THE BARRACKS BLOWN UP

Dynamite Demolishes Building and Kills Over One Hundred People.

Havana, *May* 19.—Two simultaneous explosions of dynamite believed to consist of over three thousand pounds in two charges, totally destroyed the barracks of the Rural Guards in the city of Pinar del Rio yesterday. The roofs and wreckage of the walls were strewn over a wide area, ruining many homes and killing or wounding the inmates. At present, the list of dead is over a hundred and the number of those injured is estimated at double that number. Most of the dead were soldiers and the entire families of several of the officers of the guard are among them. Many of the employees of the public works department are among the victims.

Whether the explosion was the result of an accident, or due to the action of conspirators has not yet been officially determined. But the whole district cf Pinar del Rio has long been a political hotbed, and there are strong suspicions that the diabolical act is a demonstration of the animosity entertained for the president of Cuba.

Soldiers and civilians worked all night among the ruins, rescuing many and by nine o'clock this morning had recovered the bodies of twenty-six members of the garrison.

The streets of the city are to-day crowded with praying people whose suspicious credulity leads them firmly to believe that the explosion was caused by Halley's comet.

ELECTIONEERS BUSY.

The politicians have had a busy day. Both sides have been working hard getting in a vote which will be a heavy one. Owing to the fact that there are three ballots and the four booths being in the same building there has been a constant crush at the government buildings. The voting compartments were doubled during the morning and the officials were handling about 125 votes per hour. It will probably be seven o'clock this evening before the final results are known.

NEW WHOLESALE STORE

The Kelly Douglas company is to build a large wholesale grocery store on the wharf, work to be begun on it as soon as possible. Mr. Edward Douglas who came up on the Princess May, and returns on the Rupert City to-day, has instructed Mr. Proctor to prepare the plans, and says he hopes to see the building completed in two months.

The building will cover a space of 50 by 156 feet, and will be four stories on the wharf front and two in the rear. The front will be arranged that freight can be delivered direct to the warehouse from both railroad and steamer.

Memorial Service.

Public memorial services will be held in the Empress theatre to-morrow afternoon. That being the day of the late King Edward's funeral, the public are requested to close their places of business and join in the service, which will be held under the auspices of all the local churches.

Offices Closed.

As Friday, May 20th, has been declared a public holiday to be observed as a day of mourning for the late King Edward VII., all the government offices will be closed all day.

THOSE SECOND PAYMENTS.

Some Information As To How to Send Your Money Forward.

As the time has arrived for the making of the second payments on the lots purchased at the first sale, a word of advice on how to proceed to make the payments will be of some assistance to those unacquainted with finance. All payments on the lots bought from the government must be made in Victoria, and those purchased from the G. T. P. R., are to be made in Winnipeg.

To make the payment it is advisable to secure a bank draft payable to the land commissioner for the full amount of the remittance, including the amount of the second payment, with interest at six per cent on the three deferred payments. These payments are based on the original purchase price only.

Along with the draft send a letter giving the number of the lot or lots, the number of the block, and the section and number of the contract covering the sale. This precaution will be of great assistance to the land commissioner and will save those sending the remittance a great deal of inconvenience and trouble.

KING'S PROTESTANTISM

Church of England Only Protestantism to be Recognized in Throne Speech.

London, *May* 19.—It is stated that instead of modifying the wording of the declaration which the King makes on the opening of his first parliament to the effect that he will maintain the Protestant religion, the government has now decided to draft an entirely new declaration. This is to be !positive instead of negative in character. This will define protestantism as accepted by the Church of England only and will indicate by implication alone the doctrines which the King abjures.

HOLIDAY TO-MORROW.

Provincial Proclamation to Observe the Burial of King Edward.

An extra of the British Columbia Gazette contains the proclamation of Friday the 20th inst., as a day of general mourning throughout British Columbia as it will be elsewhere throughout the empire, in these terms:

'Whereas Friday, the 20th day of May, has been fixed for the obsequies of his late majesty, King Edward the Seventh; and whereas the said day has, by his excellency, the governor-general, been proclaimed as a day of mourning, to be observed by all persons throughout the Dominion of Canada; and whereas, it is considered advisable to appoint by proclamation, the said 20th day of May as a public holiday;

'Now, therefore, we have thought fit, by and with the advice of our executive council, to appoint the 20th day of May instant to be a public holiday, to be observed as a day of general mourning within our province of British Columbia.'

