Surf Inlet Gold Mines Continue To Show Up Better All The Time

F. W. Holler, the Superintendent of the Surf Inlet mines, which are developed towards a producing basis by the Canadian Belmont Company, is in the city. He arrived yesterday from the property, and in confirmation of the report that the President of the parent company, the Tonopah-Belmont Company gave out a little while ago, as published a few days ago in The Journal, says the property is all the time looking better with the development work being done.

Mr. Holler says the dam is now finished and work is advancing on the permanent quarters for the men and for the offices needed at the mine, which is at the head of the lake. There is nothing to interfere with operations so far and the mine promises better every day, which is most encouraging news.

The company has had a rather unique experience in that ample labor has been available there all the time. While other mining ventures along the coast from time to time have experienced trouble in getting sufficient labor the Surf Inlet property has not been held back in the way of development by any lack.

WOMAN MINER STRUCK IT RICH IN THE NORTH

Mrs. Cleveland, Of Fairbanks, Has Retrieved Her Lost Fortune In Alaskan Property.

Every mining man in the western hemisphere will be glad to hear that Mrs. Bonnie Cleveland, the famous woman miner, of Fairbanks, has "struck it rich" on Woodchopper Creek and will certainly clean up a million dollars or more this season, says The Mining and Financial Record. Mrs. Cleveland came to Alaska during the Klondike rush and started a supply store on Gold Run, where she became comparatively rich within a year or so. With this "stake" she began mining on Eureka Creek, and went "broke." Her credit enabled here to start another store, in which she partially recovered her fortune.

From that time to the present she has "grub-staked" more prospectors than any other two people in the territory combined, in many cases out of pure benevolence rather than with a hope of profit from their ventures. She has participated in scores of mining ventures, some of which brought her great fortunes, and others crowded her to the verge of bankruptcy. Indeed, Mrs. Cleveland has been broke a dozen times at least, and she had practically exhausted here entire capital when the late strike was made. She sank $70,000 before a cent was in sight. As usual, every other miner predicted her failure on Woodchopper Creek. This remarkable woman has done as much to develop gold mining in Alaska as any man in the business, and has won a reputation for nerve, daring and determination.

PRAIRIE WHEAT CROPS TURNING OUT BETTER

George Wegenast, of Waterloo, Ont., Says West Has Fair Yield.

There arrived in the city on Sunday evening Geo. Wegenast, of Waterloo, Ont. He is the manager of the Mutual Life Assurance Company of Canada, whose headquarters are in that town. He was accompanied by Mrs. Wegenast. They proceeded south yesterday by the G. T. P. steamer.

Mr. Wegenast has for years been coming west in the interests of his company and is well qualified to judge of the general conditions. He says that while the crops in the prairies were looked upon earlier in the fall as being somewhat of a failure, the finish of the harvest has given better results than were expected. In many districts the threshing has shown fair yields, and with the high prices prevailing the crops will be very far from disappointing. While not to be compared with the year before, the returns will be ahead of the average.

In Ontario, he says, the yield of grain has been disappointing owing to the drought of the latter part of the season.

IS TO REPORT UPON AGREEMENT WITH G. T. P.

City Solicitor Is Asked To Report At Next Meeting Of Council.

The City Council sat only a very short time last evening. Ald. Casey moved that the City Solicitor be asked to bring in a report as to whether the agreement between the City and the G. T. P. was still binding.

The motion was seconded by Ald. McClymont and carried.

GERMANY WILL MAKE A PROTEST

THE TANKS IN USE BY BRITISH HAVE CAUSED CONSTERNATION WITH ENEMY

Huns Will Put Forth Claim That They Are Against Rules.

Geneva, Sept. 25.—It is understood that Germany intends to register a complaint with the International Red Cross Society against the British use of "tanks" on the western front. The Germans claim that this method of fighting is contrary to the recognized methods of civilized warfare.

Caused Dismay.

The motor cars called "tanks" are to the credit of a quiet officer of engineers.

When a correspondent met this officer in London six months ago and asked him what job he was now on he replied: "Sh, sh, don't tell." It was the "tanks" that completed the wonderful business of this battle. When the correspondent was calling on a Canadian brigadier it was "tank" called the "Cordon Rouge," looking like a pre-historic monster in a skin of modern armor and with engines inside, which took him across the field of shell craters, weaving its way with pythonic adaptability by all irregularities up to the door of the brigadier's dugout. The skipper of the "Cordon Rouge" alighted and wih phlegmatic drawl announced that he reported for further orders. The brigadier laughably bade him not to start the brute down the stairs of the dugout but to move it to one side and wait. So the "tank" ambled with the bulky leisure of a hippopotamus over more shell craters to a place where it would be out of the way until it was needed.

BRITISH ATTACK BULGARIANS IN GREEK MACEDONIA

London, Sept. 25.—The British have attacked the Bulgarians in Greek Macedonia, while the Serbians on the left flank have advanced to Kaimakcalan, capturing prisoners.

The British have occupied Jenmita and drove the enemy as far as Kara Dzkobala, where a strenuous opposition halted their advance. East of Nempore the British naval and field artillery bombarded the enemy trenches successfully.

REBUKED JUDGES FOR ACCEPTING FEES

HON. R. ROGERS AND MR. JUSTICE GALT EXCHANGE WORDS

The Accepting Of Pay For Commission Work Held To Be Out Of Order.

