The Prince Rupert Optimist

DAILY EDITION

L. I, NO. 198 | PRINCE RUPERT, B.C., WEDNESDAY, DECEMBER 28, 1910. | PRICE, FIVE CENTS

T. P. HAS BIG SCHEME TO BRING OUT LABORERS

Sending W. Stewart Over to Scotland for Five Thousand Men---Will Spend Up to a Million Dollars to Get the Right Class of Men

(Special to the Optimist)

ontreal, Dec. 28.—As an earnest of Grand Trunk Pacific's intention to on with the work of construction g the incoming spring and summer all possible speed Mr. W. Stewart, ominent official of the company, is g to Scotland to engage the ces of five thousand laborers.

Will Pay all Expenses

r. Stewart is empowered to spend illion dollars in getting the right to come out. Their passages and ther expenses will be paid. It is desire of the company that the men ged will be suitable for settlers. development is of particular moment British Columbia as it is there that men will be sent to start work.

To Arrive in Spring

r. Stewart will be leaving for the old country in a short time so that he will be in a position to gather the men together and bring them back early in the spring to start operations as soon as the weather becomes sufficiently mild to permit of the ballasting and the construction work proper being resumed.

Will Make Settlers of Them

The men selected will be shipped to British Columbia in several consignments and will at once be located upon the line. The highest wages will be offered for the work and the best of inducements made for the men to ultimately settle in the country once the line is through.

No Difficulties Expected

It is not expected that Mr. Stewart will experience any difficulty in getting both the number and the calibre of the men he wants for the work.

Two Millions for Prince Rupert

(Special to the Optimist)

Ottawa, Dec. 28—It was announced in the House of Commons this afternoon that the Government will at once order the paying over to the Grand Trunk Pacific a sum of $2,000,000 as a subsidy towards the construction of its proposed dry dock at Prince Rupert,

The dock will be of what is known as second class construction, and will receive a subsidy of three and a half per cent. for twenty-five years.

The estimate of cost has been prepared by the Chief Engineer of the Department of Public Works and is based on a study of the plans of the proposed dry dock, as filed by the Railway Company.

The Indemnity By-law was re-considered, and passed its third reading at last night's city council meeting.

JAP PLOT DISCOVERED TO BLOW UP U. S. SHIPS

Troops at Manilla Searching for Dynamite in Japanese Residences---Warships Were To Be Blown Up On Declaration of Hostilities---Secret Got Out

(Special to the Optimist)

Manila, Dec. 28.—The American secret service have discovered what they believe to be a great Japanese plot to destroy American warships in the harbor here by the placing of a mine. The secret service men have been at work on the plot for a long time, and at last have unearthed it. Although the evidence of it has been carefully kept from the public for fear of panic or racial feud the story has gained currency through a leakage in official circles.

Tracing the Dynamite

Large stores of dynamite are believed to be stored in the residences of the Japs living in the city and in order to facilitate the tracing of it the military corps have been called out by the city officials. The prevalent opinion is that the mine was to be fired immediately the two countries declared hostilities.

To Blow Up Warships

The mine was to be placed in the harbor at such a point that the warships riding at anchor there would surely have been destroyed. The whole town is in a state of high tension over the discovery.

Officials Are Reticent

The government officials were approached with a request to state their opinion upon the matter but they denied all knowledge of the plot. In spite of this denial however it is generally credited. In semi-official circles the report of the plot has caused a great sensation. Every effort is being made however, to keep the particulars of the matter from leaking out.

DEATH-TRAPS ON STREET

Street Cars Collide When Loaded With Passengers

(Special to the Optimist)

Kansas City, Dec. 28.—As a result of errible street car collision today two ple were killed outright and fifty e injured. A wrong switch at a ction brought the cars together with ific velocity before either of the neers could reverse the levers. The telescoped into one another and rally mowed the passengers down.

ARING AVIATORS DASHED TO DEATH

ARQUIS PAULA AND ALEX LAFFON KILLED AT PARIS

ragic Ending to the Proposed Paris to Brussels Flight—Laffon Fell Dead at His Wife's Feet Terribly Mutilated.

(Special to the Optimist)

Paris, Dec. 28.—Aviation claimed two notable devotees yesterday in the persons of Marquis Paula and Alex Laffon who were killed instantly yesterday as a result of a fall of two hundred feet. They were just starting upon their trip from Paris to Brussels in the one plane. A great crowd had assembled to witness the start and to applaud the daring aviators.

As they soared into the air with the grace of a bird the crowd cheered with delight but their cheers froze upon their lips. When the plane had reached an altitude of two hundred feet it was seen to flutter momentarily and then to dive precipitately towards the earth. The stay of one wing had given way thus upsetting the gravity of the machine.

Laffon fell not more than a few feet from where his wife was standing petrified with horror at the sight. His head was horribly crushed and the impact of his contact with the earth drove his legs into his body. Paula fell upon his head and was also killed instantaneously. It was one of the cruellest tragedies ever witnessed. Madame Laffon had to be led away from the scene by friends.

