QUICK MEETING OF CITY COUNCIL

RECORD FOR SPEED THINKS ALD. McINTYRE

But Nothing Was Done—Owing to Indisposition of City Clerk Woods Councillors Adjourned as Soon as They Had Assembled.

Last night's city council meeting was a record achievement if mere speed in opening and closing down a council meeting can constitute a record in city council work.

City Clerk Woods was not present as his recent almost continuous attention to the multifarious duties day and night, of his position, have told on him to the extent of bringing about yesterday for him an indisposition sufficient to confine him to bed.

Mayor Stork decided that in view of the importance of the subject of the city sewerage syetem likely to be broached, it might be advisable to adjourn the council meeting and this was accordingly agreed to on the motion of Ald. Mobley seconded by Ald. McIntyre.

"That's the quickest meeting we have ever had," said Ald. McIntyre as the councillors rose.

"Nearly as quick as today's Licensing Commission meeting," added a voice which was not, surely, Mayor Stork's?

And with smiles the councillors dispersed.

COMMENCE NEW PLANKWAY

On Tenth Street Between Third Avenue and Fraser Street

Messrs. Riley & Roberts began work today on the new 16-foot plankway on Fifth street between Third avenue and Fraser street. This is the plankway the need for which has been frequently emphasized by Mr. Prudhomme of the Savoy hotel. Provided the supply of lumber comes in sufficiently for the contractor's needs the work will proceed rapidly though the sewer construction work in progress at this point does not in any way facilitate matters.

OBSTRUCTIONS ON STREETS

Warning to Those Instructing Teamsters to Leave Wagons in Way

A. Stencernim, a teamster, appeared before the Magistrate this morning charged with having left a wagon obstructing the roadway. He was allowed to go on suspended sentence, after explaining that he had been told to leave the wagon there. Those who give the teamster orders to leave his wagon in such a position as to obstruct the road way in future will be called upon to explain the matter before the Magistrate along with the teamster.

RAILS TO BITTER CREEK

"Before the End of November," Said S. Harrison

S. Harrison has returned from Stewart where he spent a week looking after his interests there. He states that great progress is being made on the railway and the rails will be laid to Bitter Creek by November. The company is daily expecting the arrival of the rolling stock which is now on its way north. There are twenty-eight flat cars, a couple of cabooses and combination coaches as well as engines. There is also some $8,000 worth of machinery for the round house. The railway will soon be in operation.

PARIS STRIKE OVER

Men Abandon the Struggle and Return to Their Work on Lines

(Special to the Optimist)

Paris, Oct. 18.—The railway strike committees met this morning and after a brief conference formally abandoned the strike. Work was immediately resumed on all the lines.

Premier Briand takes the credit for breaking the strike by the strong repressive measures and the wholesale arrests of the strike leaders.

VERY FINE VEGETABLES

Brought Back From Hazelton by Messrs. Law and Benson

W. S. Benson and W. M. Law, real estate agents of this city, have returned from Hazelton laden like the Israelites from the land of promise with the fruits of the earth. The exhibit of splendid garden produce in the Law-Butler firm's window is a remarkable one.

Turnips, carrots, beans, leeks, and potatoes of superb growth and quality are on view there all grown by A. C. K. Sealey in the garden ground of the Omineca hotel at Hazelton.

For the short period of three years Mr. Sealey has cultivated about two acres of land adjoining his hotel, and from the first year he has raised splendid vegetables. The soil is first rate, and the climate perfectly adapted for gardening.

Mr. Sealey has this season grown cauliflowers weighing 23 lbs, one of this size was taken by the Inlander down river en route for Vancouver the other day. On the same journey a second fine head of cauliflower weighing 28 lbs. and grown by Mr. Sealy was consumed on board the steamer, and found excellent.

