THE LEADING WEEKLY NEWSPAPER IN NORTHERN BRITISH COLUMBIA

The Omineca Miner

VOL. III, NO. 36 HAZELTON, B. C., SATURDAY, MAY 9, 1914 PRICE $2.00 A YEAR

MINING NEWS OF THE WEEK

Hudson Bay Mountain Company to Resume Work---Manson Miners are Busy

After several months in the old country, during which he conferred with directors of the Hudson's Bay Mountain Mining company, of which he is managing director, R. G. Steele returned to the coast and is stopping at the Hotel Regis, Vancouver, says an exchange. His company is determined on a program of extensive development of their eight claims on Hudson's Bay mountain. Considerable work has already been done and this is to be greatly extended so as to open up the mine in shape to carry on extensive work in the future. In London, Mr. Steele said, there seems to be very few British Columbia mining propositions under consideration, though there is a great deal of interest in Canadian mining, particularly in the Porcupine region. Within a few weeks Mr. Steele expects a new manager for operations at the mine to arrive, an English engineer of thorough mining knowledge.

Mr. Steele also gave out the information that he has interested New York money in Silver Island, a large and rich island in Babine lake, and sixty tons of ore are to be sent to either the Trail or Tacoma smelters as a trial shipment. The mineral showing on this island is immense, Mr. Steele says, and from the fact that the ore goes high in silver values, the island has been given the name it bears. Mr. Steele is very optimistic over the mining outlook, particularly in the Interior district, where a great deal of work is going on and indications are that it will become another Coeur d'Alene.

In about a week D. L. Purvis will leave for Manson creek, to join G. W. Otterson, manager of the Kildare company, who is developing the Slate creek leases of the company, covering ground on which Mr. Purvis worked for three seasons. The latter says that in the early days of the camp individual miners took big pay out of the bench claims, but couldn't work the creek, being unable to handle the water. In 1907 he sunk a shaft to bedrock on the creek and found a good paystreak, carrying coarse gold, at a depth of thirty feet. One pan of dirt yielded $40.20. It is expected that the operations of the Kildare company will result profitably.

W. B. Steele, who has been in Hazelton for a couple of weeks, on mining business, is ready to leave for Manson today. He has a good dump as a result of his winter's work, and expects a nice cleanup. He obtained $218 for four days' shoveling last fall.

Dr. R. E. McKechnie, of Vancouver, who owns five quartz claims on Lost and Boulder creeks, is expected in this summer, to begin development work. The claims carry silver-lead ore of excellent grade.

John Huderle has purchased the interest of Harry Walker in the Huderle-Walker property on Manson, and will be in soon to resume work. He may come in via the Peace river from Edmonton.

Prominent Citizens Going to Island

Hazelton sustains a loss in the removal of E. H. Hicks Beach and family and Fred Field, who leave tomorrow for Courtenay, on Vancouver Island, where Messrs Hicks Beach and Field will engage in the real estate business. The people of the town and district will wish them every success in Courtenay, where they have erected a handsome office building.

Charles Hicks Beach has taken over the successsul insurance and brokerage business of his brother in this district.

Yesterday afternoon the children of Hazelton public school presented Mrs. Hicks Beach with a purse of gold and an address, in recognition of the active interest that lady had always taken in the welfare of the school.

GAMMON GIVEN SEND-OFF

Chief Constable Gammon, who, with his family, left for Prince Rupert Sunday, to take charge of the provincial police office in that city, bore with him tangible evidence of the goodwill of his Hazelton friends. On Saturday evening Mr. Gammon was conducted to St. Andrew's hall, where he was made defendant in a mock trial, with J. E. Kirby as judge, Chief Constable Minty as prosecutor, and S. Geary and James Turnbull as witnesses. Charged with accepting promotion without the consent of his friends, he was convicted and sentenced to accept a handsome silver tea service. He was also presented with an address from the constables of the district, with a gold watch, suitably inscribed.

Following the presentations, the large crowd which was present turned its attention to an entertaining program of toasts, songs and speeches, under the chairmanship of J. E. Kirby. The singers were Messrs Geary, Turnbull, Ponder, Loutet, Kirby, Morgan, and Arnold, the speakers being J. E. Kirby, Mr. Gammon, who returned suitable thanks, J. L. Coyle, Chief Minty, R. E. Allen, E. R. Cox, Constable Ponder and A. R. Macdonald. Cecil Wright was the pianist, and Messrs Holliday and Loutet acted as a committee on arrangements.

