacific coast, and well within the next decade, is the Canadian Highway, the Pacific Highway and Good Roads.

We are frequently asked why we devote so much space to good roads. We do so because, in addition to being a journal of reliable information, the Herald is a booster for those things that are going to secure the advancement and increased prosperity of this wonderful province, and particularly the northern interior, and we are positive that the investment par excellence for the people of northern British Columbia is simply good roads, by which we may capitalize our scenery and resorts.

We are not good road enthusiasts; we know practically nothing about the building of roads, and in this respect we are not different to the great majority of men who are supporting good roads in B.C. Most of these men know very little about the construction of roads, and readily admit it; but what they do know, and have studied, is the financial return which will be quick and absolutely certain. We ask the reader to think for a moment of the good road enthusiasts and supporters whom he happens to know (and it is the same everywhere along the coast); they are practically all engaged in business pursuits, and have all the instincts and training of traders and money-makers, with few exceptions. It is impossible to believe that they are merely fadists and are simply riding hobbies. They are working for good roads for the same reason that the merchant stocks up with goods; for the same reasons that mining properties are improved; for the same reason that the farmer clears his land; for the same reason that any new enterprise is undertaken, and that reason is that they can see a good financial return for the outlay of their time and money devoted to the cause.

North America alone contributes five hundred million dollars a year in tourists' money to the good roads countries of Europe, and annually this sum is increasing. The way to get a share of this money is to study European methods in securing the trade, and the outstanding feature of European methods is the linking of resorts, regardless of frontiers, by roads. In order to secure a large share of this trade to the Pacific coast, it is absolutely necessary to link together our international resorts by a great system of highways. Such, at least, is the firm conviction of the leading exponents of good roads on the Pacific coast, an opinion which we most strongly support. There cannot be too many of these main highways, but obviously they cannot all be built at once. When they are all built, the hundred million annual return we mention will prove such a low estimate as to be absurd. In the meantime the Canadian Highway and the Pacific Highway are the two road projects which appeal to us as being most important to British Columbia, and the ones ensuring the quickest return on the investment.

We have merely mentioned the five hundred millions spent by North Americans in the good road countries of Europe. Does any one suppose for a second that once the Canadian Highway is completed, say only from Winnipeg to the coast, that the British Columbia government, with their splendid organization in the city of London, will not alone be able to induce great numbers of British and other European motorists, annually, to visit and (again the business instinct) spend their money amongst us?

LAND NOTICES

Omineca Land District—District of Coast, Range V.

Take notice that I, J. D. Jay Jones, farmer, of Terrace, B.C., intend to apply for permission to purchase the following described lands:

Commencing at a post planted one mile east of the northwest corner of Newtown Indian Reserve No. 4, thence 20 chains north, thence 20 chains west, thence 20 south, thence 20 chains east to point of commencement, consisting of 40 acres, *more or less.*

Dated June 5, 1912 50-7 J. D. Jay Jones

Omineca Land District—District of CASSIAR.

Take notice that May Shewen, of Vancouver, married woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted on the east bank of Skeena river, at the mouth of a large creek about eighteen miles north of Hazelton, thence east 20 chains, north 80 chains, west 20 chains more or less to river bank, thence in a southerly direction along river bank to point of commencement, and containing 200 acres more or less.

June 7, 1912
j14 May Shewen

Omineca Land District—District of Coast, Range V.

Take notice that Jonothan Webster Cornett, of Vancouver, salesman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted one mile north, one mile west from the north-west corner of Lot 3995, thence north40 chains, west 40 chains, south 40 chains, east 40 chains to point of commencement, containing 160 acres more or less. Jonothan Webster Cornett

May 25, 1912
j14 Alex. Geo. Walker, agent

Omineca Land District—District of Coast, Range V.

