RECIPROCITY IS GREAT ISSUE

QUESTION OF MOMENT IN THREE CAPITALS

Taft Now Confident Both Houses Will Endorse Treaty—Debate In Ottawa

Washington, Feb. 10:—It is now declared that President Taft is certain that both houses will endorse the reciprocity agreement. Reports from the White House, however, leave little doubt that if Congress adjourns without ratifying the treaty the President will convene an extraordinary session to deal with the question.

Liberals United On Measure

Ottawa, February 10:—Monk's amendment asking for a postponement of the consideration of reciprocity proposals, on the ground that sufficient time had not been given for their consideration by the House, was defeated.

Hon. Mr. Fielding said there would be no unseemly haste in putting the agreement through, and that ample time would be given for discussion. The government forces, in caucus, considered the reciprocity arrangement, and unaimously decided that it should be given effect.

B. C. Lumbermen Agree

Ottawa, Feb. 10:—British Columbia lumbermen attending the annual convention here have announced the withdrawal of opposition to reciprocity. While they think shingles should be free, the reduction of duty from fifty to thirty cents a thousand is regarded as a distinct gain for the British Columbia industry.

British Parliament Interested

London, Feb. 9:—Notice has been given in the Commons of numerous questions to ministers on the subject of reciprocity between Canada and the United States. The Colonial Secretary will be asked to request the Canadian government to postpone ratification until an Imperial congress can be held. Members are also anxious to know if the United Kingdom will be allowed under the agreement to send its products to the United States at the same tariff as Canada.

Two Snowplows Stalled

The snowplow and two engines are reported stalled at mile 51, between two snowslides. The rotary plow was sent from Rupert to relieve the situation, but was unable to get beyond mile 40, the two engines in use not having sufficient power to drive the plow through the accumulations from the slides. Harry Jones, who is our informant, says strenuous efforts are being made to clear the line, powder being used to clear the slides. It seems very doubtful, however, if the means at command will be sufficient to clear the track even as far as the first plow. In the meantime the engines and plows are in some danger from slides.

Alaska Steamer Wrecked

Cordova, Feb. 9:—The steamer Victoria, of the Alaska Steamship Co., went ashore in a blinding snowstorm, crushing a hole in her bow. A wireless message brought the steamer Bertha to the rescue, and passengers and mail were transferred to that vessel and brought here.

Typhoid Epidemic Unabated

Ottawa, Feb. 9:—The scourge of typhoid shows no signs of abatement. Forty new cases were reported in the last twenty-four hours. The total number of cases is 459. All hospitals are full.

Will Establish Big Plant

Vancouver, Feb. 11:—It is definitely settled that the B. C. Steel Company will establish a million dollar plant at Port Mann according to a report today. Construction to begin this spring. The undertaking is backed by Paris capital.

To Amend Immigration Act

Ottawa Feb. 11:—Sir R. Cartright introduced a bill to amend Chinese immigration act. It gives the government power to make regulations defining merchants and students entitled to free admission to Canada.

Jack McNeil, Lem Broughton, Fred Springsteen, and Jack Bartley, well-known Aldermere men, were among those who made the Eagles' dance the occasion for a visit to Hazelton. They returned to the valley on Wednesday.

DOMINION PARLIAMENT

Radical Changes in Legislation Affecting Handling and Sale of Grain

Ottawa, Feb. 9:—The "Canada Grain Act," introduced in the Senate today by Sir Richard Cartwright, is the most drastic legislation affecting the handling of grain ever proposed in Canada.

The bill repeals the Manitoba grain inspection and sale acts, but re-enacts their provisions. A commission of three members is created, to hold office for ten years, and to have power to administer the new law, with practically all the authority conferred upon railway commissioners, besides the power to expropriate terminal grain elevators or lease and operate the same for the government. Drastic penalties for offences against the act are provided. The maximum fine for mixing grain at terminal elevators is fixed at $5,000, the maximum penalty being two years imprisonment and a fine of $20,000. Officers of corporations are liable, as well as the companies, while the licenses of the latter may be revoked. The bill is intended to facilitate the movement of Canadian grain to the United States in the event of reciprocity carrying.

George Burns, who was brought from Sealy to the hospital on Thursday, suffering pneumonia, died this morning.