COUNCIL PASSES LIQUOR LICENSE BY-LAW

PROTECTS THE PEACE OF LICENSEHOLDERS BY ENSURING RENEWAL OF THE LICENSES IN RETURN FOR GOOD BEHAVIOUR

LIVELY INTERCHANGES TOOK PLACE

Ald. Smith and Ald. Hilditch Wanted Arbitrary Powers Conferred on the License Board but Council Refused to Consent---Hotelmen Must Not Allow "Drunks" to Leave Their Premises Unattended

After a long discussion, in which the council voted down the attempt of Alderman Hilditch and Alderman Simth to put the fate of every hotel license at the arbitary discretion of the Board of License Commissioners, the liquor license by-law was successfully passed its third reading last night.

Two Knotty Clauses

Most of the argument centered round clauses 37 and 49. The former removes from the Board of License Commissioners the power to cut off a man's license unless he has been guilty of a misdemeanor: the latter provides for the right of a police officer to enter a private dwelling in search of liquor. The feeling of the council was that it was a dangerous power with which to invest an officer, but after the city solicitor had pointed out that the Bowser Act gave this power to the police, and that nothing the council could do, could take that power away from them, it was decided in order to prevent confucion make the by-law harmonize with the Provincial Act.

Said It Was Illegal

The grounds on which Alderman Hilditch and Alderman Smith objected to clause 37 differed. Alderman Hilditch thought that it was only right to give the Commission full powers; Alderman Smith feared the clause was illegal. In support of his objection to clause 37 Alderman Smith said he could not produce his authority at once but would later.

A Breeze in Council

Alderman Hilditch did not think that this was a proper way of dealing with the matter. He thought Aldermen should have their authorities ready in support of their objections. He had his.

Alderman Pattullo wanted to know what it was.

"My own common intelligence is my authority," returned Alderman Hilditch.

"Then I wouldn't give much for your common intelligence," said Alderman Pattullo, to which Alderman Hilditch simply said, "Thank you."

The Council's By-law

Again Alderman Hilditch got it into his head that the city solicitor, Mr. Williams, who was present was trying to force the by-law highhandedly upon the city.

"It is not my by-law," explained Mr. Williams. "It is the council's by-law."

"Who is the father of this by-law?" demanded Alderman Hilditch in a voice like a clergyman at a christening.

"I am!" declared Alderman Mobley.

"Oh," said Alderman Hilditch, "I didn't know."

Some More Plain-speaking

Expressing himself against the granting of arbitrary powers to the License Commissioners regarding the withholding or cancelling of licenses Alderman Pattullo came in for Alderman Hilditch's criticism.

"Alderman Pattullo gives arbitary powers to a policeman to enter his house, yet he does not want to give arbitrary powers to the commissioners," said Alderman Hilditch, referring to the search clause.

"It's not the same in this case at all," said Alderman Pattullo.

"I can't see it," replied Alderman Hilditch.

"No," returned Alderman Pattullo, "of course you can't see it. That's evident!"

"Of course, I can't see it. I'm dense," said Alderman Hilditch.

"That's evident too," retorted Alderman Pattullo.

Wanted Votes Recorded

Voting against the third reading of the by-law on the ground that there were two clauses in it of which he did not approve. Alderman Hilditch wished his vote recorded. So did Alderman Smith who also objected to these clauses.

But Alderman Naden declared that this procedure was totally contrary to parliamentary usage since the vote was taken in committee. Votes against the third reading of the by-law as a whole might be recorded not against particular clauses.

Mayor Stork is considering the matter and will give his view at next council meeting.

No Sunday Dinner Beer

Among other points raised in the discussion of the various clauses was one by Alderman Barrow that licensed restaurants be permitted to supply liquor on Sundays with meals costing not less than 50 cents.

Alderman Barrow said that for himself, he'd as soon have the beer as the meal and remarked that he had got stung on Sunday when he found he couldn't have any liquor at dinner ordered in a hotel here.

But the suggestion was not acted upon.

No "Cut-rate Fees

However short a time application for a license be made before the date for expiration of licenses in the city, the full half yearly fee for license is payable by the applicant to whom license is granted. This clause went through with some comment but undisputed.

AUSTRALIAN FORCES

Commonwealth Decides to Raise Army of 50,000

(Special to the Optimist)

Melbourne, Dec. 28.—By a unanimous vote Australia has decided to raise her permanent forces to fifty thousand strong. It is not to be understood that this is an acceptance of the principle that she must contribute to the Empire's maintenance; it is merely a movement that has become imperative for purposes of integral welfare.

NEW YORK CRASH CAUSES A PANIC

CLOSES DOWN WITH SIX MILLION DOLLARS IN DEPOSITS

Joseph Robin, the Chairman of Executive, Goes Out of His Mind and Attempts to Commit Suicide—Now in a Sanatarium.

(Special to the Optimist)

New York, Dec. 28.—The Northern Bank of New York caused a panic today by closing down payments. The deposits are estimated at over six million dollars. Mr. Joseph Robin, chairman of the executive committee of the defaulting bank, went out of his mind as a result of the collapse and attempted to commit suicide. His design was frustrated just in time and he is now incarcerated in the sanitarium completely demented.