More Steam Shovels

The tug Escort No. 2, with the barge Georgia arrived yesterday afternoon with six big steam shovels for Foley, Welch & Stewart. These are being unloaded and will be put into commission at once.

TRAIN DUMPED IN HARBOR

Land Slide Carried Ten Cars and An Engine Into The Water

Ross and McCall, who have the contract for the first cut west of Foley, Welch & Stewart's dock lost ten dump cars and a dinky engine in the harbor yesterday morning about 10 o'clock as a result of a land slide under their dump. The contractors are dumping the rock into the harbour, and where the engine with the loaded cars backed into the dump the mud bottom of the harbour slid out carrying the rock, the cars and the engine with it. Fortunately none of the dozen employees were injured, although the engineer had a close call. He was pulled out through the window of the dinky as she began to slide after the cars.

All the cars and the engine are out of sight. At high tide there is more than 15 feet of water over them, and at low tide just the smoke stack of the engine is visible.. Arrangemnts are being made, however, to pull the train out, although it will take a couple of days to accomplish the feat. Work on the contract has not been delayed at all as another train was put into commission.

WATCHING OUR SMOKE.

Rand Tells Vancouver that Growth of Prince Rupert Is Astonishing

"In order to appreciate the wonderful development which the whole northern coast of British Columbia is undergoing, one has to make a tour of the pricipal points," remarked Mr. C. D. Rand to a reporter of the Vancouver Province. Mr. Rand had just returned from the North on the Princess May. having made the trip in company

The journey was made in order with Mr. Drake and Mr. George Turner. that the members of the party might get in touch with affairs in the North.

"A man in Vancouver may do his best to keep informed respecting conditions in the north, but this trip demonstrated to me that to have a finger on the pulse of events north of 51, one has to personally get into the field between that point and 55," continued Mr. Rand. "We spent a short time at Stewart, the new mining town at the head of the Portland canal. This place is going ahead rapidly and as soon as the snow is off the ground great development is to be expected in the way of railway construction from the town through the mining districts. At present the lumber is on the beach for the construction of the wharf approaches to the terminus of the Portland Canal Short line, which is to be built this year.

"The finest of weather favoured us and we had a most enjoyable trip."

"We spent two days at Prince Rupert, and the progress of that city is simply astonishing. The amount of building going on there is very large, and the population is set down at 5,000 to-day.'

ELECTION BULLETIN.

To-night, as soon as the ballots have been counted, the Optimist will issue a Bulletin giving the result. This Bulletin will be distributed on the street, free of charge. If you want to know all about it, see you get one.

PROPOSED NEW SEWER

Committee Decided Where Money Will be Expended

The sewer committee has definitely decided upon the section or district the new sewer which is to be built with the $25,000 advanced by the government, is to take, although it is not likely the committee will go further but will hand over the plans to the new council to carry out. This is the first part of the permanent sewer, although it does not provide for storm water or cellar drainage. The proposed route is as follows:

Beginning at the outlet on the water front about midway between Seventh and Eighth streets, it will run across the water front and First avenue, through lot 8, in block 10 to the lane in block 10; thence along the lane to the easterly side of Seventh street, up Seventh street to the northerly side of Second avenue, along Second avenue to the westerly side of Sixth street, up Sixth to the lane in block 33 to Fifth street. The estimates for this does not require the full $25,000, but there would not be enough left to construct another section, so it will be left until the council decides on further sewer construction.

THE FUNERAL PROCESSION

Canada, New Zealand and Australia Rank High in the Royal Obsequies.

London, *May* 19.—The three high commissioners for the Dominions of Canada, New Zealand and The Commonwealth of Australia, Lord Strathcona, Hon. A. W. Hall Jones and Sir George Reid, will be seated together to-morrow, in the great funeral procession, in the ninth carriage, which will immediately follow that of Colonel Roosevelt and Louis Pinchot, representing the United States.

