Halibut Sold For Seven Cents Yesterday Making Record Price

Yesterday a record price was paid for halibut at the fishing wharf. This was the price of seven cents a pound paid by the Atlin Fisheries for the catch of the Sumner, Capt. Rolley. The vessel had 27,000 pounds. It is estimated the schooner has at least 20,000 first-class fish, which represents $1,400 for the heavy and light ones.

The Celestial Empire, Capt. Berry, belonging to the New England Fish Company, also arrived yesterday with 15,000 pounds for the Atlin Fisheries.

The San Juan Company got two carloads away yesterday on the regular train, made up from the catches bought the day before by Mr. Roberts.

Last evening the Canadian Fish & Cold Storage had one of its vessels come in with a good catch. This was the Starrett. She had on board 20,000 pounds, which under the conditions prevailing is considered a first-class catch.

It is believed that but little fish is going into Seattle just now. The demand is brisk and therefore the price has gone up. Telegraphic communication has been cut off largly through storm.

CANADA'S WHEAT PRODUCTION LARGE

OVER 300,000 BUSHELS WERE RAISED DURING THE YEAR

Statistics As To Crop In Different Parts Of The Dominion.

The census and statistics office issued its monthly report on the field crops of Canada, based upon returns made by crop-reporting correspondents at the end of September. The report gives the second or provisional annual estimate of the yield of the principal grain crops, a statement of the quality of these crops at the time of harvesting and the condition of root crops on September 30.

For wheat, oats, rye and flax the provisional estimate now issued shows yields higher even than those reported a month ago, but in the case of barley and oats the present estimate is less than that of August 31. The total wheat crop of Canada is now placed at 336,258,000 bushels from 12,986,400 acres, representing an average yield per acre of 25.89 bushels. This total is 174,978,000 bushels more than last year's inferior yield of 161,280,000 bushels, the crop this year being therefore more than that of last year. It is 104,541,000 bushels, or 45 per cent. in excess of the previous highest yield of 231,717,000 bushels in 1913, and 140,232,000 bushels or 72 per cent. in excess of the annual average yield of 196,026,000 bushels for the five years 1910 to 1914. Of oats the revised total yield is 481,035,500 bushels from 11,365,000 acres, an average per cent, of 42.33 bushels. Barley comes out at 50,868,000 bushels from 1,509,350 acres, an average per acre of 33.70 bushels, rye is now 2,478,500 bushels from 112,300 acres, or 22.07 bushels per acre, and flax seed 12,604,700 bush-

N. J. JABOUR WAS LAID AT REST YESTERDAY

Funeral Was Largely Attended By Friends Of The Family.

The remains of Nejarb J. Jabour were laid at rest yesterday afternoon at Fairview cemetary. The funeral services were held at Hayner's chapel, being conducted by Rev. W. H. Grant. There was a large attendance of friends and acquaintances.

The death of this young man was peculiarly sad, inasmuch as he had just completed a very brilliant course of study in a university in Syria, and had come to join his brothers, James and Daniel in this country, where he intended to follow his vocation. He was seized with consumption, however, and passed away quickly.

CONCERT IN AID OF THE RED CROSS FUND

Excellent Programme Given At Westholme Last Night.

At the WestholmeTheatre last evening an excellent programme was given, the concert being in aid of the Red Cross Society. The Westholme gave the theatre free of charge and contributed an excellent four-reel comedy.

Musical selections were rendered in excellent form by Miss Bainsley, Mrs. Jarvis McLeod, and Mrs. McIntosh and by Mr. Armstrong.

Following the programme the audience sang Rule Britannia and God Save the King, bringing the concert to a close. The house was well filled.

When Jamie sat quiet for any length of time, his mother always trembled. It usually meant some question best defined as a "poser."

And on this occasion he hadn't moved for ten minutes. Then it came: "Mother, do angels sleep?"

"Yes, dear, I suppose so."

Do they lie down, mother? How can they, with those big wings?"

"I'm sure I don't know, Jamie. I've never thought about it."

Silence again, and she hoped he had forgotten, but Jamie was thinking deeply. "I've got it, mother," he cried at last. "I'll bet they roost!"

BULKLEY VALLEY A STOCK CENTRE

RANCHERS ARE BRINGING IN CATTLE FROM PRAIRIES TO FEED

Over 180 Head Of Young Stock Brought From Alberta.

Mention has before been made in these columns to the fact that those interested in lands in the Bulkley Valley were turning their attention to stock raising. It has been found that the grasses of the interior valley is exceedingly nuturious and stock fattens very readily on it. As a ranching country it is said to excel the prairies in all respects and stock comes to maturity about a season earlier than in Alberta.

This year, with a large crop of hay on hand, the farmers have brought in a lot of Alberta stock which will be fed this winter on the surplus hay that has been put up, and in the spring these cattle will go on the grazing lands there and be ready for the butcher early next fall.

One cattle special has already been brought from Alberta to Telkwa with 180 head of steers and heifers. Charles Barrett, who has the famous Barrett Ranch, J. J. McNeil, who has very extensive interests in the valley; E. G. Ayliffe, A. Morin and E. Morin have all brought stock in the shipment.