Mr. Sealey had intended to send specimens of his garden produce to the agricultural show proposed to have been held in Prince Rupert He has cleared by the sale of vegetables in th ee years he has been growing them, more than enough profit to pay for the lo.s he occupies

The interest around Hazelton is principally focussed on mining, but that the dis rict is also well adap ed for the cultivation of the soil is proved by the present ehxibit of produce in the Law-Butler window

On their return from Hazelton, W. S. Benson and W. M. Law are enthusiastic regarding the prospects of the district. They were unfortunately prevented from completing their intended trip to Aldermere owing to the lowness of the water on the river.

ROVE SEEMS TO HAVE ROVED

But Is Expected to Reappear Before Long

Harry Rove, an axeman, belonging to the survey party engaged on the Woodworth Lake water supply work for the city is missing today. It is thought, however, that he will turn up again all right in the course of a few more hours. He had been in the city, and having been a little convivial was rather wilful regarding the way he wanted to return to the camp by the head of the lake.

He landed from the launch intending to prodeed to the camp through the bush, and the launchman was unable to persuade him otherwise. Later as he had not returned, a search was made for him but he was not at once discovered. The city engineer's department expects to hear of his reappearance shortly, and very little anxiety is expressed regarding his safety.

PHILADELPHIA WINS EASY

(Special to the Optimist)

Philadelphia, Oct. 18—Philadelphia won easily in the World's Championship game today, the final score being Athletics nine, Chicagos three. Brown and Kling were the batteries for the Athletics and Cooms and Thomas for the Chicagoans.

HURRICANE IN FLORIDA KEYS

BELIEVED TOWNS HAVE BEEN DEVASTATED

All the Wires Down—Expected That Eighty Have Perished—Latest Report From St. Augustine Said Waves Were Breaking on City.

(Special to the Optimist)

Jacksonville, Fla., Oct. 18.—The fate of the people of Key West and other Florida towns is not known since the great hurricane swept the whole peninsula. The latest reports before the wires went down were received from St. Augustine. These were to the effect that huge waves were breaking over the lower portion of the city.

It is believed that eighty have perished. Three bodies have been recovered.

Reports From alloon Racers

St. Louis, Oct. 18.—(Special)—Reports from all the balloo s that started in the international race have been received. Probably every balloon record will be broken at this competition.

Wellman Not Heard From

New York, Oct. 18.—(Specail)—Up to noon today no further reports had been received of or from Wellman, on his voyage across the Atlantic in a dirigible, but no anxiety is felt as his last message said he would send few wireless messages as he desired to conserve power as much as possible.

Date Has Been Changed

Victoria, Oct. 17.—(Special)—The date for the opening of the legislature has been changed form November 17th to January 12th.

World's Championship Betting

Chicago, Oct. 18.—(Special)—After the defeat of the Cubs yesterday the latest betting was at even money whereas odds were offered on Chicago's team before.

Railway Strike at Winnipeg

Winnipeg, Oct. 18.—(Special)—A street railway strike is likely to occur here this afternoon, unless the company climbs down. The men have sent an ultimatum to the company, following the dismissals on Sunday.

On Most Important Mission

Manager Heiney, of the Phenix theatre went south on the Camosun, and since his leaving it has transpired that a most important part of his business is to be married. He said he was going to obtain the latest illustrated songs and new music for the electric piano.

First Cattle Train Leaves

The first shipment of live cattle over the transcontinental from Prince Rupert was made yesterday morning, when thirty-two head were despatched by Burns & Co. for the several construction camps.

FIERCE BRUSH FIRES

Two Villages Have Been Abandoned Women Are Fighting Flames

(Special to the Optimist)

Duluth, Oct. 18.—Fires among the heavy brush are again menacing. The villages of Twig and Pike have had to be abandoned, and many people have lost their homes. Women are on the fire lines assisting the men in fighting the flames.

