VOL. I, NO. 11 HAZELTON, B. C. SATURDAY, NOVEMBER 11, 1911 PRICE $2.00 A YEAR

B. C. AWARDED FIRST PRIZE

Stillwell Trophy and Thousand Dollar Prize Won By Our Potato Exhibit.

BEST WHEAT EXHIBITED

British Columbia's Display Outclasses Everything Shown at Land and Irrigation Fair in New York, Carrying Off Honors and Cash from All America

(Special to The Miner)

Victoria, Nov. 9:—At the Land and Irrigation Exposition in Madison Square Garden, New York, British Columbia won the Stilwell trophy and $1000 as first prize for her potato exhibit. This success, though not unexpected, will be most gratifying to the agriculturists of the province, as the exhibit, which weighed a ton and a half and comprised sixty varieties of potatoes from many parts of British Columbia, had to compete with exhibits from all parts of the United States and Canada. The province also won the prize of $1000 in gold offered by Sir Thomas Shaughnessy for the best hundred pound exhibit of wheat at the show. British Columbia's wheat easily outclassed the United States exhibits.

It is proposed here that a selection of potatoes from the prize exhibit be sent to King George as a sample of the produce of his farthest west province.

WILL BUILD RINK

Athletic Association Proposes to Provide Facilities For Skating and Hockey

Chief among winter amusements in Hazelton is ice-skating, although devotees of the sport have heretofore been obliged to go out to Charleson lake, or to clear temporary rinks on the river. With the opening of the season the skaters of the town, most of whom are members of the Athletic association, are making plans for the construction of a rink, and if their project is carried out will be able to enjoy their exhilarating pastime without the inconveniences of past seasons.

At a general meeting of the Athletic association, held in the reading room on Thursday evening, it was unanimously decided to undertake the construction of a rink close to town, the association being fortunately possessed of a surplus sufficient to defray a considerable part of the necessary expense. G. O. Graham was chairman of the meeting, which was attended by a majority of the members. When the proposal to devote the funds of the association to the construction of a rink was made there was not a dissentient voice, the members being enthusiastic in their support of the plan.

A committee consisting of Rev. D. R. McLean, Arthur Skelhorne and A. C. Aldous was appointed to consider ways and means and report to the association at an adjourned meeting to be held this evening.

At tonight's meeting the location of the rink will be decided upon. It is probable that the athletic ground will be chosen as it affords room for a rink on which hockey can be played, and is an excellent location if the cost of making a rink does not prove too great.

Ministers Return

Ottawa: Hon. Messrs. McBride, Bowser and Ross left for the west today. They express themselves as satisfied that full justice will be accorded British Columbia when Premier Borden takes action on the claims of the Province.

House Will Open On Thursday Next

Ottawa, Nov. 10:—The official announcement of the opening of the House of Commons on November 16 has been made. The members will be sworn in on Wednesday, the fifteenth. A new carpet has been laid in the chamber, and, in accordance with custom, a new chair is provided for the speaker-designate, Dr. Sproule. There is unexampled activity in all departments, in view of the reorganizations which are expected. On good authority it is stated that the government is favorably disposed toward the Georgian Bay canal project, and a sum of substantial proportions is likely to be placed in the estimates for the canal.

C. N. R. MAKES PROGRESS

President Mackenzie Declares Its Trains Will Run from Coast to Coast Before End of 1913

Toronto, Nov. 9:—Sir William Mackenzie, interviewed here on his return from an extended trip over the Canadian Northern, said that in two years that railway will be running from coast to coast. By December, 1913, the entire line now under construction from Edmonton to Victoria will be completed. Sir William met Hon. Richard McBride and Hon W. J. Bowser in Chicago, their parties traveling to Toronto in a special train.

Canadian Northern reports just compiled show the completion of over a thousand miles of new track this year in Saskatchewan and Alberta. On the new line from Edmonton to Calgary grading is completed throughout and rails will be laid into Calgary early next year. Sixteen thousand seven hundred men are now employed on construction work on the various divisions of the road, the largest party being in British Columbia, where three thousand men are at work.

Carlson Seeks Compensation

About two years ago J. A. Hampton and Frederick Carlson were injured by a blasting accident while removing obstructions from the bank of the Bulkley on Hampton's ranch in Pleasant Valley. Carlson, who lost his eyesight, has entered suit at Vancouver, claiming $10,000 damages from Hampton, on the ground that the accident was the result of defective explosives being supplied. At the time it was stated that dynamite which had been placed under a stump had failed to explode when expected, and that the men had just reached the stump to investigate when the delayed explosion took place.

A Quick Round Trip

Andre Jager-Schmidt, a Paris journalist, has succeeded in officially completing a circuit of the world in 38 days, 19 hours, 43 minutes and 37 4-5 seconds. Jager-Schmidt started from Paris in an attempt to beat the record of M. Stiegler, of the Paris Matin, who made the journey around the world in 63 days.

WAR'S WIDE DESOLATION SPREADING OVER CHINA

Terrible Massacres Reported in Nanking---Cities Burned and Devastated by Imperial Troops and Revolutionaries---Hundreds of Thousands Destitute and Homeless---Rebels Are Gaining the Advantage.

Peking, Nov. 10:—The rebellion continues to spread throughout China, the revolutionaries continuing to gain ground. The city of Fu Chow is in the hands of the rebels, who have wiped out the entire population of the Manchu district, but did not disturb the foreign settlements. The city, which has a population of 700,000, is threatened with a scarcity of provisions, owing to the demoralization of trade in the district.

