ORE IN SILVER STANDARD

WM. McCOLLOUGH, AN OLD TIMER, RETURNS

Four Claims on Nine Mile, Owned by a Local Syndicate, to be Developed

Reports coming in town from the Silver Standard group on Glen mountain indicated a strike of importance early in the week and this report was fully confirmed by the superintendent, R. McCrimmon, when he came in on Friday. He stated that the new ore is about three feet wide and is the real thing. The crosscut tunnel on the same group is showing every indication that vein is almost at hand and an announcement that the ore has been encountered here can be expected at any time. Considerable improvement is also noted in the Black Prince tunnel where some nice ore has been encountered lately.

News that these claims were looking well again was welcomed by every miner in the camp. A change in the dip of the ore made it necessary to drive much farther than at first expected in the long tunnel and there was a short time when the bondholders were not altogether sure whether they had a bonanza or not.

Old Timer Returns

Wm. McCullough, who spent considerable time in this district prior to 1908, returned about a week ago to take up the development of a claim on Nine Mile in which he has become interested. Mr. McCullough was much struck with the improvement in the appearance of Hazelton in 4 year's time. He left it a frontier trading post and returns to find it with a resident white population of 500 and increasing rapidly.

The claim, lying east of the American Boy group, can not be reached for a matter of two weeks on account of the snow but is to be prospected thoroughly and if the showings warrant, a generous plan of development.

New Work Started

The four claims on Nine Mile adjoining the American Boy and owned by A. C. Aldous, Arthur Skelhorne, W. P. Murray and Wm. Bryan are to be developed beyond the legal requirements just as much as the showing will warrant. Two men were sent up the hill this week and surface stripping and prospecting will take up a good part of the summer.

Canadians Reach England

London, Jnne 10:—The Canadian contingent of soldiers for the coronation arrived in Liverpool today and received an enthusiastic reception. The Lord Mayor of Liverpool met the Canadians and the streets through which they marched were thronged with citizens.

Sympathetic Strike

Vancouver, June 7:—The general strike in all the industries of Vancouver in which Union labor was engaged to force the principle of the closed shop on the employers of the building trades came off according to schedule on Monday morning. It proved, however, to be far less general than had been expected. Instead of between nine and ten thousand men quitting their jobs only about thirty-five hundred went out. Street railwaymen and several other trades stuck to their posts and most of the strikers are of the various building trades.

General belief is that the situation is not so bad as had been anticipated.

June 9:—At the meeting today of the Civic Conciliation Committee and a delegation from the trades unions, the latter insisted on a recognition of the principle of the closed shop as a basis for settlement. Contractors and many firms of employers declared for the open shop with no discrimination against unionists.

From the Marys of the Empire

London, June 9:—Queen Mary was to-day presented with a cheque for £12,500 which was subscribed in small sums by her namesakes throughout the Empire as a coronation gift. Canada's Marys headed the overseas list with a total contribution of over £700.

Most of the money will be devoted to charity, and the remainder will go to purchase a diamond insignia of the Garter and for portraits of the King and Prince of Wales.

Strike Starts Violence

Vancouver, June 9:—This afternoon the foreman of construction of an apartment block in South Vancouver was badly beaten and seriously hurt by a gang of men who were apparently strike sympathizers. An apprentice was also injured. The men were at work when the gang came along, threw W. Paterson off a verandah and hit him on the head with a piece of scantling. The police are endeavoring to find the guilty parties.

Granby Uses Eastern Coke

Nelson, June 10:—The first trainload of eighteen cars of Pennsylvania coke was received at the Granby smelter this afternoon. Preparations are being made to blow in a few furnaces the first of next week. One hundred and five cars of eastern coke are now on the way here.

Captain Sears Acquitted

Victoria, June 9: — Captain Sears, master of the steamer Iroquois, wrecked on April 10, with a loss of 21 lives was acquitted to-day of the charge of manslaughter after the jury had been out five minutes.

Shipbuilding Concern Organized

Toronto, June 9:—The British-Canadian Shipbuilding and Dock Company has been organized with a capital of $10,000,000. Sir Henry Pelletier is chairman and the site for the new yards is Sydney, N.B.