THE LATE C. V. DAKE

Reamins Taken Charge of by Local Printers' Union

The members of the Printers' Union in Prince Rupert have taken charge of the remains of the late C. V. Dake who died as a result of self-poisoning in the Savoy hotel here. The remains will probably be shipped either to Nelson or Nevada when arrangements are completed. No inquest will be held the circumstances of the death being clearly established to the satisfaction of the authorities.

LEAVING THE KLONDIKE

Leading Law Firm of Pattullo & Tobin Going Out of Business There

J. B. Pattullo, a brother of the alderman, arrived here from the North Saturday evening and is looking over the legal field with a possibility of putting up his shingle here. Mr. Pattullo went to Dawson in the early days and for years has had the leading law practice there. At first the firm was Pattullo & Ridley, and in 1903 Mr. Pattullo became crown prosecutor, holding that position until a few weeks ago.

In the meantime Mr. Ridley had left and gone into business in Vancouver, and Major Harry Tobin took his place in the firm. He also came out by the same boat as Mr. Pattullo, and will join the firm of Ridley & McCrae of Vancouver.

Mr. Pattullo says he has had some thoughts of coming to Prince Rupert to practice ever since his brother came here, but he does not feel inclined to take hold just at present. He thinks that before doing so he would like to take a trip around the world, as, if he does not take advatnage of the present opportunity, there might not come another for many years.

PRESBYTERIAN CHURCH CLUB

Opening Takes Place This Evening

The opening ceremony of the Presbyterian Church Young Men's Club takes place this evening. There will be a short program and social function with light refreshments. Mayor Stork will occupy the chair, and the pastor, the Rev. F. W. Kerr, will speak upon the purpose of the club.

The excellent program of lectures prepared for the coming season should attract all who care to widen the scope of their interests in this city this winter.

The aims and objects of this thriving and well supported young men's club need no recommendation. Everyone knows how much such an organization has been needed, and the quick and lively response made to Rev. Mr. Kerr's initial efforts in this direction, proves beyond question how well the club's work will be appreciated.

Lord Kitchener Is Appointed

London, Oct. 18.—(Special)—Lord Kitchener was this morning appointed a member of the Council on Imperial Defence.

DR. CRIPPEN ON HIS TRIAL

BOTH OF PRISONERS PLEAD NOT GUILTY

Jury Impannelled in Short Order and King's Counsel Muir Taking Up Probably Whole Afternoon in Opening for Crown.

(Special to the Optimist)

London, Oct. 18.—Dr. Crippen and Miss Le Neve were both in the dock when the trial of the former started at the Old Bailey this morning. The clerk read the long indictment after which the two prisoners were called upon to plead Crippen pleaded not guilty.

The impannelling of the jury to try Dr. Crippen was then proceeded with and in a very short time was completed, and by half past one R. D. Muir, K. C., was able to open the case for the crown. This was expected to take up the whole of the afternoon. The court will sit until five thirty each day until the close.

Muir's address was calm and he recited the facts of the case only. He told of the intrigue carried on by Crippen while his wife lived, and declared that the presence of the wife was one physical obstalce to his happiness with Le Neve, the lack of means being another. The death of Belle Elmore removed both obstacles. He dwelt on a dinner party at Martinetta's when the couple were apparently on the best of terms. The moment the guests had departed, however, Miss Elmore dropped from the ken of the world; Crippen pawned her jewelry and in his account of her disappearance employed a whole tissue of lies.

Mr. Muir then related the story Crippen told Inspector Dew of his flight, and the counsel claimed that it was practically proved that the remains found in the cellar were those of Belle Elmore. Who but Crippen could have had the opportunity to put them there, he asked. Crippen's skill as a surgeon was shown in the very manner in which the remains had bee mutilated.

In conclusion the counsel dealt with the prosecution's theory of poisoning by hyoscine, and emphasized the purchase of five grains of the drug by Crippen. If the remains were not those of Elmore he would ask the jury to keep in mind what other explanation was there of the remains being found in that particular place.