LOCAL AND DISTRICT NEWS.

Arthur Worsley left on Thursday for a visit to the coast.

Norman McMillan came in from the Bulkley valley on Tuesday.

J. C. K. Sealy went up to his ranch on Wednesday for a brief visit.

P. Carr, who was in town for a few days, returned to Canyon creek on Wednesday.

McVittie's survey party returned on Monday from Kispiox, having completed the survey of some thirty pieces of land in that vicinity.

H. Silverthorne arrived from Pleasant Valley on Thursday. He returned yesterday with supplies for his store.

The epidemic of Lagrippe has been especially severe at Haguel-Get Indian village. Serious cases are also reported from other near-by reserves.

Fanny Delass, an Indian woman, died on Wednesday of pneumonia. Though a kloochman, she was regarded as one of the chiefs of the tribe.

The local postoffice has received official notice that the amount of mail to be brought up the river has been increased to 600 pounds a week. The change takes effect this week.

The subscription lists in aid of the school will be taken up on the 18th, by which time it is hoped sufficient money will be paid in to provide for the necessary expenses of the school.

E. E. Charleson will leave shortly for Chilcotin, to bring in his pack trains, consisting of about 200 animals, which will be used in distributing freight from Hazelton.

Anti-Lords Legislation

London, Feb. 10:—An announcement by Austen Chamberlin makes it certain that the House of Lords will not be frightened into abolishing itself. A big fight is imminent. Liberal organs say that if the Lords fail in their duty duty the administration will create new peers and the anti-Lords bill will become law.

The police in charge of Andrew Crosby, the indicted Indian murderer, have reached Prince Rupert with their prisoner.

H. P. Jones, proprietor of the Glacier House at Glentanna, returned on Thursday from an extended visit to the coast cities. He was accompanied by J. W. Wilson, of Vancouver, and John Hines. The travelers found the river trail very bad, especially for the first sixty miles, the snow being very deep on that part of the route. Mrs. Jones is visiting relatives in Spokane.

TELEGRAPHIC BRIEFS

Lloyd George, the British Chancellor, is in Naples, suffering from a nervous breakdown. His resignation from the cabinet may be necessary.

Toronto Presbytery, by a vote of 35 to 31, disapproved of the basis of church union accepted by the Presbyterian general assembly.

At Toronto Hackenschmidt defeated Roller, with two straight falls. Five thousand dollars on each side have been posted as forfeits for a match between Hackenschmidt and Gotch, for which a Toronto syndicate offers a purse of $30,000.

In Montreal the Canadians defeated the Wanderers by a score of 9 to 2 in the most brutal hockey match ever witnessed. At one time only two of the Wanderers were on the ice, the others being penalized.

The Canadian Forestry Association held its annual meeting in Toronto. George Chown, registrar of Queen's university, was elected president, and John Hendry, of Vancouver, vice president. The next convention will be at Winnipeg.

Mayor Gill, of Seattle, was defeated in the recall election by Dilling, whose majority was six thousand.

Rev. John Field has almost entirely recovered from the effects of the fall which incapacitated him for several weeks, and is able to take a walk every day.

BRITISH POLITICS

Opposition Scores Government for Failure To Modify Fiscal System.

London, Feb. 10:—An official opposition resolution was presented in the House of Commons by Austen Chamberlin, in the following terms: "The House expresses regret that the persistent refusal of His Majesty's government to modify the fiscal system of the country, imperilling advantages at present derived by British commerce from the preference granted by dominions overseas, has deferred the commercial union of the Empire, and deprived the country of the most effective method of inducing foreign countries to grant fair terms to British manufacturers.

The hockey enthusiasts of the district are taking great interest in the match which is scheduled for Feb. 20, between the local team and that of the G. T. P. engineering corps. Each team has won a game, and although the railroaders showed superiority in the last contest, the local men hope to win in the final match.

Owing to the closing down of camps on the lower end of the line, those travelling to the coast will find no convenient stopping places between Kitselas and Prince Rupert except at Kitsumkalum, the sawmill at mile 60, and the snowshed camp at mile forty-five.

