DISPUTED ACCOUNTS

City Council Takes Action Upon Claims That Have Been Standing.

Empire to Be Paid in Full—Williams and Manson's Bill Stands Over

The finance committee of the council last evening reported in favor of settling with W. J. Taylor, K. C., of Victoria, with respect to his services in preparing the city charter for the sum of $1,000; in favor also of settling the Empire account for $257 in full; and in favor of paying Williams and Manson the solicitors, to the end of January, but not for February. The committee also advised letting the matter of the government account stand over for the present.

With respect to Mr. Taylor's account, Ald. Newton said that the committee went into this fully. Mayor Manson reported that he had done the best he could in the matter and it was deemed advisable to pay it rather than run the risk of litigation.

Ald. Pattullo did not think that there was any danger of litigation. The recommendation carried.

With respect to the Empire account, Ald. Patullo said he felt that the amount was excessive. He did not believe that the full amount should be paid. Private citizens had contributed to assist in paying expenses preliminary to incorporation. The Empire, that always represented itself as standing for the people, might well have done something along that line also, but instead was found "soaking the city."

Ald. Kirkpatrick said that onlk about $40 was in dispute. All the rest of the items had passed. It being only $57 it was felt that the city was morally bound to pay them as they had been contracted for.

Ald. Pattullo said that when the items which the old committee had cut off were left out it was felt that the Empie was being well paid for all.

Ald. Smith called attention to the fact that the private persons ordering the advertisements might be held responsible.

Ald. Pattullo thought there would be no claim against these.

The item passed.

With respect to the claim of Williams and Manson, for $496, from anuary 20 to the end of February, Ald. Hilditch thought that the municipal clauses act gave power to dismiss a civic employee without notice. He did not think the solicitor's had a claim for even the latter part of January from the 20th to the end.

The matter was referred back to the finance committee in order to allow that body to consult a solicitor.

CORRECTING MISTAKES

Ald. Pattullo Makes His Weekly Statement Relative to Empire

At this week's council meeting Ald. Pattullo, as usual, had a question to bring up as a matter of privilege relative to statements published by the Empire. He objected to the statement that 133 men were employed by the engineering department just before election. That statement was false. He had looked the record up and found that on January 1 there were none employed. He gave figures for the following days, which showed 9, 10, 15, 21, 39 and on January 12, election day, 42 employed. On January 13, there were 44.

Ald. Newton explained that the statement of the city engineer that 133 were employed would have justified him in coming to the conclusion he did.

Ald. Hilditch said if he wanted to be too sensitive, he might show that these objectionable statements were not confined to the Empire. The Optimist had referred to himself, Ald. Hilditch, coming near to malfeasance of office. He did not care himself what was said, but it might create a bad impression outside.

A drunk in the police court this morning was fined $5 and costs and for breaking a window was assessed an additional fine of $10.

FINANCES OF THE PROVINCE ARE IN AN EXCEEDINGLY HEALTHY CONDITION

Budget Speech of Hon. Price Ellison Shows That Entire Debt Could be Wided Out---Commission May be Appointed to Go Into the Whole Question of the Incidence of Taxation With a View to General Adjustments and Lowering of the Scale---Industries of the Province Produced Last Year Over One Hundred Million Dollars Worth.

(Special to The Journal)

VICTORIA, Feb. 14.—The budget was presented by Hon. Price Ellison, Minister of Finance, in the Legislature yesterday. The minister announced that the liquid assets of the province would be sufficient within the year to wipe out the entire funded debt of the province, which at the close of the last fiscal year stood at $8,616,800, which was decreased by $238,867 from the last previous yaer.

At the same time as provision was being made by means of sinking fund for the redemption of the debt in due course, the minister does not consider it good policy to buy back the outstanding debentures.

The surplus for the fiscal year ending March, 1910, the minister placed at $2,500,000. The surplus for the current twelve months cannot be estimated, but the minster expects it will be quite as large as last year's. The government has upon deposit in various chartered banks and bearing interest, no less than $7,500,000.

Hon. Mr. Ellison places the value of productions of the representative industries of the Province during the past year at $100,742,000, divided roughly as follows:

Manufacturers	$35,000,000
Mining	26,183,505
Timber	17,160,000
Agriculture	$14,399,000
Fisheries	8,000,000

Special announcements contained in the budget speech included mention of the fact that it is the intention of the minister to recommend the appointment of a commission to go thoroughly into the entire question of the incidence of taxation in British Columbia, with a view to a general readjustment and lowering of the scale.

THE COAL QUESTION

Ald. Clayton Moves in Direction of Awakening Interest In it.

He Proposes to Have Question of Acquiring Claims Looked into

Ald. Clayton introduced a resolution at last evening's council in favor of the city securing by purchase, or by staking, two or more coal claims as a means of reducing the cost of coal in the city.

In support of his motion he said he felt it was necessary to secure a coal area. As to the working of it this might be left over for the meantime. The question of working it was something that he thought could be left over until more fully looked into. His main object was to do something which might lead to an investigation into the coal situation here.

Ald. Newton felt that $11 a ton for coal here was very high. He thought the council migat well look into this and see if any relief could be got. He did not wish to reflect upon the local coal merchants at all.

Ald. Pattullo did not think the city had the power to go into this. It might affect the credit of the city to propose to go into a speculative enterprise. He would be agreeable to have a committee go into teh question.

Ald. Hilditch agreed with the motion. It did not go far enough, however. He was led to believe that articles other than coal were too high. He did not believe the advances were going into the pockets of the local merchants. He thought the whole question should be gone into.

Ald. Morrissey thought it would cost little to stake these coal claims. These would become very valuable.

Ald. Clayton's resolution was finally altered to allow of an investigation into the question, and carried.

YOUNG LIBERAL CLUB

Organization Formed Among the Younger Element of the Party in the City

The Young Liberals of Prince Rupert have formed an association and elected the first officers. The meeting for the purpose was held in the Knights of Pythias hall on Friday evening when speeches were made by G. R. Naden, J. S. Cowper, Dr. Kergin, Ald. Pattullo, M. P. McCaffery, H. B. Campbell, A. W. McLean, W. H. Montgomery and E. H. Mortimer.

The officers elected were:

Hon. President—Dr. Kergin.
Hon. Vice-President—F. Stork.
President—Dr. W. S. Hall.
Vice-President—F. D. Keeley.
Second Vice-President—T. H. Arneil.
Secretary and Treasurer—E. H. Kearns.

The following members were then elected to the executive — Messrs. H. B. Campbell, J. S. Cowper, C. L. Munroe, M. P. McCaffery, F. A. Ellis, W. H. Montgomery, E. H. Mortimer and Tony Christian.

THEATRE LICENSES

Local Playhouses Ask for a Reduction in the Fees Paid

The local theatres have asked the council for a reduction in the license fees paid. It was pointed out that these places were the only amusement houses in the city and the fee seemed too high.

Ald. Hilditch said that it seemed to him that the licensesh were too high.

Ald. Newton wanted the clerk to communicate with Vancouver in order to get the licenses on the theatres in line with this. A fee of $200 seemed too high.

The motion carried.