Mr. Muir spoke for two hours.

The first witness called for the crown was Crippen's landlord who stated that Crippen had been his tenant for five years. The reason given for his leaving was the death of his wife.

Cross examined by Newton he said prisoner was exceedingly kind hearted to his wife and solicitous for her comfort. All references to Le Neve were cut out by the court.

Master of Black Art

The Empress theater will have next Friday and Saturday one of the most interesting entertainments of the season. The management has arranged with the well-known Professor Hoyle while on his trip to Vancouver to give a two-night demonstration of his art here, and the dates are now fixed for next Friday and Saturday. Professor Hoyle is a master in mind reading, hypnotism, legdermain and all the mysteries of Black Art. His demonstration differ very much from the usual performances in this line which everybody has witnessed before.

Don't forget next Friday and Saturday.

Date Aug. 18, 1910. GUSTAVE BERGER
Pub. Sept. 7. John Dybhavn, Agent

LATEST MINING NEWS FROM UP THE SKEENA

Lakelse Country To Be Opened Up By Incorporated Company.---Good Galena Strike.---First Claims Located on Hudson Bay Mountain.

The Provincial Gazette contains notice of the incorporation of the Lakelse Valley Development company with a capital stock of $200,000 divided into 4,000 shares.

The company is incorporated with quite large powers, being authorizied to carry on all kinds of real estate business with power to loan money and do general financial, merchantile and manufacturing business.

The personel of the company is not made known through the notice but it is believed that a syndicate of Vancouver men is behind the proposition. The company, judging from certain powers given it, intends to carry on a genera colonization scheme clearing the landl and sub-dividing it for the intending settlers.

Another Galena Strike

Another strike of galena ore is reported this week and the samples brought into town by the locators look as fine as anything yet found in that line. Five men are interested in the group of claims that have been staked. A. H. Risdale, Gordon McLellan, John Salt, Fred Foster, and H. B. Thorn. Three ledges have been discovered with a width of two or three feet and all carrying good ore. From town the claims are about thirty-six miles, three miles off the Babine trail, the point where they turn off being about thirty-three miles out. This leaves the new find about eighteen miles from the surveyed line of the railway with a water grade for the entire distance. Mr. Ridsdale is much elated over the discovery and looks to see quite a stir in the locality as the country close by is very promising and there is every reason to expect further locations.

Burn's Storehouse Robbed

A storehouse connected with P. Burns & Co.'s establishment at Mission Point was recently broken into and a quantity of provisions stolen amounting to about three hundred dollars in value. When the theft was discovered by the manager the next morning a search for clues revealed some pieces of boxes at the river's edge, indicating that the thieves had made away with their booty by canoe, and when the police were called into the case they had that much to go on. Search by the police brought to light the not wholly obliterated marks made by a wheelbarrow in the soft earth, and leading from this side of the Bulkley river to the house of P. Brown, a native. When the house was entered the goods were found and in a very short time Peter Brown and Austin Mathews, another Indian, were in jail. They were both held for trial before the county court.

Two cases of bacon, one case of hams, one case of butter, one case of lard, part of a quarter of beef, and a saddle, bridle and chaps, the property of Bert Glassey, were some of the articles stolen. Brown will be remembered as having his throat cut in a drunken row last winter and has been in jail since.

Interest in Mohawk Group

Frank A. Brown has purchased the interest of one of the partners, Gordon McLellan, in the Mohawk and Center Star groups on Bear river. These claims were recently located and are highly thought of by the owners.

Worth Three Dollars a Yard

H. M. Beach, manager of the Kildare Mining company reached Hazelton from the company's property on Manson creek and is going to Ottawa immediately. There was no attempt to work their ground on a commercial scale this year. There is a deal partially arranged for the sale of a majority interest in the property to a new company and the main object of Mr. Beach's trip this year was to demonstrate the value of the gravel to the engineer reporting on the proposition. A crew of four men was taken in about two months ago and after repairing the flume and emptying the pit of water they shoveled into the sluice boxes for four days, when they cleaned up and recovered $212 in nuggets and coarse gold. This showed the ground to be worth nearly three dollars a yard. Mr. Beach anticipates a favorable report in consequence and if the deal is completed it means that a heavy plant, capable of handling the gravel economically, will be installed next year.