A condition bordering upon anarchy exists in various parts of Hunan province, which contains many missionaries and other Europeans.

As a result of the severe fighting at Hankow, two-thirds of the city has been laid waste by fire. Besides the large loss of life, the property loss is over $60,000,000 and 400,000 inhabitants are homeless and destitute.

The situation in Peking is quiet, but great anxiety is felt. Gold bars to the value of $30,000,000 have been removed from the palace to the European banks in Hong Kong and Shanghai.

Thousands Slaughtered

Nanking, Nov. 10:—This historic city lies tonight in the shadow of Manchu butchery, the scene of fire, rapine and desolation. In the last two days thousands have been slaughtered, the massacre being unrivalled in modern history. Thousands of Manchu and Imperial troops hold the high land about the city, making constant attempts to drive out the rebel forces which are in possession of the city. Ninety thousand of the inhabitants escaped before the battle. Among those who remained there was frightful slaughter. Unarmed citizens, the aged, and women with babes in arms were butchered.

New Maps Ready

Landseekers may now obtain, at the government office here, copies of the pre-emptors' maps recently issued by the provincial government. These maps, which are calculated to be of great use to intending pre-emptors, show the lands already alienated and those which are open for location in the various districts of the northern interior. Map No. 1 includes parts of the Fort Fraser and Fort George land recording districts, and shows the valleys of the Nechaco and Stuart rivers. No. 2 covers the Blackwater and Nazco rivers, lying partly in the Fort Fraser, Fort George and Cariboo districts. No. 3 shows the lands of the upper Fraser, the Salmon and Willow rivers, in the Fort George and Peace river districts. Sheet No. 4 deals with the Francois and Ootsa lake country, taking in parts of the Hazelton and Fort Fraser land districts.

Duke to Visit Coast

Ottawa, Nov.10:—The Duke of Connaught has promised Premier McBride of British Columbia that he will visit that province early next summer. His Royal Highness stated that he had a lively and pleasant recollection of his visit to British Columbia in 1890.

Hon. J. D. Hazen, minister of marine and fisheries, has assured Attorney-general Bowser that he will visit the Pacific coast in July, to look into provincial matters in which his department is interested.

The Debating Club

A plan which provides for fortnightly debates during the winter, with alternate open meetings to which ladies will be invited, has been prepared by the executive committee of the Hazelton Debating Club, and will be submitted to a general meeting of the club on Wednesday evening next. An active interest in the new organization is being taken by many of the young men of the town, and there is no doubt the club will be of benefit to its members.

Canada's Bar Bill

Ottawa, Nov. 9:—Canada's consumption of liquors and tobacco shows a marked increase for the past fiscal year. The per capita consumption of spirits was .859 gallons, against .815 gallons in 1910. That of beer was 5.434 gallons, as against 5.276 gallons; that of wine .104 gallons, against .097 gallons, while the tobacco used increased from 2.940 pounds per capita to 3.011 pounds.

The total quantity of tobacco smoked was 18,903,322 pounds, against 17,961,279 pounds in 1910 and 17,217,710 pounds in 1909. The cigarettes smoked reached the enormous sum of 585,935,370 against 451,095,138 in 1910 and 356,756,130 in 1909. The cigars smoked numbered 227,585,692 as compared with 205,820,851 in 1910 and 192,105,371 in 1909.

New Timber Policy

(Special to The Miner)

Victoria, Nov. 10:—Hon. Richard McBride, now at Ottawa, has stated that the session of the local legislature, which will open in January, is likely to be a short one. Hon. W. R. Ross, who is also in the Federal capital, is preparing a new timber policy, which is likely to be the most important measure before the house at the coming session.

"First-to-Hazelton" Bicycle

Though he performed the feat without the aid of a press agent, Marcus Levy, a cigar salesman who rode the "First-to-Hazelton" bicycle, arriving here from the end of steel on Tuesday, accomplished something worth while. The pioneer cyclist has to his credit a still more remarkable trip, having ridden his bicycle over the river ice from Dawson to St. Michael, in the days of the Nome excitement. The distance is 1800 miles, and Levy's time was less than twenty days.

Quintuplets Born

Senora Rodriguez, wife of Don Francisco Rodriguez, a prominent merchant of Costa Rica, gave birth to five sons a few days ago. The attending physician believes that the quintuplets will live.

Balfour Retires

London: Hon. A. J. Balfour has resigned the leadership of Unionist party. Bonar Law, who is a Canadian by birth, may be chosen as his successor. Others mentioned are Austin Chamberlin, W. W. Long and F. E. Smith.

Will Not Interfere In Chinese Revolution

London, Nov. 10:—The Premier, speaking at the Lord Mayor's banquet, on the foreign policy of Great Britain, said the peaceful settlement of the Moroccan question was a great relief to Europe, removing what was perhaps the greatest obstacle to the smooth working of European diplomacy. Referring to the crisis in China, he said: "We have no desire to interfere in China's internal affairs." It is announced that the government will restrict its course to the protection of the lives and property of its subjects.

PRINCE WAS INDISCREET

Heir to German Throne Embarrasses Government Applauding Criticisms of Peace Policy

Berlin, Nov. 10:—While the debate on the Chancellor's settlement of the Franco-German dispute over Morocco was in progress in the Reichstag, the Crown Prince caused a sensation by openly applauding criticisms of the peaceful policy advocated by the government. His attitude has caused a storm of press protests. The Emperor's advisers fear that the impression will be given abroad that the heir to the throne is heading the German war party.