Miners' Licenses Expiring

Miners and prospectors should remember that all free miners' certificates expire on May 31, and should renew their licenses before that date.

Keep Streets Clean

Hazelton streets are now being cleaned up, and the authorities require that citizens refrain from leaving paper or rubbish about the town.

Local and District News Notes

Mrs. Douglass and family left for Nelson on Sunday.

Constable Fairbairn returned to Burns Lake on Wednesday.

Joseph Sexton, of Chicken Lake, is spending a few days in town.

The Hospital ambulance is expected to arrive from Vancouver today.

James Morgan returned on Saturday from a visit to Prince Rupert.

Dr. C. G. Maclean, of Smithers, was a visitor at the Hospital on Wednesday.

Michel Lauzon, of Gitwangak, was among the weekend visitors in Hazelton.

G. Norris, of Victoria, a customs inspector, was among Monday's visitors.

S. E. Burgunder, of Kispiox, returned on Wednesday from a trip to Seattle.

Stephen McNeil, of Copper City, spent a couple of days in Hazelton this week.

James Turnbull, of the forest branch, is spending a few days on the lower Skeena.

G. R. Middleton, of the Union Bank staff, is spending his vacation in the coast cities.

A party of miners bound for the Omineca river placer district is reported on its way to Hazelton.

Patsy Byrnes, who has been a patient in the Hospital for some time, left the institution on Wednesday.

Constable Fairbairn, of Burns Lake, was in town for a couple of days this week, on police business.

E. H. Fletcher, of Victoria, postoffice inspector for British Columbia, was here yesterday, on official business.

K. F. Birchall, of Prince Rupert, who is on his way to Babbine, on fisheries business, was in town on Monday.

David Allen has arrived from Vancouver to take a position in the Hazelton office of the government telegraphs.

W. W. Kerr, the Hazelton horseman, is on his way from the coast with a carload of horses for the local market.

Work will begin in a few days on the road which is to serve the settlers between South Hazelton and Skeena Crossing.

Miss Amy Grist, who recently graduated from the Hospital training school, expects to leave for Victoria tomorrow.

R. D'Egville, of the Dominion fisheries field staff, returned on Wednesday from a winter visit to England and France.

Dr. Stone, of Hazelton Hospital, has been appointed district surgeon for the G. T. P., with headquarters at Endako.

Walter Owen, assistant inspector of provincial police, came up from Prince Rupert on Wednesday, on official business.

Chas. V. Smith, who has been confined to his residence for some days by a severe attack of inflammatory rheumatism, is improving rapidly.

Howard Guest, of the forest branch, has gone to the Bulkley Valley, where he will act temporarily as forest guard.

H. K. Wright, inspector of the Royal Bank of Canada, has been here since Wednesday, on an official visit to the local branch.

The Indian football teams of Kispiox and Hazelton played a match on the reserve on Saturday last. The visitors won by 4-1.

F. A. Widmoyar, who recently resigned the position of station agent at South Hazelton, has gone east for an extended trip.

Prince Rupert has decided not to enter into the league baseball series, but would like to play a series of games with the winners of the cup, in the fall.

L. R. Walker, formerly representative of the North Coast Land Co. in this district, is now stationed at the South Fort George office of the company.

G. A. McNicholl, industrial and colonization commissioner for the G. T. P., arrived on Monday, accompanied by E. H. Wilson, a mining operator from San Francisco, who came to inspect the silver-lead mines of this district.

George M. Beirnes has leased the Mission Point property, 340 acres, from the Methodist mission board, and will engage in farming operations on an extensive scale. He will specialize in hogs and poultry.

Government Agent Hoskins paid an official visit to Smithers on Monday. Among other matters he took up the question of a small debts court there, and arranged for the holding of sessions when required. T. T. Dunlop has been appointed clerk of the new court.

Indians are supposed to have slaughtered many deer in the Burns Lake and Francois Lake districts, for their hides alone. One culprit is said to have killed thirty-five in one day in the Babine range. Seven moose were seen near Francois Lake, and of these several were killed out of season.

Messrs Cross and Preble, who spent last summer in this district, in the interests of the Smithsonian Institute, will not return here until next year. This season they will spend in the Prybiloff Islands, investigating the evolution of the fur seal, which is believed by scientists to be changing from a sea animal to a land animal at a comparatively rapid rate.

