Changes To Be Made In French Staff Result Cabinet Changes

Paris, Nov. 2.—An official report says:—A cannonade on both sides of somewhat violent character occurred west of Lieven.

In the region of Calonme fort spirited combats at close quarters. We continue our advance in the passageways of the sector at Neuville.

On the south of the Somme, in the region of Chaulnes Fouquescourt, our artillery concentrated an effective fire on the German trenches. They reached the enemy groups the moment of their formation.

In Argonne several German mines were exploded without damage to our works. Our infantry fire prevented the enemy occupying the excavations there.

There is nothing to report along the rest of the front.

It is semi-officially announced that General Maunory, former military governor of Paris, who was wounded in the fighting last March against the Germans will succeed General Gelliebeini. Governor of the latter is now being made minister of war.

CAUSES WHICH LED TO BANK'S DOWNFALL

Liquidator Makes Report On Bank Of Vancouver.

Ewing Buchan, liquidator of the Bank of Vancouver, has filed a report in the Supreme Court in which he reviews the history of the bank from its inception in March, 1910, up to the closing of its doors on December 14, 1914. He outlines the work which has been done since the time he was curator and afterwards liquidator, and goes at length into the financial condition of the institution up to July 31 of this year.

At the time the bank was incorporated, Mr. Buchan says, there was a general spirit of optimism prevailing throughout the country. "This spirit seems to have prevailed, to a considerable extent in minds of the promoters, directors and chief officials of the bank, many of whom apparently lacked the necessary experience and knowledge of sound procedure. The ambition to be a big institution from the start, seems to have led to unwarranted establishment of branches with no apparent effort towards economy. Offices and premises were rented and fittings installed and other expenses incurred in excess of what would be prudent or reasonable in a young institution. There was, further-more, a liberal and improvident granting of credits to many who proved to be weak and undesirable customers.

"The bank opened its doors on July 30, 1910, and in the course of eighteen months the directors were led to take steps to retrench," continues the report. "This was difficult with a handicap of early mistakes and as the tide of prosperity began to recede, securities and assets of many borrowers underwent a severe shrinkage. "It became necessary in the beginning of 1914 to reduce the capital stock, in order to provide for bad and doubtful debts, and attention was directed to a liquidation of loans, obtaining of further securities, and curtailment of expenses."

VERDICT REACHED BY CORONER'S JURY

A VISIT WAS PAID TO THE SCENE OF THE ACCIDENT YESTERDAY

Jurymen Went Over The Ground Where Trains Travelled.

"That the said W. D. Tippens came to his death in a rear end collision on the Grand Trunk Pacific Railway about mile 42 1-2 east of Prince Rupert, B. C., on Friday, October 29, 1915, between trains No. 97, known as the 'Fish Extra,' and train No. 78, known as the 'Way Freight' both trains going east.

"And that the said collision was caused through failure on the part of the engineer of the Fish Extra, train No. 97, to act upon the signals of the flagman of train No. 78, within sufficient time to bring train No. 97 to a full stop before running into the rear of train No. 78, and in our opinion the said trains were running too close together at this point to ensure absolute safety."

This is the verdict reached by the coroner's jury with respect to the death of the late W. D. Tippens. The verdict was reached yesterday afternoon, after the jury had visited the

Increased Receipts Of Halibut In Port During Yesterday

The better weather conditions has been attended with increased catches of halibut being brought into port this week. Yesterday saw quite an increase in the number of boats, and with continued improved conditions the increased number is likely to be continued.

The Omaney, Capt. Dave Hassel, brought 60,000 pounds. The Pioneer made her first trip in with 60,000 also. These sold to the Canadian Fish & Cold Storage. The price yesterday was excellent, being 6 7-8 cents a pound.

Last evening the Geo. E. Foster, one of the boats of the Cold Storage reached port with 120,000 pounds. It is reported that the New England will be in for the Atlin Fisheries this morning with a good catch.

Portland, Nov. 2.—Fifteen lives are known to have been lost from the steamer Santa Clara which is a total wreck south of the spit and the rocks at Coos Bay.

WILL DEVELOP THE RED ROSE GROUP

Another Property On Rocher De Boule Will Be Developed.