Although admitted to be rich the gravel on the Kildare ground never was a poor man's proposition on account of the flat nature of the country. Tailings have to be elevated mechanicaily and for this purpose an hydraulic lift was installed. but its capacity is too limited to permit of enough gravel being worked to make a commercial success. More water is needed and that will have to be brought a distance of several miles. The recovery last year was about $12,000.

Transferred to Alberta

Kinfiston, Ont., Oct. 12.—Prof. S. W. Dyde, of Queen's University, has received official notification of his appointment to the principalship of the Presbyterian Theological College of Alberta, situated at Strathcona, and he has definitely decided to accept it. He will remain at Queen's until the close of the first 1911 session.

TAFT TO ASK FOR ECONOMY

PRESIDENT PREPARING HIS ADDRESS TO CONGRESS

Prospects of Reduction in All Executive Departments at Washington—Amendment of Sherman Anti-Trust Law Recommended.

Beverly, Mass., Oct. 13.—President Taft is mapping out for Congress a strenuous short session when it convenes this autumn, and his recommendations will include several measures for which the insurgent Republicans are fighting, according to authentic information obtained today by the United Press.

The President in his message, will demand the enactment of many new statutes embodying the recommendations contained in the Republican platforms adopted in many states.

Foremost will come the President's expression of a desire to secure a more economical administration and the recommendation that Congress co-operate with the governmental departments in bringing this about.

Taft will recommend the passage of a law permitting the development of water power on public lands by private capital, with the government retaining the power of using a restraining order where necessary.

He will urge the amendment of the Sherman anti-trust law so as to permit railroads to enter into limited agreements regarding rates, subject to the approval of the interstate commerce commission. A federal charter for corporations also will be urged. The President will continue his announced policy of favoring the establishment of a strong merchant marine, and in this connection, will advert to the progress made in the construction of the Panama canal.

The patronage bunghole of the "pork barrel" will be partially plugged with a recommendation to senators and congressmen that they surrender a part of their appointment privileges in order that more government employees may be placed under the conditions of the civil service.

Other probable suggestions are for a new form of government in Alaska, the strengthening of the anti-trust laws, currency reforms and changes in the law governing the issuance of injunctions without notice

The Prince Rupert Optimist

DAILY AND WEEKLY

THE OPTIMIST is the leading newspaper of Northern British Columbia. It has grown up with the city.

ADVERTISING RATES are one price to all—25c per inch each issue for display matter. This rate applies to all advertising without distinction of quantity or time of contract.

READING NOTICES and LEGAL ADVERTISING are 10c per line.

SUBSCRIPTION RATES—DAILY, 50c per month, or $5.00 per year, in advance. WEEKLY, $2.00 per year. OUTSIDE CANADA—Daily, $8.00 per year; Weekly, $2.50 per year, strictly in advance.

DAILY EDITION. TUESDAY, OCT. 18

CHANGE IN OWNERSHIP

With this issue of the Optimist the control of the stock, plant and good-will of the Prince Rupert Publishing Company, Limited, together with the Optimist newspaper, passes into the hands of a syndicate of business men and henceforth the destinies of the business will be guided by the new Board of Directors, or by persons they may place in command.

The Optimist is a splendid example of the rapidity of development and success which attend business ventures in the West, and particularly in Prince Rupert. In July of last year it started as a small weekly, almost immediately usurping the position of the leading paper of the city. Its business prospered and the paper expanded. In May of this year it was converted to a daily and still it grew. Twice it has outgrown its quarters and now a third time the plant has to be moved to still a larger building.