REFUSE DAMAGES

City Council Will Not Make Award in Claim for Injuries by Falling off Sidewalk

On the report of C. V. Bennett, acting city solicitor, the claim of Mr. Donaldson for damages as a result of falling off the sidewalk is to be refused. Mr. Bennett advised that in his opinion the man had no good claim.

The case of Mr. Olson, who fell into the sewer ditch in front of J. A. Kirkpatrick's store, was referred to the streets committee last night. L. W. Patmore, representing Mr. Olson, put in a claim for $700.

Ald. Hilditch pointed out that the Provincial Government carried out the sewer work. He also said that he felt that with the work now in progress in the city on its streets pedestrians should be careful. They could not expect that the city could provide safeguards to ensure no accidents if people were not especially cautious. He had been in danger several times but it was due to his own carelessness.

"To carelessness alone?" asked Ald. Pattullo, and the whole council became reminiscent and laughed.

BILL FINDS FAVOR

House of Representatives at Washington Agreeable to Reciprocity Agreement.

Test Vote Shows That It Is Favorably Looked Upon by the Members

(Special to The Journal)

WASHINGTON, Feb. 14.—A test vote in the House of Representatives shows a majority in favor of the reciprocity agreement. The vote was taken on Representative McCall's motion to go into committee on the bill, which carried by 195 to 121.

Col. Davis, the city engineer, has been granted permission to go south to Vancouver and Victoria in order to inspect certain works which have been carried out there and which it is felt will be of advantage to the city of Prince Rupert to have him examine into. The suggestion was made by Mayor Manson early in the year that the engineer should make this trip, particularly to study the question of conducting water pipes across the waterways such as was experienced in Vancouver. Col. Davis finds the present the most convenient time to go.

KILLED AT KITSELAS

Five Men Meet Death by Explosion of Dynamite on Railway Route

An explosion of dynamite in the Kitselas tunnel on Saturday resulted in five men being killed. Several others ha da narrow escape. The men were foreigners with one exception.

SKIDEGATE WIRELESS

C. M. McIntyre Has Gone to Queen Charlottes to Open the New Station

C. M. McIntyre, of the Dominion Wireless service, was ni the city this week after a trip south. He left on Monday by the steamer Amur for the Queen Charlotte Islands where he will take steps to have the new station at Lone Tree Hill, near Skidegate.

The station will be known as the Skidegate station and will be in working order at once. Mr. McIntyre will remain for a little time until he finds the plant is all in good order and then it will be left to the permanent operator who will arrive from the south.

Speaking of the wireless service, Mr. McIntyre says that the stations are open to do commercial business at the same rate as the Dominion wire.

With the opening up of the Skidegate station a very complete chain has been established to serve the ends of the shipping trade.

On Wednesday evening the Young people of the Methodist Church hold their social evening and their Epworth League. The social department have arranged for an essay to be given on the topis "How We Got Our Bible." A social programme will be provided and refreshments. Everybody welcome. Come and bring a friend.

TO FORCE VETO BILL

Premier Asquith Will Introduce Such a Measure Next Monday.

Compiling List of New Peers to Ensure Legislation in Case of Trouble

(Special to The Journal)

LONDON, Feb. 14.—Premier Asquith has announced in the Commons that he will introduce the government's veto bill next Monday.

As an evidence of the government's intention to force the maesure through, J. W. McCulland, the Scottish Liberal whip, stated in a speech in Edinburg that he was busy compiling a list of the men who would accept Peerage with the view of passing the veto bill in the upper chamber in the event of the Conservative peers proving recalcitrant.

FEAR TROUBLE IN CHINA

LONDON, Feb. 14.—The foreign office fears an anti-foreign outbreak in China. Europeans are believed to be in danger.

WILL SOON BE OPEN

City General Hospital is Fast Assuming a Business Like Air.

Wards Are Being Fitted up Preparatory to Receiving Patients That May Offer

The Prince Rupert General Hospital will soon be open to receive patients. The contractors have not quite completed their work but it is being hurried up and with the heating apparatus in place, the walls are becoming well dried out. The matron, Miss McTavish, is on duty getting the interior arrangements all in readiness.

The public wards will be fitted up at once followed quickly by the furnishing of the private rooms. The Masonic Lodge has made choice of its ward and the Daughters of the Empire have likewise selected a room to be fitted up by them. Both societies will lose no time now in furnishing the apartments so that they may be available in case of need.

The medical men of the city are anxious to see the hospital opened and it is reported to those in authority that there are many cases awaiting the opening to go in.

The hospital is but the beginning of what will be in time an institution where the very best of medical attention can be given. Prince Rupert has among its medical men specialists and general practitioners that do not take a second place to any on the coast. With the facilities afforded in the hospital for treating complicated cases, the General Hospital ought to become a blessing to the whole of northern British Columbia and Alaska, where any kind of special surgical work can be undertaken.

As far as the hospital goes it is acknowledged to be a most comfortable one. It will serve only a short time, it is felt, when additions will have to be made to it.

BACK TO HUDSON'S BAY

Interest wil lbe taken in the announcement that Captain Bucey, one of the most capable and popular river captains in the Northwest, who has disposed of his interest in the Inlander, which he commanded last season, will next season return to the service of the Hudson's Bay Company, as captain of the Port Simpson, says the Omineca Herald.

Captain Gardner, who earned the good will and confidence of passengers and shippers alike as commander of the Hazelton, will agin have charge of that reliable craft, and may be expected to maintain his reputation as a thoroughly competent skipper.

No announcement has as yet been made as to the successor of Captain Bucey on the Inlander.

SCHOONER WATERLOGGED

The wireless reports received at the Digby Island station this afternoon indicate that the steam schooner Edwin B. West is waterlogged off the west coast. The position is not obtainable at the Tatoosh station, but the steamer Atlas is alongside rendering assistance.

A CITY HALL SITE

Question Came Up Before Meeting of Council Again Last Night.

Move to Be Made to Decide the Location for the Building

The subject of the city hall site and the need for early action came before the city council last evening. Ald. Hilditch introduced it, referring to the need of some action being taken to decide the matter. If the Market Place site was to be decided upon it would be avisable to have Mayor Manson take action while in the capital.

Ald. Newton said that under no consideration would he be agreeable to passing upon a site until the question was submitted to the people to vote upon.

Ald. Hilditch said he agreed with Ald .Newton. If Ald. Newton would suggest a single site he would be agreeable to having it submitted to the people. It was not for the council to sit back and do nothing. He was not wedded to any site. He wanted something done towards getting a city hall, however, as it was absolutely necessary.

Ald. Newton said he understood that the Fulton stret site could not be obtained until a settlement of the G. T. P. taxation question was made.

Ald. Morrissey said he found the business section of the community was in favor of the Fulton street site.

Ald. Hilditch said he would move in the matter if something were not done by the other aldermen.

Ald. Newton agreed to give notice of motion to call for sites to be submitted to the people.

WANT INCORPORATION

J. Fred Lins and Percy F. Godenrath left by the Camosun for Victoria, where they will join Robert M. Stewart and present the claims of Stewart for incorporation. The delegates were appointed by the executive of the Citizen's Association of that place.

Shipping Report

By Dominion Wireless.

Feb. 14—8 a. m.

Point Grey—Overcast; calm; barometer 30.04; temperature 44; out, steamer Beatrice at 8:45 a. m.