Sir George Reid stated last night that the arrangements made for the representatives of the great self governing colonies was in every way satisfactory, and show a proper conception of the place held by Canada and Australia in the Empire of whose area they represent seven twelfths, this, though, of course being their least of claims to recognition. The arrangements made by His Majesty's command will give the utmost gratification to our people, said Sir George, and added "They are such as might be expected from George V. who has such a perfect personal acquaintance with every part of the Empire"

Visitors from the Over-seas States have been allotted places in the official enclosure at Hyde Park to witness the progress of the funeral procession.

Rifle Club For Hazelton.

When Major R. F. Leslie, government inspector of railways, returns to duty at Hazelton, he will immediately start the organization of a Dominion Rifle Association. He has already selected a site for the range along the bank of the river, but as the land is within the government reservation, he has had to apply to the department for permission to use it.

The major believes he can readily secure fifty members for this volunteer force as a starter. He is an enthusiastic rifle man, having been for twenty years connected with the Indian Volunteer forces, and has shot in regimental teams for that period. In 1898 he was captain of the India volunteer team that competed at Bisley.

KILLED IN AN EXPLOSION

Five Men Lose Their Lives at Hamilton Powder Works Nanaimo.

Vancouver, *May* 19.—A special to the World from Nanaimo this morning gave the bare facts of a terrible explosion which has just occurred at the Hamilton Powder factory there. The despatch reads: A big explosion took place at the Hamilton Powder works about half past ten this morning. There is little information as yet obtainable as to just what happened, but it is known that five men were killed. This list will probably be added to later on. Of the number of men and girls injured, no tally has yet been taken. They are being rescued from the ruins as speedily as possible. The force of the explosion may be grasped from the fact that its violence was felt and heard for a distance of four miles from the factory. The assizes were on at the time and a murder jury was being empanelled, when suddenly the building shook, doors slammed and windows rattled, and the dull roar led some to think it an earthquake visitation. Others thought it was a heavy charge of street blasting, until word came of what had really happened

BRITAIN'S NEW EMPIRE.

On May 31 a new British dominion South Africa, will celebrate its entry into the league of self-govering states that constitute British Over seas dominions. It has been suggested that all the British Empire observe this day when the Dominion of South Africa flings its flag to the breeze, for the first time, by raising their own flags, and in customary form, mark this advance in the Empire s might. The Minister of Education for Ontario has issued instructions to the schools of that province for the proper observance of this event in the constitutional expansion of the British Empire, and it would seem that every school in the land could do no better educational work and perform no higher patriotic task than observe this South African Day of Union.

MACKENZIE KING A HERO.

Mackenzie King, the petted but no spoiled child of furtune, is getting some pleasant publicity at present because someone has suggested that he is the hero of Mrs. Humphrey Ward's last novel, which has a Canadian setting. The youngest cabinet minister does not need this fame, and it will not do him good or harm, but it will help the novel to sell. Thus cleverly is the social popularity of a Canadian Cabinet Minister used to increase the sales of a rather colourless english novel.

MONARCHS MEET.

London, *May* 19.—King George met Emporor William of Germany at the Victoria station to-day. Both monarchs were weeping when they embraced and kissed each other. The Kaiser was apparently affected most deeply. After the greetings were over the Kaiser was driven to Buckingham Palace.

ANOTHER MELON CUTTING.

London, *May* 19.—It is believed in financial circles here that the C. P. R. board will either pay a higher dividend a few months hence, or issue a further capital on terms representing a bunch of substantial bonds to its existing proprietors. Another melon cutting, in fact.

"THE TRUCE OF GOD."

Great Britain's Poet-Laureate Upon the Death of Edward the Peacemaker.

LONDON, May 19.—Alfred Austin, poet laureate, has written the following on the occasion of the king's death, entitled "The Truce of God," with the subtitle, 'A King's Bequest.'

What darkness deep as wintry gloom
O'ershadows joyous spring?
In vain the vernal orchards bloom,
Vainly the woodlands sing.
Round royal shroud
A mournful crowd
Is all now left of one but yesterday a king.

Thrones have there been of hateful fame,
Reared upon wanton war,
He we have lost still linked his name
With peace at home, afar.
For peace he wrought.
His constant thought.
Being how to shield his realm against strife's baleful star.

So let us now all seek to rest
From fateful feuds release,
And mindful of his wise bequest.
From factious clamors cease;
Treading the path he trod,
The sacred truths of God,
The path that points and leads to patriotic peace.