ELLISON RAISES A RUMPUS

WARM DEBATE ON ANTI-RECIPROCITY MOTION

New Railway Measure Passes The Second Reading—Taylor Minister of Railways

Victoria, Feb. 10:—In the Legislature a warm debate was the result of the introduction of Hayward's resolution protesting against reciprocity. Hon. Price Ellison, supporting the resolution, stated that James J. Hill had contributed $50,000 to aid the prairie farmers in their fight for reciprocity. Brewster, in opposition, claimed the proposed action was premature. The house should wait for fuller particulars. He demanded Ellison's authority for the statement regarding Hill. The debate was adjourned.

The Attorney-General's bill to consolidate the railways act of the province passed its second reading.

The premier explained that Hon. Thomas Taylor, Minister of Public Works, would also hold the portfolio of Minister of Railways.

Grain Growers Deny Charge

Winnipeg, Feb. 10:—The officers of the Manitoba Grain Growers Association vigorously resent the charge made by Price Ellison in British Columbia legislature that J. J. Hill had contributed $50,000 for the reciprocity campaign. The statement is characterized as a base and ridiculous lie.

Delay Was Unavoidable

The failure of last week's mail to arrive is accounted for by the change in the contract made by the postal officials, necessitating the partial reorganization of the crews employed by Beirnes and Mulvaney. Every effort was made to bring the increased mail on time, but the bad condition of the trail, with the blockading of the railway, made the task impossible. Men coming up the river report that "Barney" Mulvaney and his men worked night and day in the effort to rush the mail through, but the difficulty of breaking trail in the abnormally deep snow rendered their work futile. Five dollars a day and expenses were offered for additional men, but none could be engaged.

Eagles' Dance A Success

The dance given by the local aerie of Eagles Monday evening was one of the most successful in the history of the town. The hall was nicely decorated, the floor in good condition, and the music furnished by Fred Springsteen and Miss Raby was all that could be desired. There was a large attendance, many people from outside points coming in for the occasion. The program of dances was carried out without the slightest hitch, and all present appeared to enjoy themselves to the utmost.

Report of Forestry Commission

A report of great interest and importance has been presented to the British Columbia government by the Commission on Forestry, which was appointed by the provincial executive over a year ago, and which has, it is evident, spared no effort to secure information on which to base its report. This publication, which is of a most comprehensive character, deals with every phase of the timber industry. It is impossible to give even a brief resume of the report, but some of the more notable recommendations made by the commissioners are as follows:

That a complete cruise of all Crown grant timber lands should be made by the government; that in future the Department of Forests should co-operate with the assessors; and that an annual return should be made of the valuation of all such timber lands:

That as far as possible timber lease-holds should be placed, upon renewal, upon a parity with licensed timber lands; and that they should be subject to the same forest regulations:

That the rates of rental and of royalty upon special license should at no time be fixed in advance for more than one calendar year:

That the present reserve upon unalienated timber land be continued indefinitely; and that when special circumstances necessitate the opening of any portion of this reserve for immediate operations, licenses to cut timber thereon should be put up to public competition, upon a stumpage basis.

That licenses to cut timber upon fractional areas adjoining or surrounding leased or licensed timber lands should be put up to public competition.

That the record of every cruise and survey made of the government timbered areas should be accompanied by a report concerning the suitability of the land for agriculture; that the power to compel licensees to cut and remove timber from good land be retained; and that at the time of renewal the same provision be inserted in every timber lease:

That the issue of hand-loggers' licenses be discontinued:

That no divided interest in a special timber license be recognized:

That for the convenience of holders one day be fixed in each month for the renewal of all licenses expiring in that month:

That royalty be collected upon all merchantable timber not removed from Crown lands in the course of logging operations:

That operators be required to dispose of debris:

That the protection of forests from fire be undertaken by the Government through the agency of a permanent forest organization upon the lines of the Northwest Mounted Police; and that it be compulsory for all able bodied citizens to assist in this work when called upon:

That the cost of fire protection be shared between Government and stumpage holders:

That a vigilant patrol of all railway lines and inspection of locomotives should be established; and that all railway construction should be supervised by Provincial forestry officials:

That special licensees should be instructed to proceed with the survey of their holdings; and that all such surveys should be completed not later than the 31st day of December, 1915:

That all operators should be required to make periodical returns concerning their operations, to the forestry officials in their district; and that the collection of information should be undertaken upon much wider lines than hitherto:

That the government should at once proceed with the establishment of a Department of Forests:

That royalties upon Crown timber should be paid into a forest sinking fund:

That by suitable changes in the Customs Tariff the utilization of low-grade timber should be encouraged.

