LARGE PARTY OF TOURING LADIES IN THE CITY

REPEATED VICTORIES BY ALLIES ALONG ALL FRONTS

Lloyd George Believes Victory May Come In Few Months

Forestry Battalion Is An Attractive One To The Pioneer Classes

To the youths of the land who have been looking about for some form of service to his Empire, without experiencing the hardships and hazards of trench life, to the hardened dwellers of the northland, of the woods, of the farms, of the mills, to the man who is crying out for some form of military service, where he may give the fruits of his strength in the saving of his country, there has now come a great opportunity to perform the highest type of military service. The new Forestry Battalion, the 238th, which has just been authorized under Lieut.-Col. W. R. Smith, M. P., for Algoma, with the right to recruit in the whole area from the eastern boundary of Ontario as far as the Pacific coast, will, without doubt, touch responsive chords in the patriotism of thousands of Canadians, and possibly the most regrettable fact will be the one which will prevent all applicants from being taken on for this service.

Judging from the rate at which applications are flooding into the recruiting depots all over the Province, and to the headquarters at Ottawa, it will be a case of hurry if a man is to catch on this non-combatant force.

There appears to be a certain freedom and independence in this type of service which is appealing to a hardy class of citizens, and while the original intention of Col. Smyth was to take only bushmen, sawyers, millworkers and experienced lumbermen, the demand has now become so keen from young farmers, drivers, from soldiers from other battalions and from different types of citizens that it has been decided to make the qualifications broader in order that others may catch a place in the ranks.

While, owing to the special authorization of this battalion, its services do not include fighting, its popularity seems to be due rather to the fact that the men will get a taste of active lumbering, and that many of those who enlist will be able to continue their regular trade, with all the honor of wearing the khaki, and will accordingly not be called upon to learn some new business. Hundreds of lumbermen and teamsters who step directly from the woods or the farm into the 238th Battalion will find that they will be able to do the work required of them just as readily as though they had been soldiers all their lives.

The first duty of the 238th upon reaching England will be to join the 224th Forestry Battalion, which is now engaged in cutting down the forests of Windsor to supply rough lumber for its hundred-and-one uses at the front. While there may be a little less glory attached to this type of national service, it is, without doubt, just as essential to the success of the Allies as is the line of men in the trenches. Perhaps you have wondered where the men in the front lines, who are under fire, get their supply of rough lumber to build the trenches and the dug-outs to which they must take refuge when the heavy fire of the enemy opens. They get it from the forests of Great Britain and Southern France, and it will be the particular work of the 238th Forestry Battalion to keep them supplied.

Though the 238th Foresters are intended for immediate duty in September or early October, in Windsor Forest, they may even be called upon to cross into Southern France to cut down the timber there, but wherever they go it is an assured fact that they will be one of the greatest services to the Empire which any equal number of men will ever be called upon to perform. Without them there could be no safe trenches, there could be no dug-outs, the roadways of France and Belgium would fall into disrepair, there would be no timber props to permit the continuing of coal mining. In short, the successful termination of the war would be greatly handicapped, perhaps delayed for years. It is very true that the work of the Foresters, though carried out quietly and without ostentation, is essential to the saving of the Empire, and it follows, as well that the hardy men of the northland and from the farms, who enlist with the unit will incur a debt of gratitude, which those who remain behind will never be able to repay in

LABOR MEN FAVOR SATURDAY CLOSING

TRADES AND LABOR COUNCIL WILL ENDEAVOR TO HAVE CHOICE MADE

Reported That Fishermen's Strike Has Been Amicably Settled.

The Trades and Labor Council met last evening in the Carpenters' Hall, President Macdonald presided.

The officers for the coming year were installed.

Organizer Thompson reported that the retail clerks of the city were now organized, with a membership of 26. Their charter would arrive in the course of a day or two and that union cards would be placed in all the stores that were favorable to the union. He also reported that the Fish Packers had organized, with a membership of 28 or 30.

The committee appointed to investigate the Oriental labor question asked for a further extension of time to complete work in hand, which was granted.

A communication was received appointing W. E. Thompson as official organizer for Prince Rupert and district for the A. F. of L.