GREAT BRITAIN'S BEST ENDEAVORS NOT PUT FORTH

"Great Britain has not put forward her best endeavors nor will she do so for the next six months," so declared D. A. Thomas, British Munition Representative, to several hundred members of the Canadian Manufacturers' Association in Montreal. Mr. Thomas declared England was in earnest now and cited instances of thousands of men from firms in which he is interested who had gone to the front. Britain, he said, was determined to see the war through.

MOVE MADE FOR LOCAL VESSELS

VANCOUVER BOARD OF TRADE IS MAKING MOVE IN THAT DIRECTION

Prince Rupert Will Be Asked To Co-operate In This.

A recommendation that all Boards of Trade in the province be asked to name members of a joint committee to take up with the government the matter of providing a fleet of British Columbia owned sailing vessels or steamships for the carrying on of the export and import trade was adopted by the Vancouver Board of Trade.

The suggestion was embodied in a report of the special committee appointed at the last meeting of the board. It was submitted by Mr. P. M. Beazley, in the absence of its chairman, Mr. E. W. Hamber. The committee takes the view that a scheme for privately owned ships, aided by the government, would bear careful consideration. The portion of the report touching this phase is as follows:

"It was unanimously agreed by the committee to recommend to the board that an appeal to the Provincial Government should be at once made, pointing out the urgency of ships on the Pacific coast, especially at the present time, for the carrying of British Columbia cargoes.

"The committee, in presenting this report to the board, desires respectfully to bring to its notice the absolute urgency for strong action to be taken at once. The committee considers that the present is the opportune time to commence the building of steam or sailing ships, having their home port in British Columbia, and would further urge upon the board the necessity of approaching the Provincial Government and laying before them in the strongest possible way the needs of British Columbia in this respect.

"The committee would also wish the board to seek the strong co-

Limonite Properties On Copper River Give Good Promise

John V. Rittenhouse has returned from a trip through the mountains in the vicinity of the limonite properties in which he is deeply interested in the Copper River. He went into the mountains opposite the location of his holdings to study formation and gather all available information as to the deposits and the district.

The interest that is being manifested in the proposition of steel work on the Pacific coast brings these properties into greater prominence. Situated on an easy route for a railway to them, there is little reason to doubt that within a short time the deposits there will be utilized. According to the analysis made the ore contains over 50 per cent. of iron. It is classified as well within the Bessemer limit with respect to the analysis.

Mr. Rittenhouse estimates that there is easily 7,500,00 tons available without any further opening up. It lies ready to start quarrying.

RED CROSS DANCE IN ST. ANDREW'S HALL

Excellent Music And Well Attended Function.

There was a good attendance at the Trafalgar Day dance given last evening in aid of the Red Cross Society. The music last night was of the very highest character. The orchestra gave their services free, and was made up of the very best local talent with two piano players, two violins, drums, cornet and piccalo. There has never been better music at a dance in the city.

Refreshments were served during the progress of the dance, no breaking off of the dance being necessary.

WAR COST TO CANADA DAILY IS HALF MILLION

The war is costing Canada now $484,000 a day. At least this was the rate of expenditure in September. The total for the month was $14,541,003. At this rate the war for a year would cost about $170,000,000. However, the rate is increasing monthly, so that the war for the year will likely cost $200,000,000.

One of the most striking features of the revenue statement is the increase of over two million two hundred thousand in the post-office revenue statement for the six months of the year. This is sufficient reply to the criticisms of the postal taxation.

Wheat Crop In Prairies Has Been Well Taken Care Of This Season

W. J. Quinlan, of Winnipeg, District Passenger Agent of the G. T. P., who was here a few days ago bears evidence as to the magnificent crop that the prairies of the Dominion of Canada have had, and the splendid shape in which it has been taken care of. He says threshing was in full swing in all directions as he came west. The weather has been good for the work and the crop is well saved.

It is reported, he says, that the crop of this year has allowed the farmers to wipe out ninety per cent. of the indebtedness they had. This he says will mean immense things for the west. The farmers will all be rich and there will, he thinks, be considerable travel this way after the crop is all taken care of.

There has been some advance in the price of grain to the advantage of the farmer.

Mr. Quinlan's opinion is but that of everyone else who goes through the country.

"This year's harvest is the greatest grain crop in the history of the west," is the opinion of W. S. Cookson, Assistant General Passenger Agent of the Grand Trunk system, who returned to Montreal after completing a nine thousand mile tour of westen Canada, the Pacific coast from Mexico up to Alaska, and along the line of the Transcontinental in northern Ontario.

Discussing what he had seen, Mr. Cookson said to the Montreal Mail that such a huge crop as the 1915 one has never yet been produced, and in his opinion the millions of dollars which will find a way to the grain growers of the west this year is going to mean more money invested in land, more development, and a west next year that will surprise even the most ardent boosters of this part of Canada.