Cape Lazo—Overcast; wind northwest; barometer 29.92; temerature 34; sea moderate; Kestrel off her northbound; Capilano southbound at 9:45.

SPORTS

GOTCH STYLE

Champion Frank Gotch must be given credit for revolutionizing the wrestling game. Before Gotch's time, speed and avoiding punishment were considered secondary matters.

About the time Gotch was coming into the wrestling title the American mat artists were refusing to meet the extremely heavy men being imported, notably the Turks, who began to flood the country after Youssuff cleaned up. Wrestling was conducted pretty much along lines of strength and weight at that time, and speed was not regarded as much of a necessity. Punishment was understood to some extent, but it was not scientifically applied, and when there was much of it it was generally because there was a lot of foul work. Wearing a man down consisted mainly in getting him on the mat and laying around on him so as to tire him out by sheer weight.

Gotch changed this almost completely. He was about the same as other wrestlers up to about the time he had to meet Hackenschmidt, and the indications are that he changed his plans mainly for this bout, as he feared the Russian's great size and strength. As a result Gotch spent most of his time while training, working out a system whereby he keep from being put on the mat, and at the same time worry and wear down his opponent.

How successful he was, was shown when he had his opponent beaten before ever the two went to the mat. Throwing him when finally Gotch concluded it was time to risk grappling with the Russian was a mere matter of form, as Hackenschmidt was too weak then to defend himself. Ever since, Gotch has resorted to the same tactics when he is against an opponent who is heavier and stronger than he is.

JEFF RETIRES

James J. Jeffries, former heavyweight champion of the world, dragged from retirement as the "white hope," and beaten by Jack Johnson, at Reno, has been asked by thousands of persons whether he will fight again. Weary of the question, Jeffries has decided to make the following single answer through the United Press. He says it is the last.

"I intend what is written here shall be an ultimatum, the tenor of which cannot be misinterpreted. It is my hope that the public at large will consider this my final word on a subject that has caused me enormous personal inconvenience. I refer to the question of whether I shall ever enter the ring again.

I shall not attempt to say how many times I have answered that query during the last six months. Hardly a day has gone by without the question being put to me. Day after day I have answered it seriously and squarely. I have stated that I never shall enter another ring. But friends and the public have refused to accept my word. At least, I must believe they have, in view of the fact that after answering the question, I have in the next hour, been asked exactly the same question.

It has come to the point where I and the members of my household respond to the door bell ring with the reply to the question on our lips.

If some one were to test patience by asking you a certain question say, for instance "how old are you?" day in and day out, how long do you think you could go to the door or the telephone, head the question asked and answer it without losing your temper? For half a year, do you think?

It would b edifficult to explain what it is to go through such an experience. In my case, instead of one person putting the question each day, the query has come from innumerable sources. What I want to say is that while the question of whether I ever would fight another ring battle has been asked of hundreds of persons upon hundreds of different occasions, I alone have been compelled to listen to each inquirer separately, hear the same metaphorous words, asked the same question that I have answered countless times. This is the last answer I will ever make to that question:

Under no circumstances shall I ever again participate in a public prize ring contest. I have retired from the ring for all time.

This is the decision I made months ago. It is a decision I shall adhere to.

JAMES J. JEFFRIES.

AVIATION CENTRE

England this year is to be the world's aviation centre. From Germany, France, Russia, Italy, Belgium, Holland and America the most noted fliers are expected in England early in the summer, to take part in the two great competitions, respectively for the Gordon Bennett cup and the 1,000 mile race known as the "Circuit of Britain."

Never, it my be said at once and without exaggeration, has it been possible for any one country to muster such a concourse of flying men as will be seen in London a few months hence. The reason is not far to seek. The Gordon Bennett cup, now held by a British flier, Mr. Grahame White, is the most envied trophy in aviation, while the prize money which is offered by the "Daily Mail" for the great cross-country flight will be worth at least $50,000.

It has been computed that a sum of not less than $1,000,000 was awarded last year to the successful competitors in the long series of flying tournaments that opened in January at Los Angeles and terminated last week with the Michelin Cup race.

The coming aviation season promises to yield as rich a harvest to the exponents of the new science. Prizes amounting to $70,000 are offered by the Journal of Paris for a flying race from the French capital to Berlin, Brussels, London and back to Paris, the distance to be covered being roughly, 1,500 miles. The date provisionally set for the contest to open is June 4. Other competitions for the year comprise:

The Hearst prize, $50,000, for a flight across the Atlantic , 5. flight across America from the Atlantic to the Pacific, or in the reverse direction. The flight must be accomplished before the tenth of October next, and within thirty consecutive days by any route which includes Chicago. Any number of stops are allowed.

The Southern France Circuit for $40,000, taking in France, Bordeaux, Toulouse, Marseilles, Lyons and Dijon.

The Rome to Turin cross-country flight ,to be held from June 12 to June 18.

The Berlin to Hanover circuit and the Frieburg to Wiesbaden circuit, via Strasburg, Carlsruhe, Manneheim and Frankfort. Both these competitions are open to German aviators exclusively.

Prizes are also offered for flights from Liverpool to Manchester and from London to Newcastle and finally there will be the autumn military selection trials of new aeroplanes in France, for which the French government recently voted a credit of $200,000. This last competition is open to the builders and designers of all nations, the only restriction being that the flying machines entered for the trials must be constructed in France.

CORONATION FIGHT

Hugh McIntosh, the Australian who makes all other fight promoters turn green with envy and all fight clubs forget their traditions and reise rules and regulations, hopes to bring off the fight for the championship of the world in London, England, during the week of the King's coronation. Hugh, everybody talks familiarly about the genial Cornstalk after once meeting him, favors the sporting editor with a budget of information about his plans and the way in which he induces the London fight fans to visit Olympia.

"My lease of the Olympia annex expires on February 24," he writes, "and I am endeavoring to secure another big building. Failing in this I shall return to Australia bringing with me some of the best English boxers and shall again hold contests at the Sydney stadium. I shall return to England in time for the coronation week when I hope to bring off the world's championship heavyweight contest.

"On February 1, we have Porky Flynn of America matched with Jack Burns of California. Flynn will be seconded by Sam Langford."

Is it any wonder that Hugh McIntosh commands the confidence of the public? The rush for seats for the Wells-Moir contest was so great that he could have sold all the lower priced seats for two or three times the advertised prices and did not do it.

"We stuck to our guns and sold our half-crown and five-shilling seats and refused half guineas by the hundreds—I might say by the thousands."

This fight the big promoter describes as being very spectacular dramatic. Spectators rose in their sats preparing to leave when Moir had been sent down and looked a beaten man several times in the first round but in the second Wells was served the same way and in the third round Wells was counted out amid scenes of tremendous excitement.

About a week after the Flynn-Burns fight, Moir and Wells will fight again and on February 15 Sam Langford will fight Bill Lang.