TWO APPEALS HEARD

His Honor Judge Young held a court of revision yesterday morning to hear complaints against the voters' list. Only two were made and both were women. Mrs. Fred Button said she took a declaration before George Leek, but her name was not on the list. The returning officer did not receive the paper. Her name was not put on.

Mrs. Mary Kelly took a declaration, but she discovered afterward that she was not strictly a British subject, and she asked to have her name struck off. The judge removed her name.

Edmonton Shows a Steady Growth, but Rupert Will Soon Catch Up.

Some illuminating figures are given in the latest information bulletin published by F. T. Fisher, secretary of the board of trade, on May 1st. showing the remarkable growth of the capital city of Alberta and the confidence of the citizens of that town in its future. For the month of April of the present year the customs receipts totalled $27,500 as against $25,779 for the corresponding month of 1909, or an increase of 7 per cent. For the past month the building permits aggregated the sum of $262,196 as compared to $210,890 for April of 1908, showing an increase of 24 per cent. In bank clearings, to which all business men look when seeking information as to the growth of a town, the increase is even more marked.. For April 1910 the bank clearings were $5,370,145 as against $4,044,055 in 1909, a gain of 33 per cent.. Post office returns also show an increase of four per cent, the total for April 1910 being $6,750 as compared to $6,500. The Edmonton street railway is also sharing the general prosperity, the number of passengers being carried in the last month being 261,670 while 152,203 passengers were carried for April 1909. For the past month the street railway receipts were $11,345 as against $6,575 for the corresponding month of 1909, an increase of 70 per cent.

GEOLOGISTS COMING NORTH

Victoria—Word has reached here that the department of mines at Ottawa, of which the Hon. Wm. Templeman is the head, has completed its arrangements for the coming season's field work. of geologists and mining engineers. The programme provides for operations on an extensive scale and the results are bound to prove of considerable importance and benefit to the country at large.

Although the department of mines was established only three years ago, it has already performed a great deal of work, and applications for geologists and mining engineers to investtigate the different regions in which minerals are supposed to exist are being constantly received.

This coming season will see a record staff of the Geological Survey in British Columbia, and the tangible interest which the government is manifesting in the mineral resources of the Pacific province has won the warm commendation of the mining men.

Vancouver Island will again be the field for R. H. Chapman, who will continue mapping the topography of the island. This is regarded as a very important work, and Mr. Chapman is making gratifying progress.

C. H. Clapp will continue his geological investigation on the southeast end of the island.

The great activity in mineral development at the head of Portland Canal has attracted the attention and interest of Mr. Templeman, who has instructed R. G. McConnell, a geologist of wide experience in northern British Columbia districts, to investigate and report upon this region.

D. D. Cairnes will examine the ore deposits of the Atlin district. Since the early days of placer mining a number of mineral veins have been discovered.

W. W. Leach will continue his explorations in the Hazelton district, on the Grand Trunk Pacific railway, up the Skeena river.

Chas. Camsell will complete the geological mapping of the Tulameen district.

Victoria Stock Exchange

Victoria, May 16.—A similar institution to the Vancouver Stock exchange has been formed in Victoria under the name of the Victoria Stockbrokers Association. Brokers there decided that they would inaugurate on account of the large interest that is being taken in mining stocks at the present time.

CHARITY or BUSINESS
— Which? —

THE germ of both Life and Fire Insurance had its rise in the custom of taking up a collection for the stricken family. We all chipped in in the hope and expectation that if we were snuffed out by either sickness or accident, the neighbors would do as much for us. Life insurance avoids the uncertainty of leaving things to neighbors. It is a business plan, founded on laws of mathematics and sound economy, to provide for those dependent on us in case of death.

Life insurance is no longer a charity, or quasialtruism, any more than fire insurance is. Life insurance is a duty and a privilege. To eliminate the distressing results of death, through insurance, payable to business partners, wife, or children, seems but common prudence.

Lord Nelson in his will left his wife and daughter "to the tender care of the British Nation, to which I have given my life." And the wife and daughter—gravitated to the Poor House; for what is everybody's business is nobody's business.

Don't leave your loved ones to the care of the public or the neighbors. The neighbors may have troubles of their own.