Mr. Cookson related one instance of the remarkable rapidity with which the soil is being turned from non-producing wastes to valuable cultivated and with a crop-bearing capacity unexcelled. On a hundred mile stretch of the Grand Trunk Pacific branch line in Saskatchewan, the train passed through a "sea of grain," running as far as the eye could see for one hundred miles of the train's progress.

Wonderful Productiveness.

This land was nothing but a wild sage brush tract four years ago. Now it is one of the most productive parts of the province, and grain-growers expect to send from this tract alone over 3,500 carloads of grain.

EXPERTS ON BIG GUNS ON WAY TO CANADA

They Will Take Up Question Of Manufacture In The Dominion.

D. A. Thomas, representative in Canada of the British Munitions Department, has gone to New York, where he will meet Sir Frederick Donaldson and Mr. J. Hitchins, the British ordance experts, who are coming to Canada in connection with the proposed manufacture of big guns and of larger shells in Canada, and also in connection with the re-organization of the work of the shell committee.

It is learned in authoritative circles, that the Canadian Government has no control whatever over the shell committee, which was appointed by the Imperial Government to arrange for the manufacture of shells in Canada. This was done with the suggestion of General Sir Sam Hughes on his first trip to England, and he asked to recommend the men to go on the committee. Any re-organization of the committee or its work is, therefore, a matter entirely for the Imperial Government to deal with or for the representatives whom they sent to Canada.

A. J. PRUDHOMME HAS BOUGHT FARM

PROPRIETOR OF SAVOY HOTEL WILL GIVE SOME ATTENTION TO FARMING

The Driver Property In The Bulkley Valley Has Been Purchased.

A. J. Prudhomme, of the Savoy Hotel of this city, has purchased the Driver Ranch in the Bulkley Valley. The farm is one of the choicest in that section and was bought by the local hotel proprietor from Bourgon and Hoops.

Mr. Prudhomme has taken a deep interest in farming and believes there are great possibilities along that line in this district. He will, it is understood, give his personal attention to the farm which comprises over 300 acres.

Camosun Sailed.

The Union steamship Camosun sailed for the south last evening.

The Central Cash Grocery

wish to inform their patrons that starting Saturday, October 23, their place of business will be removed to the corner of Third Avenue and Second Street. They solicit a continuation of this patronage.

TRAGEDY OF LAND BOOM.

Mr. G. N. Barnes, who recently visited this province in company with Mr. W. Windham to recruit labor for British workshops, has written an account of his impressions of the west. Commenting on the results of the land speculation boom, he says: "While they wait for a return of the boom, Vancouver is importing eggs from China, butter from New Zealand and beef from the States. This is the tragedy of it all; importation of food stuffs into Vancouver which should be produced at its own doors."

What are the citizens of this city doing to correct this unsatisfactory agricultural position, for Vancouver is not the only city that is consuming large amounts of food stuffs imported from other countries which should be grown at home? asks the New Westminster Columbian, and the same question applies to some extent here in Prince Rupert. Are our citizens insisting on getting home-produced creamery or dairy butter, home grown celery and other vegetables rather than the California product; B. C. apples rather than the inferior product, in many cases, from across the line? Are they going further than this and doing a little cultivation on their own account? These are the steps to be taken to establish the province on a right economic basis.

Snap In Real Estate

Choice Lot with Building on it for $2,200 Cash

Lot 12, Block 9, Section 1

APPLY TO

GEORGE BRODERIUS

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

MOVE MADE
(Continued from Page One.)

operation of the Boards of Trade of Victoria, Prince Rupert, New Westminster and North Vancouver.

CANADA'S WHEAT.
(Continued from Page 1.)

els from 1,009,600 acres, or 12.48 bushels per acre.

In the three northwest provinces the estimated yield of wheat is 304,200,000 bushels, and of oats 305,680,000 bushels. The remaining grain crops of Canada, whose yields are now reported on for the first time this year, are as follows: Peas, 3,240,400 bushels from 196,210 acres, an average of 16.52 bushels per acre; beans, 594,000 bushels, 43,310 acres, 13.71 bushels per acre; buckwheat, 8,101,000 bushels, 343,800 acres, 73.56 bushels per acre; mixed grains, 17,128,500 bushels, 466,800 acres, 36.69 bushels per acre; corn for husking, 14,594,000 bushels, 253,300 acres, 57.62 bushels per acre. In arriving at these estimate certain deductions have been made for quantities reported as destroyed by the weather in the province of Ontario, chiefly sprouting in stook through excessive rains during August. These deductions do not represent a total loss as the sprouted grain will be used for feeding. They amount on the average to 11 per cent. of the total crops for wheat, 9 per cent. for oats, 8.5 per cent. for peas, and 6 per cent. for beans.

Storms In Interior.

Severe storms are reported from the interior for the past few days. In consequence the telegraph lines have been down for two nights.

November Sitting.

The November sitting of the County Court will open on November 1st, with Judge Young presiding.

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that Harry McMann, of Victoria, B. C., occupation broker, intends to apply for permission to prospect the following described lands for coal and petroleum: Commencing at a post planted about 2 miles north of a point on the north shore of Port Channel and about 140 chains west of Coal Licence No. 10,166, thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to the point of commencement.