The Chancellor, in defending the proposed treaty, answered accusations of weakness by declaring that German prestige rebuked those who demanded a display of the German fist.

A considerable portion of the press expresses amazement that the Chancellor did not resign as a consequence of the demonstration made by the Crown Prince.

King and Queen Sail To-day

London, Nov. 10:—King George and Queen Mary will sail for India tomorrow on the specially commissioned steamer Medina. Four first class cruisers will serve as escort on the voyage, which will be via the Cape. Their Majesties will make their state entrance into Delhi, the scene of the coronation durbar, on December 7. The most brilliant pageant in the history of modern India has been arranged for the occasion.

High Silver-Lead Values

Evidence of the value of the number two vein on the American Boy group, which is now being developed by tunnel, is to be found in the returns received from an average assay of a piece of surface ore weighing 141 pounds, showing values of 652.4 ounces of silver and 41.4 per cent lead, or $384.15 in all. Carbonates from the same vein assayed $125.63, all values. The shaft on number 3 vein is being sunk at record speed, having a depth of 67 feet on Thursday. An average of the silver and lead contents of the vein at a depth of 55 feet is $70.47. The vein shows the satisfactory width of two and a half feet.

MINISTERS AT THE CAPITAL

Many Disputed Matters Under Discussion with Borden Cabinet at Ottawa.

MAY NAME COMMISSION

In Addition to Re-opening Question of Better Terms, British Columbia Asks for Control of Peace River Lands and Railway Belt — Asiatics and Fisheries

Ottawa, Nov. 10:—Premier McBride, of British Columbia, Hon. W. J. Bowser and Hon. W. R. Ross have had conferences with Hon. R. L. Borden and his colleagues on various subjects affecting the western province, in pursuance of the objects of their mission. The result is not likely to be announced for some time. The chief questions under discussion are: better terms or a larger subsidy from the Dominion; better regulation of Asiatic immigration; administration by the province of Peace river lands and lands within the Canadian Pacific railway belt; definition of the province's reversionary rights in Indian reserves; efficient fishery protection cruisers and more harbor and river improvements.

Mr. McBride, when interviewed, said: "Mr. Borden in prior conferences has favored the appointment of a commission to enquire into British Columbia's claims. How the commission is to be appointed is for Mr. Borden to decide. We have every confidence in the result, looking for an early settlement by the Borden government of all outstanding questions. At a conference six years ago with Sir Wilfrid Laurier, British Columbia, on the question of better terms, was given one hundred thousand dollars yearly for ten years. Sir Wilfrid added the clause 'final and unalterable'; but on appeal the colonial secretary, in the Imperial house, made it plain that British Columbia could re-open the question at any time desired."

GERMANY WAS EAGER

Massed Her Troops on Belgian Frontier In Expectation of War with France

It is rumored in Brussels military circles that the French government is making confidential inquiries as to the truth of a report that several weeks ago, when the Franco-German dispute over Morocco appeared at its worst, the Germans had collected at their military camp at Elsenborn, on the Belgian frontier, over 1,200 motors and motor-busses. These, in case of war, could have rushed into Belgium thousands of men, with their ammunition, within a few hours. The object, of course, would have been to constitute an advanced guard, which would have protected from destruction by the Belgians the railroads leading to the least protected part of France, and would have been used to convey thither one or two German army corps.

The object of the French inquiry is to prevail upon the Belgian government to secure its territory against such an event in case of an outbreak of hostilities later on.

J. C. K. Sealy came down from his ranch on Tuesday, to spend a few days in town.

VOL. I. SATURDAY, NOVEMBER 11, 1911. No. 11.

Settling the Townsite Question

It is announced this week that the final agreement between the Grand Trunk Pacific and the Natural Resources Security company, providing for the establishment of a railway station and yard on the South Hazelton townsite, has been signed and registered. This undoubtedly means the immediate beginning of development work on the townsite which Hazelton people are inclined to regard as the coming location of the town. Lot 851, on which the station is to be located, is just a mile and a half from the business center of the present town, so that the construction of a bridge over the Bulkley river is the only requisite for communication. The yards, it is stated, will be laid out partly on lot 851 and partly on lot 852, a little upriver from the station. This situation is calculated to provide the most central location for the large town which will be built up by the development of the great mineral and other resources directly tributary to Hazelton, and the fact that the Natural Resources Security company, an ably managed concern of wide influence and possessing unlimited financial resources, is to have the management of the townsite, is a guarantee that an aggressive campaign for the development of the coming city will be maintained until the new Hazelton is firmly established.

There is no town of its size on the Pacific coast which has the same volume of business as Hazelton. The merchants of this place annually turn over stocks aggregating a million and a half; thus it will be readily seen that the combined towns of Hazelton and South Hazelton require only proper management to ensure a growth commensurate with the rapid development of the district.

The title to lots in the new townsite is vested in the Grand Trunk Pacific Development Co., the holding company owned by the G. T. P., through which the railway handles all its lands; assurance being thus given that South Hazelton is the official location of the permanent town. The local agents for the townsite state that on the arrival of the necessary maps, which are expected daily, the work of clearing will begin, and the opening up of the townsite will proceed without delay. The announcement of the program for the exploitation of the new town, which will doubtless include wide advertising for the district, will be awaited with interest by the business people of Hazelton, who now see a good prospect of the settlement of the townsite question for good and all.

