ANGELO GREGORIA SHOT BY FELLOW COUNTRYMAN

Bullet Was Intended for the Proprietor of the Grandview Hotel---John Mosca, Alleged Blind Pigger is Under Arrest---Gregoria Will Recover, Though Badly Hurt

Angelo Gregoria lies in the General Hospital with an ugly wound in his thigh under which is a 32 calibre revolver bullet. John Mosca is in the toils charged with shooting with intent to kill. It is expected that Gregoria will recover. Dr. McNeill is attending the man.

Severina Camozzi, lessee of the Grandview Hotel, is thanking Providence that he is well to-day for the bullet, it is alleged, was meant for him.

An Alleged Blind Pig

The fracas happened last night in John Mosca's cabin in the west end of the city, and, the police say, was the outcome of a squabble following the quaffing of drinks sold by Mosca, proprietor of an alleged "blind pig."

It is said that Camozzi, Gregoria and others, called at Mosca's cabin to get a drink about 6 o'clock. Camozzi and Mosca started to argue, compliments were exchanged, whereat the revolver was drawn and fired at Camozzi. Poor, innocent Gregoria stood in the way and got the bullet. He keeled over when shot like a dead man.

Innocent Man Shot

The trouble was witnessed by several foreigners and one of them lost no time in ringing up the police. Special Constable Miller hurried to the scene, quickly placed Mosca under arrest and then turned his attention to the wounded man, who he found sobbing like a child in the Fairbanks Hotel, where he had been taken by fellow countrymen. The officer called Dr. McNeill, and the doctor had Gregoria removed to the hospital where the wound was dressed.

Mosca was arraigned in police court this morning and was remanded without being asked to plead.

Dr. McNeill says that should no complications set in Gregoria will not be long before he is well again, though the wound is rather a dangerous one.

MIDNIGHT FIRE HOME DESTROYED

MR. AND MRS. BODEY ESCAPE IN NIGHT CLOTHES

Overheated Stove Caused Outbreak—House Was on First Avenue—Damage Amounts to About $400—Fire Department Did Good Work.

Standing on the north side of First avenue, near Second street is a little frame work of charred timbers which silently tells the story of a fire which broke out near one o'clock this morning and completely destroyed the comfortable little home of Mr. and Mrs. James Bodey.

Mr. Bodey, it is said, is employed as a watchman on the G. T. P. waterfront and he returned home last night about midnight and very soon after he found his home on fire. He and his wife had to make a hurried exit scantily clothed. So fierce did the fire spread that it was impossible to save anything at all.

The fire alarm was rung in and Chief McInnes and his men were informed that the blaze was at the G.T.P. offices. The brigade hurried there only to find they were on the wrong track. As soon as it was learned where the fire actually was no time was lost in getting busy with it.

The nearest hydrant was near the City Hall and it required 1,100 feet of hose to reach the fire. The fire department did splendid work under the circumstances. The outbreak was caused by an overheated stove in the kitchen.

The damage is estimated at about $400.

HERE'S YOUR CHANCE, GEORGE

City Clerk Wants Local Georges to Buy King a Souvenir

Now is the time for the Georges—that is those on whom two fond parents started on the road of life with the name of George as a handle to their surname—to go down into their jeans and find if they can, some loose change to buy King George V. of England, Emperor of India, and head of the dominions across the Seven Seas, a souvenir on the occasion of his official registration to these titles, or briefly, to give him a Coronation present.

Provincial Secretary, H. E. Young, wrote to City Clerk Woods asking him to act as collector of subscriptions from Prince Rupert Georges for this admirable project. Accordingly Mr. Woods read the letter to the council and the city papas authorized him to collect anything the Georges of the city care to unload. Mr. Young wants the newspapers to get busy and help to get the Georges interested.

OIL AS FUEL IN PRINCESS MAY

FIRST C. P. R. STEAMER AS OIL BURNER TO CALL HERE

Since She Hit Reef Last August She Has Been Changed—New System Means Saving of Much Money and Time—Due Here Tomorrow.

When the C. P. R. steamer Princess May arrives from Vancouver on Thursday afternoon it will be the first C. P. R. boat to anchor at this port run as an oil burner. Since she met with an accident, last August, by hitting a reef near Skagway, she has been completely overhauled and fitted with the new fuelling system.

The advantages of the oil system over coal are, economy, cleanliness, less trouble, time saving, etc., etc.

Other C. P. R. steamers are being fitted with oil burning boilers. The company have erected some big steel storage tanks at Vancouver on the wharf and as fast as supplies come from the oil wells in California the tanks are filled and then the boats are supplied as required.

A boat can carry enough oil that will last her on a trip from Vancouver to Alaska and back.

This is something a coal boat does not do. She has to call at Nanaimo to coal up which cannot be done in less than five or six hours.

