Aeroplane Flotilla Caused Trouble On The German Front

THE FINANCES OF THE DOMINION

BALANCE OF TRADE IS NOW ON THE SIDE OF THE DOMINION

By End Of Year Excess Credit Abroad Will Equal Interest Charges.

The period of great industrial expansion in Canada which culminated about the end of 1913, is reflected most accurately in the imports, writes R. D. Bell in the Toronto News. The imports were largely construction materials paid for by our immense borrowings during those years.

The money strain (brought on by the Balkan wars, and our own rapid expansion) which began in the autumn of 1912, started a period of liquidation and retrenchement, well indicated by the declining import line from early 1913 on. At the same time the large imports of construction materials, etc., in past years, began to become fully productive in 1913-14 of goods hitherto imported, thus enabling us to lower still further our purchases from other countries.

How war sharply accented this tendency, curtailing completely imports of construction materials, luxuries, etc., and stimulating the production of still more goods hitherto imported, is strikingly shown by the dotted line after August, 1914.

Our exports, on the other hand, being largely foodstuffs, animals and other products of our natural resources in great demand at higher prices, were stimulated to such a degree that after August (in which month shipping was disorganized) each month but one set a new high record for exports. For the last two months large increases in exports of manufacturers indicate that our munitions are now going forward in large volume.

The only months since August in which our sales did not exceed our purchases were January and February, always months of low exports. This year imports in these months were unusually increased by purchasers anticipating their requirements before the higher tariff went into effect.

The net result of the first seven months of the year is an excess in exports over imports of $37,000,000. The significant fact about this is the period of the year in which this favorable balance was set up. Compare it on the chart with the first seven months of previous years and note the wide spread between the dotted line on top and the heavy line beneath in former years. Last year in these months the excess of imports was $95,000,444, and in the same months of 1913 it was $193,000,000.

It is evident then that the best part of the picture has yet to be drawn.

When we estimated in a recent review that the second half of this year would add $100,000,000 net to the excess of sales over purchases, we had based our estimate upon a careful study of this chart, and the then outlook for crops and other exports. In January next when we shall republish this chart, revised to date, it may render our estimate ultra conservative.

But if these figures are merely substantiated we shall have an excess of credits abroad amounting to over $137,000,000 for the year, or just about enough to provide for all our interest charges on foreign capital invested here. We shall then for the first time in this era be paying our way, independently of new borrowings or gold exports.

SPRUCE LOGS WANTED.

Wanted large quantity Spruce logs, of good size, and scaling at least 30 per cent. No. 1. Write particulars as to price, quality and earliest delivery to C. P. Coles & Co., Vancouver. tf

COD FISHING BY VICTORIA COMPANY

ORGANIZATION FOR TAKING FISH ON BEHRING SEA HAS BEEN AFFECTED

Two Schooners Will Leave For The Northern Banks It Is Reported.

A cod fishing company has been organized in Victoria for the purpose of engaging in the Behring Sea fishing. The company has associated with it the Balcoms, well known in the sealing and the whaling industries in days gone by. There is also with these Richard Elliott, K. C., the well known lawyer and financier of the capital.

The comapny is capitalized at $200,000. The incorporators are R. T. Elliott, K. C., H. H. Shandley, Capt. Sprott Balcom, Capt. Reuben Balcom and Arthur R. Langley. It is said that the company will send two vessels to Behring Sea.

A. R. Rigg, M. P. P. of Winnipeg, who has been attending the Trades and Labor Congress of Canada at Vancouver returned this way yeterday morning on his way home. He was accompanied by Mrs. Rigg.

Big Dealers In Fishing Supplies Are Moving To Prince Rupert

The Pacific Net and Twine Company of Seattle, one of the largest dealers in fishermen's supplies on the coast, is to open up business in this city. The company realizes the importance of this port as a fishing centre, and has decided that it is essential that it should carry on business here. The new concern will be operated in conjunction with the firm of Edward Lipsett, which has been represented here for some time. In order to carry this out the joint establishment will move into commodious quarters close to the Government wharf. They have decided to move into the Clapp Building at the corner of McBride Street and Second Avenue. This is the store formerly occupied by the firm of Stalker and Wells.

In the management of the business here H. Lipsett will continue to represent the firm of E. Lipsett, while Louis Sandstrom, who comes from the Pacific Net Company, will be associated with him. Full supplies in all lines for fishing boats will be carried by the joint concern.

The coming of the Pacific Twine Company to the city is regarded as of much more importance than the advent of an ordinary concern to the business life of the place. That company, it is said, is heavily interested in many of the independent fishing boats that operate in the waters off this coast. With the coming of the firm here and the carrying of stocks whereby the boats may be outfitted, there will be no prejudice felt on the part of the company against the boats outfitting here. For this reason there will be a general tendency for more of the boats to come in here with their catches. Arrangements are being made also whereby the paying off of the fishing boats may take place here without inconvenience.

