RUSSIAN DRIVE IS JUST AS VIGOROUS AS BEFORE

BRITISH AND FRENCH ARE MAKING STRONG ATTACK

Prince Rupert Leads Pacific Coast In The Halibut Trade

Prince Rupert Leads All Pacific Ports In June Receipts of Halibut

The port of Prince Rupert continues to maintain its lead in the matter of fishing. The returns compiled by the Pacific Fisherman for the month of June shows that this port is well ahead of all others on the Pacific coast in the matter of the halibut that was landed here for that month.

There were landed at this port during that month, from all the fishing vessels that come in here, the very substantial amount of 1,778,000 pounds of halibut. Of all the boats that came in during the month, the Andrew Kelly, of the Canadian Fish & Cold Storage Company, had the largest catch. This was on June 5, when she brought in 110,000 pounds.

The City of Seattle had, during the same month, very close to the amount of fish that this port had. There were landed at the southern port, from independent vessels, 874,-235 pounds of halibut. At the same time the company boats in Seattle landed there about the same amount, namely, 842,000 pounds. This made a total for the port of 1,716,235.

At Vancouver there were landed 760,000 pounds of halibut during the month of June. Steveston, where the B. C. Packers operate, the landing of halibut was 120,000 pounds.

At Ketchikan the landings of halibut was very much smaller than that at the other ports on the Pacific that are in the trade. It was 437,000 pounds.

Comparing the catches of the month with the same month of last year it will be found that Prince Rupert had 777,000 pounds landed from American vessels in June, 1915, and 826,000 pounds from Canadian vessels, or a total of 1,603,000 pounds.

Vancouver, in June, 1915, had 1,-223,000 pounds landed, and Steveston, 195,000 pounds.

Seattle, in June, 1915, received 2,111,500 pounds from independent schooners and 1,040,000 pounds from company vessels, or a total of 3,151,-500 pounds. In 1914 Seattle had 4,-728,000 pounds landed in June.

Advice To Poultrymen

SPURRS MARKET

NICKEL SOON TO BE REFINED IN CANADA

But Only For Canada's And Part Of Great Britain's Needs.

Although no official statement has been forthcoming as yet as to the progress that has been made toward permanently establishir~ a nickel factory in Canada, as a result of the Government's negotiations with the International Nickel Company last March, it is stated that the Government soon will be in a position to announce that a considerable proportion, at least, of the Sudbury nickel ore henceforth will be refined in Canada. The site for the new plant has been purchased in Nova Scotia and the machinery has been ordered by the International Nickel Company.

As far as can be learned, the Government here has no intention at present of going further than this. The agreement with the International Nickel Company provides for refining in Canada all nickel required for Canadian consumption, and as far as practicable, what may be required for the British Government's needs. No intimation is given that the Government itself will go into the nickel industry or prohibit exportation of ore to the United States.

SUCCESS FORESEEN FOR NEW WAR LOAN

Ottawa Expects Issue In September Will Be Well Received By Investors.

Ottawa, July 22.—It is expected here that the forthcoming Dominion war loan which is to be issued in September will meet with even greater success than the first, which was floated in November of last year. Out of that loan of one hundred million dollars, fifty millions was advanced to the Imperial treasury for the purchase of munitions and supplies in Canada.

In addition to this fifty millions, the Minister of Finance was able to arrange with the chartered banks for further advances aggregating one hundred million dollars as an Imperial credit for similar purposes.

The result of this total credit of $150,000,000 has been that since the date of the first Dominion war loan new orders to an aggregate of $150,-000,000 have been placed in Canada by the Imperial Munitions Board, of which Mr. J. W. Flavele is chairman.

Indian Pow-wow.

The past couple of weeks were lively ones at Hagwilget, to which the north gathered for special services, says the Omineca Herald. A hundred came with Father Cocola from Babine. As soon as the religious services had finished the Indians started their old time potlach and a general big pow-wow which lasted for several days.