Skeena Crossing Hotel

The twenty-room hotel building of the B. R. Jones Co. at Skeena Crossing has been completed, Mr. Jones returned this week from a business visit to the coast cities, and predicts quite an influx of men and capital to the Rocher de Boule district, from which Skeena Crossing draws its business.

Deputy Minister Visits Hazelton

J. E. Griffith, deputy minister of public works, and Wm. Manson, M. L. A., were in Hazelton on Saturday evening, when they were interviewed by a delegation of business men, with the request that the government build a bridge to replace the present ferry between Hazelton and South Hazelton. Consideration was promised. At New Hazelton the visitors consulted with a committee regarding the road requirements of that town. It was requested that the government take over the bridge at Haguelget canyon. Mr. Griffith stated that the structure was not the kind of bridge the government was building, but suggested that if the bridge company gave assurances that the public would be allowed right of way over the bridge the government would construct roads to give access to it.

FIRE PROTECTION STAFF

Forest branch officials expect a busy season, as there is every indication that the summer will be dry. Already five fires have been reported, and the guards in several districts are busy protecting the timber. The fire protection staff for the Hazelton district has been appointed, the names of the rangers and guards being as follows:

Western division—Geo. Dover, Terrace, ranger in charge. Forest guards: Frank M. Whitlow, Lakelse Valley; Arnold Creelman, Kitsumkallum; V. A. Harvey, Copper River; Jos. Brearley, Lower Skeena.

Central division—Jas. Latham, Hazelton, ranger in charge. Forest guards: Ralph Craddock, Kitwancool Valley; H. W. Sharpe, Kispiox Valley; R. C. Sinclair, Hazelton patrol district; Kenneth Morrison, Bear River Valley; Edward Hyde, Telkwa; Frank Trainor and John Calderwood, Morice River.

Southern division—Thos. Brewer, Burns Lake, ranger in cherge. P. Slavin, Upper Bulkley Valley; Jas. McKenna, Endako; A. R. Brown, Upper Babine Lake; L. O. Forde, Francois Lake; W. E. Blake, Ootsa Lake; John Michelson and James Morgan, Eutsuk Lake.

Northern division—Jas. Turnbull, Hazelton, ranger in charge. Forest guards: Hugh McKay, Kuldo; Angus Beaton, Groundhog; Howard Guest, Lower Babine lake; John Nesbitt, Upper Tacla lake; Gustave Sanborn, Lower Tacla lake; Duncan McGibbon and Donald McDougal, Ft. Connelly district; Thos. King and Martin Cain, Omineca district.

Geo. A. Kerr, of Endako, has been appointed special patrolman on the G. T. P., from Prince Rupert to Endako.

The guards patrolling the settled districts were appointed on May 1, while the men going to tha Northern districts go on duty about June 1.

Commercial Printing at The Miner Print Shop.

TWO COACHES OVERTURNED

Van Arsdol and Number of Passengers Injured in Accident to Eastbound Train

The first accident to a passenger train on this division of the G. T. P. occurred on Monday, near Bulkley Crossing, when the last two coaches of the accommodation train bound east from Smithers were overturned. The cars were well filled with passengers, but few were injured, owing to the slow rate of speed maintained over the half-ballasted track. The accident was caused by the sliding of the grade as the train passed over it.

The most serious injuries were sustained by C. C. Van Arsdol, chief construction engineer for the mountain division, who had one shoulder fractured and the other dislocated, besides bruises about the head and body. Five passengers, slightly injured, were taken to Hazelton Hospital. Their names are: James Hogan, James McLean, Jonas Slene, James Clark and C. C. Sattonan. Mrs. G. O. Graham, who was badly shaken up, but not incapacitated, went to her home in New Hazelton, while Mr. Van Arsdol and Mrs. Patterson went through to the coast on Tuesday's train, accompanied by Dr. Maclean.

It is thought the track between Smithers and Prince George will not be in condition for regular train service for three weeks.

Ball Game Tomorrow

Manager Rock has arranged an exhibition game between the New Hazelton nine and the Tigers, for Sunday afternoon. The local players will bat in the following order: Sinclair, p; Macdonald, 1b; R. J. Rock, 2b; G. Rock, ss; Berts, 3b; Stone, c; Little, cf; Lynch, rf; Kelly, lf. The game wiil be called at 2:30 sharp.