W. TEMPLEMAN HERE TODAY

MINISTER OF MINES PAYS FIRST VISIT TO HAZELTON

Public Reception and Address of Welcome Arranged. Will Address Open Meeting

Hon. William Templeman, Minister of Mines and member of Parliament from Comox - Atlin will arrive in Hazelton tonight on the steamer Conveyor, which left Bostrom's camp at 7:30 this morning. A number of Hazelton's citizens have arranged for a public meeting in the town hall where an address of welcome will be given to our representative in the Federal Parliament, and embodying a presentation of the needs of the district. Later Mr. Templeman will address the meeting. This is Mr. Templeman's first visit to this part of his constituency, the distance from the coast and time occupied in the journey having kept him away heretofore.

Kinman Returns

E. L. Kinman, controlling owner in Omineca Mines, Ltd., the corporation owning the Erie on Four Mile hill, returned from Vancouver on Thursday, accompanied by Mrs. Kinman, and went out to the property the next day.

He is much pleased with the results of work since he left camp about a month ago. Considerable new ore has been shown up and the preliminary work, before the big shoot of ore can be further uncovered at the south end, is about completed. Within a few days tenders will be invited for the sinking of 100 or 150 feet of shaft.

The treasury stock which is now being sold is liable to be taken off the market at any time. At the outside only 100,000 shares will be sold at the present price.

Senate will Act

Washington, June 9:—The Canadian reciprocity bill is now ready for consideration by the Senate. The finance committee voted today by a margin of ten to four to report the bill next Tuesday without recommendation and with the Root amendment that wood pulp, paper and board shall not be admitted free of duty to the United States from Canada until these products are admitted free from this country into every province of Canada.

Hill Secures Charter

Winnipeg, June 10:—Winnipeg and Calgary business men have sold the Alberta Central charter to James J. Hill of the Great Northern.

Omineca Land District—District of Coast, Range V.

Take notice that John R. McCulley of Kitselas, B. C., civil engineer, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the N.E. corner of lot 921, thence 20 chains west, 60 chains north, 30 chains east more or less to the bank of Skeena river, thence about 60 chains south along the bank of the river to the point of commencement, containing about 160 acres more or less.

May 13, 1911. John R. McCulley.

Mythical Sale

A report in the daily papers of the coast cities and which was widely circulated to the effect that the holdings of the Prince Rupert Coal Fields, Ltd., although the company's name was not connected with the reported sale, had been disposed of for a sum in excess of a million turns out to be entirely a myth and the company's representatives will arrive in a few days with another diamond drill to take the place of the one lost in the forest fire last summer, and a large amount of outfit with which to carry on the work. Frank Dockrill and Thos. Jefferson will be in charge of affairs again.

At the close of work last fall it was estimated by the company's engineer that there was from fifty to sixty millions tons of coal in the area at the head of Morice river, on the divide between it and Telkwa river. Twenty-two feet of commercial coal in three seams was shown by the diamond drill.

Another Diamond Drill

A. J. Beaudette, manager of the coal mining operations of the G. T. P. in this district left on the mid-week trip of the steamer Conveyor for Prince Rupert, where among other things he has to attend to the shipment up-river of another diamond drill for the work on Telkwa river. Continuous work has been in progress on the property for nearly two years, and the addition of another drill at this time can mean nothing less than that the railway company wants to know definitely how much coal there is in their property near the mouth of Telkwa river as soon as possible.

Papke Retains Championship

London, June 9:—Billy Papke, the American middleweight champion, today defeated Sullivan, holder of the English title in the ninth round for the world's championship. Papke won with ease.

Patronize White Labor

Omineca Laundry. Agency, Siefker's Barber Shop. Work will be called for and delivered daily.

You can get Fresh Cowichan Eggs at Two-Mile cafe.

A good time can be had at the Hazelton Theatre in the old Brin Furniture Block.

Mrs. E. Sumner, maternity nurse. Apply to Room 23, Hazelton Hotel.

H. M. Price and T. J. Mac Kinnon of Vancouver were arrivals on the Simpson and will remain a week or more.

J. B. Gottstein, manager of the Prince Rupert branch of McMillan Bros., wholesale grocers, is calling on the trade locally for the second time this season.

NOTICE is hereby given that at the expiration of thirty days I will sell at public auction one mare, being the property of Peter Curran of Ingineca, B. C., to defray the cost of wintering for winters 1909-10 and 1910-11.

June 1, 1911. A. W. CORNER.