McIntosh sends a sample of some of his advertising matter. It imitates the appearance of a legal document and is drawn up in legal language, to wit:

"Know all men by these presents: Whereas, Tommy Burns having lawfully declared his intention of retiring from all active participation in the ring, he has by that act resigned, released and set aside all his right, interest and claim to the heavyweight championship of the British Empire; and, whereas, Mr. Hugh D. McIntosh having matched us, Bill Lang, champion of Australia, and Petty-officer Curran, late of His Majesty's Navy, and champion of England, to box the best of 20 full three-minute rounds at the Olympia Annex, Wednesday evening, January 18 next, for the said title of champion of the British Empire, with Mr. Eugene Corri as referee, we do hereby agree that we shall honestly and earnestly strive, each for himself to win the said title under the strict Marquis of Queensbury rules, as interpreted by the said Mr. Corri; and it is further agreed that in addition to said contest, there shall be three other interesting combats, including one of ten full rounds between Johnny Matheson, of Glasgow, and Pte. McEnroy of H. M. Irish Guards."

This document is under the hand and seal of our old friend, Jimmy Britt.

COMPULSORY VACCINATION

Order Is Being Enforced in Order to Samp Out Dread Disease in Fraser Valley

In compliance with the Provincial Government's order, it is compulsory that all persons should be vaccinated at once unless they have been so treated within the past seven years. The order which has gone forth is as follows:

"Every resident of this province shall forthwith be vaccinated or produce to the medical health officer of the district or municipality where he or she resides a certificate or proof of successful vaccination within the preceding seven years, or a certificate that such person is at present insusceptible of vaccination or a certificate of physical unfitness for vaccination. Such certificate shall be from a duly qualified practitioner."

Dr. Underhill and Dr. Fagan, the provincial health officer, are being strongly supported in their endeavors to stamp out the smallpox epidemic now prevailing in a mild degree in the Fraser Valley.

BIG SEASON'S WORK

Hazelton District Will See a Lot o Mining Done This Summer.

Low Estimate on Properties Already Being Worked Is Made by Local Paper

Every one at all conversant with the mining situation is prepared to see a great rush to the mines about Hazelton and other interior points in the spring. The Omineca Herald puts the sum likely to be spent at once at $175,000. This, it is reasonable to suppose is a very low estimate for expenditures not now thought of, will be made this spring and summer, as development proceeds.

Says the Herald:

Miing development for the present year will be carried on on a much larger scale than ever before. Something of the plans of the companies, syndicates and individuals operating in this camp is known and it is already known waz cmf cm c ready apparent that he total amount of money to be spent within the next eleven months will be in excess of $175,000. Not alone have the holders of mining property and owners of options made declarations to this effect, but the terms of the agreements in almost every case will compel a large amount of money to be spent during next summer and winter as the time is short before heavy payments become due.

From the opening of spring twenty men will be at work on the Erie; plans for the Silver Cup involve the expenditure of a larger amount of money than on any other property in the camp. Following the formation of a stock company a vigorous campaign will be commenced on the Sunrise group, and the force at the Lead King will, according to F. A. Brown, the manager, be increased about the first of April.

Work on the Iron Mask group on Four Mile will be started as soon in the spring as supplies can be obtained and on the Dyer-Stephenson group where a small force is now at work, there will be a big crew opening up the claims at different points as the remainder of the purchase price is due in October and is in excess of $35,000.

On Glen Mountain, where George McBean has a crew at work on the claims located by himself and partners, nad under bond for sums aggregating $85,000, the gang will be increased early in the spring as it is understood to be the intention of the purchasers to commence shipping ore as soon as the railway line is able to handle it.

On Rocher de Boule mountain the bondholders will be at work as soon as it is possible to reach the claims. Ther are assurances that a trail will be built up Juniper creek and the Kitseguecla river from the Skeena to these claims so that supplies can be easily laid down.

The advisability of putting machinery plants on two properties is being considered but no definite decision has as yet been reached. A wagon road will have to be built before machinery can be taken to the Silver Cup, which will take a good part of the summer.

It is admitted that the country within a radius of ten miles of Hazelton is by no means prospected. The lower slopes of the mountains are covered with loose rock, earth and in many places with a thick carpet of moss. Further discoveries of good property are confidently looked for this year. The ready sale which good mining property in this vicinity has found in the past, and the good prices obtained, combined to hold a larger number of the prospectors here for the winter than ever before. The snow leaves the lower hills early in April and it will be a matter for surprise if new veins are not found and considerable money spent in developing them before the summer is over.

In estimating the amount that will be spent at $175,000 no account has been taken of any possible new discoveries and without any such the end of the year is likely to see this figure exceeded than it is to be an overestimate.

KING WINNING FAVOR

Aids With His Counsel—Court Dress Has Been Done Away With at Buckingham

King George, as he is settling to work, is making a strong impression on all who come in contact with him. He takes the greatest care to become thoroughly informed on all matters submitted to him and he is possessed of the ability to waste no time on details.

The King never hurries his judgment, to which in recnt years King Edward often referred. "What does George think?" was the frequent remark of Edward.

King George is free from affectation. When he does not understand an issue, he keeps on asking pertinent questions until he is satisfied. Once decided it is difficult to induce him to change his mind, but he is so careful that his judgment is accurate. He is just and shows exceptional consideration to all about him.

Unlike his father, he likes to be left alone to read. He is a great reader of serious books and is not much addicted to fiction. He is domestic and fond of early hours, consequently those in honorary attendance upon him find their work light, whereas his secretaries are kept extremely busy.

The King intends to give a number of dinners to men only at Buckingham Palace in February. This is a form of hospitality he particularly enjoys. The dinners will be informal, as is compatible with his position, for he has a truly naval dislike to unnecessary ceremony.

King Edward delighted in knee breeches for evening wear, but King George generally dispenses with these and allows his friends to arrive dressed as they would for an ordinary dinner. George is as particular as his father was as to what he eats, but he does not lay such stress on short meals. He smokes a good deal, but drinks practically nothing. On ceremonial occasions he takes a glass of champagne and more rarely sips an after dinner glass of port though he always has it poured out, in order not to render uncomfortable any guest who might like to sample the famous royal wine.

The King and Queen have gone personally through the whole list of court invitations and struck out but sixty names. Several were those of individuals whose faces were familiar at Buckingham Palace.

NEW COAL COMPANY

Company Seeks Incorporation and Power to Own Coal Mines and Auxiliary Railways

The Canadian Gazette contains a notice that an application will be made at the present session of Parliament to incorporate as company under the name of the Mountain Coal & Colonization Co. Ltd., with power to own and operate coal mines, mining properties generally, and for this purpose to construct and operate a railway from a point on the branch line of the Grand Trunk Pacific Railway, now under construction to the Yellowhead Pass Coal Company's lands, to a point in Township 46, Range 23 west, to the Fifth Meridian, also with power to construct branch lines from the last mentioned line of the proposed company to the various coal areas in the vicinity of the line.

FOR THE GOOD HOUSEWIFE

The yolks of eggs will not turn dark when hard boiled if they are put in boiling water rather than cold at first. Half an hour is not too long to cook them to acceptable hardness.

Keep bedrooms sweet by admitting plenty of fresh air. Avoid woolen curtains, and above all else, an old carpet. Nothing is more likely to give a close smell to a bedroom.

When two glass tumblers or dishes stick together so that there is danger of breaking in getting them apart, put cold water in the inner one and hold the outer one in warm water, and they will separate at once.