Cut out the risk and worry by insuring in the

The Prince Rupert Optimist

DAILY EDITION. THURSDAY, MAY 19

THE FIGHT IS OVER—LET US GET TOGETHER

The first municipal election contest is practically over and the electors have made their choice of civic administrators. Whatever the choice, the citizens should accept it as the wish of the majority, and British institutions believe the majority should prevail.

To-morrow we enter an era of local government and it behooves all of us to join hands and boost. We may have just differences of opinion at home when elections wax warm, but when we show a front to the world it must be a unit of faith in our town and harmony of opinion. Already much valuable time has been lost in the strenuosities of the campaign. Energies were used which might have been utilized to much better advantage, but now that it is over let us combine forces and go to it with good will and good cheer.

Those of the candidates who will not meet with the congratulations of victory to-night will probably be the lucky ones, for municipal honors are a big drain on one's business and domestic duties. At any rate they will breathe a sigh of relief which the victors cannot enjoy.

NAAS RIVER INDIANS

Were Riled by Some Unscrupulous White Land Seekers.

Charles Clifton Perry, Indian agent of the Naas district is in the city for a few days. He was hunted up by the Optimist and questioned regarding the reported trouble with the Indians. Mr. Perry was very reluctant to say anything, because he knew that practically all the trouble was caused by unscrupulous whites. He said some of the people who go up into the Indian territory to stake land are very careless in their manner and speech to the Indians. The first man who was turned back was at Fishery bay. The Indians had gathered there for the purpose of fishing. This man went into their camp to spend the night, something he had no business to do. He got on intimate terms with the natives and then started talking too much. He told the Indians they would have to be careful how they treated the white men or the whites would send up a thousand soldiers and make the Naas river run red with their blood. This riled and infuriated the Indians, who replied that they would declare themselves and go to war the same as the Boers in South Africa. They would take up positions behind rocks and kill the whites as they came up.

Such unscrupulous men make it very hard for decent white people ot go up into the district, no matter what their mission may be. They are ordered back by the indians..

For some time past the Indians have had their grievances in the hands of a firm of solicitors in Toronto. Last year they contributed $900 towards the expenses of having their case placed before the Government of Canada and of Great Britain, and this year that sum has been augmented by $200. The Indians have been urged by Agent Perry and others to be law abiding because a breach of the peace at this time would only prejudice their case. The natives desire themselves that their case should be settled immediately and amicably, and they are not looking for trouble. Agent Perry does not believe that the Indians had any intention of carrying out any of their threats, but some white people so misbehave that the Indians lose their temper, as would anyone else, and make threats which in nine cases out of ten they have no intention of carrying out.

At the same time, the natives feel sore on the land question. There is no doubt but that those agitators who quote Lord Dufferin's speech on the land question and King George IV proclamation as making their title to the land secure, are making it disastrous for missionaries working among the Indians. The Indians get filled up with the idea that the white missionaries are only the white settlers who are paving the way for these other men who come in and take their land. The Indian land question is a very serious one in many ways, and it behoves the whites to use common sense and discretion when travelling in the Indian's country, until the governments have settled the question for all time to come.

NEW RANCHING COMPANY.

Vancouver-Prince Rupert Incorporated With Three Hundred Thousand Capital.

The Vancouver-Prince Rupert Ranching company of Vancouver, has been incorporated with a capital of $300,000. It is reported that the new company is to try the experiment of clearing a comparatively large tract of land in such a way that part of it will be put on the market in the form of ready made fruit farms, another part in the form of farms cleared but not planted, and another part in the form of lands on which two or three acres out of ten have been cleared.

The result will be watched with interest. It takes all sorts of settlers to make a country. What appeals to one will not appeal to another. Some men with capital would prefer to clear their land themselves according to their own plans; some men wit h little capital would prefer to clear their land with their own labour. But to others, the idea of buying land already cleared, or both cleared and planted, is likely to appeal, whether they are in a position to pay cash in full or whether they would require to have the period of payment spread over a term of years.

In all cases what is in the interests of the country is that the land should be brought under cultivation as soon as possible. It is not enough that the land should be settled; it should b e producing also. Land which is held by settlers who for a long time will not be able to clear it up and bring it into bearing is obviously not of so much importance to the country as land that is producing revenue and creating business.