SIR SAM HUGHES WAS EXONERATED

COL. CARNEGIE AND COL. ALLISON ARE NOT FOUND BLAMELESS BY COMMISSION

Finding Of Meredith-Duff Commission Has Been Made Public Now.

Ottawa, July 22.—The report of the Meredith-Duff Commission exonerates Sir Sam Hughes. It attaches blame to Col. Carnegie and criticizes Col. John Wesley Allison.

Speaker Sevigny intends to enlist for active service and is taking the officers' training course.

TURKISH ACTS CAUSES RUSSIA TO DISREGARD RULES

Petrograd, July 22.—It is reported that Russia intends to disregard the rules laid down at the Hague Convention concerning treatment of enemy hospital ships on account of the fact that the Turks sunk the Red Cross ship Portugal while she was carrying wounded soldiers.

97-Piece Dinner Sets, Glassware, Chamber Sets at Tite's Sweeping July Sale Prices.

WITHDRAWAL FROM VERDUN FRONT

DECISIVE ACTION ON PART OF ALLIED ARMIES HAS DRAWN OFF GERMANS

Along Extended Front The British And French Are Operating Successfully.

Paris, July 22.—The French are operating desperately south of Soyecourt and are inflicting very heavy losses upon the enemy. They captured a German trench. The Germans have been obliged to rush thousands of men from the Verdun front to oppose the Allied advance.

Thousands Engaged.

London, July 22.—Two hundred thousand British and French troops are engaging the Germans on a twenty-seven-mile front in the Somme region. The Allies have advanced to the third line of German defences at Foreaux Wood.

The Germans occupied the British front line trenches on the Leipsic salient but were later driven out with heavy losses.

RUSSIAN ADVANCE IS VERY TELLING

AUSTRIANS NOW ADMIT THEY HAVE BEEN DEFEATED BY RUSSIA

German Army Concentrating For The Final Attack.

Petrograd, July 22.—A press correspondent, who is with the Russian army on the eastern front, asserts that final victory is near, though the strength of the Germans is increasing on account of the contracting of the circumference of their defense line as they retreat.

Russian Advance.

The Russians are advancing despite the flooding of the River Dniester and are compelling Von Linsingen's forces to retire. The Russians have captured the crossings of the Styr River and have taken sixteen hundred prisoners.

Admit Defeat.

Vienna, July 22.—The Austrians admit that they were defeated and forced to retreat in the Styr and Lipa River sections, their troops being unable to face the murderous Russian artillery pressure.

RUSSIA EXPECTS DARDANELLES AS FRUIT OF VICTORY

That Problem As Important As Alsace-Lorraine Is For France.

London, July 22.—On the return of the Russian parliamentry delegates to Russia, says the Chronicle, a sitting of the joint Army and Navy Committee of the Duma was held at which the delegates and several ministers were present, as well as a majority of the members of the Duma. The deliberations were private, but a summary of the proceedings was given out to the press. A most interesting statement was made by Prof. Milukoff, the famous Liberal leader who, according to the Petrograd newspaper, Russky Slovo, said:

"The most important question in which we were interested was the problem of the Dardanelles. An agreement has been made between Russia and her allies, according to which we are promised both sides of the strait. This agreement has not been published, but we considered it our duty to make it most widely known. In my conversation with him, Sir Edward Grey admitted that the problem of the Dardanelles was just as important for Russia as the problem of Alsace-Lorraine for France."

Mining Activity At Nearby Points To City Of Prince Rupert

There is mining activity even closer to the city than has been the case for some little time back. With the decision of the Granby Company to open up on somewhat an extensive score on Gibson Island, near the mouth of the Skeena, there has come additional news of development by that company within easy reach of this place, and within the direct field of influence of Prince Rupert.

This is at Lockeport, where the company has taken an option upon the Swede Group there, which promises to become a good mine of large proportions. The company has held this under option for some weeks, but only within the past few weeks has a start been made in developing the holdings to see what there is there. Diamond drillers have been put to work upon the property in the effort to discover what is really there.