Take notice that Frederick William Renworth, of Prince Rupert, merchant intends to apply for permission to purchase the following described lands:

Commencing at a post planted one mile north and half a mile west from the n.-w. corner of L3995, thence north 40 chains, west 40 chains, south 40 chains, east 40 chains to point of commencement, containing 160 acres more or less. Frederick William Renworth
Alex. Geo. Walker, agent

May 25, 1912 j14

Omineca Land District—District of Coast, Range V.

Take notice that James Gilmour, of Telkwa, rancher, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the n.-e. corner being the n.-w. corner of Lot 3309, R.V. coast thence west 40 chains, south 30 chains more or less to the Bulkley river thence traversing the bank of river in a s.-e. direction to west boundry of S. B. Clearihue, thence north about 60 chains along west boundary of S. B. Clearihue and lot 3309 to point of commencement, containing 100 acres more or less. James Gilmour

BURNS LAKE

Sam Long and partner S. J. Wilton left this week on a prospect trip into the Peace River country in the vicinity of Nation Lake, expecting to return in about first week in August.

The Government road gang commenced operations this week. Shel Robinson has charge of the work this summer and will work south to Francois Lake. Johnny McAmis who has the contract for packing government road supplies left this week for his second load.

Bob Gerow has returned from his ranch on Francois Lake and has launched his scow this week and is ready for business. Bob has gone back to Hazelton.

Contractors Angus and Dan Stewart were in town this week inspecting their work here.

The youngest daughter of Mr. and Mrs. James McKenna, Helena McKenna, aged three months, died Friday morning.

Bulkley Valley and Francois Lake is favored with a weekly mail service. Mr. M. Stick, from South Bulkley has the contract and intends to operate two outfits.

Kathalines pack train is reported one month later than previous years.

MORE ASSISTANCE FOR THE FARMERS

Questions to be Placed Before the Royal Commission—Opinions are Asked For

The following is a list of questions which A. Lucas, M.P.P. for Yale, proposes placing before the Royal Commission on immigration when appointed:

1. The best methods of clearing land and bringing it under profitable cultivation.
2. The best methods of settling land for the promotion of mutual convenience and easy administration of the communities so formed.
3. The best methods of securing co-operation among settlers in regard to products of dairying, poultry raising and fruit-growing, and for marketing of the same.
4. The best methods of improving facilities of local transportation.
5. The question of better financial facilities for farmers, and the provision of cold storage and other modern facilities necessary for the assistance of agricultural development.
6. The conditions affecting the labor market and an inquiry into the solution of the problems presented.
7. Immigration, and how best to promote it with a view to settling up the lands, and the countries from which the supply of immigrants should be drawn.
8. An enquiry into the desirability of employing companies to undertake the settlement of lands upon conditions imposed by the Government, and the nature of such conditions.
9. Agricultural education in schools, the location of experimental stations, and rural education generally.
10. An inquiry into the quantity of land close to transportation facilities that could be made available for cultivation for clearing of trees and stumps, and by irrigation.
11. All other information of a useful and pertinent character connected with the improvement and development of the agricultural industry in British Columbia.

The Herald will be pleased to receive letters expressing the opinions of farmers on these questions.

Booming Ontario

A number of Ontario Newspapermen at a recent meeting decided that they would no longer boost the west at the expense of their own province. They will in future devote their attention to Ontario.

TO THE PUBLIC

THE FINAL decision of the Railway Commissioners, confirming the location to the railroad station at NEW HAZELTON, puts the final stamp of approval on New Hazelton as the only townsite in the district. The insane attempts by some parties, who, to further, what they considered, their own interests, to have the town removed from its natural location as decided by the late Judge Mabee, already resulting in business stagnation and the loss of thousands of dollars to the business men of Hazelton, besides setting the development of the district back by many months, have now met with complete failure.

NEW HAZELTON

To those who may still have a lingering doubt

The railway commissions have intimated that the Grand Trunk Pacific Railway Company have, on every occasion, fought against providing station facilities at points with gradients and curvatures that obtain at South Hazelton, claiming that traffic could not be handled at such points. To handicap the great trade of the Hazelton district in such a manner as this is the height of absurdity.