CENSUS COMMISSIONERS' NAMES

Ottawa Issues Official List Today. F. H. Mobley for Comox-Atlin

(Special to the Optimist)

Ottawa, April 4.—Today the names of the Commissioners appointed to look after the census this June in British Columbia are announced as follows: Victoria, James J. Stanton; Vegerville, Yale and Cariboo, W. F. Knowle; Vernon, J. M. Yorston; Cariboo Road and Kootenay, T. M. Robert; Cranbrook, A. B. Docksteader, Nelson; Comox-Atlin, F. H. Mobley. Assistants for the Commissioners are selected locally for the most part. The work begin on June 1st, and is supposed to be completed by June 20th.

EX-CITY FIREMAN TO BE ARRESTED IN VANCOUVER

Wm. Morrell Left Home Last Sunday Saying He Was Going to Graham Island—Wife and Baby Are Being Cared For.

Telling his wife he was going over to Graham Island, William Morrell, a fireman in the City Fire Department, left home on Sunday morning and the next thing that was heard of him was that he had deserted his wife and thirteen months old baby and was heading for Vancouver on the steamer Camosun.

On the arrival of the steamer in Vancouver today Morrell will be arrested on a charge of wife desertion and sent back here to face the charge.

The Salvation Army officials are caring for Mrs. Morrell and her baby.

THREE THOUSAND STRIKERS

Rosslyn Miners Stop Work Over Open Shop Dispute

COST OF CROWN LAND JUMPS IS NOW DOUBLED IN PRICE

Order in Council Announced in Victoria Today Raising It From $2.50 to $5 an Acre---Increase Was Expected and is Justified by Rush of Land Purchasers

(Special to Optimist)

Victoria, April 4—Of great importance to the province is the announcement just made that by an order-in-council issued today the price of all crown lands in British Columbia has been doubled. Yesterday you could buy crown land in this rich province for $2.50 per acre. Today it will cost you $5.00. Settlers with capital for investment in land are pouring in, and the increase in price will mean a considerable increase in the treasury funds. That the demand for land in B.C. will go on growing is undoubted. In view of the rapid advance in land values everywhere in the province the issue of today's order-in-council was only to be expected.

CITY SECURES WATER RIGHTS

WOODWORTH LAKE RIGHTS SECURED FOR SUM OF $15000

Power Rights Were Held by Company Before Incorporation. Of Great Advantage to City. Means Power and Pure Water.

For the sum of $15,018.75 the City of Prince Rupert will become the sole possessor of the water and water power rights of Woodworth Lake and its outlet to Shawatlans Lake.

The power rights had been secured previous to the incorporation of the city by the Prince Rupert Power and Light company. The Government, however, reserved 300 inches of water at Woodworth for domestic supply purposes for the city. It was felt by the present city council, its fire and water committee, and City Engineer Davis that to secure the whole rights of the lake's power and water would be most advisable. Two ways existed to acquire these. One was by expropriation, the other by purchase outright. Purchase outright was decided on, as expropriation would mean that only the water for domestic use would be secured.

As the City Engineer advises the council that about 1800 horse-power can be obtained from the stream, and this may help out the lighting problem pretty soon, it was thought that the rights are a bargain at the price, and the City Treasurer has been authorised to make out a cheque for the amount payable to the Canadian Bank of Commerce, and to take out the Water Records and transfer now at the bank in connection with the affair. The whole of the watershed of Woodworth and Shawatlans Lakes is Government reserved for the city, and by retaining the power rights the city ensures a pure supply unsullied by commercial works upon the water shed.

The object of the G. T. P. boats leaving for Vancouver at midnight instead of at 11.30 as formerly is to give those attending the theatres who wish to leave on the boat, more time to spare after the performance is ended.

WOULD LIKE TO WEIGH COAL

PUBLIC WEIGHT SCALES WOULD PROTECT PURCHASERS

Ald. Newton Broaches the Idea and is Well Supported—Engineer to Select Site for Scales—Hilditch and Morrissey Object.

A very commendable idea was propounded by Alderman Newton at the meeting of the council last night. He opined that it was time the city had a public weigh scale, with a man in charge who should weigh all coal and other goods vended to the public and give a certificate of their correct weights.

He moved that the City Engineer be instructed to locate a site, as central as possible for the erection of the scales. When the motion was put it was carried with only two dissenters. This is how the aldermen voted: Yeas: Smith, Clayton, Kerr, Kirkpatrick and Newton. Nays: Morrissey and Hilditch.

"The time is not ripe for this," said Alderman Hilditch. "It will mean people will have to pay 50 cents more per ton for coal, because it will have to be teamed a further distance. It is not economic and not reasonable."

Alderman Morrissey submitted the institution of a public weigh scale was a reflection on the honesty of the coal merchants and would mean more expense to the merchants on account of the weighing of every few sacks. It sacks of coal was delivered to one householder.

