FOUR CANDIDATES PROPOSED

CROWDED CITIZENS' MEETING IN EMPRESS THEATRE SUGGEST MANY NEW CANDIDATES

Stork Supporters Had Half the Meeting—Other Names Well Received—V. W. Smith was Chairman

Four candidates for mayor, and twenty-seven candidates for the council were chosen at the public meeting held in the Empress Theatre last night. The theatre was crowded to the doors in response to the call for a citizen's meeting. It was very plain from the beginning that Fred. Stork's friends were out in force with the intention of forcing him, if possible, upon the meeting.

After the moving pictures, V. W. Smith was elected to the chair, and C. V. Bennett was chosen Secretary. Chairman Smith asked for one of the dodgers calling the meeting.

T. D. Pattullo asked the chairman who called the meeting and what was the purpose of it. He did not think it had been sufficiently advertised.

At this point some one claimed to be one of the oldest electors in Canada nominated Frederick Stork for mayor. That started the Stork faction and they showed their hand at once, by cheering and calling for "Question".

Chairman Smith stated that Mr. Stork was already in the field. It was foolish to nominate him again. This meeting was for the purpose of bringing out candidates not already in the field.

Mr. Pattullo claimed that a public meeting had a perfect right to nominate anyone they saw fit, whether he was in the field or not. At the same time Mr. Pattullo did not wish it thought that he was committing himself to support Mr. Stork by these remarks.

A Two-thirds Vote

As was reported on the street in the afternoon, J. R. Beatty, a prominent Stork booster, arose and moved that any candidate chosen by the meeting should get a two-thirds vote.

This was promptly taken up by Mr. Pattullo who wanted an amendment making it a fifty per cent vote.

Finally both motion and amendment were withdrawn and it was decided that no vote be taken.

W. J. McKenzie called for the meeting to be orderly. He said Mr. Stork was in the field. If anyone else had a candidate in view, this was the time to bring him out. As mayor of Prince Rupert we want strong, energetic, business men who are not afraid to talk to Cabinet Ministers or heads of departments, or to the members of the council.

Dr. Quinlan thought the question of candidates had been discussed long enough. Prince Rupert is in a peculiar position and a good deal depends upon the first mayor and council. We want the men who can do us the most good; men who can and will be in accord with the Provincial Government and can approach the Government with a full knowledge of our requirements. For this position, and for the first term, he thought William Manson, M. P. P., was the best man in the city for mayor, and he nominated him. Several seconded the motion.

The nomination of Fred. Stork was included in the list, it being finally made by F. T. Bowness and W. J. McKenzie.

Chairman V. W. Smith was nominated next.

T. D. Pattullo, nominated by Messrs Black and Scott was the fourth chosen, and the nominations were closed.

For Aldermen

Nominations were asked for aldermen and the following came in quick succession:—

T. Y. McKay,
C. W. Peck,
R. Douglas,
W. P. Lynch,
G. R. Naden,
G. W. Morrow,
Dr. W. B. Clayton,
F. H. Mobley,
Dr. A. A. McIntyre,
M. M. Stephens,
J. H. Hildridge,
George W. Arnott,
Thomas Dunn,
H. H. Clarke,
D. W. Morrisey,
A. R. Barrow,
John A. Kirkpatrick,
V. W. Smith,
J. Y. Rochester,
Dr. H. E. Tremayne,
T. D. Pattullo,
J. F. Macdonald,
J. E. Merryfield,
J. C. McLennan,
J. McMillan,
F. W. Hart,

It was decided to hold another meeting on Thursday night, to give the candidates an opportunity to present their platforms. The gathering then adjourned.

A Bloodless Duel

Paris, May 4,— Count de Lesseps and Count de Peligny fought a bloodless duel yesterday in which six shots were fired. The "honor" of the contestants was not satisfied, as all the shots missed their mark. They will meet again.

7000 Houses Burned

Tokio, May4,— Hundreds were injured and many are missing as a result of a great fire which destroyed 7000 houses in Aomori, Japan. Ninety per cent of the city has been wiped out and 40,000 are homeless. Soldiers have taken charge of the ruins to prevent looting.