The closure came without the slightest warning and depositors were taken completely by surprise. For a while the bank premises were the scene of a howling mob demanding admission and the return of their money. It is said that many people will be entirely ruined as a result of the failure.

DEVOTED PRINCIPALLY TO THE INTERESTS OF WOMEN

This is a little section of the paper, which from day to day will be devoted to subjects of special interest to women. Any and all of the ladies of Prince Rupert are invited to contribute to its columns, and to take part in its discussions. Suggestions and criticisms are invited by the editor. The hope is expressed that "The Cosy Corner" will fill a social need.

Social Notes

Miss Craig is leaving this week for a short trip to Portland, Seattle and Vancouver. On her return she will be accompanied by Miss Constance Macdonald of Vancouver.

Mrs. J. Y. Rochester is leaving by the Prince George on Thursday for Vancouver, where she will consult a specialist about her eyes.

Mr. John Elliott of Ladner, has been spending the holidays with Mr. J. E. Gilnore at the Hotel Premier.

Mrs. Angus Stewart leaves on Thursday for Toronto en route for Scotland and the continent. Mrs. Stewart will spend a month with her mother in Toronto and does not expect to return to Prince Rupert until some time in April.

Mr. O. M. Helgerson will leave by the Prince George for a short business trip to the south.

Mrs. J. E. Gilmore is leaving this week for Victoria, where she will spend a short time.

Woman's Changing Physique

That the physical type of womanhood has undergone a tremendous change in the short space of twenty years and is approaching that of the opposite sex is the belief of Dr. Dudley Allen Sargent, director of the Sargent and Harvard gymnasiums in Cambridge, who is recognized as one of the foremost authorities of the day on the physical development of women.

Twenty years ago according to Dr. Sargent's statements, woman's ultra-feminine characteristics—small waist, large hips, small feet, etc.—were overdeveloped, and she was the positive antithesis of man in physical proportions. Today her physique has become revolutionized, he says, and already approximates that of the other sex. This great evolution has taken place, says Dr. Sargent, since 1890.

"Since that time woman's physique has been thoroughly made over. It is approximating that of man. The sloping shoulders of her grandmother's time have disappeared. They are no longer in fashion. They are no longer desired. In their place we find well-knit, athletic shoulders—broad ones. Her back, likewise, is better developed. Her hips, on the other hand, are not so large as they once were. The entire pelvic region has decreased in size, and the result has been an enlargement of the waist. The small waist is a thing of the past.

"Her neck is thicker and more muscular; her limbs more smoothly developed; her hands and feet are larger. In every respect of which we in making measurements of many women daily take note, the women of today is getting to be more like man. Her chest has been said to be flatter. I should hardly wish to endorse that opinion. It is true, however, that her chest may appear flatter, because, I am glad to say, the corset which formerly forced it upward, has of late been somewhat modified.

"It is this modification of the corset which is responsible for the betterment of woman's figure. The tightly laced corset is no longer in style, but seems to be replaced by the corset waist. Thus both the upper and lower parts of the trunk have more room. The chest is therefore larger and better developed.

"The modification of the corset," Dr. Sargent says, "is one reason for the change in woman's physique. Another reason is that within the last twenty years women have done more in the way of athletics than they did formerly. Golf, tennis, running and swimming have done much to improve woman's physical development. Being the sports which one naturally takes to be mascuilne, they have the inevitable result of making those who indulge in them more like men.

"For it is a rule to which one may take few exceptions that if a man devotes himself to the activities of a woman, or if a woman devotes herself to the activities of a man, there is bound to be a loss of sex. And it must be admitted that is one of the tendencies of our time. It is a result of commercialism. We find a great many woman do work which a man ought to do, and vice versa.

"This approximation of man's physique is, from an anthropological point of view, a bad thing. It is to be hoped that men and women will not grow to be more alike than they are today. The same may be said of men. From the overdeveloped Sandow, man has changed to the effeminate and the foppish being. The assimilation of the sexes by each other is a possibility to be decried."

Insure Happiness for Your Child

How important it is that the child should hear and see and be taught only that which will make for beauty and for truth, for loveliness and grandeur! The minds of children are like sensitive photographic plates, recording every thought or suggestion to which they are exposed. These things make up the character and determine the future possibilities, says Orison Sweet Marden in Success Magazine.

If you would encourage your child and help him to make the most of himself, inject bright, hopeful, optimistic, helpful, unselfish pictures into his atmosphere. To stimulate and inspire his confidence and unselfishness means growth, success and happiness for him in his future years, while the opposite practice may mean failure and misery.

Keep the child's mind full of harmony, of truth, and there will be no room for discord, for error.

Embroidery for Girls

Girls who are fond of embroidery and are in search of original ideas for designs will be able to find a great many interesting and quaint patterns suitable to different sorts of embroidery upon the old china pieces which are decorated in the beautiful old colors that have long been fashionable for cross stitch and all other forms of embroidery. A number of embroiderers who accomplish really remarkable pieces of work and who look upon embroidery as one of the fine arts have secured charming results by copying the old china patterns and are enthusiastic over the idea which offers opportunities for such a wide variety in designs and coloring.

