THE PAYSTREAK

BOOK 1 | SANDON AND CODY January 30, 1897. | CHAPTER 19

THE ARGO BONDED.

A Smelter Co. to Take Hold of and Develop this Property.

Yesterday the Argo and Belt partially changed hands and are likely to become the property of a smelter company in the near future. The first payment was made yesterday by Leighton & Williams and the mine closes for a few days pending the consumation of the deal.

This mine is so well known in Sandon that it requires but little description. This time last year but a mere prospect, today a mine in every sense of the term. There are two claims belonging to the property, the Argo and Belt. The Argo lies on the side hill and takes in part of the Sandon townsite, adjoining Jno. M Harris' ground on one side and the Lemon addition to Sandon on the other. The K. & S. railway runs through part of the claim and within a few feet of the present workings. The Belt lies directly back of the Argo and so located that it has the lead for about its full length. The owners have had the extreme good luck to have no conflicting stakes on this ground, and in consequence have a perfect title.

Messrs. Sudro and McDonald, part owners of this property, after working diligently for the last nine months have shown the property to be what it is and richly deserve the fruits of their labor. The development work consists of tunnels driven en toto for a distance of 250 feet, also a shaft from the croppings to the lower tunnel. On the surface a magnificent body of ore is shown up which will average two feet in width. No. 1 tunnel, which is driven for a distance of forty feet, has ore for the entire distance from the mouth of the tunnel to its face. No. 2 tunnel, which was started below No. 1, is now in about 175 feet, and has a fine showing of ore which increases in width as the tunnel goes in. A winze has been sunk between No. 1 and No. 2 tunnels and is in ore for nearly all the way.

Thus it is seen that the workings are almost wholly in ore and that of a very high grade. An examination was made recently for the purchasers and by actual measurements together with samples from the lead in different places it was estimated, and that conservatively, that there is now standing, and blocked out about $20,000 worth of clean ore. This should be a veritaole bonanza, as the cost of mining is small compared with other mines, and the cost of shipping the ore from mine to railway will be only a few cents per ton. The present workings are directly facing the postoffice and only a few hundred feet from Reco avenue. The residental part of the town is now almost on the Argo, and no doubt before very long we will see a number of fine buildings on this property. This property should be extremely valuable in itself, if from no other point of view, than that of a townsite.

The Carnival.

The first carnival ever given in the Slocan was held in the rink last night and pretty fairly attended considering the shortness of the notice given. The funny predominated among the costumes worn by the skaters, and although some very pretty ones were noticed, still it was abundantly evident, that neither time nor care was expended in the get-up of the maskers. In fact, such was not expected, the object of this carnival being chiefly to find out how it would be attended in case another one on a first-class scale were arranged for. And now as every thing has turned out so satisfactory a carnival will be given in the near future, that will eclipse anything yet attempted in this line in the Kootenay.

The Bank of B. C.

The Bank of B. C. will move into their new quarters in Harris's block on Monday next and by the way these quarters, although small, are the neatest and most complete in the Kootenay. No pains have been spared to make them attractive alike to customers and employees and great credit is due the bank people for their enterprise and good taste. The bank apartment is divided into two rooms by a low partition, the first to be used exclusively by the manager and the last for the general business of the bank. As both Messrs. Mytton and Wilson are well known and popular in Sandon it will be unnecessary to say that they will heartily welcome a call from their old patrons at their new quarters.

Miners Union Formed.

Thos. Cherry, president of the Rossland Miner's Union, and local organizer for British Columbia, on Saturday evening last organized a union at Silverton. Some twenty charter members were enrolled and the following officers elected: President, Chas. McNichols; Vice-President, Samuel Thomas; Financial Treasurer, J. M. M. Benedum; Recording Secretary, Peter Grant. The new union expect to have a membership of 75 or 100 members before the end of the month.

THE CORDELIA.

A Shipment of Ore to be Made From This Mine in a Few Days.