The Red Rose group on Rocher de Boule mountain, recently bonded by Edmonton capitalists, will be added to the list of working properties in the course of a few days, says the Omineca Miner. The Skeena Copper Company, Limited, is now being incorporated to develop the claims, and the work will be under the management of Howard D. Thompson, an experienced mining man, who arrived from Edmonton and at once began preparations for active operation.

Mr. Thompson, who is well known in the Slocan district, informed The Miner that he hoped to have half a dozen men at work next week, as soon as supplies can be taken up to the property. The cross-cut tunnel is to be continued, and the superintendent purchased a supply of rails for the necessary track. He will make his first trip to the claims, and will make an inspection before beginning work.

Mail For Soldiers.

In order to facilitate the handling of mail at the front and to insure prompt delivery, the postal authorities requests that all mail be addressed as follows:

(a) Regimental Number .....
(b) Rank .....
(c) Name .....
(d) Squadron, Battery or Company
(e) Battalion, Regiment, (or other unit) Staff appointment or department .....
(f) Canadian Contingent .....
(g) British Expeditionary Force ..
(h) Army Post Office, London, England .....

Unnecessary mention of higher formation, such as brigades, divisions, is strictly forbidden, and causes delay.

Socks Are Needed.

Latest reports indicate that cold disagreeable weather prevails in the trenches held by the Canadian troops, and good warm socks in particular will be welcome. Mrs. Dr. W. T. Kergin will be at the Board of Trade Rooms every Thursday forenoon from 11 to 12 to deliver wool yarn and all Prince Rupert ladies are invited to call and obtain a supply and start knitting immediately.

Asquith Administers Rebuke To The Coterie Of Professional Whimperers And Praises What Nation Has Done

London, Nov. 2.—Premier Asquith in the House of Commons today made his announcement which has been looked forward to for several days. In no uncertain way he dealt with the war situation and gave sounding advice as to dealing with the situation. He emphasized that as the present moment called for a proper sense of perspective, a limitless stock of patience and overflowing reservoirs of courage.

The Premier denounced the small coterie of professional whimperers. He affirmed that in the last fifteen months Britain had recruited an enormous number of men, including the splendid response from India and the Dominions.

He asserted that the Germans had not gained a foot of ground since April. The British navy had transported with the greatest success, two and a-half million troops and 320,000 sick and wounded.

The men of the Grand Fleet were showing indescribable efficiency. They had cleared the seas of German ships. The German fleet dared not show its face wherever it could be attacked.

The Premier paid a high tribute to the Russians. He was confident they, before long, would roll back the enemy.

He admitted dissappointments in the Balkans, especially at the failure of Greece to fulfill her treaty obligations. He emphasized, however, the fact that the Allies would not allow Serbia to become the prey of the enemy.

The visit of General Joffre to London, said Mr. Asquith, had resulted in a complete agreement as to the ends and the means of assuring Serbia of her independence. This was an essential object of the campaign, he said.

The financial condition of the country at the present was serious. The burdens could not be sustained, he said, without the strictest economy on behalf of the Government and individuals. The war committee of the Cabinet, which would be concerned with the higher direction of the war, should not consist of less than three members nor more than five members. The Cabinet, he said, should be kept well informed of any important decisions made by this committee.

BRITISH GUNNERS ARE NOW SAID TO BE IN ASCENDANT

London, Nov. 2.—An official despatch says reviewing the big drive on the western front on September 25, Sir John French states that the new British heavy guns, and the British gunners, have shown vast superiority over the enemy's artillery.

He further states that the use of gas by the Allies as a reprisal against the tactics of the enemy, proved demoralizing to the enemy, who were advancing in masses. The Germans left 9,000 dead in front of the Anglo-French trenches.

JOHN WARD KILLED AT GRANBY BAY ROCK

Accident Resulted In Instant Death Of Miner.

John Ward, of Vancouver, was instantly killed in quarry work at Granby on October 27. He was 45 years of age. His death was due to an accident. A large body of rock fell crushing the body.

Yesterday's steamer Prince Rupert from the smelter town brought the body south, it having been embalmed by Bruce Morton, formerly of Prince Rupert, who is now at Granby. The body was taken on to Vancouver.