Cheap Power

Nelson is Able to Offer Very Low Rates for Industrial Purposes

At its second meeting of the year, the Nelson city council reached a decision to sewer a portion of the upper part of the city this year, and make provision to commence the work immediately, the estimated cost of this year's work being $5,200. On the recommendation of R. A. Brown, city electrician, approved by the fire, water and light committee, power rates were given a gentle boost, which, however leaves them far below other British Columbia cities.

The fire, water and light committee's report regarding power rates follows:

"That Mr. Brown's recommendations with reference to power rates as contained in his annual report be adopted, that is that power rates by metre measurement shall be as follows: First 100 kw. hours, 5 cents per kw. hour; next 200 kw. hours 4 cents per kw. hour; next 400 kw. hours, 3 cents per kw. hour; and all over 700 kw. hours, 2 cents per kw. hour; and that a minimum charge of $2 per month per horsepower be made for each horsepower connected, and that electricity for heating purposes be charged at power rates."

Replying to an inquiry by Ald. Stark ,Mr. Brown explained the sliding scale of both the light rates and the power rates. The city, he stated, had actually been selling power for less than half what it took to generate it.

Mayor Selous stated that when the first power rates were made, the council of that day obtained rates from all over the province, and that Nelson rates as then made were far lower than those anywhere else. Under the existing rates, in addition to there being no profit, the power revenue did not pay the interest and meet the depreciation on the transformers that had to be installed. At least 20 per cent of the transformers should be allowed for.

The recommendation was unanimously adopted.

The new power rates will not go into effect of course, until put through in a bylaw.

—o—

To restore ebonised wood, rub all spots the way of the grain with powdered pumice stone and oil. Then polish with a dry, soft cloth. If this is carefully and thoroughly done, the effect is most excellent.

—o—

"Bridget," said Mrs. Grouchy, "I don't like the looks of that man who called to see you last night."

"Well, well," replied Bridget, "ain't it funny, ma'am? He said the same about you."

—o—

When making whitewash for your pantry, larder, etc., add one ounce of carbolic acid to every gallon of whitewash. This will effectively drive away any insects, and make every place healthy.

—o—

A Toronto man who visited Britain last summer appears to think that country the champion tip-taker He says: "Well, I had tipped every man, from the swell gent who seemed to own the House of Commons down to the hireling who gummed the wrong labels on my luggage, and I went into the waiting-room on the landing stage at Liverpool to wash my hands, and what do you think stared me in face, when I had finished A placard, 'Please tip the basin.' I'll be hanged if I did!"

Coast Land District—District of Queen Charlotte Islands

TAKE NOTICE that T. P. McLachlan, of Prince Rupert, occupation broker, intends to apply for permission to lease the following described foreshore: Commencing at a post plainted at the mouth of Delkatlah Bay, on the south side; thence following the shore line in a northeasterly direction 2,000 feet, including all foreshore between high and low water mark.

THE NEW EVANGEL

The editor of the Optimist has apparently cut out a great work for himself. He is to be a light in the darkness. Speaking at the Young Liberal gathering, he told his audience that Liberalism had done one great thing; it had put the vote into the hand of every man. It had now to go on and teach all men to use their votes intelligently.

Now, this is most complimentary. In its essence it means that the vote is in the hands of men who do not know how to use it. That the affairs of the country are being administered on the voice of unintelligent men who do not know their duties to the country and must await the enlightening process which is to come from the editor of the Optimist and those who think with him.

For our part if we believed in such a doctrine we would advocate the disfranchising of those whom we believed were not qualified to cast an intelligent vote. Under our system of government the franchise is looked upon as a privilege and not as a right. We are able to say that a Mongolian, although a naturalized British subject, shall not have a vote and the courts uphold the contention on the very ground that the right to vote is not an inherent right with citizenship.

The doctrine which the editor of the Optimist is preaching is an insult to a great body of the electorate. Wnile there must of necessity be a certain number who will under any enfranchising act be open to criticism on the score of not being qualified to vote as intelligently as could be wished for, these are but isolated instances. The most of voters can scarcely come under the charge of being unintelligent enough not to know how to cast their ballots according to their way of thinking.

We are inclined to think that the leader of the new evangel is in reality inclined to believe that only those who think as he thinks are intelligent. The way in which he accepted the defeat of his particular candidates at the last municipal election would lead one to such an impression. After that election instead of submitting to the expressed wish of the people the Optimist contended that he minority was right which it must be admitted is consistent with this new doctrine now put forth that the voters are too unintelligent to properly exercise the franchise.

The whole question simmers down to a most narrow view being taken. It is only those who think with the editor of the Optimist that are right. It is only they who are intelligent. All others must be brought up to that standard although in the meantime being allowed to exercise their own sweet will in administering the affairs of the country.

And this is all preached in the name of Liberalism.

THE CHINESE COMMISSION

Royal commissions, as a general rule, are very convenient mechanisms for spreading a nice coat of kalsomine. Down in Vancouver, however, they have a royal commission which got away, says the Capital, published in Edmonton.

For years past a ring of grafters on the coast have been working the Chinese smuggling game, at huge profit to themselves and great injury to the Liberal party. Finally tiring of such proceedings, certain members of the Liberal party, assisted by the Trades and Labor Council, decided to tear the cover off and show things up as they were. A commission was appointed, and subsequent developments indicated that there had been something started. The inquiry opened with an explosion which involved Senator Templeman, the self-appointed dictator of the party, Bob Kelly, the czar of the Vancouver wing, and many other Liberals for revenue only.

After the first explosion the commission settled down to a very complacent course, in which the evidence was very reassuring, while all the dangerous witnesses conveniently forgot all they ever knew and everthing was commencing to look smooth, when another group of witnesses came along and testified that they had purchased fraudulent passports in Hong Kong from a brother of the Kelly-Templeman appointed interpreter, and that the interpreter was there at he dock at Vancouver to see them through on these certificates and welcome them to Canada.

The commission is now getting pretty close to the point, and it commences to look as though the honest Liberals on the coast who have always regarded with horror the desecration of their party by a ring of grafters, will at last be able to shake them loose and get rid of the pernicious influence which has cost Liberalism the whole province of British Columbia.

In the meantime, Bob Kelly is taking no chances with a commission that is liable to fly open at any time and expose the inner workings of his machine. He is automobiling in California.

RECIPROCITY IN FISH

George R. Naden is reported to have laid stress at the Young Liberal gathering a few evenings ago upon the advantages which would come to Prince Rupert as the fish centre of the coast from the reciprocity agreement as it affects that industry. Now, we fail to see exactly where the great benefits are to come in.

Owing to its proximity to the halibut banks, Prince Rupert must become the great centre for the packing of that fish and the preparation of it for shipping in cold storage. At the present time the New England Fish Company is exempt from duties which have given it an advantage in carrying on its business. Under arrangement with the Dominion government, the New England Fish Company's steamers which are American bottoms are allowed to take fish in what are recognized as open waters including Hecate Straits, land them in Vancouver to be treated and then shipped in bond to the United States. The Canadian Government does not collect duty from these vessels for landing the fish in Vancouver, the expenditure of money in the Canadian city having been recognized as sufficient return without the duty being charged. The New England Company on the other hand, is not obliged to carry the fish the 100 or more miles to Seattle or any other United States port before curing.

Now, how is a benefit to come from the reciprocity agreement in such a case? The Canadian Fish and Cold Storage Company which is erecting large works here will in the natural order of things secure similar privileges. This is to be expected surely when the local concern is subsidized by the Dominion Government.