Alderman Clayton and the Mayor spoke in favor of the motion.

For two centsa nd a half per square foot for road planking on Seventh avenue and four cents a running foot for hand railing was the price A. Johnson put up to the council. The streets committee will deal with the matter.

The Financial News wrote saying Mr. W. Leonard Palmer a special representative of the paper was on his way to the city. A full account of the object of the visit of Mr. Palmer was given exclusively in the Optimist last Saturday. The finance committee will decide whether or not Mr. Palmer shall be officially entertained.

WHAT THE COUNCIL DID LAST NIGHT

Authorized payment of $15,000 to Prince Rupert Power & Light Co., for rights over water power of Woodwarth Lake and outlet.

Opened tenders for 200 telephone poles.

Opened tenders for printing of city accounts.

Amended and passed Health and Trade License by-laws.

Authorized city clerk Woods to collect subscriptions from people in the city bearing name of George for purpose of buying King George V. a coronation present.

Supported Ald. Newton's motion to erect public weigh scales.

Left Finance Committee to report whether or not Financial News representative should be entertained when he visits the city.

Considered Mayor's amended procedure by-law which passed second reading.

Received petition for plank roadway between 11th Ave. and McBride Street, and referred it to Streets Committee.

YOUR CROWNING GLORY

Hair Dressing That Helps the Effect of a Spring Costume

There is no excuse for any woman having her hair arranged unbecomingly in these days, for so many different styles of hair-dressing are in vogue that no matter what her features some one style may be found which will set them off to the best advantage. Very few women realize the important place that the arrangement of the hair plays in one's whole appearance. Hair unbecomingly worn, or in a disorderly, untidy condition will ruin the effect of the most stylish costume. Perhaps the best way to do is to choose the style of hair-dressing most suited to the face and then adhere to it. Even if one's profile be naturally poor it can be improved if the hair is arranged properly.

There are certain general rules in regard to the arrangement of one's hair that every woman should know. A round full face invariably looks best if the hair is worn loosly fluffed about it, with the coils placed high, or directly on top of the head. Some thin faces look well in this, but the majority appear at their best with the hair worn rather flat on top, but puffed loosely at the sides. This lends breadth to the face, and seems to soften the sharp lines. A parting in the centre or at one side, with the sides softly rolled, and the coils or braids worn low at the back of the head is nearly always becoming to a thin face. For such a one the hair must never be worn high, but always at or below the crown of the head.

In combs, barrettes, bandeaux and other accessories there is a wide range from which to choose this season, but it should be remembered that the fewer of such ornaments used the more refined and becoming is usually the effect. Such additions when too ornate or too nu nerous are in extremely bad taste, and will spoil the beauty of an otherwise attractive coiffure. The Grecian bands are still worn, though they are not suited to every face. The once popular sidecomb is quite out of date. Jet is being very much used, but is only beautiful on certain shades of hair. Puffs and curls are still very much in evidence, though less so than some time ago. The tendency seems toward simpler styles, which will reveal the true outlines and shape of the head.

DAINTY EASTER CAKES

Easy to Cook and Ever so Appetising at Afternoon Tea

Dainty little Easter cakes for afternoon rea are made as follows: Beat together one-quarter pound butter and one-half pound sugar until creamy; add to this two eggs which have been beaten separately, then sift in 6 ounces of flour and one teaspoonful of baking powder, mixing until smooth; add 3 ounces of desiccated cocoanut and sufficient milk to make a light creamy dough. Bake in small fancy cake tins for fifteen minutes. When cool, coat with an icing made in the usual way from pulverized sugar, colored a delicate pink with cochineal. Desiccated cocoanut may be sprinkled over the top.

Fresh from Fashion Land

Chicago, March 30.—Farewell, a fond farewell to the feminine binding corset, and that mysterious feminine perquisite called "lingerie," and greetings to the harem skirt and "tights."

This was the dictum of the dressmakers' convention assembled here after a full discussion of the new fashion problem. A dainty silken girdle, with a few short stays, is to replace the cumbersome corset. It is made possible, the dressmakers declare, by the extremely high waisted empire effect of the tunics covering the bloomers or tights of the harem skirt.

Directoire lines have been applied to the harem skirt tunic and the original Turkish trousers will be crowded out, to be replaced by silken tights.

Some of the effects shown by the dressmakers' models are startling. And they have evolevd a new terminology. They are the trouserettes, pantaloon skirts, culette-odalisques, jupe-pantaloons, and jupe-culettes, and each of them means something just a bit more surprising than the last. They all mean "pants," however, varying from vari-colored tights to flaring silken trousers that resemble cowboys' chaps.

REFRESH YOUR MEMORY

You Forgot Some of These Home Hints, Others You Remember

To keep linoleum bright, use sweet milk and water to wash it.