Situated on the North Fork of Carpenter creek and about five miles from Three Forks, is the Cordelia, a claim that is doing its share towards drawing particular attention, in mining circles, to that section of the Slocan. This property was incorporated a few months ago under the name of the Dry Belt Mining & Milling Co., and a few men set to work to develop it. Up till about a month ago their work consisted mostly in uncovering the lead in different places but even in the process of this work a large quantity of ore was obtained and a trial shipment of 6,000 pounds was sent to the smelter, the returns from which were most gratifying, giving 280 ounces in silver and $2.80 in gold to the ton.

The lead at the time the above shipment was made was about two feet wide carrying a paystreak of from three to four inches of very high grade ore. A few weeks ago work was commenced in the lower tunnel and after drifting to the right for about fifteen feet, two feet of ore was struck, the assays on which gave 300 ounces silver, $7 gold, 3 per cent. copper and 35 per cent. lead. Since then the work has been vigorously pushed along and already about ten tons of ore are lying in the orehouse awaiting shipment. The rawhiders will commence next week to run the ore down to the railroad and as soon as a sufficient quantity of ore has been taken out a carload shipment will be made. Already several carloads of ore is in sight and ten men are employed taking it out so that it will be no great time before another shipment will be made.

Another tunnel has been commenced about 100 feet below the one from which the great bulk of ore has been taken, and other steps for the rapid development of this fine little property are being taken and it will be pretty safe to say that long before the rawhiding season has closed the Cordelia will have taken its place among the shippers of the Slocan.

A large amount of the stock of this company has been placed at 12½ cents and it is extremely probable, as the work of development proceeds and the mine continues to increase in value that the stock will make a considerable jump in value. One thing is tolerably certain, and that is, that this property possesses both the quantity and quality of ore necessary to placing it very high up on the list of our shipping properties.

LOCAL CHUTE.

A. W. Steele, of Mullen, is in Sandon.

Pete McPhee, of Kaslo, is in Sandon.

C. D. Rand has returned from his extended visit to Vancouver.

Mr and Mrs. Wm. Taylor spent a few days in Sandon this week.

Wm. Harris, of Spokane, is visiting his brother, J. M. Harris, of this city.

Sid Norman, of Spokane, was in Sandon for a few days. He left for some of the lake points on Wednesday last.

N. Jerry has sold a half interest in his lodging house, and has gone out to do some work on his claims situated in the Wild Horse district.

Chas. Rashdall, who has been out attending the funeral of his brother, passed through Sandon on his return to New Denver yesterday.

Albert Allan, one of Spokane's most prominent lawyers spent a few days in Sandon this week. Mr. Allan is a most genial gentleman and a first-class story teller, and he will be greatly missed by the many friends he has made during his sojourn in Sandon.

Misses Livingston, Aylwin and Estabrooks and Messrs. Aylwin, Knox and Henderson, of New Denver, arrived in Sandon today. The cause of their visit being the attractions of the rink and the very laudable desire, of the young people, to experience a little of the metropolitan life of our bustling city.

A meeting of the members of the Independent Order of Oddfellows met in Crawford's Hall, Sandon, on Friday evening, Jan. 29th. Bro. Douglas, Chairman. Application was signed for a lodge of the order in Sandon to be called Silver City. Parties wishing to make applications for membership can do so by handing their names to the committee with full reference, Geo. H. C. Holden, F. C. Sewell, W. Furnival, G. F. Hopkins and H. Douglas

Curling.

The first game of curling ever played in the Slocan was played in the rink here on Wednesday evening. The game was witnessed by a large number of interested spectators, many of whom had never seen curling before. The ice was good and a fairly good game was played. Following are the names of the players and the score:

J. M. Harris,	G. H. Winter,
A. E. Hall,	R. McDonald,
B. Wilson,	W. W. Fallows,
M. L. Grimmett,	H. Mann,
Skip—14.	Skip—8.

THE PAYSTREAK

Issued simultaneously every Saturday at Sandon and Cody, in the heart of the Slocan the greatest white metal camp on earth.

Transient advertising 25 cents a line first insertion, and 10 cents a line for each subsequent insertion.

Subscription, three dollar a year in advance.

Address
THE PAYSTREAK JNO. J. LANGSTAFF.
Sandon, B. C. Editor and Mgr

THE War Eagle at Rossland has been sold. Now what will our friends of that city do for a sensation?