Another Bandit Dead

Wano Dzutzoff, one of the bank robbers wounded in the fight at New Hazelton several weeks ago, died of his injuries on Monday evening. On Tuesday Coroner Hoskins impanelled a jury, the inquest being adjourned until Monday next, when evidence will be taken at New Hazelton. The preliminary trial of the surviving bandits will be held soon after the inquest.

Hotel Baseball Team

The staff of the Hazelton Hotel has organized a ball team, and has issued a challenge to the employees of the Northern Hotel at New Hazelton for a game. The local men are confident of winning, as Paddy Martin has secured a sure-enough mascot in a cub bear from Babine.

Bush Fire in Valley

A bush fire is burning near Dahl's ranch, just west of Smithers. Forest branch officials, assisted by ranchers and section men, are taking measures to prevent the spread of the fire.

VOL. III. SATURDAY, MAY 9, 1914. No. 36.

The mountains are beginning to cast off their snowy mantles, and soon the hardy prospector will again shoulder his pack and renew his search for the mineral treasures which lure him past the frontiers of civilization, to blaze his trails through the wilderness. Not always is his material reward commensurate with the hardships he undergoes; sometimes he finds that pioneering, like virtue, is its own reward, and his hopes of fortune are unfulfilled—still the free life in the open continues to attract the true-born pioneer. As usual, the season which is now opening is bringing many prospectors to this district, where numerous "stakes" have been made in recent years, and where many inviting stretches of unexplored country still lie before the prospector.

In the district tributary to Hazelton, although there are many developed or partially-developed mines of undoubted value, there is still room for an army of prospectors. While it would be too much to expect that the district should be thoroughly explored in two or three seasons, we venture the opinion that the year 1914 will see a large addition to the number of mineral claims held in this vicinity, and will be marked by new mineral discoveries of importance.

The old town of Hazelton, for many years the distributing point for the entire Northern Interior, is still the chief supply point for the district. Here miner, prospector and landseeker find everything required for their outfits in the general stores which have for many seasons furnished supplies to the parties which, on various business, leave Hazelton in the spring for every part of this rich district. Hundred of prospectors will outfit here this spring before beginning their season's work in this vicinity or in the mineralized country to the north and east.

When the Liberal leaders, Messrs. Brewster and Oliver, were on their political pilgrimage a short time ago, they endeavored to show that the department of lands had connived at the fraudulent purchase of land, basing their allegations on the judgment in a recent suit over the staking of Naas lands. Investigation of the case proves the opposition insinuations to be baseless.

It seems that Clark, the plaintiff, got in touch with a land locator who led Clark to believe that he knew of certain meadow lands in the North country which he could obtain for him on payment of a fee. As a result Clark paid him a sum of money and at the same time agreed that he was to gather together a number of names and locate the sections in these different names, all, of course, for Clark. Clark afterwards found out on making investigations that this locator had used certain fraudulent misrepresentations in connection with the descriptions of this land, the land consisting of nothing but rocks instead of meadow land. An action was accordingly brought against him for fraudulent misrepresentation, but the defense raised the point that Clark was also really guilty of fraud, as he was attempting to commit a fraud on the land department by using the names of the different people in order that he might be able to buy a larger section of land whereas, as a matter of fact, he was only entitled to one section. Judge McDonald held that the whole affair was fraudulent, and that therefore Clark had no right to recover damages for misrepresentation when his own action was a fraud upon the lands department.

This is the case, and there is no reflection upon the lands department because, under the Land Act, a man is entitled to buy only one section of land, and he can obtain this section by locating through an agent, and if this agent should locate for ten different people it would be all in order, and the lands department would have to put through the grants, providing all the statutory requirements were complied with, unless, of course, they felt that a fraud was being perpetrated by the agent in using the names of these different people for the purpose of obtaining for his principal more than one section of land.

THE MYSTERIOUS X-RAYS

In view of the approaching installation in the Hazelton Hospital of a modern X-ray apparatus, considerable interest is being taken locally in the character and uses of the "rays."

Ever since Prof. Roentgen discovered the mysterious "rays" which bear his name it has been a puzzle as to what these rays could be. They seem like a form of light—they give out light under proper conditions. Or rather they cause plates and screens prepared with certain chemicals to become luminescent or fluorescent, as the physicists say, when they are bombarded by the X-rays.