The Optimist has the distinction of being one of the few newspapers in America which has made money from the day of its first issue. The credit for this belongs chiefly to the boosters of the city who have given it loyal support, which the management have endeavored to reciprocate in advertising Prince Rupert in distant fields. In doing this the paper has found favor at home and abroad, and beyond doubt no paper with the same circulation has as many live readers or as many friends. The confidence which the public have had in the paper is evidenced in the fact that three different offers have been made the Company to purchase the plant and franchise.

In securing the Optimist the new company have the most promising newspaper proposition in Canada and one which will bring them both pleasure and profit.

Up to the present time the editorial column of the paper has voiced only the personal opinion of the editor, and while criticism (the function of an editor) has struck in many places it has always emanated from the best intentions and was without malice or dishonest motive. Like all successful enterprises doing business with the general public the Optimist has received its quota of mud and false report but this has been accepted without bitterness and in good part as belonging to the game of politics.

Messrs. G. W. Morrow, C. H. Sawle and G. T. R. Sawle, the retiring shareholders of the company, have disposed of their entire interests and to the new owners they resign the safe keeping of the happy relationship existing between the Optimist and its clientele, and extend the hope of ever increasing prosperity to the paper and the Company.

G. R. T. SAWLE.

SUPERB RESULTS OF SILVER CUP

FINEST SHOWING IN B. C. OF HIGH GRADE ORE

Unanimous Verdict of Experts. Record Rush to Hazelton Country Predicted for Spring. Work on Silver Cup to Go on All Winter.

Among the passengers who travelled on the steamer Prince George for the South last night was E. L. Kinman, the managing director of the Silver Cup Mining company, whose property on Nine Mile mountain near Hazelton is held by the most disinterested opinion of experts who have seen the mines, to be one of the finest silver mining properties ever struck.

Already a shipment of about 40 tons of high grade ore has been sent from the Silver Cup to Port Essington, and the ore is still coming out. It will be sent to Swansea for smelting.

The mine is being developed with a force of six men, and tunnels numbers 2, 3, and 4 are being driven at present. Work will be continued during the whole winter. Mr. Kinman has sent up supplies to last the men until June 1, 1911. All four tunnels are in ore of the highest grade, and as early as possible in spring a big force of men will be put on to work on the building of a wagon road to connect the mine with the Skeena river which will place the mine on a permanent shipping basis. At no stage since its discovery has the Silver Cup property looked more promising.

The Erie property on Four Mile Hill is also showing splendidly. Surface work here has been carried on during the summer. No. 1 vein shaft has been sunk 50 feet, and a cross cut 12 feet around from the bottom failed to catch the hanging wall. No. 2 vein has been worked with an open cut run 200 feet long, 16 feet wide, and from 2 to 15 feet deep following along the top of an ore shaft which at that point shows 11 feet, 5 inches, of solid ore while the ore still goes on under the bank to an unknown width. The ledge has been cross cut 46 feet, and the foot wall has not yet been encountered.

Assays on this showing have run from $79 to $670 and an average of all assays made has been $253, while a general assay of the entire cut taken by S. Phipps of Prince Rupert gave an average return of $157.53.

This property is located on Four Mile Hill which lies within less than a mile of the Grand Trunk railway at an elevation of 900 feet above the steel. Work will be resumed on this property early in the spring with a full force of men.

Adjoining properties are all showing exceedingly good results, and numerous splendidly promising strikes have been made in the neighborhood of the mines mentioned. It is predicted confidently that there will be one of the most remarkable mining rushes to the Hazelton district in the spring that this country has ever seen. No mining man has ever come from this district with a single word except of praise for the country, and most of them are enthusiastic about it to the extent of saying that these properties give the biggest showings of high grade ore ever met with in the whole province.