One of the most interesting features of this copying from old china is the individual quality that may be had by using the old family pieces of distinction and beauty for this purpose. Those who are skilled in making the stamped or drawn patterns upon the material to be embroidered may do the transferring of the pattern themselves, while for the less skillful the services of a professional embroidery designer can be had. The pattern may be traced or copied, according to whether it is exactly fitted to the purpose fro which it is to be used.

OUR DAILY COOKING RECIPE

Green and White Salad

One can pineapple sliced, half pound Malaga grapes, one stalk small celery, one-quarter pound blanched almonds. Cut pineapple into small slices, celery into small pieces, skin grapes and cut into halves. Put pineapple and grapes into juice of two oranges and one lemon and put on ice twelve hours. Put almonds and celery into water. Drain in colander. Cut celery with silver knife. Dressing: One-quarter cup cream, whipped; two tablespoonfuls lemon juice, one tablespoonful sugar, paprika. Serve on lettuce hearts.

Practical Household Hints

An excellent breakfast dish is baked apples with figs or dates. Core the apples, fill the holes with chopped figs or dates packed in tightly, sprinkle with powdered sugar and baste often with butter, lemon juice and hot water. Serve separately or with cream.

Many people are troubled by having the starch stick to the flatirons. Boil the starch well, then stir it a minute with an ordinary parraffin candle. Use the starch while it is still warm. The paraffin keeps the starch from stickinng.

To whiten linen that has become yellow from lying away, wash and rub soap all over, and without wringing put in the sun, when dry wet thoroughly again. One day in the sun will make it as white as when new. Rinse and hang up.

Fricasseed chicken, or chicken to be used as a salad, is much better if cooked a day before it is to be served. Let the meat remain in the liquid until ready to use. The chicken will absorb much of the flavor of the juice, and will be that much tastier.

DAILY EDITION. WEDNESDAY, DEC. 28

WANTED—A GENERAL MANAGER

That old Swedish chancellor who sent his son out into the world with the words, "Go, my son, and see with how little wisdom the world is governed," was a keen observer. Upon the care and management of municipalities and nations we usually expend much less trained wisdom than upon the care and management of even second-rate financial and commercial institutions. In fact, the chief prerequisite for running for Mayor or Parliament seems to be not executive ability, but the ability to speak well, or the reputation of being a good "mixer."

No body of shareholders would consider appointing a man to be general manager of a bank, just because he was an effective after dinner speaker, or was a member of a certain lodge, or merely because he needed the money. They would demand some guarantee of his ability to manage the affairs of the institution, some proof of his special fitness for the post. Lacking that, his application would receive no serious consideration. Yet, if the same men were called upon to elect a Mayor for their city, in other words, a general manager for the corporate interests, they would be liable to be affected in their choice by the very arguments which they would decline to consider in connection with the lesser post.

At the present moment Prince Rupert has a choice of two candidates for the office of general manager of the city for the year 1911. One of them is already the holder of a job which will necessitate his being out of the city for the two first and most important months of the year, as well as on many later occasions. He has been described as a man who has spent most of his time "gumshoeing round for jobs." The Empire, a journal which knows the candidate well, and is now for purposes of its own endeavoring to secure his election, has said: "Mr. Manson cannot faithfully serve the wirepullers and the best interests of this city. His candidature is nothing less than an affront to our intelligence." And again: "With Mr. Manson's election we fear the independence of Prince Rupert will fade away for many a long year to come." Truly not a very desirable candidate for Mayor.

On the other hand is a man who has proved his executive ability in many ways. He has built up for himself a successful business organization; he has served as a member of the first Council of Prince Rupert with sufficient success to warrant his colleagues selecting him to be their choice for Mayor; he has served as a police commissioner, and is the father of the liquor license by-law which was put through the council last night. In addition to this he is a man with the courage of his convictions. At a time when his rival had led both parties in the recent Scott Act campaign to believe that he was supporting them with his vote, and had not the courage even to face the charge of double-dealing, Alderman Mobley made a clear statement of his position.

With a choice between a political carpet bagger travelling up and down looking for another job, and a business man of Alderman Mobley's type and tried worth, the electors should have no difficulty in selecting the better man.

Look at this Carefully

It's Just What You Want

Leasehold, With Improvements, For Sale at $2,500

Leasehold has three and a half years to run, at $20 per month, subject to renewal, at re-valuation of land, the lessee to have the first option of purchase at the then market value of the lots.

Improvements consist of five cabins (all occupied), renting at $10 per month each. One cabin, occupied, renting for $15.00 per month. One two story storehouse, renting for $30.00 per month.

Reason for selling, present holder of lease leaving the city.

SALVATION ARMY CHRISTMAS TREE

SPLENDID GATHERING IN THE ARMY CITADEL LAST NIGHT

Group of Children Give a Pleasant Entertainment to Their Friends—Songs, Recitations and Drills Make Up Admirable Programme.