The Swede Group deal was put through by J. Fred Ritchie, who has been interested in the proposition for some time. There have been others looking over it, but the fact that it is somewhat removed from the regular well beaten paths of communication it has been passed up. In addition to that the property is one that will require a very considerable expenditure to develop. It is a large body that is contained there according to all the showings. The Granby Company, in undertaking to make investigations, give an assurance that there are very satisfactory indications on the claims. It will take some time to make all the necessary investigations on the ground. In the meantime the staff that will be carried will not be large.

GERMANS EVIDENTLY PLANNING FOR VIGOROUS ATTACKS

Paris, July 22.—Count Zeppelin, the aged German inventor of the airship which bears his name, in addressing a gathering of workingmen at Frederickshaven, announced that the Kaiser had granted his advisors a free hand concerning the aerial and submarine attacks and preparations are progressing for the striking of vital blows at sea and from the air.

FAST BASEBALL GAME PLAYED YESTERDAY

Catholic Club Won In A Ten-Innings Match With Colts.

One of the best baseball games seen in the city was played yesterday afternoon at the Recreation Grounds, when the Catholic Club and the Colts met in one of the scheduled matches. After ten innings of play the C. C.'s won.

When the C. C.'s went to bat in the ninth innings the score stood 2 to 0 in favor of the Colts. Amid the greatest excitement the C. C.'s got two runs in, thus bringing the score even. The Colts failed to score in the tenth, while the C. C.'s got in a run and broke the score, which stood 3 to 2 for the C. C.'s.

Both pitchers threw a grand game. The batteries were: for the C. C.'s, Fortin, pitcher; Tyrwhitt, catcher. Colts, Lewis, pitcher; Walley, catcher.

By innings the score was as follows:

Colts . . .	0	0	2	0	0	0	0	0	0	—2
C. C.'s . .	0	0	0	0	0	0	0	0	2	1—3

SEA MONSTER CLAIMS TWO

Man-eating Sharks On Jersey Coast Active Again.

Matawan, N.J., July 22.—Lester Stillwell, twelve years of age, was killed by a man-eating shark while bathing in an arm of Raritan Bay near here. Stanley Fisher, twenty-four years of age, who went to his aid, was so badly injured in a desperate struggle with the nine-foot sea monster that he died while being taken to a Long Branch hospital. Joseph Dunn, twelve years of age bathing some distance away in the same inlet, was attacked by a shark and one of his legs was so lacerated, it probably will have to be amputated.

This is the third time within two weeks that sharks have claimed the lives of bathers along the New Jersey coast.

What is regarded as one of the best features of the moving picture world is coming here Monday and Tuesday. It is "The Tongues of Men," which will be shown at the Majestic. There will be an excellent musical programme as well.

THE SOLDIERS' VOTE.

From the very first intimation that there was to be a ballot taken of the soldiers' vote at the front there has been opposition to it on the part of the Liberals. It has not been very loud, because of that fact that it was not popular to deprive the soldiers of their franchise, simply because they had the virility to go and serve their country as they are doing. The undercurrent has been against giving the vote to the soldiers on the part of the Liberals. Now, under the cloak of attacking the act that enables the taking of the vote, these Liberals are waxing wroth against the soldiers' vote being obtained. For some time they hoped that refusal would be given by the authorities of the taking of the vote on the other side. It has always been a dreaded vote for that party, and no wonder. There will be no chance there to ring in Seattle pluggers, as was done in the by-election in Vancouver.

No trained impersonators can be run into the military camps and represent themselves as dead and departed voters, as was done in Vancouver. There will be no chance to herd impersonators until the day of the election and then race them around to the polling booths, with instructions to vote for absentees and to vote for the Liberal candidate. There would be no chance to do all this and then put the blame upon the Conservatives, after the evidence all was to the effect that the votes cast had been for the Liberals and the pay received was from the employees of the Liberal committee rooms.