A PUBLIC meeting should be called and a resolution passed and forwarded to the Government assuring them of our loyalty and patience under extreme provocation.

THE influx of people into the Slocan during the last month has been something astonishing, as each day passes, it adds to the list of new arrivals. Sandon is the objective point for the most of these new comers and notwithstanding the increased hotel accommodations sleeping rooms are by no means easily obtained. The coming season, we predict, will be one of unexampled activity in mining circles in the Slocan and as Sandon is in the heart of this great mining district, next season will see it the biggest and weathiest town in the Kootenay.

THE establishment of a mining association in the Slocan is one of the most important needs of this great mining section. It would do more to discourage wildcatting and promote legitimate mining operations than anything else. From the association could be obtained authentic information concerning the mines and prospects of the country, and their reports would have a great influence in advertising the resources of the country, and bring them prominently to the attention of the investing public. If we do not take these steps to make this section the scene of bona fide mining operations, now while we have a chance, the spurious stock jobber will be insinuating himself into our midst and bring the name of the Slocan into disrepute by his shady transactions. We do not think that it is the main object of this section to compromise its future in order to enrich the stock gambler, and the sooner we take steps to prevent him from commencing his hurtful operations the better it will be for every one concerned, and in no better way can this be prevented than by the formation of a mining association.

Bank of B. N. A. in Kaslo.

The bank of British North America, on Monday, Jan. 25th, opened a bank at Kaslo, B. C., under the management of H. G. Marquis, from Sandon. George Kydd, lately accountant at the Vancouver branch succeeds Mr. Marquis as manager at Sandon. Mr. Kydd has been in the service of the bank for over fifteen years now. His experience having been gained in New York, Toronto, Vancouver, etc. This bank is a welcome addition to the financial and commercial interests of the Slocan district and under the management of the above named gentlemen it is hoped that they will meet with such success as to warrant their establishing other branches in the various mining districts of the Province in the near future.

For Sale.

One pool table with cues, ivory balls, etc. (by Balke, Collonder & Co., Chicago). Inquire of
W. J. SULLY,
Sandon.

Certificate of Improvements.

California mineral claim.
Situate in the Slocan mining division of West Kootenay district, about three miles east of the town of New Denver.

Take notice that I, A. S. Farwell, acting as agent for James Marino, free miner's certificate No. 74,170; Alfred J. Marks, free miner's certificate No. 73,908; James A. McDonald free miner's certificate No. 67,967, and Byron C. Van Houten free mider's certificate No. 61,302, intend, sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this the 11th day of January, 1897.
Jan. 30th. 1897. A. S. FARWELL.

The Infamy of Wealth.

The moral leprosy which the possession of immense wealth germinates in the individual is exemplified by recent disclosures in the city of New York. The sons of millionaires of that latter day production of Sodom and Gomorrah have grown so blase in ordinary vice that they now employ agents to secure young girls whose poverty drives them to such extremes that they consent to dance in an entirely nude condition before the lecherous scions of the American nobility in their private clubs. The exposure of this particular phase of the depravity of the ulcerated and morally cancerous thing called society was brought about by an affidavit made by a poor girl whose father became aware of the proposition made and who insisted on exposing the bestial orgies of the young whelps of the Four Hundred. But the power of wealth is so great that nothing has come of the exposure, the press of New York remaining silent or throwing discredit on all attempts to probe the beastly matter to the bottom.

And yet in the face of such examples as this there are those who wonder that the spirit of revolution is in the minds of the millions whose unrequited toil is the source of the millionaire's fortune which is used to degrade, damn and destroy the daughters of the poor.

The Bubonic Plague.

The fact that two cases of bubonic plague have developed in London is a reminder that the Eastern epidemics too frequently girdle the earth in running their course, as did la grippe, which was first heard from in Russia. We are exposed on two sides io invasion by the bubonic plague, which is the "black death" which in 1665 killed 100,000 Englishmen.