To play the part of Santa Claus throughout the whole year and fail in a specific representation of him at Yuletide, would never do for the Salvation Army. In accord with the traditions of the time therefore, as well as of the Army, they had their Christmas tree and seasonal greetings last night in the Citadel.

The occasion of unmasking the good things which the tree bore was utilized for an entertainment of songs, recitations and drills by the children who associated themselves with the Army recently. The performance preceded the distribution of the Christmas presents, and it may be said that the children who performed whether individually as in songs and recitations or collectively as in hoop and other drills, acquitted themselves in a manner that was a credit to themselves and to their teachers.

Ensign Johnstone conducted the proceedings which were of a lengthy and pleasurable character. The following were the performers: Esther Carroll, Lieutenant Wright, Fred Leggett, Olive Soley, Rose Davidson, Margery Cowper, E. Martinson, Sergt, Nickolas, Ida Martinson, Rose Denda, Mr. Daggett, little Georgie Johnstone and little Miss Kirkpatrick.

MARINE NEWS

Bruno to Go South for Repairs

The G. T. P. steamer Bruno which is in port today will go to Vancouver for repairs before resuming her schedule. While on her last trip something went wrong with her pipes and as there is no accommodation in Prince Rupert yet for the remedying of such defects she will have to go south. It is expected that she will be back on the run in about a week.

Mayor's Right Hand Man

City Clerk Woods took the rare luxury of a night off from city council last night. His place was filled by Mr. J. A. McMaster who undertook the duties very well indeed.

o the Electors of Ward Two

DIES AND GENTLEMEN:

On Wednesday, December 28th, at 8 p.m., I shall hold a meeting in the Skating Rink, 6th Aveunue, near McBride Street, in the interests of my Candidacy for Alderman for 1911, and in the support of the Candidacy of Frank H. Mobley for Mayor of the City of Prince Rupert. You are cordially invited to be present.

T. D. Pattullo

PRINCE GEORGE BREAKS RECORD

MADE NORTHWARD PASSAGE UNDER THIRTY-THREE HOURS

Vessel Made Her Berth Before Nine This Morning—Captain Robertson Cracks a Little Joke About it With the Optimist Reporter.

The Prince George on her north bound journey anticipated her time scheduled somewhat by arriving with the dawn this morning. She glided slowly up the bay and into the harbor while most of the city inhabitants were still yawning. She was not expected till about eleven o'clock in the forenoon and consequently the officials at this end were agreeably surprised.

Although she hovered slowly about during the last lap of the journey her time for the journey constitutes a record. She sailed from Vancouver on Monday at midnight and was berthed at the wharf this morning before nine o'clock.

Captain Robertson was all smiles at the achievement. "We did not try to break record," he said modestly. "As a matter of fact, we crawled along during the latter stages. It certainly is the best time we have ever made but it can easily be beaten if we were to try." On being asked to ascribe a reason for the unlooked celerity he closed one eye solemnly and replied that she was carrying less weight since she scraped her bottom on the sands of the Narrows.

The vessel carried a mixed cargo. The passenger list was a small one.

MORE STOCK ARRIVES

Thirteen Box Cars and Snow Plough for G. T. P.

Thirteen box cars and a snow plough came into Prince Rupert this morning for the G. T. P. on a scow which was towed up by the Vancouver tug boat Dolla. This substantial addition to the company's stock at the northern port comes from Winnipeg. It made the journey via Edmonton and Vancouver.

Jack Beatty's All Right

The many friends of that popular old-timer will be glad to learn that the rumor current in the city this morning regarding his having been seriously injured by a rock which hit him while a big blast was in progress, is entirely without foundation.

Personal

Mr. J. McCarvell, brother of Chief McCarvell of the City Police force, arrived by the Steamer Prince George from Vancouver on a visit to Prince Rupert. He intends remaining here for a week or so.

TYPEWRITER ACTS AS A DETECTIVE

PROVIDES EXPERT MACHINIST WITH CONCLUSIVE EVIDENCE

And May Lead to Detection of Criminal Who Caused a Run on Birkbeck Bank—Little Things Worth Knowing.

The letter was written on an Oliver No. 2 machine (old style), about eight years old.

The carriage of the typewriter was running sluggishly.

The letter "O" shows that the typebar was loose or bent.

The letter "B" type-bar was not in proper adjustment.

The top of the capital letter "C" was worn.

These are the clues which have been tabulated by a typewriter expert, after an examination of the anonymous typewritten letter, which, circulated among the depositors of the Birbeck Bank, caused a recent "run," says the London Evening News.

These clues, it is hoped, will aid the authorities in discovering the identity of the author of the document. What are their prospects of success?

A layman would probably consider these chances very small indeed. He would argue that there are thousands of typewriting machines, and that in the absence of signature, or like evidence, the search presents insurmountable difficulties.

In reality the difficulties are not so overwhelming as they appear. To the expert the typescript reveals a great deal that is hidden from the average mortal.