Tuesday Baseball,—Seattle 8, Vancouver 2; Tacoma 4, Spokane 2.

Collision on Atlantic

New London, Conn., May 4,— News was received here by wireless which tells of a collision on the coast between the steamers Ligonier and Satnurio. The former was reported sinking, but the crew were being taken off. Wrecking tug Pasco has been sent in search of the damaged vessels

Criticised the King

London, May 4,— A sensation has been caused by the announcement that the Contemporary Review has withdrawn its May issue because of an article severely criticising His Majesty the King. The name of the author has been kept secret, but the writer said his Majesty was indifferent to public affairs and too fond of dinners and races. He blames the monarch for allowing a crisis to arise between the Commons and the House of Lords.

Band Did Not Donate

Ottawa, May 4,— The Conservative members in the House of Commons to-day have demanded a list of the names of those who contributed to the Fielding fund, declaring the report has been circulated that the Bank of Montreal had contributed a present of $25,000 to the Finance Minister. Premier Laurier pledged his word that the report is untrue.

FERRY AT ZANARDI

G.T.P. WILL TRANSFER RAILS AND MATERIAL UNTIL THE BRIDGE IS COMPLETE

"Track laying will be pushed with all possible speed from now on" said Mr. Chamberlain, General Manager of the G. T. P. Ry., to the Optimist at noon to-day. "We have secured the scow Georgia and we are putting in ferry slips at the Zenardi Rapids to ferry the material across. We expect the track laid right up to the top of the river ready for trains to run over by the time the bridge is completed. The work has been progressing very fast, but we expect it will go a little faster now."

"What about the Zenardi Bridge," asked the Optimist.

"We are getting along very well with it. If we have no difficulty with the last two piers, the bridge contractor should be able to commence the erection of steel by the 1st of June."

Asked about the station, Mr Chamberlain said he saw no reason for altering the original plans which provide for the station alongside the hotel. In order to do any excavating the hotel will have to come out, and the General Manager did not see how that could be done at present.

As for the work here, Mr. Chamberlain is satisfied. He has been on a steady tramp from the time he arrived and has gone over most of the ground. This afternoon he went over the grading being done to the end of the docks and around the island. This morning he went over the western yards. The chief feature in Mr Chamberlain's mind appears to be to rush the work all along the line, and that means putting on a larger force and a bigger payroll.

A TRIBUTE TO EARL GREY

Dominion Political Leaders Praise Governor-General

Ottawa, May 4,— A striking tribute was paid Earl Grey, Governor General of Canada, in the House of Common yesterday, when Sir Wilfred Laurier and Leader R. L. Borden, with their followers, united in placing an address of appreciation of him on record.

The Premier said Earl Grey would go back to England as good a Canadian as any. He believed the Earl's work was the best answer to those who did not favor the appointment of a Britisher as the next representative of the King in Canada.

The steamer St. Denis arrived about 10.30 this morning from Vancouver, and proceeded to Stewart, to which port most of her cargo was consigned.

G.T.P. GENERAL SECRETARY

TALKS ABOUT THE WONDERFUL GROWTH OF THIS WONDERFUL CITY OF THE NORTH

Congratulates The Optimist on its Development into the Daily Field ---Looks for It Every Week

H. Philip, general secretary of the Grand Trunk Pacific Ry., Montreal, is one of those in Mr Chamberlain's party. To the Optimist Mr. Philip stated that this was his fourth trip here The first one was in 1907, before the place had been selected as the terminal port. He was here a year ago before the sale of lots, and when they were just beginning to construct the plank roads. There was practically no building then. Each visit has seen a wonderful difference in the place. When he was coming up the harbor this time and could see the road bed all graded and tracks laid and then as he rounded the island and caught a glimpse of the city and all the buildings that had been put up he was filled with wonder He did not think such progress was possible, although he had all faith in the city and the people here.

He was not only surprised, but he was delighted with the substantial business blocks going up, as well as the fine residences. He was also surprised at the amount of construction now going on. He looked for Prince Rupert to be one of the greatest Coast cities, and deemed investment here was as safe as any bank. When the railroad is completed it will develop a country that will mean much to this city and he could not see where there would be any slump in prices. This city would be the exception. While it is booming now, it is not a bubble, and it will continue to boom.