To brighten oil lamp burners, boil for fifteen minutes in buttermilk.

Cut flowers will last well if a piece of salt petre be added to the water in which they stand.

A piece of mosquito wire is an excellent thing to rub a ffat iron over to take off the rust.

Outside leaves of lettuce, if boiled, chopped, drained and served on toast like spinach leaves are delicious.

To save grease when frying doughnuts, put half a teaspoonful of ginger into the grease when hot.

One way to remove tea, coffee and fruit stains from linen is to rub butter into them and then soak in hot water and soap.

To remove spots from light dresses, apply a little fuller's earth made into a paste with spirit, and brush off when dry.

Unbleached calico shrinks very much when washing. When making it up an extra inch a yard should be allowed for this.

The European method of cooking green peas is to boil them before shelling, and then to season and reheat them after shelling.

When the finger nail is bruised, soak in ice water, then hold the finger upright for half an hour. It will then prevent an ugly black spot.

REAL FRIENDSHIP

Who cares for the burden, the night and the rain,
And the steep, long, lonesome road,
When at last through the darkness a light shines plain,
When a voice calls hail, and a friend draws rein,
With an arm for the stubborn road?

Tho' his way lie over the prairies green,
And mine up the sunrise hill,
Tho' no more in my path may his light be seen,
And I never may travel the leagues between,
His succor aids me still.

For life is the chance of a friend or two
This side of the journey's goal.
Tho' the world be a deserts the long night thro',
Yet the gay flowers bloom and the sky grows blue,
When a soul salutes a soul.

LILLOOET BEGINS SEASON'S SEA SURVEY WORK

Making for Hecate Straits to do Six Months' Cruise for the Locating of Beacons and Buoys Marking Rocks.

Early this month the Dominion government survey steamer Lillooet, which has been lying at Esquimalt for some time, will leave on her annual surveying cruise in British Cooumbia waters. The crack little vessel will head for Hecate Straits, and will spend about six months making soundings and locating rocks upon which to have beacons or buoys established.

This year all the survey work will fall to the lot of the Lillooet, as H. M. S. Egeria has been laid up. The steamer will, therefore, have a very busy season and is not expected to finish her work before the beginning of November. Although a great deal of the survey work in British Columbia waters has been done, still there are many uncharted rocks yet to be located. The Egeria has been employed in the service for many years and had done a great deal towards mproving navigation in Canadian waters. She was, however, laid up last winter by the British Government, and it is understood that the staunch old vessel may be secured by the Dominion Government for a training ship.

British Columbia waters are now looked upon by steamship companies plying along the coast as the best lighted and marked anywhere. American steamboat men have continually praised the work of the Dominion Government, and have tried to induce their government to follow out the same plan in lighting Alaska waters.

JUDGMENT SUMMONSES TODAY

Preliminary County Court Business Dealt With by Judge Young

Judge Young opened the County Court this morning. Judgment Summonses received the first attention of the Court at 10.30 a.m. the following cases being dealt with:

Vancouver Breweries vs. McQueen. Adjourned till next week.

Stewart & Mobley vs. James Duggan, Williams & Manson for plaintiff. Judgment given for $10 per month, defendant stating that he could manage this.

Alibi vs. J. R. Beatty, adjourned, no date fixed yet.

Bank of B. N. A. vs. McKay & Mathieson, L. Patmore for plaintiffs. Mr. Mathieson appeared explaining his circumstances and judgment was given for $5 per month. The debt if $300, and was incurred in Greenwood.

Henderson Bros. vs. Geo. Thody, L. Patmore for plaintiffs. Thody agreed to pay half the amount owing $30, by the middle of May.

Bickerstaff Wilson vs. A. Tattersfield. Adjourned pending arrangements.

Rose Brooks Co., Ltd., vs. McQueen. Adjourned pending arrangements.

CANNERY TIN COMING

Blue Funnel Boats Cargoes Being Sent North Now

Large quantities of tin-plate have been shipped north during the last few days by the B. C. Coast Company's steamers British Columbia, Clansman, Fingal and Celtic, in readiness for the canning season. The tin-plate is shipped to Vancouver from the United Kingdom and the United States, and a large consignment is now being unloaded from the Blue Funnel line Ning-Chow at the Evans Colman & Evans dock.

The Cetriana's last cargo for the north consisted considerably of cannery tin.

JUICE TOO COSTLY

Rates Asked by Light Co. Refused—Town Plunged in Dark

(Special to the Optimist)

Lunenburg, April 3.—Because the County refused to pay the high rates charged for electric light charged by the Light Company the juice was turned off last night, and the citizens left to grope the best they pleased. The company is willing to have the matter referred to the Public Utilities Commission but the council is obdurate, the juice will therefore most likely remain off for some time.