But otherwise they do not (or did not seem to) act like ordinary light at all. For example, when ordinary light is passed through a prism it is bent slightly out of its straight-line course, and the degree of bending varies with the color—that is, with the wave length of light. So, when a compound light like sunlight is put through the prism it is split up into all the colors of the rainbow.

Again, ordinary light rays when passed through certain substances like tourmaline are "polarized"—that is, only those vibrations which lie in a particular plane get through. And again, it is possible to measure the "wave length" or ordinary light, even of those waves which lie far above and far below the limits of visibility. But all this was impossible with the X-rays.

On the other hand, as everybody knows, the X-rays are generated when a metal plate in a vacuum tube is bombarded by an electrical stream. It is one of the greatest discoveries of recent years that this electrical stream, this beautiful glow which is seen inside the vacuum tubes, is due to myriads of electric "atoms" or particles which act for all the world like the particles of a gas—air, for example. But while the weight and "charge" of these electrical atoms can actually be measured, no such measurement could be made with the "X-rays." And so the puzzle remained.

Very recently, however, some English and German physicists have found substances which react in a very peculiar way to the X-rays. Certain crystals, and the rough edges of mica plates and the like, it has been discovered, will act like a glass prism to the rays, so that the latter can now be manipulated much like the rays of ordinary light. And in this way it has been established that the rays are actually little pulses of light. But they are incredibly thin and small. Ordinary light waves are measured in fractions of a metre—very small fractions—to be exact, in millionths of a thousandth of a metre. A millionth of a metre is called a micron, and a thousandth part of this is called a micromicon. The longest visible rays are 700 or 800 of these units in length, and the shortest, at the violet end of the spectrum, are about 500. It is possible to measure ultraviolet rays, which are less than 100 units in length. But no method of measurement has yet been devised which can give any accurate idea of the waves of the X-ray pulses. Probably they are not a thousandth part the size of the smallest ultraviolet.

But now that their nature has been determined, now that they can be "refracted" and "polarized," just like ordinary light, it is only a matter of time when marvelous instrument makers and ingenious experimenters will find a way to determine their dimensions.

When they do wo shall have a new weapon in the search into Nature's mysteries; and already researches in this field promise to throw new light upon the structure of atoms and molecules—that is, the structure of that "matter" amid which we live and a part of which we are.

Demand Exclusion

London, May 4:—The Unionist journals this morning, following Mr. Balfour's lead, are unequivocally demanding the unconditional exclusion of Ulster from the the operation of the home rule bill, declaring this is the only means of averting war. Many prominent Unionists write to the newspapers alleging that the government is acting in bad faith, and scouting the proposed federal solution. The general attitude of the Unionists suggests their belief that the government is on the run and is prepared to make the fullest concessions to secure peace, which the Morning Post says will not be the result of any round table conference.

BRITISH COLUMBIA LEADS IN FORESTRY

The following article appeared in the last issue of American Forestry on "Progress in British Columbia."

British Columbia has already travelled, surely and very rapidly, far along the road which leads to forest conservation. That is important, since in British Columbia's forests is estimated to be over one-half the total timber stand of all Canada.

To what is British Columbia's progress in forestry due? To these two things as I see it. First a very remarkable opportunity to make the provincial forests serve the provincial welfare; for while British Columbia possesses large agricultural and rich mineral resources, vast water powers and great fisheries, it is primarily a forest country. Second, after opportunity, comes the man in William R. Ross, the provincial minister of lands, who, with the strong support of the premier, Sir Richard McBride, is carrying forward wisely and vigorously a remarkably progressive, clean-cut policy of land, forest and water conservation.

This new forest branch is a distinctly vigorous infant. The toys with which it is playing happily and usefully are the forests of British Columbia. That makes quite an extensive puzzle picture, for British Columbia's forests cover one hundred and fifty million acres. This infant organization spent last year about $350,000 and took in from rentals on timber held by lumbermen under lease from the government, "royalties," which means payments for stumpage, and from miscellaneous sources, about $3,000,000, or a revenue of $6.93 per capita for the entire population of the province.