The Hudson's Bay Railway

From Ottawa comes the announcement that Mackenzie & Mann have proposed to operate the Hudson's Bay Railway under a lease from the government similar to the one under which the Grand Grand Trunk Pacific will operate the eastern section of the National Transcontinental. This proposition will doubtless meet with the strong opposition from the people in the middle west, who have been led to believe the new road would be operated as a neutral line, giving running rights to all western Canadian railways. There was an understanding that such was to be the policy of the Laurier government. It would appear, however, that in receding from the position at first taken, Laurier was influenced by the opinions of those who held that the conditions under which the Hudson's Bay line must work would preclude the successful operation of the road by the government. It was pointed out that during the long season in which the northern sea is closed for navigation, there would be little traffic for the railway, which, with its rolling stock, would be practically idle, unless operated by a company having other roads on which the rolling stock could be used.

According to the proposed agreement, Mackenzie & Mann are to have a lease of the road at an annual rental equal to three per cent on the cost of construction. The rent for the first seven years will be remitted. Nothing has transpired as to the running rights, if any, to be given to other railways. It is to be expected that a good deal of pressure will be brought to bear on the government with the object of securing concessions for other lines.

A MINING HANDBOOK

Director of Geological Survey Makes An Important Suggestion

At the last annual meeting of the Canadian Mining Institute at Montreal, R. W. Brock, director of the Geological Survey of Canada, read an admirable paper advocating the compilation of a directory of promising mineral claims. In the course of his remarks Mr. Brock said: 'To provide for the rapid development of the great mineral resources of the country—and over a great area of Canada, mineral development is a necessary precursor of the development of other resources—it is essential that there should be a large number of legitimate prospectors in the field, a large number of well-trained professional men to direct operations, and capital. Unless, however, there is a market for prospects, men will not follow a prospector's calling; unless there is a demand for the services of professional men, few will be available; hence, the primary need for the development of the Dominion's mineral resources would appear to be capital. In view of this much stress is laid now-a-days on the development of Canadian mining. It may, however, be pointed out that there is capital available in Canada, provided the attention of capitalists here were brought to promising discoveries."

Mr. Brock then went on to urge the advantage to the investor if some certain and expeditious methods were provided whereby he might secure information concerning properties which would promise a reliable return on money expended on their development; and remarked that "the prospector, by reason of the nature of his work, has little opportunity of meeting prospective purchasers, and seldom knows how best to bring a deserving prospect to the notice of bona fide investors in such a manner as to awake their interest. . . . No matter how good the property, it is of course valueless to both its discoverer and the country until placed on a productive basis, which can only be done by the expenditure of capital. The provision consequently of some medium whereby the attention of development companies might be directed to the existence of promising prospects would be of very real benefit to prospectors. A provision of this sort would be especially necessary in a country where a majority of the ore bodies are low in grade, and their development to the stage of producing mines consequently beyond the means or strength of individual effort unaided by capital. Hence it is apparent that the provision of means by which the man with capital may be introduced to the man owning the promising claim is of prime importance, looking to the development of our mineral resources."

Mr. Brock then suggested means of bringing this about—some medium by which the following information would be readily available: name and address of the prospector; exact description of the location of his property; dimensions of the ore body so far as determined; character and value of the ore; and terms or price to a prospective purchaser. On these suggestions Mr. Brock remarks: "Of course the unsupported testimony of the prospector regarding the size and value of his deposit might not be particularly convincing; but if this information was afforded in the form of a certificate from a responsible and disinterested technical man, it would be distinctly valuable to investors."

We observe with interest that the British Columbia Mining and Engineering Record, a very creditable Victoria publication, has undertaken the compilation of a handbook on the lines suggested by Mr. Brock.

LAND NOTICES

FRASER LAKE LAND DISTRICT.
District of Coast, Range 4.

Take notice that Ethel Gaston of New York, U. S. A., intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 40 chains north of the southwest corner of section 30, township 4, range 4, Coast District, thence south 40 chains, west 40 chains, north 40 chains, east 40 chains to point of commencement, containing 160 acres more or less.

