The Prince Rupert Optimist

DAILY EDITION

L. I, NO. 54 PRINCE RUPERT, B.C., THURSDAY, JULY 7, 1910. PRICE, FIVE CENTS

RANTED SUBSIDY TO DRYDOCK

nstruction Will Start Almost Immediately.

k to Cost Twelve Hundred Thousnd Dollars and Be Large Enough o Accommodate Vessels of Twenty Thousand Tons Burden.

(Special to the Optimist)

Ottawa, July 7—The government approved the application of the nd Trunk Pacific for a subsidy to a dock, of the second class, to be structed at Prince Rupert.

The company will at once build a dock to cost $1,200,000 which will large enough to accommodate vessels 20,000 tons burden. The subsidy hree and a half per cent of the total t and maintenance for twenty-five ars.

The marine department is also to ablish a depot at Prince Rupert at expenditure of $100,000, including t house and buoy service.

LEFT IN THE DARK

cal Officials First Heard of Subsidy Through the Optimist

When some of the G. T. P. officials re shown the dispatch received by Optimist from Ottawa in reference the new dry dock they were greatly eased although they all admitted that was news to them. They had not eived any word of the movement d could give no information as to en the work would be started or ere the dock would be located.

Last summer government officials visited Prince Rupert in connection with a site for the dry dock and at that time it was generally understood that Hays creek would be selected and so far nothing is known of any other location.

The belief, or at least the earnest hope, is that the work will be got under way at early date. The G. T. P. have no place on the Pacific coast in which to run their boats for repairs and they need one badly. The nearest dry dock to Prince Rupert is at Esquimalt and another is at Seattle. Both of those are too far away for the northern navigation.

The G.T.P. has been planning to get this work under way at an early date and when they do get into shape it will will mean employment for a hundred men and a big pay roll and that is what the city wants. An expenditure of $1,200,000 here this summer, fall and winter would help things along a whole lot.

W. C. C. Mehan, general superintendent of the Grand Trunk Pacific said he did not know the first thing about the proposed dry dock, as it had no bearing upon the railway construction. No doubt the dock would be on one of the spaces reserved by the government on the water front, but which one was probably only known to the government and the company.

Ald. Barrow remarked that a dock capable of accommodating vessels of twenty thousand tons burden would take in all big ships, as the Dreadnaught class came under that. Its construction would give a lot of employment of course, but the dock itself would be a floating affair the same as the one the government was to put in at Vancouver, and would in all probability be constructed in the old country.

IGHT PICTURES TO BE BANNED

FRAID WILL BE INCENTIVE TO RACE RIOTING

ondon Newspapers on Negro Rioting Which Followed Fight—That Women were Present is Sarcastically Commended Upon.

(Special to the Optimist)

Chicago, July 7.—A general movement on foot to prevent the fight pictures eing shown in the central and southern ates, where the race feeling is high. is feared it will have the effect of gain arousing the negroes to violence.

Capetown, July 7.—The pictures of e Johnson-Jeffries fight will not be permitted to be exhibited here, for fear ey might produce race riots.

London, July 7.—The newspapers f the metropolis came out strong esterday in denunciation of the race iots that followed the Johnson-Jeffries ight. The Globe sympathizes with the hite men called upon to cope with the renzy of "The blatant blacks". It ays that it is against human nature o expect the white to accept the insolent assertion that the victory of Johnson has established the superiority of the negro race. The Star says: "When next we are shocked by the sight of Spanish women at a bull fight, we must remember that in an Anglo-Saxon community we saw the weaker sex witnessing almost naked men pounding each other."

FOR MAIL ON PRINCE RUPERT

ALDERMAN McINTYRE WEARY OF SUCH MONKEY WORK

Mayor Stork Asked by the Council to Wire Postmaster General—City of Seattle is Willing to Carry Mail For This City.

There is a possible chance of the Str. Prince Rupert bringing up some mail from the south next Wednesday. Ald. McIntyre got tired of such monkey work as has been going on in the post office department and he brought the matter to the attention of the council. Some time ago, he said, mention had been made of lack of service, and he wanted to know if any steps had been taken to notify the Postmaster General, No one answered, so Ald. McIntyre moved that the mayor be authorized to take the matter up with the Department at Ottawa at once. Ald. McIntyre said that the American boat City of Seattle had expressed its willingness to bring mail up. It had no contract and the local post office staff would have to pack the mail from the boat to the post office, but, he guessed, the staff here were not so accommodating as they were in some other places.