Their Good Work Appreciated

The work carried on by the Y. M. C. A. among the men employed on the construction of this section of the Grand Trunk Pacific stamps that organization as one of the most active and useful religious bodies of the day. Making the center of its activities in this district at Skeena crossing, where a large number of men employed, the association is exerting a most beneficial influence over men who could be reached by no other means than those adopted. Commodious club rooms, affording every practicable facility for rest, recreation and mental and moral improvement, are always open to the men, at nominal cost, and without oppressive restrictions, and are appreciated and much used by the railroaders in the vicinity. A large share of credit is due to Secretary W. H. Morrison, whose energy and ability have made for the success of the work, and to the men whose liberality supports the railway branch of the Y. M. C. A.

To Protect Game and Preserve Forests

The government of the Dominion is looking after the preservation of its game, and incidentally the conservation of natural forests. Canada has already some magnificant reservations east and west. It is now about to enter on the creation of a new one on a scale commensurate with present apprehension of its growth and prosperity at home and abroad. One of the largest game preserves in the world is to be created by the dedication of practically all the land along the eastern slope of the Canadian Rockies. This tract will be forty to fifty miles wide and will extend north and south for a distance of no less than 500 miles. All the precautions usual in Canada are to be taken with a view to the protection of the timber from fire. The reservation is to be in effect a great storage and supply district for native birds and animals. The regulations governing the reserve will also provide a sanctuary for fur-bearing animals, which in many districts contiguous to that in question are in danger of practical extinction.

Clements Does Not Favor Asiatics

Before leaving for Ottawa, H. S. Clements, the new member for Comox-Atlin, who had just completed a tour of a large part of his big constituency, stated in Victoria that it was his intention to press for better postal and telegraphic facilities for the district. He has taken his stand with Premier McBride on the Asiatic question. Speaking of the fisheries question, he said:

> "I have just returned from a trip along the northern coast and I am much impressed with the vital need for a more adequate fishery protection service. The few small cruisers which have been operated heretofore are grotesquely inadequate and the matter is one which must receive immediate attention. I have no hesitation in saying that millions upon millions of dollars have been lost to the assets of Canada through the failure of the government to take measures for the protection of the fisheries in this province.
>
> "Speaking as a representative of the one constituency in the province which has more largely to do with the fishing industry than any other, I may say that I am utterly opposed to any policy which will aid aliens in getting a further predominant hold upon that industry. I well appreciate the disadvantages under which the cannerymen and other operators work, especially in regard to labor, but we must encourage the employment of whites as far as possible. Personally, I will not agree to the issuing of more licences to Japanese fishermen either now or in the future, whether these licences be for herring or salmon or otherwise."

We believe the people of this district may congratulate themselves upon having returned an agressive member of parliament, who holds views which will commend themselves to nine out of ten of the white men residing in Comox-Atlin, and who has the energy to get out and fight for his principles.

Japs Control Fisheries

In a speech at Vancouver, H. H. Stephens, M. P. for that city, charged that the coast and deep-sea fishing in this province was controlled by a Japanese secret society, pledged to promote the interests of the members to the detriment of white fishermen, and that they have instituted an almost complete monopoly of the fishing industry in this province.

Mr. Stevens stated that this society is now over 10,000 strong and that it includes almost every Japanese resident in the province interested in any way in the fishing industry. It has its headquarters at Steveston, he said, where a meeting was held by the member last Tuesday night. He further stated that one of the articles of the association's constitution was that death shall be the penalty for any member who betrays the secrets of the organization.

In conclusion, Mr. Stevens appealed to the people of the province to awaken to the full significance of the fisheries question in British Columbia.

Game Warden's Plans

Although British Columbia is one of the finest game preserves in the world and possesses a climate quite as even as prevails the year round throughout the British Isles, few birds of the songster variety are to be found in any portion of this section of the Dominion, a fact realized by very few, according to a statement made by Bryan Williams, provincial game warden, to the Vancouver Province. Mr. Williams has a plan on foot for importing several hundred of these birds from Great Britain with a view to acclimatizing them to this part of the world.

"Generally speaking there is very little difference in the climate of British Columbia and that prevailing in most parts of England," said Mr. Williams. "But it is a curious fact that if you travel in almost any part of the province you will not find any birds of the songster species worth speaking about. Of course we have one or two varieties but they are not to be compared with those to be found in Great Britain. In almost any part of England if you take a walk through the woods you will hear the beautiful song of the blackbird, the thrush, the finches and many other species of birds singing in the trees."

Continuing, Mr. Williams said the suggestion to import several hundred birds from Great Britain had been made by several prominent bird enthusiasts in different parts of the province and the matter will in all probability be laid before the department for consideration.

The proposal of the provincial government to import several head of red deer from the old country but which was turned down by the Dominion government during the past year, is to be revived. During the visit of Hon. W. J. Bowser to Ottawa, the matter will again be brought up and an attempt made to have the question satisfactorily settled.

It is the intention of the provincial game warden's office to import about thirty head of hinds and stags to be placed on the government's farm at Coquitlam where preparations have already been made for housing them.

These preparations were made by the government before the refusal of the federal authorities was met with. The Dominion government refused to allow the importation of red deer on account of the prevalence of foot and mouth disease among the sheep in Great Britain.