Anything the G.T.P. may say in the matter

should not be taken seriously, as it is obviously for purposes that have nothing whatever to do with the creation of a town in the district. The future of Hazelton demands a point with the very best facilities for large yardage, and a chance to expand, in view of the large local mineral tonnage, and an early movement of coal tonnage from Ground Hog. These facilities New Hazelton possesses to the greatest degree.

Stand on the South Hazelton bluff and imagine the absurdity of creating such facilities there

The Commissioners also state that if the G.T.P. propose to put a station there, they would have to conform to the standard laid down by themselves. Prominent engineers give it as their opinion that such is impossible.

The owners of New Hazelton are prepared to act in a liberal manner toward the old town business men, who feel that the coming of the railway necessitates the removal of their business to the new town. The railway will easily reach New Hazelton by September 1st.

Get in line for the new town. Boost for the Ground Hog Railway, the Mines and a large, united town

CONCENTRATES

Arthur Griswold and Billy Sproule are prospecting on Nine Mile mountain.

Deane & McDougall are prospecting near the Harris group on Rocher de Boule.

Denny Comeau has completed his work on the Beatrice group on the Skeena slope of Rocher de Boule.

P. J. Jennings spent several days on Rocher de Boule mountain this week gathering up data on several properties.

Bob Martin of Valdez, Alaska, left town on Monday to prospect on Hudson Bay mountain and the Telkwa Basin country.

W. J. Bowen of Seattle, manager of the Lost Creek Mining Co., operating on Lost Creek and Skeleton Gulch, tributary to Manson creek, Omineca placers, left for Seattle Tuesday on the Inlander. Mr. Bowen will place orders in Seattle for machinery. He reports the district flourishing.

L. L. De Vom is on a trip of inspection to the Morrice River district in the interest of owners of mineral claims. He will return the latter part of the week.

Paddy Higgins is prospecting the Sleepy Jim, adjoining E. L. Kinman's famous Erie, and hopes to uncover the rich lead which is dipping toward his ground.

Tommy Railson brought in some fine looking ore from the Hazelton claim on Nine Mile mountain last week. Steel galena and grey copper don't make anybody worry around this district.

Joe Sheady returned to town this week, after doing his annual work on the Sheady group on the Hudson Bay mountain. Joe reports a great amount of work being done in that district.

Ed. Mathews, one of the former owners of the famous Wild Rose property north of Pierce City, Idaho, on Oro Fino creek, arrived in town last week. He is now prospecting on Nine Mile.

William Sidney Sargent and Colin H. Munro, the original locators of the rich Rocher de Boule mine, left Tuesday to do considerable work on the Great Ohio group on Rocher de Boule. This property has the biggest lead of copper in the district, and looks like big money.

B. Bodine of Vancouver, in charge of operations on Silver creek in the Omineca placers for G. H. Knowlton and associates of Vancouver, returned to Hazelton Monday from the diggings. He reports great activity there among Seattle and Vancouver hydraulic and dredging companies in prospecting big areas preparatory to bringing in the machinery that will scoop out the yellow junk. Trail is in fine shape.

"Dutch" Cline left Wednesday with a bunch of beans, a hunk of bacon and a few boxes of 60 per cent, to do the work on the Silver Pick group on Nine Mile mountain. "Dutch has a great showing and will do considerable surface stripping and open cut work on the new vein. This, with what he opened up last year, makes it look comfortable for the former Boer captain. He will be joined in a few days by Ben Peterson.

ss. INLANDER

The fastest boat on the river.

NEW HAZELTON DOINGS

Sam. Goldbloom, of Vancouver, was a visitor in town the fore part of the week.

Dan. Stewart, Burns Lake, was in town this week. He reports excellent progress on the contracts beyond Aldermere.