In all violent outbursts of bubonic plague rats seem to be first seized, and their death in great numbers always preceeded by a few days corresponding ravages among human beings. The swarming rats, dying by thousands, were the first warning the Chinese had that the epidemic was upon them. From China the disease got to Formosa and the Malay peninsula. The Japanese, with their modern learning, kept the deadly invader comparatively at bay; but the disease crept into India and spread with frightful rapadity. In India, as in China, the advent of the plague was heralded by an epidemic among rats.

The feature of the disease is the suddenness of attack. The first symptom is usually a chill. Then follows acute nervousness, with fever that sends the temperature to from 100 to 107 degrees. Headache, thirst and intense pain in the upper part of the abdomen follow. Sticky prespiration exudes from the pores and then follow the glandular swellings from which the disease takes its name. These occur in the groin or neck or under the armpits. The more of them there are the less dangerous the attack. Dark spots appear on the victim just before dissolution.

An eminent Japanese bacteriologist who studied in Europe under Koch has discovered the microbe of "black death," and his discovery was confirmed by Professor Gersin, formerly attached to the Pasteur Labratory, in Paris. The bacillus is short, thick, easy of culture, and when inoculated on guinea pigs, kills them in twenty-four hours.

The Last Answer.

Dying eyes, what do you see?—
I see the love that holdeth me;
The look that, lighting, learns to bless
The little daily tenderness;
Smiles without words; the sweet sure sign
Which says in silence, I am thine,
Returning feet met at the door;—
Alas, for those which run no more!
Ah me, for lips that whispered "Dear!
Earth is all heaven, for thou art here,"
I see a figure like a stone;
The house where one sits on alone.
O God, have pity! for I see
The desolated needing me.

Dying eyes, what do you see?—
I see the love that taketh me,
Loud in the breakers, soft in song,
Ever the summons calleth strong.
I see upon an unknown strand
The signal of a distant Hand.
The leaf is out, the bud is out,
Floods of May colors float about,
The pulse leaps high, the heart is young,
The sweetest chimes are yet unrung,
My bravest deeds are yet unsung,
My bravest deeds I ever did;
And, struggling with the coffin lid,
Hopes, dreams and joys, and happy tears
Start, throbbing, to live down the years.

Almighty! Listen! I am dust,
Yet spirit am I; so I trust.
Let come what may, of life or death,
I trust Thee with my sinking breath.
I trust Thee though I see Thee not
In heaven or earth, or any spot.
I trust Thee till I shall know why
There's one to live and one to die.
I trust Thee till Thyself shall prove
Thee Lord of life, and death and love.

—Elizabeth Stuart Phelps Ward.

U. S. Alien Labor Law.

WASHINGTON—The Immigration bill has been agreed upon by all the members of the senate and the house, except Mr. Bartholdi, chairman of the house committee in charge of the subject. The most important provisions of the measure are as follows:

"It shall hereafter be unlawful for any male alien, who has not in good faith made a declaration before the proper court to record his intention of becoming a citizen of the United States, or to come regularly or habitually into the United States by land or water for the purpose of engaging in any mechanical trade or manual labor for wages or salary, returning from time to time to a foreign country.

"It shall be unlawful for any person, partnership, or company, or corporation to knowingly employ any alien coming into the U. S., violating the foregoing provisions, but the provisions on this account shall not apply to sailors, dock hands, or other employes of vessels or railroad train hands, such as conductors, engineers, brakemen, firemen or baggagemen whose duties require them to pass over the frontier to reach the terminal of their runs, or to boatmen or guides on the lakes and rivers on the northern border of the United States.

"Any violation of the provisions of this act by any alien or citizen shall be a misdemeanor, punishable by a fine not exceeding $500 or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment in the discretion of the court."

MINING NOTES.

The Mercur, Utah, mine paid $225,000 dividends in '95.

There are coal mines opened in every county in Wyoming except one.

In Wyoming during 1896 there were 378 gold mining locations made.

There were produced in the United States, in 1896, 77,000 tons of zinc.

The November South African gold exports aggregated in value $3,437,645

The Copper Queen Mining Company of Bisbee, Arizona, employs nearly 800 men.

There were shipped from Nova Scotia mines in 1896 about 140,000 tons of gypsum.

The Oregon Legislature will establish a School of Mines in the eastern part of the State.

The Spokane Review estimates the yield of the Cœur d'Alene, Idaho, mines for 1896 at $5,000,000.