RESTLESS GOES SOUTH,

After seven months engaged in hunting down fish poachers in this vicinity, the Government steamer Restless goes south to-day and will report at New Westminster. The Restless came in from White Rock last night and coaled here. Captain Moore said that in the whole season he madenot a single arrest, though he boarded many fishing vessels, but everyone who knows the captain has confidence that the waters of this district have been well policed during the winter season. He said the fishermen have followed the fish south and are now active in Hecate straits and near Goose Island.

Had Rough Passage.

Steamer Henriette got in from Queen Charlotte Islands last night, and reported have experienced exceedingly rough weather on the trip from the Islands. She brought about fifteen passengers, and a load of lumber and ties from Skidegate. To-night she leaves for Nanaimo for coal and will resume her trips to the Islands upon her return.

The Princess May arrived early yesterday morning with 180 passengers on board, 90 of whom were for Prince Rupert. The May left soon after 8 for Stewart.

The Rupert City arrived about ten o'clock last night with one hundred and seventy passengers.

LOCAL

A crowd of local people will go up to Stewart on the Camosun to look over the properties before the sale of lots.

A number of voters, and probably a few "floaters" came in during the day from Stewart and the Portland Canal country.

The Port Simpson got in yesterday from Kitselas and during the night loaded about 80 tons of general freight. She pulled out again to-day with a number of passengers.

An Emergency communication of Tsimpsean Lodge, U.D., A. F. & A. M. will be held at the Lodge Room at 7:30 p.m. Saturday, May 21, to receive an official visit from the M.W. The Grand Master. 16-19.

Remember the memorial service in the theatre to-morrow at 2.30 p.m. The Governor General of the Dominion, and the Lieutenant Governor of the Province have proclaimed a day or mourning and a holiday.

PERSONAL

Mr. Roy Knight left to-day for Vancouver on the Rupert City.

District Engineer, T. M. Baird, boarded the Port Simpson at Kitselas and came in last evening.

G. H. Pope, in charge of the Grand Trunk Pacific right of way, came in on the Port Simpson.

E. Roy, of Montreal, who arrived on the Princess May, had the mischance to sprain his ankle last night. The injury is not serious, but Mr. Roy is temporarily confined to his bed at the Inn in consequence of it.

John M. Walter, jr., of the firm of Walter and Durant, consulting engineers, was taken suddenly ill with appendecitis last Saturday and left that night for the hospital at Simpson, where he is now resting easily. Dr. Kergin will operate to-day. Mr. Durant left Tuesday night on the May to be with him until after his operation. In the meantime S. B. Hunt, a mining engineer and a graduate of Cornell university, will manage the affairs of the firm.

EARL GREY'S SUCCESSOR.

London, May 14.—The Daily Express understands that the Duke of Connaught is likely to succeed Earl Grey as Governor-General of Canada, it being the particular wish of the late King Edward. The official announcement may be expected shortly. It is suggested also that the Duke should open first the South African parliament. The Express says that no better appointment could be made and that it would strike the popular imagination surely and instantly.

Watts Guilty of Murder

Nanaimo, May 18,—A verdict of manslaughter was returned against Michael Watts, charged with the murder of Andrew Hogberg at Baynes sound in August, at the assizes here last night. The trial of Holmes in the Carlson murder case is the next charge on the docket for hearing.

FORTY YEARS' GROWTH.

Canada Now Occupies Third Place in the Commerce of Nations.

Comparing the growth of the trade of Canada with that of the principal countries of the world for forty years, Canada is found to occupy third place. The comparison is based on the figures for the years 1868 and 1908 respectively. The latter year must be taken as that is the latest year at which the total trade of all countries is available. The comparison, however, shows Japan in first place, the Argentine Republic second, and as stated, Canada third.. It may, however, be stated with much reason that Canada's position is really better than third place in view of the fact that forty years ago Japan was just emerging into the sisterhood of nations and her foreign trade, therefore, comparatively small, amounting to only a little over $27,000,000 with a population at that time of a little over 30,000,000 against Canada's population then of 3,413,000. Japan therefore shows in the forty years a per capita trade increase of only 8.19, whereas Canada's per capita trade increase of the principal countries of the world of 1908 as compared with 1868 was 73.89

Upon further analysis of the per capita trade increase of the principal countries of the world, Belgium stands first, the United Kingdom second, Argentine Republic third, Denmark fourth and Canada fifth.