However the mayor will communicate with Hon. Mr. Templeman who is now in Victoria and endeavor to have mail come up on the Prince. Rupert next week.

Ottawa, July 7.—(Special)—Sir Wilfrid leaves this morning on his western tour.

AFRAID OF THE WOMEN.

(Special to the Optimist.)

London, July 7.—Both sides in the House of Commons are trying to dodge the suffragist bill, the immediate purpose of which is to give women property - holders votes in parliamentary elections. The Globe says its passage would mean that women would dominate Parliament and direct the policy of the nation at home and abroad.

ONTARIO TAKES IT UP.

Will Oppose British Columbia's New Companies Regulations

(Special to the Optimist)

Toronto, July 7.—The Manufactures' Association has decided to take up British Columbia's new company law compelling registration of companies from other provinces, and promises to make a strong fight against it.

Refuses to Interfere

Victoria, July 7.—(Special)—In reply to the many deputations from Vancouver and other points that have waited upon Premier McBride, he has declined to interfere in the enforcement of the new companies act.

ALDERMEN HAVE USUAL SCRAP

ALD. HILDITCH AND LYNCH ARGUE POINTS ON ASSESSMENT.

Getting Started With Street Work Is Very Slow—Streets Committee Do Not Agree — Engineer Estimates Amount of Rock to Be Removed.

Engineer Clements submitted a report on the amount of material that would have to be taken out to bring First, Second and Third avenues and the cross streets to grade. The number of yards to be taken out is as follows:-

First Avenue—Cubic yards to be removed	53,501
Second avenue	65,453
Third avenue	21,474
Fraser street	3,388
Park avenue	5,465
Beach street, Water street, McBride street and First street	3,839
Second street	1,073
Third street	12,438
Fulton street	3,553
Fifth street	12,785
Sixth street	1,819
Seventh street	15,175
Ninth street	4,574
Eleventh street	2,603
	221,244

Ald. Hilditch said that this was the only report the engineer had yet been instructed to get out. They had to go at this in a hurry and it is only an estimate. He believed, however, that they were close enough to work on.

Ald. Lynch said the report was not intended as a working report, but for the information of the council.

Beach Place.

The report of the engineer on the cost of a 16 foot plank roadway on Tenth, Eleventh streets and Beach Place was received. The cost of material and labor will be $3,585.45 cost of excavation $470.25 or a total of $4055.70. The

PRESIDENT OF PORTLAND MINE

Why the Stock on the Market Fluctuated in Price.

Mr. Dickie Thinks Settling Day at the Banks Had Something to Do With It, and General Depression Everywhere the Rest.

C. H. Dickie, president of the Portland Canal Mining company, was a passenger on the Prince Rupert from Vancouver to Stewart. Before the boat left here last night he was asked about the recent flurry on the stock market, and how it happened that Partlands dropped as low as thirty last week.

"Just in the natural order of things commercial," was his smiling answer. "Look at how the prices of railway and industrial stocks dropped on the New York and other exchanges. There was a general depression everywhere and we in Vancouver felt it also."

"Then, for another thing, it was yearly settling day at the Vancouver banks, and some people found themselves more short of cash than they thought; so they let go of the stocks they were holding for speculation or investment in order to make their balances good.

"I cannot say that our stock was overestimated, for present conditions would contradict that explanation. I have learned since I have been in Prince Rupert that our stock has gone up again, and this morning reached 40 1-2. This tends to show that having got over the temporary embarrasment of settling day the public again turned its attention to stocks and a renewal of confidence in them.

Of course these fluctuations in the market do not effect the operation of the mine in any way. We have ample money in the treasury and are continuing the development of the mine. We have over fifty men at work and I am going to spend a couple of weeks at the mine to see how the work is progressing. I am informed by reports that our aerial tram, one and five-eight miles long and at an altitude of 2000 feet, is working well and that the concentration mill is successful. We shall ship concentrates in August and we have what is known as a double concentrator, which separates the galena from the iron pyrites at one process. By doing this we shall be able to get much better terms from the smelter

"I do not know which smelter we shall send to; either Trail or Tacoma, I suppose. The iron concentrates are.. just what any copper smelter wants, so we hope to get good rates.

"Our twelve claims are situate on Glacier creek, a tributary of Bear river. This is seven miles from Stewart by the trail and the new railway goes close to our concentrator. Not that the railway cuts much figure, as we could haul our concentrates the four miles to tide water at small cost.

"We have an air compressor on the way called the Canadian Rand, what is known as a six-drill compressor. When we get that going we shall be turning out ore is good shape. Our tramway is now carrying down the rough rock out of the way, and material and supplies up to the men."