What About Boscovitch;

Mike Boscovitch is still in custody under the serious assault charge laid against him by a woman of his own nationality. His case will be investigated again before the Magistrate on Thursday. Boscovitch has not yet been committed.

An Object Lesson from the Printers

Ten days ago in urging the street laborers to seek arbitration in their dispute as the proper and progressive method of arriving at a prompt and workable settlement we mentioned the fact that the International Typographical Union maintained a permanent arbitration board, and refused to countenance any strike unless the supposed grievances had first been investigated and arbitration tried.

An object lesson has just been furnished by the very body of which we wrote, the last mail bringing particulars of a striking illustration of the value of the International Union's method—in this case all the more striking because the International Union went over the heads of the local officers and ordered back to work the men whom the local officers had ordered out.

The trouble arose over typesetting rates in the offices of the Chicago Examiner and Chicago American. The offer of the papers to arbitrate was refused, and the president of the local union ordered his men out on strike. That was on a Tuesday. By next afternoon President James Lynch of the International Union wired to Chicago from Washington disavowing the strike and ordering the men back to work. His order was promptly obeyed, and the matter is to be adjusted by arbitration, according to an agreement between the International Union and the American Newspaper Association.

The prompt and decisive action of President Lynch has been widely commented on by the labor press, who realise the importance of living up to all contracts they enter into, and the folly of rushing into a strike until all peaceable methods have been exhausted.

The Rochester Labor Journal says: "James M. Lynch, president of the International Typographical Union, can't be bluffed on upholding a strike when it is uncalled for, as was the Chicago strike."

The United Mine Workers Journal in commenting on the matter adds: "Strike first and reason after sometimes makes reasoning impossible. Better keep on reasoning first, then if reason fails the kicking propensities are in order. Thrice is he armed who hath his quarrel just, and reasoning will establish the justness more fully before the strike than after it is entered into."

Notes and Comments

Alderman Pattullo's letter in yesterday's Optimist has already borne fruits. Several people called up the editor today to express their hearty support to the proposal to declare a truce to all internecine disputes and to make a solid stand for the progress of Prince Rupert and the development of the surrounding district. The spirit of optimism is in the air.

TIPS OFF THE GUTTED STICK

Calgary, April 4.—Calgary has the lacrosse fever, and since baseball ended in such a fiasco last season the brightest prospects for the establishing of Canada's national game on a sound basis is in evidence.

Lacrosse had a slight foothold here some years ago, but the baseball fever gave it a setback. Now the followers of sport are discarding baseball and returning to their old love.

Montreal Exchange—"Nationals now have all their last year's regulars signed up with the exception of Gauthier and Lalonde, on whose services Con Jones, of Vancouver, has an option, which holds good until April 15."

A New Westminster report says that the Spring brothers were offered, and refused, $2500 each to play lacrosse this season with Vancouver. "But we just couldn't sign up to play against the boys," was the reason given for the refusal of the brothers to accept $5000 for five months' work.

BASEBALL HITS

Spokane, April 4.—Phil Cooney, shortstop of the champion Spokane team last year, and who was sent up to the big leagues, will play with Spokane again this season. He was given a trial by Chicago but could not oust Joe Tinker out of his job with the Cubs. Joe Cohn, president of the Spokane Club, made Murphy an offer for Cooney's services and the Cub magnate accepted.

The baseball scribes throughout the country are hailing the word "kithogue" (as a synonym for southpaw or left-hander) as an important addition to the glossary, and many of them are taking the credit of coining it. Another insult to the Irish.

POWER BOAT RACE

The date for the start from Vancouver of the annual long distance race of the Pacific International Power Boat Association, has been fixed for Sunday, July 2. The boats will be allowed to start at any hour between 8 a.m. and 2 p.m., will round buoys in Bellingham and Seattle harbors and will finish in Victoria on Monday, July 3.

One-Round Hogan has an offer from Hugh McIntosh to box Matt Wells, the new English lightweight champion, in London during Coronation week. McIntosh offers a $10,000 purse, which will be snapped up by the Californian if he beats Ad Wolgast before Madison Athletic Club in New York on April 18.

An automobile drive, twenty feet wide and five miles long, will be built this spring on top of a sea wall at Manhattan Beach, near Coney Island, N. Y. It is understood that the drive will cost in the neighborhood of $300,000.

SOCCER TROPHY OFFERED

Calgary, April 4.—Doc Gibson, one of the best-known sports in the West has offered to put up a trophy for the soccer teams of the West from the Coast to the Great Lakes. He is willing to give a cup or shield to the value of four hundred dollars, and to leave the question of how it must be won to the clubs interested, as well as the name by which it may be known.

Advices from Edmonton say that the interest there in the scheme is extremely keen. A meeting of the Hillhurst, champions of Canada and the city league, with the provincial league is in sight. Macleod, Vancouver, Lethbridge, Winnipeg and Port Arthur have been notified.