It is not unlikely that when the figures are available for all the countries compared for a later peiod, Canada's relative position will be much higher.

THE MAY QUARANTINED

After the Princess May left here last week, there developed on board a case of sickness that was suspected to be one of smallpox. In consequence of this if was thought advisable, to avoid possible risks of infection, to take the vessel to quarantine. There she was thoroughly fumigated, but in consequence of the delay, sailed for this port Sunday instead of Saturday evening. Every berth was reserved several days in advance, and the boat was crowded.

SPUR TO COPPER MINES

A. L. Berdoe, general manager of the White Pass railway company, was a passenger on the Princess May. He will remain in Whitehorse until the opening of navigation and then proceed to Dawson for the summer. He states that the spur the company is building to tap the copper mines near Whitehorse will be completed this summer, and the big ore bunkers at Skagway will be operated to their full capacity.

BANK OF MONTREAL.

Are Doing Business In Temporary Quarters On Fulton Street.

The Bank of Montreal is now open and doing business in their temporary quarters on Fulton Street, just north of the corner of Third avenue. J. M. Clancy, lately of Raymond, Alta., is the manager and associated with him is H. F. G. Sinclair as teller. The account ant is expected in a few days. Mr. Clancy only arrived in town a few days ago and got right down to work. The temporary offices are very omfortable and well arranged for handling the business, which will grow with the city.

The Bank of Montreal is building a new two storey concrete block building on Third Avenue, just west of the corner of Fulton as permanent quarters. The excavation for the foundation has been underway for some time, and as soon as the rock is removed, contractor Cameron will get busy on the construction work. The premises will be quite in keeping with the reputation of the bank and will be a credit to Prince Rupert. Mr Clancy expects to get moved into the new office about October lst.

Men's Furnishings.

Mr, Eastman's hansome new men's clothing and furnishing store on Third avenue in the Dawson block, is receiving a liberal share of patronage. The place has only been open a couple of weeks, but it is receiving an enviable patronage. The proprietor is a young man who has had lots of practical experience in the clothing business in Chicago. He is full of energy and from the first displayed the proper spirit. He carries a high grade stock of everything and caters to the better class. He supplies either ready to wear clothes or made to order. His store is handsomely furnished with silent salesmen and other fixtures quite in keeping with his stock. He invites the public to visit his store.

STEAMER WRECKED.

Newport, Ore. *May* 19.—The steamer Meyerhoff, running between San Fransisco and Portland was burned off Yaquina Bay. The Captain, his wife and two children and a crew of nineteen landed here to-day in small boats.

Police Court.

Felix Brown , an Indian from Essington, was charged with being drunk and disorderly on the street last night. Felix said "Guilty" when he heard the charge, and the magistrate remanded him until the afternoon for sentence.

OBITUARY.

Anna McNeil.

Mrs. Anna McNeil died at her home at noon to-day after an illness of only a couple of weeks. She is a native of Scotland, and came here with her son, Daniel, and he daughter Anna, about a year ago and took up their residence near the corner of Tatlow and Ninth streets. The deceased was 70 years of age and had enjoyed good health until a few weeks ago, when she began to decline. Much sympathy will be felt for the survivors. The funeral will be held on Saturday morning at 9 o'clock from Hayner Bros., undertaking establishment, to the Roman Catholic Church. Interment will take place on Garden Island.

Indians Send Sympathy.

The following is a copy of the telegram sent by Charles Clifton Perry, Indian agent of the Naas district, to his Excellency the Governor General of Canada, to be forwarded to the Royal Family on behalf of the Naas Indians. The Indians express their sincere sorrow over the death of King Edward.-

"The chiefs and people of the Naas and Skeena district indian territories hear with deep regret of the death of his most gracious Magesty, King Edward VII. and desire to make known to Queen Alexandra, and the Royal Family, their sincere sympathy, and invoke the blessing of God upon the new sovereign King George V..

Respectfully submitted to your Excellency.

Your servant,
Charles Clifton Perry,
Indian Agent."