CITIZENS GET MONEY BACK

COOTE REFUNDS DEPOSIT ON THE WATER QUESTION

Puts Up a Bluff That the City Will Not Cet the Three Hundred Inches of Water the Council Has Applied For From the Government

The citizens who organized themselves into a water company and put up $1000 for a $30,000 option on the Woodward Lake water, have been presented with their thousand bucks. Jos. Coote, who is associated with and represents Mr. Woodward, arrived in town on the Prince Rupert and one of the first things he did was to hunt up Ald. Pattullo and present him with the cheque. Needless to say the action was something of a surprise and took the breeze out of the alderman's sails.

During the conversation Mr. Coote offered to bet Ald. Pattullo a silk hat that the city would not get the 300 inches of water asked for from the government and he stated that the company would not think of selling out now for $30,000.

The members of the council, however, were not particularly alarmed and the mayor said "Well, we'll get it eventually and it will not cost anything like as much as that."

Unionist Leader Dead

CUT HIS EYE WITH A BOTTLE

MICHAEL DEAN TOOK A DRINK WITH SERIOUS RESULTS

Geo. Mundon in the Police Court Charged with the Deed—Whiskey Bottle on Rupert Road Was the Cause—Result Later.

Michael Dean is sporting a very nasty looking eye the result of accepting a drink out of a bottle. He was on Rupert Road last night and claims that Geo. Mundon, a half breed, asked him to have a drink. He accepted the bottle of whiskey from Mundon and quenched his thirst. He does not say that he drank too much or what caused anger but the fact remains that he was hit in the eye with a bottle and he is a sight for the gods today. Mundon was arrested and appeared before majistrate Carss this morning and was remanded.

Another man appeared on Second avenue on Sunday with a similar injury, although there is not likely to be a police court case over it. He with a number of other habitants worked the blind pig operators for free drinks on the grounds that they were spotters for the town police. The game worked for several days and during that time the boosers maintained a pretty fair jag. One operator got wise and when the fellow referred to appeared on Sunday for his usual hand out the operator handed him a peach in tne right eye- similar to the one Jeffries got in the third round. Mr. Would-be-spotter made a hurried exit and on the advice of friends went to a doctor for repairs.

WHO IS THE GOAT?

The Saturday Sunset has discovered a goat in the Provincial Government, and gives a reason for its existance. The goat's job is not an enviable one, but perhaps the emoluments are. The Sunset says:

"It is daily becoming more apparent that Premier McBride believes in the principle of having a goat to bear the sins of the government. No human government can avoid making mistakes and none can get along without treading upon the corns of some section of the community. And no politician as shrewd as is Premier McBride will voluntarily assume the responsibility for the sins of his own administration if he could avoid it. And Premier McBride is ducking responsibility with considerable adriotness these days.

During the seven months the government has been in office since the elections it has effected a record something like the following:

Antagonism of the Local Optionists when they found that they had been goldbricked by a loaded plebiscite.

Antagonism of the liquor interests by drastic amendments to the license act for which the Local Optionists so far have failed to express any gratitude, while on the contrary they now threaten to try out that utterly discredited measure, the Scott Act.

Antagonism of Prince Rupert, which is complaining loudly of defects in its charter.

Antagonism of a large section of the business community which complains of the absurd provisions of the Companies Act effecting outside concerns doing business in British Columbia.

Antagonism of real estate men who have been barred from the registry offices of the province in the interests of the legal profession.

Antagonism of the canners who have expressed strong dissatisfaction with the government's regulations regarding boat ratings.

Antagonism of a large section of the ratepayers of Vancouver for the gratuitous interference of the Attorney-General in the matter of the False Creek bylaw.

These are a few of the sins which the goat is now packing around with him though there are many others. The first successful answer to the query, 'Who is the goat?' will receive five cents worth of frest roasted peanuts as a reward forthe Herculean mental effort required to solve the riddle."

If you don't get a license to-day boys maybe you can fix it up with the King of Comox avenue.

The wind may blow where it listeth but it cannot get away from Frank Dowling's new government gauge on the crest of Fifth avenue bluff.

The dynamting of salmon is a felony which should be punished severly and every true citizen of this place or this district should assist in bringing the culpits to jail. Salmon fishing is by long odds the greatest industry in this country at the present time, and the wanton destruction of hundreds of spawing fish to get a couple of paltry meals is a criminal waste of wealth.