The silly season in mining is not quite over. A ledge 800 feet wide has been discovered in Idaho that will assay from $3 to $7.

The yield of gold in Australia and New Zealand for 1896 is estimated at a slight increase over that of 1895, which was $42,793,824.

The yield of gold in the Rand, South Africa, for 1896 was 1,860,871 fine ounces, against 1,858,650 for 1895 a gain of 2,121 ounces.

The output of quicksilver in the United States in 1896, all from California, was 22,012 flasks, a decrease from that of 1895 of 966 flasks.

The reports and estimates would indicate that the world's output of gold for 1896 was about $220,000,000 against about $201,000,000 for 1895.

Oil has been discovered near St. David in Cochise county, Arizona, but it has not been demonstrated whether it is in paying quantities or not.

The bulk of the nickle of the world came from Canada last year. Matte and ores amounting to 3,697,000 pounds were imported into the United States.

The Vulture mine in Arizona has been placed on the London market at the rate of $1,000,000, through a company formed with that amount of capital.

Several veins of coal have been discovered in Rouge river valley in Oregon and the work done, it is claimed, shows that they may become of considerable value.

It is estimated by the mint authorities that the gold yield of Nevada for 1896 was $2,955,000, against $1,552,200 for 1892, and of silver 782,000 ounces, against 956,200 ounces for 1895.

A three-quarters interest in the Caledonia mine of Cripple Creek has been sold in London for $576,000 and several other properties controlled by the same people are under negotiation.

A syndicate composed of Standard Oil Company people some time ago obtained options on properties in the Deep creek district, Utah, and after having done some development work are about to take them up.

Chinese in Toronto.

Toronto, according to the Star, published in that city, is having a taste of the Chinese trouble. The Star says:

The alarm which has been aroused among civilized laundrymen and their employes in Toronto, as related on the first page of to-day's Star, is not groundless.

The laundrymen have seen their business slipping away. The employes have found work growing very scarce. The Star knows of one place where scores of employes have been dismissed from lack of work.

The cause of this has been the quick and quiet influx of Chinese, who, having been driven from Montreal, have gathered in Toronto, opened little hand laundries, are living more cheaply than decent white people can live, dozens in one small house.

The evil, which has been so pronounced in British Columbia, has been brought right home to Toronto people, It may shock a number of the champions of the Chinese race, who have hitherto denounced the exclusion taxation of the almond eyed cheap laborers, but this city cannot afford to allow any more people to be thrown out of work, and must devise some means of keeping the Chinamen out.

We wish no ill to Toronto, but we would like to see not only her laundrymen but many others of her population get such a squeeze from Chinese cheap labor as would enable them to realize the condition to which affairs have been brought on this coast. There would be a sudden decrease of the blatant babbling about the harmfulness of exclusion acts.

THE HILLS IN '96.

Estimates Put '97' Production at $12,000—Several Good Finds.

Deadwood, S.D.—The most reliable advices and estimates for the Black Hills for the year just passed are that its mineral production was not less than $9,500,000. Of this gold was $8,240,000, silver and copper, as by products, the remainder. It is perfectly safe to estimate the production of this year at $12,000,000, and the projects under way for additional smelting and milling capacity, to be ready sometime in 1896, will give a capacity for the following year of not less than $15,000,000. These figures are regarded as conservative, and make no account of projects under consideration but not assured.

In the Flora group, Ragged Top, several hundred pounds of ore have been taken out and sacked, valued at $1,400 to the ton. The find was made at a depth of fifty five feet, and in the same character, of lime rock as all the Ragged Top ores. The Ragged Top Gold Mining company has received smelter returns from its first shipment, amounting to $71 to the ton. The Nancy Hanks and Maud S. have been sold to McLachlan and Hyman, and shallow open cuts have given assays of from $9 to $20. A man sinking for a post for a building close to a boarding-house, found a fissure vein, and it is being opened. At the Ellenburg fraction, recent assays show $87 to the ton. At the new town of Balmoral, the third started at the camp, lots that sold a few weeks ago for $50 are now going rapidly at $100. Everything is now on the boom order, buildings are going up on all sides; boarding shanties, hastily put up with a few boards, are jammed; and the producing mines are increasing their output. It is now estimated that about 100 tons of ore are going out weekly, valued at from $4,000 to $8,500.