The Club house at Foley, Welch & Stewart's has been a great source of enjoyment to the boys and it is just as popular as ever.

A number of the local fishermen have been reporting some fine catches this week. The brook trout in the creeks are fine and in the Bulkley river the Dolly Varden trout and salmon are thick.

All the business men report a big increase in business since the first of the month. There have been a lot of new people around and the business people are getting in a lot of freight so they can do business.

W. A. Ferguson has been having some great luck hatching chicks. Last week he had two lots of eggs hatch. One hen had fifteen eggs and the other thirteen and every egg produced a strong healthy chick.

Some of the boys have located an excellent fishing grounds a few miles from town. They discovered a lake near the nine mile post and they say the fish are as thick as bees around a hive. On Saturday a lot of them are going out with flies, lines and dinner pails.

P. R. Johnston and N. F. Helmers, of Johnston, Carey & Helmers, bridge contractors, have completed their work on this line and have cleaned up their business with Foley, Welch & Stewart. On Saturday they left for headquarters in St. Paul. Messrs. Johnston, Carey & Helmers had the concrete work on all the bridges between Kitselas and Skeena Crossing.

A meeting of the Board of Directors of the Pacific Great Eastern Railway was held in Vancouver this week and it was attended by D. McLeod. It has been decided to commence operations at once on the grading, the first contract being at Howe Sound. About the first of September Mr. J. W. Stewart, who is now in the old country, will return to British Columbia and assume charge of the work. From that time on the construction of that road will be rushed

WHEN PEA-VINE HIT THE VALLEY

'Twas in the early springtime,
When the winter's poke was shy,
And the search for quartz and porphery,
Beckoned sourdoughs pack and fly;

That a young man packed his blankets
And a cayuse for a trip;
And hiked along the Cariboo,
Lambasting with his whip.

The old, lame-haltered fourfoot
Winced a bit, but took a rally;
And onward hunched the young man,
As "Pea-vine" hit the valley.

The fields were green and verdant—
The meals were far between—
Until he struck the Bulkley,
And its grasses he had seen.

The sowbelly it had clean give out,
The beans were on the bum;
The rice and flour had got mixed up
With salt, and yeast, and rum.

But Bulkley was a winner,
And he didn't have to dally;
For fertile fields fed him,
When "Pea-vine" hit the valley.

At Driftwood creek he made a camp—
The sound and name it caught him—
He staked out a plantation,
And worked with might and vim.

He waxed fat on the grasses,
Sold his ranch and mushed along,
As the Grand Trunk slowly mozied in,
To be a host in Hazelton.

And now mine host has struck par dirt,
And hardly can keep tally;
But still likes thoughts of old times,
When "Pea-vine" hit the valley.

June 4, 1912 51-8

BACK TO MINING

"I make my money in mining," said a veteran operator to The Herald, a few days ago, "and then go broke on something else."

Soon after the panic of 1907 hundreds of men who had made big money in mining began making investments in real estate, in lands, in industrial enterprises, in manufacturing concerns and in various other lines of business. But, the majority of these are drifting back into the mining game again, having failed, to a large extent, in their new investments.

These men are now more enthusiastic over mining than ever before. If they ever doubted the legitimacy of the pursuit they are now thoroughly convinced that it is the safest occupation that a man can follow, and that the rewards are greater, and generally quicker, than can come from any other avenue of investment.

When one scans the table of dividends paid by mining companies and compares the grand totals with the net earnings of other lines of business, he must become impressed with the magnitude of the mining industry, and with the fact that the net profits made by those engaged in actual mining operations are far larger than can be accredited to any other pursuit. The old-time miner knows this to be true, and he realizes this condition more than ever before; and this is why he is returning to his old love. Because mining is so profitable, so reasonably certain, we may well look for increased activity along mining lines during the coming year, for the man who has once engaged in this pursuit, and who, for some reason or other has switched to some other occupation, has become tired with the two-by-four business in which he is now engaged, and is bending every effort to get back to mining, to a business that offers a fortune, instead of a mere pittance, for his efforts, for the small amount of money necessary to develop a mine or prospect.