There will be five men in this district next spring to every one who was there this summer, and it will be absolutely necessary either that the G. T. P. run freight trains as far as the canyon or that a number of extra steamers be built to cope with the demand for the transportation of supplies.

The latest details regarding the Silver Cup and other properties are always obtainable from G. R. Talpey of Prince Rupert, who, it is understood, has still a certain amount of this valuable mining stock available for investors at very reasonable rates considering the present prosperity and assured prospects of these splendid silver mines.

LAND PURCHASE NOTICE

Skeena Land District—District of Queen Charlotte Islands
Take notice that John W. Morris, of Victoria, gentleman, intends to apply for permission to purchase the following described lands:
Commencing at a post planted about half a mile east and one mile south of the south-east corner of T. L. 37,045, thence 80 chains south, thence 80 chains west, thence 80 chains north, thence 80 chains east to point of commencement, containing 640 acres more or less.

DOMINION IS NOT TOO EAGER

NEGOTIATIONS IN REGARD TO RECIPROCITY

Freer Exchange of National Products Acceptable on Basis of Concession for Concession—Pour Parlers Not Be Entered for Several Weeks.

Ottawa, Oct. 13.—A delay of several weeks is now regarded as unavoidable before pour parleis are entered into between Washington and Ottawa respecting the proposed reciprocity convention.

The minister of finance, William S. Fielding, who has recently returned to Ottawa from a prolonged visit abroad, probably will next week indicate to the American secretary of state, Philander C. Knox, that Canada is quite ready to enter upon the reciprocity negotiations suggested by President Taft last spring. Mr. Knox likely will be invited to suggest the time and place for the conferences. Whether they will be held in Washington or Ottawa or in both places alternately, will largely depend upon the inclination of the American secretary, but certain prominent Canadians are strongly urging that the meeting take place here.

While there have been a good many expressions of public opinion throughout the Dominion of late against any form of reciprocity with the United States, the idea being strongly opposed in many influential quarters irrespective of political party, nevertheless the Ottawa administration does not regard this opposition as representing the opinion of the majority of Canadians.

It is well understood here that the Canadian government will make no sacrifices, and that unless the United States government is prepared to grant concession for concession, the whole treaty negotiations will come to naught.

The feeling at Ottawa is that President Taft sincerely desires a successful outcome of the reciprocity conferences, and that there will be a disposition on both sides to deal with the matter in a fair and mutually satisfactory manner.

It is difficult to forecast on what points concessions will be asked, or along what lines they may be made but there seems to be little doubt that the proposals which will be made by Canada will be for freer interchange in natural products, and on this basis alone will any reciprocity agreement be acceptible to the people of this country at the present time.

LAND PURCHASE NOTICE

Queen Charlotte Islands Land District—District of Skeena
Take notice that I, Jeanie Wilkerson, of Victoria, stenographer, intend to apply for permission to purchase the following described lands:
Commencing at a post planted one mile north and one mile west of the north-west corner of T. L. 39,762, thence west 80 chains, thence north 80 chains, thence east 80 chains, thence south 80 chains to point of commencement, containing 640 acres more or less.

ENGINEER AND MANAGER REPORT

ON PORTLAND CANAL MINING CO.'S CONCENTRATOR

It is Working to Perfection and All The Mineral Is Saved—Only Lowest Grade Ore Put Through as Yet—Great Progress at the Mines.

Portland Canal Mining company's stock has always attracted interest in Prince Rupert and considerable local money is interested it in. To those who hold stock and those who are interested in any way the report of the engineer and manager of the company, W. J. Elmendorf, to President Dickie is given below in full:

"On September 24th both water wheels at the concentrating mills were run as a trial. Everything moved off in a satisfactory manner. From that date until yesterday one machine after another was connected, the crusher being started on September 27th. Yesterday the first ore was fed into the jigs and tables and our next work will be the adjusting and gauging of their capacity, bedding and jigs and gradually tuning up the plant for the serious work it has in store.