Nor is this somewhat precocious youngster interested merely in present returns. It also goes in quite extensively for forest fire protection and last year held, with a force of 320 men, the total fire damage in the entire province down to $18,354, which, to put it mildly, is distinctly ceditable to those 320 men. During the year also the forest branch completed its organization of twelve forest districts, each with a district forester in charge. It made an admirable beginning on logging inspection of 794 operations whose product aggregated one and one-third billion feet board measure, as well as great quantities of shingle bolts, piling, posts, mine props and poles. It made a notable beginning too, on permanent forest improvements, in the construction of nearly twelve hundred miles of trail and 360 miles of telephone line. To complete the tale merely of its more notable achievemenrs, the forest branch has also developed a thriving little timber sale business, which last year comprised $238,000 worth of timber sold, and a further $147,000 worth advertised for sale. When the fact is recalled that the forest branch is not yet three years old, this progress is notable in forest history anywhere.

The next task before the branch is to put forestry into effect on all timber limits with fairness to the forests and to the lumbermen. That, as Mr. Ross, the minister of lands, announced in a recent speech, is the most important task of all; and he and his forest branch are facing it. The recent act introduced by Mr. Ross for the adjustment of timber royalties is a great accomplishment. Without going into detail (for the act is available from the forest branch to any one who asks for it) I want merely to indicate what it accomplishes in fundamentals.

This act provides that royalties, now fifty cents, shall go up by fifty per cent on January 1, 1915, and there remain for five years. Then, in 1920, comes a readjustment, under which the government first determines the average mill run price of lumber for the last three years, and adds to the royalty for the next five-year period one-fourth of the excess above $18.00 per thousand feet. At the end of every five years for six five-year periods the same process is renewed, the percentage of the price increment above a price of $18.00 taken by the government in royalty, rising gradually from twenty-five to forty per cent.

This means straight profit-sharing between the public and the lumbermen. In revenue it means from forestry several times the present returns before the period of the act is ended. As a precedent it means to British Columbia true conservation, if the precedent be followed, as I firmly believe it will.

COAL NOTICES.

Omineca Land District. District of Cassiar

Take notice that Harold A. Robinson, of Vancouver, B. C., intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted about 4 miles east and 4 miles south from the southeast corner of Lot 2194, Cassiar, thence north 80 chains, 80 chains west, 80 chains south, 80 chains east to point of commencement, 640 acres, known as claim 10.

March 10, 1914. Harold A. Robinson.

Omineca Land District. District of Cassiar

HAZELTON

The Distributing Point for the Great Northern Interior

Prospectors, Miners, Landseekers, Surveyors and Sportsmen will find the merchants of Hazelton prepared to meet every requirement in outfit and supplies. Having been engaged for many years in outfitting parties for the Northern Interior, Hazelton business men are qualified to give valuable advice and assistance to newcomers.

Hazelton is situated at the confluence of the Bulkley and Skeena rivers, a mile and a quarter from South Hazelton station on the Grand Trunk Pacific railway. Enquiries may be addressed to

The Omineca Miner
Hazelton, B. C.

The World's Doings in Brief

News Notes from Many Sources

Colonel Roosevelt and his exploring party are returning from Brazil.

A bill to prohibit tipping has been introduced in the Canadian senate.

I. W. W. agitators have fomented a strike among C. P. R. graders in Alberta.

Australia will conduct an energetic campaign to secure European settlers.

The first through train over the C. N. R. from Quebec reached Toronto on May 1.

Sir James Whitney, premier of Ontario, who has been seriously ill, has nearly recovered.

The first shipment of copper, 122 tons, was made last week by the Granby Bay smelter.

One hundred labor candidates will contest British constituencies at the next general election.

Flat City, a mining camp in the Iditarod district, was almost wiped out by fire on Sunday.

Governor Goethals is planning to put a Panama railroad steamer through the canal within a week.

It is generally believed that the Dominion parliament will not prorogue until well on in June.

More than fifty lives were lost in a fire which destroyed part of the commercial section ot Valparaiso.

A suspected counterfeiter arrested in Seattle had a quantity of spurious Canadian bills in his possession.

General Daniel E. Sickles, last of the brigade commanders of the American civil war, is dead in New York.

Five were drowned on Monday when the Rock Island railroad bridge at Bridgeport, Okla., was washed away.

The bodies of many of the 172 miners emtombed in the New River colliery in West Virginia have been recovered.

A desperate battle between the Moors and a French force resulted in the defeat of the Moroccan troops on Monday.