If the local company desires to cater to the trade of the United States why should not American bottoms be used under arrangement for that end of the trade just as the New England Fish Company today employs also some Canadian bottoms so that in theory the fish from the Canadian bottoms go to the Canadian consumers and those from the American bottoms go to the United States cities?

We fail to see where any very decided advantage is to come under the proposed agreement when the government is allowing an arrangement to prevail which overcomes the necessity for a United States fishing company carrying its take to the other side to be treated.

THE INSURANCE BILL

Brief outlines of the new insurance bill at Victoria, indicate that the government is about to follow quite closely the recommendations of the commission that went into the subject. The bill is sure to cause considerable uproar among the corporations affected. Such class of bills always does that. In the end when all its features are fully understood it is to be expected that these corporations will settle down and do business as in the past.

A wrong impression is sought to be conveyed locally with respect to the measure and the circumstances leading up to its introduction. The demand for a modification in the law came not only from the users of insurance but from what are known as the old line companies, who objected to vast concerns like Lloyd's that wrote up all kinds of insurance without maintaining a representative and which were, therefore, not subjected to the taxes levied upon the ordinary insurance companies. Taking insurance at a lower rate, they did an immense business while the representatives of the regular companies were paying for offices and agents and paying licenses to the various municipalities where business was done. The government was urged to bring in legislation to cover the case for years before the measure came up.

Those in touch with public affairs in this province know the bitter war that was carried on by the insurance companies in favor of some redress against Lloyd's which was the type of the class opposed.

Now the local Liberal organ discovers all kinds of plots that the government has been guilty of in this connection. For weeks a commission composed of R. S. Lannie, K. C., a brilliant lawyer of this province, D. H. McDowall, a well-known financier and public man and A. B. Erskine, a practical and successful business man, sat and heard all sides to the question. The best of legal advice was obtained by the insurance men. E. V. Bodwell, K. C., represented the old line insurance companies and the question was thoroughly threshed out with specialists representing the insurance companies being present from headquarters. The Optimist and

NOTICE TO CONTRACTORS

Port Simpson School

SEALED TENDERS, superscribed "Tender for Port Simpson School," will be received by the Honourable, the Minister of Public Works up to noon of Friday, the 28th February, 1911, for the erection and completion of a large one-room school building at Port Simpson in the Skeena Electoral District.

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 6th February, 1911, at the offices of Dr. W. T. Kergin, Secretary of the School Board, Port Simpson; the Government Agent, Prince Rupert; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of $200, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.
Public Works Department,
Victoria, B. C., 3d February, 1911.

CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing on Crown lands in the vicinity of Babine Lake, situate in Range 5, Coast District, notice of which was published in the British Columbia Gazette, dated December 17, 1908, is cancelled in so far as said reserve relates to lots numbered 1519, 1518, 1517, 1516, 1515, 1510, 1507, 1506, 1506A, 1503 1501, 1502, 1512, 1511, 1505, 1504, 1513, 1514, 1509, 1508, 1530, 1527, 1528, 1529, 1531, 1532, 1533, 1534, 1535, 1537, 1539, 1536, 1538, 1540, 1541, 1544, 1543, 1545, 1546, 1542, 1547, 1548, 1549, 1550, 1520, 1521, 1522, 1523, 1524, 1525, 1526, and 1551.

ROBERT A. RENWICK,
Deputy Commissioner of Lands.
Lands Department,
Victoria, B. C., June 16th, 1910.
(First insertion July 5.)

NOTICE TO CONTRACTORS

Masset School

SEALED TENDERS, superscribed "Tender for Masset School," will be received by the Honourable the Minister of Public Works up to noon of Wednesday the 22d day of February, 1911, for the erection and completion of a large one-room school building at Masset, in the Queen Charlotte Islands, Skeena Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 28th day of January, 1911, at the offices of Mr. Charles Stewart, Secretary to the School Board, Masset, B. C.; the Mining Recorder, Jedway; and the Department of Public Works, Victoria.

Each proposal must be accompanied by accepted bank cheque or certifcate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works for the sum of $150, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

ROBERT A. RENWICK,
Deputy Commissioner of Lands.
Lands Department,
Victoria, B. C., June 16th, 1910
(First insertion July 5.)

THE BIG..... FURNITURE STORE

CARPETS! NEW LINES JUST IN CARPETS!

New Wilton Rugs---Pretty Persian Effects

Certainly the outstanding feature of the Rug display is this showing of new Wilton Rugs just received. It is impossible to do their beauty justice in a description here.

Size 9 x 12 ..... $42.50

INGRAIN CARPET SQUARES

These Squares are all wool, in beautiful designs, some with plain centres and beautiful floral borders. A splendid assortment to select from, in the newest patterns, in conventional and floral designs. Such Squares are desirable for bedroom use. They are good wearers and have a very attractive appearance. Your size is included.

Size 7 ft. 6 in. x 9 ft. $16.50 to $10.00
Size 9 ft. x 9 ft., $19.00 to $11.25
Size 9 ft. x 10 ft. 6 in., $22.50 to $11.50

Choose Your Spring Carpets From These:

Our Carpet offerings are popular—popular for many reasons, but mainly because of their excellent qualities, and the fact that the prices are the lowest in Prince Rupert.

If You Prefer a Rug Try One of These

For those who favor Carpet Squares and Rugs as a carpet covering, we recommend our present magnificent display. The most comprehensive stock in Western Canada is offered you.

TAPESTRY SQUARES, $20 to $7.00
BRUSSELS SQUARES, $36 to $12.00
AXMINSTER SQUARES, $54 to $18.75
WILTON SQUARES, $48 to $27.00
VELVET SQUARES, $35 ..... $26.00
CANADIAN SMYRNA RUGS, $16 to $8.00

Another Stock to Dispose of

The FLEXMAN & BROWN Stock must be sold at once. Come and get your pick at the start. There is $6,085.97 worth of goods to choose from in this, made up as follows:

CARPETS AND LINOLEUMS $1,307.00
FURNITURE 1,877.95
CROCKERY 422.84
BLANKETS 482.06
CURTAINS, ETC. 847.94
PICTURES, POLES, ETC. 848.48
ODDS AND ENDS 300.00

Watch next Tuesday's Journal for our offerings

in Linoleums, Oilcloths, Floor Cloths, Corks and other Floor Coverings.

If you are planning new Carpets, we strongly advise that you lose no time in coming in, because orders can only be filled in the order received. Patterns are better this season, the quality is of the same high standard we have always demanded, and the values the same as usual, that have done so much to build up this great business. Don't spend any money on carpets without first seeing ours. There are hundreds of squares and rugs on displlay. We can show you the whole lot in a few minutes. SECOND FLOOR.

F. W. HART, The Big Furniture Store
Corner of Second Avenue and 6th Street

EDITORIAL

(Continued from Page Four)

the local writers of insurance need have no concern that the case was not well presented.