A very fine stope of ore has been unearthed at the Golden Slipper, at Hill City, from which ore valued at $465 to the ton is being taken. If the chute runs up as may be reasonably expected, it will be worth not less than $40,000.

The Keystone mine, at Keystone, is likely to be sold in a few days to parties who will develop it more rapidly than ever.

Machinery has been received at Galena for the remodeling of the mill there to an eighty stamp, and other very extensive improvements for the Union Hill company are begun.

Since the discovery that gold existed in the lime rock formations, the Gold Pan and Long Valley companies, that have been able to do nothing but the assessment work required by law for the past many years, have sunk into the discarded rock and found, in one case, rock of a value of $40, and in another of from $40 to $700. These companies were supposed to be wild-cat, and it was not thought they would ever amount to anything. The lime rock was not regarded as a possible medium for rich ores.

A Grand Success.

The ball given in Spencer's Hall on Monday last by the Firemen was one of the best and most successful ever given in the Slocan. Over fifty couples danced to the excellent music furnished by the Sandon orchestra, and he who did not enjoy himself on that occasion had only himself to blame. The ball was gotten up for the purpose of obtaining money to assist in buying some very necessary apparatus for fire-extinguishing purposes, and the people of Sandon have shown by the way they responded to the appeal of the boys, that they are deeply interested in the success of the work which the Fire Department have in hand, and which is, to place the Sandon Fire Brigade on the most efficient basis, possible under existing circumstances.

TAILINGS.

The B. C. Restaurant, in Sandon, has become one of the most famous cafes of the silvery Slocan.

The contract for driving 100 feet of tunnel and the erection of a blacksmith shop and ore-house on the St. Keverne has been let to W. De R. Rose. The contract for an additional 100 feet will be let on the completion of the first.

Dr. F. P. Witter can be found at McQueen & Gore's Drug Store.

The Ruth is making daily shipments of ore. About 55 men obtain employment on this property.

The new edition of Thomlinson's map is for sale at this office.

Mrs. C. Kent, of Kaslo, spent a few days in Sandon this week.

The man with the blue shirt and a capital of four bits is just as welcome at the B. C. Restaurant, in Sandon, as a white-shirted millionaire from New Denver.

About 75 men are now employed on the Reco.

A special bargain in Greenland seal fur capes at the Postoffice store.

Wm. Beattie, of the Reco, spent a few days in the Hub this week.

The new edition of Thomlinson's map of the Slocan for sale at this office.

Notice.

To whom it may concern: That we, D. E. McVay and W. H. McVay, from and after this date, will not be responsible for any and all accounts that may be contracted for by the Ruth Mines or Ruth Mining Co., of Sandon, B. C.

January 2nd, 1897.

Dissolution of Partnership

The partnership between Robt. McTaggart & Hans Madsen has been dissolved this day by mutual consent. Madsen & Lundy pay all accounts and collect all monies due the late firm.

Robt. McTaggart.
Hans Madsen.

Sandon, Dec. 23rd, '96.

If your habits are bad and you need them to mend,
Reform and drink the choice "Thistle Blend;"
If from censure you're free, and revered are by all,
Stick close by the "Thistle," for fear lest you fall.

If your luck should go hard, and with cares you do bristle,
Take comfort serene, with a drop of the "Thistle."
If dame fortune should smile and you reach the top notch,
Regale all your friends, with the wonderful "Scotch."

To all life's conditions, a charm it lends,
That choicest of whiskies, most famous of blends,
Enough of its merits you have heard you will think,
Be sure you remember them all when you drink.

LEGAL ADVERTISEMENTS.

NOTICE.

Notice is hereby given that application will be made to the Legislative Assembly of the Province of British Columbia at its next session for an act enabling the Noble Five Consolidated Mining and Milling Company (Foreign) to appropriate five-hundred (500) inches of the waters of Cody Creek, in the Slocan mining Division West Kootenay District, to erect flumes for the purpose of operating a concentrator, electric light plant, power drills, and all other purposes usual, necessary or incidental to the mining or milling of ores, for the purpose of expropriating lands for such purposes.