Advocates Lease System

Quoting the United States supreme court to support his contention that in undertaking railroad construction the government is, in effect "simply resuming one of its own proper functions," and not invading the legitimate domain of private enterprises, Secretary of the Interior Walter N. Fisher, in an address before the American mining congress at Chicago, suggested government ownership and the operation of mines and transportation facilities in Alaska on a limited scale.

He declared, however, that direct government operation, including the mining and sending of coal, involved such deep and far-reaching changes, both of policy and of administration, that there was no likelihood at the present time of its adoption to the exclusion of private operation, and that while much can be said in favor of the government entering experimentally into these fields, he did not believe in the policy of having the government alone own and mine Alaskan coal.

The secretary expressed opposition to the policy of selling coal lands outright, saying he believed that the leasing system avoids controversy and both extremes of public and private ownership. Therefore, he suggested, government ownership and the operation of a limited number of properties as an example to private ownership and to regulate the latter by competition and the leasing of other fields under fair government regulations.

F. N. Guiterrez and Gumesindo Valenzuela were tried at Los Angeles and convicted of counterfeiting. Secret service officials declare the men to be the cleverest and most successful counterfeiters that ever operated on this coast. From papers seized in Velenzuela's room it appears that he was the treasurer of the Los Angeles Junta in charge of the insurrection in Lower California. This junta collected money from Mexicans for their cause. In place of the good money counterfeits were substituted with the result that great sums of bogus money were sent into Mexico to finance the insurrection.

Production of gold in the United States decreased $3,400,000 and silver increased $1,300,000 during the calendar year 1910. These official estimates were announced Monday by the mint bureau and the geological survey. The most notable features were a decrease of $4,000,000 in the production of placer gold in Alaska and an increase of more than $2,000,000 from the gold mines of Nevada, which produced a new record for recent times. The total gold production of the United States and its possessions was $96,000,000, silver $56,000,000.

News Notes of General Interest

Vancouver proposes to establish a municipal home for the aged.

Five hundred delegates are expected to attend the provincial Conservative convention at New Westminster, opening Nov. 20.

The first run of the York Dredging company's plant, which is working placer tin deposits at Cape York and which has been in operation less than a month, produced seventy tons of placer tin, valued at $500 a ton.

A despatch from Peking reports that the revolutionists have outflanked the imperialists 180 miles north of Hankow. The rebels, according to the despatch, captured the government's war chest, containing 1,500,000 taels.

Sir William Mackenzie, Sir Edmund Walker and Sir Henry Pellatt, prominent Toronto capitalists, have become associated with the Duke of Sutherland in his plan for settling Scottish and English families in British Columbia.

Figures obtained from the immigration department this week show that 33,612 harvesters were brought into the west by railroads to garner the crops. Of the total, the C. P. R. carried 22,427. The total figures establish a new record.

The total grain marketed at Canadian Pacific points this year, has passed the thirty million bushel mark. The Canadian Northern has marketed seventeen million bushels, which brings the total shipments of both companies up to 47,000,000.

There is an unlimited market for British Columbia herring in the Orient. Last year Shanghai merchants placed orders for $1,000,000 worth in gold, but owing to the partial failure of the catch only secured 10,000 of the 40,000 cases they required.

The provincial tax commission has completed the work of investigating the taxation system of the province, and is now engaged in preparing a report of its proceedings and conclusions for transmission to the legislature, which will probably pass amendments to existing tax laws at the coming session.

The Isthmian Canal Commission has received bids for the purchase of more than 100,000 tons of junk including abandoned locomotives, dredges, dump cars, machinery and tools, the lot comprising the last remnants of the millions of dollars worth of equipment sent to the Panama canal by the French engineers years ago.

The new Oxford English Dictionary will contain, it is said, 400,000 words and an immense amount of information. It is interesting to learn that there are in Webster's Unabridged only 100,000 words, and that the learned Dr. Johnson declared that a much smaller number was sufficient for the English scholar.

The correspondents of the London Times and other English papers at Tripoli have been reporting by way of Malta that the affair at Benghazi was much more serious than the Italian censorship had permitted to be made known. The writers estimate the casualties among the inhabitants resulting from the bombardment by the Italian fleet at 4,000.

The Montreal Chamber of Commerce has issued a report recommending that the Canadian government should make representations to the imperial government so as to gain consent to the recognition of the right of colonial governments to appoint consuls abroad, or so to enlarge their own consular system as to admit colonial representatives.

The Canadian Locomotive company has made a contract with the G. T. P. for twenty-five large type locomotives. With the present capacity of seventy-five locomotives a year, this means a relatively very large order, and even with the enlarged shop it will keep the plant operating for at least two months. The cost of the engine produced by the company runs from $14,000 to $24,000, and as the twenty-five ordered by the G. T. P. are the largest type, the price will probably range close to the greater figure.

On September 30 in Scotland, Walter Knox, the Canadian professional athlete, won the 100-yard dash in 10 1-5, the pole vault with 11 feet, the shot-put with 44 feet, the standing jump with 4 feet 9 1-2 inches, the standing hop, step and jump with 31 feet 4 inches, and was second in the hammer and broad jump. In his British tour just ended Knox won 57 firsts, 23 seconds, 3 thirds, and 4 fourths.