Great credit is due the hustlers who exhibited so much energy and patriotism in organizing and carrying out the celebration of Dominion Day. These public functions usually bring more criticism than praise to the promoters who give their time and energy without hope of recompense. Yet it might be casually mentioned that if the committee who spent large sums in decorations would take down and preserve the trimmings of the late holiday there would be a good asset on hand for the next celebration.

ANOTHER LOAD OF STEEL

Bannockburn Leaves Sydney in July and Arrive here September

Word has been received in town that the Str. Bannockburn will leave Grenock Scotland, on June 22 for Sydney where she will load 5,000 tons of teel rails and bring them around here for the G. T. P. THE CLERK'S ORDER

Must Accompany all Bills Sent to The City Council

Notice is hereby given to merchants and all others who may have occassion to work for the city that their bills or accounts will not be recognized unless the order has been given by the city clerk. He is the only person who has any authority to purchase anything for the city. Ald. Pattullo, chairman of the finance committee requested the press to state that this committee would pay no more accounts without the clerk's order.

The city pay roll amounting to $2093.40 for June and $96.15 left over from May was passed and the clerk instructed to issue cheques for the same.

Didn't Wake the Police

Mr. Kinman, the mining operator, is staying at the Grand Trunk Inn. He says that he and Mrs. Kinman had their rest broken after midnight by the brawling blasphemy of a drunken Skeena river fisherman. The disturbance lasted for some time, he says, and he is surprised that no one appeared to put an end to the outrage on decency. He has been in mining camps but had never heard such vile language. It woke up everybody except the police, he adds.

Yesterday we checked into stock a new shipment of corsets which now makes our stock complete in sizes and in range of prices.

They comprise all the latest models and values run from $1.00 a pair and upward.

engineer then outlined the assessment for the property benefited by the improvements. The road will only last for two years when a new deck will be required and the superstructure repaired.

Ald. Hilditch said that the beauty of the engineer's report was that no man was taxed whose property was not on the street benefited. Ald. Lynch's report taxed men adjoining the street and they had to be taxed the full amount when the road was graded past their place. It was not fair or equitable.

Ald. Lynch stated that he would not discuss the fairness or unfairness of his own report. He spoke strongly in favor of it however, and he could see no reason for condemning it.

Ald. Hilditch and Ald. Lynch had their usual argument. They disagreed on the system of assessment.

Ald. Pattullo wanted Market Place included in section one local improvement district and Mayor Stork will take up with the government the matter of the government paying its share of the local improvement assessment, or else sell the lots so that they can be assessed.

Ald. Hilditch then urged that the general work of permanent improvement be rushed even at the expense of other work. The people want the work started at once.

Ald. Pattullo moved that the council get back to the engineer's report on Beach avenue plank road. He and Ald. Mobley moved that the report be adopted

Ald. Lynch moved that the clerk have the necessary advertisement published in the papers.

APPARATUS WORKS FINE

Weather Recording Station at Prince Rupert in Operation.

B. E. C. Webber, assistant director of the Dominion Meteorogical bureau, has completed the erection of the weather observatory house on the bluff and says the instruments are working fine. He believes a better site for it could not be discovered. The government wanted the station on Digby Island, but the Grand Trunk Pacific desired it to be in town and of course it should be a town. The records should be where they could be made available in a law suit and in various other useful ways, and Digby Island was too far away for this. For weather observation purposes the site in superior to any except on a lighthouse.

"The little house will look fine when it gets a fence around it, and will be something to show to Sir Wilfrid," jokingly observed Mr. Webber. "It will look as picturesque as the grave of a famous Indian chief."

The Best Bank is a Bank of Earth

Only the fool trusts in Bank Bills and Yale Locks. Man is a land animal. Real Estate is the first essential of his existence. To be born landless is to be born with your life mortgaged. Prince Rupert has the Canadian Nation behind it and when the Dominion slumps she will slump, but not before.

The price of the same value in Real Estate is double what it was ten years ago because the world's stock of gold, in which value is measured has doubled. In ten years Rupert Realty will have increased at least five times in value, and the price of that value will be double that ten times to-day's price. In two months the City Council will be paying out $2,000 a month in wages, then the demand for the very limited supply of cheap lots will raise them to dear lots. Use foresight.

I specialize in cheap lots on easy terms. $30 cash and $15 a month buys beautifully situated level lots at $150, Others $200 to $300. Grand double corner on Hays' Creek, $525, Block 1, Sec. 8. Double corner next block to Seal Cove Circle, $600. Never will you get such cinches.