Noble Five Consolidated Mining and Milling o. (Foreign.)

Jan 21st, '97.

Certificate of Improvements.

Wild Goose mineral claim.
Situate in the Slocan mining division of West Kootenay district, on Noble Five mountain.

Take notice that I, A. S. Farwell, acting as agent for the Noble Five, Consolidated Mining and Milling Co., (foreign), free miner's certificate No. 77,579, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of abtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this the 13th day of January, 1897.

Jan. 16th, 1897. A. S. FARWELL.

Pirate mineral claim.
Situate in the Slocan mining division of West Kootenay district, about one-quarter of one mile northeast of the town of Cody.

Take notice that I, A. S. Farwell, acting as agent for Thomas Marks, free miner's certificate No. 76,224, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 9th day of January, 1897.

Jan. 16th, 1897. A. S. FARWELL.

Starlight No. 3 mineral claim.
Situate in the Slocan mining division of West Kootenay district north of, and joining the Last Chance mineral claim.

Take notice that I, A. S. Farwell, acting as agent for the Last Chance Mining and Milling Co., free miner's certificate No. 78,691, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 7th day of January, 1897.

Jan. 16th, 1897. A. S. FARWELL.

Lone Star and Blue Grouse Mineral Claims
Situate in the Slocan Mining Division of West Kootenay District, three-fourths of a mile south of Sandon, west of Slocan Star Group.

Take notice that, I, John Fielding, as agent for James D. Sword, Free Miner's Certificate No. 76,555, intend, sixty days from the date hereof, to apply to the Mining Recorder for certificates of improvements for the purpose of obtaining Crown grants of the above claims.

And further take notice, that action under section 37, Mineral Act 1896, must be commenced before the issuance of said certificates of improvements.

Dated this 7th day of January, 1897.

Jan. 9th, '97. JOHN FIELDING.

Snowstorm Mineral Claim.
Situate in the Slocan Mining Division of West Kootenay District, adjoining the Slocan Boy on Payne mountain.

Take notice that, I, A. S. Farwell, acting as agent for Edward Mahon, Free Miner's Certificate No. 54,981, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 14th day of October, 1896.

Jan. 9th '97. A. S. FARWELL.

Day Dawn Fraction Mineral Claim,
Situate in the Slocan Mining Division of West Kootenay District, in the McGuigan Basin.

Take notice that, I, A. S Farwell, acting as agent for Michael C. Monaghan, Free Miner's Certificate No. 74,411, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 28th day of December, 1896.

Jan. 2nd, '97. A. S. FARWELL.

Phoenix Mineral Claim.
Situate in the Slocan Mining Division of West Kootenay District, three and three-fourths miles up North Fork of Carpenter Creek.

Take notice that, I, John Fielding, as agent for the Phoenix Consolidated Mining and Milling Co., Limited Liability, Free Miner's Certificate No. 74,419, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice, that action under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 1st day of January, 1897.

Jan. 9th, '97. JOHN FIELDING.

Noble Five, Knoxville, Bonanza King, World's Fair and Maud E Mineral Claims.
Situate in the Slocan Mining Division of West Kootenay District, on Noble Five Mountain, one mile north of Cody.

Take notice that, I, John Fielding, as agent for the Noble Five Consolidated Mining and Milling Company, Free Miner's Certificate No. 77,579, intend, sixty days from the date hereof, to apply to the Mining Recorder for certificates of improvements for the purpose of obtaining Crown grants of the above claims.

And further take notice, that action under section 37, must be commenced before the issuance of such certificates of improvements.

Dated this 4th day of January, 1897.

Jan. 9th, '97. JOHN FIELDING.

Greenhorn Mineral Claim.
Situate in the Slocan Mining Division of West Kootenay District, on Carpenter Creek, about two miles easterly from the town of Cody.

Take notice that I, A. S. Farwell, agent for John McNeill, Free Miner's Certificate No. 64,832, and Daniel McNeill, Free Miner's Certificate No. 60,373 intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 12th day of November, 1896.