HARRIS MINES, LIMITED

(NON-PERSONAL LIABILITY)

25,000 Shares of the Treasury Stock are offered at the same old price of

Twenty-Five Cents a Share

The proceeds of this sale will be used to carry on work at the mine. This stock is the next to advance in price. Ore shipments cannot be commenced before fall on account of extra expense, but high grade ore is being hoisted, sorted and sacked every day.

ROSENTHAL, HARRIS & DeVOIN

We offer farm land from Hazelton to Francois Lake at low prices. We are able to handle three or four mining properties of merit.

Lost

White horse, branded "33" on the shoulder, "F" on left hip. J. Short. Enquire Anger the Tailor.

EVERYTHING IN CANVAS

Prince Rupert Tent & Awning Company.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N. B. — Unauthorized publication of this advertisement will not be paid for.

SALE STARTS ON TUESDAY, JUNE 25th

Goods marked in plain figures. Fixtures will be sold as soon as the stock will be sold.

Acme Clothing House

Losing Pre-emptions

As a result of the large number of new people coming into this district looking for land in the Bulkley and Kispiox Valleys, in the Francois Lake, Burns Lake and other sections where the land is generally good, a large number of the original pre-emptors are losing their property. The practice in the past has been to record a pre-emption and then go away and never make improvements or spend time on the place. Some pre-emptors have been away two years and some even longer, of course they cannot expect to hold their land. A good class of settlers are now coming in and going to work.

Two New Firewardens

Firewarden Larimer received instructions last Saturday that Chas. E. Baley had been appointed firewarden for Babine district, and that Jas. Latham was to fill a similar position at Burns and Decker Lakes. These two appointments were badly needed by the districts and the government has selected a couple of good men for the positions.

The S.S. Inlander brought in the following passengers this week:

G. R. Monroe, P. Carr, H. Briggs, Mr. F. W. Hammond and boy, Sam Goldbloom, Wm. McDonald, Jas. McDonald, J. W. Hart, Fred Mills, C. Barnes, H. Sweetenham, F. R. Inman, Miss Bertha Peterson, J. McMillan, C. H. Brown, Mr. Calder, Leslie F. Martin and wife, D. A. Rankin, W. Brass, Mrs. and Miss Horbury.

That the mining men interested in this district are also interested in New Hazelton is evidenced by the fact that they are ready to build homes there and make that their headquarters. P. J. Jennings informed the Herald this week that he expected to build in New Hazelton in the near future and make that his headquarters as he expects to be here all winter.

DO YOU KNOW?

Do You Know That the greatest wave of progress and prosperity on earth today is in British Columbia. The point that seems to be the centre and the one to have the most sensational values established in a short time is New Hazelton.

Do You Know That British Columbia money, Canadian money, United States money and money from all directions is pouring into New Hazelton District for investment and development and everyone feels confident that sensational profits will be sure.

Do You Know That the Grand Trunk Pacific rails are now laid to Skeena Crossing and will have steel laid into New Hazelton early in July.

Do You Know That New Hazelton is a good substantial town now. That the merchants (about 60 in number) are located around the corner of Thirteenth Avenue and Pugsley Street.

Do You Know That 12 mining companies are working within 9 miles of New Hazelton, and will be shipping ore from New Hazelton in July or August.

Do You Know That the business done in the Hazelton district this summer will be transacted mostly at New Hazelton.

Do You Know That the B.C. Government are spending $2000.00 on street improvement in the vicinity of Pugsley Street and Thirteenth Avenue.

DO YOU KNOW?

Do You Know That the owners of New Hazelton are spending a vast amount of money on improvements in New Hazelton.

Do You Know That thousands of people are coming to New Hazelton this summer.