DAILY MESSAGES FROM "UNCLE JERRY"

No. 25

Do you realize that every train of the G. T. P. R. R. will be a flying advertisement for our city? The letters stand for "Go To Prince Rupert Road"—that's plain. The Grand Trunk chose its name well and we are duly grateful. Just now the Grand Trunk is making Prince Rupert but it will not be long before Prince Rupert will make the Grand Trunk Pacific.

A modern railroad is a wonderful institution. Railroad building today is not a gamble, it is a science. A railroad that would just make a town its terminus just for the sake of making a town would be committing suicide. It would be flirting with the undertaker, as my friend Sheriff Small used to say back in Missouri. A railroad chooses its terminus for the trade it can get there, for the freight it can bring there and take away from there. So you see the railroad knew exactly what it was doing when it chose Prince Rupert. We know that many excellent engineers, many of the ablest business men, many large capitalists compose the railroad, and we know that their collective judgment must be good or they would not be able engineers, able business men or able capitalists. They selected Prince Rupert. You or I cannot have better judgment in the matter than they did. That's our cue to profit by their judgment. Stick with Prince Rupert and tell your friends about it. If you don't know what to tell them about Prince Rupert ask me and I'll tell you what to say. Also I shall give you my book of Questions and Answers on Prince Rupert. You can either send that or copy it. It is easier to send it or I'll send it for you. If you and I keep on getting busy with telling the outsiders about Prince Rupert, it will not be long before we will have twenty-five thousand inhabitants, then fifty and then my prophecy, "The San Francisco of Canada."

HELLO POLE TENDERS

Two Hundred Conversation Props Wanted for Prince Rupert

Following are the bids sent in to Monday night's city council for the latest consignment of telephone poles required by the city: Two hundred poles are wanted of lengths from 35 to 55 feet. Three offers were received. Andrew Melvin & Co. bid 10 cents, 12 cents, and 15 cents per foot respectively for 35, 40 and 55 foot poles. Oscar Anderson & Co.'s prices are 7 cents, 8 cents, and 9 cents. Frank Engler would supply the above lengths at 9 cents, 10 cents, and 13 cents per foot respectively. Tenders were referred to light committee.

PLANKWAY SHORT-CUT IS WANTED

Eleventh Avenue Residents Petition Council for Convenient Path

Residents of Eleventh avenue have petitioned the city council for a plank roadway to be constructed from the end of Eleventh avenue near McBride street to the northeast, to join McBride street bridging Hays Creek and the Park Reserve there. A glance at the map of the townsite at once suggests the convenience of such a plankway. Certainly before the city is very many years old a permanent roadway and bridge will span this distance making a convenient short cut for residents in this pleasant little district across the park.

PRINTING TENDERS OPENED

Prince Rupert's First Municipal Accounts to be Published

At the city council Monday night tenders were opened for the printing of the Financial Statement for Prince Rupert's First Municipal year were opened. They were read as follows: O. H. Nelson $58; Prince Rupert Publishing Co. $3.45 per page, whole job not to exceed $95; Empire Publishing Co., $3.50 per page for small pages, $4.50 per page for size same as Vancouver Statement.

The tenders were referred to the finance committee.

Police Take Charge of Springfield Mines—No Loitering Allowed

(Special to the Optimist)

Halifax, April 4.—Springhill mines are under police administration. Today Commissioner Thompson with a force of thirty men took charge, and for the first time in history of Halifax loitering on the streets has been forbidden. The whole population of the town feels the position keenly and the citizens deprived of their privilege to loiter and compelled to go briskly to and from business are mutely indignant. The non-strikers are again at work today.

Good Local Bowling

David Stenstrom of Foley, Welch & Stewart put up a fine score of 267 in Morrison's new alley makng a perfect score of 9 strikes and 1 spare, while Barney Mulvaney followed a close second with 237 and Caspar Malmberg third, with 219. This shows good form and puts Rrince Rupert bowlers up in the A1 class. A match game is arranged between Foley, Welch & Stewart and Grand Trunk teams for Friday eve next.

The steamer Prince Albert leaves here tomorrow at 1 p.m. for Port Simpson, Naas River points, Masset, and the new whaling station, Naden Harbor.

HALDANE IS NOW A VISCOUNT

SECRETARY OF WAR IS CREATED A PEER

Appointment is Intended to Strengthen Liberal Party in Upper House. Lloyd-George Will not Resign from Parliament.

London, April 3.—King George today created the Right Non. R. B. Haldane Secretary for War, a Viscount. The elevation of Mr. Haldane to the Peerage has been anticipated for some time, and is intended to strengthen the Government in the House of Lords.