The debate in the United States senate on the bill to repeal the Panama canal toll exemptions is likely to last for some weeks.

Federal troops have taken charge of the districts affected by the Colorado coal strike, and no further bloodshed is expected.

It is alleged that over two hundred foreigners, nearly all Americans, have been killed in Mexico in the last twelve months.

May Day demonstrations by Socialists, Anarchists and the I. W. W. kept the police of New York busy. Upton Sinclair, the author, was one of those arrested.

In a speech in London, Lord Curzon said the Marquis of Lansdowne, former governor-general of Canada, would be the next Conservative premier of Great Britain.

The Duke of Argyll, who was formerly, as Marquis of Lorné, a governor-general of Canada, died on Saturday night, in the Isle of Wight. His wife, Princess Louise, survives him. His nephew, Neil Campbell is his successor.

It is understood Liberal members of the Dominion parliament will demand an accounting by Mackenzie & Mann for money advanced them for the Canadian Northern.

Rock and dirt are still moving down the Cucarasha slide into the Panama Canal, but the engineers who have been fighting the slides are at last gaining ground. Fears that the opening of the canal, set for January, 1915, would have to be postponed indefinitely, have been set at rest.

Dr. Baughman, game warden of the Kenai Peninsula, who returned to Seward on the steamer Dora from the westward, reports that the natives at Seldovia, Homer, Port Graham and points to the westward are in a serious situation. They have no food, and many native families are actually in need. During the winter measles killed many natives.

Steamer Afire at Sea

Halifax, May 5:—An unidentified steamer, afire from stem to stern, with no signs of life aboard, was discovered 300 miles south of Cape Race by the steamship Seydlitz. The position given was latitude 41.27, longitude 51.07. The Seydlitz circled the burning vessel, but the smoke hung so heavily that the name was not distinguished.

BULKLEY VALLEY FARM LANDS FOR SALE

THESE LANDS are located close to the main line of the Grand Trunk Pacific Railway, which is being constructed through the heart of the Bulkley Valley, one of the best farming districts in British Columbia. Steel is now laid through Telkwa, and trains will soon be running from Prince Rupert to this point. There are good roads to all parts of the Bulkley Valley from Telkwa.

The Bulkley Valley is an ideal dairying and mixed farming district, with a market for all kinds of farm produce.

We own all the land we offer for sale, and can give a guaranteed title. Our lands were all very carefully selected several years ago by experts in the land business. We sell in tracts of 160 acres or more.

Our prices are reasonsonale and terms are easy. Write for full information to

LAND NOTICE.

Hazelton Land District. District of Coast, Range 5.

Take notice that Ella H. Humble, of Prince Rupert, occupation married woman, intends to apply for permission to purchase the following described lands:

Commencing at a post planted about 500 yards in a N.E. direction from the two mile post on the Copper river trail, being on an island, thence westerly following the north bank of the slough 40 chains more or less, thence northerly and easterly following the south bank of the Copper river 40 chains more or less, to point of commencement, containing 15 acres more or less.

Ella H. Humble.
J. D. Wells, Agent.
Dated 5th March, 1914. m34-42

Omineca Land District. District of Coast, Range 5

Take notice that Charles Hicks Beach, of Hazelton, B. C., occupation general agent, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the northwest corner of Lot 349, Range 5, Coast District, and being the northeast corner of the land applied for, thence west 20 chains, south 40 chains, east 20 chains, north 40 chains, to point of commencement, and containing 80 acres more or less.

Charles Hicks Beach.
April 24, 1914.

BRITISH BUDGET MEANS NEW TAXES

London, May 4:—Lloyd George in presenting his sixth annual budget faces an expenditure which is variously estimated at £205,000,000 to £222,000,000. The published figures show that the revenue falls £77,000,000 short of this year's estimated expenditure.

The national growth of tax revenues should be four or five million pounds, but it is expected that the chancellor will apply five million pounds to the relief of the local rates, and it is also suggested that he may sacrifice another three million pounds of revenue in order to secure a free breakfast table. It is generally anticipated that the income tax will be remodelled in order to make up the deficit.

London, May 5:—Lloyd George in his budget speech referred to the deficit of $20,665,000, which makes new taxation inevitable. In addition the government has decided to help some municipalities which are facing bankruptcy. This compels a readjustment of imperial and local taxation, which means an additional expenditure by the exchequer which with these and other proposals will entail an expenditure of $21,090,000. For this additional revenue it is proposed to revise the income tax and the existing tax on earned incomes under $5,500 and above $5,500 the rate will be increased so that the rate on unearned incomes will be raised to 16.