The Legislative Committee reported that all who intended having their names placed on the municipal voters' list would have to do so in person before the 31st of October. Those allowed to vote were any who had a registered deed to property, a householder who had paid $2 road tax and any person paying a city license.

The question of the Saturday half-holiday came up for discussion. It was reported that a number of the merchants were now in favor of the half-holiday coming on another day. The clerks had chosen Saturday after the Merchants' Association had decided that it would be the better day for all concerned. After considerable discussion, the following resolution was decided upon: "That the Prince Rupert Trades and Labor Council go on record as using every legitimate means of assisting in the selection of Saturday afternoon as the recognized half-holiday, and that the matter be taken up with the different unions to receive their co-operation in support of those who are favoring the movement."

A communication was read from the B. C. Federation of Labor asking that President, J. H. McVety be endorsed as a commissioner under the Workmen's Compensation Act. A

AUSTRIA FEARFUL OF RUSSIAN MOVE

MASSING EVERY ONE AVAILABLE TO STOP ONCOMING OF CZAR'S FORCES

Conditions Becoming Desperate In The Central Empire.

London, July 25.—Austria is panic-stricken by the Russian advance on the eastern front. The frontier is closed to passengers in order to prevent men from fleeing the country.

Partially recovered invalids are being rushed from the hospitals to help stop the Russians, and the last reserves have been called up. The maximum number of men available is estimated at four hundred thousand. If Austria is defeated, her human resources will be utterly exhausted.

Conditions in Hungary are critical and crowds surround the royal palace howling for a response to the Prime Minister's address.

LLOYD GEORGE IS VERY OPTIMISTIC

HE BELIEVES A FEW MONTHS MAY DECIDE THE WAR

Has Great Faith In Resourcefulness Of British Nation.

London, July 25.—Hon. David Lloyd George, now Minister of War, is very optimistic as to the future of the war. He is satisfied that British resourcefulness will secure a victory within a very few months.

GERMAN TORPEDO BOATS MADE TO BEAT A RETREAT

London, July 25.—British ships have engaged six German torpedo destroyers off Schonwen Bank, compelling them to retreat to the Belgian coast in a damaged condition.

VALUATION TO BE PLACED ON ALL RAILWAYS

Ottawa, July 25.—The valuation of all railways in the Dominion is the first task before the Railway Investigation Commission.

Happy Party Of Young Ladies Invaded The City Last Night From East

It was a happy bevy of young ladies that reached the city last evening by the G. T. P. train from the east. The party was made up of about forty young ladies, who had come from points all the way from Boston and St. Johns, N. B., in the east to Alberta. They are ladies who have won the popular vote in different cities and under the protection of Frank Secord, of Montreal, who organized the expedition have come west. They leave this noon for Alaska, and returning will go on to Seattle and from there proceed east.

Last year Mr. Secord organized a similar excursion, and the success that attended it and the excellent service that the G. T. P. gave him and the ladies that accompanied him on that occasion prompted him to again adopt this route. Mrs. Ingraham, of Montreal, is assisting him, acting in the capacity of chaperone, and she has no easy task for they are a lively company and the married section is as lively as any of them.

All of them speak in the warmest terms of the treatment accorded them on the way west over the G. T. P. Evidently the last part of the run was not the least enjoyable, for when they reached the city they literally owned the train staff, including Conductor Moxley, Train Agent Ward, Dining Car Conductor Frappier and the Locomotive Engineer, Len Bell. At any events the utmost good feeling existed among them all, and Conductor Moxley and the other members of the train crew had won the management of the party over to the idea of allowing a dance to be given the ladies on arrival.

This was arranged as an impromptu affair and was a most enjoyable event. The Majestic Orchestra was in attendance and was warmly praised for the excellent music. Midnight was the limit set upon the dancing, when all were to be back on the train. At that hour the last dance was given, and to the strains of "God Save the King," the function ended. Three cheers were given for the girls and they returned with three cheers for Prince Rupert.