In the first place, different makes of typewriters have their distinctive fonts of type. In some cases this distinction is so marked that the typewriter Sherlock Holmes can at a single glance say positively what make of machine a piece of work was produced on. In other instances the differences are more subtle and entail a closer examination, but a qualified expert can usually get at the facts.

The age of the machine is an important link in the chain of evidence, and this can be gauged with reasonable accuracy by the condition of the type. A machine which has been in use for some time betrays that fact by the bad or indifferent alignment of its type, by the undue wear of commonly used type characters—the vowels, for instance, and the principal consonants.

Moreover, each machine in the course of its career develops its own characteristic identification signs. Thus, a particular consonant may lose part of the type-face, one type may produce a fainter impression than others, certain characters may tend to "pile" together.

AN AERIAL RACE

Ely Wins From Parmalee in His Curtis Machine

(Special to the Optimist)

Los Angeles, Dec. 28.—In the Curtiss racing aeroplane yesterday Ely defeated Parmalee in the baby Wright machine in the eight and a half mile race. The event proved a most interesting one and evoked the greatest enthusiasm. Both of the aviators conducted their machines with the utmost skill and earned the plaudits of the assembled multitude. Ely's speed averaged fifty-two miles an hour.

IS NOW CHIEF ENGINEER

Promotion for Joseph Schaitzer of the C. P. R.

(Special to the Optimist)

Winnipeg, Dec. 28.—Mr. Joseph Schaitzer who is at present assisting engineer for the C. P. R. in this city has been promoted to the chiefship at headquarters in Montreal. His salary is now $25,000 per annum.

THE ROMANCE OF A LAWSUIT

HEARING IS RESUMED AFTER NEARLY SIX HUNDRED YEARS

Richard de Manderville and Abbot of St. Osyth Bequeath Legal Troubles to Spirited Heirs Who Carry on the Feud.

London, Dec. 27.—Just 562 years after its adjournment a law case which was originally interrupted because Richard de Manderville had to leave for the war in France, has been resumed in the Chancery court. The point at issue is the right to hold a market at Stowmarket Suffolk, and the suit was originally brought by the Abbot of St. Osyth, Essex, in the reign of Edward III., against Richard de Manderville.

The Abbot claimed that Richard had wrongfully obtained the grant of the right to hold a market "to the grave damage of the said Abbot." Richard claimed the King's protection, and eventually the case was adjourned sine die because of his departure abroad. At the resumed hearing G. F. Howard, the modern representative of Richard, asserted that G. W. Woodward, the modern representative of the Abbot, had no right to set up a rival market. The assertion was supported by Dr. Ogden K. C., who cited tne Domes-day Book and other books.

"When Richard de Manderville went abroad," remarked Justice Eve, "he little foresaw that we would be fighting the same question 600 years afterwards." The hearing was adjourned.

WILL CONVICT ODOROUS EGGS

SIMPLE SCHEME TO DETECT THE VENDERS OF BAD EGGS

Articles Should be Stamped With Date of Birth and Signature of the Vender—Will Increase Number of Healthy Eggs.

The spirit of honesty is abroad and the perpetrator of the foul egg is in danger of losing his reputation. The Western Canada Trade Gazette has initiated a movement which has for its object, if not the abolition of the odorous egg, at least the detection of the person who vends it. The method is simple. It consists of dating the egg and adhibiting the signature of the seller. Of course the stamp date can easily be manipulated but the signature will always be incriminating and will enable the merchant who is usually blamed without reason by the customer, to deal with the vender as he thinks fit.

The adoption of this principle will, it is hoped, greatly increase the percentage of strictly fresh eggs and at the same time stamp the merchant as progressive. Merchants would no doubt also find it profitable to grade their eggs with regard to size and color. By this means the appearance of the stock in particular and the store in general will be greatly enhanced.

If you would like to see a clock that is 261 years old you will see it at Wark's Jewelry Store.

DAME NATURE AS A WITNESS

HER EVIDENCE WILL DECIDE A HALF MILLION SUIT

Plaintiff Alleges That Fire Originating on Piles on the Railway Spread to Their Premises and Destroyed Their Timber.

Dame Nature will be an important witness in the case of Clarkson vs. Nelson & Fort Sheppard Railway company. This, at least, is the intention of the defence, represented by Mr. A. H. MacNeill, K. C.

The action involves $450,000. According to the plaintiff's allegations fire originating in the burning piles of debris along the railway spread to timber lots owned by Clarkson and destroyed a large area. The trial was set down for December 6.

A few days ago Mr. MacNeill applied to the court for an order for particulars of the damage alleged. Today he came before Mr. Justice Morrison again, stating that the particulars furnished were inadequate. He also asked for an adjournment of the trial to allow of the defendant going over the ground and ascertaining the amount of damage.

An affidavit was read to the effect that in the spring when the sap rises in the trees it is easier to determine what trees have been killed and what are still alive.

"Thus Nature will give important testimony," said Mr. MacNeill.

The trial was postponed until the February court.

WIRELESS TO CROSS SAHARA

FRANCE WORKING SCHEME TO LINK UP POSSESSIONS

Experiments Prove Conclusively that Feat Can be Performed Despite the Electric Tension of the Atmosphere —Work Is Proceeding.