RUMORED ARRANGEMENT FOR ULSTER

Toronto, May 4:—A special cable from Belfast says:—"The government's intention is stated here to be to follow the plan of placing the present Home Rule Bill on the statute books with all convenient haste and embodying whatever settlement is arrived at in an amending bill so that the present measure will never come into force in its existing shape.

"One advantage of this program will be to save the face of the Nationalists, who will be able to claim that they have secured their main purpose and will perhaps be more ready to agree to the further terms which the Commons may require from them.

"The chief reason for this course is that the Unionists of both houses will refuse to accept responsibility for home rule.

"They will divide against it every time. The measure will be rejected by the Lords on the second reading and will be made law only through the operation of the Parliament Act.

"The Unionists will then do what they can to mitigate the mischief by getting the best possible conditions on behalf of the loyalists of Ireland, the all-important understanding to be arrived at, if possible, before the bill is presented to the King for his signature."

A Suffrage Campaign

Chicago, May 2:—Thousands of women in many of the larger cities throughout the country gave active expression today of their desire for extension of the right to vote by joining in parades, attending mass meetings and by word of mouth seeking to advance their cause of votes for women. Chicago Suffragists with a marching column two miles long claimed credit for the monster parade of the day.

Smithers Notes

(From Thursday's Review)

G. L. Hawkins was visiting Telkwa this week.

J. L. Christie was down from Aldermere yesterday.

Merrick Harvey was down Telkwa for a day or two.

George V. Copley came in from Rose Lake on Saturday.

E. M. Hoops, of Aldermere, visited Smithers on Wednesday.

Constable MacAulay came down from Aldermere on Wednesday.

Duncan Jennings, of Chicken Lake, was in town on Wednesday.

W. S. Henry returned on Monday from a business visit to Hazelton.

W. N. Clark, of South Bulkley, left on Sunday for a visit to Ottawa.

J. McGovern has returned from a vacation trip to Prince Rupert.

Mr. and Mrs. O. C. Lawson, of Seattle, were among Monday's arrivals.

Chas. Barrett, of the Diamond D ranch, was in town for the weekend.

W. R. McIntosh, of Stella, registered at the Hotel Bulkley on Saturday.

Postoffice Inspector Fletcher is expected to arrive in Smithers on Saturday.

Road Superintendent Carr spent the early part of the week in Smithers.

Mrs. E. M. Hoops, of Aldermere, returned from the coast last evening.

J. W. Morison left on Tuesday's train to visit his parents in Port Essington.

G. A. McIntyre, representing Finnie & Murray, Winnipeg, was in town this week.

J. L. Coyle, who has been spending a few days in Hazelton, returned yesterday.

A. L. Ford and family arrived from Prince Rupert on Monday, en route to Rose Lake.

Mrs. Stickney returned last Saturday, after spending a few weeks in Prince Rupert.

R. J. Graham, superintendent for Bates & Rogers, went to Prince Rupert on Tuesday.

J. M. MacCormick was a visitor in town on Monday, returning to Hazelton on Tuesday's train.

Frank A. Brown, the Rocher de Boule mining man, paid a flying visit to Smithers on Monday.

Was No Disorder

Nanaimo, May 2:—May Day and the occasion of the U.M.W.A. celebration passed off quietly. In order that the strained relations between those supporting the strike and those opposed to it should not give rise to any trouble, the authorities took extra precautions, one result of which was increasing the civil aid forces by over 150 men. The militia were little in evidence during the day, being kept in the background, but ready for any emergency.

STYLE

A matter not generally known or fully appreciated with regard to commercial printing is the fact that style, display (by which is meant typographical arrangement) and type-faces are subject to change, as in the case of clothing and other fashions. ¶ Modern printing shows a marked tendency towards the neat and plain in display with a liberal use of margin, as opposed to the old-style methods of coarse, overcrowded and over-ornamental composition. Not every printer can give you the better class of work. It is, therefore, to your interest to see that your printing is done at the most fully equipped commercial printing plant in the Northern Interior, carrying a large and high-grade stock of stationery, and employing workmen of experience and ability. The Quality Mark Printshop is