WORKMEN'S COMPENSATION.

Ontario's workman's compensation act, which is based upon the same principles as that which has been laid on the table of the British Columbia Legislature for public consideration with a view to its passage at the next session of the House, has now been in operation nine months.

Up to October 8, 12,659 accidents had been reported to the board, of which 139 were fatal. Before the year is out it is estimated that between $750,000 and $1,000,000 will have been paid out direct to workmen as compensation for injuries received. The amount collected from employees is $1,500,000. The surplus is explained by the fact that the board had no Canadian statistics upon which to base its estimate of losses. Future assessments will be regulated in the light of experience, there being no intention to pile up a surplus.

Of the accidents 3,972 did not involve claim for compensation. Of the claims 127 were rejected by the board and 689 are in process of adjustment. In 994 cases the necessary information is being collected. In 4,763 cases final payments have been made and in the remaining 627 cases weekly payments are continuing. Pensions for permanent partial disablement have been awarded in 63 cases.

VERDICT REACHED.

place where the accident occurred.

The request was made by the jury yesterday morning, and General Superintendent Mehan readily agreed to furnish a special train. Accordingly at 1 o'clock, the special left here for the scene at mile 42 1-2. The jurymen not only inspected the location, but also tested the ability to see a flagman. They took their positions on the engine and had the brakeman flag the train as on the occasion of the accident.

Having investigated the matter from every standpoint they considered the evidence on the way into the city, and before reaching Prince Rupert had submitted the verdict to the coroner J. H. McMullin.

CAUSES WHICH LED.

(Continued from Page One.)

The report states that the bank had ten branches when it went into liquidation. The accounts as passed by the registrar of the court, for the period from the time the curator was appointed up to the time he took up the duties as liquidator, showed a balance of $36,738.08. The receipts on accounts of loans, interest, stock subscriptions and for furniture and other effects sold show a total of $32,788.52, making a total of $69,526.60. Against this is charged $9,384.63 for ordinary expenses; $9,867.72 paid out for the protection of securities, and $378.08, part bank balance allowed as set-off against outstanding drafts, reducing liability. This leaves a balance on hand ove all of $49,896.17.

The imports of canned sardines to the United Kingdom in 1913 were 304,610 cwt., value £972,852, as compared with 295,220 cwt., valued at £912,124, in 1913. The imports in 1914 included 144,360 cwt. from Portugal, valued at £390,379, and 120,527 cwt. from Norway, valued at £396,935.

The fisheries of Canada are well known to be very valuable. The principal product of Nova Scotia is dried cod; lobster are also preserved in cans and exported to Great Britain, France and Germany. New Brunswick has some of the finest fishing areas in the world, their chief products in order of importance are herring, lobsters, sardines, cod and oysters. The fisheries of Prince Edward Island and Quebec are also extensive. Within the last few years, however, British Columbia has taken the first place amongst the provinces of the Dominion as regards output of fish. The most extensive branch of the fishery industry of British Columbia is that connected with the catching, canning and curing of salmon. In addition, on the northern coasts of British Columbia there are rich halibut grounds, while herring are in great abundance everywhere along its shores. The exports of canned salmon from Canada during the year ended March, 1915, were 34,655,108 pounds, value $4,948,723.

The export of canned lobsters from Canada during the year ended March, 1915, were 7,518,741 pounds, value $3,013,782.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

SALE OF HOME COOKING

The Red Cross sale of home cooking will be held on Friday, November 5, from 10 a.m. to 6 p.m. Mrs. Peter Black and Mrs. Wm. Miller will be the ladies in charge. The sale will be held in the store of the Woman's Home Bakery on Third Ave. British pluck and the determination of every man and woman is going to win, and now more than ever, must we at home make some sacrifices for the assistance of the men at the front; donating pie, cake, dough-nuts, buns or a loaf of bread, or patronizing the sale means doing something, and you are all invited to consider this an invitation to assist.

Mrs. Birnie will demonstrate at this sale the making of an inexpensive war cake, and sell the recipes. Every lady in this city should have this recipe; price 5 cents. Proceeds for the Red Cross. Miss James of the Woman's Bakery has very kindly offered to serve tea, proceeds also in aid of the cause.

Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.