Not only is this new company coming to the city to do business, but there are representatives of concerns engaged in similar lines of trade, who are also investigating the possibilities of the fishing trade at this point. It is more than possible that others will find it advisable to come here and do business before many weeks are past.

PRINCE RUPERT AS FISH PORT

HALIBUT LANDED HERE PLAYS LARGE PART IN THE PACIFIC CATCH

Only Small Margin Between Here And Seattle In August.

The fishing industry in this city is rapidly assuming prodigious shape. No longer is this port a small one to be recokened with in the halibut trade. It has in fact become one of the great fishing ports of the Pacific coast, ranking in the very first order.

The figures that are compiled by the Pacific Fisherman, published in Seattle, and devoted to the fishing industry shows that Prince Rupert ranked well in the month of August, as compared with the other ports of the Pacific. The following are the figures published there:

By independent schooners at Seattle, 1,379,00 pounds.

By company vessels at Seattle, 635,000 pounds.

Arrivals at Prince Rupert, 1,793,500 pounds.

Arrivals at Vancouver, 1,099,000 pounds.

Arrivals at Steveston, B. C. 354,-

(Continued on Page Four.)

CANADIAN CREDIT HELPED BY WAR

WAR HAS COST TO DATE $60,000,000 AS FAR AS CANADA IS CONCERNED

Revenues Of Post Office Have Been Increasing At A Great Rate.

The complete and corrected financial statement of the Dominion for the fiscal year ended March 31 last, and the monthly statement for August, were both issued by the Finance Department. The total revenue to the end of the fiscal year was $133,073,481. The expendiutre on consolidated fund was $135,523,206, and the expenditure on capital account $107,389,303.

The war cost Canada up to March 31, is $60,750,476.01. Other expenditures on capital account were: Public Works, including railways and canals, $41,447,320, and for railways, $5,191,507.

August Shows An Increase.

The revenue was made up as follows: Customs, $75,941,219; Excise, $21,470,730; Post Office, $13,046,664; Public Works, including railways and canals, $12,953,497; miscellaneous, $9,652,379.

The statement for August shows that the revenue for that month was $14,240,844, which is an increase of about $44,000 over the same month last year.

For the first five months of the present fiscal year the revenue has been $60,089,196, which is a slight decrease over the corresponding period last year.

Four months of last year were in the anti-bellum period.

Post Office Doubles Revenue.

The revenue for August of last year also was greatly increased by heavy withdrawals from bond on which excise was charged and also by largely increased imports.

The revenue from the post office for August is more than double that of August, 1914, that for August 1915, being $1,899,779. There is also an increase in August of the revenue from public works, railways and canals.

The Government is evidently economizing in the controllable expenditures as there is a decrease in expenditures on consolidated fund for the five months of the fiscal year of nearly four million dollars, the total for this year being $38,870,712.

A Decrease In Expenses.

The expenditure on capital account for the five months was $13,898,659, which is a decrease of about $100,000.

The whole net debt on August 31 was $472,408,885, an increase of $140,000,000 over the same date of 1914. The increase for the month was $8,663,792. Included in the liabilities were temporary loans to the extent of $145,540,350. It is presumed that this covers the recent loan made in New York, the war loan raised in England and monies borrowed from the banks in Canada. There is an increase in Dominion note circulation of some 38 million dollars, the total being $152,065,648.

The Prince Rupert Daily Journal 50 cents per month.

RECENT VICTORY OF ALLIES RESULTED GREATER NUMBER OF HEAVY GUNS CAPTURED THAN AT FIRST REPORTED

Paris, Sept. 30.—An official despatch says:—In Belgium our heavy artillery has supported the action of the British fleet against German batteries along the coast. No important action has occurred.

In Artois the enemy has shown some activity near Armancourt.

In the environs of Roye a strong reconnaissance was dispersed by our fire.

Before Beauvraignes we exploded several mines, which shattered the German trenches there.

In Champagne we gained ground to the north of Mesnil, we gained some more east between Hill 190 and to the point north of Massiges, from the road to Ville sur Tourbe to Cernay Endornois. At the latter point we took additional prisoners.

By a counter attack the enemy succeeded in recovering a footing in Ouvrage dela Defiate. A second counter attack of a very violent character in the same sector was completely repulsed. The enemy suffered important losses.

The clearing of the former German positions permitted a more complete computation of the cannon captured. Their number is much greater than had been previously announced. The total field guns and heavy pieces captured from the enemy since September 25 on the Champagne front alone reached 121.