The commission reached its decisions months ago and the finding was made public. Its conclusions have been followed quite closely in the present bill and we feel sure no injustice is to be worked upon any one. As far as the companies being subjected to an exorbitant tax is concerned it will be found, we believe, judging from the short despatches so far received, that the companies will get off lighter than formerly. They will not require to take out a license to do business in every municipality in the province, paying considerable fees in each case. As far as the "mail order" proposition is concerned, we feel satisfied the government has taken provisions to place companies doing that kind of business on a footing of equality with the others. Their customers will require to pay a two per cent rate to the government to compensate for the tax evaded by them through having no office in the province.

There will probably be weaknesses in the bill to be righted as is generally the case, but this bill the public can rest assured of had very careful consideration and is drawn up in the interests of the public in an effort to avoid companies working any injustice upon the insured.

STEWART'S INCORPORATION

Awaiting further details of the reasons that led to the refusal of the Provincial Government to grant incorporation to Stewart we cannot be in a position to defend or attack the government on its attitude. The bare announcement has been received and a delegation from Stewart has gone south to again urge action.

In refusing to grant incorporation the Government is possibly well aware of facts that fully warrant the course taken. In British Columbia, mining camps have suddenly sprung up and as suddenly faded away. In some instances the Legislature has been put to considerable trouble devising ways and means of assisting in overcoming difficulties created by premature incorporation of places. The Government is apparently inclined to go a little slowly with respect to Stewart. There is no assurance just yet that that place is to support a great population. To burden it with all the duties of self-government might lead to a lot of trouble especially in view of the fact that the mines are not right at Stewart for the most part, but in many cases miles away. The miners will live at the different mine centres and the population of Stewart may be rather small.

From the standpoint of the citizens themselves we believe they have much to gain by delaying incorporation until the future of the place is assured. According to the news of well informed mining men more activity will be manifested in the interior along the Skeena and its tributareis this season than will be about Stewart.

HE OUGHT TO KNOW

Dr. Kergin, speaking at the Young Liberal gathering in this city, expressed himself as being struck by the paucity of legislation enacted in the Provincial Parliament this session. Having in mind the years which Dr. Kergin put in as a member of the legislature and his record there, we must acknowledge that he ought to be qualified to know when little is being done. Certainly the doctor never loaded the records of the House or the statutes of the Province.

An old-fashioned bean supper will be given in the Baptist Church on Tuesday, February 21, from 6 p. m. to 7:30 p. m. Admission, 35 cents. All are invited.

In reply to a question of Ald. Pattullo last evening it was stated that the insurance on the new electric light plant had been placed with Peck, Moore & Co. and M. M. Stephdens. Ald. Pattullo thought a better way would have been to have divided it up among the different firms.

A social at home will be held in the Methodist Church by the Ladis' Aid, next Thursday evening at 8 o'clock. An enjoyable social time is promised. The ladies' are serving luncheon and a musical programme and a social game. Every one invited. Twenty-five cents offering on behalf of Ladies' Aid funds.

PRINCE RUPERT ASSESSMENT DISTRICT

A court of revision and appeal under the provisions of the "Assessment Act" and "Public Schools Act" for the Prince Rupert Assessment District for the year 1911, will be held at the Court House, Prince Rupert, on Tuesday, the 28th day of February, 1911 at the hour of 3 o'clock in the afternoon.

Dated at Prince Rupert, B. C., Feb. 7th, 1911.

A. CARSS,
Judge of the Court of Revision and Appeal.

News of the Province

SOLVE MYSTERY

NELSON—Papers discovered on the body of a dead man found on the west shore of lower Arrow Lake, north of Ranata, have proved that it is the corpse of William Bull, a commercial traveller, who has been missing since October, and for whom Calgary relatives have been searching. The body was discovered by a trapper whose dog drew attention to a mound of snow under which the corpse lay. The coat was nearly torn off the body and it is supposed that Bull fell overboard from an Arrow Lake steamer, which a punched ticket proves that he boarded.

PLANS OF GRANBY

GRAND FORKS—Granby's new management is making plans to operate the property this year to the full capacity of its smelting plant. It is expected that this will result in a production of over 25,000,000 pounds of copper at a cost of not over 10½ and possibly under 10 cents a pound. This will give the company net earnings of $4.50 to $5 per share with copper selling at 13 cents per pound.

The management has satisfied itself that if the smelter were operated continuously to only half its capacity, as it has been during the greater portion of last year, the 6,000,000 tons of developed ore in the property would be exhausted with little or no profit to the stockholders, due to the fact that the costs are so much higher when the output is curtailed. By operating the plant to full capacity the ore already developed can be made to yield a profit of between $3,000,000 and $4,000,000.

ISLAND RAILWAY

VICTORIA—Contractors M. Carlin and Grant Smith & Company have commenced active work on the Vancouver Island section of the Canadian Northern Pacific Railway Company. A store and general depot, to form a base of supplies and a branch camp is now in course of construction at Peddar Bay. Sixty men under sub-contractor MacDonald, are in the field in the neighborhood of Esquimalt. From Peddar Bay, construction will be carried on in both directions, while other camps will be established along the route. The contractors are willing to sublet the contract for the second twenty miles of the railroad but as there is three feet of snow on the route running from Sooke to Shawnigan Lake, construction will be impossible there for some time. Sixteen sub-contractors have been over the second twenty miles and are ready to tender The sub-contractors will not only clear the right of way also complete the construction work.

ROYAL OBSERVATORY

VICTORIA—A committee of the executive of the Natural History Society of Victoria will investigate and bring to the attention of the Dominion government the claims of Victoria to be the site of a royal observatry was also appointed. It appeared from the paper read by Mr. F. Napier Denison at the last meeting of the society that Victoria offers exceptional advantages for the study of astronomy, meteorology and seismology.

KILLING WOLVES

VICTORIA—The rapid increase of timber wolves toward the north end of Vancouver Island and the serious inroads that these animals are making among the deer and smaller game, has resulted in the despatch by Game Warden Bryan-Williams of two experienced hunters and trappers to investigate conditions and adopt the best means presenting themselves in dealing with this pest, but which even the wapiti herds are now threatened. The increase in the bounty to $15 has not been sufficient to induce the inauguration of any vigorous or systematic campaign against the wolves and they now overrun the Island in the northern districts.

Sir Gilbert Parker

Sir Gilbert Parker, Canadian member of Parliament from Gravesend, publishes a statement in which he says with reference to the reciprocity agreement between Canada and the United States:

"The agreement is a desperately serious thing and will eventually mean that the Canadians have lost their grip on their own independence. Canada's fight for two generations against American commercial tyranny was the source of her progress and wealth. It gave her energy, resources and determinaton; but under this agreement the United States seeks a new field for American tinance ,with new opportunities for the overflow of American energy and control of the great Dominion."

Avoid pushing to the front by going back on your friends.

The pen may be mightier than the sword, but both are capable of pting up a pointed argument.

LAND PURCHASE NOTICES

—THE—
Oliver Typewriter
—FOR—
Seventeen Cents a Day

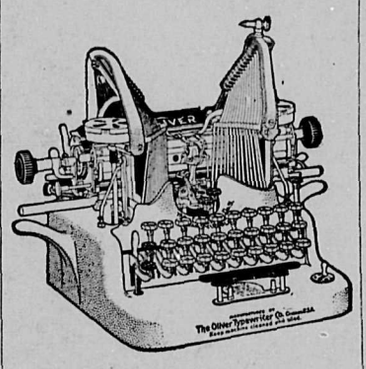
Please read the headline over again. Then its tremendous significance will dawn upon you.