Jan. 2nd, '97. A. S. FARWELL.

Virden Mineral Claim,
Situate in the Slocan Mining Division of West Kootenay District, on Carpenter creek, near the Greenhorn mineral claim.

Take notice that, I, A. S. Farwell, agent for Frederick J. Donaldson, Free Miner's certificate No. 66,030.; John W Switzer, Free Miner's Certificate No. 61,646; Charles B. McCluskey, Free Miner's Certificate No. 61,645, and William H. Todd, Free Miner's Certificate No 61,809, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action under section 37, must be commenced before the issuance of such certificat of improvements.

Dated this 14th day of November, 1896.

Jan. 2nd, '97. A. S. FARWELL.

Pacific Mineral Claim,
Situate in the Slocan Mining Division of West Kootenay District, on Payne Mountain, North of and adjoining the Washington.

Take notice that I, A. S. Farwell, agent for Frederick Steele, Free Miner's Certificate No. 65,596, and Samuel B. Steele, Free Miner's Certificate No. 73,946, intend, sixty days from the date hereof to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 28th day of November, 1896.

Dec. 5th, '96. A. S. Farwell.

Ephraim Fraction Mineral claim,
Situate in the Slocan Mining Division of West Kootenay District on the North Slope of the South Fork of Carpenter Creek, North of and joining the Texas mineral claim.

Take notice, that, I, John M. Harris, No. 56,917 for myself, and as agent for F. T. Kelly, No. 54,185; S. M. Wharton, No. 65,360, and G. C. Wharton, No. 65,359, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this eighteenth day of November, 1896.

Nov. 21st, '96. JOHN M. HARRIS.

Look Out and Columbus Mineral Claims,
Situate in the Slocan Mining Division of West Kootenay District, adjoining the Wonderful mineral claim L. 481 G. 1, on Carpenter Creek and about one and a one-third miles west of the town of Sandon.

Take notice that I, A. S. Farwell, agent for the Wonderful Group Mining Company, Free Miner's Certificate No. 66,966, intend sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 28th day of November, 1896.

Dec. 5th, '96. A. S. FARWELL.

Oil Fields of East Kootenay.

One of the various resources of East Kootenay waiting for development is the petroleum found in the Flathead valley, in the south-eastern portion of this district. This is a section of the country but little known, and is separated from the remainder of the district by a high range of mountains. The natural outlet of the valley is down the Flathead River into Montana, and the nearest railroad is the Great Northern. Some years ago attention was called to this section through the finding of crude oil in the possession of some Stony Indians who annually hunted in this valley, and they were induced to show some miners where they obtained the oil, which they (the Indians) were in the habit of using as a medicine for complaints of all kinds. The surface indications are good, and two different qualities of oil have been obtained. On Kishneena Creek, a short distance north of the international boundary line, a black oil similar to the Pennsylvania and Ohio oil is found. But on Sage creek some eight miles north, there is found an oil that is nearly pure of a light yellow color, which will burn in a lamp as it comes from the ground. Close by there is natural gas escaping from the bedrock which burns freely on ignition. Some of this oil, sent to the Geological Museum at Ottawa, caused considerable excitement and comment and was pronounced a fraud on account of its purity. Dr. Selwyn, head of the department, made a special trip to the valley and was surprised to find the oil genuine, and also that this oil was found in the Cambrian formation which was something unknown as oil hitherto discovered has been in Trenton Limestone. Directly due east of Sage creek, and on the eastern slope of the Rocky Mountains in Alberta Territory, there are plenty of surface indications of crude oil. And the finding of these indications over such a large area, and in the same formation would go to show that there is a large oil field awaiting capital to develop it and we may expect that in the near future the oil fields of East Kootenay will be known all over the world.

Auction sale of furniture at Crowley & Co.'s, in consequence of removal to New Denver, on Thursday evening next at 7 p. m. Elegant bed-lounges will be offered together with general household furniture. Next to Hayes' tin shop.

Slinn & Co. have bought the business of D. A. Madill and intend carrying a full stock of confectionery and biscuits.

The chickens served at the B. C. Restauant all die young and are the reverse of the formation around Sandon.