In all his trips to this great city, Mr. Philip has always struck fine weather and his visit has always been of the most pleasant. He congratulated the Optimist on its development into the daily field. He always looked every week for the Optimist, to learn what was going on here and he would be glad to get the daily edition in future.

A GREAT COLLECTION

Of Curios From all Parts of the World

Captain Wm. Berndt, of the Humboldt S. S. Co's Germanicus, made many warm friends during his two weeks stay in Prince Rupert while his boat was being unloaded of the rails for the G. T. P.

The captain has been 30 years a sea captain and, like thousands of others, went to sea soon after he learned to walk. His boat arrived here on April 12th, and cleared again for Nanaimo for orders. The Germanicus was from Hamburg, Germany, and she took her cargo at Cape Breton.

While in Prince Rupert Captain Berndt was introduced to Captain Buckholtz of the Henriette, and during the early stages of their conversation, they discovered that they had been shipmates 32 years ago. At the time, Capt. Berndt was second officer on a German ship and Capt. Buckholtz was a seaman. They had a great talk over old times, as neither had met during the past 32 years.

One of the most interesting features of the Germanicus, and the one which attracted most attention from the visitors, was the captain's collection of curios. His little museum is a very valuable one and contains specimens of bones and relics that many National museums would greatly prize. The genial captain has been collecting curios ever since he went to sea, and he has something from practically every country in the world. The most important feature of the collection is that every specimen is genuine. Among other things are guns, revolvers, pistols of all kinds and ages and from many countries, including the old Arabian flint-lock and the old silver barrel blunderbus. He has tusks and teeth of almost every kind of animal. There are numerous spear-heads and arrow-heads, including a very pretty little blue amethyst arrow-head. There are also many specimens of petrified oysters wood, leaves and part of a mammoth tusk

Among the assortment of knives is one that was used by the head hunters of Borneo. The popular pastime of those gentlemen is to hunt men and behead them, and each time a head was secured a little gold plug was inserted in the blade of the knife. This one had 72 plugs in it. The Captain secured this prize while he was in Borneo. The owner had beheaded a man and had been captured by the British. His knife was taken away from from him and also the last head it severed. The captain secured both and has the skull yet.

There is a shell fired during the seige of Ladysmith, and part of a Japanese ese shell fired during the attack on Vladivostok, as well as other shells

In his collection are beautiful specimens of alligators and crocodiles, stuffed; some 20 or 25 different kinds of snakes; some 50 assegais, a javelin used by tribes in South Africa, human, and other skulls from many countries; and many other curios.

While in this city the Captain added to his collection a totem pole, and several other Indian relics.

Telegraph Briefs.

Vancouver, May 4,— The steamer Marama arrived here last night with 500 passengers from Australia. It was the largest list ever carried.

Vancouver, May 4,— License Inspector Archie Robinson, who has been in the city employ for ten year resigned his position yesterday.

New York, May 4,— United States Court of Appeals has affirmed the judgment of the Circuit Court in fining the Standard Oil Co. of New Jersey.

London, May 4,— Captain Peary is a popular idol here and a great crowd assembled to cheer him on his way to the Royal Societies Club, where he was banquetted last night.

Vancouver, May 4,—T. S. Taylor, the editor of the Chicago Mining Journal, is in the city and will go North to inspect his Stewart holdings and the various properties around the camp.

Kansas City, May 4,— More clashes have occurred in the trial of Dr. Hyde, when one counsel accused another of stealing his notes. The grand jury and judge refused to interfere.

MARINE.

The Rupert City will arrive from Vancouver to night. She will have on board some 300 tons of general railway supplies for Foley, Welch & Stewart.

The Princess May will return to-night from her first trip to Stewart, and will proceed to Vancouver after loading here.

The May took 70 passengers from Prince Rupert to Stewart on Tuesday in addition to those from the South.

The steamer Hazelton left at noon to-day for Hazelton. She took a full list of passengers with her, including a large number of Indians.