GEOGRAPHICAL POSITION

ASTRONOMER McDIARMID DETERMINING LONGITUDE

Getting Base Points for Land Surveys, Checking Geodetic Surveys for Mapping Uses

For the purpose of determining the exact longitude and latitude of Hazelton Mr. H. McDiarmid, B.A., of the Dominion Observatory of Ottawa, is at present in town. Longitude is time, practically the exact local time at any place compared with Greenwich, and therefore, for the determination of longitude, it is necessary to determine the exact time and compare it with the time at some place whose longitude is known. Greenwich is the base of our longitude, but in the Canadian work we have three bases all determined from Greenwich. They are Ottawa, Winnipeg and Vancouver. In the British Columbia work the results are all carried from Greenwich. At night comparisons are made by telegraph line (between the Vancouver and the Hazelton clocks) and, of course, the error of each of these clocks is determined by star observations. These clock errors are applied to the differences of times as shown by the records of the two clocks, and thus the difference of longitude is obtained. The latitude is obtained directly by observations on the stars and each latitude result is entirely independent, while the determined longitude of each place is dependent upon the longitude of some previously determined station.

It is necessary to obtain exact geographical positions for the purpose of getting base points for land surveys, for checking geodetic surveys and for mapping purposes. During the past few years, there have been observations made at many places in Canada from the Atlantic coast to the western boundary of the Yukon.

Observations will be carried on at Hazelton every clear night until five reciprocal good nights at Hazelton and Vancouver are obtained. Astronomer McDiarmid then goes to Atlin where similar work will be done. Previous to coming here observations were made at Prince Rupert where some of the finest weather ever experienced by Mr. McDiarmid was obtained. Work will be carried on in different parts of British Columbia during the whole of the present season.

Riflemen Practicing

Practice for the shoot against the rifle association of Victoria commenced today and will be continued at every available opportunity. Every member of the Hazelton association wishing to qualify for a position on the local team for this competition should attend all practices.

No date has been set for the competition against Victoria but it is likely that it will take place the first Saturday in July.

SATURDAY, JUNE 10, 1911

Booms and Boomerangs

Mining is a business that is as clean and honorable in every way when properly conducted as any in the world; improperly conducted it can be made the basis for the rankest frauds. It has been the misfortune of British Columbia that too many men have seen fit to improperly conduct mining operations here, and as a result investment in mining ventures in the province is not attractive, in spite of the fact that it is responsible for the production of $25,000,000 annually.

The Rossland boom set the clock back ten years for the mining industry and the equally frenzied efforts of present day wildcatters promises to do as much again unless there is some restriction placed on their activities. The writer was all through the Rossland boom and a few other mining booms since then. From the experience gained it is our opinion that the worst happening that any mining camp can have is to be boomed by a set of wildcatters who are only anxious to sell stock and do not care whether a ton of ore is raised or not.

No one will deny that Portland Canal has suffered from being over boomed, and now comes word that the Steamboat bubble has burst, and that instead of running hundreds or thousands of dollars a ton the ore is worth from six to ten dollars a ton. This does not mean that the camp must be a failure but that it is no bonanza.

Here in Hazelton we have a camp that is to mining men the most attractive spot in the province at the present time. No fool friends have destroyed faith in it through over praise, and the wild-catter has not got in his deadly work. For this satisfactory condition of affairs the Herald is largely responsible. The policy of discountenancing lying statements about the camp will be continued as long as the Herald remains under its present ownership. If it becomes necessary to go further and turn the light of publicity on the operations of any wild-cat propositions we are prepared to do that. In other words the Herald proposes to constitute itself a bar to any wild-cat mining venture in this camp. This is no new thing with us; it has been a matter of policy from the beginning. Months ago we refused profitable advertising because the copy furnished would not stand inspection.

The Herald is not published to exploit any fads or hobbies of the management. Our aim is to publish the news of the day and correctly reflect the sentiment of the town and district on matters of public concern. The editor does not expect to run this or any other paper at a loss. If the people want this district and camp in particular wild-catted to death their decision will be soon apparent. If not, then the Herald will continue to enjoy the same measure of public support that it has in the past.

One of the stock criticisms against the Herald in the past three years has been that we did not "go strong enough." This was evidently on the theory that readers would expect the paper to lie, and that we would lie to meet those expectations. Our contention has been that if a paper were worthy of belief and support it would be believed and supported.