Paris Dec. 26.—The French military and colonial authorities are evolving a great scheme of wireless telegraphy, the object of which is to link up across the desert the West African possessions with the great colony of Algeria, and thus bring them into direct communication with Paris. It was at first feared that the electric tension of the atmosphere, which has been frequently noted in the desert, would interfere with the propagation of the Hertzian waves.

Experiments, however, which have been recently carried out at El Biod, Krebazar, Mercheria, and Colomb-Bechar prove conclusively that such is not the case, for notwithstanding that the apparatus was of the most rudimentary character it was found possible to receive not only the signals agreed upon from the post at Forte de L'Eau, near Algeria, but even communications emanating from certain English and great transatlantic stations. These experiments will now be continued at Elgolea and further south, but there seems no reason to doubt that in the near future the most distant posts occupied by the French in Central Africa will be connected by wireless telegraphy.

BADLY BLANKETTED BLASTS

Damage Telephone Wires in Certain Distircts of City

Insufficiently blanketted blasts have been breaking telephone wires in the less populous parts of the city. So far the cable containing numerous wires has escaped injury, but if it were struck by a flying rock a whole district of telephone subscribers would be inconvemienced.

Mr. Love, the telephone manager, presented the matter before last night's city council in a report requesting that precautions be taken to have the blasts better blanketted. The city engineer has authority over blasting operations conducted anywhere within the city limits, and the council last night referred Mr. Love's letter to him in order that the matter may be taken care of.

YUKON WIRES PAY

The report of the Canadian Minister of Public Works for the year ending last March shows an improvement in the earnings of the government telegraph service to the Yukon. It is shown that over 84,000 messages were sent over the main line between Ashcroft and Dawson. The revenue was $28,914. This is an increase of 18,000 in the number of messages handled and of nearly $6,616 earnings. Of the revenue $23,372 was paid at Ashcroft, $28,- 009 at Dawson, $3,964 at Hazelton, 555 at Whitehorse and $2,064 at A The earnings of the Hazelton-P Rupert branch were $24,788, an inc of $15,288. Of the revenue $18,97 paid at Prince Rupert. The earnings of the main line and al branches is $97,500.

CHIPS FROM THE HUMORISTS

"John," said his wife. "I have lots of things I want to talk to you about."

"That's good," answered Mr. Spenders; "generally you want to talk to me about things you haven't got."

"Lady had a fit of hysterics in a newspaper office the other day."

"Well, what happened?"

"Sure, any fool would guess that. They took her to the composing room."

Mrs. Crabb—The Wilkinses boast that their servants have grown gray in their service.

Crabb—Humph! From worrying about getting their wages, probably.

"This is the site of an ancient city," announced the Arab guide. "As you see, not one stone remains upon another.''

"You fellows lack enterprise," commented the tourist. "Why don't you take some of this building material and construct some ruins?"

Teacher—Johnny Jimson, why were you not at school yesterday?

Pupil—Please, ma'am, I was convalescin'.

Teacher (in surprise)—From what, pray?

Pupil—Three apple dumplins and a packet of cigarettes?

Bingo—There's a big boy waiting for you outside the gate, Bobbie and he is turning up his trousers at the bottom. What does he do that for?

Bobbie (meekly)—I suppose he expects to wade in my gore.

Four-year-old Barbara went to church with her two sisters and came home crying.

"What is the matter, dear?" inquired her mother.

"He preached a whole s-sermon—about—M-Mary and Martha," sobbed Barbara, "and—never said—a—w-word about me."

She—She told me you told her that secret I told you not to tell.

He—The mean thing! I told her not to tell you I told her.

She—I promised her I wouldn't tell you she told me, so don't tell her I told you.

LITTLE CHUNKS OF WISDOM

What the Wits and Philosophers Are Saying

The merely logical masculine mind doffs its hat respectfully before the superiority of feminine intuition.—Richard Dehan.

No man has yet discovered the means of giving successfully advice to women—not even to his own.—Balzac.

The ordinary Englishman is a man of few words, and these are generally disagreeable.—C. E. Jerningham.

Most men willingly admit that plain women make the best wives; yet all prefer to marry beauty.—D. McClymont.

The real upper classes will be presently those who own their own areoplanes

The chief evidence against women's sense of humor is the serious way in which they take some men.

MEMBERS' BILL TO SAVE TIME

MR. LEWIS OF W. HURON, BRINGS IN NEW MEASURE

Its Object Is to Extend Use of Enjoyment of Daylight by Advancing the Clock an Hour During Summer Months.

To save daylight might seem an even more precarious task that the saving of souls, yet it has preceded the latter object in so far that its aim has been mouthed in the Canadian House of Commons in the form of a private member's bill. "An Act respecting the saving of daylight" is the title under which it is proposed to develop into a piece of the legislative machinery. In its own simple language it is a bill "with the object of promoting a more extended use and enjoyment of daylight during the summer months, by advancing the meridian by one hour between the months of April and November."