The water in the river has been steadily rising until now it is only 1 foot 2 inches below, which is a very good depth for navigation.

LETTERS TO THE EDITOR

Editor Optimist:

Dear Sir—Fifteen bronze medals donated by the Governor General are awarded each year in the Province on the results of the high school entrance examinations.

The Education Department selects the places that are to have the honor of receiving a medal. Politics seem to have considerable weight in such selection. Merit certainly cuts no figure, because in 1906 the city of Enderby sent up the best scholar in the Province at these examinations, who won 842 marks, but got no medal. In 1907 Port Essington sent up the best scholar, who got 834 marks, but got no medal.

Prince Rupert should therefore claim a medal this year, because it elected a Government supporter to represent it at Victoria. J. N. MUIR.

Any unsold cheap lots I may have left after 10 p. m. to-morrow (May 5), advance in price $50 each. — CHAS. M. WILSON, Third avenue and Eighth st.

THE LABOR PLATFORM.

The Labor organizarions have drawn up a platform for municipal candidates to accept or not. It is given here:

THE PLATFORM

That eight hours constitute a day's work in all departments, except the fire department

That in all contracts let by the city, a clause be inserted calling for the eight hour day and the union rate of wages. If no union exists, the scale to be not less than the Vancouver rate of wages for the same work, and that $3 constitute the minimum wage.

That the Typographical Union Label be placed on all city printing.

That no advertising matter be placed with any newspaper not carrying the Typographical Union Label.

That on all appointive committees or boards organized, labor to have representation when the number of appointees exceeds two.

Two of the candidates at present in the field who have accepted the above planks in their entirety are, Dr. W. B. Clayton and Mr. Hildritch.

Second Payments.

Attorney General Bowser has announced that second payments on Prince Rupert property will have to be met promptly. The rule will be rigidly enforced. The amounts due will not be allowed to stand on payment of interest.

The second payments due next month amount to something like $200,000 with interest in addition to that sum, while second installments on lands purchased from the Grand Trunk Pacific Railway Company also fall due at the same time. They aggregate approximately $1,000,000

CHARITY or BUSINESS
— Which? —

THE germ of both Life and Fire Insurance had its rise in the custom of taking up a collection for the stricken family. We all chipped in in the hope and expectation that if we were snuffed out by either sickness or accident, the neighbors would do as much for us. Life insurance avoids the uncertainty of leaving things to neighbors. It is a business plan, founded on laws of mathematics and sound economy, to provide for those dependent on us in case of death.

Life insurance is no longer a charity, or quasialtruism, any more than fire insurance is. Life insurance is a duty and a privilege. To eliminate the distressing results of death, through insurance, payable to business partners, wife, or children, seems but common prudence.

Lord Nelson in his will left his wife and daughter "to the tender care of the British Nation, to which I have given my life." And the wife and daughter gravitated to the Poor House; for what is everybody's business is nobody's business.

Don't leave your loved ones to the care of the public or the neighbors. The neighbors may have troubles of their own.

Cut out the risk and worry by insuring in the

DAILY EDITION WEDNESDAY, MAY 4

A FREE FIELD

The public meeting last evening resulted in a lot of new prospective candidates, and if fifty per cent. of them stand, the electors are likely to get a pretty fair list to choose from on the ballot. Just what these new candidates will stand for, or whether they will stand at all, remains to be seen. Whether or not any new candidates are secured as a result of it, the meeting was nevertheless productive of good. It gave the electors an opportunity to suggest the names of men they would like to see in the field, and the subsequent meeting will give the candidates an opportunity to express their policy. Publicity of public affairs is one thing that cannot be overdone. There was an apparent effort on the part of some to prevent freedom of speech and expression of opinion, but fortunately it was overruled. Everyone present—and there were 700 in the hall—had an opportunity to put up a favorite. This system is better than selections made at private meetings and caucuses. A candidate nominated at a public meeting at least has the support of some who are not ashamed to stand up for him in public. The "ticket" evidently recognised the value of such a nomination, and insisted on putting up all their candidates again.

The field is now a free one, and the fight will be on in a few days in earnest.