The party was made up as follows: Mrs. Sears McHenry, Denison Iowa; Abbie Anna McHenry, Denison, Iowa; Mary Sears McHenry, Denison, Iowa; Isabelle E. Pearl, Mount Sasketchewan, Alberta; Mrs. Mary Pask, Walhalla, N. D.; Margaret McHenry, Denison, Iowa; Mrs. M. A. L. Van der Gucler, Jasper, Alberta; Bertha V. Martin, Boston, Mass.; Obigail L. Fenell, Boston, Mass.; Barbara E. Wiley, Boston, Mass.; Wm. N. McHenry, Denison, Iowa.; T. H. Harvey, Logan, Iowa; H. E. Fuller, Edmonton, Alberta; Mildred M. Hall, Grand Rapids, Mich.; Mary Jane Taylor, Grand Rapids, Mich.; Hazel E. Winte, Frederickson, N.B.; G. Mildred Murray, Albert, N. B.; Sears McHenry, Denison, Iowa; C. Abraham, Moncreal Herald; Hope Young, Oshkost, Wis.; Marrion E. Allen, Grand Rapids, Mich.; C. P. Trikhan, Milwaukee, Wis.; Mrs. C. P. Trikhan, Milwaukee Wis.; Thelma E. Trinkhan, Milwaukee, Wis.; Anna Herbener, Mayville, Wis.; Frankie E. Dittmar, Milwaukee, Wis.; Esther Toot, Grand Rapids, Mich.; Genevieve Nolan, Ioma, Mich.; Jennie L. Densmore, Bellane, Mich.; Edna Emings, Evart, Mich.; Adie Haugh Amedin, N. D.; Matilda Ouverson, Canby, Minn.; Gladys Joy, Boston, Mass.; M. B. Bellamy, Boston, Mass.; Mary E. Lund, Nashwa, N. H.; Ethel Blood, Ingraham, Boston, Mass.; Verna B. Hounsell, Alexandria, Minn.; Loretta C. Denk, Detroit, Mich.

GERMANS PERTURBED BY NON-ARRIVAL OF THE BREMEN

Norfolk, Va., July 25.—The Germans here are bitterly disappointed over the non-arrival of the German submarine Bremen, the second of the big "commercial" submarines to leave the Elbe for the United States. It is feared that she has been overtaken by disaster.

The departure of the Deutschland has been delayed indefinitely.

GOOD CONSERVATIVE POLICY.

The News takes consolation out of an editorial reference of The Monetary Times, of Toronto, which based its ideas as to the North Perth results upon the crusade made by W. F. Mclean, of South York, in the Toronto World. Now there is little if any consolation to be taken out of the theories of Mr. Maclean for the Liberals. Mr. Maclean's contention which The Monetary Times seems to accept as sound, is that the nickel question in Ontario formed the basis of the defeat in North Perth. Billy Maclean, rather cruelly put it forward that Canadians had been shot down at the front with shells made from Canadian nickel. This is doubtful, but the fact remains that too long the raw material of Canada has been going to the United States to be refined or treated in other ways when it should have been kept at home and manufactured and made to build up industry on this side of the line in keeping with the good old Conservative doctrine of protection rather than free trade in natural resources, as the Liberals would have it.

Maclean condemns the Ontario Premier and the Premier of the Dominion because this exportation of nickel in the raw state was allowed. He howls that there was too strong a pull on the part of certain strong corporations in the United States in this direction, and he boldly avows that NO REDRESS COULD BE EXPECTED FROM THE LIBERALS BECAUSE OF THESE INFLUENCES BEING MORE POWERFUL WITH THE LEADERS ON THAT SIDE OF POLITICS.

The plea of The Monetary Times is therefore evidently in line with Maclean, in favor of a more pronounced type of Conservativism than the Conservative leaders are giving, but far removed from the Liberal doctrines.

FORESTRY BATTALION.

(Continued from Page One.)

the years to come.

When one considers the miles of trenches, the thousands of dug-outs which must be roofed, the bomb-proof shelters, the new railways which must be built, the props required in the mines, if England is to continue supplying the Allies with coal, one can readily appreciate the enormous quantity of timber required at the front, and from this one may see that it is well to throw out the suggestion that if any man is looking for active fighting the 238th Forestry Battalion is not the unit to join. At one time it was intended to ship the rough timber from Canada, but it was later on found impracticable, as it became necessary to save all the shipping space in the vessels sailing from Canada for the transportation of munitions and food supplies, and for this reason it was essential that some of the historic forests of England should be sacrificed.