The Central hotel, Goddu Bros.' grocery and the old Klondike hotel at Trail were destroyed last week by a fire which spread so rapidly that residents of the hotels and the rooms over the store were forced to escape in their night clothes. It is estimated that the loss is $10,000 with $3800 insurance. The cause of the fire is a mystery, though it is believed to be the work of an incendiary.

Coal War Predicted

The American Mining Congress in session at Chicago, adopted resolutions endorsing the deep waterways movement, recommending the passage of an equitable workmen's compensation act and urging a modification of the Sherman Act to permit reasonable agreements between coal operators.

A prediction of industrial warfare in the coal mining industry next spring was made by D. W. Kuhn of Pittsburg in a paper read by J. W. Wardrop of Pittsburg. The paper read:

"For the last four years the coal operator has met every condition the country sought to put on him and he has failed. The losses from operations cannot be continued longer and the crisis is at hand.

"In my opinion, next spring, at the period of wage settlement with the miners over the country, there will begin one of the worst industrial warfares this country ever has witnessed. It will have a feast of competition. The consumers of fuel will compete with one another for coal when there is no coal to be had.

"The miner will compete with the operator, pitting his stomach against the endurance of the operator—an endurance of despair.

"And if it does come, the blame, the vengeful blame of the people will be placed where it belongs—on the government and on the weakling coal operators for the blind and indifferent course of the one and irresolute weakness of the other."

CANCELLATION OF RESERVE.

Notice is hereby given that the reserves established over vacant Crown lands in Ranges 4 and 5, Coast District, by notices bearing dates respectively of December 17th, 1908, May 5th, 1910, and May 25, 1910, which were published in the British Columbia Gazette in the issues of December 17th, 1908, May 12th, 1910, and May 26th, 1910, are cancelled in so far as the same relates to the lands surveyed as Lots 387, 388, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 1111, 1112, 1113, 1114, 1115, 1116, 1117, 1118, 1119, 1120, 1121, and 1122 all in range 4, Coast District; and lots 4028, 4029, 4030, 4031, 3022a, 3030, 3031a, 3043, 3044, 3594, 4933, and 4934, all in range 5, Coast Distric t.

Lands Department. R. A. Renwick,
Victoria, B. C. Deputy Minister of Lands.
October 11, 1911.

CANCELLATION OF RESERVE.

Commencing at a post planted one-quarter mile east of the east bank of Moss river and one-quarter mile north of the Skeena river, at the south-east corner of Lot 2195, Cassiar district; thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 1. Fred Hasler.
Sept. 16, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted at the southeast corner of lot 2196, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 2.
Sept. 16, 1911. Fred Hasler.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted at the southeast corner of Lot 996, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 cres more or less, known as Fred Hasler's coal claim No. 3.
Sept. 16, 19I1. Fred Hasler.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted at the south-east corner of Lot 2179, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement. containing 640 acres more or less, known as Fred Hasler's coal claim No. 4.
Sept. 16, 1911. Fred Hasler.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 2195, Cassiar district, thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 5. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 2196, Cassiar district, thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 6. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the south-east corner of Lot 996, Cassiar district, thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 7. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the south-east corner of Lot 2I79, Cassiar district, thence 80 chains north, 80 chains west, 80 chains south, 80 chains east to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 8. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 2I95, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres, more or less, known as Fred Hasler's coal claim No. 9. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 2I96, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. I0. Fred Hasler.
Sept. I8, 19II.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intend to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 996, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. II. Fred Hasler.
Sept. I8, I9II.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted three miles east of the south-east corner of Lot 2195, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 14. Fred Hasler.
Sept. 19, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted two miles east of the southeast corner of Lot 2179, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 12. Fred Hasler.
Sept. 18, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a licence to prospect for coal and petroleum over the following described lands:

Commencing at a post planted three miles east and one mile south of the south-east corner of Lot 2195, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 13.
Sept. 19, 1911. Fred Hasler.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted three miles east of the southeast corner of Lot 2196, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement. containing 640 acres, more or less, known as Fred Hasler's coal claim No. 15. Fred Hasler.
Sept. 19, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted three miles east of the southeast corner of Lot 996, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 16. Fred Hasler.
Sept. 19, 1911.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intend to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted four miles east and one mile south of the south-east corner of lot 2195, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 17.
Sept. 19, 1911. Fred Hasler.

Omineca Land District. District of Cassiar.

Take notice that Fred Hasler, of Vancouver, miner, intends to apply for a license to prospect for coal and petroleum over the following described lands:

Commencing at a post planted four miles east of the south-east corner of Lot 2195, Cassiar district, thence 80 chains north, 80 chains east, 80 chains south, 80 chains west to point of commencement, containing 640 acres more or less, known as Fred Hasler's coal claim No. 18. Fred Hasler.
Sept. 19, 1911.

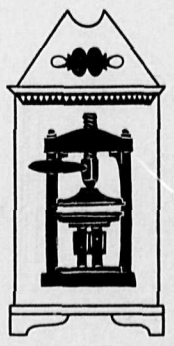
Commercial Printing



Commercial Printing

JUST A WORD ABOUT PRINTING

There is no business that cannot be made more profitable by well conceived printing. Let us produce the kind of printed matter that you need---the distinctive, effective kind---the kind that talks. We have an up to date plant and do ***printing of the better sort.***

Cards, letterheads, envelopes, statements, billheads, hand bills, time checks, pamphlets, wedding and society stationery, etc.