The mill is a substantial and complete one of which no engineer or company need be ashamed. It is built primarily with regard to economy of operation and with a future increase of capacity in view. A mill which apparently might answer the purpose could have been built for less money but it would not have lasted so long, done the work so well, nor operated at so low a cost as this. All the work of construction has been done well and the mill with its magnificent water power is worth many times what it has cost.

"It gives me pleasure to report that the separation of the galena from the pyrite and of both from the gangue is easily affected. The ore concentrates more perfectly than I expected, and I have not seen any from which the gangue is more easily removed.

"There has never been any reason to doubt that the ore would concentrate successfully, on the contrary, the tests of two years ago were quite conclusive, but the accomplishment of an undertaking of this sort, even if fully expected, is most satisfactory.

"The grade of the feed to the mill is for manifest reasons, low for the present. It would be folly to put high or even average grade ore through until the machines were adjusted to make the proper saving. As it is needed a better grade of ore will be supplied until the average ore which the mine can continuously produce is reached.

"Just what this grade will be no one can possibly tell but it will not be far from that given by me in my report of August 28, 1908, page 19, as the average from No. 1 and No. 2. ore dumps. Such ore will be more profitable than the tests made at that time would indicate because a much cleaner concentration can be made than was then effected.

"Development work at the mine has been uniformly satisfactory. The ore body now being opened by No. 2 and No. 3 tunnels is proving larger than any other in the mine. Both are in good ore from which high grade specimens may be obtained and which will average at least as well as the rest of the ore. At one point nearly five feet in width of almost solid ore is exposed and is notable for the increase of lead which it shows. The next one hundred feet on No. 3 level is most important ground and will develop splendidly judging from the surface and levels above. From the A raise a new stope has been started which will supply ore when needed. The assays from this point show a higher gold content than the average and this should make good feed for the mill, the ore is about four feet wide.

"The B raise is now up more than half way to the No. 1 level and has about thirty feet more to go. There is three feet of ore in the face of this working today. With its completion an underground connection down through the mine will be provided and the ore above No. 1 can be economically extracted.

"The tunnel on the Eclipse claim which develops the vein in place about 1000 feet north from and 400 feet below the No. 3 tunnel, shows a strong seam of ore mixed in character and about a foot wide, although it probably is not an arc shute. Work has been discontinued for the present but should be resumed next summer as this is a most important point from which to to prosecute development.

"I have so often expressed my confidence in the future of the mine that to repeat it now seems superfluous.

"Its developm nt is fully justifying my expectations and the ore opened is worth many times the company's expenditures for purchase, development and improvement and at no time in the past has it looked so well or promised so much as it does today.

"All the new buildings, which were badly needed both at the mill and the mine, are completed and occupied. These are commodious and furnish many comforts which should insure obtaining the best labor for the company's requirements."

Senator McGregor Has Accepted

Halifax, N. S., Oct. 18.—(Special)—Senator McGregor has accepted the governorship of Nova Scotia.

WHARF NOTES THIS MORNING

Princess Beatrice Brings Iron Columns for Atlin Construction Co.

The C. P. R. steamer Princess Beatrice arrived at 1 a.m. today with a considerable amount of freight and a number of passengers. After discharging her freight at the wharf she proceeded at 9 a.m. to the wharf of the Atlin Construction company at the new cold storage building to land ten iron columns there for the building. The Princess Beatrice brought no freight for the up river points as this traffic is now practically stopped for the season. The Port Simpson and Hazelton left this morning with as much freight as could be carried considering the state of the water in the canyon, but very little more freight can now be sent up river.

Accounted For

His face was artistically decorated with court plaster.

"Well?" we queried.

"I'm taking a correspondence course in the art of shaving," he answered.

Today's Steamer Bulletin

Kitselas, October 18, 1910.—8:0 a.m calm, raining, cold. Water 1 foot 1 inches below zero, falling.