Cliptomania

For a paper that once, not so long ago that it has been forgotten by any means, characterized the Herald as a paper of "uncertain existence and temporary address," the Prince Rupert Empire does a most amazing amount of stealing from our columns. Not only paragraphs and columns but almost whole pages have been incorporated bodily into the Empire at frequent intervals with never a word of credit given to the Herald. It has been going on for a long time but is more noticeable since the editor was elected to the city council and the cares of statesmanship prevent his giving a proper amount of attention to his business. We never remarked on it before as the Empire needed brightening and the Herald was not particularly harmed. However, the matter has now passed the bounds of decency, let alone the courtesy usually governing.

Easy Money

A piece of machinery which arrived at the Herald office this week, to-wit one perforator, had been on the way from Vancouver since last September and the storage charges on it for the seven months it was in the G. T. P. warehouse amounted to $11. The machine weighed 230 pounds, boxed. If it had weighed a ton the charges would have been $88 if figured in propertion. The total charges from Vancouver to this office were $22.33.

Fast Freighting

Freight is arriving at a rate in excess of 200 tons a week, something unheard of before during the period of high water. The Port Simpson brings 90 to 100 tons every four days and the Foley, Welch & Stewart boats, although not making regular trips to Hazelton nor bringing any set amount of freight, lands enough to put the total well over the 200 tons mark for each calendar week Comparing this with last year's total of less than 2400 for the entire season it will be noticed that freight is coming up river about twice as fast as the average rate for last year.

The importance of, and profit likely to result from, silver-lead mining are exemplified in the fact that of 82 leading dividend paying mining companies of the United States 57 are silver-lead producers.—B. C. Mining and Engineering.

PROSPEROUS 1911

After the fall of last year, when every indication pointed to such a bright outlook for the coming season of 1911, we anticipated that a great demand would be created for furnishing lines, and decided to put in a well assorted stock of

Carpet and Matting Squares Japanese Matting Cork Linoleums
Printed Linoleums Mattrasses Springs Pillows
Blankets Sheets Comforters Etc.

and are now in position to give to the trade every satisfaction in this department.

April 24, 1911.

Omineca Land District—District of Cassiar.

Take notice that Frank A. Jackson, agent, of Hazelton, B. C. intends to apply for a license to prospect for coal and petroleum on the following described lands:- Commencing at a post planted on Groundhog mountain near Trail creek and adjoining Sarah Dand's S. W. corner, thence east 80 chains, south 80 chains, west 80 chains, north 80 chains to the point of commencement and containing 640 acres more or less Frank A. Jackson.

April 20, 1911.

WATER NOTICE.

NOTICE is hereby given that an application will be made under Part V of "Water Act, 1909," to obtain a license in the Omineca Mining Division of Cassiar District:

(a) The name, address and occupation of the applicant: G. H. Knowlton, 1 Hastings street East, Vancouver, B.C., gentleman. Free Miner's Certificate B 34441.

(b) The name of the lake, stream or source: Kenny creek.

(c) The point of diversion: About one mile above its confluence with Silver Creek.

(d) The quantity of water applied for (in cubic feet per second): 140 cubic feet per second.

(e) The character of the proposed works: Electric power plant for running dredges on Silver creek.

(f) The premises on which the water is to be used: Kenny creek, Silver creek and the south fork of Silver creek.

(g) The purposes for which the water is to be used: Mining purposes.

(i) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and the point of return: The water is to be returned at about the confluence of Kenny and Silver creeks. Difference in altitude 150 feet.

(k) This notice was posted on the 1st day of June, 1911, and application will be made to the Commissioner on the 25th day of July, 1911.

(l) No riparian owners or licensees affected either above or below the outlet.

Early Purchase Opportunities

Omineca Mines Ltd.
(Non-Personal Liability)

Successful investment means buying
of the right stock
at the right price
at the right time

The successful investor buys into a developing company before the dividend earning era, and thereby secures a large holding at small cost, it is a safe plan providing the company is of actual and substantial merit and managed by progressive business men who may be depended upon to properly direct the affairs of the company and bring the enterprise to a successful conclusion.

Omineca Mines Limited is fast developing into a property of great promise, new and important discoveries are made almost daily and ore bodies are showing up magnificently with every shot. It is clearly apparent that a great dividend earning era is near at hand. Between now and the time that this is an accomplished fact is the opportunity for extraordinary profits.