Colonel J. E. B. Seely, Parliamentary Secretary of the Colonial Office, has been appointed Under-Secretary for War, and Lord Lucas, Parliamentary Secretary of the War Office, has been made Under-Secretary of the Colonies. The exchange of offices is consequent on the elevation of the Secretary for War, Mr. Haldane, which would place both representatives of the War Office in the House of Lords, it being custcmary to have a representative of the chief Government department in each House.

The report that Mr. Lloyd-George as Chancellor of the Exchequer is now about to resign is officially denied. Mr. Haldane's promotion is merely intended to relieve Lord Morley of the heavy task of leadership in the House of Lords during Earl Crewe's absence through illness.

The elevation to the upper House of Mr. Haldane leaves a vacancy in Haddington division, Scotalnd, which at the last election showed a Liberal majority of 543.

BLUE POINT LOOKS BRIGHT

New Board Appointed. Engineers Report on State of Mine

Prospects for the Blue Point Mines, Portland Canal district, are bright according to the report of T. J. Vaughan-Rhys, mining engineer, presented to the president and directors at their meeting last week.

New Directors were appointed at that meeting as follows; President, Dr. Kergin, Prince Rupert; Vice-President George Rudge, Port Simpson; Secretary-Treasurer, G. R. Naden, Prince Rupert. Board: J. E. Stark, Naas Harbor, H. T. Ceperley, Vancouver; L. Bullock-Webster, Prince Rupert; and H. B. Rochester, Prince Rupert.

In his report, Mr. Vaughan-Rhys states that the condition of the development work on the mine, which is well advanced. There are two tunnels, an upper and a lower one, driven into the veins on the face of the mountain. Ore showings ranging in assay value from $20.22 to $68.28 have been sampled. A winter camp has been established, and besides the main tunnels a number of open cuts have been made. Concluding his report Mr. Vaughan-Rhys says:

"You are to be congratulated upon the present appearance of the Blue Point Mine. The upper tunnel was disappointing in its results inasmuch as it apparently entered the ore shoot at a point only 12 feet from the eastern limit of the shoot. The lower tunnel has entered into good ore containing much less zinc sulphide and carrying reasonably good values in silver and lead. It is possible that this ore is the western limit of the shoot in the upper tunnel in which case the total length of the ore shoot will be 15 feet plus 160 feet plus 12 feet, a total of 187 feet with an average width of not less than 52 inches and containing an ore which can be very easily concentrated. You are fully justified in continuing expenditures for the further development of the property."

MILES OF STEEL FOR YARDS

Two Hundred and Nine Miles Shipped for G. T. P. Here

The Grand Trunk railway has ordered 40,000 tons of steel rails from the Sydney, Cape Breton mills, to replace 260 miles of its tracks in Western Ontario. The order amounts to over a million dollars. The company will ship 209 miles of the displaced track to the West for yards and sidings on the Grand Trunk Pacific. Some of these rails have been in use since 1869, but are still good, having been imported from England.

Five Fined Five For Frisking

Five bold imbibers toed the line at this morning's police court, and paid their five spots plus costs. Their names were: Dan Beaton, Jesse Ford, George Leavitt, Anton Levitch, and last but not least John Bull. Anton Levitch was charged with having raised Cain near Messrs. McInnis & Kelly's, but it is not certain that he was a striker. "D and D" was the charge in all these cases.

CHIPS FROM THE HUMORISTS

"John, old boy," said the sick man to the attendant, "I want you to go out and fetch me another minister."

"Why you've had a preacher with you all the mornin'."

"That's just it," gasped the man. "He thought he was cheerin' me up, and he told me I'd meet my three wives in heaven"

"So she doesn't return your affection, eh? Well, I shouldn't get mad about that. What's the use of bothering about a girl?" said Watkins.

"I don't mind her not returning my affection," said Dobbleigh, "but confound it, she won't return my diamond ring, either"

Friend (consolingly)—So you've lost yer job, eh? Well, don't worry about it; I reckon you was only wastin' yer time in a place like that.

Young Bill (sadly)—Yes, that's what the boss told me when 'e sacked me.

"Are you superstitious?" asked the bachelor.

"Well," replied the father of a large family, wearily, "I certainly think it's unlucky to have thirteen children."

GOLD STRIKE ON NAAS RIVER

PROFITABLE PLACER MINING PROSPECTS PROMISED

Jack Nelson Found Pay Dirt, and Gold Bearing Quartz at Head Waters of Naas on White River.—May Mean a Rush.

Now comes the turn of the Naas River for a gold rush. There are substantial indications that placer mining can be profitably engaged in at the headwaters of this river. Last fall a considerable amount of coarse placer gold was brought out from that district, also some exceedingly rich samples of free milling quartz.

Credit for having made the first discovery of gold here is given to Jack Nelson who after wintering in Vancouver, is now returned to the scene to follow up his discovery by further prospecting.