December 7, 1910. Ethel Gaston.

FRASER LAKE LAND DISTRICT.
District of Coast, Range 5.

Take notice that May Charlotte Pearse of Kamloops, B. C., married woman, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 40 chains west and 40 chains north of the northwest corner of section 28, township 14, range 5, Coast District, thence north 40 chains, west 40 chains, south 40 chains, east 40 chains to point of commencement, containing 160 acres more or less. May Charlotte Pearse.

October 3, 1910.

FRASER LAKE LAND DISTRICT.
District of Coast, Range 5.

Take notice that Lillian May Pearse of Kamloops, B. C., spinster, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 80 chains west of the northwest corner of section 28, township 14, range 5, Coast District, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to the point of commencement and containing 640 acres more or less.

October 3, 1910. Lillian May Pearse.

FRASER LAKE LAND DISTRICT.
District of Coast, Range 4.

Take notice that Evan Gibb of London, Eng., soldier, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 40 chains north of the northeast corner of section 27, township 9, range 4, Coast District, thence south 40 chains, west 80 chains, north 40 chains, east 80 chains to point of commencement and containing 320 acres more or less.

December 6, 1910. Evan Gibb.

FRASER LAKE LAND DISTRICT.
District of Coast, Range 4.

Take notice that Nancy G. Izat of England, occupation spinster, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 40 chains north of the southwest corner of section 30, township 4, range 4, Coast District, thence north 80 chains, west 80 chains, south 80 chains, east 80 chains to point of commencement, and containing 640 acres more or less.

December 7, 1910. Nancy G. Izat.

Omineca Land District—District of Cassiar.

Take notice that Minnie Bell Dickens of Canyon City, Colorado, married woman, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 100 feet distant and in a southerly direction from Little Oliver creek on left bank of Skeena river; thence north 40 chains, east 40 chains, south 40 chains more or less to bank of Skeena river, thence following bank in a westerly direction to point of commencement, containing 160 acres more or less.

Minnie Bell Dickens.

December 21, 1910. L. C Knauss, agt.

Omineca Land District—District of Cassiar.

Take notice that Mrs. K. H. Disque of Vancouver, B. C., married woman, intends to apply for permission to purchase the following described lands:-

Commencing at a post planted about 1 mile distant and in a westerly direction from right bank of Skeena river at southwest corner of Timber Limit No. 923, thence 80 chains north, 40 chains west, 80 chains south, 40 chains east to point of commencement, containing 320 acres more or less. Mrs. K. H. Disque.

December 16, 1910.

Omineca Land District—District of Cassiar.

Take notice that Harry Johnson of Hazelton, B. C. miner, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted about 6 miles east of the Yukon Fifth telegraph cabin, north of Hazelton, thence west 80 chains, north 80 chains, east 80 chains, south 80 chains to point of commencement.

Dec. 19, 1910. Harry Johnson.

Omineca Land District—District of Cassiar.

Take notice that Hugh Taylor of Kispiox, B. C., telegraph operator. intends to apply for permission to purchase the following described lands:—

Commencing at a post planted about 1 mile east of the east end of small Blackwater lake, thence west 80 chains, north 40 chains, east 80 chains, south 40 chains to point of commencement and containing 320 acres more or less.

Dec. 19th 1910. Hugh Taylor.

Omineca Land District—District of Cassiar.

Take notice that John Olson of Hazelton, B. C., miner, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted about one mile east of Big Blackwater lake, thence east 80 chains, south 80 chains, west 80 chains, north 80 chains to point of commencement,.

Dec. 19, 1910. John Olson.

Omineca Land District—District of Cassiar.

Take notice that Charles Olson of Hazelton, B. C., miner, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted about one mile distant and in an east direction from the east end of BigBlackwater lake in the Cassiar District, thence west 80 chains, south 80 chains, east 80 chains, north 80 chains to point of commencement.

Dec. 19, 1910. Charles Olson.

Omineca Land District—District of Cassiar.

Take notice that Alexander Harkam of Hazelton, B. C., miner, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted about 8 feet distant and in a northerly direction from the Yukon telegraph trail and about eight miles east of the Yukon telegraph cabin, north of Hazelton, thence west 80 chains, north 80 chains, east 80 chains, south 80 chains to point of commencement.