A flotilla of aeroplanes dropped seventy-two bombs on the station at Guignicourt. The bombardment appeared very effective. The aeroplanes though violently cannonaded, returned safely to their base.

LIEUT. FOSTER LEFT YESTERDAY TO JOIN REGIMENT

Well Known Local Resident Will Be Attached To 54th At Vernon.

Lieut. A. G. Foster, of this city, one of the earliest arrivals in the place, left yesterday morning by the G. T. P. steamer en route to Vernon to join the 54th Battalion, in training there for the front. He completed his course of training at Work Point Barracks some time ago.

Lieut. Foster had military experience in England before coming to Canada.

ALASKA STEAMSHIP CO. BUYS TWO FREIGHTERS

New Vessels Will Ply Between Seattle And Alaska Ports.

On account of the enormous tonnage offering between Seattle and ports in the north, the Alaska Steamship Company, at a cost of approximately $400,000, purchased the steel freight steamers Bennington and Burlington on the east coast and will place them in service between Seattle and Southeastern and Southwestern Alaska. The ships are to be brought to Seattle by way of the Panama Canal, and officers and crews were sent to the east coast to man the vessels.

The Bennington and Burlington were acquired from the Rutland Transit Company, which is a subsidiary of the New York Central lines. The vessels are particularly adapted to the Allaska trade and are similar to the steamer Latouche, having their machinery set aft. They

(Continued on Page Four.)

CANADIANS WILL HAVE DRY FEET THIS WINTER

Two Pairs Of Shoes Declared To Be Superior To Any Others Are Issued To Each Soldier.

Canada's soliders will not suffer during the coming winter from wet and cold feet as they did last winter. A new issue of boots, two pairs to each man, is being sent out to all the overseas forces, of whom about 50,000 are now in France and 33,000 still at Shorncliffe. The new boots are pronounced by experts to be superior for active service conditions to any now in use by the Allied armies. They are warm, waterproof and of excellent wearing qualities. Last winter the men had only one pair each, all adapted for use in wet or cold weather, and the severe hardships of the men came from their inability to keep their feet dry or warm. Immense quantities of winter clothing and equipment of all kinds are now going forward from Canada for the men at the front. Since the first of this month over ten million pounds of clothing have been handled by the Quartermaster-General's Department. The winter equipment problem involves looking after not only the 83,000 men who have already crossed the Atlantic, but also the 50,000 or more men who will be kept in training in Canada during the winter. Every effort is being made to secure from the contractors prompt delivery of the necessary clothing supplies for which requisitions were forwarded by the department last June to the Government Purchasing Commission.

NOTICE TO CONTRACTORS.

Granby Bay School.

SEALED TENDERS, superscribed "Tender for Granby Bay School," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 5th day of October, 1915, for the erection and completion of a two-room schoolhouse at Granby Bay, Anyox, in the Skeena Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 13th day of September, 1915, at the office of J. H. McMullin, Government Agent, Prince Rupert; John Conway, Mine Recorder, Stewart; Miles MacInnes, Secretary of School Board, Anyox P. O.; J. Mahony, Government Agent, Vancouver; and the Department of Public Works, Victoria.

By application to the undersigned, contractors may obtain a copy of the plans and specifications for the sum of ten dollars ($10), or a marked cheque, which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Deputy Minister and Public Works Engineer, Department of Public Works,

APPLY TO
GEORGE BRODERIUS

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

PERSONALS

G. A. McNicholl left for Winnipeg by the G. T. P. train yesterday.

* * *

Ben Redfern bade farewell of his many friends at the station yesterday as the train pulled out. He is going to Scotland in the hopes of getting to the front.

Red Cross Home Cooking.

On Friday of this week, continuing from 10 o'clock to 6, the Red Cross Society will hold a sale of home cooking in the office of ex-Alderman McClymont, Third Avenue. Mrs. Bazett-Jones and Mrs. R. E. Walker will be in charge. All ladies in the city are requested to assist by sending in home cooking. Raffles as usual will be a feature. Remember now is the time the Red Cross will be taxed to its utmost to take care of our wounded soldiers. Everybody is requested to lend a hand. tf

ALASKA STEAMSHIP CO.

(Continued from Page One.)

have a gross measurement tonnage of 2,285, net 1,393 tons. The vessels are built of steel and are equipped with single screws, electric lights, two decks and double bottoms. They were constructed in 1908 by the Great Lakes Engineering Works at Ecorse, Mich., and are 244 feet long, 43.2 feet beam and 27 feet in depth. They are registered at Buffalo, but are engaged in great lakes trade in connection with the Rutland railroad at Vermont at Ogdensburg, on the St. Lawrence River.