Omineca Mines Limited (The Erie) treasury shares are now offered at 10 cents per share. Terms of purchase are cash or one quarter cash with order and balance in three equal monthly payments.

Don't wait until after the advance in the price of shares and then talk about the lucky owners of Omineca Mines Limited. Buy now and be one of them. No reservations will be made for anyone unless money accompanies application.

The management invite the closest inspection of the properties. They are only four miles from Hazelton, go and see for yourself.

R. K. Lindsey, Capitalist
C. A. Crysdale, Manager Monarch Life of Canada

The Babine Mining Company owns and operates 200 acres of selected mining properties all on Four Mile mountain, the heart and center of the richest discoveries in the Hazelton Mining district. The properties have been under vigorous development for several months and the ore bodies disclosed show assays running as high as $237 per ton in Silver-Lead values and gives every promise of increasing in size and value as development proceeds.

Babine Mining Company Limited is not presented as a mine of established value but as a prospect of unusual merit backed and managed by men experienced in mine development, who are backing the enterprise with their own money and have full confidence that the property will develop into a divident earning enterprise. To mine with them is an assurance of great profits—they are progressive, have great financial resources and never halt unfinished.

A limited allotment of treasury shares will be offered at 7 1-2 cents per share. When this stock has been sold the shares will be listed on the Vancouver Stock Exchange and a broad and active market maintained in the stock. The fact that the shares will be listed on the Exchange is of incalculble benefit to all stockholders as it gives the stock a greater speculative value and offers an immediate market to those who may desire to sell.

I have made a thorough examination of the properties and in view of the able management and extensive development planned I can and do recommend the shares of the Babine Mining Company Limited as a conservative speculative investment that promises a substantial advance in price at an early date.

The terms of purchase are $18.75 cash with order on 1000 shares and the balance in three equal monthly payments of $18.75 each. All stock purchased on payments will be deposited in escrow with the Union Bank of Canada.

The management invite the closest inquiry concerning every detail of the enterprise and those interested are requested to visit the property and determine to their own satisfaction the authenticity of the excellent reports published concerning developments on the property.

Good Reports From Babine Lake

Pioneer Prospector Brings in News From the Lake Properties

C. S. Anderson, who was one of the pioneer prospectors to reach the southern end of Babine lake, came in town a few days ago with good reports of the progress in his locality. He owns the Silver Fox claims on Fifteen Mile creek, so called from its distance from the head of the lake, and other claims in the same vicinity. High assays in both gold and silver have been obtained from different claims and a considerable stretch of country seems to be mineralized. Assays this spring have yielded above fifty dollars in gold on Anderson's samples. Remarkably rich specimens of ore have been on exhibition in town since last fall which were brought from that country and all the prospectors who are interested are enthusiastic over the prospects of rich discoveries this year.

Profits in Mining

Forty-four American mining companies distributed among their shareholders profits to the extent of $12,729,196 for January, 1911. Where are the real estate or financial companies who can make anything like so good a showing, and that derived from the most beneficial national investment of all, new wealth production, not speculation? Add to this the fact that 144 American mining and metallurgical companies distributed as profits for 1910 the vast sum of $82,306,996 and it may safely be said there is no investment so profitable as is to be found in mining and allied industries when undertaken under competent advice and strict business conditions.—B. C. Mining and Engineering.

St. Peter's Church

The Bishop of the Diocese will hold a confirmation and an ordination in this church on Sunday next, June 11th, at the morning service. He will also be present and preach at the evening service.

Presbyterian service Sunday evening in the Town hall at 7:30. All are invited.—D. R. McLean, pastor.

FOR SALE — Cocker - spaniel bitch, 9 months old. Has taken second prize at Victoria, Pedigree given. Price $25.00.—Robert Hovell, Hazelton.

J. C. K. Sealey left on Wednesday for the Bulkley valley ranch and will be away about one week.

B. N. Durant left on the Simpson for Prince Rupert, on a business trip of short duration.

R. J. McDonell returned from Victoria by the steamer Conveyor, which was largely loaded with supplies for the Ingineca hotel. While away he signed a lease for the Hudson's Bay Co.'s Bulkley valley ranch for three years.

ARRIVED to-day: Cucumbers, Rhubarb, Apples, New Potatoes, Fresh Eggs and Dairy Butter. Apply J. E. Beaucamp, Ingineca Hotel.