There is good reason for the Liberals to object to the soldiers' vote from their own selfish standpoint, because the majority of these men will cast their ballots against the Liberal candidates. They are the class of men who will not be hoodwinked by the petty criticism that the British Columbia Opposition is able to offer, and who come forward with no remedy for the evils of which they complain. The arrangements for the taking of the ballot seems to have been well considered and provided for very fairly. The ballot is signed and placed in an envelop which bears the man's name before the presiding officer. The ballot is placed in the envelop by the soldier and sealed right there. When these envelops are opened by the Agent General in London, it is before scrutineers of all sides and the ballots are not examined but placed in the box without seeing how any man votes. From the box, the ballots are taken and counted as in any ordinary election.

Of course you can trust the Liberals to find some means of introducing something crooked into anything. In the old days, when that party was crying out and taking to themselves all the purity there was of a political character in Ontario, the election trials showed that the most original methods of defrauding the public in connection with the election results were practised. The Liberals have been at work devising means of beating the soldiers' ballot and believe they have found the way and without the aid of the Seattle faithful that invaded Vancouver in the interests of Mr. Macdonald on the last election day. The government has made provision, whereby, tampering with the election bag in which the ballots have been collected will be stamped out, as the bag so tampered with is to be thrown out and not included in the count. That seems to be bothering the Liberals a lot. That is too decisive a way of dealing with such a bag. Even if any men of the character of the Seattle helpers of that party were to be found their work would be frustrated by this iniquitous move. The Government provided for the ballots getting to the counting place and in good form and untampered with. The penalty for any other condition is the throwing out of the whole bag. But this naturally does not suit the Liberals and they are openly roaring against the provision.

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. Chapter 115.

The Grand Trunk Pacific Railway Company hereby gives notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Land Registry Office, District of Prince Rupert at Prince Rupert, a description of the site and plans of warehouse proposed to be built in Prince Rupert Harbor at Prince Rupert, British Columbia, in front of waterfront Block "G," according to registered plan of the townsite of the said City of Prince Rupert deposited in the aforesaid Land Registry Office as No. 923.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the Grand Trunk Pacific Railway Company will under Section 7 of the said Act apply to the Minister of Public Works at his office in the City of Ottawa for approval of said site and plans, and for leave to construct the said warehouse.

Dated at Winnipeg, Manitoba this 25th day of May, A.D., 1916.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior

NOTICE.

To Launch Owners And Trippers To Metlakatla.

Take notice that the Fruit and Flowers growing around the buildings in the village of Metlakatla and in the gardens on islands and elsewhere in the vicinity of Metlakatla is the private property of the Metlakatla Indians. Any person found removing any such Fruit or Flowers without the sanction of the Deputy Superintendent General of Indian Affairs, or his Agent, will be liable to prosecution.

Visitors who may be found trampling down the Indians' potato gardens or throwing stones into such gardens, or interfering with the cabins thereon will be likewise dealt with.

Launchmen are requested to take notice that they will be held equally responsible for depredations by parties carried by them to these reserves.

CHARLES CLIFTON PERRY,
Indian Agent.

MORE MEN THAN WOMEN HAVE APENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. Prince Rupert people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-i-ka is surprising. WATER NOTICE

Use and Storage

TAKE NOTICE that Granby Consolidated Mining, Smelting & Power Co., Ltd., whose address is Anyox, B. C., will apply for a license to take and use 100,000 gals. per day, and to store 2,500,000 gals. of water out of West Branch of Hidden Creek, which flows southerly and drains into Granby Bay about one half mile west of Anyox.

The storage dam will be located about two and a half miles from the mouth of Hidden Creek. The capacity of the reservoir to be created is about 2,500,000 gals., and it will flood about two acres of land. The water will be diverted from the stream at a point about 450 feet south of north line of Maypole M.C. Lot 1676, and will be used for domestic and mining purposes upon the land and mine described as Hidden Creek Mine and Mine Townsite.

This notice was posted on the ground on the 15th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C.

Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,

(Signed) (Rev.) J. F. DIMMICK.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Advertise In The Journal.