The Miner produces the best class of work. Located opposite Government Office

Subscription Price $2 Per Year. Write for Our Card of Advertising Rates

FUNDS NEEDED

Public School Requires Money To Meet Winter Expenses

The trustees of the public school have asked for voluntary contributions for school purposes, the sum of $100 being required to pay liabilities and provide fuel and other necessaries during the winter. The people of the town pay no school taxes and are only required to meet running expenses, as the provincial government pays the salary of the teacher, and the schoolhouse, owned by the Hudson's Bay Co., is given rent free.

R. S. Sargent, secretary of the board, will be pleased to receive subscriptions, which will be acknowledged in the Miner.

BOOKS

We have the largest stock of books in town. Very good class too. Our magazines are always new and are arriving regular. Office stationery, cameras, toys, photo supplies, etc. Out of town customers try us with a mail order.

Omineca Photographic Co.

Latest Jewelry Novelties in Gold and Silver. High grade watches. Watch Repairing.

HAZELTON HOSPITAL ISSUES TICKETS for any period from one month upward at $1 per month in advance. This rate includes office consultations and medicines, as well as all costs while in the hospital. Tickets obtainable in Hazelton from E. C. Stephenson and Fred Field; in Aldermere, from Rev. F. L. Stephenson, or at the Hospital from the Medical Superintendent.

DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given that the partnership lately subsisting between us the undersigned, Allan Cameron Aldous, Struan George Robertson and William Pitt Murray, carrying on business at Hazelton, British Columbia, has been dissolved as from 31st August by mutual consent, so far as regards the said Struan George Robertson, who retires from the firm.

All debts due to or owing by the late firm will be received and will be paid by the said Allan Cameron Aldous and William Pitt Murray, who will continue the said business under the present style of Aldous & Murray.

As witness our hands this 1st day of October, 1911.

ALLAN CAMERON ALDOUS.
STRUAN GEORGE ROBERTSON.
WILLIAM PITT MURRAY.

HARRIS MINES, LTD.

Non-Personal Liability

The management of Harris Mines, Ltd. propose to open up the 100 foot level on No. 2 and 3 veins this winter. This will open up large bodies of high grade ore for shipment when rails are laid.

This property will make a mine and a big one. You will make no mistake in buying the treasury shares. The shaft on No. 3 vein is now down over 40 feet.

Go out with us and have a look for yourself.

Rosenthal, Harris & DeVoin
Selling Agents for the Company
HAZELTON, B. C.

Local and Personal

George Swan is going to the coast cities for the winter.

Edward Murphy, of Aldermere, has returned from a visit to the prairie provinces.

Mrs. J. E. Kirby entertained a number of friends at a whist party on Tuesday evening.

A. D. Mackay, who has been prospecting on Hudson Bay mountain, came in on Thursday.

Chief Constable Wynn has returned from a visit to Aldermere and Telkwa, on official business.

A special meeting of the Conservative association will be held in the school house on Monday evening,

James Latham is on his way to Prince Rupert and Vancouver, on business connected with his coal interests.

W. J. Sweeney is on his way to Fourth Cabin where he will hold down a position on the telegraph line.

Pete Carr came in from the Bulkley on Tuesday. He will leave in a day or two for a visit to Ontario.

Constable Sam Calkins, of the local force, has been transferred to the Bulkley valley, with headquarters at Aldermere.

F. A. Brown was in from the Rocher de Boule group during the week, procuring supplies and engaging additional miners.

Gus Timmermeister, who has been in charge of McDonell & McAfee's warehouse, has gone to Aldermere for the winter.

Constable Belson left for the coast on Tuesday, taking Peter Pavich down to serve his six months sentence at New Westminster.

The second dance of the season, held in the auditorium last night, is to be counted as another success to the credit of the Assembly club.

In a few days W. A. Ferguson will open a bunkhouse and cigar store at New Hazelton, occupying the building recently erected by J. A. Hodder.

Pete Carr came in from the Valley early in the week. He will leave in a day or two for Toronto, where he intends to resume his studies.

A new travelling library has been sent to Aldermere by the provincial government, the one formerly at that point being sent on to South Bulkley.

While there is no actual scarcity of cordwood in Hazelton, the supply is likely to be limited until sleighing begins. Dry birch is now selling at $12.00 a cord.

The ice on Charleson lake is now in excellent condition, and skating parties are the regular thing. On Wednesday evening a large crowd went out from town for a skate in the moonlight, and had a splendid time.

W. N. McLean, of the G. T. P. engineering staff, who is stationed at residency 22, Mission point, will leave next week for an extended vacation trip, in the course of which he will visit his Scottish home.

Ice in Kitseguecla canyon held the mail canoe at Skeena crossing on Wednesday, and it was found necessary to portage the mail to Sealey. This is unusually early for the formation of ice in this part of the river.

The winter train schedule on the first section of the G. T. P. went into effect last Monday, and trains now leave Prince Rupert only on Wednesdays and Saturdays, returning from Van Arsdol on Thursdays and Sundays at 4 p. m.

O'Neill & Larocque succeeded in making the necessary repairs to the shaft of the Kit-ex-chen, and taking advantage of the rising water, brought the launch up from Meanskinisht in a day and a half, arriving at noon on Monday. The boat has been hauled out, and is now ready for shipment to the upper Bulkley, where she will be operated next season.

L.L. DeVoin returned on Thursday from a visit to his ranch near Chicken lake. He states that a great many settlers have taken up land in that vicinity and the district promises to prove one of the most prosperous in the Bulkley valley.