Will those prominent "ticket" supporters back up the anti-ticket nominations they made last night, or do they expect the public to take them for what is commonly known as "goshers."

Blind Tom, the pianist, used to applaud himself and get away with it. The habit seems to have been bequeathed to some Rupert public men.

The Stork policy does not include the granting of a vote to aliens, but there is nothing to prohibit them making a noise like an elector.

Jack Beatty's Bowser-like legislation would not go down with a Prince Rupert audience.

MARINE

The May will take the Beatrice's route one more trip.

The steamer Hazelton left for Hazelton this morning at 7 a.m.

The Royal will sail from Vancouver on Thursday for the North.

The Henriette arrived yesterday afternoon and will leave after the arrival of the Rupert City, for Skidegate and intermediate points.

Starting on May 12th., the Beatrice will leave Vancouver on Thursdays and arrive here Saturdays. Every other week she will make a trip to Stewart.

On May 25, a special trip will be made by the Princess May from Vancouver to Stewart, calling at Prince Rupert. A two day's stop will be made at Stewart and passengers will live on the boat.

TO THE ELECTORS.

At the request of many of the electors I have decided to be a candidate for election as alderman at the forthcoming election.

In order to place myself in a proper light before the public, I would say that I am free from all clique and party influence.

The first council of Prince Rupert will have many important issues to deal with, and if I am elected I will advocate and endeavour, to the best of my ability, to push through the following measures, and any others which may arise from time to time, and are of advantage to the city and citizens.

The immediate borrowing of as large a sum of money as the credit of the city will stand; if possible, a million dollars or more, this to be covered by the issuance of debentures of as long a period and as small a rate of interest as possible.

The immediate construction of permanent roadways and sidewalks in the localities where they are most needed.

The completion of an adequate water works and sewerage system.

The appointment of a competent city engineer and the immediate organization of a police force and fire department.

We are all aware that the railroad will not be operating into Prince Rupert for at least two years, but, in the meantime if we are successful in floating a loan of sufficient proportion we will be able to commence public works which will establish a payroll that will keep business going, and in these days of advancement, time is discounted many years ahead. It would be a wise policy to complete these works now to be ready for the incoming of the railroad.

The appointment of a competent building inspector, which, however, could possibly be managed by the chief of the fire department.

To protect, and also to assist in the advancement of all industries in Prince Rupert.

The inauguration of a publicity department to be under the control of one of the City officials, say the city clerk.

Dealing with the subject of liquor licenses. This is a matter entirely in the hands of the citizens. At the same time I have no hesitation in stating that I am in favour of the granting of Hotel licenses.

I strongly advocate that the City should own and operate all its own utilities, such as telephones, waterworks, tramways and electric lights, and to put them on a revenue earning basis by the appointment of competent managers.

That an eight hour day system be established for labourers and mechanics and that a fair wage be paid for same.

I am emphatic on the employment of white labour.

I would be in favour of contrac as well as day labour, as circumstances and nature of work will be a matter of economics for the council to consider.

If any further matters should arise which are of importance to the electorate, I am prepared to state my views definitely concerning them.

Yours respectfully,
G. W. ARNOTT.

MILE A MINUTE.

Items of General Interest From Port Simpson.

Special to the Optimist.

Port Simpson, Apr. 19.---On Friday last, at about eleven o'clock, the Anemograph at the observatory recorded S. E. wind a mile a minute for ten minutes. During the 24 hours the instrument registered 449 miles.

R. Boyd Young was among the seventy odd passengers of the Princess Beatrice bound for Stewart.

Mrs Jackman came North to join the Captain here and is at present a guest of Mrs Sharp at the Fort.

Mrs and Mr. John Flewin were passengers by the Princess May on Sunday, returning home after a holiday in the South.

Rev. and Mrs Jones of the Hartley Bay mission are spending a few days in Town and are guests of Mrs Raley at the Mission House.

Mill Alton, Lady superintendent of the hospital returned from her vacation by the Beatrice, and will resume her duties after a good rest.

R. H. Cole, whose family have already gone across to Queen Charlotte, will leave for there by the Henriette, taking cattle and other live stock.