Hon. R. Rogers completed his evidence before the Agricultural College Commission in Winnipeg Saturday afternoon with a brief statement, in the course of which he attacked the right of judges to accept fees for presiding over such inquiries. He called the attention of Mr. Justice Galt, the Commissioner, to the Judges Act, and said:

"While the report is curernt on the street that those engaged in these commmissions have been paid large sums of money, I cannot believe that such is the case. I would be very sorry to believe that such was the case because under the law, should any money be received by any judge, it would undoubtedly represent nothing but pure and simple graft."

"If you go on with language of that sort I shall stop you," interrupted the commissioner.

"Under the law this is so clear and distinct that it requires no comment," continued Mr. Rogers.

"How about the recent commission at Ottawa?" asked the commissioner.

"I am glad you called attention to that. The cases are not at all parallel. The Government was so careful that it would not appoint the commmission until it went to Parliament for full sanction."

Mr. Rogers said that he mentioned this matter in the most kindly spirit.

The Commissioner—I appreciate that, but it seems to me a little late for any minister of the crown to come here and instruct judges in their duty, when commissions have been going on for years with, it seems to me, considerable necessity and very great good. Don't you think that any instructions should come from the Minister of Justice, and not from you?

Mr. Rogers—I am not giving instruction. I am merely pointing out the law.

The Commissioner—I think you are exceeding your functions.

Mr. Rogers—I am merely pointing out this matter as a citizen.

Commission Will Get To Prince Rupert From South On Wednesday

The commission appointed by the Dominion Government to study the situation as affecting railways in this country, with the object of reporting upon the question of nationalization of the railway lines, will be here on Wednesday morning. They are in Vancouver and will arrive here by the steamer Wednesday morning according to the latest report.

It had been expected that they would be here before this, coming over the G. T. P. line. They, however, made the run from Edmonton over the Canadian Northern road to Vancouver, to study the situation presented by that line. They will travel over the G. T. P. from here, it is presumed.

The Commission, which consists of President Sith, of the New York Central, and Sir Harry Drayton, Chairman of the Canadian Railway Commmission, are accompanied by their officials and are evidently making a careful examination of the roads without taking second-hand information.

It is not known how long a stop will be made in Prince Rupert at this time. The Commission seems to have a very free hand, which is necessary when the objects to be attained are considered.

COUNCIL COULD NOT CONSIDER A NEW DEBT

Petition For Sixteen-Foot Plankway To Cost $9,500 Was Filed.

At the council meeting last evening a petition from W. Sibbald and nine others asking for a 16-foot plankway to cost $9,500 was received and filed. It was pointed out by the Mayor that this would mean floating a loan for the amount and the city had given an assurance that none such should be made this year when the bonds were sold earlier on.

Ald. Dybhavn called attention to the fact that previous councils had on occasions fallen into the error of granting petitions like this when not very fully signed and they had been found later not to be wanted. He moved that the petition be received and filed.

Ald. McRae seconded the motion, which carried.

HON. R. ROGERS PAID COMPLIMENTS TO MR. JUSTICE GALT

Winnipeg, Sept. 25.—The journalists, who were arrested for contempt of court in connection with their reports of the proceedings in the enquiry into the letting of the contracts for the construction of the Manitoba Agricultural College, have been released under the Habeas Corpus Act.

Prior to making a hurried departure for Ottawa, Hon. Robert Rogers announced to the Telegram that he desired to apologize to the people of Manitoba for interesting himself in the appointment of Judge Galt, a person who apparently was incapable of grasping or appreciating the responsibilities and dignities of his office. He said "Judge Galt appears to enjoy a peculiar standard of honor, permitting him to barter the honor and dignity of the King's court for a monetary consideration."

LIEUT. GOODEVE KILLED IN ACTION BY SHELL BURSTING

Ottawa, Sept. 25.—Lieut. Goodeve, of the Princess Patricias, son of Commissioner A. S. Goodeve, of the Railway Commission, has been killed in action. Word of his death was received from Capt. Harry T. Goodeve. Lieut. Goodeve was killed by the bursting of a shell over the trench in which he was at the time. He won his commission on the field.

STEEL EARNINGS.

The statement of earnings of the United States Steel Corporation, covering the June quarter, was one of the most extraordinary statements ever made by an American corporation. The net profits of $81,126,048 not only surpassed all previous records, but were actually $9,462,427 greater than the profits earned during the full 12 months of 1914. It is noteworthy that the profits increased during each month of the quarter, reaching $28,147,473 in June alone. The whole industry is still enjoying unusual prosperity and the prospects are regarded as favorable, although the corporation's published figures of unfilled tonnage July 31, 1916, fell slightly below the extraordinary figures of June 30.

MINING ACTIVITY.

Silver stood at 68 5-8; copper was quoted at 27 to 28.25 and lead at 8.64 at Montreal at the close of the week.

Prices such as these mean prosperity for the mining industry. But the most satisfactory feature of the mining business at the present time is that the tendency of developments that are being carried out is to enable the industry to stand on its feet and produce profits with metal prices on a very much lower scale, says The Nelson News.

Establishment of plants for the treatment of zinc, improvements in lead, silver and zinc concentrating mills and the introduction of more economical methods of mining are factors that will place the mining industry in a more favorable position than it held prior to the war.

In the concentration of silver-lead-zinc ores alone revolutionary improvements are being made. A greater saving of values and a richer mill product have already been attained.