Do You Know New Hazelton will have 3000 to 5000 people in 1912 having about 2000 people altogether in the Hazelton District now.

Do You Know That lots in the merchantile section New Hazelton will soon be selling for thousands of dollars for each lot. They are now selling for a few hundred.

Do You Know That thousands of men will soon be working in the mines in New Hazelton district, producing millions in value for the fortunate owners.

Do You Know That thousands of farmers will develop the vast area of agricultural land in the Skeena, Kispiox and Bulkley Valleys and that they all will be rich in a few years.

Do You Know That New Hazelton will have thousands of visitors this year. Some will locate, and others will invest, all will boost—can't help it.

Do You Know That New Hazelton minerals, coal, timber, together with rail and water transportation guarantees big smelters, big industries of all kinds, all of which will make a City of world wide importance.

Do You Know That you should not wait until the many big things are announced and the prices of lots go soaring.

Do You Know Get in now at the starting prices and on easy terms.

Do You Know That you should get in now.

WATER NOTICE

Notice is hereby given that Arthur Michal, of Lorne Creek, B. C., will apply for a licence to take and use 2 cubic feet per second of water out of Michal Creek, which flows in a southerly direction through pre-emption 1199 and empties into Skeena river, near and opposite Fiddlers Creek. The water will be diverted to the n.-e. corner of pre-emption record 1199 and will be used for irrigation purposes on the land described as pre-em-tion record 1199.

This notice was posted on the ground on the 10th day of June, 1912. The application will be filed in the office of the Water Recorder at Hazelton, B.C. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights Parliament Buildings, Victoria, B.C.

jun28 Arthur Michal, Applicant

PERSONAL AND LOCAL

John Dorsey has returned to town from a business trip to the south and east.

Mrs. Calhoun was taken very ill on Tuesday and removed to the hospital She is now improving.

Mrs. Carey entertained a few friends last Thursday night in honor of Miss Lyndal who left on Saturday for the South.

Do not forget to enquire at the office of E. H. Hicks-Beach concerning that snap of 160 acres near Meanskinisht at $10 per acre.

Miss M. Hogan, late of the Swanson Bay hospital, has taken the position of superintendent of the training school at Hazelton hospital.

W. S. Davidson, of Smith, Davidson & Wright, Vancouver, was in town several days last week and secured a large order for stationery.

Miss Patterson left for her home in Seattle. Miss Patterson has been with Mrs. Walters since the early spring and made many friends in town.

Indian police officer Sam. Calkins will shortly move into his new quarters on the government property occupied bv the Indian Agent, Mr. Loring.

A Bargain you cannot afford to miss is the 185 acres to be had from E. H. Hicks-Beach at $5.50 per acre, Crown Granted. Splendid land in the Stewart Lake district.

George and Mrs. Ables left on Sunday for Seattle where they will spend a short time before settling down again. H. H. Little has purchased their tent and furnishings and will make that his future home.

Harry Rochester was in town Saturday and Sunday after a trip to Prince Rupert where he straightened out considerable misunderstanding among the merchants there as to the handling of Hazelton freight.

"Live well and die rich" should be your motto---this can be accomplished by taking up a few of the snaps offered in this district, which can be bought from E. H. Hicks-Beach, write and enquire about them.

R. J. McDonell arrived home on Saturday from an extended trip to the south. He brought back with him two teams of very high-class horses, one is a heavy dray team and the other is a team of fancy drivers.

R. DeB. Hovell left on Sunday for a trip to Skagway. At Prince Rupert he will join a party of friends who are also taking in that trip. Mr. Hovell will be back in time to take part in the reception to Sir Richard and his first lieutenant.

Have you thought much of the "Silver Cup" Shares? Remember this Company may ship ore when the railway is able to take it to the Smelter, and these shares will then jump "away up," these shares can be bought "way down" from E. H. Hicks-Beach.