His Lordship, the Bishop of Caledonia, came up from Rupert on Saturday to hold service in St. Catherines where a good attendance listened to an interesting sermon.

Miss Eusack of Victoria has come as Stenographer for the Hudson's Bay Co., while Miss LePage has accepted a position with the firm of Harry Smith at Stewart.

Mayor Rudge predicts a boom at Port Simpson to surpass anything yet on the Pacific Coast. He is rushing around and making all kinds of arrangements and preparations for the coming rush.

Dr. Kergin and family will move to Stewart in a short time, although the Doctor will still continue the management of the Port Simpson Hospital, much to the credit and satisfaction of the inhabitants.

William Lindsay Alexander returned home on Sunday from Liverpool after an absence of nine years in the old Country and with Atlantic steamers. Mr Alexander holds a first class Board of Trade marine engineer's certificate, and has already joined the Princess Beatrice with a view to entering the C. P. R., service.

Tidal Inspector Here.

Mr Sydney Hayden Tidal Inspector from Ottawa, has put in a new guage at this station. He will visit all tidal stations on the B. C. Coast before returning to headquarters.

Steamers Launched..

The Hudson's Bay Co's steamers, Port Simpson and Hazelton will be launched Thursday and Friday respectively. The new white deckers who joined the steamers after the Indian strike are beginning to feel above their present position and may not continue the "scab".

HOSPITAL COST $12,500.00

Superstructure Contract Awarded to E. H. Shockley

After being awarded the contract for the excavation and foundation for the new hospital, S. H. Watson & Co. refused to sign stating that they did not care to go on with the work. This was reported to the Hospital board yesterday afternoon by Architect Bailey, and the board decided to award the contract to F. Christian, who was the next lowest tenderer. His price was:—earth, 70 cents, rock $1.90, concrete $8.75. If he refuses to sign the contract, new tenders are to be called for, and a 5 per cent. deposit will be required.

Those present at the meeting were President J. A. Kirkpatrick, William Manson, T. D. Pattullo, H. H. Clarke, G. W. Morrow, A. Carss, E. K. Strathy, D. G. Stewart, P. I. Palmer and Secretary A. Cuthbert.

For Superstructure

Six tenders were received for the superstructure of the new hospital, as follows:—

E. J. Hicks	$12,745
R. Scott	16,684
D. H. Morrison	16,950
Strange & Dagnall	17,248
E. H. Shockley	12,750
McInnes Brothers	14,000

The architect estimated the cost at $16,209

The first two bids did not have a marked cheque for 5 per cent cent of the cost and were therefore not considered. The tender of Mr. E. H. Shockley, being the lowest, was accepted. He is to start his work as as soon as the foundation is ready, and to complete the building in four months thereafter. A penalty clause will be included in the contract.

Subscription List.

The matter of completing the subscription list for the new hospital was brought up and it was decided to meet on Friday morning at the club and go out and complete the list.

BIG BUSINESS BLOCK.

To Be Built by Westenhaver Bros. on Second Avenue.

After a six weeks pleasure and business trip to Oklahoma, Los Angelos and Chicago, C. C. Westenhaver returned home last night and expressed himself as delighted to get back. He is now already to begin the season's work in earnest and the first thing he will get under way is a large business and apartment building on Second Avenue, near McBride Street. The building will be 57 feet by 75 feet with stores on the ground floor and basements under and three stories high.

Each of the upper flats will be divided in 8 apartments of four rooms and bath, and a kitchen in each. The excavation is nearly completed now and the building operations will be begun this month.

They have plans in hand for another building of similar design to be erected on the corner near C. D. Rand's office. This structure may be extended back 100 feet with stores opening on Second Avenue. This lot was the first to be sold at the sale last year, and if everything goes well it will be built on this summer.

Mr. Westenhaver is more pleased than ever with Prince Rupert's climate. He says that in all the cities he visited, the dust was a fright, and it went after his throat until he could hardly speak. In the way of weather he likes Prince Rupert best. The temperature is ideal. As for business he said that not one of the cities he visited looked anything like as good as does Prince Rupert. Its Rupert all the way for him.