The cold weather has somewhat retarded the work of widening the bridge over the Bulkley, which may not be open for traffic before Monday. The necessary interruption of communication with the Bulkley valley has had a noticeable effect on the business of the town.

W. S. (Duke) and Hugh Harris will leave tomorrow for a visit to their home in Vancouver. "Duke" will go on to Spokane and Idaho, having placer mining interests in the latter state which require his personal attention. He expects to return about Christmas.

Dr. and Mrs. Wrinch and the ladies of the hospital staff entertained a large party of their Hazelton friends on Monday evening. The occasion being Guy Fawkes' night, a large bonfire, around which the hospital people and their guests gathered, was a feature of the pleasant function.

The sub-office of the Union Bank, which is to be opened at Taylorville as soon as the contractors finish the building, will be in charge of E. B. Tatchell, who arrived from Prince Rupert early in the week. Mr. Tatchell and R. T. Bishop, his assistant, walked up from the railhead.

The unusually severe frosts of the last few nights, though inconvenient in some respects, have had a good effect on the roads, which are no longer muddy, and which will provide a splendid foundation for sleigh-roads when the snow comes. Last year the snow came before the ground was frozen, with the result that sleighing was not good until late in the season.

Blasting operations on the Canadian Northern line, which parallels the C. P. R. west of Ashcroft, are responsible for the demoralization of the telegraph service this week. For several days the officials of the government lines have found it necessary to send much of the business between Vancouver and Ashcroft by mail. That they have managed to give reasonably good service is, in the circumstances, worthy of note.

One of the auxiliaries of the Presbyterian church in Hazelton will be a Ladies' Aid society, which was organized on Wednesday at a meeting held at the home of Mrs. Isidore Anger. Ladies attending the Presbyterian church are all invited to become members of the society. The following officers have been chosen: President, Mrs. Carey; vice-president, Mrs. Sawle; secretary-treasurer, Mrs. Cameron; organist, Mrs. McLean.

On Tuesday Government Agent Allison returned from his official visit to the Bulkley valley. He had nothing to say as to the result of his investigation into the conflicting surveys; but stated that the valley communities are more prosperous than ever, conditions being greatly improved in every respect since his last visit. He went up as far as the Diamond D ranch, where, with Charles Barrett, he enjoyed a day's excellent sport with the gun, securing a good bag of grouse.

Hockey prospects for the coming season are bright. The local club is preparing for a busy season, with the prospect of matches with a Bulkley valley team as well as their rivals of the G. T. P. engineering corps. A skating and hockey club has just been formed in the Bulkley, and it is intended to build a covered rink at Telkwa. The officers of the new club are: R. J. McDonell, honorary president: Rev. F. L. Stephenson, president; Dr. A. H. Wallace, vice-president; R. L. Gale, treasurer; D. K. Treffry, secretary.

It is stated that a compressor plant has been secured for the Rocher de Boule group in Juniper Basin. Superintendent Frank Brown is having a sleigh road cut out in order to get the machinery up to the claims as soon as it can be brought up the river.

Omineca Aerie, Fraternal Order of Eagles, Hazelton's pioneer secret order, has outgrown its present quarters, and has arranged to hold all future meetings in the auditorium, the only hall in town having sufficient capacity for the organization. Next Tuesday's meeting will be the first in the new quarters.

Tells of Our Resources

"The Vancouver and Victoria citizens seem to be so busy with their own affairs and prosperity is so apparent in these two lower coast cities, that the wonderful development that has taken place in the interior is shoved into the background," said George J. Hammond, president of the Natural Resources Securities Co., to the Vancouver Province.

"The other day the stockholders of the Grand Trunk Pacific met at Montreal. President Hays in his annual address to the stockholders told them that the Grand Trunk Pacific Railway would be running trains into Tete Jaune Cache at the western end of the Yellowhead Pass and at the head of navigation on the South Fork of the Fraser River late in 1911—which evidently means in December, 1911. This means that next spring Grand Trunk Pacific Railway freight and passenger trains will connect with the steamers on the South Fork of the Fraser River at Tete Jaune Cache, thus giving direct rail and water transportation to a country tributary to 1000 miles of navigable waterways. If one pauses for a moment to consider what 1000 miles of almost virgin territory means, especially a territory such as we have in the central interior of British Columbia, it will almost astound him with the possibilities in store for that region beginning in the early season of 1912.

"Perhaps I know as much about the central interior of British Columbia as any man can learn at the present time. I know that beginning next spring there will actually be millions of acres of the finest agricultural land opened up for settlement and development on account of the betterment in transportation service. I know also that some of the finest timber areas in British Columbia will be available for development and large lumber interests are already in the field preparing to put into operation lumber manufacturing plants of large magnitude. I know that mining men have been waiting for years for this transportation in order that they might be permitted to develop some of the richest mining country on the continent, this all on account of transportation afforded by the Grand Trunk Pacific from the east.

"At the present time Grand Trunk Pacific trains operate from Prince Rupert easterly 100 miles. The trains can go no further than this point at present on account of a tunnel which is being constructed. This tunnel, I am told by officials of the Grand Trunk Pacific Railway, will be completed sometime during the present winter, and then, as the railroad grade is already completed into the Bulkley valley, steel can be laid and trains can be run to a point twelve miles west of Hazelton, where the railhead will be until the bridge across the Skeena River is completed, some time next summer."