Lieut.-Col. Smyth is now on a tour of the western provinces establishing his recruiting depots, but before he went west he left his officers in charge of stations through this Province. Recruiting depots in British Columbia have been located chiefly through the north country, where the most of the lumbermen live, but a letter dropped to Major J. H. McMullin, Captain G. B. Hull, Captain H. E. Tremayne, Prince Rupert, B. C., or to the headquarters at Ottawa, will secure any information required. Depots in Ontario are located at Renfrew, Maniwaki, Buckingham, New Liskeard, Toronto, Ottawa, Parry Sound, Windsor, Fort Colougne, Tamworth, Sault Ste. Marie, Gore Bay, Port Arthur, Pembroke, Fenelon Falls, Fort Francis and Cochrane, and the officers in charge of those stations are authorized to attest any applicants who wish to become members of this very useful unit.

Recruits are not held in British Columbia after their enlistment, but are forwarded to the headquarters camp, which is located at the famous Jockey Club Ground at Ottawa. Here the necessary instruction is given and all preparations made for an early departure to the front.

TIMBER SALE X 682.

Sealed tenders will be received by the Minister of Lands not later than noon on the 16th day of August, 1916, for the purchase of Pulp Licence X 682, to cut 3,525,000 feet of Spruce, Hemlock and Balsam, on an area situated at the Head of Noscall Lake, Coast District, Range 3.

Three (3) years will be allowed for removal of timber.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

J. R. Stirratt and J. H. Pillsbury returned last evening from a week-end fishing at Lakelse. They had splendid success. There is some disparity as to the number caught, but then it was a fishing expedition. The length of the fish is somewhat in dispute also, but evidently the streams are very straight in that part, for it would be impossible for fish such as they describe to make the curves usually in streams.

WIL MAKE INSPECTION OF THE BOY CAMPERS

Military Men And Mayor Will Visit Camp This Afternoon.

Life in the boys' camp at Tugwell is proving a grand pleasure. There are about seventy there now and they are being regularly trained.

This afternoon the Mayor is expected to visit the camp and will be accompanied by a number of officers, who will make an inspection. The party will include Major McMullin, Capt. Tremayne, Capt. Hull, Lieut. Christie and Lieut. Beatty.

LABOR MEN FAVOR.

(Continued from Page One.)

movement was on foot to have Mat Crawford, ex-Mayor of Fernie, appointed. He was being endorsed by the Locomotive Engineers of that city. The local body felt that Mr. McVety would make the better representative in the interests of labor and endorsed the request that was asked to be made to Premier Bowser and the Legislative Assembly on his behalf.

The Secretary of the Deep Sea Fishermen's Union reported that the strike, affecting members of that union for some time past, had been satisfactorily settled. The men had practically gained all the concessions they had asked for. The one point most vitally affecting the port of Prince Rupert was that the fishermen would receive settlement for their catches wherever the catches were sold.

The question of a Labor Day celebration was brought up for discussion. The following committee was appointed as a preliminary movement, they to report at the next regular meeting: Messrs. J. R. Beatty, Jones and Thompson.

NOTICE TO MARINERS.

Mariners are hereby notified that on or about the 27th instant the automatic gas buoy off Overfall Shoal, Rose Spit, Graham Islaand, will be replaced temporarily by a black can buoy, for the purpose of cleaning and recharging the above buoy, which will take about a week.

Signed, CAPTAIN SAUNDERS,

WATER NOTICE

Use and Storage

TAKE NOTICE that Granby Consolidated Mining, Smelting & Power Co., Ltd., whose address is Anyox, B. C., will apply for a license to take and use 100,000 gals. per day, and to store 2,500,000 gals. of water out of West Branch of Hidden Creek, which flows southerly and drains into Granby Bay about one half mile west of Anyox.

The storage dam will be located about two and a half miles from the mouth of Hidden Creek. The capacity of the reservoir to be created is about 2,500,000 gals., and it will flood about two acres of land. The water will be diverted from the stream at a point about 450 feet south of north line of Maypole M.C. Lot 1676, and will be used for domestic and mining purposes upon the land and mine described as Hidden Creek Mine and Mine Townsite.

This notice was posted on the ground on the 15th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Parsonage 632 Sixth Ave. W. Church, Sixth Ave. & Musgrav Place

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C.. Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.