An Oliver Typewriter—the standard visible writer—the most highly perfected typewriter on the market—yours for 17 cents a day!

The typewriter whose conquest of the commercial world is a matter of business history—yours for 17 cents a day!

The typewriter that is equipped with scores of such conveniences as "The Balance Shift"—"The Ruling Device"—"The Double Release"—"The Locomotive Base"—"The Automatic Spacer"—"The Automatic Tabulator"—"The Disappearing Indicator"—"The Adjustable Paper Fingers"—"The Scientific Condensed Keyboard"—all

Yours For 17 Cents a Day



We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment—then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries has come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money With

The OLIVER Typewriter

The Standard Visible Writer

The Oliver Typewriter is a money-maker, right from the word "go!" So easy to run that beginners soon get in the "expert" class. Earn as you learn. Let the machine pay the 17 cents a day—and all above that is yours.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably above those of many classes of workers.

"An Oliver Typewriter in Every Home!"

That is our battle cry today. We have made the Oliver supreme in usefulness and absolutely indispensable in business. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home training of young people. An educator as well as a money maker.

Our new selling plan puts the Oliver on the threshold of every home in America. Will you close the door of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of the new Oliver catalogue. Address:

SCHOOL ATTENDANCE

The Total Enrolment for January Was 220 Pupils With Good Average.

Increased Number Looked for with Change in the Weather Conditions

The report of the city public school for the month of January shows the following with respect to attendance:

Division I—Teacher D. McD. Hunter. Enrollment, 28; average actual 23.61.

Division II—Teacher, Miss C. M. Martin. Enrollment 35; average actual 30.22.

Division III—Teacher, Miss E. Milligan. Enrollment 44; average actual 36.69.

Division IV—Teacher, Miss J. Mercer. Enrollment 47; average actual 36.11.

Division V—Teacher, Miss J. Mebius. Enrollment 66; average actual 50.33.

Total enrollment 220.

Average actual throughout 176.9.

With improved conditions of weather and roads the enrollment will probably rise to 250. To secure and maintain a desirable standard of efficiency all parents are asked to heartily co-operate in the matter of keeping pupils regular in attendance.

DIED IN ENGLAND

Miss Elliston, Sister of the Late Officer at Work Point Barracks, Passes Away

Miss Mabel Elliston, sister of the late Captain Peter Elliston, died recently at Felixstowe, England. Following the tragic death of her brother at Work Point barracks, where he was killed by a shot from one of the men of the barracks, Miss Elliston left for England to stay with her brother, Mr. Rowley Elliston. Miss Elliston, when she returned to England was not in good health, the shock of her brother's death having affected her seriously. However, she seemed to improve in health and had left on a round of visits to relations in London and Brighton. During her visit to the home of her brother, Mr. Guy Elliston, in London, Miss Elliston had not seemed so well but medical advice reassured her friends, to whom the news of her death came as a painful shock.

AFTER COAL

G. T. P. Building Branch Line West of Edmonton to Reach Fuel Supply

Two tunnels and 24 bridges are required to be erected on the branch line of the Grand Trunk Pacific that is now under construction south of Edson, and that will serve the immense coal areas in the Brazeau country.

The bridge contracting firm of Creelman and Verge, who have the contract for all the bridges on the branch line, as well as the big Prairie creek and Athabasca river bridges on the main line has gangs at present working on the concrete of the big Prairie creek bridge, 65 miles west of Edson on the main line. He will commence work on the bridges on the branch line very shortly.

The two tunnels which are to be constructed on the branch line will be of some considerable proportions, although not by any means difficult engineering feats. They will each be something like 800 feet long.

One of the biggest brdges among the 24 that are to be constructed on the branch, is that over the McLeod river, which will be nearly as big as the bridge over the McLeod river canyon at the Wolf Creek crossing, of the main line.

Construction on the branch line is now being proceeded with by Phelan and Shirley, and the line will be completed and ready for operation next fall. The Grand Trunk Pacific will draw a great bulk of their fuel supply from the mines that the branch is to serve.

Local News

The question of devising a house-numbering scheme for the city will be gone into by Ald. Hilditch, Ald. Kerr and Ald. Newton.

Charged with selling liquor—one of the Chinese liquors—Chin Lin was tried before the police magistrate this morning. The case was dismissed.

Permission has been given by the government for the city to store lumber for the city temporarily on the triangular parts of land in front of the Market place.

A petition for a sidewalk on Second avenue from Little's Block to Seventh street is to be allowed to be constructed on condition the property owners pay for it.

The Ladies of the Kaien Island Club will hold a dance this evening the 14th. Good music is to be provided. All are invited and a good time is assured.

Before Judge Young this morning the charge of perjury laid against Blanchfield of the Queen Charlotte Island was tried. The case was dismissed.

No action at present is to be taken by the council with respect to the hotelkeepers' petition for a lowering of the bartenders' fees and the lengthening of the hours for selling liquor.

The city's vital statistics as given by the Medical Health Officer show 11 births last month or 3.3 per 1,000 of population, while the deaths were only 4 in number, two being due to accident.

The city engineer's report in favor of a 14-inch sewer pipe on Sixth avenue, petitioned for by W. Angle and others, was recommended by the streets committee at last evening's council meeting. The cost was put at $1,490, or $3.22 a frontage foot.

Ald. Clayton introduced a resolution at last evening's council meeting to regulate the making of connections with the city water pipes, so that shut off valves would be put in and the loss of water overcome to a large extent.

The resolution carried.

With respect to the advertising for sale of lot 8, block 10, section 1, by David H. Hays, agent for the G. T. P. Development Company, the city council last night decided to communicate with the head office to see if the lot could not be secured to the ctiy as a way for the sewer pipe. Negotiations were on for the acquiring of the lot for that purpose and objection was taken by some of the aldermen to the proposed auction sale.

AUCTION

Be on hand and bid for this desirable lot

RICH HYDRAULICS

Syndicate Has Arranged to Develop Properties in the Omineca Country

Local Men Are Interested in the Venture—Sending in Representatives Now

The construction of the G. T. P. with the consequent facilities for reaching the great interior of this north country with greater ease, will lead to the opening up of the mining wealth far beyond what is known as the Hazelton district.

Already the effects are being seen of the construction work and the mines of the Omineca are to more fully be investigated.

Last summer prospectors representing Seattle and local capital were in the country in the vicinity of Manson Creek where the hydraulic possibilities were investigated. Already the vanguard of this syndicate has started in, including about eleven men who will make their way to the Omineca to be ready for the opening of spring.

Those interested have no doubt of the richness of the field and a district as productive as any yet found on the continent is expected to be developed.

The finance committee of the city council reported last evening that the auditor's statement for last year did not contain enough details. No fault was found with the statement as such, but for the public information more details, it was felt, should be forthcoming in the report. In order to allow the aldermen to acquaint themselves with the report it was laid over until the next meeting.

Even a close-mouthed man has to open up when he gets in a dentist's chair.

NOTICE

Applications for the position of Assistant Secretary of Prince Rupert General Hospital will be received up to the 15th instant. The position calls for full time to be given and includes room and board; state qualifications and salary expected.