The sponser for the bill is Mr. E. N. Lewis of West Huron, who introduced the measure to Parliament on the second of December. In doing so he made quite a hit with the proposition. He dilated upon the obvious advantages of such a change and pointed out that the small alteration would not interfere with anything. When the time of its operation in each year expired it could easily be adjusted again. The bill was read a first time.

FIVE HUNDRED PARTY

Successful Entertainment at Mrs. Jarvis McLeod's

A very pleasant "Five Hundred' party was given by Mrs. Jarvis McLeod to the members of the Choral Society last night at her home on Ambrose avenue.

The guests were pleasantly entertained, and spent a most enjoyable time. An excellent supp er was served, and the reception rooms were tastefully decorated, a large Xmas tree ablaze with lights and ornaments enhancing the general effect.

Among those present were: Mr. and Mrs. E. A. Woods, Mr. and Mrs. H. Hamblin, Mr. and Mrs. James Carmichael, Mr. and Mrs. Hugh Dunn, Mrs Stork, Mrs. Dawson, Mrs. Frank Derry, the Misses Holtby, Mr. Holtby, Mr. Davey, Miss Froude, Mr. Froude, Mr. Scott, Mr. Robinson, Mr. Walford and Miss Barker.

The gentleman's prixe, a prettly bound volume of "Songs of a Sourdough,' was won by Mr. Robinson and the ladies prize "Ballads of a Cheechako," was won by Miss Hamblin, while Miss Barker carried off the booby prize, an appropriate motto prettily framed.

The party which was arranged some time ago by Mrs. Jarvis McLeod was a great success.

BOY SCOUTS HELD SOCIAL

Prizes Go to Geo. Ambrose, F. Dowling and L. Johnson

The Prince Rupert troop of Boy Scouts held a social evening last night, at which there was a full attendance. Three prizes were given for points obtained in the numerous competitions and awarded as follows: First, Corporal George Ambrose; Second, Scout Frank Dowling; Third, Patrol Leader Lloyd Johnson.

Supper was provided by the following ladies: Mrs. James, Mrs. Reddie, Mrs Vernor Smith, Mrs. E. Flexman, Miss Rochester, Mrs. Naden, Mrs. Ritchie and Miss Dunn. The prizes and fruit were donated by J. D. Allen & Co., H. B. Campbell, Stalker & Wells and Leggett & Williams.

On motion of the patrol leader, Lloyd Johnson, and seconded by Scout Jack Naden, a vote of thanks was tendered to those who so kindly contributed to the enjoyment of the evening.

WINNIPEG IS STILL WALKING

MAYOR EVANS MAKES ANOTHER ATTEMPT AT PEACE

Union Tailors of Manitoba Clothing Company Refuse to Make Uniforms for Strike Breakers and Are Locked Out by Employers.

(Special to the Optimist)

Winnipeg, Dec. 28.—There is still no hope of conciliation being resorted to in connection with the car strike. Both parties are still adamant. Mayor Evans made another futile attempt at the head of the civic committee to solve the difficulty amicably.

A rather amusing side light upon the is the lockout of the union workers of the Manitoba Clothing company because they refused to make uniforms for the car strike breakers. Yesterday passed without any repetition of the riots that marked the earlier stages of the fight. But still settlement seems a long way off.

TWO MORE LINERS

Allan Company to Build Largest in Canadian Service

(Special to the Optimist)

London, Dec. 28.—The famous Allan Line company of steamships which runs from Glasgow, Scotland, has entered into negotiations with the Belfast shipbuilders for the construction of two new liners for their Canadian service.

The proposed ships will be the largest of any in the Canadian service and will bring that line into speed competition with the other big companies having connections at New York and elsewhere on the American coast.

$1000 Donation Confirmed

Last night's council confirmed the donation of $1000 to the Hospital Fund, by adopting the recommendation of the finance committee.

COUNCIL PASSES LIQUOR BY-LAW

CONTINUED FROM PAGE 1

What About "Drunks?"

The clause prohibiting a license holder from permitting a drunken man to enter his premises was objected to by Alderman McIntyre on the ground that it would necessitate the employment by the license holder of a man solely for the purpose of guarding his door against drunks.

Alderman Naden suggested that the substitution of the words "remain in" instead of enter would meet the case but Alderman Mobley did not like this, and the Mayor pointed out that they already had a clause which said a license holder could not turn a drunken man out.

Must Care for Them

Finally the clause was made to read: "No licensee shall permit any customer served with liquor to leave the premises in an intoxicated condition unless accompanied and under charge of a competent Prince Rupert person.

This matter was dealt with early in the discussion. The two clauses to which Alderman Smith and Alderman Hilditch objected were the last ones discussed last night.

MURDER IN SEATTLE

Body of Billy Marks Found in Mutilated State

(Special to the Optimist)

Seattle, Dec. 28.—A young miner named Billy Marks who recently arrived in the city from the north was found murdered in First avenue today. Marks was known to be a newcomer through his fellow workmen but apart from that little is known of him. From the condition in which he was found he appears to have been the victim of a cold blooded murder, with robbery the most likely motive.