The lead from which the visible gold was taken is eight feet in width at the point where the samples were secured. Mr. Nelson had no tools with him excepting a small prospecting pick, but with this he was able to knock off pieces of the quartz. These he brought to Vancouver. The samples which did not show the visible gold he had assayed, and the lowest return receiv?d amounted to $91 per ton. The other samples he did not send to the assayer as their value was apparent from the quantity of the yellow metal which was visible to the naked eye.

He kept the results to himself until yesterday as he was not desirous of working up too much excitement which would result in undesirable activity on the part of others who might wish to forestall him in further prospecting nad properly locating his find in Stewart, however, the samples were shown to a few intimate friends, and it is from that point that the rush to the new country will centre.

Two weeks ago Mr. Nelson's partner, Mr. A. G. Willoughby, went to Stewart and is by this time on the ground, with the necessary supplies and tools for several months' work.

The discovery was made on White River, which is a branch of the Naas coming in from the south, and to the east of Naas lake. The placer gold he found in the bed of this river, and he believes that with proper appliances he will be able to take out a large amount of gold from these diggings in a very short time. It was from Mr. Thos. Strain, of Stewart, formerly storekeeper at Bitter Creek, says the Vancouver Province, that the information as to the departure of a number of prospectors for the Naas was secured.

SPEND ELEVEN THOUSAND FOR POLICING THE CITY

Estimates for 1911 Were Passed by the Board of Police Commissioners Yesterday---Chief Vickers Presented an Optimistic Report

Prince Rupert's first police estimate for a whole year is $10,905. It was submitted yesterday afternoon to the Board of Police Commissioners by Chief Vickers and O. K.d by the board them sent on to the council for final approval.

The money will be spent as follows:

Chief's salary	$1,800
Sergeant's salary	1,260
Two Constables' salary	2,400
Jailer's salary	1,020
Special Constable in March	300
Special Constables	1,500
Prisoners to New Westminster	1,000
Uniforms	250
Keep of prisoners	750
Incidentals	250
Light	75
Fuel	200
Total	10,905

From June 2nd of last year, when the Police Department was taken over by the city the expenses were $7,260, though the estimate was $8,225.

Chief Vickers reported that everything is going on fine in the city. He hadn't a complaint to make.

Curtain on Gambling

"You are seeing that license holders are observing the law," queried the Mayor. "And the board wish to have gambling stamped out. Rest assured that the board is behind you in whatever action you take in this respect." Commissioner Kirkpatrick was doubtful if a conviction against gambling could be secured if there was no rake off. The matter was juggled for a time and then dropped out.

The chief was empowered to buy the supplies for his department with the exception of the uniforms which will be tendered for.

City Merchants Kick

Prince Rupert merchants trading under a license find their business is being affected by itinerant traders selling goods here from door to door not carrying a local license. A number of local storekeepers appealed to the commissioners for protection. There is a city by-law governing this matter and hereafter the Chief of Police will rigidly enforce it.

Complaint Against Strikers

A letter from Williams & Manson, solicitors for S. H. Watson and Co., city contractors, bearing the date of March 16th complained about the interference of strikers with men in the employ of the contractors and called the attention of the responsibility of the council and police commissioners in the matter.

Chief Vickers was authorized to do all he could to keep the white dove from being scared away.

Apparently there is some laxity in the registration of births, deaths and marriages that occur here, for the City Health Committee asked that Chief Vickers see that the Provincial Act governing this be carried out.

"This is a provincial matter," said the Mayor, "but the Chief could assist in the matter if he will."

The Chief volunteered, "I will."

The application for the position of Chief of Police from J. Pengilby, of Vancouver, was filed.

Some other insignificant matters were duly approved.

The commissioners will meet again on Monday, May 1st.

MAYOR BUSY ON BY-LAW CHANGES

PROMISED ALTERATIONS IN PROCEDURE BY-LAW ANNOUNCED

Mayor Would Vote With Aldermen—Enquiry System to be Abolished—Quicker Plan With Notices of Motion Proposed.

Mayor Manson Monday night introduced his amended Procedure By-law. Early in his municipal term he had indicated that he would alter this by-law. Briefly the amendments proposed are: First; to later the hour fixed for the first meeting of the new council from 12 noon on the day following their election to 8 p.m. Second; to provide for the Mayor's voting along with the other members of council. The Mayor of course has a casting vote. Third; to provide that notice of motion may be given by posting the notice written, on a board placed at the City Hall for the purpose, so that it need not be necessary for the mover to wait a whole week before making his motion. Fourth; questions and answers to them under Mayor Manson's by-law are to be put in writing, and no discussion of them is allowed. Fifth; committees are reduced from five to three as was done by Mayor Manson on his election.

In introducing these amendments Mayor Manson remarked that the amended by-law was modelled after the Victoria Procedure By-law which went in accordance with the Municipal Clauses Act. Copies of the by-law as amended were distributed among the aldermen who are to consider them at home.