Dec. 19, 1910. Alexander Harkam.

November 29, 1910. EDITH MACDONELL.

GENERAL NEWS NOTES

Dr. Haanel, of the Canadian mint, has made a report on the Vancouver government assay office, which will, he anticipates, be the medium through which a great deal of Yukon and British Columbia gold will reach the mint at Ottawa. On gold sent directly to the mint there is no charge for melting and assaying, but as the percentage deducted at Vancouver is only one-eighth of one per cent, while returns are received about fourteen days earlier, Dr. Haanel thinks the producers of gold will prefer to deal with the Vancouver office. It is possible the government will forego the assay charges on gold purchased in Vancouver for the mint, in which case practically all the output of the Yukon and British Columbia gold mines will go to Vancouver.

English capitalists recently completed the purchase of 200,000 acres of timber land on the west coast of Vancouver Island for the sum of $2,000,000, being the largest transaction of the kind in the history of British Columbia's timber industry. The timber is principally cedar and fir, with some hemlock and spruce, and the areas included in the deal are estimated to contain in varying proportions from 20,000 to 30,000 feet per acre.

In the list of New Year's honors conferred by the King appear the names of William Mackenzie and Donald D. Mann, who will henceforth be addressed as Sir William and Sir Donald. Their knighthood is in recognition of the remarkable work they have accomplished in the building of the Canadian Northern railway.

In view of the prospective addition of hundreds of miles to the railways operating in this province under British Columbia charters, the government proposes to create a department of railways, which will probably be administered for the present in connection with the department of Public Works, under Hon. Thomas Taylor.

The latest charge of interference in politics by the Roman Catholic hierarchy is made by supporters of Laurier, who allege that Archbishop Langevin, of St. Boniface, Man., has addressed a letter to the priests of his diocese, directing them to advocate from their pulpits the circulation of the Montreal and Quebec newspapers which are opposed to Sir Willfrid. It is stated Laurier will appeal to the Pope for intervention.

The mode of freight transportation in the Cariboo is to be revolutionized. The old familiar prairie schooners that have traversed the Cariboo road from Ashcroft to Barkerville ever since the famous gold rush in 1860, will soon be no more. The latest type of prairie schooner which is to be used as a connecting link between Ashcroft, Barkerville and possibly Fort George has arrived in Vancouver from the United Kingdom. It is an automobile train. The train consists of an automobile with four cars attached. The outfit was constructed by the Daimier Motor Car Company of Coventry, England is consigned to the Canadian Renard Road Train Co., Ltd., of Vancouver. The steering automobile is equipped with a 100 horsepower Daimier silent engine and is capable of pulling forty tons at six miles an hour. Each trailer is guaranteed to carry ten tons. The estimated cost of the train is $35,000.

It is probable that the ancient absolute regime in China will shortly become a matter of history. In Pekin it is stated that the throne has decided to accede to the resolution of the imperial senate praying for the immediate creation of a constitutional cabinet. Political events in China have moved with a rapidity that appears almost revolutionary when it is considered that the provincial assemblies representing the first step toward popular government in the empire's history of thousands of years were inaugurated so recently as October 14, 1909. The first imperial senate met on October 3 last. The late Empress Dowager had decreed that a general representative legislative body, to be known as the imperial parliament, should be convoked in 1915, at the end of a nine year period of preparation. However, the people, having had a taste of popular government, were impatient, and the senate soon after it was organized demanded the immediate convocation of a general parliment. The throne and grand council yielded to the extent of advancing the date to 1913, a decree making this effective being promulgated on November 4.

Just arrived at R. Cunningham & Son's, a shipment of OATS, buy early and avoid the rush.

To Queen Charlotte Investors:

As we have decided to extend our sphere of business, so as to make our Information Bureau a reality, we would be pleased to receive from either miner or agriculturist any specimen he may have, giving data and as much information as possible.

We are especially anxious to receive good specimens of minerals

The formation of Companies for Mining Development will have our special attention

Consider it a favor to forward any specimens for exhibit you may have

WE WILL SELL ANYTHING YOU HAVE FOR SALE!

Our Outside Connections are Large
